FORWARD-LOOKING STATEMENTS

Except for any historical information contained herein, the matters discussed in this Annual Report on Form 10-K (this Form 10-K) contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies.

These forward-looking statements are identified by their use of terms and phrases such as anticipate, believe, could, estimate, expect, intend, may, plan, predict, project, will and similar terms and phrases, including references to assumptions. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that such plans, intentions or expectations will be achieved. Important factors that could cause actual results to differ materially from our forward-looking statements include, but are not limited to:

*prolonged weakness in general economic conditions, including adverse effects on the overall travel and leisure related industries;
unfavorable weather conditions or natural disasters;
adverse events that occur during our peak operating periods combined with the seasonality of our business;
competition in our mountain and lodging businesses;
our ability to grow our resort and real estate operations;
our ability to successfully initiate, complete and sell new real estate development projects and achieve the anticipated financial benefits from such projects;
further adverse changes in real estate markets;
continued volatility in credit markets;
our ability to obtain financing on terms acceptable to us to finance our future real estate development, capital expenditures and growth strategy;
our reliance on government permits or approvals for our use of Federal land or to make operational improvements;
adverse consequences of current or future legal claims;
our ability to hire and retain a sufficient seasonal workforce;
willingness of our guests to travel due to terrorism, the uncertainty of military conflicts or outbreaks of contagious diseases, and the cost and availability of travel options;
negative publicity which diminishes the value of our brands;
our ability to integrate and successfully realize anticipated benefits of acquisitions or future acquisitions; and
implications arising from new Financial Accounting Standards Board (FASB) governmental legislation, rulings or interpretations.*

All forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this Form 10-K, including investors and prospective investors, are cautioned not to place undue reliance on such forward-looking statements. Actual results may differ materially from those suggested by the forward-looking statements that we make for a number of reasons including those described in Part I, Item 1A, Risk Factors of this Form 10-K. All forward-looking statements are made only as of the date hereof. Except as may be required by law, we do not intend to update these forward-looking statements, even if new information, future events or other circumstances have made them incorrect or misleading.

PART I

ITEM 1. BUSINESS.

General

Vail Resorts, Inc., together with its subsidiaries, is referred to throughout this document as *we*, *us*, *our* or the *Company*.

Vail Resorts, Inc., a Delaware corporation, was organized as a public holding company in 1997 and operates through various subsidiaries. Our operations are grouped into three business segments: Mountain, Lodging and Real Estate, which represented approximately 65%, 18% and 17%, respectively, of our net revenue for the year ended July 31, 2011 (*Fiscal 2011*). Our Mountain segment operates six world-class ski resort properties as well as ancillary services, primarily including ski school, dining and retail/rental operations, which provide a comprehensive resort experience to a diverse clientele with an attractive demographic profile. Our Lodging segment owns and/or manages a collection of luxury hotels under our RockResorts brand, as well as other strategic lodging properties and a large number of condominiums located in proximity to our ski resorts, the Grand Teton Lodge Company (*GTLC*), which operates three destination resorts at Grand Teton National Park, Colorado Mountain Express (*CME*), a resort ground transportation company, and golf courses. Collectively, the Mountain and Lodging segments are considered the Resort segment. Our Real Estate segment owns and develops real estate in and around our resort communities. Financial information by segment is presented in Note 14, Segment Information, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this Form 10-K.

Mountain Segment

Our portfolio of world-class ski resorts currently includes:

Vail Mountain (*Vail Mountain*) the most visited ski resort in the United States for the 2010/2011 ski season and the single largest ski mountain in the United States. Vail Mountain offers some of the most expansive and varied terrain in North America with approximately 5,300 skiable acres including seven world renowned back bowls and the resort's rustic Blue Sky Basin.

Breckenridge Ski Resort (*Breckenridge*) the second most visited ski resort in the United States for the 2010/2011 ski season and host of the highest chairlift in North America, the Imperial Express SuperChair, reaching 12,840 feet and offering above tree line expert terrain. Breckenridge is well known for its historic town, vibrant nightlife and progressive and award-winning pipes and parks.

Keystone Resort (*Keystone*) the fourth most visited ski resort in the United States for the 2010/2011 ski season and home to the highly renowned A51 Terrain Park as well as the largest area of night skiing in Colorado. Keystone also offers guests a unique skiing opportunity through guided snow cat ski tours accessing five bowls. Keystone is a premier destination for families with its *Kidtopia* program focused on providing activities for kids on and off the slopes.

Heavenly Mountain Resort (*Heavenly*) the seventh most visited ski resort in the United States for the 2010/2011 ski season and the second largest ski resort in the United States with over 4,800 skiable acres. Heavenly, located near the South Shore of Lake Tahoe, straddles the border of California and Nevada and offers unique and spectacular views of Lake Tahoe. Heavenly boasts the largest snowmaking capacity in the Lake Tahoe region and offers great nightlife including its proximity to several casinos.

Beaver Creek Resort (*Beaver Creek*) the eighth most visited ski resort in the United States for the 2010/2011 ski season. Beaver Creek is a European style resort with multiple villages and also includes a world renowned children's ski school program focused on providing a first-class experience with unique amenities such as a dedicated children's gondola. Beaver Creek also annually hosts the only North American men's World Cup downhill races.

Northstar-at-Tahoe Resort (*Northstar-at-Tahoe*) the eleventh most visited ski resort in the United States for the 2010/2011 ski season and offers over 3,000 skiable acres. We acquired the equity interest of the companies that operate Northstar-at-Tahoe in October

Edgar Filing: VAIL RESORTS INC - Form 10-K

2010. Northstar-at-Tahoe, located near the North Shore of Lake Tahoe, is host to a new base area village featuring unique shops and restaurants, a conference center, a 9,000 square-foot skating rink and on-site lodging.

Vail Mountain, Beaver Creek, Breckenridge and Keystone, all located in the Colorado Rocky Mountains, and Heavenly and Northstar-at-Tahoe, located in the Lake Tahoe region of California/Nevada, are year-round mountain resorts. Each offers a full complement of recreational activities, including skiing, snowboarding, snowshoeing, snowtubing, sightseeing, mountain biking, guided hiking, children's activities and other recreational activities.

Our Mountain segment derives revenue through the sale of lift tickets and season passes as well as a comprehensive offering of amenities available to guests, including ski and snowboard lessons, equipment rentals and retail merchandise sales, a variety of dining venues, private club operations and other recreational activities. In addition to providing extensive guest amenities, we also lease some of our owned and leased commercial space to third party operators to add unique restaurants and retail stores to the mix of amenities at the base of our resorts.

Ski Industry/Market

There are approximately 770 ski areas in North America and approximately 480 in the United States, ranging from small ski area operations that service day skiers to large resorts that attract both day skiers and destination resort guests looking for a comprehensive vacation experience. One of the primary ski industry statistics for measuring performance is skier visit, which represents a person utilizing a ticket or pass to access a mountain resort for any part of one day, and includes both paid and complimentary access. During the 2010/2011 ski season, combined skier visits for all the United States ski areas were approximately 61.0 million and all North American skier visits were approximately 80.0 million. Our ski resorts had 7.0 million skier visits during the 2010/2011 ski season, or approximately 11.5% of United States skier visits, and an approximate 9.0% share of the North American market's skier visits.

Our Colorado ski resorts appeal to both day skiers and destination guests due to the resorts' proximity to Colorado's Front Range (Denver/Colorado Springs/Boulder metropolitan areas), accessibility from several airports, including Denver International Airport and Eagle County Airport, and the wide range of amenities available at each resort. Colorado has 29 ski areas, six of which are considered Front Range Destination Resorts, including all of our Colorado resorts, catering to both the Colorado Front Range and destination-skier markets. All Colorado ski resorts combined recorded approximately 12.3 million skier visits for the 2010/2011 ski season with skier visits at our Colorado ski resorts totaling 5.3 million, or approximately 43.0% of all Colorado skier visits for the 2010/2011 ski season.

Lake Tahoe, which straddles the border of California and Nevada, is a major skiing destination less than 100 miles from Sacramento and Reno and approximately 200 miles from San Francisco, drawing skiers from the entire California market and making it a convenient destination for both day skiers and destination guests. Heavenly, located near the South Shore of Lake Tahoe, and Northstar-at-Tahoe, located near the North Shore of Lake Tahoe, are popular year-round vacation destinations, featuring extensive summer attractions in addition to their winter sports offerings. Heavenly and Northstar-at-Tahoe are proximate to both the Reno/Tahoe International Airport and the Sacramento International Airport. California and Nevada have 33 ski areas. Our Lake Tahoe resorts had 1.7 million skier visits for the 2010/2011 ski season, capturing approximately 22.0% of California's and Nevada's approximately 7.8 million total skier visits for the 2010/2011 ski season.

Competition

There are significant barriers to entry for new ski areas due to the limited private lands on which ski areas can be built, the difficulty in getting the appropriate governmental approvals to build on public lands and the significant capital needed to construct the necessary infrastructure. As such, there have been virtually no new major resorts in North America for nearly 30 years which has and should continue to allow the best positioned resorts, including all of our resorts, to capture a majority of future industry growth. Our resorts compete with other major destination ski resorts, including Aspen/Snowmass, Copper Mountain, Deer Valley, Mammoth Mountain, Park City Mountain Resort, Squaw Valley USA, Steamboat, Whistler Blackcomb and Winter Park, as well as other ski areas in Colorado, California, Nevada, the Pacific Northwest and Southwest, and other destination ski areas worldwide and non-ski related vacation options and destinations.

While the ski industry has performed well in recent years in terms of number of skier visits, with the nine best seasons occurring in the past 10 years for United States visitation, a particular ski area's growth is also largely dependent on either attracting skiers away from other resorts, generating more revenue per skier visit and/or generating more visits from each skier. Better capitalized ski resorts, including all six of our mountain resorts, are expanding their offerings as well as enhancing the quality and experience by adding new high speed chairlifts, gondolas, terrain parks, state of the art grooming machines, expanded terrain, on-mountain dining venues as well as amenities at the base areas of the resorts, all of which are aimed at increasing guest visitation and revenue per skier visit. We believe that we invest more in capital improvements than the vast majority of our competitors and that we can also create operating synergies by operating multiple resorts, thus enhancing our profitability. Additionally, through our sales of season passes, we provide our guests with a strong value option, in return for guests committing to ski at our resorts prior to, or very early into the ski season,

which we believe attracts more guests to our resorts. All six of our resorts typically rank in the fifteen most visited ski resorts in the United States. Additionally, all of our resorts consistently rank in the top 25 ranked ski resorts in North America according to industry surveys, which we attribute to our resorts' ability to provide a high-quality experience.

The ski industry statistics stated in this section have been derived from data published by Colorado Ski Country USA, Canadian Ski Council, Kottke National End of Season Survey 2010/2011 (the "Kottke Survey") and other industry publications.

All of our ski resorts maintain the distinction of competing effectively as both market leaders and quality leaders. The following inherent and strategic factors contribute directly to each resort's success:

Exceptional mountain experience

World-Class Mountain Resorts and Integrated Base Resort Areas

All six of our mountain resorts offer a multitude of skiing and snowboarding experiences for the beginner, intermediate, advanced and expert levels. Each resort is also fully integrated into expansive resort areas offering a broad array of lodging, dining, retail, spas, nightlife and other amenities to the resort's guests, some of which we own or manage.

Snow Conditions

Our resorts are located in areas that generally receive significantly higher than average snowfall compared to most other ski resort locations in the United States. Our resorts in the Colorado Rocky Mountains and in the Sierra Nevada Mountains all receive average yearly snowfall between 20 and 30 feet. Even in these abundant snowfall areas, we have significant snowmaking systems that can help provide a more consistent experience, especially in the early season. Additionally, we provide several hundred acres of groomed terrain at each of our resorts with extensive fleets of snow grooming equipment.

Lift Service

We systematically upgrade our lifts to streamline skier traffic and maximize guest experience. In the past several years, we have installed several high-speed chairlifts and gondolas across our resorts, including an eight-passenger gondola at Keystone with a mid-station feature and a four-passenger high-speed chairlift servicing Vail Mountain's back bowls. Additionally, for the 2011/2012 ski season we expect to have installed new high speed chairlifts at both Beaver Creek and Northstar-at-Tahoe.

Terrain Parks

Our resorts are committed to leading the industry in terrain park design, education and events for the growing segment of freestyle skiers and snowboarders. Each resort has multiple terrain parks that include progressively-challenging features. This park structure, coupled with freestyle ski school programs, promotes systematic learning from basic to professional skills.

Extraordinary service and amenities

Commitment to the Guest Experience

Our mission is to provide quality service at every level of the guest experience. Prior to arrival, guests can receive personal assistance through our full-service, in-house travel center (or for certain items through our comprehensive websites) to book desired lodging accommodations, lift tickets, ski school lessons, equipment rentals and air and ground travel. On-mountain ambassadors engage guests and answer questions and all personnel, from lift operators to ski patrol, convey a guest-oriented culture. In addition, we introduced EpicMix for the 2010/2011 ski season which, through the use of radio frequency technology, captures a guest's activity on the slopes (e.g. days and vertical feet skied, chairlifts ridden) and allows a guest to share his or her experience and accomplishments with family and friends on social networks like Facebook and Twitter. We also solicit guest feedback through a variety of surveys and results which are utilized to ensure high levels of customer satisfaction, to understand trends, and to develop future resort programs and amenities.

Season Pass Products

We offer a variety of season pass products for all of our ski resorts, marketed towards both out-of-state and international (Destination) guests and in-state and local (In-State) guests. Our season pass products are available for purchase

predominately during the period prior to the start of the ski season. Our season pass products provide a value option to our guests, which in turn assists us in developing a loyal base of customers who commit to ski at our resorts generally in advance of the ski season and typically ski more days each season at our resorts than those guests who do not buy season passes. As such, our season pass program drives strong customer loyalty; mitigates exposure to many weather sensitive guests; and generates additional ancillary spending. In addition, our season pass products attract new guests to our resorts. Sales of season pass products are a key component of our overall Mountain revenue and also create strong synergies among our resorts. Our season pass product offerings range from providing access to a combination of our resorts to our Epic Season Pass that allows pass holders unlimited and unrestricted access to all six of our ski resorts. For the 2011/2012 ski season, in addition to the Epic Season Pass, we are providing value options to our guests by offering various pass products such as Epic Local Season Pass that allows pass holders access to all of our resorts with certain restrictions; the Summit Value Pass which provides access to Breckenridge and Keystone; and the Tahoe Value Pass which provides access to Heavenly and Northstar-at-Tahoe. Season pass products provided approximately 35% of our total lift ticket revenue for the 2010/2011 ski season.

Premier Ski Schools

Our resorts are home to some of the finest and most recognized ski and snowboard schools in the industry. Through a combination of outstanding training and abundant work opportunities, the schools have become home to many of the most experienced and credentialed professionals in the business. We complement our instructor staff with state-of-the-art facilities and extensive learning terrain, all with a keen attention to guest needs, including offering a wide variety of adult and child group and private lesson options with a goal of creating lifelong skiers and riders and showcasing to our guests all the terrain our resorts have to offer.

On-Mountain Activities

We are a ski industry leader in providing comprehensive destination vacation experiences, including on-mountain activities designed to appeal to a broad range of interests. In addition to our exceptional ski experiences, guests can choose from a variety of non-ski related activities including snowtubing, snowshoeing, guided snowmobile and scenic cat tours, horse-drawn sleigh rides and high altitude dining. During the summer, on-mountain recreational activities provide guests with a wide array of options including scenic chairlift and gondola rides, mountain biking, horseback riding, hiking, an alpine slide and an alpine coaster.

Dining

Our resorts provide a variety of quality on-mountain and base village dining venues, ranging from top-rated fine dining restaurants to trailside express food service outlets. We operate approximately 100 of such dining options at our six mountain resorts. Furthermore, we are committed to serving healthy food options to our guests at these dining venues through our Appetite for Life program.

Retail/Rental

We have approximately 160 retail/rental locations, including an online retail presence, specializing in sporting goods including ski, snowboard, golf and cycling equipment. In addition to providing a major retail/rental presence at each of our ski resorts, we also have retail/rental locations throughout the Colorado Front Range and at other Colorado, California and Utah ski resorts, as well as the San Francisco Bay Area and Salt Lake City. Many of the locations in the Colorado Front Range and in the San Francisco Bay Area also offer a prime venue for selling our season pass products.

Lodging and Real Estate Development

Quality lodging options are an integral part of providing a complete resort experience. Our 15 owned and managed hotels and resorts proximate to our mountain resorts, including five RockResorts branded properties, and a significant inventory of managed condominium rooms provide numerous accommodation options for our mountain resort guests. Our real estate development efforts provide us with the potential to add profitability while expanding our destination bed base and upgrading our resorts through the development of amenities such as luxury hotels, private clubs, spas, parking and commercial space for restaurants and retail shops. Our Lodging and Real Estate segments have and continue to invest in resort related assets as part of their initiatives which enhance the overall resort experience. Examples include: Ritz-Carlton Residences, Vail which opened in August 2010; One Ski Hill Place at Breckenridge, a RockResort property which opened in June 2010; upgraded amenities at the Keystone Lodge for the 2010/2011 ski season; renovated guest rooms and renovated ballroom and meeting spaces at The Lodge at Vail for

Edgar Filing: VAIL RESORTS INC - Form 10-K

the 2008/2009 ski season; the Crystal Peak Lodge in Breckenridge which opened for the 2008/2009 ski season; and the Vail Mountain and Arrabelle Clubs, private mountain clubs which opened for the 2008/2009 ski season.

Environmental Stewardship and Social Responsibility

Our environmental stewardship efforts are diverse and touch nearly every area of our operations. In the area of forest health and watershed protection we are focused on the Hayman Restoration Partnership, Colorado's largest forest and watershed restoration project and one of the largest public-private partnerships of its kind in the country. We continue to reduce our energy consumption through our Target 10% initiative, which has a stated goal of a 10% companywide energy reduction. Furthermore, as part of a comprehensive environmental program we are also continuing a substantial recycling program, one of the largest, if not the largest, on-mountain program in the world; committing to green building development; operating a comprehensive composting program at selected resorts; promoting/offering green guest rooms, green weddings, events, and meetings to our guests including eliminating nearly all plastic water bottles in lodging properties through the Water on the Rocks program. Lastly, our charitable giving focuses on supporting educational and youth programs, encouraging innovation in and implementation of environmental stewardship practices and enhancing the quality of life in the communities in which we operate.

Accessibility from major metropolitan areas

Our ski resorts are well located and easily accessible by both Destination and In-State guests.

Colorado Resorts

The Colorado Front Range, with a population of approximately 4.3 million, and growing faster than the national average over the past 10 years, is within approximately 100 miles from each of our Colorado resorts, with access via a major interstate highway. Additionally, our Colorado resorts are proximate to both Denver International Airport and Eagle County Airport.

Lake Tahoe Resorts

Heavenly and Northstar-at-Tahoe are proximate to two large California population centers, the Sacramento/Central Valley and the San Francisco Bay Area and draw skiers from throughout California and Nevada. Heavenly and Northstar-at-Tahoe are approximately 100 miles from Sacramento/Central Valley and approximately 200 miles from the San Francisco Bay area via major interstate highways. Additionally, both our Lake Tahoe resorts are serviced by the Reno/Tahoe International Airport, Sacramento International Airport and the San Francisco International Airport.

Marketing and Sales

We promote our resorts through targeted marketing and sales programs, which include customer relationship marketing (CRM) to targeted audiences, promotional programs, digital marketing (including social, search and display), loyalty programs that reward frequent guests and traditional media advertising where appropriate (e.g. targeted print, TV, radio). Additionally, we promote our resorts and the snowsports industry through our OnTheSnow.com website, which is one of the world's most visited online snowsports portals. We also have marketing programs directed at attracting groups, corporate meetings and convention business. Most marketing efforts drive traffic to our websites, where we provide our guests with information regarding each of our resorts, including services and amenities, reservations information, virtual tours and the opportunity to book/purchase multiple products for their vacations or other visits. We also enter into strategic alliances with companies to enhance the guest in-resort experience and to create opportunities for cross-marketing.

Seasonality

Ski resort operations are highly seasonal in nature, with a typical ski season beginning in mid-November and running through mid-April. In an effort to partially counterbalance the concentration of revenue in the winter months, we offer non-ski season attractions such as sightseeing, mountain biking, guided hiking, alpine slides, children's activities and other recreational activities such as golf (included in the operations of the Lodging segment). These activities also help attract destination conference and group business to our resorts.

Lodging Segment

Our Lodging segment includes the following operations:

RockResorts a luxury hotel management company with a current portfolio of eleven properties, including four Company-owned hotels and seven managed third-party owned resort properties with locations in Colorado, Wyoming, New Mexico, Dominican Republic, Jamaica and St. Lucia, West Indies as well as three properties currently under development that we will manage;

Five additional independently flagged Company-owned hotels, management of the Vail Marriott Mountain Resort & Spa (Vail Marriott), Mountain Thunder Lodge, Crystal Peak Lodge, Ritz-Carlton Residences, Vail, Austria Haus Hotel and condominium management operations, which are in and around our ski resorts in both Colorado and the Lake Tahoe region, and Bimini Bay, Bahamas and Alma del Pacifico, Costa Rica;

GTLC a summer destination resort with three resort properties in the Grand Teton National Park and the Jackson Hole Golf & Tennis Club (JHG&TC) near Jackson, Wyoming;

CME a resort ground transportation company; and

Five Company-owned resort golf courses in Colorado, one in Wyoming and one operated in Lake Tahoe, California.

The Lodging segment currently includes approximately 5,100 owned and managed hotel and condominium rooms. Our resort hotels collectively offer a wide range of services to guests.

Our portfolio of owned or managed luxury resort hotels and other hotels and properties currently includes:

*Includes individual owner units that are in a rental program managed by us.

The RockResorts brand was originally created by Laurance S. Rockefeller in 1956 and was purchased by us in December 2001. The RockResorts collection includes luxury hotels influenced by a strong connection to the natural surrounding environment and features award-winning dining, and state-of-the-art RockResorts spas and fitness centers. The properties incorporate the indigenous environment into the guest experience and feature access to a variety of year-round outdoor activities ranging from skiing to golf.

Our lodging strategy seeks to complement and enhance our mountain resort operations through our ownership or management of lodging properties and condominiums in proximity to our mountain resorts and our management of luxury resorts in premier destination locations. Additionally, we continue to pursue new management contracts, which may include, in addition to management fees, marketing license fees and technical service fees in conjunction with a project's design, development and sales.

Our lodging strategy, through RockResorts, is focused on the resort hotel niche within the luxury segment and competes for boutique full-service hotel management contracts with other hotel management companies, including Rosewood Hotels & Resorts, the KOR Group and Auberge Resorts.

During Fiscal 2011, we welcomed the addition of three luxury properties to our managed portfolio: Half Moon, Rose Hall, Jamaica; Alma del Pacifico, Playa Esterillos Este, Costa Rica; and Bimini Bay Resort and Marina, Bimini, The Bahamas. Additionally, current properties under development as RockResorts managed resorts include: Mansfield Inn at Stowe, Stowe, Vermont; Rum Cay Resort Marina, Bahamas; and the Third Turtle Club & Spa, Turks and Caicos.

CME represents the first point of contact with many of our guests when they arrive by air to Colorado. CME offers year-round ground transportation from Denver International Airport and Eagle County Airport to the Vail Valley (locations in and around Vail, Beaver Creek, Avon and Edwards), Aspen (locations in and around Aspen and Snowmass) and Summit County (includes Keystone, Breckenridge, Copper Mountain, Frisco and Silverthorne) for ski and snowboard and other mountain resort experiences. CME offers four primary types of services, including; door-to-door shuttle business, point-to-point shuttle business with centralized drop-off at transportation hubs, private chartered vans and premier luxury charter vehicles. The vehicle fleet consists of approximately 250 vans and luxury SUVs, and transported approximately 300,000 resort guests over the past year.

Lodging Industry/Market

Hotels are categorized by Smith Travel Research, a leading lodging industry research firm, as luxury, upper upscale, upscale, mid-price and economy. The service quality and level of accommodations of our RockResorts hotels place them in the luxury category, which represents hotels achieving the highest average daily rates (ADR) in the industry, and includes such brands as the Four Seasons, Ritz-Carlton and Starwood's Luxury Collection hotels. Our other hotels are categorized in the upper upscale and upscale segments of the hotel market. The luxury and upper upscale segments consist of approximately 674,000 rooms at approximately 1,800 properties in the United States as of July 2011. For Fiscal 2011, our owned hotels, which include a combination of certain RockResort hotels, as well as other hotels in proximity to our ski resorts, had an overall ADR of \$194.35, a paid occupancy rate of 58.1% and revenue per available room (RevPAR) of \$112.95, as compared to the upper upscale segment's ADR of \$147.14, a paid occupancy rate of 70.4% and RevPAR of \$103.52. We believe that this comparison to the upper upscale category is appropriate as our mix of owned hotels include those in the luxury and upper upscale categories, as well as certain of our hotels that fall in the upscale category. The highly seasonal nature of our lodging properties generally results in lower average occupancy as compared to the upper upscale segment of the lodging industry.

Competition

Competition in the hotel industry is generally based on quality and consistency of rooms, restaurant and meeting facilities and services, attractiveness of locations, availability of a global distribution system, price and other factors. Our properties compete within their geographic markets with hotels and resorts that include locally owned independent hotels, as well as facilities owned or managed by national and international chains, including such brands as Four Seasons, Hilton, Hyatt, Marriott, Ritz-Carlton, Starwood's Luxury Collection and Westin. Our properties also compete for convention and conference business across the national market. We believe we are highly competitive in the resort hotel niche for the following reasons:

All of our hotels are located in unique highly desirable resort destinations.

Our hotel portfolio has achieved some of the most prestigious hotel designations in the world, including 9 properties and 4 hotel restaurants in our portfolio that are currently rated as AAA 4-Diamond.

Our RockResorts brand is a historic brand name with a rich tradition associated with high quality luxury resort hotels.

Many of our hotels (both owned and managed) are designed to provide a look that feels indigenous to their surroundings, enhancing the guest's vacation experience.

Each of our RockResorts hotels provides the same high level of quality and services, while still providing unique characteristics which distinguish the resorts from one another. This appeals to travelers looking for consistency in quality and service offerings together with an experience more unique than typically offered by larger luxury hotel chains.

Many of the hotels in our portfolio provide a wide array of amenities available to the guest such as access to world-class ski and golf resorts, spa and fitness facilities, water sports and a number of other outdoor activities as well as highly acclaimed dining options.

Conference space with the latest technology is available at most of our hotels. In addition, guests at Keystone can use our company-owned Keystone Conference Center, the largest conference facility in the Colorado Rocky Mountain region with more than 100,000 square feet of meeting, exhibit and function space.

We have a central reservations system that leverages off of our ski resort reservations system and has an online planning and booking platform, offering our guests a seamless and useful way to make reservations at our resorts.

We actively upgrade the quality of the accommodations and amenities available at our hotels through capital improvements. Capital funding for third-party owned properties is provided by the owners of those properties to maintain standards required by our management contracts. Projects completed over the past three years include a full renovation of The Osprey at Beaver Creek (formerly known as the Inn at Beaver Creek), extensive upgrades to The Lodge at Vail, including a fully renovated ballroom, renovated meeting spaces, room upgrades and the addition of a 7,500 square foot spa, extensive room upgrades at GTLC's historic Jackson Lake Lodge and guest room renovations at the Keystone Lodge.

National Park Concession

We own GTLC, which is based in the Jackson Hole area in Wyoming and operates within the Grand Teton National Park under a 15-year concessionaire agreement (that expires December 31, 2021) with the National Park Service (NPS). GTLC also owns JHG&TC, which is located outside of the Grand Teton National Park near Jackson, Wyoming. GTLC's operations within the Grand Teton National Park and JHG&TC have operating seasons that generally run from mid-May to mid-October.

There are 394 areas within the National Park System covering approximately 84 million acres across the United States and its territories. Of the 394 areas, 58 are classified as National Parks. While there are more than 600 NPS concessionaires, ranging from small, privately-held businesses to large corporate conglomerates, we primarily compete with such companies as Aramark Parks & Resorts, Delaware North Companies Parks & Resorts, Forever Resorts and Xanterra Parks & Resorts in retaining and obtaining National Park Concessionaire agreements. The NPS uses recreation visits to measure visitation within the National Park System. In calendar 2010, areas designated as National Parks received approximately 65 million recreation visits. The Grand Teton National Park, which spans approximately 310,000 acres, had approximately 2.7 million recreation visits during calendar 2010, or approximately 4.1% of total National Park recreation visits. Four concessionaires provide accommodations within the Grand Teton National Park, including GTLC. GTLC offers three lodging options within the Grand Teton National Park: Jackson Lake Lodge, a full-service, 385-room resort with 17,000 square feet of conference facilities which can accommodate up to 600 people; the Jenny Lake Lodge, a small, rustically elegant retreat with 37 cabins; and Colter Bay Village, a facility with 166 log cabins, 66 tent cabins, 361 campsites and a 112-space RV park. GTLC offers dining options as extensive as its lodging options, with cafeterias, casual eateries and fine dining establishments. GTLC's resorts provide a wide range of activities for guests to enjoy, including cruises on Jackson Lake, boat rentals, horseback riding, guided fishing, float trips, golf and guided Grand Teton National Park tours. As a result of the extensive amenities offered as well as the tremendous popularity of the National Park System, GTLC's accommodations within the Grand Teton National Park operate near full capacity during their operating season.

