**Nomura Reports First Quarter Financial Results**

**Tokyo, July 29, 2009** Nomura Holdings, Inc. today announced its consolidated financial results for the first quarter of the fiscal year ending March 31, 2010.

Net revenue for the first quarter jumped 120.9 percent compared to the same period last year to 298.4 billion yen (US\$3.1 billion)<sup>1</sup>. Income before income taxes was 31.4 billion yen (US\$326 million) and net income attributable to Nomura was 11.4 billion yen (US\$118 million), marking the company's first profit in six quarters. Nomura's return to profitability on a quarterly basis comes despite the company booking a net fair value charge of 40 billion yen on liabilities due to a tightening of its credit spread.

We had a strong start to the year, posting our first profit in six quarters, said Kenichi Watanabe, Nomura president and CEO. Our retail and asset management businesses continued to generate stable revenues and global markets made a significant contribution to earnings. Our newly expanded client business platform is now fully operational and we saw considerable momentum in global wholesale client flow businesses during the quarter. While market conditions remain uncertain, we are making steady progress towards our objective of achieving a full-year profit.

Nomura maintains a solid capital position with a total capital ratio of 20.8 percent at the end of June, up from 18.9 percent in March, and a Tier 1 capital ratio of 12.7 percent, up from 11.7 percent in March.

Although total assets and net leverage increased during the quarter due the commencement of the new global wholesale platform, Nomura continues to reduce its exposure to securitized products and illiquid Level 3 assets, while maintaining a disciplined approach to risk management.

<sup>1</sup> US dollar amounts are included solely for the convenience of the reader and have been translated at the rate of 96.42 yen = 1 US dollar, the noon buying rate in New York for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on June 30, 2009. This translation should not be construed to imply that the yen amounts actually represent, or have been or could be converted into, equivalent amounts in US dollars.

## **Table of Contents**

### **Retail**

Net revenue in Retail was 95.4 billion yen, an increase of 11.2 percent on the prior year. Income before income taxes jumped 72.2 percent year on year to 27.9 billion yen. Nomura's retail franchise in Japan was quick to adapt to changes as market conditions normalized. It successfully mobilized the resources of Nomura to deliver tailored financial consulting services to retail customers, recording monthly total purchases of over 1 trillion yen spread evenly across stocks, bonds, and investment trusts. Retail client assets increased by 7.9 trillion yen from the end of March to 67.2 trillion yen as of the end of June. Net asset inflow for the three months was 1.6 trillion yen.

### **Global Markets**

Global Markets net revenue surged 17 times compared to the first quarter last year to 187.1 billion yen. Income before income taxes was 62.3 billion yen. The strong performance reflects growing momentum in Nomura's newly enhanced platform following the successful integration of its acquisitions last year. Client and flow businesses in Global Fixed Income and Global Equities saw substantial growth during the first quarter. Growth was particularly strong in Europe and Asia where trading values jumped from previous levels. Nomura took the number one position on the London Stock Exchange in June for client-driven market share in UK equities and is seeing its share rise on other major exchanges around the world.

### **Investment Banking**

Investment Banking net revenue declined 11.4 percent year on year but increased fourfold compared to the prior quarter to 25.7 billion yen. Investment Banking booked a loss before income taxes of 5.4 billion yen. Nomura maintained its leading market share in underwriting in Japan, working on most of the major financing deals for Japanese corporates during the first quarter. The domestic mergers and acquisitions business was another strong area. Internationally, Nomura was recognized with a string of industry awards and continued to expand its business platform.

### **Merchant Banking**

Net revenue in Merchant Banking was negative 1.1 billion yen and loss before income taxes was 3.6 billion yen. Although Nomura didn't realize any exits from investments during the quarter, it continued to focus on increasing the value of companies it has invested in.

**Table of Contents**

**Asset Management**

Asset Management net revenue declined 11.7 percent from last year to 18.7 billion yen, an increase of 42 percent from the prior quarter. Income before income taxes was 5.1 billion yen. Assets under management grew by 2 trillion yen from the end of March to 22.2 trillion yen as at the end of June. Nomura saw robust sales of new investment trusts during the quarter with overseas high-yield bond funds attracting strong demand from Japanese retail investors. Nomura Asset Management continued to increase its market leading share in Japan over the first quarter. Nomura is also making progress in the global expansion of its asset management business. Earlier this month Nomura Asset Management announced an agreement to invest in LIC Mutual Fund, a subsidiary of India's largest life insurer Life Insurance Corporation of India, and to form a joint venture.
