ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Amounts in thousands, except share and per-share data and as indicated)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Acuity Brands, Inc. (Acuity Brands or the Company) is the parent company of Acuity Brands Lighting, Inc. formerly known as Acuity Lighting Group, Inc. and other subsidiaries (collectively referred to herein as ABL). ABL designs, produces, and distributes a broad array of indoor and outdoor lighting fixtures and related products and services for commercial and institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets.

Acuity Brands completed the spin-off of its specialty products business (the Spin-off), Zep Inc. (Zep) on October 31, 2007, by distributing all of the shares of Zep common stock, par value \$.01 per share, to the Company s stockholders of record as of October 17, 2007. The Company s stockholders received one Zep share, together with an associated preferred stock purchase right, for every two shares of the Company s common stock they owned. Stockholders received cash in lieu of fractional shares for amounts less than one full Zep share.

As a result of the Spin-off, the Company s financial statements have been prepared with the net assets, results of operations, and cash flows of the specialty products business presented as discontinued operations. All historical statements have been restated to conform to this presentation. Refer to Note 2 - *Discontinued Operations*.

The unaudited interim consolidated financial statements included herein have been prepared by the Company in accordance with U.S. generally accepted accounting principles and present the financial position, results of operations, and cash flows of Acuity Brands. These interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the Company s consolidated financial position as of May 31, 2008, its consolidated results of operations for the three and nine months ended May 31, 2008 and 2007, and its consolidated cash flows for the nine months ended May 31, 2008 and 2007. Certain information and footnote disclosures normally included in the Company s annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. However, the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited consolidated financial statements of Acuity Brands as of and for the three years ended August 31, 2007 and notes thereto included in the Company s Annual Report on Form 10-K filed with the Securities and Exchange Commission on October 30, 2007 (File No. 001-16583) and the Company s Current Report on Form 8-K filed with the Securities and Exchange Commission on November 6, 2007.

The results of operations for the nine months ended May 31, 2008 and 2007 are not necessarily indicative of the results to be expected for the full fiscal year because the net sales and net income of the Company are generally higher in the second half of its fiscal year and because of the continued uncertainty of general economic conditions impacting the key end markets of the Company for the remainder of fiscal year 2008.

2. DISCONTINUED OPERATIONS

As described in Note 1 *Description of Business and Basis of Presentation*, the Company completed the Spin-off of the specialty products business on October 31, 2007. Summarized financial information for discontinued operations relating to the specialty products business is as follows:

Table of Contents

	August 31, 2007
Cash and cash equivalents	\$ 9,142
Accounts receivable, net	93,102
Inventories	45,534
Other current assets	10,404
Current Assets related to Discontinued Operations	158,182
Property, Plant & Equipment	51,727
Goodwill and Other Intangibles	31,982
Other Long-Term Assets	6,274
Long-Term Assets related to Discontinued Operations	89,983
Current maturities of long-term debt	(296)
Accounts payable	(36,774)
Other accrued liabilities	(47,565)
Current Liabilities related to Discontinued Operations	(84,635)
Long-Term Debt, less current maturities	(7,150)
Other Long-Term Liabilities	(12,174)
Long-Term Liabilities related to Discontinued Operations	(19,324)
Accumulated Other Comprehensive Income Items	(13,316)
Net Assets related to Discontinued Operations	\$ 130,890

A summary of the operating results for the discontinued operations is as follows:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2008	2007	2008	2007
Net Sales	\$	\$ 145,397	\$ 97,755	\$ 413,318
Income before Provision for Income Taxes	\$	\$ 7,802	\$ 2,946	\$ 19,530
Provision for Income Taxes	525	3,440	3,323	8,749
Net Income (Loss) from Discontinued Operations	\$ (525)	\$ 4,362	\$ (377)	\$ 10,781

The loss from discontinued operations for the first nine months of fiscal 2008 was \$0.4 million, a decrease of \$11.2 million from the prior-year period. The decrease was due primarily to the contribution of only two months of operating results in the first nine months of fiscal 2008 rather than a full nine months' results in fiscal 2007. In addition, discontinued operations were negatively impacted by approximately \$5.5 million in costs related to the Spin-off during the first quarter of fiscal 2008. These non-tax deductible costs consist primarily of legal, accounting, financial advice and other professional fees to complete the Spin-off.

In conjunction with the Spin-off, Acuity Brands and Zep entered into various agreements that address the allocation of assets and liabilities between them and that define their relationship after the separation, including a distribution agreement, a tax disaffiliation agreement, an employee benefits agreement, and a transition services agreement. Pursuant to the distribution agreement, Zep drew on its financing arrangements and paid a \$62.5 million dividend to the Company, which was subject to adjustment based on the actual cash flow performance of Zep prior to the Spin-off. A dividend adjustment of approximately \$4 million plus interest was disbursed to Zep by the Company during the third quarter of fiscal 2008 resulting in a reduction of the dividend received from Zep. Information regarding guarantees and indemnities related to the Spin-off are included in Note 9 *Commitments and Contingencies*.

3. GOODWILL AND INTANGIBLE ASSETS

Acuity Brands has acquired intangible assets consisting primarily of trademarks associated with specific products with finite lives and distribution networks, which are amortized over their estimated useful lives of 30 years. Other acquired definite

Table of Contents

lived intangible assets consist primarily of patented technology that is amortized over its estimated useful life of 12 years. Indefinite lived intangible assets consist of trade names that are expected to generate cash flows indefinitely. The Company tests indefinite lived intangible assets for impairment on an annual basis or more frequently as facts and circumstances change, as required by Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets*. The most recent analysis did not result in the recognition of an impairment charge in the current or prior periods. The Company recorded amortization expense of \$2.8 million and \$2.4 million related to intangible assets with finite lives during the nine months ended May 31, 2008 and 2007, respectively. Amortization expense is not anticipated to fluctuate materially during the next five years.

The Company tests goodwill for impairment on an annual basis in the fiscal fourth quarter or sooner if events or changes in circumstances indicate that the carrying amount of goodwill may exceed its fair value. The goodwill impairment test has two steps. The first step identifies potential impairments by comparing the fair value of a reporting unit with its carrying value, including goodwill. The fair values are determined based on a combination of valuation techniques including the expected present value of future cash flows, a market multiple approach, and a comparable transaction approach. If the fair value of a reporting unit exceeds the carrying value, goodwill is not impaired and the second step is not necessary. If the carrying value of a reporting unit exceeds the fair value, the second step calculates the possible impairment loss by comparing the implied fair value of goodwill with the carrying value. If the implied fair value of the goodwill is less than the carrying value, an impairment charge is recorded. The most recent analysis did not result in the recognition of an impairment charge in the current or prior periods, and the carrying value of goodwill in the current period was adjusted only for the effect of foreign currency translation.

4. INVENTORIES

Inventories include materials, direct labor, and related manufacturing overhead. Inventories are stated at the lower of cost (on a first-in, first-out or average cost basis) or market and consist of the following:

	May 31, 2008	August 31, 2007
Raw materials and supplies	\$ 58,423	\$ 56,954
Work in process	12,435	12,744
Finished goods	90,311	86,400
	161,169	156,098
Less: Reserves	(10,875)	(9,562)
	\$ 150,294	\$ 146,536

5. INCOME TAXES

As described in Note 14 - *New Accounting Standards*, Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109 (FIN 48)*, is effective for fiscal years beginning after December 15, 2006 and was adopted by the Company on September 1, 2007. The cumulative effect of adopting FIN 48 was not material. The amount of gross unrecognized tax benefits as of the date of the adoption was approximately \$7.8 million of which approximately \$6.4 million, if recognized, would affect the effective tax rate. The gross amount of unrecognized tax benefits as of May 31, 2008 totaled \$7.4 million, which includes \$6.1 million of net unrecognized tax benefits that, if recognized, would affect the annual effective tax rate. The Company recognizes potential interest and penalties related to unrecognized tax benefits as a component of income tax expense; such accrued interest and penalties are not material. With few exceptions, the Company is no longer subject to United States federal, state and local income tax examinations for years ended before 2005 or for foreign income tax examinations before 2003. The Company does not anticipate unrecognized tax benefits will significantly increase or decrease within the next twelve months.

