PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

To Be Held on Thursday, May 17, 2007

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Plug Power Inc. (the "Company") for use at the 2007 Annual Meeting of Stockholders of the Company to be held on Thursday, May 17, 2007, at 10:00 a.m., Eastern Standard Time, at Reuters, 30th Floor, Three Times Square, New York, New York 10036 and any adjournments or postponements thereof (the "Annual Meeting").

At the Annual Meeting, the stockholders of the Company will be asked to consider and vote upon the following matters:

1. The election of two Class II Directors, each to hold office until the Company's 2010 annual meeting of stockholders and until such director's successor is duly elected and qualified or until such director's earlier resignation or removal;

2. Such other business as may properly come before the Annual Meeting and any adjournments or postponements thereof.
The Notice of Annual Meeting, Proxy Statement and Proxy Card are first being mailed to stockholders of the Company on or about April 16, 2007 in connection with the solicitation of proxies for the Annual Meeting. The Board of Directors has fixed the close of business on April 9, 2007 as the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting (the "Record Date"). Only holders of record of the Company's Common Stock at the close of business on the Record Date will be entitled to notice of, and to vote at, the Annual Meeting. As of the Record Date, there were 86,585,792 shares of Common Stock outstanding and entitled to vote at the Annual Meeting and approximately 2,913 stockholders of record. However, management believes that a significant number of shares are held by brokers under a nominee name and that the number of beneficial stockholders of the Common Stock exceeds 80,000. Each holder of Common Stock outstanding as of the close of business on the Record Date will be entitled to one vote for each share held of record with respect to each matter submitted at the Annual Meeting.

The presence, in person or by proxy, of a majority of the total number of outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. A quorum being present, the affirmative vote of a plurality of the votes present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter is necessary to elect a nominee as a director of the Company.

Shares that reflect abstentions or broker non-votes (i.e., shares represented at the Annual Meeting held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote such shares and with respect to which the broker or nominee does not have discretionary voting power to vote such shares) will be counted for purposes of determining whether a quorum is present for the transaction of business at the meeting. With respect to the election of directors, votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect on the vote. Broker non-votes will also have no effect on the outcome of the election of directors.

Table of Contents

Stockholders of the Company are requested to complete, date, sign and return the accompanying Proxy Card in the enclosed envelope. Stockholders who hold shares indirectly as the beneficial owner of shares held for them by a broker or other nominee (i.e., in street name) may direct their vote without attending the Annual Meeting by submitting voting instructions to their broker or nominee. Common Stock represented by properly executed proxies received by the Company and not revoked will be voted at the Annual Meeting in accordance with the instructions contained therein. If instructions are not given therein, properly executed proxies will be voted FOR the election of the two nominees of the Board of Directors as Class II Directors of the Company as listed in this Proxy Statement. It is not anticipated that any matters other than those set forth in this Proxy Statement will be presented at the Annual Meeting. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders.

Any properly completed proxy may be revoked at any time before it is voted on any matter (without, however, affecting any vote taken prior to such revocation) by (1) giving written notice of such revocation to the Corporate Secretary of the Company, (2) submitting a new proxy by telephone, internet or proxy card after the date of the previously submitted proxy (or submitting new voting instructions with respect to shares held in street name), or (3) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

The Annual Report of the Company is being mailed to stockholders of the Company concurrently with this Proxy Statement.

PROPOSAL 1: ELECTION OF DIRECTORS

The Audit Committee held five (5) meetings during Fiscal 2006 and each member attended all of the meetings during the period in which such person served on the committee, except for Mr. Grant who missed one meeting.

Audit Committee Report

The Audit Committee of the Board of Directors is currently composed of four directors, each of whom is an independent director as defined in the NASDAQ Rules and the applicable rules of the Securities and Exchange Commission (SEC). In addition, the Board of Directors has made a determination that each of Messrs. Garberding and Gross qualifies as an audit committee financial expert as defined in the applicable rules of the SEC. Messrs. Garberding and Gross's designation by the Board as an audit committee financial expert is not intended to be a representation that either is an expert for any purpose as a result of such designation, nor is it intended to impose on them any duties, obligations, or liability greater than the duties, obligations or liability imposed on them as members of the Audit Committee and the Board in the absence of such designation.

The Audit Committee's primary responsibility is for oversight of the Company's accounting and financial reporting processes and audits of the Company's financial statements. A more complete description of the Audit Committee's functions is set forth in the Audit Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com.

In accordance with the Audit Committee's charter, management has the primary responsibility for the financial statements and the financial reporting process, including maintaining an adequate system of internal controls over financial reporting. The Company's independent auditors, KPMG LLP (KPMG), report directly to the Audit Committee and are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and for auditing management's assessment of the Company's internal controls over financial reporting and for issuing separate reports thereon. In addition, KPMG will express its own opinion on the effectiveness of the Company's internal control over financial reporting. The Audit Committee, among other matters, is responsible for appointing the Company's independent auditors, evaluating such independent auditors' qualifications, independence and performance, determining the compensation for such independent auditors, and pre-approval of all audit and non-audit services. Additionally, the Audit Committee is responsible for oversight of the Company's accounting and financial reporting processes and audits of the Company's financial statements including the work of the independent auditors. The Audit Committee reports to the Board of Directors with regard to:

the scope of the annual audit;

fees to be paid to the auditors;

the performance of the Company's independent auditors;

compliance with accounting and financial policies and financial statement presentation; and

the Company's procedures and policies relative to the adequacy of internal accounting controls.

