5,910,800 Shares

Common Stock

The shares of common stock are being sold by the selling stockholders. We will not receive any of the proceeds from the shares of common stock sold by the selling stockholders.

Our common stock is listed on the New York Stock Exchange under the symbol PCR. The last reported sale price on April 12, 2004, was \$15.39 per share.

The underwriters have an option to purchase a maximum of 886,620 additional shares to cover over-allotments of shares.

Investing in our common stock involves risks. See Risk Factors on page 7.

	Price to Public	Underwriting Discounts and Commissions	Proceeds to Selling Stockholders
Per Share	\$15.00	\$0.825	\$14.175
Total	\$ 88,662,000	\$ 4,876,410	\$ 83,785,590

Delivery of the shares of common stock will be made on or about April 16, 2004.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

PROSPECTUS SUMMARY

The following summary contains information about our business and the offering of our common stock. It does not contain all of the information that you need to consider in making an investment decision. You should read this entire prospectus carefully, including the information under Risk Factors and our consolidated financial statements and the related notes included elsewhere in this prospectus. In this prospectus, unless the context requires otherwise, Perini, we, us and our refer to Perini Corporation, a Massachusetts corporation, and our subsidiaries, including the operations of businesses we acquired prior to the date of acquisition, and not to the underwriters.

Our Company

We are a leading construction services company, based on revenues, as ranked by Engineering News-Record, offering diversified general contracting, construction management and design-build services to private clients and public agencies throughout the world. We have provided construction services since 1894 and have established a strong reputation within our markets by executing large, complex projects on time and within budget while adhering to strict quality control measures. We offer general contracting, preconstruction planning and comprehensive project management services, including the planning and scheduling of the manpower, equipment, materials and subcontractors required for a project. We also offer self-performed construction services including site work, concrete forming and placement and steel erection. During the year ended December 31, 2003, we performed work on over 100 construction projects for over 75 federal, state and local government agencies or authorities and private customers. Our headquarters are in Framingham, Massachusetts, and we have seven other principal offices throughout the United States. As of December 31, 2003, we employed approximately 1,725 people. Our common stock is currently listed on the New York Stock Exchange under the symbol PCR.

Our business is now conducted through three primary segments: building, civil, and management services. Our building segment is comprised of Perini Building Company and James A. Cummings, Inc., or Cummings, and focuses on large, complex projects in the hospitality and gaming, sports and entertainment, educational, transportation and healthcare markets. Our civil segment is involved in public works construction primarily in the northeastern United States, including the repair, replacement and reconstruction of the United States public infrastructure such as highways, bridges and mass transit systems. Our management services segment provides diversified construction, design-build and maintenance services to the U.S. military and government agencies as well as power producers, surety companies and multi-national corporations.

For the year ended December 31, 2003, our revenues were \$1,374.1 million and income before income taxes was \$30.9 million, which represents a 26.6% and 29.5% increase, respectively, over the same period in 2002. Our backlog was \$1,666.5 million as of December 31, 2003, an increase of 68.3% from \$990 million at the end of 2002.

Table of Contents

The following chart presents our revenues by segment for the year ended December 31, 2003 and our backlog by segment as of December 31, 2003 (in millions):

Revenue by Segment	Backlog by Segment
(Year Ended 12/31/03)	(As of 12/31/03)

Our Strengths

We believe our competitive position is augmented by the following principal competitive strengths:

Market Leadership in Several High-Growth Building End Markets. Our significant experience, strong relationships, market leadership, design-build expertise and presence in certain key areas throughout the United States allow us to successfully compete for projects in certain end markets such as hospitality and gaming.

Extensive Experience in Complex Civil Construction. For over 100 years, we have provided specialized civil construction services, with an emphasis on large, complex projects in dense urban areas.

Responsiveness and Performance with Challenging Projects. Our clients often rely on us to respond rapidly to complete projects in challenging business or operating environments throughout the world.

Long-Term Relationships and Operating History with Clients. We maintain strong, long-term relationships with many of our clients.

Focus on Managing Contract and Project Risk. Our extensive experience and history in our markets provide us with an understanding of the risks associated with certain projects.

Experienced Management Team and Highly Skilled Workforce. Our senior management team and workforce bring significant industry work experience and specialized project expertise to our project execution capabilities.

Our Strategy

We will seek to increase shareholder value by pursuing the following growth strategies:

Leverage Leadership Position in Hospitality and Gaming Market. We intend to leverage our leadership position in this market by emphasizing our experience and our proven ability to complete challenging projects on accelerated schedules.

Edgar Filing: PERINI CORP - Form 424B1

Extend Building Construction Expertise to Additional Markets. As we expand our market presence within particular project types or geographic areas, we will seek opportunities to cross-utilize our building construction expertise.

Table of Contents

Pursue Expanding Federal Contracting Opportunities for Defense, Reconstruction and Security. We have well established relationships with U.S. government agencies that include, among others, the Departments of Defense and State. We will continue to pursue construction and support projects at various domestic and overseas locations such as military bases, military installations and U.S. embassies.

Seek Complex Civil Construction Projects in the Northeast. We intend to maintain and build upon our established position as a leading civil construction contractor in the northeastern United States. As one of a limited number of firms that has the ability to consistently pre-qualify for major projects, we will selectively focus on large, complex projects where our competitive advantages can be leveraged.

Focus on Margin Expansion Opportunities. We will actively seek to expand our profit margins by managing our business mix, targeting high value-added projects and continuously evaluating our corporate support and field operations cost structures.

Pursue Selected Strategic Acquisitions. We intend to supplement our internal growth and achieve strategic benefits by pursuing selected acquisitions.

We are a Massachusetts corporation. Our principal office is located at 73 Mt. Wayte Avenue, Framingham, Massachusetts 01701 and our telephone number is (508) 628-2000.

Risk Factors

You should carefully consider the matters discussed in the Risk Factors section beginning on page 7 of this prospectus prior to deciding whether to invest in shares of our common stock. Some of the risks include:

Our contracts require us to perform extra or change order work, which can result in disputes and adversely affect our working capital, profits and cash flows;

Increased regulation of the hospitality and gaming industry could reduce the number of future hospitality and gaming projects available, which, in turn, could adversely impact our future earnings;

A decrease in government funding of infrastructure projects could reduce revenues within our civil construction business segment;

If we are unable to attract and retain key personnel, our reputation may be harmed and our future earnings may be negatively impacted; and

Our acquisition strategy involves a number of risks, which could adversely impact our future revenues and the revenues of the businesses that we acquire.

Table of Contents

The Offering

Common stock offered by the selling stockholders (1)	5,910,800 shares
Common stock outstanding before and after this offering	23,043,335 shares
Dividend policy	We have not paid any cash dividends on our common stock since 1990 and currently do not expect to pay dividends or make any other distributions on such stock in the immediate future.
Use of proceeds	We will not receive any proceeds from the sale of common stock by the selling stockholders.
New York Stock Exchange Symbol	PCR

(1) Assumes no exercise by the underwriters of their option to purchase up to 886,620 additional shares from the selling stockholders to cover over-allotments.

All of the shares offered by this prospectus are being offered by the selling stockholders.

The number of shares of common stock outstanding before and after this offering is based on the number of shares outstanding as of February 23, 2004 and excludes:

2,848,000 shares of common stock reserved for issuance upon the exercise of outstanding stock options at a weighted average exercise price per share of \$4.99;

195,634 shares of common stock reserved for future awards under our Special Equity Incentive Plan;

370,239 shares of common stock reserved for issuance upon conversion of our \$21.25 Preferred Stock at a conversion price of \$377.50 per share (or \$37.75 per Depositary Share); and

420,000 shares of common stock reserved for issuance upon exercise of outstanding warrants at an exercise price per share of \$8.30, subject to anti-dilution adjustment in the event of certain transactions and other corporate events.

As of February 23, 2004 the selling stockholders held approximately 52% of our outstanding common stock. After giving effect to this offering and assuming the full exercise of the underwriters' option to purchase 886,620 additional shares, the selling stockholders will own approximately 22% of our outstanding common stock.

Unless otherwise indicated, the information in this prospectus assumes that the underwriters will not exercise the over-allotment option granted to them by the selling stockholders.

Table of Contents**Summary Consolidated Financial Data**

The following summary consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and Selected Historical Financial Data and our consolidated financial statements and related notes included elsewhere in this prospectus. The summary consolidated financial data for the years ended December 31, 2003, 2002 and 2001, and as of December 31, 2003 and 2002, are derived from our audited consolidated financial statements included elsewhere in this prospectus. The summary consolidated financial data for the years ended December 31, 2000 and 1999 and as of December 31, 2001, 2000 and 1999 are derived from our audited financial statements not included in this prospectus. Backlog and new business awarded are not measures defined in generally accepted accounting principles and have not been derived from our consolidated financial statements. The historical results are not necessarily indicative of our future results of operations or financial performance.

New Business Awarded (3)	2,050,392	861,681	978,200	1,236,314	1,445,305

- (1) Income available for common stockholders includes adjustments to net income for (a) accrued and unpaid dividends on our \$21.25 Preferred Stock, or \$2.125 Depository Shares, (b) the reversal of previously accrued and unpaid dividends in the amount of approximately \$7.3 million applicable to 440,627 of the \$2.125 Depository Shares purchased and retired by us on June 9, 2003, (c) dividends declared and paid on our Series B Preferred Stock until its exchange for shares of common stock on March 29, 2000 and (d) the \$13.7 million assigned to the induced conversion of the Series B Preferred Stock into common stock on March 29, 2000.
- (2) A construction project is included in our backlog at such time as a contract is awarded or a firm letter of commitment is obtained and funding is in place. Backlog is not a measure defined in generally accepted accounting principles, or GAAP, and our backlog may not be comparable to the backlog of other companies. Management uses backlog to assist in forecasting future results.
- (3) New business awarded consists of the original contract price of projects added to our backlog in accordance with Note (2) above plus or minus subsequent changes to the estimated total contract price of existing contracts. Management uses new business awarded to assist in forecasting future results.

Table of Contents

RISK FACTORS

You should carefully consider the following risks and all other information contained in this prospectus before purchasing our common stock. If any of the following risks occur, our business, prospects, reputation, results of operations or financial condition could be harmed. In that case, the trading price of our common stock could decline, and you could lose all or part of your investment. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of specific factors, including the risks described below and elsewhere in this prospectus.

Risks Relating to Our Business

We are subject to significant legal proceedings, which, if determined adversely to us, could harm our reputation, preclude us from bidding on future projects and/or have a material adverse effect on us.

We are involved in various lawsuits, including the legal proceedings described under Business Legal Proceedings. Some of these proceedings involve claims and judgments against us for significant amounts. For example, the litigation with the Los Angeles MTA has resulted in an award against the Tutor-Saliba-Perini joint venture (a joint venture in which we have a 40% interest), Tutor-Saliba and us, jointly and severally, for \$63.0 million plus accrued interest. This award is currently being appealed by the joint venture. We do not believe that this or any other pending litigation will ultimately result in a final judgment against us that would materially adversely affect us. Litigation is, however, inherently uncertain and it is not possible to predict what the final outcome will be of any legal proceeding. A final judgment against us would require us to record the related liability and fund the payment of the judgment and, if such adverse judgment is significant, it could have a material adverse effect on us.

In addition, legal proceedings resulting in judgments or findings against us may harm our reputation and prospects for future contract awards. For example, we are defendants in a civil action brought by the San Francisco City Attorney on behalf of the City and County of San Francisco and the citizens of California, in which it is alleged, among other things, that we violated various bidding practices and minority contracting regulations and committed acts of fraud. If a final judgment is determined adversely to us, it may harm our reputation among other municipalities, which could preclude us from being qualified to bid on future municipal projects.

Our contracts require us to perform extra or change order work, which can result in disputes and adversely affect our working capital, profits and cash flows.

Our contracts generally require us to perform extra or change order work as directed by the client even if the client has not agreed in advance on the scope or price of the work to be performed. This process may result in disputes over whether the work performed is beyond the scope of the work included in the original project plans and specifications or, if the client agrees that the work performed qualifies as extra work, the price the client is willing to pay for the extra work. Even when the client agrees to pay for the extra work, we may be required to fund the cost of such work for a lengthy period of time until the change order is approved and funded by the client.

Also, these unapproved change orders, contract disputes or claims result in costs being incurred by us that cannot be billed currently and therefore, are reflected as unbilled work in our balance sheet. See Note 1(d) of Notes to Consolidated Financial Statements. To the extent actual recoveries with respect to unapproved change orders, contract disputes or claims are lower than our estimates, the amount of any shortfall will

Edgar Filing: PERINI CORP - Form 424B1

reduce our revenues and the amount of unbilled work recorded on our balance sheet, and could have a material adverse effect on our working capital, results of operations and cash flows. In addition, any delay caused by the extra work may adversely impact the timely scheduling of other project work and our ability to meet specified contract

Table of Contents

milestone dates. For example, we are currently, along with our joint venture partners, pursuing a series of claims for additional contract time and compensation against the Massachusetts Highway Department for work performed by the joint venture on a portion of the Central Artery/Tunnel project in Boston, Massachusetts. During construction, the Massachusetts Highway Department ordered the joint venture to perform changes to the work and issued related direct cost changes with an estimated value, excluding time delay and inefficiency costs, in excess of \$100 million. In addition, we encountered a number of unforeseen conditions during construction that greatly increased our cost of performance. See Business Legal Proceedings.

Economic, political and other risks associated with our international operations involve risks not faced by our domestic competitors, which could adversely affect our revenue and earnings.

Approximately 18% of our revenues for the year ended December 31, 2003 were derived from our work on projects located outside of the United States. We expect non-U.S. projects to continue to contribute to our revenue and earnings for the foreseeable future. Our international operations expose us to risks inherent in doing business outside the United States, including:

political risks, including risks of loss due to civil disturbances, acts of terrorism, acts of war, guerilla activities and insurrection;

unstable economic, financial and market conditions;

potential incompatibility with foreign joint venture partners;

foreign currency controls and fluctuations;

trade restrictions;

increases in taxes; and

changes in labor conditions, labor strikes and difficulties in staffing and managing international operations.

Any of these factors could harm our international operations and, consequently, our business and consolidated operating results. Specifically, failure to successfully manage international growth could result in higher operating costs than anticipated or could delay or preclude altogether our ability to generate revenues in key international markets.

A decrease in U.S. government funding or change in government plans, particularly with respect to rebuilding Iraq and Afghanistan, as well as the risks associated with undertaking projects in these countries, could adversely affect the continuation of existing projects or the number of projects available to us in the future.

Edgar Filing: PERINI CORP - Form 424B1

We recently performed design-build security upgrades at United States embassies and consulates throughout the world, and we are currently engaged in significant building and infrastructure re-construction activities in Iraq and Afghanistan. The United States federal government has recently approved a spending bill for the reconstruction and defense of Iraq and has allocated significant funds to the defense of United States interests around the world from the threat of terrorism. A decrease in government funding of these projects or a decision by the federal government to reduce or eliminate the use of outside contractors to perform this work would decrease the number of projects available to us and limit our ability to obtain new contracts in this area.

In addition, our projects in Iraq, Afghanistan and other areas of political and economic instability carry with them specific security and operational risks. Intentional or unintentional acts in those countries could result in damage to our construction sites or harm to our employees and could result in our decision to withdraw our operations from the area. Also, as a result of these acts, the federal government could decide to cancel or suspend our operations in these areas.

Table of Contents

Increased regulation of the hospitality and gaming industry could reduce the number of future hospitality and gaming projects available, which, in turn, could adversely impact our future earnings.

The hospitality and gaming industry is regulated extensively by federal and state regulatory bodies, including state gaming commissions, the National Indian Gaming Commission and state and federal taxing and law enforcement agencies. From time to time, legislation is proposed in the legislatures of some of these jurisdictions that, if enacted, could adversely affect the tax, regulatory, operational or other aspects of the hospitality and gaming industry. Legislation of this type may be enacted in the future. The federal government has also previously considered a federal tax on casino revenues and may consider such a tax in the future. In addition, companies that operate in the hospitality and gaming industry are currently subject to significant state and local taxes and fees in addition to normal federal and state corporate income taxes, and such taxes and fees are subject to increase at any time. For example, a new tax law enacted in Nevada on July 22, 2003 increased the taxes applicable to Nevada gaming operations. Similar legislation or new hospitality and gaming regulations could deter future hospitality and gaming construction projects in jurisdictions in which we derive significant revenue. As a result, the enactment of such legislation or regulations could adversely impact our future earnings.

A decrease in government funding of infrastructure projects could reduce revenues within our civil construction business segment.

Our civil construction markets are dependent on the amount of infrastructure work funded by various governmental agencies which, in turn, depends on the condition of the existing infrastructure, the need for new or expanded infrastructure and federal, state or local government spending levels. A decrease in government funding of infrastructure projects could decrease the number of civil construction projects available and limit our ability to obtain new contracts, which could reduce revenues within our civil construction segment.

If we are unable to accurately estimate the overall risks, revenues or costs on a contract, we may achieve a lower than anticipated profit or incur a loss on the contract.

We generally enter into four principal types of contracts with our clients: fixed price contracts, cost plus award fee contracts, guaranteed maximum price contracts, and, to a lesser extent, construction management, or design-build, contracts. A significant portion of our revenues and backlog are derived from fixed price contracts. For example, approximately 18% of our revenues for the year ended December 31, 2003 were derived from fixed price contracts. Fixed price contracts require us to perform the contract for a fixed price irrespective of our actual costs. As a result, we realize a profit on these contracts only if we successfully control our costs and avoid cost overruns. Cost plus award fee contracts provide for reimbursement of the costs required to complete a project, but generally have a lower base fee and an incentive fee based on cost and/or schedule performance. If our costs exceed the revenues available under such a contract or are not allowable under the provisions of the contract, we may not receive reimbursement for these costs. Guaranteed maximum price contracts provide for a cost plus fee arrangement up to a maximum agreed-upon price. These contracts also place the risk on us for cost overruns that exceed the guaranteed maximum price. Construction management and design-build contracts are those under which we agree to manage a project for the client for an agreed upon fee, which may be fixed or may vary based upon negotiated factors. Profitability on these types of contracts is driven by changes in the scope of work or design issues, which could cause cost overruns beyond our control and limit profits on these contracts.

Cost overruns, whether due to inefficiency, faulty estimates or other factors, result in lower profit or a loss on a project. A significant number of our contracts are based in part on cost estimates that are subject to a number of assumptions. If our estimates of the overall risks, revenues or costs prove inaccurate or circumstances change, then we may incur a lower profit or a loss on the contract.

The percentage-of-completion method of accounting for contract revenue may result in material adjustments, which could result in a charge against our earnings.

We recognize contract revenue using the percentage-of-completion method. Under this method, estimated contract revenue is recognized by applying the percentage of completion of the project for the period to the total

Table of Contents

estimated revenue for the contract. Estimated contract losses are recognized in full when determined. Contract revenue and total cost estimates are reviewed and revised at a minimum on a quarterly basis as the work progresses and as change orders are approved, and adjustments based upon the percentage of completion are reflected in contract revenue in the period when these estimates are revised. To the extent that these adjustments result in an increase, a reduction or an elimination of previously reported contract profit, we recognize a credit or a charge against current earnings, which could be material.

We are subject to a number of risks as a government contractor, which could harm our reputation, result in fines or penalties against us and/or adversely impact our financial condition.

We are a major provider of services to government agencies and therefore are exposed to risks associated with government contracting. For example, we must comply with and are affected by laws and regulations relating to the formation, administration and performance of government contracts, such as the Federal Acquisition Regulation, the Cost Accounting Standards and Department of Defense security regulations. A violation of these laws or regulations could require us to pay fines and penalties, result in the termination of existing contracts or result in our being suspended from future government contracts. If a government agency determines that we or a subcontractor engaged in improper conduct, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, suspension of payments, fines and suspension or prohibition from doing business with the government, any of which could impact our future earnings or harm our reputation.

Government clients generally can terminate or modify their contract with us at their convenience and some government contracts must be renewed annually. If a government client terminates or fails to renew a contract, our backlog may be reduced. If a government client terminates a contract due to our unsatisfactory performance, it could result in liability to us and harm our ability to compete for future contracts.

We have been, are and will be in the future, the subject of audits and cost reviews by contracting agencies, such as the United States Defense Contract Audit Agency, or the DCAA. These agencies review a contractor's performance and may disallow costs if the agency determines that we accounted for such costs in a manner inconsistent with Cost Accounting Standards or other regulatory and contractual requirements. Therefore, a negative audit could result in a substantial adverse adjustment to our revenues and costs, harm our reputation and result in civil and criminal penalties.

Our participation in construction joint ventures exposes us to liability and/or reputational harm for failures of our partners.

We sometimes enter into joint venture arrangements with outside partners on a joint and several basis so that we can jointly bid on and execute a particular project and reduce our financial or operational risk with respect to such projects. Success on these joint projects depends in large part on whether our joint venture partners satisfy their contractual obligations. If a joint venture partner fails to perform or is financially unable to bear its portion of required capital contributions, we could be required to make additional investments and provide additional services in order to make up for our partner's shortfall. Further, if we are unable to adequately address our partner's performance issues, the client may terminate the project, which could result in legal liability to us, harm our reputation and reduce profit on a project.

Our pension plan is underfunded and we may be required to make significant future contributions to the plan.

Edgar Filing: PERINI CORP - Form 424B1

Our defined benefit pension plan is a non-contributory pension plan covering substantially all of our employees. As of December 31, 2003, our pension plan was underfunded by approximately \$37.2 million. We are required to make cash contributions to our pension plan to the extent necessary to comply with minimum funding requirements imposed by employee benefit and tax laws. The amount of any such required contributions

Table of Contents

is determined based on an annual actuarial valuation of the plan as performed by the plan's actuaries. During 2003, we contributed \$3.0 million in cash to our defined benefit pension plan. The amount of future contributions will depend upon asset returns, then-current discount rates and a number of other factors, and, as a result, the amount we may elect or be required to contribute to our pension plan in the future may increase significantly. See Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Defined Benefit Retirement Plan.

The construction services industry is highly schedule driven, and our failure to meet schedule requirements of our contracts could adversely affect our reputation and/or expose us to financial liability.

Many of our contracts are subject to specific completion schedule requirements with liquidated damages charged to us in the event the construction schedules are not achieved. Failure to meet any such schedule requirements could cause us to suffer damage to our reputation within our industry and client base, as well as pay significant liquidated damages.

Procurement of new project awards is very competitive and our failure to compete effectively could reduce our market share and profits.

New project awards are often determined through either a competitive bid basis or a negotiated basis. Bids or negotiated contracts with public or private owners are generally awarded based upon price, but many times other factors, such as shorter project schedules or prior experience with the owner, result in the award of the contract. Within our industry, we compete with many national, regional and local construction firms. Some of these competitors have achieved greater market penetration than we have in the markets in which we compete, and some have greater financial and other resources than we do. As a result, we may need to accept lower contract margins or more fixed price or unit price contracts in order for us to compete against competitors that have the ability to accept awards at lower prices or have a pre-existing relationship with the owner. If we are unable to compete successfully in such markets, our relative market share and profits could be reduced.

Economic downturns could reduce the level of consumer spending within the hospitality and gaming industry, which could adversely affect demand for our services.

Consumer spending in the hospitality and gaming industry is discretionary and may decline during economic downturns, when consumers have less disposable income. Even an uncertain economic outlook may adversely affect consumer spending in hospitality and gaming operations, as consumers may spend less in anticipation of a potential economic downturn. Decreased spending in the hospitality and gaming market could deter new projects within the industry and the expansion or renovation of existing hospitality and gaming facilities, which could impact our revenues and earnings.

An inability to obtain bonding could limit the number of projects we are able to pursue.

As is customary in the construction business, we often are required to provide surety bonds to secure our performance under construction contracts. Our ability to obtain surety bonds primarily depends upon our capitalization, working capital, past performance, management expertise and certain external factors, including the overall capacity of the surety market. Surety companies consider such factors in relationship to the amount of our backlog and their underwriting standards, which may change from time to time. Since 2001, the surety industry has undergone significant changes with several companies withdrawing completely from the industry or significantly reducing their bonding

Edgar Filing: PERINI CORP - Form 424B1

commitment. In addition, certain re-insurers of surety risk have limited their participation in this market. Therefore, we may be unable to obtain surety bonds, which could adversely affect our results of operations and revenues.

Conflicts of interest may arise with respect to our Chairman and Chief Executive Officer.

Ronald N. Tutor, our chief executive officer and chairman of our Board of Directors, is the sole shareholder and chief executive officer of Tutor-Saliba Corporation, or Tutor-Saliba, a California corporation that beneficially

Table of Contents

owns approximately 27% of our common stock. Mr. Tutor also devotes a substantial amount of time to the business activities of Tutor-Saliba. Tutor-Saliba is engaged in the construction industry, and, as described under Certain Transactions, we have participated in joint ventures with Tutor-Saliba and expect to continue to do so. Although our joint ventures with Tutor-Saliba are discussed with our Audit Committee, transactions we enter into with Tutor-Saliba could be influenced by Mr. Tutor. As in any joint venture, we could have disagreements with Tutor-Saliba over the operation of the joint ventures or the joint ventures could be involved in disputes with third parties, such as the litigation described under Business Legal Proceedings, where we may or may not have an identity of interest with Tutor-Saliba. When such situations arise, we may feel constrained in aggressively pursuing all options available to us because of Mr. Tutor's importance to us as our Chief Executive Officer and Chairman and a significant shareholder. If we face such a situation and elect to pursue options against Tutor-Saliba, it is possible that Mr. Tutor or we could terminate his management relationship with us, which could harm our reputation and impact our ability to procure future projects.

We could incur significant costs as a result of liability under environmental laws.

Our operations are subject to environmental laws and regulations governing among other things, the discharge of pollutants to air and water, the handling, storage and disposal of solid or hazardous materials or wastes and the remediation of contamination, sometimes associated with leaks or releases of hazardous substances. For example, we own, lease, or have used, in our construction, real estate and environmental remediation operations property upon which solid or hazardous wastes may have been disposed of or released. Any release of such materials or wastes by us or by third parties who operated on these properties may result in liability for investigation or remediation costs. In addition, violations of these environmental laws and regulations could subject us and our management to fines, civil and criminal penalties, cleanup costs and third party property damage or personal injury claims.

Various federal, state and local environmental laws and regulations may impose liability for the entire cost of investigation and clean-up of hazardous or toxic substances. These laws may impose liability without regard to ownership at the time of the contamination or whether or not we caused the presence of contaminants.

If we are unable to attract and retain key personnel, our reputation may be harmed and our future earnings may be negatively impacted.

Our business substantially depends on the continued service of key members of our management, particularly Ronald N. Tutor, Robert Band, Craig W. Shaw, Zohrab B. Marashlian and Michael E. Ciskey who, collectively, have an average of 29 years in the construction industry and 23 years with us. The loss of the services of any of our key senior management could have a material adverse effect on us. Our future success will also depend on our ability to attract and retain highly skilled personnel, such as engineering, project management and senior management professionals. Competition for these employees is intense, and we could experience difficulty from time to time in hiring and retaining the personnel necessary to support our business. If we do not succeed in retaining our current employees and attracting new high quality employees, our reputation may be harmed and our future earnings may be negatively impacted.

Work stoppages and other labor problems could adversely affect portions of our business, financial position, results of operations and cash flows.

We are a signatory to numerous local and regional collective bargaining agreements, both directly and through trade associations. Future agreements reached in collective bargaining could increase our operating expenses and reduce our profits as a result of increased wages and benefits. If the industry were unable to negotiate with any of the unions, it could result in strikes, work stoppages or increased operating costs as

Edgar Filing: PERINI CORP - Form 424B1

a result of higher than anticipated wages or benefits. If the unionized workers engage in a strike or other work stoppage, or other employees become unionized, we could experience a disruption of our operations and higher ongoing labor costs, which could adversely affect portions of our business, financial position, results of operations and cash flows.

Table of Contents

We are subject to restrictive covenants under our credit facility that could limit our flexibility in managing the business.

Our credit facility imposes operating and financial restrictions on us. These restrictions include, among other things, limitations on our ability to:

create liens or other encumbrances;

enter into certain types of transactions with our affiliates;

make certain capital expenditures;

make investments, loans or other guarantees;

sell or otherwise dispose of a portion of our assets; or

merge or consolidate with another entity.

In addition, our credit facility prohibits us from incurring any debt, other than debt incurred for financing our corporate headquarters, insurance premiums and construction equipment, from other sources without the consent of our lenders. The amount available to us under our credit facility at December 31, 2003 was \$67.2 million.

Our credit facility contains financial covenants that require us to maintain specified working capital, tangible net worth and operating profit levels. Our credit facility also requires us to comply with a minimum interest coverage ratio. Our ability to borrow funds for any purpose will depend on our satisfying these tests. If we are unable to meet the terms of the financial covenants or fail to comply with any of the other restrictions contained in our credit facility, an event of default could occur. An event of default, if not waived by our lenders, could result in the acceleration of any outstanding indebtedness, causing such debt to become immediately due and payable. If such an acceleration occurs, we may not be able to repay such indebtedness on a timely basis. As our credit facility is secured by substantially all of our assets, acceleration of this debt could result in foreclosure of those assets. In the event of a foreclosure, we would be unable to conduct our business and may be forced to discontinue ongoing operations.

We may have difficulty raising needed capital in the future, which could limit our available working capital and our ability to make acquisitions or future investments.

We may require additional financing in order to make future investments, make acquisitions or provide needed additional working capital. Our ability to arrange such financing in the future will depend in part upon prevailing capital market conditions, as well as conditions in our business and our operating results; such factors may impact our efforts to arrange additional financing on terms satisfactory to us. We have pledged substantially all of our assets as collateral in connection with our credit facility. As a result, we may have difficulty obtaining additional financing in the future if such financing requires us to pledge our assets as collateral. Also, under our credit facility, we must obtain the consent of our lenders to incur any amount of additional debt from other sources. If additional financing is obtained by the issuance of additional shares of common stock, control of Perini may change and stockholders may suffer dilution. If adequate funds are not available, or are not available on

acceptable terms, we may not be able to make future investments, take advantage of acquisition or other opportunities, or otherwise respond to competitive challenges.