Table of Contents**6. EARNINGS PER SHARE**

The Company computes earnings per share in accordance with SFAS No. 128, *Earnings per Share*. Under this statement, basic earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed similarly but reflects the potential dilution that would occur if dilutive options were exercised and restricted stock awards were vested. The following table calculates basic and diluted earnings per common share for the three and nine months ended May 31, 2008 and 2007:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2008	2007	2008	2007
Basic earnings per share from continuing operations:				
Income from continuing operations	\$ 41,658	\$ 34,314	\$ 106,727	\$ 85,520
Basic weighted average shares outstanding	40,190	42,861	40,865	42,535
Basic earnings per share from continuing operations	\$ 1.04	\$ 0.80	\$ 2.61	\$ 2.02
Diluted earnings per share from continuing operations:				
Income from continuing operations	\$ 41,658	\$ 34,314	\$ 106,727	\$ 85,820
Basic weighted average shares outstanding	40,190	42,861	40,865	42,535
Common stock equivalents (stock options and restricted stock)	1,057	1,257	960	1,324
Diluted weighted average shares outstanding	41,247	44,118	41,825	43,859
Diluted earnings per share from continuing operations	\$ 1.01	\$ 0.78	\$ 2.55	\$ 1.96
Basic earnings per share from discontinued operations:				
(Loss) Income from discontinued operations	\$ (525)	\$ 4,362	\$ (377)	\$ 10,781
Basic weighted average shares outstanding	40,190	42,861	40,865	42,535
Basic earnings per share from discontinued operations	\$ (0.01)	\$ 0.10	\$ (0.01)	\$ 0.25
Diluted earnings per share:				
(Loss) Income from discontinued operations	\$ (525)	\$ 4,362	\$ (377)	\$ 10,781
Basic weighted average shares outstanding	40,190	42,861	40,865	42,535
Common stock equivalents (stock options and restricted stock)	1,057	1,257	960	1,324
Diluted weighted average shares outstanding	41,247	44,118	41,825	43,859
Diluted earnings per share from discontinued operations	\$ (0.01)	\$ 0.10	\$ (0.01)	\$ 0.25

7. COMPREHENSIVE INCOME

The Company accounts for comprehensive income as prescribed by SFAS No. 130, *Reporting Comprehensive Income*. SFAS No. 130 requires the reporting of a measure of all changes in equity that result from recognized transactions and other economic events other than transactions with owners in their capacity as owners. Other comprehensive income includes foreign currency translation adjustments. The calculation of comprehensive income is as follows:

	Three Months Ended May 31	Nine Months Ended May 31
--	---------------------------------	-----------------------------

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

	2008	2007	2008	2007
Income from continuing operations	\$ 41,658	\$ 34,314	\$ 106,727	\$ 85,820
Foreign currency translation adjustments	3,615	1,499	10,193	1,843
Comprehensive income from continuing operations	\$ 45,273	\$ 35,813	\$ 116,920	\$ 87,663

Foreign currency translation adjustments for the three and nine months ended May 31, 2008 resulted primarily from the weakening of the U.S. Dollar against certain currencies, particularly the Mexican Peso and the Euro. Foreign currency translation adjustments for the nine months ended May 31, 2008 were also impacted by the weakening of the U.S. Dollar

Table of Contents

against the Canadian Dollar. In addition to the changes noted above, the balance in *Accumulated Other Comprehensive Income* was reduced by approximately \$13.3 million for currency translation adjustments related to the specialty products business as a result of the Spin-off.

8. SHORT-TERM BORROWINGS AND LONG-TERM DEBT

As disclosed in the Annual Report on Form 10-K, the Company maintains an agreement to borrow, on an ongoing basis, funds secured by undivided interests in a defined pool of trade accounts receivable. On October 19, 2007, the Company entered into a receivables facility agreement (the *Receivables Facility*) to replace the previous agreement in preparation for the Spin-off of Zep. The *Receivables Facility* is for a one-year period. The *Receivables Facility* allows for borrowings of funds up to \$75 million, on an ongoing basis, secured by undivided interests in a defined pool of trade accounts receivable. Interest rates under the *Receivables Facility* vary with asset-backed commercial paper rates plus an applicable margin. The commitment fees on the *Receivables Facility* are 0.125% per annum on the average unused balances. No amounts were outstanding under the *Receivables Facility* at May 31, 2008 and August 31, 2007. The Company intends to terminate the *Receivables Facility* during the fourth quarter of fiscal 2008 due to several factors including the reduced interest savings afforded by the *Receivables Facility* in the current credit market environment as well as the Company's liquidity position.

On October 19, 2007, the Company executed a \$250 million revolving credit facility (the *Revolving Credit Facility*) that replaced the \$200 million revolving credit facility scheduled to mature in January 2009. During the first quarter of fiscal year 2008, the Company wrote off \$0.3 million in deferred financing costs as additional interest expense in connection with this replacement. The new *Revolving Credit Facility* matures in October 2012 and contains financial covenants including a minimum interest coverage ratio and a leverage ratio (*Maximum Leverage Ratio*) of total indebtedness to EBITDA (earnings before interest, taxes, depreciation and amortization expense), as such terms are defined in the *Revolving Credit Facility* agreement. These ratios are computed at the end of each fiscal quarter for the most recent 12-month period. The *Revolving Credit Facility* allows for a *Maximum Leverage Ratio* of 3.50, subject to certain conditions defined in the financing agreement. The Company was in compliance with all financial covenants and had no outstanding borrowings at May 31, 2008 under the *Revolving Credit Facility*. At May 31, 2008, the Company had additional borrowing capacity under the *Revolving Credit Facility* of \$241.3 million under the most restrictive covenant in effect at the time, which represents the full amount of the *Revolving Credit Facility* less outstanding letters of credit of \$8.7 million discussed below.

The Company's *Receivables Facility* contains a *Material Adverse Effect* provision. Generally, if the Company were to experience an event causing a material adverse effect on the Company's financial condition, operations, or properties, as defined in the *Receivables Facility*, additional future borrowings under the facility could be denied and payments on outstanding borrowings could be accelerated. The *Revolving Credit Facility* does not contain a *Material Adverse Effect* provision.

At May 31, 2008, the Company had outstanding letters of credit totaling \$12.9 million, primarily for the purpose of securing collateral requirements under the casualty insurance programs for Acuity Brands and for providing credit support for the Company's industrial revenue bond. At May 31, 2008, a total of \$8.7 million of the letters of credit were issued under the *Revolving Credit Facility*, thereby reducing the total availability under the facility by such amount.

The Company's long-term debt is primarily comprised of fixed income securities consisting of \$360 million in publicly traded notes that are scheduled to mature in 2009 and 2010. During the second quarter, the Company reclassified \$160.0 million related to the publicly traded notes scheduled to mature in 2009 to *Current maturities of long-term debt*. Additionally, the Company maintains approximately \$4.0 million in a tax-exempt industrial revenue bond that matures in 2021. Further discussion of Acuity Brands' long-term debt is included within Note 4 of the *Notes to Consolidated Financial Statements* within the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007.

Interest expense, net, is comprised primarily of interest expense on long-term debt, revolving credit facility borrowings, short-term secured borrowings, and obligations in connection with non-qualified retirement plans, partially offset by interest income on cash and cash equivalents. Interest expense from continuing operations for the nine months ending May 31, 2008 increased over the prior-year period due primarily to short-term borrowings during the first two months of fiscal 2008 incurred to finance common stock repurchases. Short-term borrowings used to finance stock repurchases were paid-off in the first fiscal quarter of 2008 with proceeds from the \$62.5 million pre-spin dividend from Zep. Interest expense, net related to discontinued operations was \$0.3 million and \$0.2 million for the nine months ended May 31, 2008 and 2007, respectively.

Table of Contents

The following table summarizes the components of interest expense, net:

	Three Months Ended May 31		Nine Months Ended May 31	
	2008	2007	2008	2007
Interest expense for continuing operations	\$ 8,506	\$ 8,562	\$ 26,243	\$ 25,715
Interest income for continuing operations	(1,332)	(1,278)	(4,969)	(2,581)
Interest expense, net	\$ 7,174	\$ 7,284	\$ 21,274	\$ 23,134

9. COMMITMENTS AND CONTINGENCIES***Litigation***

Acuity Brands is subject to various legal claims arising in the normal course of business, including patent infringement and product liability claims. Acuity Brands is self-insured up to specified limits for certain types of claims, including product liability, and is fully self-insured for certain other types of claims, including environmental, product recall, and patent infringement. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands. However, in the event of unexpected future developments, it is possible that the ultimate resolution of any such matters, if unfavorable, could have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands in future periods. Acuity Brands establishes reserves for legal claims when the costs associated with the claims become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher or lower than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved.

