**SERVICENOW, INC.**

**Overview**

ServiceNow is a leading provider of cloud-based services to automate enterprise information technology, or IT, operations. Our service includes a suite of applications built on our proprietary platform that automates workflow and integrates related business processes. We focus on transforming enterprise IT by automating and standardizing business processes and consolidating IT across the global enterprise. Organizations deploy our service to create a single system of record for enterprise IT, to lower operational costs and to enhance efficiency. Additionally, our customers use our extensible platform to build custom applications for automating activities unique to their business requirements.

We help transform IT organizations from reactive, manual and task-oriented, to pro-active, automated and service-oriented organizations. Our on-demand service enables organizations to define their IT strategy, design the systems and infrastructure that will support that strategy, and implement, manage and automate that infrastructure throughout its lifecycle. We provide a broad set of integrated applications that are highly configurable and can be efficiently implemented and upgraded. Further, our multi-instance architecture has proven scalability for global enterprises, as well as advantages in security, reliability and deployment location.

We offer our service under a Software-as-a-Service, or SaaS, business model. Customers can rapidly deploy our service in a modular fashion, allowing them to solve immediate business needs and access, configure and build new applications as their requirements evolve. Our service, which is accessed through an intuitive web-based interface, can be easily configured to adapt to customer workflow and processes. Upgrades to our service are designed to be efficient and compatible with configuration changes and applied with minimal disruption to ongoing operations.

We have achieved significant growth in recent periods. A majority of our revenues comes from large, global enterprise customers. Our total customers grew 61% from 668 as of March 31, 2011 to 1,074 as of March 31, 2012. Our customers operate in a wide variety of industries, including financial services, consumer products, IT services, health care and technology. For the fiscal years ended June 30, 2010 and 2011, our revenues grew 114% from \$43.3 million to \$92.6 million. We incurred a net loss of \$29.7 million and generated net income of \$9.8 million for the fiscal years ended June 30, 2010 and 2011, respectively. For the six months ended December 31, 2010 and 2011, our revenues grew 93% from \$37.9 million to \$73.4 million. We generated net income of \$4.8 million and incurred a net loss of \$6.7 million for the six months ended December 31, 2010 and 2011, respectively. For the three months ended March 31, 2011 and 2012, our revenues grew 88% from \$25.2 million to \$47.4 million. We generated net income of \$3.0 million and incurred a net loss of \$5.6 million for the three months ended March 31, 2011 and 2012, respectively.

**Our Industry**

*Enterprises Face Increasing Challenges in Managing and Automating IT Operations*

For decades, enterprises have invested in IT to empower their workforces and enable business critical functionality. This investment reflects enterprise dependence on a myriad of software applications, databases,

## **Table of Contents**

operating systems, servers, networking equipment, personal computers, mobile devices, and a variety of other hardware and software assets. When managing the IT environment, enterprises face significant challenges:

*Complexity of IT environments.* The accelerating adoption of cloud-based services, virtual servers and desktops, and mobile technologies has added to the complexity of enterprise IT environments.

*Budget pressures.* IT executives are consistently asked to deliver more value for less cost, and to provide transparency regarding the true costs and business value of IT investments. The most recent downturn in the global economy has heightened these demands.

*Alignment to business goals.* IT organizations are increasingly asked to be proactive and design and develop new processes that span the entire enterprise, rather than support a set of discrete technologies and react to business changes. IT organizations must develop strategies to enable necessary business changes. This has resulted in a much greater need for alignment of IT strategy and performance with overall business performance.

*Consumerization of IT.* Individuals are spending more time interacting with intuitive, social and mobile consumer-oriented Internet services. These experiences have increased business users' expectations that they can access and interact with corporate IT technologies in a similar, familiar way. IT organizations are struggling to respond to these increased demands in a cost-effective manner.

*Integration and standardization.* Enterprises need integrated and standardized solutions that work with their existing systems and follow the most recent Information Technology Infrastructure Library, or ITIL, standard, a set of recommended business processes designed and adopted by IT operations industry participants globally to maximize the availability and usability of IT assets and the efficiency of IT staff.

### ***Legacy IT Management Products Fall Short***

Organizations have invested heavily in legacy software products to manage the inventory, cost and performance of IT resources. These traditional software products were originally architected in the 1980s and 1990s before the introduction of many of today's modern computing technologies. Shortcomings of these legacy products include:

***Disparate and redundant solutions.*** Many legacy IT management products were developed and widely deployed decades ago. Vendors of these products have in many cases relied upon acquisitions and partnerships to extend their offerings and have not re-architected their solutions to provide the seamless, integrated platform that customers desire. In addition, enterprises may have overlapping solutions in various business units, especially those that have grown by acquisition or that operate globally. As a result, many enterprises operate multiple systems and infrastructures.

***Inflexible integration, customization and maintenance.*** Enterprises face numerous challenges when trying to customize legacy IT management products to meet their specific needs, as well as integrate them with third-party solutions. Due to their architectures and proprietary languages, these inflexible products often cannot be easily customized to meet customers' business requirements and are difficult to integrate and maintain. As a result, enterprises may be required to adapt their business processes to the capabilities of the software.

***Highly manual.*** Many legacy IT management products installed today are time-consuming, prone to error and prevent IT from rapidly responding to business needs.

***Upgrade challenges and disruption of service.*** Once legacy IT management products have been installed, integrated and customized, upgrades can be challenging. As new versions of the software are released on a periodic basis, customers are often required to re-implement the updated software with limited ability to carry forward customizations.

## **Table of Contents**

***Difficult to use and access.*** Many legacy IT management products lack a modern, easy to navigate user interface and were not originally designed to be accessed over the Internet or on mobile devices.

***High total cost of ownership.*** Because legacy IT management products are often disparate, inflexible, highly manual, challenging to upgrade and difficult to use and access, we believe these products have a high total cost of ownership.

## **Our Solution**

Our cloud-based service includes the following key elements:

***Broad set of integrated functionality and modular deployments.*** Our suite of applications was developed to address core ITIL processes as well as additional business processes, and runs on a single extensible platform. Our platform includes workflow automation, notification, assignment and escalation, third-party integration capabilities, reporting and administration capabilities. Our cloud-based service is designed to be deployed in a modular fashion, allowing customers to solve immediate business needs and access new application functionality as needs evolve.

***Automation of IT operations.*** Our service automates the documentation, categorization, prioritization, assignment, notification and escalation of IT and other business processes. Additionally, our service automates routine and repeatable data center operations such as rebooting a server, cloning a database or deploying a virtualized environment.

***Highly configurable and extensible to meet business needs.*** Our configuration features are designed to give customers the ability to easily alter the appearance and operation of the user interface, change and develop business rules to meet specific requirements, and extend the database schema to support the tracking and capturing of necessary data. As a result, our service enables management of IT operations without requiring changes to existing business processes. In addition, our customers and partners can use our platform to build applications to automate processes that are unique to their businesses.

***Efficient implementations and integration.*** Our cloud-based model allows customers to quickly access and deploy our service without the need to install and maintain costly infrastructure hardware and software necessary for on-premises deployments. Our service is developed on an architecture that enables efficient integration with third-party architectures and other data sources.

***Efficient upgrades.*** We design our upgrades to be compatible with customer configuration changes and applied rapidly with minimal disruption to ongoing operations, enabling customers to be on the most up-to-date version.

***Scalable, secure and reliable multi-instance architecture.*** Our multi-instance architecture is designed to provide scalability, security and reliability for customers' large, global businesses. By providing customers with dedicated applications and databases we ensure that customer data is not commingled. In addition, this architecture reduces risk associated with infrastructure outages, improves system scalability and security, and allows for flexibility in deployment location.

Our cloud-based service provides the following business benefits:

***Single system of record for IT.*** We provide a single system of record for IT executives to track assets, activities and resources across the multiple systems and infrastructures currently in use in large enterprises. This provides executives with the ability to execute their IT strategy by quickly assessing how well their IT infrastructure is supporting business processes, analyzing business needs real-time

and developing business solutions as needs evolve.

## **Table of Contents**

***Lower total cost of ownership.*** We assume complete responsibility for our service, including application set, hosting infrastructure, maintenance, monitoring, storage, security, customer support and upgrades, all of which free customer resources. Additionally, we manage, monitor and handle upgrades and patch deployments remotely, which can result in lower total cost of ownership to our customers compared to legacy IT management products.

***Easy to use and widely accessible.*** Our suite of intuitive and easy-to-use applications provides users with a familiar experience based on business-to-consumer concepts. Users can access our service through a web-based interface anywhere an Internet connection is available, including through mobile devices. We believe this ease of use and accessibility result in increased user adoption of specified processes, enhancing efficiency.

## **Our Growth Strategy**

Our goal is to be the industry-recognized leading provider of cloud-based services to automate enterprise IT operations. Key elements of our growth strategy include:

***Expand our customer base.*** We believe the global market for next-generation enterprise IT operations management is large and underserved, and we intend to continue to make investments in our business to capture increasingly larger market share. To expand our customer base we intend to invest in our direct sales force and strategic resellers as well as our data center footprint. In particular, we grew our sales and marketing team from 140 as of June 30, 2011 to 270 as of March 31, 2012.

***Further penetrate our existing customer base.*** We intend to increase the number of subscriptions purchased by our current customers as they deploy additional core ITIL and extended IT applications, and use our platform to develop custom applications to meet business needs outside of IT. Additionally, we believe there are significant cross-sell opportunities for our separately licensed Discovery and Runbook Automation technologies.

***Expand internationally.*** We have a large and growing international presence, and intend to grow our customer base in various regions. We are investing in new geographies, including investment in direct and indirect sales channels, data centers, professional services, customer support and implementation partners.

***Continue to innovate and enhance our service offerings.*** We have made, and will continue to make, significant investments in research and development to strengthen our existing applications, expand the number of applications on our platform and develop additional automation technologies. We typically offer multiple upgrades each year that allow our customers to benefit from ongoing innovation.

***Strengthen our customer community.*** We have an enthusiastic and engaged customer community that contributes to our success through their willingness to share their ServiceNow experiences with other potential customers. Customer needs drive our development efforts. We will continue to leverage our large and growing customer community to expose our existing customers to new use cases and increase awareness of our service.

***Develop our partner ecosystem.*** We intend to further develop our existing partner ecosystem by establishing agreements with strategic resellers and system integrators to provide broader customer coverage, access to senior executives and solution delivery capabilities. As we expand our base of partners, we intend to grow our indirect sales team and marketing efforts to support our distribution network.

***Further promote our extensible platform.*** We plan to grow investments in our platform to better enable the creation of custom applications to address specific business issues. We believe our platform provides substantial application development capabilities and we intend to further realize the potential of our platform as a strategy to penetrate large and growing markets.

## **Table of Contents**

### **Selected Risks Associated with Our Business**

Our business is subject to a number of risks and uncertainties, including those highlighted in the section titled "Risk Factors" immediately following this prospectus summary. Some of these risks are:

We have a limited history of operating profits and, as our growth rates decline and our costs increase, may not achieve or maintain profitability in the future;

We have experienced rapid growth in recent periods and may not be able to manage this growth and expansion, or our business may not grow as we expect;

The market for enterprise IT operations management solutions is rapidly evolving and highly competitive;

Declines in customer renewal rates would harm our future operating results;

Defects or disruptions in our service or security breaches could diminish demand for our service and subject us to substantial liability;

Interruptions or delays in service from our third-party data center facilities could impair the delivery of our service and harm our business;

Our transition from third-party hosted data centers to our own managed co-location facilities is expensive and complex, and could result in inefficiencies or operational failure and increased risk;

Our quarterly results may fluctuate and, if we fail to meet the expectations of analysts or investors, our stock price and the value of your investment could decline substantially; and

Our directors, officers and principal stockholders beneficially owned approximately 91% of our outstanding stock prior to this offering, will beneficially own approximately % after this offering and therefore will continue to have the ability to determine all matters requiring stockholder approval.

### **Corporate Information**

We were incorporated as Glidesoft, Inc. in California in June 2004 and changed our name to Service-now.com in February 2006. In May 2012, we reincorporated into Delaware as ServiceNow, Inc. Our principal executive offices are located at 12225 El Camino Real, Suite 100, San Diego, California 92130, and our telephone number is (858) 720-0477. Our website address is [www.service-now.com](http://www.service-now.com). The information contained on, or that can be accessed through, our website is not a part of this prospectus. Investors should not rely on any such information in deciding whether to purchase our common stock. We have included our website address in this prospectus solely as an inactive textual reference.

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

Unless the context indicates otherwise, as used in this prospectus, the terms ServiceNow, we, us and our refer to ServiceNow, Inc., a Delaware corporation, and its subsidiaries taken as a whole, unless otherwise noted.

In February 2012, we changed our fiscal year-end from June 30 to December 31. Throughout this prospectus, references to fiscal 2009, fiscal 2010 and fiscal 2011 are to the fiscal years ended June 30, 2009, 2010 and 2011, respectively.

We have registered the trademark SERVICENOW with the United States Patent and Trademark Office. Our ServiceNow logo, Discovery and Runbook Automation are unregistered trademarks or service marks of ServiceNow and are the property of ServiceNow. This prospectus also includes references to trademarks and service marks of other entities, and those trademarks and service marks are the property of their respective owners.

**THE OFFERING**

Common stock offered

By us shares

By the selling stockholders shares

Total shares

Common stock to be outstanding after this offering shares ( shares if the over-allotment option is exercised in full)

Over-allotment option shares (with shares being offered by us and shares being offered by the selling stockholders)

Use of proceeds We plan to use the net proceeds from this offering for general corporate purposes, including working capital. We will not receive any of the proceeds from the sale of shares of common stock by the selling stockholders. See Use of Proceeds.

Proposed New York Stock Exchange symbol NOW

The number of shares of our common stock to be outstanding after this offering is based on 111,289,770 shares of common stock outstanding as of March 31, 2012, and excludes:

36,958,079 shares of common stock issuable upon the exercise of outstanding options with a weighted-average exercise price of \$2.91 per share and 1,000,000 shares of common stock issuable pursuant to outstanding restricted stock units, or RSUs, under our 2005 Stock Plan;

4,300,809 shares of common stock reserved for future issuance under our 2005 Stock Plan; provided, however, that immediately prior to the closing of this offering, any remaining shares available for issuance under our 2005 Stock Plan will be added to the shares reserved under our 2012 Equity Incentive Plan and we will cease granting awards under the 2005 Stock Plan;

9,600,000 additional shares of common stock reserved for future issuance under our 2012 Equity Incentive Plan, which will become effective on the date immediately prior to the date on which the registration statement is declared effective; and

25,000,000 shares of common stock reserved for future issuance under our 2012 Employee Stock Purchase Plan, which will become effective upon the closing of this offering.

Unless otherwise indicated, all information in this prospectus assumes:

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

the filing of our restated certificate of incorporation and the adoption of our restated bylaws as of the closing of this offering;

no exercise by the underwriters of their option to purchase                      shares of common stock to cover over-allotments; and

the conversion of all of our outstanding shares of convertible preferred stock into an aggregate of 83,703,016 shares of common stock immediately upon the closing of this offering.

**Table of Contents****SUMMARY CONSOLIDATED FINANCIAL DATA**

The following consolidated financial data should be read together with our consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in this prospectus. We have derived the following consolidated statements of operations data for fiscal 2009, 2010 and 2011 and for the six months ended December 31, 2011 and the selected consolidated balance sheet data as of June 30, 2010 and 2011 and December 31, 2011 from our audited consolidated financial statements included elsewhere in this prospectus. The unaudited consolidated statement of operations data for the six months ended December 31, 2010 and the three months ended March 31, 2011 and 2012, and the unaudited selected consolidated balance sheet data as of March 31, 2012 are derived from our unaudited consolidated financial statements included elsewhere in this prospectus. We have prepared the unaudited financial information on the same basis as the audited consolidated financial statements and have included, in our opinion, all adjustments, consisting only of normal recurring adjustments, we consider necessary for a fair statement of the financial information set forth in those statements. Our historical results are not necessarily indicative of our results to be expected for any future period.