The Audit Committee reviewed and discussed with management of the Company and KPMG, the Company's 2006 quarterly consolidated financial statements and 2006 annual consolidated financial statements, including management's assessment of the effectiveness of the Company's internal control over financial reporting and KPMG's evaluation of the Company's internal control over financial reporting. Management has represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles.

Additionally, the Audit Committee has discussed with KPMG any matters required to be discussed under Statement on Auditing Standards No. 61 (Communication with Audit Committees), which include, among other items, matters related to the conduct of the audit of the Company's annual consolidated financial statements. The Audit Committee has also discussed the critical accounting policies used in the preparation of the Company's annual consolidated financial statements, alternative treatments of financial information within generally accepted accounting principles, the ramifications of using such alternative treatments and other written communications between KPMG and management.

KPMG has provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with KPMG that firm's independence. The Audit Committee has also concluded that KPMG's performance of non-audit services is compatible with KPMG's independence.

The Audit Committee also discussed with KPMG their overall scope and plans for their audit and met with KPMG, with and without management present, to discuss the results of their audit, the evaluations of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting. The Audit Committee also discussed with KPMG whether there were any audit problems or difficulties, and management's response.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, the inclusion of audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. The Audit Committee has also appointed KPMG as the Company's independent auditors for the fiscal year ending December 31, 2007. Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee (the **Governance Committee**) consists of Ms. Helmer (Chairwoman) and Messrs. Polikarpov and Woicke, each of whom is an independent director under the NASDAQ Rules. The Governance Committee held 7 meetings during Fiscal 2006. The Governance Committee's responsibilities include establishing criteria for Board and committee membership, considering director nominations consistent with the requirement that a majority of the Board be comprised of independent directors as defined in the NASDAQ Rules, identifying individuals qualified to become board members, and selecting the director nominees for election at each annual meeting of stockholders. The Governance Committee is also responsible for developing and recommending to the Board a set of corporate governance guidelines applicable to the Company and periodically reviewing such guidelines and recommending any changes thereto. A more complete description of the Governance Committee's functions is set forth in the Governance Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com.

Strategy Committee

The Strategy Committee consists of Messrs. Grant (Chairman), Gross, McNamee, Polikarpov and Saillant. The Strategy Committee held 5 meetings during Fiscal 2006. The purpose of the Strategy Committee is to provide input to management in their development of the Company's corporate strategy and to provide recommendations to the Board of Directors with respect to its review and approval of the corporate strategy. Members of the Strategy Committee received additional compensation for their participation in the Strategy Committee meetings as determined by the Board of Directors.

Director Compensation

The Compensation Committee periodically reviews the Company's Non-Employee Director Compensation Plan (the **Plan**) to ensure that the compensation aligns the directors' interests with the long-term interests of the stockholders and that the structure of the compensation is simple, transparent and easy for stockholders to understand. The Compensation Committee also considers whether the Plan fairly compensates the Company's directors when considering the work required in a company of the size and scope of the Company. Employee directors do not receive additional compensation for their services as directors. The following is a summary of the Plan:

Under the Plan, upon initial election or appointment to the Board of Directors, new non-employee directors receive non-qualified stock options to purchase 15,000 shares (50,000 shares for any new non-employee

Chairman) of Common Stock with an exercise price equal to fair market value on the date of grant and that are fully vested on the first anniversary of the date of the grant. Each year of a non-employee director's tenure, the director will receive non-qualified options to purchase 10,000 shares (15,000 shares for any non-employee Chairman), plus non-qualified options to purchase an additional 5,000 shares for serving as chairman of the Audit Committee and non-qualified options to purchase an additional 2,000 shares for serving as chairman of any other committee, including the Compensation Committee and the Corporate Governance and Nominating Committee. These annual options, with an exercise price equal to fair market value on the grant date, fully vest on the first anniversary of the date of the grant.

In addition, each non-employee director is paid an annual retainer of \$30,000 (\$40,000 for any non-employee Chairman) for their services. Committee members receive additional annual retainers in accordance with the following:

Committee	Non-Employee	Non-Employee
	Chairman	Director
Audit Committee	\$ 20,000	\$ 15,000
Compensation Committee	10,000	5,000
Corporate Governance and Nominating Committee	10,000	5,000
Strategy Committee	10,000	5,000

These additional payments for service on a committee are due to the workload and broad-based responsibilities of the committees.

The total amount of the annual retainers are paid in a combination of fifty (50%) percent cash and fifty (50%) percent Common Stock with an option to receive up to one hundred (100%) percent Common Stock, at the election of the non-employee director. All such stock shall be fully vested at the time of issuance. Non-employee directors are also reimbursed for their direct expenses associated with their attendance at board meetings.