Environmental Matters

The operations of the Company are subject to numerous comprehensive laws and regulations relating to the generation, storage, handling, transportation, and disposal of hazardous substances as well as solid and hazardous wastes and to the remediation of contaminated sites. In addition, permits and environmental controls are required for certain of the Company's operations to limit air and water pollution, and these permits are subject to modification, renewal, and revocation by issuing authorities. On an ongoing basis, Acuity Brands invests capital and incurs operating costs relating to environmental compliance. Environmental laws and regulations have generally become stricter in recent years. The cost of responding to future changes may be substantial. Acuity Brands establishes reserves for known environmental claims when the costs associated with the claims become probable and can be reasonably estimated. The actual cost of environmental issues may be substantially higher or lower than that reserved due to difficulty in estimating such costs.

Guarantees and Indemnities

The Company is a party to contracts entered into in the normal course of business in which it is common for the Company to agree to indemnify third parties for certain liabilities that may arise out of or relate to the subject matter of the contract. In most cases, the Company cannot estimate the potential amount of future payments under these indemnities until events arise that would result in a liability under the indemnities. In connection with the sale of assets and the divestiture of businesses, the Company has from time to time agreed to indemnify the purchaser from liabilities relating to events occurring prior to the sale and conditions existing at the time of the sale. The indemnities generally include potential environmental liabilities, general representations and warranties concerning the asset or business, and certain other liabilities not assumed by the purchaser. Indemnities associated with the divestiture of a business are generally limited in amount to the sales price of the specific business or are based on a lower negotiated amount and expire at various times, depending on the nature of the indemnified matter, but in some cases do not expire until the applicable statute of limitations expires. The Company does not believe that any amounts that it may be required to pay under these indemnities will be material to the Company's results of operations, financial position, or cash flow.

In conjunction with the separation of their businesses (the Distribution), Acuity Brands and Zep entered into various agreements that addressed the allocation of assets and liabilities and defined the Company's relationship with Zep after the Distribution, including a distribution agreement and a tax disaffiliation agreement. The distribution agreement provides that Acuity Brands will indemnify Zep for liabilities related to the businesses that comprise Acuity Brands. The tax disaffiliation agreement provides that Acuity Brands will indemnify Zep for certain taxes and liabilities that may arise related to the Distribution and, generally, for deficiencies, if any, with respect to federal, state, local, or foreign taxes of

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

Zep for periods before the Distribution. Liabilities determined under the tax disaffiliation agreement terminate upon the expiration of the applicable statutes of limitation for such liabilities. There is no stated maximum potential liability included in the tax

Table of Contents

disaffiliation agreement or the distribution agreement. The Company does not believe that any amounts it is likely to be required to pay under these indemnities will be material to the Company's results of operations, financial position, or liquidity. The Company cannot estimate the potential amount of future payments under these indemnities because claims that would result in a liability under the indemnities are not fully known.

Product Warranty and Recall Costs

Acuity Brands records an allowance for the estimated amount of future warranty claims when the related revenue is recognized, primarily based on historical experience of identified warranty claims. Excluding costs related to faulty components provided by third parties as discussed below, warranty costs as a percentage of net sales have generally been consistent for the last several years. However, there can be no assurance that future warranty costs will not exceed historical experience. If actual future warranty costs exceed historical amounts, additional allowances may be required, which could have a material adverse impact on the Company's results of operations and cash flows in future periods.

In October 2007, the Company received information indicating that connections between the back-up battery and the wire connector to the circuit board in certain of its emergency lighting fixtures might be loose and might cause affected units to not remain illuminated for the full specified period when operating in emergency mode. The batteries and fixtures at issue are sourced from other parties, and the Company is working with those parties to determine whether any product recall or other corrective action will be required. During the first quarter of fiscal year 2008, the Company recorded a liability of \$0.9 million with respect to this issue and is pursuing the recovery of costs associated with this issue from the outside supplier. At this time, the Company does not anticipate that future costs associated with this issue will be material.

The increase in the product warranty and recall reserve is due primarily to reserves for certain specifically identified issues and general warranty costs. The changes in product warranty and recall reserves during the nine months ended May 31, 2008 are summarized as follows:

Balance at August 31, 2007	\$ 4,393
Adjustments to the warranty and recall reserve	5,780
Payments made during the period	(3,967)
 Balance at May 31, 2008	 \$ 6,206

10. SHARE-BASED PAYMENTS

On September 1, 2005, the Company adopted SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS 123(R)), which requires the measurement and recognition of compensation expense for share-based payment awards made to the Company's employees and directors including stock options and restricted shares (all part of the Company's Long-Term Incentive Plan and the Nonemployee Directors' Stock Option Plan) and share units representing certain deferrals into the Director Deferred Compensation Plan or the Supplemental Deferred Savings Plan. The Nonemployee Directors' Stock Option Plan was frozen effective January 2007. Each of these award programs are more fully discussed within the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007. The Company recorded \$2.9 million and \$3.4 million of share-based expense for the three months ended May 31, 2008 and 2007, respectively. The Company recorded \$9.0 million and \$10.3 million of share-based expense for the nine months ended May 31, 2008 and 2007, respectively, excluding the acceleration of certain share-based expense as a result of employee terminations recorded as part of the Special Charge (See Note 12 *Special Charges*). The total income tax benefit recognized in the income statement for share-based compensation arrangements was \$4.7 million and \$14.3 million for the nine months ended May 31, 2008 and 2007, respectively.

Table of Contents**11. PENSION PLANS**

Acuity Brands has several pension plans covering certain hourly and salaried employees. Benefits paid under these plans are based generally on employees' years of service and/or compensation during the final years of employment. Acuity Brands makes annual contributions to the plans to the extent indicated by actuarial valuations. The Company expects to contribute approximately \$3.4 million during fiscal year 2008 to fund its defined benefit plans. Plan assets are invested primarily in equity and fixed income securities.

Net periodic pension cost for the Company's pension plans during the three and nine months ended May 31, 2008 and 2007 included the following components:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2008	2007	2008	2007
Service cost	\$ 721	\$ 623	\$ 2,163	\$ 1,869
Interest cost	2,100	2,004	6,301	6,012
Expected return on plan assets	(2,579)	(2,204)	(7,736)	(6,612)
Amortization of prior service cost	6	7	18	21
Recognized actuarial loss	313	407	940	1,221
Net periodic pension cost	\$ 561	\$ 837	\$ 1,686	\$ 2,511

12. SPECIAL CHARGES

As a result of the Spin-off of Zep, the Company streamlined and simplified its operations, including the elimination of certain corporate costs it previously incurred. In the quarter ended November 30, 2007, the Company recorded a pre-tax charge of \$14.6 million, or \$0.21 per diluted share (including \$0.8 million pre-tax related to share-based expense due to the modification of the terms of agreements to accelerate vesting for certain terminated employees) related to these planned actions to reflect severance and related employee benefit costs associated with the elimination of certain positions worldwide and the estimated costs associated with the early termination of certain leases.

On February 22, 2005, the Company announced actions to accelerate its efforts to streamline and improve the effectiveness of its operations. As part of this program, the Company previously recorded a pre-tax charge of \$23.0 million to reflect the costs associated with the elimination of approximately 1,100 positions worldwide. This Company-wide streamlining effort included facility consolidations and process improvement initiatives and involved ABL, the specialty products business, and the corporate office. The charges included severance and related employee benefits.

The changes in the reserves related to these programs during the nine months ended May 31, 2008 are summarized as follows:

	Severance	Exit Costs
Balance as of August 31, 2007	\$ 1,348	\$
Special charge	12,188	2,450
Transfer of liability to Zep	(432)	
Payments made during the period	(7,301)	(377)
Balance as of May 31, 2008	\$ 5,803	\$ 2,073

13. ACQUISITIONS

On May 7, 2008, Acuity Brands acquired substantially all the assets of Guardian Networks LLC (Guardian). Guardian, located in Kennesaw, Georgia, is a leading provider of remote asset management software and service that enable utility, municipal, and other customers to efficiently monitor and manage facility and infrastructure assets such as lighting systems. The acquisition will become an integral part of the Acuity Brands Technology Services business, ROAM[®], a leading provider of streetlight monitoring services. The operating results of Guardian have been

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

included in the Company's consolidated financial statements since the date of acquisition. Management continues to gather additional information about the fair value of Guardian's acquired assets. Accordingly, the related amounts reflected in the Company's financial statements are preliminary; including those amounts recorded as intangible assets, and could change as the purchase price allocation is finalized. Pro forma results and other expanded disclosures required by SFAS No. 141, *Business Combinations*, have not been presented as the purchase of Guardian does not represent a material acquisition as defined by that pronouncement.