Diluted			113,633,033		106,558,215		108,826,598

- (1) Revenues for fiscal 2011, the six months ended December 31, 2010 and 2011 and the three months ended March 31, 2011 and 2012 reflect the prospective adoption of new revenue accounting guidance commencing on July 1, 2010. As a result of this guidance, we separately allocate value for multiple element contracts between our subscription revenues and professional services revenues based on the best estimate of selling price. Additionally, we recognize professional services revenues as the services are delivered. Please refer to Note 2 to our consolidated financial statements for further discussion of our revenue recognition policies.
- (2) Stock-based compensation included in the statements of operations above was as follows:

	Fiscal Year Ended June 30,			Six Months Ended		Three Months Ended	
	2009	2010	2011	December 31, 2010	2011	March 31, 2011	2012

- (3) Operating expenses for fiscal 2009 reflect compensation expense of \$3.8 million related to the stock settlement of an outstanding promissory note in connection with our sale and issuance of Series C preferred stock. Cost of revenues and operating expenses for fiscal 2010 reflect compensation expense of \$0.7 million and \$30.1 million, respectively, related to the repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock.
- (4) Please refer to Note 13 to our consolidated financial statements for an explanation of the method used to calculate the historical and pro forma net income (loss) per share attributable to common stockholders and the number of shares used in the computation of the per share amounts.

**Table of Contents**

	As of June 30,		As of	As of March 31, 2012		
	2010	2011	December 31,	Actual	Pro Forma <sup>(1)</sup>	Pro Forma as Adjusted <sup>(2)(3)</sup>
<b>Consolidated Balance Sheet Data:</b>						
Cash and cash equivalents	\$ 29,402	\$ 59,853	\$ 68,088	\$ 80,140	\$ 80,140	\$
Working capital, excluding deferred revenue	33,080	75,801	95,033	117,695	117,695	
Total assets	51,369	108,746	156,323	184,998	184,998	
Deferred revenue, current and non-current portion	40,731	74,646	104,636	115,757	115,757	
Convertible preferred stock	67,227	67,860	68,172	68,327		
Total stockholders' equity (deficit)	(71,262)	(58,381)	(57,426)	(40,198)	28,129	

- (1) The pro forma column reflects the conversion of all outstanding shares of our convertible preferred stock into an aggregate of 83,703,016 shares of common stock immediately upon the closing of this offering and the filing of our restated certificate of incorporation upon the closing of this offering.
- (2) The pro forma as adjusted column reflects the pro forma adjustments described above and the sale and issuance of \_\_\_\_\_ shares of common stock in this offering by us, and the receipt of the net proceeds from our sale of these shares at an assumed initial public offering price of \$ \_\_\_\_\_ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.
- (3) A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share would increase (decrease) each of cash, working capital, total assets and total stockholders' equity by approximately \$ \_\_\_\_\_ million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the underwriting discounts and commissions. Similarly, each increase (decrease) of one million shares in the number of shares offered by us would increase (decrease), cash, working capital, total assets and total stockholders' equity by approximately \$ \_\_\_\_\_ million, assuming the assumed initial public offering price remains the same and after deducting the underwriting discounts and commissions. The pro forma as adjusted information discussed above is illustrative only and will be adjusted based on the actual public offering price and other terms of this offering determined at pricing.

**Table of Contents**

**RISK FACTORS**

*Investing in our common stock involves a high degree of risk. You should consider carefully the risks and uncertainties described below, together with all of the other information in this prospectus, including the consolidated financial statements and the related notes appearing at the end of this prospectus, before deciding to invest in shares of our common stock. If any of the following risks actually occurs, our business, financial condition, results of operations and future prospects could be harmed. In that event, the market price of our common stock could decline and you could lose part or even all of your investment.*

**Risks Related to Our Business and Industry**

*We have a limited history of operating profits, did not generate a profit in the six months ended December 31, 2011 or the three months ended March 31, 2012, and may not achieve or maintain profitability in the future.*

We have not been consistently profitable on a quarterly or annual basis. Although we had net income for fiscal 2011, we experienced net losses of \$5.9 million, \$29.7 million, \$6.7 million and \$5.6 million for fiscal 2009, fiscal 2010, the six months ended December 31, 2011 and the three months ended March 31, 2012, respectively. As of March 31, 2012, our accumulated deficit was \$73.8 million. While we have experienced significant revenue growth over recent periods, we may not be able to sustain or increase our growth or return to profitability in the future. Over the past year, we have significantly increased our expenditures to support the development and expansion of our business, which has resulted in increased losses. We plan to continue to invest for future growth, and as a result, we do not expect to be profitable for the remainder of 2012. In addition, as a public company, we will incur significant accounting, legal and other expenses that we did not incur as a private company. As a result of these increased expenditures, we will have to generate and sustain increased revenues to achieve future profitability. We may incur significant losses in the future for a number of reasons, including without limitation the other risks and uncertainties described in this prospectus. Additionally, we may encounter unforeseen operating expenses, difficulties, complications, delays and other unknown factors that may result in losses in future periods. If these losses exceed our expectations or our revenue growth expectations are not met in future periods, our financial performance will be harmed.

*We have experienced rapid growth in recent periods. If we are not able to manage this growth and expansion, or if our business does not grow as we expect, our operating results may suffer.*

We continue to experience rapid growth in our customer base and have significantly expanded our operations during the last several years. In particular, we are aggressively investing in: significant expansion of our cloud infrastructure and associated service capacity; our global sales, marketing and operations activities and personnel; and additional office facility lease commitments and administrative employees. Our employee headcount has increased from 375 as of June 30, 2011 to 729 as of March 31, 2012, and we plan on adding over 400 employees during the remainder of 2012. We signed new leases for a larger corporate headquarters in San Diego in February 2012 and additional office space in San Jose in April 2012 and are currently seeking to further expand our San Jose, London and Amsterdam offices. In addition, we hired new senior management in 2011 and 2012. Our rapid growth has placed, and will continue to place, a significant strain on our administrative and operational infrastructure. Our ability to manage our operations and growth will require us to continue to refine our operational, financial and management controls, human resource policies, and reporting systems and procedures. For instance, in 2012 we plan to implement a new financial enterprise resource planning system to help manage our future growth. If we fail to efficiently expand our sales force, operations or IT and financial systems, or if we fail to implement or maintain effective internal controls and procedures, our costs and expenses may increase more than we plan and we may lose the ability to close customer opportunities, enhance our existing service, develop new applications, satisfy customer requirements, respond to competitive pressures or otherwise execute our business plan. Additionally, as our operating expenses increase in anticipation of the growth of our business, if such growth does not meet our expectations, our financial results likely would be harmed.

## **Table of Contents**

*Defects or disruptions in our service could diminish demand for our service and subject us to substantial liability.*

Like many Internet-based SaaS companies, we provide frequent incremental releases of product updates and functional enhancements. Such new versions frequently contain undetected errors when first introduced or released. We have from time to time found defects in our service, and new errors in our existing service may be detected in the future. In addition, our customers may use our service in unanticipated ways that may cause a disruption in service for other customers. Since our customers use our service for important aspects of their business, any errors, defects, disruptions in service or other performance problems with our service could hurt our reputation and may damage our customers' businesses. If that occurs, our customers may delay or withhold payment to us, elect not to renew, make service credit claims, warranty claims or other claims against us, and we could lose future sales. The occurrence of any of these events could result in an increase in our bad debt expense, an increase in collection cycles for accounts receivable, require us to increase our warranty provisions, or incur the expense or risk of litigation. Further, if we are unable to meet the stated service level commitments we have guaranteed to our customers or suffer extended periods of unavailability for our service, we may be contractually obligated to provide these customers with credits for future service. We do not carry insurance sufficient to compensate us for the potentially significant losses, including the potential harm to the future growth of our business that may result from interruptions in our service.

*Interruptions or delays in service from our third-party data center facilities could impair the delivery of our service and harm our business.*

We currently serve our customers from third-party data center facilities, operated by several different providers, located around the world, with the largest located in Boston, San Jose, Washington, D.C., London and Amsterdam. Any damage to, or failure of, our systems generally could result in interruptions in our service. As we continue to add data centers and capacity in our existing data centers, we may move or transfer our data and our customers' data. Despite precautions taken during this process, any unsuccessful data transfers may impair the delivery of our service. Any damage to, or failure of, our systems, or those of our third-party data centers, could result in interruptions in our service. Impairment of or interruptions in our service may reduce our revenues, cause us to issue credits or pay penalties, subject us to claims and litigation, cause our customers to terminate their subscriptions and adversely affect our renewal rates and our ability to attract new customers. Our business will also be harmed if our customers and potential customers believe our service is unreliable.

We do not control, or in some cases have limited control over, the operation of the data center facilities we use, and they are vulnerable to damage or interruption from earthquakes, floods, fires, power loss, telecommunications failures and similar events. They may also be subject to break-ins, sabotage, intentional acts of vandalism and similar misconduct, and to adverse events caused by operator error. For example, our third-party data center facility in London was subjected to a distributed denial of service attack in January 2012 that prevented some of our customers hosted in that data center from using our service intermittently for a period of about three hours. We cannot rapidly switch to new data centers or move customers from one data center to another in the event of any adverse event. Despite precautions taken at these facilities, the occurrence of a natural disaster, an act of terrorism or other act of malfeasance, a decision to close the facilities without adequate notice or other unanticipated problems at these facilities could result in lengthy interruptions in our service and the loss of customer data.

*Our transition from third-party hosted data centers to our own managed co-location facilities is expensive and complex, will result in a negative impact on our near-term cash flows and may negatively impact our financial results.*

We have made and will continue to make substantial investments in new equipment to support growth at our data centers and provide enhanced levels of service to our customers. First, we are transitioning from a managed service hosting model, where a third party manages most aspects of the operations, to a co-location model, where we will have more direct control over the hosting infrastructure and its operation. Second, we are investing in

---

**Table of Contents**

enhancements to our cloud architecture, which are designed to provide our customers with enhanced data reliability and reduce potential service disruptions. We anticipate a negative impact on our margins in the near term as we accelerate depreciation on certain assets from our managed service hosting data centers and incur additional rent expenses as we complete this transition. However, as our data centers scale with our anticipated customer growth, we expect this transition will improve our margins in the long-term. We expect to complete these two transitions in the second half of 2012. For purchases of equipment for use in our data centers, we made capital expenditures of \$3.1 million in the three months ended March 31, 2012 and anticipate making capital expenditures of approximately \$22.0 million during the remainder of fiscal 2012. If it takes longer than we expect to complete this transition, the negative impact on our operating results would likely exceed our initial expectations, particularly if the scope of the project grows and we deploy additional resources and hire additional personnel to complete the project. Additionally, to the extent that we are required to add data center capacity to accommodate customer demands, we may need to significantly increase the bandwidth, storage, power or other elements of our hosting operations, and the costs associated with adjustments to our data center architecture could also harm our margins and operating results.

*If our security measures are breached or unauthorized access to customer data is otherwise obtained, our service may be perceived as not being secure, customers may curtail or stop using our service, and we may incur significant liabilities.*

Our operations involve the storage and transmission of our customers' confidential information, and security breaches, computer malware and computer hacking attacks could expose us to a risk of loss of this information, litigation, indemnity obligations and other liability. While we have administrative, technical, and physical security measures in place, and try to contractually require third parties to whom we transfer data to implement and maintain appropriate security measures, if our security measures are breached as a result of third-party action, employee error, malfeasance or otherwise, and, as a result, someone obtains unauthorized access to our customers' data, including personally identifiable information regarding users, our reputation will be damaged, our business may suffer and we could incur significant liability. Additionally, third parties may attempt to fraudulently induce employees or customers into disclosing sensitive information such as user names, passwords or other information in order to gain access to our customers' data or our data, including our intellectual property and other confidential business information, or our information technology systems. Because techniques used to obtain unauthorized access or to sabotage systems change frequently and generally are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. If an actual or perceived breach of our security occurs, the market perception of the effectiveness of our security measures could be harmed and we could lose potential sales and existing customers.

*If the market for our technology delivery model and SaaS develops more slowly than we expect, our growth may slow or stall, and our operating results would be harmed.*

Use of SaaS applications to manage and automate enterprise IT is at an early stage. We do not know whether the trend of adoption of enterprise SaaS solutions we have experienced in the past will continue in the future. In particular, many organizations have invested substantial personnel and financial resources to integrate legacy software into their businesses over time, and some have been reluctant or unwilling to migrate to SaaS. Furthermore, some organizations, particularly large enterprises upon which we are dependent, have been reluctant or unwilling to use SaaS because they have concerns regarding the risks associated with the security of their data and the reliability of the technology delivery model associated with these solutions. In addition, if other SaaS providers experience security incidents, loss of customer data, disruptions in delivery or other problems, the market for SaaS solutions as a whole, including our service, will be negatively impacted. If the adoption of SaaS solutions does not continue, the market for these solutions may stop developing or may develop more slowly than we expect, either of which would harm our operating results.

---

**Table of Contents**

*The market in which we participate is intensely competitive, and if we do not compete effectively, our operating results could be harmed.*

The market for enterprise IT operations management solutions is fragmented, rapidly evolving and highly competitive, with relatively low barriers to entry in some segments. Many of our competitors and potential competitors are larger and have greater name recognition, much longer operating histories, more established customer relationships, larger marketing budgets and significantly greater resources than we do. As a result, our competitors may be able to respond more quickly and effectively than we can to new or changing opportunities, technologies, standards or customer requirements. With the introduction of new technologies, the evolution of our service and new market entrants, we expect competition to intensify in the future. If we fail to compete effectively, our business will be harmed. Some of our principal competitors offer their products or services at a lower price, which has resulted in pricing pressures. If we are unable to achieve our target pricing levels, our operating results would be negatively impacted. In addition, pricing pressures and increased competition generally could result in reduced sales, reduced margins, losses or the failure of our service to achieve or maintain more widespread market acceptance, any of which could harm our business.

We face competition from in-house solutions, large integrated systems vendors and smaller companies with point solutions including SaaS offerings. Our competitors vary in size and in the breadth and scope of the products and services offered. Our primary competitors include BMC Software, Inc., CA, Inc., Hewlett-Packard Company and International Business Machines Corporation, all of which can bundle competing products and services with other software offerings, or offer them at a low price as part of a larger sale. In addition, many of our competitors offer SaaS solutions and may make acquisitions of businesses or assets that improve their service offerings. Further, other established SaaS providers not currently operating in enterprise IT operations management may expand their services to compete with our service. Many of our current and potential competitors have established marketing relationships, access to larger customer bases, pre-existing customer relationships and major distribution agreements with consultants, system integrators and resellers. In addition, some competitors may offer software that addresses one or a limited number of enterprise IT operation functions at lower prices or with greater depth than our service. Moreover, as we expand the scope of our service, we may face additional competition from platform and application development vendors. Additionally, some potential customers, particularly large enterprises, may elect to develop their own internal solutions. For all of these reasons, we may not be able to compete successfully against our current and future competitors.

