Note 1. Accounting Policies-Basis of Presentation

In the opinion of management, the accompanying balance sheets and related interim statements of operations, cash flows, and stockholders deficit include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Actual results and outcomes may differ from management's estimates and assumptions. Estimates are used when accounting for stock-based transactions, account payables and accrued expenses and taxes, among others.

Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and financial statements and notes thereto included in the BioLargo, Inc. Annual Report on Form 10-KSB for the year ended December 31, 2006.

Note 2. Business and Organization

Outlook

BioLargo, Inc. (the Company) generated revenue in the three-month period ended September 30, 2007 for the first time since the completion of the acquisition of the BioLargo technology from IOWC Technologies, Inc. (IOWC) on April 30, 2007. Prior to that date it had no continuing business operations and operated as a public shell.

The Company will need substantial working capital to maintain the Company's status and to fund other anticipated costs and expenses during the year ending December 31, 2007 and beyond, as well as to fund the commercialization of the BioLargo technology. The Company's ability to continue as a going concern is dependent on the Company's ability to raise capital to, at a minimum, meet its corporate maintenance requirements and fund the operations necessary to commercially exploit the BioLargo technology. It would need additional outside capital until and unless that technology is able to generate positive working capital sufficient to fund the Company's cash flow requirements from operations.

These financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of the Company's business. As reflected in the accompanying financial statements, the Company had a net loss of \$2,768,913 for the nine-month period ended September 30, 2007, negative cash flow from operating activities of \$1,050,241 for the nine-month period ended September 30, 2007, and an accumulated stockholders' deficit of \$32,308,807 as of September 30, 2007. Also, as of September 30, 2007, the Company had limited liquid and capital resources. The foregoing factors raise substantial doubt about the Company's ability to continue as a going concern. Ultimately, the Company's ability to continue as a going concern is dependent upon its ability to attract new sources of capital and commercially exploit the BioLargo technology. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Cash and cash equivalents totaled \$126,093 at September 30, 2007. The Company's revenues in the three and nine-month periods ended September 30, 2007 were insufficient to meet its working capital needs and its financing activities primarily funded operations.

During the nine-month period ended September 30, 2007, the Company sold an aggregate \$947,000 principal amount of its convertible promissory notes. Of this amount \$516,000 was sold pursuant to the offering commenced in the fall of 2006 (the Fall 2006 Offering) due and payable September 13, 2008 to 22 investors. The remaining \$431,000 was sold pursuant to the offering commenced in the spring of 2007 (the Spring 2007 Offering) due and payable June 30, 2009 to eleven investors. (See Note 3 for details on the Fall 2006 and Spring 2007 offerings.)

As of September 30, 2007, the Company had \$1,461,126 aggregate principal amount of its promissory notes that mature at various times during 2007, 2008 and 2009. This amount consists of (i) convertible notes totaling \$1,431,000 (see Note 3); and (ii) a promissory note totaling \$30,126 due to a former professional for legal services (see Note 9). The Company currently intends to require the conversion of the \$1,431,000 aggregate principal amount of convertible notes and any accrued and unpaid interest upon maturity, in which case the Company will not require cash to repay such notes.

On March 15, 2007, the Company's stockholders approved, and effective as of the close of business on March 21, 2007, the Company completed a 1-for-25 reverse split of its common stock (the Reverse Split). Additionally, on March 15, 2007, the Company's stockholders approved and the Company has filed, an amendment to the Company's certificate of

Table of Contents

incorporation increasing the Company's authorized capital stock to 200,000,000 shares of common stock and 50,000,000 shares of preferred stock. Unless specifically stated otherwise, all references in the financial statements to the Company's common stock are stated on a post-Reverse Split basis.

Organization

On March 15, 2007 the Company's stockholders approved, and the Company has completed, a corporate name change, changing its name from NuWay Medical, Inc. to BioLargo, Inc. The amendment to the certificate of incorporation reflecting the name change was filed on March 16, 2007 with the Secretary of State of the State of Delaware. In connection with this name change, on March 21, 2007 the Company's common stock began trading under a new symbol, **BLGO**, on the Pink Sheets.

The Company was initially organized as Repossession Auction, Inc. under the laws of the State of Florida in 1989. In 1991, the Company merged into a Delaware corporation bearing the same name. In 1994, the Company's name was changed to Latin American Casinos, Inc. to reflect its focus on the gaming and casino business in South and Central America, and in 2001 the Company changed its name to NuWay Energy, Inc. to reflect its new emphasis on the oil and gas development industry. During October 2002, the Company's name was changed to NuWay Medical, Inc. coincident with the divestiture of its non-medical assets and the retention of new management.

Transactions Involving IOWC Technologies, Inc.

Leading up to the completion of the acquisition of the BioLargo technology in April 2007, the Company engaged in several transactions with IOWC and its founder, sole stockholder, and sole director, Kenneth R. Code.

Letter of Intent

In July 2005, the Company entered into a letter of intent (**LOI**) with IOWC. The LOI set out the terms for the acquisition of certain assets of IOWC consisting of certain intellectual property, including two United States patents and two licenses and/or distributor agreements pursuant to which IOWC had licensed certain of its technologies for use in products designed for distribution in the food, medical and biohazardous material transportation industries. In connection with the transactions contemplated by the LOI, the Company agreed to issue up to 51% of its common stock to IOWC. The LOI provided that the transactions contemplated by the LOI would be completed pursuant to the terms of an asset purchase agreement as well as a research and development agreement. In addition, the LOI required certain stockholders approvals as a condition to the closing of the transactions contemplated by the LOI including approval of the issuance of the shares of the Company's common stock to IOWC, a reverse stock split and an increase in the authorized capital stock of the Company.

As the parties worked toward preparing the documentation called for by the LOI and as the Company began to prepare the proxy materials needed for its stockholders meeting, it became increasingly clear to the parties that the length of time and the costs involved in preparing documentation for a stockholders meeting would likely jeopardize the chances that the transactions contemplated by the LOI could be completed in a manner benefiting both parties. Accordingly, in late 2005 the parties began to explore alternative strategies that would enable them to begin to realize the benefits of the transactions contemplated by the LOI while at the same time allowing the Company to call a meeting of its stockholders for the purpose of approving the issuance of shares of its common stock in connection with the acquisition of the BioLargo technology.

Marketing and Licensing Agreement

In furtherance of the proposed transactions with IOWC, on December 31, 2005, the Company entered into the Marketing and Licensing Agreement (the **M&L Agreement**) with IOWC and Mr. Code.

Pursuant to the M&L Agreement, the Company's newly formed subsidiary, BioLargo Life Technologies, Inc. (**BLTI**), acquired certain rights to develop, market, sell and distribute products that were developed, and were then in development, by IOWC relating to the BioLargo technology.

Licenses Granted to BLTI. Pursuant to the terms of the M&L Agreement, IOWC granted to BLTI a license, with respect to the BioLargo technology, to further develop the technology, to further develop existing and new products based on that technology, and to produce, market, sell and distribute any such products, through its own means, or by contract or assignment to third parties or otherwise, including without limitation:

Technology Development Rights. Exclusive worldwide rights to expand and improve upon the existing BioLargo technology, to conduct research and development activities based on the BioLargo technology, and to contract with third parties for such research and development activities; and any improvements on the BioLargo technology, or any new technology resulting such efforts of BLTI, shall be owned solely by BLTI.

Table of Contents

Product Development Rights. Exclusive worldwide rights to expand and improve upon the existing products incorporating the BioLargo technology, to conduct research and development activities to create new products for market, and to contract with third parties for such research and development activities. Any new products created by BLTI resulting from these efforts shall be owned solely by BLTI.

Marketing Rights. Exclusive right to market, advertise, and promote the BioLargo technology in any market and in any manner it deems commercially reasonable.

Manufacturing Rights. A transferable, worldwide exclusive right to manufacture, or have manufactured, products incorporating the BioLargo technology.

Selling Rights. A transferable, worldwide exclusive right to sell BioLargo technology and products incorporating the BioLargo technology.

Distribution Rights. A transferable, worldwide exclusive right to inventory and distribute products incorporating the BioLargo technology.

Licensing Rights. A transferable, worldwide exclusive right to license the BioLargo technology to third parties.

Assigned Agreements. Pursuant to the terms of the M&L Agreement, IOWC and Mr. Code also assigned to BLTI its rights and obligations with respect to the following Agreements (collectively, the Assigned Agreements):

Agreement dated October 15, 2004 by and between Kenneth R. Code, IOWC, BioLargo Technologies, Inc., or IOWC s assigns, and Craig Sundheimer and Lloyd M. Jarvis (the Sundheimer Agreement);

Agreement dated January 15, 2005 by and between Kenneth R. Code, IOWC and Food Industry Technologies, Inc.; and

Letter of Intent dated November 15, 2004 by and between Kenneth R. Code and IOWC and GTS Research, Inc. Pursuant to the terms of the M&L Agreement, the Company is entitled to receive any and all royalties, payments, license fees, and other consideration generated by the Assigned Agreements as of January 1, 2006. As part of the assignment, IOWC agreed to transfer the 20% interest it acquired in BioLargo, LLC pursuant to the Sundheimer Agreement. In October 2006, the Company terminated the Sundheimer Agreement, for cause. See also Note 11. Subsequently, the Company and IOWC agreed that IOWC s 20% interest in BioLargo, LLC would not be transferred by IOWC to BLTI, but that BLTI would have the option to acquire such 20% interest for nominal consideration for seven years (the Option Agreement).

Consulting Agreement

On June 20, 2006, the Company entered into a Consulting Agreement with Mr. Code (the Consulting Agreement). Pursuant to the Consulting Agreement, the Company engaged the services of Mr. Code, effective January 1, 2006, to advise the Company in research and development and technical support, and to provide other services and assistance to the Company in matters relating to the BioLargo technology and the rights acquired by the Company in the M&L Agreement.