Policy Governing Director Attendance at Annual Meetings

The Board of Directors has adopted a formal policy that all directors are expected to attend the Company's annual meetings of stockholders in person, unless doing so is impracticable due to unavoidable conflicts. Nine of the Company's ten directors at the time attended the 2006 annual meeting.

Policies Governing Director Nominations*Securityholder Recommendations*

The Governance Committee's current policy with regard to the consideration of director candidates recommended by securityholders is that it will review and consider any director candidates who have been recommended by one or more of the stockholders of the Company entitled to vote in the election of directors in compliance with the procedures established from time to time by the Governance Committee. All securityholder recommendations for director candidates must be submitted to the Company's Corporate Secretary at Plug Power Inc., 968 Albany Shaker Road, Latham, NY 12110, who will forward all recommendations to the Governance Committee. We did not receive any securityholder recommendations for director candidates for election at the 2007 annual meeting. All securityholder recommendations for director candidates for election at the Company's 2008 annual meeting must be submitted to the Company's Corporate Secretary on or before January 17, 2008 and must include the following information:

the name and address of record of the stockholder;

a representation that the securityholder is a record holder of the Company's stock entitled to vote in the election of directors, or if the securityholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Securities Exchange Act of 1934, as amended;

the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five (5) full fiscal years of the proposed director candidate;

a description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications and other criteria for membership on the Board of Directors approved by the Governance Committee from time to time;

a description of all arrangements or understandings between the securityholder and the proposed director candidate;

the consent of the proposed director candidate (1) to be named in the proxy statement relating to the annual meeting of stockholders and (ii) to serve as a director if elected at such annual meeting; and

any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to the rules of the SEC.

Board Membership Criteria

The Governance Committee has established criteria for membership on the Board of Directors. These criteria include the following specific, minimum qualifications that the Governance Committee believes must be met by a Governance Committee-recommended nominee for a position on the Board of Directors:

The nominee must have high personal and professional integrity, must have demonstrated exceptional ability and judgment, and must be expected, in the judgment of the Governance Committee, to be highly effective, in conjunction with the other nominees to the Board of Directors, in collectively serving the interests of the Company and its stockholders.

In addition to the minimum qualifications for each nominee set forth above, the Governance Committee will recommend that the Board of Directors select persons for nomination to help ensure that:

the Board of Directors will be comprised of a majority of independent directors in accordance with NASDAQ rules;

each of the Audit, Compensation and Governance Committees shall be comprised entirely of independent directors;

each member of the Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement; and

at least one member of the Audit Committee has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

Finally, in addition to any other standards the Governance Committee may deem appropriate from time to time for the overall structure and composition of the Board of Directors, the Governance Committee, when recommending that the Board of Directors select persons for nomination, may consider whether the nominee has direct experience in the industry or in the markets in which the Company operates.

The Governance Committee will recommend to the Board of Directors the nomination of the director candidates who it believes will, together with the existing members of the Board of Directors and other nominees, best serve the interests of the Company and its stockholders.

Identifying and Evaluating Nominees

The Governance Committee may solicit recommendations for director nominees from any or all of the following sources: non-management directors, the Chief Executive Officer, other executive officers, third-party search firms, or any other source it deems appropriate. The Governance Committee will review and evaluate the qualifications of any proposed director candidate that it is considering or that has been recommended to it by a securityholder in compliance with the Governance Committee's procedures for that purpose and conduct inquiries it deems appropriate into the background of these proposed director candidates. In identifying and evaluating proposed director candidates, the Governance Committee may consider, in addition to the minimum qualifications and other criteria for membership on the Board of Directors approved by the Governance Committee from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of each proposed director candidate, his or her depth and breadth of business experience or other background characteristics, his or her independence and the needs of the Board of Directors. Based on these considerations, the Governance Committee will recommend to the Board of Directors the nomination of the director candidates who it believes will, together with the existing members of the Board of Directors and other nominees, best serve the interests of the Company and its stockholders. The Governance Committee will evaluate proposed director candidates who have been recommended by securityholders in compliance with the policies and procedures established by the Governance Committee in the same manner as all other proposed director candidates being considered by the Governance Committee, with no regard to the source of the initial recommendation of such proposed director candidate.

The foregoing policies regarding securityholder recommendations, Board membership criteria and identifying and evaluating nominees do not apply to directors appointed by the holders of the Class B Capital Stock.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation package to our executive management team through a combination of base salary, annual cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. We place emphasis on pay for performance-based incentive compensation, which is designed to reward our executives based on the achievement of predetermined performance goals. This Compensation Discussion and Analysis explains our compensation objectives, policies and practices with respect to our Chief Executive Officer, Chief Financial Officer and the other three most highly-compensated executive officers as determined in accordance with applicable SEC rules, which are collectively referred to as the named executive officers.

The Company's Chief Financial Officer position experienced numerous changes during Fiscal 2006. David Neumann, who had been the Chief Financial Officer since January 2003, resigned in June 2006, and Robert Powers served as Interim Chief Financial Officer from June 2006 until November 2006, while we sought a permanent Chief Financial Officer. Mr. Powers resumed his position as Corporate Controller in November 2006 when Jean M. Nelson was hired to serve as Chief Financial Officer. Ms. Nelson resigned in February 2007, and David Waldek is currently serving as Interim Chief Financial Officer.