*Because our sales efforts are targeted at large enterprise customers, we face longer sales cycles, substantial upfront sales costs and less predictability in completing some of our sales. If our sales cycle lengthens, or if our substantial upfront sales investments do not result in sufficient sales, our operating results could be harmed.*

We target our sales efforts at large enterprises, which we define as companies with over \$750 million in revenues and a minimum of 200 IT employees. For instance, we derived approximately 10%, 12% and 12% of our revenues from large enterprise customers in the financial services industry for fiscal 2011, the six months ended December 31, 2011 and the three months ended March 31, 2012, respectively. Because our large enterprise customers are often making an enterprise-wide decision to deploy our service, sometimes on a global basis, we face long sales cycles, complex customer requirements, substantial upfront sales costs and less predictability in completing some of our sales. Our sales cycle is generally six to nine months, but is variable and difficult to predict and can be much longer. Large enterprises often undertake a prolonged evaluation of our service, including whether the customer needs professional services performed by us or a third party for its unique IT and business process needs, and a comparison of our service to products offered by our competitors. Moreover, our large enterprise customers often begin to deploy our service on a limited basis, but nevertheless demand extensive configuration, integration services and pricing concessions, which increase our upfront investment in the sales effort with no guarantee that these customers will deploy our service widely enough across their organization to justify our substantial upfront investment. We anticipate that in the future we may experience even longer sales cycles, more complex customer needs, higher upfront sales costs and less

## **Table of Contents**

predictability in completing some of our sales as we continue to expand our direct sales force and thereby increase the percentage of our sales personnel with less experience in selling our service, expand into new territories and expand into functional areas outside of the traditional ITIL processes. If our sales cycle lengthens or our substantial upfront sales and implementation investments do not result in sufficient sales to justify our investments, our operating results may be harmed.

***Our business depends substantially on our customers renewing their subscriptions and purchasing additional subscriptions from us. Any decline in our customer renewals would harm our future operating results.***

In order for us to maintain or improve our operating results, it is important that our customers renew their subscriptions when the initial contract term expires and add additional authorized users to their subscriptions. Our customers have no obligation to renew their subscriptions, and we cannot assure you that our customers will renew subscriptions with a similar contract period or with the same or a greater number of authorized users. Although our renewal rates have been historically high, some of our customers have elected not to renew their agreements with us and we cannot accurately predict renewal rates. Moreover, in some cases, some of our customers have the right to cancel their agreements prior to the expiration of the term.

Our renewal rates may decline or fluctuate as a result of a number of factors, including their satisfaction with our subscription service, our professional services, our customer support, our prices, the prices of competing solutions, mergers and acquisitions affecting our customer base, the effects of global economic conditions, or reductions in our customers' spending levels. Our future success also depends in part on our ability to sell more subscriptions and additional professional services to our current customers. If our customers do not renew their subscriptions, renew on less favorable terms or fail to add more authorized users or fail to purchase additional professional services, our revenues may decline, and we may not realize improved operating results from our customer base.

***If we are not able to develop enhancements and new applications that achieve market acceptance or that keep pace with technological developments, our business could be harmed.***

Our ability to attract new customers and increase revenues from existing customers depends in large part on our ability to enhance and improve our existing service and to introduce new services. In order to grow our business, we must develop a service that reflects future updates to the ITIL framework and extends beyond the ITIL framework into other areas of enterprise IT operations management. The success of any enhancement or new service depends on several factors, including timely completion, adequate quality testing, introduction and market acceptance. Any new service that we develop may not be introduced in a timely or cost-effective manner, contain defects or may not achieve the broad market acceptance necessary to generate significant revenues. If we are unable to successfully develop new applications or enhance our existing service to meet customer requirements, our business and operating results will be harmed.

Because we designed our service to be provided over the Internet, we need to continuously modify and enhance our service to keep pace with changes in Internet-related hardware, software, communication and database technologies and standards. If we are unable to respond in a timely manner to these rapid technological developments and standards changes in a cost-effective manner, our service may become less marketable and less competitive or obsolete and our operating results may be harmed.

***We may not timely and effectively scale and adapt our existing technology to meet the performance and other requirements of our large global enterprise customers.***

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

Our future growth is dependent upon our ability to continue to meet the expanding needs of our large enterprise customers as their use of our service grows. As these customers gain more experience with our service, the number of users and transactions managed by our service, the amount of data transferred, processed and stored by us, the number of locations where our service is being accessed, and the number of processes and systems managed by our service on behalf of these customers have in some cases, and may in the future, expand rapidly. In order to ensure that we meet the performance and other requirements of these large enterprise

## **Table of Contents**

customers, we intend to continue to make significant investments to develop and implement new technologies in our service and cloud infrastructure operations. These technologies, which include databases, applications and server optimizations, network and hosting strategies, and automation, are often advanced, complex, new and untested. We may not be successful in developing or implementing these technologies. To the extent that we do not effectively scale our service and operations to maintain performance as our customers expand their use of our service, our business and operating results may be harmed.

***If we fail to integrate our service with a variety of operating systems, software applications and hardware that are developed by others, our service may become less marketable and less competitive or obsolete, and our operating results would be harmed.***

Our service must integrate with a variety of network, hardware and software platforms, and we need to continuously modify and enhance our platform to adapt to changes in cloud-enabled hardware, software, networking, browser and database technologies. Any failure of our service to operate effectively with future infrastructure platforms and technologies could reduce the demand for our service, resulting in customer dissatisfaction and harm to our business. If we are unable to respond to these changes in a cost-effective manner, our service may become less marketable and less competitive or obsolete and our operating results may be negatively impacted. In addition, an increasing number of individuals within the enterprise are utilizing mobile devices to access the Internet and corporate resources and to conduct business. If we cannot effectively make our service available on these mobile devices and offer the information services and functionality required by enterprises that widely use mobile devices, we may experience difficulty attracting and retaining customers.

***Failure to effectively expand our sales and marketing capabilities could harm our ability to increase our customer base and achieve broader market acceptance of our service.***

Increasing our customer base and achieving broader market acceptance of our service will depend, to a significant extent, on our ability to effectively expand our sales and marketing operations and activities. We are substantially dependent on our direct sales force to obtain new customers. From June 30, 2011 to March 31, 2012, our sales and marketing organization increased from 140 to 270 employees. We plan to continue to expand our direct sales force both domestically and internationally. We believe that there is significant competition for direct sales personnel with the sales skills and technical knowledge that we require. Our ability to achieve significant revenue growth in the future will depend, in large part, on our success in recruiting, training and retaining a sufficient number of direct sales personnel. New hires require significant training and time before they achieve full productivity, particularly in new sales territories. Our recent hires and planned hires may not become as productive as quickly as we would like, and we may be unable to hire or retain sufficient numbers of qualified individuals in the future in the markets where we do business. Because we do not have a long history of expansion in our sales force, we cannot predict whether or to what extent our sales will increase as we expand our sales force or how long it will take for sales personnel to become productive. Moreover, we do not have significant experience as an organization developing and implementing overseas marketing campaigns, and such campaigns may be expensive and difficult to implement. Our business will be harmed if our expansion efforts do not generate a significant increase in revenues.

***Our current management team is new and if we lose key members of our management team or are unable to attract and retain executives and employees we need to support our operations and growth, our business may be harmed.***

Each of our executive officers either joined us recently or has taken on a new role in the organization. These changes in our executive management team may be disruptive to our business. Our success depends substantially upon the continued services of this new group of executive officers, particularly Frank Sloatman, our Chief Executive Officer, who joined us in May 2011, and Frederic B. Luddy, our founder and Chief Product Officer, who are critical to our vision, strategic direction, culture, services and technology. From time to time, there may be changes in our executive management team resulting from the hiring or departure of executives. Our

## **Table of Contents**

executive officers are generally employed on an at-will basis, which means that our executive officers could terminate their employment with us at any time. The loss of one or more of our executive officers or the failure by our executive team to effectively work with our employees and lead our company could harm our business.

In the technology industry, there is substantial and continuous competition for engineers with high levels of experience in designing, developing and managing software and Internet-related solutions, as well as competition for sales executives and operations personnel. We may not be successful in attracting and retaining qualified personnel. We have from time to time experienced, and we expect to continue to experience, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. In particular, competition for experienced software and cloud infrastructure engineers in San Diego, San Jose, Seattle, London and Amsterdam, our primary operating locations, is intense. If we fail to attract new personnel or fail to retain and motivate our current personnel, our business and future growth prospects could be harmed.

***Our quarterly results may fluctuate, and if we fail to meet the expectations of analysts or investors, our stock price and the value of your investment could decline substantially.***

Our quarterly financial results may fluctuate as a result of a variety of factors, many of which are outside of our control. If our quarterly financial results fall below the expectations of investors or any securities analysts who follow our stock, the price of our common stock could decline substantially. Some of the important factors that may cause our revenues, operating results and cash flows to fluctuate from quarter to quarter include:

our ability to retain and increase sales to existing customers, attract new customers and satisfy our customers' requirements;

the number of new employees added;

the rate of expansion and productivity of our sales force;

changes in the relative and absolute levels of professional services we provide;

the cost, timing and management effort for the development of new services;

the length of the sales cycle for our service;

changes in our pricing policies whether initiated by us or as a result of competition;

the amount and timing of operating costs and capital expenditures related to the operations and expansion of our business;

significant security breaches, technical difficulties or interruptions with our service;

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

new solutions, products or changes in pricing policies introduced by our competitors;

changes in foreign currency exchange rates;

changes in effective tax rates;

general economic conditions that may adversely affect either our customers' ability or willingness to purchase additional subscriptions, delay a prospective customer's purchasing decision, or reduce the value of new subscription contracts, or affect renewal rates;

changes in deferred revenue balances due to the seasonal nature of our customer invoicing, changes in the average duration of our customer agreements, the rate of renewals and the rate of new business growth;

the timing of customer payments and payment defaults by customers;

extraordinary expenses such as litigation or other dispute-related settlement payments;

the impact of new accounting pronouncements; and

the timing of stock awards to employees and the related adverse financial statement impact of having to expense those stock awards ratably over their vesting schedules.

## **Table of Contents**

Many of these factors are outside of our control, and the occurrence of one or more of them might cause our operating results to vary widely. As such, we believe that quarter-to-quarter comparisons of our revenues, operating results and cash flows may not be meaningful and should not be relied upon as an indication of future performance.

*We expect our revenue growth rate to decline, and as our costs increase, we may not be able to generate sufficient revenue to sustain our profitability over the long term.*

From fiscal 2009 to fiscal 2011, our revenues grew from \$19.3 million to \$92.6 million, which represents a compounded annual growth rate of 119%. We expect that, in the future, as our revenues increase to higher levels our revenue growth rate will decline. However, we may not be able to generate sufficient revenues to achieve and sustain profitability as we also expect our costs to increase in future periods. We expect to continue to expend substantial financial and other resources on:

our technology infrastructure, including migrating from a managed hosting model to co-location facilities, enhancements to our cloud architecture and hiring of additional employees for our research and development team;

software development, including investments in our software development team, the development of new features and the improvement of the scalability, availability and security of our service;

sales and marketing, including a significant expansion of our direct sales organization;

international expansion in an effort to increase our customer base and sales; and

general administration, including legal and accounting expenses related to being a public company.

These investments may not result in increased revenues or growth in our business. If we fail to continue to grow our revenues and overall business, our operating results and business would be harmed.

*Because we recognize revenues from our subscription service over the subscription term, downturns or upturns in new sales will not be immediately reflected in our operating results.*

We generally recognize revenues from customers ratably over the terms of their subscriptions, which on average are approximately 30 months in duration for initial contract terms, although terms can range from 12 to 120 months. As a result, most of the revenues we report in each quarter are derived from the recognition of deferred revenues relating to subscriptions entered into during previous quarters. Consequently, a decline in new or renewed subscriptions in any single quarter will likely have only a small impact on our revenue results for that quarter. Such a decline, however, will negatively affect our revenues in future quarters. Accordingly, the effect of significant downturns in sales and market acceptance of our service, and potential changes in our rate of renewals may not be fully reflected in our results of operations until future periods. Our subscription model also makes it difficult for us to rapidly increase our revenues through additional sales in any period, as revenues from new customers must be recognized over the applicable subscription term. In addition, we may be unable to adjust our cost structure to reflect the changes in revenues.

***If we are unable to successfully manage the growth of our professional services business and improve our profit margin from these services, our operating results will be harmed.***

Our professional services business, which performs implementation and configuration of our subscription service for our customers, has grown as our revenues from subscriptions have grown. We believe our investment in professional services facilitates the adoption of our subscription service. As a result, our sales efforts have been focused primarily on our subscription service, rather than the profitability of our professional services business. Historically, our pricing for professional services was predominantly on a fixed-fee basis and the cost of the time and materials incurred to complete these services were greater than the amount charged to the customer. These factors contributed to our negative gross profit percentages from professional services and other

## **Table of Contents**

of (220)%, (202)% and (21)% for fiscal 2009, 2010 and 2011, respectively, (43)% and (51)% for the six months ended December 31, 2010 and 2011, respectively, and (19)% and (30)% for the three months ended March 31, 2011 and 2012, respectively. The improvement in gross profit percentages was due in part to the adoption of new revenue recognition accounting guidance commencing on July 1, 2010. In addition, in December 2011, we began shifting our pricing model to a time-and-materials basis. In the future, we intend to price our professional services based on the anticipated cost of those services and, as a result, expect to improve the gross profit percentage of our professional services business. If we are unable to successfully transition to a time-and-materials based pricing model and manage the growth of our professional services business, our operating results, including our profit margins, will be harmed. In addition, the shift to this new pricing model may cause our sales cycle to lengthen.

### ***We may be sued by third parties for alleged infringement of their proprietary rights.***

There is considerable patent and other intellectual property development activity in our industry. Our success depends in part on not infringing upon the intellectual property rights of others. From time to time, our competitors or other third parties may claim that we are infringing upon their intellectual property rights, and we may be found to be infringing upon such rights. In the future, we may receive claims that our applications and underlying technology infringe or violate the claimant's intellectual property rights. However, we may be unaware of the intellectual property rights of others that may cover some or all of our technology or services. Any claims or litigation could cause us to incur significant expenses and, if successfully asserted against us, could require that we pay substantial damages or ongoing royalty payments, prevent us from offering our service, or require that we comply with other unfavorable terms. We may also be obligated to indemnify our customers or business partners in connection with any such litigation and to obtain licenses, modify our service or refund fees, which could further exhaust our resources. In addition, we may pay substantial settlement costs to resolve claims or litigation, whether or not legitimately or successfully asserted against us, which could include royalty payments in connection with any such litigation and to obtain licenses, modify our service or refund fees, which could further exhaust our resources. Even if we were to prevail in the event of claims or litigation against us, any claim or litigation regarding our intellectual property could be costly and time-consuming and divert the attention of our management and key personnel from our business operations. Such disputes could also disrupt our service, causing an adverse impact to our customer satisfaction and related renewal rates.

### ***Our use of open source software could harm our ability to sell our service and subject us to possible litigation.***

A significant portion of the technologies licensed or developed by us incorporate so-called open source software, and we may incorporate open source software into other services in the future. We attempt to monitor our use of open source software in an effort to avoid subjecting our service to conditions we do not intend; however, there can be no assurance that our efforts have been or will be successful. There is little or no legal precedent governing the interpretation of the terms of open source licenses, and therefore the potential impact of these terms on our business is uncertain and enforcement of these terms may result in unanticipated obligations regarding our service and technologies. For example, depending on which open source license governs open source software included within our service or technologies, we may be subjected to conditions requiring us to offer our service to users at no cost; make available the source code for modifications and derivative works based upon, incorporating or using the open source software; and license such modifications or derivative works under the terms of the particular open source license.

If an author or other third party that distributes such open source software were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to incur significant legal costs defending ourselves against such allegations, we could be subject to significant damages or be enjoined from the distribution of our service. In addition, if we combine our proprietary software with open source software in a certain manner, under some open source licenses we could be required to release the source code of our proprietary software, which could substantially help our competitors develop solutions that are similar to or better than our service.