The Consulting Agreement contained provisions requiring Mr. Code to devote substantially all of his business time to the Company; prohibiting Mr. Code from directly or indirectly engaging in any business activity that would be competitive with the business of the Company or its affiliates, including BLTI; providing that during the term of the Consulting Agreement and for one year post-termination, Mr. Code will not

Edgar Filing: BIOLARGO, INC. - Form 10QSB

solicit the Company's employees or customers; and other standard provisions typical for a consulting agreement. The Consulting Agreement also provided that the Company retains the exclusive right to use or distribute all creations which may be created during the term of the Consulting Agreement. The Consulting Agreement, as amended on December 20, 2006 and as of March 30, 2007, terminated when the Company entered into an Employment Agreement with Mr. Code on April 30, 2007. See Code Employment Agreement below. During the term of the Consulting Agreement, Mr. Code was paid \$15,400 per month, prorated for partial months, and was entitled to reimbursement for authorized business expenses incurred in the performance of his duties.

Research and Development Agreement

On August 11, 2006, the Company and BLTI entered into a Research and Development Agreement with IOWC and Mr. Code (the R&D Agreement), which agreement was amended on August 14, 2006. Pursuant to the R&D Agreement, IOWC and Mr. Code agreed to provide research and development services and expertise in the field of disposable absorbent products to the Company.

Table of Contents

The R&D Agreement provides that the Company will own, and will have the exclusive right to commercially exploit, the intellectual property developed, created, generated, contributed to or reduced to practice pursuant to the R&D Agreement. In addition, IOWC and Mr. Code have agreed that during the term of the R&D Agreement and for one year after termination they will not compete with, and will not provide services to any person or entity which competes with, any aspect of the Company's business.

During the term of the R&D Agreement, but only after mutually acceptable research facilities are established for the performance of IOWC's services (as of this date, no acceptable research facilities have been established), IOWC shall be paid (i) a fee of \$5,500 per month for each month during which no services are being performed pursuant to the R&D Agreement to offset for laboratory and/or office and IOWC employee expenses and (ii) such additional amounts as the parties may agree in connection with specific research projects conducted pursuant to the R&D Agreement.

As further consideration to Mr. Code to enter into the R&D Agreement, on August 14, 2006 the Company issued to Mr. Code 620,637 shares of its common stock, as adjusted to reflect the Reverse Split (the Code Stock), or approximately 19.9% of the Company's then issued and outstanding common stock immediately following the issuance of the Code Stock.

In connection with the completion of the acquisition of the BioLargo technology in April 2007, the M&L Agreement, Consulting Agreement, and R&D Agreement were terminated. No cash payments were made to IOWC in connection with this R&D Agreement.

Acquisition of the BioLargo Technology

On April 30, 2007, the Company completed the acquisition of the BioLargo technology. The following summary of the Asset Purchase Agreement dated April 30, 2007 between the Company, IOWC and Mr. Code (the Asset Purchase Agreement) is qualified in its entirety by reference to the complete terms and conditions contained in the Asset Purchase Agreement itself.

Acquisition of Assets; Purchase Price. Pursuant to the terms of the Asset Purchase Agreement, Mr. Code and IOWC sold, transferred and assigned to the Company all of their rights, title and interests to:

United States Patent Number 6,146,725, relating to an absorbent composition to be used in the transport of specimens of bodily fluids; and United States Patent Number 6,328,929, relating to method of delivering disinfectant in an absorbent substrate; and related patent applications and national filings;

all proprietary knowledge, trade secrets, confidential information, computer software and licenses, formulae, designs and drawings, quality control data, processes (whether secret or not), methods, inventions and other similar know-how or rights relating to or arising out of the patents;

all license and distribution agreements to which either Mr. Code or IOWC is presently a party; and

certain records,

in exchange for 22,139,012 shares of the Company's common stock (the IOWC Shares). Mr. Code and certain other co-inventors of intellectual property had previously assigned all of their right title and interest to six patent applications filed with the United States Patent and Trademark Office and two additional patent applications filed under the International Patent Cooperation Treaty. The R&D Agreement, and the Consulting Agreement were terminated concurrent with the closing of the Asset Purchase Agreement. The IOWC Shares were issued to IOWC at the Closing. Such shares constitute full payment for the obligations of the Company owed to Mr. Code and IOWC for the license rights, assigned agreements, patents and related intellectual property acquired by the Company from Mr. Code and IOWC.

Representations and Warranties. As part of the Asset Purchase Agreement, Mr. Code and IOWC, jointly and severally, have made certain representations and warranties to the Company with respect to, among other things:

Edgar Filing: BIOLARGO, INC. - Form 10QSB

good, valid and marketable title to the assets being sold free and clear of any and all material liens and encumbrances;

absence of the need for third party consents;

further assurances to take action to vest good title in the name of the Company;

sufficiency of the assets for the future conduct of business by the Company;

intellectual property matters;

Table of Contents

the absence of litigation and proceedings;

compliance with laws; and

limitations on the resale of the IOWC Shares in accordance with securities laws.

The Asset Purchase Agreement also contains additional representations and warranties of Mr. Code and/or IOWC, and of the Company, standard for asset purchase transactions required to be publicly disclosed by reporting companies.

The representations and warranties of the parties contained in the Asset Purchase Agreement will survive for four years after the closing at which time they will expire.

Indemnification. Under the Asset Purchase Agreement, IOWC and Mr. Code have agreed, jointly and severally, to indemnify the Company and each of its officers, directors, employees, agents and affiliates, and each of their successors and assigns from and against any and all costs, losses, claims, liabilities, fines, penalties, consequential damages (other than lost profits), and expenses (including interest which may be imposed in connection therewith and court costs and reasonable fees and disbursements of counsel) incurred in connection with, arising out of, resulting from or incident to:

liabilities or claims arising out of the assets or the business of IOWC before the closing;

liabilities or claims after the closing relating to IOWC or Mr. Code;

breach of the representations or warranties made by IOWC or Mr. Code;

default in any agreements made by IOWC or Mr. Code;

taxes of any kind that arise out of or result from the transactions contemplated by the Asset Purchase Agreement; and

liabilities or claims relating to employee matters.

The Company has agreed to indemnify IOWC and Mr. Code and IOWC's officers, directors, employees, agents and affiliates, and each of their successors and assigns from and against any and all costs, losses, claims, liabilities, fines, penalties, consequential damages (other than lost profits), and expenses (including interest which may be imposed in connection therewith and court costs and reasonable fees and disbursements of counsel) incurred in connection with, arising out of, resulting from or incident to:

breach of the representations and warranties made by the Company; and

default in any agreement made by the Company.

The Asset Purchase Agreement provides the mechanism by which the parties must notify each other of any claims, the methods for resolution of such and requires the parties to arbitrate any unresolved claims.

Miscellaneous. The Asset Purchase Agreement also contains customary provisions relating to governing law, assignment of rights and obligations, attorneys' fees, force majeure and other matters standard for asset purchase transactions.

Code Employment Agreement

As part of the completion of the acquisition of the BioLargo technology, the Company entered into an employment agreement dated April 30, 2007 with Mr. Code (the Code Employment Agreement). The consulting agreement with Mr. Code dated June 20, 2006, as amended as of December 20, 2006 and as of March 30, 2007, was terminated when the Company entered into the employment agreement with Mr. Code.

The Code Employment Agreement provides that Mr. Code will serve as the Chief Technology Officer of the Company, and receive (i) base compensation of \$184,800 annually (with an automatic 10% annual increase); and (ii) a bonus in such amount as the Compensation Committee of the Board of Directors of the Company (the Compensation Committee) may determine from time to time. In addition, Mr. Code will be eligible to participate in incentive plans, stock option plans, and similar arrangements as determined by the Company's Board of Directors. When such benefits are made available to the senior employees of the Company, Mr. Code is also eligible to receive health insurance premium payments for himself and his immediate family, a car allowance of \$800 per month, paid vacation of four weeks per year plus an additional two weeks per year for each full year of service during the term of the agreement up to a maximum of ten weeks per year, life insurance equal to three times his base salary and disability insurance. The Code Employment Agreement has a term of five years, unless earlier terminated in accordance with its terms.

Table of Contents

The Code Employment Agreement also provides that Mr. Code's employment may be terminated by the Company due to disability, for cause or without cause. Disability as used in the Employment Agreement means physical or mental incapacity or illness rendering Mr. Code unable to perform his duties on a long-term basis (i) as evidenced by his failure or inability to perform his duties for a total of 120 days in any 360 day period, or (ii) as determined by an independent and licensed physician whom Company selects, or (iii) as determined without recourse by the Company's disability insurance carrier.

If Mr. Code's employment is terminated for cause he will be eligible to receive his accrued base compensation and vacation compensation through the date of termination. If Mr. Code's employment is terminated without cause, then he will be eligible to receive the greater of (i) one year's compensation plus an additional one half year for each year of service since the effective date of the employment agreement or (ii) one year's compensation plus an additional one half year for each year remaining in the term of the agreement.

The Code Employment Agreement requires Mr. Code to keep certain information confidential, not to solicit customers or employees of the Company or interfere with any business relationship of the Company, and to assign all inventions made or created during the term of the Code Employment Agreement as work made for hire.

In connection with the closing of the acquisition of the BioLargo technology and the execution of the Code Employment Agreement, Mr. Code was also elected to the Board of both the Company and BLTI.

Calvert Employment Agreement

In connection with the acquisition of the BioLargo technology, the Company also entered into a new employment agreement dated April 30, 2007 with Dennis Calvert, the Company's President and Chief Executive Officer (the Calvert Employment Agreement). The previous employment agreement with Mr. Calvert, dated December 11, 2002, was terminated.

The Calvert Employment Agreement provides that Mr. Calvert will serve as the President and Chief Executive Officer of the Company, and receive (i) base compensation of \$184,800 annually (with an automatic 10% annual increase); and (ii) a bonus in such amount as the Compensation Committee may determine from time to time. In addition, Mr. Calvert will be eligible to participate in incentive plans, stock option plans, and similar arrangements as determined by the Company's Board of Directors. When such benefits are made available to the senior employees of the Company, Mr. Calvert is also eligible to receive health insurance premium payments for himself and his immediate family, a car allowance of \$800 per month, paid vacation of four weeks per year plus an additional two weeks per year for each full year of service during the term of the agreement up to a maximum of ten weeks per year, life insurance equal to three times his base salary and disability insurance.

