MEDIA GENERAL, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting, and with applicable quarterly reporting regulations of the Securities and Exchange Commission. They do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements and, accordingly, should be read in conjunction with the consolidated financial statements and related footnotes included in the Company's Annual Report on Form 10-K for the year ended December 30, 2007.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of interim financial information have been included.

2. Inventories are principally raw materials (primarily newsprint).

3. Late in 2007, the Company announced that it was exploring the sale of five broadcast television stations. KALB/NALB in Alexandria, Louisiana, WMBB in Panama City, Florida, and WNEG in Toccoa, Georgia, were classified as held for sale at year end and WTVQ in Lexington Kentucky and WCWJ in Jacksonville, Florida, met the held for sale criteria during the first quarter of 2008. The Company currently has definitive agreements for the sale of WTVQ to one buyer and for KALB and WMBB to another. The Company is in active negotiations to sell WNEG and WCWJ. The results of these five stations and their associated web sites are presented as discontinued operations in the accompanying consolidated condensed statements of operations. The Company recognized an after-tax loss of \$11.3 million in the first quarter of 2008 related primarily to the anticipated sale of WTVQ, including allocated goodwill. The transactions are subject to regulatory approvals, but are expected to close in the second and the third quarters of 2008. Results of discontinued operations are presented below by quarter for 2008 and 2007:

<i>(In thousands)</i>	Quarter Ended				
	March 30, 2008	April 1, 2007	July 1, 2007	Sept. 30, 2007	December 30, 2007
Revenues	\$ 8,841	\$ 8,689	\$ 9,814	\$ 9,704	\$ 11,033
Costs and expense	7,437	8,609	8,489	8,301	8,323
Income before income taxes	1,404	80	1,325	1,403	2,710
Income taxes	547	31	517	547	1,057
Income from discontinued operations	\$ 857	\$ 49	\$ 808	\$ 856	\$ 1,653

4. Effective at the beginning of fiscal 2008, the Company adopted FASB Statement No. 157, *Fair Value Measurements* (FAS 157), which establishes a common definition for fair value under U.S. generally accepted accounting principles and creates a framework for measuring fair value. The following table sets forth, by level within the fair value hierarchy, the assets and liabilities measured at fair value on a recurring basis at March 30, 2008:

Table of Contents

<i>(In thousands)</i>	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)
Assets		
Available-for-sale securities	\$ 1,712	\$
Liabilities		
Interest rate swaps		21,473

Fair value of available-for-sale securities is determined by reference to quoted market prices. Fair value of interest rate swaps is based on a discounted cash flow analysis, predicated on quoted London Interbank Offered Rate (LIBOR) prices, of the estimated amounts the Company would have paid to terminate the swaps. The FASB has deferred the requirements under FAS 157 for non-financial assets and liabilities until the beginning of fiscal 2009.

5. As detailed in the Company's 2007 Form 10-K, the Company adopted EITF 06-01, *Accounting For Consideration Given by a Service Provider to Manufacturers or Resellers of Equipment Necessary for an End-Customer to Receive Service from the Service Provider*, at the beginning of fiscal 2008. The Company's adoption of EITF 06-01 had no impact on net income and reduced both prior-year consolidated revenues and expenses by less than 1.5%.

Table of Contents

6. The following table sets forth the Company's current and prior-year financial performance by segment:

<i>(In thousands)</i>	Publishing	Broadcasting	Interactive Media	Eliminations	Total

Table of Contents

8. The following table provides the components of net periodic employee benefits expense for the Company's benefit plans for the first quarter of 2008 and 2007:

<i>(In thousands)</i>	Pension Benefits		Other Benefits	
	March 30, 2008	April 1, 2007	March 30, 2008	April 1, 2007
Service cost	\$ 225	\$ 500	\$ 125	\$ 150
Interest cost	6,525	6,500	750	725
Expected return on plan assets	(6,525)	(6,200)		
Amortization of prior-service (credit)/cost	(25)		450	400
Amortization of net loss/(gain)	1,350	2,400	(125)	
Net periodic benefit cost	\$ 1,550	\$ 3,200	\$ 1,200	\$ 1,275