Table of Contents

On July 17, 2007, Acuity Brands acquired substantially all the assets and assumed certain liabilities of Mark Architectural Lighting. Mark Architectural Lighting, located in Edison, New Jersey, is a specification-oriented manufacturer of high-quality lighting products. The acquisition gives the Company a stronger presence in the Northeast, particularly the New York City metropolitan area, and is a complement to the Center for Light+Space, the Company's sales and marketing office in New York City. Mark Architectural Lighting, which had fiscal 2006 sales of over \$22 million, will continue operations in its existing facility, focusing on key customers and competencies. Mark Architectural Lighting contributed \$5.5 million and \$16.3 million to the Company's net sales during the third quarter and first nine months of fiscal 2008, respectively. The operating results of Mark Architectural Lighting have been included in the Company's consolidated financial statements since the date of acquisition. Management continues to gather additional information about the fair value of Mark Architectural Lighting's acquired assets and liabilities. Accordingly, the related amounts reflected in the Company's financial statements are preliminary; including those amounts recorded as intangible assets, and could change as the purchase price allocation is finalized. Pro forma results and other expanded disclosures required by SFAS No. 141, *Business Combinations*, have not been presented as the purchase of Mark Architectural Lighting does not represent a material acquisition as defined by that pronouncement.

14. NEW ACCOUNTING STANDARDS

Accounting Standards Yet to Be Adopted

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R changes accounting for business combinations through a requirement to recognize 100 percent of the fair values of assets acquired, liabilities assumed, and noncontrolling interests in acquisitions of less than a 100 percent controlling interest when the acquisition constitutes a change in control of the acquired entity. Other requirements include capitalization of acquired in-process research and development assets, expensing, as incurred, acquisition-related transaction costs and capitalizing restructuring charges as part of the acquisition only if requirements of SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, are met. SFAS No. 141R is effective for business combination transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 and is therefore effective for the Company beginning in fiscal year 2010. The implementation of this guidance will affect the Company's results of operations and financial position after its effective date only to the extent it completes applicable business combinations, and therefore, the impact cannot be determined at this time.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS No. 160). SFAS No. 160 establishes the economic entity concept of consolidated financial statements, stating that holders of residual economic interest in an entity have an equity interest in the entity, even if the residual interest is related to only a portion of the entity. Therefore, SFAS No. 160 requires a noncontrolling interest to be presented as a separate component of equity. SFAS No. 160 also states that once control is obtained, a change in control that does not result in a loss of control should be accounted for as an equity transaction. The statement requires that a change resulting in a loss of control and deconsolidation is a significant event triggering gain or loss recognition and the establishment of a new fair value basis in any remaining ownership interests. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008 and is therefore effective for the Company beginning in fiscal year 2010. The Company does not expect the adoption of SFAS No. 160 to have a material impact on its results of operations and financial position.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 permits companies, at their election, to measure specified financial instruments and warranty and insurance contracts at fair value on a contract-by-contract basis, with changes in fair value recognized in earnings each reporting period. The election, called the fair value option, will enable some companies to reduce the volatility in reported earnings caused by measuring related assets and liabilities differently, and it is easier than using the complex hedge-accounting requirements in SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133), to achieve similar results. Subsequent changes in fair value for designated items will be required to be reported in earnings in the current period. SFAS No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and is therefore effective for the Company beginning in fiscal year 2009. The Company is currently assessing the effect of implementing this guidance, which is dependent upon the nature and extent of eligible items elected to be measured at fair value upon initial application of the standard. However, Acuity Brands does not expect the adoption of SFAS No. 159 to have a material impact on the Company's results of operations and financial position.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)* (SFAS No. 158). SFAS No. 158 requires an employer to: (a) recognize in its statement of financial position the funded status of a benefit plan; (b) measure defined benefit plan assets and obligations as of the end of the employer's fiscal year (with limited exceptions); and (c) recognize as a component of other comprehensive income, net of tax, the gains or losses and prior service costs or credits that arise but are not recognized as components of net periodic benefit costs pursuant to prior existing guidance. The provisions

Table of Contents

governing recognition of the funded status of a defined benefit plan and related disclosures became effective and were adopted by the Company at the end of fiscal year 2007. The requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position is effective for fiscal years ending after December 15, 2008, and is therefore effective for the Company in fiscal year 2009. The Company measures the funded status of its employee benefit plans as of May 31 each year, and does not anticipate the future change in measurement date to August 31 will have a material impact on the Company's financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value, and expands disclosure requirements pertaining to fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, and is therefore effective for the Company beginning in fiscal year 2009. The Company is currently evaluating the impact that implementation of this guidance will have on its results of operations and financial position.

Accounting Standards Adopted in Fiscal 2008

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold and measurement attribute for the financial statement implications of tax positions taken or expected to be taken in a company's tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure of such positions. FIN 48 is effective for fiscal years beginning after December 15, 2006, and was therefore effective for the Company in the first quarter of fiscal year 2008. For additional information about the impact of FIN 48 on the Company's results of operations and financial position, refer to Note 5 *Income Taxes*.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments* (SFAS No. 155), which amends SFAS No. 133 and SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS No. 140). SFAS No. 155 simplifies the accounting for certain derivatives embedded in other financial instruments by allowing them to be accounted for as a whole if the holder elects to account for the instrument on a fair value basis. SFAS No. 155 also clarifies and amends certain other provisions of SFAS No. 133 and SFAS No. 140. SFAS No. 155 is effective for all financial instruments acquired, issued, or subject to a remeasurement event occurring in fiscal years beginning after September 15, 2006, and was therefore effective for the Company in the first quarter of fiscal year 2008. The adoption of SFAS No. 155 did not have a material impact on the Company's results of operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the *Consolidated Financial Statements* and related notes. References made to years are for fiscal year periods.

The purpose of this discussion and analysis is to enhance the understanding and evaluation of the results of operations, financial position, cash flows, indebtedness, and other key financial information of Acuity Brands, Inc. (Acuity Brands or the Company) and its subsidiaries for the three and nine month periods ended May 31, 2008 and 2007. For a more complete understanding of this discussion, please read the *Notes to Consolidated Financial Statements* included in this report. Also, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007, filed with the Securities and Exchange Commission on October 30, 2007, and the Current Report on Form 8-K, filed with the Securities and Exchange Commission on November 6, 2007, for additional information regarding the Company.

Overview

Company

Acuity Brands is the parent company of Acuity Brands Lighting and other subsidiaries (collectively referred to herein as ABL). Acuity Brands, with its principal office in Atlanta, Georgia, employs approximately 7,000 people worldwide.

ABL designs, produces, and distributes a broad array of indoor and outdoor lighting fixtures and related products and services for commercial and institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets. ABL is one of the world's leading producers and distributors of lighting fixtures, with a broad, highly configurable product offering, consisting of roughly 500,000 active products as part of over 2,000 product groups that are sold to approximately 5,000 customers. ABL operates 23 factories and distribution facilities along with seven warehouses to serve its extensive customer base.

Acuity Brands completed the spin-off (the Spin-off) of its specialty products business, Zep Inc. (Zep), on October 31, 2007, by distributing all of the shares of Zep common stock, par value \$.01 per share, to the Company's stockholders of record as of October 17, 2007. The Company's stockholders received one Zep share, together with an associated preferred stock purchase right, for every two shares of the Company's common stock they owned. Stockholders received cash in lieu of fractional shares for amounts less than one full Zep share.

As a result of the Spin-off, the Company's financial statements have been prepared with the net assets, results of operations, and cash flows of the specialty products business presented as discontinued operations. All historical statements have been restated to conform to this presentation.

Liquidity and Capital Resources

Principle sources of liquidity for the Company are cash on hand, operating cash flows generated primarily from its business operations and various sources of borrowings. The ability of the Company to generate sufficient cash flow from operations and access certain capital markets, including borrowing from banks, is necessary for the Company to fund its operations, to pay dividends, to meet its obligations as they become due, and to maintain compliance with covenants contained in its financing agreements.