The Calvert Employment Agreement provides that Mr. Calvert will be granted an option (the Option) to purchase 7,733,259 shares of the Company's common stock. The Option shall be a non-qualified stock option, shall be exercisable at \$0.18 per share, shall be exercisable for ten years from the date of grant and shall vest over time as follows:

First anniversary of the date of this Agreement	2,577,753
Second anniversary of the date of this Agreement	2,577,753
Third anniversary of the date of this Agreement	2,577,753

Notwithstanding the foregoing, any portion of the Option which has not yet vested shall be immediately vested in the event of, and prior to, a change of control, as defined in the Calvert Employment Agreement. Consistent with the foregoing, the precise terms and conditions of the agreement evidencing the Option to be entered into between the Company and Mr. Calvert shall be as determined by the Board of Directors and/or the Compensation Committee.

The Calvert Employment Agreement has a term of five years, unless earlier terminated in accordance with its terms. The Calvert Employment Agreement provides that Mr. Calvert's employment may be terminated by the Company due to disability, for cause or without cause. Disability as used in the Calvert Employment Agreement means physical or mental incapacity or illness rendering Mr. Calvert unable to perform his duties on a long-term basis (i) as evidenced by his failure or inability to perform his duties for a total of 120 days in any 360 day period, or (ii) as determined by an independent and licensed physician whom Company selects, or (iii) as determined without recourse by the Company's disability insurance carrier. If Mr. Calvert's employment is terminated for cause he will be eligible to receive his accrued base compensation and vacation compensation through the date of termination. If Mr. Calvert's employment is terminated without cause, then he will be eligible to receive the greater of (i) one year's compensation plus an additional one half year for each year of service since the effective date of the employment agreement or (ii) one year's compensation plus an additional one half year for each year remaining in the term of the agreement.

Table of Contents

The Calvert Employment Agreement requires Mr. Calvert to keep certain information confidential, not to solicit customers or employees of the Company or interfere with any business relationship of the Company, and to assign all inventions made or created during the term of the Calvert Employment Agreement as work made for hire .

Change in Control; Election of Mr. Code as Director

The acquisition of the BioLargo technology resulted in a change of control of the Company. In connection with the completion of the acquisition of the BioLargo technology, the Company issued 22,139,012 shares of its common stock, as adjusted for the Reverse Split, to IOWC (the IOWC Shares). IOWC is controlled by Mr. Code. The IOWC Shares, together with 620,637 shares of common stock, as adjusted for the Reverse Split, previously issued to Mr. Code under the Consulting Agreement, constitute approximately 57.8% of the Company s issued and outstanding stock as of April 30, 2007.

Under Delaware law, Mr. Code has the power to elect each of the members of our Board of Directors. Mr. Code also has the power to control the outcome of most matters requiring stockholder approval. In connection with the completion of the acquisition of the BioLargo technology on April 30, 2007, Mr. Code was elected as a director of the Company. Additionally, the Code Employment Agreement provides that during the term of the Code Employment Agreement the Company shall cause to have Mr. Code nominated for election as a director to serve on the Board of Directors Mr. Code also serves as the Company s Chief Technology Officer, which is an executive officer position.

Mr. Code is the founder and principal stockholder of IOWC, a company which is engaged in the research and development of advanced disinfection technology and substantially all of whose assets the Company purchased in April 2007. From December 2000 to the present, Mr. Code has been President of IOWC. From December 2000 through October 2003, Mr. Code also served as a director and Vice Chairman of BioLargo Technologies Inc., where he was engaged in pre-commercial efforts to seat inorganic disinfection technologies into the non-woven air-laid industry. Mr. Code has authored several publications concerning, and has filed several patent applications applying, disinfection technology. Mr. Code graduated from the University of Calgary, Alberta, Canada.

The Board of the Directors of the Company has determined that Mr. Code is not independent as defined under NASDAQ Marketplace rules. Mr. Code does not serve on any committees of the Board.

Note 3. Sale of Unregistered Securities

The Company has raised money pursuant to several private offerings of its securities, the details of which are provided below.

Spring 2007 Offering

Pursuant to a private offering that commenced in May 2007 (the Spring 2007 Offering) and which is continuing as of the date of this Report, the Company is offering up to \$1,000,000 of its convertible notes (the Spring 2007 Notes), which are due and payable on June 30, 2009. Interest accrues at 10% compounding annually and is payable at the Company s option, in cash or stock at an initial conversion rate of \$0.70 per share. Purchasers of the Spring 2007 Notes received, for no additional consideration, stock purchase warrants (the Spring 2007 Warrants) entitling the holder to purchase a number of shares of Company s common stock equal to the number of shares of common stock into which the principal amount of the investor s Spring 2007 Note is convertible. The Spring 2007 Warrants are exercisable at \$1.30 per share and will expire on June 30, 2010.

The Spring 2007 Notes are convertible into shares of the Company s common stock at an initial conversion price of \$0.70 per share. The Spring 2007 Notes can be converted voluntarily by the noteholders at any time. The Spring 2007 Notes can be converted mandatorily by the Company (i) on or after September 30, 2007, if the Company has received one or more written firm commitments, or has closed on one or more transactions, or a combination of the foregoing, of at least \$3 million gross proceeds of equity or debt; or (ii) on the maturity date. Accordingly, under such circumstances, the Spring 2007 Notes may be repaid in cash or may be converted, at the sole option of the Company, into shares of the Company s common stock, on the maturity date.

From the inception of the Spring 2007 Offering in May 2007, through September 30, 2007, the Company received gross and net proceeds of \$431,000 from 11 investors and issued Spring 2007 Notes, the principal amount of which allow for conversion into an aggregate 615,718 shares of the Company s common stock, and Spring 2007 Warrants exercisable into an aggregate 615,718 shares of the Company s common stock.

Table of Contents

The Spring 2007 Notes have not been converted and remain outstanding, and they are recorded on the balance sheet as Long-Term Liabilities.

Fall 2006 Offering

In September 2006, the Company commenced a private offering that terminated in April 2007 (the Fall 2006 Offering). The Company sold an aggregate \$1,000,000 principal amount of its promissory notes (the Fall 2006 Notes) due and payable September 13, 2008 to 43 investors, the principal amount of which is convertible into 1,454,546 shares of the Company s common stock. Of this amount, the Company sold an aggregate \$484,000 principal amount of Fall 2006 Notes as of December 31, 2006, and the \$516,000 balance subsequent to December 31, 2006. Each Fall 2006 Offering Note bears interest at a rate of 10% per annum, such interest to be paid, at the Company s option, in cash or stock at an initial conversion rate of \$0.6875 per share. Purchasers of the Fall 2006 Notes received, for no additional consideration, a stock purchase warrant (the Fall 2006 Warrant) entitling the holder to purchase a number of shares of the Company s common stock into which the principal amount of the investor s Fall 2006 Note is convertible. The Fall 2006 Warrant is exercisable at an initial price of \$1.25 per share, and will expire on September 13, 2009.

The Fall 2006 Notes may be subordinated in an amount up to \$5 million of additional debt financing that the Company may incur prior to the maturity date. The Fall 2006 Notes are convertible into shares of the Company s common stock at an initial conversion price of \$0.6875 per share. The Fall 2006 Notes can be converted voluntarily by the noteholders at any time prior to the maturity date. The Fall 2006 Notes can be converted mandatorily by the Company (i) on or after September 13, 2007, if the Company has received one or more written firm commitments, or has closed on one or more transactions, or a combination of the foregoing, of at least \$3 million gross proceeds of equity or debt; or (ii) on the maturity date. Accordingly, under such circumstances, the Fall 2006 Notes may be repaid in cash or may be converted, at the sole option of the Company, into shares of the Company s common stock, on the maturity date.

The Fall 2006 Notes have not been converted and remain outstanding, and are recorded on the balance sheet as convertible notes payable as current liabilities.

2005 First Offering

In January 2005, pursuant to a private offering that commenced in October 2004 and terminated in January 2005 (the First Offering), the Company received gross and net proceeds of \$25,000 from an outside investor and issued its convertible promissory note (the First Offering Note) due and payable one year from the date of issuance. The First Offering Note bears interest at a rate of 10% per annum, payable on the maturity date. The First Offering Note can be converted, in whole or in part, into shares of the Company s Series A Preferred stock, at an exercise price of \$0.10 per share, as adjusted to reflect the Reverse Split, at any time prior to maturity by either the Company or the lender. Each share of Series A Preferred Stock may be converted by the holder into one share of the Company s common stock. If the noteholder converts the First Offering Note into Series A Preferred Stock, on or after the note s original maturity date the noteholder may require the Company to buy back the shares of Series A Preferred Stock for 110% of the principal amount of the note (the Buy Back Provision). If the Company is unable to do so, the Company s president, Dennis Calvert, has agreed to buy back the shares on the same terms. If shares of Series A Preferred Stock are converted into common stock, the holder has the right to include (piggyback) the shares of common stock in a registration of securities filed by the Company, other than on Form S-4 or Form S-8.

On March 21, 2007, the Company converted a First Offering Note in the aggregate amount of \$30,710, which consisted of \$25,000 aggregate principal amount and \$5,710 of accrued but unpaid interest, with a conversion price of \$0.10 per share, into an aggregate of 307,102 shares of the Company s common stock.

2005 Second Offering

During 2005, pursuant to a private offering that commenced in January 2005 and terminated in August 2005 (the Second Offering), the Company received gross proceeds of \$731,120 and net proceeds of \$710,870 from 26 outside investors and issued its convertible promissory note (the Second Offering Note) due and payable one year from the date of issuance. The Second Offering Note bears interest at a rate of 10% per annum, payable on the maturity date. The Second Offering Note can be converted, in whole or in part, into 3,177,589 shares of the Company s common stock, at an exercise price ranging from \$0.10 to \$0.40 per share, as adjusted to reflect the Reverse Split, at any time prior to maturity by either the Company or the holder. The holder has the right to include (piggyback) the shares of common stock in a registration of securities filed by the Company, other than on Form S-4 or Form S-8.

Table of Contents

On March 21, 2007, the Company converted \$850,550 in Second Offering Notes, which included \$731,120 aggregate principal amount and \$119,430 of accrued but unpaid interest, with various maturity dates and with various conversion prices, into an aggregate of 4,120,720 shares of the Company's common stock.