Timing of the award and performance of new contracts could have an adverse effect on our operating results.

At any point in time, a substantial portion of our revenues is directly or indirectly derived from a limited number of large construction projects. It is generally very difficult to predict whether and when we will receive such awards as these contracts frequently involve a lengthy and complex bidding and selection process which is affected by a number of factors, such as market conditions, financing arrangements and governmental approvals. Because a significant portion of our revenue is generated from large projects, our results of operations and cash flows can fluctuate from quarter to quarter depending on the timing of our new contract awards.

Table of Contents

In addition, timing of the revenues, earnings and cash flows from our projects can be delayed by a number of factors, including weather conditions, delays in receiving material and equipment from vendors and changes in the scope of work to be performed. Such delays, if they occur, could have an adverse effect on our operating results for a particular period.

We may not be able to fully realize the revenue value reported in our backlog.

As of December 31, 2003, our backlog was approximately \$1,666.5 million. We include a construction project in our backlog at such time as a contract is awarded or a firm letter of commitment is obtained and funding is in place. The revenue projected in our backlog may not be realized or, if realized, may not result in profits. For example, if a project reflected in our backlog is terminated, suspended or reduced in scope, it would result in a reduction to our backlog which would reduce, potentially to a material extent, the revenue and profit we actually receive from contracts in backlog. If a client cancels a project, we may be reimbursed for certain costs but typically have no contractual right to the total revenues reflected in our backlog. Significant cancellations or delays of projects in our backlog could have a material adverse effect on our revenues and profits.

We have not paid dividends on our \$21.25 Preferred Stock in several years and are currently in litigation with certain of our preferred stockholders.

Under the terms of our \$21.25 Preferred Stock, the holders of shares of our \$21.25 Preferred Stock are entitled to receive an annual cash dividend of \$21.25 per share when and as declared by the Board of Directors out of funds legally available for such purposes. We have not paid dividends on our \$21.25 Preferred Stock since 1995, though they have been fully accrued due to the cumulative feature of the \$21.25 Preferred Stock. The holders of our \$21.25 Preferred Stock have the right to elect two directors to our board in the event that dividends are in arrears for at least six quarters, and they have done so at each of our last six annual meetings of stockholders. We are currently in litigation with certain holders of our \$21.25 Preferred Stock. See Management's Discussion and Analysis of Financial Condition and Results of Operations Dividends and Business Legal Proceedings \$21.25 Preferred Shareholders Class Action Lawsuit. If this litigation results in a final judgment against us, and such adverse judgment is significant, it could have a material adverse effect on our revenues and profits.

Our acquisition strategy involves a number of risks, which could adversely impact our future revenues and the revenues of the businesses that we acquire.

As a part of our growth strategy, we plan to pursue selective strategic acquisitions of businesses. This strategy involves risks, including diversion of management's attention, potential loss of key employees of acquired businesses and difficulties in integrating operations and systems. We cannot be certain that we will be able to locate suitable acquisitions or consummate any such transactions on terms and conditions acceptable to us or that such transactions will be successful. An inability to successfully integrate acquired businesses into our operations could result in significant losses for us.

Risks Relating to Our Common Stock

This offering will result in a substantial amount of previously unregistered shares of our common stock being registered, which may depress the market price of our common stock.

As of April 7, 2004, the number of shares of our outstanding common stock freely tradeable on the New York Stock Exchange and not owned by our officers, directors, or affiliates was approximately 5.4 million. The sale of the shares of common stock in this offering could depress the market price of our common stock.

Future sales of a substantial amount of our common stock may cause our stock price to decline.

Upon completing this offering, we will have approximately 23.0 million shares of common stock outstanding. Our principal stockholders, directors and executive officers will own approximately 11.5 million of

Table of Contents

these shares. These stockholders will be free to sell those shares, subject to the limitations of Rule 144 or Rule 144(k) under the Securities Act of 1933, as amended (which are discussed under Shares Eligible for Future Sale), applicable restrictions on transfer contained in our shareholders agreement and, subject to certain exceptions, the 90-day lock-up agreements that these stockholders will enter into with the underwriters. See Underwriting. In addition, after giving effect to the sale of shares in this offering (excluding any exercise of the over-allotment option granted to the underwriters), the holders of approximately 11.8 million of our shares (including warrants to purchase 420,000 shares of our common stock which are not subject to lock-up agreements) have the right to require us to register all or part of their shares under registration rights agreements. See Description of Capital Stock Registration Rights Agreements for a more detailed discussion of the registration rights agreements. Registration of these restricted shares of common stock would permit their sale into the public market immediately. See Shares Eligible for Future Sale. We cannot predict when these stockholders may sell their shares or in what volumes. However, the market price of our common stock could decline significantly if these stockholders sell a large number of shares into the public market after this offering or if the market believes that these sales may occur.

We may also issue our common stock from time to time as consideration for future acquisitions and investments. In the event any such acquisition or investment is significant, the number of shares of our common stock that we may issue could in turn be significant. In addition, we may also grant registration rights covering those shares in connection with any such acquisitions and investments.

Limited trading volume of our common stock may contribute to its price volatility.

For the fourth quarter of 2003, the average daily trading volume for our common stock as reported by the American Stock Exchange was approximately 22,400 shares. As of April 1, 2004, our common stock no longer traded on the American Stock Exchange and began trading on the New York Stock Exchange. Even if we achieve a wider dissemination by means of the shares offered pursuant to this prospectus, we are uncertain as to whether a more active trading market in our common stock will develop. As a result, relatively small trades may have a significant impact on the price of our common stock.

Our stock price has been and may continue to be volatile and may result in substantial losses for investors.

The market price of our common stock has been, and is likely to continue to be, volatile. Since January 1, 2003, the market price for our common stock has been as high as \$19.99 per share and as low as \$3.62 per share. Additionally, the stock market in general has been highly volatile since 2000. This volatility in stock price often has been unrelated to our operating performance.

In addition, the trading price of our common stock could be subject to wide fluctuations in response to:

our prospects as perceived by others;

variations in our operating results and our achievement of key business targets;

changes in securities analysts' recommendations or earnings estimates;

Edgar Filing: PERINI CORP - Form 424B1

differences between our reported results and those expected by investors and securities analysts;

announcements of new contracts or service offerings by us or our competitors;

market reaction to any acquisitions, joint ventures or strategic investments announced by us or our competitors; and

general economic or stock market conditions unrelated to our operating performance.

Fluctuations in our stock price as a result of any of the foregoing factors may result in substantial losses for investors.

Fluctuations in our quarterly revenues and operating results may lead to reduced prices for our stock.

Because our operating results are primarily generated from a limited number of significant active construction projects, operating results in any given fiscal quarter can vary depending on the timing of progress

Table of Contents

achieved and changes in the estimated profitability of the projects being reported. Progress on projects in certain areas may also be delayed by weather conditions. Such delays, if they occur, may result in inconsistent quarterly operating results due to more or less progress than anticipated being achieved on certain projects, which may in turn lead to reduced prices for our stock.

Ownership of our common stock is concentrated among a few stockholders who could act in a way that favors their interests to the detriment of our interests and those of other stockholders.

Following this offering and assuming that all of the selling stockholders sell all of the shares of common stock being registered in this offering, the percentage of shares owned by our executive officers, directors and 5% stockholders would be reduced to 49.8%. These stockholders have the ability to significantly influence the outcome of the election of most of our directors, and the approval of any action requiring majority approval of our common stockholders, including certain amendments to our charter. In addition, without the consent of these stockholders, we may not be able to enter into transactions that could be beneficial to us or our other stockholders.

Provisions of Massachusetts law and of our charter and bylaws may make a takeover of us more difficult, which could impede the ability of our stockholders to benefit from a change in control or to change our management and Board of Directors.

Provisions in our restated articles of organization and bylaws and in the Massachusetts corporate law may make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt which is opposed by our management and Board of Directors. Public stockholders who might desire to participate in such a transaction may not have an opportunity to do so. Our bylaws provide for a staggered Board of Directors which makes it difficult for stockholders to change the composition of the Board of Directors in any one year. Our Board of Directors has the authority to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to effect a change in control or takeover of Perini. Also, we have adopted a rights plan that limits the ability of any person to acquire more than 10% of our common stock, except in limited circumstances. These anti-takeover provisions could substantially impede the ability of public stockholders to benefit from a change in control or to change our management and Board of Directors. See Description of Capital Stock.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

The statements contained in this prospectus, including under the section titled Management's Discussion and Analysis of Financial Condition and Results of Operations, and other sections of this prospectus that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including without limitation, statements regarding Perini's or our management's expectations, hopes, beliefs, intentions or strategies regarding the future. These forward-looking statements are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading Risk Factors. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise except as may be required under applicable securities laws.

Table of Contents**USE OF PROCEEDS**

We will not receive any proceeds from the sale of shares by the selling stockholders or the additional shares to be sold by the selling stockholders if the underwriters exercise their over-allotment option.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock since 1990. For the foreseeable future, we intend to retain any earnings in our business and we do not anticipate paying any cash dividends. In addition, under the terms of our preferred stock, we cannot pay dividends on our common stock until all accrued dividends on our preferred stock have been paid. Whether or not to declare any dividends will be at the discretion of our Board of Directors, considering then existing conditions, including our financial condition and results of operations, capital requirements, bonding prospects, contractual restrictions, business prospects and other factors that our Board of Directors considers relevant.

MARKET PRICE OF OUR COMMON STOCK

As of April 1, 2004, our common stock no longer traded on the American Stock Exchange and began trading on the New York Stock Exchange under the symbol PCR. The quarterly market high and low sales prices for our common stock for 2004 (through April 12, 2004), 2003, and 2002 are summarized below:

	<u>High</u>	<u>Low</u>
Year Ending December 31, 2002		
First Quarter	\$ 7.28	\$ 5.75
Second Quarter	6.40	3.40
Third Quarter	4.58	3.50
Fourth Quarter	4.44	3.00
Year Ending December 31, 2003		
First Quarter	4.70	3.62
Second Quarter	9.05	3.80
Third Quarter	8.99	6.26
Fourth Quarter	10.10	6.95
Year ending December 31, 2004		
First Quarter	19.99	8.80
Second Quarter (through April 12, 2004)	17.30	15.35

On April 12, 2004, the closing sale price of our common stock as reported on the New York Stock Exchange was \$15.39 per share. At April 1, 2004, there were 1,034 holders of record of our common stock, based on the stockholders list maintained by our transfer agent.

Table of Contents**CAPITALIZATION**

The table below sets forth our consolidated short-term debt and capitalization as of December 31, 2003 (in thousands, except share data). We have not provided an adjusted capitalization table because we will not receive any of the proceeds from this offering. You should read the following information in conjunction with our consolidated financial statements and related notes and the information provided under the captions Selected Historical Financial Data and Management's Discussion and Analysis of Financial Condition and Results of Operations which are included elsewhere in this prospectus.

Short-term debt:	
Notes payable to banks	\$
Current maturities of long-term debt	490
	<hr/>
Total short-term debt	\$ 490
	<hr/>
Long-term debt:

	<hr/>
Total stockholders' equity	120,560
	<hr/>
Total capitalization	\$ 129,082
	<hr/>

- (1) The revolving credit facility provides for revolving loans up to a maximum of \$50 million to June 20, 2005, at which time any amounts unpaid convert to a three-year term loan with equal quarterly principal payments. The weighted average interest rate at December 31, 2003 was 3.8%. On November 5, 2003 and January 31, 2004, the terms of our revolving credit facility were amended to provide a temporary \$20 million increase in the revolving credit facility from \$50 million to \$70 million until April 30, 2004, to support the procurement requirements of a major project.
- (2) As of December 31, 2003, we had 22,885,535 shares outstanding. As of December 31, 2003, options to purchase 3,005,800 shares of our common stock were outstanding and 195,634 shares were available for future awards under our Special Equity Incentive Plan. In addition, as of December 31, 2003, we had 370,279 shares of common stock reserved for issuance upon conversion of our \$21.25 Preferred Stock at a conversion price of \$377.50 per share (or \$37.75 per Depositary Share) and 420,000 shares of common stock reserved for issuance upon

exercise of stock purchase warrants at an exercise price of \$8.30 per share.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA**

The selected historical consolidated financial data shown below for the five-year period ended December 31, 2003 has been derived from our consolidated financial statements audited by Deloitte & Touche LLP (four-year period ended December 31, 2003) and by Arthur Andersen LLP (one-year period ended December 31, 1999), our current and former independent auditors, respectively. Backlog and new business awarded are not measures defined in generally accepted accounting principles and have not been derived from our consolidated financial statements. The selected historical consolidated financial data should be read in conjunction with our consolidated financial statements and related notes,

Capitalization and Management's Discussion and Analysis of Financial Condition and Results of Operations, which are included elsewhere in this prospectus.

Backlog (end of period) (2)	1,666,464	990,175	1,213,535	1,788,731	1,658,077
New Business Awarded (3)	2,050,392	861,681	978,200	1,236,314	1,445,305

- (1) Income available for common stockholders includes adjustments to net income for (a) accrued and unpaid dividends on our \$21.25 Preferred Stock, or \$2.125 Depository Shares, (b) the reversal of previously accrued and unpaid dividends in the amount of approximately \$7.3 million applicable to 440,627 of the \$2.125 Depository Shares purchased and retired by us on June 9, 2003, (c) dividends declared and paid on our Series B Preferred Stock until its exchange for shares of common stock on March 29, 2000 and (d) the \$13.7 million assigned to the induced conversion of the Series B Preferred Stock into common stock on March 29, 2000.
- (2) A construction project is included in our backlog at such time as a contract is awarded or a firm letter of commitment is obtained and funding is in place. Backlog is not a measure defined in generally accepted accounting principles, or GAAP, and our backlog may not be comparable to the backlog of other companies. Management uses backlog to assist in forecasting future results.
- (3) New business awarded consists of the original contract price of projects added to our backlog in accordance with Note (2) above plus or minus subsequent changes to the estimated total contract price of existing contracts. Management uses new business awarded to assist in forecasting future results.

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Overview

We were incorporated in 1918 as a successor to businesses which had been engaged in providing construction services since 1894. We provide diversified general contracting, construction management and design-build services to private clients and public agencies throughout the world. Our construction business is now conducted through three basic segments or operations: building, civil and management services. The general contracting and management services that we provide consist of general contracting, preconstruction planning and comprehensive project management services, including planning and scheduling the manpower, equipment, materials and subcontractors required for the timely completion of a project in accordance with the terms and specifications contained in a construction contract. We also offer self-performed construction services including site work, concrete forming and placement and steel erection. We provide these services by using traditional general contracting arrangements, such as fixed price, guaranteed maximum price and cost plus fee contracts and, to a lesser extent, construction management or design-build contracting arrangements. In the normal conduct of our business, we enter into partnership arrangements, referred to as joint ventures, for certain construction projects. Each of the joint venture participants is usually committed to supply a predetermined percentage of capital, as required, and to share in a predetermined percentage of the income or loss of the project.

Recent Developments

Acquisition of James A. Cummings, Inc.

On January 23, 2003, we completed the acquisition of James A. Cummings, Inc., or Cummings, a privately held construction company based in Fort Lauderdale, Florida. The acquisition was effective as of January 1, 2003 and, accordingly, the financial results of Cummings are included in our consolidated financial statements since that date. See Note 3 of Notes to Consolidated Financial Statements for a further discussion and analysis of the acquisition of Cummings and related pro forma financial information.

Amendments to Revolving Credit Facility

In February 2003, the terms of our existing revolving credit facility were amended to, among other things, increase the revolving credit facility from \$45 million to \$50 million and to extend the term of our credit facility from January 2004 to June 2005. The credit facility, as amended, provides us with greater flexibility in providing the working capital needed to support the anticipated growth of our construction activities. On November 5, 2003 and January 31, 2004, the terms of our revolving credit facility were further amended to provide a temporary \$20 million increase in the revolving credit facility from \$50 million to \$70 million until April 30, 2004, to support the procurement requirements of a major project. At December 31, 2003, we had \$67.2 million available to borrow under our credit facility.

Results of Tender Offer for our \$21.25 Preferred Stock

Edgar Filing: PERINI CORP - Form 424B1

On June 9, 2003, we completed a tender offer for our \$2.125 Depositary Convertible Exchangeable Preferred Shares, or Depositary Shares, each of which represent 1/10th of a share of \$21.25 Convertible Exchangeable Preferred Stock, or the \$21.25 Preferred Stock. As a result of this transaction, we purchased 440,627 of our Depositary Shares (representing approximately 44.1% of the outstanding \$21.25 Preferred Stock) at a purchase price of \$25.00 per Depositary Share, net to the seller without interest. See Note 8 of Notes to Consolidated Financial Statements. Including related expenses, this transaction resulted in an \$11.3 million decrease in stockholders' equity. Also as a result of this transaction, approximately \$7.3 million of previously accrued and unpaid dividends on the \$21.25 Preferred Stock were reversed and restored to paid-in surplus in the Consolidated Balance Sheets. Since these accrued dividends had previously been deducted from net income in

Table of Contents

the computation of earnings per share in prior years, the reversal of these accrued dividends resulted in the addition of \$7.3 million to income available for common stockholders in the computation of earnings per share for the year ended December 31, 2003.

Business Segments Redefined

Historically, we have evaluated our operating results based on two reportable segments: building and civil. During the fourth quarter of 2003, we adjusted the responsibilities of certain of our executive officers and, in accordance with Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information, we reevaluated the criteria for determining our reportable segments. We have determined that a third business segment, management services, will be included as a reportable segment prospectively to align our reportable segments with current management responsibilities. Previously, our management services operations were included as part of our building segment. The management services segment will aggregate contracts that have a higher than normal geopolitical and operational risk and corresponding potential for greater than normal gross margin volatility. See Note 11 of Notes to Consolidated Financial Statements for an analysis of operating results by segment.

New Contract Awards

In December 2003, our task order with the U.S. Army Corps of Engineers (COE) for additional power restoration work in Iraq was increased from an award of \$66 million to a total task order value of \$357 million. The task order was awarded under our contingent contract with COE's Transatlantic Programs Center to provide design-build, general construction and operations and maintenance services in the U.S. Central Command's area of operations. The maximum potential value of the contract, which was originally \$100 million, has been increased to \$500 million, subject to identification and award of specific contract task orders.

On January 14, 2004, we were awarded a new contract for the COE Transatlantic Programs Center. The contract is an indefinite-delivery/indefinite-quantity (IDIQ) contract for design and construction work throughout the U.S. Central Command Area of Responsibility which includes 25 countries, including Iraq and Afghanistan. The maximum potential value of the contract is \$1.5 billion, with maximum values of \$500 million for the base year and \$250 million each for four option years, subject to identification and award of specific contract task orders.

On March 12, 2004, we were awarded a new IDIQ contract. The contract has a maximum potential value of \$500 million to design and build electrical transmission and distribution systems in southern Iraq over five years.

Critical Accounting Policies

Our significant accounting policies are described in Note 1 of Notes to Consolidated Financial Statements included in this prospectus.

Edgar Filing: PERINI CORP - Form 424B1

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our construction business involves making significant estimates and assumptions in the normal course of business relating to our contracts and our joint venture contracts due to, among other things, the one-of-a-kind nature of management believes that Method of Accounting for Contracts is the most important and critical accounting policy. The most significant estimates with regard to these financial statements relate to the estimating of total forecasted construction contract revenues, costs and profits in accordance with accounting for long-term contracts (see Note 1(d) of Notes to Consolidated Financial Statements) and estimating potential liabilities in conjunction with certain contingencies, including the outcome of pending or future litigation, arbitration or other dispute resolution proceedings relating to contract claims. See Note 2 of Notes to Consolidated Financial Statements. Actual results could differ from these estimates and such differences could be material.

Table of Contents

Our estimates of contract revenue and cost are highly detailed. We believe, based on our experience, that our current systems of management and accounting controls allow management to produce materially reliable estimates of total contract revenue and cost during any accounting period. However, many factors can and do change during a contract performance period which can result in a change to contract profitability from one financial reporting period to another. Some of the factors that can change the estimate of total contract revenue and cost include differing site conditions (to the extent that contract remedies are unavailable), the availability of skilled contract labor, the performance of major material suppliers to deliver on time, the performance of major subcontractors, unusual weather conditions and the accuracy of the original bid estimate. Because we have many contracts in process at any given time, these changes in estimates can offset each other without impacting overall profitability. However, large changes in cost estimates on larger, more complex civil construction projects can have a material impact on our financial statements and are reflected in our results of operations when they become known.

When recording revenue on contracts relating to unapproved change orders and claims, we include in revenue an amount equal to the amount of costs incurred by us to date for contract price adjustments that we seek to collect from customers for delays, errors in specifications or designs, change orders in dispute or unapproved as to scope or price, or other unanticipated additional costs, in each case when recovery of the costs are considered probable. When determining the likelihood of eventual recovery, we consider such factors as evaluation of entitlement, settlements reached to date and our experience with the customer. The settlement of these issues often takes years depending upon whether the item can be resolved directly with the customer or involves litigation or arbitration. When new facts become known, an adjustment to the estimated recovery is made and reflected in the current period results.

The amount of unapproved change order and claim revenue is included in our balance sheet as Unbilled Work. The amount of Unbilled Work relating to unapproved change orders and claims included in our balance sheet at December 31, 2003 and 2002 is summarized below:

	December 31, 2003	December 31, 2002
	(in thousands)	
Unapproved Change Orders	\$ 17,936	\$ 30,289
Claims	64,515	62,776
Total	\$ 82,451	\$ 93,065

There may not be a direct relationship between fluctuations in unapproved change orders and claims and fluctuations in revenues. Approximately 80% of unapproved change orders and claim revenue included in unbilled work relate to our civil construction business. The large, complex nature of civil construction in major metropolitan areas (such as Boston and New York) and the form of contract used by many state and local government agencies tend to result in more frequent change order activity, often leading to significant amounts of unapproved change orders and/or claims. State and local government agencies are frequently reluctant to enter into negotiations to resolve the change orders and claims prior to the completion of the project. Therefore it is not unusual for large change orders and/or claims in state and local government public works contracts to take two to three years, or longer, to reach resolution. Many projects that have amounts included in unbilled work at the beginning of the year may still be under construction at the end of the year and, in some cases, the amount of unapproved change orders and/or claim revenue on a project may actually increase. In addition, our building construction business, which typically does not involve large amounts of unbilled work, could experience a significant revenue change while having little impact on the level of unapproved change orders and claims, for example, the \$19.4 million increase in unapproved change orders and claims in 2001, as compared to a significant overall decrease in revenues during the same period. In summary, the actual level of unapproved change orders and claims included in unbilled work is primarily a function of the volume of civil construction work, the stage of completion of projects involved in unapproved change orders and claims activity, the type of contract and the customer.

Table of Contents

Of the balance of unapproved change orders and claims included in Unbilled Work at December 31, 2003 and December 31, 2002, approximately \$36.0 million and \$40.0 million, respectively, are amounts subject to pending litigation or dispute resolution proceedings as described in Business Legal Proceedings and Note 2, Contingencies and Commitments of Notes to Consolidated Financial Statements for the respective periods. These amounts are management's estimate of the probable recovery from the disputed claims considering such factors as evaluation of entitlement, settlements reached to date and knowledge of the customer. In the event that future facts and circumstances, including the resolution of disputed claims, cause us to reduce the aggregate amount of our estimated probable recovery from the disputed claims, we will record the amount of such reduction against future earnings in the relevant period.

Method of Accounting for Contracts Revenues and profits from our contracts and construction joint venture contracts are recognized by applying percentages of completion for the period to the total estimated profits for the respective contracts. Percentage of completion is determined by relating the actual cost of the work performed to date to the current estimated total cost of the respective contracts. When the estimate on a contract indicates a loss, our policy is to record the entire loss during the accounting period in which it is estimated. In the ordinary course of business, at a minimum on a quarterly basis, we prepare updated estimates of the total forecasted revenue, cost and profit or loss for each contract. The cumulative effect of revisions in estimates of the total forecasted revenue and costs, including unapproved change orders and claims, during the course of the work is reflected in the accounting period in which the facts that caused the revision become known. The financial impact of these revisions to any one contract is a function of both the amount of the revision and the percentage of completion of the contract. An amount equal to the costs incurred which are attributable to unapproved change orders and claims is included in the total estimated revenue when realization is probable. For a further discussion of unapproved change orders and claims, see Business Types of Contracts and The Contract Process. Profit from unapproved change orders and claims is recorded in the period such amounts are resolved.

Deferred contract revenue represents the excess of billings to date over the amount of contract costs and profits (or contract revenue) recognized to date on the percentage of completion accounting method on certain contracts. Unbilled work represents the excess of contract costs and profits (or contract revenue) recognized to date on the percentage of completion accounting method over billings to date on the remaining contracts. Unbilled work results when (1) the appropriate contract revenue amount has been recognized in accordance with the percentage of completion accounting method, but a portion of the revenue recorded cannot be billed currently due to the billing terms defined in the contract and/or (2) costs, recorded at estimated realizable value, related to unapproved change orders or claims are incurred. For unapproved change orders or claims that cannot be resolved in accordance with the normal change order process as defined in the contract, we may employ other dispute resolution methods, including mediation, binding and non-binding arbitration, or litigation. See Business Legal Proceedings and Note 2, Contingencies and Commitments, of Notes to Consolidated Financial Statements. The prerequisite for billing unapproved change orders and claims is the final resolution and agreement between the parties. Unbilled work related to our contracts and joint venture contracts at December 31, 2003 is discussed in Note 1(d) of Notes to Consolidated Financial Statements.

Accounting for Income Taxes Information relating to our provision (credit) for income taxes and the status of our deferred tax assets and liabilities is presented in Note 5, Income Taxes, of Notes to Consolidated Financial Statements. A key assumption in the determination of our book tax provision (credit) is the amount of the valuation allowance required to reduce the related deferred tax assets. A valuation allowance reduces the deferred tax assets to a level which will, more likely than not, be realized. Whether the deferred tax assets will be realized depends on the generation of future taxable income during the periods in which the deferred tax assets become deductible. The net deferred tax assets reflect management's estimate of the amount which will, more likely than not, reduce future taxable income.

As of December 31, 2002, management believed that a valuation allowance was required to reduce the deferred tax assets, primarily relating to certain net operating loss carryforwards (NOLs), for the following reasons:

Although we had generated approximately \$75 million of pretax profits during the three-year period ended December 31, 2002, the construction business, in general, and our future operating performance

Table of Contents

is difficult to predict. This is illustrated by our cumulative pretax loss of \$164 million during the five-year period immediately preceding the three-year period referred to above.

A substantial amount of profitable new work is required in order for the utilization of the NOLs to be evaluated as more likely than not.

Our backlog of work on hand had been trending down since December 31, 2000.

An adverse outcome on one or more of the legal matters discussed in Note 2 of Notes to Consolidated Financial Statements could have a significant impact on our ability to utilize the NOLs and, depending upon the magnitude, could create additional NOLs.

Finally, we believed that the use of NOLs might be limited by Internal Revenue Service Code Section 382, or Section 382, based on future changes in ownership not within our control following our equity recapitalization in March 2000. We believed that this issue would be resolved with the passage of the three year testing period in March 2003.

During the first quarter of 2003, we reduced the valuation allowance by \$7.0 million and recognized a \$7.0 million tax benefit based on the expectation that we would be able to utilize at least a portion of the previously unrecognized NOLs due to the impact of not having a Section 382 restriction as of the end of the three year testing period. During the fourth quarter of 2003, we further reduced the valuation allowance by \$7.9 million based on the expectation that we would be able to utilize an additional amount of our NOLs in future years due to a significant increase in backlog as a result of a robust new work acquisition period experienced during the second half of 2003.

As of December 31, 2003, management estimates that a valuation allowance of approximately \$8.4 million was required to reduce the deferred tax assets, primarily relating to NOLs, to a level we currently believe will be utilized to offset future taxable income based on our current backlog and forecasts. The valuation allowance is required due to our inability to predict on a longer term basis that we will more likely than not acquire the additional amount of profitable new work required to utilize additional NOLs and the ongoing concern that an adverse outcome on one or more of the legal matters referred to above could significantly limit our ability to utilize additional NOLs.

Defined Benefit Retirement Plan The status of our defined benefit pension plan obligations, related plan assets and cost is presented in Note 10 of Notes to Consolidated Financial Statements entitled Employee Benefit Plans. Plan obligations and annual pension expense are determined by actuaries using a number of key assumptions which include, among other things, the discount rate, the estimated future return on plan assets and the anticipated rate of future salary increases. The discount rate of 6.75% used for purposes of computing the 2003 annual pension expense was determined at the beginning of the calendar year based on high-quality corporate bond yields as of that date. We plan to lower the discount rate used for computing the 2004 annual pension expense to 6.25% due to a decline in high-quality corporate bond yields as of the end of 2003.

The estimated return on plan assets is primarily based on historical long-term returns of equity and fixed income markets according to our targeted allocation of plan assets (70% equity and 30% fixed income). While the weighted estimated return on asset rate has been approximately 9% in recent years, we plan to lower this rate to 7.5% for 2004 based on recent equity market performance compared to long-term historical averages.

The plan's accumulated benefit obligation exceeded the fair value of plan assets on December 31, 2003, 2002 and 2001 in amounts greater than the accrued pension liability previously recorded. Accordingly, we increased our accrual by \$4.4 million in 2003, \$13.7 million in 2002 and \$5.9 million in 2001 with the \$24.0 million offset to Accumulated Other Comprehensive Loss, a reduction of stockholders' equity.

As a result of the expected changes in assumptions for 2004 noted above and asset losses during 2003 and 2002, we anticipate that pension expense will increase from \$2.7 million in 2003 to \$4.7 million in 2004. Cash contributions are anticipated to be \$4 million in 2004, but using our current assumptions regarding asset performance and the interest rate environment, these will likely increase significantly in the future.

