Registration Number 333-161330

PROSPECTUS SUPPLEMENT

(To Prospectus dated September 8, 2009)

\$50,000,000

Common Shares of Beneficial Interest

On November 6, 2009, we entered into an ATM Equity OfferingSM Sales Agreement, or the sales agreement, with Merrill Lynch, Pierce, Fenner & Smith Incorporated, or Merrill Lynch, relating to our common shares of beneficial interest, \$.01 par value, or common shares, offered by this prospectus supplement and the accompanying prospectus, having an aggregate sales price of up to \$50,000,000.

In accordance with the terms of the sales agreement, we may offer and sell our common shares at any time and from time to time through Merrill Lynch as our sales agent. Sales of the common shares, if any, will be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of the sale, at prices related to the prevailing market prices or at negotiated prices.

Our common shares are listed on the New York Stock Exchange under the symbol UHT. The last reported sale price of our common shares on November 5, 2009 was \$32.02 per share.

To preserve our status as a real estate investment trust for federal income tax purposes, we impose certain restrictions on ownership of our common shares. See Description of the Trust's Common Shares of Beneficial Interest and Preferred Shares of Beneficial Interest Redemption and Business Combination Provisions in the accompanying prospectus.

Investing in our common shares involves a high degree of risk. Before buying any common shares, you should read the discussion of material risks of investing in our common shares set forth under the caption Risk Factors on page S-8 of this prospectus supplement and in the accompanying prospectus under the caption Risk Factors, as well as the other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein.

Neither the Securities and Exchange Commission, or the SEC, nor any state securities commission has approved or disapproved of the common shares or determined that this prospectus supplement or the accompanying prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

Merrill Lynch will receive from us a commission equal to 3% of the gross sales price per share for any common shares sold through it as our sales agent under the sales agreement. Subject to the terms and conditions of the sales agreement, Merrill Lynch will use its commercially reasonable efforts to sell on our behalf any common shares to be offered by us under the sales agreement.

BofA Merrill Lynch

The date of this prospectus supplement is November 6, 2009.

Table of Contents

In making your investment decision, you should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. We have not, and Merrill Lynch has not, authorized anyone to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it.

This prospectus supplement and the accompanying prospectus are not offers to sell, nor are they seeking an offer to buy, the common shares offered by this prospectus supplement and the accompanying prospectus in any jurisdiction where the offer or sale is not permitted. The information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein is accurate only as of the dates of the respective documents in which such information is included, regardless of the time of any sale of the common shares offered hereby. Our business, financial condition, results of operations and prospects may have changed since those dates.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering, as well as general information about us and the securities being offered hereby. The second part, the accompanying prospectus, gives more general information, some of which may not apply to this offering. Generally, when we refer to the prospectus, we are referring to both parts of this document combined. You should read this entire prospectus supplement, as well as the accompanying prospectus and the documents incorporated by reference that are described under the headings *Additional Information* and *Incorporation of Documents By Reference* in this prospectus supplement, and under the heading *Where You Can Find More Information* in the accompanying prospectus. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or any document that has been previously filed and is incorporated into the accompanying prospectus by reference, on the other hand, the information in this prospectus supplement shall control.

All references in this prospectus supplement to *we*, *us*, *our* and the *Trust* refer to Universal Health Realty Income Trust. In this prospectus supplement, the term *revenues* does not include the revenues of the unconsolidated limited liability companies in which we have various non-controlling equity interests ranging from 33% to 99%. We currently account for our share of the income/loss from these investments by the equity method.

ADDITIONAL INFORMATION

We are required to file periodic reports and other information (File No. 001-09321) with the SEC under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Such reports, documents and other information may be inspected and copied at the public reference facilities of the SEC, at 100 F Street, N.E., Washington, D.C. 20459. Copies of this material may also be obtained by mail, upon payment of the SEC's prescribed rates, by writing to the Public Reference Section of the SEC at 100 F Street, N.E., Washington, D.C. 20459. Copies of such material may also be obtained from the SEC's website at <http://www.sec.gov> and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005, on which our common shares are listed.

This prospectus supplement is part of a registration statement on Form S-3 that we filed with the SEC. This prospectus supplement does not contain all the information in the registration statement. Whenever a reference is made in this prospectus supplement to a contract or other document of the Trust, the reference is only a summary, and you should refer to the exhibits that are a part of the registration statement for a copy of the contract or other document. You may review a copy of the registration statement at the SEC's public reference room in Washington, D.C., as well as through the SEC's website.

Table of Contents

INCORPORATION OF DOCUMENTS BY REFERENCE

We incorporate by reference into this prospectus supplement and the accompanying prospectus the documents listed below and any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, including any filings after the date of this prospectus supplement, until we have sold all of the shares to which this prospectus supplement relates or the offering is otherwise terminated. The information incorporated by reference is an important part of this prospectus supplement and the accompanying prospectus. Any statement in any document incorporated by reference into this prospectus supplement and the accompanying prospectus will be deemed to be modified or superseded to the extent a statement contained in this prospectus supplement or any other subsequently filed document that is incorporated by reference into this prospectus supplement and the accompanying prospectus modifies or supersedes such statement.

The following documents filed by us with the SEC are incorporated herein by reference:

our Annual Report on Form 10-K for the fiscal year ended December 31, 2008;

our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2009, June 30, 2009 and September 30, 2009;

our Current Report on Form 8-K filed on April 20, 2009; and

the description of the Trust's common shares contained in the Trust's Current Report on Form 8-K, filed on August 13, 2009, including any amendments or reports filed for the purpose of updating such description.

All documents we file pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and before all of the securities offered by this prospectus are sold or the offering is otherwise terminated are incorporated by reference into this prospectus supplement from the date of the filing of the documents, except for information furnished under Item 2.02 or Item 7.01 of Form 8-K or other information furnished to the SEC, which is not deemed filed and not incorporated by reference herein. Information that we file with the SEC will automatically update and may replace information in this prospectus and information filed with the SEC previously.

Upon request, copies of documents incorporated into this document by reference, except for exhibits, unless such exhibits are specifically incorporated into such documents by reference, are available without charge by contacting:

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Statements in this prospectus supplement and the accompanying prospectus and the information incorporated by reference in this prospectus supplement and the accompanying prospectus that are not historical factual statements are forward-looking statements that reflect our current estimates, expectations and projections about our future results, performance, prospects and opportunities. Forward-looking statements include, among other things, the information concerning our possible future results of operations, business and growth strategies, financing plans, expectations that regulatory developments or other matters will not have a material adverse effect on our business or financial condition, our competitive position and the effects of competition, the projected growth of the industry in which we operate, and the benefits and synergies to be obtained from our completed and any future acquisitions, and statements of our goals and objectives, and other similar expressions concerning matters that are not historical facts. Words such as may, will, should, could, would, predicts, potential, continue, expect, future, intends, plans, believes, estimates, appears, projects and similar expressions, as well as statements in the future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved, if they are achieved at all. Forward-looking information is based on information available at the time and/or our good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Such factors include, among other things, the following:

a substantial portion of our revenues are dependent upon one operator, Universal Health Services, Inc., or UHS;

a subsidiary of UHS is our advisor and our officers are all employees of UHS, which may create the potential for conflicts of interest;

lost revenues from purchase option exercises and lease expirations and non-renewals, loan repayments and other restructuring;

the availability and terms of capital to fund the growth of our business;

the outcome of known and unknown litigation, government investigations, and liabilities and other claims asserted against us or the operators of our facilities, as described in the accompanying prospectus and in the documents incorporated by reference herein and therein;

the potential unfavorable impact on our business of continued deterioration in national, regional and local economic and business conditions, including a continuation or worsening of unfavorable credit market conditions;

the continued deterioration in general economic conditions which could result in increases in the number of people unemployed and/or insured and likely increase the number of individuals without health insurance; as a result, the operators of our facilities may experience decreases in patient volumes which could result in decreased occupancy rates at our medical office buildings;

a worsening of the economic and employment conditions in the United States could materially affect the business of our operators, including UHS, which may unfavorably impact our future bonus rentals (on the UHS hospital facilities) and may potentially have a negative impact on the future lease renewal terms and the underlying value of our hospital properties;

the deterioration of credit and capital markets may adversely affect our access to sources of funding and we cannot be certain of the availability and terms of capital to fund the growth of our business when needed;

our majority ownership interests in various LLCs in which we hold non-controlling equity interests;

Table of Contents

real estate market factors, including without limitation, the supply of and demand for medical office space and market rental rates, changes in interest rates as well as an increase in the development of medical office condominiums in certain markets;

government regulations, including changes in the reimbursement levels under the Medicare and Medicaid programs;

the issues facing the health care industry that affect the operators of our facilities, including UHS, such as: changes in, or the ability to comply with, existing laws and government regulations; unfavorable changes in the levels and terms of reimbursement for our operators, including UHS, charges by third party payors or government programs, including Medicare or Medicaid; demographic changes; the ability to enter into managed care provider agreements on acceptable terms; an increase in uninsured and self-pay patients which unfavorably impacts the collectability of patient accounts; decreasing in-patient admission trends; technological and pharmaceutical improvements that may increase the cost of providing, or reduce the demand for, health care; and the ability to attract and retain qualified medical personnel, including physicians;

three LLCs that own properties in California, in which we have various non-controlling equity interests, could not obtain earthquake insurance at rates which are economically beneficial in relation to the risks covered;

competition for operators from other REITs;

competition from other health care providers, including physician owned facilities and other facilities owned by UHS, including, but not limited to, McAllen, Texas, the site of our largest acute care facility;

changes in, or inadvertent violations of, tax laws and regulations and other factors than can affect REITs and our status as a REIT;

should we be unable to comply with the strict income distribution requirements applicable to REITs, utilizing only cash generated by operating activities, we would be required to generate cash from other sources, which could adversely affect our financial condition;

fluctuations in the value of our common shares; and

other factors referenced in this prospectus supplement, the accompanying prospectus or in our other filings with the SEC.

Given these uncertainties, risks and assumptions, you are cautioned not to place undue reliance on such forward-looking statements. Our actual results and financial condition, including the operating results of our lessees and the facilities leased to subsidiaries of UHS, could differ materially from those expressed in, or implied by, the forward-looking statements.

Forward-looking statements speak only as of the date the statements are made. We assume no obligation to publicly update any forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except as may be required by law. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement.

Table of Contents

PROSPECTUS SUPPLEMENT SUMMARY

The following summary is qualified in its entirety by the more detailed information included elsewhere or incorporated by reference into this prospectus supplement or the accompanying prospectus. Because this is a summary, it may not contain all of the information that is important to you. You should read this entire prospectus supplement and the accompanying prospectus, including the section entitled Risk Factors on page S-8 of this prospectus supplement and the discussion in the accompanying prospectus under the caption Risk Factors, as well as the other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein, including our financial statements and the notes to those financial statements contained in such documents, before making an investment decision.

THE TRUST

We are a real estate investment trust, or REIT, that commenced operations in 1986. We invest in health care and human service related facilities, including acute care hospitals, behavioral healthcare facilities, rehabilitation hospitals, sub-acute facilities, surgery centers, childcare centers and medical office buildings. As of September 30, 2009, we have fifty-one real estate investments or commitments located in fifteen states in the United States consisting of:

seven hospital facilities, consisting of three acute care, one behavioral healthcare, one rehabilitation and two sub-acute;

forty medical office buildings, including thirty-one owned by various LLCs; and

four preschool and childcare centers.

Our executive offices are located at Universal Corporate Center, 367 South Gulph Road, P.O. Box 61558, King of Prussia, Pennsylvania 19406-0958, and our telephone number is (610) 265-0688.

THE TRUST'S RELATIONSHIP TO UHS

We lease a substantial amount of our property to, and a substantial amount of our revenues are dependent upon, UHS. UHS' principal business is owning and operating, through its subsidiaries, acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers and radiation oncology centers. As of September 30, 2009, UHS owned and/or operated or had under construction, 25 acute care hospitals (excluding 2 new replacement facilities currently being constructed) and 104 behavioral health centers located in 32 states, Washington, D.C. and Puerto Rico. As part of its ambulatory treatment centers division, UHS manages and/or owns outright or in partnerships with physicians, 8 surgical hospitals and surgery and radiation oncology centers located in 5 states and Puerto Rico.

Services provided by UHS' hospitals include general and specialty surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services and behavioral health services. UHS provides capital resources as well as a variety of management services to its facilities, including central purchasing, information services, finance and control systems, facilities planning, physician recruitment services, administrative personnel management, marketing and public relations.

Leases: We commenced operations in 1986 by purchasing the real property of certain subsidiaries of UHS and immediately leasing the properties back to the respective subsidiaries. Most of the leases were entered into at the time we commenced operations and provided for initial terms of 13 to 15 years with up to six additional

Table of Contents

5-year renewal terms, with base rents set forth in the leases effective for all but the last two renewal terms. The base rents are paid monthly and each lease also provides for additional or bonus rents which are computed and paid on a quarterly basis based upon a computation that compares current quarter revenue to a corresponding quarter in the base year. The leases with subsidiaries of UHS are unconditionally guaranteed by UHS and are cross-defaulted with one another.

The combined revenues generated from the leases on the UHS hospital facilities accounted for approximately 51% and 53% of our total revenue for the three months ended September 30, 2009 and 2008, respectively, and 51% and 56% for the nine months ended September 30, 2009 and 2008, respectively. Including 100% of the revenues generated at the unconsolidated LLCs in which we have various non-controlling equity interests ranging from 33% to 99%, the leases on the UHS hospital facilities accounted for approximately 20% of the combined consolidated and unconsolidated revenue for both of the three months ended September 30, 2009 and 2008, and 20% and 21% for the nine months ended September 30, 2009 and 2008, respectively. In addition, eleven medical office buildings (MOBs) (plus one additional MOB currently under construction) owned by LLCs in which we hold various non-controlling equity interests, include or will include tenants which are subsidiaries of UHS.

Pursuant to the Master Lease Document by and among us and certain subsidiaries of UHS, dated December 24, 1986, which governs the leases of all hospital properties with subsidiaries of UHS, UHS has the option to renew the leases on the terms described below by providing notice to us at least 90 days prior to the expiration of the then current term. In addition, UHS has rights of first refusal to: (i) purchase the respective leased facilities during the lease term and for 180 days thereafter at the same price, terms and conditions as any third-party offer, or; (ii) renew the lease on the respective leased facility at the end of, and for 180 days after, the lease term at the same terms and conditions as any third-party offer. UHS also has the right to purchase the respective leased facilities at the end of the lease terms or any renewal terms at the appraised fair market value. In addition, during 2006, as part of the overall exchange and substitution proposal relating to Chalmette Medical Center, as well as the early five year lease renewals on Southwest Healthcare System-Inland Valley Campus, Wellington Regional Medical Center, McAllen Medical Center and The Bridgeway, we agreed to amend the Master Lease Document to include a change of control provision. The change of control provision grants UHS the right, upon one month's notice should a change of control of the Trust occur, to purchase any or all of the four leased hospital properties at their appraised fair market value.

The table below details the renewal options and terms for each of the four UHS hospital facilities:

| Hospital Name | Type of Facility | Annual Minimum Rent | End of Lease Term | Renewal Term (years) |
|---|-------------------|---------------------|-------------------|----------------------|
| McAllen Medical Center | Acute Care | \$ 5,485,000 | December, 2011 | 20 (a) |
| Wellington Regional Medical Center | Acute Care | \$ 3,030,000 | December, 2011 | 20 (b) |
| Southwest Healthcare System, Inland Valley Campus | Acute Care | \$ 2,648,000 | December, 2011 | 20 (b) |
| The Bridgeway | Behavioral Health | \$ 930,000 | December, 2014 | 10 (c) |

- (a) UHS has four 5-year renewal options at existing lease rates (through 2031).
- (b) UHS has two 5-year renewal options at existing lease rates (through 2021) and two 5-year renewal options at fair market value lease rates (2022 through 2031).
- (c) UHS has two 5-year renewal options at fair market value lease rates (2015 through 2024).

We are committed to invest up to a total of \$8.6 million in equity and debt financing, of which \$4.6 million has been funded as of September 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC (Palmdale Medical Properties) that constructed, owns, and operates the Palmdale Medical Plaza, located in

Table of Contents

Palmdale, California, on the campus of a UHS hospital. This MOB has a triple net, 75% master lease commitment by UHS of Palmdale, Inc., a subsidiary of UHS, pursuant to the terms of which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and UHS of Palmdale, Inc. This MOB, tenants of which will include subsidiaries of UHS, was completed and opened during the third quarter of 2008 at which time the master lease commenced. Based upon the executed leases and letter of intent commitments in place as of September 30, 2009, the master lease threshold of 75% has not been met. The LLC has a third-party term loan commitment of \$7.2 million, which is non-recourse to us, of which \$7.2 million has been borrowed as of September 30, 2009. This LLC, which is deemed to be a variable interest entity, is consolidated in our financial statements as of September 30, 2009 since we are the primary beneficiary.

We are committed to invest up to \$5.4 million in debt or equity, of which \$238,000 has been funded as of September 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC (Banbury Medical Properties) that developed, constructed, owns and operates the Summerlin Medical Office Building III, located in Las Vegas, Nevada, on the campus of a UHS hospital. Summerlin Hospital Medical Center (Summerlin Hospital), a subsidiary of UHS, has committed to lease approximately 25% of this building pursuant to the terms of a 10-year flex lease. In addition, Summerlin Hospital has committed to a 50% master lease on the remaining 75% of the building (representing 37.5% of the building) pursuant to the terms of which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and Summerlin Hospital. This MOB, tenants of which will include subsidiaries of UHS, was completed and opened during the first quarter of 2009 at which time the master lease commenced. Based upon the executed leases and letter of intent commitments in place as of September 30, 2009, the master lease threshold has not been met. The LLC has a third-party construction loan commitment of \$14.4 million, which is non-recourse to us, of which \$12.1 million has been borrowed as of September 30, 2009. This LLC, which is deemed to be a variable interest entity, is consolidated in our financial statements as of September 30, 2009 since we are the primary beneficiary.

We are committed to invest up to a total of \$4.8 million in equity and debt financing, of which \$24,000 has been funded as of September 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC that is expected to develop, construct, own and operate the Texoma Medical Plaza located in Denison, Texas, on the campus of a replacement UHS acute care hospital. Texoma Medical Center (Texoma Hospital), a subsidiary of UHS, has committed to lease 75% of this building, pursuant to which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and Texoma Hospital. This MOB, tenants of which are expected to include subsidiaries of UHS, is scheduled to be completed and opened in late 2009 or during the first quarter of 2010, at which time the master lease is expected to commence. This LLC has a third-party construction loan commitment of \$13.3 million, which is non-recourse to us, of which \$2.7 million has been borrowed as of September 30, 2009. As this LLC is not considered to be a variable interest entity, it is accounted for under the equity method.

We are committed to invest up to a total of \$4.7 million in equity and debt financing, of which \$1.1 million has been funded as of September 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC that developed, constructed, owns and operates the Auburn Medical Office Building II, located in Auburn, Washington, on the campus of a UHS hospital. Auburn Regional Medical Center (Auburn Hospital), a subsidiary of UHS, has committed to lease 75% of this building, pursuant to which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and Auburn Hospital. The master lease threshold on this MOB has been met. This MOB, tenants of which include subsidiaries of UHS, was completed and opened in September, 2009. This LLC has a third-party construction loan commitment of \$8.4 million, which is non-recourse to us, of which \$7.4 million has been borrowed as of September 30, 2009. As this LLC is not considered to be a variable interest entity, it is accounted for under the equity method.

Table of Contents

Advisory Agreement: UHS of Delaware, Inc., a wholly-owned subsidiary of UHS, serves as our advisor, or the Advisor, pursuant to an Advisory Agreement dated December 24, 1986, which we refer to as the Advisory Agreement. Under the Advisory Agreement, the Advisor is obligated to present an investment program to us, to use its best efforts to obtain investments suitable for such a program (although it is not obligated to present any particular investment opportunity to us), to provide administrative services to us and to conduct our day-to-day affairs. In performing its services under the Advisory Agreement, the Advisor may utilize independent professional service providers, including providers of accounting, legal, tax and other services, for which the Advisor is reimbursed directly by us. The Advisory Agreement expires on December 31 of each year; however, it is renewable by us, subject to a determination by our Trustees who are unaffiliated with UHS, who we refer to as the Independent Trustees, that the Advisor's performance has been satisfactory. The Advisory Agreement may be terminated for any reason upon sixty days written notice by us or the Advisor. All transactions between us and UHS must be approved by the Independent Trustees.

The Advisory Agreement provides that the Advisor is entitled to receive an annual advisory fee equal to 0.60% of our average invested real estate assets, as derived from our consolidated balance sheet. The average real estate assets for advisory fee calculation purposes exclude certain items from our consolidated balance sheet such as, among other things, accumulated depreciation, cash and cash equivalents, base and bonus rent receivables, deferred charges and other assets. The advisory fee is payable quarterly, subject to adjustment at year-end based upon our audited financial statements. In addition, the Advisor is entitled to an annual incentive fee equal to 20% of the amount by which cash available for distribution to shareholders for each year, as defined in the Advisory Agreement, exceeds 15% of our equity as shown on our consolidated balance sheet, determined in accordance with generally accepted accounting principles without reduction for return of capital dividends. The Advisory Agreement defines cash available for distribution to shareholders as net cash flow from operations less deductions for, among other things, amounts required to discharge our debt and liabilities and reserves for replacement and capital improvements to our properties and investments. Advisory fees incurred and paid (or payable) to UHS amounted to \$412,000 and \$408,000 for the three months ended September 30, 2009 and 2008, respectively, and \$1.2 million for each of the nine-month periods ended September 30, 2009 and 2008. No incentive fees were paid or payable during the nine-month period of either year, since the incentive fee requirements were not achieved. The advisory fees for the nine-month periods ended September 30, 2009 and 2008 were based upon average invested real estate assets of \$264.7 million and \$261.2 million, respectively.

Officers and Employees: Our officers are all employees of UHS and although as of September 30, 2009 we had no salaried employees, our officers do receive stock-based compensation from time-to-time.

Share Ownership: As of September 30, 2009, UHS owned 6.6% of our outstanding common shares.

SEC reporting requirements of UHS: UHS is subject to the reporting requirements of the SEC and is required to file annual reports containing audited financial information and quarterly reports containing unaudited financial information. Since the leases on the hospital facilities leased to wholly-owned subsidiaries of UHS comprised approximately 51% and 53% of our consolidated revenues for the three months ended September 30, 2009 and 2008, respectively, and 51% and 56% for the nine month periods ended September 30, 2009 and 2008, and since a subsidiary of UHS is our Advisor, you are encouraged to obtain the publicly available filings for Universal Health Services, Inc. from the SEC's website at <http://www.sec.gov>. These filings are the sole responsibility of UHS and are not incorporated by reference herein.

Table of Contents**INFORMATION CONCERNING OUR PROPERTIES****Rental Information**

In 2008, our seven hospital facilities comprised over 1 million rentable square feet (RSF) and various MOBs and preschool and childcare centers comprised over 2.5 million RSF.

Each of our seven hospital facilities are recorded on a consolidated basis and therefore, when computing the average effective annual rental rate per square foot, we included the consolidated revenues and total square footage for these hospital facilities. Utilizing this methodology, the average effective annual rental per square foot for our hospital properties was \$17.54 during 2008.

The majority of the total square footage related to MOBs and the childcare centers included in our portfolio exists at properties which are owned by unconsolidated limited liability companies in which we hold various non-controlling ownership interests. Therefore, when computing the average effective annual rental rate per square foot for these properties, we included the revenues and average occupied square footage for all of our MOBs and childcare centers regardless of whether they are recorded on a consolidated or an unconsolidated basis. Utilizing this methodology, the average effective annual rental per square foot for our MOBs and childcare centers was \$25.77 during 2008.

On a combined basis, utilizing the methodologies outlined above, the average effective annual rental per square foot for our properties on a portfolio basis was \$23.07 during 2008.

During 2008, three UHS-related hospitals (McAllen Medical Center, Wellington Regional Medical Center and Southwest Healthcare System-Inland Valley Campus) generated revenues that comprised more than 10% of our consolidated revenues. As of December 31, 2008, only McAllen Medical Center and Wellington Regional Medical Center had book values greater than 10% of our total assets. Including 100% of the revenues generated at the properties owned by our unconsolidated LLCs, none of our unconsolidated LLCs had revenues greater than 10% of the combined consolidated and unconsolidated revenues during 2008. Including 100% of the book value of the properties owned by our unconsolidated LLCs, none of these properties had book values greater than 10% of the consolidated and unconsolidated total assets.