Marketing and Sales

Edgar Filing: VAIL RESORTS INC - Form 10-K

We promote our luxury hotels and lodging properties through marketing and sales programs, which include marketing directly to many of our guests through our digital channels (search, social, and display), promotional programs and print media advertising. We also promote comprehensive vacation experiences through various package offerings and promotions (combining lodging, lift tickets, ski school lessons, ski rental equipment, transportation and dining), all of which are designed to drive traffic to our websites and central reservations call center. Where appropriate, we market our resort properties in conjunction with our mountain resort marketing efforts. Additionally, our individual hotels have active sales forces to generate conference and group business.

Seasonality

Our lodging business is highly seasonal in nature, with peak seasons primarily in the winter months (with the exception of GTLC, certain managed properties and golf operations). In recent years, we have enhanced our business by promoting our extensive conference facilities and offering more off-season activities to help offset the seasonality of our lodging business. We operate seven golf courses: The Beaver Creek Golf Club, The Keystone Ranch Golf Course, The River Course at Keystone, JHG&TC, The Northstar-at-Tahoe Resort Golf Course and the Tom Fazio and Greg Norman courses at Red Sky Ranch near the Beaver Creek Resort. JHG&TC was ranked the fourth best course in Wyoming for 2011 by *Golf Digest*, the Tom Fazio course at Red Sky Ranch was ranked the fifth best resort course in Colorado by *Golf Week*, and the Greg Norman course at Red Sky Ranch was ranked seventh best course in Colorado for 2011 by *Golf Digest*.

Real Estate Segment

We have extensive holdings of real property at our resorts throughout Summit and Eagle Counties in Colorado. Our real estate operations, through Vail Resorts Development Company (VRDC), a wholly-owned subsidiary, include the planning, oversight, infrastructure improvement, development, marketing and sale of our real property holdings. In addition to the cash flow generated from real estate development sales, these development activities benefit our Mountain and Lodging segments through (i) the creation of additional resort lodging and other resort related facilities and venues (primarily restaurants, spas, commercial space, private mountain clubs, skier services facilities and parking structures) that provide us with the opportunity to create new sources of recurring revenue, enhance the guest experience at our resorts and expand our destination bed base; (ii) the ability to control the architectural themes of our resorts; and (iii) the expansion of our property management and commercial leasing operations.

In recent years we have primarily focused on projects in our Real Estate segment that involve significant vertical development. Over the past several years our completed projects include Ritz-Carlton Residence, Vail, One Ski Hill Place in Breckenridge, the Arrabelle at Vail Square, Vail's Front Door, Crystal Peak Lodge at Breckenridge, and Gore Creek Place in Vail's Lionshead Village. We attempt to mitigate the risk of vertical development by often utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling a portion of the project, requiring significant non-refundable deposits from buyers, and potentially obtaining non-recourse financing for certain projects (although our last two major vertical development projects have not incurred any direct third party financing). In some instances as warranted by our business model, VRDC attempts to minimize our exposure to development risks and maximize the long-term value of our real property holdings by selling improved and entitled land to third-party developers while often retaining the right to approve the development plans, as well as an interest in the developer's profit.

Currently VRDC's principal activities include the marketing and selling of remaining condominium units that are available for sale, which primarily relate to The Ritz-Carlton Residences, Vail, and One Ski Hill Place in Breckenridge; planning for future real estate development projects, including zoning and acquisition of applicable permits; and the purchase of selected strategic land parcels for future development. Although we continue to undertake preliminary planning and design work on future projects, we currently do not plan to undertake significant development activities on new projects until the current economic environment for real estate improves. We believe that, due to our low carrying cost of real estate land investments combined with the absence of third party debt associated with our real estate investments, we are well situated to time the launch of future projects with a more favorable economic environment.

Employees

Through certain operating subsidiaries, we currently employ approximately 4,300 year-round employees and during the height of our operating season we employ approximately 14,500 seasonal employees. In addition, we employ approximately 800 year-round employees and 200 seasonal employees on behalf of the owners of our managed hotel properties. None of our employees are unionized. We consider employee relations to be good.

Regulation and Legislation

Federal Regulation

The 1986 Ski Area Permit Act (the 1986 Act) allows the USDA Forest Service (the Forest Service) to grant Term Special Use Permits (each, a SUP) for the operation of ski areas and construction of related facilities on National Forest lands. In addition, the 1986 Act requires a Master Development Plan for each ski area that is granted a SUP.

Each distinct area of National Forest lands is required by the National Forest Management Plan to develop and maintain a Land and Resource Management Plan (a Forest Plan), which establishes standards and guidelines for the Forest Service to follow and consider in reviewing and approving our proposed actions.

Under the 1986 Act, the Forest Service has the right to review and approve the location, design and construction of improvements in the permit area and many operational matters. Virtually all of the skiable terrain at Vail Mountain, Breckenridge, Heavenly and Keystone is located on Forest Service land. While Beaver Creek also operates on Forest Service land, a significant portion of the skiable terrain, primarily in the lower main mountain, Western Hillside, Bachelor Gulch and Arrowhead Mountain areas, is located on land that we own. Each of these five ski resorts operates under a SUP.

The operations of Northstar-at-Tahoe are conducted on land and with operating assets owned by CNL Lifestyle Properties, Inc. under operating lease agreements which were assumed by the Company. Since Northstar-at-Tahoe is located entirely on private land, it does not require a SUP.

Special Use Permits

Vail Mountain operates under a SUP for the use of 12,353 acres that expires December 1, 2031. Breckenridge operates under a SUP for the use of 5,702 acres that expires December 31, 2029. Keystone operates under a SUP for the use of 8,376 acres that expires December 31, 2032. Beaver Creek operates under a SUP for the use of 3,849 acres that expires November 8, 2039. Heavenly operates under a SUP for the use of 7,050 acres that expires May 1, 2042. We anticipate requesting a new SUP for each resort prior to the expiration date identified above as provided by the Forest Service regulations and the terms of each existing SUP. We are not aware of the Forest Service refusing to issue a new SUP to replace an expiring SUP for a ski resort in operation at the time of expiration.

Each SUP contains a number of requirements, including that we indemnify the Forest Service from third-party claims arising out of our operation under the SUP and that we comply with applicable laws, such as those relating to water quality and endangered or threatened species.

For use of the SUPs, we pay a fee to the Forest Service ranging from 1.5% to 4.0% of sales for services occurring on Forest Service land. Included in the calculation are sales from, among other things, lift tickets, season passes, ski school lessons, food and beverages, equipment rentals and retail merchandise.

The SUPs may be amended by us or by the Forest Service to change the permit area or permitted uses. The Forest Service may amend a SUP, if it determines that such amendment is in the public interest. While the Forest Service is required to seek the permit-holders consent to any amendment, an amendment can be finalized over a permit-holder's objection. Permit amendments must be consistent with the Forest Plan and are subject to the provisions of the National Environmental Policy Act (NEPA), both of which are discussed below.

The Forest Service can also terminate a SUP if it determines that termination is required in the public interest. However, to our knowledge, no SUP has ever been terminated by the Forest Service over the opposition of the permittee.

Master Development Plans

All improvements that we propose to make on National Forest System lands under any of our SUPs must be included in a Master Development Plan. Master Development Plans describe the existing and proposed facilities, developments and area of activity within the permit area. We prepare Master Development Plans, which set forth a conceptual overview of all potential projects at each resort. The Master Development Plans are reviewed by the Forest Service for compliance with the Forest Plan and other applicable law and, if found to be compliant, are accepted by the Forest Service. Notwithstanding acceptance by the Forest Service of the conceptual Master Development Plans, individual projects still require separate applications to be submitted evidencing compliance with NEPA and other applicable laws before the Forest Service will approve such projects. We update or amend our Master Development Plans for Vail Mountain, Beaver Creek, Keystone, Breckenridge and Heavenly from time to time.

Forest Plans

Operational and development activities on National Forest System lands at our four Colorado ski resorts are subject to the additional regulatory and planning requirements set forth in the April 2002 Record of Decision (the 2002 ROD) for the White River National Forest Land and Resources Management Plan (the White River Forest Plan). At Heavenly, operational and development activities

on National Forest System lands are subject to the Lake Tahoe Basin Management Unit Land and Resources Management Plan (the Lake Tahoe Forest Plan), which was adopted in 1988. The Forest Service is currently in the process of amending the Lake Tahoe Forest Plan.

When approving our application for development, area expansion and other activities on National Forest System lands, the Forest Service must adhere to the applicable Forest Plan. Any such decision may be subject to judicial review in Federal court if a party, with standing, challenges a Forest Service decision that applies the requirements of a Forest Plan at one of our five National Forest System lands ski resorts.

National Environmental Policy Act; California Environmental Quality Act

NEPA requires an assessment of the environmental impacts of major proposed actions on National Forest land, such as expansion of a ski area, installation of new lifts or snowmaking facilities, or construction of new trails or buildings. We must comply with NEPA when seeking Forest Service approval of such improvements. The Forest Service is responsible for preparing and compiling the required environmental studies, usually through third-party consultants. NEPA allows for different types of environmental studies, depending on, among other factors, the scope and size of the expected impact of the proposed project. An Environmental Assessment (EA) is typically used for projects where the environmental impacts are expected to be limited. For projects with more significant expected impacts, an Environmental Impact Statement (EIS) is more commonly required. An EIS is more detailed and broader in scope than an EA. The Forest Service usually takes more time to prepare, review and issue an EIS. Consequently, projects that require an EIS typically take longer to approve.

During the requisite environmental study, the Forest Service is required to analyze alternatives to the proposed action (including not taking the proposed action) as well as impacts that may be unavoidable. Following completion of the requisite environmental study, the Forest Service may decide not to approve the proposed action or may decide to approve an alternative. In either case we may be forced to abandon or alter our development or expansion plans.

In limited cases, projects can be subject to a Categorical Exclusion, which allows approval by the Forest Service without preparation of an environmental study required by NEPA. The Forest Service has a list of available Categorical Exclusions, which typically are only available for projects that are not expected to have environmental impacts, such as certain utilities installed in an existing, previously disturbed corridor.

Proposed actions at Heavenly and Northstar-at-Tahoe may also be subject to the California Environmental Quality Act (CEQA), which is similar to NEPA in that it requires the California governmental entity approving any proposed action at Northstar-at-Tahoe or on the California portion of Heavenly to study potential environmental impacts. Projects with significant expected impacts require an Environmental Impact Report (EIR) while more limited projects may be approved based on a Mitigated Negative Declaration.

Breckenridge Regulatory Matters

We submitted an updated Master Development Plan for Breckenridge, which was accepted by the Forest Service in January 2008. The Master Development Plan was updated to include, among other things, additional skiable area, snowmaking and lift improvements.

In January 2008, the Forest Service commenced public scoping of our proposal to develop a portion of Peak 6, which adjoins the Breckenridge Ski Area to the north. In June 2011, the Forest Service issued a Draft EIS analyzing the potential Peak 6 development and alternatives, in compliance with NEPA. The public comment period for the Draft EIS closed August 26, 2011. We anticipate that within the next twelve months the Forest Service will make a final decision regarding approval of the Peak 6 development and prepare a Final EIS and Record of Decision. It is not possible at this time to determine whether the expansion will be approved as proposed.

Keystone Regulatory Matters

In September 2009, the Forest Service accepted the updated Keystone Master Development Plan which contemplates, among other things, ski area expansion, construction of new lifts, trails and snowmaking systems, and construction or redevelopment of skier buildings and other facilities.

We submitted to the Forest Service an amended Project Proposal under the updated Keystone Master Development Plan in June 2011. The Project Proposal focuses primarily on the front side of the mountain and includes trail widening, new trails, lift and snowmaking improvements and replacement or upgrade of on-mountain dining and skier service facilities. We are currently waiting for Forest Service acceptance of the Project Proposal so that we can begin the NEPA review process.

Vail Mountain Regulatory Matters

In September 2007, the updated Vail Mountain Master Development Plan was accepted by the Forest Service. The Vail Mountain Master Development Plan includes, among other things, additional snowmaking on Vail Mountain, additional lifts, and a race facility expansion at Vail's Golden Peak. In December 2009, the Forest Service issued a Record of Decision (the 2009 ROD) approving our first proposal under the updated Master Development Plan. The 2009 ROD approved the installation of a new chairlift in Vail's Sundown Bowl, the upgrade of the existing Chair 5 to a high-speed, detachable quad chair lift, and construction of a new dining facility at Mid-Vail. The installation and upgrade of Chair 5 was completed in the fall of 2010 and the upgraded chairlift was in service for the 2010/2011 ski season. Construction continues on the Mid-Vail fine dining facility, which we expect to be completed and in operation for most of the 2011/2012 ski season.

In March 2006, the Forest Service approved a proposal to construct a chairlift to service existing and potential future residential and commercial development in the proposed Ever Vail area. However, since receiving approval, we have modified the plans for the chairlift and have requested approval from the Forest Service of the modified plans. We do not know when, or if, we will receive such approval.

Beaver Creek Regulatory Matters

The Beaver Creek Master Development Plan was accepted by the Forest Service in October 2010. Included in the submitted Beaver Creek Master Development Plan, among other things, was certain chairlift and snowmaking upgrades and adjustments to visitor capacity parameters in light of prior lift and trail upgrades contemplated in the Master Development Plan.

Also in October 2010, we submitted a project proposal for ski area upgrades required in connection with the 2015 World Alpine Ski Championships, to be held in Beaver Creek and Vail. Upgrades include trail widening and grading, new finish arena facilities, snowmaking and related infrastructure. The proposal was accepted by the Forest Service, which is currently preparing an EIS, in compliance with NEPA. We expect a Draft EIS to be issued October 2011. It is not possible at this time to determine whether the projects will be approved as proposed.

Northstar-at-Tahoe Regulatory Matters

Northstar-at-Tahoe is located entirely on private land leased by us and is not subject to Forest Service authorization or oversight. However, site specific projects at Northstar-at-Tahoe are approved by Placer County pursuant to a series of minor use and conditional use permits.

In February 2009, Northstar-at-Tahoe adopted a Habitat Management Plan (the HMP), in part to comply with its obligations under a Settlement Agreement with regional conservation groups entered into in 2005. The HMP provides a framework for habitat management for future development of the Northstar-at-Tahoe ski area and base area. In addition, Northstar-at-Tahoe has requested Placer County approval of an Overall Mountain Master Plan (the OMMP) and is pursuing CEQA approval through an Environmental Impact Review process, which provides site specific and programmatic review of potential future projects.

During spring 2011, Northstar-at-Tahoe received Placer County approval for an approximately 750 person on-mountain restaurant and additional ski terrain (the S-Pod). The S-Pod approval allows us to create approximately 70 acres of cleared ski trails, add additional snowmaking and install a new high-speed, four person chairlift to serve the new terrain, located on the Backside of Northstar-at-Tahoe. Construction has begun on both the restaurant and S-Pod and we expect both to be completed during the first half of the 2011/2012 ski season.

Heavenly Regulatory Matters

During the summer of 2007, an amendment to the Heavenly Master Plan (the Master Plan Amendment) including new and upgraded trails, lifts, snowmaking, lodges and other facilities was accepted by the Forest Service and approved by the Tahoe Regional Planning Agency (TRPA) and the underlying units of local government with jurisdiction. Portions of the Master Plan Amendment applying to the California side of the resort were subject to the approval of TRPA and El Dorado County, which required compliance with CEQA. The Master Plan Amendment was approved by TRPA and El Dorado County after completion of a joint TRPA/Forest Service EIS/EIR to comply with both CEQA and NEPA. Approval of the Master Plan Amendment included approval by TRPA of the Phase I projects contemplated in the Master Plan Amendment.

On August 26, 2009, we submitted a Project Proposal for the construction of a new day lodge and dining facility at the top of the gondola, snowmaking and lift upgrades and trail widening and other improvements. The Forest Service completed an EA on the proposal and issued a Decision Notice and Finding of No Significant Impact on May 10, 2010. We have completed a number of the approved projects including; construction of the day lodge and dining facility at the top of the gondola, completed in December 2010; and construction of new trails in the Galaxy lift pod along with trail widening in the Sky Express lift pod, completed during summer 2011. Also during summer 2011, we commenced construction of a children's ski school facility, which was approved by the Forest Service by Decision Memo in May 2011 pursuant to a Categorical Exclusion under NEPA.

In July 2011 we submitted a Project Proposal for, among other things, ski trail improvements, an additional surface lift to serve a terrain park, water wells and other circulation and guest service enhancements. We are awaiting acceptance by the Forest Service.

GTLC Concession Contract

GTLC operates three lodging properties, food and beverage services, retail, camping and other services within the Grand Teton National Park under a concession contract with the NPS. Our concession contract with the NPS for GTLC expires on December 31, 2021. Upon expiration of the concession contract, we will have to bid against other prospective concessionaires for award of a new contract.

The NPS may suspend operation under the concession contract at any time if the NPS determines it is necessary to protect visitors or resources within the National Park. NPS also has the right to terminate the contract for breach, following notice and a 15 day cure period or if it believes termination is necessary to protect visitors or resources within the National Park.

We pay a fee to the NPS of 8.01% on the majority of sales occurring in the Grand Teton National Park.

Water

We rely on a supply of water for operation of our ski areas for domestic and snowmaking purposes and for real estate development. Availability of water depends on existence of adequate water rights as well as physical delivery of the water when and where it is needed.

Snowmaking

To provide a level of predictability in dates of operation of our ski areas, we rely on snowmaking. Snowmaking requires a significant volume of water, which is viewed as a non-consumptive use – approximately 80% of the water is returned to the watershed at spring runoff.

In Colorado, we own or have ownership interests in water rights in reservoir companies, reservoirs, groundwater wells, and other sources. The primary source of water for Keystone and Breckenridge is the Clinton Reservoir, in which we own a non-controlling interest. For Vail Mountain and Beaver Creek, the primary water source is Eagle Park Reservoir, in which we own a controlling interest. We believe we have rights to sufficient quantities of water for the operation of our four Colorado resorts for the foreseeable future.

Delivery of the water to each resort is typically by stream, from which the water is diverted by us to on-site storage facilities or directly into the snowmaking system. The streams that deliver the water are subject to minimum stream flows, freezing and other limitations that may prevent or reduce the amount of water physically available to the resort.

Unlike our other Colorado resorts, Keystone does not have on-site storage for snowmaking water and may be more vulnerable to interruptions in delivery of constant physical supply of water during high demand snowmaking periods. However, we have not experienced significant issues to date.

Heavenly's primary sources of water are the South Tahoe Public Utility District (STPUD) and Kingsbury General Improvement District (KGID), which are California and Nevada utilities, respectively. We have negotiated a long term contract with STPUD, which includes favorable rates upon our completion of certain water delivery system improvements. Despite the added security provided by this agreement, the delivery of water by STPUD is interruptible. If STPUD exercises its rights to interrupt Heavenly's water service, Heavenly's ability to make snow may be impaired. We have begun negotiations with KGID to reach a similar agreement but cannot determine whether our negotiations will result in an agreement or when an agreement may be reached. While

we believe that KGID water will be available long term, we have no contractual guaranty of service, delivery or future pricing for that water. Further, the delivery systems of each utility are limited and may not be able to provide the immediate physical supply of water needed for optimal snowmaking.

Northstar-at-Tahoe obtains water through a cooperative arrangement with the Northstar Community Services District (NCS D). Together with NCS D we, through our operating lease, control surface water rights that we use for snowmaking. In addition, we have contractual rights to ground water from NCS D and from the adjacent Martis Camp residential development. We receive domestic water from NCS D and, for on-mountain facilities, from on-mountain wells and springs.

Available Information

We file with or furnish to the Securities and Exchange Commission (SEC) reports, including our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934. These reports are available free of charge on our corporate website (www.vailresorts.com) as soon as reasonably practicable after they are electronically filed with or furnished to the SEC. Copies of any materials we file with the SEC can be obtained at www.sec.gov or at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the public reference room is available by calling the SEC at 1-800-SEC-0330.

ITEM 1A. RISK FACTORS.

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our financial position, results of operations and cash flows. The risks described below should carefully be considered together with the other information contained in this report.

Risks Related to Our Business

We are subject to the risk of prolonged weakness in general economic conditions including continued adverse affects on the overall travel and leisure related industries. Conditions currently present or recently present in the economic environment including high unemployment, erosion of consumer confidence and financial instability in the global markets, including any impact from the downgrade of credit ratings assigned to obligations of the United States, may potentially have negative effects on the travel and leisure industry and on our results of operations. As a result of these and other economic uncertainties, we have experienced and may continue to experience, among other items a change in booking trends such that guest reservations are made much closer to the actual date of stay, a decrease in the length of stay and a decrease in group bookings. We cannot predict at what level these trends will continue, worsen or improve and the ultimate impact it will have on our future results of operations. Additionally, the third party owners of RockResorts properties we manage may not be as well capitalized as us and therefore may be more exposed to the impacts of adverse economic conditions on the travel industry, which could jeopardize components of our management agreements. If the owners of the hotels we manage do not meet debt service obligations and default on a mortgage or other obligations, the property may be at risk of foreclosure by a lender and our management agreements may be at risk. The actual or perceived fear of weakness in the economy could also lead to decreased spending by our guests. Skiing, travel and tourism are discretionary recreational activities that can entail a relatively high cost of participation and are adversely affected by economic slowdown or recession. This could further be exacerbated by the fact that we charge some of the highest prices for our lift tickets and ancillary services in the ski industry. In the event of a decrease in visitation and overall guest spending we may be required to offer a higher amount of discounts and incentives than we have historically.

Leisure and business travel are particularly susceptible to various factors outside of our control, including terrorism, the uncertainty of military conflicts, outbreaks of contagious diseases and the cost and availability of travel options. Our business is sensitive to the willingness of our guests to travel. Acts of terrorism, the spread of contagious diseases, regional political events and developments in military conflicts in areas of the world from which we draw our guests could depress the public's propensity to travel and cause severe disruptions in both domestic and international air travel and consumer discretionary spending, which could reduce the number of visitors to our resorts and have an adverse affect on our results of operations. Many of our guests travel by air and the impact of higher prices for commercial airline services and availability of air services could cause a decrease in visitation by Destination guests to our resorts. Also, many of our guests travel by vehicle and higher gasoline prices could adversely impact our guests' willingness to travel to our resorts. Higher cost of travel may also affect the amount that guests are willing to spend at our resorts and could negatively impact our revenue particularly for lodging, ski school, dining and retail/rental.

Our business is highly seasonal. Our mountain and lodging operations are highly seasonal in nature. In particular, revenue and profits from our mountain and most of our lodging operations are substantially lower and historically result in losses from late spring to late fall. Conversely, peak operating seasons for GTLC, certain managed hotel properties and our golf courses occur during the

summer months while the winter season generally results in operating losses. Revenue and profits generated by GTLC's summer operations, management fees from certain managed properties, certain other lodging properties and golf operations are not nearly sufficient to fully offset our off-season losses from our mountain and other lodging operations. For Fiscal 2011, 81.5% of total combined Mountain and Lodging segment net revenue (excluding Lodging segment revenue associated with reimbursement of payroll costs) was earned during our second and third fiscal quarters. In addition, the timing of major holidays can impact vacation patterns and therefore visitation at our ski resorts. If we were to experience an adverse event or realize a significant deterioration in our operating results during our peak periods (our fiscal second and third quarters) we would be unable to fully recover any significant declines due to the seasonality of our business. Operating results for any three-month period are not necessarily indicative of the results that may be achieved for any subsequent quarter or for a full fiscal year (see Note 15, Selected Quarterly Financial Data, of the Notes to Consolidated Financial Statements).

We are vulnerable to the risk of unfavorable weather conditions and the impact of natural disasters. The ability to attract visitors to our resorts is influenced by weather conditions and by the amount and timing of snowfall during the ski season. Unfavorable weather conditions can adversely affect skier visits and our revenue and profits. Unseasonably warm weather may result in inadequate natural snowfall and reduce skiable terrain which increases the cost of snowmaking and could render snowmaking wholly or partially ineffective in maintaining quality skiing conditions, including in areas which are not accessible by snowmaking equipment. In addition, a severe and prolonged drought could affect our otherwise adequate snowmaking water supplies or increase the cost of snowmaking. Excessive natural snowfall may materially increase the costs incurred for grooming trails and may also make it difficult for visitors to obtain access to our mountain resorts. In the past 20 years, our ski resorts have averaged between 20 and 30 feet of annual snowfall which is significantly in excess of the average for United States ski resorts. However, there can be no certainty that our resorts will receive seasonal snowfalls near their historical average in the future. The early season snow conditions and skier perceptions of early season snow conditions influence the momentum and success of the overall season. Unfavorable weather conditions can adversely affect our resorts and lodging properties as vacationers tend to delay or postpone vacations if conditions differ from those that typically prevail at such resorts for a given season. There is no way for us to predict future weather patterns or the impact that weather patterns may have on our results of operations or visitation.

A severe natural disaster, such as a forest fire, may interrupt our operations, damage our properties and reduce the number of guests who visit our resorts in affected areas. Damage to our properties could take a long time to repair and there is no guarantee that we would have adequate insurance to cover the costs of repair and recoup lost profits. Furthermore, such a disaster may interrupt or impede access to our affected properties or require evacuations and may cause visits to our affected properties to decrease for an indefinite period. The ability to attract visitors to our resorts is also influenced by the aesthetics and natural beauty of the outdoor environment where our resorts are located. A severe forest fire or other severe impacts from naturally occurring events could negatively impact the natural beauty of our resorts and have a long-term negative impact on our overall guest visitation as it would take several years for the environment to recover.

We face significant competition. The ski resort and lodging industries are highly competitive. The number of people who ski in the United States (as measured in skier visits) has generally ranged between 54 million and 61 million annually over the last decade, with approximately 61 million visits for the 2010/2011 ski season. The factors that we believe are important to customers include:

proximity to population centers;

availability and cost of transportation to ski areas;

ease of travel to ski areas (including direct flights by major airlines);

pricing of lift tickets and/or season passes and the number, quality and price of related ancillary services (ski school, dining and retail/rental), amenities and lodging;

snowmaking facilities;

type and quality of skiing and snowboarding offered;

duration of the ski season;

weather conditions; and

reputation.

We have many competitors for our ski vacationers, including other major resorts in Colorado, California, Nevada, the Pacific Northwest and Southwest and other major destination ski areas worldwide. Our guests can choose from any of these alternatives, as well as non-skiing vacation options and destinations around the world. In addition, other forms of leisure such as sporting events and participation in other competing indoor and outdoor recreational activities are available to potential guests.

RockResorts hotels and our other hotels compete with numerous other hotel companies that may have greater financial resources than we do and they may be able to adapt more quickly to changes in customer requirements or devote greater resources to promotion of their offerings than us. We believe that developing and maintaining a competitive advantage will require us to make continued capital investments in our resorts. We cannot assure that we will have sufficient resources to make the necessary capital investments to do so, and we cannot assure that we will be able to compete successfully in this market or against such competitors.

The high fixed cost structure of ski resort operations can result in significantly lower margins if revenues decline. The cost structure of our ski resort operations has a significant fixed component with variable expenses including, but not limited to, Forest Service fees, other resort related fees, credit card fees, retail/rental cost of sales and labor, ski school labor and dining operations. Any material declines in the economy, elevated geopolitical uncertainties and/or significant changes in historical snowfall patterns, as well as other risk factors discussed herein could adversely affect revenue. As such, our margins, profits and cash flows may be materially reduced due to declines in revenue given our relatively high fixed cost structure. In addition, increases in wages and other labor costs, energy, healthcare, insurance, transportation and fuel, property taxes, minimum lease payments and other expenses included in our fixed cost structure may also reduce our margin, profits and cash flows.

Our current or future real estate development projects might not be successful. We have completed significant real estate development projects and have preliminary plans for significant future development projects. We could experience significant difficulties in realizing the anticipated financial benefits on completed projects or in initiating or completing future projects, due to among other things:

sustained deterioration in real estate markets;

difficulty in selling units or the ability of buyers to obtain necessary funds to close on units;

escalation in construction costs due to price increases in commodities, unforeseen conditions, inadequate design or drawings, or other causes;

work stoppages;

weather interferences;

shortages in obtaining materials;

difficulty in financing real estate development projects;

difficulty in receiving the necessary regulatory approvals;

difficulty in obtaining qualified contractors or subcontractors; and

unanticipated incremental remediation costs related to design and construction issues.