2005 Third Offering

Pursuant to another private offering, which commenced in September 2005 and terminated in February 2006 and received a total of \$1,102,000 from this offering and of this amount \$777,500 was received in the three month period ended March 31, 2006. On March 21, 2007, the Company converted an aggregate principal amount of \$1,102,000 of Third Offering Notes and \$117,931 of accrued but unpaid interest into an aggregate of 1,951,922 shares of the Company's common stock, at a conversion price of \$0.625 per share.

The Company recorded an additional non-cash interest expense of \$895,014 related to the conversion of an aggregate principal amount of \$1,953,120 in note payable obligations, because the conversion common stock price set forth in these notes was less than the market price of the Company's common stock on the date of conversion.

All of these offerings and sales were made in reliance on the exemption from registration contained in Section 4(2) of the Securities Exchange Act and/or Regulation D promulgated thereunder as not involving a public offering of securities.

Note 4. Outstanding Warrants

The Company has certain warrants outstanding to purchase its common stock, at various prices, as described in the following table:

	Number of Warrants	Price Range
Outstanding as of December 31, 2006	3,046,878	\$ 0.125 to \$5.00
Issued	1,361,287	\$ 1.25 to \$1.30
Expired		
Exercised		
Outstanding as of September 30, 2007	4,408,165	\$ 0.125 to \$5.00

Note 5. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses included the following:

	December 31, 2006	September 30, 2007
Accounts payable and accrued expenses	779,268	294,222
Accrued interest	923,472	452,158
Officer payable	337,796	45,639
Board of Director payable	270,963	16,500
Total Accounts Payable and Accrued Expenses	\$ 2,311,500	\$ 808,519

With respect to accounts payable, on March 21, 2007 the Company converted \$704,296 related to consulting services, which were converted into 1,803,615 shares of the Company's common stock, at prices agreed upon with each consultant ranging between \$0.25 to \$0.625 per share. An expense totaling \$199,666 was recorded in the nine-month period ended September 30, 2007 as the conversion common stock price was less than the market price of the Company's common stock at the date of conversion. All of these expenses were incurred prior to December 31, 2006.

Edgar Filing: BIOLARGO, INC. - Form 10QSB

On July 16, 2007 the Company converted \$154,660 related to consulting services, which were converted into 237,938 shares of the Company's common stock at \$0.65 per share, the closing price of a share of the Company's common stock on the conversion date. All of these expenses were incurred during 2007.

With respect to accrued interest, on March 21, 2007 the Company converted \$246,124 related to accrued interest from the Company's note obligations, which were converted into an aggregate of 866,854 shares of the Company's common stock, at a price range of \$0.10 - \$0.625 per share under the terms of the note obligations. The accrued interest as of September 30, 2007, includes \$380,658 of accrued and unpaid interest related to a note held by New Millennium Capital Partners, LLC (New Millennium), which was not included in the conversion of the principal and which balance will remain outstanding and will not accrue additional interest (see Note 8). The remaining accrued interest relates to the outstanding convertible promissory notes.

Table of Contents

With respect to officer and board of director payable, on March 15, 2007, the Company converted \$608,759 of officer and board of director payables to five of its current or former officers and directors into 1,623,359 shares of the Company's common stock at \$0.375 per share, the closing price of a share of the Company's common stock on the March 15, 2007 conversion date various conversion rates. All of these expenses were incurred prior to December 31, 2006.

On July 16, 2007 the Company converted \$40,000 of board of director payables to two of its current directors into 61,539 shares of the Company's common stock at \$0.65 per share, the closing price of a share of the Company's common stock on conversion date. All of these expenses were incurred during 2007.

Subsequent to September 30, 2007 the Company converted \$81,900 of additional payables into shares of common stock. Of this amount, \$25,000 owed for legal services provided to the Company in 2007 was converted into 69,445 shares of the Company's common stock at \$0.36 per share, the closing price of the Company's common stock on the date of issuance. The remaining \$56,900 of accrued payables owed to an officer, two directors and consultants for services provided to the Company in 2007 was converted into 90,321 shares of the Company's common stock at \$0.43 per share, the closing price of the Company's common stock on the date of issuance. (See Note 12.)

Note 6. Deferred Revenue

Johnson & Johnson Agreement

Effective September 6, 2007, the Company entered into a product evaluation agreement with Johnson & Johnson Consumer and Personal Products Worldwide (CPPW), a division of Johnson & Johnson Consumer Companies, Inc. Over the next few months, CPPW will evaluate the Company's BioLargo technology for possible application in certain specific CPPW product lines. At the end of that period, CPPW will determine if it is interested in pursuing a subsequent business relationship with the Company. CPPW is under no obligation to pursue any subsequent business with the Company or to develop or commercialize a product at the end of the evaluation period.

CPPW will not obtain any rights to any portion of the BioLargo technology as a result of the product evaluation agreement. Additionally, among other things, the parties have agreed to keep each other's information and materials confidential.

Subsequent to September 30, 2007, the Company received a fee of \$50,000 for providing CPPW up to 160 hours of technical assistance related to this agreement. For the three-month period ended September 30, 2007, the Company recorded \$12,500 of revenue and recorded the remaining \$37,500 as deferred revenue on its balance sheet.

Note 7. Augustine Loan

On April 11, 2007, Augustine II, LLC (Augustine Fund) converted an aggregate \$717,138, which consists of \$420,000 in principal and \$297,138 of accrued but unpaid interest of a convertible note, as amended (Augustine Note) into 2,031,553 shares of the Company's common stock. The Augustine Note had a maturity date of May 1, 2007. The Augustine Note provided for a conversion price equal to the last bid price of the five trading days preceding the date of conversion, or \$0.353 per share. The Augustine Note and the loan agreement in respect of the Augustine Note limited the Augustine Fund to hold not more than 4.9% of the Company's issued and outstanding common stock at any given time. In connection with the conversion of the Augustine Note, the Company waived this limitation.

Note 8. Related Party Transactions

In March 2003, New Millennium purchased from a third party (i) a \$1,120,000 promissory note (New Millennium Note) assumed by the Company pursuant to a licensing transaction in October 2002, and (ii) 167,285 shares of the Company's common stock, as adjusted to reflect the Reverse Split. In exchange, New Millennium issued a \$900,000 promissory note to the third party, secured by the 167,285 shares of the Company's common stock.

On April 28, 2006, the Company and New Millennium agreed to amend the terms of the New Millennium Note to (i) extend the due date to January 15, 2008; (ii) waive any payments of interest until it becomes due; (iii) reduce the principal amount from \$1,120,000 to \$900,000, equal to a 19.6% reduction; and (iv) correspondingly reduce the accrued but unpaid interest due under the terms of the note from \$317,956 to \$255,636, also equal to a 19.6% reduction.

Table of Contents

On April 13, 2007, New Millennium converted the \$900,000 principal amount of the New Millennium Note into 1,636,364 shares of the Company's common stock. The New Millennium Note was converted at a price of \$0.55 per share, which was the last bid price on the date of conversion. New Millennium is controlled by Dennis Calvert, the Company's President and Chief Executive Officer. Accrued but unpaid interest in the amount of \$380,658 as of the conversion date of April 13, 2007 remains outstanding on the New Millennium Note, which amount is not due to be paid until January 15, 2008. No additional interest will be accrued on this obligation.

Note 9. Other Loans

In February 2005, the Company amended its obligations to Dr. James Seay under its promissory note dated November 20, 2003 in the principal amount of \$50,000 and which matured on February 18, 2004. On the maturity date of the note, the Company was obligated to pay Dr. Seay \$65,000. The Company paid Dr. Seay \$30,000 and the balance of \$35,000 remained outstanding. The amendment to the note entered into on February 10, 2005, (i) extends the maturity date of the note to February 3, 2006, (ii) provides for interest to accrue at a rate of 10% per annum (15% upon default), and (iii) allows for the conversion of the note into 280,000 shares of the Company's common stock, or \$0.125 per share, as adjusted to reflect the Reverse Split. In February 2006, this note was further extended to the sooner of June 30, 2006, or the date the Company's stockholders approve an amendment to the Company's certificate of incorporation increasing the number of authorized shares of common stock. This was approved on March 15, 2007 and, accordingly, on March 29, 2007, the Company converted the principal amount of the note, plus accrued and unpaid interest in the amount of \$6,588, into 332,704 shares of common stock at a share price of \$0.125 per share.

On November 1, 2004 the Company converted \$25,000 of obligations owed to a former provider of professional services into a promissory note, which amount accrues interest at 5% per annum. As of September 1, 2007, the Company and noteholder agreed to enter into a new loan agreement which converted the then accrued interest totaling \$5,176 to principal and enter into a new one year note totaling \$30,126, payable September 30, 2008 bearing interest at rate of 6% per annum. As of September 30, 2007 the principal amount of the note, together with \$290 in accrued but unpaid interest, had not been repaid. During 2004, the Company raised \$60,000 pursuant to a private offering and issued convertible promissory notes due and payable one year from the date of issuance. The maturity date of the notes were subsequently extended. As of December 31, 2006, the principal amount of the notes, together with \$11,284 in accrued but unpaid interest, had not been repaid. On March 29, 2007, the principal amount of these notes, along with \$12,512 in accrued and unpaid interest, were converted into 580,095 shares of the Company's common stock.

Note 10. Commitments and Contingencies

Obligation to Former Debenture Holder

As of December 31, 2006 and September 30, 2007 the Company had a remaining balance of \$21,151 that it owes under a settlement agreement with a former convertible debenture holder, This amount is included in the Company's balance sheet. Note 11. Other Income.

Settlement Agreement

On July 10, 2007, the Company entered into a settlement agreement (Settlement Agreement) with Craig Sundheimer and Lloyd Jarvis (collectively, Sundheimer) with respect to the prior termination of their license agreement with IOWC, assigned to the Company pursuant to the Asset Purchase Agreement by and between the Company and IOWC. (See Note 2.)

The Settlement Agreement requires Sundheimer to pay \$18,125 to the Company upon its execution. In addition to the initial payment, the Settlement Agreement requires Sundheimer pay to the Company 10% percent of sales by Sundheimer from the sale of super-absorbent pads and other related products to Blood Systems Inc., and of all sales from January 1, 2006 through December 31, 2011. The Company has received and recorded \$37,608 as other income in its September 30, 2007 income statement.

