TELECOM ARGENTINA S.A. ANNOUNCES CONSOLIDATED FIRST QUARTER

RESULTS FOR FISCAL YEAR 2008(1Q08)*

Telecom Argentina Group continues to improve its business, confirming the growth trend evidenced in previous periods. During 1Q08 Net Revenues grew 21% when compared to same period of the previous year (1Q07), amounting to P\$2,480 million. Major revenue increase came from the Cellular business with an expansion of 27% and from Internet businesses with a growth of 33%, both with respect to 1Q07.

The cellular subscribers increased by 18%, reaching 12.6 million, while broadband subscribers grew 60% totaling 841,000, meanwhile fixed lines in service increased by 3% to 4.2 million.

Operating Profit before Depreciation and Amortization (OPBDA) reached P\$879 million (+28% vs. 1Q07), equivalent to 35% of Net Revenues, mainly fueled by the cellular telephony growth. On the contrary, fixed telephony profitability continues to weaken due to frozen tariffs and the inflation effect on the general cost structure.

Net Income reached P\$272 million (+101% vs. 1Q07).

Investments totaled P\$248 million during 1Q08 (+78% vs. 1Q07), where P\$144 million were allocated to fixed telephony (+121% vs. 1Q07).

Net Financial Debt (before NPV effect) declined to P\$1,666 million (-P\$1,556 million vs. March 2007). The Net Financial Debt to OPBDA ratio declined from 1.2x as of the end of March 2007, to 0.5x as of the end March 2008.

* As a percentage of Net Revenues

During **1Q08**, **Consolidated Net Revenues** increased **21%** (**+P\$422 million** vs. **1Q07**) to **P\$2,480 million**, mainly fueled by the cellular and broadband businesses.

Moreover, **OPBDA** increased by **28%** (**+P\$191 million**) to **P\$879 million** (**35%** of Consolidated Net Revenues). This level of operating profits before depreciation and amortization is the consequence of the improvement in revenues, together with a better efficiency in costs despite increasing inflationary pressure.

Company Activities**Consolidated Net Revenues**

The evolution in **Consolidated Net Revenues** by reportable segment was as follows:

Voice, Data Transmission & Internet

Revenues generated by these services amounted to **P\$863 million**, **+10%** vs. **1Q07**.

Voice

Total Revenues for this service reached **P\$651 million** (**+4%** vs. **1Q07**). The results of this line of business are affected by frozen tariffs of regulated services.

During this three-month period, Telecom continued with the implementation of the fixed line renewal process, started last year with the launch of innovative terminals and value-added services, which before were available only for cellular telephony such as fixed SMS services and video call.

Moreover, during this period Telecom continued with the deployment of the next generation technology (NGN) in its fixed telephony network that will allow the offering of convergent state-of-the-art services.

Monthly Charges and Supplementary Services increased by **P\$14 million** or **8%**, to **P\$196 million**, as a consequence of a higher number of lines in service (**+3%**), reaching **4.2 million** of lines.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Revenues generated by **traffic (Local Measured Service, Domestic Long Distance and International Telephony)** totaled **P\$293 million**, (-2% vs. **1Q07**) mainly because a slight decrease in traffic volume and higher discounts granted to the customers.

Interconnection revenues amounted to **P\$94 million (+8%)**, mainly as a consequence of traffic originated in cellular lines but transported by and terminated in the Company's fixed-line network.

Public Telephony & Other

Other revenues, including public telephony reached **P\$68 million (+19% vs. 1Q07)**. This amount was affected by an increase in billing and collection fees and voice, data and internet handset sales despite a decrease in Public Telephony revenues (-**\$6 million**).

Internet and Data Transmission

Total revenues coming from Internet services reached **P\$158 million (+33% vs. 1Q07)**, mainly due to the substantial expansion of broadband service, driven by a better network coverage, commercial promotions, and innovation of the service portfolio.

Table of Contents

Telecom's broadband subscribers reached **841,000** as of March 2008(+60% vs. **March07**). Therefore, lines with this type of connections represent approximately **20%** of Telecom's fixed-lines in service.

Revenues generated by **Data transmission** amounted to **P\$54 million**, (+32% vs. **1Q07**). Related to the corporate market, during this period Telecom continued enhancing its positioning as integrated provider of communication solutions, focused on technology innovation in order to offer the most innovative services to both government sector and corporate clients.

Telecom provides tailor-made and converging systems that integrate voice & data services for both fixed and cellular services- together with internet services, web, multimedia, and specially ICT solutions (Information and communication technology) and datacenter services.

Cellular Telephony

The Cellular Telephony continues with its expansion, increasing its participation in the Group's total revenues (**65%** vs. **62%** in **1Q07**). During the first three-months of 2008 this business generated revenues of **P\$1,617 million** (+27% vs. **1Q07**). Total subscribers reached **12.6 million**.