Edgar Filing: VAIL RESORTS INC - Form 10-K

Our real estate development projects are designed to make our resorts attractive to our guests and to maintain competitiveness. If these projects are not successful, in addition to not realizing intended profits from the real estate developments, our guests may choose to go to other resorts that they perceive have better amenities which could materially and adversely affect our results of operations.

There are significant risks associated with our recently completed real estate projects, which could adversely affect our financial condition, results of operations or anticipated cash inflows from these projects as we have units remaining that have not been sold. For example, in the event that the carrying cost of the remaining units available for sale exceeds anticipated future proceeds from the sale of these units, we would be required to record an impairment charge. During Fiscal 2011, we completed The Ritz-Carlton Residences, Vail and in fiscal 2010 we completed One Ski Hill Place at the base of our Breckenridge ski resort for which 93 units with a carrying cost of \$163.0 million remain to be sold as of July 31, 2011. We have risk associated with selling and closing units in these projects as a result of the continued instability in the capital / credit markets and in the overall real estate market and, as a result we may not be able to sell units for a profit or at the prices or selling pace we anticipate. Furthermore, given the current economic climate, certain potential buyers may be unable to purchase units in part due to a reduction in funds available and/or decreases in mortgage availability.

We may not be able to fund resort capital expenditures and investment in future real estate projects. In addition to the self funding of future real estate projects (currently no significant development efforts are in progress), we anticipate that resort capital expenditures (primarily related to the Mountain and Lodging segments) will be approximately \$116 million to \$130 million for calendar year 2011. Our ability to fund expenditures will depend on our ability to generate sufficient cash flow from operations (including obtaining pre-sale deposits on future real estate projects) and/or to borrow from third parties. We cannot provide assurances that our operations will be able to generate sufficient cash flow to fund such costs, or that we will be able to obtain sufficient financing on adequate terms, or at all. In addition, there can be no assurances that future real estate development projects (currently no significant development efforts are in progress) can be self funded with cash available on hand, through advance pre-sale deposits or through third party real estate financing. Our ability to generate cash flow and to obtain third-party financing will depend upon many factors, including:

our future operating performance;

general economic conditions and economic conditions affecting the resort industry, the ski industry and the general capital markets;

competition;

legislative and regulatory matters affecting our operations and business; and

our ability to meet our pre-sell targets on our future vertical real estate development projects;

We could finance future expenditures from any combination of the following sources:

cash flow from operations;

construction financing, including non-recourse or other financing;

bank borrowings;

public offerings of debt or equity; and

private placements of debt or equity.

Any inability to generate sufficient cash flows from operations or to obtain adequate third-party financing could cause us to delay or abandon certain projects and/or plans.

We rely on government permits and landlord approvals. Our resort operations require permits and approvals from certain Federal, state, and local authorities, including the Forest Service and U.S. Army Corps of Engineers. Virtually all of our ski trails and related activities at Vail Mountain, Breckenridge, Keystone and Heavenly and a majority of Beaver Creek are located on National Forest land. The Forest Service has granted us permits to use these lands, but maintains the right to review and approve many operational matters, as well as the location, design and construction of improvements in these areas. Currently, our permits expire December 31, 2029 for Breckenridge, December 1, 2031 for Vail Mountain, December 31, 2032 for Keystone, November 8, 2039 for Beaver Creek and May 1, 2042 for Heavenly. The Forest Service can terminate or amend these permits if, in its opinion, such termination is required in the public interest. A termination or amendment of any of our permits could have a materially adverse affect on our business and operations. In order to undertake improvements and new development, we must apply for permits and other approvals. These efforts, if unsuccessful, could impact our expansion efforts. Furthermore, Congress may materially increase the fees we pay to the Forest Service for use of these National Forest lands. Additionally, we lease the land and the vast majority of the operating assets of Northstar-at-Tahoe from CNL Lifestyles Properties, Inc., a Real Estate Investment Trust, which requires us to

Edgar Filing: VAIL RESORTS INC - Form 10-K

operate the resort in accordance with the terms under the leases, as well as requires us to seek certain approvals for improvements made to the resort. The initial term of the leases for Northstar-at-Tahoe expire in January 2027, and allows for three 10-year extensions at our option. There is no guarantee that at the end of the initial lease term we will extend the option periods or will be able to negotiate new terms that are more favorable to us.

We are subject to extensive environmental laws and regulations in the ordinary course of business. Our operations are subject to a variety of Federal, state and local environmental laws and regulations including those relating to emissions to the air, discharges to water, storage, treatment and disposal of wastes, land use, remediation of contaminated sites and protection of natural resources such as wetlands. For example, future expansions of certain of our ski facilities must comply with applicable forest plans approved under the National Forest Management Act, state and federal wildlife protection laws or local zoning requirements. In addition, most projects to improve, upgrade or expand our ski areas are subject to environmental review under the NEPA and, for California projects at Heavenly and Northstar-at-Tahoe, the CEQA. Both acts require that the Forest Service study any proposal for potential environmental impacts and include in its analysis various alternatives. Our ski area improvement proposals may not be approved or may be approved with modifications that substantially increase the cost or decrease the desirability of implementing the project. Our facilities are subject to risks associated with mold and other indoor building contaminants. From time to time our operations are subject to inspections by environmental regulators or other regulatory agencies. We are also subject to worker health and safety requirements. We believe our operations are in substantial compliance with applicable material environmental, health and safety requirements. However, our efforts to comply do not eliminate the risk that we may be held liable, incur fines or be subject to claims for damages, and that the amount of any liability, fines, damages or remediation costs may be material for, among other things, the presence or release of regulated materials at, on or emanating from properties we now or formerly owned or operated, newly discovered environmental impacts or contamination at or from any of our properties, or changes in environmental laws and regulations or their enforcement.

We rely on information technology to operate our businesses and maintain our competitiveness, and any failure to adapt to technological developments or industry trends could harm our business. We depend on the use of sophisticated information technology and systems, including technology and systems used for central reservations, point of sale, procurement and administration. We must continuously improve and upgrade our systems and infrastructure to offer enhanced products, services, features and functionality, while maintaining the reliability and integrity of our systems and infrastructure. Our future success also depends on our ability to adapt our infrastructure to meet rapidly evolving consumer trends and demands and to respond to competitive service and product offerings.

In addition, we may not be able to maintain our existing systems or replace or introduce new technologies and systems as quickly as we would like or in a cost-effective manner. Delays or difficulties in implementing new or enhanced systems may keep us from achieving the desired results in a timely manner, to the extent anticipated, or at all. Any interruptions, outages or delays in our systems, or deterioration in their performance, could impair our ability to process transactions and could decrease our quality of service that we offer to our guests. Also, we may be unable to devote financial resources to new technologies and systems in the future. If any of these events occur, our business and financial performance could suffer.

Failure to maintain the integrity of guest data could result in damages of reputation and/or subject us to costs, fines or lawsuits. We collect personally identifiable information relating to our guests for various business purposes, including marketing and promotional purposes. The integrity and privacy of our guest's information is important to us and our guests have a high expectation that we will adequately protect their personal information. The regulatory environment governing privacy laws is increasingly demanding and privacy laws continue to evolve and on occasion may be inconsistent from one jurisdiction to another. Maintaining compliance with applicable privacy regulations may increase our operating costs and/or adversely impact our ability to market our products, properties and services to our guests. Furthermore, non-compliance with applicable privacy regulations by us (or in some circumstances non-compliance by third parties engaged by us), breach of security on systems storing our guest data, a loss of guest data or fraudulent use of guest data could adversely impact our reputation or result in fines or other damages and litigation.

We are subject to litigation in the ordinary course of business. We are, from time to time, subject to various asserted or unasserted legal proceedings and claims. Any such claims, regardless of merit, could be time consuming and expensive to defend and could divert management's attention and resources. While we believe we have adequate insurance coverage and/or accrue for loss contingencies for all known matters that are probable and can be reasonably estimated, we cannot assure that the outcome of all current or future litigation will not have a material adverse effect on us and our results of operations. For a more detailed discussion of our legal proceedings see Legal Proceedings under Item 3 and Note 13, Commitments and Contingencies, of the Notes to Consolidated Financial Statements.

Any failure to protect our trademarks could have a negative impact on the value of our brand names and adversely affect our business. Our trademarks are an important component of our business and the continued success of our business depends in part upon our continued ability to use our trademarks to increase brand awareness and further develop our brand in both domestic and international markets. The unauthorized use of our trademarks could diminish the value of our brand and its market acceptance,

competitive advantages or goodwill, which could adversely affect our business. Litigation has been and may continue to be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Additionally, negative public image or other adverse events which become associated with one of our brands could adversely affect our revenue and profitability.

We depend on a seasonal workforce. Our mountain and lodging operations are highly dependent on a large seasonal workforce. We recruit year-round to fill thousands of seasonal staffing needs each season and work to manage seasonal wages and the timing of the hiring process to ensure the appropriate workforce is in place. We cannot guarantee that material increases in the cost of securing our seasonal workforce will not be necessary in the future. Furthermore, we cannot guarantee that we will be able to recruit and hire adequate seasonal personnel as the business requires. Increased seasonal wages or an inadequate workforce could have an adverse impact on our results of operations.

If we do not retain our key personnel, our business may suffer. The success of our business is heavily dependent on the leadership of key management personnel, including our Chief Executive Officer, Co-President and Chief Financial Officer, Co-Presidents, General Counsel and each of our Executive and Senior Vice Presidents. If any of these persons were to leave, it could be difficult to replace them, and our business could be harmed. We do not maintain key-man life insurance on any of our employees.

Our acquisitions or future acquisitions might not be successful. We have acquired certain ski resorts, other destination resorts, hotel properties and businesses complementary to our own, as well as developable land in proximity to our resorts. We cannot make assurances that we will be able to successfully integrate and manage acquired ski resorts, properties and businesses and increase our profits from these operations. We continually evaluate potential acquisitions and intend to actively pursue acquisition opportunities, some of which could be significant. We could face various risks from additional acquisitions, including:

inability to integrate acquired businesses into our operations;

diversion of our management's attention;

potential increased debt leverage;

litigation arising from acquisition activity; and

unanticipated problems or liabilities.

In addition, we run the risk that any new acquisitions may fail to perform in accordance with expectations, and that estimates of the costs of improvements for such properties may prove inaccurate.

We may be required to write-off a portion of our goodwill, indefinite lived intangible asset and/or long-lived asset balances as a result of prolonged weakness in economic conditions. Under accounting principles generally accepted in the United States of America (GAAP), we test goodwill and indefinite lived intangible assets for impairment annually as well as on an interim basis to the extent factors or indicators become apparent that could reduce the fair value of our goodwill or indefinite lived intangible assets below book value and we evaluate long-lived assets for potential impairment whenever events or change in circumstances indicate that the carrying amount of an asset may not be recoverable. We evaluate the recoverability of goodwill by estimating the future discounted cash flows of our reporting units and terminal values of the businesses using projected future levels of income as well as business trends, prospects and market and economic conditions. We evaluate the recoverability of indefinite lived intangible assets using the income approach based upon estimated future revenue streams (see Critical Accounting Policies in Item 7 of this Form 10-K). We evaluate the recoverability of long-lived assets by estimating the future undiscounted cash flows using projected future levels of income. If a more severe prolonged weakness in general economic conditions were to occur it could cause less than expected growth and/or reduction in terminal values of our reporting units and cash flows and could result in an impairment charge attributable to certain goodwill, indefinite lived intangible assets and/or long-lived assets, negatively impacting our results of operations and stockholders' equity.

We are subject to accounting regulations and use certain accounting estimates and judgments that may differ significantly from actual results. Implementation of existing and future legislation, rulings, standards and interpretations from the FASB or other regulatory bodies could affect the presentation of our financial statements and related disclosures. Future regulatory requirements could significantly change our current accounting practices and disclosures. Such changes in the presentation of our financial statements and related disclosures could change an

investor's interpretation or perception of our financial position and results of operations.

We use many methods, estimates and judgments in applying our accounting policies (see Critical Accounting Policies in Item 7 of this Form 10-K). Such methods, estimates and judgments are, by their nature, subject to substantial risks, uncertainties and assumptions, and factors may arise over time that lead us to change our methods, estimates and judgments. Changes in those methods, estimates and judgments could significantly affect our results of operations.

Risks Relating to Our Capital Structure

Our stock price is highly volatile. The market price of our stock is highly volatile and subject to wide fluctuations in response to factors such as the following, some of which are beyond our control:

quarterly variations in our operating results;

operating results that vary from the expectations of securities analysts and investors;

change in valuations, including our future real estate developments;

changes in the overall travel, gaming, hospitality and leisure industries;

changes in expectations as to our future financial performance, including financial estimates by securities analysts and investors or such guidance provided by us;

announcements by us or companies in the travel, gaming, hospitality and leisure industries of significant contracts, acquisitions, dispositions, strategic partnerships, joint ventures, capital commitments, plans, prospects, service offerings or operating results;

additions or departures of key personnel;

future sales of our securities;

trading and volume fluctuations;

other risk factors as discussed above; and

other unforeseen events.

Stock markets in the United States have often experienced extreme price and volume fluctuations. Market fluctuations, as well as general political and economic conditions such as acts of terrorism, prolonged economic uncertainty, a recession or interest rate or currency rate fluctuations, could adversely affect the market price of our stock.

We cannot provide assurance that we will continue to pay dividends.

On June 7, 2011, our Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate estimated to be \$0.60 per share, subject to quarterly declaration. This dividend is anticipated to be funded through cash flow from operations and available cash on hand. Subject to the discretion of our Board of Directors and subject to applicable law, we anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend

Edgar Filing: VAIL RESORTS INC - Form 10-K

upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other factors considered relevant by our Board of Directors. In addition, our Board of Directors may also suspend the payment of dividends if it deems such action to be in the best interests of the Company and its stockholders. If we do not pay dividends, the price of our common stock must appreciate for investors to realize a gain on their investment in Vail Resorts, Inc. This appreciation may not occur and our stock may in fact depreciate in value.

Anti-takeover provisions affecting us could prevent or delay a change of control that is beneficial to our shareholders. Provisions of our certificate of incorporation and bylaws, provisions of our debt instruments and other agreements and provisions of applicable Delaware law and applicable Federal and state regulations may discourage, delay or prevent a merger or other change of control that holders of our securities may consider favorable. These provisions could:

delay, defer or prevent a change in control of our company;

discourage bids for our securities at a premium over the market price;

adversely affect the market price of, and the voting and other rights of the holders of our securities; or

impede the ability of the holders of our securities to change our management.

Our indebtedness could adversely affect our financial health and prevent us from fulfilling our obligations. Our level of indebtedness could have important consequences. For example, it could:

make it more difficult for us to satisfy our obligations;

increase our vulnerability to general adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, real estate developments, marketing efforts and other general corporate purposes;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit our ability to borrow additional funds.

We may be able to incur substantial additional indebtedness in the future. The terms of our Indenture (as defined below) do not fully prohibit us from doing so. Our senior credit facility (Credit Agreement) permits additional borrowings of up to \$332.9 million as of July 31, 2011. If new debt is added to our current debt levels, the related risks that we face could intensify.

There are restrictions imposed by the terms of our indebtedness. The operating and financial restrictions and covenants in our amended and restated Credit Agreement and the Indenture, dated April 25, 2011 among us, the guarantors therein and Bank of New York Mellon Trust Company, N.A., as Trustee (Indenture), governing our 6.50% Senior Subordinated Notes due 2019 (6.50% Notes) may adversely affect our ability to finance future operations or capital needs or to engage in other business activities that may be in our long-term best interests. For example, the Indenture and the Credit Agreement contain a number of restrictive covenants that impose significant operating and financial restrictions on us, including restrictions on our ability to, among other things:

incur additional debt or sell preferred stock;

pay dividends, repurchase our stock and make other restricted payments;

create liens;

make certain types of investments;

Edgar Filing: VAIL RESORTS INC - Form 10-K

engage in sales of assets and subsidiary stock;

enter into sales-leaseback transactions;

enter into transactions with affiliates;

issue guarantees of debt

transfer all or substantially all of our assets or enter into merger or consolidation transactions; and

make capital expenditures.

In addition, there can be no assurance that we will meet the financial covenants contained in our Credit Agreement. If we breach any of these restrictions or covenants, or suffer a material adverse change which restricts our borrowing ability under our Credit

Agreement, we would not be able to borrow funds thereunder without a waiver, which inability to borrow could have an adverse effect on our business, financial condition and results of operations. In addition, a breach, if uncured, could cause a default under the Indenture and our other debt. Our indebtedness may then become immediately due and payable. We may not have or be able to obtain sufficient funds to make these accelerated payments, including payments on the 6.50% Notes.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

The following table sets forth the principal properties that we own or lease for use in our operations:

Location	Ownership	Use
Arrowhead Mountain, CO	Owned	Ski resort operations, including ski lifts, ski trails, buildings and other improvements and commercial space
BC Housing Riveredge, CO	26% Owned	Employee housing facilities
Bachelor Gulch Village, CO	Owned	Ski resort operations, including ski lifts, ski trails, buildings and other improvements and commercial space
Beaver Creek Resort, CO	Owned	Ski resort operations, including ski lifts, ski trails, buildings and other improvements, commercial space and real estate held for sale or development
Beaver Creek Mountain, CO (3,849 acres)	SUP	Ski trails, ski lifts, buildings and other improvements
Beaver Creek Mountain Resort, CO	Owned	Golf course, clubhouse, commercial space and residential units
Breckenridge Ski Resort, CO	Owned	Ski resort operations, including ski lifts, ski trails, buildings and other improvements, commercial space and real estate held for sale or development
Breckenridge Mountain, CO (5,702 acres)	SUP	Ski trails, ski lifts, buildings and other improvements
Breckenridge Terrace, CO	50% Owned	Employee housing facilities
Broomfield, CO	Leased	Corporate offices
Colter Bay Village, WY	Concessionaire contract	Lodging and dining facilities
Eagle-Vail, CO	Owned	Warehouse facility
Edwards, CO	Leased	Administrative offices
Great Divide Lodge, CO	Owned	Lodging, dining and conference facilities
Heavenly Mountain Resort, CA & NV	Owned	Ski resort operations, including ski lifts, ski trails, buildings and other improvements and commercial space
Heavenly Mountain Resort, CA & NV (7,050 acres)	SUP	Ski trails, ski lifts, buildings and other improvements
Inn at Keystone, CO	Owned	Lodging, dining and conference facilities
Jackson Hole Golf & Tennis Club,	Owned	Golf course, clubhouse, tennis facilities, dining and real estate held for sale or development

Edgar Filing: VAIL RESORTS INC - Form 10-K

Vail Mountain, CO (12,353 acres)	SUP	Ski trails, ski lifts, buildings and other improvements

The Forest Service SUPs are encumbered under certain of our debt instruments. Many of our properties are used across all segments in complementary and interdependent ways.

* The operations of Northstar-at-Tahoe are conducted on land and with operating assets owned by CNL Lifestyle Properties, Inc. under operating leases which were assumed by us. The leases provide for the payment of a minimum annual base rent with periodic increases in base rent over the lease term. In addition, the leases provide for the payment of percentage rent based on a percentage of gross revenues generated at the property over certain thresholds. The initial term of the leases expires in fiscal 2027.

ITEM 3. LEGAL PROCEEDINGS.

We are a party to various lawsuits arising in the ordinary course of business. We believe that we have adequate insurance coverage and/or have accrued for loss contingencies for all known matters and that, although the ultimate outcome of such claims cannot be ascertained, current pending and threatened claims are not expected to have a material, individually and in the aggregate, adverse impact on our financial position, results of operations and cash flows.

Internal Revenue Service Litigation

On August 24, 2009, we filed a complaint in the United States District Court for the District of Colorado against the United States of America seeking a refund of approximately \$6.2 million in Federal income taxes paid for the tax years ended December 31, 2000 and December 31, 2001. Our amended tax returns for those years included calculations of NOLs carried forward from prior years to reduce our tax years 2000 and 2001 tax liabilities. The IRS disallowed refunds associated with those NOL carry forwards and we disagreed with the IRS action disallowing the utilization of the NOLs. On July 1, 2011, the District Court granted us summary judgment, concluding that the IRS's decision disallowing the utilization of the NOLs was inappropriate. The sole issue now before the District Court is the amount of the tax refund to which we are entitled. The IRS is entitled to appeal the decision of the District Court to grant the motion for summary judgment and we do not know whether the IRS will do so or, if it does appeal, whether the appeal would be successful.

We are also a party to two related tax proceedings in the United States Tax Court regarding calculation of NOL carryover deductions for tax years 2006, 2007, and 2008. The two proceedings involve substantially the same issues as the litigation in the District Court for tax years 2000 and 2001 wherein we disagreed with the IRS as to the utilization of NOLs. With respect to the case involving the 2006 tax year, a trial date has been set for November 2011, but we expect that the case will be stayed pending final resolution of the District Court case, which as described above, now only involves the determination of the tax refund to which we are entitled. Similarly, while no trial date has been set, we expect that we will stipulate with the IRS that the case involving tax years 2007 and 2008 be stayed until the District Court proceeding is resolved.

ITEM 4. REMOVED AND RESERVED.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.*****Market Information and Dividend Policy***

Our common stock is traded on the New York Stock Exchange under the symbol MTN. As of September 15, 2011, 36,071,071 shares of common stock were outstanding, held by approximately 363 holders of record.

The following table sets forth information on the high and low sales prices of our common stock on the New York Stock Exchange and the quarterly cash dividends declared per share of common stock for each quarterly period for the two most recently completed fiscal years.

Quarter Ended	Market Price Per Share		Cash
			Dividends
	High	Low	Declared

On June 7, 2011 the Company's Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate estimated to be \$0.60 per share, subject to quarterly declaration. The first quarterly dividend of \$0.15 per share (\$5.4 million in the aggregate) was paid on July 18, 2011 to stockholders of record as of July 1, 2011. This dividend was funded with available cash on hand. Subject to the discretion of the Board of Directors and subject to applicable law, we anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other factors considered relevant by our Board of Directors.

Repurchase of Equity Securities

The following table sets forth our purchases of shares of our common stock during the fourth quarter of Fiscal 2011:

Period		Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
May 1, 2011	May 31, 2011		\$		1,735,196
June 1, 2011	June 30, 2011				1,735,196
July 1, 2011	July 31, 2011				1,735,196

Edgar Filing: VAIL RESORTS INC - Form 10-K

Total	\$	1,735,196
-------	----	-----------

- (1) On March 9, 2006, our Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of our common stock repurchase authorization by an additional 3,000,000 shares.

Acquisitions under the share repurchase program may be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The stock repurchase program may be discontinued at any time.

Performance Graph

The total return graph above is presented for the period from the end of our 2006 fiscal year through the end of Fiscal 2011. The comparison assumes that \$100 was invested at the beginning of the period in our common stock (MTN), The Russell 2000, The Standard & Poor's 500 Stock Index and the Dow Jones U.S. Travel and Leisure Stock Index. We included the Dow Jones U.S. Travel and Leisure Index as we believe we compete in the travel and leisure industry.

The performance graph is not deemed filed with the SEC and is not to be incorporated by reference into any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, unless such filings specifically incorporate the performance graph by reference therein.

ITEM 6. SELECTED FINANCIAL DATA.

The following table presents selected historical consolidated financial data derived from our Consolidated Financial Statements for the periods indicated. The financial data for Fiscal 2011, the year ended July 31, 2010 (Fiscal 2010) and the year ended July 31, 2009 (Fiscal 2009) and as of July 31, 2011 and 2010 should be read in conjunction with the Consolidated Financial Statements, related notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained elsewhere in this Form 10-K. The table presented below is unaudited. The data presented below are in thousands, except for diluted net income per share attributable to Vail Resorts, Inc., cash dividends declared per share, effective ticket price (ETP), ADR and RevPAR amounts.

(footnotes to selected financial data appear on following page)

Footnotes to Selected Financial Data:

- (1) *We have made several acquisitions and dispositions which impact comparability between years during the past five years. The more significant of those include the acquisitions of: Northstar-at-Tahoe (acquired in October 2010); the remaining noncontrolling interest in SSV (acquired in April 2010); Mountain News Corporation (Mountain News) (acquired May 2010); CME (acquired in November 2008); and 18 retail/rental locations (acquired by SSV in June 2007). Additionally, we sold our majority interest in RTP, LLC (RTP) in April 2007. See Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements, in Item 8 of this Form 10-K for disclosure on the revision of managed property payroll cost reimbursement. Lodging net revenue and Lodging operating expense increased \$26.2 million, \$27.4 million, \$31.7 million, and \$31.5 million for the years ended July 31, 2010, 2009, 2008 and 2007, respectively.*
- (2) *A skier visit represents a person utilizing a ticket or pass to access a mountain resort for any part of one day, and includes both paid and complimentary access.*
- (3) *ETP is calculated by dividing lift ticket revenue by total skier visits during the respective periods.*
- (4) *ADR is calculated by dividing total room revenue (includes both owned and managed condominium room revenue) by the number of occupied rooms during the respective periods.*
- (5) *RevPAR is calculated by dividing total room revenue (includes both owned and managed condominium room revenue) by the number of rooms that are available to guests during the respective periods.*
- (6) *Real estate held for sale and investment includes all land, development costs and other improvements associated with real estate held for sale and investment, as well as investments in real estate joint ventures.*
- (7) *Cash and cash equivalents excludes restricted cash.*
- (8) *Net debt is defined as long-term debt plus long-term debt due within one year less cash and cash equivalents.*

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Consolidated Financial Statements and notes related thereto included in this Form 10-K. To the extent that the following Management's Discussion and Analysis contains statements which are not of a historical nature, such statements are forward-looking statements which involve risks and uncertainties. These risks include, but are not limited to, those discussed in Item 1A, Risk Factors in this Form 10-K. The following discussion and analysis should be read in conjunction with the Forward-Looking Statements section and Item 1A, Risk Factors each included in this Form 10-K.

Management's Discussion and Analysis includes discussion of financial performance within each of our segments. We have chosen to specifically include Reported EBITDA (defined as segment net revenue less segment operating expense, plus or minus segment equity investment income or loss and for the Real Estate segment, plus gain on sale of real property) and Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents), in the following discussion because we consider these measurements to be significant indications of our financial performance and available capital resources. Reported EBITDA and Net Debt are not measures of financial performance or liquidity under GAAP. We utilize Reported EBITDA in evaluating our performance and in allocating resources to our segments. Refer to the end of the Results of Operations section for a reconciliation of Reported EBITDA to net income attributable to Vail Resorts, Inc. We also believe that Net Debt is an important measurement as it is an indicator of our ability to obtain additional capital resources for our future cash needs. Refer to the end of the Results of Operations section for a reconciliation of Net Debt.

Items excluded from Reported EBITDA and Net Debt are significant components in understanding and assessing financial performance or liquidity. Reported EBITDA and Net Debt should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the Consolidated Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA and Net Debt are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, Reported EBITDA and Net Debt as presented may not be comparable to other similarly titled measures of other companies.

Overview

Our operations are grouped into three integrated and interdependent segments: Mountain, Lodging and Real Estate. Resort is the combination of the Mountain and Lodging segments. Revenue from the Mountain, Lodging and Real Estate segments represented 65%, 18% and 17%, respectively, of our net revenue for Fiscal 2011.

Mountain Segment

The Mountain segment is comprised of the operations of six ski resort properties as well as ancillary services, primarily including ski school, dining and retail/rental operations. Our six ski resorts were open for business for the 2010/2011 ski season from mid-November through mid-April, which is the peak operating season for the Mountain segment. Our single largest source of Mountain segment revenue is the sale of lift tickets (including season passes), which represented approximately 46%, 45% and 45% of Mountain segment net revenue for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively.

Lift ticket revenue is driven by volume and pricing. Pricing is impacted by both absolute pricing as well as the demographic mix of guests, which impacts the price points at which various products are purchased. The demographic mix of guests is divided into two primary categories: (i) Destination guests and (ii) In-State guests. For the 2010/2011 ski season, Destination guests comprised approximately 57% of our skier visits, while In-State guests comprised approximately 43% of our skier visits, which compares to approximately 58% and 42%, respectively, for the 2009/2010 ski season and 57% and 43%, respectively, for the 2008/2009 ski season (excluding Northstar-at-Tahoe for each of the current and prior ski seasons).

