PROXY STATEMENT

FOR THE 2009 ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement provides information in connection with the solicitation of proxies by the Board of Directors (the **Board**) of Harman International Industries, Incorporated (sometimes referred to as **we**, **us**, **our**, or **our company**) for use at our 2009 Annual Meeting of Stockholders or any postponement or adjournment thereof (the **Meeting**). This Proxy Statement also provides information you will need in order to consider and to act upon the matters specified in the accompanying Notice of Annual Meeting of Stockholders. This Proxy Statement and the enclosed proxy card are being mailed to stockholders on or about October 29, 2009.

Holders of record of our common stock, \$0.01 par value per share (**Common Stock**), as of the close of business on October 12, 2009 are entitled to vote at the Meeting. Each stockholder of record as of that date is entitled to one vote for each share of Common Stock held. On October 12, 2009, there were 69,360,878 shares of Common Stock outstanding and entitled to vote.

You cannot vote your shares of Common Stock unless you are present at the Meeting or you have previously given your proxy. You can vote by proxy in one of three convenient ways:

in writing: sign, date and return the proxy card in the enclosed envelope;

by telephone: within the U.S. or Canada, call the toll-free telephone number shown on your proxy card and follow the instructions; or

by Internet: visit the website shown on your proxy card and follow the instructions.

You may revoke your proxy at any time prior to the vote at the Meeting by:

delivering a written notice revoking your proxy to our company's Secretary at the address above;

delivering a new proxy bearing a date after the date of the proxy being revoked; or

voting in person at the Meeting.

Edgar Filing: HARMAN INTERNATIONAL INDUSTRIES INC /DE/ - Form DEF 14A

All properly executed proxies, unless revoked as described above, will be voted at the Meeting in accordance with your directions on the proxy. With respect to the election of directors, you may vote for all nominees, withhold your vote for all nominees, or withhold your vote as to a specific nominee. If a properly executed proxy does not provide instructions, the shares of Common Stock represented by your proxy will be voted as follows:

FOR the election of each of the three director nominees to serve until our company's 2012 Annual Meeting of Stockholders; and

at the discretion of the proxy holders with regard to any other matter that is properly presented at the Meeting.

A majority of the outstanding shares of Common Stock must be present, in person or by proxy, to constitute a quorum at the Meeting.

Our company's majority voting policy requires any director nominee in an uncontested election who receives a greater number of votes withheld than votes for his or her election to tender his or her resignation.

promptly following the certification of the election results. The Nominating and Governance Committee of the Board will consider all of the relevant facts and circumstances and make a recommendation to the Board with respect to accepting or rejecting the resignation. Within 90 days, the Board is required to take action with respect to the recommendation and to publicly disclose its decision by issuing a press release. The majority voting policy is more fully described below in [The Board, Its Committees and Its Compensation](#) [Corporate Governance](#) [Majority Voting Policy](#).

Those stockholders who fail to return a proxy or attend the Meeting will not have their shares of Common Stock count towards determining any required vote or quorum. Stockholders and brokers returning proxies or attending the Meeting who abstain from voting on the election of our directors will count towards determining a quorum. Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. In the event that a broker does not receive voting instructions for these matters from its customers, a broker may notify us that it lacks voting authority to vote those shares. These broker non-votes refer to votes that could have been cast on the matter in question by brokers with respect to uninstructed shares if the brokers had received their customers instructions. These broker non-votes will be included in determining whether a quorum exists. Even if you do not instruct your broker how to vote on the election of directors, your broker may exercise its discretion to vote your shares on this proposal. To be sure your shares are voted in the manner you desire, you should instruct your broker on how to vote your shares.

If you own shares through our retirement or employee savings and investment plan, and you do not direct the trustee of the 401(k) plan to vote your shares, then the trustee will vote the shares credited to your account in the same proportion as the voting of shares for which the trustee receives direction from other participants.

We are soliciting your proxy and will pay the cost of preparing and mailing this Proxy Statement and the enclosed proxy card. We have retained BNY Mellon Shareowner Services LLC ([Mellon](#)) to assist in the solicitation of proxies for the Meeting. For these services, we will pay Mellon a base fee of \$4,500 and will reimburse Mellon for out-of-pocket expenses. Additionally, our employees may solicit proxies personally and by telephone. Our employees will receive no compensation for soliciting proxies other than their regular salaries. We may request banks, brokers and other custodians, nominees and fiduciaries to forward copies of these proxy materials to their principals and to request authority for the execution of proxies. We may reimburse such persons for their expenses in so doing.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

At the Meeting, three directors will be elected to serve three-year terms expiring at the 2012 Annual Meeting of Stockholders. This section contains information relating to the three director nominees and the directors whose terms of office extend beyond the Meeting. The nominees for election are Dinesh C. Paliwal, Edward H. Meyer and Gary G. Steel, who are currently directors of our company.

The Board expects that the nominees will be available for election at the time of the Meeting. If for any reason a nominee should become unavailable for election, the shares of Common Stock voted FOR that nominee by proxy will be voted for a substitute nominee designated by the Board, unless the Board reduces the number of directors or allows that nominee's director position to remain vacant until a qualified nominee is identified.

Under Delaware law and our Bylaws, a plurality of the votes cast is required for the election of directors. This means that the director nominee with the most votes for a particular Board position is elected for that position. You may vote for or withheld with respect to the election of directors. Only votes for or withheld are counted in determining whether a plurality has been cast in favor of a director. Abstentions are not counted for purposes of the election of directors.

The Board recommends a vote FOR election of each of the nominees.

Corporate Governance

The Board and senior management believe that one of their primary responsibilities is to promote a culture of ethical behavior throughout our company by setting examples and by displaying a sustained commitment to instilling and maintaining deeply ingrained principles of honesty and decency. Consistent with these principles we have, among other things, adopted:

written charters for our Audit Committee, Compensation and Option Committee and Nominating and Governance Committee;

Corporate Governance Guidelines that describe the principles under which the Board operates;

a Code of Ethics for Senior Executive and Financial Officers and Directors and a Code of Business Conduct applicable to all our employees; and

a policy that requires our directors to submit their resignation if they do not receive a majority of votes for their election.

The committee charters, corporate governance guidelines, ethics codes and majority voting policy are available on our website (www.harman.com) in the Corporate Governance section of the Investor Information page. Copies of these documents are also available upon written or oral request to our Secretary. We will post information regarding any amendment to, or waiver from, our Code of Ethics for Senior Executive and Financial Officers and Directors on our website under the Corporate Governance section of the Investor Information page.

The Board periodically reviews its corporate governance policies and practices. Based on these reviews, the Board expects to adopt changes to policies and practices that are in the best interests of our company and as appropriate to comply with any new requirements of the SEC or the New York Stock Exchange.

Director Independence

As part of our Corporate Governance Guidelines, we have established a policy requiring a majority of the members of the Board to be independent. The Board has also adopted a policy establishing independence standards to assist the Board in determining the independence of the non-management directors. Those standards reflect, among other things, the requirements under the listing standards of the New York Stock Exchange. The independence standards for non-management directors are attached to this Proxy Statement as *Appendix A*.

The Board has determined that each of Mr. Carroll, Dr. Einsmann, Mr. Gupta, Ms. Korologos, Mr. Meyer, Mr. Reiss, Ms. Runtagh and Mr. Steel, is independent of our company and our management within the meaning of the New York Stock Exchange listing standards and satisfies our independence standards.

Majority Voting Policy

Under our majority voting policy, in an uncontested election of directors, any nominee who receives a greater number of votes withheld than votes for his or her election will, promptly following the certification of the stockholder vote, tender his or her written resignation to the Board for consideration by the Nominating and Governance Committee. The Nominating and Governance Committee will consider the resignation and will make a recommendation to the Board concerning whether to accept or reject it.

In determining its recommendation to the Board, the Nominating and Governance Committee will consider all factors it considers relevant, which may include:

the stated reason or reasons why stockholders who cast withhold votes for the director did so;

the qualifications of the director (including, for example, whether the director serves on the Audit Committee of the Board as an audit committee financial expert and whether there are one or more other directors qualified, eligible and available to serve on the Audit Committee in such capacity); and

whether the director's resignation from the Board would be in our best interests and the best interests of our stockholders.

