# **Table of Contents** Calcasieu Real Estate & Oil Co., Inc. **Notes to Financial Statements** March 31, 2005 (Unaudited) Note 1. Basis of Presentation In the opinion of management, the accompanying balance sheet and related interim statements of income, cash flows, and stockholders equity include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in accordance with generally accepted accounting principles of the results for the interim periods presented. Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-QSB should be read in conjunction with Management s Discussion and Analysis and financial statements and notes thereto included in the Calcasieu Real Estate & Oil Co., Inc. 2004 Form 10-KSB. Note 2. Nature of Business and Significant Accounting Policies Nature of business: The Company s business is the ownership and management of land. The primary activities consist of leasing its properties for mineral (oil and gas) and agriculture and raising timber. Significant accounting polices: Cash and equivalents: For purposes of the statement of each flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments

Table of Contents 10

with original maturities of three months or less.

Pervasiveness of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

6

# **Table of Contents** Investment securities: The Company complies with the provisions of Financial Accounting Standards Board Statement No. 115, Accounting for Certain Investments in Debt and Equity Securities. Under the provisions of this statement, management must make a determination at the time of acquisition whether certain investments in debt and equity securities are to be held as investments to maturity, held as available for sale, or held for trading. Management, under a policy adopted by the board of directors of the Company, made a determination that all debt and equity securities owned at that date and subject to the provisions of the statement would be classified as held available-for-sale. Under the accounting policies provided for investments classified as held available- for-sale, all such debt securities and equity securities that have readily determinable fair value shall be measured at fair value in the balance sheet. Unrealized holding gains and losses for available-for-sale securities shall be excluded from earnings and reported as a net amount (net of income taxes) as a separate component of retained earnings until realized. Realized gains and losses on available-for-sale securities are included in income. The cost of securities sold is based on the specific identification method. Interest on debts securities is recognized in income as earned, and dividends on marketable equity securities are recognized in income when declared. Declines in the fair value of available-for-sale securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Property and equipment: Property and equipment is stated at cost. Major additions are capitalized; maintenance and repairs are charged to income currently. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets. Timber: When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. The costs of reforestation are capitalized. The timber asset is amortized when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract. 7

Revenue for the first quarter of 2005 was \$610,083, an increase of \$83,246 or 15.6% over the first quarter of 2004. Agriculture income was down \$15,165 or 20.6% from the first quarter of 2004. This was due to rent timing differences. Oil and gas income was up \$94,519 or 20.8% in the first quarter of 2005 compared to the first quarter of 2004. Of this \$94,519 increase oil leases and seismic fees accounted for \$16,167 of the increase as we saw more leasing activity. In the first quarter of 2005 the largest source, of oil and gas royalties was the Company s interest in the Castor Creek field. The Company s interest in this field in 2005 was 518.18 barrels of oil and 18,758 MCF of gas for gross royalties of \$166,677 as compared to 276.52 barrels of oil, 5,199 MCF of gas and \$41,667 gross royalties in 2004 when the field was initially coming on stream. The average price per barrel of oil was 26.9% higher in 2005 than 2004 and the average price per MCF of gas was 25.5% higher from this

production. This contrasts with the results from the South Gordon field which was the largest source of oil and gas income in 2004. Although the average price per barrel of oil at South Gordon increased 32.4% and the average

8

#### **Table of Contents**

price per MCF of gas increased 7% it was not enough to off set the decline in production. The Company s share of oil produced declined 1,403 barrels or 36.1% and the MCF of gas declined 2,654 MCF or 40.7%. Income from South Gordon declined \$37,497. The remainder of the Company s oil and gas income remained approximately equal with the prior year as declines in production were off set by increases in prices.

Operating Expenses

Operating expenses increased \$14,629 in the first quarter of 2005 as compared to the first quarter of 2004 or 10%. All of the increase was due to an increase of \$8,623 in state oil and gas severance taxes and an increase of \$8,589 in timber expense. The severance taxes are a percentage of the oil and gas royalties and the timber expenses were incurred to take advantage of good weather.

**Financial Condition** 

Current assets plus securities available for sale totaled \$4,116,503 on March 31, 2005, compared with \$3,807,789 on December 31, 2004, and \$2,981,568 on March 31, 2004. Current liabilities, which were also total liabilities were \$550,263 on March 31, 2005, compared to \$215,267 on December 31, 2004, and \$312,953 on March 31, 2004.

Management believes existing cash and short-term investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

The Company declared the normal seven cents per common share during the quarter ended March 31, 2005, plus an extra dividend of ten cents per common share. It is anticipated that the Company will be able to continue paying a seven cents per common share per quarter.

Issues and Uncertainties

This Quarterly Report contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those listed below, which, among others, should be considered in evaluating the Company s financial outlook.

Revenues from oil and gas provide most of the Company s income. All of these revenues come from wells operated by other companies from property belonging to Calcasieu Real Estate & Oil Co., Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

#### **Item 4. Controls and Procedures**

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rule 13a-14(c) within 90

9

days of the filing date of this quarterly report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no significant changes in the Company s internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation.

#### Part II. Other Information

#### Item 4. Submission of Matters to a Vote of Security Holders

The Annual Meeting of Stockholders was held on April 19, 2005.

The following proposals were adopted by the margins indicated:

1. To elect a Board of Directors to hold office until their successors are elected and qualified.

#### **Number of Shares**

	For	Withheld
William D. Blake	1,458,282	28,090
Troy A. Freund	1,481,222	5,150
Arthur Hollins, III	1,481,222	5,150
Laura A. Leach	1,479,132	7,240
Frank O. Pruitt	1,481,222	5,150
B. James Reaves, III	1,479,462	6,910
Mary W. Savoy	1,479,142	7,230
Michael P. Terranova	1,479,462	6,910
Charles D. Viccellio	1,479,472	6,900
Mary Leach Werner	1,479,462	6,910

2. To amend the Restated Articles of Incorporation to change the name of the Company to CKX Lands, Inc.

For	1,344,493
Against	125,188
Abstain	16,916

The name change will be effective when the Company files the amendment with the Louisiana Secretary of State. This will occur when the Company has obtained a new CUSIP number and new stock certificates.

3. To approve McElroy, Quirk & Burch APC as auditors for 2005.

For	1,481,677
Against	4,034
Abstain	886