9. The Company's comprehensive loss consisted of the following:

<i>(In thousands)</i>	Quarter Ended	
	March 30, 2008	April 1, 2007
Net loss	\$ (20,255)	\$ (6,504)
Unrealized loss on derivative contracts (net of deferred taxes)	(5,261)	(108)
Change in pension and postretirement (net of deferred taxes)	(139)	
Unrealized holding loss on equity securities (net of deferred taxes)	(103)	(452)
Comprehensive loss	\$ (25,758)	\$ (7,064)

10. The Company has maintained a Supplemental 401(k) Plan (the Plan) for many years which allows certain employees to defer salary and obtain Company match where federal regulations would otherwise limit those amounts. The Company is the primary beneficiary of the variable interest entity that holds the Plan's investments and consolidates the Plan accordingly. With certain 2008 amendments to the Plan, participants will receive cash payments upon termination of employment and participants age 55 and above can choose from a range of investment options including the Company's Class A common stock fund. The Company's liability to participants is adjusted to its fair value each reporting period. The Plan's investments, other than its Class A common stock fund, are reported as assets and are adjusted to fair value each reporting period. Investments in the Class A common stock fund are measured at historical cost and are recorded as a reduction of additional paid-in capital; consequently, fluctuations in the Company's stock price will have an impact on the Company's net income.

11. Subsequent to the end of the first quarter of 2008, the Company and its two partners completed the sale of SP Newsprint to White Birch Paper Company. The sale generated proceeds of \$58 million which were used to reduce debt; income taxes approximating \$20 million are due later in the year. The transaction is subject to a 60-day post-closing period, at which time the Company will finalize the estimated loss on its investment in SP Newsprint recorded at the end of 2007. See Item 5 of this Form 10-Q for Pro Forma financial information related to the sale of SP Newsprint. Additionally, the Company purchased DealTaker.com, an online social shopping portal that provides coupons and bargains to its users.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Media General is an independent, publicly owned communications company situated primarily in the Southeast with interests in newspapers, television stations and interactive media.

The Company's fiscal year ends on the last Sunday in December.

RESULTS OF OPERATIONS

The Company recorded a net loss of \$20.3 million in the first quarter of 2008, as compared to a net loss of \$6.5 million in the equivalent quarter of 2007. Results for 2008 were significantly impacted by a loss recorded in the first quarter related to the divestiture of certain television stations. At the end of 2007, the Company classified three of its stations as discontinued operations, including KALB/NALB in Alexandria, Louisiana, WMBB in Panama City, Florida, and WNEG in Toccoa, Georgia. Before the close of 2008's first quarter, two additional stations WTVQ in Lexington, Kentucky, and WCWJ in Jacksonville, Florida met the criteria for discontinued operations and were classified accordingly, resulting in an after-tax loss of \$11.3 million. This charge was due primarily to an expected loss upon the sale of WTVQ. The Company anticipates this loss will be largely offset by a gain generated by selling WCWJ later in 2008. The remainder of this discussion will exclude the aforementioned loss as well as the operations of the discontinued stations and their associated websites.

The Company experienced losses from continuing operations of \$9.8 million and \$6.6 million in the first quarters of 2008 and 2007, respectively. The largest factor driving this quarter-over-quarter decline was a 16.7% decrease in Publishing Division revenues which, despite a 9.5% reduction in operating expenses (excluding prior-year severance costs), resulted in a 56.4% drop in operating profits for that Division. Publishing Division results were substantially impacted by the deep real estate-induced recession in the Tampa Bay region. Additionally, the Interactive Media Division's loss increased by more than \$2 million due primarily to lower Classified advertising revenues which mirrored lower newspaper advertising volume and because of decreased results in the Company's advergaming business. A \$2.7 million decrease in interest expense, due primarily to lower interest rates, partially offset the shortfall of year-over-year divisional results.

PUBLISHING

Operating income for the Publishing Division decreased \$10.6 million in the first quarter of 2008 from the equivalent prior-year quarter despite successful cost containment measures which appreciably mitigated a \$22.7 million decline in revenues. The Florida Group (which includes all of the Company's Tampa operations) contributed more than 60% of the overall revenue decrease as the Company's largest market has been adversely impacted by the housing-induced downturn in Florida's economy. By advertising category, the Company's Tampa operations accounted for between 60% and 75% of the Division's decline in Classified, Retail and National advertising. As shown in the following chart, Classified advertising fell farthest from the year-ago period as employment, automotive and real estate advertising declined at virtually all locations. Retail revenues were also down due to lower advertising levels in the department store, home furnishing and home improvement categories. The decline in National revenue also contributed due to weak spending levels in the telecommunications, travel and automotive categories.