Destination guests generally purchase our higher-priced lift ticket products and utilize more ancillary services such as ski school, dining and retail/rental, as well as lodging at or around our resorts. Destination guest visitation is less likely to be impacted by changes in the weather, but can be more impacted by adverse economic conditions or the global geopolitical climate. In-State guests tend to be more value-oriented and weather sensitive. We offer a variety of season pass products for all of our ski resorts, marketed towards both Destination and In-State guests. Our season pass product offerings range from providing access to a combination of our resorts to our Epic Season Pass that allows pass holders unlimited and unrestricted access to all six of our ski resorts. Our season pass products provide a value option to our guests, which in turn assists us in developing a loyal base of customers who commit to ski at our resorts generally in advance of the ski season and typically ski more days each season at our resorts than those guests who do not buy season passes. As such, our season pass program drives strong customer loyalty; mitigates exposure to many weather sensitive guests; and generates additional ancillary spending. In addition, our season pass products attract new guests to our resorts. All of our

season pass products, including the Epic Season Pass, are sold predominately prior to the start of the ski season. Season pass revenue, although primarily collected prior to the ski season, is recognized in the Consolidated Statement of Operations ratably over the ski season. For the 2010/2011, 2009/2010 and 2008/2009 ski seasons approximately 35%, 35% and 34%, respectively, of total lift revenue recognized was comprised of season pass revenue.

The cost structure of our ski resort operations has a significant fixed component with variable expenses including, but not limited to, Forest Service fees, credit card fees, retail/rental cost of sales and labor, ski school labor and dining operations; as such, profit margins can fluctuate greatly based on the level of revenues.

Lodging Segment

Operations within the Lodging segment include (i) ownership/management of a group of luxury hotels through the RockResorts brand, including several proximate to our ski resorts; (ii) ownership/management of non-RockResorts branded hotels and condominiums proximate to our ski resorts; (iii) GTLC; (iv) CME, a resort ground transportation company; and (v) golf courses.

The performance of lodging properties (including managed condominium rooms) at or around our ski resorts, and CME, is closely aligned with the performance of the Mountain segment and generally experiences similar seasonal trends, particularly with respect to visitation by Destination guests, and represented approximately 69%, 67% and 68% of Lodging segment revenue (excluding Lodging segment revenue associated with reimbursement of payroll costs) for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively. Management primarily focuses on Lodging net revenue excluding payroll cost reimbursement and Lodging operating expense excluding reimbursed payroll costs (which are not measures of financial performance under GAAP) as the reimbursements are made based upon the costs incurred with no added margin, as such the revenue and corresponding expense have no effect on our Lodging Reported EBITDA which we use to evaluate Lodging segment performance. Revenue of the Lodging segment during our first and fourth fiscal quarters is generated primarily by the operations of GTLC (as GTLC's operating season generally occurs from mid-May to mid-October), golf operations and seasonally low operations from our other owned and managed properties and businesses.

Real Estate Segment

The Real Estate segment owns and develops real estate in and around our resort communities and primarily engages in vertical development of projects. Currently, the principal activities of our Real Estate segment include the marketing and selling of remaining condominium units that are available for sale, planning for future real estate development projects, including zoning and acquisition of applicable permits, and the purchase of selected strategic land parcels for future development. Revenue from vertical development projects is not recognized until closing of individual units within a project, which occurs after substantial completion of the project. We attempt to mitigate the risk of vertical development by often utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling a portion of the project, requiring significant non-refundable deposits, and potentially obtaining non-recourse financing for certain projects (although our last two major vertical development projects have not incurred any such direct third party financing). Additionally, our real estate development projects most often result in the creation of certain resort assets that provide additional benefit to the Mountain and Lodging segments. Our revenue from the Real Estate segment, and associated expense, can fluctuate significantly based upon the timing of closings and the type of real estate being sold, causing volatility in the Real Estate segment's operating results from period to period.

Recent Trends, Risks and Uncertainties

The data provided in this section should be read in conjunction with the risk factors identified in Item 1A and elsewhere in this Form 10-K. We have identified the following important factors (as well as uncertainties associated with such factors) that could impact our future financial performance:

Although we experienced improved operating results for Fiscal 2011 compared to Fiscal 2010 and 2009 in our Mountain and Lodging segments in part due to increased pricing and increased visitation for the 2010/2011 ski season, as well as an increase in overall guest spend on ancillary services, uncertainties still exist around the current general economic environment. Conditions currently present or recently present in the economic environment including high unemployment, relatively low consumer confidence, financial instability in the global markets, including any impact from the downgrade of credit ratings assigned to obligations of the United States, and weakness in the overall real estate market could potentially have negative effects on the travel and leisure industry. Given the current uncertainties around global economic trends, we cannot predict what impact this will have on overall travel and leisure or more specifically, on our guest visitation, guest spending or other related trends for the upcoming 2011/2012 ski season. During the most recent recession, our 2008/2009 ski season was impacted by lower visitation, reduced guest spend on ancillary services and closer in booking trends for guest reservations.

The timing and amount of snowfall can have an impact on Mountain and Lodging revenue particularly in regards to skier visits and the duration and frequency of guest visitation. To help mitigate this impact, we sell a variety of season pass products prior to the beginning of the season to In-State guests and Destination guests. Additionally, we have invested in snowmaking upgrades in an effort to address the inconsistency of early season snowfall where possible. For the 2010/2011 ski season we experienced significantly above average early season snowfall compared to significantly below average early season snowfall for the previous two ski seasons, which we believe had a positive impact on early season visitation.

Our season pass products provide a value option to our guests which in turn creates a guest commitment predominantly prior to the start of the ski season, resulting in a more stabilized stream of lift revenue for us. In March 2011, we began our pre-season pass sales program for the 2011/2012 ski season. Through September 20, 2011 our season pass sales for the 2011/2012 ski season were up approximately 9% in sales dollars and 1% in units as compared to season pass sales through the similar period of the 2010/2011 ski season, including Northstar-at-Tahoe season pass sales for both periods. We cannot predict if this trend will continue through the fall 2011 season pass sales campaign or the impact that season pass sales may have on total lift revenue or ETP for the 2011/2012 ski season.

In Fiscal 2011, our lift ticket revenue was favorably impacted by price increases that were implemented during the 2010/2011 ski season. Prices for the 2011/2012 ski season have not yet been finalized; and as such, there can be no assurances as to the level of price increases, if any, which will occur and the impact that pricing may have on visitation or revenue.

Real estate Reported EBITDA is highly dependent on, among other things, the timing of closings on real estate held for sale, which determines when revenue and associated cost of sales is recognized. Changes to the anticipated timing or mix of closing on one or more real estate projects, or unit closings within a real estate project, could materially impact Real Estate Reported EBITDA for a particular quarter or fiscal year. During the first quarter of Fiscal 2011, we received a certificate of occupancy for The Ritz-Carlton Residences, Vail and we have closed on 71 units in Fiscal 2011 (with two additional units having closed subsequent to July 31, 2011). Additionally, we have closed on four units at One Ski Hill Place (which was completed in the fourth quarter of fiscal 2010) in Fiscal 2011 (40 units closed in total including 36 units that closed in fiscal 2010). We currently have on a combined basis 92 units available for sale at The Ritz-Carlton Residences, Vail, One Ski Hill Place in Breckenridge and Crystal Peak Lodge at Breckenridge. We have increased risk associated with selling and closing units in these projects as a result of the continued instability in the credit markets and a slowdown in the overall real estate market. Buyers have been or may be unable to close on units in part due to a reduction in funds available to buyers and/or decreases in mortgage availability. We cannot predict the ultimate number of units that we will sell, the ultimate price we will receive, or when the units will sell, although we currently believe the selling process will take multiple years. Additionally, if a prolonged weakness in the real estate market or general economic conditions were to occur we may have to adjust our anticipated selling prices in an effort to sell and close on units available for sale. However, our risk associated with adjusting selling prices to levels that may not be acceptable to us is partially mitigated by the fact that do generate cash flow from placing unsold units into our rental program until such time selling prices are at acceptable levels to us. Furthermore, if the current weakness in the real estate market were to persist for multiple years thus requiring us to sell remaining units below recent pricing levels (including any sales concessions and discounts) for the remaining inventory of units at The Ritz-Carlton Residences, Vail or One Ski Hill Place in Breckenridge, it may result in an impairment charge on one or both projects (see Critical Accounting Policies in this section of this Form 10-K).

We had \$70.1 million in cash and cash equivalents as of July 31, 2011 as well as \$332.9 million available under the revolver component of our Credit Agreement (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$67.1 million), which was amended and restated on January 25, 2011. Key modifications to the Credit Agreement included, among other things, the extension of the maturity on the revolving Credit Agreement from February 2012 to January 2016; the expansion of baskets for improved flexibility in our ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants. In addition, on April 25, 2011, we completed an offering for \$390 million of 6.50% Senior Subordinated Notes due 2019 (the 6.50% Notes), the proceeds of which, along with available cash resources, were used to purchase the outstanding \$390 million principal amount of 6.75% Senior Subordinated Notes due 2014 (the 6.75% Notes) and pay related premiums, fees and expenses. The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. Additionally, we believe the 6.50% Notes will allow for substantially increased flexibility in our ability to make acquisitions, investments and distributions and incur debt. The above, combined with the completion of our real estate projects where the proceeds from future real estate closings on The Ritz-Carlton Residences, Vail, One Ski Hill Place in Breckenridge and Crystal Peak Lodge at Breckenridge are expected to significantly exceed future carrying costs, has and is anticipated to provide us with significant liquidity which will allow us to consider strategic investments, including future acquisitions and other forms of providing return to our shareholders. We cannot predict that any

strategic initiatives undertaken will achieve the anticipated results.

On June 7, 2011, the Company's Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate estimated to be \$0.60 per share (or \$21.6 million annually based upon shares outstanding as of July 31, 2011), subject to quarterly declaration, with the first quarterly dividend of \$0.15 per share paid on July 18, 2011. This dividend was funded through available cash on hand. Subject to the discretion of the Board of Directors and subject to applicable law, we anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other factors considered relevant by our Board of Directors.

Under GAAP we test goodwill and indefinite lived intangible assets for impairment annually as well as on an interim basis to the extent factors or indicators become apparent that could reduce the fair value of our goodwill or indefinite lived intangible assets below book value and we evaluate long-lived assets for potential impairment whenever events or change in circumstances indicate that the carrying amount of an asset may not be recoverable. We evaluate the recoverability of our goodwill by estimating the future discounted cash flows of our reporting units and terminal values of the businesses using projected future levels of income as well as business trends, prospects and market and economic conditions. We evaluate the recoverability of indefinite-lived intangible assets using the income approach based upon estimated future revenue streams, and we evaluate long-lived assets based upon estimated undiscounted future cash flows. Our Fiscal 2011 annual impairment test did not result in a goodwill or indefinite-lived intangible asset impairment (see Critical Accounting Policies in this section of this Form 10-K). However, if a more severe prolonged weakness in general economic conditions were to occur it could cause less than expected growth and/or reduction in terminal values and cash flows and could result in an impairment charge attributable to certain goodwill, indefinite lived intangible assets and/or long-lived assets (particularly related to our Lodging operations), negatively impacting our results of operations and stockholders' equity.

Results of Operations

Summary

Shown below is a summary of operating results for Fiscal 2011, Fiscal 2010 and Fiscal 2009 (in thousands):

	Year Ended July 31,		
	2011	2010	2009
Mountain Reported EBITDA	\$ 213,167	\$ 184,036	\$ 164,389
Lodging Reported EBITDA	8,755	2,392	6,759
Resort Reported EBITDA	221,922	186,428	171,148
Real Estate Reported EBITDA	(5,035)	(4,308)	44,080
Income before provision for income taxes	55,520	53,797	81,196
Net income attributable to Vail Resorts, Inc.	\$ 34,489	\$ 30,385	\$ 48,950

Mountain Segment

Mountain segment operating results for Fiscal 2011, Fiscal 2010 and Fiscal 2009 are presented by category as follows (in thousands, except ETP):

	Year Ended July 31,			Percentage Increase/(Decrease)	
	2011	2010	2009	2011/2010	2010/2009
Net Mountain revenue:					
Lift tickets	\$ 342,514	\$ 289,289	\$ 276,542	18.4 %	4.6 %
Ski school	83,818	70,694	65,336	18.6 %	8.2 %
Dining	68,052	53,322	52,259	27.6 %	2.0 %
Retail/rental	174,339	154,846	147,415	12.6 %	5.0 %
Other	83,468	70,344	73,045	18.7 %	(3.7)%
Total Mountain net revenue	\$ 752,191	\$ 638,495	\$ 614,597	17.8 %	3.9 %

Mountain operating expense:					
Labor and labor-related benefits	\$ 198,659	\$ 166,378	\$ 165,550	19.4 %	0.5 %
Retail cost of sales	71,961	65,545	66,022	9.8 %	(0.7)%
Resort related fees	39,476	35,431	33,102	11.4 %	7.0 %
General and administrative	104,848	88,705	83,117	18.2 %	6.7 %
Other	125,422	99,958	103,234	25.5 %	(3.2)%
Total Mountain operating expense	\$ 540,366	\$ 456,017	\$ 451,025	18.5 %	1.1 %
Mountain equity investment income, net	1,342	1,558	817	(13.9)%	90.7 %
Mountain Reported EBITDA	\$ 213,167	\$ 184,036	\$ 164,389	15.8 %	12.0 %
Total skier visits	6,991	6,010	5,864	16.3 %	2.5 %
ETP	\$ 48.99	\$ 48.13	\$ 47.16	1.8 %	2.1 %

Mountain Reported EBITDA includes \$7.1 million, \$5.3 million and \$4.8 million of stock-based compensation expense for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively.

Fiscal 2011 compared to Fiscal 2010

Total Mountain net revenue increased \$113.7 million, or 17.8%, in Fiscal 2011 compared to Fiscal 2010, with Fiscal 2011 including \$64.4 million of revenue from Northstar-at-Tahoe, which was acquired in October 2010. Excluding the impact of the acquisition of Northstar-at-Tahoe, total Mountain net revenue would have increased \$49.3 million or 7.7%. Lift revenue increased \$53.2 million, or 18.4%, for Fiscal 2011 compared to Fiscal 2010, due to a \$34.2 million, or 18.1%, increase in lift revenue excluding season pass revenue and a \$19.0 million, or 18.9%, increase in season pass revenue. A large portion of this increase is attributable to the acquisition of Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, lift revenue increased \$22.4 million, or 7.7%, compared to the same period in the prior year, due to a \$13.2 million, or 7.0%, increase in lift revenue excluding season passes and a \$9.2 million, or 9.2%, increase in season pass revenue. Total skier visitation was up 16.3% and excluding Northstar-at-Tahoe, skier visitation was up 4.1%, which significantly exceeded skier visitation growth for the U.S. ski industry as a whole, which was up 0.6%, and visitation for all resorts in the Rocky Mountain and Pacific Southwest regions, which were up 1.7% and down 7.1%, respectively, despite all regions in the U.S. generally having strong snowfall in the current year, including at our resorts. Vail Mountain and Keystone in particular showed large increases in visitation in Fiscal 2011, Vail Mountain benefiting from recent capital investments made both on Vail Mountain and in base areas, including an improved lodging bed base, and Keystone benefiting from a broadened family focused marketing initiative. All resorts were unfavorably impacted by the timing of the Easter holiday which was in late April in the current fiscal year, versus early April in the prior fiscal year. In addition, our Heavenly resort was impacted by higher than average resort closures due to severe weather in the current fiscal year. ETP, excluding season pass holders and Northstar-at-Tahoe, increased \$5.31, or 8.3%, due primarily to price increases implemented during the current fiscal year. Total ETP, excluding Northstar-at-Tahoe, increased \$1.70, or 3.5%, also due primarily to price increases implemented during the current fiscal year, partially offset by higher average visitation by our season pass holders in the current fiscal year.

Ski school revenue increased \$13.1 million, or 18.6%, in Fiscal 2011 compared to Fiscal 2010 with the current year benefiting from the acquisition of Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, ski school revenue increased \$5.5 million, or 7.8%, which benefited from a 4.1% increase in skier visitation and a 3.6% increase in yield per skier visit due to higher guest spend. Dining revenue increased \$14.7 million, or 27.6%, which also benefited from the acquisition of Northstar-at-Tahoe in Fiscal 2011. Excluding Northstar-at-Tahoe, dining revenues increased \$6.1 million, or 11.5%, which is primarily attributable to the increased skier visitation and a 5.8% increase in yield per skier visit for on-mountain dining, as well as the addition of two new on-mountain dining venues. The increases in both ski school and dining revenue were achieved despite the negative impact of the late Easter holiday in the current fiscal year.

Retail/rental operations increased \$19.5 million, or 12.6%, in Fiscal 2011 compared to Fiscal 2010, which includes \$9.0 million of incremental revenue from Northstar-at-Tahoe in the current fiscal year. Excluding Northstar-at-Tahoe, retail/rental increased \$10.5 million, or 6.8%, which was driven primarily by higher revenues at our Colorado front range stores and Any Mountain stores (in the San Francisco bay area) which combined increased by approximately 8.1% as compared to the prior year. Additionally, our mountain resort stores, especially at Vail and Beaver Creek, experienced an increase in revenue primarily driven by retail sales due to higher skier visitation although these increases were tapered by the late Easter holiday in Fiscal 2011.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), summer visitation and other mountain activities revenue, marketing and internet advertising revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For Fiscal 2011, other revenue increased \$13.1

million, or 18.7%, compared to Fiscal 2010, which includes \$8.3 million of incremental revenue from Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, other revenue increased \$4.8 million, or 6.8%, primarily due to an increase in internet advertising due to the acquisition of Mountain News Corporation in May 2010, higher strategic alliance marketing revenue as well as increased summer activities revenue primarily at Breckenridge, which is partially due to the addition of an alpine coaster, partially offset by a decrease in municipal services revenue (primarily transportation services provided on behalf of certain municipalities).

Operating expense increased \$84.3 million, or 18.5%, for Fiscal 2011 compared to Fiscal 2010, which includes \$53.9 million of expenses (including \$4.1 million of acquisition related costs included in general and administrative expense) in the current fiscal year associated with Northstar-at-Tahoe. Excluding these expenses, operating expense increased \$30.5 million, or 6.7%, for Fiscal 2011 compared to Fiscal 2010, due in part to higher labor and labor-related benefits which increased \$15.9 million, or 9.5%, in Fiscal 2011 compared to Fiscal 2010. Overall, operating expenses including labor were impacted by a 3.6% increase in the number of operating days during the 2010/2011 ski season primarily due to the late Easter holiday as discussed above, combined with opening ski terrain earlier due to above average early season snowfall. Labor and labor-related benefits in the current year were also higher due to the full year impact of the prior year's partial wage reinstatement and our matching component of the 401(k) plan, and a more normal level of wage increases, partially offset by a decrease in workers compensation costs of \$1.5 million due to fewer claims and average cost per claim. Additionally, labor costs were impacted by an increase in staffing levels due to an increase in demand for ancillary services primarily in ski school, dining and retail/rental operations. Retail cost of sales was relatively flat, excluding Northstar-at-Tahoe, primarily due to improved gross margins. Additionally, resort related fees (including Forest Service fees, other resort-related fees, credit card fees and commissions) increased \$3.0 million, or 8.3%, excluding Northstar-at-Tahoe, compared to Fiscal 2010, due to overall increases in revenue upon which those fees are based and general and administrative expenses increased \$6.0 million, or 6.8%, excluding Northstar-at-Tahoe, primarily due to expenses associated with the operations of Mountain News Corporation acquired in May 2010 and increased marketing expenditures. Other expense increased \$5.1 million, or 5.1%, excluding Northstar-at-Tahoe, in Fiscal 2011 primarily due to increased food and beverage cost of sales due to an increase in dining revenue and higher fuel and supplies expenses.

Mountain equity investment income primarily includes our share of income from the operations of a real estate brokerage joint venture. The decrease in equity investment income for Fiscal 2011 compared to Fiscal 2010 is primarily due to decreased commissions earned by the brokerage compared to Fiscal 2010.

Fiscal 2010 compared to Fiscal 2009

Lift revenue increased \$12.7 million, or 4.6%, for Fiscal 2010 compared to Fiscal 2009, due to a \$6.6 million, or 3.6%, increase in lift revenue excluding season passes and a \$6.1 million, or 6.5%, increase in season pass revenue. The increase in lift revenue excluding season passes was driven by a 3.3% increase in visitation excluding season pass holders coupled with a 0.4% increase in ETP excluding pass products. The increase in season pass revenue was due to an increase in season pass units sold, as well as year-over-year price increases in season pass products. Total skier visitation increased 2.5% led by our Heavenly resort which experienced a 10.7% increase in visitation while overall visitation for our four Colorado resorts (excluding Heavenly) increased 1.2%. Our four Colorado resorts were negatively impacted by significantly below average snowfall, particularly in the early season up to mid-January 2010, but experienced increased visitation during the second half of the 2009/2010 ski season particularly during the spring break and Easter holiday periods which primarily contributed to the overall increase in skier visits in Colorado for the 2009/2010 ski season compared to the 2008/2009 ski season. Visitation by season pass holders increased by approximately 1.7% with average visits per season pass holders declining approximately 4.8%, or approximately one half a day less skied per season pass holder, over the 2008/2009 ski season resulting in an increase in ETP.

Ski school revenue increased \$5.4 million, or 8.2%, in Fiscal 2010 compared to Fiscal 2009, primarily due to a 5.6% increase in yield per skier visit as both group and private lessons benefited from higher guest spend and were also favorably impacted by new programs offered in ski school during the 2009/2010 ski season. Dining revenue increased \$1.1 million, or 2.0%, in Fiscal 2010 compared to Fiscal 2009, primarily due to improved dining revenue for the 2009/2010 ski season compared to the 2008/2009 ski season as on-mountain dining realized an increase in the average revenue per transaction of approximately 3.6%, although dining operations were negatively impacted in the first half of the 2009/2010 ski season by the significantly lower than average early season snowfall in Colorado which resulted in delays in the opening of certain on-mountain dining venues.

Revenue from retail/rental operations increased \$7.4 million, or 5.0%, primarily due to higher retail sales and rental volumes at our Vail, Beaver Creek and Breckenridge mountain resort stores and San Francisco Bay area stores as retail/rental revenue increased 8.1% for the 2009/2010 ski season compared to the 2008/2009 ski season. This increase was partially offset by declines in retail sales for both the first and fourth quarters of Fiscal 2010 of 4.0% and 2.1%, respectively, compared to the same periods in the prior year due primarily to a decline in sales volumes at mountain resort stores not proximate to our ski resorts. Retail/rental revenue was particularly strong in the second half of the 2009/2010 ski season which was bolstered by increased visitation to our resorts and higher guest spend.

Other revenue mainly consisted of private club revenue (which includes both club dues and amortization of initiation fees), summer visitation and other mountain activities revenue, strategic alliance and other marketing revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For Fiscal 2010 other revenues decreased \$2.7 million, or 3.7%, compared to Fiscal 2009, primarily due to a decrease in employee housing revenue, strategic alliance marketing revenue and municipal services revenue (primarily transportation services provided on behalf of certain municipalities), partially offset by an increase in private club revenues primarily resulting from the opening of the Vail Mountain Club in November 2008, increased commercial leasing revenue and higher on-mountain summer activities related revenue at our Colorado resorts, particularly at Breckenridge as Fiscal 2009's on-mountain summer activities were negatively impacted by construction activities.

Operating expense increased \$5.0 million, or 1.1%, for Fiscal 2010 compared to Fiscal 2009. This increase was primarily driven by an increase in labor and labor-related benefits expense of \$0.8 million, or 0.5%, due to increased employee incentive compensation expense mostly offset by a company-wide wage reduction plan implemented in April 2009 (which was partially reinstated in April 2010) and the suspension of the matching contribution to our 401(k) program in January 2009 (of which the 401(k) matching program was partially reinstated in April 2010); a \$2.3 million, or 7.0%, increase in resort related fees associated with higher Mountain net revenue, including Forest Service fees which are calculated on a graduated scale based on revenue levels achieved by resort, and a \$5.6 million, or 6.7%, increase in general and administrative expenses primarily due to higher allocated corporate costs including increased employee incentive compensation expense, employee medical costs and legal expenses when compared to Fiscal 2009. The above increases were offset by a \$0.5 million, or 0.7%, decrease in retail cost of sales due to improved inventory management and lower average inventory costs resulting in improved gross margins and a \$3.3 million, or 3.2%, decrease in other expenses due primarily to lower operating supply costs resulting from improved procurement practices in addition to lower fuel costs, repairs and maintenance and property tax expense.

Mountain equity investment income primarily includes our share of income from the operations of a real estate brokerage joint venture. The increase in equity investment income for Fiscal 2010 compared to Fiscal 2009 is primarily due to a decline in operating and legal costs, partially offset by decreased commissions earned by the brokerage due to a lower level of real estate closures primarily on multi-unit projects compared to Fiscal 2009.

Lodging Segment

Lodging segment operating results for Fiscal 2011, Fiscal 2010 and Fiscal 2009 are presented by category as follows (in thousands, except ADR and RevPAR):

	Year Ended July 31,			Percentage Increase/(Decrease)	
	2011	2010	2009	2011/2010	2010/2009
Lodging net revenue:					
Owned hotel rooms	\$ 43,327	\$ 41,479	\$ 43,153	4.5 %	(3.9)%
Managed condominium rooms	39,239	32,074	34,571	22.3 %	(7.2)%
Dining	29,885	27,235	30,195	9.7 %	(9.8)%
Transportation	19,810	19,026	17,975	4.1 %	5.8 %
Golf	14,461	13,769	15,000	5.0 %	(8.2)%
Other	39,301	35,547	35,347	10.6 %	0.6 %
	186,023	169,130	176,241	10.0 %	(4.0)%
Payroll cost reimbursement	28,635	26,171	27,365	9.4 %	(4.4)%
Total Lodging net revenue	\$ 214,658	\$ 195,301	\$ 203,606	9.9 %	(4.1)%
Lodging operating expense:

Other	59,419	58,679	60,369	1.3 %	(2.8)%
	177,268	166,738	169,482	6.3 %	(1.6)%
Reimbursed payroll costs	28,635	26,171	27,365	9.4 %	(4.4)%
Total Lodging operating expense	\$ 205,903	\$ 192,909	\$ 196,847	6.7 %	(2.0)%
Lodging Reported EBITDA	\$ 8,755	\$ 2,392	\$ 6,759	266.0 %	(64.6)%

Owned hotel statistics:					
ADR	\$	194.35	\$	190.93	\$ 183.59 1.8 % 4.0 %
RevPar	\$	112.95	\$	104.90	\$ 107.06 7.7 % (2.0)%
Managed condominium statistics:					
ADR	\$	296.64	\$	291.18	\$ 273.38 1.9 % 6.5 %
RevPar	\$	83.89	\$	77.76	\$ 84.50 7.9 % (8.0)%
Owned hotel and managed condominium statistics (combined):					
ADR	\$	243.85	\$	235.02	\$ 225.12 3.8 % 4.4 %
RevPar	\$	93.82	\$	88.14	\$ 93.10 6.4 % (5.3)%

Lodging Reported EBITDA includes \$2.1 million, \$2.0 million and \$1.8 million of stock-based compensation expense for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively.

Fiscal 2011 compared to Fiscal 2010

Revenue from owned hotel rooms increased \$1.8 million, or 4.5%, for Fiscal 2011 compared to Fiscal 2010 which was driven by a increase in occupancy of 3.2 percentage points due to higher group business and transient guest visitation primarily at properties proximate to our resorts as a result of increased skier visitation as discussed in the Mountain segment of this management's discussion and analysis. GTLC room revenue for Fiscal 2011 was relatively flat compared to Fiscal 2010 as occupancy was negatively impacted in the fourth quarter of Fiscal 2011 compared to the same period in the prior year due to unfavorable weather conditions in May and June 2011 resulting in a decline in revenue of \$0.5 million. Revenue from managed condominium rooms increased \$7.2 million, or 22.3%, for Fiscal 2011 compared to the Fiscal 2010, and was primarily due to the addition of managed condominium rooms in the Lake Tahoe region, which generated \$3.8 million in revenue and the addition of managed condominium rooms at One Ski Hill Place in Breckenridge which generated \$1.5 million in revenue. Excluding the additional managed condominium rooms in the Lake Tahoe region and One Ski Hill Place in Breckenridge, revenue from managed condominium rooms increased by \$1.9 million, or 5.9%, primarily due to an increase in group business at our Keystone resort and transient guest visitation at our other managed condominiums proximate to our ski resorts.

Dining revenue for Fiscal 2011 increased \$2.7 million, or 9.7%, as compared to Fiscal 2010, due to increased group visitation, primarily at our Keystone resort (\$0.9 million increase in revenue), the addition of a new restaurant located at One Ski Hill Place in Breckenridge, and as a result of a restaurant that was closed for renovation for a portion of the prior year at the Arrabelle at Vail Square. GTLC dining revenue was relatively flat during Fiscal 2011 compared to Fiscal 2010 as revenues were negatively impacted by lower occupancy as discussed above. Transportation revenues increased \$0.8 million, or 4.1%, primarily due to an increase in passengers of 5.0% driven by increased visitation to our Colorado based resorts. Golf revenues increased \$0.7 million, or 5.0%, for Fiscal 2011 compared to Fiscal 2010, primarily due to the addition of a golf course at Northstar-at-Tahoe in Fiscal 2011 and an increase of 3.9% in the number of golf rounds played at our other golf courses. Other revenue increased \$3.8 million, or 10.6%, for Fiscal 2011 compared to Fiscal 2010 primarily due to an increase in management fee revenue from managed hotel properties, including new managed properties in the Caribbean, higher commissions earned from reservations booked through our central reservation system and an increase in conference services provided to our group business.