Note 12. Subsequent Events

Syngenta Agreement

Effective October 3, 2007, BioLargo, Inc. and its wholly-owned subsidiary BioLargo Life Technologies, Inc. (collectively, the Company), entered into a product evaluation agreement (the Syngenta Agreement) with Syngenta Crop Protection, Inc. (Syngenta).

Table of Contents

Over the next several months to one year, Syngenta will have the exclusive right to conduct initial evaluation and laboratory testing of the Company's BioLargo technology for its commercial utility in a field of use consisting of various specified agrochemical and similar applications. An initial milestone payment shall be paid by Syngenta to the Company for this initial evaluation and testing, and in exchange the Company has agreed not to engage in any negotiations or testing with other parties related to the specified field of use.

Additionally, the Syngenta Agreement provides that, should Syngenta elect to proceed further to field testing or commercial development of a product in a specified field of use, the parties will negotiate with each other exclusively and in good faith additional agreements and milestone payments for such specific selected uses. Should Syngenta then elect to commercialize a product based on the Company's BioLargo technology, the parties will have 12 months from the completion of product development for any selected application to negotiate with each other exclusively and in good faith and enter into a commercial license agreement for such selected application. Should Syngenta elect not to proceed at any stage, the Company shall thereafter be free to seek alternative routes to commercialization and alternative partners for applications in the specified field of use.

Syngenta will not obtain any rights to any portion of the Company's BioLargo technology as a result of the product evaluation agreement itself. However, the Syngenta Agreement does provide how rights to new inventions will be managed during the term of the initial evaluation and testing. Title to all new inventions made by the Company resulting from the work performed under the Syngenta Agreement shall reside in the Company. Title to all new inventions made by Syngenta resulting from the work performed under the Syngenta Agreement shall reside in Syngenta. Title to all inventions and discoveries made jointly by Syngenta and the Company resulting from the work performed under the Syngenta Agreement shall reside jointly in Syngenta and the Company. Inventorship shall be determined in accordance with U.S. Patent law, as the same may exist from time to time.

Additionally, among other things, the parties have agreed to keep each other's information and materials confidential; have provided for the manner in which patent applications shall be filed with respect to any new inventions; and have agreed to mutual indemnification.

Shares Issued for Consulting and Professional Services

On October 5, 2007 the Company converted \$25,000 of accrued payables owed for legal services provided to the Company in 2007 into 69,445 shares of the Company's common stock at \$0.36 per share, the closing price of the Company's common stock on the date of issuance.

On October 18, 2007 the Company converted \$56,900 of accrued payables owed to an officer, two directors, and consultants for services provided to the Company in 2007 into 90,321 shares of the Company's common stock at \$0.43 per share, the closing price of the Company's common stock on the date of issuance.

The offerings and the sales of securities pursuant to the conversions described above were made in reliance on the exemption from registration contained in Section 4(2) of the Securities Act of 1933 and/or Regulation D promulgated thereunder as not involving a public offering of securities.

Table of Contents

Item 2. Management's Discussion and Analysis

This Quarterly Report on Form 10-QSB of BioLargo, Inc. (the Company) contains forward-looking statements. These forward-looking statements include predictions regarding, among other things:

our business plan;

the commercial viability of our technology and products incorporating our technology;

the effects of competitive factors on our technology and products incorporating our technology;

expenses we will incur in operating our business;

our liquidity and sufficiency of existing cash;

the success of our financing plans; and

the outcome of pending or threatened litigation.

You can identify these and other forward-looking statements by the use of words such as may, will, expects, anticipates, believes, estimate, continues, or the negative of such terms, or other comparable terminology. Forward-looking statements also include the assumptions underlying or relating to any of the foregoing statements.

Such statements, which include statements concerning future revenue sources and concentrations, selling, general and administrative expenses, research and development expenses, capital resources, additional financings and additional losses, are subject to risks and uncertainties, including, but not limited to, those discussed elsewhere in this Form 10-QSB, that could cause actual results to differ materially from those projected.

Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under the heading Risk Factors in our Annual Report on Form 10-KSB for the year ended December 31, 2006. Unless otherwise expressly stated herein, all statements, including forward-looking statements, set forth in this Form 10-QSB are as of September 30, 2007, unless expressly stated otherwise, and we undertake no duty to update this information.

As used in this Report, the terms we, us, our and Company refers to BioLargo, Inc., and its wholly-owned subsidiaries, BioLargo Life Technologies, Inc., a California corporation, which is sometimes referred to separately as BLTI, and NuWay Sports, LLC, a California limited liability company.

General Note

On March 15, 2007, our stockholders approved, and effective as of the close of business on March 21, 2007, we completed, a 1-for-25 reverse split of our common stock (the Reverse Split). Additionally, on March 15, 2007, our stockholders approved, and we have filed, an amendment to our certificate of incorporation increasing our authorized capital stock to 200,000,000 shares of common stock and 50,000,000 shares of preferred stock. Unless specifically stated otherwise, all references in this Report to our common stock are stated on a post-Reverse Split basis.

Introduction

Edgar Filing: BIOLARGO, INC. - Form 10QSB

By leveraging our suite of patented and patent-pending intellectual property, which we refer to as the BioLargo technology, our business strategy is to harness and deliver nature's best disinfectant - iodine - in a safe, efficient, environmentally sensitive and cost-effective manner. Our BioLargo technology works by combining minerals with water from any source and delivering molecular iodine on demand, in controlled dosages, in order to balance efficacy of disinfectant performance with concerns about toxicity. When our BioLargo technology is incorporated in absorbent products, they also experience increased holding power and may experience increased absorption.

Our BioLargo technology creates a value-added proposition to existing products and can be used to create new products. Our BioLargo technology can be incorporated into absorbents, washes and sprays, and into various products and applications across multiple industry verticals. Our BioLargo technology has the potential to replace other disinfectants such as chlorines and bromines, which may be harmful to the environment. Our business model is to license our BioLargo technology to others, rather than to manufacture our own products.

We have been engaged in the research and product development of the BioLargo technology since July 2005, when we entered into a letter of intent with the inventor of the BioLargo technology, Kenneth Reay Code, who is now a director, our Chief Technology Officer and our principal stockholder. Between December 2006 and April 2007, we operated under a Marketing and Licensing Agreement with Mr. Code and a company he controls, IOWC Technologies, Inc. (IOWC). On April 30, 2007, we completed the acquisition of the BioLargo technology from IOWC.

Table of Contents

Our current focus is to develop opportunities to license our BioLargo technology to others in various vertical markets. We do not currently intend to manufacture our own products, although we will contract with others to manufacture the chemicals and minerals that comprise the BioLargo technology. We recently entered into two product evaluation agreements with third parties, pursuant to which our technology will be evaluated for possible application in specific product lines manufactured by such parties. See *Plan of Operation* below.

We had no continuing business operations until the completion of the acquisition of the BioLargo technology on April 30, 2007, and the Company operated as a public shell prior to such date. During the three-month period ended September 30, 2007 the Company earned and recorded its first revenue since the April 30, 2007 transaction.

Plan of Operation

Overview

We intend to focus our efforts primarily on the further research and development, and the licensing of the BioLargo technology. We may also develop certain products incorporating the BioLargo technology ourselves, on a more limited basis, for use in certain applications and industries.

Commercialization of the BioLargo Technology

We plan to pursue our primary revenues from licensing our BioLargo technology. Subject to regulatory compliance where applicable, our BioLargo technology is presently available for incorporation into certain products, including absorbent pads and materials to be used for clean up of or as a precautionary measure from spills of liquids, including hazardous materials.

Our current business plan calls for us to license our BioLargo technology to others and receive a license fee for its incorporation into existing and newly-created products across numerous industry verticals. Currently, we do not intend to manufacture our own products. We intend to work with manufacturers on a contract-for-hire basis, or on a project by project basis with the potential for these manufacturers to create a product supplier relationship for potential licensees of products incorporating our BioLargo technology. These collaborative efforts will focus on design and specifications for production of pre-commercial samples of products and for actual commercial products. However, while we have been engaged in extensive negotiations with numerous potential licensees and other users of products incorporating the BioLargo technology, there are no such agreements in place to date and therefore we cannot forecast when we will first generate license fee revenues, if at all.

A typical early step in seeking to market our BioLargo technology is to enter into confidentiality agreements with potential licensees. These confidentiality agreements contain, among other things, protection of, and confirmation of our continued ownership in, all of our intellectual property. We then often deliver samples of material incorporating our BioLargo technology for testing. To date, we have entered into numerous such confidentiality agreements and delivered samples.

In addition to confidentiality agreements, we may also enter into material testing agreements with potential licensees. These agreements typically provide that the results of sample testing are shared with us, whereas they may or may not be shared with us under confidentiality agreements. To date, we have entered into four material testing agreements, two of which have so far led to product evaluation agreements.

Recently, we took our first major steps towards commercializing our BioLargo technology by entering into two product evaluation agreements, pursuant to which our BioLargo technology will be evaluated for application to specific product lines. Under these agreements, we receive a fee for providing access to our BioLargo technology and for our technical support to assist in the evaluation of our BioLargo technology within the defined areas of evaluation.

Johnson & Johnson Agreement

Effective September 6, 2007, we entered into a product evaluation agreement (the *CPPW Agreement*) with Johnson & Johnson Consumer and Personal Products Worldwide (*CPPW*), a division of Johnson & Johnson Consumer Companies, Inc. CPPW will evaluate our BioLargo technology for possible application in certain specific CPPW product

Table of Contents

lines. At the end of this evaluation period, CPPW will determine if it is interested in pursuing a subsequent business relationship. CPPW is under no obligation to pursue any subsequent business with us or to develop or commercialize a product at the end of the evaluation period.

CPPW will not obtain any rights to any portion of the BioLargo technology as a result of the CPPW Agreement. Additionally, among other things, the parties have agreed to keep each other's information and materials confidential.

Syngenta Agreement

Subsequent to the quarter ending September 30, 2007 and effective October 3, 2007, we entered into a product evaluation agreement (the Syngenta Agreement) with Syngenta Crop Protection, Inc. (Syngenta). Over the next several months to approximately one year, Syngenta will have the exclusive right to conduct initial evaluation and laboratory testing of our BioLargo technology for its commercial utility in a field of use consisting of various specified agrochemical and similar applications. An initial milestone payment shall be paid to us by Syngenta for this initial evaluation and testing, and in exchange we have agreed not to engage in any negotiations or testing with other parties related to the specified fields of use.

