BT Group plc (BT.L) today announced its results for the fourth quarter and year to 31 March 2016.

- adjusted <sup>1</sup>	1,145	11%	3,473	9%
- reported	893	6%	3,029	15%
Earnings per share				
- adjusted <sup>1</sup>	10.2p	2%	33.2p	5%
- reported	8.0p	(5)%	29.9p	13%
Full year proposed dividend			14.0p	13%
Normalised free cash flow <sup>3</sup>	1,519	£252m	3,098	£268m
Net debt			9,845	£4,726m

Gavin Patterson, Chief Executive, commenting on the results, said:

"This has been a landmark year for BT. We've completed our acquisition of EE, the UK's best 4G mobile network provider, we've passed more than 25m premises with fibre and we've also delivered a strong financial performance. We've met our outlook with our main revenue<sup>4</sup> measure up 2.0%, the best performance for more than seven years. Our profit before tax<sup>1</sup> was up a healthy 9%.

"Customers want to be online wherever they are and we will be there for them. Our multi-billion pound investment plans will see both fibre and 4G reach 95% of the UK and we won't stop there. The UK is a digital leader and our investment in ultrafast broadband will help it stay ahead.

"The integration of EE is going well and we now see the opportunity to deliver more synergies than we originally expected, and at a lower cost. And we're reorganising our business to better serve customers both in the UK and internationally.

"We've invested across the business and are seeing good results. Our BT Sport audiences are up 45 per cent this year following the launch of UEFA Champions League and UEFA Europa League content. BT Mobile has done well since its launch, building a customer base of over 400,000. And in the business market, we've seen very strong demand for our cyber security expertise with our security business growing by 24%.

"Customers are benefiting from our investments but we plan to do more when it comes to service, to meet customers' rising expectations. That's why Openreach is tackling missed appointments, why BT Consumer will be upgrading service levels to next day repair and why we've hired 900 engineers. We've also recruited more than 900 extra contact centre staff. This will enable us to return EE and BT Consumer contact centre work to the UK.

"Our strong overall performance for the year is reflected in our full year dividend, which is up 13%. Our results and the investments we're making position us well to continue to grow in the coming years. In light of our confidence we are setting out financial and dividend guidance for the next two years."

Performance against 2015/16 outlook:

In February we reaffirmed our EBITDA and free cash flow outlook and clarified that we expected underlying revenue excluding transit to grow by 1% to 2%. This outlook excluded the impact of acquiring EE and we have set out below how we performed on this basis.

Edgar Filing: BT GROUP PLC - Form 6-K

	outlook	2015/16 performance
Change in underlying revenue <sup>1</sup> excluding transit <sup>6</sup>	Up 1% - 2%	Up 2%
EBITDA <sup>3, 6</sup>	Modest growth	Up 1%
Normalised free cash flow <sup>5, 6</sup>	c.£2.8bn	£2,837m
Dividend per share	Up 10% - 15%	Up 13%
Share buyback	c.£300m	£315m

Outlook:

Our outlook for 2016/17 and 2017/18 is as follows:

	2016/17	2017/18
Change in underlying revenue <sup>1</sup> excluding transit <sup>7</sup>	Growth	Growth
EBITDA <sup>3</sup>	c.£7.9bn	Growth
Normalised free cash flow <sup>5</sup>	£3.1bn - £3.2bn	>£3.6bn
Dividend per share	≥10% growth	≥10% growth

Our 2016/17 outlook assumes a net investment of around £100m against EBITDA and normalised free cash flow from launching handset offerings to BT Mobile customers.

Also included in the above normalised free cash flow outlook, we expect around £100m of EE integration capital expenditure in each of 2016/17 and 2017/18. We also expect capital expenditure of up to £300m in 2016/17 and around £100m in 2017/18 relating to the Emergency Services Network contract won by EE in December 2015.

Notes:

1. Our commentary focuses on the trading results on an adjusted basis, which is a non-GAAP measure, being before specific items. Unless otherwise stated, revenue, operating costs, earnings before interest, tax, depreciation and

amortisation (EBITDA), operating profit, profit before tax, net finance expense, earnings per share (EPS) and normalised free cash flow are measured before specific items. This is consistent with the way that financial performance is measured by management and reported to the Board and the Operating Committee and assists in providing a meaningful analysis of the trading results of the group. The directors believe that presentation of the group's results in this way is relevant to the understanding of the group's financial performance as specific items are those that in management's judgement need to be disclosed by virtue of their size, nature or incidence. In determining whether an event or transaction is specific, management considers quantitative as well as qualitative factors such as the frequency or predictability of occurrence. Specific items may not be comparable with similarly titled measures used by other companies. Reported revenue, reported operating costs, reported EBITDA, reported operating profit, reported profit before tax, reported net finance expense, reported EPS and reported free cash flow are the equivalent unadjusted or statutory measures. Reconciliations of reported to adjusted revenue, operating costs and operating profit are set out in the Group income statement. Specific items are set out in Note 4. Reconciliations of EBITDA, adjusted profit before tax and adjusted EPS to the nearest measures prepared in accordance with IFRS are provided in Notes 8, 9 and 10 respectively.

2. Trends in underlying revenue, trends in underlying operating costs, and underlying EBITDA are non-GAAP measures which seek to reflect the underlying performance of the group that will contribute to long-term sustainable growth and as such exclude the impact of acquisitions and disposals, foreign exchange movements and any specific items. We focus on the trends in underlying revenue and underlying operating costs excluding transit as transit traffic is low-margin and is affected by reductions in mobile termination rates. Given the significance of the EE acquisition to the group, in 2016/17 we will calculate underlying revenue excluding transit as though EE had been part of the group from 1 April 2015. This is different from how we usually adjust for acquisitions, and is the basis for our 2016/17 outlook.