The Nominating and Governance Committee also will consider a range of possible alternatives concerning the director's tendered resignation as it deems appropriate, which may include:

acceptance of the resignation;

rejection of the resignation; or

rejection of the resignation coupled with a commitment to seek to address and cure the underlying reasons reasonably believed by the Nominating and Governance Committee to have substantially resulted in the withheld votes.

Under our majority voting policy, the Board will take formal action on the recommendation no later than 90 days following the certification of the results of the stockholders' meeting. In considering the recommendation, the Board will consider the information, factors and alternatives considered by the Nominating and Governance Committee and any additional information that the Board considers relevant. We will publicly disclose the Board's decision promptly after the decision is made in a press release. If applicable, the Board will also disclose the reason or reasons for rejecting the tendered resignation.

Non-Employee Director Stock Ownership

In fiscal 2009, we adopted Stock Ownership Guidelines for Non-Employee Directors. The guidelines recommend that non-employee directors retain all shares of Common Stock received (including stock options and restricted share units) as compensation after December 2, 2008 for as long as they serve as members of the Board. Directors will be permitted to sell shares of Common Stock to cover the exercise price of options and any taxes payable as a result of such exercise, or that may be payable upon the vesting of any restricted share units or shares of restricted stock.

Communications with the Board

Stockholders and other interested parties may communicate with the Board, the non-management directors or specific directors by mail addressed to: Board of Directors, c/o Harman International Industries, Incorporated,

400 Atlantic Street, Suite 1500, Stamford, Connecticut 06901, Attn: General Counsel. The mailing envelope should also clearly indicate whether the communication is intended for the Board, the non-management directors or a specific director. The General Counsel or the Head of Internal Audit will review all these communications and will, within a reasonable period of time after receiving the communications, forward all communications to the appropriate director or directors, other than those communications that are merely solicitations for products or services or relate to matters that are of a type that are clearly improper or irrelevant to the functioning of the Board or the business and affairs of our company.

Board Meetings

The Board held ten meetings during fiscal 2009. Each director attended at least 75% of the total number of meetings of the Board and committees on which he or she served during the period he or she was a director in fiscal 2009.

The Board has established a policy that the non-management directors meet in executive session, without members of our management present, at each regularly scheduled meeting of the full Board. In May 2008, the independent directors designated Ann McLaughlin Korologos as Lead Director. In this role, Ms. Korologos is responsible for chairing executive sessions and other meetings of the Board in the absence of the Chairman. See The Board, Its Committees and Its Compensation Corporate Governance Lead Director below for a further discussion about the role of our Lead Director.

During fiscal 2009, the Audit Committee held 13 meetings. The Board has determined that each member of the Audit Committee is independent under the New York Stock Exchange listing standards and each is financially literate and experienced in financial matters. The Board has also determined that Mr. Reiss is an audit committee financial expert within the meaning of applicable SEC regulations.

The Audit Committee assists the Board in its oversight of our financial reporting, focusing on the integrity of our company's financial statements, our compliance with legal and regulatory requirements, and the qualifications and independence of our independent auditor. The Audit Committee's primary responsibilities include:

acting as the direct contact with our independent auditor, who is ultimately accountable to the Audit Committee, and the Board;

appointing the independent auditor, setting the terms of compensation and retention for the independent auditor, and evaluating and overseeing the work of the independent auditor;

pre-approving all audit and non-audit services provided to our company by the independent auditor;

oversight over the audit scope and performance of the internal audit function;

oversight over our company's ethics and compliance programs;

evaluating and discussing with management and the Board our company's risk assessment and risk management processes; and

acting in respect of all other matters as to which Audit Committee action is required by law or New York Stock Exchange listing standards.

The Audit Committee's responsibilities and key practices are more fully described in its written charter. A report of the Audit Committee appears on page 44 of this Proxy Statement.

Compensation and Option Committee

During fiscal 2009, the Compensation and Option Committee held nine meetings. Each member of the Compensation and Option Committee is independent under the New York Stock Exchange listing standards.

The Compensation and Option Committee assists the Board in overseeing executive compensation and administers our executive bonus, option and incentive, deferred compensation and retirement plans. The Compensation and Option Committee's primary responsibilities include:

annually reviewing and benchmarking CEO compensation, and recommending to the Board the compensation level for the CEO;

establishing compensation levels for our executive officers and reviewing executive compensation matters generally;

reviewing and making recommendations to the Board with respect to director compensation;

making recommendations to the Board with respect to approval and adoption of all cash and equity-based incentive plans;

reviewing and approving the Compensation Discussion and Analysis to be included in the annual proxy statement; and

approving awards of options, restricted shares, restricted share units and other equity rights to executive officers.

The Compensation and Option Committee's responsibilities and key practices are discussed more fully in its written charter. A report of the Compensation and Option Committee appears on page 26 of this Proxy Statement.

Nominating and Governance Committee

During fiscal 2009, the Nominating and Governance Committee held six meetings. Each member of the Nominating and Governance Committee is independent under the New York Stock Exchange listing standards.

Edgar Filing: HARMAN INTERNATIONAL INDUSTRIES INC /DE/ - Form DEF 14A

The Nominating and Governance Committee assists the Board in carrying out its oversight responsibilities relating to the composition of the Board and certain corporate governance matters. The Nominating and Governance Committee's primary responsibilities include:

considering and making recommendations to the Board with respect to nominees for election to the Board consistent with criteria approved by the Board or the Nominating and Governance Committee, including director candidates submitted by our stockholders;

periodically reviewing and assessing our policies and practices with regard to corporate responsibility, human health and safety, sustainability and the environment;

reviewing and reassessing the adequacy of our codes of conduct, corporate governance guidelines and committee charters annually;

overseeing the process for the annual performance evaluation of the Board, the Board committees and the Chief Executive Officer; and

reviewing the independence of each of the directors annually.

The Nominating and Governance Committee's responsibilities and key practices are more fully described in its written charter.

Lead Director

Our Lead Director presides over executive sessions of the Board, facilitates information flow and communication between our directors and the CEO, and performs such other duties specified by the Board. Our Lead Director also conducts the CEO's performance appraisal at the end of each fiscal year and reviews the CEO's performance goals and objectives for the new fiscal year. In preparation for these reviews with the CEO, all directors provide their input to the Lead Director. Following the review sessions with the Lead Director, our CEO holds an in-person presentation and discussion with the Board. The Board expects to designate the Lead Director on an annual basis.

Director Nominees

The Nominating and Governance Committee utilizes a variety of methods for identifying and evaluating director nominees. The committee may consider candidates recommended by our directors, members of management, professional search firms or stockholders. These candidates may be considered at any point during the year.

Qualifications

In evaluating nominees for election as a director, the Nominating and Governance Committee considers a number of factors, including the following:

personal and professional qualities, characteristics, attributes, accomplishments and reputation in the business community and otherwise;

reputation in a particular field or area of expertise;

current knowledge and contacts in the markets in which we do business and in our industry and other industries relevant to our business;

the ability and willingness to participate fully in board activities, including attendance at, and active participation in, meetings of the Board and its committees;

the skills and personality of the nominee and how the Nominating and Governance Committee perceives the nominee will fit with the existing directors and other nominees in maintaining a Board that is collegial and responsive to the needs of our company and our stockholders;

the willingness to represent the best interests of all of our stockholders and not just one particular constituency; and

diversity of viewpoints, background and experience, compared to those of existing directors and other nominees.

The Nominating and Governance Committee will also consider other criteria for director candidates included in our Corporate Governance Guidelines or as may be established from time to time by the Board.

Stockholder Recommendations

The Nominating and Governance Committee will evaluate director candidates recommended by a stockholder in the same manner as candidates otherwise identified by the Nominating and Governance Committee. We have never received any recommendations for director candidates from stockholders. In considering director candidates recommended by our stockholders, the Nominating and Governance Committee will also take into account such factors as it considers relevant, including the length of time that the submitting stockholder has been a stockholder of our company and the aggregate amount of the submitting stockholder's investment in our company.