Operating expense (excluding reimbursed payroll costs) increased \$10.5 million, or 6.3%, for Fiscal 2011 compared to Fiscal 2010. Operating expense in the current year benefited from the receipt of \$2.9 million, net of legal expenses for the settlement of alleged damages related to the CME acquisition (included as a credit in other expense). Excluding the impact of the CME settlement, operating expense increased \$13.5 million, or 8.1%, during Fiscal 2011, compared to the same period in the prior year. Labor and labor-related benefits increased \$7.9 million, or 10.0%, for Fiscal 2011 compared to Fiscal 2010. Labor and labor-related benefits increased primarily due to higher staffing levels associated with increased occupancy and labor associated with the addition of managed condominiums in the Lake Tahoe region and at One Ski Hill Place in Breckenridge, the full year impact of the prior year's partial wage reinstatement and our matching component of the 401(k) plan, as well as a more normal level of wage increases for Fiscal 2011. General and administrative expense increased \$1.9 million, or 6.5%, primarily due to an increase in central reservation costs, and the Lodging segment component of corporate costs including labor, labor-related benefits and marketing. Other expense, excluding the CME settlement, increased \$3.7 million, or 6.2%, primarily due to increased fuel costs, as well as other variable operating costs associated with increased occupancy and volume including higher food and beverage cost of sales, credit card fees and other operating expense.

Revenue from payroll cost reimbursement and the corresponding reimbursed payroll costs relates to payroll costs at managed hotel properties where the Company is the employer and all payroll costs are reimbursed by the owners of the properties under contractual arrangements. Since the reimbursements are made based upon the costs incurred with no added margin, the revenue and corresponding expense have no effect on our Lodging Reported EBITDA.

Fiscal 2010 compared to Fiscal 2009

Total Lodging net revenue (excluding payroll cost reimbursement) for Fiscal 2010 decreased \$7.1 million, or 4.0%, compared to Fiscal 2009. We acquired CME on November 1, 2008, and as a result Lodging net revenue for Fiscal 2009 includes only nine months of operations for CME. Excluding the impact of CME revenue for the first quarter of Fiscal 2010, total Lodging net revenue decreased \$8.9 million, or 5.0% for Fiscal 2010 compared to Fiscal 2009.

Revenue from owned hotel rooms decreased \$1.7 million, or 3.9%, for Fiscal 2010 compared to Fiscal 2009, driven by a decrease in occupancy of 3.4 percentage points partially offset by an increase in ADR of 4.0%. The decrease in occupancy was primarily due to declines in occupancy at our Keystone lodging properties of 11.5 percentage points. This decrease was partially offset by a 3.9 percentage point increase in occupancy at our other lodging properties proximate to our ski resorts (excluding Keystone lodging properties) during the second half of the 2009/2010 ski season due to increased visitation particularly during the spring break and Easter holiday periods as discussed in the Mountain segment of this management's discussion and analysis for Fiscal 2010 compared to Fiscal 2009 and an increase in occupancy at GTLC of 10.8 percentage points in the fourth quarter of Fiscal 2010 compared to the fourth quarter of Fiscal 2009 driven by an increase in both transient and group room nights (GTLC's room revenue increased \$1.2 million in the fourth quarter of Fiscal 2010 compared to the fourth quarter of Fiscal 2009). Revenue from managed condominium rooms decreased \$2.5 million, or 7.2%, for Fiscal 2010 compared to Fiscal 2009, driven by a decrease in occupancy of 4.2 percentage points partially offset by an increase in ADR of 6.5%. The decrease in occupancy is largely attributed to declines in group and transient room nights primarily at our Keystone resort.

Dining revenue for Fiscal 2010 decreased \$3.0 million, or 9.8%, compared to Fiscal 2009, primarily due to a decline in group visitation primarily at our Keystone resort. This decline was partially offset by an increase in dining revenue of \$0.7 million at GTLC in the fourth quarter of Fiscal 2010 compared to the fourth quarter of Fiscal 2009 due to an increase in occupancy as discussed above. Transportation revenues were up \$1.1 million, or 5.8%, primarily due to a full twelve months of operations for CME included in Fiscal 2010 compared to only nine months of operations for CME in Fiscal 2009. Golf revenues decreased \$1.2 million, or 8.2%, for Fiscal 2010 compared to Fiscal 2009, primarily resulting from a 12.6% decrease in the number of golf rounds played.

Operating expense (excluding reimbursed payroll costs) decreased \$2.7 million, or 1.6%, for Fiscal 2010 compared to Fiscal 2009. Due to the acquisition of CME on November 1, 2008, operating expenses for Fiscal 2010 included twelve months of CME operating expenses compared to only nine months of CME operating expenses for Fiscal 2009. Excluding the impact of CME operating expenses for the first quarter of Fiscal 2010 of \$2.7 million, operating expenses decreased \$5.5 million, or 3.2%, primarily due to (i) a decrease in labor and labor-related benefits of \$4.3 million, or 5.3%, primarily due to lower staffing levels associated with decreased occupancy and the impacts of cost reduction initiatives including a company-wide wage reduction plan implemented in April 2009 (which was partially reinstated in April 2010) and the suspension of the matching contribution to our 401(k) program in January 2009 (of which the 401(k) matching program was partially reinstated in April 2010) and (ii) a decrease in other expense of \$2.7 million, or 4.5%, primarily due to decreased variable operating costs associated with lower revenue including lower food and beverage cost of sales and a decrease in operating supplies and repairs and maintenance. The above decreases were partially offset by an increase in general and administrative expense of \$1.5 million, or 5.5%, primarily due to higher Lodging segment component of corporate costs including increased employee incentive compensation expense, employee medical costs and legal expenses.

Revenue from payroll cost reimbursement and the corresponding reimbursed payroll costs relates to payroll costs at managed hotel properties where the Company is the employer and all payroll costs are reimbursed by the owners of the properties under contractual arrangements. Since the reimbursements are made based upon the costs incurred with no added margin, the revenue and corresponding expense have no effect on our Lodging Reported EBITDA.

Real Estate Segment

Real Estate segment operating results for Fiscal 2011, Fiscal 2010 and Fiscal 2009 are presented by category as follows (in thousands):

	Year Ended July 31,			Percentage Increase/(Decrease)	
	2011	2010	2009	2011/2010	2010/2009
Total Real Estate net revenue	\$ 200,197	\$ 61,007	\$ 186,150	228.2 %	(67.2)%
Real Estate operating expense:					
Cost of sales (including sales commissions)	178,295	46,397	111,669	284.3 %	(58.4)%
Other	26,937	25,005	30,401	7.7 %	(17.7)%
Total Real Estate operating expense	205,232	71,402	142,070	187.4 %	(49.7)%
Gain on sale of real property		6,087		(100.0)%	%
Real Estate Reported EBITDA	\$ (5,035)	\$ (4,308)	\$ 44,080	(16.9)%	(109.8)%

Real Estate Reported EBITDA includes \$3.3 million, \$4.5 million and \$4.1 million of stock-based compensation expense for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively.

Our Real Estate operating revenue is primarily determined by the timing of closings and the mix of real estate sold in any given period. Different types of projects have different revenue and profit margins; therefore, as the real estate inventory mix changes it can greatly impact Real Estate segment net revenue, operating expense and Real Estate Reported EBITDA.

Fiscal 2011

Real Estate segment net revenue for Fiscal 2011 was driven primarily by the closing of 71 condominium units (45 units sold to The Ritz-Carlton Development Company and 26 units sold to individuals) at The Ritz-Carlton Residences, Vail (\$186.4 million of revenue with an average selling price per unit of \$2.6 million and an average price per square foot of \$1,216). The Ritz-Carlton Residences, Vail average price per square foot is driven by The Ritz-Carlton brand, its premier Lionshead location at the base of Vail, its proximity to the Eagle Bahn gondola and the comprehensive and exclusive amenities related to the project. Additionally, during Fiscal 2011, we recognized \$7.8 million of revenue related to deposits from buyers who defaulted on units under contract at The Ritz-Carlton Residences, Vail and we closed on four condominium units at One Ski Hill Place (\$4.3 million of revenue with an average selling price per unit of \$1.1 million and an average price per square foot of \$982). The One Ski Hill Place average price per square foot is driven by its premier ski-in/ski-out location at the base of Peak 8 in Breckenridge, its close proximity to the BreckConnect gondola and other lifts and the comprehensive offering of amenities resulting from this project.

Operating expense for Fiscal 2011 included cost of sales of \$171.1 million primarily resulting from the closing of 71 condominium units at The Ritz-Carlton Residences, Vail (average cost per square foot of \$1,090) and from the closing of four condominium units at One Ski Hill Place (average cost per square foot of \$769). The cost per square foot for The Ritz-Carlton Residences, Vail is reflective of the high-end features and amenities associated with a Ritz-Carlton project compared to other Vail properties and high construction costs associated with mountain resort development. The cost per square foot for One Ski Hill Place is reflective of the high-end features and amenities associated with this project compared to other Breckenridge properties and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$7.2 million were incurred commensurate with revenue recognized. Other operating expense of \$26.9 million (including \$3.3 million of stock-based compensation expense) was primarily comprised of general and administrative costs which include marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and the Real Estate segment component of corporate costs.

Fiscal 2010

Real Estate segment net revenue for Fiscal 2010 was driven primarily by the closing of 36 condominium units at One Ski Hill Place (\$50.7 million of revenue with an average selling price per unit of \$1.4 million and an average price per square foot of \$1,241) and 17 affordable housing units associated with the JHG&TC development (\$3.1 million of revenue with an average selling price per unit of \$0.2 million and an average price per square foot of \$188). The One Ski Hill Place average price per square foot was driven by its premier ski-in/ski-out location at the base of Peak 8 in Breckenridge, its close proximity to the BreckConnect gondola and other lifts and the comprehensive offering of amenities resulting from this project. Additionally, during Fiscal 2010 we recognized \$5.2 million of revenue related to deposits from buyers who defaulted on units under contract at One Ski Hill Place, and recorded a gain on sale of real property of \$6.1 million (net of \$2.4 million in related cost of sales) for a land parcel located at the Arrowhead base area of the Beaver Creek Resort which sold for \$8.5 million.

Operating expense for Fiscal 2010 included cost of sales of \$39.7 million resulting from the closing of 36 condominium units at One Ski Hill Place (average cost per square foot of \$971) and \$3.1 million resulting from the closing of 17 affordable housing units associated with the JHG&TC development (average cost per square foot of \$188, net of impairment charges taken in previous periods). The cost per square foot for One Ski Hill Place is reflective of the high-end features and amenities associated with this project compared to other Breckenridge properties and high construction costs associated with mountain resort development.

Additionally, sales commissions of approximately \$3.6 million were incurred commensurate with revenue recognized. Other operating expense of \$25.0 million (including \$4.5 million of stock-based compensation expense) was primarily comprised of general and administrative costs which includes marketing expense for the real estate projects under development (including those that have not yet closed), overhead costs, such as labor and labor-related benefits and the Real Estate segment component of corporate costs.

Fiscal 2009

Real Estate net revenue for Fiscal 2009 was driven primarily by the closings of eight Lodge at Vail Chalet (Chalet) units (\$111.5 million of revenue with an average selling price per unit of \$13.9 million and an average price per square foot of \$2,860), 42 residences at Crystal Peak Lodge (\$54.9 million of revenue with an average selling price per unit of \$1.3 million and an average price per square foot of \$1,038) and two units at the Arrabelle (\$16.7 million of revenue with an average selling price per unit of \$8.4 million and an average price per square foot of \$1,623). The higher average price per square foot for the Chalet units was driven by their premier location at the base of Vail mountain in Vail Village and the fact that this development consisted of only 13 exclusive chalets. The Arrabelle average price per square foot is driven by its ski-in/ski-out location in Vail, and the comprehensive offering of amenities resulting from this project. The Crystal Peak Lodge average price per square foot though significantly lower than the Vail project real estate sales, is significantly higher than historical Breckenridge project real estate sales and is primarily driven by its ski-in/ski-out location at the base of Peak 7 in Breckenridge and close proximity to the BreckConnect Gondola.

Operating expense for Fiscal 2009 included cost of sales of \$101.1 million commensurate with revenue recognized, primarily driven by the closing on eight Chalet units (\$54.1 million in cost of sales with an average cost per square foot of \$1,387), 42 residences at Crystal Peak Lodge (\$34.2 million in cost of sales with an average cost per square foot of \$654) and two units at the Arrabelle (\$12.4 million in cost of sales with an average cost per square foot of \$1,204). The cost per square foot for the Arrabelle and Chalet units is reflective of the high-end features and amenities associated with these projects and the relatively high construction costs associated with mountain resort development. The cost per square foot for Crystal Peak Lodge is reflective of its less complicated design features and fewer amenities associated with this project relative to the Arrabelle and Chalet units. Additionally, sales commissions of approximately \$10.6 million were incurred commensurate with revenue recognized. Other operating expense of \$30.4 million (including \$4.1 million of stock-based compensation expense) was primarily comprised of general and administrative costs which include marketing expenses for the major real estate projects under development (including those that have not yet closed), overhead costs such as labor and labor-related benefits and the Real Estate segment component of corporate costs. In addition, included in other segment operating expense for Fiscal 2009, we recorded \$2.8 million of estimated costs in excess of anticipated sales proceeds for an affordable housing commitment resulting from the cancellation of a contract by a third party developer related to our JHG&TC development.

Other Items

In addition to segment operating results, the following material items contribute to our overall financial position.

Depreciation and amortization. Depreciation and amortization expense for both Fiscal 2011 and Fiscal 2010 increased primarily due to the impact of an increase in the fixed asset base from the placing in service of significant resort assets over the last three years, which included, among other assets, assets associated with the acquisition of Northstar-at-Tahoe and One Ski Hill Place, in Breckenridge and multiple gondolas and lifts within the last three years.

Net (income) loss attributable to noncontrolling interests, net. Net income attributable to noncontrolling interests for Fiscal 2011 decreased \$5.5 million compared to Fiscal 2010 due to our acquisition of the remaining 30.7% noncontrolling interest in SSV on April 30, 2010. Net income attributable to noncontrolling interests increased by \$3.8 million in Fiscal 2010 compared to Fiscal 2009 primarily due to the timing of the acquisition of the remaining interest in SSV at the end of the third fiscal quarter of Fiscal 2010, as the fourth fiscal quarter operations of SSV are historically a loss period.

Asset impairment charge. We previously extended a \$2.6 million note receivable, including accrued interest, to an entity that owned a hotel in which we manage. This entity was in default on certain debt held by the entity and the third party owners of the entity were unable to reach an agreement to restructure the debt with their creditor, as a result, the creditor foreclosed on the hotel in June 2011. As such, we have recorded an asset impairment charge of \$2.6 million in our Consolidated Statements of Operations for Fiscal 2011.

Loss on extinguishment of debt. In April 2011, we completed an offering for \$390 million of 6.50% Notes, the proceeds of which, along with available cash resources, were used to retire the outstanding \$390 million principal amount of 6.75% Notes and paid related call premiums, issuance costs, transaction and legal fees. Total costs to retire the 6.75% Notes and issuance costs for the 6.50% Notes were \$15.7 million, of which \$8.3 million were recorded as deferred financing costs and \$7.4 million was recorded as a loss on extinguishment. Additionally, included in the loss on extinguishment is a write off of a portion of unamortized debt issuance costs and legal fees associated with the 6.75% Notes.

Interest expense, net. Interest expense increased for Fiscal 2011 compared to Fiscal 2010 and is primarily due to the significant reduction in the capitalization of interest on self-funded real estate projects in Fiscal 2011, as all real estate projects under development have reached completion. The reduction in interest expense for Fiscal 2010 compared to Fiscal 2009 is primarily due to an increase in capitalized interest on self-funded real estate projects. Capitalized interest was \$0.6 million, \$16.3 million and \$7.6 million for Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively.

Income taxes. Our effective tax rate was 38.0%, 33.5% and 37.7% in Fiscal 2011, Fiscal 2010 and Fiscal 2009, respectively. Our tax provision and effective tax rate are driven primarily by the amount of pre-tax income, which is adjusted for items that are deductible/non-deductible for tax purposes only (i.e. permanent items), taxable income generated by state jurisdictions that varies from the consolidated pre-tax income and the amount of net income attributable to noncontrolling interests. The lower effective tax rate for Fiscal 2010 is largely driven by the higher net income attributable to noncontrolling interests recorded in Fiscal 2010. Additionally, the income tax provision recorded for Fiscal 2011 reflects a \$0.7 million income tax benefit due to a reversal of an income tax contingency resulting from the expiration of the statute of limitations. In Fiscal 2010, the tax provision reflected a \$0.3 million income tax benefit due to a reversal of an income tax contingency resulting from the expiration of the statute of limitations.

In 2005, we amended previously filed tax returns (for the tax years from 1997 through 2002) in an effort to remove restrictions under Section 382 of the Internal Revenue Code on approximately \$73.8 million of NOLs relating to fresh start accounting from our reorganization in 1992. As a result, we requested a refund related to the amended returns in the amount of \$6.2 million and have reduced our Federal tax liability in the amount of \$19.6 million in subsequent tax returns. In 2006, the IRS completed its examination of our filing position in our amended returns and disallowed our request for refund and our position to remove the restriction on the NOLs. We appealed the examiner's disallowance of the NOLs to the Office of Appeals. In December 2008, the Office of Appeals denied our appeal, as well as a request for mediation. We disagreed with the IRS interpretation disallowing the utilization of the NOLs and in August 2009, filed a complaint in the United States District Court for the District of Colorado seeking recovery of \$6.2 million in over payments that were previously denied by the IRS, plus interest. On July 1, 2011, the District Court granted us summary judgment, concluding that the IRS's decision disallowing the utilization of the NOLs was inappropriate. The sole issue now before the District Court is the amount of the tax refund to which we are entitled. The IRS is entitled to appeal the decision of the District Court to grant the motion for summary judgment and we do not know whether the IRS will do so or, if it does appeal, whether the appeal would be successful. We are also a party to two related tax proceedings in the United States Tax Court regarding calculation of NOL carryover deductions for tax years 2006, 2007 and 2008. The two proceedings involve substantially the same issues as the litigation in the District Court wherein we disagree with the IRS as to the utilization of NOLs. With respect to the case involving the 2006 tax year, a trial date has been set for November 2011, but we expect that the case will be stayed pending final resolution of the District Court case, which as described above, now only involves the determination of the tax refund to which we are entitled. Similarly, while no trial date has been set, we expect that we will stipulate with the IRS that the case involving tax years 2007 and 2008 be stayed until the District Court proceeding is resolved. Since the legal proceeding surrounding the utilization of the NOLs have not been fully resolved, including a determination of the amount of refund and the possibility that the District Court's ruling may be appealed by the IRS, there remains considerable uncertainty of what portion, if any, of the NOLs will be realized, and as such, we have not reflected any of the benefits of the utilization of the NOLs within our financial statements. However, the range of potential reversal of other long-term liabilities and accrued interest and penalties that would be recorded as a benefit to the Company's income tax provision is between zero and \$27.6 million.

Reconciliation of Non-GAAP Measures

The following table reconciles from segment Reported EBITDA to net income attributable to Vail Resorts, Inc. (in thousands):

	Year Ended July 31,		
	2011	2010	2009
Mountain Reported EBITDA	\$ 213,167	\$ 184,036	\$ 164,389
Lodging Reported EBITDA	8,755	2,392	6,759
Resort Reported EBITDA	221,922	186,428	171,148
Real Estate Reported EBITDA	(5,035)	(4,308)	44,080
Total Reported EBITDA	216,887	182,120	215,228
Depreciation and amortization	(117,957)	(110,638)	(107,213)
Loss on disposal of fixed assets, net	(555)	(615)	(1,064)
Investment income, net	719	445	1,793

Interest expense, net	(33,641)	(17,515)	(27,548)
Asset impairment charge	(2,561)		
Loss on extinguishment of debt	(7,372)		
Income before provision for income taxes	55,520	53,797	81,196
Provision for income taxes	(21,098)	(18,022)	(30,644)
Net income	34,422	35,775	50,552
Net loss (income) attributable to noncontrolling interests	67	(5,390)	(1,602)
Net income attributable to Vail Resorts, Inc.	\$ 34,489	\$ 30,385	\$ 48,950

The following table reconciles Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) (in thousands):

	July 31,	
	2011	2010
Long-term debt	\$ 490,698	\$ 524,842
Long-term debt due within one year	1,045	1,869
Total debt	491,743	526,711
Less: cash and cash equivalents	70,143	14,745
Net Debt	\$ 421,600	\$ 511,966

Liquidity and Capital Resources

Significant Sources of Cash

Historically, we have lower cash available as of our fiscal year end (as well as at the end of our first fiscal quarter of each year) as compared to our second and third fiscal quarter ends primarily due to the seasonality of our Mountain segment operations. Additionally, cash provided by operating activities can be significantly impacted by the timing or mix of closings on and investment in real estate development projects. We had \$70.1 million of cash and cash equivalents as of July 31, 2011, compared to \$14.7 million as of July 31, 2010. We generated \$267.3 million of cash from operating activities during Fiscal 2011 compared to \$36.0 million and \$134.3 million generated during Fiscal 2010 and Fiscal 2009, respectively. We currently anticipate that Resort Reported EBITDA will continue to provide a significant source of future operating cash flows combined with proceeds from the remaining inventory of real estate available for sale from the completed Ritz-Carlton Residences, Vail and One Ski Hill Place at Breckenridge projects.

In addition to our \$70.1 million of cash and cash equivalents at July 31, 2011, we have available \$332.9 million under our Credit Agreement (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$67.1 million) which was amended and restated on January 25, 2011. Key modifications to the Credit Agreement included, among other things, the extension of the maturity on the revolving credit facility from February 2012 to January 2016; the expansion of baskets for improved flexibility in our ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants. We believe the Credit Agreement, which matures in 2016, provides adequate flexibility and is priced favorably with any new borrowings currently being priced at LIBOR plus 1.50%.

In addition, on April 25, 2011, we completed an offering for \$390 million of 6.50% Notes, the proceeds of which, along with available cash resources, were used to purchase the outstanding \$390 million principal amount of 6.75% Notes and pay related premiums, fees and expenses. The 6.75% Notes were completely retired as of July 31, 2011. The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. We believe the 6.50% Notes will allow for substantially increased flexibility in our ability to incur debt and make acquisitions, investments and distributions.

Fiscal 2011 compared to Fiscal 2010

We generated \$267.3 million of cash from operating activities in Fiscal 2011, an increase of \$231.3 million when compared to the \$36.0 million of cash generated in Fiscal 2010. The increase in operating cash flows was partially a result of an increase in the number of real estate closings that occurred in Fiscal 2011 which generated \$166.0 million in net proceeds (net of sales commissions) compared to \$43.7 million generated in net proceeds (net of sales commissions) in Fiscal 2010. Additionally, investments in real estate decreased \$141.5 million in Fiscal 2011 compared to Fiscal 2010 as our real estate projects under development reached completion. Additionally, improvements in our resort operations, including from Northstar-at-Tahoe which was acquired in October 2010, resulted in an increase in Resort Reported EBITDA of \$35.5 million in Fiscal 2011 compared to Fiscal 2010. Partially offsetting the above items were an increase in the change in accounts receivable and inventory of \$10.7 million partially due to the Northstar-at-Tahoe acquisition and a decrease in the change in accounts payable and accrued liabilities of

\$10.7 million primarily due to a reduction in real estate development payables.

Cash used in investing activities increased by \$74.6 million in Fiscal 2011 compared to Fiscal 2010, due to the acquisition of Northstar-at-Tahoe in October 2010 for \$60.5 million (net of cash assumed), an increase in resort capital expenditures of \$26.7 million in Fiscal 2011, and the prior year cash receipt of \$8.9 million primarily related to a land parcel we sold in Fiscal 2010, all of which was partially offset by the acquisition of Mountain News Corporation for \$15.9 million in Fiscal 2010.

Cash used in financing activities increased \$46.8 million in Fiscal 2011 compared to Fiscal 2010. The increase in cash used in financing cash flows was primarily due to the repayment of \$35.0 million outstanding under the Credit Agreement in Fiscal 2011, payment of financing costs associated with the offering of the 6.50% Notes and retirement of the 6.75% Notes and the amended and restated Credit Agreement of \$12.4 million, and cash dividends on common stock of \$5.4 million in Fiscal 2011. The above was partially offset by the acquisition of the remaining noncontrolling interest in SSV in the prior year for \$31.0 million on April 30, 2010 and the repurchase of common stock for \$15.0 million in Fiscal 2010.

Fiscal 2010 compared to Fiscal 2009

We generated \$36.0 million of cash from operating activities in Fiscal 2010, a decrease of \$98.3 million when compared to the \$134.3 million of cash generated in Fiscal 2009. The decline in operating cash flows was primarily a result of increased real estate closings that occurred in Fiscal 2009, which generated \$126.9 million in proceeds (net of sales commissions) compared to real estate closings that occurred in Fiscal 2010, which generated \$43.7 million in proceeds (net of sales commissions). Additionally, investments in real estate increased \$4.8 million during Fiscal 2010 compared to Fiscal 2009. Further contributing to the decrease in cash provided by operating activities for Fiscal 2010 compared to Fiscal 2009 was the receipt of \$40.8 million of private club initiation fees for the Vail Mountain Club in Fiscal 2009 and a reduction in restricted cash of \$47.6 million in the Fiscal 2009 which became available for general purpose use due to the payoff of our non-recourse real estate financing. Partially offsetting the above items were improved operating cash flows from our resort operations of approximately \$15.3 million, a decrease in income tax payments of \$30.1 million and a decrease in the change in accounts receivable of \$13.5 and an increase in the change in accounts payable and accrued liabilities of \$7.0 million.

Cash used in investing activities decreased by \$61.1 million in Fiscal 2010 compared to Fiscal 2009 due to a decrease in resort capital expenditures of \$37.5 million, the acquisition of CME for \$38.2 million in Fiscal 2009 and the cash receipt of \$8.9 million primarily related to a land parcel we sold during Fiscal 2010, partially offset by the acquisition of Mountain News for \$15.9 million in Fiscal 2010.

Cash used in financing activities decreased \$75.7 million in Fiscal 2010 compared to Fiscal 2009 resulting from an increase in net borrowings under the Credit Agreement of \$35.0 million, the payoff of our non-recourse real estate financings and scheduled debt maturity of \$58.4 million and \$15.0 million, respectively in Fiscal 2009 and a decrease in repurchases of our common stock of \$7.4 million during Fiscal 2010. Partially offsetting the above items was the acquisition of the remaining noncontrolling interest in SSV for \$31.0 million on April 30, 2010.

Significant Uses of Cash

Our cash uses currently include providing for operating expenditures and capital expenditures for assets to be used in operations and to a substantially lesser degree remaining expenditures on completed real estate projects and future development projects.

We have historically invested significant cash in capital expenditures for our resort operations, and we expect to continue to invest in the future. Current capital expenditure levels will primarily include investments that allow us to maintain our high quality standards, as well as certain incremental discretionary improvements at our six ski resorts, our retail/rental business as well as throughout our owned lodging properties. Additionally, with the acquisition of Northstar-at-Tahoe to our ski resort portfolio, we are investing significantly in this resort property in the near term to enhance the guest experience. We evaluate additional discretionary capital improvements based on an expected level of return on investment. We currently anticipate we will spend approximately \$88 million to \$98 million of resort capital expenditures for calendar year 2011 excluding Northstar-at-Tahoe, and an additional \$28 million to \$32 million related to Northstar-at-Tahoe. Included in these capital expenditures are approximately \$40 million to \$44 million excluding Northstar-at-Tahoe, and an additional \$4 million to \$6 million related to Northstar-at-Tahoe, which are necessary to maintain appearance and level of service appropriate to our resort operations, including routine replacement of snow grooming equipment and rental fleet equipment. Approximately \$33 million was spent for capital expenditures, including Northstar-at-Tahoe, in calendar year 2011 as of July 31, 2011, leaving approximately \$83 million to \$97 million to spend in the remainder of calendar year 2011. Discretionary expenditures for calendar 2011 include a new high speed chairlift to serve Beaver Creek mountain; a new on-mountain

fine dining restaurant at Vail; development of significant new functionality for Epic Mix for use at all six of our resorts; renovations at certain owned lodging properties; expansion of terrain at Northstar-at-Tahoe, including a new high speed chairlift; a new on-mountain dining venue at Northstar-at-Tahoe and renovation of the commercial village at Northstar-at-Tahoe to bring in a new tenant mix. We currently plan to utilize cash on hand, borrowings available under our Credit Agreement and/or cash flow generated from future operations to provide the cash necessary to execute our capital plans. Additionally, we do not expect to make any significant income tax payments for the remainder of calendar year 2011 due to accelerated tax deductions on capital expenditures that are expected to be placed in service by calendar year end 2011 combined with estimated tax losses generated from operations through calendar year end (the Company files its tax returns on a calendar year basis), subject to a settlement of the dispute with the IRS over the utilization of NOLs previously discussed.