Table of Contents**Related Party Transactions**

As a condition to a \$30 million equity infusion in January 1997, we entered into an agreement with Tutor-Saliba Corporation, or Tutor-Saliba, a construction company based in California, and Ronald N. Tutor, Chief Executive Officer and sole stockholder of Tutor-Saliba, to provide certain management services. Tutor-Saliba participated in joint ventures with us before the agreement and continues to participate in joint ventures with us after the agreement. Our share of revenue from these joint ventures amounted to \$49.0 million, \$48.8 million and \$17.9 million for the years ended December 31, 2003, 2002 and 2001, respectively. Primarily as a result of Tutor-Saliba participating in a \$40 million equity infusion in March 2000, Tutor-Saliba currently owns approximately 12% of our outstanding common stock. Mr. Tutor has been our Chairman and Chief Executive Officer since March 2000. For details of compensation to Mr. Tutor, arrangements with Tutor-Saliba and other information on related party transactions, see Note 12 of Notes to Consolidated Financial Statements, Management and Certain Transactions included elsewhere in this prospectus.

Results of Operations*Comparison of the Year Ended December 31, 2003 with the Year Ended December 31, 2002*

Net income for the year ended December 31, 2003 was a record \$44.0 million, a 90% increase from the \$23.1 million net income recorded in 2002. The overall increase in net income of \$20.9 million was due primarily to the recognition of a \$14.9 million tax benefit based on the expectation that we will be able to utilize a portion of our net operating loss (NOL) carryforwards in future years. In addition, the record net income in 2003 reflects the impact of an increased volume of work acquired and put in place in 2003, in particular our contract awards in Iraq and Afghanistan, as well as the acquisition of Cummings in January 2003.

Basic earnings per common share were \$2.18 for the year ended 2003 compared to \$0.92 for the year ended 2002. Diluted earnings per common share were \$2.10 for the year ended 2003 compared to \$0.91 for the year ended 2002. As discussed above, as a result of the completion of our tender offer on our \$21.25 Preferred Stock in June 2003, \$7.3 million in previously accrued preferred stock dividends was reversed and added back to income available for common stockholders in the computation of earnings per share for the year ended December 31, 2003.

Accordingly, basic and diluted earnings per common share calculations for the year ended December 31, 2003 were favorably impacted by \$0.32 and \$0.31 per share, respectively, due to the reversal of a pro rata portion of accumulated but unpaid dividends on our \$21.25 Preferred Stock as a result of the tender offer completed in 2003.

Overall revenues increased by \$289.1 million (or 26.6%), from \$1,085.0 million in 2002 to \$1,374.1 million in 2003. This increase was due primarily to a increase in building construction revenues of \$266.3 million (or 42.1%), from \$631.9 million in 2002 to \$898.2 million in 2003, due primarily to the impact of the Cummings acquisition in January 2003 and improved new work acquisition results during the second and third quarters of 2003. Management services revenues increased by \$158.4 million (or 112.7%), from \$140.6 million in 2002 to \$299.0 million in 2003, due primarily to the new contracts we were awarded in 2003 related to the rebuilding of Iraq and Afghanistan. These increases were partly offset by a decrease in civil construction revenues of \$135.6 million (or 43.4%), from \$312.5 million in 2002 to \$176.9 million in 2003. The decrease in revenues from civil construction operations primarily reflects the decrease in our year-end backlog at December 31, 2002 compared to the year-end backlog at December 31, 2001, as the pace of new contract awards slowed during 2002 and the first half of 2003 due to a temporary decrease in the number of public works projects available to bid and increased competition from other contractors when bidding on the reduced level of work available.

Increase %

Edgar Filing: PERINI CORP - Form 424B1

	Revenues for the Year Ended December 31,		(Decrease)	Change
	2003	2002		
	(in millions)			
Building	\$ 898.2	\$ 631.9	\$ 266.3	42.1%
Civil	176.9	312.5	(135.6)	(43.4)%
Management Services	299.0	140.6	158.4	112.7%
Total	\$ 1,374.1	\$ 1,085.0	\$ 289.1	26.6%

Table of Contents

Income from operations (excluding corporate) increased by \$6.7 million (or 20.6%), from \$32.6 million in 2002 to \$39.3 million in 2003. Management services income from operations increased by \$12.0 million (or 102.6%), from \$11.7 million in 2002 to \$23.7 million in 2003, due primarily to the increase in revenues related to the rebuilding of Iraq and Afghanistan. Despite the favorable impact of the Cummings acquisition, building construction income from operations decreased by \$2.1 million (or 14.5%), from \$14.5 million in 2002 to \$12.4 million in 2003. Building construction income from operations was negatively impacted by a \$1.0 million increase in building construction-related general and administrative expenses (exclusive of Cummings) primarily in connection with the pursuit of new work opportunities including the opening or expansion of new regional offices in Florida and California. Civil construction income from operations decreased by \$3.2 million (or 50.0%), from \$6.4 million in 2002 to \$3.2 million in 2003, due primarily to the decrease in revenues discussed above partly offset by a higher gross profit margin in 2003 primarily because 2002 included recognition of a \$14 million loss on a Central Artery Big Dig joint venture project in Boston, Massachusetts. Income from operations was negatively impacted by a \$2.1 million increase in corporate general and administrative expenses, from \$6.7 million in 2002 to \$8.8 million in 2003, due primarily to an aggregate increase in several items including corporate incentive compensation, outside professional fees relating to the annual audit of the Company's financial statements and to the \$21.25 Preferred Shareholders Class Action Lawsuit (see Note 2(f) of Notes to Consolidated Financial Statements), and certain corporate insurance premium costs.

	Income from Construction Operations for the		Increase	%
	Year Ended December 31,			
	2003	2002	(Decrease)	Change
	(in millions)			
Building	\$ 12.4	\$ 14.5	\$ (2.1)	(14.5)%
Civil	3.2	6.4	(3.2)	(50.0)%
Management Services	23.7	11.7	12.0	102.6%
Subtotal	\$ 39.3	\$ 32.6	\$ 6.7	20.6%
Less: Corporate	(8.8)	(6.7)	(2.1)	31.3%
Total	\$ 30.5	\$ 25.9	\$ 4.6	17.8%

Other (income) expense increased by \$1.9 million, from an expense of \$0.5 million in 2002 to income of \$1.4 million in 2003, due primarily to a \$2.2 million net gain recorded from the sale of certain parcels of developed land held for sale. Based on our remaining inventory of developed land held for sale and the anticipated potential selling prices for those parcels, we believe that the net gain recorded in 2003 is of a non-recurring nature and is not indicative of expected future results.

Interest expense decreased by \$0.5 million, from \$1.5 million in 2002 to \$1.0 million in 2003, due to a lower average borrowing level in 2003 as a result of improved cash flow from operations as well as lower interest rates.

The credit for income taxes in 2003 is due primarily to the recognition of a \$14.9 million tax benefit in accordance with SFAS No. 109,

Accounting for Income Taxes based on the expectation that we will be able to utilize a portion of our NOL carryforwards in future years. In addition, the (provision) credit for income taxes reflects a lower-than-normal tax rate in both years due primarily to the realization of a portion of the federal tax benefit not recognized in prior years due to certain accounting limitations. Also, the provision for income taxes in 2002 reflects the reversal of the federal alternative minimum tax provided in 2001 which was no longer required based on the provisions of the Job Creation and Worker Assistance Act of 2002. As a result of the recognition of the \$14.9 million NOL tax benefit, basic and diluted earnings per common share calculations for the year ended December 31, 2003 were favorably impacted by \$0.65 and \$0.63 per share, respectively.

Reconciliation of Reported Net Income to Pro Forma Net Income

Assuming an effective income tax rate of 39% and also assuming that we completed our tender offer for our \$21.25 Preferred Stock prior to January 1, 2002, pro forma net income for the year ended December 31, 2003

Table of Contents

would have been \$18.9 million, compared to \$14.6 million for the year ended December 31, 2002. Similarly, pro forma basic earnings per share for the year ended December 31, 2003 would have been \$0.78, compared to \$0.59 for the year ended December 31, 2002. Pro forma diluted earnings per share for the year ended December 31, 2003 would have been \$0.75, compared to \$0.58 for the year ended December 31, 2002. The reconciliation of reported net income to pro forma net income for the years ended December 31, 2003 and 2002 is set forth in a table below:

	Year Ended December 31,	
	2003	2002
	(in thousands, except per share data)	
Reported net income	\$ 44,018	\$ 23,074
Less: Credit (provision) for income taxes	13,096	(801)
Income before income taxes	30,922	23,875
Provision for income taxes assuming 39% effective rate	12,060	9,311
Pro forma net income	18,862	14,564
Less: Dividends accrued on Preferred Stock assuming the tender offer took place prior to January 1, 2002	(1,188)	(1,188)
Pro forma total available for common stockholders	\$ 17,674	\$ 13,376
Pro forma basic earnings per common share	\$ 0.78	\$ 0.59
Pro forma diluted earnings per common share	\$ 0.75	\$ 0.58

To supplement our consolidated financial statements presented on a generally accepted accounting principles (GAAP) basis, we sometimes use non-GAAP measures of net income, earnings per share and other measures that we believe are appropriate to enhance an overall understanding of our historical financial performance and future prospects. The non-GAAP results, which are adjusted to exclude certain costs, expenses, gains and losses from the comparable GAAP measures, are an indication of our baseline performance before gains, losses or other charges that are considered by management to be outside of our core operating results. These non-GAAP results are among the indicators management uses as a basis for evaluating our financial performance as well as for forecasting future periods. For these reasons, management believes these non-GAAP measures can be useful to investors, potential investors and others. The presentation of this additional information is not meant to be considered in isolation or as a substitute for net income or earnings per share prepared in accordance with GAAP.

Comparison of the Year Ended December 31, 2002 to December 31, 2001

Net income for the year ended 2002 was \$23.1 million, a 12.5% decrease from the record \$26.4 million net income recorded in 2001. Basic earnings per common share were \$0.92 for the year ended 2002 compared to \$1.07 for the year ended 2001. Diluted earnings per common share were \$0.91 per common share compared to \$1.04 for the year ended 2001. Overall, the decrease in 2002 operating results reflected a continued strong but lower profit contribution from the building construction segment and increased profit contributions from both the management services and civil construction segments.

Edgar Filing: PERINI CORP - Form 424B1

Overall, revenues decreased by \$468.4 million (or 30.2%), from \$1,553.4 million in 2001 to \$1,085.0 million in 2002. This decrease was due primarily to a decrease in building construction revenues of \$488.2 million (or 43.6%), from \$1,120.1 million in 2001 to \$631.9 million in 2002. Civil construction revenues decreased \$41.5 million (or 11.7%), from \$354.0 million in 2001 to \$312.5 million in 2002. The decrease in revenues from building construction operations was due primarily to the decrease in our year-end backlog at December 31, 2001 compared to the record year-end backlog at December 31, 2000, including a decreased volume of work at the Mohegan Sun Project in Connecticut, as well as on two large hotel/casino projects in the

Table of Contents

southwestern United States, all of which were substantially completed in early 2002. The decrease in revenues from civil construction operations was also due primarily to the decrease in our year-end backlog at December 31, 2001 compared to the record year-end backlog at December 31, 2000. These decreases were partly offset by an increase in management services revenues of \$61.3 million (or 77.3%), from \$79.3 million in 2001 to \$140.6 million in 2002, due primarily to a higher volume of work on power facilities maintenance projects due to a higher number of scheduled plant shutdowns in 2002.

	Revenues for the Year Ended December 31,		Increase (Decrease)	% Change
	2002	2001		
	(in millions)			
Building	\$ 631.9	\$ 1,120.1	\$ (488.2)	(43.6)%
Civil	312.5	354.0	(41.5)	(11.7)%
Management Services	140.6	79.3	61.3	77.3%
Total	\$ 1,085.0	\$ 1,553.4	\$ (468.4)	(30.2)%

Income from operations (excluding corporate) decreased by \$2.9 million (or 8.2%), from \$35.5 million in 2001 to \$32.6 million in 2002. Building construction income from operations decreased by \$12.1 million, from \$26.6 million in 2001 to \$14.5 million in 2002, due primarily to the decrease in revenues discussed above. This decrease was partly offset by an increase in the average gross margin on building construction contracts from 3.5% in 2001 to 4.7% in 2002, due primarily to favorable close-out experience on several hotel/casino projects in 2002. In addition, building construction income from operations was negatively impacted by a \$1.8 million (or 13.7%) increase in building construction-related general and administrative expenses primarily in connection with the pursuit of new work opportunities, including the opening of a new office near Orlando, Florida. Management services income from operations increased by \$6.7 million, from \$5.0 million in 2001 to \$11.7 million in 2002, due primarily to the increase in revenues discussed above as well as favorable cost experience on a fixed price overseas project. Civil construction income from operations increased by \$2.5 million, from \$3.9 million in 2001 to \$6.4 million in 2002, due primarily to favorable cost experience on a fixed price civil infrastructure project in New York City in 2002 as well as recognition of a smaller loss of \$14 million in 2002 compared to a \$21.4 million loss in 2001 on a Central Artery/Tunnel Big Dig joint venture project in Boston, Massachusetts. In addition, civil construction income from operations was negatively impacted by a \$1.2 million (or 20.7%) increase in civil construction-related general and administrative expenses, due primarily to a reduced ability to allocate expenses to various joint ventures as well as an increase in outside legal fees attributable to increased work on pending litigation matters and new work acquisition efforts.

	Income from Construction Operations for the		Increase (Decrease)	% Change
	Year Ended December 31,			
	2002	2001		
	(in millions)			
Building	\$ 14.5	\$ 26.6	\$ (12.1)	(45.5)%
Civil	6.4	3.9	2.5	64.1%
Management Services	11.7	5.0	6.7	134.0%
Subtotal	\$ 32.6	\$ 35.5	\$ (2.9)	(8.2)%
Less: Corporate	(6.7)	(6.0)	(0.7)	11.7%

Edgar Filing: PERINI CORP - Form 424B1

Total	\$ 25.9	\$ 29.5	\$ (3.6)	(12.2)%
-------	---------	---------	----------	---------

Interest expense decreased by \$0.5 million, from \$2.0 million in 2001 to \$1.5 million in 2002, due primarily to a reduction in the average amount of debt outstanding under our credit facility as well as lower interest rates in 2002.

The lower than normal tax rate for the two year period ended December 31, 2002 is primarily due to the utilization of tax loss carryforwards from prior years. Because of certain accounting limitations, we were not able

Table of Contents

to recognize a portion of the tax benefit related to the operating losses experienced in fiscal 1999, 1996 and 1995. The net deferred tax assets reflect management's estimate of the amount that will, more likely than not, be realized. See Note 5 of Notes to Consolidated Financial Statements. In addition, the provision for income taxes in 2002 reflects the reversal of the federal alternative minimum tax provided in 2001 that was no longer required based on the provisions of the Job Creation and Worker Assistance Act of 2002.

Liquidity and Capital Resources*Cash and Working Capital*

Cash and cash equivalents as reported in the accompanying Consolidated Statements of Cash Flows consist of amounts held by us as well as our proportionate share of amounts held by construction joint ventures. Cash held by us is available for general corporate purposes while cash held by construction joint ventures is available only for joint venture-related uses. Cash held by construction joint ventures is distributed from time to time to us and to the other joint venture participants in accordance with their percentage interest after the joint venture partners determine that a cash distribution is prudent. Cash distributions received by us from our construction joint ventures are then available for general corporate purposes. At December 31, 2003, December 31, 2002 and 2001, cash held by us and available for general corporate purposes was \$33.4 million, \$11.2 million and \$7.2 million, respectively, and our proportionate share of cash held by joint ventures and available only for joint venture-related uses was \$34.4 million, \$35.8 million and \$49.3 million, respectively.

Billing procedures in the construction industry generally are based on the specific billing terms of a contract and are often not correlated with performance. For example, billings may be based on various measures of performance, such as cubic yards excavated, architect's estimates of completion, costs incurred on cost-plus type contracts or weighted progress from a cost loaded construction time schedule. Billings are generally on a monthly basis and are reviewed and approved by the customer prior to submission. Therefore, once a bill is submitted, we are generally able to collect amounts owed to us in accordance with the payment terms of the contract. In addition, contractor's receivables usually include retentions, or amounts that are not due until contracts are completed or until specified contract conditions or guarantees are met. Retentions are governed by contract provisions and are typically a fixed percentage (for example, 5% or 10%) of each billing. We generally follow the policy of paying our vendors and subcontractors on a particular project after we receive payment from our customer.

A summary of our cash flows for each of the years ended December 31, 2003, 2002 and 2001 is set forth below:

	Year Ended December 31,		
	2003	2002	2001
	(in millions)		
Cash flows from:			
Operating activities	\$ 42.6	\$ (3.6)	\$ (24.3)
Investing activities	(7.9)	(0.6)	(5.5)
Financing activities	(13.9)	(5.3)	(9.5)
Net increase (decrease) in cash	\$ 20.8	\$ (9.5)	\$ (39.3)
Cash at beginning of year	47.0	56.5	95.8

Edgar Filing: PERINI CORP - Form 424B1

Cash at end of year	\$ 67.8	\$ 47.0	\$ 56.5
---------------------	---------	---------	---------

During 2003, we generated \$42.6 million in cash flow from operating activities and \$5.0 million in net proceeds from the sale of certain remaining parcels of developed land held for sale to fund the \$11.3 million required to complete our tender offer for our Depositary Shares, to reduce debt by a net amount of \$3.5 million, as well as to fund a net \$12.9 million used by investing activities, primarily for the acquisition of Cummings in

Table of Contents

January and to acquire construction equipment and an office building and equipment storage facility to be used by our civil construction operations. As a result, our consolidated cash balance increased by \$20.8 million, from \$47.0 million at December 31, 2002 to \$67.8 million at December 31, 2003. As more fully discussed in Note 2(d) of Notes to Consolidated Financial Statements, in the first quarter of 2003, we received our proportionate share of provisional payments against outstanding claims on the Big Dig Project, as a result of an agreement reached in December 2002. Our share of this payment (\$13.3 million) was a significant contributor to the \$42.6 million in cash flow generated from operating activities in 2003.

During 2002, we used \$9.5 million of cash on hand to fund operating activities (\$3.6 million), investing activities (\$0.6 million), and to reduce debt by a net amount of \$5.3 million. The \$3.6 million in cash used by operating activities was due primarily to the need to fund working capital requirements on certain joint venture construction contracts where unapproved change orders and/or contract claims remain to be resolved. See Note 1(d) of Notes to Consolidated Financial Statements.

During 2001, we used \$39.2 million of cash on hand to fund operating activities (\$24.2 million); investing activities (\$5.5 million), primarily for the acquisition of property and equipment; and financing activities (\$9.5 million), primarily to reduce debt by a net amount of \$9.8 million. Cash generated from operating activities decreased from a positive \$0.8 million in 2000 to a negative \$24.2 million in 2001 due primarily to the need to fund working capital requirements on certain of our construction contracts where unapproved change orders and/or contract claims remain to be resolved. See Note 1(d) of Notes to Consolidated Financial Statements.

Working capital increased, from \$115.9 million at the end of 2002 to \$125.4 million at December 31, 2003. Our current ratio decreased from 1.44x to 1.31x during the same period. Since December 31, 2001, working capital has increased by \$32.0 million (or 34%) from \$93.4 million to \$125.4 million at December 31, 2003, and our current ratio has improved from 1.24x to 1.31x during the same period. As of December 31, 2003, accounts receivable amounted to \$328.0 million and comprised approximately 62% of our total current assets. This compares to accounts receivable of \$218.2 million, or approximately 57% of our total current assets at December 31, 2002. The approximate \$110 million increase in accounts receivable at December 31, 2003 primarily reflects the increased revenues during the fourth quarter of 2003.

In January 2002, we entered into an agreement with a new bank group to refinance our existing credit facility with a new \$45 million revolving credit facility. In February 2003, the terms of our revolving credit facility were amended to, among other things, increase the revolving credit facility from \$45 million to \$50 million and to extend the term of our credit facility from January 2004 to June 2005. On November 5, 2003 and January 31, 2004, the terms of our revolving credit facility were further amended to provide a temporary \$20 million increase in the revolving credit facility from \$50 million to \$70 million until April 30, 2004, to support the procurement requirements of a major project.

The terms of our credit facility require us to meet certain financial covenants, including:

a minimum working capital ratio of current assets over current liabilities equal to 1.20:1;

a minimum tangible net worth equal to \$62 million plus 50% of our consolidated net income for each consecutive two fiscal quarters ending on June 30 and December 31 of each year;

a minimum interest coverage ratio of net operating profit over covered charges (which includes interest expense and current period dividends on our preferred stock) equal to 3:1 for four consecutive fiscal quarters; and

Edgar Filing: PERINI CORP - Form 424B1

minimum operating profit levels of at least \$25 million in the aggregate for four consecutive fiscal quarters.

The terms of our credit facility also prohibit us from incurring any additional indebtedness without the consent of our lenders, other than financing for our corporate headquarters, insurance premiums and construction equipment, and impose limitations on the level of capital expenditures that we may make for a period, as well as the purchase and sale of assets outside of the normal course of business.

Table of Contents

Our obligations under our credit facility are guaranteed by substantially all of our current and future subsidiaries, and secured by substantially all of our and our subsidiaries' assets, including a pledge of all of the capital stock of our subsidiaries. At December 31, 2003, we had \$67.2 million available to borrow under our credit facility and \$2.8 million in outstanding letters of credit.

Long-term Debt

Long-term debt at December 31, 2003 was \$8.5 million, a decrease of \$3.6 million from December 31, 2002, despite our completion in June of a tender offer for our Depositary Shares which required a cash outlay of approximately \$11.3 million (including related expenses) and the acquisition of Cummings which required a net cash outlay of approximately \$8.6 million. Our long-term debt to equity ratio was .07x at December 31, 2003, compared to .14x at December 31, 2002. Long-term debt was \$12.1 million at the end of 2002 as compared to \$7.5 million at the end of 2001.

Contractual Obligations

Our outstanding contractual obligations as of December 31, 2003 are summarized in the following table:

	Payments Due by Period				
	Total	Less Than 1 Year	(in thousands) 1-3 Years	3-5 Years	More Than 5 Years
Total debt	\$ 9,012(a)	\$ 490	\$ 634	\$ 2,026	\$ 5,862
Operating leases, net	12,181	4,279	5,481	1,940	481
Purchase obligations					
Other long-term liabilities:					
Accrued dividends on \$21.25 Preferred Stock	9,805				9,805(b)
Employee benefit related liabilities	2,043	158	316	316	1,253
Minimum pension liability adjustments	25,488	4,000	8,000(c)	8,000(c)	5,488(c)
Total contractual obligations	\$ 58,529	\$ 8,927	\$ 14,431	\$ 12,282	\$ 22,889

(a) Includes capital leases in the amount of \$325.

(b) Assumes current policy described below under Dividends \$21.25 Preferred Stock does not change during the 5-year period.

(c) Assumes annual pension fund contributions equal to the contribution amount anticipated in 2004.

Stockholders' Equity

Our book value per common share was \$4.65 at December 31, 2003, compared to \$2.72 at December 31, 2002 and \$2.40 at December 31, 2001. The major factors impacting stockholders' equity during the three year period were the net income recorded in all three years, the cost of our

Edgar Filing: PERINI CORP - Form 424B1

tender offer (\$11.3 million) completed in June 2003, including the reversal of dividends (\$7.3 million) previously accrued related to the preferred stock tendered and, to a lesser extent, preferred stock dividends accrued, and common stock options exercised. Also, we were required to recognize an additional minimum pension liability of approximately \$4.4 million in 2003, \$13.7 million in 2002 and \$5.9 million in 2001 in accordance with SFAS No. 87, *Employers' Accounting for Pensions* which resulted in an aggregate \$24.0 million Accumulated Other Comprehensive Loss deduction in stockholders' equity. See Note 10 of Notes to Consolidated Financial Statements. Adjustments to the amount of this additional minimum pension liability will be recorded in future years based upon periodic re-evaluation of the funded status of our pension plans.

Dividends

Common Stock

There were no cash dividends declared or paid on our outstanding common stock during the three years ended December 31, 2003.

Table of Contents

\$21.25 Preferred Stock

The covenants in our prior credit agreements required us to suspend the payment of quarterly dividends on our \$21.25 Preferred Stock in 1995 until certain financial criteria were met. While quarterly dividends on the \$21.25 Preferred Stock have not been paid since 1995, they have been fully accrued due to the cumulative feature of the \$21.25 Preferred Stock.

As of December 31, 2002, the aggregate amount of dividends in arrears was approximately \$15.4 million, which represented approximately \$154.05 per share of \$21.25 Preferred Stock or approximately \$15.41 per Depositary Share and is included in other long-term liabilities in the Consolidated Balance Sheets. On June 9, 2003, we completed a tender offer for our Depositary Shares pursuant to which we purchased 440,627 Depositary Shares for \$25 per share. See Overview Recent Developments. As a result of this transaction, approximately \$7.3 million of previously accrued and unpaid dividends was reversed and restored to Paid-in Surplus in the Consolidated Balance Sheets. Accordingly, the aggregate amount of dividends in arrears at December 31, 2003 is \$9.8 million, which represents approximately \$175.32 per share of \$21.25 Preferred Stock or approximately \$17.53 per Depositary Share and is included in other long-term liabilities in the Consolidated Balance Sheets. Under the terms of the \$21.25 Preferred Stock, the holders of Depositary Shares became entitled to elect two additional Directors once dividends were deferred for more than six quarters, and they have done so at each of the last six annual meetings of stockholders.

Our Board of Directors has not decided that our working capital and other conditions warrant the resumption of payment of the regular dividend or any of the dividends in arrears on the \$21.25 Preferred Stock. We do not have any plans or target date for resuming the dividend, given the following circumstances:

A strong working capital position provides us with the option of performing large projects without a joint venture partner or to assume the sponsoring partner position resulting in a larger proportionate interest and a greater share of joint venture profits.

A significant amount of working capital is dedicated to the funding requirements of our construction backlog, including collection of receivables and the resolution of unapproved change orders and contract claims, and to obtaining surety bonds required by our business.

We are pursuing a strategy of expanding our construction business internally and through acquisitions, both of which will likely require additional capital. In January 2003, we completed the acquisition of Cummings for \$20 million. See Note 3 of Notes to Consolidated Financial Statements.

New Accounting Pronouncements

In January 2003, the FASB issued FIN No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB 51. In December 2003, the FASB revised FIN No. 46 to reflect decisions it made regarding a number of implementation issues. FIN No. 46, addresses consolidation by business enterprises of variable interest entities, or VIEs. FIN 46 applies immediately to VIEs created or obtained after January 31, 2003 and it applies in the first fiscal year or interim period ending after December 15, 2003, to VIEs in which an enterprise holds a variable interest that is acquired before February 1, 2003. This pronouncement is currently not anticipated to have a material effect on our consolidated financial position or results of operations.

Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk for changes in interest rates relates primarily to our revolving credit debt (see Note 4 of Notes to Consolidated Financial Statements) and short-term investment portfolio. During 2003, we had an average daily borrowing of approximately \$5.5 million under our revolving credit agreement and \$60.0 million of short-term investments classified as cash equivalents as of December 31, 2003.

Table of Contents

We borrow under our revolving credit facility for general corporate purposes, including working capital requirements and capital expenditures. Borrowings under the credit facility bear interest at the applicable LIBOR or base rate, as defined, and therefore, we are subject to fluctuations in interest rates. Based on our average effective borrowing rate and our average daily revolving debt balance in 2003, a change of 1% (or 100 basis points) in our effective borrowing rate would result in an increase or decrease in net income and cash flow of approximately \$55,000 per year.

Our short-term investment portfolio consists primarily of highly liquid instruments with maturities of three months or less, all classified as cash and cash equivalents in the accompanying Consolidated Financial Statements.

Table of Contents

BUSINESS

General

We are a leading construction services company, based on revenues, as ranked by Engineering News-Record, offering diversified general contracting, construction management and design-build services to private clients and public agencies throughout the world. We have provided construction services since 1894 and have established a strong reputation within our markets by executing large, complex projects on time and within budget while adhering to strict quality control measures. We offer general contracting, preconstruction planning and comprehensive project management services, including the planning and scheduling of the manpower, equipment, materials and subcontractors required for a project. We also offer self-performed construction services including site work, concrete forming and placement and steel erection. During 2003, we performed work on over 100 construction projects for over 75 federal, state and local government agencies or authorities and private customers. Our headquarters are in Framingham, Massachusetts, and we have seven other principal offices throughout the United States. As of December 31, 2003, we employed approximately 1,725 people. Our common stock is currently listed on the New York Stock Exchange under the symbol PCR.

Our business is conducted through three primary segments: building, civil, and management services. Our building segment, comprised of Perini Building Company and James A. Cummings, Inc., focuses on large, complex projects in the hospitality and gaming, sports and entertainment, educational, transportation and healthcare markets. Our civil segment is involved in public works construction primarily in the northeastern United States, including the repair, replacement and reconstruction of the United States public infrastructure such as highways, bridges and mass transit systems. Our management services segment provides diversified construction, design-build and maintenance services to the U.S. military and government agencies as well as power producers, surety companies and multi-national corporations.

Industry Overview

The overall construction industry has experienced significant growth over the past seven years. Based on data from the U.S. Census Bureau, the annual value of construction put-in-place has grown at a 6.4% compound annual growth rate since 1995. Growth in our private end markets is largely driven by the continued strong demand for hospitality and gaming, sports and entertainment, education and healthcare facilities. McGraw-Hill, an industry data source, is projecting that the value of contracts for hotels and motels will increase 14.6% in 2004, representing one of the fastest growing segments of non-residential construction, which is projected to grow by approximately 4.0% in 2004. In addition, the U.S. Department of Commerce is projecting 5.0% and 1.9% growth in 2004 for construction put-in-place within healthcare and education construction, respectively.

In our public end markets, despite declining tax revenues, the federal government has increased expenditures on national defense, and municipalities have increased expenditures on the repair, replacement and reconstruction of the public infrastructure. For example, the United States federal government has recently approved a spending bill for the reconstruction and defense of Iraq and has allocated significant funds to the defense of United States interests around the world from the threat of terrorism. In addition, McGraw-Hill is forecasting an increase in the value of contracts in highways and bridges of 2.0% in 2004.

We are currently tracking more than 90 opportunities for our building segment, which include private and public projects with combined potential revenue to the successful contractors in excess of \$10 billion for the period between 2004 and 2006. In the civil segment, we have identified approximately 60 opportunities with potential revenue to the successful contractors of \$8 billion over that same time period to repair and replace the aging infrastructure in the markets we serve. Our management services segment has identified approximately 10 opportunities

with potential revenues to the successful contractors in excess of \$2 billion during that same time period.