Stockholders may recommend candidates at any time, but to be considered by the Nominating and Governance Committee for inclusion in our proxy statement for the next annual meeting of stockholders, recommendations must be submitted in writing no later than 120 days before the first anniversary of the date the proxy statement was mailed to stockholders in connection with the previous year's annual meeting. A stockholder's notice must contain the following:

the name of the director candidate, the name of the stockholder recommending the director candidate for consideration, and the written consent of the director candidate and stockholder to be publicly identified;

a written statement by the director candidate agreeing to be named in our proxy materials and to serve as a member of the Board if nominated and elected;

a written statement by the director candidate and the recommending stockholder agreeing to make available to the Nominating and Governance Committee all information reasonably requested in connection with the Nominating and Governance Committee's consideration of the director candidate; and

the director candidate's name, age, business and residential addresses, principal occupation or employment, number of shares of Common Stock and other securities of our company beneficially owned, a curriculum vitae or similar document detailing personal and professional experiences and accomplishments, and all other information relating to the director candidate that would be required to be disclosed in a proxy statement or other filing made in connection with the solicitation of proxies for the election of directors by SEC regulations and the New York Stock Exchange listing standards.

The stockholder's notice must be signed by the stockholder recommending the director candidate for consideration and sent to the following address: Harman International Industries, Incorporated, 400 Atlantic Street, Suite 1500, Stamford, Connecticut 06901, Attn: Secretary (Nominating and Governance Committee Communication/Director Candidate Recommendation).

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This compensation discussion and analysis describes our company's executive compensation for fiscal 2009 and major elements of our 2010 program. This section of the Proxy Statement explains how the Compensation and Option Committee (the Committee) made its compensation decisions for our executives, including our named executive officers, for fiscal 2009. Our named executive officers are our Chairman, Chief Executive Officer and President, Mr. Dinesh C. Paliwal; our Executive Vice President and Chief Financial Officer, Mr. Herbert Parker; and our next five most highly compensated executive officers, Mr. Blake Augsburg, head of our Professional Division; Dr. Klaus Blickle, head of our Automotive Division; Mr. David Karch, our head of Operational Excellence; Mr. Helmut Schinagel, our former Chief Technology Officer; and Mr. Richard Sorota, former head of our Consumer Division. Mr. Schinagel and Mr. Sorota resigned from their executive officer positions with our company in January 2009.

Compensation Objectives, Design and Process

Objectives

Our executive compensation program is designed to address four key objectives for our company:

Attract, retain, and motivate top talent: To accomplish this objective the Committee ensures that our executive compensation opportunity and structure is competitive with the external market for senior executive talent, and pays out over time to reinforce our retention objectives.

Alignment with stockholders and sustainable long-term stockholder value creation: To accomplish this strategic objective, executive performance goals are tied to measures considered instrumental in generating sustainable long-term stockholder value, and equity-based compensation is a substantial portion of total compensation.

Pay for performance: We seek alignment between performance and pay. Pay for performance alignment serves two purposes: to motivate and align executives to measures strategically beneficial to us and to ensure payout levels correspond with performance, delivering above market compensation for above market performance and correspondingly reduced levels of pay when financial performance is below the expected level.

Drive achievement of strategic plan: Tying certain aspects of compensation, such as annual incentive bonus and long-term incentives, to company-specific goals focuses executives on key strategic objectives to drive our long-term success.

Overview of Compensation Design

The components of our executive compensation program provide for a combination of fixed and variable compensation and are designed to incorporate our principles and objectives. Our compensation program is designed to attract and retain executives and to create a pay for performance culture. A significant majority of each named executive officer's targeted total direct compensation is in the form of performance-based compensation and, therefore, at risk. Total direct compensation is defined as base salary, annual cash incentives and target long-term equity incentives. At risk means that the executive will not realize any economic benefit unless the applicable objectives, most of which are tied to our company's financial performance, are met or exceeded. The specific components of our compensation program are:

Base salary;

Annual cash incentive compensation;

Long-term equity incentive compensation;

Severance and change-in-control arrangements; and

Employee benefits and other perquisites.

A more detailed description of each of these components is set forth below in Compensation Discussion and Analysis Key Components of Executive Compensation for Fiscal 2009.

When making compensation-related decisions, we believe it is important to be informed about current practices of similarly situated public companies. The Committee uses surveys, as discussed below under Compensation Discussion and Analysis Description of Compensation Decision Making Process Role of Surveys and Benchmarking.

For fiscal 2009, the percentage of target total direct compensation allocated to at risk compensation (in the form of annual cash incentive, long term incentive cash and long-term incentive equity) for our named executive officers was approximately as follows:

Named Executive Officer	Percentage Compensation At Risk
Dinesh C. Paliwal, Chairman, CEO and President	87%
Herbert Parker, EVP and CFO	79%
Blake Augsburger, head of Professional Division	71%
Klaus Blickle, head of Automotive Division	61%
David Karch, head of Operational Excellence	68%
Helmut Schinagel, Former Chief Technology Officer	78%
Richard Sorota, Former head of Consumer Division	66%

The Committee does not apply specific allocations between cash and equity-based compensation or between short-term and long-term compensation when setting each year's total direct compensation package. We continue to evolve our pay for performance culture by increasing the percentage of at risk compensation tied to meeting company objectives. The Committee believes that the percentage allocation that is at risk should increase based on an executive's compensation and grade level.

Description of Compensation Decision Making Process

Role of Committee

Our executive compensation program is designed and implemented under the direction of the Committee, which is comprised solely of independent directors. The Committee reviews salaries and other compensation arrangements for our Chief Executive Officer and members of our executive committee, which is comprised of our most senior executives including our named executive officers, and approves such compensation for all executive committee members (except our CEO). With respect to our CEO, the Committee makes recommendations to the Board regarding his compensation level. All final decisions regarding CEO compensation are made by the Board.

The Committee meets as often as necessary to discharge its responsibilities, and is authorized to retain compensation consultants to assist them. The Committee periodically consults with outside advisors, and uses survey data provided by such consultants, as discussed below under Compensation Discussion and Analysis Description of Compensation Decision Making Process Role of Surveys and Benchmarking, in connection with its decisions with respect to executive compensation matters. Specifically, with regard to our annual incentive program, each year the Committee approves the corporate objectives as well as individual objectives for each executive committee member (except our CEO). These objectives impact the amount of the executive's annual incentive compensation.

Role of Chief Executive Officer and Management

Our Chief Executive Officer is included in discussions and makes recommendations on compensation program structure for our executive committee members. The Committee reviews the recommendations from the

Chief Executive Officer and makes all final compensation decisions. Our Chief Executive Officer also provides his evaluation of each executive officer's performance, including our named executive officers, against their individual objectives for the Committee's consideration and approval as part of his recommendation for appropriate compensation awards under the annual incentive program. Our CEO does not participate in discussions regarding his own compensation.

Role of Consultant

We engaged Executive Compensation Advisors (ECA), a Korn/Ferry company, in March 2008 to review the compensation of our Chief Executive Officer and executive committee members and to recommend changes to our long-term incentive program. ECA reviewed competitive data based on published surveys, as discussed below under Compensation Discussion and Analysis Description of Compensation Decision Making Process Role of Surveys and Benchmarking, and provided long-term incentive recommendations to the Committee. In April 2009, the Committee engaged ECA to provide advice regarding design changes for our fiscal 2010 compensation program. Services provided by ECA included advice regarding executive compensation best practices and assistance in benchmarking executive compensation levels.

In fiscal 2010, our key advisor at ECA left to establish his own independent executive compensation consulting company, ClearBridge Compensation Group (ClearBridge). Consequently, the Committee elected to retain ClearBridge to ensure continuity of service.

Role of Surveys and Benchmarking

ECA reviewed the competitiveness of compensation for all executives based on market data for companies with revenue from \$3 billion to \$6 billion from Towers Perrin Compensation Data Bank® Executive Compensation Survey (the Towers Perrin Survey), a nationally-published survey of companies across multiple industries. The Towers Perrin Survey is comprised of 107 companies.