In July 2006, Gregory Silvestri was promoted from Chief Operating Officer to President, and Dr. Roger Saillant, who had been President and Chief Executive Officer, remained the Chief Executive Officer. Mr. Silvestri resigned as President in February 2007, and Dr. Saillant was reinstated as President. Currently, Dr. Saillant is the President and Chief Executive Officer.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

Attract and retain talented and experienced executives;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Provide a competitive compensation package which is weighted towards pay for performance, and in which total compensation is primarily determined by company and individual results and the creation of shareholder value;

Ensure fairness among the executive management team by recognizing the contributions each executive makes to our success;

Motivate our executives to manage our business to meet our short- and long-term objectives, and reward them for meeting these objectives.

Our Executive Compensation Programs

Our executive compensation primarily consists of base salary, annual cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. Consistent with the emphasis we place on pay for performance-based incentive compensation, long-term equity incentive compensation in the form of stock options constitutes a significant portion of our total executive compensation.

Within the context of the overall objectives of our compensation programs, our Compensation Committee determined the specific amounts of compensation to be paid to each of our executives in 2006 based on a number of factors, including:

Edgar Filing: PLUG POWER INC - Form DEF 14A

its understanding of the amount of compensation generally paid by similarly situated companies to their executives with similar roles and responsibilities;

Table of Contents

our executives' performance during 2006 in general and as measured against predetermined performance goals;

the roles and responsibilities of our executives;

the individual experience and skills of, and expected contributions from, our executives;

the amounts of compensation being paid to our other executives;

our executives' historical compensation at our company; and

any contractual commitments we have made to our executives regarding compensation.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2006 under each of these elements. In the descriptions below, we have identified particular compensation objectives that we have designed specific elements of our executive compensation to serve; however, we have designed our compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation, each element to a greater or lesser extent serves each of our objectives.

Base Salary

We pay our executives a base salary which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Base salaries are established in part based on the individual experience, skills and expected contributions of our executive and our executive's performance during the prior year.

In 2006, we increased the base salaries of our named executive officers as follows: Mr. Silvestri's base salary increased from \$259,000 to \$271,943 per year, and was increased to \$300,000 in connection with his promotion in July 2006; Mr. Sperry's base salary increased from \$226,987 to \$238,335 per year; Mr. Elter's base salary increased from \$254,925 to \$267,671 per year; and David Neumann's base salary increased from \$170,000 to \$197,200. Robert Power's base salary increased from \$110,000 to \$114,000 per year. Dr. Saillant declined a base salary increase and therefore his base salary remained at \$325,000 per year. We initially hired Ms. Nelson in November 2006, and we established her base salary at \$275,000. Our executives' base salaries reflect the initial base salaries that we negotiated with each of our executives at the time of his or her initial employment or promotion and our subsequent adjustments to these amounts to reflect market increases, the growth and stage of development of our company, our executives' performance and increased experience, any changes in our executives' roles and responsibilities and other factors. The initial base salaries that we negotiated with our executives were based on our understanding of the market at the time, the individual experience and skills of, and expected contribution from, each executive, the roles and responsibilities of the executive, the base salaries of our existing executives and other factors.

Annual Cash Incentive Bonuses

Consistent with our emphasis on pay for performance incentive compensation programs, our executives are eligible to receive annual cash incentive bonuses primarily based upon their performance as measured against predetermined performance goals, including financial measures, achievement of strategic objectives and other factors. The primary objective of our annual cash incentive bonuses is to motivate and reward our named executive officers for meeting our objectives using a pay for performance-based program with objectively determinable performance goals. We do not believe that every important aspect of executive performance is capable of being specifically quantified in a predetermined objective performance goal. For example, events outside of our control may occur after we have established the executives' performance goals for the year that require our executives to focus their attention on different or other strategic objectives.

Table of Contents

We establish the target amount of our annual cash incentive bonuses at levels that represent a portion of our executives' currently paid out cash compensation. The annual cash incentive bonus for each of our executives is to be paid based on the level of achievement of predetermined performance goals.

In 2006, we established a target annual cash incentive bonus for each of our executives of 10%, 20% or 30% of his or her base salary. Specific performance goals are aligned with each of these bonus levels. The goals are set for each individual to reflect an approximate likelihood of attainment of 90% for the 10% bonus level performance goals, 70% for the 20% bonus level performance goals and 50% for the 30% bonus level performance goals. None of the executive officers attained their goals at the 30% bonus level in 2006. Since the annual cash incentive bonus is payable based on the achievement of each of the different levels of performance goals, the executive officer may earn between 0% and 30% of his or her base salary based on his or her performance. Our maximum and threshold levels for these performance goals are determined in relation to our target levels and are intended to provide for correspondingly greater or lesser incentives in the event that performance is within an appropriate range above or below the target level. Because disclosure of the specific performance goals would give competitors information that could be leveraged by our competitors for competitive advantage, we do not disclose these specific performance goals. Generally these goals fell into one or more of the following categories: (i) increase sales, (ii) decrease product cost, (iii) improve product performance and reliability, (iv) market development, and (v) long-term strategy.

