## **Section 8 Other Events**

### ***Item 8.01 Other Events***

On August 2, 2005, Oracle, through a wholly-owned subsidiary, entered into a Share Purchase Agreement with OrbiTech Limited, a subsidiary of Citigroup Inc., for the purchase of 32,236,000 shares of i-flex solutions Ltd., an Indian company (Bombay Stock Exchange: IFLX.BO and National Stock Exchange of India: IFLX.NS). The shares to be purchased from OrbiTech constitute approximately 41% of the outstanding common stock of i-flex.

Under the terms of the Share Purchase Agreement, Oracle will pay 800 Indian rupees per share, for a total purchase price of 25,788,800,000 rupees, or approximately \$592.8 million.

As a result of entering into the Share Purchase Agreement, under Indian law Oracle is obligated to make an open offer to purchase up to 20% of the outstanding equity of i-flex. Oracle will make the open offer at 882.62 rupees per share. If the open offer is fully subscribed, the additional purchase price would be approximately \$316 million, and the total consideration would be approximately \$909 million.

The purchase is conditioned upon customary closing conditions, including that: (i) no action, proceeding, injunction, order or decree shall prohibit or materially restrict the consummation of the transactions in the Share Purchase Agreement; (ii) all necessary government approvals have been received, including Indian regulatory approvals and antitrust approvals from the United States, Germany and Ireland; (iii) there have not been any state of facts, conditions or changes which would have a material adverse effect on i-flex; and (iv) the open offer has closed.

The parties expect the purchase to close by the end of 2005, although there can be no assurances that the purchase will close in that time period.

On August 2, 2005, Oracle issued a press release announcing that it had entered into the Share Purchase Agreement, which is attached hereto as Exhibit 99.1.