Principal payments on the vast majority of our long-term debt (\$487.9 million of the total \$491.7 million debt outstanding as of July 31, 2011) are not due until fiscal 2019 and beyond. As of July 31, 2011 and 2010, total long-term debt (including long-term debt due within one year) was \$491.7 million and \$526.7 million, respectively, with the decrease at July 31, 2011 being primarily due to decreased net borrowings under the Credit Agreement. Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) decreased from \$512.0 million as of July 31, 2010 to \$421.6 million as of July 31, 2011 due primarily to the increase in cash and cash equivalents and decreased net borrowings under our Credit Agreement.

Our debt service requirements can be impacted by changing interest rates as we had \$52.6 million of variable-rate debt outstanding as of July 31, 2011. A 100-basis point change in LIBOR would cause our annual interest payments to change by approximately \$0.5 million. The fluctuation in our debt service requirements, in addition to interest rate changes, may be impacted by future borrowings under our Credit Agreement or other alternative financing arrangements we may enter into. Our long term liquidity needs are dependent upon operating results that impact the borrowing capacity under the Credit Agreement, which can be mitigated by adjustments to capital expenditures, flexibility of investment activities and the ability to obtain favorable future financing. We can respond to liquidity impacts of changes in the business and economic environment by managing our capital expenditures and the timing of new real estate development activity.

On March 9, 2006, our Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of our common stock repurchase authorization by an additional 3,000,000 shares. During Fiscal 2011, we did not repurchase any shares of our common stock. Since inception of this stock repurchase plan through July 31, 2011, we have repurchased 4,264,804 shares at a cost of approximately \$162.8 million. As of July 31, 2011, 1,735,196 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under our employee share award plan. Acquisitions under the stock repurchase program may be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors, including our future financial performance, our available cash resources and competing uses for cash that may arise in the future, the restrictions in our Credit Agreement and the Indenture, dated as of April 25, 2011 among us, the guarantors therein and The Bank of New York Mellon Trust Company, N.A. as Trustee ("Indenture"), governing the 6.50% Notes, prevailing prices of our common stock and the number of shares that become available for sale at prices that we believe are attractive. The stock repurchase program may be discontinued at any time and is not expected to have a significant impact on our capitalization.

On June 7, 2011, our Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate estimated to be \$0.60 per share (or \$21.6 million annually based upon shares outstanding as of July 31, 2011), subject to quarterly declaration, with the first quarterly dividend of \$0.15 per share paid on July 18, 2011. This dividend was funded through available cash on hand. Subject to the discretion of our Board of Directors and subject to applicable law, we anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other factors considered relevant by our Board of Directors.

Covenants and Limitations

We must abide by certain restrictive financial covenants under our Credit Agreement and the Indenture. The most restrictive of those covenants include the following Credit Agreement covenants: Net Funded Debt to Adjusted EBITDA ratio and the Interest Coverage ratio (each as defined in the Credit Agreement). In addition, our financing arrangements, including the Indenture, limit our ability to make certain restricted payments, pay dividends on or redeem or repurchase stock, enter into certain investments, make certain affiliate transfers and may limit our ability to enter into certain mergers, consolidations or sales of assets and incur certain indebtedness. Our borrowing availability under the Credit Agreement is primarily determined by the Net Funded Debt to Adjusted EBITDA ratio, which is based on our segment operating performance, as defined in the Credit Agreement.

We were in compliance with all restrictive financial covenants in our debt instruments as of July 31, 2011. We expect that we will meet all applicable financial maintenance covenants in our Credit Agreement, including the Net Funded Debt to Adjusted EBITDA ratio throughout the year ending July 31, 2012. However, there can be no assurance that we will meet such financial covenants. If such covenants are not met, we would be required to seek a waiver or amendment from the banks participating in the Credit Agreement. There can be no assurance that such waiver or amendment would be granted, which could have a material adverse impact on our liquidity.

Contractual Obligations

As part of our ongoing operations, we enter into arrangements that obligate us to make future payments under contracts such as debt agreements, construction agreements in conjunction with our development activities and lease agreements. Debt obligations, which total \$491.7 million as of July 31, 2011, are recognized as liabilities in our Consolidated Balance Sheet. Obligations under construction contracts are not recognized as liabilities in our Consolidated Balance Sheet until services and/or goods are received which is in accordance with GAAP. Additionally, operating lease and service contract obligations, which total \$298.3 million as of July 31, 2011, are not recognized as liabilities in our Consolidated Balance Sheet, which is in accordance with GAAP. A summary of our contractual obligations as of July 31, 2011 is as follows (in thousands):

Contractual Obligations	Total	Fiscal 2012	Payments Due by Period		
			2-3 years	4-5 years	More than 5 years
Long-Term Debt ⁽¹⁾	\$ 491,743	\$ 1,045	\$ 1,458	\$ 777	\$ 488,463
Fixed Rate Interest ⁽¹⁾	231,002	28,951	57,025	56,977	88,049
Operating Leases and Service Contracts	298,304	31,665	51,750	45,372	169,517
Purchase Obligations ⁽²⁾	254,332	215,339	37,590	157	1,246
Total Contractual Cash Obligations	\$ 1,275,381	\$ 277,000	\$ 147,823	\$ 103,283	\$ 747,275

(1) The fixed-rate interest payments, as well as long-term debt payments, included in the table above assume that all fixed-rate debt outstanding as of July 31, 2011 will be held to maturity. Interest payments associated with variable-rate debt have not been included in the table. Assuming that the amounts outstanding under variable-rate long-term debt as of July 31, 2011 are held to maturity, and utilizing interest rates in effect at July 31, 2011, our annual interest payments (including commitment fees and letter of credit fees) on variable rate long-term debt as of July 31, 2011 is anticipated to be approximately \$1.1 million for Fiscal 2012, \$1.0 million for Fiscal 2013 and \$1.0 million for at least each of the next three years subsequent to Fiscal 2013. The future annual interest obligations noted herein are estimated only in relation to debt outstanding as of July 31, 2011, and do not reflect interest obligations on potential future debt.

(2) Purchase obligations primarily include amounts which are classified as trade payables, real estate development payables, accrued payroll and benefits, accrued fees and assessments, accrued taxes (including taxes for uncertain tax positions) on our Consolidated Balance Sheet as of July 31, 2011 and other commitments for goods and services not yet received, including construction contracts not included on our Consolidated Balance Sheet as of July 31, 2011 in accordance with GAAP.

Off Balance Sheet Arrangements

We do not have off balance sheet transactions that are expected to have a material effect on our financial condition, revenue, expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The preparation of Consolidated Financial Statements in conformity with GAAP requires us to select appropriate accounting policies and to make judgments and estimates affecting the application of those accounting policies. In applying our accounting policies, different business conditions or the use of different assumptions may result in materially different amounts reported in the Consolidated Financial Statements.

We have identified the most critical accounting policies which were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. We also have other policies considered key accounting policies; however, these policies do not meet the definition of critical accounting policies because they do not generally require us to make estimates or judgments that are complex or subjective. We have reviewed these critical accounting policies and related disclosures with our Audit Committee of the Board of Directors.

Real Estate Revenue and Cost of Sales

Description

We utilize the relative sales value method to determine cost of sales for condominium units sold within a project and/or individual parcels of real estate, when specific identification of costs cannot be reasonably determined. Additionally, the determination of cost of sales associated with our mixed-use real estate development projects may include estimates for the fair value of resort depreciable assets which are removed from project costs and separately capitalized and depreciated over their useful life.

Judgments and Uncertainties

Changes to either the relative sales values of the components of a project, which may include resort depreciable assets, or the total projected costs to be incurred to determine cost of sales may cause significant variances in the profit margins recognized on individual parcels of real estate and/or condominium units within a project.

Effect if Actual Results Differ From Assumptions

A 10% change in the estimate for the resort depreciable assets component of a project and a 10% change in remaining costs to complete a project for which real estate sales and related cost of sales were recorded in Fiscal 2011 would have changed the profit margin recognized by our Real Estate segment by approximately \$4.3 million for Fiscal 2011.

Real Estate Held for Sale and Investment

Description

We evaluate each real estate project on at least a quarterly basis to determine if indicators of potential impairment exist. Impairment indicators are assessed separately for each real estate project and include, but are not limited to: current economic conditions, the local real estate market and the number and type of real estate units we have available for sale, expected selling prices, net margins on units closed in recent months and projected margins on remaining units that are available for sale. A real estate project is considered impaired when its carrying value is greater than the undiscounted future net cash flows the project is expected to generate.

Judgments and Uncertainties

We determine the estimated cash flows by project starting with the current listing price of all units remaining to be sold by project which is then reduced by 1) an estimate for sales discounts and concessions anticipated to be given to buyers over the remaining estimated sales period that takes into consideration the current economic environment, local real estate market and the type of real estate we have held for sale; 2) marketing fees paid in conjunction with units to be sold, as applicable; 3) estimated sales commissions and other closing costs including title, transfer and escrow fees, and 4) estimated net carrying costs until units are sold, the sum of all which is compared to the carrying value for each individual real estate project.

Effect if Actual Results Differ From Assumptions

Based upon the analysis performed throughout Fiscal 2011, the estimated future cash flows of our real estate projects were in excess of their respective carrying values and as such no impairment charge has been recognized. Cash flows require considerable judgment and are sensitive to changes in underlying assumptions and factors such as the ultimate selling prices of individual units within a project and the estimated absorption period in which units are expected to be sold. As a result, there can be no assurance that the estimates and assumptions made for purposes of our impairment analysis will prove to be an accurate prediction of the future. For example, as of July 31, 2011, if our anticipated net cash proceeds (after sales concessions, discounts, selling and closing costs) on the remaining inventory of condominium units at The Ritz-Carlton Residences, Vail and One Ski Hill Place in Breckenridge were to decline by 5% compared to our current estimates we may be required to record an impairment charge on one or both of these projects.

Goodwill and Intangible Assets

Description

The carrying value of goodwill and indefinite-lived intangible assets are evaluated for possible impairment on an annual basis or between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit or indefinite-lived

intangible asset below its carrying value. Other intangible assets are evaluated for impairment when there is

evidence that events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. We are required to determine goodwill impairment using a two-step process. The first step is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount. If the carrying amount of a reporting unit exceeds its fair value, the second step of the impairment test is performed to measure the amount of impairment loss, if any. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The impairment test for indefinite-lived intangible assets consists of a comparison of the estimated fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

Judgments and Uncertainties

Application of the goodwill and indefinite-lived intangible asset impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units and determination of the fair value of reporting units and indefinite-lived intangible assets. We determine the estimated fair value of our reporting units using a discounted cash flow analysis. The estimated fair value of indefinite-lived intangible assets is primarily determined using the income approach based upon estimated future revenue streams. These analyses require significant judgments, including estimation of future cash flows, which is dependent on internal forecasts, available industry/market data (to the extent available), estimation of the long-term rate of growth for our business including expectations and assumptions regarding the impact of the timing and degree of any economic recovery, estimation of the useful life over which cash flows will occur (including terminal multiples), determination of the respective weighted average cost of capital and market participant assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and impairment for each reporting unit and indefinite-lived intangible asset. We evaluate our reporting units on an annual basis and allocate goodwill to our reporting units based on the reporting units expected to benefit from the acquisition generating the goodwill.

Effect if Actual Results Differ From Assumptions

Goodwill and indefinite-lived intangible assets are tested for impairment at least annually as of May 1st of each year. Based upon our annual impairment test performed during the fourth fiscal quarter of Fiscal 2011 the estimated fair value of our reporting units and indefinite-lived intangible assets were in excess of their respective carrying values and as such no impairment of goodwill or indefinite lived intangible assets existed and the second step of the goodwill impairment test was not required. However, we determined that certain reporting units within our Lodging segment (\$59.8 million of goodwill as of July 31, 2011) were at risk of failing step one of the goodwill impairment test, with the fair value of each of the reporting units estimated at approximately 13% in excess of their carrying values and therefore are at risk for a future impairment in the event of significant unfavorable changes in the forecasted cash flows, terminal value multiples and/or weighted-average cost of capital utilized in the discounted cash flow analysis.

Fair value determinations require considerable judgment and are sensitive to changes in underlying assumptions and factors. As a result, there can be no assurance that the estimates and assumptions made for purposes of the annual goodwill impairment test will prove to be an accurate prediction of the future. Examples of events or circumstances that could reasonably be expected to negatively affect the underlying key assumptions and ultimately impact the estimated fair values of our Lodging segment reporting units may include such items as: (i) a prolonged weakness in the general economic conditions in which the reporting units operate and therefore negatively impacting group and transient room nights and ADR; (ii) an economic recovery that significantly differs from our assumptions in timing and/or degree; and (iii) volatility in the equity and debt markets which could result in a higher discount rate.

While historical performance and current expectations have resulted in fair values of our reporting units in excess of carrying values, if our assumptions are not realized, it is possible that an impairment charge may need to be recorded in the future. However, it is not possible at this time to determine if an impairment charge would result or if such a charge would be material.

Tax Contingencies

Description

We must make certain estimates and judgments in determining income tax expense for financial statement purposes. These estimates and judgments occur in the calculation of tax credits and deductions and in the calculation of certain tax assets and liabilities, which arise from differences in the timing of recognition of revenue and expense for tax and financial statement purposes, as well as the interest and penalties relating to uncertain tax positions. The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step

requires us to estimate and measure the tax benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as this requires us to determine the probability of various possible outcomes. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit and new audit activity. A significant amount of time may pass before a particular matter, for which we may have established a reserve, is audited and fully resolved.

Judgments and Uncertainties

The estimates of our tax contingencies reserve contains uncertainty because management must use judgment to estimate the potential exposure associated with our various filing positions.

Effect if Actual Results Differ From Assumptions

Although we believe the estimates and judgments discussed herein are reasonable and we have adequate reserves for our tax contingencies, actual results could differ, and we may be exposed to increases or decreases in those reserves and tax provisions that could be material.

An unfavorable tax settlement could require the use of cash and could possibly result in an increased tax expense and effective tax rate in the year of resolution. A favorable tax settlement could possibly result in a reduction in our tax expense, effective tax rate, income taxes payable, other long-term liabilities and/or adjustments to our deferred tax assets and deferred tax liabilities in the year of settlement or in future years.

Depreciable Lives of Assets

Description

Mountain and lodging operational assets, furniture and fixtures, computer equipment, software, vehicles and leasehold improvements are primarily depreciated using the straight-line method over the estimated useful life of the asset. Assets may become obsolete or require replacement before the end of their useful life in which the remaining book value would be written-off or we could incur costs to remove or dispose of assets no longer in use.

Judgments and Uncertainties

The estimate of our useful lives of the assets contain uncertainty because management must use judgment to estimate the useful life of the asset.

Effect if Actual Results Differ From Assumptions

Although we believe the estimates and judgments discussed herein are reasonable, actual results could differ, and we may be exposed to increased expense related to depreciable assets disposed of, removed or taken out of service prior to its originally estimated useful life, which may be material. A 10% decrease in the estimated useful lives of depreciable assets would have increased depreciation expense by approximately \$12.0 million for Fiscal 2011.

New Accounting Standards

Refer to Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements for a discussion of new accounting standards.

Inflation

Although we cannot accurately determine the precise effect of inflation on our operations, management does not believe inflation has had a material effect on the results of operations in the last three fiscal years. When the costs of operating resorts increase, we generally have been able to pass the increase on to our customers. However, there can be no assurance that increases in labor and other operating costs due to inflation will not have an impact on our future profitability.

Seasonality and Quarterly Results

Our mountain and lodging operations are seasonal in nature. In particular, revenue and profits for our mountain and most of our lodging operations are substantially lower and historically result in losses from late spring to late fall. Conversely, peak operating seasons for GTLC, certain managed hotel properties and our golf courses occur during the summer months while the winter season results in operating losses. Revenue and profits generated by GTLC's summer operations, management fees from certain managed hotel properties, certain other lodging properties and golf operations are not nearly sufficient to fully offset our off-season losses from our mountain and other lodging operations. During Fiscal 2011, 81.5% of total combined Mountain and Lodging segment net revenue (excluding Lodging segment revenue associated with reimbursement of payroll costs) was earned during the second and third fiscal quarters. Therefore, the operating results for any three-month period are not necessarily indicative of the results that may be achieved for any subsequent quarter or for a full year (see Note 15, Selected Quarterly Financial Data (unaudited), of the Notes to Consolidated Financial Statements).

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk. Our exposure to market risk is limited primarily to the fluctuating interest rates associated with variable rate indebtedness. At July 31, 2011, we had \$52.6 million of variable rate indebtedness, representing approximately 10.7% of our total debt outstanding, at an average interest rate during Fiscal 2011 of 0.4%. Based on variable-rate borrowings outstanding as of July 31, 2011, a 100-basis point (or 1.0%) change in LIBOR would result in our annual interest payments changing by \$0.5 million. Our market risk exposure fluctuates based on changes in underlying interest rates.

Financial Statement Schedule:

The following consolidated financial statement schedule of the Company is filed as part of this Report on Form 10-K and should be read in conjunction with the Company's Consolidated Financial Statements:

Schedule II - Valuation and Qualifying Accounts and Reserves 60

F-1

Management's Report on Internal Control over Financial Reporting

Management of Vail Resorts, Inc. (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management, including the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of July 31, 2011. In making this assessment, management used the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that, as of July 31, 2011, the Company's internal control over financial reporting was effective.

The Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, has issued an attestation report on the Company's internal control over financial reporting as of July 31, 2011, as stated in the Report of Independent Registered Public Accounting Firm on the following page.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors

of Vail Resorts, Inc.:

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of Vail Resorts, Inc. and its subsidiaries at July 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended July 31, 2011 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of July 31, 2011, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

F-7

Notes to Consolidated Financial Statements

1. Organization and Business

Vail Resorts, Inc. (Vail Resorts or the Parent Company) is organized as a holding company and operates through various subsidiaries. Vail Resorts and its subsidiaries (collectively, the Company) currently operate in three business segments: Mountain, Lodging and Real Estate. In the Mountain segment, the Company operates six world-class ski resort properties at the Vail, Breckenridge, Keystone and Beaver Creek mountain resorts in Colorado and the Heavenly and Northstar-at-Tahoe mountain resorts in the Lake Tahoe area of California and Nevada, as well as ancillary services, primarily including ski school, dining and retail/rental operations. These resorts (with the exception of Northstar-at-Tahoe) operate primarily on Federal land under the terms of Special Use Permits granted by the USDA Forest Service (the Forest Service). In the Lodging segment, the Company owns and/or manages a collection of luxury hotels under its RockResorts brand, as well as other strategic lodging properties and a large number of condominiums located in proximity to the Company s ski resorts, the Grand Teton Lodge Company (GTLC), which operates three destination resorts at Grand Teton National Park (under a National Park Service concessionaire contract), Colorado Mountain Express (CME), a resort ground transportation company, and golf courses. Vail Resorts Development Company (VRDC), a wholly-owned subsidiary, conducts the operations of the Company s Real Estate segment, which owns and develops real estate in and around the Company s resort communities. The Company s mountain business and its lodging properties at or around the Company s ski resorts are seasonal in nature with peak operating seasons from mid-November through mid-April. The Company s operations at GTLC and its golf courses generally operate from mid-May through mid-October. The Company also has non-majority owned investments in various other entities, some of which are consolidated (see Note 8, Variable Interest Entities).

2. Summary of Significant Accounting Policies

Principles of Consolidation-- The accompanying Consolidated Financial Statements include the accounts of the Company, its majority-owned subsidiaries and all variable interest entities for which the Company is the primary beneficiary. Investments in which the Company does not have a controlling interest or is not the primary beneficiary are accounted for under the equity method. All significant intercompany transactions have been eliminated in consolidation.

Cash and Cash Equivalents-- The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents.

Restricted Cash-- Restricted cash primarily represents amounts held as state-regulated reserves for self-insured workers compensation claims and owner and guest advance deposits held in escrow for lodging reservations.

Trade Receivables-- The Company records trade accounts receivable in the normal course of business related to the sale of products or services. The Company generally charges interest on past due accounts at a rate of 18% per annum. The allowance for doubtful accounts is based on a specific reserve analysis and on a percentage of accounts receivable, and takes into consideration such factors as historical write-offs, the economic climate and other factors that could affect collectability. Write-offs are evaluated on a case by case basis.

Inventories-- The Company s inventories consist primarily of purchased retail goods, food and beverage items and spare parts. Inventories are stated at the lower of cost or fair value, determined using primarily an average weighted cost method. The Company records a reserve for estimated shrinkage and obsolete or unusable inventory.

Property, Plant and Equipment-- Property, plant and equipment is carried at cost net of accumulated depreciation. Repairs and maintenance are expensed as incurred. Expenditures that improve the functionality of the related asset or extend the useful life are capitalized. When property, plant and equipment is retired or otherwise disposed of, the related gain or loss is included in operating income. Depreciation is calculated on the straight-line method generally based on the following useful lives:

	Estimated Life in Years
Land improvements	10-35
Buildings and building improvements	7-30
Machinery and equipment	2-30
Furniture and fixtures	3-10

Edgar Filing: VAIL RESORTS INC - Form 10-K

Software
Vehicles

3-4

F-8

The Company capitalizes interest on non-real estate construction projects expected to take longer than one year to complete and cost more than \$1.0 million. The Company records capitalized interest once construction activities commence and capitalized \$0.1 million, \$1.1 million and \$0.8 million of interest on non-real estate projects during the years ended July 31, 2011, 2010 and 2009, respectively.

The Company has certain assets being used in resort operations that were constructed as amenities in conjunction with real estate development and included in project costs and expensed as the real estate was sold. Accordingly, there is no carrying value and no depreciation expense related to these assets in the Company's Consolidated Financial Statements. These assets were primarily placed in service from 1995 to 1997 with an original cost of approximately \$33.0 million and an average estimated useful life of 15 years.

Real Estate Held for Sale and Investment-- The Company capitalizes as real estate held for sale and investment the original land acquisition cost, direct construction and development costs, property taxes, interest recorded on costs related to real estate under development and other related costs, including costs that will be capitalized as resort depreciable assets associated with mixed-use real estate development projects for which the Company cannot specifically identify the components at the time of incurring such cash outflows until the property reaches its intended use. Additionally, the Company records depreciation on completed condominium units that are placed in rental programs until such units are sold. Sales and marketing expenses are charged against income in the period incurred. Sales commission expenses are charged against income in the period that the related revenue from real estate sales is recorded. The Company records capitalized interest once construction activities commence and real estate deposits have been utilized in construction. Interest capitalized on real estate development projects during the years ended July 31, 2011, 2010 and 2009 was \$0.5 million, \$15.1 million and \$6.8 million, respectively.

Deferred Financing Costs-- Certain costs incurred with the issuance of debt securities are capitalized and included in deferred charges and other assets, net of accumulated amortization. Amortization is charged to interest expense over the respective term of the applicable debt issues.

Goodwill and Intangible Assets-- The Company has classified as goodwill the cost in excess of fair value of the net assets of businesses acquired in purchase transactions. The Company's major intangible asset classes are trademarks, water rights, customer lists, property management contracts, Forest Service permits and excess reorganization value. Goodwill and certain indefinite-lived intangible assets, including trademarks, water rights and excess reorganization value, are not amortized, but are subject to at least annual impairment testing. The Company tests annually (or more often, if necessary) for impairment as of May 1. Amortizable intangible assets are amortized over the shorter of their contractual terms or estimated useful lives.

The testing for impairment consists of a comparison of the fair value of the assets with their carrying values (including goodwill and other intangibles) for each reporting unit. If the carrying amount of the assets exceed its fair value, an impairment will be recognized in an amount equal to that excess. If the carrying amount of the assets does not exceed the fair value, no impairment is recognized. The Company determines the estimated fair value of its reporting units using a discounted cash flow analysis. The fair value of indefinite-lived intangible assets is estimated using an income approach. The Company determined that there was no impairment to goodwill or intangible assets during the years ended July 31, 2011, 2010 and 2009.

Long-lived Assets-- The Company evaluates potential impairment of long-lived assets and long-lived assets to be disposed of whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable. If the sum of the expected cash flows, on an undiscounted basis, is less than the carrying amount of the asset, an impairment loss is recognized as the amount by which the carrying amount of the asset exceeds its fair value. The Company does not believe any events or changes in circumstances indicating an impairment of the carrying amount of a long-lived asset occurred during the years ended July 31, 2011, 2010 and 2009. See Note 8, Variable Interest Entities, for impairment charge recorded on a note receivable.

Revenue Recognition-- The following describes the composition of revenues for the Company:

Mountain revenue is derived from a wide variety of sources, including, among other things, sales of lift tickets (including season passes), ski school operations, dining operations, retail sales, equipment rentals, private ski club amortized initiation fees and dues, marketing and internet advertising, commercial leasing, employee housing, and municipal services, and are recognized as products are delivered or services are performed.

Lodging revenue is derived from a wide variety of sources, including, among other things, hotel operations, dining operations, property management services, managed hotel property payroll cost reimbursements, private golf club amortized initiation fees and dues, transportation services and golf course greens fees, and are recognized as products are delivered or services are performed.

Revenues from private club initiation fees are primarily recognized over the estimated life of the club facilities on a straight-line basis upon inception of the club. As of July 31, 2011, the weighted average remaining period over which the private club initiation fees will be recognized is approximately 22 years. Certain club initiation fees are refundable in 30 years after the date of acceptance of a member. Under these memberships, the difference between the amount paid by the member and the present value of the refund obligation is recorded as deferred initiation fee revenue in the Company's Consolidated Balance Sheets and recognized as revenue on a straight-line basis over 30 years. The present value of the refund obligation is recorded as an initiation deposit liability and accretes over the nonrefundable term using the effective interest method. The accretion is included in interest expense.

Real estate revenue primarily includes the sale of condominium/townhome units and land parcels (including related improvements). Recognition of revenue from all condominium/townhome unit sales are recorded using the full accrual method and occurs only upon the following: (i) substantial completion of the entire development project, (ii) receipt of certificates of occupancy or temporary certificates of occupancy from local governmental agencies, if applicable, (iii) closing of the sales transaction including receipt of all, or substantially all, sales proceeds (including any deposits previously received), and (iv) transfer of ownership. The percentage-of-completion method is used for sales of land parcels where the Company has a commitment to complete certain improvements or amenities (i.e. access roads, utilities, and site improvements) at the time of consummation of the sales transaction. For the years ended July 31, 2011 and 2010, the Company did not record any revenue earned under the percentage of completion method. The Company recorded revenue under the percentage-of-completion method of approximately \$1.5 million for the year ended July 31, 2009.

Revision of Payroll Cost Reimbursement from Managed Hotel Properties-- Revenue from reimbursement of payroll costs relates to payroll costs of managed hotel properties where the Company is the employer. The reimbursements are based upon the costs incurred with no added margin; therefore, these revenues and corresponding expenses have no net effect on the Company's operating income or net income. The Company previously reported payroll cost reimbursement from managed hotel properties net of reimbursed payroll costs; however, as the Company is the employer at certain managed hotel properties, and thus the primary obligor, these amounts should be reported gross. The Company determined that the impact of these revisions were not material to the Consolidated Statements of Operations to all applicable prior interim and annual periods. For the year ended July 31, 2011, revenue and expenses relating to reimbursed payroll costs were \$28.6 million. For the years ended July 31, 2010 and 2009, the Company revised its presentation of these reimbursed payroll costs from a net presentation to a gross presentation in its Consolidated Statements of Operations to conform to its current year presentation. The effect of this change increased Lodging net revenue for the years ended July 31, 2010 and 2009 from \$169.1 million and \$176.2 million, respectively (as previously reported in the prior year's Annual Report on Form 10-K) to \$195.3 million and \$203.6 million, respectively, with a corresponding increase in the Lodging operating expense for the years ended July 31, 2010 and 2009 from \$166.7 million and \$169.5 million, respectively (as previously reported in the prior year's Annual Report on Form 10-K) to \$192.9 million and \$196.9 million, respectively. Additionally, previously reported quarterly financial data for Fiscal 2011 and Fiscal 2010 as presented in Note 15, Selected Quarterly Financial Data (unaudited), and the information for the years ended July 31, 2010 and 2009 as presented in Note 14, Segment Information, and Note 19, Guarantor Subsidiaries and Non-Guarantor Subsidiaries have been revised to reflect these revisions.