It should be noted that Ms. Nelson began her term as the Chief Financial Officer in November 2006, which was too late in Fiscal 2006 to be eligible to receive a 2006 bonus. Executive officers must be employed with the Company a minimum of 4 months to be eligible for a cash incentive bonus.

Long-Term Equity Incentive Compensation

We grant long-term equity incentive awards in the form of stock options and restricted stock to executives as part of our total compensation package. Consistent with our emphasis on pay for performance-based incentive compensation, these awards represent a portion of total executive compensation. Based on the stage of our company's development and the incentives we aim to provide to our executives, we have chosen to use either stock options or a combination of stock options and restricted stock as our long-term equity incentive awards. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or promotion by our company.

Stock option awards provide our executive officers with the right to purchase shares of our common stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our company. Stock options are earned on the basis of continued service to us and generally vest over three years, beginning with one-third vesting one year after the date of grant, then pro-rata vesting monthly thereafter, subject to acceleration in certain circumstances. Stock option awards are made pursuant to our 1999 Stock Option and Incentive Plan. Except as may otherwise be provided in the applicable stock option award agreement, stock option awards become fully exercisable upon a change of control under the 1999 Stock Option and Incentive Plan. The exercise price of each stock option granted under our 1999 Stock Option and Incentive Plan is the closing price of our common stock on the NASDAQ Global market as of the effective date of each grant.

We make grants to our existing executive officers on an annual basis; however, grants to new hires and grants relating to an existing executive officer's promotion may be made on a periodic basis. All grants to executive officers are approved by the Compensation Committee. In 2006, we considered a number of factors in determining what, if any, stock options to grant to our executives, including:

the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our named executive officers;

Table of Contents

the vesting schedule of the unvested stock options held by our named executive officers; and

the amount and percentage of our total equity on a diluted basis held by our named executive officers.

Restricted stock awards provide our executive officers with shares of our stock that they may retain or trade; however, all executive officers must trade within their rights according to our Insider Trading Policy. The restricted stock is intended to be a long-term incentive alternative to the stock option awards that may be appropriate for executive officers based on their performance and their critical skills. Restricted stock options may vest over three years, beginning with one-third vesting one year after the date of grant, then pro-rata vesting monthly thereafter. Restricted stock awards are made pursuant to our 1999 Stock Option and Incentive Plan.

Broad-Based Benefits

All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance, and our 401(k) plan.

Our Executive Compensation Process

The Compensation Committee of our board of directors is responsible for determining the compensation for our named executive officers. The Compensation Committee is composed entirely of non-employee directors who are independent as that term is defined in the applicable NASDAQ rules. In determining executive compensation, our Compensation Committee annually reviews the performance of our executives with our Chief Executive Officer, and our Chief Executive Officer makes recommendations to our Compensation Committee with respect to the appropriate base salary, annual cash incentive bonus payments and performance measures and grants of long-term equity incentive awards for each of our executives. The Chairman of the Compensation Committee makes recommendations to his Compensation Committee with regards to the Chief Executive Officer's compensation. The Compensation Committee makes its determination regarding executive compensation and then recommends its determination to the Board of Directors. The Board of Directors ultimately approves executive compensation.

As a result, the total amount of compensation that we paid to our executives, the types of executive compensation programs we maintained and the amount of compensation paid to our executives under each program had been determined by our Compensation Committee and Board of Directors based on their understanding of the market, experience in making these types of decisions and judgment regarding the appropriate amounts and types of executive compensation to pay.

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below.

Table of Contents

Employment Agreements

The Company and Dr. Saillant are parties to an employment agreement which renews automatically for successive one-year terms unless Dr. Saillant or the Company gives notice to the contrary. Dr. Saillant receives an annual base salary of \$325,000 and is eligible to: (i) receive an annual incentive bonus with a target amount equal to 100 percent of his annual base salary; (ii) participate in all savings and retirement plans; and (iii) participate in all benefit and executive perquisites. Dr. Saillant's employment may be terminated by the Company for cause, as defined in the agreement, or by Dr. Saillant for good reason, as defined in the agreement, or without good reason upon sixty days' prior notice to the Company. If Dr. Saillant's employment is terminated by the Company for any reason other than cause, death or disability, or in the event that Dr. Saillant terminates his employment with the Company and is able to establish good reason, the Company is obligated to pay Dr. Saillant the sum of the following amounts: (i) his expected bonus through the date of termination; plus (ii) either, two years' annual base salary and two years' expected bonus if the date of termination occurs within one year after a change in control of the Company, or one year's annual salary and one year's expected bonus if the termination occurs either in the absence of a change in control or more than one year after a change in control. In the event of a termination for good reason, Dr. Saillant is entitled to be fully vested in any outstanding restricted stock, stock options and other stock awards previously granted. Furthermore, the Company is required to continue paying health insurance and other benefits to Dr. Saillant and his eligible family members for twelve (12) months following his termination.

The Company and Mr. Silvestri were parties to an agreement pursuant to which he would continue to receive his base salary for twelve (12) months following a termination of his employment for any reason, including voluntary termination, and his stock options would continue to vest. Additionally, the Company would continue his health and other benefits for those twelve (12) months. The agreement was not modified in connection with Mr. Silvestri's appointment as President. Mr. Silvestri resigned in February 2007 and signed a separate severance agreement with the Company, the terms of which supersede this employment agreement.