The following table sets forth the average effective annual rental per square foot for 2008, based upon average occupied square feet for McAllen Medical Center, Wellington Regional Medical Center and Southwest Healthcare System-Inland Valley Campus:

| Property | 2008 Average Occupied Square Feet | 2008 Average Effective Rental Per Square Foot |
|--|--|--|
| McAllen Medical Center | 422,276 | \$ 16.92 |
| Wellington Regional Medical Center | 196,489 | \$ 21.07 |
| Southwest Healthcare System-Inland Valley Campus | 124,644 | \$ 29.30 |

Table of Contents**Lease Expirations**

The table below reflects, for each year indicated, the total area in square feet of leases due to expire in that year, the number of tenants with leases that will expire in that year, the annual rental amount of such leases and the percentage of our gross annual rental represented by these leases. The table assumes that none of the tenants will renew their leases upon expiration of the current term (an assumption that we believe is extremely remote).

| | Expiring Square Feet | Number of Tenants | Annual Rental of Expiring Leases (1) | Percentage of Annual Rental (2) |
|---|-------------------------|----------------------|---|------------------------------------|
| Hospital properties | | | | |
| 2009 | 0 | 0 | \$ 0 | 0% |

THE OFFERING

| | |
|---------------------------------------|--|
| Issuer | Universal Health Realty Income Trust |
| Shares Offered | Common shares of beneficial interest, \$.01 par value, having an aggregate sales price of up to \$50,000,000. |
| Use of Proceeds | We intend to use the net proceeds of this offering to reduce amounts outstanding under our revolving credit agreement, which provides that lender commitments will be reduced by 50% of the net cash proceeds of this offering. We may reborrow funds under our revolving credit agreement, subject to the reduced commitment level, for general operating purposes, including working capital, capital expenditures and the repayment of borrowings. See Use of Proceeds. |
| Risk Factors | An investment in our common shares involves a high degree of risk. Please refer to the information set forth under the caption Risk Factors on page S-8 of this prospectus supplement and in the accompanying prospectus under the caption Risk Factors, as well as the other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein for a discussion of factors you should carefully consider before investing in our common shares. |
| Dividends | We intend to declare quarterly dividends to the holders of our common shares so as to comply with applicable sections of the Internal Revenue Code of 1986, as amended, or the Code, governing REITs and applicable dividend limitations in our revolving credit agreement. The timing, amount and composition of any future dividends to be paid to our common shareholders will be at the sole discretion of our Board of Trustees and will depend upon a variety of factors as to which no assurance can be given. See Dividend Policy. |

Table of Contents

RISK FACTORS

An investment in our common shares involves a high degree of risk. Our business, financial condition, results of operations and prospects could be materially adversely affected by any of these risks. The trading price of our common shares could decline due to these risks, and you may lose all or part of your investment. This prospectus supplement, the accompanying prospectus, and the documents incorporated by reference herein also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks described below and elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference.

*Before you decide to invest in our common shares, you should consider the risk factors below and in the accompanying prospectus under the caption *Risk Factors*, as well as the other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein before making an investment decision. Please refer to *Incorporation of Documents By Reference* in this prospectus supplement and *Where You Can Find More Information* in the accompanying prospectus for discussions of these other filings.*

Risks Relating to Our Common Shares and the Offering

The market price of our common shares may fluctuate significantly.

The market price of our common shares may fluctuate significantly in response to many factors, including:

actual or anticipated variations in our operating results, funds from operations, cash flows or liquidity;

changes in analyst earnings estimates;

changes in our dividend policy;

publication of research reports about us, the health care industry or the real estate industry generally;

increases in market interest rates that lead purchasers of our common shares to demand a higher dividend yield;

changes in market valuations of similar companies;

adverse market reaction to the amount of our outstanding debt at any time, the amount of our maturing debt in the near and medium term and our ability to refinance such debt and the terms thereof or our plans to incur additional debt in the future;

additions or departures of key management personnel;

the ability of our tenants to pay rent to us and meet their other obligations to us under current lease terms;

changes in government regulations, including changes in the reimbursement levels under the Medicare and Medicaid programs;

actions by institutional stockholders;

speculation in the press or investment community;

domestic and international economic factors unrelated to our performance;

any future issuances of equity securities;

the realization of any of the other risk factors included in, or incorporated by reference in, this prospectus supplement and the accompanying prospectus; and

general market and economic conditions.

S-8

Table of Contents

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common shares to decline, regardless of our financial performance and condition and prospects. It is impossible to provide any assurance that the market price of our common shares will not fall in the future, and it may be difficult for holders to resell our common shares at prices they find attractive, or at all.

We may not maintain our current dividend rate or continue to pay dividends entirely in cash.

For each of the first three quarters of 2009, we paid a cash dividend of \$0.590, \$0.595 and \$0.595 per share, respectively, to our common shareholders. However, no assurance can be given that we will maintain our current quarterly or annual dividend rates. In addition, a recent IRS revenue procedure allows us to satisfy the REIT income distribution requirement by paying up to 90% of our dividend in common shares in lieu of paying dividends entirely in cash. The ability to declare dividends in common shares under this IRS revenue procedure is subject to restrictions, including (unless the revenue procedure is amended) the restriction that the dividend must be declared for a tax year ending before 2010. In the event that we pay a portion of a dividend in common shares, recipients would be required to pay tax on the entire amount of the dividend, including the portion paid in common shares, in which case the recipients might have to pay the tax using cash from other sources. We reserve the right to pay dividends in common shares.

The timing, amount and composition of any future dividends to our common shareholders will be at the sole discretion of our Board of Trustees and will depend upon a variety of factors as to which no assurance can be given. Our ability to pay dividends to our common shareholders depends, in part, upon our operating results, overall financial condition, the performance of our portfolio (including rental rates and bonus rentals), our capital requirements, access to capital, our ability to qualify for taxation as a REIT and general business and market conditions.

Should we be unable to comply with the strict income distribution requirements applicable to REITs utilizing only cash generated by operating activities, we would be required to generate cash from other sources which could adversely affect our financial condition.

To obtain the favorable tax treatment associated with qualifying as a REIT, in general, we are required each year to distribute to our shareholders at least 90% of our net taxable income. In addition, we are subject to a tax on any undistributed portion of our income at regular corporate rates and might also be subject to a 4% excise tax on this undistributed income. To meet the distribution requirements necessary to achieve the tax benefits associated with qualifying as a REIT, we could be required to: (i) seek borrowed funds even if conditions are not favorable for borrowing; (ii) issue equity which could have a dilutive effect on any future dividends and the share value of our existing shareholders; (iii) divest assets that we might have otherwise decided to retain; (iv) forgo attractive investment opportunities that we might have otherwise pursued; or (v) a combination of the foregoing. Securing funds through these other non-operating means could adversely affect our financial condition and future results of operations.

We may issue additional common shares, preferred shares or securities convertible into equity securities and thereby materially and adversely affect the price of our common shares.

Any future issuances of equity securities, including upon exercise of existing share options or future issuances of convertible securities, could dilute your interests and could substantially decrease the trading price of our common shares. We are not restricted from issuing additional common shares and have no obligation to consider your interests for any reason. We cannot predict the size of future issuances or sales of our common shares or the effect, if any, that such issuances or sales, including those made pursuant to the sales agreement, may have on the market price for our common shares. Further, market conditions could require us to accept less favorable terms for the issuance of our securities in the future. In addition, Merrill Lynch, as sales agent under the sales agreement, will not engage in any transactions that stabilize the price of our common shares. The issuance and sale of substantial amounts of common shares, including issuances and sales pursuant to the sales agreement, or the announcement that such issuances and sales may occur, may materially and adversely affect the price of our common shares.

Table of Contents

We may issue equity securities in the future for a number of reasons, including financing our operations and business strategy, to adjust our ratio of debt to equity, to satisfy our obligations upon the exercise of outstanding share options or for other reasons. As of September 30, 2009:

58,000 of our common shares were issuable upon exercise of options outstanding under our 1997 Incentive Plan; and

61,050 of our common shares were reserved for issuance under our 2007 Restricted Stock Plan and 717,545 of our common shares were reserved for issuance under our Dividend Reinvestment and Share Purchase Plan.

In addition, if our Board of Trustees decides to issue preferred shares in the future that have a preference over our common shares with respect to the payment of dividends or upon our liquidation, dissolution or winding up, or if we issue preferred shares with voting rights that dilute the voting power of our common shares, the market price of our common shares could decrease.

Resales of our common shares in the public market following the offering may cause the market price of our common shares to fall.

We may issue our common shares with an aggregate sales price of up to \$50 million in connection with this offering. The issuance of these new common shares could have the effect of depressing the market price of our common shares.

We may invest or spend the proceeds of this offering in ways which you may not agree with and in ways that may not earn a profit.

We intend to use the net proceeds of this offering to reduce amounts outstanding under our revolving credit agreement, which provides that lender commitments will be reduced by 50% of the net cash proceeds of the offering. After repayment of debt and reduction of commitments as described above, we may reborrow funds under our revolving credit agreement, subject to the reduced commitment level, for general operating purposes, including working capital, capital expenditures and the repayment of borrowings. You may not agree with the ways we decide to use reborrowed funds, and such uses may not yield any profits.

Table of Contents**USE OF PROCEEDS**

We intend to use the net proceeds of this offering to reduce amounts outstanding under our revolving credit agreement. The agreement contains a provision whereby the lender commitments will be reduced by 50% of the net cash proceeds of this offering. After repayment of debt and reduction of commitments as described above, we may reborrow funds under our revolving credit agreement, subject to the reduced commitment level, for general operating purposes, including working capital, capital expenditures and the repayment of borrowings. Pending such uses, the Trust may temporarily invest net proceeds in interest-bearing time deposits or short-term marketable securities.

The revolving credit agreement provides for unsecured revolving loans of up to \$100 million (without giving effect to the reduction in lender commitments of up to approximately \$24 million that may occur as a result of the sale of common shares in this offering). In addition, the lender commitments are subject to increase by up to \$50 million at our request, with the approval of the lenders, however no assurance can be given that the lenders would approve any such request. The agreement provides for interest at our option, at the Eurodollar rate plus 0.75% to 1.125%, or the prime rate plus zero to .125%. A fee of 0.15% to 0.225% is paid on the unused portion of the commitment. The margins over the Eurodollar, prime rate and the commitment fee are based upon our debt to total capital ratio as defined by the agreement. As of September 30, 2009, the applicable margin over the Eurodollar rate was 0.75%, the margin over the prime rate was zero, and the commitment fee was 0.15%. At September 30, 2009, we had \$50.2 million of outstanding borrowings and \$24.1 million of letters of credit outstanding against the agreement. We had \$25.7 million of available borrowing capacity, net of the outstanding borrowings and letters of credit outstanding as of September 30, 2009 (prior to giving effect to any reduction in commitment levels in an amount equal to 50% of the net cash proceeds of this offering).

PRICE RANGE OF COMMON SHARES

Our common shares are traded on the New York Stock Exchange, or NYSE, under the symbol UHT. As of September 30, 2009, we had approximately 11,899,849 common shares outstanding and 493 holders of record of our common shares.

The following table sets forth, for the periods indicated below, the high and low closing prices for our common shares as reported by the NYSE and the cash dividends per common share paid in such periods:

| Quarter Ended | Price Range of Common Shares | | Dividend Paid |
|---|---------------------------------|----------|------------------|
| | High | Low | Per Share |
| Fiscal Year Ended December 31, 2007 | | | |
| First Quarter | \$ 42.05 | \$ 34.77 | \$ 0.570 |
| Second Quarter | \$ 38.29 | \$ 32.78 | \$ 0.575 |
| Third Quarter | \$ 36.70 | \$ 29.23 | \$ 0.575 |
| Fourth Quarter | \$ 38.76 | \$ 32.21 | \$ 0.580 |
| Fiscal Year Ended December 31, 2008 | | | |
| First Quarter | \$ 36.78 | \$ 31.43 | \$ 0.580 |
| Second Quarter | \$ 36.10 | \$ 30.00 | \$ 0.585 |
| Third Quarter | \$ 39.14 | \$ 30.64 | \$ 0.585 |
| Fourth Quarter | \$ 38.27 | \$ 23.27 | \$ 0.590 |
| Fiscal Year Ending December 31, 2009 | | | |
| First Quarter | \$ 34.32 | \$ 25.11 | \$ 0.590 |
| Second Quarter | \$ 34.02 | \$ 30.08 | \$ 0.595 |
| Third Quarter | \$ 35.28 | \$ 29.49 | \$ 0.595 |
| Fourth Quarter (through November 5, 2009) | \$ 32.55 | \$ 30.95 | |

On November 5, 2009, the last reported sale price of our common shares on the NYSE was \$32.02 per share.

Table of Contents

DIVIDEND POLICY

We intend to declare quarterly dividends to the holders of our common shares so as to comply with applicable sections of the Code governing REITs. Our revolving credit facility limits our ability to increase dividends in excess of 95% of cash available for distribution, as defined in our revolving credit agreement, unless additional distributions are required to be made so as to comply with applicable sections of the Code and related regulations governing REITs.

The timing, amount and composition of any future dividends to be paid to our common shareholders will be at the sole discretion of our Board of Trustees and will depend upon a variety of factors as to which no assurance can be given. Our ability to pay dividends to our common shareholders depends, in part, upon our operating results, overall financial condition, the performance of our portfolio (including rental rates and bonus rentals), our capital requirements, access to capital, our ability to qualify for taxation as a REIT and general business and market conditions.

S-12

Table of Contents

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The accompanying prospectus sets forth, under the heading "United States Federal Income Tax Considerations," a general summary of material United States income tax considerations regarding our election to be taxed as a REIT and the ownership and disposition of our common shares offered by this prospectus supplement and the accompanying prospectus.

Taxation of Holders of Common Shares

You should carefully read the summary of United States federal income tax consequences of owning and disposing of our common shares set forth under the heading "United States Federal Income Tax Considerations - Taxation of Holders of Our Shares" in the accompanying prospectus.

Taxation of the Trust

We elected to be taxed as a REIT under the Code, commencing with our taxable year ended December 31, 1986. We believe we have been organized and have operated in a manner which allows us to qualify for taxation as a REIT under the Code, commencing with our taxable year ended December 31, 1986. We currently intend to continue to be organized and operate in this manner.

In order to qualify as a REIT, we must comply with certain highly technical and complex Code provisions. Although we believe we have been qualified as a REIT since our inception, there can be no assurance that we have been so qualified or will remain qualified in the future. Failure to qualify as a REIT may subject us to income tax liabilities, including federal income tax at regular corporate rates. The additional income tax incurred may significantly reduce the cash flow available for distribution to shareholders and for debt service. In addition, if disqualified, we might be barred from qualification as a REIT for four years following disqualification.

The law firm of Fulbright & Jaworski L.L.P. has acted as our tax counsel in connection with the filing of this prospectus supplement. We have received the opinion of Fulbright & Jaworski L.L.P. to the effect that, subject to the representations, assumptions, restrictions, and limitations referred to or set forth therein, we were organized and have operated in conformity with the requirements for qualification as a REIT under the Code for each of our taxable years. An opinion of counsel is not binding on the IRS or any court and no assurance can be given that the IRS will not challenge our qualification as a REIT.

Fulbright & Jaworski L.L.P. will not monitor our compliance with the requirements for REIT qualification on an ongoing basis. Accordingly, no assurance can be given that the actual results of our operations for any particular taxable year will satisfy such requirements. For a discussion of the tax consequences of our failure to qualify as a REIT and additional information concerning taxation of the Trust, see the discussion set forth under the heading "United States Federal Income Tax Considerations - Taxation of the Trust" in the accompanying prospectus.

Table of Contents

PLAN OF DISTRIBUTION

We have entered into a sales agreement with Merrill Lynch under which we may issue and sell from time to time common shares having an aggregate sales price of up to \$50,000,000 through Merrill Lynch as our sales agent. Sales of the common shares, if any, will be made by means of ordinary brokers' transactions on the NYSE or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. As agent, Merrill Lynch will not engage in any transactions that stabilize our common shares.

Under the terms of the sales agreement, we also may sell our common shares to Merrill Lynch as principal for its own account at a price agreed upon at the time of sale. Merrill Lynch may offer the common shares sold to it as principal from time to time through public or private transactions at market prices prevailing at the time of sale, at fixed prices, at negotiated prices, at various prices determined at the time of sale or at prices related to prevailing market prices.

Merrill Lynch will offer the common shares subject to the terms and conditions of the sales agreement on a daily basis or as otherwise agreed upon by us and Merrill Lynch. We will designate the maximum amount of common shares to be sold through Merrill Lynch on a daily basis or otherwise determine such maximum amount together with Merrill Lynch. Subject to the terms and conditions of the sales agreement, Merrill Lynch will use its commercially reasonable efforts to sell on our behalf all of the designated common shares. We may instruct Merrill Lynch not to sell common shares if the sales cannot be effected at or above the price designated by us in any such instruction. We or Merrill Lynch may suspend the offering of common shares being made through Merrill Lynch under the sales agreement upon proper notice to the other party.

Merrill Lynch will receive from us a commission equal to 3% of the gross sales price per share for any common shares sold through it as our sales agent under the sales agreement. The remaining sales proceeds, after deducting any expenses payable by us and any transaction fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal our net proceeds for the sale of such common shares.

Merrill Lynch will provide written confirmation to us following the close of trading on the NYSE each day in which common shares are sold by it for us under the sales agreement. Each confirmation will include the number of common shares sold on that day, the gross sales price per share, the net proceeds to us, and the compensation payable by us to Merrill Lynch.

Settlement for sales of common shares will occur, unless the parties agree otherwise, on the third business day that is also a trading day following the date on which any sales were made in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust, or similar arrangement.

We will report at least quarterly the number of common shares sold through Merrill Lynch under the sales agreement, the net proceeds to us, and the compensation paid by us to Merrill Lynch in connection with the sales of common shares.

In connection with the sale of the common shares on our behalf, Merrill Lynch may be deemed to be an underwriter within the meaning of the Securities Act of 1933, or the Securities Act, and the compensation paid to Merrill Lynch may be deemed to be underwriting commissions or discounts. We have agreed in the sales agreement to provide indemnification and contribution to Merrill Lynch against certain liabilities, including liabilities under the Securities Act.

In the ordinary course of their business, Merrill Lynch and/or its affiliates have in the past performed, and may continue to perform, investment banking, broker dealer, lending, financial advisory, or other services for us for which they have received, or may receive, separate fees. In particular, an affiliate of Merrill Lynch is a lender under our revolving credit agreement, and will receive a pro rata portion of the net proceeds of this offering used to reduce amounts outstanding under this credit agreement.

Table of Contents

If Merrill Lynch or we have reason to believe that the exemptive provisions set forth in Rule 101(c)(1) of Regulation M under the Exchange Act are not satisfied, that party will promptly notify the other and sales of common shares under the sales agreement will be suspended until that or other exemptive provisions have been satisfied in the judgment of Merrill Lynch and us.

We estimate that the total expenses of the offering payable by us, excluding discounts and commissions payable to Merrill Lynch under the sales agreement, will be approximately \$200,000.

The offering of common shares pursuant to the sales agreement will terminate upon the earlier of (1) the sale of our common shares having an aggregate sales price of \$50,000,000 or (2) the termination of the sales agreement by either Merrill Lynch or us.

Table of Contents

LEGAL MATTERS

Certain legal matters regarding the common shares will be passed upon for us by Fulbright & Jaworski L.L.P., New York, New York. Sidley Austin LLP, New York, New York has acted as counsel to the sales agent.

EXPERTS

The consolidated financial statements of the Trust as of December 31, 2008 and 2007, and for each of the years in the three-year period ended December 31, 2008, and management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2008 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2008, have been incorporated by reference herein in reliance upon the reports of KPMG LLP, an independent registered public accounting firm, and upon the authority of said firm as experts in auditing and accounting.

The Declaration of Trust establishing Universal Health Realty Income Trust, dated August 5, 1986, a copy of which, together with all amendments thereto (the Declaration), is filed in The Office of The Department of Assessments and Taxation of The State of Maryland, provides that the name Universal Health Realty Income Trust refers to the Trustees under the Declaration collectively as Trustees, but not individually or personally, and that no Trustee, officer, shareholder, employee or agent of the Trust shall be held to any personal liability, jointly or severally, for any obligation of, or claim against, the Trust. All persons dealing with the Trust, in any way, shall look only to the assets of the Trust for the payment of any sum or the performance of any obligation.

All references in this prospectus to we, us, our and the Trust refer to Universal Health Realty Income Trust. In this prospectus, the term revenues does not include the revenues of the unconsolidated limited liability companies in which we have various non-controlling equity interests ranging from 33% to 99%. We currently account for our share of the income/loss from these investments by the equity method.

When acquiring any securities discussed in this prospectus, you should rely only on the information contained or incorporated by reference in this prospectus and the applicable prospectus supplement. We have not authorized anyone else to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. An offer to sell these securities will not be made in any jurisdiction where the offer and sale is not permitted. You should not assume that the information appearing in this prospectus, as well as information we previously filed with the Securities and Exchange Commission and incorporated by reference, is accurate as of any date other than the date mentioned on the front cover of those documents. Our business, financial condition, results of operations and prospects may have changed since that date.

ABOUT THIS PROSPECTUS

This prospectus is part of a shelf registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the SEC. As allowed by the SEC rules, this prospectus does not contain all of the information included in the registration statement. For further information, we refer you to the registration statement, including its exhibits. Statements contained in this prospectus about the provisions or contents of any agreement or other document are not necessarily complete. If the SEC's rules and regulations require that an agreement or document be filed as an exhibit to the registration statement, please see that agreement or document for a complete description of these matters.

You should read this prospectus and any prospectus supplement together with any additional information you may need to make your investment decision. You should also read and carefully consider the information in the documents we have referred you to in **Where You Can Find More Information** below. Information incorporated by reference after the date of this prospectus is considered a part of this prospectus and may add, update or change information contained in this prospectus. Any information in such subsequent filings that is inconsistent with this prospectus will supersede the information in this prospectus or any earlier prospectus supplement.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any materials we file with the SEC at its public reference room at 100 F Street, N.E., Washington, D.C. 20549. You may also obtain copies of this information by mail from the public reference room of the SEC, 100 F Street, N.E., Washington, D.C. 20549, at prescribed rates. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities. Our SEC filings are also available to the public from commercial document retrieval services and at the web site maintained by the SEC at <http://www.sec.gov>. You may inspect information that we file with The New York Stock Exchange, as well as our SEC filings, at the offices of The New York Stock Exchange at 20 Broad Street, New York, New York 10005.

The SEC allows us to incorporate by reference certain information we file with the SEC, which means that we can disclose important information to you by referring to the other information we have filed with the SEC. We incorporate by reference the following documents we filed with the SEC pursuant to the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act :

our Current Report on Form 8-K filed on April 20, 2009;

our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2009 and June 30, 2009;

our Annual Report on Form 10-K for the fiscal year ended December 31, 2008; and

the description of the Trust's common shares of beneficial interest contained in the Trust's Current Report on Form 8-K, filed on August 13, 2009, including any amendments or reports filed for the purpose of updating such description.

We are also incorporating by reference additional documents that we may file with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and prior to the termination of the offering of the securities described in this prospectus (other than any portions of any such documents that are not deemed filed under the Exchange Act in accordance with the Exchange Act and applicable SEC rules). These documents include periodic reports, such as Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as Proxy Statements. Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of

Table of Contents

this prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

Documents incorporated by reference are available from us without charge, excluding all exhibits unless we have specifically incorporated by reference the exhibit in this prospectus. You may obtain documents incorporated by reference in this prospectus by requesting them in writing or by telephone from:

RISK FACTORS

You should carefully consider the risks described below as well as the risks described in our Annual Report on Form 10-K and in our Quarterly Reports on Form 10-Q, which risks are incorporated by reference into this section, before making an investment decision regarding our company. The risks and uncertainties described herein are not the only ones facing us and there may be additional risks that we do not presently know of or that we currently consider not likely to have a significant impact. All of these risks could adversely affect our business, financial condition, results of operations and cash flows.

General economic and employment conditions in the United States could materially affect the business and future results of operations of the operators of our facilities which could, in turn, materially reduce our revenues and net income.