Real Estate Cost of Sales-- Costs of real estate transactions include direct project costs, common cost allocations (primarily determined on relative sales value) and may include accrued liabilities for costs to be incurred subsequent to the sales transaction. The Company utilizes the relative sales value method to determine cost of sales for individual parcels of real estate or condominium/townhome units sold within a project, when specific identification of costs cannot be reasonably determined. Estimates of project costs and cost allocations are reviewed at the end of each financial reporting period until a project is substantially completed and available for sale. Costs are revised and reallocated as necessary for material changes on the basis of current estimates and are reported as a change in estimate in the current period. Additionally, for the year ended July 31, 2009 the Company recorded a \$2.8 million charge for an affordable housing commitment related to the Jackson Hole Golf & Tennis Club (JHG&TC) development.

Deferred Revenue-- In addition to deferring certain revenue related to private club initiation fees, the Company records deferred revenue related to the sale of season ski passes. The number of season pass holder visits is estimated based on historical data and the deferred revenue is recognized throughout the season based on this estimate, or on a straight-line basis if usage patterns cannot be determined based on available historical data.

Reserve Estimates-- The Company uses estimates to record reserves for certain liabilities, including medical claims, workers' compensation, third-party loss contingencies, liabilities for the completion of real estate sold by the Company, property taxes and loyalty reward programs among other items. The Company estimates the potential costs related to these liabilities that will be incurred and records that amount as a liability in its consolidated financial statements. These estimates are reviewed and adjusted as the facts and circumstances related to the liabilities change. The Company records legal costs related to defending claims as incurred.

Advertising Costs-- Advertising costs are expensed at the time such advertising commences. Advertising expense for the years ended July 31, 2011, 2010 and 2009 was \$20.3 million, \$18.8 million and \$17.9 million, respectively. Prepaid advertising costs as of July 31, 2011 and 2010 was \$0.2 million and \$0.3 million, respectively and is reported within other current assets in the Company's Consolidated Balance Sheets.

Income Taxes-- The Company's provision for income taxes is based on current pre-tax income, changes in deferred tax assets and liabilities and changes in estimates with regard to uncertain tax positions. Deferred tax assets and liabilities are recorded for the estimated future tax effects of temporary differences between the tax bases of assets and liabilities and amounts reported in the accompanying Consolidated Balance Sheets and for operating loss and tax credit carryforwards. The change in deferred tax assets and liabilities for the period measures the deferred tax provision or benefit for the period. Effects of changes in enacted tax laws on deferred tax assets and liabilities are reflected as adjustments to the tax provision or benefit in the period of enactment. The Company's deferred tax assets have been reduced by a valuation allowance to the extent it is deemed to be more likely than not that some or all of the deferred tax assets will not be realized. The Company recognizes liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more-likely-than-not to be sustained, on audit, including resolution of related appeals or litigation processes, if any. The second step requires the Company to estimate and measure the tax benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement (see Note 11, Income Taxes, for more information).

Fair Value of Financial Instruments-- The recorded amounts for cash and cash equivalents, receivables, other current assets, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. The fair value of amounts outstanding under the Employee Housing Bonds (as defined in Note 4, Long-Term Debt) approximate book value due to the variable nature of the interest rate associated with that debt. The fair value of the 6.50% Senior Subordinated Notes due 2019 (6.50% Notes) and the 6.75% Senior Subordinated Notes (6.75% Notes) (Note 4, Long-Term Debt) are based on quoted market prices. The fair value of the Company's Industrial Development Bonds and other long-term debt (Note 4, Long-Term Debt) have been estimated using discounted cash flow analyses based on current borrowing rates for debt with similar remaining maturities and ratings. The estimated fair value of the 6.50% Notes, 6.75% Notes, Industrial Development Bonds and other long-term debt as of July 31, 2011 and 2010 is presented below (in thousands):

	July 31, 2011		July 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
6.50% Notes	\$ 390,000	\$ 397,800	\$ --	\$ --
6.75% Notes	\$ --	\$ --	\$ 390,000	\$ 394,875
Industrial Development Bonds	\$ 41,200	\$ 47,581	\$ 42,700	\$ 48,756
Other long-term debt	\$ 7,968	\$ 8,320	\$ 6,436	\$ 6,342

Stock-Based Compensation-- Stock-based compensation expense is measured at the grant date based upon the fair value of the portion of the award that is ultimately expected to vest and is recognized as expense over the applicable vesting period of the award generally using the straight-line method (see Note 17, Stock Compensation Plan for more information). The following table shows total stock-based compensation expense for the years ended July 31, 2011, 2010 and 2009 included in the Consolidated Statements of Operations (in thousands):

	Year Ended July 31,		
	2011	2010	2009
Mountain operating expense	\$ 7,140	\$ 5,332	\$ 4,834
Lodging operating expense	2,088	2,010	1,778
Real estate operating expense	3,265	4,501	4,129
Pre-tax stock-based compensation expense	12,493	11,843	10,741
Less: benefit for income taxes	4,738	4,481	4,071
Net stock-based compensation expense	\$ 7,755	\$ 7,362	\$ 6,670

Concentration of Credit Risk-- The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and restricted cash. The Company places its cash and temporary cash investments in high quality credit institutions, but these investments may be in excess of FDIC insurance limits. The Company does not enter into financial instruments for hedging, trading or speculative purposes. Concentration of credit risk with respect to trade and notes receivables is limited due to the wide variety of customers and markets in which the Company transacts business, as well as their dispersion across many geographical areas. The Company performs ongoing credit evaluations of its customers and generally does not require collateral, but does require advance deposits on certain transactions.

Use of Estimates-- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Standards-- In June 2009, the FASB issued guidance which is included in Accounting Standards Codification (ASC) 810, Consolidation which amends the consolidation guidance for variable interest entities. Under this new standard, entities must perform a qualitative assessment in determining the primary beneficiary of a variable interest entity which includes, among other things, consideration as to whether a variable interest holder has the power to direct the activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to receive benefits of the variable interest entity that could potentially be significant to the variable interest entity. This standard was effective for the Company beginning August 1, 2010. The adoption of this accounting standard did not have a material impact on the Company's financial position or results of operations.

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-13, Multiple-Deliverables Revenue Arrangements (amendments to ASC Topic 605, Revenue Recognition, and the Emerging Issues Task Force Issue No. 08-01 Revenue Arrangements with Multiple Deliverables) which amends the revenue recognition guidance for arrangements with multiple deliverables. This new standard requires entities to allocate revenue in arrangements with multiple deliverables using estimated selling prices and eliminates the use of the residual method. The provisions of this new standard were effective for the Company beginning August 1, 2010. The adoption of this accounting standard did not have a material impact on the Company's financial position or results of operations.

3. Net Income Per Common Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income attributable to Vail Resorts stockholders by the weighted-average shares outstanding. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, resulting in the issuance of shares of common stock that would then share in the earnings of the Company. Presented below is basic and diluted EPS for the years ended July 31, 2011, 2010 and 2009 (in thousands, except per share amounts):

	Year Ended July 31,					
	2011		2010		2009	
	Basic	Diluted	Basic	Diluted	Basic	Diluted
Net income per share:						
Net income attributable to Vail Resorts, Inc.	\$ 34,489	\$ 34,489	\$ 30,385	\$ 30,385	\$ 48,950	\$ 48,950
Weighted-average shares outstanding	36,009	36,009	36,212	36,212	36,546	36,546
Effect of dilutive securities	--	745	--	519	--	127
Total shares	36,009	36,754	36,212	36,731	36,546	36,673
Net income per share attributable to Vail Resorts, Inc.	\$ 0.96	\$ 0.94	\$ 0.84	\$ 0.83	\$ 1.34	\$ 1.33

The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled 57,000, 22,000 and 795,000 for the years ended July 31, 2011, 2010 and 2009, respectively.

On June 7, 2011 the Company's Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate estimated to be \$0.60 per share, subject to quarterly declaration. During the three months ended July 31, 2011, the Company paid cash dividends of \$0.15 per share (\$5.4 million in the aggregate). On September 20, 2011 the Company's Board of Directors approved a quarterly cash dividend of \$0.15 per share payable on October 27, 2011 to stockholders of record as of October 12, 2011.

4. Long-Term Debt

Long-term debt as of July 31, 2011 and 2010 is summarized as follows (in thousands):

	Fiscal Year Maturity (a)	July 31, 2011	July 31, 2010
Credit Facility Revolver (b)	2016	\$ --	\$ 35,000
Industrial Development Bonds (c)	2020	41,200	42,700
Employee Housing Bonds (d)	2027-2039	52,575	52,575
6.50% Notes (e)	2019	390,000	--
6.75% Notes (e)	--	--	390,000
Other (f)	2012-2029	7,968	6,436
Total debt		491,743	526,711
Less: Current maturities (g)		1,045	1,869
Long-term debt		\$ 490,698	\$ 524,842

(a) Maturities are based on the Company's July 31 fiscal year end.

(b) On January 25, 2011, The Vail Corporation (the "Vail Corp"), a wholly-owned subsidiary of the Company, amended and restated its senior credit facility (the "Credit Facility"). Key modifications to the Credit Facility included, among other things, the extension of the maturity on the revolving credit facility from February 2012 to January 2016; increased grid pricing for interest rate margins (as of July 31, 2011, under the Credit Facility, at LIBOR plus 1.25%) and commitment fees (as of July 31, 2011, under the Credit Facility, at 0.25%); the expansion of baskets related to the Company's ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants.

The Credit Facility is governed by the Fifth Amended and Restated Credit Agreement ("Credit Agreement") between Vail Corp, Bank of America, N.A., as administrative agent, U.S. Bank National Association and Wells Fargo Bank, National Association as co-syndication agents, JPMorgan Chase Bank, N.A. and Deutsche Bank Securities Inc. as Co-Documentation Agents and the Lenders party thereto, and consists of a \$400 million revolving credit facility. The Company's obligations under the Credit Agreement are guaranteed by the Company and certain of its subsidiaries and are collateralized by a pledge of all of the capital stock of the Company and substantially all of its subsidiaries. The proceeds of loans made under the Credit Agreement may be used to fund the Company's working capital needs, capital expenditures, acquisitions, investments and other general corporate purposes, including the issuance of letters of credit. The Credit Agreement matures January 25, 2016. Borrowings under the Credit Agreement bear interest annually at a rate of (i) LIBOR plus a margin or (ii) the Agent's prime lending rate. Interest rate margins may fluctuate based upon the ratio of the Company's Net Funded Debt to Adjusted EBITDA (as such terms are defined in the Credit Agreement) on a trailing four-quarter basis. The Credit Agreement also includes a quarterly unused commitment fee, which is equal to a percentage determined by the Net Funded Debt to Adjusted EBITDA ratio, times the daily amount by which the Credit Agreement commitment exceeds the total of outstanding loans and outstanding letters of credit. The unused amounts are accessible to the extent that the Net Funded Debt to Adjusted EBITDA ratio does not exceed the maximum ratio allowed at quarter-ends and the Adjusted EBITDA to interest on Funded Debt (as defined in the Credit Agreement) ratio does not fall below the minimum ratio allowed at quarter-ends. The Credit Agreement provides for affirmative and negative covenants that restrict, among other things, the Company's ability to incur indebtedness, dispose of assets, make capital expenditures, make distributions and make investments. In addition, the Credit Agreement includes the following restrictive financial covenants: Net Funded Debt to Adjusted EBITDA ratio and Adjusted EBITDA to interest on Funded Debt ratio.

On April 13, 2011, Vail Corp entered into the First Amendment (the "First Amendment") to its Credit Agreement. The First Amendment amended certain of the negative covenants in the Credit Agreement, including providing for increased capacity for investments in similar businesses, increased capacity for debt incurrence, and permitting distributions of the proceeds of sales of certain real estate developments. The First Amendment became effective upon the closing of the 6.50% Notes on April 25, 2011.

(c) The Company has outstanding \$41.2 million of industrial development bonds, which were issued by Eagle County, Colorado (the "Eagle County Bonds") and mature, subject to prior redemption, on August 1, 2019. These bonds accrue interest at 6.95% per annum, with interest being payable semi-annually on February 1 and August 1. The promissory note with respect to the Eagle County Bonds between Eagle County and the Company is collateralized by the Forest Service permits for Vail and Beaver Creek.

Edgar Filing: VAIL RESORTS INC - Form 10-K

- (d) The Company has recorded for financial reporting purposes the outstanding debt of four Employee Housing Entities (each an Employee Housing Entity and collectively the Employee Housing Entities): Breckenridge Terrace, Tarnes, BC Housing and Tenderfoot. The proceeds of the Employee Housing Bonds were used to develop apartment complexes designated primarily for use by the Company's seasonal employees at its mountain resorts. The Employee Housing Bonds are variable rate, interest-only instruments with interest rates tied to LIBOR plus 0% to 0.05% (0.19% to 0.24% as of July 31, 2011).

F-13

Interest on the Employee Housing Bonds is paid monthly in arrears and the interest rate is adjusted weekly. No principal payments are due on the Employee Housing Bonds until maturity. Each Employee Housing Entity's bonds were issued in two series. The bonds for each Employee Housing Entity are backed by letters of credit issued under the Credit Facility. The table below presents the principal amounts outstanding for the Employee Housing Bonds as of July 31, 2011 (in thousands):

	Maturity (a)	Tranche A	Tranche B	Total
Breckenridge Terrace	2039	\$ 14,980	\$ 5,000	\$ 19,980
Tarnes	2039	8,000	2,410	10,410
BC Housing	2027	9,100	1,500	10,600
Tenderfoot	2035	5,700	5,885	11,585
Total		\$ 37,780	\$ 14,795	\$ 52,575

- (e) On April 25, 2011, the Company completed an offering for \$390 million of 6.50% Notes the proceeds of which, along with available cash resources, were used to purchase the outstanding \$390 million principal amount of the 6.75% Notes and pay related premiums, fees and expenses. The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. The Company has certain early redemption options under the terms of the 6.50% Notes. The premium for early redemption of the 6.50% Notes ranges from 4.875% to 0%, depending on the date of redemption. The 6.50% Notes are subordinated to certain of the Company's debts, including the Credit Agreement, and will be subordinated to certain of the Company's future debts. The Company's payment obligations under the 6.50% Notes are jointly and severally guaranteed by substantially all of the Company's current and future domestic subsidiaries. The indenture governing the 6.50% Notes contains restrictive covenants, which, among other things, limit the ability of Vail Resorts and its Restricted Subsidiaries (as defined in the Indenture) to (i) borrow money or sell preferred stock, (ii) create liens, (iii) pay dividends on or redeem or repurchase stock, (iv) make certain types of investments, (v) sell stock in the Restricted Subsidiaries, (vi) create restrictions on the ability of the Restricted Subsidiaries to pay dividends or make other payments to the Company, (vii) enter into transactions with affiliates, (viii) issue guarantees of debt and (ix) sell assets or merge with other companies. Pursuant to the registration rights agreement executed as part of the offering of the 6.50% Notes, the Company agreed to file an exchange offer registered under the Securities Act on or prior to 210 days after the closing of the offering, with such registration statement being declared effective on or prior to 270 days after the closing of the offering, and to exchange the notes for a new issue of substantially identical debt securities and guarantees. If the Company fails to satisfy its obligations under the registration rights agreement, it will be required to pay additional interest to the holders of the notes.

The Company purchased the 6.75% Notes for a call price of 101.125% of the principal balance due to the early redemption. A loss on extinguishment of debt in the amount of \$7.4 million was recorded during the year ended July 31, 2011 in connection with the transaction. The 6.75% Notes were completely retired as of July 31, 2011.

- (f) Other obligations primarily consist of a \$5.8 million note outstanding to the Colorado Water Conservation Board, which matures on September 16, 2028, and capital leases totaling \$2.2 million. Other obligations, including the Colorado Water Conservation Board note and the capital leases, bear interest at rates ranging from 1.0% to 6.0% and have maturities ranging from in the year ending July 31, 2012 to the year ending July 31, 2029.

- (g) Current maturities represent principal payments due in the next 12 months.

Aggregate maturities for debt outstanding as of July 31, 2011 reflected by fiscal year are as follows (in thousands):

	Total
2012	\$ 1,045
2013	949
2014	509
2015	533
2016	244
Thereafter	488,463
Total debt	\$ 491,743

The Company recorded gross interest expense of \$34.2 million, \$33.8 million and \$35.2 million for the years ended July 31, 2011, 2010 and 2009, respectively, of which \$1.7 million, \$1.6 million and \$2.0 million was amortization of deferred financing costs. The Company capitalized \$0.6 million, \$16.3 million and \$7.6 million of interest during the years ended July 31, 2011, 2010 and 2009, respectively. The Company was in compliance with all of its financial and operating covenants required to be maintained under its debt instruments for all periods presented.

5. Acquisitions

Northstar-at-Tahoe

On October 25, 2010, the Company acquired for cash 100% of the capital stock of BCRP Inc. and the membership interest of Northstar Group Commercial Properties LLC (together, with their subsidiaries Northstar-at-Tahoe) that operate the Northstar-at-Tahoe mountain resort in North Lake Tahoe, California from Booth Creek Resort Properties LLC and other sellers for a total consideration of \$60.5 million, net of cash acquired. Northstar-at-Tahoe is a year round mountain resort providing a comprehensive offering of recreational activities, including both snow sports and summer activities. Additionally, Northstar-at-Tahoe operates a base area village at the resort, including the subleasing of commercial retail space and condominium property management.

The following summarizes the preliminary estimated fair values of the identifiable assets acquired and liabilities assumed at the acquisition date (in thousands).

	Estimates of Acquisition Date Fair Value
Accounts receivable	\$ 2,499
Inventory	1,894
Other assets	1,422
Property, plant and equipment	9,612
Deferred income tax assets, net	15,429
Intangible assets	2,470
Goodwill	85,446
Total identifiable assets acquired	\$ 118,772
Accounts payable and accrued liabilities	\$ 6,671
Deferred revenue	5,281
Capital lease obligations	2,892
Unfavorable lease obligations, net	43,400
Total liabilities assumed	\$ 58,244
Total purchase price	\$ 60,528

The operations of Northstar-at-Tahoe are conducted on land and with operating assets owned by CNL Lifestyle Properties, Inc. primarily under operating lease agreements which were assumed by the Company. Under the terms of the leases, the Company estimates that it will be required to pay above market rates in the aggregate through the remainder of the initial lease term expiring in fiscal 2027. The Company has recorded a net unfavorable lease obligation for these leases that will be amortized as an adjustment to lease expense over the remaining initial lease term.

The excess of the purchase price over the aggregate fair values of assets acquired and liabilities assumed was recorded as goodwill. The goodwill recognized is attributable primarily to expected synergies, the assembled workforce of Northstar-at-Tahoe and other factors. None of the goodwill is expected to be deductible for income tax purposes. The intangible assets have a weighted-average amortization period of 4.6 years. The operating results of Northstar-at-Tahoe have contributed \$67.9 million of net revenue for the year ended July 31, 2011. Additionally, the Company has recognized \$4.1 million of acquisition related expenses in the Consolidated Statements of Operations for the year ended July 31, 2011.

The following presents the unaudited pro forma consolidated financial information of the Company as if the acquisition of Northstar-at-Tahoe was completed on August 1, 2009. The following unaudited pro forma financial information includes adjustments for (i) depreciation and interest expense for capital leases on acquired property, plant and equipment and amortization of intangible assets recorded at the date of acquisition; (ii) straight-line expense recognition of minimum future lease payments from the date of acquisition, including the amortization of the net unfavorable lease obligations; and (iii) acquisition related costs. This unaudited pro forma financial information is presented for informational purposes only and does not purport to be indicative of the results of future operations or the results that would have occurred had the acquisition taken place on August 1, 2009 (in thousands, except per share amounts).

F-15

	Year Ended July 31,	
	2011	2010
Pro forma net revenue	\$ 1,171,459	\$ 959,453
Pro forma net income attributable to Vail Resorts, Inc.	\$ 33,231	\$ 34,485
Pro forma basic net income per share attributable to Vail Resorts, Inc.	\$ 0.92	\$ 0.95
Pro forma diluted net income per share attributable to Vail Resorts, Inc.	\$ 0.90	\$ 0.94

Mountain News Corporation

On May 28, 2010, the Company acquired the capital stock of Mountain News Corporation (Mountain News), which owns and operates several websites focused on the ski and snowboarding industry, for total consideration of \$16.5 million. The purchase price was allocated to tangible and identifiable intangible assets acquired based on their fair values at the acquisition date. The Company allocated the purchase price and recorded \$12.9 million in goodwill, \$1.2 million in indefinite-lived intangible assets, \$2.6 million in fixed assets, \$1.7 million in other intangibles (with a weighted-average amortization period of 6.4 years) and assumed liabilities of \$0.9 million on the date of acquisition. The operating results of Mountain News are allocated to the Company's Mountain segment.

Colorado Mountain Express

On November 1, 2008, the Company acquired substantially all of the assets of CME, a resort ground transportation business, for a total consideration of \$38.2 million, as well as \$0.9 million to reimburse the seller for certain new capital expenditures as provided for in the purchase agreement. The purchase price was allocated to tangible and identifiable intangible assets acquired based on their fair values at the acquisition date. The Company allocated the purchase price and recorded \$25.7 million in goodwill, \$4.3 million in indefinite-lived intangible assets, \$6.1 million of fixed assets and \$3.2 million of other intangibles (with a weighted-average amortization period of 8.3 years) on the date of acquisition. The operating results of CME are reported within the Lodging segment.

6. Supplementary Balance Sheet Information

The composition of property, plant and equipment follows (in thousands):

	July 31,	
	2011	2010
Land and land improvements	\$ 271,742	\$ 270,382
Buildings and building improvements	801,582	769,382
Machinery and equipment	539,983	512,144
Furniture and fixtures	215,862	198,566
Software	64,408	56,498
Vehicles	40,627	35,447
Construction in progress	34,638	31,197
Gross property, plant and equipment	1,968,842	1,873,616
Accumulated depreciation	(947,106)	(846,226)
Property, plant and equipment, net	\$ 1,021,736	\$ 1,027,390

Depreciation expense for the years ended July 31, 2011, 2010 and 2009 totaled \$116.3 million, \$109.8 million and \$106.6 million, respectively.

The composition of goodwill and intangible assets follows (in thousands):

	July 31,	
	2011	2010
<i>Goodwill</i>		
Goodwill	\$ 285,412	\$ 198,439
Accumulated amortization	(17,354)	(17,354)

Accrued benefits	22,107	23,547
Accrued interest	8,511	13,939
Other accruals	27,790	21,469
Total accounts payable and accrued liabilities	\$ 221,359	\$ 255,326

The composition of other long-term liabilities follows (in thousands):

	July 31,	
	2011	2010
Private club deferred initiation fee revenue and deposits	\$ 146,065	\$ 148,184
Unfavorable lease obligation, net	38,729	--
Other long-term liabilities	50,635	48,976
Total other long-term liabilities	\$ 235,429	\$ 197,160

7. Investments in Affiliates

The Company held the following investments in equity method affiliates as of July 31, 2011:

Equity Method Affiliates	Ownership Interest
Slifer, Smith, and Frampton/Vail Associates Real Estate, LLC (SSF/VARE)	50%
KRED	50%
Clinton Ditch and Reservoir Company	43%

The Company had total net investments in equity method affiliates of \$6.7 million and \$6.2 million as of July 31, 2011 and 2010, respectively, classified as deferred charges and other assets in the accompanying Consolidated Balance Sheets. The amount of retained earnings that represent undistributed earnings of 50-percent-or-less-owned entities accounted for by the equity method was \$3.5 million and \$3.0 million as of July 31, 2011 and 2010, respectively. During the years ended July 31, 2011, 2010 and 2009, distributions in the amounts of \$1.0 million, \$3.2 million and \$1.7 million, respectively, were received from equity method affiliates.

8. Variable Interest Entities

The Company is the primary beneficiary of the Employee Housing Entities, which are Variable Interest Entities (VIEs), and has consolidated them in its Consolidated Financial Statements. As a group, as of July 31, 2011, the Employee Housing Entities had total assets of \$33.6 million (primarily recorded in property, plant and equipment, net) and total liabilities of \$62.7 million (primarily recorded in long-term debt as Employee Housing Bonds). The Company has issued under its Credit Agreement \$53.4 million letters of credit related to Employee Housing Bonds. The letters of credit would be triggered in the event that one of the entities defaults on required payments. The letters of credit have no default provisions.

The Company is the primary beneficiary of Avon Partners II, LLC (APII), which is a VIE. APII owns commercial space and the Company currently leases substantially all of that space. APII had total assets of \$4.6 million (primarily recorded in property, plant and equipment) and no debt as of July 31, 2011.

The Company, through various lodging subsidiaries, manages hotels in which the Company has no ownership interest in the entities that own such hotels. The Company previously extended a \$2.0 million note receivable to one of these entities at the time the entity acquired the hotel property that the Company managed. This entity was formed by unrelated third parties to acquire, own, operate and realize the value in a resort hotel property. This entity was in default on certain debt held by the entity and the third party owners of the entity were unable to reach an agreement to restructure the debt with their creditor, as a result, the creditor foreclosed on the hotel in June 2011. As such, the Company recorded an asset impairment charge of \$2.6 million (including accrued interest on the note receivable) in the Consolidated Statements of Operations during the year ended July 31, 2011. The Company had previously concluded that the note receivable along with the management agreement were significant variable interest in the entity that held the hotel.

9. Fair Value Measurements

The FASB issued fair value guidance that establishes how reporting entities should measure fair value for measurement and disclosure purposes. The guidance establishes a common definition of fair value applicable to all assets and liabilities measured at fair value and prioritizes

Edgar Filing: VAIL RESORTS INC - Form 10-K

the inputs into valuation techniques used to measure fair value. Accordingly, the Company uses valuation techniques which maximize the use of observable inputs and minimize the use of unobservable inputs when determining fair value. The three levels of the hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities;

Level 2: Inputs include quoted prices for similar assets and liabilities in active and inactive markets or that are observable for the asset or liability either directly or indirectly; and

F-18

Level 3: Unobservable inputs which are supported by little or no market activity.

The table below summarizes the Company's cash equivalents measured at fair value (all other assets and liabilities measured at fair value are immaterial) (in thousands):

Fair Value Measurement as of July 31, 2011

Description	Balance at July 31, 2011			
		Level 1	Level 2	Level 3
US Treasury	\$ 8,381	\$ 8,381	\$ --	\$ --
Certificates of Deposit	\$ 2,490	\$ --	\$ 2,490	\$ --

Fair Value Measurement as of July 31, 2010

Description	Balance at July 31, 2010			
		Level 1	Level 2	Level 3
Money Market	\$ 399	\$ 399	\$ --	\$ --
US Treasury	\$ 8,297	\$ 8,297	\$ --	\$ --
Certificates of Deposit	\$ 300	\$ --	\$ 300	\$ --

The Company's cash equivalents include money market funds (Level 1) and certificates of deposit (Level 2) which are measured utilizing quoted market prices or pricing models whereby all significant inputs are either observable or corroborated by observable market data.

10. Redeemable Noncontrolling Interest

On April 23, 2010, the Company entered into a transfer agreement with GSSI LLC ("GSSI"), the noncontrolling interest holder in SSV, to acquire all of GSSI's remaining 30.7% ownership interest in SSV for a negotiated price of \$31.0 million. The purchase of GSSI's interest in SSV was completed on April 30, 2010, resulting in the Company holding 100% interest in SSV. As a result of this agreement, equity-noncontrolling interest and redeemable noncontrolling interest related to SSV was eliminated. The purchase price in excess of the carrying value of the noncontrolling interest of approximately \$2.6 million (net of deferred taxes) was recorded as a reduction in additional paid-in capital. Additionally, GSSI held a management agreement with SSV which was terminated concurrent with the Company's purchase of GSSI's interest in SSV.

