**Item 8.01 Other Events.**

We recently filed an Advance Rating Service/Emerging Investment Vehicle Application with the Securities Valuation Office ( SVO ) of the National Association of Insurance Commissioners ( NAIC ). The purpose of the application was to request a preliminary determination from the SVO regarding the security-type designation for purposes of statutory risk-based capital calculations for U.S. insurance companies that might hold capital securities (the capital securities ) that are similar, in terms of maturity, subordination, interest deferral, payment restrictions, events of default and forgiveness of deferred interest relating to a trigger event in the event of a bankruptcy, to the 6.75% capital securities due 2066 that we recently issued, as described in our prospectus supplement dated April 12, 2006. On May 3, 2006, the SVO advised us that it would preliminarily designate the capital securities for which we submitted the application as common equity for purposes of calculating the statutory risk-based capital requirements of U.S. insurance companies that hold the capital securities. However, the SVO will not provide an official designation of the security-type of the capital securities unless and until an insurance company subject to regulation by a U.S. state insurance department purchases the capital securities, reports them to the SVO and the SVO receives and reviews the final, executed documentation related to the capital securities and upholds its preliminary analysis and publishes its final NAIC Designation in the Valuations of Securities CD-ROM or in some other forum that serves as the official expression from the NAIC.