The Committee does not use a formal peer group in determining executive compensation as there is no well-defined group of comparable publicly-traded companies in the United States operating in the same industries. As a result, the Committee believes that the broad industry comparison provided by the Towers Perrin Survey is appropriate. While such survey information is considered by the Committee to assist in setting a range for the individual and combined elements of compensation for our named executive officers and other members of our executive committee, it is not solely determinative.

Executives are benchmarked against positions comparable to their own based on level, revenue, scope of role and job description. The Committee used benchmark data as an input (among other factors considered) to setting compensation levels for our named executive officers. While the Committee uses the 50th percentile market data as a reference point, it does not target a specific percentile positioning of compensation for our named executive officers. Other factors considered by the Committee are discussed below in Compensation Discussion and Analysis Key Components of Executive Compensation for Fiscal 2009.

Key Components of Executive Compensation for Fiscal 2009

Our executive compensation program for fiscal 2009 focused on the achievement of key strategic objectives and increased focus on stockholder value creation, while recognizing that the economic environment in fiscal 2009 was challenging. The fiscal 2009 pay packages for our named executive officers consisted of salary, short and long-term incentive opportunities and other benefits discussed below. The Committee determined the mix of salary and at risk pay based primarily on its review of the executive's position within our company, internal pay equity, and market data provided by ECA. The Committee believes that using a mix of compensation types (for example, salary, cash incentives, and equity) and performance periods (for example, one-year and three-year periods) promotes behavior consistent with our long-term strategic plan and minimizes the likelihood of executives having significant motivation to pursue unsustainable results.

Base Salary

The base salary for each of our named executive officers represents the fixed portion of his total compensation. Base salary generally is targeted at the market median. However, actual incumbent pay may be above or below this standard in order to recognize management responsibilities, individual abilities and performance, level of experience and tenure with our company. In setting base salaries, we consider internal and market comparisons, including benchmark data provided by outside consultants. The Committee's objective is to provide a reasonable level of fixed compensation that is competitive with base salaries for comparable positions at similar companies.

At the request of the Committee, Mr. Paliwal, our Chief Executive Officer, makes annual recommendations with respect to changes in base salary for our executive officers. The Committee makes all final decisions on base salaries. In September 2008, the Committee considered changes to the base salaries for our named executive officers for fiscal 2009. Mr. Paliwal recommended to the Committee that the base salaries of all our named executive officers remain unchanged in light of the uncertain impact which general economic conditions may have on our business. The Committee accepted this recommendation and, consequently, we did not make any salary increases in fiscal 2009 for any of the named executive officers, including Mr. Paliwal. This was the third consecutive fiscal year that there have been no merit increases in base salary for our executive committee members, including our named executive officers.

Annual Incentive Program

We maintain two annual incentive compensation programs for our executive officers and other key employees that provide for awards in the form of cash bonuses: a Management Incentive Plan (MIC Plan); and the 2008 Key Executive Officers Bonus Plan (the Key Executive Plan). Executive officers and key employees are only eligible to participate in one program. The objectives of these programs are:

to link annual corporate and business priorities with individual and group performance goals;

to tie financial rewards to measurable achievements, reinforcing pay-for-performance;

to reward achievement of difficult targets, with bonus payout directly linked to achievement of those targets;

to reward individual performance; and

to provide a variable award opportunity that attracts, retains and motivates our leadership and key employees.

Management Incentive Plan

Under the MIC Plan, executive officers and key employees are eligible to receive a cash bonus expressed as a percentage of base salary. The maximum payout opportunity permitted under the MIC Plan is 100% of base salary. The achievement opportunity for each measure selected by the Committee ranges from 50% to 150% of the target award, assuming that performance on each individual measure is above the threshold level. In order to receive an award under the MIC Plan, our company or the executive's business unit must achieve pre-established performance targets. Subject to the Committee's discretion, the performance metrics may include:

return on stockholder equity;

cash flow/net asset ratio;

return on total capital or assets;

return on consolidated equity;

earnings or earnings per share;

revenue;

cash flow;

stock price or total return to stockholders;

operating income or earnings before interest and taxes (EBIT);

earnings before interest, taxes, depreciation and amortization (EBITDA);

enterprise value;

cost initiatives, which can include targets involving capital expenditures, cost of purchased material and full-time and part-time payroll (such as global footprint index described below under Compensation Discussion and Analysis Key Components of Executive Compensation for Fiscal 2009 Fiscal 2009 Annual Incentive Compensation Awards); and/or

economic value added or economic profit.

The targets for each metric are established by reference to our internal business plan. The Committee determines the specific measures, threshold and target values, and maximum values for each member of our executive committee, and our CEO establishes their individual achievement objectives. The fiscal 2009 objectives for our named executive officers are set forth below in Compensation Discussion and Analysis Key Components of Executive Compensation for Fiscal 2009 Fiscal 2009 Annual Incentive Compensation Awards.

MIC Plan participants are also evaluated based upon performance against individual targets. Performance against these objectives results in a multiplier from zero to 120% of the initial value. The initial value is calculated based on achievement of our or our business unit s specified objectives. If threshold level is not achieved for any of the corporate or business unit measures, then there is no payment under the MIC Plan regardless of a participant s achievement of his or her individual objectives. However, the Committee retains the authority to award discretionary cash bonuses to executives who participate in the MIC Plan under circumstances in which the company or business unit performance targets are not met in a fiscal year. For instance, in fiscal 2009 the Committee approved a discretionary bonus to Mr. David Karch, our head of Operational Excellence, to recognize his achievement of a capital expenditure initiative.

2008 Key Executive Officers Bonus Plan

Our Key Executive Plan is an annual incentive program for our Chief Executive Officer and potentially other members of our executive committee if they are designated by the Committee. The Committee designates participants to the Key Executive Plan annually, within 90 days of the start of our fiscal year. Awards payable under the Key Executive Plan are intended to qualify as performance-based compensation for federal income tax purposes. Under the Key Executive Plan, our Chief Executive Officer and any other designated executive officers are eligible to receive awards. The Key Executive Plan includes performance measures that are consistent with those under the MIC Plan as described above. Annual cash awards payable to any plan participant under the Key Executive Plan cannot exceed \$3 million. The Committee maintains discretion under the Key Executive Plan to decrease the amount paid to any participant in the Key Executive Plan. In fiscal 2009, Mr. Paliwal, Mr. Parker and Mr. Augsburger were designated by the Committee as participants under the Key Executive Plan. Our other named executive officers were not designated as participants under this plan as their targeted payouts were not expected to exceed 100% of base salary for fiscal 2009.

Fiscal 2009 Annual Incentive Compensation Awards

In September 2008, the Committee approved Mr. Paliwal's 2009 target annual incentive award under the Key Executive Plan (as provided for in his letter agreement), and the 2009 target awards for the executive officers who are participants in the Key Executive Plan and the MIC Plan, including the named executive officers. At the same time, the Committee approved the performance measures and goals for the awards. The awards were subject to our company achieving specified levels of performance for the following metrics:

revenue growth;

operating profit,

free cash flow; and

global footprint index.

Free cash flow is a non-GAAP measure which the Committee calculated as follows: operating income plus depreciation and amortization plus change in working capital. The change in working capital includes net accounts receivable from third parties plus net inventories less trade accounts payable to third parties. The global footprint index (Global Footprint Index) is comprised of three components based on capital expenditures, full-time equivalent employees and material purchases and is calculated as follows:

The Committee selected these metrics because it believes that:

they are critical to our overall corporate and operational performance,

they reinforce management focus on the annual business plan;

with respect to free cash flow, provides a measure of our ability to generate cash and reinvest in growth initiatives;

with respect to the Global Footprint Index, is useful for evaluating our success in optimizing our global footprint in manufacturing, engineering and sourcing, to drive profitable growth and to enhance stockholder value; and

together, they drive long-term stockholder value creation.

In addition to the corporate metrics described above, the awards for our named executive officers (other than the CEO) are subject to the achievement of individual and/or divisional objectives, depending on the named executive officer's role and responsibilities. The Committee does not establish individual targets for our CEO.