Additionally, the Syngenta Agreement provides that, should Syngenta elect to proceed further to field testing or commercial development of a product in a specified field of use, the parties will negotiate with each other exclusively and in good faith additional agreements and milestone payments for such specific selected uses. Should Syngenta then elect to commercialize a product based on our BioLargo technology, the parties will have 12 months from the completion of product development for any selected application to negotiate with each other exclusively and in good faith and enter into a commercial license agreement for such selected application. Should Syngenta elect not to proceed at any stage, we shall thereafter be free to seek alternative routes to commercialization and alternative partners for applications in the specified field of use.

Syngenta will not obtain any rights to any portion of our technology as a result of the Syngenta Agreement itself. However, the Syngenta Agreement does provide how rights to new inventions will be managed during the term of the initial evaluation and testing. Title to all new inventions we make resulting from the work performed under the Syngenta Agreement shall reside in the Company. Title to all new inventions made by Syngenta resulting from the work performed under the Syngenta Agreement shall reside in Syngenta. Title to all inventions and discoveries we make jointly with Syngenta resulting from the work performed under the Syngenta Agreement shall reside jointly in Syngenta and the Company. Inventorship shall be determined in accordance with U.S. Patent law, as the same may exist from time to time.

Additionally, among other things, the parties have agreed to keep each other's information and materials confidential; have provided for the manner in which patent applications shall be filed with respect to any new inventions; and have agreed to mutual indemnification.

Sales and Marketing

We intend to devote a significant part of our resources to sales and marketing of the BioLargo technology to potential licensees. Subject to obtaining adequate financing, for which no commitments are currently in place, we intend to initially focus on the following vertical markets:

Agriculture - food, plant, seed and soil washes and sprays (herbicides, fungicides, pesticides, decontamination of soil in animal enclosures and disinfection of related equipment)

Medical and Consumer Products - disinfection and sanitization products for medical applications (medical antiseptic, antimicrobial, disinfectant washes, and sprays, wipes, and absorbent materials)

Water / Remediation - remediation of waste, drinking, surface, storm and ground waters (irrigation run-off, storm drain discharge, wetlands management, storage and transport aqueducts, canals and reservoirs, wells and other consumer water supplies), and soil and beach remediation

Hazmat Packaging - diagnostics and pathogens (bio-hazard containment, blood transport)

Edgar Filing: BIOLARGO, INC. - Form 10QSB

Homeland Security - Leaks, spills, and disaster clean-up (toxic spills, bio-terrorist threats, and natural disasters)

Food Safety - packaging and processing

Table of Contents

While specific efforts will vary based on market conditions and opportunities that present themselves from time to time, the following discussion of recent efforts is indicative of the types of efforts we expect to undertake on an ongoing basis.

In 2006, we focused on pre-marketing activities to establish credibility in the technology. For example, in April 2006, we engaged Robert Stewart, Ph.D., to serve as our regulatory specialist for required activities involving the Environmental Protection Agency (EPA) and the Food and Drug Administration. During this period, we also focused on establishing relationships with key agents who work on a commission basis to assist us in marketing to large corporations and other organizations. In May 2006, we hired a consultant to assist us on our marketing and sales efforts.

In February 2006, we began discussions with major research universities to further our research for specific applications. In September 2006, we hired UCLA to research applications of the BioLargo technology for beach and soil remediation. An initial report regarding this research was presented in October 2006 at the National Beaches Conference sponsored by the EPA. We are discussing expanding the scope of study in this area with UCLA.

Throughout 2006, we engaged in various efforts to continue testing, developing and pre-marketing products incorporating the BioLargo technology. For example, in January 2006, we contracted with a third-party manufacturer to produce samples for presentation purposes of absorbent pads. We also engaged a particle, formulations, blending and specialty manufacturing company to work with us in product development and sample fabrication. In June 2006, we hired a third-party laboratory to perform a series of independent test and issue their reports to assist us in validating the BioLargo technology to a Good Laboratory Practice standard. We continue to work with these third parties.

Throughout 2006, we also were actively involved in initial marketing activities for the BioLargo technology. For example, in February 2006, we presented the BioLargo technology to a number of major corporations for potential licensing discussions. Following an April 2006 international conference of industry for infection control in Prague, Czech Republic, attended by Mr. Code, we pursued with Mr. Code presentations to one of the largest companies in the embedded anti-microbial industry. In June 2006, we began discussions with a number of large healthcare companies about incorporating the BioLargo technology in their products. The potential areas of focus include wound dressings, drapes, wipes, bandages, diapers disinfecting and sterilization solutions, among other possible uses in their various products.

Also in June 2006, we participated in a conference for all government agencies throughout California and have since discussed the BioLargo technology for possible governmental use in sewage spills, water quality, rainwater runoff contamination problems and beach clean-up efforts. Also in June 2006, we participated in a national military defense conference sponsored by the National Defense Industry Association for all military services, including the Department of Homeland Security, and have since discussed the BioLargo technology for possible application in the areas of military hospitals, pandemic prevention, agricultural protection, hazardous waste, food protection, decontamination of porous and non-porous materials, disaster relief and national world class laboratory access. Subsequently, we have presented the BioLargo technology with other governmental officials and agencies. In September 2006, we attended a national Agro Terrorism Conference sponsored by the Federal Bureau of Investigation and the Joint Terrorism Task Force.

During 2007, we continued our efforts from 2006, and have increased our marketing efforts, focusing on executing agreements with potential licensees to earn a license fee. We entered into negotiations regarding testing and product development with several leading companies in their field. To date, these negotiations have resulted in two product evaluation agreements. (See *Johnson & Johnson Agreement*, and *Syngenta Agreement*, above.) We are continuing discussions with other potential licensees or other users of products incorporating our BioLargo technology in a range of applications, including beach remediation and homeland security applications with the U.S. Department of Defense. A number of prospective licensees are engaged in materials and product testing efforts, as well as discussions with us about product designs and various uses of our BioLargo technology. However, it is essential to note that, other than with CPPW and Syngenta, we do not yet have any agreements in place with any of these parties, and no assurance can be given if any such efforts will prove successful or result in commercialization of our BioLargo technology.

Research and Development, Intellectual Property Protection and Third-Party Testing

We currently anticipate that research and development costs over the next 12 months could be significant, and will range considerably, subject to the amount of third-party financing, if any, which we receive. To the extent that we are able to secure sufficient additional financing, we may be in a position to accelerate and expand the scope of our research and development activities. Among other things, we would invest any such funds primarily on continued testing of the BioLargo technology in certain applications and the development of additional production methods for use of the BioLargo technology. Although we are actively pursuing such financing, no such commitment is in place at present.

Table of Contents

In connection with the closing of the acquisition of the BioLargo technology in April 2007, we obtained full rights, title and interest to two U.S. patents previously owned by Mr. Code and IOWC. Mr. Code, IOWC and co-inventors of certain intellectual property had previously assigned to us six United States Patent and Trademark Office (USPTO) patent applications and two additional International Patent Cooperation Treaty (PCT) patent applications. We intend to continue to expand and enhance our suite of intellectual property through ongoing focus on product development, new intellectual property development and patent applications, and further third-party testing and validations for specific areas of focus for commercial exploitation. We currently anticipate that additional patent applications will be filed during the next 12 months with the USPTO and the PCT, and we are uncertain of the cost of such patent filings, as it will depend upon the number of such applications prepared and filed. The prosecution of patents and ongoing maintenance and defense of patents is expensive and will require substantial ongoing capital resources. However we cannot give any assurance that adequate capital will be available or will be available, if at all, on favorable terms.

Ongoing research and development, and third-party testing, is a critical part of our business plan. These efforts can be time consuming and some of these efforts are costly, requiring adequate capital resources to continue such efforts. However we cannot give any assurance that adequate capital will be available or will be available, if at all, on favorable terms.

Results of Operations Comparison of the three- and nine-month periods ended September 30, 2007 and 2006***Revenue***

We generated \$12,500 in revenues from operations during the three- and nine-month periods ended September 30, 2007, compared with no revenues from operations during the three- and nine-month periods ended September 30, 2006. These revenues were generated from a product evaluation agreement entered in the three-month period ending September 30, 2007.

Selling, General and Administrative Expense

Selling, general and administrative expenses were \$493,000 and \$1,795,000 for the three- and nine-month periods ended September 30, 2007, respectively, compared to \$527,000 and \$1,077,000 for the three- and nine-month periods ended September 30, 2006, respectively. The largest components of these expenses were:

- a. Salaries and Payroll-related Expenses: These expenses were \$111,000 and \$254,000 for the three- and nine-month periods ended September 30, 2007, compared to \$46,000 and \$139,000 for the three- and nine-month periods ended September 30, 2006, an increase of \$65,000 and \$115,000, respectively. The increase is attributable to an increase in for salary related to Dennis Calvert, our President and Chief Executive Officer; Joseph Provenzano, our Secretary; and Kenneth Code, our Chief Technology Officer.
- b. Consulting Expenses: These expenses were \$164,000 and \$405,000 for the three- and nine-month periods ended September 30, 2007, compared \$349,000 and \$567,000 for the three- and nine-month periods ended September 30, 2006, a decrease of \$185,000 and \$162,000, respectively. This decrease is primarily attributable to the one time stock issuance to Mr. Code in 2006 pursuant to the R&D Agreement. Our utilization of consultants is consistent with executing our business plan to commercialize our BioLargo technology; providing applications of our BioLargo technology for potential licensees or other customers in various vertical markets; advising us in various respects regarding our business and opportunities; furthering product development and design; providing financial, valuation and marketing services; licensing, initial marketing and pre-sale research and activities; and various other consulting services.
- c. Professional Fees: These expenses were \$119,000 and \$709,000 for the three- and nine-month periods ended September 30, 2007, compared to \$62,000 and \$180,000 for the three- and nine-month periods ended September 30, 2006, an increase of \$57,000 and \$529,000, respectively. The increase is primarily attributable to an increase in (i) our need for legal work related to our BioLargo technology, including the multiple patent applications, as well as obtaining stockholder approvals and preparing for the closing of the transactions with IOWC and Mr. Code; (ii) investment banking fees; (iii) accounting fees; and (iv) audit services.
- d. Other Expense: These expenses were \$0 and \$200,000 for the three and nine-month periods ended September 30, 2007, compared to \$0 and \$0 for the three- and nine-month periods ended September 30, 2006. These expenses were the result of converting account payables and accrued expenses, because the conversion common stock price was less than the market price of our common stock on the dates of conversion.