Table of Contents

As previously mentioned, the revenue decline was most pronounced in the Tampa market, and the Company has reacted to this challenging advertising environment by implementing aggressive actions to better align expenses at its Florida properties with that market's current business environment. This included a voluntary separation program that was announced subsequent to the end of the first quarter as well as further cost reduction initiatives. In addition, the Company continues to make concerted efforts to reduce its newsprint consumption and to rigorously manage its discretionary spending.

The Division's 2007 first quarter results included pretax charges of approximately \$1 million for severance costs related to staff reductions made in that period. Excluding these severance costs, Publishing Division operating expenses decreased \$11.1 million in the first quarter of 2008 over the equivalent prior-year period. Employee benefits and compensation costs were down \$4.4 million as nearly all newspapers eliminated some positions. Newsprint costs were down \$3.9 million, primarily due to reduced consumption as a result of reduced web widths, lower advertising lineage and circulation volumes, and concerted conservation efforts which contributed 80% of the savings; lower average newsprint prices of \$36 per short ton supplied the remainder.

BROADCAST

Broadcast operating income remained essentially flat in the first quarter of the year compared to the first three months of 2007 as a 1.2% decline in revenues was more than offset by a 1.4% reduction in operating expenses. As displayed in the following chart, despite robust Political advertising, year-over-year Broadcast revenues declined as National and Local time sales experienced soft advertiser spending across several markets as well as in a number of key categories. National revenues fell 14.6% from the prior-year first quarter due to Political displacement and weak advertising levels in the automotive and entertainment categories. Local time sales decreased 4.4% on reduced spending in the furniture, fast food and automotive categories. Conversely, Political time sales were more than thirteen times the prior-year level due to strong spending associated with the presidential campaign, gubernatorial primaries, U.S. Congressional primary races, and issue spending in certain states.

Table of Contents

The Broadcast Division's \$.9 million decrease in operating expenses in the first quarter of this year over the equivalent quarter in 2007 was achieved through controlled discretionary spending in areas such as promotion, sales incentives and travel. The increase in employee benefits and compensation was negligible in the first quarter as most unfilled positions, other than those that were operationally critical, have been held open. The Division is actively implementing further cost-reduction initiatives and pursuing additional new business development opportunities.

INTERACTIVE MEDIA

The Interactive Media Division's (IMD) operating loss was \$2.7 million in 2008's first quarter compared to \$.6 million in the first quarter of 2007. The online group (all online operations associated with newspapers and television stations) was responsible for two-thirds of the quarter-over-quarter decline, with the remainder coming from the Company's advergaming business, Blockdot. A 3.3% reduction in revenues in the first quarter was the result of several factors. Increased Local advertising combined with higher National/Regional revenues to more than offset a 15.5% downward slide in Classified advertising (despite new revenues from the Company's Yahoo! HotJobs relationship), which was directly impacted by the Publishing Division's Classified performance and has suffered comparably, particularly in Florida's struggling economy. Local online advertising generated a 27.5% increase as banners and sponsorships showed solid growth; National/Regional revenues rose 42.9% as strengthening relationships with an expanding network of national agencies continued to translate into more advertising dollars. However, Blockdot's revenues decreased slightly due to a 10% decline in advergaming revenues. The following chart illustrates that Local and National/Regional revenues are producing strong quarter-over-quarter growth, while online Classified advertising (still the largest source of divisional revenue) continues to suffer the adverse effects of the struggling Classified performance in the Publishing Division.

Table of Contents

IMD's operating expenses were higher by \$1.8 million in the quarter, predominantly the result of increased employee compensation and benefits expense due to additional staffing in key areas. The infrastructure that was built to support the Division's growing business throughout 2007 remained in place this quarter, leading to these higher costs.