Based on its cash on hand, availability under existing financing arrangements and current projections of cash flow from operations, the Company believes that it will be able to meet its liquidity needs over the next 12 months. These needs are expected to include funding its operations as currently planned, making anticipated capital investments, funding certain potential acquisitions, funding foreseen improvement initiatives, paying quarterly stockholder dividends as currently anticipated, paying principal and interest on borrowings as currently scheduled, and making required contributions into the Company's employee benefit plans, as well as potentially repurchasing shares of the Company's outstanding common stock as authorized by the Company's Board of Directors. Since October 2005, the Company's Board of Directors has authorized the repurchase of ten million shares of the Company's outstanding common stock, of which 9.0 million had been repurchased as of May 31, 2008. The Company currently expects to invest approximately \$35.0 million primarily for equipment, tooling, and new and enhanced information technology capabilities during fiscal year 2008, of which \$21.4 million has already been invested as of May 31, 2008. The Company expects to contribute approximately \$3.4 million during fiscal year 2008 to fund its defined benefit plans. Barring any significant cash requirements for possible acquisitions, the Company currently intends to use cash on hand to pay off the \$160 million in publicly traded notes that are scheduled to mature during the second quarter of fiscal 2009.

Cash Flow

Acuity Brands uses available cash and cash flow from operations as well as proceeds from the exercise of stock options, if any, to fund operations and capital expenditures, to repurchase stock, to fund acquisitions, and to pay dividends. During the nine

Table of Contents

months ended May 31, 2008, the Company received \$3.8 million in cash from stock issuances in connection with stock option exercises and employee stock purchases and a cash dividend from Zep of \$58.4 million as part of the Spin-off. These receipts were more than offset by returns to shareholders during the period in the form of repurchases of the Company's common stock totaling \$136.1 million and the payment of \$17.1 million in dividends. The Company's available cash position at May 31, 2008 was \$216.3 million, an increase of \$2.6 million from August 31, 2007. The increase in the Company's available cash position was due primarily to the contribution from operating activities discussed below, the dividend received from Zep, and the proceeds from the exercise of stock options partially offset by the repurchase of stock, dividends paid, and capital investments.

The Company generated \$110.6 million of net cash provided by operating activities from continuing operations during the first nine months of fiscal year 2008 compared with \$114.4 million generated in the prior-year period, a decrease of \$3.8 million or 3.3%. Net cash provided by operating activities declined due primarily to the cash flow impact of increased operating working capital (calculated by adding accounts receivable, net, plus inventories, and subtracting accounts payable) and decreased accrued liabilities. Operating working capital used cash of approximately \$18.7 million and \$5.4 million during the first nine months of fiscal 2008 and 2007, respectively. The variance is due primarily to reduced payment terms as the Company negotiated favorable discount terms with key suppliers. The decrease in accrued liabilities is due in part to payments under the Company's variable incentive plans and for periodic tax filings. This decline was partially offset by higher net income and decreases in prepayments and other current assets.

Management believes that investing in assets and programs that will over time increase the overall return on its invested capital is a key factor in driving stockholder value. The Company invested \$21.4 million and \$21.9 million in the first nine months of fiscal year 2008 and 2007, respectively, primarily for new tooling, machinery, equipment, and information technology. As noted above, the Company expects to invest approximately \$35.0 million for new plant, equipment, tooling, and new and enhanced information technology capabilities during fiscal year 2008.

Capitalization

The current capital structure of the Company is comprised principally of senior notes and equity of its stockholders. As of May 31, 2008, the Company had no amounts outstanding under its asset-backed securitization program or borrowings under the Revolving Credit Facility discussed below. As of May 31, 2008, total debt outstanding of \$363.9 million remained substantially unchanged from August 31, 2007 and consisted primarily of fixed-rate obligations.

The Company maintains an agreement to borrow, on an ongoing basis, funds secured by undivided interests in a defined pool of trade accounts receivable. On October 19, 2007, the Company entered into a receivables facility agreement (the "Receivables Facility") to replace the previous agreement in preparation for the Spin-off. The Receivables Facility is for a one-year period. The Receivables Facility allows for borrowings of funds up to \$75 million, on an ongoing basis, secured by undivided interests in a defined pool of trade accounts receivable. No amounts were outstanding under the Receivables Facility as of May 31, 2008. Interest rates under the Receivables Facility vary with asset-backed commercial paper rates plus an applicable margin. Commitment fees on the Receivables Facility are 0.125% per annum on the average unused balances. The Company intends to terminate the Receivables Facility during the fourth quarter of fiscal 2008 due to several factors including the reduced interest savings afforded by the Receivables Facility in the current credit market environment as well as the Company's liquidity position.

On October 19, 2007, the Company executed a \$250 million revolving credit facility (the "Revolving Credit Facility") that replaced the \$200 million revolving credit facility scheduled to mature in January 2009. During the first quarter of fiscal 2008, the Company wrote off \$0.3 million in deferred financing costs as additional interest expense in connection with this replacement. The Revolving Credit Facility matures in October 2012 and contains financial covenants including a minimum interest coverage ratio and a leverage ratio ("Maximum Leverage Ratio") of total indebtedness to EBITDA (earnings before interest, taxes, depreciation and amortization expense), as such terms are defined in the Revolving Credit Facility agreement. These ratios are computed at the end of each fiscal quarter for the most recent 12-month period. The Revolving Credit Facility allows for a Maximum Leverage Ratio of 3.50, subject to certain conditions defined in the financing agreement. The Company was in compliance with all financial covenants and had no outstanding borrowings at May 31, 2008 under the Revolving Credit Facility. At May 31, 2008, the Company had additional borrowing capacity under the Revolving Credit Facility of \$241.3 million under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$8.7 million discussed below. See Note 8 of the *Notes to Consolidated Financial Statements*.

During the first nine months of fiscal year 2008, the Company's consolidated stockholders' equity decreased \$106.6 million to \$565.4 million at May 31, 2008 from \$672.0 million at August 31, 2007. The decrease was due primarily to the distribution of Zep, the repurchase of outstanding common stock and the payment of dividends, partially offset by net income earned in the period as well as stock issuances resulting from the exercise of stock options and purchases under the Employee Stock Purchase Plan. The Company's debt to total capitalization ratio (calculated by dividing total debt by the sum of total debt and total stockholders' equity) was 39.2% and 35.1% at May 31, 2008 and August 31, 2007, respectively. The ratio of debt, net of cash, to total capitalization, net of cash, was 20.7% at May 31, 2008 and 18.3% at August 31, 2007.

Table of Contents*Dividends*

The Company paid cash dividends on common stock of \$17.1 million (\$0.41 per share) during the first nine months of fiscal year 2008 compared with \$19.7 million (\$0.45 per share) during the first nine months of fiscal year 2007. The Company currently plans to pay quarterly dividends at a rate of \$0.13 per share following the Spin-off; however, each quarterly dividend must be approved by the Board of Directors.

Results of Operations*Third Quarter of Fiscal 2008 Compared with Third Quarter of Fiscal 2007*

As a result of the Spin-off, effected October 31, 2007, all results of operations reflect the specialty products business as discontinued operations. The following table sets forth information comparing the components of net income for the three months ended May 31, 2008 with the three months ended May 31, 2007:

<i>(in millions)</i>	Three Months Ended		Percent Change
	May 31,		
	2008	2007	
Net Sales	\$ 512.4	\$ 502.4	2.0%
Gross Profit	208.2	188.6	10.4%
<i>Percent of net sales</i>	<i>40.6%</i>	<i>37.5%</i>	
Operating Profit	71.7	59.7	20.1%
<i>Percent of net sales</i>	<i>14.0%</i>	<i>11.9%</i>	
Income from Continuing Operations before Provision for Taxes	62.9	52.7	19.4%
<i>Percent of net sales</i>	<i>12.3%</i>	<i>10.5%</i>	
Income from Continuing Operations	\$ 41.7	\$ 34.3	21.6%
Results from Continuing Operations			

Net sales were \$512.4 million for the three months ended May 31, 2008 compared with \$502.4 million reported in the prior-year period, an increase of \$10.0 million, or 2.0%. For the three months ended May 31, 2008, the Company reported income from continuing operations of \$41.7 million compared with \$34.3 million earned for the three months ended May 31, 2007, an increase of 21.6%. Diluted earnings per share from continuing operations were \$1.01 for the third quarter of 2008 as compared with \$0.78 reported for the third quarter of 2007, an increase of 29.5%. Prior year's third quarter results included a pre-tax gain of \$6.6 million or \$0.10 in diluted earnings per share from a favorable legal settlement related to a long-standing commercial dispute.