Table of Contents

Research and Development

Research and development expenses were \$6,000 and \$48,000 for the three- and nine-month periods ended September 30, 2007, respectively, compared to \$24,000 and \$108,000 for the three- and nine-month periods ended September 30, 2006. Our level of research and product development has varied based on available capital and is consistent with our plan to provide applications of our BioLargo technology to potential licensees or other customers in various vertical markets.

Net Loss

Net loss for the three- and nine-month periods ended September 30, 2007 was \$481,824 and \$2,768,089, or a loss of \$0.01 and \$0.11 per share, respectively. Comparatively, for the three- and nine-month periods ended September 30, 2006, net loss was \$652,498 and \$1,185,920, or a loss of \$0.23 and \$0.45 per share, respectively.

Liquidity and Capital Resources

We have been, and we will be, limited in terms of our capital resources. Cash and cash equivalents totaled \$126,093 at September 30, 2007. We generated \$12,500 of revenue in the three-month period ended September 30, 2007 and used cash from financing activities to fund operations. Our cash position is insufficient to meet our continuing anticipated expenses or fund anticipated operating expenses. Accordingly, we will be required to raise additional capital to sustain operations and implement our business plan.

The financial statements accompanying this Report have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of our business. As reflected in the accompanying financial statements, we had a net loss of \$2,768,913 for the nine-month period ended September 30, 2007, negative cash flow from operating activities of \$1,050,241 for the nine-month period ended September 30, 2007, and a stockholders' deficit of \$32,308,807 as of September 30, 2007. The foregoing factors raise substantial doubt about our ability to continue as a going concern. Ultimately, our ability to continue as a going concern is dependent upon our ability to attract new sources of capital and commercially exploit our BioLargo technology. Our financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

In order to meet operating expenses and other financial obligations, we have been forced to use cash on hand to fund our operations. We have also continued to sell convertible promissory notes to investors. During the nine-month period ended September 30, 2007, we raised \$947,000 gross and net proceeds. Of this amount \$516,000 was included in the Fall 2006 private offering which terminated on April 25, 2007. The remaining \$431,000 was included in the Spring 2007 private offering. The notes issued in our 2005 offerings were converted into shares of our common stock in March 2007. The Fall 2006 and Spring 2007 Notes remain outstanding. (See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.)

During 2007, we have taken significant steps to reduce our financial obligations. Following stockholder approval on March 15, 2007 for the recapitalization of our stock and the Reverse Split, we converted an aggregate principal amount of \$1,953,120 and aggregate accrued but unpaid interest in the amount of \$282,156, in respect of convertible notes held by 92 investors. These notes had various maturity dates and provided for various conversion prices ranging from \$0.10 to \$0.625 per share and were converted into an aggregate 6,985,441 shares of our common stock. We also converted an aggregate \$608,759 of accrued payables to five of our current or former officers and directors into an aggregate 1,623,359 shares of our common stock. These conversions were effected at \$0.375 per share, the closing price of a share of our common stock on the March 15, 2007 conversion date.

We also converted an aggregate \$740,296 of accrued payables to 18 of our current or former consultants into an aggregate 1,803,615 shares of our common stock, as adjusted to reflect the Reverse Split. These conversions were effected at various previously agreed upon prices ranging from \$0.20 to \$0.625 per share, as adjusted to reflect the Reverse Split.

On April 11, 2007, Augustine II, LLC (Augustine Fund) converted an aggregate \$717,138 of principal and accrued but unpaid interest on a convertible promissory note (Augustine Note) into 2,031,553 shares of our common stock. The Augustine Note had a maturity date of May 1, 2007. The Augustine Note provided for a conversion price equal to the last bid price of the five trading days preceding the date of conversion, or \$0.353 per share. The Augustine Note and the loan agreement in respect of the Augustine Note limited the Augustine Fund to hold not more than 4.9% of our issued and outstanding common stock at any given time. In connection with the conversion of the Augustine Note, we waived this limitation.

Table of Contents

On April 13, 2007, the board of directors and New Millennium Capital Partners, LLC (New Millennium) agreed to convert the principal amount of a \$900,000 promissory note (the New Millennium Note) held by New Millennium into 1,636,364 shares of our common stock. The New Millennium Note had a maturity date of January 15, 2008, and was converted at a price of \$0.55 per share, which was the last bid price on the date of conversion. New Millennium is controlled by Dennis Calvert, our President and Chief Executive Officer. The accrued but unpaid interest in the amount of \$380,658 was not converted, and as of September 30, 2007 remains outstanding. No additional interest will accrue on this outstanding balance.

On July 16, 2007, we converted an aggregate \$194,660 of accrued payables to 13 of our current or former consultants into an aggregate 299,477 shares of our common stock, at \$0.65 per share, which was the last bid price on the date of conversion.

As a result of the foregoing transactions, as of September 30, 2007, we had converted an aggregate \$5,396,129 of obligations, consisting primarily of principal amount of notes, accrued and unpaid interest, salaries, fees and payables, into an aggregate 14,379,809 shares of our common stock. Of the \$5,396,129 in obligations converted, \$347,714 related to obligations incurred 2007, and the remaining \$5,048,415 related to obligations incurred prior to December 31, 2006.

As of September 30, 2007, we had outstanding \$1,431,000 aggregate principal amount with respect to convertible promissory notes; we had outstanding \$21,151 debenture payable; we had outstanding \$30,126 as a note payable; and we had outstanding \$808,519 of accounts payable and accrued expenses, which amount consists of (i) \$452,158 in accrued and unpaid interest, including \$71,210 relating to outstanding convertible promissory notes and \$380,658 relating to interest due New Millennium, and (ii) \$294,222 in accounts payable, including amounts owed to professionals, directors and an officer.

Subsequent to the quarter ended September 30, 2007, on October 5, 2007, we converted \$25,000 of accrued payables to one of our professional advisers into 69,445 shares of our common stock, at \$0.36 per share, which was the last bid price on the date of conversion. The payable is for services performed in 2007.

On October 18, 2007 the Company converted \$56,900 of accrued payables owed to an officer, two directors, and consultants for services provided to the Company in 2007 into 90,321 shares of the Company's common stock at \$0.43 per share, the closing price of the Company's common stock on the date of issuance.

In order to meet our continuing obligations, we will be required to raise substantial additional capital to sustain our expanded operations following the acquisition of the BioLargo technology, including without limitation, hiring additional personnel, additional scientific and third-party testing, costs associated with obtaining regulatory approvals and filing additional patent applications to protect our intellectual property, as well as to meet our liabilities as they become due for the next 12 months, including the Fall 2006 Notes when they mature in 2008, unless we convert the Fall 2006 Notes, which we may do at our option, into shares of our common stock.

Accordingly, we commenced a private offering on May 31, 2007 (the Spring 2007 Offering), pursuant to which we are offering up to \$1,000,000 of our convertible notes (the Spring 2007 Notes), which are due and payable on June 30, 2009. Interest on the Spring 2007 Notes accrues at 10% compounding annually and is payable at our option, in cash or stock at an initial conversion rate of \$0.70 per share. Purchasers of the Spring 2007 Notes receive, for no additional consideration, stock purchase warrants (the Spring 2007 Warrants) entitling the holder to purchase a number of shares of our common stock equal to the number of shares of Common Stock into which the principal amount of the investor's Spring 2007 Note is convertible. The Spring 2007 Offering is continuing as of the date of the filing of this Report.

From May 31, 2007 through November 2, 2007, we received gross and net proceeds of \$ 441,000 from 13 investors and issued Spring 2007 Notes which allow conversion into an aggregate of 630,004 shares of our common stock and Warrants exercisable for 630,004 shares of our common stock. Of these amounts, during the nine-month period ended September 30, 2007, we received gross and net proceeds of \$431,000 from 11 investors and issued Spring 2007 Notes which allow conversion into an aggregate of 615,718 shares of our common stock and Warrants exercisable into an aggregate of 615,718 shares of our common stock. The offering is continuing as of the date of the filing of this Report.

In addition, we are actively pursuing numerous alternatives to secure funds for our current and longer-term financial requirements, including additional raises of capital from investors in the form of convertible debt or equity. Negotiations are underway with various sources of such capital. There can be no assurance that we will be able to raise any additional capital. It is also unlikely that we will be able to qualify for bank debt until such time as our operations are considerably more advanced and we are able to demonstrate the financial strength to provide confidence for a lender, which we do not currently believe is likely to occur in the foreseeable future.

Table of Contents

Significant Obligations

Significant obligations at September 30, 2007 included:

- (i) Fall 2006 Notes and Spring 2007 Notes in the aggregate principal amount of \$1,431,000, together with accrued and unpaid interest in the aggregate amount of \$71,210, which obligations are mandatorily convertible into shares of our common stock at the option of the Company and are discussed in more detail above;
- (ii) \$380,658 of interest due to New Millennium pursuant to an agreement to convert the New Millennium Note into shares of our common stock;
- (iii) \$294,222 in accounts payable to various parties;
- (iv) \$30,126 remaining principal amount of a promissory note, together with accrued and unpaid interest in the amount of \$290, relating to professional fees; and
- (v) \$21,151 outstanding remaining on a settlement agreement with a former convertible debenture holder, which amount remains outstanding.

Obligation to New Millennium

In March 2003, New Millennium purchased from a third party (i) a \$1,120,000 promissory note we had assumed pursuant to a licensing transaction in October 2002, and (ii) 167,285 shares of our common stock, as adjusted to reflect the Reverse Split. In exchange, New Millennium issued a \$900,000 promissory note to the third party, secured by the 167,285 shares of our common stock, as adjusted to reflect the Reverse Split.