The Interactive Media Division remains focused on positioning itself for strong long-term growth, by increasing visitor and page-view growth, creating a dynamic online presence across all the Company's websites, and generating revenue growth with expanded product and service offerings. The Web-First approach to news reporting provides an immediate platform for breaking news and helps stimulate audience growth, as evidenced by a 28% increase in pages views in the first quarter at the Company's largest online operation, *TBO.com* in Tampa. The Division continues to seek opportunities to broaden its online product portfolio to meet the needs of its advertisers. The second-quarter 2008 purchase of DealTaker, an online social shopping portal that attracts nearly 500,000 unique visitors per month seeking shopping bargains, is expected to immediately contribute to the Division's results. Additionally, the Division's strategic alliance with Yahoo! and a consortium of over 500 newspapers creates both content and distribution opportunities and provides more effective advertising solutions to customers.

INTEREST EXPENSE

Interest expense decreased \$2.7 million in the first quarter of 2008 from the prior-year equivalent quarter due primarily to a decrease in the Company's average effective borrowing rate of approximately 100 basis points (to 5.3%) and, to a much smaller degree, a \$30 million decline in average debt levels.

In the third quarter of 2006, the Company entered into three interest rate swaps (where it pays a fixed rate and receives a floating rate) to manage interest cost and cash flows associated with variable interest rates, primarily short-term changes in LIBOR, not to trade such instruments for profit or loss. These interest rate swaps are cash flow hedges with notional amounts totaling \$300 million and maturities of either three or five years. Changes in cash flows of the interest rate swaps offset changes in the interest payments on the Company's \$300 million bank term loan. These swaps effectively convert the Company's variable rate bank term loan to fixed rate debt with a weighted average interest rate approximating 6.4% at March 30, 2008.

Table of Contents

INCOME TAXES

The Company's effective tax rate on income from continuing operations was 40.4 % in the current quarter as compared to 36.2% in the equivalent prior-year period due primarily to the absence of the Alternative Fuels Credit (which was phased out at the end of 2007) previously generated by virtue of the Company's investment in SP Newsprint.

LIQUIDITY

Net cash generated from operating activities in the first quarter of 2008 was \$35.5 million. During the quarter, the Company made capital expenditures of \$8 million, paid dividends to stockholders of \$5.3 million, and paid down debt by \$23 million. Based on the general economic environment and outlook, the Company has reduced its capital spending plans by postponing anticipated projects.

The Company has in place a \$1 billion revolving credit facility and a \$300 million variable-rate bank term loan facility (together the Facilities). The term loan is with essentially the same syndicate of banks that provides the Company's revolving credit facility. At the end of the first quarter, there were borrowings of \$565 million outstanding under the revolving credit facility and \$300 million under the bank term loan. The Facilities have both interest coverage and leverage ratio covenants. These covenants, which involve debt levels, interest expense, and a rolling four-quarter calculation of EBITDA (a measure of cash earnings as defined in the revolving credit agreement), can affect the Company's maximum borrowing capacity allowed by the Facilities (approximately \$1 billion at March 30, 2008). In the fourth quarter of 2007, the Company amended certain provision of its Facilities to increase the maximum leverage ratio covenant and reduce the minimum interest ratio covenant for a period of three fiscal quarters. The amendment also modified the circumstances under which certain subsidiary guarantees would be in place. The Company was in compliance with all covenants at quarter-end and expects to remain in compliance with them going forward.

On the first day of the second quarter, the Company completed the sale of its one-third ownership stake in SP Newsprint. The sale generated proceeds of \$58 million which were used to reduce debt; income taxes approximating \$20 million are due later in the year. Additionally, the Company anticipates the sales of its five broadcast television stations (currently being reported as discontinued operations) to be completed in the second and third quarters of 2008; these sales are expected to generate proceeds of \$100 million to \$105 million which, after considering estimated taxes, will be used to reduce debt by approximately \$60 million to \$65 million. The Company believes that internally generated funds provided by operations, together with the unused portion of the Facilities as well as the proceeds generated by the sales of SP Newsprint and certain broadcast stations, provide it with the flexibility to manage working capital needs, pay dividends and finance capital expenditures.