Net Sales

The 2.0% increase in net sales is due primarily to an enhanced mix of products sold, improved pricing, greater shipments of the Company's energy efficient products both for new construction and relighting of existing non-residential buildings, the contribution of the Mark Architectural Lighting acquisition, and the impact of favorable fluctuation in foreign currency exchange rates. These benefits were partially offset by a decline in volume resulting from weakness in the residential market and reduced new store openings by certain large retailers which the Company estimates reduced the year-over-year net sales by approximately 4%. The Company's sales and profitability continue to benefit from a disciplined approach to pricing and a richer mix of new and innovative products sold at higher per unit sales prices that offer customers greater benefits and features, such as more energy efficiency and an improved lighting experience. The Mark Architectural Lighting acquisition contributed approximately \$5.5 million and favorable currency fluctuation added approximately \$4.6 million to the increase in net sales in the third quarter of fiscal 2008.

Table of Contents*Gross Profit*

<i>(in millions)</i>	Three Months Ended		Increase/ (Decrease)	Percent Change
	2008	2007		
Net Sales	\$ 512.4	\$ 502.4	\$ 10.0	2.0%
Cost of Products Sold	304.3	313.8	(9.5)	(3.0)%
<i>Percent of net sales</i>	<i>59.4%</i>	<i>62.5%</i>		
Gross Profit	\$ 208.2	\$ 188.6	\$ 19.6	10.4%
<i>Percent of net sales</i>	<i>40.6%</i>	<i>37.5%</i>		

Gross profit margins increased 310 basis points to 40.6% of net sales for the three months ended May 31, 2008 from 37.5% reported for the prior-year period. Gross profit increased \$19.6 million, or 10.4%, to \$208.2 million for the three months ended May 31, 2008 compared with \$188.6 million for the prior-year period. The improvement in gross profit and gross profit margin was largely attributable to improved pricing, a greater mix of higher-margin products sold, and the contribution of Mark Architectural Lighting. In addition, benefits from programs to improve productivity, delivery performance, and quality contributed to the increased profitability. These gains offset increases in raw material and component costs as well as increases associated with employee wages and related benefits and freight costs.

Operating Profit

<i>(in millions)</i>	Three Months Ended		Increase	Percent Change
	2008	2007		
Gross Profit	\$ 208.2	\$ 188.6	\$ 19.6	10.4%
<i>Percent of net sales</i>	<i>40.6%</i>	<i>37.5%</i>		
Selling, Distribution, and Administrative Expenses	136.5	129.0	7.5	5.8%
<i>Percent of net sales</i>	<i>26.6%</i>	<i>25.7%</i>		
Operating Profit	\$ 71.7	\$ 59.7	\$ 12.0	20.1%
<i>Percent of net sales</i>	<i>14.0%</i>	<i>11.9%</i>		

Selling, distribution, and administrative expenses (SD&A expenses) were \$136.5 million for the three months ended May 31, 2008 compared with \$129.0 million in the prior-year period, which represented an increase of \$7.5 million, or 5.8%. The third quarter of fiscal 2007 was favorably impacted by a \$6.6 million pre-tax gain (net of related legal costs) resulting from a settlement for a commercial dispute involving reimbursement of warranty and product liability costs associated with a product line purchased from a third party in fiscal year 2001. The remaining increase in SD&A expenses was due primarily to higher commissions paid to the Company's sales forces and agents, which typically vary directly with sales, in the third quarter of fiscal 2008 from the prior-year period. SD&A expenses were also negatively affected by an increase in the Company's investment in product marketing and development activities and the impact from fluctuations in foreign currency exchange rates, which were partially offset by reductions in other general and administrative expenses due to cost containment programs. Merit-based and inflationary wage increases were fully offset by benefits from recent actions taken to streamline and simplify operations. The increase in SD&A expenses as a percentage of net sales for the three months ended May 31, 2008 compared with the prior year is due to the favorable commercial dispute resolved in the prior-year period.

Operating profit was \$71.7 million (14.0% of net sales) for the three months ended May 31, 2008 compared with \$59.7 million (11.9% of net sales) reported for the prior-year period, an increase of \$12.0 million, or 20.1%. Operating profit margin increased 210 basis points to 14.0% compared with 11.9% in the year ago period. The prior year period operating profit benefited 130 basis points from the favorable legal settlement. The increase in operating profit margin in the third quarter of fiscal 2008 compared with the prior-year period was due to the increase in gross profit partially offset by the increase in SD&A expense described above.

Table of Contents*Income from Continuing Operations before Provision for Taxes*

<i>(in millions)</i>	Three Months Ended May 31,		Increase (Decrease)	Percent Change
	2008	2007		
Operating Profit	\$ 71.7	\$ 59.7	\$ 12.0	20.1%
<i>Percent of net sales</i>	14.0%	11.9%		
Other Expense (Income)				
Interest Expense, net	7.2	7.3	(0.1)	(1.4)%
Miscellaneous Expense (Income)	1.6	(0.3)	1.9	(633.3)%
Total Other Expense	8.8	7.0	1.8	25.7%
Income from Continuing Operations before Provision for Taxes	\$ 62.9	\$ 52.7	\$ 10.2	19.4%
<i>Percent of net sales</i>	12.3%	10.5%		

Other expense for Acuity Brands consists primarily of interest expense and foreign exchange rate gain or loss. Interest expense, net, was \$7.2 million and \$7.3 million for the three months ended May 31, 2008 and 2007, respectively. Interest expense, net, decreased 1.4% in the third quarter of fiscal 2008 compared with the third quarter of fiscal 2007 due primarily to greater interest income earned on higher invested cash balances. The fluctuation in miscellaneous expense (income) is primarily due to the impact of exchange rates on foreign currency transactions.

Provision for Income Taxes and Income from Continuing Operations

<i>(in millions)</i>	Three Months Ended May 31,		Increase	Percent Change
	2008	2007		
Income from Continuing Operations before Provision for Taxes	\$ 62.9	\$ 52.7	\$ 10.2	19.4%
<i>Percent of net sales</i>	12.3%	10.5%		
Provision for Income Taxes	21.3	18.4	2.9	15.8%
<i>Effective tax rate</i>	33.9%	34.9%		
Income from Continuing Operations	\$ 41.7	\$ 34.3	\$ 7.4	21.6%

Income from continuing operations for the third quarter of fiscal 2008 increased \$7.4 million to \$41.7 million from \$34.3 million reported for the prior-year period. The increase in income from continuing operations resulted primarily from the above noted increase in operating profit, partially offset by higher tax expense.

The effective income tax rate reported by the Company was 33.9% and 34.9% for the three months ended May 31, 2008 and 2007, respectively. The third quarter of fiscal 2008 benefited from a larger deduction representing a benefit from increased export of goods manufactured in the U.S. compared with the third quarter of fiscal 2007. The Company estimates that the effective tax rate for the year will be approximately 35.5%.

Results from Discontinued Operations and Net Income

<i>(in millions)</i>	Three Months Ended May 31,		Increase (Decrease)	Percent Change
	2008	2007		
Income from Continuing Operations	\$ 41.7	\$ 34.3	\$ 7.4	21.6%
(Loss) Income from Discontinued Operations, net of tax	(0.5)	4.4	(4.9)	(111.4)%
Net Income	\$ 41.1	\$ 38.7	\$ 2.4	6.2%

Discontinued operations were impacted by additional tax reserves recorded during the third quarter. During the third quarter of fiscal 2007, income from discontinued operations was \$4.4 million. Net income for the third quarter of fiscal 2008 increased \$2.4 million to \$41.1 million from \$38.7 million reported for the prior-year period. The increase in net income resulted primarily from the above noted increase in income from continuing operations partially offset by the decrease in income from discontinued operations.

Table of Contents**Nine Months of Fiscal 2008 Compared with Nine Months of Fiscal 2007**

As a result of the Spin-off, effected October 31, 2007, all results of operations reflect the specialty products business as discontinued operations. The following table sets forth information comparing the components of net income for the nine months ended May 31, 2008 with the nine months ended May 31, 2007:

<i>(in millions)</i>	Nine Months Ended May 31,		Percent Change
	2008	2007	
Net Sales	\$ 1,503.9	\$ 1,424.4	5.6%
Gross Profit	603.4	534.2	13.0%
<i>Percent of net sales</i>	<i>40.1%</i>	<i>37.5%</i>	
Operating Profit	187.3	152.9	22.5%
<i>Percent of net sales</i>	<i>12.5%</i>	<i>10.7%</i>	
Income from Continuing Operations before Provision for Taxes	164.6	129.8	26.8%
<i>Percent of net sales</i>	<i>10.9%</i>	<i>9.1%</i>	
Income from Continuing Operations	\$ 106.7	\$ 85.8	24.4%

Results from Continuing Operations

Net sales were \$1,503.9 million for the nine months ended May 31, 2008 compared with \$1,424.4 million reported in the prior-year period, an increase of \$79.5 million, or 5.6%. For the nine months ended May 31, 2008, the Company reported income from continuing operations of \$106.7 million (including a \$9.1 million after-tax special charge for estimated costs the Company intends to incur to simplify and streamline its operations as a result of the Spin-off) compared with \$85.8 million earned for the nine months ended May 31, 2008. Diluted earnings per share from continuing operations were \$2.55 (including \$0.21 loss related to the special charge) for the first nine months of 2008 as compared with \$1.96 reported for the first nine months of 2007, an increase of 30.1%.