The following tables set forth the threshold, target and maximum levels of performance, the weights of each corporate or division performance metric and actual performance for each of these metrics in fiscal 2009:

For Dr. Blickle, Mr. Schinagel, Mr. Sorota and Mr. Augsburg, the Committee assigned a weight of 70% to the division objectives and a weight of 30% to the corporate objectives. For Mr. Paliwal, Mr. Parker and Mr. Karch, the corporate objectives were assigned a weight of 100%.

Like the corporate and divisional objectives, individual performance objectives are intended to challenge executives to achieve stretch goals that contribute to the achievement of the annual operating plan, improve our company's performance, and ensure that corporate and divisional financial goals are met or exceeded. Individual performance objectives are also designed to ensure successful execution of ongoing strategic objectives, such as the development and launch of new products, the rollout of new sales and distribution schemes in specific territories, and the successful execution of restructuring activities.

In August 2009, with input from the CEO, the Committee assessed the named executive officers' fiscal 2009 individual performance against their individual objectives. Potential scores for achievement of individual performance objectives range from 0% to 120%. As scored by the Committee, Mr. Parker's aggregate individual objective score was 98%; Mr. Augsburg's was 120%; Dr. Blickle's was 88%; and Mr. Karch's was 100%. As Mr. Schinagel and Mr. Sorota resigned from their positions in January 2009, they were no longer eligible to receive any annual incentive compensation for fiscal 2009.

The annual incentive compensation is calculated by multiplying the total business target achievement by the individual target achievement. The difficult economic environment in fiscal 2009 led to below target performance and, as a result, Key Executive Plan and MIC Plan payouts were significantly below target.

consistent with our pay for performance philosophy. Actual results for revenue, operating profit, and free cash flow in fiscal 2009 did not meet threshold levels of performance resulting in no payouts for those metrics. Actual Global Footprint Index was 87% resulting in an overall payout of 11.3% of target. The following table sets forth the target awards and actual payouts, each as a percentage of base salary, for Mr. Paliwal and our named executive officers:

Name	Target Annual Incentive Award (% of base salary)	Actual Payout (% of base salary)
Dinesh Paliwal	150%	11.3%
Herbert Parker	75%	11.1%
Blake Augsburg	75%	29.3%
Dr. Klaus Blicke(1)	75%	3.0%
David Karch	75%	11.3%

- (1) Although Dr. Blicke achieved a payout for fiscal 2009 of three percent of his base salary, pursuant to the terms of his employment agreement he was entitled to a guaranteed bonus payment of EUR150,000. The Committee decided, in its judgment, that this guaranteed bonus was needed to recruit Dr. Blicke to join our company.

Long-Term Equity Incentive Program

Our equity incentive plans are administered by the Committee and are designed to provide incentive compensation to executive officers and other key employees, in the form of stock options, restricted shares and restricted share units. It is also intended to encourage ownership of our Common Stock by our executive officers and key employees. The objectives of our long-term equity incentive program are to align the interests of management with our stockholders, to retain senior management and key employees, and to reward achievement of our strategic objectives. The Committee believes that long-term incentives should be targeted at or above the market median (i.e., 50th-75th percentile), with individual equity awards that recognize an executive's impact, overall corporate success and the creation of stockholder value.

A substantial majority of the option grants that have been awarded to our named executive officers under our equity incentive plans are non-qualified stock options, thereby providing us with the ability to realize tax benefits upon the exercise of these option awards. Awards of restricted shares and restricted share units granted under the plans have a minimum vesting period of three years and, therefore, are subject to forfeiture for a period of at least three years.

When making equity-based incentive awards, the Committee takes into consideration the dates on which we expect to make public announcements regarding earnings as well as other events or circumstances that have not been publicly announced that may be deemed material to us, our stockholders and other investors.

Fiscal 2009 Equity Awards

In September 2008, we put in place a new long-term equity incentive program for management (excluding the CEO whose long-term incentive program was set in his employment agreement) granting equity in the form of 50% stock options, 25% time-vested restricted share units (Time Vested RSUs), and 25% performance vesting restricted share units (Performance RSUs). The value at the date of grant was set to be approximately at the 75th percentile of the Towers Perrin Survey on average across all executive officers when the maximum number of Performance RSUs was earned. This shift from primarily stock options in prior years represents movement toward greater alignment with our stockholders through holding restricted stock and a more focused approach to performance orientation with performance awards that are tied to explicit performance measures beyond stock price growth. This also aligns the Committee's desire to reward superior performance with above average long-term compensation.

The performance measures for the Performance RSUs for fiscal 2009 were operating income and the Global Footprint Index. Fifty percent of the Performance RSUs can be earned based on the achievement of each measure. The number of Performance RSUs that will vest will be determined as follows:

no Performance RSUs will be earned for performance below the threshold level;

25% of the Performance RSUs for each measure will be earned upon achievement of the threshold level for each of the measures;

100% of the Performance RSUs for each measure will be earned upon achievement of the maximum level for each of the measures;
and

For performance between threshold and maximum, the number of Performance RSUs earned will be determined by straight-line interpolation.

These measures are key strategic objectives for us that are viewed by the Committee as long-term drivers of sustainable stockholder value creation.

The fiscal 2009 long-term equity awards vest as follows:

stock options vest ratably over a three-year period, commencing on the first anniversary of the grant date;

Time Vested RSUs vest on the third anniversary of the grant date; and

Performance RSUs vest on the third anniversary of the grant date subject to the achievement of the performance goals specified above during the measurement period. The vesting schedule for the Performance RSUs is linked to the time period allotted to achieve the objectives and appropriately focuses the executive on long-term performance.

The CEO's long-term equity incentive grant in September 2008 was determined based on a formulaic approach established in his employment contract. He received a long-term equity incentive award with a present value at grant of two times his target bonus comprised of 25% stock options and 75% Time Vested RSUs. The Time Vested RSUs vest fully on September 17, 2011. The stock options vest in three equal annual increments commencing one year from the grant date. The Board decided, in its judgment, that this agreement was needed to recruit Mr. Paliwal to join our company and to mitigate the risks associated with leaving his former employer and assuming the challenges of his new position.

In addition to the core annual grant made to Mr. Paliwal, the Committee made a supplemental grant of Time Vested RSUs to partially restore the intended value of grants made to the CEO upon his hire (which grants were made to the CEO to offset awards he forfeited in connection with leaving his former employer to join our company), as the decline in the equity value stemmed from factors preceding his employment with our company. The 73,814 Time Vested RSUs granted vest over four years, consistent with the vesting of the original grant made at hire.

The awards made to our named executive officers are described in more detail below under the captions *Executive Compensation - Fiscal 2009 Grants of Plan-Based Awards* and *Executive Compensation - Outstanding Equity Awards at 2009 Fiscal Year-End*. For additional information regarding the compensation received by our named executive officers in fiscal 2009, see the information below under the caption *Executive Compensation - Summary Compensation Table*.

CEO Special Bonus Program

In early fiscal 2010 the Board canceled the CEO's long-term cash incentive award that he was eligible to receive under the November 2007 amendment to his employment letter agreement (the *Special Bonus*). This

program was adopted in fiscal 2008 and provided for a long-term cash incentive payment opportunity of up to \$75 million in November 2012 based on achievement of enterprise value goals over a five-year period. Below threshold performance of less than 1.3 times our enterprise value on November 9, 2007 would result in no payout of the Special Bonus. Following a review of this program, the Board deemed the Special Bonus to no longer be effective as it did not drive desired performance and did not accomplish its goal of retention. Further, in replacing the Special Bonus, the Committee believes that it has created an appropriate balance between risk and reward for the CEO. The Board believes that the CEO's compensation program, as changed, is in line with competitive benchmarks.

Benefits, Perquisites, and Contracts

Employment Agreements and Offer Letters

We have employment agreements with Mr. Paliwal, Dr. Blickle and Mr. Schinagel. The employment agreement with Mr. Paliwal provides continuity and stability in leadership for the organization. Dr. Blickle and Mr. Schinagel are based in Germany where employment agreements with executives are customary. From time to time, we may also enter into employment offer letters with newly hired or promoted executive officers and key employees in order to attract and retain these qualified individuals. These offer letters document employment terms, including initial base salary, target incentive amounts and severance benefits that are typically limited to a qualifying termination of employment during the first year of employment. These offer letters do not make commitments to maintain salary and target incentive amounts at or above those initial levels in future years. You can find additional information regarding terms of the employment agreements and offer letters below under [Executive Compensation](#) [Employment Agreements and Other Employment Arrangements](#).

