Notes to Condensed Financial Statements (Unaudited)

Note 1: Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2007, the results of operations for the three months ended March 31, 2007 and 2006, and cash flows for the three months ended March 31, 2007 and 2006. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-KSB for the year ended December 31, 2006. There have been no updates or changes to our audited financial statements for the year ended December 31, 2006.

There is no provision for dividends for the quarter to which this quarterly report relates.

The results of operations for the three month period ended March 31, 2007 are not necessarily indicative of the results to be expected for the full year.

Note 2: Nature of Operations, Merger, and Summary of Significant Accounting Policies

Operations and Merger

ICOP Digital, Inc. was incorporated in May 2002 in Nevada and merged into a wholly owned subsidiary of the Company (a Colorado corporation) as of December 31, 2003 and was merged out of existence in June 2005. The Company, formerly named Vista Exploration Corporation, subsequently changed its name to ICOP Digital, Inc. The Company is engaged in the design, development and marketing of surveillance equipment and systems for use in the law enforcement, security and defense industries. The Company's offices are located in Lenexa, Kansas.

Note 3: Shareholders' Equity

Sale of common stock

In February 2007, the Company sold 5,257 shares of its no par value common stock to employees under its Employee Stock Purchase Plan at a total proceeds of \$27,915.

Awards of restricted common stock and stock options

In prior years, the Company granted to employees, contractors and directors shares of restricted common stock and options to purchase shares of the Company's common stock which vest in 2007 and future years. Compensation expense related to these unvested awards of \$234,600 and \$1,000 has been recorded in the three month periods ending March 31, 2007 and 2006.

Note 4: Income Taxes

The Company records its income taxes in accordance with Statement of Financial Accounting Standard No. 109, Accounting for Income Taxes. The Company incurred net operating losses during the periods shown on the condensed financial statements resulting in a deferred tax asset, which was reserved; therefore the net benefit and expense resulted in \$0 income taxes.

Item 2. Management's Discussion and Analysis or Plan of Operation

During the three months ended March 31, 2007, the Company reported sales of \$2,272,000 and cost of sales of \$1,246,000 resulting in gross profit of \$1,026,000 compared to sales of \$802,000 and cost of sales of \$458,000 resulting in gross profit of \$344,000 for the same period of 2006. This represents an increase in sales of 182% and an increase in gross profit of 198% over the prior year. Significant sales of ICOP Model 20/20s began in June 2005. During the three months ended March 31, 2007, the Company incurred \$459,000 in research and development expenses and \$1,624,000 in selling, general and administrative expense, resulting in an operating loss of \$1,057,000. During the three months ended March 31, 2006, the Company incurred \$250,000 in research and development expenses and \$923,000 in selling, general and administrative expense, resulting in an operating loss of \$829,000. This represents an increase in research and development expense of 84% and an increase in sales, general and administrative expense of 76%. The increased level of expense in 2007 over the corresponding period of 2006 is the result of increased effort to enhance existing products and develop new products and increased staffing to support selling, marketing and customer support activities. The Company completed a secondary stock offering in October 2006 to allow it to increase inventory, expand its facilities, add personnel and extend its product line. Through 2007, we plan to continue to expand our selling, marketing, product promotion and product development activities to leverage what we believe to be our advantages in technology and pricing. Funding provided by the completed secondary offering will allow us to accelerate product development and manufacturing and exploit the enhanced and new products we are developing. These new products and the expansion of sales, service and support personnel should allow the Company to achieve operating breakeven over the coming twelve months.

Liquidity and Capital Resources

On March 31, 2007, the Company had \$6,103,000 in cash, \$2,524,000 in cash restricted to inventory purchases, \$1,423,000 in accounts receivable, \$2,240,000 in inventory and a total of \$768,000 in current liabilities, for a total working capital of \$11,679,000. Net cash provided by operating activities for the three months ended March 31, 2007 was \$964,000, primarily from reduction of inventory and accounts receivable balances, compared to cash used in operating activities of \$560,000 for the three months ended March 31, 2006. Net cash used in investing activities for the three months ended March 31, 2007 was \$89,000, primarily to acquire equipment for sales and engineering activities and support a marketing venture, compared to net cash used in investing activities for the three months ended March 31, 2006 of \$192,000. Net cash provided by financing activities was \$28,000 for the three months ended March 31, 2007 from sale of common stock under an employee stock purchase plan, compared to net cash provided by financing activities of \$202,000 for the three months ended March 31, 2006, substantially from the loan proceeds and warrant conversions to common stock.

Our Capital Requirements

We believe that we have the necessary funds to finance our planned operations during the next 12 months. We have no commitments for material capital expenditures.

Employees

We have forty-one full time employees at March 31, 2007.

Item 3. Controls and Procedures