Net Sales

The Company estimates that an enhanced mix of products sold and improved pricing accounted for approximately half of the 5.6% increase in net sales. Favorable fluctuation in foreign currency exchange rates contributed approximately one percentage point of the increase in net sales in the first nine months of fiscal 2008. Mark Architectural Lighting also contributed approximately one percentage point of the increase in net sales in the first nine months of fiscal 2008. Increased shipments to the non-residential market partially offset by a decline in shipments to the residential market were the primary reason for the remaining increase in net sales in the first nine months of fiscal 2008 as compared with the first nine months of fiscal 2007.

Gross Profit

<i>(in millions)</i>	Nine Months Ended May 31,			Percent Change
	2008	2007	Increase	
Net Sales	\$ 1,503.9	\$ 1,424.4	\$ 79.5	5.6%
Cost of Products Sold	900.5	890.2	10.3	1.2%
<i>Percent of net sales</i>	<i>59.9%</i>	<i>62.5%</i>		
Gross Profit	\$ 603.4	\$ 534.2	\$ 69.2	13.0%
<i>Percent of net sales</i>	<i>40.1%</i>	<i>37.5%</i>		

Gross profit margins increased 260 basis points to 40.1% of net sales for the nine months ended May 31, 2008 from 37.5% reported for the prior-year period. Gross profit increased \$69.2 million, or 13.0% to \$603.4 million for the nine months ended May 31, 2008 compared with \$534.2 million for the prior-year period. The improvement in gross profit and gross profit margin was largely attributable to improved pricing, a greater mix of higher-margin products sold, incremental margins on overall volume growth, and the contribution of Mark Architectural Lighting. In addition, benefits from programs to improve productivity, delivery performance, and quality contributed to the increased profitability. These gains offset increases in raw material and component costs as well as increases associated with employee wages and related benefits and freight costs.

Table of Contents*Operating Profit*

<i>(in millions)</i>	Nine Months Ended May 31,		Increase	Percent Change
	2008	2007		
Gross Profit	\$ 603.4	\$ 534.2	\$ 69.2	13.0%
<i>Percent of net sales</i>	40.1%	37.5%		
Selling, Distribution, and Administrative Expenses	401.4	381.3	20.1	5.3%
Special Charge	14.6		14.6	100.0%
Operating Profit	\$ 187.3	\$ 152.9	\$ 34.4	22.5%
<i>Percent of net sales</i>	12.5%	10.7%		

SD&A expenses were \$401.4 million for the nine months ended May 31, 2008 compared with \$381.3 million in the prior-year period, which represented an increase of \$20.1 million, or 5.3%. More than half of the increase in SD&A expenses was due to higher commissions paid to the Company's sales forces and agents, which typically vary directly with sales. Additionally, the first nine months of fiscal 2007 were favorably impacted by a \$6.6 million pre-tax gain (net of related legal costs) resulting from a settlement for a commercial dispute involving reimbursement of warranty and product liability costs associated with a product line purchased from a third party in fiscal year 2001. The balance of the increase in SD&A expenses was due primarily to an increase in the Company's investment in product marketing and development activities and the impact from fluctuations in foreign currency exchange rates partially offset by lower expenses for the Company's share-based compensation plans and other general and administrative costs due to cost containment programs. Merit based and inflationary wage increases were fully offset by benefits from the recent actions taken to streamline and simplify operations.

Gross profit less SD&A expenses was \$202.0 million in the first nine months of 2008 compared with \$152.9 million in the prior-year period, which represented an increase of \$49.1 million, or 32.1%. The increase was due to gross profit improvements partially offset by increased SD&A expenses as noted above. The Company believes this measure provides greater comparability and enhanced visibility into the improvements realized.

As part of the Company's initiative to streamline and simplify operations, largely in connection with actions related to the Spin-off, the Company recorded during the first quarter of fiscal 2008 a pre-tax charge of \$14.6 million to reflect severance and related employee benefit costs associated with the elimination of certain positions worldwide and the costs associated with the early termination of certain leases.

Operating profit was \$187.3 million (12.5% of net sales) for the nine months ended May 31, 2008 compared with \$152.9 million (10.7% of net sales) reported for the prior-year period, an increase of \$34.4 million, or 22.5%. Operating profit margin increased 180 basis points to 12.5% compared with 10.7% in the year ago period. The improvement in operating profit margin in the first nine months of fiscal 2008 compared with the prior-year period was due primarily to the increased gross profit noted above partially offset by the special charge and the favorable commercial dispute settlement in the prior-year period.

Income from Continuing Operations before Provision for Taxes

<i>(in millions)</i>	Nine Months Ended May 31,		Increase (Decrease)	Percent Change
	2008	2007		
Operating Profit	\$ 187.3	\$ 152.9	\$ 34.4	22.5%
<i>Percent of net sales</i>	12.5%	10.7%		
Other Expense (Income)				
Interest Expense, net	21.3	23.1	(1.8)	(7.8)%
Miscellaneous Expense (Income)	1.5	(0.1)	1.6	(1600.0)%
Total Other Expense	22.8	23.1	(0.3)	(1.3)%
Income from Continuing Operations before Provision for Taxes	\$ 164.6	\$ 129.8	\$ 34.8	26.8%
<i>Percent of net sales</i>	10.9%	9.1%		

Other expense for Acuity Brands consists primarily of interest expense and foreign exchange rate gain or loss. Interest expense, net, was \$21.3 million and \$23.1 million for the nine months ended May 31, 2008 and 2007, respectively. Interest expense, net, decreased 7.8% in the first nine months of fiscal 2008 compared with the first nine months of fiscal 2007 due primarily to greater interest income earned on higher invested cash

balances. The fluctuation in miscellaneous expense (income) is primarily due to the impact of exchange rates on foreign currency transactions.

Table of Contents*Provision for Income Taxes and Income from Continuing Operations*

<i>(in millions)</i>	Nine Months Ended		Increase	Percent Change
	2008	2007		
Income from Continuing Operations before Provision for Taxes	\$ 164.6	\$ 129.8	\$ 34.8	26.8%
<i>Percent of net sales</i>	10.9%	9.1%		
Provision for Income Taxes	57.9	44.0	13.9	31.6%
<i>Effective tax rate</i>	35.2%	33.9%		
Income from Continuing Operations	\$ 106.7	\$ 85.8	\$ 20.9	24.4%

Income from continuing operations for the first nine months of fiscal 2008 increased \$20.9 million to \$106.7 million (including \$9.1 million after-tax for the special charge) from \$85.8 million reported for the prior-year period. The increase in income from continuing operations resulted primarily from the above noted increase in operating profit, partially offset by higher tax expense.

The effective income tax rate reported by the Company was 35.2% and 33.9% for the nine months ended May 31, 2008 and 2007, respectively. The current period tax rate was adversely affected by increased income in jurisdictions with higher rates. In addition, the first nine months of fiscal 2007 benefited from discrete items that did not recur in the first nine months of fiscal 2008 partially offset by a larger fiscal 2008 deduction representing a benefit from increased export of goods manufactured in the U.S. The Company estimates that the effective tax rate for the year will be approximately 35.5%.

Results from Discontinued Operations and Net Income

<i>(in millions)</i>	Nine Months Ended		Increase (Decrease)	Percent Change
	2008	May 31, 2007		
Income from Continuing Operations	\$ 106.7	\$ 85.8	\$ 20.9	24.4%
(Loss) Income from Discontinued Operations, net of tax	(0.4)	10.8	(11.2)	(103.7)%
Net Income	\$ 106.4	\$ 96.6	\$ 9.8	10.1%

The loss from discontinued operations for the first nine months of fiscal 2008 was \$0.4 million, a decrease of \$11.2 million from the prior-year period. The decrease was due primarily to the contribution of only two months of operating results in the first nine months of fiscal 2008 rather than a full nine months results in fiscal 2007. In addition, discontinued operations were negatively impacted by approximately \$5.5 million in costs related to the Spin-off during the first quarter of fiscal 2008. These non-tax deductible costs consist primarily of legal, accounting, financial advice and other professional fees to complete the Spin-off. Net income for the first nine months of fiscal 2008 increased \$9.8 million to \$106.4 million from \$96.6 million reported for the prior-year period. The increase in net income resulted primarily from the above noted increase in income from continuing operations partially offset by the loss from discontinued operations.