Severance and Change-in-Control Arrangements

In addition to the employment arrangements identified above, we also have severance agreements with Mr. Paliwal and each of our named executive officers (except Dr. Blickle, Mr. Schinagel and Mr. Sorota), which are detailed below in this Proxy Statement under [Executive Compensation](#) [Severance and Change in Control Benefits](#). These agreements provide for severance benefits in the event of a termination of employment under specified circumstances following a change in control of our company. The payout amounts under these agreements range from a multiple of three times base salary plus bonus for our CEO, two times base salary plus bonus for our CFO and 1.5 times base salary for our other named executive officers. The Committee has determined that the differences in payout amounts and other benefits under these severance agreements, including the tax gross-up discussed below, are reasonable and is based on a combination of competitive practices for employment arrangements for comparable positions in the broader market and the expected time to elapse in finding a new, comparable position. We did not enter into a severance agreement with Mr. Sorota as his resignation occurred prior to the Committee's decision to provide this benefit to our named executive officers (other than our CEO and CFO). We also do not provide this benefit to our German-based employees as the Committee believes that their employment agreements provide for adequate compensation in these situations.

With respect to the severance benefits provided to our named executive officers, we believe that these severance benefits allow us to attract and retain these individuals. We also believe that the change in control severance benefits provided to the named executive officers align executive and stockholder interests by enabling our named executive officers to consider corporate transactions that are in the best interests of our stockholders and other constituents without undue concern over whether the transactions may jeopardize the named executive officer's own employment. Our change in control arrangements are "double-trigger" such that the named executive officer will be entitled to cash severance payments on a change in control only if the named executive officer's employment terminates in connection with or following the change in control.

If any severance payments or benefits provided to either Mr. Paliwal or Mr. Parker would be subject to the excise tax imposed on "parachute payments" by the Internal Revenue Code of 1986, we will "gross-up" his

compensation for all such excise taxes and any federal, state and local taxes applicable to such gross-up payment. The Committee decided, in the exercise of its judgment, that we would not provide this benefit to any of our other named executive officers.

Under the terms of our stockholder approved equity incentive plans and the related award agreements, unvested stock options, restricted shares and restricted share unit awards become fully vested upon a change in control of our company. We adopted this single-trigger treatment for our long-term compensation plan for the following reasons:

to be consistent with current market practice;

to ensure that ongoing employees are treated the same as terminated employees with respect to outstanding equity grants; and

to retain key employees in the face of a potential change in control by providing a benefit if they remain with our company through the date of the change in control.

The Committee believes that these benefits are in line with industry practice and are necessary and appropriate in order to attract and retain qualified senior executives.

Employee Benefits

We provide certain executive officers with supplemental retirement, termination and death benefits under our Supplemental Executive Retirement Plan. As of January 2008 we decided to suspend providing this benefit to newly hired executive officers. Dr. Blickle and Mr. Schinagel are entitled to pension and related benefits under the terms of their employment agreements. As described above, these differences in retirement benefits derive from their employment in Germany, where substantially all of our employees participate in a defined benefit pension program. We also provide our executive officers employed in the United States, including our named executive officers, with the opportunity to participate in a deferred compensation plan (DCP). The objectives of the DCP are to allow executives and certain key employees to accumulate wealth on a tax-deferred basis and to be competitive in recruiting and maintaining executive talent. The DCP permits certain management employees to defer payment and taxation of a portion of salary and bonus into any of several investment alternatives. These plans are described below under the captions Executive Compensation Pension Benefits for Fiscal 2009 Supplemental Executive Retirement Plan and Executive Compensation Nonqualified Deferred Compensation.

Our named executive officers are also eligible to participate in other company-sponsored benefit plans available to employees generally, including medical and life insurance. Employees, including executive officers that are employed in the United States, are eligible to participate in a company-sponsored 401(k) defined contribution plan. Given the current economic situation, we cancelled the employer match portion of the 401(k) plan in calendar 2009.

The Committee believes that these benefits are necessary and appropriate in order to attract and retain qualified executive officers insofar as these benefits are generally made available by similarly situated companies.

Executive Perquisites

We provide our named executive officers with certain perquisites that have historically been provided and that the Committee believes enhance our ability to attract and retain qualified executives. These perquisites include the use of company owned or leased cars and reimbursement of car-related expenses, payment of insurance premiums, relocation expenses in the event an executive officer is asked to relocate at our request, reimbursement of legal fees, and rent for temporary housing.

The Committee has determined it is appropriate to provide these perquisites in order to attract and retain our named executive officers by offering compensation opportunities that are competitive with those offered by similarly situated public companies. In determining the total compensation payable to our named executive officers, the Committee considers perquisites in the context of the total compensation which our named executive officers are eligible to receive. However, given the fact that perquisites represent a relatively small portion of the executive's total compensation, the availability of these perquisites does not materially influence the decisions made by the Committee with respect to other elements of the total compensation to which our named executive officers are entitled or awarded. For a description of the perquisites received by our named executive officers during fiscal 2009, see the information below under the caption "Executive Compensation Summary Compensation Table - All Other Compensation."

Refinements to the Compensation Program in Fiscal 2010

The Committee reviews and reassesses our compensation programs annually to determine their effectiveness and adequacy in light of the stated objectives of these programs. The Committee strives to implement programs with challenging but realizable goals so as to properly incentivize executives and align their interests with those of our stockholders. Following their review of our current programs in early fiscal 2010, the Committee decided that it would be necessary to restructure the total compensation program for our Chief Executive Officer and our executive committee members, including our named executive officers, to further increase our pay for performance orientation. In light of the importance of the STEP Change restructuring program, which targets \$400 million in sustainable cost-savings on an annualized basis, to our long-term strategic positioning and value creation, the Committee determined that placing more emphasis on our most important near-to-medium term management task would be necessary to better align the interests of management with our stockholders. The Committee believes that operating margin is an accurate measure for determining achievement of the STEP Change objective.

The Committee reviewed the market data and streamlined CEO compensation to bring it in line with our CEO's role and responsibilities and industry benchmarks. To enhance the effectiveness of the program in driving performance going forward, the Committee restructured the CEO's compensation program in the following manner:

Increased the target annual incentive opportunity for fiscal 2010 from 150% to 200% of base salary, and increased the maximum from 200% to 300% of base salary: The new target provides additional focus on our annual goals as we look to improve performance and increase the CEO's proportion of at risk pay.

Set target opportunity for long-term equity incentive grant as a fixed amount with additional upside up to a maximum tied to aggressive performance goals: Shifted grant amount from a multiple of two times annual incentive to a fixed amount equal to six times base salary to emphasize the importance of long-term performance and avoid short-term results driving long-term payouts.

Changed long-term equity incentive mix to 33% Time Vested RSUs and 67% Performance RSUs (at maximum achievement level) from 25% stock options and 75% Time Vested RSUs: This shift in mix reinforces the Committee's objectives of pay for performance, alignment with our stockholders, and focus on driving achievement of our strategic plan. Performance RSUs are earned on achievement of significant operating margin improvement, a key component of the STEP Change program. By linking the largest component of pay to this strategic program, we ensure that the CEO's interest aligns with stockholder interest.

In light of the above changes, the Committee cancelled the Special Bonus, which provided a maximum incentive opportunity of \$75 million, as more fully described above in "Compensation Discussion and Analysis - Key Components of Executive Compensation for Fiscal 2009."

The long-term equity incentive program for our named executive officers and our other executive committee members has been changed to mirror the CEO mix and performance measures so that the entire senior management team will be aligned to the same purpose, although the target values for grants of long-term equity remained unchanged for our named executive officers.