Table of Contents

Business Segment Overview

Historically, we have evaluated our operating results based on two reportable segments: building and civil. During the fourth quarter of 2003, we adjusted the responsibilities of certain of our executive officers and, in accordance with Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information, we reevaluated the criteria for determining our reportable segments. We have determined that a third business segment, management services, will be included as a reportable segment prospectively to align our reportable segments with current management responsibilities. Previously, our management services operations were included as part of our building segment. The management services segment will aggregate contracts that have a higher than normal geopolitical and operational risk and a corresponding potential for greater than normal gross margin volatility.

Building Segment

Our building segment has significant experience providing services to a number of high growth, specialized building markets, including the hospitality and gaming, sports and entertainment, education, transportation and healthcare markets. We believe our success within the building segment results from our proven ability to manage and perform large, complex projects with aggressive fast-track schedules, elaborate designs and advanced systems while providing accurate budgeting and strict quality control. Although price is a key competitive factor, we believe our strong reputation, long-standing customer relationships and significant levels of repeat and referral business have enabled us to achieve our leading position.

We believe the hospitality and gaming market provides significant opportunities for growth. We are a recognized leader in this market, specializing in the construction of high-end destination resorts and casinos and Native American developments. We work with hotel operators, Native American tribal councils, developers and architectural firms to provide diversified construction services to meet the challenges of new construction and renovation of hotel and resort properties. We believe that our reputation for completing projects on time is a significant competitive advantage in this market, as any delay in project completion may result in significant loss of revenues for the customer. In Engineering News-Record's, or ENR's, 2003 rankings, we ranked as the nation's largest contractor in the general building market, 3rd largest builder in the hotel, motel and convention center market and as one of the top 25 builders in the sports, entertainment and government office buildings markets, based on revenue.

As a result of our reputation and track record, we have been involved in many marquee projects. These include hospitality and gaming projects such as the Paris Hotel and Casino in Las Vegas, NV; the Gaylord Palms Resort and Convention Center in Orlando, FL; and the Grand Resorts Hotel/Casino Expansion in Atlantic City, NJ. In the sports and entertainment market, we have been involved in projects such as the Bank One Ballpark in Phoenix, AZ and The Palace at Auburn Hills in Auburn Hills, MI. In our other end markets, we have been involved in large, complex projects such as the Airport Parking Garage and Rental Car Facility in Ft. Lauderdale, FL; the Florida International University Health & Life Sciences Building in Miami, FL; and the South Shore Hospital expansion in Weymouth, MA.

In January 2003, we acquired Cummings to expand our presence in the southeast region of the United States. Cummings, which is now our wholly owned subsidiary, specializes in the construction of schools, municipal buildings and commercial developments.

Our building segment revenues and income from operations for the year ended December 31, 2003 were \$898.2 million and \$12.4 million, respectively, which is an increase of 42.1% and a decrease of 14.5%, respectively, over 2002. This segment also accounted for \$897 million, or 54%, of our \$1.67 billion backlog as of December 31, 2003.

Table of Contents

Civil Segment

Our civil segment specializes in new public works construction and the repair, replacement and reconstruction of infrastructure, principally in the metropolitan New York and Boston markets. Our civil contracting services include construction and rehabilitation of highways, bridges, light rail transit systems, subways, airports and wastewater treatment facilities. Our customers primarily award contracts through one of two methods: the traditional public competitive bid method, in which price is the major determining factor, or through a request for proposals where contracts are awarded based on a combination of technical capability and price. Traditionally, our customers require each contractor to pre-qualify for construction business by meeting criteria that include technical capabilities, financial strength and corporate integrity. We believe that our corporate integrity, financial strength and outstanding record of performance on challenging civil works projects enables us to pre-qualify for projects in situations where smaller, less diversified contractors are unable to meet the qualification requirements. We believe this is a competitive advantage that makes us an attractive partner on the largest infrastructure projects and prestigious DBOM (design-build-operate-maintain) contracts, which combine the nation's top contractors with engineering firms, equipment manufacturers and project development consultants in a competitive bid selection process to execute highly sophisticated public works projects.

We have been active in civil construction since 1894 and believe we have developed a particular expertise in large, complex civil construction projects. ENR's 2003 rankings place us as the 20 largest builder of general transportation projects in the country and as a top 25 builder in mass transit and rail, bridges and highways. We have completed or are currently working on some of the most significant civil construction projects in the northeast including a portion of Boston's Big Dig project, the Williamsburg Bridge reconstruction, New Jersey Light Rail Transit, the Triborough Bridge, Jamaica Station and the Long Island Expressway.

Our civil segment revenues and income from operations for the year ended December 31, 2003 were \$176.9 million and \$3.2 million, respectively, which is a decrease of 43.4% and 50.0%, respectively, over 2002. This segment also accounted for \$305 million, or 18%, of our \$1.67 billion backlog as of December 31, 2003.

Management Services Segment

Our management services segment provides diversified construction, design-build and maintenance services to the U.S. military and government agencies, power suppliers, surety companies and multi-national corporations in the United States and overseas. We believe customers choose our services based on our ability to plan and execute rapid response assignments and multi-year contracts through our diversified construction and design-build abilities. Furthermore, we believe we have demonstrated consistently superior performance on competitively bid or negotiated multi-year, multi-trade, task order and ID/IQ (Indefinite Delivery/Indefinite Quantity) construction programs. Most recently, we have been chosen by the federal government for significant projects related to defense and reconstruction projects in Iraq and Afghanistan. For example, we are currently working on the reconstruction of electric power facilities in southern Iraq. In addition, we recently completed a project to construct the entire infrastructure for a 6,000-person base for the new Afghan army and have recently begun construction of similar facilities at another base.

We believe we are well positioned to capture additional projects that involve long-term contracts and provide a recurring source of revenues as government expenditures for defense and homeland security increase in response to the global threat of terrorism. For example, we have a multi-year contract with the U.S. Department of State, Office of Overseas Buildings Operations, to perform design-build security upgrades at U.S. embassies and consulates throughout the world including Argentina, Brazil, Czech Republic, Laos, Pakistan, the Philippines and Taiwan. In addition, our proven abilities with federal government projects have enabled us to win contracts from private defense contractors who are executing projects for the federal government. For example, we have been awarded design and construction contracts by Raytheon Integrated Defense Systems for upgrades to radar facilities at Beale Air Force Base in California and the Cobra Dane Facility on Shemya Island, Alaska, to meet the requirements of a new early warning radar system.

Table of Contents

We also provide diversified management services to power producers, surety companies and multi-national corporations. Under a five-year contract expiring at the end of 2006, we provide planning, management, maintenance and modification services at 10 nuclear power generating stations, including 17 operating units. We are also under agreement with a major North American surety company to provide rapid response, contract completion services. Upon notification from the surety of a contractor bond default, we provide management or general contracting services to fulfill the contractual and financial obligations of the surety.

Our management services segment revenues and income from operations for the year ended December 31, 2003 were \$299.0 million and \$23.7 million, respectively, which is an increase of 112.7% and 102.6%, respectively, over 2002. This segment also accounted for \$464 million, or 28%, of our \$1.67 billion backlog as of December 31, 2003.

Competitive Strengths

We believe our record of delivering large, complex construction projects on time for our clients provides us with a significant competitive advantage. Our commitment to producing high quality results is augmented by the following principal competitive strengths:

Market Leadership in Several High-Growth Building End Markets. In ENR's 2003 rankings, based on revenue, we ranked as the nation's 26th largest contractor in the general building market, 3rd largest builder in the hotel, motel and convention center market and one of the top 25 builders in the sports, entertainment and government office buildings markets. We also have significant experience in constructing educational facilities, such as university buildings and schools, correctional and healthcare facilities. Our significant experience, strong relationships, market leadership, design-build expertise and presence in key domestic markets allow us to successfully complete large projects that often require responsiveness, fast-track schedules, elaborate designs and advanced construction techniques in these high-growth building end markets.

Extensive Experience in Complex Civil Construction. For over 100 years, we have specialized in the repair, replacement and construction of highways and bridges, mass transit systems and water and wastewater systems, principally in the metropolitan New York and Boston markets. Our expertise and focus is on large, complex projects, particularly in dense urban areas and extends from publicly bid construction projects to negotiated design-build contracts.

Responsiveness and Performance with Challenging Projects. We have established a favorable reputation for our ability to execute challenging projects on time, on budget and to the customer's specifications. For example, we have been the contractor of choice for many large hotels, casinos and sports arenas because of our demonstrated ability to complete technically challenging construction projects. These projects often have accelerated completion schedules and demanding standards for quality, factors which are often more important to their owners than achieving the lowest cost. Furthermore, in providing services to government agencies, we have demonstrated our ability to rapidly and effectively respond to construction and related support needs in remote and sometimes volatile environments. For example, we recently performed design-build security upgrades at U.S. embassies throughout the world and currently are engaged in significant re-construction activities in Iraq and Afghanistan. Our clients often rely on us to respond rapidly to complete large, complex projects in challenging business or operating environments throughout the world.

Long-Term Relationships and Operating History with Clients. We maintain strong, long-term relationships with many of our clients. This is particularly beneficial in our building and management services segments where it often enables us to negotiate, rather than bid for, contracts. These relationships are very valuable as project owners begin to plan renovations of, or expansions to, existing projects, which occurs frequently in the hospitality and gaming market, or when owners such as the U.S. Army Corps of Engineers seek to execute support facility construction. Due to our historical involvement with numerous large projects, we have developed a detailed database of significant contract cost elements,

project specifications and owner requirements, which often allows us to complete expansions or renovations, or to integrate improvements into new projects faster and more efficiently than our competitors.

Table of Contents

Focus on Managing Contract and Project Risk. Our extensive experience and history in our markets provide us with an understanding of the risks associated with certain projects. We mitigate risk in a variety of ways, including a thorough bid review and approval process, incorporating safeguards into our contracts, subcontracting certain project components to other contractors, quickly and effectively communicating with our clients with regard to changes in project scope or size and by structuring our contracts or pursuing joint venture arrangements to provide a balance between risk and reward opportunity. For example, approximately 18% of our revenues for 2003 were earned through fixed price contracts, which provide greater reward opportunities but are accompanied by higher risk, while the remaining 82% were earned through lower risk cost-plus, guaranteed maximum price or construction management contracts. We constantly weigh opportunity and risks in our overall project portfolio and balance exposures across project types, industries, owners and contract types.

Experienced Management Team and Highly Skilled Workforce. Our senior management team has an average of 29 years in the construction industry and 23 years with us. We benefit from this experience in many ways, including construction and management expertise, extensive customer relationships, longstanding relationships with experienced subcontractors in various markets and a strong corporate culture. Our workforce is also key to our success, bringing diverse work experiences as well as specialized project expertise to our team.

Growth Strategy

We will seek to increase shareholder value by pursuing the following growth strategies:

Leverage Leadership Position in Hospitality and Gaming Market. We are among the nation's largest contractors for casinos, hotels and convention centers. We believe that demand for new construction in the hospitality and gaming market will continue to expand due to increased consumer spending on leisure and sports and entertainment activities driven by increasing consumer disposable income. In addition, we are observing increased planning and construction activities for hospitality and gaming projects among Native American sovereign nations in locations throughout the country. Moreover, even after initial construction, hospitality and gaming facilities often undertake significant renovation and expansion projects in order to continue to attract clientele. These market dynamics present an attractive business opportunity for our building segment. We intend to leverage our leadership position in this market by emphasizing our experience and expertise, as well as our proven ability to complete challenging projects on accelerated schedules on time and within budget, and our strong relationships and reputation among industry participants.

Extend Building Construction Expertise to Additional Markets. As we expand our market presence within particular project types or geographic areas, we will seek opportunities to cross-utilize our building construction expertise. For instance, we have been able to successfully leverage the experience we gained from constructing hospitality and gaming projects in Nevada and selected sports arenas into new markets and related projects. Also, with our recent acquisition of Cummings, we established a significant market presence in south Florida, particularly in the construction of schools, municipal buildings and commercial facilities. We believe this market presence will enhance and accelerate our ability to successfully compete in other end markets in the state of Florida. We will pursue these and related opportunities to extend our construction expertise to building end markets and geographical areas where we hold a competitive advantage.

Pursue Expanding Federal Contracting Opportunities for Defense, Reconstruction and Security. We have well established relationships with U.S. government agencies that include, among others, the Departments of Defense and State. These customers represent growth opportunities for us, particularly with the expanded outsourcing of federal jobs and increased spending on defense, reconstruction and security. Our ability to effectively compete for this growing business is strengthened by our proven ability to respond rapidly to technically challenging assignments. During the 1995 through 2001 period, we were under contract with the United States Navy to provide rapid response construction services worldwide. In Afghanistan, we recently completed the construction of buildings and infrastructure for a 6,000-person base to be used by the new Afghan army and have recently begun construction of similar facilities at another base. In April 2003, we were awarded a

Table of Contents

contract by the U.S. Army Corps of Engineers to help rebuild Iraq, a contract for which spending authorization was recently increased from \$100 million to a maximum of \$500 million, subject to identification and award of specific contract task orders. In January 2004, we were awarded a new contract for the U.S. Army Corps of Engineers Transatlantic Programs Center, with a maximum potential value of \$1.5 billion, subject to identification and award of specific contract task orders. We will continue to pursue additional opportunities in Iraq and Afghanistan, as well as construction and support projects at various domestic and overseas locations, including military bases, military installations and U.S. embassies.

Seek Complex Civil Construction Projects in the Northeast. We intend to maintain and build upon our established position as a leading civil construction contractor in the northeastern United States. However, we will do so selectively, with our business levels reflective of our risk tolerance, resource allocation, joint venture opportunities and targeted profit margins. As an example, for the year ended December 31, 2003, our revenues from civil construction declined to \$176.9 million from \$312.5 million in 2002. This decline in revenue occurred despite the fact that our overall bidding activity in the civil market during the periods remained relatively constant. Our reduced revenues were reflective of our unwillingness to bid work at unacceptable levels of profit or business risk in an unusually competitive bidding environment. We believe our opportunities and activity in winning civil work will increase as some competitors experience unacceptable profit margins and challenging construction conditions. Moreover, we believe there is a substantial and growing backlog of infrastructure replacement and repair needs in our principal markets that must be addressed in the near future. We will focus on large, complex public works projects in dense urban areas, particularly in the metropolitan New York area, where we are one of a limited number of construction firms that can consistently pre-qualify for these types of projects. We believe we have a competitive advantage on these projects as a result of our technical expertise, our significant local resources and our proven record of performance.

Focus on Margin Expansion Opportunities. We will actively seek to expand our profit margins by managing our business mix, targeting high value-added projects and continuously evaluating our corporate support and field operations cost structures. We anticipate that our business opportunities and revenues will grow more rapidly in our building and management services segments, as a result of both private and federal contracting opportunities. Additionally, in targeting our business development and bidding activity, we will emphasize large, complex projects that require innovative engineering, challenging logistics or completion schedules and construction capabilities where we have demonstrated expertise. These projects can generate and justify higher profit margins due to the higher value-added nature of our services. We will also seek to control our corporate overhead expenses and closely monitor field operations, with a view toward discontinuing unprofitable and unpromising operations. For example, in 1998 we closed unprofitable business units in the Midwest region after concluding that future business prospects did not justify the operating losses experienced by the units. As we pursue opportunities to expand our profit margins, we will remain attentive to our rigorous standards for quality, risk mitigation, market leadership and safety.

Pursue Selected Strategic Acquisitions. We intend to supplement our internal growth and achieve strategic benefits by pursuing selected acquisitions. In particular, we will seek profitable, well managed businesses with operations complementary to our building and management services activities. We believe that our recent acquisition of Cummings demonstrates our ability to successfully identify, execute and integrate strategic acquisitions.

Representative Clients and Projects

The table below is a summary of on-going and recently completed projects organized by our current primary end markets within each of our business segments:

End Market	Representative Clients/Projects	Location
<i>Building Segment</i>		

Edgar Filing: PERINI CORP - Form 424B1

Hospitality and Gaming

General

Paris Hotel & Casino

Las Vegas, NV

Gaylord Palms Resort and Convention Center

Orlando, FL

Native American

Mohegan Sun Hotel/Casino Expansion

Uncasville, CT

Table of Contents

End Market	Representative Clients/Projects	Location
	Seminole Hard Rock Hotel and Casino	Hollywood, FL
Sports and Entertainment	Bank One Ballpark	Phoenix, AZ
	The Palace at Auburn Hills	Auburn Hills, MI
Education Facilities	Florida International University, Health & Life Sciences Building	Miami, FL
	East Connecticut State University Dormitory	Willimantic, CT
Transportation Facilities	100 th Street Bus Depot	New York, NY
	Airport Parking Garage and Rental Car Facility	Ft. Lauderdale, FL
Healthcare Facilities	South Shore Hospital Expansion	Weymouth, MA
	La Posada Senior Living Community	Palm Beach Gardens, FL
<i>Civil Segment</i>		
Highways	I-93 Northbound Tunnel/Atlantic Avenue (Central Artery/Tunnel Project)	Boston, MA
	Long Island Expressway Reconstruction	Queens, NY
Bridges	Williamsburg Bridge Reconstruction	New York, NY
	Triborough Bridge Deck Replacement	New York, NY
Mass Transit	Hudson-Bergen Light Rail	Jersey City, NJ
	Jamaica Station Reconstruction	Jamaica, NY
<i>Management Services Segment</i>		
U.S. Government Services	U.S. Embassy Security Upgrade	Worldwide
	Reconstruction of Electric Power Facilities	Southern Iraq
Power Facilities Maintenance	Exelon Nuclear (10 Stations, 17 Units)	IL, NJ and PA

Markets and Clients

Our construction services are targeted toward end markets that are diversified across project types, client characteristics and geographic locations. Revenues by business segment for each of the three years in the period ended December 31, 2003 are set forth below:

Revenues by Segment

	Year Ended December 31,		
	2003	2002	2001
		(in thousands)	
Building	\$ 898,254	\$ 631,860	\$ 1,120,161
Civil	176,877	312,528	353,957
Management Services	298,972	140,653	79,278
Total	\$ 1,374,103	\$ 1,085,041	\$ 1,553,396

Table of Contents

Revenues by end market for the building segment for each of the three years in the period ended December 31, 2003 are set forth below:

Building Segment Revenues by End Market			
Year Ended December 31,			
	2003	2002	2001
	(in thousands)		
Hospitality and Gaming	\$ 541,575	\$ 513,374	\$ 1,013,206
Sports and Entertainment	126,705	72,729	22,699

Total	\$ 298,972	\$ 140,653	\$ 79,278

We provide our services to a broad range of private and public clients. The allocation of our revenues by client source for each of the three years in the period ended December 31, 2003 is set forth below:

	Revenues by Client Source		
	Year Ended December 31,		
	2003	2002	2001
Private Owners	61%	65%	73%
State and Local Governments	23	30	24
Federal Governmental Agencies	16	5	3
Total	100%	100%	100%

Table of Contents

Private Owners. We derived approximately 61% of our revenues from private clients during 2003. Our private clients include major hospitality and gaming resort owners, Native American sovereign nations, private developers, healthcare and retirement companies and a leading owner and operator of power facilities. We provide services to our private customers primarily through negotiated contract arrangements, as opposed to competitive bids.

State and Local Governments. We derived approximately 23% of our revenues from state and local government customers during 2003. Our state and local government customers include state transportation departments, state and local correctional departments, metropolitan authorities, cities, municipal agencies, school districts and public universities. We provide services to our state and local customers primarily pursuant to contracts awarded through competitive bidding processes. Our civil contracting services are concentrated in the northeast, principally in the metropolitan New York and Boston markets. Our building construction services for state and local government customers, which have included schools and dormitories, correctional and healthcare facilities, parking structures and municipal buildings, are in locations throughout the country. Since our acquisition of Cummings in January 2003, we have been particularly active in providing construction services for local government customers in Florida.

Federal Governmental Agencies. We derived approximately 16% of our revenues from federal governmental agencies during 2003. These agencies have included the State Department, the U.S. Navy and the U.S. Army Corps of Engineers. We provide services to federal agencies primarily pursuant to contracts for specific or multi-year assignments that involve new construction or infrastructure improvements. A substantial portion of our revenues from federal agencies is derived from projects in overseas locations. Our share of revenues derived from federal customers has increased steadily in recent years. We expect this trend to continue for the foreseeable future as a result of our expanding base of experience and relationships with federal agencies, together with favorable market and expenditure trends for defense, security and reconstruction work.

Backlog

We include a construction project in our backlog at such time as a contract is awarded or a firm letter of commitment is obtained and funding is in place. As a result, the backlog figures are firm, subject only to the cancellation provisions contained in the various contracts. Historically, these provisions have not had a material adverse effect on us.

Our construction backlog at December 31, 2003 was \$1,666.5 million compared to \$990 million at December 31, 2002 (or \$1,160 million when adjusted for the addition of backlog from the January 2003 acquisition of Cummings). We experienced a robust new work acquisition period during the second half of 2003 and each of our business segments ended 2003 with a higher backlog than it began the year with as illustrated in the following table:

	Backlog at December 31, 2002	New Business Awarded	Revenue Recognized	Backlog at December 31, 2003
	(in thousands)			
Building	\$ 525,433	\$ 1,269,620	\$ (898,254)	\$ 896,799
Civil	210,562	272,013	(176,877)	305,698
Management Services	254,180	508,759	(298,972)	463,967
Total	\$ 990,175	\$ 2,050,392	\$ (1,374,103)	\$ 1,666,464

We estimate that approximately \$460 million (or 28%) of our backlog at December 31, 2003 will not be completed in 2004.

Competition

The construction industry is highly competitive and the markets in which we compete have numerous and often larger companies that provide similar services. In certain end markets of the building segment, such as hospitality and gaming, we are one of the largest providers of construction services in the United States, but within other end markets of the building segment, and within the civil and management services segments, there are competitors with significantly greater capabilities and resources. In our building segment, we compete with a variety of national and regional contractors. In the west, our primary competitors are Marnell-Carrao, Huntcor and McCarthy. In the northeast, our primary competitors are Suffolk, Gilbane and Turner and in the southeast our primary competitors include Centex-Rooney, James B. Pirtle and Whiting-Turner. In our management services segment, we compete principally with national engineering and construction firms such as Fluor, Bechtel, Washington Group International and Kellogg Brown & Root. In our civil segment, we compete principally with large civil construction firms that operate in the northeast, including Slattery/Skanska, Granite Construction/Halmar, Tully and Schiavone. We believe price, experience, reputation, responsiveness, customer relationships, project completion track record and quality of work are key factors in clients awarding contracts across our end markets.

Table of Contents**Types of Contracts and The Contract Process***Types of Contracts*

The general contracting and management services we provide consist of planning and scheduling the manpower, equipment, materials and subcontractors required for the timely completion of a project in accordance with the terms, plans and specifications contained in a construction contract. We provide these services by using traditional general contracting arrangements, such as fixed price, guaranteed maximum price and cost plus fee contracts and, to a lesser extent, construction management or design-build contracting arrangements. These contract types and the risks generally inherent therein are discussed below:

Fixed price (FP) contracts, which include fixed unit price contracts, are generally used in competitively bid public civil construction projects and, to a lesser degree, building construction projects and generally commit the contractor to provide all of the resources required to complete a project for a fixed sum or at fixed unit prices. Usually FP contracts transfer more risk to the contractor but offer the opportunity, under favorable circumstances, for greater profits. FP contracts represent a significant portion of our publicly bid civil construction projects. Design-build projects are also generally performed under a FP contract.

Cost plus fee (Cost Plus) contracts provide for reimbursement of the costs required to complete a project plus a stipulated fee arrangement. Cost Plus contracts include cost plus fixed fee (CPFF) contracts and cost plus award fee (CPAF) contracts. CPFF contracts provide for reimbursement of the costs required to complete a project plus a fixed fee. CPAF contracts provide for reimbursement of the costs required to complete a project plus a base fee as well as an incentive fee based on cost and/or schedule performance. Cost Plus contracts serve to minimize the contractor's financial risk, but may also limit profits. Services provided by our management services segment to various U.S. government agencies often are performed under Cost Plus contracts.

Guaranteed maximum price (GMP) contracts provide for a cost plus fee arrangement up to a maximum agreed upon price. These contracts place risks on the contractor for amounts in excess of the GMP, but may permit an opportunity for greater profits than under Cost Plus contracts through sharing agreements with the owner on any cost savings that may be realized. Services provided by our building segment to various private customers often are performed under GMP contracts.

Construction management (CM) contracts are those under which a contractor agrees to manage a project for the owner for an agreed upon fee, which may be fixed or may vary based upon negotiated factors. CM contracts serve to minimize the contractor's financial risk, but may also limit profit relative to the overall scope of a project.

Historically, a high percentage of our contracts have been of the fixed price and GMP type. A summary of revenues and backlog by type of contract for each of the three years in the period ended December 31, 2003 follows:

	Backlog as of December 31		
	2003	2002	2001
Fixed Price	30%	30%	41%
Cost Plus, GMP or CM	70	70	59
	100%	100%	100%

	Revenues for the Year		
	Ended December 31,		
	2003	2002	2001
Fixed Price	18%	35%	25%
Cost Plus, GMP or CM	82	65	75
	100%	100%	100%

Table of Contents

The Contract Process

We identify potential projects from a variety of sources, including advertisements by federal, state and local governmental agencies, through the efforts of our business development personnel and through meetings with other participants in the construction industry such as architects and engineers. After determining which projects are available, we make a decision on which projects to pursue based on such factors as project size, duration, availability of personnel, current backlog, competitive advantages and disadvantages, prior experience, contracting agency or owner, source of project funding, geographic location and type of contract.

After deciding which contracts to pursue, we generally have to complete a prequalification process with the applicable agency or customer. The prequalification process generally limits bidders to those companies with operational experience and financial capability to effectively complete the particular project(s) in accordance with the plans, specifications and construction schedule.

The estimating process typically involves three phases. Initially, we perform a detailed review of the plans and specifications, summarize the various types of work involved and related estimated quantities, determine the project duration or schedule and highlight the unique and riskier aspects of the project. After the initial review, we decide whether or not to continue to pursue the project. If the answer is positive, we perform the second phase of the estimating process which consists of estimating the cost and availability of labor, material, equipment, subcontractors and the project team required to complete the project on time and in accordance with the plans and specifications. The final phase consists of a detailed review of the estimate by management including, among other things, assumptions regarding cost, approach, means and methods, productivity and risk. After the final review of the cost estimate, management adds an amount for profit to arrive at the total bid amount.

Public bids to various governmental agencies are generally awarded to the lowest bidder. Requests for proposals or negotiated contracts with public or private owners are generally awarded based on a combination of technical capability and price, taking into consideration factors such as project schedule and prior experience.

During the construction phase of a project, we monitor our progress by comparing actual costs incurred and quantities completed to date with budgeted amounts and the project schedule and periodically, at a minimum on a quarterly basis, prepare an updated estimate of total forecasted revenue, cost and profit for the project.

During the normal course of most projects, the owner and sometimes the contractor initiate modifications or changes to the original contract to reflect, among other things, changes in specifications or design, method or manner of performance, facilities, equipment, materials, site conditions and period for completion of the work. Generally, the scope and price of these modifications are documented in a change order to the original contract and reviewed, approved and paid in accordance with the normal change order provisions of the contract.

Many times we are required to perform extra or change order work as directed by the customer even if the customer has not agreed in advance on the scope or price of the work to be performed. This process may result in disputes over whether the work performed is beyond the scope of the work included in the original project plans and specifications or, if the customer agrees that the work performed qualifies as extra work, the price the customer is willing to pay for the extra work. Even when the customer agrees to pay for the extra work, we may be required to fund the cost of such work for a lengthy period of time until the change order is approved and funded by the customer. Also, these unapproved change orders, contract disputes or claims result in costs being incurred by us that cannot be billed currently and, therefore, are reflected as Unbilled Work in our balance sheet. See Note 1(d) of Notes to Consolidated Financial Statements. In addition, any delay caused by the extra work may adversely impact the timely scheduling of other project work and our ability to meet specified contract milestone dates.

The process for resolving claims vary from one contract to another but, in general, we attempt to resolve claims at the project supervisory level through the normal change order process or with higher levels of management within our organization and the customer's organization. Depending upon the terms of the contract,

Table of Contents

claim resolution may employ a variety of other resolution methods, including mediation, binding or non-binding arbitration or litigation. Regardless of the process, when a potential claim arises on a project, we typically have the contractual obligation to perform the work and must incur the related costs. We do not recoup the costs until the claim is resolved. It is not uncommon for the claim resolution process to take months or years to resolve, especially if it involves litigation.

Our contracts generally involve work durations in excess of one year. Revenue on contracts in process is generally recorded under the percentage of completion contract accounting method. For a more detailed discussion of our policy in these areas, see Note 1(d) of Notes to Consolidated Financial Statements, entitled Method of Accounting for Contracts.

Construction Costs

While our business may experience some adverse consequences if shortages develop or if prices for materials, labor or equipment increase excessively, provisions in certain types of contracts often shift all or a major portion of any adverse impact to the customer. On fixed price contracts, we attempt to insulate ourselves from the unfavorable effects of inflation by incorporating escalating wage and price assumptions, where appropriate, into our construction bids and by obtaining firm fixed price quotes from major subcontractors and material suppliers at the time of the bid. Construction and other materials used in our construction activities are generally available locally from multiple sources and have been in adequate supply during recent years. Construction work in selected overseas areas primarily employs expatriate and local labor which can usually be obtained as required.

Environmental Matters

Our properties and operations are subject to federal, state and municipal laws and regulations relating to the protection of the environment, including requirements for water discharges, air emissions, the use, management and disposal of solid or hazardous materials or wastes and the cleanup of contamination. For example, we must apply water or chemicals to reduce dust on road construction projects and to contain contaminants in storm run-off water at construction sites. In certain circumstances, we may also be required to hire subcontractors to dispose of hazardous wastes encountered on a project in accordance with a plan approved in advance by the owner. We believe that we are in substantial compliance with all applicable laws and regulations. However, future requirements or amendments to current laws or regulations imposing more stringent requirements could require us to incur costs to maintain or achieve compliance.