The Company and Mr. Sperry are parties to an agreement pursuant to which he will continue to receive fifty percent (50%) of his base salary for a period of twelve (12) months following termination for any reason other than his gross misconduct, negligence, theft, fraud or complete failure to perform his duties to the Company. Additionally, his stock options will continue to vest and the Company will continue his health and other benefits for twelve (12) months following the termination.

The Company and Mr. Elter are parties to an agreement pursuant to which he will continue to receive his base salary for six (6) months following a termination of his employment for any reason other than his gross misconduct, negligence, theft or fraud. Additionally, his stock options will continue to vest and the Company will continue his health and other benefits for twelve (12) months following the termination.

The Company and each of Messrs. Elter and Sperry are parties to individual agreements that provide, among other things, that if, within twenty-four (24) months after a change in control, the Company terminates such executive's employment or assigns him duties materially inconsistent with his position (a Terminating Event), then such executive shall be entitled to (1) receive a lump sum payment equal to the sum of (i) his average annual base salary over the three fiscal years prior to the Terminating Event and (ii) his average annual bonus over the three fiscal years prior to the change in control, (2) continued vesting of his stock options for twelve (12) months following the Terminating Event, and (3) receive benefits, including health and life insurance for twelve (12) months following the Terminating Event.

The Company and Ms. Nelson are parties to an executive severance agreement and an additional severance agreement both dated November 2006. Ms. Nelson resigned in February 2007 and did not receive any compensation under either of these two agreements.

Annual Cash Incentive Bonuses

In 2006, we established target annual cash incentive bonuses for each of our named executive officers as a percentage of that executive's base salary, as follows: Dr. Saillant 15%; Mr. Neumann 0%; Mr. Powers 13.2%; Mr. Silvestri 30%; Mr. Sperry 15% and Mr. Elter 0%. Ms. Nelson, as discussed above, was not eligible for a bonus because her start date was late in Fiscal 2006. The bonuses are paid based on the executives' achievement of a number of predetermined performance goals, as described above under "Our Executive Compensation Programs Annual Cash Incentive Bonuses." Generally, for each goal, the executive has the ability to earn between 0% and 30% of the target bonus amount based on the level of achievement of his or her personal performance goals.

Additionally, we granted cash bonuses to those executive officers who contributed to the successful completion of the Smart Hydrogen transaction in June of 2006. These bonuses were intended as compensation for the executive officers' extraordinary efforts on behalf of the Company. These additional cash bonuses are included in the bonus column in the Summary Compensation Table above.

2006 Stock Option Grants

In 2006, we granted Ms. Nelson the option under our 1999 Stock Option and Incentive Plan to purchase 60,000 shares of common stock at an exercise price of \$3.95 per share. Ms. Nelson's stock options vest over three years with one-quarter immediately vesting upon the grant date, one-quarter vesting on the first anniversary of the grant date, and the remaining quarters vesting on the second and third anniversaries of the grant date. Additionally, in 2006 we granted Mr. Neumann the option to purchase 40,000 shares of common stock at an exercise price of \$5.58 per share; Mr. Powers the option to purchase 6,000 shares of common stock at an exercise price of \$5.58 per share; Mr. Silvestri the option to purchase 40,000 shares of common stock at an exercise price of \$5.58 per share and 45,000 shares of common stock at an exercise price of \$4.15 per share; Mr. Sperry the option to purchase 40,000 shares of common stock at an exercise price of \$5.58 per share; and Mr. Elter the option to purchase 20,000 shares of common stock at an exercise price of \$5.58 per share. Each of these stock options has an exercise price equal to the fair market value on grant date and a term of ten years. Each of these stock options vests over three years with one-third of the total award vesting on the first anniversary of the grant date and the remainder vesting on the second and third anniversaries of the grant date.

1999 Stock Option and Incentive Plan

Administration. Our Board of Directors currently administers our 1999 Stock Option and Incentive Plan. The Compensation Committee of our Board of Directors is responsible for reviewing all of our executive compensation plans.

Eligibility. All of our employees, consultants and non-employee directors are eligible to be granted awards under our 1999 Stock Option and Incentive Plan. An employee, consultant or non-employee director granted an award is a participant under our 1999 Stock Option and Incentive Plan.

Number of Shares Available for Issuance. The maximum number of shares of our common stock that are authorized for issuance under our 1999 Stock Option and Incentive Plan as of January 1, 2007 is 14,277,764. Shares issued under the 1999 Stock Option and Incentive Plan may be treasury shares or authorized but unissued shares. In the event the number of shares to be delivered upon the exercise or payment of any award granted under the 1999 Stock Option and Incentive Plan is reduced for any reason or in the event that any award (or portion thereof) can no longer be exercised or paid, the number of shares no longer subject to such award shall be released from such award and shall thereafter be available under the 1999 Stock Option and Incentive Plan for the grant of additional awards. Upon the occurrence of a merger, consolidation, recapitalization, reclassification, stock split, stock dividend, combination of shares or the like, the plan administrator may ratably adjust the aggregate number and affected class of securities available under the 1999 Stock Option and Incentive Plan.