**Table of Contents**

***Any failure to protect our intellectual property rights could impair our ability to protect our proprietary technology and our brand.***

Our success depends to a significant degree on our ability to protect our proprietary technology and our brand. We rely on a combination of copyright, trade secret and other intellectual property laws and confidentiality procedures to protect our proprietary rights. If we fail to protect our intellectual property rights adequately, our competitors may gain access to our technology and our business may be harmed. In addition, defending our intellectual property rights might entail significant expense. Any of our trademarks or other intellectual property rights may be challenged by others or invalidated through administrative process or litigation. We have only recently begun to develop a strategy to seek, and may be unable to obtain, patent protection for our technology. In addition, any patents issued in the future may not provide us with competitive advantages, or may be successfully challenged by third parties. Furthermore, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trademark, copyright and trade secret protection may not be available to us in every country in which our service is available. The laws of some foreign countries may not be as protective of intellectual property rights as those in the United States, and mechanisms for enforcement of intellectual property rights may be inadequate. Accordingly, despite our efforts, we may be unable to prevent third parties from infringing upon or misappropriating our intellectual property.

We may be required to spend significant resources to monitor and protect our intellectual property rights. We may initiate claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. Any litigation, whether or not it is resolved in our favor, could result in significant expense to us and divert the efforts of our technical and management personnel.

***Our growth depends in part on the success of our strategic relationships with third parties and their continued performance.***

We anticipate that we will continue to depend on various third-party relationships in order to grow our business. In particular, we depend on a limited number of third parties to provide a majority of our implementation services. Our strategy is to work with third parties to increase the breadth of capability and the depth of capacity for delivery of these services to our customers.

We intend to expand our relationships with third parties, such as implementation partners, systems integrators and managed services providers. Identifying these and other partners, and negotiating and documenting relationships with them, require significant time and resources. Our agreements with partners are typically non-exclusive and do not prohibit them from working with our competitors or from offering competing solutions. Our competitors may be effective in providing incentives to third parties, including our partners, to favor their solutions or to prevent or reduce subscriptions to our service either by disrupting our relationship with existing customers or by limiting our ability to win new customers. In addition, global economic conditions could harm the businesses of our partners, and it is possible that they may not be able to devote the additional resources we expect to the relationship. If we are unsuccessful in establishing or maintaining our relationships with these third parties, our ability to compete in the marketplace or to grow our revenues could be impaired and our operating results would suffer. Even if we are successful, we cannot assure you that these relationships will result in greater customer usage of our service or increased revenues.

If a customer is not satisfied with the quality of work performed by us or a third party, we could incur additional costs to address the situation, the profitability of that work might be impaired, and the customer's dissatisfaction with our professional services could damage our ability to obtain additional revenues from that customer.

**Table of Contents**

*Sales to customers outside North America expose us to risks inherent in international sales.*

Because we sell our service throughout the world, we are subject to risks and challenges that we would otherwise not face if we conducted our business only in North America. Sales outside of North America represented 25%, 29% and 28% of our total revenues for fiscal 2011, the six months ended December 31, 2011 and the three months ended March 31, 2012, respectively, and we intend to continue to expand our international sales efforts. Our business and future prospects depend on increasing our international sales as a percentage of our total revenues, and the failure to grow internationally will harm our business. The risks and challenges associated with sales to customers outside North America are different in some ways from those associated with sales in North America and we have a limited history addressing those risks and meeting those challenges. The risks and challenges inherent with international sales include:

localization of our service, including translation into foreign languages and associated expenses;

differing laws and business practices, which may favor local competitors;

longer sales cycles;

compliance with multiple, conflicting and changing governmental laws and regulations, including employment, tax, privacy and data protection laws and regulations;

treatment of revenues from international sources and changes to tax codes, including being subject to foreign tax laws and being liable for paying withholding income or other taxes in foreign jurisdictions;

regional data privacy laws that apply to the transmission of our customers' data across international borders;

foreign currency fluctuations and controls;

different pricing environments;

difficulties in staffing and managing foreign operations;

different or lesser protection of our intellectual property;

longer accounts receivable payment cycles and other collection difficulties;

regional economic conditions; and

regional political conditions.

Any of these factors could negatively impact our business and results of operations.

***We face exposure to foreign currency exchange rate fluctuations.***

We conduct significant transactions, including intercompany transactions, in currencies other than the United States dollar or the functional operating currency of the transactional entities. In addition, our international subsidiaries maintain significant net assets that are denominated in currencies other than the functional operating currencies of these entities. Accordingly, changes in the value of foreign currencies relative to the United States dollar can affect our revenues and operating results due to transactional and translational remeasurement that is reflected in our earnings. We do not currently maintain a program to hedge transactional exposures in foreign currencies. However, in the future, we may use derivative instruments, such as foreign currency forward and option contracts, to hedge certain exposures to fluctuations in foreign currency exchange rates. The use of such hedging activities may not offset any or more than a portion of the adverse financial effects of unfavorable movements in foreign exchange rates over the limited time the hedges are in place. Moreover, the use of hedging instruments may introduce additional risks if we are unable to structure effective hedges with such instruments.

## **Table of Contents**

### ***Weakened global economic conditions may harm our industry, business and results of operations.***

Our overall performance depends in part on worldwide economic conditions, which may remain challenging for the foreseeable future. Global financial developments seemingly unrelated to us or the IT industry may harm us. The United States and other key international economies have been impacted by falling demand for a variety of goods and services, restricted credit, poor liquidity, reduced corporate profitability, volatility in credit, equity and foreign exchange markets, bankruptcies and overall uncertainty with respect to the economy. These conditions affect the rate of information technology spending and could adversely affect our customers' ability or willingness to purchase our service, delay prospective customers' purchasing decisions, reduce the value or duration of their subscriptions, or affect renewal rates, all of which could harm our operating results.

### ***Changes in laws, regulations and standards related to the Internet may cause our business to suffer.***

Federal, state or foreign government bodies or agencies have in the past adopted, and may in the future adopt, laws and regulations affecting data privacy and the use of the Internet as a commercial medium. Industry organizations also regularly adopt and advocate for new standards in this area. For instance, we believe increased regulation is likely in the area of data privacy, and changing laws, regulations and standards applying to the solicitation, collection, processing or use of personal or consumer information could affect our customers' ability to use and share data, potentially restricting our ability to store, process and share data with our customers. In addition, government agencies or private organizations may begin to impose taxes, fees or other charges for accessing the Internet, commerce conducted via the Internet or validation that particular processes follow the latest standards. These changes could limit the viability of Internet-based services such as ours. If we are not able to adjust to changing laws, regulations and standards related to the Internet, our business may be harmed.

### ***Unanticipated changes in our effective tax rate could harm our future results.***

We are subject to income taxes in the United States and various foreign jurisdictions, and our domestic and international tax liabilities are subject to the allocation of expenses in differing jurisdictions. Our effective tax rate could be adversely affected by changes in the mix of earnings and losses in countries with differing statutory tax rates, certain non-deductible expenses as a result of acquisitions, the valuation of deferred tax assets and liabilities and changes in federal, state or international tax laws and accounting principles. Increases in our effective tax rate would reduce our profitability or in some cases increase our losses.

In addition, we may be subject to income tax audits by many tax jurisdictions throughout the world, many of which have not established clear guidance on the tax treatment of SaaS-based companies. Although we believe our income tax liabilities are reasonably estimated and accounted for in accordance with applicable laws and principles, an adverse resolution of one or more uncertain tax positions in any period could have a material impact on the results of operations for that period.

### ***Natural disasters and other events beyond our control could harm our business.***

Natural disasters or other catastrophic events may cause damage or disruption to our operations, international commerce and the global economy, and thus could have a strong negative effect on us. Our business operations are subject to interruption by natural disasters, fire, power shortages, pandemics and other events beyond our control. Although we maintain crisis management and disaster response plans, such events could make it difficult or impossible for us to deliver our service to our customers, and could decrease demand for our service. The majority of

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

our research and development activities, corporate headquarters, information technology systems, and other critical business operations are located near major seismic faults in California. Customer data could be lost, significant recovery time could be required to resume operations and our financial condition and operating results could be harmed in the event of a major earthquake or catastrophic event.

## **Table of Contents**

***We are an emerging growth company, and any decision on our part to comply with certain reduced disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors.***

We are an emerging growth company, as defined in the Jumpstart Our Business Startups Act enacted in April 2012, and, for as long as we continue to be an emerging growth company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. We could be an emerging growth company for up to five years, although, if the market value of our common stock that is held by non-affiliates exceeds \$700 million as of June 30 of any year before the end of that five-year period, we would cease to be an emerging growth company as of the following December 31. We cannot predict if investors will find our common stock less attractive if we choose to rely on these exemptions. If some investors find our common stock less attractive as a result of any choices to reduce future disclosure, there may be a less active trading market for our common stock and our stock price may be more volatile.

Under Section 107(b) of the Jumpstart Our Business Startups Act, emerging growth companies can delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards and, therefore, we will be subject to the same new or revised accounting standards as other public companies that are not emerging growth companies.

***We will incur increased costs as a result of operating as a public company and our management will have to devote substantial time to public company compliance obligations.***

As a public company and particularly after we cease to be an emerging growth company, we will incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act, as well as rules subsequently implemented by the Securities and Exchange Commission, or SEC, and our stock exchange, has imposed various requirements on public companies, including requiring changes in corporate governance practices. Our management and other personnel will need to devote a substantial amount of time to these compliance requirements and any new requirements that the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 may impose on public companies. Moreover, these rules and regulations, along with compliance with accounting principles and regulatory interpretations of such principles, have increased and will continue to increase our legal, accounting and financial compliance costs and have made and will continue to make some activities more time-consuming and costly. For example, we expect these rules and regulations to make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantial costs to maintain the same or similar coverage. These rules and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors or our board committees, or as executive officers.

***If we do not remediate material weaknesses in our internal control over financial reporting or are unable to implement and maintain effective internal control over financial reporting in the future, the accuracy and timeliness of our financial reporting may be adversely affected.***

Prior to completion of this offering, we have been a private company and historically had limited accounting personnel to adequately execute our accounting processes and other supervisory resources with which to address our internal control over financial reporting. This lack of adequate accounting resources contributed to audit adjustments to our financial statements in the past.

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

In connection with our preparation of the financial statements for the year ended June 30, 2011 and the six months ended December 31, 2011, our independent registered public accounting firm identified control

## **Table of Contents**

deficiencies in our internal control that constituted material weaknesses. A material weakness is defined under the standards issued by the Public Company Accounting Oversight Board as a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our financial statements will not be prevented or detected and corrected on a timely basis. The material weaknesses our independent registered public accounting firm identified related to the design and operation of policies and procedures for accounting and reporting control processes, performance of account review and analysis, the development and review of complex judgments and estimates, the preparation of the provision for income taxes and the identification, communication and accounting of significant contracts and agreements. These material weaknesses, which contributed to multiple audit adjustments, primarily resulted from our failure to maintain a sufficient number of personnel with an appropriate level of knowledge, experience and training in the application of U.S. generally accepted accounting principles, or GAAP.

We are in the process of implementing measures designed to improve our internal control over financial reporting to remediate these material weaknesses. During the six months ended December 31, 2011, we hired a new Chief Financial Officer, a new Vice President of Finance and several new finance and accounting managers which significantly increases our finance and accounting team's experience in GAAP and financial reporting for publicly traded companies. In September 2011, we engaged a third-party tax firm and in February 2012, we hired a Senior Manager of Internal Audit. In March 2012, we hired a Vice President of Tax to assist with the accounting for income taxes and review of complex tax accounting matters. In addition, we expect to retain consultants to advise us on making further improvements to our internal controls related to these accounting areas. We believe that these additional resources enable us to broaden the scope and quality of our internal review of underlying information related to financial reporting and to further enhance our financial review procedures, including both the accounting processes for income taxes and significant contracts and agreements.

We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to remediate the material weaknesses in our internal control over financial reporting or to avoid potential future material weaknesses.

The Sarbanes-Oxley Act requires, among other things, that we assess the effectiveness of our internal control over financial reporting annually and disclosure controls and procedures quarterly. In particular, beginning with the year ending on December 31, 2013, we must perform system and process evaluation and testing of our internal control over financial reporting to allow management to report on the effectiveness of our internal control over financial reporting, as required by Section 404(a) of the Sarbanes-Oxley Act. Our independent registered public accounting firm is not required to attest to the effectiveness of our internal control over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act until the later of the year following our first annual report required to be filed with the SEC, or the date we are no longer an emerging growth company. At such time, our independent registered public accounting firm may issue a report that is adverse in the event it is not satisfied with the level at which our controls are documented, designed or operating. Moreover, our testing, or the subsequent testing by our independent registered public accounting firm, that must be performed may reveal other material weaknesses or that the material weaknesses described above have not been fully remediated. If we do not remediate the material weaknesses described above, or if other material weaknesses are identified or we are not able to comply with the requirements of Section 404 in a timely manner, our reported financial results could be materially misstated or could subsequently require restatement, we could receive an adverse opinion regarding our internal controls over financial reporting from our independent registered public accounting firm and we could be subject to investigations or sanctions by regulatory authorities, which would require additional financial and management resources, and the market price of our stock could decline.

*A portion of our revenues are generated by sales to government entities and heavily regulated organizations, which are subject to a number of challenges and risks.*

A portion of our sales are to governmental agencies. Additionally, many of our current and prospective customers, such as those in the financial services and health care industries, are highly regulated and may be required to comply with more stringent regulations in connection with subscribing to and implementing our service. Selling to these entities can be highly competitive, expensive and time consuming, often requiring

## **Table of Contents**

significant upfront time and expense without any assurance that we will successfully complete a sale. Government and highly regulated entities often require contract terms that differ from our standard arrangements and impose compliance requirements that are complicated, require preferential pricing or most favored nation terms and conditions, or are otherwise time consuming and expensive to satisfy. Due to the additional requirements of the U.S. federal government, we are in the process of establishing data centers that are compliant with the Federal Information Security Management Act. The additional costs associated with providing our service to government and highly regulated customers could harm our margins. Moreover, changes in the underlying regulatory conditions that affect these types of customers could harm our ability to efficiently provide our service to them and to grow or maintain our customer base.

*We may acquire or invest in companies, which may divert our management's attention, result in additional dilution to our stockholders, and we may be unable to integrate acquired businesses and technologies successfully or achieve the expected benefits of such acquisitions.*

We may evaluate and consider potential strategic transactions, including acquisitions of, or investments in, businesses, technologies, services, products and other assets in the future. We also may enter into relationships with other businesses to expand our service offerings or our ability to provide services in international locations, which could involve preferred or exclusive licenses, additional channels of distribution, discount pricing or investments in other companies. An acquisition, investment or business relationship may result in unforeseen operating difficulties and expenditures. In particular, we may encounter difficulties assimilating or integrating the businesses, technologies, products, personnel or operations of the acquired companies, particularly if the key personnel of the acquired company choose not to work for us, their software is not easily adapted to work with ours, or we have difficulty retaining the customers of any acquired business due to changes in ownership, management or otherwise. Acquisitions may also disrupt our business, divert our resources and require significant management attention that would otherwise be available for development of our existing business. Moreover, the anticipated benefits of any acquisition, investment or business relationship may not be realized or we may be exposed to unknown risks or liabilities.

Negotiating these transactions can be time-consuming, difficult and expensive, and our ability to close these transactions may often be subject to approvals that are beyond our control. Consequently, these transactions, even if undertaken and announced, may not close. For one or more of those transactions, we may:

issue additional equity securities that would dilute our stockholders;

use cash that we may need in the future to operate our business;

incur debt on terms unfavorable to us or that we are unable to repay;

incur large charges or substantial liabilities;

encounter difficulties retaining key employees of the acquired company or integrating diverse software codes or business cultures;  
and

become subject to adverse tax consequences, substantial depreciation or deferred compensation charges.