In addition, some environmental laws, such as the U.S. federal Superfund law and similar state statutes, can impose liability for the entire cost of cleanup of contaminated sites upon any of the current or former owners or operators or upon parties who sent wastes to these sites, regardless of who owned the site at the time of the release or the lawfulness of the original disposal activity. Contaminants have been detected at some of the sites that we own, or where we worked as a contractor in the past, and we have incurred costs for investigation or remediation of hazardous substances. We also believe that our liability for these sites will not be material, either individually or in the aggregate, and have pollution legal liability insurance available for such matters. We believe that we have minimal exposure to environmental liability as a result of the activities of Perini Environmental Services, Inc., or Perini Environmental, a wholly owned subsidiary of Perini that was phased out during 1997. Perini Environmental provided hazardous waste engineering and construction services to both private clients and public agencies nationwide. Perini Environmental was responsible for compliance with applicable laws in connection with its activities; however, Perini and Perini Environmental generally carried insurance or received indemnification from customers to cover the risks associated with the remediation business.

We currently own real estate in three states and as an owner, are subject to laws governing environmental responsibility and liability based on ownership. We are not aware of any significant environmental liability associated with our ownership of real estate.

Table of Contents

Real Estate Operations

Effective June 30, 1999, management adopted a plan to withdraw completely from the real estate development business and to wind down the operations of Perini Land and Development Company, or PL&D, our wholly owned real estate development subsidiary. Accordingly, approximately 97.5% of the property has been liquidated since June 30, 1999. As of December 31, 2003, the only land remaining to be sold consists of certain fully developed parcels in Raynham, Massachusetts. This property is included in Other Assets on the Consolidated Balance Sheet. See Note 13 of Notes to Consolidated Financial Statements.

Insurance and Bonding

All of our properties and equipment, both directly owned or owned through joint ventures with others, are covered by insurance and management believes that such insurance is adequate. In addition, we maintain general liability, excess liability and workers compensation insurance in amounts that we believe are consistent with our risk of loss and industry practice. During 2000 and 2001, we were able to significantly limit our financial risk under our workers compensation and general liability insurance coverage by purchasing traditional insurance policies in a favorable insurance market. Due to tight conditions in the insurance market, effective for the calendar year 2002 and continuing into 2003, we found it necessary to purchase workers compensation and general liability policies at substantially higher premiums with a self-insured deductible limit of \$250,000 per occurrence, with appropriate aggregate caps on losses retained.

As a normal part of the construction business, we are often required to provide various types of surety bonds as an additional level of security of our performance. We have surety arrangements with several sureties, one of which we have dealt with for over 75 years and another of which owns approximately 21% of our outstanding common stock. See Note 12 of Notes to Consolidated Financial Statements.

Employees

The total number of personnel employed by us is subject to seasonal fluctuations, the volume of construction in progress and the relative amount of work performed by subcontractors. During 2003, the average number of employees was approximately 2,400, with a maximum of approximately 3,500 and a minimum of approximately 1,600. As of December 31, 2003, we employed approximately 1,725 people.

We operate as a union contractor. As such, we are a signatory to numerous local and regional collective bargaining agreements, both directly and through trade associations, throughout the country. These agreements cover all necessary union crafts and are subject to various renewal dates. Estimated amounts for wage escalation related to the expiration of union contracts are included in our bids on various projects and, as a result, the expiration of any union contract in the next fiscal year is not expected to have any material impact on us. As of December 31, 2003, approximately 825 of our total of 1,725 employees were union employees. During the past several years, we have not experienced any work stoppages.

Table of Contents**Properties**

Properties used in our construction operations as of December 31, 2003 are summarized below:

	Business Segment(s)	Owned or Leased by Perini	Approximate Acres	Approximate Square Feet of Office Space
Principal Offices				
Framingham, MA	Building, Civil and Management Services	Owned	9	100,000
Phoenix, AZ	Building	Leased		22,700
Peekskill, NY	Civil	Owned	2	21,000
Ft. Lauderdale, FL	Building	Leased		17,500
Las Vegas, NV	Building	Leased		7,400
Celebration, FL	Building	Leased		4,800
Carlsbad, CA	Building	Leased		3,900
Detroit, MI	Building	Leased		2,500
			<u>11</u>	<u>179,800</u>
Principal Permanent				
Storage Yards				
Bow, NH	Civil	Owned	70	
Framingham, MA	Building and Civil	Owned	6	
Las Vegas, NV	Building	Leased	2	
Peekskill, NY	Civil	Owned	3	
			<u>81</u>	

We believe our properties are well maintained, in good condition, adequate and suitable for our purpose and fully utilized. Properties for sale applicable to our previously discontinued real estate activities are described above under Real Estate Operations.

Legal Proceedings*Mergentime Perini Joint Ventures vs. WMATA Matter*

On May 11, 1990, contracts with two joint ventures in which Perini held a 40% interest were terminated by the Washington Metropolitan Area Transit Authority, or WMATA, on two subway construction projects in the District of Columbia. The contracts were awarded to the joint ventures in 1985 and 1986. However, Perini and Mergentime Corporation, or Mergentime, the 60% managing partner, entered into an agreement in 1987 under which Perini withdrew from the joint ventures and Mergentime assumed complete control over the performance of both projects. This agreement did not relieve Perini of its responsibilities to WMATA as a joint venture partner. After Perini withdrew from the joint ventures,

Edgar Filing: PERINI CORP - Form 424B1

Mergentime and WMATA had a dispute regarding progress on the projects. After both construction contracts were terminated, WMATA retained Perini, acting independently, to complete both projects.

Subsequently, the joint ventures brought an action in the United States District Court for the District of Columbia against WMATA, seeking damages for delays, unpaid extra work and wrongful termination and WMATA brought an action against the joint ventures seeking damages for additional costs to complete the projects. After a bench trial, the District Court found the joint ventures liable to WMATA for damages in the amount of approximately \$16.5 million and WMATA liable to the joint ventures for damages in the amount of approximately \$4.3 million.

Table of Contents

The joint ventures appealed the judgment to the United States Court of Appeals for the District of Columbia, and on February 16, 1999, the Court of Appeals vacated the District Court's final judgment and ordered the District Court to review its prior findings and hold further hearings in regard to the joint venture's affirmative claims. In addition, the Court of Appeals held that statutory interest on any of the claims will not accrue until final judgment is entered sometime in the future.

On February 28, 2001, a successor District Court Judge informed the parties that he could not certify adequate familiarity with the record to complete the remaining proceedings; therefore, he granted the joint ventures' motion for a new trial. The joint ventures are seeking \$28.9 million, plus interest, from WMATA, and WMATA is seeking \$29.3 million from the joint ventures. A new trial was completed in January 2002 and a decision is still pending. The ultimate financial impact of the Judge's pending decision is not yet determinable; therefore, no provision for loss, if any, has been recorded in the financial statements.

Tutor-Saliba-Perini Joint Venture vs. Los Angeles MTA Matter

During 1995, a joint venture, Tutor-Saliba-Perini, or TSP, in which Perini is the 40% minority partner and Tutor-Saliba Corporation of Sylmar, California is the 60% managing partner, filed a complaint in the Superior Court of the State of California for the County of Los Angeles against the Los Angeles County Metropolitan Transportation Authority, or the MTA, seeking to recover costs for extra work required by the MTA in connection with the construction of certain tunnel and station projects. In February 1999 the MTA countered with civil claims under the California False Claims Act against TSP, Tutor-Saliba and Perini jointly and severally. Ronald N. Tutor, the Chairman and Chief Executive Officer of Perini since March 2000, is also the chief executive officer and the sole stockholder of Tutor-Saliba Corporation.

Claims concerning the construction of the MTA projects were tried before a jury in 2001. During trial, the Judge ruled that TSP had failed to comply with the Court's prior discovery orders and the Judge penalized TSP, Tutor-Saliba and Perini for the alleged non-compliance by dismissing TSP's claims and by ruling, without a jury finding, that TSP, Tutor-Saliba and Perini were liable to the MTA for damages on the MTA's counterclaims. The Judge then instructed the jury that TSP, Tutor-Saliba and Perini were liable to the MTA and charged the jury with the responsibility of determining the amount of the damages based on the Judge's ruling. The jury awarded the MTA approximately \$29.6 million in damages.

On March 26, 2002, the Judge amended the award, ordering TSP to pay the MTA an additional \$33.4 million in costs and attorney fees, with the aggregate \$63.0 million award subject to interest at an annual rate of 10% from the date of the award.

TSP and the other plaintiffs/defendants in the counterclaim have appealed the Judge's discovery sanction, the subsequent jury award and the amended award. Oral arguments on the appeal are anticipated to be set some time in Summer 2004. The ultimate financial impact of the Judge's ruling and/or the awards is not yet determinable. Therefore, no provision for loss, if any, has been recorded in the financial statements.

City of San Francisco vs. Tutor-Saliba, Perini & Buckley Joint Venture Matter

In November 2002, the San Francisco City Attorney, on behalf of the City and County of San Francisco and the citizens of California, filed a civil action with a demand for a jury trial against Perini, Tutor-Saliba Corporation, or TSC, the Tutor-Saliba, Perini & Buckley Joint Venture, Buckley & Company, Inc. and their bonding companies in the United States District Court in San Francisco relating to seven projects for work on the expansion of the San Francisco International Airport. A second amended complaint was filed in July 2003 which, among other things,

Edgar Filing: PERINI CORP - Form 424B1

added Ronald N. Tutor as a defendant. The joint venture was established by TSC, Perini and Buckley through two joint venture agreements dated October 28, 1996 and February 11, 1997. The joint venture had agreements with the Owner to perform work (Contracts) on only two of the above projects (Projects) and, as part of those Contracts, the joint venture provided performance and payment bonds to the Owner (Bonds).

Table of Contents

In the second amended complaint, the plaintiffs allege, among other things, various overcharges, bidding violations, violations of minority contracting regulations, civil fraud and violation of the California and San Francisco False Claims and California Unfair Competition Acts. In addition, the plaintiffs allege that the defendants have violated the United States Racketeer Influenced Corrupt Organizations Act. The plaintiffs have asserted \$30 million in damages and are seeking treble damages, punitive and exemplary damages, various civil penalties and a declaration that TSC and the joint venture are irresponsible bidders. It is unclear based on the plaintiff's current complaint what portion of the plaintiff's claims relate to the two projects that the joint venture participated in.

On October 3, 2003, the Court granted the defendants' motion to specify damages allegedly sustained for each contract. The defendants' motion to dismiss the plaintiff's second amended complaint is pending.

TSC is the managing partner of the joint venture and, in December 1997, Perini sold its entire 20% interest in the joint venture to TSC. As part of that sale agreement, TSC agreed to indemnify Perini from any liability that Perini is required to pay by reason of or arising out of any event or occurrence subsequent to the date of the sale of Perini's interest in the joint venture in any way connected with the joint venture agreements, the Contracts, the Projects and the Bonds. It is unclear based on the plaintiff's current complaint whether the claims against the joint venture arise out of events that occurred subsequent to the date of the sale of Perini's interest. The ultimate financial impact of this action is not yet determinable.

Perini/Kiewit/Cashman Joint Venture - Central Artery/Tunnel Project Matter

Perini/Kiewit/Cashman Joint Venture, or PKC, a joint venture in which Perini holds a 56% interest and is the managing partner, is currently pursuing a series of claims for additional contract time and/or compensation against the Massachusetts Highway Department, or MHD, for work performed by PKC on a portion of the Central Artery/Tunnel project in Boston, Massachusetts. During construction, MHD ordered PKC to perform changes to the work and issued related direct cost changes with an estimated value, excluding time delay and inefficiency costs, in excess of \$100 million. In addition, PKC encountered a number of unforeseen conditions during construction that greatly increased PKC's cost of performance.

Certain of PKC's claims have been presented to a Disputes Review Board, or the DRB, which consists of three construction experts chosen by the parties. To date, the DRB has ruled on a binding basis that PKC is entitled to additional compensation for its contract time delay claim in the amount of \$17.4 million. On March 20, 2002, the Superior Court of the Commonwealth of Massachusetts approved PKC's request to have MHD comply with the DRB's \$17.4 million award. The MHD has appealed the Superior Court decision to the Appeals Court of the Commonwealth of Massachusetts.

The DRB has also ruled on a binding basis that PKC is entitled to additional compensation awards totaling \$17.1 million for impacts and inefficiencies caused by MHD to certain of PKC's work. PKC has filed applications in these actions seeking to confirm the awards and MHD has filed civil actions in Massachusetts Superior Court seeking to vacate these awards.

Under the Dispute Resolution Rules of the contract, either party may periodically terminate the services of some or all of the DRB members provided that members who are removed under this provision will remain on the DRB through the completion of any then pending claims. The MHD has chosen to remove the current DRB members under this provision and those members are in the process of completing hearings on all pending claims. Although the replacement DRB members have been agreed upon, proceedings before the current DRB and the new DRB have been postponed pending completion of the negotiation and mediation discussed below.

Edgar Filing: PERINI CORP - Form 424B1

The pending claims yet to be decided by the current DRB on a binding basis have an anticipated value of \$49.4 million. The remaining claims to be decided by the replacement DRB on a non-binding basis have an anticipated value of \$72.6 million.

Table of Contents

On August 14, 2002 the Massachusetts Attorney General's office, pursuant to its authority under the Massachusetts False Claims Act, served a Civil Investigative Demand (CID) on Perini and the other joint venture partners. The CID sought the production of certain construction claims documentation in connection with the Central Artery/Tunnel Contract No. C11A1. PKC vigorously denies that it submitted any false claims and is cooperating with the Attorney General's Office in the ongoing investigation.

In December 2002, PKC and MHD entered into an agreement to attempt to resolve by negotiation and mediation all of the outstanding claims on the project. As part of the agreement, the MHD recommended for approval by the Massachusetts Turnpike Authority a contract modification that provides for provisional payments to PKC totaling \$25 million against PKC's outstanding claims. To date, PKC has received \$23.75 million of those provisional payments. The parties also agreed to stay the pending litigation and DRB proceedings during the negotiations. Perini began mediation on all claims in September 2003. Management has made an estimate of the total anticipated cost recovery on this project and it is included in revenue recorded to date. To the extent new facts become known or the final cost recovery included in the claim settlement varies from this estimate, the impact of the change will be reflected in the financial statements at that time.

Redondo/Perini Joint Venture vs. Siemens Transportation Matter

This is a binding arbitration proceeding arising out of a contract between the Redondo/Perini Joint Venture, or RPJV, a joint venture in which Perini and Redondo Construction Corp., or Redondo, each have a 50% interest and the Siemens Transportation Partnership, S.E., Puerto Rico, or STP. STP is constructing a public metropolitan passenger rail transportation project for the Commonwealth of Puerto Rico and RPJV is responsible for the design and construction of a portion of the project.

On March 19, 2002, Redondo filed a petition for reorganization under 11 U.S.C. Chapter 11 in U.S. Bankruptcy Court for the District of Puerto Rico.

On December 23, 2002, RPJV filed an arbitration demand against STP seeking the recovery of approximately \$38 million of additional costs related to design changes and the late completion of the design. On January 31, 2003, STP filed a counter-demand against RPJV seeking the recovery of damages allegedly related to defects in design and construction and the late completion of RPJV's work in the amount of approximately \$17.9 million along with the repayment of approximately \$22.6 million for alleged advances previously paid to RPJV.

On October 31, 2003, the parties each revised their statement of damages. RPJV's total claim is now approximately \$71 million. STP's revised claim is approximately \$69.5 million, including its claim for alleged advances already paid.

Discovery has begun, an arbitration panel has been chosen and arbitration evidentiary hearings are scheduled to begin on March 22, 2004. Management has made an estimate of the total cost recovery on this project and it is included in revenue recorded to date. To the extent new facts become known or the final cost recovery included in the claim settlement varies from this estimate, the impact of the change will be reflected in the financial statements at that time.

\$21.25 Preferred Shareholders Class Action Lawsuit

Edgar Filing: PERINI CORP - Form 424B1

On October 15, 2002, Frederick Doppelt, Arthur I. Caplan and Leland D. Zulch filed a lawsuit individually, and as representatives of a class of holders of our Depositary Shares against certain current and former directors of Perini. This lawsuit is captioned Doppelt, et al. v. Tutor, et al., United States District Court for the District of Massachusetts, No. 02CV12010MLW. Mr. Doppelt is a current director of Perini and Mr. Caplan is a former director of Perini.

Table of Contents

Specifically, the original complaint alleged that the defendants breached their fiduciary duties owed to the holders of the Depositary Shares and to Perini. The plaintiffs principally allege that the defendants improperly authorized the exchange of Series B Preferred Stock for common stock while simultaneously refusing to pay accrued dividends due on the Depositary Shares.

On January 6, 2003, the defendants moved to dismiss the lawsuit. Among other things, the defendants argued that: (1) they did not owe fiduciary duties to the holders of the Depositary Shares and (2) the claims of breach of fiduciary duty owed to Perini must be dismissed because the claim could only be brought as a derivative action.

On March 21, 2003, the plaintiffs filed an opposition to the motion to dismiss and in May 2003 the plaintiffs asked the Court for leave to file an amended complaint.

In June 2003 the plaintiffs were given leave to file an amended complaint. The amended complaint filed in July 2003 adds an allegation that the defendants have further breached their fiduciary duties by authorizing a tender offer for the purchase of up to 90% of the Depositary Shares and an allegation that the collective actions of the defendants constitute unfair and deceptive business practices under the provisions of the Massachusetts Consumer Protection Act. The amended complaint withdrew the allegation of a breach of fiduciary duty owed to Perini, but retained the allegation with respect to a breach of those duties owed to the holders of the Depositary Shares. The plaintiffs seek damages in an amount not less than \$15,937,500, trebled, plus interest, costs, fees and other unspecified punitive and exemplary damages.

On August 29, 2003, the defendants filed a motion to dismiss the amended complaint. The plaintiffs filed an opposition thereto and on October 14, 2003, the defendants filed their reply.

In 2001, a similar lawsuit was filed by some of the same plaintiffs in the United States District Court for the Southern District of New York, which claimed that we breached our contract with the holders of Depositary Shares. In 2002, the case was dismissed and upon appeal by the plaintiffs to the United States Court of Appeals for the Second Circuit, the Court of Appeals affirmed the dismissal.

Table of Contents**MANAGEMENT**

The following table shows information about our executive officers and directors as of March 1, 2004:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Ronald N. Tutor	62	Chairman, Chief Executive Officer and Director (Class II)
Robert Band	56	President, Chief Operating Officer and Director (Class I)
Michael E. Ciskey	53	Vice President, Chief Financial Officer
Zohrab B. Marashlian	59	President, Perini Civil Construction, a division of Perini
Craig W. Shaw	49	President, Perini Building Company, Inc., a wholly owned subsidiary of Perini
Peter Arkley	49	Director (Class III)
James A. Cummings	58	Director (Class III)
Frederick Doppelt	85	Director
Asher B. Edelman	63	Director
Robert A. Kennedy	67	Director (Class II)
Michael R. Klein	61	Director (Class I)
Raymond R. Oneglia	55	Director (Class III)

Ronald N. Tutor has served as our Chief Executive Officer since March 2000 and as one of our directors since January 1997. He has also served as our Chairman since July 1999. He previously served as our Vice Chairman from January 1998 to July 1999, and Chief Operating Officer from January 1997 until March 2000 when he became Chief Executive Officer. Mr. Tutor also serves as chairman, president and chief executive officer of Tutor-Saliba Corporation, a California corporation engaged in the construction industry.

Robert Band has served as a director since May 1999. He has also served as Chief Operating Officer since March 2000 and as President since May 1999. He previously served as Chief Executive Officer from May 1999 until March 2000, Executive Vice President and Chief Financial Officer from December 1997 until May 1999 and President of Perini Management Services, Inc. since January 1996.

Michael E. Ciskey has served as Chief Financial Officer since November 2003 and as Vice President since May 1984. He previously served as Corporate Controller from April 1999 until November 2003, Operations Controller from May 1998 until April 1999 and as Division Controller for various Perini civil construction business units from 1984 until 1998.

Zohrab B. Marashlian has served as President of Perini Civil Construction, a division of Perini that is responsible for Perini's civil construction operations, since December 1997. From April 1995 until December 1997, he served as President of Perini's Metropolitan New York Division.

Craig W. Shaw has served as President of Perini Building Company, a wholly owned subsidiary of Perini that is responsible for Perini's building construction operations, since October 1999. From April 1995 until October 1999, he served as President of Perini Building Company, Western U.S. Division.

Edgar Filing: PERINI CORP - Form 424B1

Peter Arkley has served as a director since May 2000. He has served as Western Regional Managing Director of AON Risk Services, Inc., an insurance and bonding brokerage firm, since January 1996.

James A. Cummings has served as a director since March 2003. He has served as Chairman and Chief Executive Officer of James A. Cummings, Inc. since 2001. He previously served as President of Cummings from 1981 until 2003.

Frederick Doppelt has served as a director since May 1998. He has been a self-employed attorney specializing in trust and estate matters since 1983.

Table of Contents

Asher B. Edelman has served as a director since May 2001. Mr. Edelman has served as general partner of Asco Partners, a general partner of Edelman Securities Company L.P. (formerly Arbitrage Securities Company) since June 1984 and is a General Partner and Manager of various investment partnerships and funds. Mr. Edelman also serves as chairman of the board of directors of Canal Capital Corporation, a company engaged in the management and development of agri-business related real estate properties and chairman of the board of directors of Cattle Sale Company, formerly Dynacore Holdings Corp., a provider of auction trading services to beef and dairy producers. On May 3, 2000, while Mr. Edelman was chairman of the board of directors, Dynacore Holdings Corporation filed for bankruptcy pursuant to Chapter 11 of the United States Bankruptcy Code. Dynacore Holdings Corp. emerged from bankruptcy in December 2000. In addition, Mr. Edelman was a member of a member-managed limited liability company that was a general partner in each of the following two partnerships that declared bankruptcy pursuant to Chapter 11 of the United States Bankruptcy Code: Papier I Partners, L.P. and Papier II Partners, L.P.

Robert A. Kennedy has served as a director since March 2000. From 1994 to 2003, Mr. Kennedy served in various capacities for The Union Labor Life Insurance Company, a provider of insurance and certain financial services to its union members and related trust funds, including as Vice President of Special Projects from 2001 to 2003. Mr. Kennedy currently serves as a consultant to The Union Labor Life Insurance Company.

Michael R. Klein has served as a director since January 1997 and as Vice Chairman of our Board since September 2000. Mr. Klein has been a partner of the law firm of Wilmer, Cutler & Pickering since 1974. Mr. Klein also serves as Chairman of the Board of Directors of CoStar Group, Inc., a provider of commercial real estate information, and as a director of SRA International, Inc., a provider of technology services and solutions to the United States federal government organizations.

Raymond R. Oneglia has served as a director since March 2000. He has also served as vice chairman of the board of directors of O&G Industries, Inc., a Connecticut corporation engaged in the construction industry, since 1997 and has served in various operating and administrative capacities since 1970.

Information Regarding our Board of Directors

Our affairs are managed under the direction of our Board of Directors. Our Directors serve until their successors are duly elected and qualified or until their earlier resignation, removal or disqualification. There are no family relationships between our directors and executive officers. For certain relationships between Perini and our directors see Certain Transactions. The Board of Directors met seven times during 2003. Our Board of Directors is divided into three approximately equal classes, each of whose members will serve for a staggered three-year term. Our Board of Directors consists of Mr. Band and Mr. Klein as Class I directors, whose term of office will continue until the 2006 annual meeting of stockholders, Mr. Kennedy and Mr. Tutor as Class II directors, whose term of office will continue until the 2004 annual meeting of stockholders, and Mr. Arkley, Mr. Cummings and Mr. Oneglia as Class III directors, whose term of office will continue until the 2005 annual meeting of stockholders.

The holders of the \$21.25 Preferred Stock have the right to elect, voting as a separate class, two directors in the event that dividends on the \$21.25 Preferred Stock are in arrears for at least six quarters. We have not paid any dividends on the \$21.25 Preferred Stock since 1995. Mr. Edelman and Mr. Doppelt have been elected by the holders of the \$21.25 Preferred Stock to serve as directors of Perini, and their terms will continue until the 2004 annual meeting of stockholders.

During 2003 all of our Directors attended at least 75% of the meetings of our Board of Directors and committees of which they are members, except for James A. Cummings, who attended approximately 71% of such meetings, and Peter Arkley who attended approximately 50% of such

meetings.

Table of Contents

Committees of Our Board of Directors

Audit Committee

Our Board of Directors has an Audit Committee, which consists of Raymond R. Oneglia, Michael R. Klein and Robert A. Kennedy. Each of the members of the Audit Committee meets the independence and experience requirements under the rules of the New York Stock Exchange. The Audit Committee met eight times during 2003 and is required to have at least four regular meetings each year. The primary duties and responsibilities of the Audit Committee are to oversee that management:

maintains the integrity of our internal controls, financial systems and financial statements;

maintains compliance with legal and regulatory requirements and our Business Conduct Policy; and

monitors the independence and performance of both our internal and external auditors.

Compensation Committee

Our Board of Directors has a Compensation Committee, which consists of Raymond R. Oneglia, Michael R. Klein and Peter Arkley. The duties of the Compensation Committee are summarized in The Compensation Committee Report on pages 57 through 59 herein. The Compensation Committee met five times during 2003 and is required to have at least three regular meetings each year.

Nominating Committee

Our Board of Directors has a Nominating Committee, which consists of Raymond R. Oneglia and Michael R. Klein. The duties of the Nominating Committee include identifying individuals qualified to become directors and recommending to the Board the persons to be nominated for election as directors at the annual meeting of stockholders.

Directors Compensation

During 2003, fees for our outside directors consisted of an annual retainer fee of \$25,000, plus \$900 per Board meeting attended, as well as \$900 per Committee meeting attended by members of the Audit, Compensation and Nominating Committees. Mr. Ronald N. Tutor, our Chairman since July 1, 1999 and our Chairman and Chief Executive Officer since March 29, 2000, has opted to receive no director fees since he is party to a Management Agreement described in Certain Transactions below.

Edgar Filing: PERINI CORP - Form 424B1

On September 10, 2003, the directors' fees were reviewed and the following changes made: The Chair of the Audit Committee will receive an additional annual retainer fee of \$10,000 and each member will receive a per meeting fee of \$2,000 for meetings attended in person and \$500 for meetings attended telephonically. In addition, the per meeting fee of \$900 for attendance at meetings of the Board of Directors, Compensation and Nominating Committees was reduced to \$300 for members that attend telephonically. The new fee schedule was instituted in the fourth quarter of 2003.

Director and Officer Indemnification

Our charter provides that no director shall be personally liable to us or to our stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for any breach of the director's duty of loyalty to us or our stockholders, for acts or omissions not in good faith, for acts or omissions involving intentional misconduct or a knowing violation of law or for any transaction from which the director derived an improper personal benefit. Our bylaws provide that our directors and officers will be indemnified against liabilities that arise from their service as directors and officers, subject to certain exceptions. We have entered into agreements with our directors and officers that also provide for such indemnification and expenses and liability reimbursement. We have obtained insurance which insures our directors and officers against certain losses and which insures us against our obligations to indemnify our directors and officers.

Table of Contents

Tutor-Saliba Management Agreement

In January 1997 we entered into a management agreement with Tutor-Saliba and Ronald N. Tutor, chief executive officer and sole stockholder of Tutor-Saliba, pursuant to which Mr. Tutor provides us with certain management services. This agreement is described under Certain Transactions Tutor-Saliba Management Agreement.

Employment Agreement with James A. Cummings

Mr. Cummings, a director of Perini, serves as chief executive officer of Cummings pursuant to an employment agreement dated January 21, 2003. The employment agreement has a five-year term, subject to termination by notice. The employment agreement provides for an initial base salary of \$250,000 through May 31, 2004 with the opportunity to earn an annual bonus of 100% of base salary if certain performance goals are met by Cummings. Under the employment agreement, Mr. Cummings is entitled to participate in any compensation, benefit and insurance programs maintained by us in which our senior executives are eligible to participate and certain other benefits, including reimbursement for automobile leases, general contracting license fees and any continuing education fees to maintain such license and certain reimbursements for country club dues.

If Mr. Cummings' employment is terminated by Cummings without cause or Mr. Cummings terminates his employment with Cummings for cause (as such term is defined in the employment agreement), then Mr. Cummings is entitled to receive his base salary until the earlier of (i) one year from the date of termination or (ii) the expiration of the employment agreement, subject to certain limitations, a pro rata portion of his annual bonus and approximately \$727,000 as payment for amounts otherwise due to Mr. Cummings in January 2008 under the purchase agreement pursuant to which we acquired Cummings. The agreement contains confidentiality and noncompetition provisions applicable to Mr. Cummings that are customary for an agreement of this type.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves as a member of the board of directors or compensation committee, or other committee serving an equivalent function, of any other entity that has one or more of its executive officers serving as a member of our Board of Directors or Compensation Committee. None of the current members of our Compensation Committee has ever been an employee of Perini.

Executive Officers

Each officer serves at the discretion of our Board of Directors and holds office until his or her successor is elected and qualified or until his or her earlier resignation or removal.

The Compensation Committee Report

Edgar Filing: PERINI CORP - Form 424B1

During 2003, the Compensation Committee of the Board of Directors of the Company consisted of three Directors, none of whom is an employee or an officer of the Company. The principal powers and duties of the Compensation Committee as established by the Board of Directors are:

1. To review the Executive Compensation programs and policies and to employ outside expert assistance, if required, to analyze Company compensation practices to assure that they are consistent with corporate goals and objectives, and competitive with those of comparable firms in the construction industry;
2. To recommend to the Board of Directors for its approval the base compensation of the Chairman and Chief Executive Officer and to review and approve the salary recommendations of the Chairman and Chief Executive Officer with respect to other members of top management;

Table of Contents

3. To recommend to the Board of Directors annual profit and other targets for the Company for the purpose of determining incentive compensation awards under the provisions of the Amended and Restated General and Construction Business Unit Incentive Compensation Plans (the Incentive Compensation Plan); and
4. To administer the Incentive Compensation Plan; such administration includes power to (i) approve Participation in the Plan, (ii) establish performance goals, (iii) determine if and when any bonuses shall be paid, (iv) pay out any bonuses, in cash or stock or a combination thereof, as the Committee shall determine from year to year, (v) construe and interpret the Incentive Compensation Plan, and (vi) establish rules and regulations and perform all other acts it believes reasonable and proper.