Table of Contents

Types of Awards. The plan administrator may grant the following types of awards under our 1999 Stock Option and Incentive Plan: stock options; restricted stock; or other stock-based awards. Stock options awarded under our 1999 Stock Option and Incentive Plan may be nonqualified stock options or incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, or the Code. With the exception of incentive stock options, the plan administrator may grant, from time to time, any of the types of awards under our 1999 Stock Option and Incentive Plan to our employees, consultants and non-employee directors. Incentive stock options may only be granted to our employees.

Stock Options. A stock option is the right to acquire shares of our common stock at a fixed price for a fixed period of time and generally is subject to a vesting requirement. To date, as a matter of practice, options have generally been subject to a three-year vesting period, with one-third of the total award vesting at the first anniversary of the grant date and the remainder vesting in equal thirds each anniversary thereafter. A stock option will be in the form of a nonqualified stock option or an incentive stock option. The exercise price is set as the market price on the grant date. The term of a stock option may not exceed ten years or five years in the case of incentive stock options granted to a 10% owner. Our 1999 Stock Option and Incentive Plan also allows for the early exercise of unvested options, provided that right is permitted in the applicable stock option agreement. All outstanding unvested shares of our common stock acquired through early exercised options are subject to repurchase by us. After termination of an optionee, he or she may exercise his or her vested options for the period of time stated in the stock option agreement. Generally, if termination is due to death or disability, the vested option will remain exercisable for 180 days; if termination is for cause, the option may no longer be exercised; and, in all other cases, the vested options will remain exercisable for three months. However, an option may not be exercised later than its expiration date.

Restricted Stock. The restricted stock award is an award entitling the recipient to acquire, at par value or such other higher purchase price determined by the administrator, shares of stock subject to such restrictions and conditions as the administrator may determine at the time of grant. Conditions may be based on continuing employment (or other business relationship) and/or achievement of pre-established performance goals and objectives. The grant of a restricted stock award is contingent on the participant executing the restricted stock award agreement. Restricted stock awards are shares of our common stock that are subject to cancellation, restrictions and vesting conditions, as determined by the plan administrator. Restricted stock awards generally vest over three years, beginning with one-third vesting on the first anniversary of the grant date, and then one-third vesting on the second and third anniversaries of the grant date. Restricted stock awards are made pursuant to our 1999 Stock Option and Incentive Plan.

Other Awards. The administrator of the 1999 Stock Option and Incentive Plan also may grant other forms of awards that generally are based on the value of our common stock as determined by the plan administrator to be consistent with the purposes of our 1999 Stock Option and Incentive Plan.

Amendment and Discontinuance; Term. The plan administrator may amend, suspend or terminate our 1999 Stock Option and Incentive Plan at any time, with or without prior notice to or consent of any person, except as would require the approval of our stockholders, be required by law or the requirements of the exchange on which our common stock is listed or would adversely affect a participant's rights to outstanding awards without their consent. Unless terminated earlier, our 1999 Stock Option and Incentive Plan will expire on the tenth anniversary of its effective date.

Accordingly, Mr. Silvestri's unexercised but exercisable options at February 23, 2007 are 274,987 and his unexercised and unexercisable balance is 0. Mr. Silvestri may elect to exercise his vested options by no later than February 23, 2008.

Potential Payments Upon Termination or Change-in-Control

In the event that Dr. Saillant, or Messrs. Silvestri, Elter or Sperry's employment agreements is terminated by us without cause and such named executive officer signs a comprehensive release in the form, and of a scope, acceptable to us, such named executive officer will be entitled to continue to be paid his base salary for a period of twelve (12) months, in the case of Dr. Saillant and Mr. Silvestri, his base salary for a period of six (6) months, in the case of Mr. Elter, or fifty percent (50%) of his base salary for a period of twelve (12) months, in the case of Mr. Sperry, as applicable, following termination without cause. Upon termination without cause, Dr. Saillant and Messrs. Silvestri, Elter and Sperry will also be entitled to continued vesting of outstanding equity awards. Additionally, such named executive officers will be entitled to health insurance and life insurance for a period of twelve (12) months following termination without cause. According to his agreement with the Company, Dr. Saillant will also continue to be paid his expected bonus for a period of twelve (12) months. Notwithstanding the foregoing, in no event is Dr. Saillant or Messrs. Silvestri, Elter or Sperry entitled to receive any such payment after he breaches any non-compete, non-solicit or non-disclosure covenant contained in the non-competition and non-solicitation agreement or the employee nondisclosure and developments agreement between us and such named executive officer. We agreed to provide severance payments to these executives in these circumstances based on our negotiations with each of our executives at the time they joined our company and in order to provide a total compensation package that we believed to be competitive. Additionally, we believe that providing severance upon a termination without cause can help to encourage our executives to take the risks that we believe are necessary for our company to succeed and also recognizes the longer hiring process typically involved in hiring a senior executive.