## **Risks Relating to Ownership of Our Common Stock and this Offering**

*The market price of our common stock is likely to be volatile and could subject us to litigation.*

Prior to this offering, there has not been a public market for our common stock. We cannot assure you that an active trading market for our common stock will develop following this offering. You may not be able to sell your shares quickly or at the market price if trading in our common stock is not active. The initial public offering price for the shares will be determined by negotiations between us and representatives of the underwriters and may not be indicative of prices that will prevail in the trading market following the offering. In addition, the trading prices of the securities of technology companies in general have been highly volatile. Accordingly, the

**Table of Contents**

market price of our common stock is likely to be subject to wide fluctuations. Factors affecting the market price of our common stock include:

variations in our operating results, earnings per share, cash flows from operating activities, deferred revenue, and other financial metrics and non-financial metrics, and how those results compare to analyst expectations;

forward-looking statements related to future revenues and earnings per share;

the net increases in the number of customers, either independently or as compared with published expectations of industry, financial or other analysts that cover our company;

changes in the estimates of our operating results or changes in recommendations by securities analysts that elect to follow our common stock;

announcements of technological innovations, new solutions or enhancements to services, strategic alliances or significant agreements by us or by our competitors;

announcements by us or by our competitors of mergers or other strategic acquisitions, or rumors of such transactions involving us or our competitors;

announcements of customer additions and customer cancellations or delays in customer purchases;

recruitment or departure of key personnel;

disruptions in our service due to computer hardware, software or network problems, security breaches, or other man-made or natural disasters;

the economy as a whole, market conditions in our industry, and the industries of our customers;

trading activity by a limited number of stockholders who together beneficially own a majority of our outstanding common stock;

the size of our market float; and

any other factors discussed herein.

In addition, if the market for technology stocks or the stock market in general experiences uneven investor confidence, the market price of our common stock could decline for reasons unrelated to our business, operating results or financial condition. The market price of our common stock might also decline in reaction to events that affect other companies within, or outside, our industry even if these events do not directly affect us. Some companies that have experienced volatility in the trading price of their stock have been the subject of securities class action litigation. If we are the subject of such litigation, it could result in substantial costs and a diversion of our management's attention and resources.

***We have broad discretion in the use of the net proceeds from this offering and may not use them effectively.***

Our management will have broad discretion in the application of the net proceeds from this offering, including for any of the purposes described in the section titled "Use of Proceeds," and you will not have the opportunity as part of your investment decision to assess whether the net proceeds are being used appropriately. Because of the number and variability of factors that will determine our use of the net proceeds from this offering, their ultimate use may vary substantially from their currently intended use. The failure by our management to apply these funds effectively could harm our business. Pending their use, we may invest the net proceeds from this offering in short-term, investment-grade, interest-bearing securities. These investments may not yield a favorable return to our stockholders.

***We do not intend to pay dividends on our common stock so any returns will be limited to changes in the value of our common stock.***

We have never declared or paid any cash dividends on our common stock. We currently anticipate that we will retain future earnings for the development, operation and expansion of our business and do not anticipate

## **Table of Contents**

declaring or paying any cash dividends for the foreseeable future. In addition, our ability to pay cash dividends on our common stock may be prohibited or limited by the terms of any future debt financing arrangement. Any return to stockholders will therefore be limited to the increase, if any, of our stock price.

***Our directors, officers and principal stockholders beneficially own a significant percentage of our stock and will be able to exert significant control over matters subject to stockholder approval.***

As of March 31, 2012, our directors, officers, five percent or greater stockholders and their respective affiliates beneficially owned in the aggregate approximately 91% of our outstanding voting stock and, upon completion of this offering, that same group will hold in the aggregate approximately % of our outstanding voting stock (assuming no exercise of the underwriters' over-allotment option), including approximately % controlled by funds affiliated with JMI Equity. Therefore, after this offering these stockholders will continue to have the ability to influence us through this ownership position. These stockholders may be able to determine all matters requiring stockholder approval. For example, these stockholders will be able to control elections of directors, amendments of our organizational documents, or approval of any merger, sale of assets, or other major corporate transaction. This may prevent or discourage unsolicited acquisition proposals or offers for our common stock that you may feel are in your best interest as one of our stockholders.

***If you purchase our common stock in this offering, you will incur immediate and substantial dilution in the book value of your shares.***

The assumed initial public offering price is substantially higher than the net tangible book value per share of our common stock will be immediately after this offering. Investors purchasing common stock in this offering will pay a price per share that substantially exceeds the book value of our tangible assets after subtracting our liabilities. As a result, investors purchasing common stock in this offering will incur immediate dilution of \$ per share, assuming an initial public offering price of \$ per share, which is the midpoint of the price range set forth on the cover page of this prospectus.

This dilution is due to the substantially lower price paid by our investors who purchased shares prior to this offering as compared to the price offered to the public in this offering, and any previous exercise of stock options granted to our employees. In addition, as of March 31, 2012, options to purchase 36,958,079 shares of our common stock at a weighted average exercise price of \$2.91 per share and 1,000,000 RSUs were outstanding. The exercise of any of these options and settlement of any of these RSUs would result in additional dilution. As a result of the dilution to investors purchasing shares in this offering, investors may receive less than the purchase price paid in this offering, if anything, in the event of our liquidation.

***Future sales and issuances of our common stock or rights to purchase common stock, including pursuant to our equity incentive plans, could result in additional dilution of the percentage ownership of our stockholders and could cause our stock price to decline.***

We may need additional capital in the future to continue our planned operations. To the extent we raise additional capital by issuing equity securities, our stockholders may experience substantial dilution. We may sell common stock, convertible securities or other equity securities in one or more transactions at prices and in a manner we determine from time to time. If we sell common stock, convertible securities or other equity securities in subsequent transactions, investors may be materially diluted. New investors in such subsequent transactions could gain rights, preferences and privileges senior to those of holders of our common stock, including shares of common stock sold in this offering.

*Sales of a substantial number of shares of our common stock in the public market by our existing stockholders following this offering could cause our stock price to fall.*

Sales of a substantial number of shares of our common stock in the public market or the perception that these sales might occur, could depress the market price of our common stock and could impair our ability to raise

## **Table of Contents**

capital through the sale of additional equity securities. We are unable to predict the effect that sales may have on the prevailing market price of our common stock.

All of our officers and directors and the holders of substantially all of our capital stock are subject to lock-up agreements with the underwriters of this offering that restrict the stockholders' ability to transfer shares of our common stock for at least 180 days from the date of this prospectus. The lock-up agreements limit the number of shares of common stock that may be sold immediately following this initial public offering. Subject to certain limitations, approximately \_\_\_\_\_ shares will become eligible for sale upon expiration of the lock-up period. In addition, shares issued or issuable upon exercise of options vested as of the expiration of the lock-up period will be eligible for sale at that time. Sales of stock by these stockholders could have a material adverse effect on the trading price of our common stock.

Certain holders of shares of our common stock are entitled to rights with respect to the registration of their shares under the Securities Act of 1933, as amended, or the Securities Act, subject to the 180-day lock-up arrangement described above. Registration of these shares under the Securities Act would result in the shares becoming freely tradable without restriction under the Securities Act, except for shares held by our affiliates as defined in Rule 144 under the Securities Act. Any sales of securities by these stockholders could have a material adverse effect on the trading price of our common stock.

***Provisions in our restated certificate of incorporation and restated bylaws and Delaware law might discourage, delay or prevent a change of control of our company or changes in our management and, therefore, depress the market price of our common stock.***

Our restated certificate of incorporation and restated bylaws contain provisions that could depress the market price of our common stock by acting to discourage, delay or prevent a change in control of our company or changes in our management that the stockholders of our company may deem advantageous. These provisions among other things:

establish a classified board of directors so that not all members of our board are elected at one time;

permit the board of directors to establish the number of directors;

provide that directors may only be removed for cause and only with the approval of 76% of our stockholders;

require super-majority voting to amend some provisions in our restated certificate of incorporation and restated bylaws;

authorize the issuance of blank check preferred stock that our board could use to implement a stockholder rights plan;

eliminate the ability of our stockholders to call special meetings of stockholders;

prohibit stockholder action by written consent, which requires all stockholder actions to be taken at a meeting of our stockholders;

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

provide that the board of directors is expressly authorized to make, alter or repeal our restated bylaws; and

establish advance notice requirements for nominations for election to our board or for proposing matters that can be acted upon by stockholders at annual stockholder meetings.

In addition, Section 203 of the Delaware General Corporation Law may discourage, delay or prevent a change in control of our company. Section 203 imposes certain restrictions on merger, business combinations and other transactions between us and holders of 15% or more of our common stock.

**Table of Contents**

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus includes forward-looking statements. All statements, other than statements of historical fact, contained in this prospectus, including statements regarding our future results of operations, financial position and cash flows, our business strategy and plans and our objectives for future operations, are forward-looking statements. The words believe, may, will, estimate, continue, anticipate, would, should, intend and expect and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in Risk Factors. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this prospectus may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We are under no duty to update any of these forward-looking statements after the date of this prospectus or to conform these statements to actual results or revised expectations.

**Table of Contents**

**INDUSTRY AND MARKET DATA**

Unless otherwise indicated, information contained in this prospectus concerning our industry and the market in which we operate, including our general expectations, market position, market opportunity and market size, is based on information from various sources, including independent industry publications like those generated by Gartner, Inc. In presenting this information, we have also made assumptions based on such data and other similar sources and on our knowledge of, and our experience to date in, the markets for our service and related solutions. These data involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. Although neither we nor the underwriters have independently verified the accuracy or completeness of any third-party information, we believe the market position, opportunity and market size information included in this prospectus is reliable and the conclusions contained in the third-party information are reasonable. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Risk Factors and elsewhere in this prospectus. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

The Gartner report, Forecast: Enterprise Software Markets, Worldwide, 2009-2016, 1Q12 Update, March, 2012, described herein, or the Gartner Report, represents data, research opinion or viewpoints published as part of a syndicated subscription service, by Gartner, and may not be representations of fact. The Gartner Report speaks as of its original publication date (and not as of the date of this prospectus) and the opinions expressed in the Gartner Report are subject to change without notice.

**Table of Contents**

**USE OF PROCEEDS**

We estimate that our net proceeds from the sale of the shares of common stock offered by us will be approximately \$       million, assuming an initial public offering price of \$       per share, which is the midpoint of the price range set forth on the cover page of this prospectus, after deducting underwriting discounts and commissions and estimated offering expenses payable by us. If the underwriters exercise their over-allotment option in full, we estimate that the net proceeds from this offering will be approximately \$       million, after deducting underwriting discounts and commissions and estimated offering expenses payable by us. We will not receive any proceeds from the sale of common stock by the selling stockholders.

A \$1.00 increase (decrease) in the assumed initial public offering price of \$       per share would increase (decrease) our net proceeds from this offering by approximately \$       million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions.

The principal purposes of this offering are to create a public market for our common stock, obtain additional capital, facilitate our future access to the public equity markets, increase awareness of our company among potential customers and improve our competitive position. While we have no specific plans at this time, we may use some of the proceeds from this offering to make additions to and expand our data center operations, and to build out our office facilities. We intend to use the net proceeds to us from this offering for working capital and other general corporate purposes. Additionally, we may choose to expand our current business through acquisitions of, or investments in, other businesses, products or technologies, using cash or shares of our common stock. However, we have no commitments with respect to any such acquisitions or investments at this time.

Pending the use of proceeds from this offering, we intend to invest the net proceeds in short-term, interest-bearing, investment-grade securities. Our management will have broad discretion in the application of the net proceeds from this offering and investors will be relying on the judgment of our management regarding the application of the proceeds.

**DIVIDEND POLICY**

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings to support our operations and finance the growth and development of our business. We do not intend to pay cash dividends on our common stock for the foreseeable future. Any future determination related to dividend policy will be made at the discretion of our board of directors.

**Table of Contents****CAPITALIZATION**

The following table sets forth our cash and cash equivalents and our capitalization as of March 31, 2012:

on an actual basis;

on a pro forma basis to give effect to the conversion of all outstanding shares of our convertible preferred stock into an aggregate of 83,703,016 shares of common stock and the filing of our restated certificate of incorporation upon the closing of this offering; and

on a pro forma as adjusted basis to reflect the pro forma adjustments described above and the sale and issuance of shares of common stock in this offering by us, and the receipt of the net proceeds from our sale of shares at an assumed initial public offering price of \$ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

The information below is illustrative only and our cash and our capitalization following the closing of this offering will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing. You should read the information in this table together with the section entitled Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the related notes appearing elsewhere in this prospectus.

	As of March 31, 2012		
	Actual	Pro Forma	Pro Forma as Adjusted <sup>(1)</sup>
	(in thousands, except share and per share data)		
Cash and cash equivalents	\$ 80,140	\$ 80,140	\$
Series C redeemable convertible preferred stock, \$0.001 par value: 983,606 shares authorized, 983,606 shares issued and outstanding, actual; no shares authorized, issued or outstanding, pro forma and pro forma as adjusted	5,962		
Series A redeemable convertible preferred stock, \$0.001 par value: 2,500,000 shares authorized, 2,500,000 shares issued and outstanding, actual; no shares authorized, issued or outstanding, pro forma and pro forma as adjusted	3,855		
Series B redeemable convertible preferred stock, \$0.001 par value: 4,040,488 shares authorized, 3,988,636 shares issued and outstanding, actual; no shares authorized, issued or outstanding, pro forma and pro forma as adjusted	7,265		
Series D convertible preferred stock, \$0.001 par value: 3,830,379 shares authorized; 2,990,635 shares issued and outstanding, actual; no shares authorized, issued or outstanding, pro forma and pro forma as adjusted	51,245		
Stockholders' equity (deficit):			
Preferred stock, \$0.001 par value: no shares authorized, issued or outstanding, actual; 10,000,000 shares authorized, no shares issued or outstanding, pro forma and pro forma as adjusted			
Common stock, \$0.001 par value: 200,000,000 shares authorized, 27,586,754 shares issued and outstanding, actual; 600,000,000 shares authorized, 111,289,770 shares issued and outstanding, pro forma; 600,000,000 shares authorized and shares issued and outstanding, pro forma as adjusted	28	111	
Additional paid-in capital	32,783	101,027	

Edgar Filing: ServiceNow, Inc. - Form S-1/A

Accumulated deficit	(73,780)	(73,780)	
Total stockholders' equity (deficit)	(40,198)	28,129	
Total capitalization	\$ 28,129	\$ 28,129	\$

**Table of Contents**

- (1) A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) the pro forma as adjusted amount of each of cash, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$ \_\_\_\_\_ million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions. Similarly, each increase (decrease) of one million shares in the number of shares offered by us would increase (decrease), cash, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$ \_\_\_\_\_ million, assuming the assumed initial public offering price remains the same and after deducting the underwriting discounts and commissions.

The number of shares of our common stock to be outstanding after this offering is based on 111,289,770 shares of common stock outstanding as of March 31, 2012 and excludes:

36,958,079 shares of common stock issuable upon the exercise of outstanding options with a weighted-average exercise price of \$2.91 per share and 1,000,000 shares of common stock issuable pursuant to outstanding RSUs under our 2005 Stock Plan;

4,300,809 shares of common stock reserved for future issuance under our 2005 Stock Plan; provided, however, that immediately prior to the closing of this offering, any remaining shares available for issuance under our 2005 Stock Plan will be added to the shares reserved under our 2012 Equity Incentive Plan and we will cease granting awards under the 2005 Stock Plan;

9,600,000 additional shares of common stock reserved for future issuance under our 2012 Equity Incentive Plan, which will become effective on the date immediately prior to the date on which the registration statement is declared effective; and

25,000,000 shares of common stock reserved for future issuance under our 2012 Employee Stock Purchase Plan, which will become effective upon the closing of this offering.