The deterioration in the general economic conditions has not yet had a material unfavorable impact on our results of operations. However, our future results of operations could be unfavorably impacted by continued deterioration in general economic conditions which could result in increases in the number of people unemployed and/or uninsured. Should that occur, it may result in decreased occupancy rates at our medical office buildings as well as a reduction in the revenues earned by the operators of our hospital facilities which would unfavorably impact our future bonus rentals (on the UHS hospital facilities) and may potentially have a negative impact on the future lease renewal terms and the underlying value of the hospital properties. Additionally, the general real estate market has been unfavorably impacted by the deterioration in economic and credit market conditions which may adversely impact the underlying value of our properties. The ongoing tightening in the credit markets and the instability in the banking and financial institutions has not had a material impact on us. However, there can be no assurance that continued deterioration in credit market conditions will not have a material unfavorable impact on our ability to finance our future growth through borrowed funds.

The deterioration of credit and capital markets may adversely affect our access to sources of funding and we cannot be certain of the availability and terms of capital to fund the growth of our business when needed.

To retain our status as a REIT, we are required to distribute 90% of our taxable income to shareholders and, therefore, we generally cannot use income from operations to fund our growth. Accordingly, our growth strategy depends, in part, upon our ability to raise additional capital at reasonable costs to fund new investments. We believe we will be able to raise additional debt and equity capital at reasonable costs to refinance our debts (including third-party debt held by various LLCs in which we own non-controlling equity interests) at or prior to their maturities and to invest at yields which exceed our cost of capital. However, we can provide no assurance that financing will be available to us on satisfactory terms when needed, which could harm our business. Given these uncertainties, our growth strategy is not assured and may fail.

To fund all or a portion of our future financing needs, we rely on borrowings from various sources including fixed rate, long-term debt as well as borrowings pursuant to our revolving credit line. If any of the lenders were unable to fulfill their future commitments, our liquidity could be impacted, which could have a material unfavorable impact our results of operations and financial condition.

In addition, the degree to which we are, or in the future may become, leveraged, our ability to obtain financing could be adversely impacted and could make us more vulnerable to competitive pressures. Our ability to meet existing and future debt obligations, depends upon our future performance and our ability to secure additional financing on satisfactory terms, each of which is subject to financial, business and other factors that are beyond our control. Any failure by us to meet our financial obligations would harm our business.

In addition, global capital markets have experienced volatility that has tightened access to capital markets and other sources of funding. In the event we need to access the capital markets or other sources of financing,

Table of Contents

there can be no assurance that we will be able to obtain financing on acceptable terms or within an acceptable time. Our inability to obtain financing on terms acceptable to us could have a material unfavorable impact on our results of operations, financial condition and liquidity.

A substantial portion of our revenues are dependent upon one operator. If UHS experiences financial difficulties, or otherwise fails to make payments to us, our revenues will significantly decline.

For the year ended December 31, 2008, UHS accounted for 58% of our consolidated revenues. In addition, as of December 31, 2008, subsidiaries of UHS leased four of the seven hospital facilities owned by us with terms expiring in 2011 or 2014. We cannot assure you that UHS will continue to satisfy its obligations to us. The failure or inability of UHS to satisfy its obligations to us could materially reduce our revenues and net income, which could in turn reduce the amount of dividends we pay and cause our stock price to decline.

Our relationship with UHS may create conflicts of interest.

In addition to being dependent upon UHS for a substantial portion of our revenues and leases, since 1986, UHS of Delaware, Inc., which we refer to as the Advisor, a wholly-owned subsidiary of UHS, has served as our Advisor. Pursuant to our Advisory Agreement, the Advisor is obligated to present an investment program to us, to use its best efforts to obtain investments suitable for such program (although it is not obligated to present any particular investment opportunity to us), to provide administrative services to us and to conduct our day-to-day affairs. Further, all of our officers are all employees of UHS. As of December 31, 2008, we had no salaried employees although our officers do receive stock-based compensation from time-to-time. We believe that the quality and depth of the management and advisory services provided to us by our Advisor and UHS could not be replicated by contracting with unrelated third parties or by being self-advised without considerable cost increases. We believe that these relationships have been beneficial to us in the past, but we cannot guarantee that will not become detrimental to us in the future.

All transactions with UHS must be approved by a majority of our Independent Trustees. We believe that our current leases and business dealings with UHS have been entered into on commercially reasonable terms. However, because of our historical and continuing relationship with UHS and its subsidiaries, in the future, our business dealings may not be on the same or as favorable terms as we might achieve with a third party with whom we do not have such a relationship. Disputes may arise between us and UHS that we are unable to resolve or the resolution of these disputes may not be as favorable to us as a resolution we might achieve with a third party.

We hold significant, non-controlling equity ownership interests in various LLCs.

For the year ended December 31, 2008, 61% of our consolidated and unconsolidated revenues were generated by LLCs in which we hold a majority, non-controlling equity ownership interest. Our level of investment and lack of control exposes us to potential losses of our investments and revenues. Although our ownership arrangements have been beneficial to us in the past, we cannot guarantee that they will continue to be beneficial in the future.

The bankruptcy, default, insolvency or financial deterioration of our tenants could significantly delay our ability to collect unpaid rents or require us to find new operators.

Our financial position and our ability to make distributions to our shareholders may be adversely affected by financial difficulties experienced by any of our major tenants, including bankruptcy, insolvency or a general downturn in the business. We are exposed to the risk that our operators may not be able to meet their obligations, which may result in their bankruptcy or insolvency. Although our leases and loans provide us the right to terminate an investment, evict an operator, demand immediate repayment and other remedies, the bankruptcy laws afford certain rights to a party that has filed for bankruptcy or reorganization. An operator in bankruptcy may be able to restrict our ability to collect unpaid rents or interest during the bankruptcy proceeding.

Table of Contents

Real estate ownership creates risks and liabilities that may result in unanticipated losses or expenses.

Our business is subject to risks associated with real estate acquisitions and ownership, including:

general liability, property and casualty losses, some of which may be uninsured;

the illiquid nature of real estate and the real estate market that impairs our ability to purchase or sell our assets rapidly to respond to changing economic conditions;

real estate market factors, such as the supply and demand of office space and market rental rates, changes in interest rates as well as an increase in the development of medical office condominiums in certain markets;

costs that may be incurred relating to maintenance and repair, and the need to make expenditures due to changes in governmental regulations, including the Americans with Disabilities Act;

environmental hazards at our properties for which we may be liable, including those created by prior owners or occupants, existing tenants, mortgagors or other persons; and

defaults and bankruptcies by our tenants.

In addition to the foregoing risks, we cannot predict whether the leases on our properties, including the leases on the properties leased to subsidiaries of UHS, which have options to purchase the respective leased facilities at the end of the lease or renewal terms at the appraised fair market value, will be renewed at their current rates at the end of the lease terms in 2011 or 2014. If the leases are not renewed, we may be required to find other operators for these facilities and/or enter into leases with less favorable terms. The exercise of purchase options for our facilities may result in a less favorable rate of return for us than the rental revenue currently earned on such facilities. Further, the purchase options and rights of first refusal granted to the respective lessees to purchase or lease the respective leased facilities, after the expiration of the lease term, may adversely affect our ability to sell or lease a facility, and may present a potential conflict of interest between us and UHS since the price and terms offered by a third-party are likely to be dependent, in part, upon the financial performance of the facility during the final years of the lease term.

Significant potential liabilities and rising insurance costs and availability may have an adverse effect on the operations of our operators, which may negatively impact their ability to meet their obligations to us.

As is typical in the healthcare industry, in the ordinary course of business, our operators, including UHS, are subject to medical malpractice lawsuits, product liability lawsuits and other legal actions. Some of these actions may involve large claims, as well as significant defense costs. If their ultimate liability for professional and general liability claims could change materially from current estimates, if such policy limitations should be partially or fully exhausted in the future, or payments of claims exceed estimates or are not covered by insurance, it could have a material adverse effect on the operations of our operators.

In addition, the malpractice expenses of our operators, including UHS, have increased in recent years which may increase their self-insured exposure for professional and general liability claims. There can be no assurance that insurance will continue to be available at reasonable prices that allow them to maintain adequate coverage. If these trends continue, they could have a material adverse effect on their operations. Property insurance rates, particularly for earthquake insurance in California, have also continued to increase. Three LLCs that own properties in California, in which we have various non-controlling equity interests, could not obtain earthquake insurance at rates which are economically beneficial in relation to the risks covered.

Our tenants and operators, including UHS, may be unable to fulfill their insurance, indemnification and other obligations to us under their leases and thereby potentially expose us to those risks. In addition, our tenants and operators may be unable to pay their lease payments, which could

potentially decrease our revenues and increase our collection and litigation costs. Moreover, to the extent we are required to take legal action on the

Table of Contents

affected facilities, our revenues from those facilities could be reduced or eliminated for an extended period of time. In addition, we may in some circumstances be named as a defendant in litigation involving the actions of our operators. Although we have no involvement in the activities of our operators and our standard leases generally require our operators to carry insurance to cover us in certain cases, a significant judgment against us in such litigation could exceed our and our operators' insurance coverage, which would require us to make payments to cover the judgment.

Increased competition in the health care industry has resulted in lower revenues and higher costs for our operators, including UHS, and may affect our revenues, property values and lease renewal terms.

The health care industry is highly competitive and competition among hospitals and other health care providers for patients has intensified in recent years. In most geographical areas in which our facilities are operated, there are other facilities that provide services comparable to those offered by our facilities. In addition, some competing facilities are owned by tax-supported governmental agencies or by nonprofit corporations and may be supported by endowments and charitable contributions and exempt from property, sale and income taxes. Such exemptions and support are not available to our operators. In some markets, certain competing facilities may have greater financial resources, be better equipped and offer a broader range of services than those available at our facilities. Certain hospitals that are located in the areas served by our operators' facilities are specialty or large hospitals that provide medical, surgical and behavioral health services, facilities and equipment that are not available at our operators' hospitals. The increase in outpatient treatment and diagnostic facilities, outpatient surgical centers and freestanding ambulatory surgical centers also increases competition for our operators.

In McAllen, Texas, the location of our largest facility, McAllen Medical Center (which is operated by a subsidiary of UHS), intense competition has continued from other healthcare providers, including physician-owned facilities. As a result, the facility has experienced significant declines in patient volume and profitability. In addition, newly constructed inpatient capacity and expansion of certain services at the physician-owned hospital was completed and opened during the first quarter of 2009 which may further erode McAllen Medical Center's future patient revenues and profitability. In response to these competitive pressures, UHS has, among other things, undertaken significant capital investment in the market including a new dedicated 120-bed children's facility, which was completed and opened during the first quarter of 2006, as well as a 134-bed replacement behavioral health facility, which was completed and opened during the second quarter of 2006. We do not have an ownership interest in the real estate assets of either of these newly constructed UHS facilities. A continuation of the provider competition in this market, as well as the additional capacity recently completed by UHS and others, could result in additional erosion of the net revenues and financial operating results of McAllen Medical Center which may negatively impact the bonus rentals earned by us on this facility and may potentially have a negative impact on the future lease renewal terms (current lease expires in December, 2011) and the underlying value of the property.

In addition, the number and quality of the physicians on a hospital's staff are important factors in determining a hospital's competitive advantage. Typically, physicians are responsible for making hospital admissions decisions and for directing the course of patient treatment. The operators of our facilities also compete with other health care providers in recruiting and retaining qualified hospital management, nurses and other medical personnel. The operators of our acute care and behavioral health care facilities are experiencing the effects of a shortage of skilled nursing staff nationwide, which has caused and may continue to cause an increase in salaries, wages and benefits expense in excess of the inflation rate. Our operators may experience difficulties attracting and retaining qualified physicians, nurses and medical support personnel. We anticipate that our operators, including UHS, will continue to encounter increased competition in the future that could lead to a decline in patient volumes and harm their businesses, which in turn, could harm our business.

Table of Contents

Operators that fail to comply with governmental reimbursement programs such as Medicare or Medicaid, licensing and certification requirements, fraud and abuse regulations or new legislative developments may be unable to meet their obligations to us.

Our operators, including UHS and its subsidiaries, are subject to numerous federal, state and local laws and regulations that are subject to frequent and substantial changes (sometimes applied retroactively) resulting from legislation, adoption of rules and regulations, and administrative and judicial interpretations of existing law. The ultimate timing or effect of these changes cannot be predicted. Government regulation may have a dramatic effect on our operators' costs of doing business and the amount of reimbursement received by both government and other third-party payors. The failure of any of our operators to comply with these laws, requirements and regulations could adversely affect their ability to meet their obligations to us. These regulations include, among other items:

hospital billing practices;

relationships with physicians and other referral sources;

adequacy of medical care;

quality of medical equipment and services;

qualifications of medical and support personnel;

confidentiality, maintenance and security issues associated with health-related information and patient medical records;

the screening, stabilization and transfer of patients who have emergency medical conditions;

licensure and accreditation of our facilities;

hospital rate or budget review;

operating policies and procedures; and

construction or expansion of facilities and services.

If our operators fail to comply with applicable laws and regulations, they could be subjected to liabilities, including criminal penalties, civil penalties (including the loss of their licenses to operate one or more facilities), and exclusion of one or more facilities from participation in the Medicare, Medicaid and other federal and state health care programs. The imposition of such penalties could jeopardize that operator's ability to make lease payments to us or to continue operating its facility. In addition, our bonus rents are based on our operators' net revenues, which in turn are affected by the amount of reimbursement that such lessees receive from the government.

Although UHS and the other operators of our acute care facilities believe that their policies, procedures and practices comply with governmental regulations, no assurance can be given that they will not be subjected to governmental inquiries or actions, or that they would not be faced with sanctions, fines or penalties if so subjected. Because many of these laws and regulations are relatively new, in many cases, our operators do not have the benefit of regulatory or judicial interpretation. In the future, it is possible that different interpretations or enforcement of these laws and

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

regulations could subject their current or past practices to allegations of impropriety or illegality or could require them to make changes in the facilities, equipment, personnel, services, capital expenditure programs and operating expenses. Even if they were to ultimately prevail, a significant governmental inquiry or action under one of the above laws, regulations or rules could have a material adverse effect upon them, and in turn, us.

UHS Legal Proceedings: UHS, together with its South Texas Health System affiliates, which operate McAllen Medical Center, were served with a subpoena dated November 21, 2005, issued by the Office of Inspector General of the Department of Health and Human Services, or OIG. At that time, the Civil Division of the U.S. Attorney's office in Houston, Texas indicated that the subpoena was part of an investigation under the

Table of Contents

False Claims Act regarding compliance with Medicare and Medicaid rules and regulations pertaining to the employment of physicians and the solicitation of patient referrals from physicians from January 1, 1999 to the date of the subpoena, related to the South Texas Health System. On February 16, 2007, UHS's South Texas Health System affiliates were served with a search warrant in connection with what UHS had been advised was a related criminal Grand Jury investigation concerning the production of documents. At that time, the government obtained various documents and other property related to the facilities. Follow-up Grand Jury subpoenas for documents and witnesses and other requests for information were subsequently served on South Texas Health System facilities and certain UHS employees and former employees.

UHS has advised us that they have received notification from the U.S. Department of Justice (DOJ) that, at this time, the DOJ will not be pursuing criminal prosecutive action against UHS or its South Texas Health System affiliates. The DOJ is still investigating whether or not any individuals independently obstructed justice as it relates to the civil subpoena dated November 21, 2005. Representatives of UHS have been advised that the Civil Division of the U.S. Attorney's office in Houston, Texas is continuing its investigation in connection with the civil subpoena dated November 21, 2005 issued by the OIG. UHS's legal representatives continue to meet with representatives of the Civil Division to discuss the status of this matter. UHS understands that, based on those discussions and its investigations to date, the government is focused on certain arrangements entered into by the South Texas Health System affiliates which, the government believes, may have violated Medicare and Medicaid rules and regulations pertaining to payments to physicians and the solicitation of patient referrals from physicians and other matters relating to payments to various individuals which may have constituted improper payments. UHS is cooperating with the investigations and responding to the matters raised with them. UHS has been negotiating a possible settlement of this matter with the government. UHS expects to continue its discussions with the government to attempt to resolve this matter in a manner satisfactory to UHS and the government. During 2008, UHS recorded a pre-tax charge of \$25 million to establish a reserve in connection with this matter and they reserved an additional \$3 million during 2009. Also during 2009, UHS recorded a \$4 million unfavorable discrete tax item to reflect the estimated nondeductible portion of the amount reserved. There is no assurance that a settlement can be reached in connection with this matter, and, should a settlement be reached, UHS is unable, at this time, to determine the ultimate settlement amount. If UHS is ultimately unable to reach a settlement, UHS is unable, at this time, to determine the extent of the total financial and/or other exposure to them in connection with this matter.

UHS has advised us that it monitors all aspects of its business and that it has developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Because the law in this area is complex and constantly evolving, governmental investigation or litigation may result in interpretations that are inconsistent with industry practices, including UHS's. Although UHS believes its policies, procedures and practices comply with governmental regulations, from time to time UHS is subjected to inquiries or actions with respect to its facilities and there is no assurance that UHS will not face sanctions, fines or penalties in connection with such inquiries or actions, including with respect to the investigation of its South Texas Health System affiliates. Even if UHS were to ultimately prevail, the government's inquiry and/or action in connection with this matter could have a material adverse effect on UHS's future operating results and on the future operating results of McAllen Medical Center. While the base rentals are guaranteed by UHS through the end of the existing lease term, should this matter adversely impact the future revenues and/or operating results of McAllen Medical Center, the future bonus rental earned by us on this facility may be materially, adversely impacted. Bonus rental revenue earned by us from McAllen Medical Center amounted to \$1.7 million for each of the years ended December 31, 2008 and 2007 and \$1.9 million during 2006. We can provide no assurance that this matter will not have a material adverse impact on underlying value of McAllen Medical Center or on the future base rental earned on this facility should the existing lease not be renewed at its current lease rates upon the scheduled expiration of the existing lease term in December, 2011.

Table of Contents

Medicare, Medicaid and Private Payor Reimbursement: A significant portion of the revenue earned by the operators of our acute care hospitals is derived from federal and state healthcare programs, including Medicare and Medicaid. Given increasing budget deficits, the federal government and many states are currently considering additional ways to limit increases in levels of Medicare and Medicaid funding, which could also adversely affect future payments received by operators of our facilities. In addition to statutory and regulatory changes to the Medicare and each of the state Medicaid programs, our operators' operations and reimbursement may be affected by administrative rulings, new or novel interpretations and determinations of existing laws and regulations, post-payment audits, requirements for utilization review and new governmental funding restrictions, all of which may materially increase or decrease program payments as well as affect the cost of providing services and the timing of payments to our facilities.

In addition to changes in government reimbursement programs, our operators' ability to negotiate favorable service contracts with purchasers of group health services, including managed care providers, significantly affects the revenues and operating results of our facilities. Further, a primary collection risk for our operators relates to uninsured patients and the portion of the bill that is the patient's responsibility, which primarily includes co-payments and deductibles.

Health Care Reform: An increasing number of legislative initiatives have been introduced or proposed in recent years that would result in major changes in the health care delivery system on a national or a state level. Among the proposals that have been introduced are price controls on hospitals, insurance market reforms to increase the availability of group health insurance to small businesses, requirements that all businesses offer health insurance coverage to their employees and the creation of government health insurance plans that would cover all citizens and increase payments by beneficiaries. The operators of our facilities, including UHS, cannot predict whether any of the above proposals or other proposals will be adopted and, if adopted, no assurances can be given that their implementation will not have a material adverse effect on the businesses, financial condition and/or results of operations of our tenants.

If we fail to maintain our REIT status, we will become subject to federal income tax on our taxable income at regular corporate rates.

In order to qualify as a REIT, we must comply with certain highly technical and complex provisions of the Internal Revenue Code of 1986, as amended, which we refer to as the Internal Revenue Code. Although we believe we have been qualified as a REIT since our inception, there can be no assurance that we have been so qualified or will remain qualified in the future. Failure to qualify as a REIT may subject us to income tax liabilities, including federal income tax at regular corporate rates. The additional income tax incurred may significantly reduce the cash flow available for distribution to shareholders and for debt service. In addition, if disqualified, we might be barred from qualification as a REIT for four years following disqualification.

The market value of our common shares could be substantially affected by various factors.

Many factors, certain of which are outside of our control, could have an adverse effect on the share price of our common shares. These factors include certain of the risks discussed herein, our financial condition, performance and prospects, the market for similar securities issued by REITs, demographic changes, operating results of our operators and other hospital companies, changes in our financial estimates or recommendations of securities analysts, speculation in the press or investment community, the possible effects of war, terrorist and other hostilities, adverse weather conditions, the level of seasonal illnesses, changes in general conditions in the economy or the financial markets, or other developments affecting the health care industry.

Ownership limitations and anti-takeover provisions in our declaration of trust and bylaws and under Maryland law may delay, defer or prevent a change in control or other transactions that could provide shareholders with a take-over premium. We are subject to significant anti-takeover provisions.

In order to protect us against the risk of losing our REIT status for federal income tax purposes, our declaration of trust permits our Trustees to redeem shares acquired or held in excess of 9.8% of the issued and

Table of Contents

outstanding shares of our voting stock and, which in the opinion of the Trustees would jeopardize our REIT status. In addition, any acquisition of our common or preferred shares that would result in our disqualification as a REIT is null and void. The right of redemption may have the effect of delaying, deferring or preventing a change in control of our company and could adversely affect our shareholders' ability to realize a premium over the market price for the shares of our common shares.

Our declaration of trust authorizes our Board of Trustees to issue additional shares of common and preferred stock and to establish the preferences, rights and other terms of any series of preferred stock that we issue. Although our Board of Trustees has no intention to do so at the present time, it could establish a series of preferred stock that could delay, defer or prevent a transaction or a change in control that might involve the payment of a premium over the market price for our common shares or otherwise be in the best interests of our shareholders.

These provisions could discourage unsolicited acquisition proposals or make it more difficult for a third-party to gain control of us, which could adversely affect the market price of our securities and prevent shareholders from receiving a take-over premium.

We depend heavily on key management personnel and the departure of one or more of our key executives or a significant portion of our operators' local hospital management personnel could harm our business.

The expertise and efforts of our senior executives and key members of our operators' local hospital management personnel are critical to the success of our business. The loss of the services of one or more of our senior executives or of a significant portion of our operators' local hospital management personnel could significantly undermine our management expertise and our operators' ability to provide efficient, quality health care services at our facilities, which could harm their business, and in turn, harm our business.

Increasing investor interest in our sector and consolidation at the operator or REIT level could increase competition and reduce our profitability.

Our business is highly competitive and we expect that it may become more competitive in the future. We compete for the acquisition, leasing and financing of health care related facilities. Our competitors include, but are not limited to, other REITs, banks and other companies, including UHS, some of which are larger and may have a lower cost of capital than we do. These developments could result in fewer investment opportunities for us and lower spreads over our cost of our capital, which would hurt our growth.

We are subject to significant corporate regulation as a public company and failure to comply with all applicable regulations could subject us to liability or negatively affect our stock price.

As a publicly traded company, we are subject to a significant body of regulation, including the Sarbanes-Oxley Act of 2002. While we have developed and instituted a corporate compliance program based on what we believe are the current best practices in corporate governance and continue to update this program in response to newly implemented or changing regulatory requirements, we cannot provide assurance that we are or will be in compliance with all potentially applicable corporate regulations. For example, we cannot provide assurance that in the future our management will not find a material weakness in connection with its annual review of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act. We also cannot provide assurance that we could correct any such weakness to allow our management to assess the effectiveness of our internal control over financial reporting as of the end of our fiscal year in time to enable our independent registered public accounting firm to state that such assessment will have been fairly stated in our Annual Report on Form 10-K or state that we have maintained effective internal control over financial reporting as of the end of our fiscal year. If we fail to comply with any of these regulations, we could be subject to a range of regulatory actions, fines or other sanctions or litigation. If we must disclose any material weakness in our internal control over financial reporting, our stock price could decline.