Compensation Policy

The Compensation Committee strives to maintain corporate base salaries and the total compensation package appropriate to attract and retain highly qualified executives. This results in base salaries that generally are at the median range of those of other construction companies but allows executives to substantially exceed the median compensation levels when incentive compensation is earned. While recognizing that it may be difficult to find other companies with the same mix of business as the Company, the Committee, nevertheless, believes that a comparison with other construction companies is appropriate.

The compensation program for executive officers is composed of three elements: base salaries, annual incentive bonuses and long-term incentive stock awards. These elements of compensation are designed to provide incentives to achieve both short-term and long-term objectives and to reward exceptional performance. Salaries and annual incentive compensation bonuses result in payment for performance and are tied to the achievement of profit and/or cash flow targets. The value if the incentive stock awards depends upon the appreciation in market value of our common stock.

Executive Salary Increases in 2003

Although certain members of top management designated as Named Executive Officers in the Summary Compensation Table did not receive salary increases in 2003, they did receive salary increases at the beginning of 2002 that ranged from 15% to 32%.

Section 162 (m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to the Company's Chief Executive Officer and four other most highly compensated executive officers. The Compensation Committee has not established any policy regarding annual compensation to such executive officers in excess of \$1,000,000. However, to date, no officer of the Company has received compensation in excess of \$1,000,000 for any annual period.

Compensation of the Chairman and Chief Executive Officer

Our Chairman and Chief Executive Officer, Ronald N. Tutor, is generally compensated for his services under a management services contract between Perini and Tutor-Saliba Corporation, a company in which Mr. Tutor is the Chief Executive Officer and sole stockholder, at an annual rate of \$250,000, which represented the same annual rate as 2002. The annual rate for 2004 will be \$375,000, which was approved by the Committee and the Board. In addition, Mr. Tutor was awarded \$500,000 in incentive compensation for 2003.

The Incentive Compensation Plan of the Company

The Incentive Compensation Plan is an integral part of the total compensation package of the Chairman and Chief Executive Officer, as well as the 5 executives whose salaries were reviewed by the Compensation Committee in 2003 and approximately 65 other employees of the Company. Eligibility and designated levels of

Table of Contents

participation are determined by the Chairman and Chief Executive Officer subject to Compensation Committee approval. Eligibility to participate under the Incentive Compensation Plan is limited to individuals who are executives, managers and key employees of the Company and its wholly owned subsidiaries, whose duties and responsibilities provide them the opportunity to (i) make a material and significant impact to the financial performance of the Company; (ii) have major responsibility in the control of the corporate assets; and (iii) provide critical staff support necessary to enhance operating profitability.

Under the terms of the Incentive Compensation Plan, participants can achieve incentive compensation awards ranging from zero to as much as 100% of base salary, which depends on the achievement of certain corporate goals, as defined. In addition, the Committee has the authority, when appropriate, to make certain discretionary incentive compensation awards. The mechanisms of the Incentive Compensation Plan are expressed in terms of levels of participation, points deriving therefrom calculated on base salary, and achievement of our net income target for the year.

No sums attributed to a participant in the Incentive Compensation Plan become vested until the Compensation Committee approves the payment, usually in March following the year earned. At the discretion of the Committee, payment can be made in cash, stock or a combination of cash and stock.

In 2004, the Committee authorized the payment of \$4,795,000 of incentive compensation payments for 2003 operations, to 70 participants. Payment of incentive compensation awards for 2003 performance will be paid 100% in cash.

COMPENSATION COMMITTEE

Peter Arkley

Michael R. Klein

Table of Contents**Executive Compensation and Other Information***Summary of Cash and Certain Other Compensation*

The following table sets forth the cash compensation paid by us and our subsidiaries, as well as certain other compensation paid or accrued for those years, to our Chief Executive Officer and each of our three other most highly compensated Executive Officers whose salary and bonus exceeded \$100,000 (the Named Executive Officers) for the years ended December 31, 2003, 2002 and 2001, or for each year in which a Named Executive Officer served as such.

Summary Compensation Table

Name and Principal Position	Year	Annual Compensation			Long-Term Compensation		
		Salary	Bonus	Other (1)	Awards Number of Securities Underlying Options Granted	Payouts Long-Term Performance Units Payout	All Other Compensation (3)
Ronald N. Tutor Chairman and Chief Executive Officer	2003	\$	\$ 500,000	\$ 250,000(2)		\$	\$
	2002		231,000	250,000(2)			
	2001		250,000	250,000(2)			
Robert Band President and Chief Operating Officer	2003	375,000	525,000				3,000
	2002	375,000	346,000				2,800
	2001	285,000	385,000				200
Zohrab B. Marashlian President, Perini Civil Construction	2003	375,000	150,000				3,000
	2002	375,000	325,000				2,800
	2001	325,000	425,000				200
Craig W. Shaw President, Perini Building Company, Inc.	2003	375,000	375,000				3,000
	2002	375,000	348,000				2,800
	2001	325,000	425,000				200
Michael E. Ciskey Vice President, Chief Financial Officer	2003	198,000	149,000				3,000

-
- (1) Other annual compensation does not include a dollar amount which we are unable to quantify, but which is estimated at not more than the lesser of \$50,000 or 10% of the salary and bonus reported for each Named Executive Officer, resulting from executive perquisites which may be of personal benefit to such individuals.
 - (2) Represents a management services fee paid to Tutor-Saliba Corporation of which Mr. Tutor is the chief executive officer and sole stockholder. See Certain Transactions Tutor-Saliba Management Agreement.
 - (3) All Other Compensation primarily represents estimated annual Perini 401(k) retirement contributions for each of the Named Executive Officers, except for Mr. Tutor.

Table of Contents*Equity Compensation Plans*

The following table sets forth certain summary information with respect to stock options granted and available for future grants under equity compensation plans approved and not approved by our stockholders as of December 31, 2003:

Equity Compensation Plan Information

<u>Plan category</u>	<u>Shares of Common Stock to be issued upon exercise of outstanding options</u>	<u>Weighted-average exercise price of outstanding options</u>	<u>Shares of Common Stock remaining available for future issuance under equity compensation plans (excluding shares of Common Stock reflected in column (a))</u>
	(a)	(b)	(c)
Equity Compensation Plans:			
Approved by Stockholders -			
Special Equity Incentive Plan*	2,503,300	\$ 4.49	195,634
1982 Stock Option Plan*	67,500	5.29	
Not approved by Stockholders -			
Options Granted to Certain Directors and Executive Officers*	435,000	7.92	
Total	3,005,800	\$ 5.00	195,634

* For detailed information concerning our equity compensation plans, see Note 9 entitled "Stock Options" of Notes to Consolidated Financial Statements.

Special Equity Incentive Plan - On May 25, 2000, our stockholders approved our Special Equity Incentive Plan. The aggregate number of shares of common stock that may be subject to outstanding options under the plan is 3,000,000 shares. As of December 31, 2003, options to purchase a total of 2,812,700 shares of common stock have been granted, options to purchase 309,400 shares of common stock have been exercised and 195,634 shares remain available for future grants under this plan.

Under the plan we are authorized to grant non-qualified stock options to our key executives, employees and directors. Options granted under the plan may not be granted at less than 100% of the fair market value of a share of common stock as of the date of grant and must be exercised within ten years of the date of grant.

The plan is administered by the Compensation Committee or other committee designated by the Board of Directors (the "Plan Administrator"). Subject to the provisions of the plan, the Plan Administrator has the authority to select the persons to whom options are granted and determine the terms of each option, including the number of options to be granted and the vesting schedule of each option. Unless otherwise permitted by us, options are not assignable or transferable except by will or the laws of descent and distribution.

Edgar Filing: PERINI CORP - Form 424B1

The Plan Administrator may, in its sole discretion, amend, modify, or terminate any option granted or made under the plan, so long as such amendment, modification or termination would not materially and adversely affect the participant. The Plan Administrator may also, in its sole discretion, accelerate or extend the date or dates on which all or any particular option or options granted under the plan may be exercised.

1982 Stock Option Plan - During 2002, the provisions of the 1982 Stock Option Plan expired. Therefore, the only shares of our authorized, but unissued, common stock still reserved under this plan are the 67,500 shares applicable to the remaining outstanding options.

Table of Contents*Option Exercises and Holdings*

The following table sets forth information with respect to our Named Executive Officers concerning the exercise of options during the year ended December 31, 2003 and unexercised options held as of December 31, 2003:

Aggregated Option Exercises in the Last Fiscal Year**and Fiscal Year-End Option Values**

<u>Name</u>	<u>Number of Securities Underlying Shares Acquired on Exercise</u>	<u>Value Realized</u>	<u>Number of Unexercised Options at December 31, 2003</u>		<u>Value of Unexercised In-the-Money Options at December 31, 2003</u>				
			<u>Exercisable</u>	<u>Unexercisable</u>	<u>Exercisable</u>	<u>Unexercisable</u>			
			Ronald N. Tutor		\$	1,225,000		\$ 5,060,800	\$
			Robert Band			237,500		990,500	
Zohrab B. Marashlian	30,400	118,180	444,600		1,839,600				
Craig W. Shaw	30,000	110,176	445,000		1,841,400				
Michael E. Ciskey			30,000		139,500				

There were no stock options or Stock Appreciation Rights granted to any of the Named Executive Officers during the year ended December 31, 2003.

Incentive Compensation Plans

We have an incentive compensation plan for certain employees at the corporate level (The Perini Corporation Amended and Restated (2004) General Incentive Compensation Plan), or corporate plan, and an incentive compensation plan for certain employees at the business unit level (The Perini Corporation Amended and Restated (2004) Construction Business Unit Incentive Compensation Plan), or business unit plan. Under these plans, eligibility and designated levels of participation are determined by our Chief Executive Officer subject to Compensation Committee approval. Eligibility to participate under the corporate plan is limited to individuals who are executives, managers and key employees at the corporate level and eligibility to participate under the business unit plan is limited to individuals who are managers and key employees at our construction business unit level.

Under the terms of the plans, participants can receive incentive compensation awards ranging from zero to as much as 100% of base salary. Awards are based on established corporate goals, levels of achievement of these goals and the base salaries and individual bonus limits assigned to the participants. In addition, the actual incentive compensation amounts available to participants at a business unit are based on the level of achievement of the corporate goal applied to the profit generated by that business unit. No amounts attributed to a participant in the plans

Edgar Filing: PERINI CORP - Form 424B1

become vested until the Compensation Committee approves the payment, usually in March following the year earned. At the discretion of the Compensation Committee, payment can be made in cash, stock or a combination of cash and stock. Incentive compensation for the Named Executive Officers is included in the Summary Compensation Table under the Bonus column.

401(k) Plan

We have a tax-qualified Section 401(k) Retirement Plan covering all of our executive, professional, administrative and clerical employees who are over 21 years of age and who have completed three months of service with us. Under the 401(k) plan, participants may elect to defer a portion of their compensation on a pre-tax basis and have it contributed to the plan. In addition, we make employer contributions into the 401(k) plan based on a non-discretionary match of employees' contributions, as defined, since 2002. Prior to 2002, our contribution to the 401(k) plan was based on a specified level of profits, subject to certain limitations, as well as approval by our Board of Directors of any discretionary contributions.

Table of Contents

Pension Plan Disclosure

The following table sets forth pension benefits payable based on an employee's remuneration (final average earnings) and years of service as defined under our non-contributory Retirement Plan for all its full-time employees, and to the extent covered remuneration is limited by the Internal Revenue Code of 1986, as amended, pension benefits payable have been augmented based on our Benefit Equalization Plan:

Pension Plan Table

Estimated Annual Pension Benefits (2) for

Years of Service Indicated (3)

Remuneration (1)	15 Years	20 Years	25 Years	30 Years	35 Years
\$ 125,000	\$ 23,179	\$ 30,905	\$ 38,631	\$ 38,631	\$ 38,631
150,000	28,804	38,405	48,006	48,006	48,006
175,000	34,429	45,905	57,381	57,381	57,381
200,000	40,054	53,405	66,756	66,756	66,756
225,000	45,679	60,905	76,131	76,131	76,131
250,000	51,304	68,405	85,506	85,506	85,506
300,000	62,554	83,405	104,256	104,256	104,256
400,000	85,054	113,405	141,756	141,756	141,756
500,000	107,554	143,405	179,256	179,256	179,256

- (1) Remuneration covered by the plan and the Benefit Equalization Plan is limited to an employee's annual salary and for the Named Executive Officers is limited to the amounts in the Annual Salary column included in the Summary Compensation Table on page 60.
- (2) The estimated annual benefits are calculated on a straight-line annuity basis and are not subject to any further deductions for Social Security since the Plan formula integrates the calculation of the benefits with certain adjustments for Social Security, as defined.
- (3) The estimated credited years of service for our Named Executive Officers are as follows: R. Band (30 years), Z.B. Marshlian (31 years), C.W. Shaw (25 years) and M.E. Ciskey (25 years).

Table of Contents**CERTAIN TRANSACTIONS**

We believe that the transactions described below were on terms that were at least as favorable to us as we would have expected to negotiate with other unaffiliated third parties at the point in time these respective transactions were consummated.

Tutor-Saliba Management Agreement

As a condition to a new investor group's acquisition of shares of our Series B Preferred Stock for an aggregate of \$30 million, which was approved by our stockholders on January 1997, we entered into a management agreement with Tutor-Saliba, a California corporation engaged in the construction industry, and Ronald N. Tutor, chief executive officer and sole stockholder of Tutor-Saliba, to provide certain management services. The management agreement has been renewed annually by our Compensation Committee, which consists entirely of independent directors, under the same basic terms and conditions as the initial agreement except that the amount of the fee payable thereunder by us to Tutor-Saliba was increased effective January 1, 2000, from \$150,000 to \$250,000 per year and effective January 1, 2004, from \$250,000 to \$375,000 per year. Effective December 31, 2001, Mr. Tutor was included as a participant in our incentive compensation plan. Tutor-Saliba initially held 351,318 shares of our common stock before Tutor-Saliba's additional investment in our common stock effective March 29, 2000. Since January 17, 1997, Mr. Tutor has been a member of our Board of Directors and an officer of Perini and effective July 1, 1999 was elected Chairman of our Board of Directors and effective March 29, 2000 was elected Chairman and Chief Executive Officer.

Compensation for the management services consists of payments to Tutor-Saliba under the management agreement described above, options granted to Mr. Tutor and incentive compensation awarded to Mr. Tutor as a participant in our incentive compensation plan. See Management Summary Compensation Table. All of the stock options granted to Mr. Tutor were granted at or above fair market value on the date of grant, are currently exercisable and are otherwise summarized below:

Grant	Option	Number	Expiration
Date	Price Per Share	of Shares	Date
01-17-97	\$8.3750	150,000	01-16-05
12-10-98	\$5.2875	45,000	12-09-06
01-04-99	\$5.1250	30,000	01-03-07
03-29-00	\$4.5000	1,000,000	03-28-10

Series B Preferred Stock Exchange

Effective March 29, 2000, a new investor group led by Tutor-Saliba, and including O&G Industries, Inc., or O&G, and National Union Fire Insurance Company of Pittsburgh, Pa., or National Union, a wholly owned subsidiary of American International Group, Inc., or AIG, collectively purchased 9,411,765 shares of our common stock, hereafter referred to as the Purchase Shares, for \$40 million, or \$4.25 per share, in what we refer to herein as the Transaction. Each of Tutor-Saliba, O&G and National Union are referred to herein individually as a Purchaser, and collectively as the Purchasers. In connection therewith, we exchanged 7,490,417 shares of common stock for all of the outstanding shares of Series B Preferred Stock at an exchange price of \$5.50 per share of common stock, hereafter referred to as the Exchange. See Principal and Selling Stockholders.

Prior to the Transaction, the Board of Directors formed a Special Committee, comprised of three independent directors, to review a financing proposal from Mr. Tutor and to actively solicit and negotiate alternative proposals from third parties. The Special Committee recommended the Transaction to the Board of Directors which approved the Transaction, subject to the approval of a majority of our disinterested common stockholders. Our disinterested common stockholders approved the Transaction on March 29, 2000.

Table of Contents

Perini and the Purchasers and former holders of the Series B Preferred Stock entered into a Shareholders Agreement and a Registration Rights Agreement at the closing of the Transaction. Among other things, the Shareholders Agreement provides for the following:

That between the third and sixth anniversaries of the closing of the Transaction, National Union will have a put right to cause Tutor-Saliba and/or Mr. Tutor or certain permitted transferees to purchase half (but not less than half) of its Purchase Shares at a price so that National Union earns a 10% internal rate of return on its investment in such shares. During the same period Tutor-Saliba will have a call right to cause National Union and/or its permitted transferees, if any, to sell such shares to Tutor-Saliba at a price so that National Union earns a 14% internal rate of return on its investment in such shares. In addition to the foregoing put and call rights, National Union will have a right of first refusal on Tutor-Saliba's disposition of its Purchase Shares and Tutor-Saliba will have a right of first refusal on one half of National Union's Purchase Shares.

Subject to the right of first refusal described in the prior paragraph, the parties to the Shareholders Agreement have certain tag-along rights. If any party to the Shareholders Agreement desires to sell its shares, each of the non-selling parties to the Shareholders Agreement will have the right to participate in such sale and to dispose of its pro rata share of the stock to be sold in such transaction. However, National Union may sell up to one half of its Purchase Shares without triggering the foregoing tag-along right.

Each of the parties to the Shareholders Agreement has the right to subscribe to any new issuance of equity securities (except for certain issuances such as conversions of convertible securities, exercises of options or issuances pursuant to a benefit plan) by us in an amount up to such stockholder's pro rata share of the new issuance of securities based on its percentage ownership of our outstanding common stock.

The Shareholders Agreement gives National Union, Tutor-Saliba, O&G, PB Capital and The Union Labor Life Insurance Company acting on behalf of its Separate Account P, or ULLICO, the right to designate one director each for election to our Board of Directors. We agreed to nominate such individuals for election or appointment to our Board of Directors at the earliest possible time, to use our best efforts to cause such persons to be elected to the Board, and to renominate each such person (or other person as may be designated by National Union, Tutor-Saliba, O&G, PB Capital or ULLICO) at such time as he or she is required to stand for reelection to the Board. The right to designate a person to be elected as a director terminates in the case of each Purchaser when such Purchaser and its permitted transferees own less than 25% of the common stock purchased by such Purchaser in the Transaction and in the case of PB Capital and ULLICO, when such stockholder and its permitted transferees own less than 5% of the outstanding shares of common stock received by such party in the Exchange. Each of PB Capital and ULLICO also has certain observer rights on the Board until such time as it ceases to own 2.5% of the outstanding shares of common stock. Each party to the Shareholders Agreement has agreed to vote all of its shares in favor of the directors designated by each of the other parties thereto.

After this offering and assuming the sale of all of the shares offered hereby, ULLICO will hold less than 2.5% of our outstanding common stock and, as a result, it will no longer have the right to designate a director for election or appoint an observer on our Board of Directors.

Since the common stock issued in connection with the Transaction and the Exchange was not registered under the Securities Act of 1933, as amended, we entered into a Registration Rights Agreement with the Purchasers and former holders of the Series B Preferred Stock which requires us, under certain circumstances, to register some or all of the shares held by such parties under the Securities Act after March 29, 2003. See Description of Capital Stock Registration Rights Agreements.

Table of Contents

Joint Ventures

Tutor-Saliba Joint Ventures

Historically, we have participated in joint ventures with Tutor-Saliba both on a sponsored and a non-sponsored basis and currently participate in certain joint ventures with them, our share of which contributed \$49.0 million (or 3.6%), \$48.8 million (or 4.5%) and \$17.9 million (or 1.1%) to our consolidated revenues for the years ended December 31, 2003, 2002 and 2001, respectively.

In late 2000, we entered into a joint venture arrangement with Tutor-Saliba, the sponsoring partner, whereby we were to primarily provide certain prequalification and proposal support services to the joint venture in return for a fixed fee of \$500,000 payable subsequent to the award and start-up of the project. In addition, the agreement provided that we would not be liable for any costs, losses, liabilities or damages that may arise from the project. Payment of the fee was received from Tutor-Saliba in February 2002. In late 2001, we entered into a similar joint venture arrangement with Tutor-Saliba, the sponsoring partner, whereby we were to primarily provide certain prequalification and proposal support services to the joint venture in return for a fixed fee of \$200,000 payable subsequent to the award and start-up of the project. In addition, the agreement provided that we would not be liable for any costs, losses, liabilities or damages that may arise from the project. Payment of the fee was received from Tutor-Saliba in February 2002.

In late 2002, we entered into an arrangement with Tutor-Saliba whereby Tutor-Saliba provided a financial guarantee in order for us to secure a performance and payment bond on a building project with an estimated contract value of approximately \$135 million. As compensation for the financial guarantee, we paid Tutor-Saliba a fee of \$1.0 million in February 2003.

As more fully discussed in Business Legal Proceedings, we have been a party to certain joint ventures with Tutor-Saliba in the past which are currently in litigation.

O&G Joint Ventures

We also participated in certain joint ventures with O&G Industries, Inc., of which Raymond R. Oneglia, a director of Perini, is vice chairman of the board of directors. Our share of these joint ventures contributed \$0.8 million and \$0.6 million to our consolidated revenues for the years ended December 31, 2003 and 2001, respectively.

AIG Relationship

National Union Fire Insurance Company of Pittsburgh, Pa., a wholly owned subsidiary of AIG, is one of our sureties and a provider of insurance and insurance related services to us. Payments to AIG for surety, insurance and insurance related services approximated \$7.8 million, \$9.5 million and \$8.2 million for the years ended December 31, 2003, 2002 and 2001, respectively. The quality and cost of insurance services rendered are reviewed on an annual basis and competitive bids are obtained when deemed appropriate.

Tender Offer for Depositary Shares

On June 9, 2003, we completed a tender offer for our Depositary Shares at a purchase price of \$25.00 per Depositary Share, net to the seller without interest. See Management's Discussion and Analysis of Financial Condition and Results of Operations Overview Recent Developments. Mr. Asher Edelman, a director of Perini, tendered or caused to be tendered 174,500 Depositary Shares that he beneficially owned or controlled.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS**

The following table sets forth certain information concerning beneficial ownership as of February 23, 2003 of our common stock by:

each person known by us to beneficially own 5% or more of our common stock and total as a group; and

each of our directors and each of our executive officers for whom compensation information is given in the Summary Compensation Table in this prospectus.

Pursuant to the Registration Rights Agreement described under Description of Capital Stock Registration Rights Agreements, certain of the stockholders listed below have requested that we register for sale their previously unregistered shares. The following table sets forth the number of shares of common stock beneficially owned by all of our principal stockholders (including the selling stockholders) as of February 23, 2004, the number of shares of common stock covered by this prospectus and the percentage of total shares of common stock that the selling stockholders will beneficially own upon completion of this offering if such percentage exceeds one percent, in each case, assuming that the underwriters do not exercise the over-allotment option granted to them by the selling stockholders. This table assumes that the selling stockholders will offer for sale all of the shares of common stock covered by this prospectus.

The amounts and information set forth below are based upon information provided to us by representatives of the selling stockholders, or on our records, as of February 23, 2004, and are accurate to the best of our knowledge. It is possible, however, that the selling stockholders may acquire or dispose of additional shares of common stock from time to time after the date of this prospectus. Certain affiliates of National Union Fire Insurance Company of Pittsburgh, Pa., or National Union, are registered broker-dealers. National Union purchased the securities listed below in the ordinary course of business and at the time of purchase of such securities, had no agreements or understandings, directly or indirectly, to distribute these securities.

* Represents less than 1% of the outstanding shares of common stock

- (1) Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of common stock and options or warrants that are currently exercisable or exercisable within 60 days of February 23, 2004 are deemed to be outstanding and to be beneficially owned by the person holding such options for the purpose of computing the percentage ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person.
- (2) The number of shares being offered excludes any shares that may be sold as a result of the exercise by the underwriters of their over-allotment option and any shares beneficially owned.
- (3) Based on 23,043,335 shares of common stock outstanding as of February 23, 2004.

Table of Contents

- (4) Includes 2,704,260 shares of common stock that represent sole voting and investing power based on information contained in Schedule 13D/A of Tutor-Saliba Corporation, or Tutor-Saliba, dated April 5, 2000. Ronald N. Tutor, our Chairman and Chief Executive Officer, is also the sole stockholder and chief executive officer of Tutor-Saliba. Also includes 1,225,000 shares for which Mr. Tutor holds options and 2,352,941 shares for which Tutor-Saliba has the right to call and purchase from National Union during a three-year period commencing on March 29, 2003 in accordance with the Shareholders Agreement discussed under Certain Transactions. Also includes 245,528 shares of common stock representing Tutor-Saliba's former limited partnership interest in PB Capital Partners, L.P., or PB Capital (see Note 7 below), that was distributed to Tutor-Saliba on November 13, 2003. Upon such distribution by PB Capital, Tutor-Saliba's limited partnership interest in PB Capital was liquidated.
- (5) Represents shared voting and investment powers based on information contained in Schedule 13D/A of American International Group, Inc., the parent company of National Union, filed on April 12, 2000. See Certain Transactions.
- (6) Represents sole voting and investment powers based on information contained in Schedule 13D of O&G Industries, Inc., or O&G, filed on February 15, 2000 and as updated for O&G's participation in the Transaction, as described in Certain Transactions.
- (7) Blum Capital Partners, L.P., or BCP, formerly known as Richard C. Blum & Associates, L.P., is the sole general partner of PB Capital. Based on information contained in Schedule 13D/A filed on November 21, 2003 by BCP, the amount in the table includes:

4,244,149 shares of common stock held by PB Capital, over which BCP beneficially has shared voting and investment power;

49,801 shares of common stock held by a limited partner of PB Capital for which BCP serves as an investment advisor;

1,162,348 shares held by The Common Fund for Non-Profit Organizations for the account of its Equity Fund, or The Common Fund, a fund for which BCP serves as an investment adviser and over which BCP beneficially has shared voting and investment power; and

29,026 shares of common stock held directly by BCP (22,421 shares of which are being sold in this offering, see Note 8 below).

Until November 13, 2003, Tutor-Saliba was a limited partner of PB Capital. See Note 4 above. Richard C. Blum & Associates, Inc., or RCBA Inc., is the sole general partner of BCP. Richard C. Blum is the chairman and a substantial shareholder of RCBA Inc. Each of BCP, RCBA Inc. and Mr. Blum disclaims beneficial ownership of the securities reported in the table except to the extent of any pecuniary interest therein. The Common Fund expressly disclaims membership in any group with BCP, Richard C. Blum or any other related entity and disclaims beneficial ownership of securities owned directly or indirectly by any other person or entity. Also, see Certain Transactions.

- (8) Includes (a) 3,060,741 shares of common stock held by PB Capital after this offering, over which BCP beneficially has shared voting and investment power, (b) 6,605 shares of common stock which will be held directly by BCP and (c) the 49,801 shares of common stock held by a limited partner of PB Capital for which BCP serves as an investment advisor. RCBA Inc. is the sole general partner of BCP and Mr. Blum is the chairman and a substantial shareholder of RCBA Inc. (see Note 7 above).
- (9) Represents sole voting and investing power based on information contained in Schedule 13D/A dated April 12, 2000, filed by The Union Labor Life Insurance Company, or ULLICO. Also, see Certain Transactions.
- (10) Pursuant to the Shareholders Agreement discussed under Certain Transactions, these stockholders and Perini agreed to, among other things, nominate certain individuals designated by these stockholders for election or appointment to our Board of Directors and the stockholders have agreed to vote for each of the designated nominees.
- (11) The share amount and share percentage eliminates the duplication relating to (a) PB Capital's 4,244,149 shares of common stock and The Common Fund's 1,162,348 shares of common stock listed separately above and also included in the totals for BCP (see Note 7 above), (b) the shares of common stock beneficially owned by RCBA Inc. and Mr. Blum as a result of their relationship with BCP (see Notes 7 and

Table of Contents

- 8 above), (c) 6,527,729 shares of common stock beneficially owned by Mr. Tutor which are also included in Tutor-Saliba's total (see Note 4 above) and (d) 2,352,941 shares of common stock included in Tutor-Saliba's total for which Tutor-Saliba has the right to call and purchase from National Union (see Note 4 above) and also included in National Union's total (see Note 5 above).
- (12) The share amount and share percentage eliminates the duplication relating to (a) PB Capital's 3,060,741 shares of common stock which are also included in BCP's total (see Note 8 above), (b) the shares of common stock beneficially owned by RCBA Inc. and Mr. Blum as a result of their relationship with BCP (see Notes 7 and 8 above), (c) 6,527,729 shares of common stock beneficially owned by Mr. Tutor which are also included in Tutor-Saliba's total (see Note 4 above) and (d) 2,352,941 shares of common stock included in Tutor-Saliba's total for which Tutor-Saliba has the right to call and purchase from National Union (see Note 4 above) and also included in National Union's total (see Note 5 above).
- (13) Includes 237,500 shares for which Mr. Band holds options.
- (14) Includes 4,700 shares for which Mr. Arkley holds options.
- (15) Mr. Klein was originally elected to our Board of Directors as the designated nominee of PB Capital, a partnership that owned 4,244,149 shares of common stock and a partnership whose sole general partner is BCP. BCP is an investment advisor to The Common Fund for Non-Profit Organizations for the account of its Equity Fund that owns 1,162,348 shares of common stock. Mr. Klein generally disclaims beneficial ownership in these shares owned by these entities. See Note 7 and Note 16.
- (16) Includes: 53,694 shares of common stock directly owned by Mr. Klein and 8,300 shares (as to which he disclaims beneficial interest) owned by a trust for his children, all 61,994 of which shares previously were owned indirectly by them as limited partners of PB Capital (see Note 7 above); 7,261 shares of common stock Mr. Klein received as payment for director's annual retainer from 1997-1999 (See Management Directors Compensation); and 133,000 shares of common stock for which Mr. Klein owns options.
- (17) Mr. Kennedy is the designated nominee to the Board of Directors of ULLICO, a company that owns 1,721,075 shares of common stock on behalf of its Separate Account P and a company in which Mr. Kennedy was the Vice President of Special Projects until his retirement in 2003. Mr. Kennedy disclaims any beneficial ownership of these shares. See Note 9 above.
- (18) Includes 6,000 shares for which Mr. Kennedy holds options.
- (19) Mr. Oneglia is the designated nominee to the Board of Directors of O&G, a company that owns 2,502,941 shares of common stock, and a company in which Mr. Oneglia is the vice chairman. Mr. Oneglia disclaims any beneficial ownership of these shares. See Note 6 above.
- (20) Includes 6,000 shares for which Mr. Oneglia holds options.
- (21) In February 2004, Mr. Berman resigned from his position as a member of our Board of Directors.
- (22) Mr. Cummings' appointment as a director was in accordance with the terms of the Stock Purchase and Sale Agreement dated December 16, 2002 between Perini, James A. Cummings, Inc. and the James A. Cummings, Inc. stockholders, of which Mr. Cummings was one, whereby Perini purchased 100% of the outstanding common stock of James A. Cummings, Inc. effective as of January 1, 2003. See Note 3 of Notes to Consolidated Financial Statements.
- (23) Includes 30,000 shares for which Mr. Ciskey holds options.
- (24) Includes 444,600 shares for which Mr. Marashlian holds options.
- (25) Includes 445,000 shares for which Mr. Shaw holds options.
- (26) Includes 3,121 shares of common stock received in payment of the 1999 director's annual retainer and 8,000 shares for which Mr. Doppelt holds options. See Management Directors Compensation. Also includes 50,047 shares of common stock resulting from the assumed conversion of 75,600 Depositary Shares at a conversion rate of .662 shares of common stock for each Depositary Share. Of the 75,600 Depositary Shares, 700 Depositary Shares are owned by Mr. Doppelt's wife and 33,000 shares are owned by trusts or estates as to which Mr. Doppelt serves as trustee and disclaims any beneficial ownership. The percentage of Depositary Shares beneficially owned by Mr. Doppelt to the total number of shares of Depositary Shares outstanding is 13.52%. Mr. Doppelt is a plaintiff in a suit against certain current and former directors of Perini with respect to the Depositary Shares, discussed under Business Legal Proceedings \$21.25 Preferred Shareholders Class Action Lawsuit.