11. Income Taxes

As of July 31, 2011, the Company had utilized all available Federal net operating loss ("NOL") carryforwards. These NOL carryforwards expired in the year ended July 31, 2008 and were limited in deductibility each year under Section 382 of the Internal Revenue Code. The Company had only been able to use these NOL carryforwards to the extent of approximately \$8.0 million per year through December 31, 2007 (the "Section 382 Amount"). However, during the year ended July 31, 2005, the Company amended previously filed tax returns (for tax years 1997-2002) in an effort to remove the restrictions under Section 382 of the Internal Revenue Code on approximately \$73.8 million of NOL carryforwards to reduce future taxable income. As a result, the Company requested a refund related to the amended returns in the amount of \$6.2 million and has reduced its federal tax liability in the amount of \$19.6 million in subsequent returns. These NOL carryforwards relate to fresh start accounting from the Company's reorganization in 1992. During the year ended July 31, 2006, the Internal Revenue Service ("IRS") completed its examination of the Company's filing position in these amended returns and disallowed the Company's request for refund and its position to remove the restrictions under Section 382 of the Internal Revenue Code. Consequently, the accompanying financial statements and table of deferred items and components of the tax provision have only recognized benefits related to the NOL carryforwards to the extent of the Section 382 Amount reported in its tax returns prior to its amendments. The Company appealed the examiner's disallowance of these NOL

carryforwards to the Office of Appeals. In December 2008, the Office of Appeals denied the Company's appeal, as well as a request for mediation. The Company disagreed with the IRS interpretation disallowing the utilization of the NOLs and in August 2009, the Company filed a complaint in the United States District Court for the District of Colorado against the United States of America seeking a refund of approximately \$6.2 million in Federal income taxes paid. On July 1, 2011, the District Court granted the Company summary judgment, concluding that the IRS's decision disallowing the utilization of the NOLs was inappropriate. The sole issue now before the District Court is the amount of the tax refund to which the Company is entitled. The IRS is entitled to appeal the decision of the District Court to grant the motion for summary judgment and we do not know whether the IRS will do so or, if it does appeal, whether the appeal would be successful. The Company is also a party to two related tax proceedings in the United States Tax Court regarding calculation of NOL carryover deductions for tax years 2006, 2007 and 2008. The two proceedings involve substantially the same issues as the litigation in the District Court wherein the Company disagrees with the IRS as to the utilization of NOLs. With respect to the case involving the 2006 tax year, a trial date has been set for November 2011, but the Company expects that the case will be stayed pending final resolution of the District Court case, which as described above, now only involves the determination of the tax refund to which the Company is entitled. Similarly, while no trial date has been set, the Company expects that it will stipulate with the IRS that the case involving tax years 2007 and 2008 be stayed until the District Court proceeding is resolved. Since the legal proceeding surrounding the utilization of the NOLs have not been fully resolved, including a determination of the amount of refund and the possibility that the District Court's ruling may be appealed by the IRS, there remains considerable uncertainty of what portion, if any, of the NOLs will be realized, and as such, the Company has not reflected any of the benefits of the utilization of the restricted NOLs within its financial statements. However, the range of potential reversal of other long-term liabilities and accrued interest and penalties that would be recorded as a benefit to the Company's income tax provision is between zero and \$27.6 million.

The Company has state NOL carryforwards (primarily California) totaling \$30.0 million of which approximately \$4.9 million was acquired with the acquisition of Northstar-at-Tahoe during the year ended July 31, 2011 and which expire by the year ending July 31, 2031. As of July 31, 2011, the Company has recorded a valuation allowance of \$1.6 million, primarily on California NOL carryforwards generated in prior years, as the Company has determined that it is more likely than not that these NOL carryforwards will not be realized.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and income tax purposes. Significant components of the Company's deferred tax liabilities and assets are as follows (in thousands):

	July 31,	
	2011	2010
Deferred income tax liabilities:		
Fixed assets	\$ 131,024	\$ 109,921
Intangible assets	34,350	31,825
Real estate and other investments	5,326	--
Total	170,700	141,746
Deferred income tax assets:

Deferred compensation and other accrued liabilities	10,093	10,902
Stock-based compensation	13,436	10,366
Unfavorable lease obligation, net	15,754	--
Net operating loss carryforwards other tax credits	2,187	2,041
Other, net	1,985	1,612
Total	68,247	56,244
Valuation allowance for deferred income taxes	(1,588)	(1,588)
Deferred income tax assets, net of valuation allowance	66,659	54,656
Net deferred income tax liability	\$ 104,041	\$ 87,090

The net current and non-current components of deferred income taxes recognized in the Consolidated Balance Sheets are as follows (in thousands):

	July 31,	
	2011	2010
Net current deferred income tax asset	\$ 29,167	\$ 21,406
Net non-current deferred income tax liability	133,208	108,496
Net deferred income tax liability	\$ 104,041	\$ 87,090

Significant components of the provision (benefit) for income taxes are as follows (in thousands):

	Year Ended July 31,		
	2011	2010	2009
Current:			
Federal	\$ (9,886)	\$ 19,661	\$ (242)
State	(1,210)	2,788	119
Total current	(11,096)	22,449	(123)
Deferred:			
Federal	28,087	(3,989)	27,358
State	4,107	(438)	3,409
Total deferred	32,194	(4,427)	30,767
Provision for income taxes	\$ 21,098	\$ 18,022	\$ 30,644

A reconciliation of the income tax provision from continuing operations and the amount computed by applying the United States Federal statutory income tax rate to income before income taxes is as follows:

	Year Ended July 31,		
	2011	2010	2009
At U.S. Federal income tax rate	35.0 %	35.0 %	35.0 %
State income tax, net of Federal benefit	3.1 %	2.8 %	2.8 %
Nondeductible meals or entertainment	0.4 %	0.3 %	0.2 %
Noncontrolling interest	0.1 %	(3.5) %	(0.7) %
General business credits	(1.0) %	(1.1) %	(0.8) %
Other	0.4 %	-- %	1.2 %
	38.0 %	33.5 %	37.7 %

A reconciliation of the beginning and ending amount of unrecognized tax benefits associated with uncertain tax positions, excluding associated deferred tax benefits and accrued interest and penalties, if applicable, is as follows (in thousands):

	Unrecognized Tax Benefits
Balance as of August 1, 2008	\$ 17,796
Additions based on tax positions related to the current year	--
Additions for tax positions of prior years	9,524
Reductions for tax positions of prior years	--
Settlements	--
Balance as of July 31, 2009	\$ 27,320
Additions based on tax positions related to the current year	--
Additions for tax positions of prior years	--
Reductions for tax positions of prior years	--
Lapse of statute of limitations	(272)
Settlements	--
Balance as of July 31, 2010	\$ 27,048
Additions based on tax positions related to the current year	--
Additions for tax positions of prior years	--
Reductions for tax positions of prior years	--
Lapse of statute of limitations	(475)
Settlements	--
Balance as of July 31, 2011	\$ 26,573

Any unrecognized tax benefits that become more likely than not of being realized that are recorded in other long-term liabilities would decrease the Company's effective tax rate. In addition, the Company does not anticipate a significant change to its unrecognized tax benefits during the twelve months ending July 31, 2012, subject to resolution of the legal proceedings associated with the utilization of NOL carryforwards as previously discussed. The Company's policy is to accrue income tax related interest and penalties, if applicable, within income tax expense. As

Edgar Filing: VAIL RESORTS INC - Form 10-K

of July 31, 2011 and 2010, accrued interest and penalties, net of tax, is \$1.9 million and \$2.2 million, respectively. For the years ended July 31, 2011, 2010 and 2009, the Company recognized \$(0.2) million, \$(0.2) million and \$0.5 million of interest expense and penalties, net of tax, respectively.

F-21

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The IRS has completed its examination of the Company's tax returns for tax years 2001 through 2003 and has issued a report of its findings. As discussed above, the examiner's primary finding is the disallowance of the Company's position to remove the restrictions under Section 382 of the Internal Revenue Code of approximately \$73.8 million of NOL carryforwards; however, the Company has filed a complaint in Federal court. With the exception of the utilization of NOL carryforwards as discussed above, the Company is no longer subject to U.S. Federal examinations for tax years prior to 2006. With few exceptions, the Company is no longer subject to examination by various state jurisdictions for tax years prior to 2006.

12. Related Party Transactions

The Company has the right to appoint 4 of 9 directors of the Beaver Creek Resort Company of Colorado (BCRC), a non-profit entity formed for the benefit of property owners and certain others in Beaver Creek. The Company has a management agreement with the BCRC, renewable for one-year periods, to provide management services on a fixed fee basis. Management fees and reimbursement of operating expenses paid to the Company under its agreement with the BCRC during the years ended July 31, 2011, 2010 and 2009 totaled \$6.9 million, \$7.0 million and \$8.0 million, respectively.

SSF/VARE is a real estate brokerage with multiple locations in Eagle and Summit Counties, Colorado in which the Company has a 50% ownership interest. SSF/VARE has been the broker for several of the Company's developments. The Company recorded net real estate commissions expense of approximately \$3.4 million, \$3.5 million and \$9.6 million for payments made to SSF/VARE during the years ended July 31, 2011, 2010 and 2009, respectively. In addition, the Company had recorded approximately \$2.4 million of prepaid real estate commissions as of July 31, 2010. SSF/VARE leases space for real estate offices from the Company. The Company recognized approximately \$0.4 million, \$0.5 million and \$0.5 million in revenue related to these leases for the years ended July 31, 2011, 2010 and 2009, respectively.

In December 2008, Robert A. Katz, Chairman of the Board of Directors and Chief Executive Officer of the Company, purchased a unit at The Lodge at Vail Chalets project located near the Vista Bahn at the base of Vail Mountain for a total purchase price of \$14.0 million. The sale of the unit by the Company to Mr. Katz was approved by the Board of Directors of the Company in accordance with the Company's related party transactions policy.

13. Commitments and Contingencies

Metropolitan Districts

The Company credit-enhances \$8.0 million of bonds issued by Holland Creek Metropolitan District (HCMD) through an \$8.1 million letter of credit issued under the Company's Credit Agreement. HCMD's bonds were issued and used to build infrastructure associated with the Company's Red Sky Ranch residential development. The Company has agreed to pay capital improvement fees to Red Sky Ranch Metropolitan District (RSRMD) until RSRMD's revenue streams from property taxes are sufficient to meet debt service requirements under HCMD's bonds, and the Company has recorded a liability of \$1.8 million and \$1.9 million, primarily within other long-term liabilities in the accompanying Consolidated Balance Sheets as of July 31, 2011 and 2010 with respect to the estimated present value of future RSRMD capital improvement fees. The Company estimates that it will make capital improvement fee payments under this arrangement through the year ending July 31, 2028.

Guarantees/Indemnifications

As of July 31, 2011, the Company had various other letters of credit in the amount of \$59.7 million, consisting primarily of \$53.4 million in support of the Employee Housing Bonds and \$4.3 million for workers' compensation and general liability deductibles related to construction and development activities.

In addition to the guarantees noted above, the Company has entered into contracts in the normal course of business which include certain indemnifications under which it could be required to make payments to third parties upon the occurrence or non-occurrence of certain future events. These indemnities include indemnities to licensees in connection with the licensees' use of the Company's trademarks and logos, indemnities for liabilities associated with the infringement of other parties' technology and software products, indemnities related to liabilities associated with the use of easements, indemnities related to employment of contract workers, the Company's use of trustees, indemnities related to the Company's use of public lands and environmental indemnifications. The duration of these indemnities generally is indefinite and generally do not limit the future payments the Company could be obligated to make.

As permitted under applicable law, the Company and certain of its subsidiaries indemnify their directors and officers over their lifetimes for certain events or occurrences while the officer or director is, or was, serving the Company or its subsidiaries in such a capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a director and officer insurance policy that should enable the Company to recover a portion of any future amounts paid.

Unless otherwise noted, the Company has not recorded any significant liabilities for the letters of credit, indemnities and other guarantees noted above in the accompanying Consolidated Financial Statements, either because the Company has recorded on its Consolidated Balance Sheets the underlying liability associated with the guarantee, the guarantee is with respect to the Company's own performance and is therefore not subject to the measurement requirements as prescribed by GAAP, or because the Company has calculated the fair value of the indemnification or guarantee to be immaterial based upon the current facts and circumstances that would trigger a payment under the indemnification clause. In addition, with respect to certain indemnifications it is not possible to determine the maximum potential amount of liability under these guarantees due to the unique set of facts and circumstances that are likely to be involved in each particular claim and indemnification provision. Historically, payments made by the Company under these obligations have not been material.

As noted above, the Company makes certain indemnifications to licensees in connection with their use of the Company's trademarks and logos. The Company does not record any product warranty liability with respect to these indemnifications.

Commitments

The operations of Northstar-at-Tahoe are conducted on land and with operating assets owned by CNL Lifestyle Properties, Inc., a real-estate investment trust, primarily under operating leases which were assumed by the Company. The leases provide for the payment of a minimum annual base rent with a rate of 10% increasing to 11% over the lease term which is recognized on a straight-line basis over the initial lease term. In addition, the leases provide for the payment of percentage rent based on a rate of 11.5% of certain gross revenues generated at the property over a revenue threshold which is incrementally adjusted annually. The initial term of the leases expires in fiscal 2027 and allows for three 10-year extensions at the Company's option.

In addition, the Company has executed as lessee other operating leases for the rental of office and commercial space and employee residential units primarily through fiscal 2024. Certain of these leases have renewal terms at the Company's option, escalation clauses, rent holidays and leasehold improvement incentives.

Rent holidays and rent escalation clauses are recognized on a straight-line basis over the lease term. Leasehold improvement incentives are recorded as leasehold improvements and amortized over the shorter of their economic lives or the term of the lease. For the years ended July 31, 2011, 2010 and 2009, the Company recorded lease expense (including Northstar-at-Tahoe), excluding executory costs, related to these agreements of \$30.7 million, \$22.1 million and \$22.4 million, respectively, which is included in the accompanying Consolidated Statements of Operations.

Future minimum lease payments under the above leases as of July 31, 2011 are as follows (in thousands):

2012	\$	27,627
2013		25,558
2014		24,355
2015		23,625
2016		21,747
Thereafter		169,518
Total	\$	292,430

Self Insurance

The Company is self-insured for claims under its health benefit plans and for workers' compensation claims, subject to a stop loss policy. The self-insurance liability related to workers' compensation is determined actuarially based on claims filed. The self-insurance liability related to claims under the Company's health benefit plans is determined based on analysis of actual claims. The amounts related to these claims are included as a component of accrued benefits in accounts payable and accrued liabilities (see Note 6, Supplementary Balance Sheet Information).

Legal

The Company is a party to various lawsuits arising in the ordinary course of business. Management believes the Company has adequate insurance coverage and/or has accrued for loss contingencies for all known matters that are deemed to be probable losses and estimable. As of July 31, 2011 and 2010, the accrual for loss contingencies was not material individually and in the aggregate.

14. Segment Information

The Company has three reportable segments: Mountain, Lodging and Real Estate. The Mountain segment includes the operations of the Company's ski resorts and related ancillary activities. The Lodging segment includes the operations of all of the Company's owned hotels, RockResorts, GTLC, condominium management, CME and golf operations. The Real Estate segment owns and develops real estate in and around the Company's resort communities. The Company's reportable segments, although integral to the success of the others, offer distinctly different products and services and require different types of management focus. As such, these segments are managed separately.

The Company reports its segment results using Reported EBITDA (defined as segment net revenue less segment operating expenses, plus or minus segment equity investment income or loss, and for the Real Estate segment, plus gain on sale of real property) which is a non-GAAP financial measure. The Company reports segment results in a manner consistent with management's internal reporting of operating results to the chief operating decision maker (Chief Executive Officer) for purposes of evaluating segment performance.

Reported EBITDA is not a measure of financial performance under GAAP. Items excluded from Reported EBITDA are significant components in understanding and assessing financial performance. Reported EBITDA should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the consolidated financial statements as indicators of financial performance or liquidity. Because Reported EBITDA is not a measurement determined in accordance with GAAP and thus is susceptible to varying calculations, Reported EBITDA as presented may not be comparable to other similarly titled measures of other companies.

The Company utilizes Reported EBITDA in evaluating performance of the Company and in allocating resources to its segments. Mountain Reported EBITDA consists of Mountain net revenue less Mountain operating expense plus or minus Mountain equity investment income or loss. Lodging Reported EBITDA consists of Lodging net revenue less Lodging operating expense. Real Estate Reported EBITDA consists of Real Estate net revenue less Real Estate operating expense plus gain on sale of real property. All segment expenses include an allocation of corporate administrative expense. Assets are not allocated between segments, or used to evaluate performance, except as shown in the table below. The accounting policies specific to each segment are the same as those described in Note 2, Summary of Significant Accounting Policies.

Following is key financial information by reportable segment which is used by management in evaluating performance and allocating resources (in thousands):

	Year Ended July 31,

In the current year, the Company revised its presentation of reimbursed payroll costs from managed hotel properties from a net presentation to a gross presentation in its Consolidated Statements of Operations (see Note 2, Summary of Significant Accounting Policies). The effect of this change increased Lodging net revenue for the quarters ended April 30, 2011, January 31, 2011, and October 31, 2010, from \$49.8 million, \$44.7 million and \$44.4 million, respectively (as previously reported) to \$57.5 million, \$51.7 million and \$51.1 million, respectively. The effect of this change increased Lodging net revenue for the quarters ended July 31, 2010, April 30, 2010, January 31, 2010, and October 31, 2009, from \$44.2 million, \$44.9 million, \$38.7 million and \$41.4 million, respectively (as previously reported) to \$51.3 million, \$51.9 million, \$44.8 million and \$47.3 million, respectively.

16. Stock Repurchase Plan

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of the Company's common stock repurchase authorization by an additional 3,000,000 shares. During the year ended July 31, 2011, the Company did not repurchase any shares of common stock. Since inception of this stock repurchase plan through July 31, 2011, the Company has repurchased 4,264,804 shares at a cost of approximately \$162.8 million. As of July 31, 2011, 1,735,196 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plan.

17. Stock Compensation Plan

The Company has a share award plan (the Plan) which has been approved by the Company's shareholders. Under the Plan, 7.5 million shares of common stock could be issued in the form of options, stock appreciation rights, restricted shares, restricted share units, performance shares, performance share units, dividend equivalents or other share-based awards to employees, directors or consultants of the Company or its subsidiaries or affiliates. The terms of awards granted under the Plan, including exercise price, vesting period and life, are set by the Compensation Committee of the Board of Directors. All share-based awards (except for restricted shares and restricted share units) granted under the Plan have a life of ten years. Most awards vest ratably over three years; however, some have been granted with different vesting schedules. To date, no awards have been granted to non-employees (except those granted to non-employee members of the Board of Directors of the Company and of a consolidated subsidiary) under the Plan. At July 31, 2011, approximately 3.0 million share-based awards were available to be granted under the Plan.

The fair value of stock-settled stock appreciation rights (SARs) granted in the years ended July 31, 2011, 2010 and 2009 were estimated on the date of grant using a lattice-based option valuation model that applies the assumptions noted in the table below. A lattice-based model considers factors such as exercise behavior, and assumes employees will exercise equity awards at different times over the contractual life of the equity awards. As a lattice-based model considers these factors, and is more flexible, the Company considers it to be a better method of valuing equity awards than a closed-form Black-Scholes model. Because lattice-based option valuation models incorporate ranges of assumptions for inputs, those ranges are disclosed. Expected volatility is based on historical volatility of the Company's stock. The Company uses historical data to estimate equity award exercises and employee terminations within the valuation model; separate groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected term of equity awards granted is derived from the output of the option valuation model and represents the period of time that equity awards granted are expected to be outstanding; the range given below results from certain groups of employees exhibiting different behavior. The risk-free rate for periods within the contractual life of the equity award is based on the United States Treasury yield curve in effect at the time of grant.

F-26

	Year Ended July 31,		
	2011	2010	2009
Expected volatility	42.5%	43.3%	37.1-41.0%
Expected dividends	--%	--%	--%
Expected term (average in years)	4.6	4.7	5.4-5.7
Risk-free rate	0.3-4.5%	0.4-4.6%	2.1-4.9%

The Company has estimated forfeiture rates that range from 17.7% to 20.1% based upon the class of employees receiving stock-based compensation in its calculation of stock-based compensation expense for the year ended July 31, 2011. These estimates are based on historical forfeiture behavior exhibited by employees of the Company.

A summary of aggregate option and SARs award activity under the Plan as of July 31, 2009, 2010 and 2011, and changes during the years then ended is presented below (in thousands, except exercise price and contractual term):

	Awards	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at August 1, 2008	1,219	\$ 32.83		
Granted	1,055	27.88		
Exercised	(31)	17.54		
Forfeited or expired	(60)	38.97		
Outstanding at July 31, 2009	2,183	\$ 30.49		
Granted	377	35.86		
Exercised	(46)	23.60		
Forfeited or expired	(137)	42.30		
Outstanding at July 31, 2010	2,377	\$ 30.80		
Granted	371	37.40		
Exercised	(67)	20.06		
Forfeited or expired	(20)	28.59		
Outstanding at July 31, 2011	2,661	\$ 32.02	6.6 years	\$ 38,891
Exercisable at July 31, 2011	1,361	\$ 34.12	5.2 years	\$ 18,172

The weighted-average grant-date fair value of SARs granted during the years ended July 31, 2011, 2010 and 2009 was \$13.84, \$13.70 and \$10.34, respectively. The total intrinsic value of options and SARs exercised during the years ended July 31, 2011, 2010 and 2009 was \$2.0 million, \$0.7 million and \$0.3 million, respectively. The Company had 288,000, 241,000 and 315,000 options and SARs that vested during the years ended July 31, 2011, 2010 and 2009, respectively. These awards had a total fair value of \$0.7 million, \$0.6 million and \$1.5 million at the date of vesting for the years ended July 31, 2011, 2010 and 2009, respectively.

A summary of the status of the Company's nonvested SARs as of July 31, 2011, and changes during the year then ended, is presented below (in thousands, except fair value amounts):

	Awards	Weighted-Average Grant-Date Fair Value
Outstanding at July 31, 2010	1,228	\$ 7.37
Granted	371	13.84
Vested	(288)	14.98
Forfeited	(11)	10.95
Nonvested at July 31, 2011	1,300	\$ 11.17

A summary of the status of the Company's nonvested restricted share units as of July 31, 2011, and changes during the year then ended, is presented below (in thousands, except fair value amounts):

Edgar Filing: VAIL RESORTS INC - Form 10-K

		Weighted-Average Grant-Date
	Awards	Fair Value
Outstanding at July 31, 2010	371	\$ 30.07
Granted	201	37.03
Vested	(143)	41.22
Forfeited	(21)	27.86
Nonvested at July 31, 2011	408	\$ 33.47

F-27

The Company granted 201,000 restricted share units during the year ended July 31, 2011 with a weighted-average grant-date fair value of \$37.03. The Company granted 136,000 restricted share units during the year ended July 31, 2010 with a weighted-average grant-date fair value of \$36.11. The Company granted 397,000 restricted share units during the year ended July 31, 2009 with a weighted-average grant-date fair value of \$26.83. The Company had 143,000, 135,000 and 137,000 restricted share awards/units that vested during the years ended July 31, 2011, 2010 and 2009, respectively. These awards/units had a total fair value of \$5.9 million, \$4.9 million and \$3.1 million at the date of vesting for the years ended July 31, 2011, 2010 and 2009, respectively.

As of July 31, 2011, there was \$13.1 million of total unrecognized compensation expense related to nonvested share-based compensation arrangements granted under the Plan, of which \$8.0 million, \$4.4 million and \$0.7 million of expense is expected to be recognized in the years ending July 31, 2012, 2013 and 2014, respectively, assuming no future share-based awards are granted.

Cash received from options exercised under all share-based payment arrangements was \$1.1 million, \$0.5 million and \$0.6 million for the years ended July 31, 2011, 2010 and 2009, respectively. The tax benefit realized or to be realized for the tax deductions from options/SARs exercised and restricted stock awards/units vested was \$2.5 million, \$2.1 million and \$1.6 million for the years ended July 31, 2011, 2010 and 2009, respectively.

The Company has a policy of using either authorized and unissued shares or treasury shares, including shares acquired by purchase in the open market or in private transactions, to satisfy equity award exercises.

18. Retirement and Profit Sharing Plans

The Company maintains a defined contribution retirement plan (the Retirement Plan), qualified under Section 401(k) of the Internal Revenue Code, for its employees. Under this Retirement Plan, employees are eligible to make before-tax contributions on the first day of the calendar month following the later of: (i) their employment commencement date or (ii) the date they turn 21. Participants may contribute up to 100% of their qualifying annual compensation up to the annual maximum specified by the Internal Revenue Code. Prior to January 1, 2009, the Company matched an amount equal to 50% of each participant's contribution up to 6% of a participant's bi-weekly qualifying compensation upon obtaining the later of: (i) 12 consecutive months of employment and 1,000 service hours or (ii) 1,500 service hours since the employment commencement date. On January 1, 2009, the Company suspended making matching contributions to the Retirement Plan. On April 1, 2010, the Company partially reinstated its matching contributions to the Retirement Plan and plans to fully reinstate its matching contributions ratably over a three year period. The Company's matching contribution is entirely discretionary and may be fully reinstated, reduced or eliminated at any time.

Total Retirement Plan expense recognized by the Company for the years ended July 31, 2011, 2010 and 2009 was \$1.5 million, \$0.4 million and \$1.3 million, respectively.

19. Guarantor Subsidiaries and Non-Guarantor Subsidiaries

The Company's payment obligations under the 6.50% Notes (see Note 4, Long-Term Debt) are fully and unconditionally guaranteed on a joint and several, senior subordinated basis by substantially all of the Company's consolidated subsidiaries (including VR Acquisition, Inc., BCRP, Inc., Booth Creek Ski Holdings, Inc., Trimont Land Company, Northstar Commercial Properties LLC, and Northstar Group Restaurant Properties LLC (collectively, Northstar-at-Tahoe) which were non-guarantor subsidiaries under the 6.75% Notes) (collectively, and excluding Non-Guarantor Subsidiaries (as defined below), the Guarantor Subsidiaries), except for, Eagle Park Reservoir Company, Larkspur Restaurant & Bar, LLC, and certain other insignificant entities (together, the Non-Guarantor Subsidiaries). APII and the Employee Housing Entities are included with the Non-Guarantor Subsidiaries for purposes of the consolidated financial information, but are not considered subsidiaries under the indenture governing the 6.50% Notes.

Presented below is the consolidated financial information of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries. Financial information for the Non-Guarantor Subsidiaries is presented in the column titled Other Subsidiaries. Balance sheets are presented as of July 31, 2011 and 2010. Statements of operations and statements of cash flows are presented for the years ended July 31, 2011, 2010 and 2009. In the current year, the Company revised its presentation of reimbursed payroll costs from managed hotel properties from a net presentation to a gross presentation in its Consolidated Statements of Operations (see Note 2, Summary of Significant Accounting Policies). Total revenue and total operating expense in the statements of operations for the years ended July 31, 2010 and 2009 for the Guarantor Subsidiaries presented below have been revised to reflect this presentation.

Investments in subsidiaries are accounted for by the Parent Company and Guarantor Subsidiaries using the equity method of accounting. Net income (loss) of Guarantor and Non-Guarantor Subsidiaries is, therefore, reflected in the Parent Company's and Guarantor Subsidiaries' investments in and advances to (from) subsidiaries. Net income (loss) of the Guarantor and Non-Guarantor Subsidiaries is reflected in Guarantor Subsidiaries and Parent Company as equity in consolidated subsidiaries. The elimination entries eliminate investments in Other Subsidiaries and intercompany balances and transactions for consolidated reporting purposes.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Management of the Company, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), have evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Form 10-K. The term disclosure controls and procedures means controls and other procedures established by the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Based upon their evaluation of the Company's disclosure controls and procedures, the CEO and the CFO concluded that the disclosure controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

The Company, including its CEO and CFO, does not expect that the Company's internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Management's Annual Report on Internal Control Over Financial Reporting

The report of management required under this Item 9A is contained in Item 8 of this Form 10-K under the caption Management's Report on Internal Control over Financial Reporting.

Attestation Report of the Independent Registered Public Accounting Firm

The attestation report required under this Item 9A is contained in Item 8 of this Form 10-K under the caption Report of Independent Registered Public Accounting Firm.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended July 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Code of Ethics and Business Conduct. The Company has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The code of ethics and business conduct is posted in the corporate governance section of the Company's website at www.vailresorts.com. The Company will post any waiver to the code of ethics and business conduct granted to any of its officers on its website.

The additional information required by this item is incorporated herein by reference from the Company's definitive proxy statement for the 2011 annual meeting of stockholders.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this item is incorporated herein by reference from the Company's definitive proxy statement for the 2011 annual meeting of stockholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The information required by this item is incorporated herein by reference from the Company's definitive proxy statement for the 2011 annual meeting of stockholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The information required by this item is incorporated herein by reference from the Company's definitive proxy statement for the 2011 annual meeting of stockholders.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information required by this item is incorporated herein by reference from the Company's definitive proxy statement for the 2011 annual meeting of stockholders.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

- a) Index to Financial Statements and Financial Statement Schedules.
 - (1) See Item 8. Financial Statements and Supplementary Data for the index to the Financial Statements.
 - (2) All other schedules have been omitted because the required information is not applicable or because the information required has been included in the financial statements or notes thereto.
 - (3) Index to Exhibits.

The following exhibits are either filed herewith or, if so indicated, incorporated by reference to the documents indicated in parentheses, which have previously been filed with the Securities and Exchange Commission.