CAUTIONARY LANGUAGE REGARDING FORWARD-LOOKING STATEMENTS

Statements in this prospectus and the information incorporated by reference in this prospectus or any prospectus supplement that are not historical factual statements are forward-looking statements that reflect our current estimates, expectations and projections about our future results, performance, prospects and opportunities. Forward-looking statements include, among other things, the information concerning our possible future results of operations, business and growth strategies, financing plans, expectations that regulatory developments or other matters will not have a material adverse effect on our business or financial condition, our competitive position and the effects of competition, the projected growth of the industry in which we operate, and the benefits and synergies to be obtained from our completed and any future acquisitions, and statements of our goals and objectives, and other similar expressions concerning matters that are not historical facts. Words such as may, will, should, could, would, predicts, potential, continue, expects, anticipates, future, intends, plans, projects and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved. Forward-looking information is based on information available at the time and/or our good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Such factors include, among other things, the following:

a substantial portion of our revenues are dependent upon one operator, UHS;

a subsidiary of UHS is our Advisor and our officers are all employees of UHS, which may create the potential for conflicts of interest;

lost revenues from purchase option exercises and lease expirations and renewals, loan repayments and other restructuring;

the availability and terms of capital to fund the growth of our business;

the outcome of known and unknown litigation, government investigations, and liabilities and other claims asserted against us or the operators of our facilities, including the government's ongoing investigation of UHS's South Texas Health Systems affiliates, which includes McAllen Medical Center, as described herein;

the potential unfavorable impact on our business of continued deterioration in national, regional and local economic and business conditions, including a continuation or worsening of unfavorable credit market conditions;

the continued deterioration in general economic conditions which could result in increases in the number of people unemployed and/or insured and likely increase the number of individuals without health insurance; as a result, the operators of our facilities may experience decreases in patient volumes which could result in decreased occupancy rates at our medical office buildings;

a worsening of the economic and employment conditions in the United States could materially affect the business of our operators, including UHS, which may unfavorably impact our future bonus rentals (on the UHS hospital facilities) and may potentially have a negative impact on the future lease renewal terms and the underlying value of the hospital properties;

the deterioration of credit and capital markets may adversely affect our access to sources of funding and we cannot be certain of the availability and terms of capital to fund the growth of our business when needed;

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

our majority ownership interests in various LLCs in which we hold non-controlling equity interests;

real estate market factors, including without limitation, the supply and demand of office space and market rental rates, changes in interest rates as well as an increase in the development of medical office condominiums in certain markets;

Table of Contents

government regulations, including changes in the reimbursement levels under the Medicare and Medicaid program;

the issues facing the health care industry that affect the operators of our facilities, including UHS, such as: changes in, or the ability to comply with, existing laws and government regulations; unfavorable changes in the levels and terms of reimbursement for our charges by third party payors or government programs, including Medicare or Medicaid; demographic changes; the ability to enter into managed care provider agreements on acceptable terms; an increase in uninsured and self-pay patients which unfavorably impacts the collectability of patient accounts; decreasing in-patient admission trends; technological and pharmaceutical improvements that may increase the cost of providing, or reduce the demand for, health care, and; the ability to attract and retain qualified medical personnel, including physicians;

three LLCs that own properties in California, in which we have various non-controlling equity interests, could not obtain earthquake insurance at rates which are economically beneficial in relation to the risks covered;

competition for operators from other REITs;

competition from other health care providers, including physician owned facilities and other facilities owned by UHS, including, but not limited to, McAllen, Texas, the site of our largest acute care facility;

changes in, or inadvertent violations of, tax laws and regulations and other factors than can affect REITs and our status as a REIT;

fluctuations in the value of our common shares; and

other factors referenced herein or in our other filings with the Securities and Exchange Commission.

Given these uncertainties, risks and assumptions, you are cautioned not to place undue reliance on such forward-looking statements. Our actual results and financial condition, including the operating results of our lessees and the facilities leased to subsidiaries of UHS, could differ materially from those expressed in, or implied by, the forward-looking statements.

Forward-looking statements speak only as of the date the statements are made. We assume no obligation to publicly update any forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except as may be required by law. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement.

THE TRUST

We are a real estate investment trust, or REIT, that commenced operations in 1986. We invest in health care and human service related facilities including acute care hospitals, behavioral healthcare facilities, rehabilitation hospitals, sub-acute facilities, surgery centers, childcare centers and medical office buildings. As of June 30, 2009, we have fifty real estate investments or commitments located in fifteen states in the United States consisting of:

seven hospital facilities consisting of three acute care, one behavioral healthcare, one rehabilitation and two sub-acute;

thirty-nine medical office buildings, including thirty owned by various LLCs; and

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

four preschool and childcare centers.

Our executive offices are located at Universal Corporate Center, 367 South Gulph Road, P.O. Box 61558, King of Prussia, Pennsylvania 19406-0958, and our telephone number is (610) 265-0688.

Table of Contents

THE TRUST'S RELATIONSHIP TO UHS

UHS' principal business is owning and operating, through its subsidiaries, acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers and radiation oncology centers. As of June 30, 2009, UHS owned and/or operated or had under construction, 26 acute care hospitals (excluding 2 new replacement facilities currently being constructed) and 103 behavioral health centers located in 32 states, Washington, D.C. and Puerto Rico. As part of its ambulatory treatment centers division, UHS manages and/or owns outright or in partnerships with physicians, 9 surgical hospitals and surgery and radiation oncology centers located in 6 states and Puerto Rico.

As of June 30, 2009, UHS had assets of \$3,836,876,000, and, for the six months ended June 30, 2009, UHS's net revenues were \$2,616,059,000 and net income was \$176,011,000. Net revenues from UHS' acute care hospitals, surgical hospitals, surgery centers and radiation oncology centers accounted for 74% of UHS' consolidated net revenues during the year ended December 31, 2008 and for the six months ended June 30, 2009. Net revenues from UHS' behavioral health care facilities accounted for 25% of its consolidated net revenues during the year ended December 31, 2008 and the six month period ended June 30, 2009. Approximately 1% of UHS' consolidated net revenues during 2008 and the second quarter of 2009 were recorded in connection with a construction management contract pursuant to the terms of which UHS is building a newly constructed acute care hospital for an unrelated party that is scheduled to be completed during the fourth quarter of 2009, and, in 2008, in connection with a construction management contract pursuant to which UHS built a newly constructed acute care hospital for an unrelated third party that was completed during the first quarter of 2008.

Services provided by UHS' hospitals include general and specialty surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services and behavioral health services. UHS provides capital resources as well as a variety of management services to its facilities, including central purchasing, information services, finance and control systems, facilities planning, physician recruitment services, administrative personnel management, marketing and public relations.

Leases: We commenced operations in 1986 by purchasing the real property of certain subsidiaries from UHS and immediately leasing the properties back to the respective subsidiaries. Most of the leases were entered into at the time we commenced operations and provided for initial terms of 13 to 15 years with up to six additional 5-year renewal terms, with base rents set forth in the leases effective for all but the last two renewal terms. The base rents are paid monthly and each lease also provides for additional or bonus rents which are computed and paid on a quarterly basis based upon a computation that compares current quarter revenue to a corresponding quarter in the base year. The leases with subsidiaries of UHS are unconditionally guaranteed by UHS and are cross-defaulted with one another.

The combined revenues generated from the leases on the UHS hospital facilities accounted for approximately 51% and 56% of our total revenue for the three months ended June 30, 2009 and 2008, respectively, and 52% and 57% for the six months ended June 30, 2009 and 2008, respectively. Including 100% of the revenues generated at the unconsolidated LLCs in which we have various non-controlling equity interests ranging from 33% to 99%, the leases on the UHS hospital facilities accounted for approximately 20% and 23% of the combined consolidated and unconsolidated revenue for the three months ended June 30, 2009 and 2008, respectively, and 20% and 22% for the six months ended June 30, 2009 and 2008, respectively. In addition, ten medical office buildings (MOBs) (plus two additional MOBs currently under construction) owned by LLCs in which we hold various non-controlling equity interests, include or will include tenants which are subsidiaries of UHS.

Pursuant to the Master Lease Document by and among us and certain subsidiaries of UHS, dated December 24, 1986, which governs the leases of all hospital properties with subsidiaries of UHS, UHS has the option to renew the leases at the lease terms described below by providing notice to us at least 90 days prior to the termination of the then current term. In addition, UHS has rights of first refusal to: (i) purchase the respective leased facilities during and for 180 days after the lease terms at the same price, terms and conditions of any

Table of Contents

third-party offer, or; (ii) renew the lease on the respective leased facility at the end of, and for 180 days after, the lease term at the same terms and conditions pursuant to any third-party offer. UHS also has the right to purchase the respective leased facilities at the end of the lease terms or any renewal terms at the appraised fair market value. In addition, during 2006, as part of the overall exchange and substitution proposal relating to Chalmette Medical Center, as well as the early five year lease renewals on Southwest Healthcare System-Inland Valley Campus, Wellington Regional Medical Center, McAllen Medical Center and The Bridgeway, we agreed to amend the Master Lease Document to include a change of control provision. The change of control provision grants UHS the right, upon one month's notice should a change of control of the Trust occur, to purchase any or all of the four leased hospital properties at their appraised fair market value.

The table below details the renewal options and terms for each of the four UHS hospital facilities:

| Hospital Name | Type of Facility | Annual Minimum Rent | End of Lease Term | Renewal Term (years) |
|---|-------------------|---------------------|-------------------|----------------------|
| McAllen Medical Center | Acute Care | \$ 5,485,000 | December, 2011 | 20 (a) |
| Wellington Regional Medical Center | Acute Care | \$ 3,030,000 | December, 2011 | 20 (b) |
| Southwest Healthcare System, Inland Valley Campus | Acute Care | \$ 2,648,000 | December, 2011 | 20 (b) |
| The Bridgeway | Behavioral Health | \$ 930,000 | December, 2014 | 10 (c) |

- (a) UHS has four 5-year renewal options at existing lease rates (through 2031).
- (b) UHS has two 5-year renewal options at existing lease rates (through 2021) and two 5-year renewal options at fair market value lease rates (2022 through 2031).
- (c) UHS has two 5-year renewal options at fair market value lease rates (2015 through 2024).

We are committed to invest up to a total of \$7.4 million in equity and debt financing, of which \$3.5 million has been funded as of June 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC (Palmdale Medical Properties) that constructed, owns, and operates the Palmdale Medical Plaza, located in Palmdale, California, on the campus of a UHS hospital. This MOB has a triple net, 75% master lease commitment by UHS of Palmdale, Inc., a subsidiary of UHS, pursuant to the terms of which the master lease for each suite will be cancelled at such time that the suite is leased for a minimum term of five years to another tenant acceptable to the LLC and UHS of Palmdale, Inc. This MOB, tenants of which will include subsidiaries of UHS, was completed and opened during the third quarter of 2008 at which time the master lease commenced. Based upon the executed leases and letter of intent commitments in place as of June 30, 2009, the master lease threshold of 75% has not been met. The LLC has a third-party term loan commitment of \$9.9 million, which is non-recourse to us, of which \$8.3 million has been borrowed as of June 30, 2009. This LLC, which is deemed to be a variable interest entity, is consolidated in our financial statements as of June 30, 2009 since we are the primary beneficiary.

We are committed to invest up to \$5.4 million in debt or equity, of which \$238,000 has been funded as of June 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC (Banburry Medical Properties) that developed, constructed, owns and operates the Summerlin Medical Office Building III, located in Las Vegas, Nevada, on the campus of a UHS hospital. Summerlin Hospital Medical Center (Summerlin Hospital), a subsidiary of UHS, has committed to lease approximately 25% of this building pursuant to the terms of a 10-year flex lease. In addition, Summerlin Hospital has committed to a 50% master lease on the remaining 75% of the building (representing 37.5% of the building) pursuant to the terms of which the master lease for each suite will be cancelled at such time that the suite is leased for a minimum term of five years to another tenant acceptable to the LLC and Summerlin Hospital. This MOB, tenants of which will include subsidiaries of UHS, was completed and opened during the first quarter of 2009 at which time the master lease commenced. Based upon the executed leases and letter of intent commitments in place as of June 30, 2009, the master lease threshold has not been met. The LLC has a third-party construction loan commitment of \$14.4 million, which is non-recourse to us, of which \$12.1 million has been borrowed as of June 30, 2009. This LLC, which is deemed to be a variable interest entity, is consolidated in our financial statements as of June 30, 2009 since we are the primary beneficiary.

Table of Contents

We are committed to invest up to a total of \$4.8 million in equity and debt financing, of which \$352,000 has been funded as of June 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC that will develop construct, own and operate the Texoma Medical Plaza located in Denison, Texas, on the campus of a replacement UHS acute care hospital. Texoma Medical Center (Texoma Hospital), a subsidiary of UHS, has committed to lease 75% of this building, pursuant to which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and Texoma Hospital. This MOB, tenants of which will include subsidiaries of UHS, is scheduled to be completed and opened during the first quarter of 2010, at which time the master lease will commence. Subsequent to June 30, 2009, this LLC obtained a third-party construction loan commitment of \$13.3 million, which is non-recourse to us, none of which has been borrowed as of June 30, 2009. As this LLC is not considered to be a variable interest entity, it is accounted for under the equity method.

We are committed to invest up to a total of \$4.7 million in equity and debt financing, of which \$4.5 million has been funded as of June 30, 2009, in exchange for a 95% non-controlling equity interest in an LLC that will develop construct, own and operate the Auburn Medical Office Building II, located in Auburn, Washington, on the campus of a UHS hospital. Auburn Regional Medical Center (Auburn Hospital), a subsidiary of UHS, has committed to lease 75% of this building, pursuant to which the master lease for each suite will be cancelled at such time that the suite is leased to another tenant acceptable to the LLC and Auburn Hospital. This MOB, tenants of which will include subsidiaries of UHS, is scheduled to be completed and opened during the fourth quarter of 2009, at which time the master lease will commence. Subsequent to June 30, 2009, this LLC obtained a third-party construction loan commitment of \$8.4 million, which is non-recourse to us, none of which has been borrowed as of June 30, 2009. As this LLC is not considered to be a variable interest entity, it is accounted for under the equity method.

Advisory Agreement: UHS of Delaware, Inc., a wholly-owned subsidiary of UHS, serves as Advisor to us under an Advisory Agreement dated December 24, 1986, which we refer to as the Advisory Agreement. Under the Advisory Agreement, the Advisor is obligated to present an investment program to us, to use its best efforts to obtain investments suitable for such program (although it is not obligated to present any particular investment opportunity to us), to provide administrative services to us and to conduct our day-to-day affairs. In performing its services under the Advisory Agreement, the Advisor may utilize independent professional services, including accounting, legal, tax and other services, for which the Advisor is reimbursed directly by us. The Advisory Agreement expires on December 31 of each year; however, it is renewable by us, subject to a determination by the Trustees who are unaffiliated with UHS, who we refer to as the Independent Trustees, that the Advisor's performance has been satisfactory. The Advisory Agreement may be terminated for any reason upon sixty days written notice by us or the Advisor. The Advisory Agreement has been renewed for 2009. All transactions between us and UHS must be approved by the Independent Trustees.

The Advisory Agreement provides that the Advisor is entitled to receive an annual advisory fee equal to 0.60% of our average invested real estate assets, as derived from our consolidated balance sheet. The advisory fee is payable quarterly, subject to adjustment at year-end based upon our audited financial statements. In addition, the Advisor is entitled to an annual incentive fee equal to 20% of the amount by which cash available for distribution to shareholders for each year, as defined in the Advisory Agreement, exceeds 15% of our equity as shown on our consolidated balance sheet, determined in accordance with generally accepted accounting principles without reduction for return of capital dividends. The Advisory Agreement defines cash available for distribution to shareholders as net cash flow from operations less deductions for, among other things, amounts required to discharge our debt and liabilities and reserves for replacement and capital improvements to our properties and investments. Advisory fees incurred and paid (or payable) to UHS amounted to \$389,000 and \$376,000 for the three months ended June 30, 2009 and 2008, respectively, and \$779,000 and \$743,000 for the six month periods ended June 30, 2009 and 2008, respectively. No incentive fees were paid in either period.

Officers and Employees: Our officers are all employees of UHS and although as of June 30, 2009 we had no salaried employees, our officers do receive stock-based compensation from time-to-time.

Table of Contents

Share Ownership: As of June 30, 2009, UHS owned 6.6% of our outstanding shares of beneficial interest.

SEC reporting requirements of UHS: UHS is subject to the reporting requirements of the SEC and is required to file annual reports containing audited financial information and quarterly reports containing unaudited financial information. Since the leases on the hospital facilities leased to wholly-owned subsidiaries of UHS comprised approximately 51% and 56% of our consolidated revenues for the three months ended June 30, 2009 and 2008, respectively, and 52% and 57% for the six month periods ended June 30, 2009 and 2008, and since a subsidiary of UHS is our Advisor, you are encouraged to obtain the publicly available filings for UHS, Inc. from the SEC's website at <http://www.sec.gov>. These filings are the sole responsibility of UHS and are not incorporated by reference herein.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following tables set forth our ratio of earnings to fixed charges for the periods indicated on: (i) a basis which includes only the fixed charges reflected on our financial statements, on a consolidated basis, and (ii) a basis which includes the impact of our pro-rata share of the fixed charges incurred by various limited liability companies in which we hold non-controlling equity interests (Unconsolidated LLCs). You should read these ratios of earnings to fixed charges in connection with our consolidated financial statements, including the notes to those statements, incorporated by reference in this prospectus.

| | Six months | Year Ended December 31, | | | | |
|--|------------------------|-------------------------|------|------|------|------|
| | ended June 30, 2009 | 2008 | 2007 | 2006 | 2005 | 2004 |
| Ratio of Earnings to Fixed Charges, as reflected on our financial statements, on a consolidated basis (A.) | 9.4 | 5.8 | 10.1 | 9.0 | 6.8 | 7.1 |
| Ratio of Earnings to Fixed Charges, including the impact of our pro-rata share of the fixed charges incurred by the Unconsolidated LLCs (B.) | 2.4 | 1.8 | 2.3 | 2.7 | 2.8 | 3.1 |

(A.) For purposes of computing these ratios, earnings is the sum of income from continuing operations: (i) minus equity in income of the Unconsolidated LLCs; (ii) minus gains on replacement property recovered from UHS; (iii) plus distributed income from the Unconsolidated LLCs, excluding gains; (iv) plus fixed charges (other than interest that has been capitalized), and (v) plus amortization of previously capitalized interest.

Fixed charges consists of: (i) interest expense recorded on our consolidated financial statements (including amortization of debt issuance costs); (ii) interest that has been capitalized, and (iii) estimate of interest portion of lease/rental expense.

During 2008, we recorded a \$4.6 million provision for asset impairment that reduced our earnings used in computing the ratios on the table above. Included in our reported net income during 2007, 2006 and 2005 were gains on replacement property recovered from UHS amounting to \$1.7 million, \$14.0 million and \$4.7 million, respectively, which are excluded from our earnings used in computing the ratios on the table above.

(B.) For purposes of computing these ratios, earnings is the sum of income from continuing operations: (i) minus equity in income of the Unconsolidated LLCs; (ii) minus gains on replacement property recovered from UHS; (iii) plus distributed income from the Unconsolidated LLCs, excluding gains; (iv) plus fixed charges (other than interest that has been capitalized on our consolidated financial statements and the Unconsolidated LLCs), and (v) plus amortization of previously capitalized interest (on our consolidated financial statements and the Unconsolidated LLCs).

Fixed charges consists of: (i) interest expense recorded on our consolidated financial statements and our pro-rata share of the interest expense incurred by the Unconsolidated LLCs (including amortization of debt issuance costs); (ii) interest that has been capitalized on the consolidated financial statements and our pro-rata share of the interest capitalized by the unconsolidated LLCs, and (iii) an estimate of the interest element of the lease rental expense on the consolidated financial statement and our pro-rata share of an estimate of the interest element of lease rental expense incurred by the Unconsolidated LLCs.

During 2008, we recorded a \$4.6 million provision for asset impairment that reduced our earnings used in computing the ratios on the table above. Included in our reported net income during 2007, 2006 and 2005 were gains on replacement property recovered from UHS amounting to \$1.7 million, \$14.0 million and \$4.7 million, respectively, which are excluded from our earnings used in computing the ratios on the table above.

For the periods indicated above, we did not have any outstanding preferred shares of beneficial interest. Therefore, the ratio of combined fixed charges and preferred share dividends to earnings are identical to the ratios presented in the above table.

Table of Contents

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement for any offering of securities, the net proceeds, after estimated expenses, received by the Trust from the sale of these securities will be added to the Trust's general funds. In the event that we complete an offering of shares of beneficial interest, the Trust intends to use the first 50% of the net proceeds of the offering to repay amounts outstanding under our revolving credit agreement with several financial institutions. The Trust expects to use the remainder of the proceeds, in the case of an offering of shares of beneficial interest, or all of the proceeds, in the case of an offering of debt securities, for general operating purposes, including working capital, capital expenditures and the repayment of borrowings. Pending such use, the Trust may temporarily invest net proceeds in interest-bearing time deposits or short-term marketable securities.

The revolving credit agreement provides for unsecured revolving loans of up to \$100 million, subject to increase to \$150 million at our option, subject to bank approval. The agreement provides for interest at our option, at the Eurodollar rate plus 0.75% to 1.125%, or the prime rate plus zero to .125%. A fee of 0.15% to 0.225% is paid on the unused portion of the commitment. The margins over the Eurodollar, prime rate and the commitment fee are based upon our debt to total capital ratio as defined by the agreement. As of June 30, 2009, the applicable margin over the Eurodollar rate was 0.75%, the margin over the prime rate was zero, and the commitment fee was 0.15%. At June 30, 2009, we had \$52.3 million of outstanding borrowings and \$16.6 million of letters of credit outstanding against the agreement. We had \$31.1 million of available borrowing capacity, net of the outstanding borrowings and letters of credit outstanding as of June 30, 2009. There are no compensating balance requirements. The agreement contains a provision whereby the commitments will be reduced by 50% of the proceeds generated from any new equity offering.

Table of Contents

**DESCRIPTION OF THE TRUST'S COMMON SHARES OF BENEFICIAL INTEREST
AND PREFERRED SHARES OF BENEFICIAL INTEREST**

Please note that in this section entitled "Description of the Trust's Common Shares of Beneficial Interest and Preferred Shares of Beneficial Interest," references to "holders" mean those who own common shares of beneficial interest, also referred to as "common shares," or preferred shares of beneficial interest, also referred to as "preferred shares," registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositories. Owners of beneficial interests in common shares should also read the section entitled "Legal Ownership and Book-Entry Issuance."

The following description summarizes the material provisions of the common shares and preferred that we may offer. This description is not complete and is subject to, and is qualified in its entirety by reference to the declaration of trust, as amended and/or restated from time to time, and the amended and restated bylaws, as amended and/or restated from time to time, each of which is incorporated herein by reference, and applicable provisions of Title 8 of the Maryland General Corporation Law. The specific terms of any series of preferred shares will be described in the applicable prospectus supplement. Any series of preferred shares we issue will be governed by our declaration of trust as then in effect, and by articles supplementary related to that series. We will file the articles supplementary with the SEC and incorporate them by reference as an exhibit to our registration statement at or before the time we issue any preferred shares of that series of authorized shares of beneficial interest.

The Trust's authorized capital stock consists of 100,000,000 shares of beneficial interest, 95,000,000 of which are designated as common shares, par value \$0.01 per share, and 5,000,000 of which are designated as preferred shares, par value \$0.01 per share.

Common Shares of Beneficial Interest

Except as otherwise determined by the trustees of the Trust with respect to any class of or series of preferred shares, all common shares of beneficial interest will participate equally in distributions payable to shareholders when and as declared by the trustees of the Trust and in net assets available for distribution to shareholders, on liquidation or dissolution, will have one vote per share on all matters submitted to a vote of the Trust's shareholders and will not have cumulative voting rights in the election of the Trust's trustees. The common shares offered hereby will be validly issued, fully paid and, except as set forth below, nonassessable by the Trust upon issuance, and will have no preference, conversion, exchange or preemptive rights.

Preferred Shares of Beneficial Interest

No preferred shares are presently outstanding. Up to 5,000,000 preferred shares may be issued from time to time by the Trust's trustees, without shareholder approval, in such series and with such preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends, qualifications or other provisions, as may be fixed by the trustees in the resolution authorizing their issuance.

The following description of the terms of the preferred shares sets forth certain general terms and provisions of the preferred shares to which any prospectus supplement may relate. The preferred shares shall have the dividend, liquidation, redemption and voting rights set forth below unless otherwise provided in a prospectus supplement relating to a particular series of preferred shares. The terms of any particular series of preferred shares will be described in the prospectus supplement relating to that particular series of preferred shares, including:

the number of shares constituting the series and the distinctive designation thereof;

the voting rights, if any, of the series;

Table of Contents

the rate of dividends payable on the series, the time or times when dividends will be payable, the preference to, or any relation to, the payment of dividends to any other class or series of shares and whether the dividends will be cumulative or non-cumulative;

whether there shall be a sinking or similar fund for the purchase of shares of the series and, if so, the terms and provisions that shall govern the fund;

the rights of the holders of shares of the series upon our liquidation, dissolution or winding up;

the rights, if any, of holders of shares of the series to convert their shares into or to exchange the shares for, shares of any other class or classes or any other series of the same or of any other class or classes of shares of beneficial interest of the Trust or any other securities, the price or prices or rate or rates of exchange, with such adjustments as shall be provided, at which the shares shall be convertible or exchangeable, whether such rights of conversion or exchange shall be exercisable at the option of the holder of the shares or upon the happening of a specified event and any other terms or conditions of such conversion or exchange; and

any other preferences, powers and relative participating, optional or other special rights and qualifications, limitations or restrictions of shares of the series.

