**CANTV COMMENTS ON DECISION OF SOCIAL
CHAMBER OF SUPREME COURT REGARDING
ADJUSTMENT OF PENSIONS**

Caracas, Venezuela (July 29, 2005) Compañía Anónima Nacional Teléfonos de Venezuela (CANTV) (NYSE: VNT) commented today on the recent decision of the Social Chamber of the Supreme Court of Venezuela in the lawsuit brought by Federación Nacional de Jubilados y Pensionados de Teléfonos de Venezuela (FETRAJUPTEL) (the Venezuelan National Telephone Association of Retirees and Pensioners) regarding the adjustment of pensions of retirees of CANTV.

In its comments, CANTV stated as follows:

Last Tuesday, July 26th, the Social Chamber issued an adverse decision to CANTV requiring the adjustment of pensions of retirees, retroactive to January 1, 1993. The pensions will be adjusted proportionally to the salary increases that resulted from the collective bargaining process. This decision applies to current and future retirees and their eligible survivors.

In addition, and pursuant to the new Constitution enacted on December 30, 1999, adjusted pensions that have not reached the minimum urban wage should be increased to that minimum.

A lower court will perform the calculations necessary to determine the amounts due to each retiree or its eligible survivors.

The additional pension amounts are not subject to interest or adjustment for inflation charges.

The Company believes that this decision goes far beyond the specific guidelines issued by the Constitutional Chamber in January 25, 2005, to be strictly followed by the Social Chamber. The Company also believes that the decision is in violation of the Venezuelan Constitution and it is on this ground that CANTV will request a revision from the Constitutional Chamber.

Currently the Company is assessing the potential economic impact that the Social Chamber's decision may have. This assessment requires time and the involvement of actuarial consultants experts in these matters. However, based on very preliminary internal calculations, the range of additional liabilities associated with this decision results in a very significant impact to the Company's balance sheet.

As a matter of reference, should the decision become firm, the low value of the range would exceed retained earnings and the high value of the range would materially affect the Company's total equity. In addition, the payment of retroactive adjustments of pensions earned since 1993 to date, ordered in the decision, would significantly affect the Company's current cash position.

CANTV indicated that it will be communicating future developments of this matter at the appropriate time.

Finally, CANTV stated that despite the relevance of the issue just explained, the Company continues to be committed to its customers, its shareholders and all other relevant stakeholders, and will maintain its focus on executing of its strategic plan.

CANTV, a Venezuelan corporation, is the leading Venezuelan telecommunications services provider with approximately 3.1 million access lines in service, 3.1 million cellular subscribers and 363 thousand Internet subscribers as of December 31, 2004.