**Table of Contents****DILUTION**

If you invest in our common stock, your interest will be diluted to the extent of the difference between the initial public offering price per share of our common stock and the pro forma as adjusted net tangible book value per share of our common stock immediately after our initial public offering.

As of March 31, 2012, our pro forma net tangible book value was \$28.1 million, or \$0.25 per share of common stock. Pro forma net tangible book value per share represents the amount of our tangible assets less our liabilities divided by the total number of shares of our common stock outstanding, after giving effect to the conversion of our convertible preferred stock into an aggregate of 83,703,016 shares of our common stock upon the closing of this offering.

Our pro forma as adjusted net tangible book value as of March 31, 2012 was \$      million, or \$      per share of common stock. Pro forma as adjusted net tangible book value per share reflects the pro forma adjustments described above and further reflects the sale of      shares of common stock by us in this offering at an assumed initial public offering price of \$      per share, which is the midpoint of the price range set forth on the cover of this prospectus, after deducting underwriting discounts and commissions and estimated offering expenses payable by us. This represents an immediate increase in pro forma as adjusted net tangible book value of \$      per share to existing stockholders and immediate dilution of \$      per share to new investors purchasing shares in the offering.

The following table illustrates this per share dilution:

Assumed initial public offering price per share	\$
Pro forma net tangible book value per share as of March 31, 2012	\$ 0.25
Increase in net tangible book value per share attributable to new investors in this offering	
Pro forma as adjusted net tangible book value per share after this offering	
Dilution in pro forma as adjusted net tangible book value per share to new investors in this offering	\$

A \$1.00 increase (decrease) in the assumed initial public offering price of \$      per share would increase (decrease) our pro forma as adjusted net tangible book value as of March 31, 2012 by approximately \$      million, the pro forma as adjusted net tangible book value per share after this offering by \$      and the dilution in pro forma as adjusted net tangible book value per share to new investors in this offering by \$      , assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions. Similarly, each increase (decrease) of one million shares in the number of shares of common stock offered by us would increase (decrease) the pro forma as adjusted net tangible book value per share after this offering by \$      , and the dilution in pro forma net tangible book value per share to new investors in this offering by \$      , assuming the assumed initial public offering price remains the same and after deducting underwriting discounts and commissions. If the underwriters exercise their over-allotment option in full, the pro forma as adjusted net tangible book value per share after this offering would be \$      per share, and the dilution in pro forma net tangible book value per share to new investors in this offering would be \$      per share of common stock.

**Table of Contents**

The following table summarizes, on a pro forma as adjusted basis as of March 31, 2012, the differences between the number of shares of common stock purchased from us, the total cash consideration and the average price per share paid to us by existing stockholders and by new investors purchasing shares in this offering, at an assumed initial public offering price of \$ \_\_\_\_\_ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, before deducting underwriting discounts and commissions and estimated offering expenses payable by us:

	Shares purchased		Total consideration		Average price per share
	Number	Percent	Amount	Percent	
Existing stockholders		%	\$	%	\$
New investors					
<b>Total</b>		<b>100%</b>	<b>\$</b>	<b>100%</b>	

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) total consideration paid to us by new investors participating in this offering by approximately \$ \_\_\_\_\_ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions.

If the underwriters' over-allotment option is exercised in full, the number of shares of common stock held by existing stockholders will be reduced to \_\_\_\_\_ % of the total number of shares of common stock to be outstanding after this offering, and the number of shares of common stock held by investors participating in this offering will be further increased to \_\_\_\_\_, or \_\_\_\_\_ % of the total number of shares of common stock to be outstanding after this offering.

Sales of shares of common stock by the selling stockholders in this offering will reduce the number of shares of common stock held by existing stockholders to \_\_\_\_\_, or approximately \_\_\_\_\_ % of the total shares of common stock outstanding after this offering, and will increase the number of shares held by new investors to \_\_\_\_\_, or approximately \_\_\_\_\_ % of the total shares of common stock outstanding after this offering.

The table and discussion above are based on 111,289,770 shares of common stock outstanding as of March 31, 2012, and exclude:

36,958,079 shares of common stock issuable upon the exercise of outstanding options with a weighted-average exercise price of \$2.91 per share and 1,000,000 shares of common stock issuable pursuant to outstanding RSUs under our 2005 Stock Plan;

4,300,809 shares of common stock reserved for future issuance under our 2005 Stock Plan; provided, however, that immediately prior to the closing of this offering, any remaining shares available for issuance under our 2005 Stock Plan will be added to the shares reserved under our 2012 Equity Incentive Plan and we will cease granting awards under the 2005 Stock Plan;

9,600,000 additional shares of common stock reserved for future issuance under our 2012 Equity Incentive Plan, which will become effective on the date immediately prior to the date on which the registration statement is declared effective; and

Edgar Filing: ServiceNow, Inc. - Form S-1/A

25,000,000 shares of common stock reserved for future issuance under our 2012 Employee Stock Purchase Plan, which will become effective upon the closing of this offering.

**Table of Contents****SELECTED CONSOLIDATED FINANCIAL DATA**

The following selected consolidated financial data should be read together with our consolidated financial statements and accompanying notes and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in this prospectus. The selected consolidated financial data in this section are not intended to replace our consolidated financial statements and the related notes. Our historical results are not necessarily indicative of our future results.

The selected consolidated statements of operations data for fiscal 2009, 2010 and 2011 and for the six months ended December 31, 2011 and the selected consolidated balance sheet data as of June 30, 2010 and 2011 and as of December 31, 2011 are derived from our audited consolidated financial statements appearing elsewhere in this prospectus. The consolidated balance sheet data as of June 30, 2009 is derived from our audited consolidated financial statements which are not included in this prospectus. The consolidated statement of operations data for the six months ended December 31, 2010 and the three months ended March 31, 2011 and 2012, and the unaudited selected consolidated balance sheet data as of March 31, 2012 are derived from our unaudited consolidated financial statements included elsewhere in this prospectus. The consolidated statements of operations data for fiscal 2007 and 2008 and the consolidated balance sheet data as of June 30, 2007 and 2008 are derived from our unaudited consolidated financial statements which are not included in this prospectus. We have prepared the unaudited financial information on the same basis as the audited consolidated financial statements and have included, in our opinion, all adjustments, consisting only of normal recurring adjustments, we consider necessary for a fair statement of the financial information set forth in those statements.

(1) Revenues for fiscal 2011, the six months ended December 31, 2010 and 2011 and the three months ended March 31, 2011 and 2012 reflect the prospective adoption of new revenue accounting guidance commencing on July 1, 2010. As a result of this guidance, we separately allocate value for multiple element contracts between our subscription revenues and professional services revenues based on the best estimate of selling price. Additionally, we recognize professional services revenues as the services are delivered. Please refer to Note 2 to our consolidated financial statements for further discussion of our revenue recognition policies.

(2) Stock-based compensation included in the statements of operations above was as follows:

	2007	Fiscal Year Ended June 30,				Six Months Ended		Three Months Ended	
	2008	2009	2010	2011	December 31,		March 31,

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS**

*You should read the following discussion and analysis of our financial condition and results of operations together with our consolidated financial statements and the related notes appearing at the end of this prospectus. Some of the information contained in this discussion and analysis or set forth elsewhere in this prospectus, including information with respect to our plans and strategy for our business, includes forward-looking statements that involve risks and uncertainties. You should read the Risk Factors section of this prospectus for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.*

**Overview**

ServiceNow is a leading provider of cloud-based services to automate enterprise IT operations. Our service includes a suite of applications built on our proprietary platform that automates workflow and integrates related business processes. We focus on transforming enterprise IT by automating and standardizing business processes and consolidating IT across the global enterprise. Organizations deploy our service to create a single system of record for enterprise IT, to lower operational costs and to enhance efficiency. Additionally, our customers use our extensible platform to build custom applications for automating activities unique to their business requirements.

We offer our service under a SaaS business model. Our subscription fee includes the use of our service and our technical support and management of the hosting infrastructure. We provide a scaled pricing model based on the number of users, in which the subscription price per user decreases as the number of users increases. We generally bill our customers annually in advance. We generate sales through our direct sales team and indirectly through channel partners and third-party referrals. We also generate revenues from professional services for implementation and training.

Many customers initially subscribe to our service to solve a specific and immediate problem. Once their problem is solved, many of our customers deploy additional applications as they become more familiar with our service and apply it to new IT processes. In addition, some customers adopt our platform to build applications that automate various processes for business uses outside of IT such as human resources, facilities and quality control management. A majority of our revenues come from large global enterprise customers. Our total customers grew 61% from 668 as of March 31, 2011 to 1,074 as of March 31, 2012.

We were founded in 2004 and entered into our first commercial contract in 2005. To date, we have funded our business primarily with cash flows from operations. We continue to invest in the development of our service, infrastructure and sales and marketing to drive long-term growth. In 2011, we significantly changed our executive management team. We hired a new Chief Executive Officer in May 2011, and our founder became Chief Product Officer. We subsequently hired additional key executives across our entire organization including our Chief Financial Officer, Chief Technology Officer, Senior Vice President of Sales and Services, Senior Vice President of Development and Customer Support, Vice President of Human Resources and Vice President of Marketing. In addition, we increased our overall employee headcount from 375 as of June 30, 2011 to 729 as of March 31, 2012.

We have achieved significant revenue growth in recent periods. For the fiscal years ended June 30, 2010 and 2011, our revenues grew 114% from \$43.3 million to \$92.6 million. We incurred a net loss of \$29.7 million and generated net income of \$9.8 million for the fiscal years ended June 30, 2010 and 2011, respectively. For the six months ended December 31, 2010 and 2011, our revenues grew 93% from \$37.9 million to

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

\$73.4 million. We generated net income of \$4.8 million and incurred a net loss of \$6.7 million for the six months ended December 31, 2010 and 2011, respectively. For the three months ended March 31, 2011 and 2012, our revenues grew 88% from \$25.2 million to \$47.4 million. We generated net income of \$3.0 million and incurred a net loss of \$5.6 million for the three months ended March 31, 2011 and 2012, respectively.

## **Table of Contents**

### **Fiscal Year End**

On February 3, 2012, our board of directors approved a change to our fiscal year-end from June 30 to December 31. Included in this prospectus is the transition period for the six months ended December 31, 2011. Accordingly, we present the consolidated balance sheets as of June 30, 2010 and 2011 and December 31, 2011, and the consolidated statements of comprehensive income, changes in convertible preferred stock and stockholders' deficit, and cash flows for the fiscal years ended June 30, 2009, 2010 and 2011 and the six months ended December 31, 2010 and 2011. References to fiscal 2009, fiscal 2010 and fiscal 2011 still refer to the fiscal years ended June 30, 2009, 2010 and 2011, respectively.

### **Key Factors Affecting Our Performance**

*Total customers.* We believe total customers is a key indicator of our market penetration, growth and future revenues. We have aggressively invested in and intend to continue to invest in our direct sales force, as well as to pursue additional partnerships within our indirect sales channel. We generally define a customer as an entity with an active service contract as of the measurement date. In situations where there is a single contract that applies to entities with multiple subsidiaries or divisions, universities, or governmental organizations, each entity that has contracted for a separate production instance of our service is counted as a separate customer. Our total customers were 281, 460 and 771 as of June 30, 2009, 2010 and 2011, respectively, 602 and 974 as of December 31, 2010 and 2011, respectively and 668 and 1,074 as of March 31, 2011 and 2012, respectively.

*Investment in growth.* We have aggressively invested, and intend to continue to invest, in expanding our operations, increasing our headcount and developing technology to support our growth. We expect our total operating expenses to increase in the foreseeable future, particularly as we continue to expand our sales and hosting operations. We continue to invest in our sales and marketing organization to drive additional revenues and support the growth of our customer base. Any investments we make in our sales and marketing organization will occur in advance of experiencing any benefits from such investments, so it may be difficult for us to determine if we are efficiently allocating our resources in these areas.

*Renewal rate.* We calculate our renewal rate by subtracting our attrition rate from 100%. Our attrition rate for a period is equal to the annual contract value from customers that are due for renewal in the period and did not renew, divided by the total annual contract value from all customers due for renewal during the period. Annual contract value is equal to the first twelve months of expected subscription revenues under a contract. We believe our renewal rate is an important metric to measure the long-term value of customer agreements and our ability to retain our customers. Our renewal rate was 94%, 95%, and 97% in fiscal 2009, 2010 and 2011, respectively, 99% and 97% in the six months ended December 31, 2010 and 2011, respectively, and 96% in both the three months ended March 31, 2011 and 2012.

*Upsells.* In order for us to continue to grow our business, it is important to generate additional revenue from existing customers. We believe there is significant opportunity to increase the number of subscriptions sold to current customers as customers become more familiar with our platform and adopt our applications to address additional business use cases. We believe our ability to upsell is a key factor affecting our ability to further penetrate our existing customer base. We monitor upsells by measuring the annual contract value of upsells signed in the period as a percentage of our total annual contract value of all contracts signed in the period. Upsells as a percentage of total annual contract value signed was 20%, 25% and 27% in fiscal 2009, 2010 and 2011, respectively, 25% and 28% in the six months ended December 31, 2010 and 2011, respectively, and 35% and 32% in the three months ended March 31, 2011 and 2012, respectively.

*Investment in infrastructure.* We intend to continue to make substantial investments in new equipment to support growth at our data centers and provide enhanced levels of service to our customers. We are transitioning from a managed service hosting model, where a third party manages

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

most aspects of the operations of the hosting infrastructure, to a co-location model, where we will have more direct control over the infrastructure and its operation. We are also investing in enhancements to our cloud architecture, which are designed to provide our customers with enhanced data reliability and availability. We expect to complete these two transitions in the

## **Table of Contents**

second half of 2012. For purchases of equipment for use in our data centers, we made capital expenditures of \$3.1 million in the three months ended March 31, 2012 and anticipate making capital expenditures of approximately \$22.0 million during the remainder of fiscal 2012. Actual capital expenditures during 2012 may fluctuate from this estimate due to unforeseen circumstances, such as changes to our customer growth rate or project delays.

*Professional services model.* We believe our investment in professional services facilitates the adoption of our subscription service. As a result, our sales efforts have been focused primarily on our subscription service, rather than the profitability of our professional services business. Historically, our pricing for professional services was predominantly on a fixed-fee basis and the cost of the time and materials incurred to complete these services was greater than the amount charged to the customer. These factors contributed to our negative gross profit percentages from professional services of (220)%, (202)% and (21)% for fiscal 2009, 2010 and 2011, respectively, (43)% and (51)% for the six months ended December 31, 2010 and 2011, respectively, and (19)% and (30)% for the three months ended March 31, 2011 and 2012, respectively. The improvement in gross profit percentages was due in part to the adoption of new revenue recognition accounting guidance commencing on July 1, 2010. In addition, in December 2011, we began shifting our pricing model to a time-and-materials basis. In the future, we intend to price our professional services based on the anticipated cost of those services and as a result expect to improve the gross profit percentage of our professional services business.

*Platform adoption.* Our service includes access to our suite of applications, as well as access to our platform to develop custom applications. Though in the near term we expect our revenue growth to be primarily driven by the pace of adoption and penetration of our suite of applications, we are investing considerable resources to enhance the application development capabilities of our platform. We believe the adoption of our platform will enhance our ability to acquire new customers, to increase renewals and to increase upsells due to an increase in the number of authorized users per customer.