The preferred shares offered hereby will be validly issued, fully paid and, except as set forth below, nonassessable by the Trust upon issuance, and will have no preemptive rights. Unless otherwise stated in a prospectus supplement relating to a particular series of preferred shares, each series of preferred shares will rank on a parity as to dividends and distributions of assets with each other series of preferred shares. The rights of the holders of each series of preferred shares will be subordinate to those of our general creditors.

Dividend Rights

Holders of preferred shares of each series will be entitled to receive, when, as and if declared by our Board of Trustees, out of funds legally available therefor, cash dividends on the dates and at rates as will be set forth in, or as are determined by the method described in, the prospectus supplement relating to the series of preferred shares. The rate may be fixed or variable or both. Each dividend will be payable to the holders of record as they appear on our stock books on the record dates fixed by our Board of Trustees, as specified in the prospectus supplement relating to the series of preferred shares.

Dividends may be cumulative or noncumulative, as provided in the prospectus supplement relating to the series of preferred shares. If our Board of Trustees fails to declare a dividend payable on a dividend payment date on any series of preferred shares for which dividends are noncumulative, then the holders of the series of preferred shares will have no right to receive a dividend in respect of the dividend period ending on the dividend payment date, and we will have no obligation to pay the dividend accrued for such period, whether or not dividends on the series are declared payable on any future dividend payment dates. Dividends on the shares of each series of preferred shares for which dividends are cumulative will accrue from the date on which we initially issue shares of the series.

So long as the shares of any series of preferred shares are outstanding, except as otherwise provided in the prospectus supplement relating to such series, we may not declare any dividends on our common shares or any other stock ranking as to dividends or distributions of assets junior to the series of preferred shares or make any payment on account of, or set apart money for, the purchase, redemption or other retirement of, or for a sinking or other analogous fund for, any junior shares or make any distribution in respect thereof, whether in cash or property or in obligations or stock, other than junior shares which are neither convertible into, nor exchangeable or exercisable for, any securities other than junior shares:

unless, if the preferred shares are cumulative, full dividends for prior dividend periods shall have been paid or declared and set apart for payment on all outstanding preferred shares of the series and all other series of our preferred shares (other than junior shares); and

Table of Contents

unless we are not in default or in arrears with respect to the mandatory or optional redemption or mandatory repurchase or other mandatory retirement of, or with respect to any sinking or other analogous fund for, any preferred shares of the series or of any other series of our preferred shares (other than junior shares).

Liquidation Preference

In the event of any liquidation, dissolution or winding up of us, voluntary or involuntary, the holders of each series of preferred shares will be entitled to receive out of our assets legally available for distribution to shareholders, before any distribution of assets or payment is made to the holders of common shares or any other shares of our beneficial interest ranking junior as to such distribution or payment to such series of preferred shares, the amount set forth in the prospectus supplement relating to such series of preferred shares. If, upon any voluntary or involuntary liquidation, dissolution or winding up of us, the amounts payable with respect to the preferred shares of any series and any other preferred shares (including any other series of the preferred shares) ranking as to any such distribution on a parity with such series of preferred shares are not paid in full, the holders of the preferred shares of such series and of such other preferred shares will share ratably in any such distribution of our assets in proportion to the full respective preferential amounts to which they are entitled. After payment to the holders of the preferred shares of each series of the full preferential amounts of the liquidating distribution to which they are entitled, the holders of each such series of preferred shares will be entitled to no further participation in any distribution of our assets.

If such payment shall have been made in full to all holders of preferred shares, our remaining assets will be distributed among the holders of any other classes of shares of beneficial interest ranking junior to the preferred shares upon liquidation, dissolution or winding up, according to their respective rights and preferences and in each case according to their respective number of shares. For such purposes, our consolidation or merger with or into any other entity, or the sale, lease or conveyance of all or substantially all of our property or business, shall not be deemed to constitute a liquidation, dissolution or winding up of us.

Redemption

A series of preferred shares may be redeemable, in whole or from time to time in part, at our option, and may be subject to mandatory redemption pursuant to a sinking fund or otherwise, in each case upon terms, at the times and at the redemption prices set forth in the prospectus supplement relating to such series. Preferred shares redeemed by us will be restored to the status of authorized but unissued preferred shares.

In the event that fewer than all of the outstanding shares of a series of the preferred shares are to be redeemed, whether by mandatory or optional redemption, the number of shares to be redeemed will be determined by lot or pro rata (subject to rounding to avoid fractional shares) as may be determined by us or by any other method as may be determined by us in our sole discretion to be equitable. From and after the redemption date (unless default shall be made by us in providing for the payment of the redemption price plus accumulated and unpaid dividends, if any), dividends shall cease to accumulate on the preferred shares called for redemption and all rights of the holders thereof (except the right to receive the redemption price plus accumulated and unpaid dividends, if any) shall cease.

So long as any dividends on shares of any series of preferred shares or any other series of preferred shares ranking on a parity as to dividends and distributions of assets with such series of preferred shares are in arrears, no shares of any such series of the preferred shares or such other series of preferred shares will be redeemed (whether by mandatory or optional redemption) unless all such shares are simultaneously redeemed, and we will not purchase or otherwise acquire any such shares. However, the foregoing will not prevent the purchase or acquisition of such preferred shares of such series or of shares of such other series of preferred shares in order to ensure that we continue to meet the requirements for qualification as a REIT for federal and state income tax purposes or pursuant to a purchase or exchange offer made on the same terms to holders of all outstanding

Table of Contents

preferred shares of such series and, unless the full cumulative dividends on all outstanding shares of any cumulative preferred shares of such series and any other shares of beneficial interest ranking on a parity with such series as to dividends and upon liquidation shall have been paid or contemporaneously are declared and paid for all past dividend periods, we will not purchase or otherwise acquire directly or indirectly any preferred shares of such series (except by conversion into or exchange for our shares of beneficial interest) ranking junior to the preferred shares of such series as to dividends and upon liquidation.

Notice of redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of record of preferred shares to be redeemed at the address shown on our share transfer books. After the redemption date, dividends will cease to accrue on the preferred shares called for redemption and all rights of the holders of such shares will terminate, except the right to receive the redemption price without interest plus accumulated and unpaid dividends, if any.

Conversion Rights

The terms, if any, on which preferred shares of any series may be exchanged for or converted (mandatorily or otherwise) into common shares or another series of preferred shares will be set forth in the prospectus supplement relating thereto.

Voting Rights

Except as indicated below or in a prospectus supplement relating to a particular series of preferred shares, the holders of the preferred shares will not be entitled to vote for any purpose.

So long as any preferred shares remain outstanding, we will not, without the consent or the affirmative vote of such percentage of the holders of each series of preferred shares outstanding at the time as may be specified in the Articles Supplementary for the preferred shares, given in person or by proxy, either in writing or at a meeting (such series voting separately as a class):

authorize, create or issue, or increase the authorized or issued amount of, any series of shares of beneficial interest ranking prior to such series of preferred shares with respect to payment of dividends, or the distribution of assets on liquidation, dissolution or winding up or reclassifying any of our authorized shares of beneficial interest into any such shares, or create, authorize or issue any obligation or security convertible into or evidencing the right to purchase any such shares; or

repeal, amend or otherwise change any of the provisions of our declaration of trust applicable to the preferred shares of such series in any manner which materially and adversely affects the powers, preferences, voting power or other rights or privileges of such series of preferred shares or the holders thereof; provided, however, that any increase in the amount of the authorized preferred shares or the creation or issuance of other series of preferred shares, or any increase in the amount of authorized shares of such series or of any other series of preferred shares, in each case ranking on a parity with or junior to the preferred shares of such series, shall not be deemed to materially and adversely affect such rights, preferences, privileges or voting powers.

The foregoing voting provisions will not apply if, at or prior to the time when the act with respect to which such vote would otherwise be required shall be effected, all outstanding shares of the preferred shares shall have been redeemed or called for redemption and sufficient funds shall have been deposited in trust to effect such redemption.

Redemption and Business Combination Provisions

If the Trust's trustees shall, at any time and in good faith, be of the opinion that direct or indirect ownership of at least 9.8% in value of the outstanding shares of beneficial interest (taking into account the constructive

Table of Contents

ownership rules contained in Sections 318 and 544 of the Internal Revenue Code) has or may become concentrated in the hands of one beneficial owner, the Trust's trustees shall have the power:

by lot or other means deemed equitable by them to call for the purchase from any such shareholder that number of the Trust's shares of beneficial interest sufficient, in the opinion of the trustees, to maintain or bring the direct or indirect ownership of the Trust's shares of beneficial interest of such owner to a level equal to 9.8% in value of the outstanding shares; and

to refuse to transfer or issue the Trust's shares of beneficial interest to any person whose acquisition of such shares would cause a person to hold in excess of 9.8% in value of the outstanding shares of beneficial interest.

Any transfer of the Trust's shares of beneficial interest that would create a direct or indirect owner of more than 9.8% in value of the outstanding shares of beneficial interest shall be deemed void and the intended transferee shall be deemed never to have had an interest therein. The purchase price for any of the shares of beneficial interest so redeemed shall be equal to the fair market value of the shares reflected in the closing sales price for the shares, if then listed on a national securities exchange, or the average of the closing sales prices for the shares if then listed on more than one national securities exchange, or if the shares are not then listed on a national securities exchange, the latest bid quotation for the shares if then traded over-the-counter, on the last business day immediately preceding the day on which notices of such acquisition are sent by the Trust or, if no such closing sale prices or quotations are available, then the purchase price shall be equal to the net asset value of such shares as determined by the trustees in accordance with the provisions of applicable law. From and after the date fixed for purchase by the Trust's trustees, the holder of any shares of beneficial interest so called for purchase shall cease to be entitled to distributions, voting rights and other benefits with respect to such shares, except the right to payment of the purchase price for the shares.

If any person knowingly holds in excess of 9.8% in value of the outstanding shares of beneficial interest and the Trust loses its qualification as a real estate investment trust under the Internal Revenue Code or becomes a personal holding company, that person would be required to indemnify the Trust for the full amount of any damages and expenses resulting from the loss of its qualification as a real estate investment trust or its becoming a personal holding company. These damages and expenses might include increased corporate taxes, attorneys' fees and administrative costs.

The declaration of trust permits the trustees to effect any merger or consolidation in accordance with applicable law, except any merger or consolidation with, or any sale, lease, transfer or other disposition of all or any substantial part of the assets of the Trust to, or from, a holder of shares of beneficial interest of the Trust representing, in the aggregate, 5% or more of the total number of votes authorized to be cast by holders of the Trust's shares of beneficial interest. Business combinations with these related persons must be approved by the affirmative vote of the holders of shares representing at least 95% of the total number of votes authorized to be cast by holders of the Trust's shares of beneficial interest unless:

the trustees by a vote or written consent of all but one of the trustees have expressly approved in advance the acquisition of the outstanding shares of the Trust that caused that person to become a related person or shall have approved the business combination prior to that person having become a related person; or

the business combination is solely between the Trust and another trust or the Trust of which 100% of that entity's voting securities are owned directly or indirectly by the Trust.

Table of Contents

Shareholder Liability

Title 8 of the Maryland General Corporation Law provides that a shareholder of a real estate investment trust shall have immunity from personal liability for the obligations of the real estate investment trust. This Title also provides that the declaration of a real estate investment trust may include any provision expanding or limiting the liability of its shareholders for money damages except for limiting the liability of its shareholders to the extent:

actual receipt of an improper benefit or profit in money, property or services is proved; or

active and deliberate dishonesty is established by a final judgment as being material to the cause of action.

The declaration of trust also provides that the Trust's shareholders shall not be subject to any liability for the acts or obligations of the Trust and that, as far as practicable, each of the Trust's written agreements creating an obligation of the Trust shall contain a provision to that effect. With respect to all types of claims in some jurisdictions, tort claims only in other jurisdictions, contract claims where shareholder liability is not disavowed as described above, and claims for taxes and certain statutory liabilities, a shareholder may be held personally liable to the extent that claims are not satisfied by the Trust. The declaration of trust provides that, upon payment of any such liability, the shareholder will be entitled to reimbursement from the Trust's general assets. There can be no assurance that, at the time any such liability arises, the Trust will have assets sufficient to satisfy this reimbursement obligation. The Trust's trustees intend to conduct the Trust's operations, with the advice of counsel, in such a way as to avoid, as far as practicable, the ultimate liability of the Trust's shareholders. The Trust's trustees do not intend to provide insurance covering such risks to the Trust's shareholders.

Transfer Agent and Registrar

Computershare Investor Services acts as transfer agent, registrar and dividend reinvestment agent of the Trust's common shares.

Trading Market

The Trust's common shares currently trade on the New York Stock Exchange under the symbol UHT.

Table of Contents

DESCRIPTION OF DEBT SECURITIES

Please note that in this section entitled "Description of Debt Securities," references to "holders" mean those who own debt securities registered in their own names on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositories. Owners of beneficial interests in the debt securities should also read the section entitled "Legal Ownership and Book-Entry Issuance."

The following description summarizes the material provisions of our debt securities. The debt securities are to be issued under an indenture between us and The Bank of New York Mellon Trust Company, N.A., as trustee (the "indenture"), the form of which has been filed with the SEC as an exhibit to the registration statement of which this prospectus is a part. This description is not complete and is subject to, and is qualified in its entirety by reference to, the indenture and the Trust Indenture Act of 1939, as amended, which we refer to as the "Trust Indenture Act."

The particular terms of each series of debt securities that we may offer from time to time will be established in or under a resolution of our board of directors and set forth in an officers' certificate or a supplemental indenture, and in a form of debt security with respect to that series. We will file such officers' certificate or supplemental indenture and the form of debt security with the SEC. The prospectus supplement with respect to the series of debt securities we are offering will describe these particular terms and will indicate the extent to which the general terms described below may not apply to that series of debt securities. Whenever particular defined terms of the indenture, as supplemented or amended from time to time, are referred to in this prospectus or a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.

General

Our debt securities will be unsecured obligations of ours. The indenture does not limit the amount of debt securities that we may issue under the indenture. We may issue our debt securities at various times in different series, each of which may have different terms.

We expect that the prospectus supplement relating to the particular series of debt securities we are offering will include the following information concerning those debt securities:

the title of the debt securities;

any limit on the amount of debt securities that we may offer;

the price at which we are offering our debt securities. We will usually express the price as a percentage of the principal amount;

the maturity date of our debt securities;

the interest rate per annum on our debt securities. We may specify a fixed rate or a variable rate, or we may offer debt securities that do not bear interest but are sold at a substantial discount from the amount payable at maturity;

the date from which interest on our debt securities will accrue;

the dates on which we will pay interest and the regular record dates for determining who is entitled to receive the interest;

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

if applicable, the dates on which or after which, and the prices at which, we are required to redeem our debt securities or have the option to redeem our debt securities;

if applicable, any limitations on our right to defease our obligations under our debt securities by depositing cash or securities;

Table of Contents

the amount that we would be required to pay if the maturity of our debt securities is accelerated, if that amount is other than the principal amount;

any additional restrictive covenants or other material terms relating to our debt securities;

any additional events of default that will apply to our debt securities; and

if we will make payments on our debt securities in any currency other than United States dollars, the currency or composite currency in which we will make those payments. If the currency will be determined under an index, the details concerning such index.

Conversion Rights

The terms, if any, on which debt securities of a series may be exchanged for or converted into common or preferred shares of our beneficial interest, debt securities of another series or other securities will be set forth in the prospectus supplement relating to the series. To protect our status as a REIT, a holder may not convert any debt security, and the debt security is not convertible by any holder, if as a result of the conversion any person would then be deemed to beneficially own, directly or indirectly, 9.9% or more of our common shares of beneficial interest.

Global Debt Securities

Unless we specify otherwise in the applicable prospectus supplement, the registered debt securities of a series will be issued only in the form of one or more fully registered global securities that will be deposited with a depository or with a nominee for a depository identified in the prospectus supplement relating to the series and registered in the name of the depository or a nominee of the depository. Ownership of beneficial interests in a registered global security will be limited to persons, or participants, that have accounts with the depository for the registered global security or persons that may hold interests through participants.

Those who own beneficial interests in a global debt security will do so through participants in the depository's securities clearance system, and the rights of those indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities under Legal Ownership and Book-Entry Issuance.

Payments on Debt Securities

We will make payments on our debt securities at the office or agency we will maintain for that purpose, which will be the Corporate Trust Office of the trustee in New York, New York unless we indicate otherwise in the prospectus supplement, or at such other places and at the respective times and in the manner as we designate in the prospectus supplement.

Covenants

Unless we otherwise specify in the prospectus supplement, there are not any covenants in the indenture or our debt securities that would protect you against a highly leveraged or other transaction involving us that may adversely affect you as a holder of our debt securities. If there are provisions that offer such protection, they will be described in the prospectus supplement.

We may not consolidate or merge or sell or convey all or substantially all of our assets unless the surviving person, if it is not us, is a domestic person and assumes our obligations under our debt securities and the indenture and unless, under the indenture, there is no event of default (defined below) immediately after the transaction.

Table of Contents

Any additional covenants that we agree to with respect to a series of the debt securities will be set forth in the prospectus supplement or related pricing supplement.

Events of Default, Notice and Waiver

An event of default in respect of any series of our debt securities means:

- (1) our failure to pay any interest on that series within 30 days of when that interest is due;
- (2) our failure to pay any principal, sinking fund installment or analogous obligation on that series when due;
- (3) our failure to perform any other agreement in our debt securities of that series or the indenture, other than an agreement relating solely to another series of our debt securities, for 90 days after written notice of the breach or default;
- (4) acceleration of our indebtedness aggregating more than \$5,000,000;
- (5) our failure to discharge any judgment of \$5,000,000 or more within 60 days after the judgment becomes final and nonappealable; and
- (6) certain events of our bankruptcy, insolvency and reorganization.

If an event of default described in (1), (2) or (3) above (if the event of default under (3) above is with respect to less than all series of debt securities then outstanding) occurs and is continuing, either the trustee or the holders of 25% in principal amount of the outstanding debt securities of a series may declare the principal and accrued interest, if any, of all securities of that series to be due and payable. If an event of default described in (3) (if the event of default under (3) above is with respect to all series of securities then outstanding), (4) or (5) above occurs and is continuing, either the trustee or the holders of 25% in principal amount of the outstanding debt securities of all series may declare the principal and accrued interest, if any, of all the outstanding debt securities to be due and payable.

Within 90 days after a default in respect of any series of our debt securities, the trustee must give to the holders of such series notice of all uncured and unwaived defaults by us known to it. However, except in the case of default in payment, the trustee may withhold such notice if it in good faith determines that withholding is in the interest of such holders. The term "default" means, for this purpose, the happening of any event of default, disregarding any grace period or notice requirement.

Before the trustee is required to exercise rights under the indenture at the request, order or direction of holders, it is entitled to be indemnified by such holders, subject to its duty, during an event of default, to act with the required standard of care.

If any event of default has occurred, the holders of a majority in principal amount of the outstanding debt securities of any series (with each series voting as a separate class) may direct the time, method and place of conducting proceedings for remedies available to the trustee, or exercising any trust or power conferred on the trustee, in respect of that series.

We must file an annual certificate with the trustee that we are in compliance with conditions and covenants under the indenture.

The holders of a majority in principal amount of the outstanding debt securities of a series, on behalf of the holders of all debt securities of that series, or the holders of a majority of all outstanding debt securities voting as a single class, on behalf of the holders of all outstanding debt securities may waive some past defaults or events of default, or compliance with certain provisions of the indenture, but may not waive among other things an uncured default in payment of interest or principal.

Table of Contents

Modification or Amendment of the Indenture

If we receive the consent of the holders of a majority in principal amount of the outstanding debt securities affected, we may enter into supplemental indentures with the trustee that would:

add, change or eliminate provisions in the indenture; or

change the rights of the holders of our debt securities.

However, unless we receive the consent of all of the affected holders, we may not enter into supplemental indentures that would, with respect to the debt securities of those holders:

change the final maturity;

reduce the principal amount or any premium;

reduce the interest rate or extend the time of payment of interest;

reduce any amount payable on redemption or provable in bankruptcy reduce the amount of the principal of an original issue discount security that would be payable on acceleration;

impair or affect the right of any holder to institute suit for payment;

change any right of the holder to require repayment; or

reduce the requirement for majority approval of supplemental indentures.

Satisfaction and Discharge of Indenture

The indenture, with respect to any and all series of debt securities (except for certain specified surviving obligations including, among other things, our obligation to pay the principal of or interest, if any, on any debt securities), will be discharged and cancelled upon the satisfaction of certain conditions, including the payment in full of the principal of, and interest, if any, on all of the debt securities of that series or the deposit with the trustee of an amount of cash sufficient for the payment or redemption, in accordance with the indenture.

Defeasance

The indenture includes provisions allowing defeasance that we may choose to apply to our debt securities of any series. If we do so, we must deposit with the trustee or another trustee money or U.S. government obligations (or combination thereof) sufficient to make all payments on those debt securities. If we make such a deposit with respect to your debt securities, we may elect:

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

to be discharged from all our obligations on your debt securities, except for our obligations to register transfers and exchanges, to replace temporary or mutilated, destroyed, lost or stolen debt securities, to maintain an office or agency in respect of the debt securities and to hold moneys for payment in trust (defeasance); or

to be released from covenants with respect to your debt securities that we may specify in accordance with the indenture (covenant defeasance).

In order to exercise defeasance, we must deliver to the trustee an opinion of our counsel stating that we have received, or that there has been a publication of, an Internal Revenue Service ruling, or that there has been a change in applicable U.S. federal income tax law, and that as a result of such ruling or change in law, the holders of our debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same time as would have been the case if such defeasance had not occurred. In order to exercise covenant defeasance, we must deliver to the trustee an opinion of our counsel stating that the holders of our debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax in the same amounts, in the same manner and at the same time as would have been the case if such covenant defeasance had not occurred. There are additional conditions to defeasance or covenant defeasance which are described in the indenture.

Table of Contents

Governing Law and Consent to Jurisdiction

The indenture is and the debt securities issued thereunder will be governed by and construed in accordance with the laws of the State of New York.

Concerning the Trustee

The indenture contains certain limitations on the rights of the trustee should it become a creditor of us, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions with us. However, if the trustee acquires any conflicting interest it must eliminate such conflict or resign or otherwise comply with the Trust Indenture Act.

The indenture provides that, in case an event of default should occur and be continuing, the trustee will be required to use the degree of care and skill of a prudent person in the conduct of his or her own affairs in the exercise of its powers.

LEGAL OWNERSHIP AND BOOK-ENTRY ISSUANCE

In this section, we describe special considerations that will apply to registered securities issued in global i.e., book-entry form. First, we describe the difference between legal ownership and indirect ownership of registered securities. Then, we describe special provisions that apply to global securities.

Who is the Legal Owner of a Registered Security?

Each security in registered form will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. We refer to those who have securities registered in their own names, on the books that we or the trustee or other agent maintain for this purpose, as the holders of those securities. These persons are the legal holders of the securities. We refer to those who, indirectly through others, own beneficial interests in securities that are not registered in their own names as indirect owners of those securities. As we discuss below, indirect owners are not legal holders, and investors (i.e., persons or institutions purchasing securities in the offering to which a prospectus supplement relates) in securities issued in book-entry form or in street name will be indirect owners.

Book-Entry Owners

We will issue each security in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means securities will be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Under the indenture with respect to our debt securities, only the person in whose name a security is registered is recognized as the holder of that security. Consequently, for securities issued in global form, we will recognize only the depositary as the holder of the securities and we will make all payments on the securities, including deliveries of any property other than cash, to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the securities.

As a result, investors will not own securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the securities are issued in global form, investors will be indirect owners, and not holders, of the securities.

Table of Contents

Street Name Owners

In the future we may terminate a global security or issue securities initially in non-global form. In these cases, investors may choose to hold their securities in their own names or in street name. Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities and we will make all payments on those securities, including deliveries of any property other than cash, to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect owners, not holders, of those securities.

Legal Holders

Our obligations as well as the obligations of any trustee under any indenture and the obligations, if any, of any warrant agents and unit agents and any other third parties employed by us, the trustee or any of those agents, run only to the holders of the securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a security or has no choice because we are issuing the securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for that payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect owners but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose e.g., to amend an indenture for a series of debt securities or warrants or the warrant agreement for a series of warrants or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture we would seek the approval only from the holders, and not the indirect owners, of the relevant securities. Whether and how the holders contact the indirect owners is up to the holders.