Table of Contents

OUTLOOK

The remainder of 2008 will present the Company with several difficult challenges including a depressed Florida economy that encompasses the Company's largest market (Tampa), increased competition from numerous and expanding media sources, and rising newsprint prices. In light of the current economic conditions, the Company is taking aggressive actions to better align expenses with the current revenue environment. These efforts will result in near-term severance costs. However, the Broadcast Division should reap the benefits of soaring Political advertising as well as the return of revenues from the Summer Olympics. The Interactive Media Division expects to achieve profitability by the end of 2008 through the combination of strong advergame revenues and profits generated from the second-quarter purchase of DealTaker, an online shopping portal which is expected to be accretive to 2008 earnings. The second-quarter sale of SP Newsprint will allow the company to eliminate the earnings volatility that has resulted from its share of SP Newsprint's results due to the cyclical nature of newsprint prices, while reducing debt and strengthening its balance sheet. Additionally, the sales of the five television stations currently classified as discontinued operations are also expected to allow the Company to further reduce debt.

Certain statements in this quarterly report that are not historical facts are forward-looking statements, as that term is defined by the federal securities laws. Forward-looking statements include statements related to accounting estimates and assumptions, expectations regarding acquisitions and dispositions, the impact of cost-containment measures, the Internet, newsprint prices, the Yahoo! agreements, debt compliance, general advertising levels and political advertising levels. Forward-looking statements, including those which use words such as the Company believes, anticipates, expects, estimates, intends, projects, plans, may and similar words, are made as of the date of this filing and do not represent a guarantee of future performance. There are a number of risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by such statements.

Some significant factors that could affect actual results include: changes in advertising demand, interest rates or energy prices, the availability and pricing of newsprint, changes to pending accounting standards, health care cost trends, a natural disaster, the level of political and Olympic advertising, the integration of acquisitions, and regulatory rulings and laws.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

The Company's Annual Report on Form 10-K for the year ended December 30, 2007, details our disclosures about market risk. The following risk factor has been added to those reported in Item 1A of the Company's 2007 Form 10-K:

Volatility in US credit markets could affect the pricing of the Company's financing arrangements

At the end of the first quarter 2008, the Company had \$865 million outstanding under debt agreements which contain covenants requiring maintenance of interest coverage and leverage ratios. At March 30, 2008 the Company was in compliance with all covenants and expects that the covenants will continue to be met. However, the Company's ability to meet its covenants may also be affected by events beyond its control, including a deterioration of current economic and industry conditions. Events of default, if not waived or cured, could result in the acceleration of the maturity of the Company's debt. Because of the current volatility in US credit markets, obtaining new financing arrangements or amending existing ones may result in significantly higher fees and ongoing interest costs as compared to those in the Company's current arrangements.

Item 4. Controls and Procedures

The Company's management, including the chief executive officer and chief financial officer, performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the chief executive officer and chief financial officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. There have been no significant changes in the Company's internal controls or in other factors that are reasonably likely to adversely affect internal control subsequent to the date of this evaluation.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

Reference is made to Part I, Item 3 of this Form 10-Q dated March 30, 2008, which is incorporated herein by reference, for information required by this item.

Item 5. Other Information.

On March 31, 2008, the Company, along with the other two equal partners in SP Newsprint Company (SP), Cox Enterprises, Inc. and The McClatchy Company, completed the sale of its one-third partnership interest in SP to White Birch Paper Company. The Company has prepared an unaudited pro forma consolidated condensed balance sheet as of March 30, 2008, as if the sale of SP occurred on that date and unaudited pro forma consolidated condensed statements of operations for the year ended December 30, 2007 and the three months ended March 30, 2008 as if the sale of SP occurred at the beginning of each period presented. The pro formas do not purport to be indicative of what would have occurred had the disposition actually been made as of such dates, nor are they indicative of results which may occur in the future.

1(a) Reduce income tax receivable for taxes payable relating to the sale of SP.

1(b) Eliminate investment in SP.

1(c) Reduce long-term debt to reflect the receipt of gross proceeds from the sale of SP. Taxes of approximately \$19 million related to the transaction will be paid in the latter part of 2008.

1(d) Eliminate deferred income taxes and accumulated other comprehensive loss related to SP.

1(e) Assume certain liabilities in conjunction with the sale of SP.