## **Components of Results of Operations**

### ***Revenues***

*Subscription revenues.* Subscription revenues are primarily comprised of fees which give customers access to our suite of on-demand applications, as well as access to our platform to build custom applications. Pricing includes multiple instances, hosting and support services, data backup and disaster recovery services, as well as future upgrades offered during the subscription period. In addition, we offer two separately licensed enabling technologies, Discovery and Runbook Automation. We typically invoice our customers for subscription fees in annual increments upon initiation of the initial contract or subsequent renewal. We generally enter into arrangements with customers to purchase subscriptions for a term greater than 12 months, with an average initial contract term of approximately 30 months. Our contracts are generally non-cancelable, though customers can terminate for breach if we materially fail to perform. Fees for subscription services are generally billed annually in advance.

We generate sales directly through our sales team and, to a lesser extent, through our channel partners. Sales to our channel partners are made at a discount and revenues are recorded at the discounted price when all revenue recognition criteria are met. In addition, we pay referral fees to third parties typically ranging from 10% to 20% of the first year's annual contract value. These fees are included in sales and marketing expense.

*Professional services and other revenues.* Professional services revenues consist of fees associated with the implementation and configuration of our subscription service. Other revenues include customer training and attendance fees for our Knowledge conferences. Historically, our pricing for professional services was predominantly on a fixed-fee basis. However, in December 2011, we began shifting our pricing model to a

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

time-and-materials basis. Going forward, we anticipate the majority of our new business will be priced on a time-and-materials basis. Most of our professional services engagements span six to eight months. We typically bill for our fixed price professional services in two installments, with the first installment due up front and the

## **Table of Contents**

second installment due at either a specified future date (usually approximately three months from the contract start date) or upon completion of the services. Our time-and-materials professional services are generally billed monthly in arrears based on actual hours and expenses incurred. Typical payment terms provide our customers pay us within 30 days of invoice.

Prior to fiscal 2011, we recorded revenues from our professional services over a period commensurate with our subscription service contracts. However, the cost associated with our professional services engagements was recorded as the services were delivered, resulting in lower gross profit percentages in fiscal 2009 and 2010. On July 1, 2010, we adopted new revenue recognition accounting guidance on a prospective basis that enabled us to separately allocate value for our multiple element arrangements between our subscription revenues and professional services revenues, based on the best estimate of selling price. As a result, professional services revenues are recognized as the services are delivered, which is substantially the same period as the associated costs are incurred. This shift resulted in an increase to professional services and other revenues of \$5.5 million for fiscal 2011. Refer to *Critical Accounting Policies and Significant Judgments and Estimates* below for further discussion of our revenue recognition accounting policy.

*Backlog.* Backlog represents future amounts to be invoiced under our agreements. As of December 31, 2011 and March 31, 2012, we had backlog of approximately \$210 million and \$248 million, respectively. We expect backlog will change from period to period for several reasons, including the timing and duration of customer subscription and professional services agreements, varying billing cycles of subscription agreements, and the timing of customer renewals.

### ***Overhead Allocation***

Overhead associated with our facilities, IT costs and depreciation is allocated to our cost of revenues and operating expenses based on headcount.

### ***Cost of Revenues***

*Subscription cost of revenues.* Cost of subscription revenues primarily consists of expenses related to hosting our service and providing support. These expenses are comprised of data center capacity costs; personnel and related costs directly associated with our cloud infrastructure and customer support, including salaries, benefits, bonuses and stock-based compensation; allocated overhead; and third-party referral fees.

*Professional services and other cost of revenues.* Cost of professional services and other revenues consists primarily of personnel and related costs directly associated with our professional services and training departments, including salaries, benefits, bonuses and stock-based compensation; the costs of contracted third-party vendors; and allocated overhead.

Professional services associated with the implementation and configuration of our subscription service are performed directly by our services team, as well as by contracted third-party vendors. Fees paid up-front to our third-party vendors are deferred and amortized to cost of revenues as the services are delivered. Fees owed to our third-party vendors are accrued over the same requisite service period. Cost of revenues associated with our professional services engagements contracted with third-party vendors as a percentage of professional services and other revenues was 52%, 135% and 54% for fiscal 2009, 2010 and 2011, respectively, 70% and 64% for the six months ended December 31, 2010 and 2011, respectively, and 54% and 52% for the three months ended March 31, 2011 and 2012, respectively. Cost of revenues associated with our professional services engagements contracted with third-party vendors as a percentage of the total professional services and other cost of

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

revenues was 16%, 45% and 45% for fiscal 2009, 2010 and 2011, respectively, 49% and 43% for the six months ended December 31, 2010 and 2011, respectively, and 45% and 40% for the three months ended March 31, 2011 and 2012, respectively.

### *Sales and Marketing Expenses*

Sales and marketing expenses consist primarily of personnel and related costs directly associated with our sales and marketing staff, including salaries, benefits, bonuses, commissions and stock-based compensation.

**Table of Contents**

Other costs included in this expense are marketing and promotional events, including our Knowledge conferences, online marketing, product marketing and allocated overhead.

**Research and Development Expenses**

Research and development expenses consist primarily of personnel and related costs directly associated with our research and development staff, including salaries, benefits, bonuses and stock-based compensation, and allocated overhead.

**General and Administrative Expenses**

General and administrative expenses primarily consist of personnel and related costs for our executive, finance, legal, human resources and administrative personnel, including salaries, benefits, bonuses and stock-based compensation; legal, accounting and other professional services fees; other corporate expenses; and allocated overhead.

**Provision for Income Taxes**

Provision for income taxes consists of federal, state and foreign income taxes. Due to cumulative losses, we maintain a valuation allowance against our deferred tax assets as of December 31, 2011. We consider all available evidence, both positive and negative, in assessing the extent to which a valuation allowance should be applied against our deferred tax assets.

**Results of Operations**

To enhance comparability, the following table sets forth our results of operations for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of future results.

	Fiscal Year Ended June 30,			Six Months Ended December 31,		Three Months Ended March 31,

	Three Months Ended March 31,		% Change
	2011	2012	
(dollars in thousands)			
Revenues:			
Subscription	\$ 21,224	\$ 39,541	86%
Professional services and other	3,988	7,890	98%
Total revenues	\$ 25,212	\$ 47,431	88%
Percentage of revenues:			
Subscription	84%	83%	
Professional services and other	16%	17%	
Total	100%	100%	

Revenues increased \$22.2 million, primarily due to the increase in subscription revenues of \$18.3 million. Of the total increase in subscription revenues, 64% represented revenues from new customers acquired after March 31, 2011, and 36% represented revenues from existing customers at or prior to March 31, 2011. Our total customers increased 61% from March 31, 2011 to March 31, 2012. The average subscription revenues per customer increased 16% over this period primarily due an increase in the number of subscriptions sold to new customers.

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

Of the \$18.3 million total increase in subscription revenues for the three months ended March 31, 2012, 19% represented revenues from channel partners and 81% represented sales to customers by our direct sales organization. Subscription revenues outside North America represented 30% of the \$18.3 million total increase in subscription revenues and 70% represented subscription revenues in North America. During the three months ended March 31, 2012, we continued to increase our focus on international markets through the addition of new channel partners and expansion of our direct sales organization, and the opening of an additional sales and marketing office in Sweden.

**Table of Contents**

The increase in professional services and other revenues of \$3.9 million was primarily due to the growth in our customer base and \$2.2 million of revenues associated with acceptances received during the period. Revenues outside North America represented 32% of the \$3.9 million total increase in professional services and other revenues. Revenues in North America represented 68% of the \$3.9 million total increase in professional services and other revenues.

**Cost of Revenues and Gross Profit Percentage**

	<b>Three Months Ended March 31,</b>		
	<b>2011</b>	<b>2012</b>	<b>% Change</b>
	<b>(dollars in thousands)</b>		
<b>Cost of revenues:</b>			
Subscription	\$ 4,451	\$ 11,012	147%
Professional services and other	4,763	10,224	115%
<b>Total cost of revenues</b>	<b>\$ 9,214</b>	<b>\$ 21,236</b>	<b>130%</b>
<b>Gross profit percentage:</b>			
Subscription	79%	72%	
Professional services and other	(19)%	(30)%	
<b>Total gross profit percentage</b>	<b>63%</b>	<b>55%</b>	
<b>Gross profit</b>	<b>\$ 15,998</b>	<b>\$ 26,195</b>	<b>64%</b>
Headcount (at period end)	126	265	110%

Cost of subscription revenues increased \$6.6 million resulting in a decrease in our subscription gross profit percentage from 79% to 72%. The overall increase in cost of subscription revenues was primarily attributed to increased personnel-related costs of \$3.2 million, consisting of increased employee compensation, benefits and travel costs of \$2.9 million and additional stock-based compensation of \$0.4 million. These personnel-related cost increases were driven by headcount growth from 70 at March 31, 2011 to 143 at March 31, 2012. We expect personnel-related costs to continue to increase as we continue to hire employees in our cloud infrastructure and support organizations to meet our growing customer demands. In addition, hosting fees for our network infrastructure increased \$1.4 million as we increased data center capacity to migrate customers from our managed service data centers to our co-location data centers and to support our customer growth. We also opened eight new data centers since March 31, 2011. At March 31, 2012, we delivered our service from seven data centers in North America and nine data centers internationally compared to three data centers in North America and five data centers internationally as of March 31, 2011. We expect to open two new data centers in North America and two new data centers internationally by December 31, 2012. We expect to exit three of our managed services data centers in North America and five of our managed services data centers internationally by December 31, 2012. Depreciation expense also increased \$1.3 million due to purchases of network infrastructure to support our new data centers and growth within our existing data centers, and accelerated depreciation of the assets located in our managed services data centers, which we commenced in the three months ended December 31, 2011 when we made the decision to exit these data centers by December 31, 2012. We expect depreciation expense to continue to increase as we purchase new equipment to support our new customers. We expect depreciation expense and hosting costs as a percentage of revenues will decrease in 2013 as we stop hosting customers in our managed services data centers.

By December 31, 2012, we plan on operating six data centers in North America and six data centers internationally. We believe these data centers will enable us to provide our subscription services to our existing customers and accommodate anticipated growth. Accordingly, we anticipate capital expenditures on data center capacity as a percentage of revenues in 2013 will decrease compared to 2012. In 2013, we anticipate that the substantial portion of our capital expenditures on data center capacity will be on new equipment within existing data centers to accommodate growth, which generally requires less capital expenditure than provisioning the

**Table of Contents**

equivalent capacity in a new data center. We may add additional data centers in future periods to accommodate growth, to expand into new geographies or to meet regulatory requirements.

We expect our subscription gross profit percentage to decrease to approximately 62% to 65% for the balance of 2012. In 2013 we anticipate our subscription gross profit percentage will increase as we exit redundant managed data centers and better utilize our existing data center capacity as we add new customers and our existing customers expand their use of our services.

Cost of professional services and other revenues increased \$5.5 million, resulting in a decrease in our professional services and other gross profit percentage from (19)% to (30)%. The overall increase in cost of professional services and other revenues was primarily attributed to increased personnel-related costs of \$3.2 million, consisting of increased employee compensation, benefits and travel costs of \$3.1 million and additional stock-based compensation of \$0.2 million. The increased personnel-related costs were driven by headcount growth from 56 at March 31, 2011 to 122 at March 31, 2012. In addition, outside services costs increased \$2.2 million primarily due to additional fees paid to third parties to provide implementation services.

During the three months ended March 31, 2012, we incurred costs associated with certain fixed price professional services engagements signed in 2011 that exceeded the corresponding professional services revenues from these engagements. Although we do not anticipate our professional services business to become profitable in 2012, we expect our gross profit percentage from professional services will improve as we realize the benefits of the shift in our pricing model to primarily time and materials.

**Sales and Marketing**

	<b>Three Months Ended March 31,</b>		
	<b>2011</b>	<b>2012</b>	<b>% Change</b>
	<b>(dollars in thousands)</b>		
Sales and marketing	\$ 8,309	\$ 19,307	132%
Percentage of revenues	33%	41%	
Headcount (at period end)	103	270	162%

Sales and marketing expenses increased \$11.0 million due to the expansion of our sales force and increases in marketing programs to address additional opportunities in new and existing markets. Total headcount in sales and marketing increased 162% from March 31, 2011 to March 31, 2012, contributing to an \$8.7 million increase in personnel-related costs, consisting primarily of increased employee compensation, benefits and travel costs associated with our direct sales force of \$7.6 million, and additional stock-based compensation of \$1.2 million. In addition, commissions increased \$1.7 million directly attributable to increased revenues and changes made to our commissions plan in the three months ended March 31, 2012 as compared to the three months ended March 31, 2011.

We expect sales and marketing expenses to increase and continue to be our largest component of costs and expenses, as we continue to expand our direct sales teams, increase our marketing activities, grow our international operations, build brand awareness and sponsor additional marketing events.

**Research and Development**

Edgar Filing: ServiceNow, Inc. - Form S-1/A

	Three Months Ended March 31,		
	2011	2012	% Change
	(dollars in thousands)		
Research and development	\$ 1,885	\$ 6,043	221%
Percentage of revenues	7%	13%	
Headcount (at period end)	39	116	197%

**Table of Contents**

Research and development expenses increased \$4.2 million primarily due to increased personnel-related costs of \$4.5 million, consisting of increased employee compensation, benefits and travel costs associated with our research and development team of \$3.9 million and additional stock-based compensation of \$0.6 million. Total headcount in research and development increased 197% from March 31, 2011 to March 31, 2012 as we upgraded and extended our service offerings and developed new technologies.

We expect research and development expenses to increase as we improve the existing functionality of our service, develop new applications to fill market needs and continue to enhance our core platform.

***General and Administrative***

	<b>Three Months Ended March 31,</b>		
	<b>2011</b>	<b>2012</b>	<b>% Change</b>
	<b>(dollars in thousands)</b>		
General and administrative	\$ 2,680	\$ 6,427	140%
Percentage of revenues	11%	13%	
Headcount (at period end)	34	78	129%

General and administrative expenses increased \$3.7 million primarily due to increased headcount of 129% from March 31, 2011 to March 31, 2012. Personnel-related expenses increased \$2.6 million, consisting of increased employee compensation, benefits and travel costs of \$1.6 million and additional stock-based compensation of \$0.9 million, as we added employees to support the growth of our business. Professional and outside service costs increased \$1.1 million, comprised primarily of legal and accounting fees associated with our international expansion.

We expect to incur higher general and administrative expenses as a result of both our growth and transition to a public company, including higher legal, corporate insurance and accounting expenses, and the additional costs of achieving and maintaining compliance with Section 404 of the Sarbanes-Oxley Act and related regulations. We expect the continued expansion of our operations will also contribute to higher general and administrative expenses. Specifically, during the second half of 2012, we are relocating our headquarters to accommodate our growth. We anticipate taking an impairment charge of approximately \$2.0 million to \$3.0 million for exit costs associated with our current lease at the time we stop using the building.

***Interest and Other Income, net***

	<b>Three Months Ended March 31,</b>		
	<b>2011</b>	<b>2012</b>	<b>% Change</b>
	<b>(dollars in thousands)</b>		
Interest and other income, net	\$ 252	\$ 492	95%
Percentage of revenues	1%	1%	

Interest and other income, net, primarily consists of foreign currency transaction gains and losses. The increase of \$0.2 million is primarily due to unrealized gains on amounts invoiced to customers that are denominated in British pounds and Euros as the U.S. dollar weakened over the three months ended March 31, 2012 as compared to the three months ended March 31, 2011.

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

While we have not engaged in the hedging of our foreign currency transactions to date, we are presently evaluating the costs and benefits of initiating such a program and may in the future hedge selected significant transactions denominated in currencies other than the U.S. dollar.