When we refer to *you* in this prospectus, we mean those who invest in the securities being offered by this prospectus, whether they are the holders or only indirect owners of those securities. When we refer to *your securities* in this prospectus, we mean the securities in which you will hold a direct or indirect interest.

Special Considerations for Indirect Owners

If you hold securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

whether and how you can instruct it to exercise any rights to purchase or sell warrant property under a warrant or stock purchase contract or to exchange or convert a security for or into other property;

how it would handle a request for the holders' consent, if ever required;

whether and how you can instruct it to send you securities registered in your own name so you can be a holder, if that is permitted in the future;

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

Table of Contents

What is a Global Security?

We will issue each security in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Each security issued in book-entry form will be represented by a global security that we deposit with and register in the name of one or more financial institutions or their nominees, which we select. A financial institution that we select for any security for this purpose is called the depository for that security. A security will usually have only one depository but it may have more.

Each series of securities will have one or more of the following as the depositaries:

The Depository Trust Company, New York, New York, which is known as DTC;

a financial institution holding the securities on behalf of Euroclear;

a financial institution holding the securities on behalf of Clearstream; and

any other clearing system or financial institution named in the applicable prospectus supplement.

The depositaries named above may also be participants in one another's systems. Thus, for example, if DTC is the depository for a global security, investors may hold beneficial interests in that security through Euroclear or Clearstream, as DTC participants. The depository or depositaries for your securities will be named in the applicable prospectus supplement; if none is named, the depository will be DTC.

A global security may represent one or any other number of individual securities. Generally, all securities represented by the same global security will have the same terms. We may, however, issue a global security that represents multiple securities of the same kind, such as debt securities, that have different terms and are issued at different times. We call this kind of global security a master global security. Your prospectus supplement will not indicate whether your securities are represented by a master global security.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under *Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated*. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that does. Thus, an investor whose security is represented by a global security will not be a holder of the security, but only an indirect owner of a beneficial interest in the global security.

If the prospectus supplement for a particular security indicates that the security will be issued in global form only, then the security will be represented by a global security at all times unless and until the global security is terminated. We describe the situations in which this can occur below under *Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated*. If termination occurs, we may issue the securities through another book-entry clearing system or decide that the securities may no longer be held through any book-entry clearing system.

Special Considerations for Global Securities

As an indirect owner, an investor's rights relating to a global security will be governed by the account rules of the depository, those of the investor's financial institution (e.g., Euroclear and Clearstream, if DTC is the depository), as well as general laws relating to securities transfers. We do not recognize this type of investor or any intermediary as a holder of securities and instead deal only with the depository that holds the global security.

If securities are issued only in the form of a global security, an investor should be aware of the following:

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

an investor cannot cause the securities to be registered in his or her own name, and cannot obtain non-global certificates for his or her interest in the securities, except in the special situations we describe below;

Table of Contents

an investor will be an indirect holder and must look to his or her own bank or broker for payments on the securities and protection of his or her legal rights relating to the securities, as we describe under **Who is the Legal Owner of a Registered Security** Legal Holders above;

an investor may not be able to sell interests in the securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

an investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

the depositary's policies and those of any participant in the depositary's system or other intermediary (e.g., Euroclear or Clearstream, if DTC is the depositary) through which that institution holds security interests, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in a global security. We and the trustee will have no responsibility for any aspect of the depositary's policies or actions or records of ownership interests in a global security. We and the trustee also do not supervise the depositary in any way;

the depositary will require that those who purchase and sell interests in a global security within its book-entry system use immediately available funds and your broker or bank may require you to do so as well; and

financial institutions that participate in the depositary's book-entry system and through which an investor holds its interest in the global securities (including Euroclear and Clearstream, if you hold through them when the depositary is DTC) may also have their own policies affecting payments, notices and other matters relating to the securities. For example, if you hold an interest in a global security through Euroclear or Clearstream, when DTC is the depositary, Euroclear or Clearstream, as applicable, will require those who purchase and sell interests in that security through them to use immediately available funds and comply with other policies and procedures, including deadlines for giving instructions as to transactions that are to be effected on a particular day. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the policies or actions of any of those intermediaries.

Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated

If we issue any series of securities in book-entry form but we choose to give the beneficial owners of that series the right to obtain non-global securities, any beneficial owner entitled to obtain non-global securities may do so by following the applicable procedures of the depositary, any transfer agent or registrar for that series and that owner's bank, broker or other financial institution through which that owner holds its beneficial interest in the securities.

In addition, in a few special situations described below, a global security will be terminated and interests in it will be exchanged for certificates in non-global form representing the securities it represented. After that exchange, the choice of whether to hold the securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of holders and street name investors above under **Who is the Legal Owner of a Registered Security**.

The special situations for termination of a global security are as follows:

DTC notifies us that it is unwilling or unable to continue acting as the depositary for that global security, or DTC has ceased to be a clearing agency registered under the Exchange Act, and in either case we fail to appoint a successor depositary within 60 days;

we order in our sole discretion that such global security will be transferable, registrable and exchangeable; or

Table of Contents

in the case of a global security representing debt securities or warrants issued under an indenture, an event of default has occurred with regard to that global security and is continuing.

If a global security is terminated, only the depositary, and neither we, the trustee for any debt security, the warrant agent for any warrants or the unit agent for any units, is responsible for deciding the names of the institutions in whose names the securities represented by the global security will be registered and, therefore, who will be the holders of those securities.

Considerations Relating to Euroclear and Clearstream

Euroclear and Clearstream are securities clearance systems in Europe. Both systems clear and settle securities transactions between their participants through electronic, book-entry delivery of securities against payment.

As long as any global security is held by Euroclear or Clearstream, you may hold an interest in the global security only through an organization that participates, directly or indirectly, in Euroclear or Clearstream. If you are a participant in either of those systems, you may hold your interest directly in that system. If you are not a participant, you may hold your interest indirectly through organizations that are participants in that system.

If Euroclear or Clearstream is the depositary for a global security and there is no depositary in the United States, you will not be able to hold interests in that global security through any securities clearance system in the United States.

If Euroclear or Clearstream is the depositary for a global security, or if DTC is the depositary for a global security and Euroclear and Clearstream hold interests in the global security as participants in DTC, then Euroclear and Clearstream will hold interests in the global security on behalf of the participants in their systems.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the securities made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream on one hand, and participants in DTC, on the other hand, when DTC is the depositary, would also be subject to DTC's rules and procedures.

Special Timing Considerations for Transactions in Euroclear and Clearstream

Investors will be able to make and receive through Euroclear and Clearstream payments, notices and other communications and deliveries involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the securities through these systems, and wish to transfer their interests, or to receive or make a payment or delivery with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than would be the case for transactions within one clearing system.

Table of Contents

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of the material United States federal income tax considerations regarding our election to be taxed as a REIT and the ownership and disposition of certain of the securities offered by this prospectus. This summary is based on current law, is for general information only and is not tax advice. The anticipated income tax treatment described in this prospectus may be changed, perhaps retroactively, by legislative, administrative or judicial action at any time.

This summary assumes that the securities offered by this prospectus are held as capital assets (generally, property held for investment within the meaning of Section 1221 of the Internal Revenue Code). Your tax treatment will vary depending on the terms of the specific securities that you acquire, as well as your particular situation. The material United States federal income tax considerations relevant to your ownership of the particular securities offered by this prospectus may be provided in the prospectus supplement that relates to those securities. This discussion does not purport to deal with all aspects of taxation that may be relevant to holders in light of their personal investment or tax circumstances, or to holders who receive special treatment under the United States federal income tax laws except to the extent discussed specifically herein. Holders of securities offered by this prospectus receiving special treatment include, without limitation:

banks, insurance companies or other financial institutions;

broker or dealers in securities or commodities;

traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;

expatriates and certain former citizens or long-term residents of the United States;

tax-exempt organizations;

persons who are subject to the alternative minimum tax;

persons who hold their securities offered by this prospectus as a position in a straddle or as part of a hedging, conversion or other risk reduction transaction;

persons deemed to sell their securities offered by this prospectus under the constructive sale provisions of the Internal Revenue Code;

persons that are S-corporations, real estate investment trusts, regulated investment companies, partnerships or other pass-through entities;

U.S. holders (as defined below) that have a functional currency other than the United States dollar; or

except to the extent specifically discussed below, non-U.S. holders (as defined below).

In addition, this discussion does not address any state, local or foreign tax consequences of ownership of the securities offered by this prospectus or our election to be taxed as a REIT.

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

The information in this summary is based on:

the Internal Revenue Code;

current, temporary and proposed Treasury Regulations promulgated under the Internal Revenue Code;

the legislative history of the Internal Revenue Code;

current administrative interpretations and practices of the Internal Revenue Service; and

court decisions;

Table of Contents

in each case, as of the date of this prospectus. In addition, the administrative interpretations and practices of the Internal Revenue Service include its practices and policies as expressed in private letter rulings that are not binding on the Internal Revenue Service except with respect to the particular taxpayers who requested and received those rulings. Future legislation, Treasury Regulations, administrative interpretations and practices and/or court decisions may adversely affect the tax considerations described in this prospectus. Any such change could apply retroactively to transactions preceding the date of the change. We have not requested and do not intend to request a ruling from the Internal Revenue Service that we qualify as a REIT, and the statements in this prospectus are not binding on the Internal Revenue Service or any court. Thus, we can provide no assurance that the tax considerations contained in this summary will not be challenged by the Internal Revenue Service or will be sustained by a court if so challenged.

The summary below is for general information only and is not tax advice. You are urged to consult your tax advisor regarding the specific tax consequences to you of:

the acquisition, ownership and sale or other disposition of the securities offered by this prospectus, including the United States federal, state, local, foreign and other tax consequences;

our election to be taxed as a REIT for United States federal income tax purposes; and

potential changes in applicable tax laws.

Taxation of the Trust

General

We elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code, commencing with our taxable year ended December 31, 1986. We believe we have been organized and have operated in a manner which allows us to qualify for taxation as a REIT under the Internal Revenue Code commencing with our taxable year ended December 31, 1986. We currently intend to continue to be organized and operate in this manner. However, qualification and taxation as a REIT depend upon our ability to meet the various qualification tests imposed under the Internal Revenue Code, including through actual annual operating results, asset composition, distribution levels and diversity of ownership of beneficial interest in the Trust. Accordingly, no assurance can be given that we have been organized and have operated or will continue to be organized and operate in a manner so as to qualify or remain qualified as a REIT. See Failure to Qualify.

The sections of the Internal Revenue Code and the corresponding Treasury Regulations that relate to the qualification and taxation of a REIT are highly technical and complex. The following sets forth the material aspects of the sections of the Internal Revenue Code that govern the United States federal income tax treatment of a REIT and its shareholders. This summary is qualified in its entirety by the applicable Internal Revenue Code provisions, Treasury Regulations, and related administrative and judicial interpretations thereof.

Fulbright & Jaworski L.L.P. has acted as our tax counsel in connection with this prospectus and our election to be taxed as a REIT. Fulbright & Jaworski L.L.P. has rendered an opinion to us to the effect that, commencing with our taxable year ended December 31, 1986, we have been organized and have operated in conformity with the requirements for qualification and taxation as a REIT, and that our proposed method of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT under the Internal Revenue Code. It must be emphasized that this opinion was based on various assumptions and representations as to factual matters, including representations made by us in a factual certificate provided by one of our officers. In addition, this opinion was based upon our factual representations set forth in this prospectus. Moreover, our qualification and taxation as a REIT depend upon our ability to meet the various qualification tests imposed under the Internal Revenue Code which are discussed below, including through actual annual operating results, asset composition, distribution levels and diversity of ownership of beneficial interest in the Trust, the results of which have not been and will not be reviewed by Fulbright & Jaworski L.L.P. Accordingly, no assurance can be given that our

Table of Contents

actual results of operation for any particular taxable year have satisfied or will satisfy those requirements. See **Failure to Qualify**. Further, the anticipated income tax treatment described in this prospectus may be changed, perhaps retroactively, by legislative, administrative or judicial action at any time. Fulbright & Jaworski L.L.P. has no obligation to update its opinion subsequent to its date.

Provided we qualify for taxation as a REIT, we generally will not be required to pay United States federal corporate income taxes on our REIT taxable income that is currently distributed to our shareholders. This treatment substantially eliminates the double taxation that ordinarily results from investment in a C corporation. A C corporation generally is required to pay tax at the corporate level. Double taxation generally means taxation that occurs once at the corporate level when income is earned and once again at the shareholder level when the income is distributed. We will be required to pay United States federal income tax, however, as follows:

We will be required to pay tax at regular corporate tax rates on any undistributed REIT taxable income, including undistributed net capital gains.

We may be required to pay the alternative minimum tax on our items of tax preference under some circumstances.

If we have: (a) net income from the sale or other disposition of foreclosure property which is held primarily for sale to customers in the ordinary course of business; or (b) other nonqualifying income from foreclosure property, we will be required to pay tax at the highest corporate rate on this income. Foreclosure property generally is defined as property we acquired through foreclosure or after a default on a loan secured by the property or a lease of the property and for which an election to treat the property as foreclosure property is in effect.

We will be required to pay a 100% tax on any net income from prohibited transactions. Prohibited transactions are, in general, sales or other taxable dispositions of property, other than foreclosure property, held as inventory or primarily for sale to customers in the ordinary course of business.

If we fail to satisfy the 75% gross income test or the 95% gross income test, as described below, but have otherwise maintained our qualification as a REIT because certain other requirements are met, we will be required to pay a tax equal to (a) the greater of (i) the amount by which 75% of our gross income exceeds the amount qualifying under the 75% gross income test and (ii) the amount by which 95% of our gross income (90% for our taxable years ended on or prior to December 31, 2004) exceeds the amount qualifying under the 95% gross income test, multiplied by (b) a fraction intended to reflect our profitability.

If we fail to satisfy any of the REIT asset tests (other than a de minimis failure of the 5% or 10% asset tests), as described below, due to reasonable cause and not due to willful neglect, and we nonetheless maintain our REIT qualification because of specified cure provisions, we will be required to pay a tax equal to the greater of \$50,000 or the highest corporate tax rate multiplied by the net income generated by the nonqualifying assets that caused us to fail such test.

If we fail to satisfy any provision of the Internal Revenue Code that would result in our failure to qualify as a REIT (other than a violation of the REIT gross income tests or certain violations of the asset tests described below) and the violation is due to reasonable cause and not due to willful neglect, we may retain our REIT qualification but will be required to pay a penalty of \$50,000 for each such failure.

We will be required to pay a 4% excise tax to the extent we fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for the year, (b) 95% of our REIT capital gain net income for the year, and (c) any undistributed taxable income from prior periods.

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

If we acquire any asset from a corporation which is or has been a C corporation in a transaction in which the basis of the asset in our hands is determined by reference to the basis of the asset in the hands of the C corporation, and we subsequently recognize gain on the disposition of the asset during

Table of Contents

the ten-year period beginning on the date on which we acquired the asset, then we will be required to pay tax at the highest regular corporate tax rate on this gain to the extent of the excess of (a) the fair market value of the asset over (b) our adjusted basis in the asset, in each case determined as of the date on which we acquired the asset. The results described in this paragraph with respect to the recognition of gain assume that certain elections specified in applicable Treasury Regulations are either made or forgone by us or by the entity from which the assets are acquired, in each case, depending upon the date such acquisition occurred.

We do not currently own any interest in any taxable REIT subsidiary, but if we acquire a taxable REIT Subsidiary, we will be required to pay a 100% tax on any redetermined rents, redetermined deductions or excess interest. In general, redetermined rents are rents from real property that are overstated as a result of services furnished to any of our tenants by a taxable REIT subsidiary of ours. Redetermined deductions and excess interest generally represent amounts that are deducted by a taxable REIT subsidiary of ours for amounts paid to us that are in excess of the amounts that would have been deducted based on arm's-length negotiations.

Requirements for Qualification as a REIT

The Internal Revenue Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) that issues transferable shares or transferable certificates to evidence its beneficial ownership;
- (3) that would be taxable as a domestic corporation but for special Internal Revenue Code provisions applicable to REITs;
- (4) that is not a financial institution or an insurance company within the meaning of certain provisions of the Internal Revenue Code;
- (5) that is beneficially owned by 100 or more persons;
- (6) not more than 50% in value of the outstanding shares of which is owned, actually or constructively, by five or fewer individuals, including certain specified entities, during the last half of each taxable year; and
- (7) that meets other tests, described below, regarding the nature of its income and assets and the amount of its distributions.

The Internal Revenue Code provides that conditions (1) to (4), inclusive, must be met during the entire taxable year and that condition (5) must be met during at least 335 days of a taxable year of twelve months, or during a proportionate part of a taxable year of less than twelve months. Conditions (5) and (6) do not apply until after the first taxable year for which an election is made to be taxed as a REIT. For purposes of condition (6) the term individual includes a supplemental unemployment compensation benefit plan, a private foundation or a portion of a trust permanently set aside or used exclusively for charitable purposes, but generally does not include a qualified pension plan or profit sharing trust.

We believe that we have been organized, have operated and have issued sufficient shares of beneficial interest with sufficient diversity of ownership to allow us to satisfy conditions (1) through (7) inclusive, during the relevant time periods. In addition, our declaration of trust provides for restrictions regarding ownership and transfer of our shares which are intended to assist us in continuing to satisfy the ownership requirements described in conditions (5) and (6) above. These restrictions, however, may not ensure that we will, in all cases, be able to satisfy the share ownership requirements described in conditions (5) and (6) above. If we fail to satisfy these share ownership requirements, except as provided in the next two sentences, our status as a REIT will terminate. See Failure to Qualify. If, however, we comply with the rules contained in applicable Treasury Regulations that require us to ascertain the actual ownership of our shares and we do not know, or would not have known through the exercise of reasonable diligence, that we failed to meet the requirement described in condition (6) above, we will be treated as having met this requirement.

Table of Contents

In addition, we may not maintain our status as a REIT unless our taxable year is the calendar year. We have and will continue to have a calendar taxable year.

Ownership of Interests in Partnerships and Limited Liability Companies

We own and operate one or more properties through partnerships and limited liability companies. Treasury Regulations provide that if we are a partner in a partnership, we will be deemed to own our proportionate share of the assets of the partnership based on our interest in partnership capital, subject to special rules relating to the 10% REIT asset test described below. Also, we will be deemed to be entitled to our proportionate share of the income of the partnership. The assets and gross income of the partnership retains the same character in our hands, including for purposes of satisfying the gross income tests and the asset tests. In addition, for these purposes, the assets and items of income of any partnership in which we own a direct or indirect interest include such partnership's share of assets and items of income of any partnership in which it owns an interest. A brief summary of the rules governing the United States federal income taxation of partnerships and their partners is included below in

Tax Aspects of the Partnerships. The treatment described above also applies with respect to the ownership of interests in limited liability companies or other entities that are treated as partnerships for tax purposes.

We have direct or indirect control of certain partnerships and limited liability companies and intend to continue to operate them in a manner consistent with the requirements for our qualification as a REIT. We are a limited partner or non-managing member in certain partnerships and limited liability companies. If any such a partnership or limited liability company were to take actions that could jeopardize our status as a REIT or require us to pay tax, we may be forced to dispose of our interest in such entity. In addition, it is possible that a partnership or limited liability company could take an action which could cause us to fail a REIT income or asset test, and that we would not become aware of such action in a time frame which would allow us to dispose of our interest in the applicable entity or take other corrective action on a timely basis. In that case, unless we were entitled to relief, as described below, we would fail to qualify as a REIT.

Income Tests

We must satisfy two gross income requirements annually to maintain our qualification as a REIT:

First, in each taxable year, we must derive directly or indirectly at least 75% of our gross income, excluding gross income from prohibited transactions, certain hedging transactions entered into after July 30, 2008, and certain foreign currency gains recognized after July 30, 2008, from (a) certain investments relating to real property or mortgages on real property, including rents from real property and, in certain circumstances, interest, or (b) some types of temporary investments; and

Second, in each taxable year, we must derive at least 95% of our gross income, excluding gross income from prohibited transactions, certain hedging transactions entered into on or after January 1, 2005, and certain foreign currency gains recognized after July 30, 2008, from the real property investments described above, dividends, interest and gain from the sale or disposition of shares or securities, or from any combination of the foregoing.

For these purposes, the term interest generally does not include any amount received or accrued, directly or indirectly, if the determination of all or some of the amount depends in any way on the income or profits of any person. However, an amount received or accrued generally will not be excluded from the term interest solely by reason of being based on a fixed percentage or percentages of receipts or sales.

Rents we receive from a tenant will qualify as rents from real property for the purpose of satisfying the gross income requirements for a REIT described above only if all of the following conditions are met:

The amount of rent must not be based in any way on the income or profits of any person. However, an amount we receive or accrue generally will not be excluded from the term rents from real property solely because it is based on a fixed percentage or percentages of receipts or sales;

Table of Contents

We, or an actual or constructive owner of 10% or more of our shares, must not actually or constructively own 10% or more of the interests in the assets or net profits of the tenant, or, if the tenant is a corporation, 10% or more of the voting power or value of all classes of stock of the tenant. Rents we receive from such a tenant that also is our taxable REIT subsidiary, however, will not be excluded from the definition of rents from real property as a result of this condition if at least 90% of the space at the property to which the rents relate is leased to third parties, and the rents paid by the taxable REIT subsidiary are substantially comparable to rents paid by our other tenants for comparable space. Whether rents paid by a taxable REIT subsidiary are substantially comparable to rents paid by other tenants is determined at the time the lease with the taxable REIT subsidiary is entered into, extended, and modified, if such modification increases the rents due under such lease. Notwithstanding the foregoing, however, if a lease with a controlled taxable REIT subsidiary is modified and such modification results in an increase in the rents payable by such taxable REIT subsidiary, any such increase will not qualify as rents from real property. For purposes of this rule, a controlled taxable REIT subsidiary is a taxable REIT subsidiary in which we own stock possessing more than 50% of the voting power or more than 50% of the total value of the outstanding stock. We do not currently own any interest in any taxable REIT subsidiary;

Rent attributable to personal property, leased in connection with a lease of real property, must not be greater than 15% of the total rent we receive under the lease. If this condition is not met, then the portion of rent attributable to the personal property will not qualify as rents from real property; and

We generally must not operate or manage the property or furnish or render services to our tenants, subject to a 1% de minimis exception and except as provided below. We may, however, perform services that are usually or customarily rendered in connection with the rental of space for occupancy only and are not otherwise considered rendered to the occupant of the property. Examples of such services include the provision of light, heat, or other utilities, trash removal and general maintenance of common areas. In addition, we may employ an independent contractor from whom we derive no revenue to provide customary services, or a taxable REIT subsidiary, which may be wholly or partially owned by us, to provide both customary and non-customary services to our tenants without causing the rent we receive from those tenants to fail to qualify as rents from real property. Any amounts we receive from a taxable REIT subsidiary with respect to the taxable REIT subsidiary's provision of non-customary services will, however, be nonqualifying income under the 75% gross income test and, except to the extent received through the payment of dividends, the 95% gross income test.

We generally do not intend to receive rent which fails to satisfy any of the above conditions. Notwithstanding the foregoing, we may have taken and may continue to take actions which fail to satisfy one or more of the above conditions to the extent that we determine, based on the advice of our tax counsel, that those actions will not jeopardize our tax status as a REIT. In addition, with respect to the limitation on the rental of personal property, we have not obtained appraisals of the real property and personal property leased to tenants. Accordingly, there can be no assurance that the Internal Revenue Service will agree with our determinations of value.

We believe that the aggregate amount of our nonqualifying income, from all sources, in any taxable year will not exceed the limit on nonqualifying income under the gross income tests. If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for the year if we are entitled to relief under certain provisions of the Internal Revenue Code. Commencing with our taxable year beginning January 1, 2005, we generally may make use of the relief provisions if:

following our identification of the failure to meet the 75% or 95% gross income tests for any taxable year, we file a schedule with the Internal Revenue Service setting forth each item of our gross income for purposes of the 75% or 95% gross income tests for such taxable year in accordance with Treasury Regulations to be issued; and

our failure to meet these tests was due to reasonable cause and not due to willful neglect.