Also for fiscal 2010, given the continuing economic downturn and the lack of long-term visibility with regard to the macroeconomic environment, the Committee decided to establish two sets of targets under the MIC Plan and the Key Executive Plan, one for the first half of fiscal 2010 and a second for the second half fiscal 2010. Although bonuses will be earned at the end of each six-month period, any payouts under these plans will be made in early fiscal 2011.

Stock Ownership Guidelines

The Board approved and adopted executive stock ownership guidelines in fiscal 2009. These guidelines encourage our executive officers to hold ownership in our company, recognizing that stock ownership directly aligns executive interests to those of our stockholders. The guidelines encourage ownership levels in our Common Stock generally equal to a multiple of each named executive officer's annual base salary depending on such executive's level with our company, and increases with greater responsibility. The named executive officer stock ownership guidelines are as follows:

five times base salary for the CEO; and

three times base salary for all other named executive officers.

The CEO multiple of five times is consistent with competitive market practice and recognizes that the CEO receives the greatest long-term equity-based compensation relative to his base salary. The three times multiple for our other named executive officers is also consistent with competitive market practice and reflects the smaller long-term incentive opportunity, as a percentage of their base salary, as compared to the CEO. Executives are expected to comply by December 21, 2013 or within five years of being appointed as an executive officer of our company.

Internal Revenue Code Section 162(m)

As applicable to our company, Section 162(m) of the Internal Revenue Code (Code) provides that compensation in excess of \$1 million paid to the chief executive officer or to any of the other three most highly compensated executive officers (not including the chief financial officer) of a public company is not deductible for federal income tax purposes unless the compensation qualifies as performance-based compensation under Section 162(m) of the Code. Bonus awards under our Key Executive Plan and option grants and certain other awards under our equity incentive plans are intended to qualify as performance-based compensation under Section 162(m) of the Code. The Committee reviews on an annual basis the potential impact of this deduction limitation on executive compensation. The Committee intends to continue to evaluate our company's potential exposure to this deduction limitation.

Supplemental Executive Retirement Plan

The Supplemental Plan provides supplemental retirement, termination and death benefits to certain executive officers and key employees designated by the Board. Benefits under the Supplemental Plan payable upon termination or death are described below under the caption Executive Compensation Severance and Change in Control Benefits Supplemental Executive Retirement Plan. The Compensation and Option Committee administers the Supplemental Plan. Of the named executive officers, only Mr. Paliwal and Mr. Augsburg have been designated as participants. All Supplemental Plan benefits are subject to deductions for Social Security and federal, state and local taxes.

Retirement benefits are based on the average of the participant's highest cash compensation (base salary and bonus) during any five consecutive years of employment by our company (Average Cash Compensation). Participants retiring at age 65 or older receive an annual retirement benefit equal to either (a) 3 1/3% of Average Cash Compensation per year of service up to a maximum of 50%, or (b) 2% of Average Cash Compensation per year of service up to a maximum of 30%, as designated by us. Mr. Paliwal has been designated as a participant entitled to receive an annual retirement benefit of up to 50% of Average Cash Compensation, and Mr. Augsburg has been designated as a participant entitled to receive an annual retirement benefit of up to 30% of Average Cash Compensation. Unless another form of payment is approved by the administrative committee for the Supplemental Plan, benefits are payable monthly in the form of a life annuity. If the participant dies after benefits have commenced but prior to receiving ten years of benefits, they are paid to the participant's beneficiary for the remainder of that period.

Other Retirement Benefits

Mr. Schinagel is entitled to receive an annual pension benefit pursuant to his employment agreement with us equal to 12.5% of his average base salary during his time of service with our company. This benefit will be increased by 2.5% for each year Mr. Schinagel is employed by us beyond five years, up to a maximum of 30%. Mr. Schinagel is entitled to this pension benefit once he reaches age 60 and is no longer employed by us; provided, however, that if Mr. Schinagel is terminated for good cause as determined by the German Civil Code on or before October 2, 2011, he will not be entitled to any pension benefit from us. Mr. Schinagel's annual pension benefit will be reduced by any other pension benefits he is entitled to from previous employers.

Dr. Blicke is entitled to receive an annual pension benefit pursuant to his employment agreement with us equal to EUR54,000. This benefit will be increased by EUR18,000 for each year Dr. Blicke is employed by us, up to a maximum of EUR36,000. Dr. Blicke is entitled to this pension benefit once he reaches age 60 and is no longer employed by us; provided, however, that if Dr. Blicke is terminated for good cause as determined by the German Civil Code on or before June 30, 2011, he will not be entitled to any pension benefit from us.

Nonqualified Deferred Compensation

Our Deferred Compensation Plan provides supplemental retirement benefits for executive officers designated by the Compensation and Option Committee. Prior to the beginning of each fiscal year, each plan participant may elect to defer up to 100% of his or her annual base salary and bonus on a pre-tax basis to a deferral account. These amounts are always fully vested and subject to a 10% penalty on any unscheduled withdrawals. We may decide to make contributions on a pre-tax basis to a plan participant's account, subject to a vesting schedule. In the event of a change in control of our company, any unvested amounts vest immediately and we indemnify the plan participant for any expense incurred in enforcing his or her rights under the Deferred Compensation Plan.

Plan participants specify that portion of their accounts to be deemed invested in designated benchmark funds. This may be changed once in any calendar month by the plan participant. We credit earnings to the accounts based on the rate of return of the designated funds. For fiscal 2009, the designated funds produced returns ranging from (36.18)% to 9.09%. Upon retirement or termination of employment other than due to death, plan participants may receive their account balances in the form of a lump-sum payment or in annual installments. In the event of death prior to the commencement of benefits or during payment of installments, the balances in a plan participant's vested accounts as of the date of death are payable to the plan participant's beneficiaries.

None of our named executive officers made contributions to our Deferred Compensation Plan in fiscal 2009, and none of our named executive officers has made contributions to such plan in the past.

Severance and Change in Control Benefits

We provide benefits to each of the named executive officers in the event his employment is terminated. We provide these benefits through our Supplemental Plan, Key Executive Plan and employment and severance agreements we have entered into with some of the named executive officers.

Severance and Employment Agreements

We have entered into severance agreements with Messrs. Paliwal, Parker, Augsburg and Karch. The severance agreements provide that if, within six months prior to or two years following a change in control, as defined below, of our company, an executive officer is terminated without cause or under certain circumstances terminates his own employment, he is entitled to receive a severance payment. For Mr. Paliwal, the severance payment is equal to three times the sum of Mr. Paliwal's highest annual base salary during any period prior to his termination plus his highest incentive pay during the three fiscal years preceding the change in control. For Mr. Parker, the severance payment is equal to two times the sum of Mr. Parker's highest annual base salary during any period prior to his termination plus his highest incentive pay during the three fiscal years preceding the change in control. For each of Mr. Augsburg and Mr. Karch, the severance payment is equal to one and one-half times his highest base salary during any period prior to his termination.

Each of Mr. Paliwal and Mr. Parker is deemed to have been terminated without cause if he is terminated by us for any reason other than:

conviction of a felony; or

willful gross neglect or willful gross misconduct with respect to employment duties which results in material economic harm to us.

Each of the other named executive officers is deemed to have been terminated without cause if he is terminated by us for any reason other than:

conviction of a criminal violation involving fraud, embezzlement or theft in connection with his duties or in the course of his employment with us;

intentional wrongful damage to property of our company or of any subsidiary;

intentional wrongful disclosure of secret processes or confidential information of our company or of any subsidiary; or

intentional wrongful engagement in any competitive activity;
and any such act shall have been demonstrably and materially harmful to our company.

Each of the named executive officers is entitled to severance compensation if he terminates his employment within six months prior to or two years following a change in control under the following circumstances:

failure to maintain his office (or one substantially equivalent) with our company;

significant adverse change in authority, power, function, responsibilities or duties;

reduction in base salary and bonus;

termination or reduction in employee benefits;

a subsequent change in control of our company in which the successor company does not assume all of our duties and obligations under the severance agreement; or

relocation of his principal place of work of more than 50 miles or that requires him to travel away from his office 20% or more than was required in any of the three years immediately prior to the change in control.