Cause generally may mean any of the following: (1) the failure or refusal of the named executive officer to render services to us in accordance with his obligations under the employment agreement or a determination by us that the named executive officer has failed to perform the duties of his employment; (2) disloyalty, gross negligence, dishonesty, breach of fiduciary duty or breach of the terms of the employment agreement or the other agreements executed in connection therewith; (3) the commission by the named executive officer of an act of fraud, embezzlement or disregard of our rules or policies or the commission by the named executive officer of any other action which injures us; (4) acts which, in the judgment of our board of directors, would tend to generate adverse publicity toward us; (5) the commission, or plea of nolo contendere, by the named executive officer of a felony; (6) the commission of an act which constitutes unfair competition with us or which induces any of our customers to breach a contract with us; or (7) a breach by the named executive officer of the terms of the non-competition and non-solicitation agreement or the employee nondisclosure and developments agreement between us and the named executive officer.

If Dr. Saillant or Messrs. Silvestri, Elter or Sperry had been terminated without cause on December 31, 2006, the approximate value of the severance packages, including, as mentioned above, salary, benefits and equity awards, under the employment agreement for each such named executive officer would have been as follows: Dr. Saillant \$1,036,531, Mr. Silvestri \$469,913, Mr. Elter \$175,429 and Mr. Sperry \$169,556. This includes an acceleration of any remaining unvested options granted to such named executive officer under the 1999 Stock Option and Incentive Plan. Dr. Saillant's approximate value also includes his expected bonus for one year, which, as discussed above, he is entitled to receive upon termination without cause.

In the event that within twenty-four (24) months after a change-in-control the named executive officer's employment is terminated without cause, or he experiences a material negative change in his compensation or

Table of Contents

responsibilities each executive officer will be entitled to be paid two (2) years of his annual base salary, in the case of Dr. Saillant, or the average annual base salary over the prior three (3) years, in the case of Messrs. Elter and Sperry, as applicable. Additionally, Dr. Saillant will be entitled to be paid his expected bonus through the date of termination plus two (2) years of his expected bonus; and Messrs. Elter and Sperry will be entitled to be paid their average annual bonus over the prior three (3) years. Mr. Silvestri does not have an agreement containing a change of control provision. Upon a change-in-control, a named executive officer will also be entitled to continued vesting of any remaining unvested options. Further, a named executive will be entitled to health and other benefits from the Company for a period of twelve (12) months following such termination.

Change-in-control generally means any of the following: (1) a sale or other disposition of all or substantially all of our assets; or (2) a merger or consolidation after which our voting securities outstanding immediately before the transaction cease to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction. We agreed to provide payments to these executives in these circumstances in order to provide a total compensation package that we believed to be competitive. Additionally, the primary purpose of our equity-based incentive awards is to align the interests of our executives and our stockholders and provide our executives with strong incentives to increase stockholder value over time. As change-in-control transactions typically represent events where our stockholders are realizing the value of their equity interests in our company, we believe it is appropriate for our executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change-in-control transaction. We believe that this will also help to better align the interests of our executives with our stockholders in pursuing and engaging in these transactions.

If a change-in-control had occurred on December 31, 2006 and on that date Dr. Saillant, or Messrs. Elter or Sperry had been terminated without cause, experienced a material negative change in his or her compensation or responsibilities or was required to be based at a location more than 50 miles from his or her current work location, the value of the change-of-control provisions, including, as mentioned above, salary, benefits, accelerated equity awards and expected bonus, under the employment or executive severance agreements for each such named executive officer would have been as follows: Dr. Saillant \$1,415,579, Mr. Elter \$322,243, and Mr. Sperry \$306,458.

The following Report of the Compensation Committee of the Board of Directors on Executive Compensation will not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any of the Company's filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and will not otherwise be deemed filed under such Acts.

Report of the Compensation Committee of the Board of Directors on Executive Compensation

The Compensation Committee reviews and evaluates individual executive officers and determines the compensation for each executive officer (See the section entitled *Executive Compensation*). The Compensation Committee also oversees management's decisions concerning the performance and compensation of other Company officers, administers the Company's incentive compensation and other stock-based plans, evaluates the effectiveness of its overall compensation programs, including oversight of the Company's benefit, perquisite and employee equity programs, and reviews the Company's management succession plans. A more complete description of the Compensation Committee's functions is set forth in the Compensation Committee's charter which is published on the Investors section of the Company's website at www.plugpower.com. Each member of the Compensation Committee is an independent director as defined in the NASDAQ Rules.

In general, the Compensation Committee designs compensation to attract, retain and motivate a superior executive team, reward individual performance, relate compensation to Company goals and objectives and align the interests of the executive officers with those of the Company's stockholders. We rely upon our judgment about each individual and not on rigid guidelines or formulas, or short-term changes in business performance in determining the amount and mix of compensation elements for each senior executive officer. Key factors affecting our judgments include: the executive's performance compared to the goals and objectives established for the executive at the beginning of the year; the nature, scope and level of the executive's responsibilities; the executive's contribution to the Company's financial results; the executive's effectiveness in leading the Company's initiatives to increase customer value, productivity and revenue growth; the executive's contribution to the Company's commitment to corporate responsibility, including the executive's success in creating a culture of unyielding integrity and compliance with applicable law and the Company's ethics policies; and the executive's commitment to community leadership and diversity.