Table of Contents

It is not possible, however, to state whether in all circumstances we would be entitled to the benefit of these relief provisions. For example, if we fail to satisfy the gross income tests because nonqualifying income that we intentionally accrue or receive exceeds the limits on nonqualifying income, the Internal Revenue Service could conclude that our failure to satisfy the tests was not due to reasonable cause. If these relief provisions do not apply to a particular set of circumstances, we will not qualify as a REIT. As discussed above in Taxation of the Trust General, even if these relief provisions apply, and we retain our status as a REIT, a tax would be imposed with respect to our nonqualifying income. We may not always be able to comply with the gross income tests for REIT qualification despite our periodic monitoring of our income.

Prohibited Transaction Income

Any gain that we realize on the sale of property held as inventory or otherwise held primarily for sale to customers in the ordinary course of business will be treated as income from a prohibited transaction that is subject to a 100% penalty tax. Our gain would include our share of any gain realized by any of the partnerships or limited liability companies in which we own an interest. We do not currently own a qualified REIT subsidiary, but if we acquire one, our gain would also include any gain realized by our qualified REIT subsidiary. This prohibited transaction income may also adversely affect our ability to satisfy the income tests for qualification as a REIT. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. We intend to hold our properties for investment with a view to long-term appreciation and to engage in the business of acquiring, developing and owning our properties. We have made, and may in the future make, occasional sales of the properties consistent with our investment objectives. We do not intend to enter into any sales that are prohibited transactions. The Internal Revenue Service may contend, however, that one or more of these sales is subject to the 100% penalty tax.

Asset Tests

At the close of each calendar quarter of our taxable year, we also must satisfy four tests relating to the nature and diversification of our assets.

First, at least 75% of the value of our total assets, including our allocable share of the assets held by the partnerships and other entities treated as partnerships for United States federal income tax purposes in which we own an interest, must be represented by real estate assets, cash, cash items and government securities. For purposes of this test, the term real estate assets generally means real property (including interests in real property and interests in mortgages on real property) and shares (or transferable certificates of beneficial interest) in other REITs, as well as any stock or debt instrument attributable to the investment of the proceeds of a stock offering or a public debt offering with a term of at least five years, but only for the one-year period beginning on the date we receive such proceeds.

Second, not more than 25% of the value of our total assets may be represented by securities other than those securities includable in the 75% asset test.

Third, of the investments included in the 25% asset class and except for certain investments in other REITs, qualified REIT subsidiaries and taxable REIT subsidiaries, the value of any one issuer's securities may not exceed 5% of the value of our total assets.

Fourth, we may not own more than 10% of the total voting power of any one issuer's outstanding securities.

Fifth, with respect to taxable years beginning after December 31, 2000, we may not own more than 10% of the total value of any one issuer's outstanding securities, except securities satisfying the straight debt safe-harbor or securities issued by a partnership that itself would satisfy the 75% income test if it were a REIT. Certain types of securities are disregarded as securities solely for purposes of the 10% value test, including, but not limited to, any loan to an individual or an estate, any obligation to pay rents from real property and any

Table of Contents

security issued by a REIT. In addition, commencing with our taxable year beginning January 1, 2005, solely for purposes of the 10% value test, the determination of our interest in the assets of a partnership or limited liability company in which we own an interest will be based on our proportionate interest in any securities issued by the partnership or limited liability company, excluding for this purpose certain securities described in the Internal Revenue Code.

Sixth, commencing with our taxable years beginning on or after January 1, 2009, not more than 25% (20% for taxable years beginning on or after January 1, 2001 and ending on or before December 31, 2008) of the value of our total assets may be represented by the securities of one or more taxable REIT subsidiaries. We do not currently own any interest in any taxable REIT subsidiary.

The asset tests described above must be satisfied at the close of each calendar quarter of our taxable year. After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in asset values unless we (directly or through our partnerships or limited liability companies) acquire securities in the applicable issuer, increase our ownership of securities of such issuer (including as a result of increasing our interest in a partnership or limited liability company which owns such securities), or acquire other assets. For example, our indirect ownership of securities of an issuer may increase as a result of our capital contributions to a partnership or limited liability company. If we fail to satisfy an asset test because we acquire securities or other property during a quarter (including as a result of an increase in our interests in a partnership or limited liability company), we can cure this failure by disposing of sufficient nonqualifying assets within 30 days after the close of that quarter. We believe that we have maintained and intend to maintain adequate records of the value of our assets to ensure compliance with the asset tests. In addition, we intend to take such actions within 30 days after the close of any calendar quarter as may be required to cure any noncompliance.

Certain relief provisions may be available to us if we discover a failure to satisfy the asset tests described above after the 30 day cure period. Under these provisions, we will be deemed to have met the 5% and 10% REIT asset tests if the value of our nonqualifying assets (i) does not exceed the lesser of (a) 1% of the total value of our assets at the end of the applicable quarter or (b) \$10,000,000, and (ii) we dispose of the nonqualifying assets or otherwise satisfy such asset tests within (a) six months after the last day of the quarter in which the failure to satisfy the asset tests is discovered or (b) the period of time prescribed by Treasury Regulations to be issued. For violations of any of the asset tests due to reasonable cause and not due to willful neglect and that are, in the case of the 5% and 10% asset tests, in excess of the de minimis exception described above, we may avoid disqualification as a REIT after the 30 day cure period, by taking steps including (i) the disposition of sufficient nonqualifying assets, or the taking of other actions, which allow us to meet the asset tests within (a) six months after the last day of the quarter in which the failure to satisfy the asset tests is discovered or (b) the period of time prescribed by Treasury Regulations to be issued, (ii) paying a tax equal to the greater of (a) \$50,000 or (b) the highest corporate tax rate multiplied by the net income generated by the nonqualifying assets, and (iii) disclosing certain information to the Internal Revenue Service.

Although we believe that we have satisfied the asset tests described above and plan to take steps to ensure that we satisfy such tests for any quarter with respect to which retesting is to occur, there can be no assurance that we will always be successful or will not require a reduction in our overall interest in an issuer. If we fail to cure any noncompliance with the asset tests in a timely manner and the relief provisions described above are not available, we would cease to qualify as a REIT. See [Failure to Qualify](#) below.

Annual Distribution Requirements

To maintain our qualification as a REIT, we are required to distribute dividends, other than capital gain dividends, to our shareholders in an amount at least equal to the sum of:

90% of our REIT taxable income ; and

90% of our after tax net income, if any, from foreclosure property; minus

Table of Contents

the excess of the sum of specified items of our non-cash income over 5% of our REIT taxable income as described below. For these purposes, our REIT taxable income is computed without regard to the dividends paid deduction and our net capital gain. In addition, for purposes of this test, non-cash income means income attributable to leveling of stepped rents, original issue discount on purchase money debt, cancellation of indebtedness, and any like-kind exchanges that are later determined to be taxable.

In addition, if we dispose of any asset we acquired from a corporation which is or has been a C corporation in a transaction in which our basis in the asset is determined by reference to the basis of the asset in the hands of that C corporation within the ten-year period following our acquisition of such asset, we would be required to distribute at least 90% of the after-tax gain, if any, we recognized on the disposition of the asset, to the extent that gain does not exceed the excess of (a) the fair market value of the asset, over (b) our adjusted basis in the asset, in each case, on the date we acquired the asset.

We generally must pay, or be treated as paying, the distributions described above in the taxable year to which they relate. At our election, a distribution will be treated as paid in a taxable year if it is declared before we timely file our tax return for such year and paid on or before the first regular dividend payment after such declaration, provided such payment is made during the twelve-month period following the close of such year. These distributions generally are taxable to our existing shareholders, other than tax-exempt entities, in the year in which paid. This is so even though these distributions relate to the prior year for purposes of the 90% distribution requirement. The amount distributed must not be preferential. To avoid being preferential, every shareholder of the class of beneficial interest to which a distribution is made must be treated the same as every other shareholder of that class, and no class of beneficial interest may be treated other than according to its dividend rights as a class. To the extent that we do not distribute all of our net capital gain, or distribute at least 90%, but less than 100%, of our REIT taxable income, as adjusted, we will be required to pay tax on the undistributed amount at regular corporate tax rates. We believe we have made, and intend to continue to make, timely distributions sufficient to satisfy these annual distribution requirements and to minimize our corporate tax obligations.

We anticipate that we generally will have sufficient cash or liquid assets to enable us to satisfy the distribution requirements described above. However, from time to time, we may not have sufficient cash or other liquid assets to meet these distribution requirements due to timing differences between the actual receipt of income and payment of deductible expenses, and the inclusion of income and deduction of expenses in determining our taxable income. In addition, we may decide to retain our cash, rather than distribute it, in order to repay debt or for other reasons. If these timing differences occur, we may be required to borrow funds to pay cash dividends or we may be required to pay dividends in the form of taxable share dividends in order to meet the distribution requirements. Recent guidance issued by the Internal Revenue Service sets forth a safe harbor pursuant to which certain part-share and part-cash dividends distributed by REITs for calendar years 2008 and 2009 will satisfy the REIT distribution requirements. Under the terms of this guidance, up to 90% of our distributions could be paid in our common shares.

Under certain circumstances, we may be able to rectify an inadvertent failure to meet the 90% distribution requirement for a year by paying deficiency dividends to our shareholders in a later year, which may be included in our deduction for dividends paid for the earlier year. Thus, we may be able to avoid being taxed on amounts distributed as deficiency dividends, subject to the 4% excise tax described below. However, we will be required to pay interest to the Internal Revenue Service based upon the amount of any deduction claimed for deficiency dividends.

Furthermore, we will be required to pay a 4% excise tax to the extent we fail to distribute during each calendar year, or in the case of distributions with declaration and record dates falling in the last three months of the calendar year, by the end of January immediately following such year, at least the sum of 85% of our

Table of Contents

ordinary income for such year, 95% of our capital gain net income for the year and any undistributed taxable income from prior periods. Any ordinary income and net capital gain on which this excise tax is imposed for any year is treated as an amount distributed during that year for purposes of calculating such tax.

For purposes of the 90% distribution requirement and excise tax described above, distributions declared during the last three months of the taxable year, payable to shareholders of record on a specified date during such period and paid during January of the following year, will be treated as paid by us and received by our shareholders on December 31 of the year in which they are declared.

Failure to Qualify

Specified cure provisions are available to us in the event that we discover a violation of a provision of the Internal Revenue Code that would result in our failure to qualify as a REIT. Except with respect to violations of the REIT income tests and assets tests (for which the cure provisions are described above), and provided the violation is due to reasonable cause and not due to willful neglect, these cure provisions generally impose a \$50,000 penalty for each violation in lieu of a loss of REIT status. If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions of the Internal Revenue Code do not apply, we will be required to pay tax, including any applicable alternative minimum tax, on our taxable income at regular corporate tax rates. Distributions to our shareholders in any year in which we fail to qualify as a REIT will not be deductible by us, and we will not be required to distribute any amounts to our shareholders. As a result, we anticipate that our failure to qualify as a REIT would reduce the cash available for distribution by us to our shareholders. In addition, if we fail to qualify as a REIT, all distributions to our shareholders will be taxable as regular corporate dividends to the extent of our current and accumulated earnings and profits. In this event, subject to certain limitations under the Internal Revenue Code, corporate distributees may be eligible for the dividends-received deduction and individuals may be eligible for preferential tax rates on any qualified dividend income. Unless entitled to relief under specific statutory provisions, we will also be disqualified from taxation as a REIT for the four taxable years following the year in which we lost our qualification. It is not possible to state whether in all circumstances we would be entitled to this statutory relief.

Tax Aspects of the Partnerships

General

We own, directly or indirectly, interests in various partnerships and limited liability companies which are treated as partnerships or disregarded entities for United States federal income tax purposes and may own interests in additional partnerships and limited liability companies in the future. Our ownership interests in such partnerships and limited liability companies involve special tax considerations. These special tax considerations include, for example, the possibility that the Internal Revenue Service might challenge the status of one or more of the partnerships or limited liability companies in which we own an interest as partnerships or disregarded entities, as opposed to associations taxable as corporations, for United States federal income tax purposes. If a partnership or limited liability company in which we own an interest, or one or more of its subsidiary partnerships or limited liability companies, were treated as an association, it would be taxable as a corporation and would therefore be subject to an entity-level tax on its income. In this situation, the character of our assets and items of gross income would change, and could prevent us from satisfying the REIT asset tests and possibly the REIT income tests. See *Taxation of the Trust Asset Tests* and *Taxation of the Trust Income Tests*. This, in turn, could prevent us from qualifying as a REIT. See *Failure to Qualify* for a discussion of the effect of our failure to meet these tests. In addition, a change in the tax status of one or more of the partnerships or limited liability companies in which we own an interest might be treated as a taxable event. If so, we might incur a tax liability without any related cash distributions.

Treasury Regulations that apply for tax periods beginning on or after January 1, 1997, provide that a domestic business entity not organized or otherwise required to be treated as a corporation (an eligible entity) may elect to be taxed as a partnership or disregarded entity for United States federal income tax purposes. Unless

Table of Contents

it elects otherwise, an eligible entity in existence prior to January 1, 1997, will have the same classification for United States federal income tax purposes that it claimed under the entity classification Treasury Regulations in effect prior to this date. In addition, an eligible entity which did not exist or did not claim a classification prior to January 1, 1997, will be classified as a partnership or disregarded entity for federal income tax purposes unless it elects otherwise. All of the partnerships and limited liability companies in which we own an interest intend to claim classification as partnerships or disregarded entities under these Treasury Regulations. As a result, we believe that these partnerships and limited liability companies will be classified as partnerships or disregarded entities for United States federal income tax purposes.

Allocations of Income, Gain, Loss and Deduction

A partnership or limited liability company agreement generally will determine the allocation of income and losses among partners or members. These allocations, however, will be disregarded for tax purposes if they do not comply with the provisions of Section 704(b) of the Internal Revenue Code and the related Treasury Regulations. Generally, Section 704(b) of the Internal Revenue Code and the related Treasury Regulations require that partnership and limited liability company allocations respect the economic arrangement of the partners or members. If an allocation is not recognized for United States federal income tax purposes, the relevant item will be reallocated according to the partners' or members' interests in the partnership or limited liability company, as the case may be. This reallocation will be determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners or members with respect to such item. The allocations of taxable income and loss in each of the entities treated as partnerships in which we own an interest are intended to comply with the requirements of Section 704(b) of the Internal Revenue Code and the applicable Treasury Regulations.

Tax Allocations with Respect to the Properties

Under Section 704(c) of the Internal Revenue Code, income, gain, loss and deduction attributable to appreciated or depreciated property that is contributed to a partnership or limited liability company in exchange for an interest in the partnership or limited liability company must be allocated in a manner so that the contributing partner or member is charged with the unrealized gain or benefits from the unrealized loss associated with the property at the time of the contribution. The amount of the unrealized gain or unrealized loss generally is equal to the difference between the fair market value or book value and the adjusted tax basis of the contributed property at the time of contribution. These allocations are solely for United States federal income tax purposes and do not affect the book capital accounts or other economic or legal arrangements among the partners or members. Some of the partnerships and/or limited liability companies in which we own an interest were formed by way of contributions of appreciated property. The relevant partnership and/or limited liability company agreements require that allocations be made in a manner consistent with Section 704(c) of the Internal Revenue Code. This could cause us to be allocated lower amounts of depreciation deductions for tax purposes than would be allocated to us if the contributed properties were acquired in a cash purchase, and could cause us to be allocated taxable gain upon a sale of the contributed properties in excess of the economic or book income allocated to us as a result of such sale. These adjustments could make it more difficult for us to satisfy the REIT distribution requirements.

Other Tax Consequences

We may be required to pay tax in various state or local jurisdictions, including those in which we transact business, and our holders may be required to pay tax in various state or local jurisdictions, including those in which they reside. Our state and local tax treatment may not conform to the United States federal income tax consequences discussed above. In addition, a holder's state and local tax treatment may not conform to the United States federal income tax consequences discussed above. Consequently, prospective investors should consult their tax advisors regarding the effect of state and local tax laws on an investment in our shares.

Table of Contents

Taxation of Holders of Our Shares

The following summary describes certain of the United States federal income tax consequences of owning and disposing of our shares.

Taxable U.S. Shareholders Generally

If you are a U.S. holder, as defined below, this section applies to you. Otherwise, the section entitled, *Non-U.S. Shareholders*, applies to you.

Definition of U.S. Holder

A U.S. holder is a beneficial holder of shares of beneficial interest or a beneficial holder of debt securities who is:

an individual citizen or resident of the United States;

a corporation, partnership, limited liability company or other entity taxable as a corporation or partnership for United States federal income tax purposes created or organized in the United States or under the laws of the United States, any state thereof, or the District of Columbia;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust that (1) is subject to the primary supervision of a United States court and the control of one or more United States persons or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a United States person.

Distributions Generally

Distributions out of our current or accumulated earnings and profits will be treated as dividends and, other than capital gain dividends and certain amounts that have previously been subject to corporate level tax, discussed below, will be taxable to taxable U.S. holders as ordinary income when actually or constructively received. See *Tax Rates* below. As long as we qualify as a REIT, these distributions will not be eligible for the dividends-received deduction in the case of U.S. holders that are corporations or, except to the extent provided in *Tax Rates* below, the preferential rates on qualified dividend income applicable to non-corporate taxpayers.

To the extent that we make distributions on our shares in excess of our current and accumulated earnings and profits, these distributions will be treated first as a tax-free return of capital to a U.S. holder. This treatment will reduce the U.S. holder's adjusted tax basis in its shares by the amount of the distribution, but not below zero. Distributions in excess of our current and accumulated earnings and profits and in excess of a U.S. holder's adjusted tax basis in its shares will be taxable as capital gain. Such gain will be taxable as long-term capital gain if the shares have been held for more than one year. Dividends we declare in October, November, or December of any year and which are payable to a holder of record on a specified date in any of these months will be treated as both paid by us and received by the holder on December 31 of that year, provided we actually pay the dividend on or before January 31 of the following year. U.S. holders may not include in their own income tax returns any of our net operating losses or capital losses.

Certain dividends paid in our shares, including dividends partially paid in our common shares and partially paid in cash that comply with recent Internal Revenue Service guidance, will be taxable to recipient U.S. shareholders to the same extent as if paid in cash.

Table of Contents

Capital Gain Dividends

Dividends that we properly designate as capital gain dividends will be taxable to taxable U.S. holders as gains from the sale or disposition of a capital asset, to the extent that such gains do not exceed our actual net capital gain for the taxable year. These dividends may be taxable to non-corporate U.S. holders at a 15% or 25% rate. See **Tax Rates** below. U.S. holders that are corporations may, however, be required to treat up to 20% of some capital gain dividends as ordinary income.

Retention of Net Capital Gains

We may elect to retain, rather than distribute as a capital gain dividend, all or a portion of our net capital gains. If we make this election, we would pay tax on our retained net capital gains. In addition, to the extent we so elect, a U.S. holder generally would:

include its pro rata share of our undistributed net capital gains in computing its long-term capital gains in its return for its taxable year in which the last day of our taxable year falls, subject to certain limitations as to the amount that is includable;

be deemed to have paid the capital gains tax imposed on us on the designated amounts included in the U.S. holder's long-term capital gains;

receive a credit or refund for the amount of tax deemed paid by it;

increase the adjusted basis of its shares by the difference between the amount of includable gains and the tax deemed to have been paid by it; and

in the case of a U.S. holder that is a corporation, appropriately adjust its earnings and profits for the retained capital gains in accordance with Treasury Regulations to be promulgated by the Internal Revenue Service.

Passive Activity Losses and Investment Interest Limitations

Distributions we make and gain arising from the sale or exchange by a U.S. holder of our shares will not be treated as passive activity income. As a result, U.S. holders generally will not be able to apply any passive losses against this income or gain. A U.S. holder may elect to treat capital gain dividends, capital gains from the disposition of shares and qualified dividend income as investment income for purposes of computing the investment interest limitation, but in such case, the U.S. holder will be taxed at ordinary income rates on such amount. Other distributions made by us, to the extent they do not constitute a return of capital, generally will be treated as investment income for purposes of computing the investment interest limitation.

Dispositions of Our Shares

If a U.S. holder sells or disposes of our shares to a person other than us, it will recognize gain or loss for United States federal income tax purposes in an amount equal to the difference between the amount of cash and the fair market value of any property received on the sale or other disposition and its adjusted basis in the shares for tax purposes. This gain or loss, except as provided below, will be long-term capital gain or loss if the U.S. holder has held the shares for more than one year at the time of such sale or disposition. If, however, a U.S. holder recognizes loss upon the sale or other disposition of our shares that it has held for six months or less, after applying certain holding period rules, the loss recognized will be treated as a long-term capital loss, to the extent the U.S. holder received distributions from us which were required to be treated as long-term capital gains.

Redemption of Our Shares

A redemption of our shares will be treated under Section 302 of the Internal Revenue Code as a distribution taxable as a dividend to the extent of our current and accumulated earnings and profits at ordinary income rates

Table of Contents

unless the redemption satisfies one of the tests set forth in Section 302(b) of the Internal Revenue Code and is therefore treated as a sale or exchange of the redeemed shares. The redemption will be treated as a sale or exchange if it:

is substantially disproportionate with respect to the U.S. holder;

results in a complete termination of the U.S. holder's share ownership in the Trust; or

is not essentially equivalent to a dividend with respect to the U.S. holder; all within the meaning of Section 302(b) of the Internal Revenue Code.

In determining whether any of these tests have been met, shares, including common shares and other equity interests in us, considered to be owned by the U.S. holder by reason of certain constructive ownership rules set forth in the Internal Revenue Code, as well as shares actually owned by the U.S. holder, must generally be taken into account. Because the determination as to whether any of the alternative tests of Section 302(b) of the Internal Revenue Code will be satisfied with respect to the U.S. holder depends upon the facts and circumstances at the time of the redemption, U.S. holders are advised to consult their tax advisors to determine the appropriate tax treatment.

If a redemption of our shares is treated as a distribution taxable as a dividend, the amount of the distribution will be measured by the amount of cash and the fair market value of any property received. A U.S. holder's adjusted basis in the redeemed shares for tax purposes will be transferred to its remaining shares, if any. If a U.S. holder owns no other shares, such basis may, under certain circumstances, be transferred to a related person or it may be lost entirely.

If a redemption of our shares is not treated as a distribution taxable as a dividend, it will be treated as a taxable sale or exchange in the manner described above under Dispositions of Our Shares.

Tax Rates

The maximum tax rate for non-corporate taxpayers for (1) capital gains, including certain capital gain dividends, is currently 15% (although depending on the characteristics of the assets which produced these gains and on designations which we may make, certain capital gain dividends may be taxed at a 25% rate) and (2) qualified dividend income is currently 15%. In general, dividends payable by REITs are not eligible for the reduced tax rate on corporate dividends, and, therefore, will be subject to tax at ordinary income rates (generally, a maximum rate of 35%), except (1) to the extent that certain holding requirements have been met and the REIT's dividends are attributable to dividends received from taxable corporations (such as its taxable REIT subsidiaries), (2) to income that was subject to tax at the corporate/REIT level (for example, if it distributed taxable income that it retained and paid tax on in the prior taxable year), or (3) to dividends properly designated by the REIT as capital gain dividends. The currently applicable provisions of the United States federal income tax laws relating to the 15% tax rate are currently scheduled to sunset or revert to the provisions of prior law effective for taxable years beginning after December 31, 2010, at which time the capital gains tax rate will be increased to 20% and the rate applicable to dividends will be increased to the tax rate then applicable to ordinary income (generally, a maximum rate of 39.6%). In addition, U.S. holders that are corporations may be required to treat up to 20% of some capital gain dividends as ordinary income.

Backup Withholding

We report to our U.S. holders and the Internal Revenue Service the amount of dividends paid during each calendar year, and the amount of any tax withheld. Under the backup withholding rules, a U.S. holder may be subject to backup withholding with respect to dividends paid unless the U.S. holder is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact, or provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding, and otherwise complies with

Table of Contents

applicable requirements of the backup withholding rules. A U.S. holder that does not provide us with its correct taxpayer identification number may also be subject to penalties imposed by the Internal Revenue Service. Backup withholding is not an additional tax. Any amount paid as backup withholding will be creditable against the U.S. holder's United States federal income tax liability, provided the required information is furnished to the Internal Revenue Service on a timely basis. In addition, we may be required to withhold a portion of capital gain distributions to any holders who fail to certify their non-foreign status. See Non-U.S. Shareholders.

Tax-Exempt Shareholders

Dividend income from us and gain arising upon a sale of our shares generally will not be unrelated business taxable income to a tax-exempt holder, except as described below. This income or gain will be unrelated business taxable income, however, if a tax-exempt holder holds its shares as debt-financed property within the meaning of the Internal Revenue Code or if the shares are used in a trade or business of the tax-exempt holder. Generally, debt-financed property is property the acquisition or holding of which was financed through a borrowing by the tax-exempt holder.