In addition, each of Mr. Paliwal and Mr. Parker is entitled to severance compensation if he terminates his employment within six months prior to the change in control for good reason, which includes the following circumstances:

reduction in base salary and bonus;

as to Mr. Paliwal only, failure by our stockholders to elect or reelect him as a member of the Board;

diminution in any titles or a material diminution in duties or responsibilities; or

change in reporting relationship.

A change in control is defined as:

the acquisition by any person, entity or group of 25% or more of our voting stock, other than us or our subsidiaries or a company benefit plan, other than in a transaction that is not deemed a change in control as defined in the next bullet;

a reorganization, merger, consolidation, sale or other disposition of all or substantially all of our assets, or any other transaction having a similar effect unless:

the holders of our voting stock immediately prior to the transaction beneficially own more than 50% of the combined voting power of the surviving entity;

no person, entity or group beneficially owns 25% or more of the combined voting power of the surviving entity;

a majority of the directors of the surviving entity were directors of our company prior to the transaction;

when a majority of our directors (a) have not been approved by two-thirds of our then directors or (b) were elected or appointed as a result of an actual or threatened election contest; or

approval by our stockholders of a complete liquidation or dissolution of our company.

Each of the severance agreements for Mr. Paliwal and Mr. Parker also provides that we will pay an additional amount for excise taxes, subject to a limitation based on the overall cost of the severance agreement, including any additional gross-up payment for excise taxes, if applicable. Additionally, each of these agreements provides that Mr. Paliwal and Mr. Parker shall not engage in any competitive activity, as defined in the agreement, without our written consent, during the term of such agreement and for a period of one year after his employment is terminated.

We have also entered into a letter agreement with Mr. Paliwal. The provisions of this agreement provide for severance compensation if he is terminated without cause, whether or not a change in control has occurred. Mr. Paliwal is entitled to receive a severance payment equal to (1) two times the sum of his annual base salary plus his target annual bonus at the time of his termination, (2) a pro rata annual bonus based on actual performance and the portion of the fiscal year he was employed, (3) any unpaid bonus for the fiscal year preceding the year of termination, and (4) accelerated vesting of a pro rata number of any unvested restricted shares of the restricted stock award, inducement stock award and stock option award he received upon joining our company.

Supplemental Executive Retirement Plan

Mr. Paliwal and Mr. Augsburger are eligible for benefits under the Supplemental Plan in the event of a change in control of our company or termination of employment under certain circumstances. Benefits payable under the Supplemental Plan are based on the average of the participant's highest Average Cash Compensation during any five consecutive years of employment by our company.

A participant whose employment is terminated prior to age 65 with at least 15 years of service, and who is not otherwise entitled to retirement benefits under the Supplemental Plan, is entitled to an annual termination benefit equal to either (a) 30% of Average Cash Compensation, increased by 4% for each year of service over 15 years, up to a maximum of 50%, or (b) 15% of Average Cash Compensation, increased by 3% for each year of service over 15 years, up to a maximum of 30%, as designated by us. The termination benefit commences upon the later of termination of the participant's employment, other than due to death, or the participant reaching age 55. Mr. Paliwal has been designated as a participant entitled to receive an annual termination benefit of up to 50% of Average Cash Compensation and Mr. Augsburger has been designated as a participant entitled to receive an annual termination benefit of up to 30% of Average Cash Compensation.

Additionally, if a participant's employment is terminated for any reason other than death within three years after a change in control of our company, the participant vests with the maximum designated retirement benefit regardless of age or years of service and we indemnify the participant for any expense incurred in enforcing the participant's rights in the retirement benefit under the Supplemental Plan. Under the Supplemental Plan, a change in control is defined in the same manner as under Mr. Paliwal's severance agreement, as described above.

A pre-retirement death benefit equal to two or three times the highest annual cash compensation achieved by a participant during his or her employment with our company is paid to the beneficiaries of a participant who dies prior to the commencement of benefits under the Supplemental Plan. Mr. Paliwal has been designated as a participant entitled to receive a death benefit equal to three times his highest annual cash compensation, and Mr. Augsburger has been designated as a participant entitled to receive a death benefit equal to two times his highest annual cash compensation. The benefit is paid to the participant's designated beneficiary in a single lump sum or, at the request of the beneficiary and with the consent of the administrative committee, the benefit may be paid in another form providing the actuarial equivalent of the lump-sum payment.

2008 Key Executive Officers Bonus Plan

In the event of a change in control of our company, each participant in the Key Executive Plan is entitled to the award amount for that fiscal year without pro ration or any other deduction, provided that he or she is employed by us at the time of the change in control or, if the plan participant is no longer employed by us, the participant's employment is terminated after commencement of discussions that resulted in a change in control of our company but within 180 days prior to the change in control. Under this plan, a change in control is defined in the same manner as under Mr. Paliwal's severance agreement, as described above.

Summary of Benefits

The following tables quantify potential compensation that would become payable to each of Mr. Paliwal, Mr. Parker, Mr. Augsburger, Dr. Blickle and Mr. Karch, under the agreements and our plans and policies discussed above if his employment had terminated on June 30, 2009, given his base salary as of that date and, if applicable, the closing price of our Common Stock on June 30, 2009.

Due to the factors that may affect the amount of any benefits provided upon the events described below, any actual amounts paid or payable may be different than those shown in these tables. Factors that could affect these amounts include the date the termination event occurs, the base salary of an executive officer on the date of termination of employment and the price of our Common Stock when the termination event occurs.

For Mr. Schinagel and Mr. Sorota, a discussion follows these tables regarding the compensation actually received upon their resignation.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Company Policies Regarding Related Party Transactions

The Board has not adopted a formal written policy regarding a transaction or series of transactions involving our company and a related party. A related party is one of our executive officers, directors, a person owning more than 5% of any class of our securities, an entity in which any of such persons is employed or is a partner or principal, or an immediate family member of such a person. The Board may consider the desirability of adopting a formal written policy during fiscal 2010. However, given our history and past practice, the Board may decide that such action is unnecessary.

While the Board has not adopted a formal written policy, directors are typically made aware of any transaction or transactions involving our company and a related party. On an annual basis, we request that each of our directors and executive officers identify potential related party transactions involving the director or executive officer and his or her family. In addition, our Code of Business Conduct provides that employees are to avoid situations or activities where their personal interests are, or may appear to be, in competition with or in opposition to our interests.

Certain KKR and Other Relationships

Brian F. Carroll, one of our directors, is a member of KKR & Co. LLC, which serves as a general partner of KKR. Rajat K. Gupta, another of our directors, is also a paid advisor to KKR and a director of Goldman, Sachs & Co.

On October 22, 2007, we entered into an agreement terminating the merger agreement with companies formed by investment funds affiliated with KKR and GS Capital Partners VI Fund, L.P. and its related funds (GSCP), which are sponsored by Goldman, Sachs & Co. Under this termination agreement, we, KKR, affiliates of KKR and GSCP agreed to release each other from all claims and actions arising out of or related to the merger agreement and the related transactions. In connection with this termination agreement, we issued \$400.0 million of our 1.25% Convertible Senior Notes due 2012, of which \$342.8 million was either purchased by an affiliate of KKR or for which KKR has substantial economic benefit and risk, and \$57.2 million was purchased by affiliates of GSCP. We also agreed to provide KKR registration rights with respect to the notes purchased in the transaction and our Common Stock into which the notes may be converted.

Further, in connection with the note purchase, KKR has the right to designate a nominee to the Board, for the Board's consideration, which designee must be qualified and suitable to serve under all of our applicable policies and guidelines and other regulatory requirements, meet the independence requirements of the New York Stock Exchange and otherwise be acceptable to the Board in its good faith discretion. For so long as KKR continues to have ownership rights as to at least \$200.0 million principal amount of the notes or until the occurrence of other specified events, KKR will have the right to select a successor designee in the event the designee ceases to serve on the Board, provided the membership requirements are met. Mr. Carroll was KKR's nominee. Based upon the recommendation of the Nominating and Governance Committee, the Board appointed Mr. Carroll as a director to serve for a term expiring at the 2011 annual meeting of stockholders.
