**Table of Contents****Kubota Corporation  
and Subsidiaries****1. Review of operations and financial condition****(1) Summary of the results of operations for the nine months under review**

For the nine months ended December 31, 2010, revenues of Kubota Corporation and subsidiaries (hereinafter, the Company) increased ¥6.9 billion [1.0 %], to ¥680.0 billion from the corresponding period in the prior year.

Domestic revenues decreased ¥13.8 billion [3.9 %], to ¥341.1 billion, due to decreases in revenues in Water & Environment Systems and Social Infrastructure, while revenues in Farm & Industrial Machinery and Other increased. Overseas revenues increased ¥20.7 billion [6.5 %], to ¥338.9 billion, because an increase of revenues in Farm & Industrial Machinery compensated declines of revenues in other segments.

Operating income increased ¥17.0 billion [32.7 %], to ¥69.0 billion from the corresponding period in the prior year, due to an increase in overseas revenues in Farm & Industrial Machinery and progressing cost reduction. Income before income taxes and equity in net income of affiliated companies increased ¥19.2 billion [36.1 %], to ¥72.2 billion. Income taxes were ¥24.2 billion [representing an effective tax rate of 33.5 %], and net income increased ¥13.8 billion [38.9 %], to ¥49.2 billion. Net income attributable to Kubota Corporation increased ¥13.1 billion [42.5 %], to ¥44.1 billion from the corresponding period in the prior year.

**Review of operations by reporting segment****1) Farm & Industrial Machinery**

Farm & Industrial Machinery comprises farm equipment, engines and construction machinery.

Revenues in this segment increased 7.3 %, to ¥489.7 billion from the corresponding period in the prior year, comprising 72.0 % of consolidated revenues.

Domestic revenues increased 0.5 %, to ¥172.5 billion. Sales of farm equipment such as tractors, combine harvesters and rice transplanters decreased due to weakening buying inclination of farmers accompanied by declining rice price as well as adverse impact of the absence of government subsidy for leasing farm equipment, which was implemented in the second half of the prior fiscal year. However, sales of engines and construction machinery largely increased under the encouragement of demand recovery.

Overseas revenues increased 11.3 %, to ¥317.2 billion. In North America, sales of tractors increased as a result of aggressive sales activities and sales of engines substantially increased owing to favorable demand. In Europe, sales of construction machinery and engines largely increased due to rapid recovery of demand, while sales of tractors decreased. In Asia outside Japan, sales of farm equipment increased steadily, and sales of construction machinery increased largely.

Operating income in Farm & Industrial Machinery increased 48.0 %, to ¥71.1 billion due to increased revenues and cost reductions.

**2) Water & Environment Systems**

Water & Environment Systems comprises pipe-related products (ductile iron pipes, plastic pipes, valves, and other products) and environment-related products (environmental plants, pumps and other products).

Revenues in this segment decreased 16.2 %, to ¥126.6 billion from the corresponding period in the prior year, comprising 18.6 % of consolidated revenues.

Domestic revenues decreased 10.6 %, to ¥116.1 billion. Sales of pipe-related products such as ductile iron pipes and plastic pipes decreased due to sluggish demand. Sales of environment-related such as water and sewage treatment products and waste treatment products also decreased. Overseas revenues decreased 50.4 %, to ¥10.5 billion, due to substantial sales declines of ductile iron pipes and pumps.

Edgar Filing: KUBOTA CORP - Form 6-K

Operating income in Water & Environment Systems decreased 47.5 %, to ¥6.7 billion due to decreased revenues and declines of sales price.

**3) Social Infrastructure**

Social Infrastructure comprises industrial castings, spiral welded steel pipes, vending machines, electronic equipped machinery, and air-conditioning equipment.

Revenues in this segment decreased 3.6 %, to ¥45.0 billion from the corresponding period in the prior year, comprising 6.6 % of consolidated revenues.

Domestic revenues decreased 3.4 %, to ¥34.1 billion. Although sales of electronic equipped machinery and air-conditioning equipment increased, sales of spiral welded steel pipes largely decreased and sales of industrial castings and vending machines also decreased from the corresponding period in the prior year. Overseas revenues decreased 4.1 %, to ¥10.9 billion owing to the sales decline of industrial castings.

Operating income in Social Infrastructure increased 17.6 %, to ¥2.5 billion mainly due to reduction of fixed cost and improved profitability.

**4) Other**

Other comprises construction, services and other businesses.

Revenues in this segment decreased 0.5 %, to ¥18.8 billion from the corresponding period in the prior year, comprising 2.8 % of consolidated revenues. This decrease was mainly due to sales decline of construction.

Operating income in Other decreased 17.7 %, to ¥1.2 billion.

**(2) Financial condition**

**1) Assets, liabilities and equity**

Total assets at the end of December 2010 amounted to ¥1,394.9 billion, a decrease of ¥14.2 billion from the end of March 2010. As for Assets, current assets decreased due to decreases of notes and accounts receivable and cash and cash equivalents, while inventories increased. In addition, property, plant, and equipment and other assets also decreased.

As for liabilities, current liabilities increased because of large increase in notes and accounts payable. On the other hand, long-term liabilities decreased substantially mainly due to a decrease of long-term debt.

Equity increased due to steadily recorded net income, while accumulated other comprehensive loss increased mainly affected by the appreciation of the yen. Shareholders' equity ratio was 45.6 %, 1.1 percentage points higher than the prior year end.

**2) Cash flows**

Net cash provided by operating activities during the nine months under review was ¥66.9 billion, a decrease of ¥10.5 billion of cash inflow from the corresponding period in the prior year. This decrease was mainly due to a decline of cash inflow from changes in working capital.

Net cash used in investing activities was ¥33.7 billion, a decrease of ¥5.2 billion of cash outflow from the corresponding period in the prior year. This decrease was mainly due to a decrease of purchase of fixed assets and a decrease of cash outflow related to finance receivables.

Net cash used in financing activities was ¥36.8 billion, an increase of ¥25.2 billion of cash outflow from the corresponding period in the prior year. This substantial increase was mainly due to an increase in repayments of long-term debt.

## Edgar Filing: KUBOTA CORP - Form 6-K

As a result, including the effect of exchange rate changes, cash and cash equivalents at the end of December 2010 was ¥106.1 billion, a decrease of ¥5.3 billion from the beginning of the year.

### **(3) Prospect for the fiscal year under review**

The Company revised the forecasts of revenues for the year ending March 31, 2011 to be ¥960.0 billion, a decrease of ¥40.0 billion from the previous forecast on May 11, 2010. Domestic revenues are forecast to decrease because of revenues decrease mainly in Water & Environment Systems from the previous forecast. Overseas revenues are also forecast to decrease mainly in Farm & Industrial Machinery from the previous forecast.