Telecom Personal in Argentina

As of the three-month period ended March 31, 2008, Personal's subscribers reached **10.9 million** in Argentina (+1.6 million or +17% vs. **1Q07**). Approximately **66%** of the overall subscriber base is prepaid and **34%** is postpaid.

Total voice traffic increased by **22%** vs. **1Q07** while outgoing **SMS traffic** increased from an average of **762 million** messages in **1Q07** to an average of **990 million** (+30%) in **1Q08**. Because of this enhancement in traffic and the use of value-added services, the Average Monthly Revenue per User (**ARPU**) increased by **P\$40** in **1Q08**, compared to **P\$37** in **1Q07**.

Revenues totaled **P\$1,510 million** (+P\$330 million or +28% vs. **1Q07**). Service revenues increased by **P\$305 million** or **29%** vs. **1Q07**, reaching **P\$1,361 million**; furthermore, value added services totaled **P\$392 million** (+P\$128 million or **48%** vs. **1Q07**), which means **26%** of Revenues. In addition handset sales grew by **P\$25 million** (+20%) compared to **1Q07**, reaching **P\$149 million**.

Table of Contents

During **1Q08**, Personal enhanced its commercial offer, launching the Tu Familia Personal plan (Your Personal Family plan). It allows to make free, unlimited communications, both calls or SMS to a group of three telephone numbers of the Company, previously selected by the client.

Due to the summer season, Personal developed a plan for the expansion of the 3G/3.5G network in main Argentine tourist cities.

Personal also continued reinforcing its strategy related to music downloads, as a platform for increasing the use of innovative value-added services, such as full MP3.

Moreover, the Company is successfully reaching the conclusion of the migration process of the network technology from TDMA to GSM technology.

Núcleo

Personal's controlled subsidiary that operates in Paraguay, generated **revenues** equivalent to **P\$107 million** during **1Q08 (+16% vs. 1Q07)**.

By the end of March 2008, the subscriber base reached approximately **1.7 million, +27%** vs. **1Q07**. Prepaid and Postpaid customers represented **90%** and **10%**, respectively.

During first quarter of 2008, Núcleo launched third generation services (3G) in Paraguay.

Consolidated Operating Costs

The **Cost of Services Provided, Administrative Expenses and Selling Expenses** totaled **P\$1,946 million** in **1Q08**, which represents an increase of **P\$246 million** or **+14%** vs. **1Q07**. Notwithstanding, in relative terms such increase is less than revenue growth due to an improvement in efficiency and a better distribution of costs.

The cost breakdown is as follows:

Salaries and Social Security Contributions: P\$270 million (+26%), affected by increases in salaries and personnel (**+258 employees** vs. **1Q07**).

Taxes: P\$199 million (+24%), in line with the general evolution of revenues.

Agents and Prepaid Card Commissions: P\$173 million (-2%), mainly due to reduction in commissions paid to commercial agents.

Advertising: P\$73 million (+20%) to support the commercial activity in the cellular telephony and internet.

Cost of handsets sold: totaled P\$201 million similar levels as that registered in **1Q07**.

TLRD and Roaming: P\$219 million (+24%) due to increased traffic among cellular operators.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Depreciation of Fixed and Intangible Assets: P\$345 million (+5% vs. 1Q07). Fixed-line telephony totaled **P\$192 million (-9%)** and Cellular telephony **\$153 million (+28%)**.

Consolidated Financial and Holding Results

Financial and Holding Results resulted in a loss of **P\$60 million, (-P\$72 million vs. 1Q07)**. Such improvement was due to a reduction in net interests and a lower impact of foreign currency exchange looser generated by liabilities.

Table of Contents

Consolidated Net Financial Debt

As of **March 31, 2008**, **Net Financial Debt** (Loans before the effect of NPV valuation, minus Cash, Cash Equivalents and Other credits from derivative Investments) amounted to **P\$1,666 million**, a reduction of **P\$1,556 million** as compared to **March 2007**. A substantial generation of operating cash flow allowed for the decrease in indebtedness.

Dividends of Telecom Personal

As of the end of March 2008, Personal paid a cash dividend distribution of **P\$220 million**.

Consolidated Capital Expenditures

During **1Q08**, the Company invested **P\$248 million** (excluding material), in fixed and intangibles assets. Such amount was allocated to the Voice, Data and Internet businesses (**P\$144 million**) and to the cellular business (**P\$104 million**).

Main Capex projects are related to the expansion of broadband services and to the upgrade of the network for next generation services (NGN), the improvement of the network (capacity, coverage and 3G), and the launch of new and innovative value-added services.

Recent Relevant Matters

On April 15, 2008 Telecom Argentina made, along with the interest payments of its financial debt, a principal prepayment of Notes, in the amount of **US\$ 260 million**; such funds came from excess cash determined as of December 31, 2007 and a voluntary prepayment, that includes the amount of dividends received from Telecom Personal.

At the Shareholders Meeting held on April 29, 2008 and the Board of Directors Meeting on the same date, the members of the Board of Directors, independent auditors, and members of the Audit Committee were named for the 20th fiscal year.