For tax-exempt holders which are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, or qualified group legal services plans exempt from United States federal income taxation under Sections 501(c)(7), (c)(9), (c)(17) or (c)(20) of the Internal Revenue Code, respectively, income from an investment in our shares will constitute unrelated business taxable income unless the organization is able to properly claim a deduction for amounts set aside or placed in reserve for specific purposes so as to offset the income generated by its investment in our shares. These prospective investors should consult their tax advisors concerning these set aside and reserve requirements.

Notwithstanding the above, however, a portion of the dividends paid by a pension-held REIT may be treated as unrelated business taxable income as to certain trusts that hold more than 10%, by value, of the interests in the REIT. A REIT will not be a pension-held REIT if it is able to satisfy the not closely held requirement without relying on the look-through exception with respect to certain trusts or if such REIT is not predominantly held by qualified trusts. As a result of limitations on the transfer and ownership of shares contained in our charter, we do not expect to be classified as a pension-held REIT, and as a result, the tax treatment described in this paragraph should be inapplicable to our holders. However, because our shares are publicly traded, we cannot guarantee that this will always be the case.

Non-U.S. Shareholders

The following discussion addresses the rules governing United States federal income taxation of the ownership and disposition of our shares by non-U.S. holders. The term non-U.S. holder means a beneficial owner of a share of beneficial interest that is not a U.S. holder. These rules are complex, and no attempt is made herein to provide more than a brief summary of such rules. Accordingly, the discussion does not address all aspects of United States federal income taxation that may be relevant to a non-U.S. holder in light of its particular circumstances and does not address any state, local or foreign tax consequences. We urge non-U.S. holders to consult their tax advisors to determine the impact of federal, state, local and United States foreign income tax laws on the acquisition, ownership, and disposition of our shares, including any reporting requirements.

Distributions Generally

Distributions (including certain dividends paid in our shares) that are neither attributable to gain from our sale or exchange of United States real property interests nor designated by us as capital gain dividends will be treated as dividends of ordinary income to the extent that they are made out of our current or accumulated earnings and profits. Such distributions ordinarily will be subject to withholding of United States federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty unless the

Table of Contents

distributions are treated as effectively connected with the conduct by the non-U.S. holder of a United States trade or business. Under certain treaties, however, lower withholding rates generally applicable to dividends do not apply to dividends from a REIT. Certain certification and disclosure requirements must be satisfied to be exempt from withholding under the effectively connected income exemption. Dividends that are treated as effectively connected with a trade or business will be subject to tax on a net basis at graduated rates, in the same manner as dividends paid to U.S. holders are subject to tax, and are generally not subject to withholding. Any such dividends received by a non-U.S. holder that is a corporation may also be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

Distributions in excess of our current and accumulated earnings and profits will not be taxable to a non-U.S. holder to the extent that such distributions do not exceed the non-U.S. holder's adjusted basis in our shares, but rather will reduce the non-U.S. holder's adjusted basis of such common shares. To the extent that these distributions exceed a non-U.S. holder's adjusted basis in our shares, they will give rise to gain from the sale or exchange of such shares. The tax treatment of this gain is described below.

For withholding purposes, we expect to treat all distributions as made out of our current or accumulated earnings and profits. As a result, except with respect to certain distributions attributable to the sale of United States real property interests described below, we expect to withhold United States income tax at the rate of 30% on any distributions made to a non-U.S. holder unless:

a lower treaty rate applies and the non-U.S. holder files with us an Internal Revenue Service Form W-8BEN evidencing eligibility for that reduced treaty rate; or

the non-U.S. holder files an Internal Revenue Service Form W-8ECI with us claiming that the distribution is income effectively connected with the non-U.S. holder's trade or business.

However, amounts withheld should generally be refundable if it is subsequently determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits, provided that certain conditions are met.

Capital Gain Dividends and Distributions Attributable to a Sale or Exchange of United States Real Property Interests

Distributions to a non-U.S. holder that we properly designate as capital gain dividends, other than those arising from the disposition of a United States real property interest, generally should not be subject to United States federal income taxation, unless:

the investment in our shares is treated as effectively connected with the non-U.S. holder's United States trade or business, in which case the non-U.S. holder will be subject to the same treatment as U.S. holders with respect to such gain, except that a non-U.S. holder that is a foreign corporation may also be subject to the 30% branch profits tax, as discussed above; or

the non-U.S. holder is a nonresident alien individual who is present in the United States for 183 days or more during the taxable year and certain other conditions are met, in which case the nonresident alien individual will be subject to a 30% tax on the individual's capital gains.

Pursuant to the Foreign Investment in Real Property Tax Act, which is referred to as FIRPTA, distributions to a non-U.S. holder that are attributable to gain from our sale or exchange of United States real property interests (whether or not designated as capital gain dividends) will cause the non-U.S. holder to be treated as recognizing such gain as income effectively connected with a United States trade or business. Non-U.S. holders would generally be taxed at the same rates applicable to U.S. holders, subject to a special alternative minimum tax in the case of nonresident alien individuals. We also will be required to withhold and to remit to the Internal Revenue Service 35% (or 15% to the extent provided in Treasury Regulations) of any distribution to a non-U.S. holder that we designate as a capital gain dividend, or, if greater, 35% (or 15% to the extent provided in Treasury Regulations) of a distribution to the non-U.S. holder that could have been designated

Table of Contents

as a capital gain dividend. The amount withheld is creditable against the non-U.S. holder's United States federal income tax liability. However, any distribution with respect to any class of shares which is regularly traded on an established securities market located in the United States is not subject to FIRPTA, and therefore, not subject to the 35% U.S. withholding tax described above, if the non-U.S. holder did not own more than 5% of such class of shares at any time during the one-year period ending on the date of the distribution. Instead, such distributions will be treated in the same manner as ordinary dividend distributions.

Retention of Net Capital Gains

Although the law is not clear on the matter, it appears that amounts we designate as retained capital gains in respect of the common shares held by U.S. holders generally should be treated with respect to non-U.S. holders in the same manner as actual distributions by us of capital gain dividends. Under this approach, a non-U.S. holder would be able to offset as a credit against its United States federal income tax liability resulting from its proportionate share of the tax paid by us on such retained capital gains, and to receive from the Internal Revenue Service a refund to the extent of the non-U.S. holder's proportionate share of such tax paid by us exceeds its actual United States federal income tax liability.

Sale of Our Shares

Gain recognized by a non-U.S. holder upon the sale or exchange of our shares generally will not be subject to United States federal income taxation unless such shares constitute a United States real property interest within the meaning of FIRPTA. Our shares will not constitute a United States real property interest so long as we are a domestically-controlled qualified investment entity. A domestically-controlled qualified investment entity includes a REIT in which at all times during a specified testing period less than 50% in value of its shares is held directly or indirectly by non-U.S. holders. We believe, but cannot guarantee, that we have been a domestically-controlled qualified investment entity. Even if we have been a domestically-controlled qualified investment entity, because our shares of beneficial interest are publicly traded, no assurance can be given that we will continue to be a domestically-controlled qualified investment entity.

Notwithstanding the foregoing, gain from the sale or exchange of our shares not otherwise subject to FIRPTA will be taxable to a non-U.S. holder if either (1) the investment in our shares is treated as effectively connected with the non-U.S. holder's United States trade or business or (2) the non-U.S. holder is a nonresident alien individual who is present in the United States for 183 days or more during the taxable year and certain other conditions are met. In general, even if we are a domestically controlled qualified investment entity, upon disposition of our shares (subject to the 5% exception applicable to regularly traded shares described above), a non-U.S. holder may be treated as having gain from the sale or exchange of United States real property interest if the non-U.S. holder (1) disposes of our shares within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been treated as gain from the sale or exchange of a United States real property interest and (2) acquires, or enters into a contract or option to acquire, or is deemed to acquire other shares of ours during the 61-day period beginning with the first day of the 30-day period described in clause (1). Non-U.S. holders should contact their tax advisors regarding the tax consequences of any sale, exchange, or other taxable disposition of our common shares.

Even if we do not qualify as a domestically-controlled qualified investment entity at the time a non-U.S. holder sells or exchanges our shares, gain arising from such a sale or exchange would not be subject to United States taxation under FIRPTA as a sale of a United States real property interest if:

- (1) our shares are regularly traded, as defined by applicable Treasury Regulations, on an established securities market, such as the NYSE; and
- (2) such non-U.S. holder owned, actually and constructively, 5% or less of our shares throughout the applicable testing period.

If gain on the sale or exchange of our shares were subject to United States taxation under FIRPTA, the non-U.S. holder would be subject to regular United States federal income tax with respect to such gain in the

Table of Contents

same manner as a taxable U.S. holder (subject to any applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals). In addition, if our shares are not then traded on an established securities market, the purchaser of the common shares would be required to withhold and remit to the Internal Revenue Service 10% of the purchase price. If amounts withheld on a sale, redemption, repurchase, or exchange of our common shares exceed the holder's substantive tax liability resulting from such disposition, such excess may be refunded or credited against such non-U.S. holder's United States federal income tax liability, provided that the required information is provided to the Internal Revenue Service on a timely basis. Amounts withheld on any such sale, exchange or other taxable disposition of our common shares may not satisfy a non-U.S. holder's entire tax liability under FIRPTA, and such non-U.S. holder remains liable for the timely payment of any remaining tax liability.

Backup Withholding Tax and Information Reporting

Generally, we must report annually to the Internal Revenue Service the amount of dividends paid to a non-U.S. holder, such non-U.S. holder's name and address, and the amount of tax withheld, if any. A similar report is sent to the non-U.S. holder. Pursuant to tax treaties or other agreements, the Internal Revenue Service may make its reports available to tax authorities in the non-U.S. holder's country of residence.

Payments of dividends or of proceeds from the disposition of shares made to a non-U.S. holder may be subject to information reporting and backup withholding unless such non-U.S. holder establishes an exemption, for example, by properly certifying its non-United States status on an Internal Revenue Service Form W-8BEN or another appropriate version of Internal Revenue Service Form W-8. Notwithstanding the foregoing, backup withholding and information reporting may apply if either we have or our paying agent has actual knowledge, or reason to know, that a non-U.S. holder is a United States person.

Backup withholding is not an additional tax. Rather, the United States income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund or credit may be obtained, provided that the required information is furnished to the Internal Revenue Service on a timely basis.

Taxation of Holders of Our Debt Securities

The following summary describes certain of the principal United States federal income tax consequences of owning and disposing of our debt securities. This discussion assumes the debt securities will be issued without original issue discount, sometimes referred to as OID. If one or more series of debt securities are issued with OID, disclosure concerning the tax considerations arising therefrom will be included with the applicable prospectus supplement.

Taxable U.S. Holders of Our Debt Securities

Stated Interest

U.S. holders generally must include interest on the debt securities in their United States federal taxable income as ordinary income:

when it accrues, if the U.S. holder uses the accrual method of accounting for United States federal income tax purposes; or

when the U.S. holder actually or constructively receives it, if the U.S. holder uses the cash method of accounting for United States federal income tax purposes.

Sale, Exchange or Other Taxable Disposition of the Debt Securities

Unless a nonrecognition provision applies, U.S. holders must recognize taxable gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of a debt security. The amount of gain or loss

Table of Contents

equals the difference between (i) the amount the U.S. holder receives for the debt security in cash or other property, valued at fair market value, less the amount thereof that is attributable to accrued but unpaid interest on the debt security and (ii) the U.S. holder's adjusted tax basis in the debt security. A U.S. holder's initial tax basis in a debt security generally will equal the price the U.S. holder paid for the debt security.

Gain or loss generally will be long-term capital gain or loss if at the time the debt security is disposed of it has been held for more than one year. Otherwise, it will be a short-term capital gain or loss.

Payments attributable to accrued interest which have not yet been included in income will be taxed as ordinary interest income and subject to ordinary income rates (generally, a maximum rate of 35%). The maximum United States federal income tax rate on long-term capital gain on most capital assets held by an individual is currently 15%. The United States federal income tax laws relating to this 15% tax rate are scheduled to sunset or revert to provisions of prior law effective for taxable years beginning after December 31, 2010, at which time the capital gains tax rate will be increased to 20% and the rate applicable to ordinary interest income will be increased to the tax rate then applicable to ordinary income (generally, a maximum rate of 39.6%). The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

Under Section 3406 of the Internal Revenue Code and the Treasury Regulations, backup withholding at the applicable statutory rate may apply when a U.S. holder receives interest payments on a debt security or proceeds upon the sale or other disposition of a debt security. Certain U.S. holders including, among others, corporations, financial institutions and certain tax-exempt organizations, are generally not subject to backup withholding. In addition, backup withholding will not apply to a U.S. holder who provides his or her social security or other taxpayer identification number in the prescribed manner unless:

the Internal Revenue Service notifies us or our paying agent that the taxpayer identification number provided is incorrect;

the U.S. holder fails to report interest and dividend payments received on the U.S. holder's tax return and the Internal Revenue Service notifies us or our paying agent that backup withholding is required; or

the U.S. holder fails to certify under penalty of perjury that backup withholding does not apply.

A U.S. holder of debt securities who provides us or our paying agent with an incorrect taxpayer identification number may be subject to penalties imposed by the Internal Revenue Service. If backup withholding does apply, the U.S. holder may request a refund of the amounts withheld or use the amounts withheld as a credit against the U.S. holder's United States federal income tax liability as long as the U.S. holder provides the required information to the Internal Revenue Service on a timely basis. U.S. holders should consult their tax advisors as to their qualification for exemption from backup withholding and the procedures for obtaining the exemption.

We will be required to furnish annually to the Internal Revenue Service and to holders of debt securities information relating to the amount of interest paid on the debt securities, and that information reporting may also apply to payments of proceeds from the sale of the debt securities to those holders. Some U.S. holders, including corporations, financial institutions and certain tax-exempt organizations, generally are not subject to information reporting.

Non-U.S. Holders of Our Debt Securities

This section applies to you if you are a non-U.S. holder of the debt securities. The term "non-U.S. holder" means a beneficial owner of a debt security that is not a U.S. holder.

Table of Contents

Special rules may apply to certain non-U.S. holders such as controlled foreign corporations and passive foreign investment companies. Such entities are encouraged to consult their tax advisors to determine the United States federal, state, local and other tax consequences that may be relevant to them.

Payments of Interest

Interest paid to a non-U.S. holder will not be subject to United States federal income taxes or withholding tax if the interest is not effectively connected with the non-U.S. holder's conduct of a trade or business within the United States, and the non-U.S. holder:

does not actually or constructively own a 10% or greater interest in the total combined voting power of all classes of our voting shares;

is not a controlled foreign corporation with respect to which we are a related person within the meaning of Section 864(d)(4) of the Internal Revenue Code;

is not a bank that received such debt securities on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business; and

provides the appropriate certification as to the non-U.S. holder's status. A non-U.S. holder can generally meet this certification requirement by providing a properly executed Internal Revenue Service Form W-8BEN or appropriate substitute form to us or our paying agent. If the debt securities are held through a financial institution or other agent acting on the non-U.S. holder's behalf, the non-U.S. holder may be required to provide appropriate documentation to the agent. The agent will then generally be required to provide appropriate certifications to us or our paying agent, either directly or through other intermediaries. Special certification rules apply to foreign partnerships, estates and trusts, and in certain circumstances certifications as to foreign status of partners, trust owners or beneficiaries may have to be provided to us or our paying agent.

If a non-U.S. holder does not qualify for an exemption under these rules, interest income from the debt securities may be subject to withholding tax at the rate of 30% (or lower applicable treaty rate) at the time such interest is paid. The payment of interest effectively connected with a United States trade or business, however, would not be subject to a 30% withholding tax so long as the non-U.S. holder provides us or our paying agent an adequate certification (currently on Internal Revenue Service Form W-8ECI), but such interest would be subject to United States federal income tax on a net basis at the rates applicable to United States persons generally. In addition, if the payment of interest is effectively connected with a foreign corporation's conduct of a United States trade or business, that foreign corporation may also be subject to a 30% (or lower applicable treaty rate) branch profits tax. To claim the benefit of a tax treaty, a non-U.S. holder must provide a properly executed Internal Revenue Service Form W-8BEN before the payment of interest and a non-U.S. holder may be required to obtain a United States taxpayer identification number and provide documentary evidence issued by foreign governmental authorities to prove residence in the foreign country.

Sale, Exchange or Other Taxable Disposition of Debt Securities

Non-U.S. holders generally will not be subject to United States federal income tax on any amount which constitutes capital gain upon a sale, exchange, redemption, retirement or other taxable disposition of a debt security, unless either of the following is true:

the non-U.S. holder's investment in the debt securities is effectively connected with the conduct of a United States trade or business; or

the non-U.S. holder is a nonresident alien individual holding the debt security as a capital asset, is present in the United States for 183 or more days in the taxable year within which the sale, redemption or other disposition takes place, and certain other

requirements are met.

Table of Contents

For non-U.S. holders described in the first bullet point above, the net gain derived from the retirement or disposition of the debt securities generally would be subject to United States federal income tax at the rates applicable to United States persons generally (or lower applicable treaty rate). In addition, foreign corporations may be subject to a 30% (or lower applicable treaty rate) branch profits tax if the investment in the debt security is effectively connected with the foreign corporation's conduct of a United States trade or business. Non-U.S. holders described in the second bullet point above will be subject to a flat 30% United States federal income tax on the gain derived from the retirement or disposition of their debt securities, which may be offset by United States source capital losses, even though non-U.S. holders are not considered residents of the United States.

Backup Withholding and Information Reporting

No backup withholding or information reporting will generally be required with respect to interest paid to non-U.S. holders of debt securities if the beneficial owner of the debt security provides the certification described above in *Non-U.S. Holders of Our Debt Securities Payments of Interest* or is an exempt recipient and, in each case, we do not have actual knowledge or reason to know that the beneficial owner is a United States person.

Information reporting requirements and backup withholding tax generally will not apply to any payments of the proceeds of the sale of a debt security effected outside the United States by a foreign office or a foreign broker (as defined in applicable Treasury Regulations). However, unless such broker has documentary evidence in its records that the beneficial owner is a non-U.S. holder and certain other conditions are met, or the beneficial owner otherwise establishes an exemption, information reporting but not backup withholding will apply to any payment of the proceeds of the sale of a debt security effected outside the United States by such a broker if it:

is a United States person, as defined in the Internal Revenue Code;

derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States;

is a controlled foreign corporation for United States federal income tax purposes; or

is a foreign partnership that, at any time during its taxable year, has 50% or more of its income or capital interests owned by United States persons or is engaged in the conduct of a United States trade or business.

Payment of the proceeds of any sale by a non-U.S. holder of a debt security effected by the United States office of a broker will be subject to information reporting and backup withholding requirements, unless the holder or beneficial owner of the debt security provides the certification described above in *Non-U.S. Holders of Our Debt Securities Payments of Interest* or otherwise establishes an exemption from back-up withholding.

Non-U.S. holder of debt securities should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situation, the availability of an exemption therefrom, and the procedure for obtaining the exemption, if available. Any amounts withheld from payments to a non-U.S. holder under the backup withholding rules will be allowed as a refund or a credit against the non-U.S. holder's federal income tax liability, provided that the required information is furnished to the Internal Revenue Service on a timely basis.

Table of Contents

PLAN OF DISTRIBUTION

We may offer and sell the securities from time to time as follows:

through agents;

to or through dealers or underwriters;

in at the market offerings, within the meaning of Rule 415(a)(4) of the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;

directly to other purchasers; or

through a combination of any of these methods of sale.

In addition, the securities may be issued as a dividend or distribution or in a subscription rights offering to existing holders of securities. In some cases, we may also repurchase securities and reoffer them to the public by one or more of the methods described above.

The securities we distribute by any of these methods may be sold to the public, in one or more transactions, either:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale;

at prices related to prevailing market prices;

at prices determined by an auction process; or

at negotiated prices.

We may solicit offers to purchase securities directly from the public from time to time. We may also designate agents from time to time to solicit offers to purchase securities from the public on our behalf. The prospectus supplement relating to any particular offering of securities will name any agents designated to solicit offers, and will include information about any commissions we may pay the agents, in that offering. Agents may be deemed to be underwriters as that term is defined in the Securities Act.

From time to time, we may sell securities to one or more dealers as principals. The dealers, who may be deemed to be underwriters as that term is defined in the Securities Act, may then resell those securities to the public.

We may sell securities from time to time to one or more underwriters, who would purchase the securities as principal for resale to the public, either on a firm-commitment or best-efforts basis. If we sell securities to underwriters, we will execute an underwriting agreement with them at the time of sale and will name them in the applicable prospectus supplement. In connection with those sales, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agents. Underwriters may resell the securities to or through dealers, and those dealers may receive

Edgar Filing: UNIVERSAL HEALTH REALTY INCOME TRUST - Form 424B2

compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from purchasers for whom they may act as agents. The applicable prospectus supplement will include information about any underwriting compensation we pay to underwriters, and any discounts, concessions or commissions underwriters allow to participating dealers, in connection with an offering of securities.

If we offer securities in a subscription rights offering to our existing securityholders, we may enter into a standby underwriting agreement with dealers, acting as standby underwriters. We may pay the standby underwriters a commitment fee for the securities they commit to purchase on a standby basis. Additionally,

Table of Contents

before the expiration date for the subscription rights, the standby underwriters may offer the securities, including securities they may acquire through the purchase and exercise of subscription rights, on a when-issued basis at prices set from time to time by them. After the expiration date, the standby underwriters may offer the securities, whether acquired under the standby underwriting agreement, on exercise of subscription rights or by purchase in the market, to the public at prices to be determined by them. Thus, standby underwriters may realize profits or losses independent of the underwriting discounts or commissions we may pay them. If we do not enter into a standby underwriting arrangement, we may retain a dealer-manager to manage a subscription rights offering for us. Any dealer-manager we retain may acquire securities by purchasing and exercising the subscription rights and resell the securities to the public at prices it determines. As a result, a dealer-manager may realize profits or losses independent of any dealer-manager fee paid by us.

We may authorize underwriters, dealers and agents to solicit from third parties offers to purchase securities under contracts providing for payment and delivery on future dates. The third parties with whom we may enter into contracts of this kind may include banks, insurance companies, pension funds, investment companies, educational and charitable institutions, and others. The applicable prospectus supplement will describe the material terms of these contracts, including any conditions to the purchasers' obligations and will include information about any commissions we may pay for soliciting these contracts.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement (or a post-effective amendment).

Underwriters, dealers, agents and other persons may be entitled, under agreements that they may enter into with us, to indemnification by us against civil liabilities, including liabilities under the Securities Act.

Underwriters may engage in stabilizing and syndicate covering transactions in accordance with Rule 104 of Regulation M. Rule 104 permits stabilizing bids to purchase the securities being offered as long as the stabilizing bids do not exceed a specified maximum. Underwriters may over-allot the offered securities in connection with the offering, thus creating a short position in their account. Syndicate covering transactions involve purchases of the offered securities by underwriters in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing and syndicate covering transactions may cause the price of the offered securities to be higher than it would otherwise be in the absence of these transactions. These transactions, if commenced, may be discontinued at any time.

The underwriters, dealers and agents, as well as their associates, may be customers of or lenders to, and may engage in transactions with and perform services for, the Trust and its subsidiaries in the ordinary course of business.

In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum commission or discount to be received by any NASD member or independent broker dealer may not exceed 8% of the aggregate principal amount of the securities offered pursuant to this prospectus. It is anticipated that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

Table of Contents

LEGAL MATTERS

Unless otherwise indicated in the applicable prospectus supplement, the validity of the securities offered hereby and tax matters will be passed upon for us by Fulbright & Jaworski L.L.P., New York, New York.

EXPERTS

The consolidated financial statements of the Trust as of December 31, 2008 and 2007, and for each of the years in the three-year period ended December 31, 2008, and management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2008 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2008, have been incorporated by reference herein in reliance upon the reports of KPMG LLP, an independent registered public accounting firm, and upon the authority of said firm as experts in auditing and accounting.

The Declaration of Trust establishing Universal Health Realty Income Trust, dated August 5, 1986, a copy of which, together with all amendments thereto (the Declaration), is filed in The Office of The Department of Assessments and Taxation of The State of Maryland, provides that the name Universal Health Realty Income Trust refers to the Trustees under the Declaration collectively as Trustees, but not individually or personally, and that no Trustee, Officer, Shareholder, Employee or Agent of the Trust shall be held to any personal liability, jointly or severally, for any obligation of, or claim against, the Trust. All persons dealing with the Trust, in any way, shall look only to the assets of the Trust for the payment of any sum or the performance of any obligation.