On April 28, 2006, New Millennium agreed to amend the terms of the \$1,120,000 promissory note to (i) extend the due date to January 15, 2008; (ii) waive any payments of interest until it becomes due; (iii) reduce the principal amount from \$1,120,000 to \$900,000, equal to a 19.6% reduction; and (iv) correspondingly reduce the accrued but unpaid interest due under the terms of the note from \$317,956 to \$255,636, also equal to a 19.6% reduction.

On April 13, 2007, we agreed to convert the \$900,000 principal amount of the New Millennium Note into 1,636,364 shares of our common stock, at a price of \$0.55 per share, which was the last bid price on the date of conversion. Accrued but unpaid interest in the amount of \$380,658 as of the conversion date of April 13, 2007 remains outstanding on the New Millennium Note, which amount is not due to be paid until January 15, 2008. No additional interest will accrue on this obligation.

Obligation Relating to Professional Fees

On November 1, 2004 the Company converted \$25,000 of obligations owed to a former provider of professional services into a promissory note, which amount accrues interest at 5% per annum. On September 1, 2007, the Company and noteholder agreed to enter into a new loan agreement which converted the then accrued interest totaling \$5,176 to principal and enter into a new one year note totaling \$30,126, payable September 30, 2008 bearing interest at rate of 6% per annum. As of September 30, 2007 the principal amount of the note, together with \$290 in accrued but unpaid interest, had not been repaid.

Critical Accounting Policies

Our discussion and analysis of our results of operations and liquidity and capital resources are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and judgments, including those related to revenue recognition, valuation of intangible assets and investments, and share-based payments. We base our estimates on anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results that differ from our estimates could have a significant adverse effect on our operating results and financial position. We believe that the following significant accounting policies and assumptions may involve a higher degree of judgment and complexity than others.

Table of Contents

The methods, estimates and judgments we use in applying these most critical accounting policies have a significant impact on the results of our reports in our financial statements.

We anticipate that any generated revenue will principally be derived from royalties and license fees from our intellectual property. Licensees typically pay a license fee in one or more installments and ongoing royalties based on their sales of products incorporating or using our licensed intellectual property. License fees are recognized over the estimated period of future benefit to the average licensee. We entered into product evaluation agreements which provide a non-refundable fee which is recognized over the term of the evaluation agreement as earned.

We have established a policy relative to the methodology to determine the value assigned to each intangible acquired with or licensed by us and/or services or products received for non-cash consideration of our common stock. The value is based on the market price of our common stock issued as consideration, at the date of the agreement of each transaction or when the service is rendered or product is received, as adjusted for applicable discounts.

It is our policy to expense share based payments as of the date of grant in accordance with Financial Accounting Standards Board Statement number 123R Share-Based Payment. Application of this pronouncement requires significant judgment regarding the assumptions used in the selected option pricing model, including stock price volatility and employee exercise behavior. Most of these inputs are either highly dependent on the current economic environment at the date of grant or forward-looking expectations projected over the expected term of the award. As a result, the actual impact of adoption on future earnings could differ significantly from our current estimate.

Recent Accounting Pronouncements

In June 2006, FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48) which defines the threshold for recognizing the benefits of tax return positions in the financial statements as more-likely-than-not to be sustained by the taxing authority. A tax position that meets the more-likely-than-not criterion shall be measured at the largest amount of benefit that is more than 50% likely of being realized upon ultimate settlement. FIN 48 applies to all tax positions accounted for under SFAS No. 109, Accounting for Income Taxes. Interpretation No. 48 is effective for fiscal years beginning after December 15, 2006. Upon adoption, the financial statements will be adjusted to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. Any adjustment will be recorded directly to our beginning retained earnings balance in the period of adoption and reported as a change in accounting principle. We do not expect the adoption of Interpretation No. 48 will have a material effect on our consolidated financial statements.

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value consistently with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. This statement is effective beginning in October 2008. We are currently evaluating the impact of adopting this standard.

In September 2006, the SEC issued Staff Accounting Bulletin no. 108 (SAB 108) to clarify consideration of the effects of prior year errors when quantifying misstatements in current year financial statements for the purpose of quantifying materiality. SAB 108 requires issuers to quantify misstatements using both the rollover and iron curtain approaches and requires an adjustment to the current year financial statements in the event that after the application of either approach and consideration of all relevant quantitative and qualitative factors, a misstatement is determined to be material. SAB 108 is effective for fiscal years beginning after November 15, 2006. We do not expect the adoption of SAB 108 will have a material effect on our consolidated financial statements.

Other recent accounting pronouncements issued by FASB (including its Emerging Issued Task Force), the American Institute of Certified Public Accountants and the SEC did not or are not believed by management to have a material impact on our present or future consolidated financial statements.

Item 3. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. Our management evaluated, with the participation of Dennis Calvert, who serves as both our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-QSB. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods

Table of Contents

specified in SEC rules and forms and is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

(b) Changes in internal control over financial reporting: There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-QSB that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In September 2006, we commenced a private offering that terminated in April 2007 (the Fall 2006 Offering), in which we sold an aggregate \$1,000,000 principal amount of our promissory notes (the Fall 2006 Notes) due and payable September 13, 2008 to 43 investors, convertible into 1,454,546 shares of the Company's common stock. Of this amount, we sold an aggregate \$484,000 principal amount of Fall 2006 Notes as of December 31, 2006, and the \$516,000 balance subsequent to December 31, 2006. Each Fall 2006 Offering Note bears interest at a rate of 10% per annum, such interest to be paid, at our option, in cash or stock at an initial conversion rate of \$0.6875 per share. Purchasers of the Fall 2006 Notes received, for no additional consideration, a stock purchase warrant (the Fall 2006 Warrant) entitling the holder to purchase a number of shares of our common stock into which the principal amount of the investor's Fall 2006 Note is convertible. The Fall 2006 Warrant is exercisable at an initial price of \$1.25 per share, and will expire on September 13, 2009.

On March 15, 2007, the board of directors and Mr. Calvert agreed to convert unpaid accrued compensation due Mr. Calvert for periods prior to January 1, 2007, in the amount of \$337,796, into 900,790 shares of our common stock at a price of \$0.375 per share, which was the last bid price on the date of conversion.

On March 21, 2007 we converted an aggregate principal amount of \$1,953,120 and aggregate accrued but unpaid interest in the amount of \$282,156, in respect of convertible notes held by 92 investors. These notes had various maturity dates and provided for various conversion prices ranging from \$0.10 to \$0.625 per share and were converted into an aggregate 6,985,441 shares of our common stock. We also converted an aggregate \$608,759 of accrued payables to five current or former officers and directors into an aggregate 1,623,359 shares of our common stock. These conversions were effected at \$0.375 per share, the closing price of a share of our common stock on the March 15, 2007 conversion date.

On March 29, 2007, we converted a note held by a former consultant in the outstanding principal amount of \$35,000, plus accrued and unpaid interest in the amount of \$6,588, into 332,704 shares of our common stock.

We also converted an aggregate \$740,296 of accrued payables to 18 of our current or former consultants into an aggregate 1,803,615 shares of our common stock. These conversions were effected at various prices ranging from \$0.20 to \$0.625 per share.

Pursuant to a private offering that commenced on May 31, 2007 (the Spring 2007 Offering) and which is continuing as of the date of the filing of this Report, we are offering up to \$1,000,000 of our convertible notes (the Spring 2007 Notes), which are due and payable on June 30, 2009. Interest accrues at 10% compounding annually and is payable at our option, in cash or stock at an initial conversion rate of \$0.70 per share. Purchasers of the Spring 2007 Notes receive, for no additional consideration, stock purchase warrants (the Spring 2007 Warrants) entitling the holder to purchase a number of shares of Company's Common Stock equal to the number of shares of Common Stock into which the principal amount of the investor's Spring 2007 Note is convertible. The Spring 2007 Warrants are exercisable at \$1.30 per share and will expire on June 30, 2010.

The Spring 2007 Notes are convertible into shares of the Company's common stock at an initial conversion price of \$0.70 per share, and can be converted voluntarily by the noteholders at any time. We can elect to convert the Spring 2007 Notes (i) on or after September 30, 2007, if we have received one or more written firm commitments, or have closed on one or more transactions, or a combination of the foregoing, of at least \$3 million gross proceeds of equity or debt; or (ii) on the Maturity Date. Accordingly, on the maturity date, we may repay the Spring 2007 Notes in cash or choose to convert the notes, at our sole option, into shares of our common stock.

From May 31, 2007 through November 2, 2007, we received gross and net proceeds of \$441,000 from 13 investors and issued Spring 2007 Notes which allow conversion into an aggregate of 630,004 shares of our common stock and Warrants exercisable for 630,004 shares of our common stock. Of these amounts, during the nine-month period ended September 30, 2007, we received gross and net proceeds of \$431,000 from 11 investors and issued Spring 2007 Notes which allow conversion into an aggregate of 615,718 shares of our common stock and Warrants exercisable into an aggregate of 615,718 shares of our common stock. The offering is continuing as of the date of the filing of this Report.

Table of Contents

On July 16, 2007, we converted an aggregate \$194,660 of accrued payables to 13 of our current or former consultants into an aggregate 299,477 shares of our common stock, at \$0.65 per share, which was the last bid price on the date of conversion.

All of these offerings and sales were made in reliance on the exemption from registration contained in Section 4(2) of the Securities Exchange Act and/or Regulation D promulgated thereunder as not involving a public offering of securities.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

We held our annual meeting of stockholders on September 6, 2007. At that meeting, our stockholders:

1. Elected five directors to serve until our 2007 annual meeting of stockholders or until his successor is duly elected and qualified:

Name	For	Withheld
Dennis Calvert	29,696,888	49,352
Kenneth R. Code	29,717,041	29,199
Gary A. Cox	29,733,477	12,763
Dennis E. Marshall	29,733,314	12,926
Joseph Provenzano	29,733,314	12,926

2. Approved the BioLargo, Inc. 2007 Equity Incentive Plan:

Votes For	28,328,590
Votes Against	6,057
Abstentions	71,032
Broker Non-Votes	1,340,561

3. Ratified the appointment of Jeffrey S. Gilbert as our independent auditors for the current fiscal year:

Votes For	29,717,333
Votes Against	14,197
Abstentions	14,710
Broker Non-Votes	0