Table of Contents

- (27) Includes 132 shares of common stock resulting from the assumed conversion of 200 Depositary Shares at a conversion rate of .662 shares of common stock for each Depositary Share. These shares are held by a custodian on behalf of certain funds for which Mr. Edelman's firm is an investment advisor. Mr. Edelman tendered, or caused to be tendered, 174,500 Depositary Shares that he beneficially owned or controlled in the tender offer which we completed on June 9, 2003 at a purchase price of \$25.00 per Depositary Share net to the seller, without interest. The percentage of Depositary Shares now beneficially owned by Mr. Edelman to the total number of shares of Depositary Shares outstanding is less than 1%.

Each of the principal stockholders listed above as well as certain of our directors and executive officers listed above have agreed, subject to certain exceptions, not to dispose of or hedge any common stock or any securities convertible into or exchangeable or exercisable for any shares of our common stock without the prior consent of Credit Suisse First Boston LLC for a period of 90 days after the date of this prospectus. As of the date of this filing, one of our directors, who currently beneficially owns 632 shares of our common stock, has not signed the lock-up agreement described elsewhere in this prospectus. See Underwriting. Following the expiration of the lock-up period, the shareholders party thereto will be able to dispose of certain of their shares of common stock pursuant to the Registration Rights Agreement discussed under Description of Capital Stock Registration Rights Agreements.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

Our articles of organization, as amended, authorize the issuance of 40,000,000 shares of common stock, par value \$1.00 per share and 1,000,000 shares of preferred stock, par value \$1.00 per share. As of December 31, 2003, there were 22,885,535 shares of common stock outstanding, 55,927 shares of \$21.25 Preferred Stock outstanding, 370,239 shares of common stock reserved for issuance upon conversion of the \$21.25 Preferred Stock, options to purchase 3,005,800 shares of common stock outstanding, and warrants to purchase 420,000 shares of our common stock outstanding.

Common Stock

Subject to the rights of the holders of preferred stock then outstanding, holders of common stock are entitled to one vote per share on matters to be voted on by stockholders and are entitled to receive such dividends, if any, as may be declared from time to time by our Board of Directors in its discretion out of funds legally available therefor. Upon our liquidation or dissolution, the holders of common stock are entitled to receive pro rata all assets remaining available for distribution to stockholders after payment of all liabilities and provision for the liquidation of any shares of preferred stock at the time outstanding. The common stock has no preemptive or other subscription rights, and there are no conversion rights or redemption or sinking fund provisions with respect to such stock. The payment of dividends on the common stock is subject to the prior payment of dividends on any outstanding preferred stock. Further, our revolving credit facility, as well as certain other agreements, provides for, among other things, maintaining minimum working capital and tangible net worth levels and limitations on indebtedness, all of which could impact our ability to pay dividends.

Preferred Stock

Our charter authorizes the issuance of 1,000,000 shares of preferred stock, par value \$1.00 per share. Currently, 100,000 shares of preferred stock are designated as the \$21.25 Convertible Exchangeable Preferred Stock, of which 55,927 shares are outstanding, and 200,000 shares are designated as Series A Junior Participating Cumulative Preferred Stock in connection with the adoption of our Shareholder Rights Plan described below. Our authorized but unissued preferred stock may be issued from time to time in one or more series, without stockholders approval. Subject to limitations prescribed by law and by our charter, the Board of Directors is authorized to determine the relative rights and preferences for each series of preferred stock that may be issued, and to fix the number of shares of such series. Thus, our Board of Directors, without stockholder approval, could authorize the issuance of additional preferred stock with voting, conversion and other rights that could adversely affect the voting power and other rights of holders of our common stock or that could make it more difficult for another company to effect certain business combinations with us.

Notwithstanding the fixing of the number of shares constituting a particular series, our Board of Directors may at any time authorize the issuance of additional shares of the same series. Any preferred stock converted, redeemed, exchanged or otherwise acquired by us will, upon cancellation, have the status of authorized but unissued preferred stock undesignated as to series subject to reissuance by our Board of Directors.

\$21.25 Preferred Stock

Holders of shares of \$21.25 Preferred Stock are entitled to receive an annual cash dividend of \$21.25 per share, or \$2.125 per Depositary Share, when and as declared by the Board of Directors out of funds legally available for such purposes. Unless full cumulative dividends have been

Edgar Filing: PERINI CORP - Form 424B1

paid or declared, no cash dividends may be declared or paid or other cash distribution made on the common stock. Holders of the \$21.25 Preferred Stock are entitled at any time to convert shares of \$21.25 Preferred Stock into our common stock at the conversion price of \$377.50, subject to adjustment in certain circumstances. Each share of the \$21.25 Preferred Stock is exchangeable, in whole but not in part, at our option, for \$250 principal amount of our 8 1/2% Convertible

Table of Contents

Subordinated Debentures Due 2012. Holders of such debentures will be entitled at any time to convert such debentures into common stock at the conversion price of \$377.50 per Depositary Share, subject to adjustment in certain circumstances.

The \$21.25 Preferred Stock is redeemable at our option, in whole or in part, at specified redemption prices per share. The \$21.25 Preferred Stock is not entitled to vote, except as to certain matters in regard to the creation of an additional series of preferred stock or in the event of an arrearage on dividends. The terms of the \$21.25 Preferred Stock provide that if six quarterly dividends on the \$21.25 Preferred Stock shall have accumulated and been unpaid, the number of directors on our Board will be increased by two and the holders of the \$21.25 Preferred Stock, voting together as a class with any other series of preferred stock with the same rank similarly affected, will be entitled to elect those additional two directors until all dividends in default have been paid or declared and funds have been set apart for payment therefor, at which time those two directors would resign from our Board and the number of directors would be reduced by two. While quarterly dividends on the \$21.25 Preferred Stock have not been paid since 1995, they have been fully accrued due to the cumulative feature of the \$21.25 Preferred Stock. As a result of exceeding the six-quarter limitation, the holders of the \$21.25 Preferred Stock have been entitled to elect two additional Directors, and they have done so at each of the last six annual meetings of stockholders. As discussed under Management's Discussion and Analysis of Financial Condition and Results of Operations Dividends \$21.25 Preferred Stock, there are no plans for payment of any such dividends.

In the event of an involuntary liquidation, or an amount equal to the then applicable optional redemption price in the event of a voluntary liquidation, holders of the \$21.25 Preferred Stock are entitled to receive a liquidating distribution of \$250 per share.

The outstanding \$21.25 Preferred Stock are represented by Depositary Shares. Each Depositary Share (evidenced by a depositary receipt) represents a one-tenth fractional interest in the respective share of \$21.25 Preferred Stock (including dividend, voting, redemption and liquidation rights and preferences). The \$21.25 Preferred Stock have been deposited with EquiServe Trust Company, N.A., as Depositary, under a Deposit Agreement between Perini, EquiServe Trust Company, N.A., and the holders from time to time of the depositary receipts issued under the Deposit Agreement. The depositary receipts evidence the Depositary Shares.

Stock Purchase Warrants

As of December 31, 2003, we have reserved 420,000 shares of common stock for issuance upon the exercise of stock purchase warrants issued in January 1997 to members of our banking group at that time in connection with an amended credit agreement. The warrants are exercisable at a per share exercise price of \$8.30 subject to anti-dilution adjustment in the event of certain distributions and other corporate events. The warrants expire on January 17, 2007.

Registration Rights Agreements

Registration Rights Agreements

The following is a summary of material terms and provisions of registration rights agreements that we have entered into with certain existing stockholders.

Edgar Filing: PERINI CORP - Form 424B1

In March 2000, we entered into a registration rights agreement with certain existing stockholders, as may hereafter be referred to as the March 2000 Registration Rights Agreement. Under this agreement, we granted these stockholders the right to require us, subject to the terms and conditions set forth in the agreement, to register shares of common stock held by them for sale.

Each of the stockholders that is a party to this agreement may request one demand registration, except National Union, which may request two. Subject to limitations set forth in this agreement, the parties also have the right to

Table of Contents

participate in any demand registration requested by any other stockholder that is a party to the agreement. In addition, we have granted the parties to this agreement the right, subject to exceptions set forth therein, to participate in registrations of common stock initiated by us on our own behalf or on behalf of any other stockholder. BCP, PB Capital and The Common Fund have exercised their right requiring us to register a portion of their shares under the Securities Act, precipitating this offering. All of the other selling stockholders named in this offering have exercised their piggyback rights in connection with this offering.

Under the March 2000 Registration Rights Agreement, we are required to pay the fees and expenses of the selling stockholders in connection with any demand and piggyback registrations. We also have agreed to indemnify the holders of registration rights under this agreement against specified liabilities, including liabilities under the Securities Act, and to contribute to payments they may be required to make. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and persons controlling us as described above, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. The March 2000 Registration Rights Agreement will terminate on the earlier of the date upon which the parties to the agreement no longer hold any shares of common stock that must be registered in order to be sold or the date upon which the parties agree that the agreement should be terminated.

In December 2003, we entered into a letter agreement with BCP, PB Capital and The Common Fund, hereinafter collectively referred to as the Blum parties. Under this letter agreement, we granted these stockholders an additional demand registration right to require us, subject to the terms and conditions set forth in the letter agreement, to register shares of common stock held by them for sale. The letter agreement provides that this demand registration right is subject to certain terms and conditions set forth in the March 2000 Registration Rights Agreement discussed above. Parties to the March 2000 Registration Rights Agreement may participate in the demand registration of common stock requested by the Blum parties.

Under this letter agreement, we agreed to pay the fees and expenses of the selling stockholders in connection with the exercise of their demand right and any piggyback registrations. This letter agreement will not become effective, and the Blum holders will have no right to exercise their demand registration rights until this Registration Statement has become effective. Under this letter agreement, the Blum holders may exercise their demand registration rights until they no longer hold any shares of common stock that must be registered in order to be sold.

Warranholders Rights Agreement

In January 1997, we issued warrants to purchase our common stock to members of our banking group in connection with an amended credit agreement. As part of this issuance, we entered into a warrant holder rights agreement with the warrant holders. Under this agreement, we granted these warrant holders the right to require us, upon request by holders of a majority of warrants and common stock received upon exercise of warrants, subject to the terms and conditions set forth in this agreement, to register the resale of shares of the common stock held by them upon exercise of their warrants. Under this agreement, we agreed to pay the fees and expenses of one counsel to the selling stockholders in connection with their registration. We have also agreed to indemnify the holders of these registration rights under this agreement against specified liabilities, including liabilities under the Securities Act, and to contribute to payments that they may be required to make. This warrant holders rights agreement will terminate on the date upon which the parties to the warrant holders rights agreement no longer hold any shares, or warrants to purchase shares, of common stock that must be registered in order to be sold. The warrants expire in January 2007.

Shareholder Rights Plan

Edgar Filing: PERINI CORP - Form 424B1

We have adopted a Shareholder Rights Plan pursuant to which we issued one preferred stock purchase right, or a Right, for each outstanding share of common stock. Each Right entitles the registered holder to purchase

Table of Contents

from us a unit consisting of one one-hundredth of a share of Series A Junior Participating Cumulative Preferred Stock, par value \$1.00 per share, or the Series A Preferred Stock, at a cash exercise price of \$100 per unit, subject to adjustment. Each share of Series A Preferred Stock will be entitled to receive a minimum preferential quarterly dividend equal to the greater of \$20.00 or 100 times the dividend payable to holders of shares of common stock. In the event of a liquidation, no distribution shall be made (x) to the holders of stock ranking junior to the Series A Preferred Stock unless, prior thereto, the holders of Series A Preferred Stock receive a distribution equal to the greater of \$10,000.00 or 100 times the payment made for each share of common stock or (y) to the holders of any other class or series of stock ranking on a parity (either as to dividends or liquidation preferences) with the Series A Preferred Stock except distributions made ratably on the Series A Preferred Stock and all other such parity stock in proportion to the total amounts to which holders of all such shares are entitled upon a liquidation. The Series A Preferred Stock ranks junior to the \$21.25 Preferred Stock with respect to dividends and liquidation preferences but senior to the common stock.

The Shareholder Rights Plan may have the effect of delaying, deferring or preventing a change in control of us. State Street Bank and Trust Company is the agent for the Rights. Currently, the Rights are not exercisable and are attached to all outstanding shares of common stock and will be attached to the shares of common stock being offered hereby. No separate Right Certificates will be distributed until the distribution date. Upon occurrence of the distribution date, the Rights will separate from the common stock.

Under the Shareholder Rights Plan, the distribution date is defined as the earlier of (i) 10 days following a public announcement that a person or group of affiliated or associated persons is an acquiring person (the date of said announcement being referred to as the stock acquisition date), or (ii) 10 business days following the commencement of a tender offer or exchange offer that would result in a person or group becoming an acquiring person, or (iii) the declaration by the Board of Directors that any person is an adverse person.

Under the Shareholder Rights Plan, an acquiring person is defined as a person or group of affiliated or associated persons (other than us and certain of our affiliates and other exempted persons) that has acquired beneficial ownership of 10% or more of the outstanding shares of common stock.

Under the Shareholder Rights Plan, an adverse person is defined as any individual, group, firm, corporation, partnership or other entity (other than us and certain of our affiliates and other exempted persons) declared to be an adverse person by our Board of Directors upon a determination of our Board that the criteria set forth in the Shareholder Rights Plan apply to such individual, group or entity.

In the event that a stock acquisition date occurs or our Board of Directors determines that a person is an adverse person, proper provision will be made so that after the distribution date each holder of a Right will thereafter have the right to receive upon exercise that number of units of Series A Preferred Stock having a market value of two times the exercise price of the Right, such right hereafter referred to as the subscription right. In the event that, at any time following the stock acquisition date, (i) we are acquired in a merger or other business combination transaction or (ii) 50% or more of our assets or earning power is sold, after the distribution date each holder of a Right shall thereafter have the right to receive, upon exercise, common stock of the acquiring company having a market value equal to two times the exercise price of the Right, such right hereafter referred to as a merger right. The holder of a Right will continue to have the merger right whether or not such holder has exercised the subscription right. Rights that are or were beneficially owned by an acquiring person or an adverse person may (under certain circumstances specified in the Shareholder Rights Plan) become null and void. At any time after a stock acquisition date occurs or the Board of Directors determines that a person is an adverse person, the Board of Directors may, at its option, exchange all or any part of the then outstanding and exercisable Rights for shares of common stock or units of preferred stock at an exchange ratio of one share of common stock or one unit of preferred stock per Right.

The Rights may be redeemed in whole, but not in part, at a price of \$0.02 per Right (payable in cash, common stock or other consideration deemed appropriate by the Board of Directors) by the Board of Directors at

Table of Contents

any time prior to the date on which a person is declared to be an adverse person, the tenth day after the stock acquisition date or the occurrence of an event giving rise to the merger right. Immediately upon the action of the Board of Directors ordering redemption of the Rights, the Rights will terminate and thereafter the only right of the holders of Rights will be to receive the redemption price. Until a Right is exercised, the holder will have no rights as a stockholder of Perini (beyond those as an existing stockholder, including the right to vote or to receive dividends).

On January 17, 1997, the Board of Directors amended our Shareholder Rights Plan to (i) permit the acquisition of the Series B Preferred Stock by certain investors, any additional preferred stock issued as a dividend thereon, any common stock issued upon conversion of the Series B Preferred Stock and certain other events without triggering the distribution of the Rights and (ii) extend the expiration date of the Shareholder Rights Plan from September 23, 1998 to January 21, 2007. In addition, our Board of Directors amended the Shareholder Rights Plan, effective March 29, 2000, to permit the transactions as described in under Certain Transactions Series B Preferred Stock Exchange and certain other events without triggering the distribution of the Rights.

Massachusetts Anti-Takeover Laws

We are subject to Chapter 110F of the Massachusetts General Laws, an anti-takeover law. In general, this statute prohibits a publicly held Massachusetts corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction which results in the stockholder becoming an interested stockholder, unless:

our Board of Directors approves the business combination or transaction which results in the stockholder becoming an interested stockholder prior to such event; or

the interested stockholder acquires at least 90% of our outstanding voting stock, excluding shares held by certain of our directors who also serve as our officers and by certain employee stock plans, at the time it becomes an interested stockholder; or

the business combination is approved by both our Board of Directors and the holders of two-thirds of our outstanding voting stock at a meeting of stockholders, excluding shares held by the interested stockholder.

The Massachusetts General Laws defines the term business combination to include a merger, a stock or asset sale, and certain other transactions resulting in a financial benefit to the interested stockholder. An interested stockholder is generally a person who, together with affiliates and associates, owns, or within three years, owned, 5% or more of our voting stock.

Our bylaws include a provision excluding us from the applicability of Massachusetts General Laws Chapter 110D, entitled Regulation of Control Share Acquisitions. In general, this statute provides that any stockholder of a corporation subject to this statute who acquires 20% or more of the outstanding voting stock of a corporation may not vote such stock unless the stockholders of the corporation so authorize. Our Board of Directors may amend our bylaws at any time to subject us to this statute prospectively.

Certain Anti-takeover Provisions of our Charter and Bylaws

Edgar Filing: PERINI CORP - Form 424B1

Our charter and bylaws contain provisions which may prevent, discourage or delay any change in the control of Perini and may make it more difficult to remove a member of the Board of Directors or management. These provisions include:

Blank Check Preferred Stock

Our Board of Directors has the authority to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to effect a change in control or takeover of Perini.

Table of Contents

Staggered Board of Directors

Massachusetts General Laws Chapter 156B, Section 50A requires publicly-held Massachusetts corporations, such as Perini, to have a classified board of directors consisting of three classes as nearly equal in size as possible, unless the corporation elects to opt out of the statute's coverage. Our Board of Directors is currently divided into three classes. Each class of directors serves a three-year term. The classification of Directors could have the effect of making it more difficult for our stockholders, including those holding a majority of the outstanding shares, to force an immediate change in the composition of our Board.

Director Removal and Vacancies

Pursuant to our bylaws, stockholders may effectuate the removal of a director only for cause and with the affirmative vote of the majority of shares outstanding and entitled to vote. Vacancies in our Board of Directors may be filled only by the affirmative vote of a majority of the directors then in office.

Meeting of Stockholders

Our bylaws provide that a special meeting of stockholders may be called by our Chairman, President, our Board of Directors, or upon written application of one or more stockholders who hold at least 40% of our common stock entitled to vote at such meeting. In addition, our bylaws include advance notice and information requirements and time limitations on any director nomination or any new proposal which a stockholder desires to make at an annual meeting of stockholders.

Limitation on Liability and Indemnification of Directors and Officers

Our charter provides that no director shall be personally liable to us or to our stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for any breach of the director's duty of loyalty to us or our stockholders, for acts or omissions not in good faith, for acts or omissions involving intentional misconduct or a knowing violation of law or for any transaction, or for any transaction from which the director derived an improper personal benefit. Our bylaws provide that our directors and officers will be indemnified against liabilities that arise from their service as directors and officers, subject to certain exceptions. We have entered into agreements with our directors and officers that also provide for such indemnification and expenses and liability reimbursement. We have obtained insurance which insures our directors and officers against certain losses and which insures us against our obligations to indemnify the directors and officers.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is EquiServe Trust Company, N.A.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

We cannot predict what effect, if any, market sales of shares of common stock or the availability of shares of common stock for sale will have on the market price of our common stock. Nevertheless, sales of substantial amounts of common stock, including shares issued upon the exercise of outstanding options, in the public market, or the perception that these sales could occur, could materially and adversely affect the market price of our common stock and could impair our future ability to raise capital through the sale of our equity or equity-related securities at a time and price that we deem appropriate.

As of the close of business on February 23, 2004, we had outstanding an aggregate of 23,043,335 shares of common stock, and this offering will not affect the number of our outstanding shares. All the shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except that any shares held by our Affiliates, as that term is defined under Rule 144 of the Securities Act, may be sold only in compliance with the limitations described below.

Assuming the underwriters do not exercise their over-allotment option, 90 days after the date of this prospectus, 11,484,416 shares of our common stock, which are not being registered in this offering, will be available for sale in the public market pursuant to Rule 144.

Tutor-Saliba, Ronald N. Tutor, BCP, National Union, PB Capital, O&G and ULLICO, which will beneficially own 52.2% of our shares (or 48.6% if the underwriters exercise their over-allotment option in full) upon the closing of this offering, have the ability, subject to certain restrictions, to cause us to register the resale of certain of their shares.

Rule 144

In general, under Rule 144 as currently in effect, a person (or persons whose shares are required to be aggregated), including an affiliate, who has beneficially owned shares of our common stock for at least one year is entitled to sell in any three-month period a number of shares that does not exceed the greater of:

1% of then-outstanding shares of common stock, which is currently 230,433 shares; and

the average weekly trading volume in the common stock on the New York Stock Exchange during the four calendar weeks preceding the date on which notice of sale is filed, subject to restrictions.

Sales under Rule 144 are also subject to manner of sale provisions and notice requirements and to the availability of current public information about us.

Rule 144(k)

Edgar Filing: PERINI CORP - Form 424B1

In addition, a person who is not deemed to have been an affiliate of ours at any time during the 90 days preceding a sale and who has beneficially owned the shares proposed to be sold for at least two years, would be entitled to sell those shares under Rule 144(k) without regard to the manner of sale, public information, volume limitation or notice requirements of Rule 144. To the extent that our affiliates sell their shares, other than pursuant to Rule 144 or a registration statement, the purchaser's holding period for the purpose of effecting a sale under Rule 144 commences on the date of transfer from the affiliate.

Lock-Up Agreements

The selling stockholders and certain of our directors and executive officers have entered into the lock-up agreements described in Underwriting.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

General

The following is a general discussion of the material United States federal income and estate tax consequences of the ownership and disposition of common stock that may be relevant to you if you are a non-United States Holder. In general, a non-United States Holder is any person or entity that is, for United States federal income tax purposes, a foreign corporation, a nonresident alien individual, a foreign partnership or a foreign estate or trust. This discussion is based on current law, which is subject to change, possibly with retroactive effect, or different interpretations that could affect the tax consequences described herein. This discussion is limited to non-United States Holders who hold shares of common stock as capital assets. Moreover, this discussion is for general information only and does not address all the tax consequences that may be relevant to you in light of your personal circumstances, nor does it discuss special tax provisions that may apply to you if you relinquished United States citizenship or residence.

If you are an individual, you may, in many cases, be deemed to be a resident alien, as opposed to a nonresident alien, by virtue of being present in the United States for at least 31 days in the current calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year. For the aggregate days test, all of the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year are counted. Resident aliens are subject to United States federal income tax as if they were United States citizens.

EACH PROSPECTIVE PURCHASER OF COMMON STOCK IS ADVISED TO CONSULT A TAX ADVISOR WITH RESPECT TO CURRENT AND POSSIBLE FUTURE TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK AS WELL AS ANY TAX CONSEQUENCES THAT MAY ARISE AS A RESULT OF YOUR PARTICULAR SITUATION OR UNDER THE LAWS OF ANY UNITED STATES STATE, MUNICIPALITY, FOREIGN OR OTHER TAXING JURISDICTION.

Dividends

If dividends are paid on the common stock, as a non-United States Holder, you generally will be subject to withholding of United States federal income tax at a 30% rate or at a lower rate as may be specified by an applicable income tax treaty, unless you are a foreign government or other foreign organization exempt from U.S. withholding. To claim the benefit of a lower rate under an income tax treaty, you must properly file with the payor an Internal Revenue Service Form W-8BEN, or successor form, claiming an exemption from or reduction in withholding under the applicable tax treaty. In addition, where dividends are paid to a non-United States Holder that is a partnership or other flow-through entity, the entity must properly file an Internal Revenue Service Form W-8IMY, or successor form, and persons holding an interest in the entity may need to provide certification claiming an exemption or reduction in withholding under the applicable treaty.

If dividends are considered effectively connected with the conduct of a trade or business by you within the United States and, where a tax treaty applies, are attributable to a United States permanent establishment of yours, those dividends generally will not be subject to withholding tax, but instead will be subject to United States federal income tax on a net basis at applicable graduated individual or corporate rates, provided you file an Internal Revenue Service Form W-8ECI, or successor form, with the payor. If you are a foreign corporation, any effectively connected dividends may, under certain circumstances, be subject to an additional branch profits tax at a rate of 30% or at a lower rate as may be specified by an applicable income tax treaty.

Edgar Filing: PERINI CORP - Form 424B1

If you are a foreign government, foreign tax-exempt organization or other foreign organization exempt from U.S. withholding, you must properly file an Internal Revenue Service Form W-8EXP with the payor.

You must comply with either the certification procedures described above, or, in the case of payments made outside the United States with respect to an offshore account, certain documentary evidence procedures, directly

Table of Contents

or under certain circumstances through an intermediary, to obtain the benefits of a reduced rate under an income tax treaty with respect to dividends paid with respect to your common stock. In addition, if you are required to provide an Internal Revenue Service Form W-8ECI or successor form, as discussed above, you must also provide your tax identification number.

If you are eligible for a reduced rate of United States withholding tax pursuant to an income tax treaty, you may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service.

Gain on Disposition of Common Stock

As a non-United States Holder, you generally will not be subject to United States federal income tax on any gain recognized on the sale or other disposition of common stock unless:

the gain is considered effectively connected with the conduct of a trade or business by you within the United States and, where a tax treaty applies, is attributable to a United States permanent establishment of yours (and, in which case, if you are a foreign corporation, you may be subject to an additional branch profits tax at a rate of 30% or at a lower rate as may be specified by an applicable income tax treaty).

you are an individual who holds the common stock as a capital asset and you are present in the United States for 183 or more days in the taxable year of the sale, or certain other disposition and other conditions are met; or

we are or have been a United States real property holding corporation, or a USRPHC, for United States federal income tax purposes. We believe that we are not currently, and are not likely to become, a USRPHC. If we were to become a USRPHC, then gain on the sale or other disposition of common stock by you generally would not be subject to United States federal income tax provided:

the common stock was regularly traded on an established securities market ; and

you do not actually or constructively own more than 5% of the common stock during the shorter of the five-year period preceding the disposition or your holding period.

Federal Estate Tax

If you are an individual, common stock held at the time of your death will be included in your gross estate for United States federal estate tax purposes, and may be subject to United States federal estate tax, unless an applicable estate tax treaty provides otherwise. You should consult your tax advisor for a full discussion of United States federal estate tax treatment.

Information Reporting and Backup Withholding Tax

Edgar Filing: PERINI CORP - Form 424B1

We must report annually to the Internal Revenue Service and to you the amount of dividends paid to you and the tax withheld with respect to those dividends, regardless of whether withholding was required. Copies of the information returns reporting those dividends and withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty or other applicable agreements.

Backup withholding is currently imposed at a rate of 28% on certain payments to persons that fail to furnish the necessary identifying information to the payor. You generally will be subject to backup withholding tax with respect to dividends paid on your common stock unless you certify your non-United States status.

Table of Contents

The payment of proceeds of a sale of common stock effected by or through a United States office of a broker is subject to both backup withholding and information reporting unless you provide the payor with your name and address and you certify your non-United States status or you otherwise establish an exemption. In general, backup withholding and information reporting will not apply to the payment of the proceeds of a sale of common stock by or through a foreign office of a broker. If, however, such broker is, for United States federal income tax purposes, a United States person, a controlled foreign corporation, a foreign person that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States, or, a foreign partnership that at any time during its tax year either is engaged in the conduct of a trade or business in the United States or has as partners one or more United States persons that, in the aggregate, hold more than 50% of the income or capital interest in the partnership, such payments will be subject to information reporting, but not backup withholding, unless such broker has documentary evidence in its records that you are a non-United States Holder and certain other conditions are met or you otherwise establish an exemption.

Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against your United States federal income tax liability provided the required information is furnished in a timely manner to the Internal Revenue Service.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated April 12, 2004, the selling stockholders have agreed to sell to the underwriters named below, for whom Credit Suisse First Boston LLC is acting as representative, the following respective numbers of shares of common stock:

Underwriter	Number of Shares
Credit Suisse First Boston LLC	3,546,480
D.A. Davidson & Co.	1,773,240
Morgan Joseph & Co. Inc.	591,080
Total	5,910,800

The underwriting agreement provides that the underwriters are obligated to purchase all the shares of common stock in the offering if any are purchased, other than those shares covered by the over-allotment option described below. The underwriting agreement also provides that if an underwriter defaults the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated.

The selling stockholders have granted to the underwriters a 30-day option to purchase on a pro rata basis up to an aggregate of 886,620 additional outstanding shares at the initial public offering price less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of common stock.

The underwriters propose to offer the shares of common stock initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$0.495 per share. The underwriters and selling group members may allow a discount of \$0.100 per share on sales to other broker/dealers. After the initial public offering, the representative may change the public offering price and concession and discount to broker/dealers.

The following table summarizes the compensation and estimated expenses we and the selling stockholders will pay:

	Per Share		Total	
	Without Over-allotment	With Over-allotment	Without Over-allotment	With Over-allotment
Expenses payable by us	\$ 0.1676	\$ 0.1458	\$ 990,773	\$ 990,773
Underwriting Discounts and Commissions paid by selling stockholders	\$ 0.825	\$ 0.825	\$ 4,876,410	\$ 5,607,872

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of Credit Suisse First Boston LLC for a period of 90 days after the date of this prospectus, other than issuances of common stock pursuant to the conversion or exchange of convertible or exchangeable securities or the exercise of warrants or options, in each case outstanding on the date of this prospectus, grants of employee stock options pursuant to the terms of a plan in effect on the date of this prospectus or issuances of common stock pursuant to the exercise of such options; provided, however that in the case of the 1997 warrant holders registration rights agreement, if a majority of warrant holders demand their registration rights, we will file as soon as practicable, but in any event not later than 60 days of receiving such demand notice, a registration statement with the Securities and Exchange Commission for such warrants.

Table of Contents

Our officers, certain of our directors and principal stockholders have agreed that they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of Credit Suisse First Boston LLC for a period of 90 days after the date of this prospectus, other than:

the shares of common stock sold in this offering;

transactions by any person relating to shares of common stock or our other securities acquired in open market transactions after the date of this prospectus;

transfers of shares of common stock or any security convertible into or exercisable or exchangeable for our common stock as a bona fide gift or gifts; or

(1) transfers or distributions of shares of common stock or any security convertible into or exercisable or exchangeable into our common stock to affiliates of that stockholder, (2) if the stockholder is a partnership or corporation, a distribution to the partners or shareholders of that stockholder; or (3) transfers by the stockholder (or its distributee or transferee) of common stock or securities convertible into or exercisable or exchangeable for our common stock to a family member of that stockholder (or its distributee or transferee) or trust created for the benefit of that stockholder (or its distributee or transferee), provided that, in each case, the transferee or distributee agrees to be bound by the restrictions contained in that stockholder's lock-up agreement.

As of the date of this filing, one of our directors, who currently beneficially owns 632 shares of our common stock, has not signed the lock-up agreement described above.

Credit Suisse First Boston LLC has no current intent or arrangement to release any shares subject to these lock-ups. The release of any lock-up will be considered on a case by case basis. In considering whether to release any shares, Credit Suisse First Boston LLC would consider the particular circumstances surrounding the request, including but not limited to, the length of time before the lock-up expires, the number of shares requested to be released, the reasons for the request, the possible impact on the market for our common stock and whether the holder of our shares requesting the release is an officer, director or other affiliate of ours.

We and the selling stockholders have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Certain of the underwriters and their respective affiliates may have from time to time performed and may in the future perform various financial advisory, commercial banking and investment banking services for us in the ordinary course of business, for which they received or will receive customary fees.

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of

Table of Contents

shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. If the underwriters sell more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange and, if commenced, may be discontinued at any time.

A prospectus in electronic format may be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may deliver prospectuses electronically. The representative may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

Table of Contents

NOTICE TO CANADIAN RESIDENTS

Resale Restrictions

The distribution of the common stock in Canada is being made only on a private placement basis exempt from the requirement that we and the selling stockholders prepare and file a prospectus with the securities regulatory authorities in each province where trades of common stock are made. Any resale of the common stock in Canada must be made under applicable securities laws which will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the common stock.

Representations of Purchasers

By purchasing common stock in Canada and accepting a purchase confirmation a purchaser is representing to us, the selling stockholders and the dealer from whom the purchase confirmation is received that

the purchaser is entitled under applicable provincial securities laws to purchase the common stock without the benefit of a prospectus qualified under those securities laws,

where required by law, that the purchaser is purchasing as principal and not as agent, and

the purchaser has reviewed the text above under Resale Restrictions.

Rights of Action - Ontario Purchasers Only

Under Ontario securities legislation, a purchaser who purchases a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of the shares, for rescission against us and the selling stockholders in the event that this prospectus contains a misrepresentation. A purchaser will be deemed to have relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the shares. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the shares. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us or the selling stockholders. In no case will the amount recoverable in any action exceed the price at which the shares were offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we and the selling stockholders will have no liability. In the case of an action for damages, we and the selling stockholders will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the shares as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

Enforcement of Legal Rights

All of our directors and officers as well as the experts named herein and the selling stockholders may be located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All or a substantial portion of our assets and the assets of those persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

Taxation and Eligibility for Investment

Canadian purchasers of common stock should consult their own legal and tax advisors with respect to the tax consequences of an investment in the common stock in their particular circumstances and about the eligibility of the common stock for investment by the purchaser under relevant Canadian legislation.

Table of Contents

LEGAL MATTERS

The validity of the shares of common stock offered by this prospectus will be passed upon by Goodwin Procter LLP, Boston, Massachusetts. The underwriters have been represented by Cravath, Swaine & Moore LLP, New York, New York.

EXPERTS

The consolidated financial statements included in this prospectus and the related financial statement schedules included elsewhere in the registration statement have been audited by Deloitte & Touche LLP, independent auditors, as stated in their reports appearing herein and elsewhere in the registration statement and are included in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended, and file reports, proxy statements and other information with the Securities and Exchange Commission. We have also filed with the Securities and Exchange Commission a registration statement on Form S-1 to register our common stock. This prospectus, which forms part of the registration statement, does not contain all of the information included in the registration statement. For further information about us and our common stock offered in this prospectus, you should refer to the registration statement and its exhibits. You may read and copy the registration statement and any other document we file with the Securities and Exchange Commission at the Securities and Exchange Commission's Public Reference Room, 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the Securities and Exchange Commission at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. In addition, the Securities and Exchange Commission maintains a web site that contains registration statements, reports, proxy statements and other information regarding registrants, such as us, that file electronically with the Securities and Exchange Commission. The address of the web site is www.sec.gov. Except for the registration statement and its exhibits, the information we file with the Securities and Exchange Commission is not included or incorporated in the registration statement and should not be relied upon by potential investors in determining whether to purchase shares of our common stock in this offering.

Independent Auditors Report

To the Stockholders of Perini Corporation:

We have audited the accompanying consolidated balance sheets of Perini Corporation and Subsidiaries (collectively, the Company) as of December 31, 2003 and 2002, and the related consolidated statements of income, stockholders equity and cash flows for each of the three years in the period ended December 31, 2003. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Perini Corporation and subsidiaries as of December 31, 2003 and 2002, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2003, in conformity with accounting principles generally accepted in the United States.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended December 31, 2003, 2002 and 2001

[1] Summary of Significant Accounting Policies

[a] Nature of Business

The Company was incorporated in 1918 as a successor to businesses which had been engaged in providing construction services since 1894. The Company provides diversified general contracting, construction management and design-build services to private clients and public agencies throughout the world. The Company's construction business is now conducted through three basic segments or operations: building, civil and management services. The Company offers general contracting, preconstruction planning and comprehensive project management services, including the planning and scheduling of the manpower, equipment, materials and subcontractors required for the timely completion of a project in accordance with the terms and specifications contained in a construction contract. The Company also offers self-performed construction services, including site work, concrete forming and placement and steel erection. The Company provides these services by using traditional general contracting arrangements, such as fixed price, guaranteed maximum price and cost plus fee contracts and, to a lesser extent, construction management or design-build contracting arrangements.

In an effort to limit its financial and/or operational risk on certain large or complex projects, the Company participates in construction joint ventures, often as sponsor or manager of the project, for the purpose of bidding and, if awarded, providing the agreed upon construction services. Each participant usually agrees in advance to provide a predetermined percentage of capital, as required, and to share in the same percentage of profit or loss of the project.

[b] Principles of Consolidation

The consolidated financial statements include the accounts of Perini Corporation and its wholly owned subsidiaries (the Company). The Company's interests in construction joint ventures are accounted for using the proportionate consolidation method whereby the Company's proportionate share of each joint venture's assets, liabilities, revenues and cost of operations are included in the appropriate classifications in the consolidated financial statements. All significant intercompany transactions and balances have been eliminated in consolidation.

[c] Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's construction business involves making significant estimates and assumptions in the normal course of business relating to its contracts and joint venture contracts due to, among other things, the one-of-a-kind nature of most of its projects, the long-term duration of its contract cycle and the type of

contract utilized. The most significant estimates with regard to these financial statements relate to the estimating of total forecasted construction contract revenues, costs and profits in accordance with accounting for long-term contracts (see Note 1(d) below) and estimating potential liabilities in conjunction with certain contingencies, including the outcome of pending or future litigation, arbitration or other dispute resolution proceedings relating to contract claims. (See Note 2 below.) Actual results could differ in the near term from these estimates and such differences could be material.

[d] Method of Accounting for Contracts

Revenues and profits from the Company's contracts and construction joint venture contracts are generally recognized by applying percentages of completion for the period to the total estimated profits for the respective

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****For the Years Ended December 31, 2003, 2002 and 2001 (continued)****[1] Summary of Significant Accounting Policies (continued)*****[d] Method of Accounting for Contracts (continued)***

contracts. Percentage of completion is determined by relating the actual cost of the work performed to date to the current estimated total cost of the respective contracts. However, on construction management contracts, profit is generally recognized in accordance with the contract terms, usually on the as billed method, which is generally consistent with the level of effort incurred over the contract period. When the estimate on a contract indicates a loss, the Company's policy is to record the entire loss during the accounting period in which it is estimated. In the ordinary course of business, at a minimum on a quarterly basis, the Company prepares updated estimates of the total forecasted revenue, cost and profit or loss for each contract. The cumulative effect of revisions in estimates of the total forecasted revenue and costs, including unapproved change orders and claims, during the course of the work is reflected in the accounting period in which the facts that caused the revision become known. The financial impact of these revisions to any one contract is a function of both the amount of the revision and the percentage of completion of the contract. An amount equal to the costs incurred which are attributable to unapproved change orders and claims is included in the total estimated revenue when realization is probable. Profit from unapproved change orders and claims is recorded in the period such amounts are resolved.

In accordance with normal practice in the construction industry, the Company includes in current assets and current liabilities amounts related to construction contracts realizable and payable over a period in excess of one year. Deferred contract revenue represents the excess of billings to date over the amount of contract costs and profits (or contract revenue) recognized to date on the percentage of completion accounting method on certain contracts. Unbilled work represents the excess of contract costs and profits (or contract revenue) recognized to date on the percentage of completion accounting method over billings to date on the remaining contracts. Unbilled work results when (1) the appropriate contract revenue amount has been recognized in accordance with the percentage of completion accounting method, but a portion of the revenue recorded cannot be billed currently due to the billing terms defined in the contract and/or (2) costs, recorded at estimated realizable value, related to unapproved change orders or claims are incurred. Unbilled work related to the Company's contracts and joint venture contracts at December 31, 2003 and 2002, consisted of the following (in thousands):

	2003	2002
Unbilled costs and profits incurred to date*	\$ 34,121	\$ 19,498
Unapproved change orders	17,936	30,289
Claims	64,515	62,776
	\$ 116,572	\$ 112,563

* Represents the excess of contract costs and profits recognized to date on the percentage of completion accounting method over billings to date on certain contracts.

Edgar Filing: PERINI CORP - Form 424B1

Of the balance of unapproved change orders and claims included above in unbilled work at December 31, 2003 and December 31, 2002 approximately \$36.0 and \$40.0 million respectively, are amounts subject to pending litigation or dispute resolution proceedings as described in Item 3 Legal Proceedings and Note 2, Contingencies and Commitments of Notes to Consolidated Financial Statements for the respective periods. These amounts are management's estimate of the probable recovery from the disputed claims considering such factors as evaluation of entitlement, settlements reached to date and knowledge of customer. In the event that future facts and circumstances, including the resolution of disputed claims, cause us to reduce the aggregate amount of our estimated probable recovery from the disputed claims, we will record the amount of such reduction against future earnings in the relevant period.

F-8

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended December 31, 2003, 2002 and 2001 (continued)

[1] Summary of Significant Accounting Policies (continued)

[d] Method of Accounting for Contracts (continued)

The prerequisite for billing Unbilled costs and profits incurred to date is provided in the defined billing terms of each of the applicable contracts. The prerequisite for billing Unapproved change orders or Claims is the final resolution and agreement between the parties. The amount of unbilled work at December 31, 2003 estimated by management to be collected beyond one year is approximately \$19.0 million.

[e] Property and Equipment

Land, buildings and improvements, construction and computer-related equipment and other equipment are recorded at cost. Depreciation is provided primarily using accelerated methods for construction and computer-related equipment over lives from three to seven years and the straight-line method for the remaining depreciable property over lives from three to thirty years.

[f] Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Recoverability is evaluated by comparing the carrying value of the asset to the undiscounted cash flows associated with the affected assets. When this comparison indicates that the carrying value of the asset is greater than the undiscounted cash flows, a loss is recognized for the difference between the carrying value and estimated fair value. Fair value is determined based on market quotes, if available, or is based on valuation techniques.

[g] Goodwill

As of December 31, 2002, Goodwill in the amount of approximately \$1.0 million was included in the accompanying Consolidated Balance Sheets and represented the excess of the costs of subsidiaries acquired over the fair value of their net assets as of the dates of acquisition. Effective January 1, 2003, the Company acquired 100% of the outstanding stock of James A. Cummings, Inc., a privately held construction company based in Ft. Lauderdale, FL. (See Note 3.) As a result of this transaction, approximately \$13.0 million of additional goodwill was recorded in 2003, bringing the total amount of goodwill to approximately \$14.0 million as of December 31, 2003.

Edgar Filing: PERINI CORP - Form 424B1

In accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*, the Company assesses the amount of goodwill for impairment by applying a fair value test, at a minimum, annually as of December 31. Based on the initial and annual impairment tests completed during 2002 and 2003, the Company concluded that goodwill was not impaired.

[h] Income Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*. (See Note 5). Deferred income tax assets and liabilities are recognized for the effects of temporary differences between the financial statement carrying amounts and the income tax basis of assets and liabilities using tax rates expected to be in effect when such differences reverse. In addition, future tax benefits, such as net operating loss carryforwards, are recognized currently to the extent such benefits are more likely than not to be realized as an economic benefit in the form of a reduction of income taxes in future years.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****For the Years Ended December 31, 2003, 2002 and 2001 (continued)****[1] Summary of Significant Accounting Policies (continued)*****[i] Earnings Per Common Share***

Earnings per common share amounts were calculated in accordance with SFAS No. 128, Earnings per Share. Basic earnings per common share was computed by dividing net income less dividends accrued on the \$21.25 Preferred Stock during all years presented plus the reversal in 2003 of approximately \$7.3 million of previously accrued and unpaid dividends on the \$21.25 Preferred Stock no longer required based on the results of the tender offer completed in June 2003 (see Notes 8 and 14) by the weighted average number of common shares outstanding. Diluted earnings per common share was similarly computed after giving consideration to the dilutive effect of stock options and warrants outstanding on the weighted average number of common shares outstanding.

Options to purchase 135,000 shares of Common Stock at a price of \$8.66 per share were outstanding at December 31, 2003, but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the Common Stock. Options to purchase 3,172,834 shares of Common Stock at prices ranging from \$4.50 to \$8.66 per share were outstanding at December 31, 2002, but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the Common Stock. Options to purchase 574,000 shares of Common Stock at prices ranging from \$8.10 to \$16.44 were outstanding at December 31, 2001 but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the Common Stock. In addition, the effect of the assumed conversion of the Company's outstanding \$21.25 Preferred Stock into Common Stock is antidilutive for all years presented and the effect of the assumed conversion of the Company's Stock Purchase Warrants is antidilutive for 2002 and 2001.

[j] Cash and Cash Equivalents

Cash equivalents include short-term, highly liquid investments with original maturities of three months or less.

Cash and cash equivalents as reported in the accompanying Consolidated Balance Sheets consist of amounts held by the Company that are available for general corporate purposes and the Company's proportionate share of amounts held by construction joint ventures that are available only for joint venture-related uses. Cash held by construction joint ventures is distributed from time to time to the Company and to the other joint venture participants in accordance with their percentage interest after the joint venture partners determine that a cash distribution is prudent. Cash distributions received by the Company from its construction joint ventures are then available for general corporate purposes. At December 31, 2003 and 2002, cash and cash equivalents consisted of the following (in thousands):

2003

2002

Edgar Filing: PERINI CORP - Form 424B1

Corporate cash and cash equivalents (available for general corporate purposes)	\$ 33,426	\$ 11,220
Company's share of joint venture cash and cash equivalents (available only for joint venture purposes, including future distributions)	34,397	35,811
	<u>\$ 67,823</u>	<u>\$ 47,031</u>

F-10

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****For the Years Ended December 31, 2003, 2002 and 2001 (continued)****[1] Summary of Significant Accounting Policies (continued)*****[k] Stock-Based Compensation***

The Company accounts for stock options granted to employees and directors using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. No stock-based employee compensation cost is reflected in net income since all stock options granted by the Company had an exercise price equal to or greater than the fair market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation, to stock-based employee and director compensation (in thousands). The effect of applying SFAS No. 123 in this pro forma disclosure may not be indicative of future charges.

Net income, as reported	\$ 44,018	\$ 23,074	\$ 26,418
Plus: Total stock-based employee compensation recognized under APB No. 25			
Less: Total stock-based employee compensation expense determined under fair value based method for all awards		(2,831)	(2,846)
Net income, pro forma	\$ 44,018	\$ 20,243	\$ 23,572
Basic earnings per share:			
As reported	\$ 2.18	\$ 0.92	\$ 1.07
Pro forma	\$ 2.18	\$ 0.80	\$ 0.94
Diluted earnings per share:			
As reported	\$ 2.10	\$ 0.91	\$ 1.04
Pro forma	\$ 2.10	\$ 0.79	\$ 0.91

[l] Fair Value of Financial Instruments

The carrying amount of cash and cash equivalents approximate fair value due to the short term nature of these items. The carrying value of receivables and other amounts arising out of normal contract activities, including retentions, which may be settled beyond one year, is estimated to approximate fair value. See Note 4 for disclosure of the fair value of long-term debt.

[m] Reclassifications

Certain prior year amounts have been reclassified to be consistent with the current year classifications.

[n] New Accounting Pronouncements

In January 2003, the FASB issued FIN No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB 51 . In December 2003, the FASB revised FIN No. 46 to reflect decisions it made regarding a number of implementation issues. FIN No. 46, addresses consolidation by business enterprises of variable interest entities (VIEs). FIN 46 applies immediately to variable interest entities created or obtained after January 31, 2003 and it applies in the first fiscal year or interim period ending after December 15, 2003, to VIEs in which an enterprise holds a variable interest that is acquired before February 1, 2003. This pronouncement is currently not anticipated to have a material effect on our consolidated financial position or results of operations.

[2] Contingencies and Commitments

(a) Mergentime Perini Joint Ventures vs. WMATA Matter

On May 11, 1990, contracts with two joint ventures in which Perini held a 40% interest were terminated by the Washington Metropolitan Area Transit Authority, or WMATA, on two subway construction projects in the District of Columbia. The contracts were awarded to the joint ventures in 1985 and 1986. However, Perini and Mergentime Corporation, or Mergentime, the 60% managing partner, entered into an agreement in 1987 under which Perini withdrew from the joint ventures and Mergentime assumed complete control over the performance of both projects. This agreement did not relieve Perini of its responsibilities to WMATA as a joint venture partner. After Perini withdrew from the joint ventures, Mergentime and WMATA had a dispute regarding progress on the projects. After both construction contracts were terminated, WMATA retained Perini, acting independently, to complete both projects.

Subsequently, the joint ventures brought an action in the United States District Court for the District of Columbia against WMATA, seeking damages for delays, unpaid extra work and wrongful termination and WMATA brought an action against the joint ventures seeking damages for additional costs to complete the projects. After a bench trial, the District Court found the joint ventures liable to WMATA for damages in the amount of approximately \$16.5 million and WMATA liable to the joint ventures for damages in the amount of approximately \$4.3 million.

The joint ventures appealed the judgment to the United States Court of Appeals for the District of Columbia, and on February 16, 1999, the Court of Appeals vacated the District Court's final judgment and ordered the District Court to review its prior findings and hold further hearings in regard to the joint venture's affirmative claims. In addition, the Court of Appeals held that statutory interest on any of the claims will not accrue until final judgment is entered sometime in the future.

On February 28, 2001, a successor District Court Judge informed the parties that he could not certify adequate familiarity with the record to complete the remaining proceedings; therefore, he granted the joint ventures' motion for a new trial. The joint ventures are seeking \$28.9 million, plus interest, from WMATA, and WMATA is seeking \$29.3 million from the joint ventures. A new trial was completed in January 2002 and a decision is still pending. The ultimate financial impact of the Judge's pending decision is not yet determinable; therefore, no provision for loss, if any, has been recorded in the financial statements.

(b) Tutor-Saliba-Perini Joint Venture vs. Los Angeles MTA Matter

During 1995, a joint venture, Tutor-Saliba-Perini, or TSP, in which Perini is the 40% minority partner and Tutor-Saliba Corporation of Sylmar, California is the 60% managing partner, filed a complaint in the Superior Court of the State of California for the County of Los Angeles against the Los Angeles County Metropolitan Transportation Authority, or the MTA, seeking to recover costs for extra work required by the MTA in

Edgar Filing: PERINI CORP - Form 424B1

connection with the construction of certain tunnel and station projects. In February 1999 the MTA countered with civil claims under the California False Claims Act against TSP, Tutor-Saliba and Perini jointly and severally. Ronald N. Tutor, the Chairman and Chief Executive Officer of Perini since March 2000, is also the chief executive officer and the sole stockholder of Tutor-Saliba Corporation.

Claims concerning the construction of the MTA projects were tried before a jury in 2001. During trial, the Judge ruled that TSP had failed to comply with the Court's prior discovery orders and the Judge penalized TSP, Tutor-Saliba and Perini for the alleged non-compliance by dismissing TSP's claims and by ruling, without a jury finding, that TSP, Tutor-Saliba and Perini were liable to the MTA for damages on the MTA's counterclaims. The Judge then instructed the jury that TSP, Tutor-Saliba and Perini were liable to the MTA and charged the jury

(b) Tutor-Saliba-Perini Joint Venture vs. Los Angeles MTA Matter (continued)

with the responsibility of determining the amount of the damages based on the Judge's ruling. The jury awarded the MTA approximately \$29.6 million in damages.

On March 26, 2002, the Judge amended the award, ordering TSP to pay the MTA an additional \$33.4 million in costs and attorney fees, with the aggregate \$63.0 million award subject to interest at an annual rate of 10% from the date of the award.

TSP and the other plaintiffs/defendants in the counterclaim have appealed the Judge's discovery sanction, the subsequent jury award and the amended award. Oral arguments on the appeal are anticipated to be set some time in the Summer 2004. The ultimate financial impact of the Judge's ruling and/or the awards is not yet determinable. Therefore, no provision for loss, if any, has been recorded in the financial statements.

(c) City of San Francisco vs. Tutor-Saliba, Perini & Buckley Joint Venture Matter

In November 2002, the San Francisco City Attorney, on behalf of the City and County of San Francisco and the citizens of California, filed a civil action with a demand for a jury trial against Perini, Tutor-Saliba Corporation, or TSC, the Tutor-Saliba, Perini & Buckley Joint Venture, Buckley & Company, Inc. and their bonding companies in the United States District Court in San Francisco relating to seven projects for work on the expansion of the San Francisco International Airport. A second amended complaint was filed in July 2003 which, among other things, added Ronald N. Tutor as a defendant. The joint venture was established by TSC, Perini and Buckley through two joint venture agreements dated October 28, 1996 and February 11, 1997. The joint venture had agreements with the Owner to perform work (Contracts) on only two of the above projects (Projects) and, as part of those Contracts, the joint venture provided performance and payment bonds to the Owner (Bonds).

In the second amended complaint, the plaintiffs allege, among other things, various overcharges, bidding violations, violations of minority contracting regulations, civil fraud and violation of the California and San Francisco False Claims and California Unfair Competition Acts. In addition, the plaintiffs allege that the defendants have violated the United States Racketeer Influenced Corrupt Organizations Act. The plaintiffs have asserted \$30 million in damages and are seeking treble damages, punitive and exemplary damages, various civil penalties and a declaration that TSC and the joint venture are irresponsible bidders. It is unclear based on the plaintiff's current complaint what portion of the plaintiff's claims relate to the two projects that the joint venture participated in.

Edgar Filing: PERINI CORP - Form 424B1

On October 3, 2003, the Court granted the defendants' motion to specify damages allegedly sustained for each contract. The defendants' motion to dismiss the plaintiff's second amended complaint is pending.

TSC is the managing partner of the joint venture and, in December 1997, Perini sold its entire 20% interest in the joint venture to TSC. As part of that sale agreement, TSC agreed to indemnify Perini from any liability that Perini is required to pay by reason of or arising out of any event or occurrence subsequent to the date of the sale of Perini's interest in the joint venture in any way connected with the joint venture agreements, the Contracts, the Projects and the Bonds. It is unclear based on the plaintiff's current complaint whether the claims against the joint venture arise out of events that occurred subsequent to the date of the sale of Perini's interest. The ultimate financial impact of this action is not yet determinable.

[2] Contingencies and Commitments (continued)

(d) Perini/Kiewit/Cashman Joint Venture Central Artery/Tunnel Project Matter

Perini/Kiewit/Cashman Joint Venture, or PKC, a joint venture in which Perini holds a 56% interest and is the managing partner, is currently pursuing a series of claims for additional contract time and/or compensation against the Massachusetts Highway Department, or MHD, for work performed by PKC on a portion of the Central Artery/Tunnel project in Boston, Massachusetts. During construction, MHD ordered PKC to perform changes to the work and issued related direct cost changes with an estimated value, excluding time delay and inefficiency costs, in excess of \$100 million. In addition, PKC encountered a number of unforeseen conditions during construction that greatly increased PKC's cost of performance.

Certain of PKC's claims have been presented to a Disputes Review Board, or the DRB, which consists of three construction experts chosen by the parties. To date, the DRB has ruled on a binding basis that PKC is entitled to additional compensation for its contract time delay claim in the amount of \$17.4 million. On March 20, 2002, the Superior Court of the Commonwealth of Massachusetts approved PKC's request to have MHD comply with the DRB's \$17.4 million award. The MHD has appealed the Superior Court decision to the Appeals Court of the Commonwealth of Massachusetts.

The DRB has also ruled on a binding basis that PKC is entitled to additional compensation awards totaling \$17.1 million for impacts and inefficiencies caused by MHD to certain of PKC's work. PKC has filed applications in these actions seeking to confirm the awards and MHD has filed civil actions in Massachusetts Superior Court seeking to vacate these awards.

Under the Dispute Resolution Rules of the contract, either party may periodically terminate the services of some or all of the DRB members provided that members who are removed under this provision will remain on the DRB through the completion of any then pending claims. The MHD has chosen to remove the current DRB members under this provision and those members are in the process of completing hearings on all pending claims. Although the replacement DRB members have been agreed upon, proceedings before the current DRB and the new DRB have been postponed pending completion of the negotiation and mediation discussed below.

The pending claims yet to be decided by the current DRB on a binding basis have an anticipated value of \$49.4 million. The remaining claims to be decided by the replacement DRB on a non-binding basis have an anticipated value of \$72.6 million.

On August 14, 2002 the Massachusetts Attorney General's office, pursuant to its authority under the Massachusetts False Claims Act, served a Civil Investigative Demand (CID) on Perini and the other joint venture partners. The CID sought the production of certain construction claims documentation in connection with the Central Artery/Tunnel Contract No. C11A1. PKC vigorously denies that it submitted any false claims and

Edgar Filing: PERINI CORP - Form 424B1

is cooperating with the Attorney General's Office in the ongoing investigation.

In December 2002, PKC and MHD entered into an agreement to attempt to resolve by negotiation and mediation all of the outstanding claims on the project. As part of the agreement, the MHD recommended for approval by the Massachusetts Turnpike Authority a contract modification that provides for provisional payments to PKC totaling \$25 million against PKC's outstanding claims. To date, PKC has received \$23.75 million of those provisional payments. The parties also agreed to stay the pending litigation and DRB proceedings during the negotiations. Perini began mediation on all claims in September 2003. Management has made an estimate of the total anticipated cost recovery on this project and it is included in revenue recorded to date. To the extent new facts become known or the final cost recovery included in the claim settlement varies from this estimate, the impact of the change will be reflected in the financial statements at that time.

(e) Redondo/Perini Joint Venture vs. Siemens Transportation Matter

This is a binding arbitration proceeding arising out of a contract between the Redondo/Perini Joint Venture, or RPJV, a joint venture in which Perini and Redondo Construction Corp., or Redondo, each have a 50% interest and the Siemens Transportation Partnership, S.E., Puerto Rico, or STP. STP is constructing a public metropolitan passenger rail transportation project for the Commonwealth of Puerto Rico and RPJV is responsible for the design and construction of a portion of the project.

On March 19, 2002, Redondo filed a petition for reorganization under 11 U.S.C. Chapter 11 in U.S. Bankruptcy Court for the District of Puerto Rico.