Outlook

Acuity Brands delivered its 13th quarter in a row of record results from continuing operations. Benefits from programs implemented to create greater customer value and increase productivity contributed to these record results. In addition, the Company benefitted over the last few years from an increase in non-residential construction in North America, the Company's primary market. However, various leading indicators such as employment, housing demand, bank lending standards, and commodity prices are signaling a slowdown in future non-residential construction activity. Accordingly, the Company anticipates unit sales growth to be challenging for the remainder of fiscal year 2008 and into 2009. The Company's backlog at May 31, 2008 was \$182 million, down 4% compared with the prior year. While positive factors such as a decline in past due orders and reduced lead times resulting from the Company's improved delivery performance contributed to this decline, the Company has experienced a modest softness in incoming orders over the past couple of months and expect them to remain soft for the foreseeable future. In addition, the Company expects pressure on gross margins in the fourth quarter as a result of significant increases in commodity costs such as steel, aluminum, plastics and copper as well as higher freight costs due to the significant rise in the price of diesel fuel.

Despite these near-term economic challenges, the Company sees opportunity for continued performance improvement allowing it to meet or exceed its long-term financial goals including annual operating margin expansion, earnings growth, and cash flow generation. The Company believes these opportunities exist as a result of ongoing efforts to provide customers with superior value propositions, the creation of new and innovative products and services, and the expansion into new markets. The Company continues to invest and deploy resources to capitalize on

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

growth opportunities in the renovation and relighting markets offering new proprietary energy-saving products and services to its customers while also providing an aesthetically

Table of Contents

superior lighting environment. Also, the Company sees growth opportunities by furthering its market presence such as its expansion into the New York City metropolitan area where the Company has historically had limited participation in this large and dynamic market.

Looking beyond 2008, management remains positive about future performance. Clearly, headwinds that prevail in certain markets will influence demand and escalating commodity costs are worrisome. While the Company announced a price increase ranging between three and ten percent effective in early May, the Company expects to announce additional price increases to help offset rising commodity prices. The Company intends to maintain its disciplined approach to pricing seeking to recover increases in its costs and to earn appropriate margins for its differentiated products and services. The Company also expects to realize benefits from its ongoing initiatives to introduce new and innovative products, improve productivity and contain costs. Past and future actions to create value for customers, to invest in associates to be more customer-focused and productive, and to more effectively deploy assets to generate greater returns for shareholders should enhance the Company's opportunity to prosper over the long-term.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations addresses the financial condition and results of operations as reflected in the Company's *Consolidated Financial Statements*, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to: inventory valuation; share-based compensation expense; depreciation, amortization and the recoverability of long-lived assets, including intangible assets; medical, product warranty, and other reserves; litigation; and environmental matters. Management bases its estimates and judgments on its substantial historical experience and other relevant factors, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. Management discusses the development of accounting estimates with the Company's Audit Committee. For a detailed discussion of significant accounting policies that may involve a higher degree of judgment, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007.

Cautionary Statement Regarding Forward-Looking Information

This filing contains, and other written or oral statements made by or on behalf of the Company may include, forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, the Company, or the executive officers on the Company's behalf, may from time to time make forward-looking statements in reports and other documents the Company files with the SEC or in connection with oral statements made to the press, potential investors or others. Such statements that may be considered forward-looking include statements incorporating terms such as expects, believes, intends, anticipates and similar terms that relate to future events, performance, or results of the Company. Forward-looking statements made in this report include, without limitation, statements made relating to: (a) the Company's expectations regarding liquidity based on cash on hand, availability under its existing financing arrangements, and current projections of net cash provided by operating activities; (b) liquidity needs including funding its operations as currently planned, making its anticipated capital investments, funding certain potential acquisitions, funding foreseen improvement initiatives, paying quarterly stockholder dividends as currently anticipated, paying principal and interest on borrowings as currently scheduled, making required contributions into the Company's employee benefit plans, as well as potentially repurchasing shares of the Company's outstanding common stock as authorized by the Company's Board of Directors; (c) the planned spending of approximately \$35.0 million primarily for equipment, tooling, and new and enhanced information technology capabilities during fiscal year 2008; (d) optimism concerning performance in the remainder of fiscal year 2008 which the Company expects will benefit from the Company's many continuous improvement efforts to enhance service to its customers and improve productivity and contain costs, including expected savings from recent reorganization efforts, from the introduction of new innovative and energy-efficient products and services, and from the Company's pricing initiatives; (e) the Company's ability to capitalize on growth opportunities in the renovation and relighting markets and in the New York City metropolitan area; and (f) the belief that the Company will meet or exceed all of its long-term financial goals including operating margin expansion, earnings growth, and cash flow generation.

The Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the historical experience of the Company and management's present expectations or projections. These risks and uncertainties include, but are not limited to, customer and supplier relationships and prices; competition; ability to realize anticipated benefits from initiatives taken and timing of benefits; market demand; litigation and other contingent liabilities; and economic, political, governmental, and technological factors affecting the Company. In addition, additional risks that could cause the Company's actual results to differ materially from those expressed in the Company's forward-looking statements are discussed in Part I, Item 1a. Risk Factors of the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007, which is incorporated herein by reference.

Table of Contents

Management believes these forward-looking statements are reasonable; however, undue reliance should not be placed on any forward-looking statements, which are based on current expectations. Further, forward-looking statements speak only as of the date they are made, and management undertakes no obligation to update publicly any of them in light of new information or future events.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

Acuity Brands is exposed to market risks that may impact the *Consolidated Balance Sheets*, *Consolidated Statements of Income*, and *Consolidated Statements of Cash Flows* due primarily to fluctuation in both interest rates and foreign exchange rates. There have been no material changes to the Company's exposure from market risks from those disclosed in Part II, Item 7A to the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007.

Item 4. *Controls and Procedures*

Disclosure controls and procedures are controls and other procedures that are designed to reasonably ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to reasonably ensure that information required to be disclosed by the Company in the reports filed under the Securities Exchange Act is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

As required by SEC rules, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of May 31, 2008. This evaluation was carried out under the supervision and with the participation of management, including the principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of the Company's disclosure controls and procedures were effective at a reasonable assurance level as of May 31, 2008. However, because all disclosure procedures must rely to a significant degree on actions or decisions made by employees throughout the organization, such as reporting of material events, the Company and its reporting officers believe that they cannot provide absolute assurance that all control issues and instances of fraud or errors and omissions, if any, within the Company will be detected. Limitations within any control system, including the Company's control system, include faulty judgments in decision-making or simple errors or mistakes. In addition, controls can be circumvented by an individual, by collusion between two or more people, or by management override of the control. Because of these limitations, misstatements due to error or fraud may occur and may not be detected.

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recent completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

Acuity Brands is subject to various legal claims arising in the normal course of business. The Company is self-insured up to specified limits for certain types of claims, including product liability, and is fully self-insured for certain other types of claims, including employment practices, environmental, product recall, and patent infringement. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the results of operations, financial position, or cash flows of Acuity Brands. However, in the event of unexpected future developments, it is possible that the ultimate resolution of such matters, if unfavorable, could have a material adverse effect on the results of operations, financial position, or cash flows of Acuity Brands in future periods. Acuity Brands establishes reserves for legal claims when the costs associated with the claims become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher or lower than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved.

Information regarding reportable legal proceedings is contained in Part I, Item 3. Legal Proceedings in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007. Information set forth in this report's Note 9 of *Notes to Consolidated Financial Statements* describes any legal proceedings that became reportable during the quarter ended May 31, 2008, and updates any descriptions of previously reported legal proceedings in which there have been material developments during such quarter. Discussion of legal proceedings included within Note 9 of *Notes to Consolidated Financial Statements* is incorporated into this Item 1 by reference.

Item 1a. Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1a. Risk Factors of the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

The following table reflects activity related to equity securities purchased by the Company during the quarter ended May 31, 2008:

Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
03/01/08 - 03/31/08	116,700	\$ 41.48	116,700	1,000,000
04/01/08 - 04/30/08		\$		1,000,000
05/01/08 - 05/31/08		\$		1,000,000
Total	116,700	\$ 41.48	116,700	1,000,000

Item 6. Exhibits

Exhibits are listed on the Index to Exhibits (page 28).