**Table of Contents****Provision for Income Taxes**

	Three Months Ended March 31,		% Change
	2011	2012	
	(in thousands)		
Income before income taxes	\$ 3,376	\$ (5,090)	NM
Provision for income taxes	385	550	43%
Effective tax rate	12%	(11)%	

The provision for income taxes increased \$0.2 million, primarily as a result of a higher proportion of earnings in taxable jurisdictions in the three months ended March 31, 2012 compared to the same period in the prior year. During the three months ended March 31, 2012, we generated a loss in our foreign operations, which decreased our effective income tax rate.

We continue to maintain a full valuation allowance on our federal and state deferred tax assets, and the significant components of the tax expense recorded are current cash taxes in various jurisdictions. The cash tax expenses are impacted by each jurisdiction's individual tax rates, laws on timing of recognition of income and deductions and availability of net operating losses and tax credits. In December 2011, we reorganized our international operations and established our non-U.S. headquarters in the Netherlands, which has an effective tax rate that is lower than the U.S. federal statutory rate. Given the full valuation allowance, sensitivity of current cash taxes to local rules and our foreign restructuring, we expect our effective tax rate could fluctuate significantly on a quarterly basis and could be adversely affected to the extent earnings are lower than anticipated in countries that have lower statutory rates and higher than anticipated in countries that have higher statutory rates. The earnings of our foreign subsidiaries are considered to be permanently reinvested outside of the United States.

**Comparison of the six months ended December 31, 2010 and 2011****Revenues**

	Six Months Ended December 31,		% Change
	2010	2011	
	(dollars in thousands)		
Revenues:

Percentage of revenues:			
Subscription	87%	88%	
Professional services and other	13%	12%	
Total	100%	100%	

Revenues increased \$35.4 million, due primarily to the increase in subscription revenues of \$31.7 million. Of the total increase in subscription revenues, 55% represented revenues from new customers acquired after December 31, 2010, and 45% represented revenues from existing

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

customers at or prior to December 31, 2010. Our total customers increased 62% from December 31, 2010 to December 31, 2011. The average subscription revenues per customer increased 19% over this period primarily due to an increase in the number of subscriptions sold to existing customers.

Of the \$31.7 million total increase in subscription revenues for the six months ended December 31, 2011, 19% represented revenues from channel partners and 81% represented sales to customers by our direct sales organization. Subscription revenues outside North America represented 33% of the \$31.7 million total increase

**Table of Contents**

in subscription revenues and 67% represented subscription revenues in North America. The increase in revenues from channel partners was due primarily to increased market adoption of our subscription service through sales by our existing channel partners and to a lesser extent the addition of new channel partners. The increase in subscription revenues outside North America was due primarily to increased adoption of our subscription service through sales by our existing channel partners and direct sales organization, and to a lesser extent the addition of new channel partners and the expansion of our direct sales organization. During the six months ended December 31, 2011, we opened additional sales and marketing offices in Denmark and France, which did not account for a significant portion of increased revenues during the period.

The increase in professional services and other revenues of \$3.7 million was primarily due to the growth in our customer base. Revenues outside North America represented 27% of the \$3.7 million total increase in professional services and other revenues. Revenues in North America represented 73% of the \$3.7 million total increase in professional services and other revenues.

**Cost of Revenues and Gross Profit Percentage**

	Six Months Ended December 31,		% Change
	2010	2011	
	(dollars in thousands)		
<b>Cost of revenues:</b>			
Subscription	\$ 6,096	\$ 15,073	147%

Total gross profit percentage	66%	62%	
Gross profit	\$ 25,070	\$ 45,452	81%
Headcount (at period end)	101	217	115%

Cost of subscription revenues increased \$9.0 million resulting in a decrease from 82% to 77% in subscription gross profit percentage. The overall increase in cost of subscription revenues was primarily attributed to increased personnel-related costs of \$4.9 million, consisting of increased employee compensation, benefits and travel costs of \$4.5 million and additional stock-based compensation of \$0.4 million. In addition, hosting fees for our network infrastructure increased \$1.6 million as we increased data center capacity to support our growth. At December 31, 2011, we delivered our service from seven data centers in North America and seven data centers internationally compared to three data centers in North America and five data centers internationally at December 31, 2010. Depreciation expense also increased \$1.1 million as we started the transition of our network infrastructure from a managed services hosting model to a co-location model.

Cost of professional services and other revenues increased \$6.1 million resulting in a decrease in professional services and other gross profit percentage from (43)% to (51)%. The overall increase in cost of professional services and other revenues was primarily attributed to increased personnel-related costs of \$3.7 million, consisting of increased employee compensation, benefits and travel costs of \$3.5 million and additional stock-based compensation of \$0.2 million. In addition, outside services increased \$1.9 million primarily related to additional fees paid to third-parties to provide implementation services.

## Edgar Filing: ServiceNow, Inc. - Form S-1/A

Total headcount associated with cost of revenues increased 115% from December 31, 2010 to December 31, 2011 as we invested in additional resources to continue to support our subscription service and further develop our professional services group.

**Table of Contents*****Sales and Marketing***

**Table of Contents**

*Fiscal 2010 compared to fiscal 2011.* Revenues increased \$49.3 million, primarily due to the increase in subscription revenues of \$39.1 million. Of the total increase in subscription revenues, 46% represented revenues from new customers acquired after June 30, 2010, and 54% represented revenues from existing customers at or prior to June 30, 2010. Our total customers increased 68% from June 30, 2010 to June 30, 2011. The average subscription revenues per customer increased 19% over this period primarily due to an increase in the number of subscriptions sold to existing customers.

Of the \$39.1 million increase in subscription revenues for fiscal 2011, 13% represented revenues from channel partners and 87% represented sales to customers by our direct sales organization. Subscription revenues outside North America represented 25% of the \$39.1 million total increase in subscription revenues and 75% represented subscription revenues in North America.

The increase in professional services and other revenues of \$10.2 million was primarily due to the prospective adoption of new revenue accounting guidance resulting in an increase to professional services and other revenues of \$5.5 million in fiscal 2011. The remaining increase of \$4.7 million was attributable to the growth in our customer base. Revenues outside North America represented 17% of the \$10.2 million total increase in professional services and other revenues. Revenues in North America represented 83% of the \$10.2 million total increase in professional services and other revenues. The increase in subscription revenues outside North America was due primarily to increased adoption of our subscription service through sales from new channel partners and to a lesser extent sales by our existing channel partners and the expansion of our direct sales organization. During fiscal 2011, we opened additional sales and marketing offices in Australia and the Netherlands.

*Fiscal 2009 compared to fiscal 2010.* Revenues increased \$24.0 million, primarily due to the increase in subscription revenues of \$22.2 million. Of the total increase in subscription revenues 57% represented revenues from new customers acquired after June 30, 2009, and 43% represented revenues from existing customers at or prior to June 30, 2009. Our total customers increased by 64% from June 30, 2009 to June 30, 2010. The average subscription revenues per customer increased 41% over this period primarily due to an increase in the average number of subscriptions sold to new customers.

Of the \$22.2 million increase in subscription revenues for fiscal 2010, 8% represented revenues from channel partners and 92% represented sales to customers by our direct sales organization. Subscription revenues outside North America represented 28% of the \$22.2 million total increase in subscription revenues and 72% represented subscription revenues in North America. The increase in subscription revenues outside North America was due primarily to increased adoption of our subscription service through sales by our existing channel partners and to a lesser extent the addition of new channel partners and the expansion of our direct sales organization. During fiscal 2010, we opened an additional sales and marketing office in Germany, which did not account for a significant portion of increased revenues during the period.

The increase in professional services and other revenues of \$1.8 million was primarily attributable to the growth in our customer base. Revenues outside North America represented 21% of the \$1.8 million total increase in professional services and other revenues. Revenues in North America represented 79% of the \$1.8 million total increase in professional services and other revenues.

*Fiscal 2010 compared to fiscal 2011.* Cost of subscription revenues increased \$8.9 million, resulting in a decrease from 84% to 81% in subscription gross profit percentage from June 30, 2010 to June 30, 2011. The overall increase in cost of subscription revenues was primarily attributable to increased personnel-related costs of \$5.0 million, consisting of increased employee compensation, benefits and travel costs of \$4.5 million and additional stock-based compensation of \$0.5 million. Hosting fees for our network infrastructure increased \$2.1 million as we increased data center capacity to support our growth. At June 30, 2011, we delivered our service from six data centers in North America and five data centers internationally compared to three data centers in the United States and five data centers internationally at June 30, 2010. Depreciation expense also increased \$0.8 million as we started the transition of our network infrastructure from a managed service hosting model to a co-location model.

Cost of professional services and other revenues increased \$6.5 million from June 30, 2010 to June 30, 2011. Our professional services and other gross profit percentage improved from (202)% to (21)% from June 30, 2010 to June 30, 2011, primarily due to increased revenues as a result of the prospective adoption of new revenue recognition accounting guidance. This guidance enabled us to recognize professional services revenues as the services are delivered. The overall increase in cost of professional services and other revenues was primarily attributable to increased employee compensation, benefits and travel costs of \$3.1 million and increased outside services costs of \$3.1 million primarily related to additional fees paid to third parties to provide implementation services.

Total headcount associated with cost of revenues increased 127% from June 30, 2010 to June 30, 2011 as we invested in additional resources to continue to support our subscription service and further develop our professional services group.

*Fiscal 2009 compared to fiscal 2010.* Our subscription gross profit percentage increased from 82% to 84% from June 30, 2009 to June 30, 2010, due to increased revenues of \$22.2 million offset by an increase in the cost of subscription revenues of \$3.2 million. The overall increase in cost of subscription revenues was primarily attributed to an increase in our hosting fees for our network infrastructure of \$1.5 million as we increased data center capacity to support our growth. At June 30, 2010, we delivered our service from three data centers in North America and five data centers internationally, compared to three data centers in North America and two data centers internationally at June 30, 2009. Personnel-related costs increased \$1.1 million, consisting of increased employee compensation, benefits and travel costs.

Our professional services and other gross profit percentage improved from (220)% to (202)% from June 30, 2009 to June 30, 2010, due to an increase in professional services and other revenues of \$1.8 million offset by an increase in cost of professional services and other revenues of \$5.1 million. The overall increase in cost of professional services and other revenues was primarily attributable to increased outside services costs of \$3.2 million primarily related to additional fees paid to third parties to provide implementation services. In addition,

**Table of Contents**

personnel-related costs increased \$1.5 million, consisting primarily of increased employee compensation, benefits and travel costs of \$1.4 million. Total headcount associated with cost of revenues increased 74% from June 30, 2009 to June 30, 2010 as we invested in additional resources to continue to support our subscription service and further develop our professional services group.

**Sales and Marketing**

	Fiscal Year Ended June 30,			2009 to 2010 % Change	2010 to 2011 % Change
	2009	2010	2011		
	(dollars in thousands)				
Sales and marketing	\$ 8,499	\$ 19,334	\$ 34,123	127%	76%
Percentage of revenues	44%	45%	37%		
Headcount (at period end)	40	72	140	80%	94%

*Fiscal 2010 compared to fiscal 2011.* Sales and marketing expenses increased \$14.8 million. Employee-related costs increased \$13.3 million, consisting of increased employee compensation, benefits and travel costs in connection with our direct sales force of \$11.5 million, increased commissions of \$1.1 million, and an increase in stock-based compensation of \$0.7 million, which was primarily driven by an increase in sales and marketing headcount of 94% from June 30, 2010 to June 30, 2011. In addition, we incurred an increase of \$2.7 million in marketing and event costs primarily attributable to our annual Knowledge conference, which experienced a 107% increase in attendance year-over-year. Offsetting these increases was a decrease of \$2.0 million in compensation expense related to the fiscal 2010 repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock. Please see Note 9 to our consolidated financial statements for further explanation of this transaction.

*Fiscal 2009 compared to fiscal 2010.* Sales and marketing expenses increased \$10.8 million. Employee-related costs increased \$7.6 million, consisting of increased employee compensation, benefits and travel costs in connection with our direct sales force of \$4.7 million, increased commissions of \$2.7 million, and an increase in stock-based compensation of \$0.2 million, which was primarily driven by an increase in sales and marketing headcount of 80% from June 30, 2009 to June 30, 2010. In addition, fiscal 2010 included \$2.0 million in compensation expense related to the repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock. Marketing and event costs, primarily related to our Knowledge conference, increased \$0.8 million.

**Research and Development**

	Fiscal Year Ended June 30,			2009 to 2010 % Change	2010 to 2011 % Change
	2009	2010	2011		
	(dollars in thousands)				
Research and development	\$ 2,433	\$ 7,194	\$ 7,004	196%	(3)%
Percentage of revenues	13%	17%	8%		
Headcount (at period end)	15	28	44	87%	57%

*Fiscal 2010 compared to fiscal 2011.* Research and development expenses decreased \$0.2 million. Personnel-related costs increased \$2.8 million, consisting of increased employee compensation, benefits and travel costs of \$2.4 million and increased stock-based compensation of \$0.4 million, which was primarily driven by an increase in research and development headcount of 57% from June 30, 2010 to June 30, 2011. In addition, outside services costs increased \$0.4 million. Offsetting these increases was a decrease of \$3.6 million in compensation expense related to the fiscal 2010 repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock.

*Fiscal 2009 compared to fiscal 2010.* Research and development expenses increased \$4.8 million primarily due to \$3.6 million in compensation expense related to the repurchase of shares from eligible stockholders in

**Table of Contents**

connection with our sale and issuance of Series D preferred stock in fiscal 2010. In addition, personnel-related costs increased \$1.1 million, primarily consisting of increased employee compensation, benefits and travel costs of \$1.0 million, which was driven by an increase in research and development headcount of 87% from June 30, 2009 to June 30, 2010.

**General and Administrative**

	Fiscal Year Ended June 30,			2009 to	2010 to
	2009	2010	2011	2010	2011
	(dollars in thousands)			% Change	% Change
General and administrative	\$ 6,363	\$ 28,810	\$ 9,379	353%	(67)%
Percentage of revenues	33%	66%	10%		
Headcount (at period end)	8	12	41	50%	242%

*Fiscal 2010 compared to fiscal 2011.* General and administrative expenses decreased \$19.4 million. Personnel-related expenses increased \$3.3 million, consisting of increased employee compensation, benefits and travel costs of \$2.6 million and increased stock-based compensation of \$0.7 million primarily driven by an increase in general and administrative headcount of 242% from June 30, 2010 to June 30, 2011. Professional and outside service costs, comprised primarily of legal and accounting and auditing fees, increased \$1.1 million. Offsetting these increases was a decrease of \$24.5 million in compensation expense related to the fiscal 2010 repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock.

*Fiscal 2009 compared to fiscal 2010.* General and administrative expenses increased \$22.4 million primarily due to \$24.5 million in compensation expense related to the repurchase of shares from eligible stockholders in connection with our sale and issuance of Series D preferred stock in fiscal 2010. The effects of the sale and issuance of Series D preferred stock were partially offset by a decrease of \$3.8 million in compensation expense related to the fiscal 2009 stock settlement of an outstanding promissory note in connection with the sale and issuance of Series C preferred stock. Please see Note 9 to our consolidated financial statements for further discussion of these transactions. In addition, general and administrative expenses increased \$1.7 million primarily due to an increase in general and administrative headcount of 50% from June 30, 2009 to June 30, 2010. Personnel-related expenses increased by \$0.8 million, consisting of increased employee compensation, benefits and travel costs of \$0.7 million and increased stock-based compensation of \$0.1 million. Professional and outside service costs, comprised mostly of legal and accounting and auditing fees, accounted for \$0.6 million of the increase.

**Interest and Other Income (Expense), net**

	Fiscal Year Ended June 30,			2009 to	2010 to
	2009	2010	2011	2010	2011
	(dollars in thousands)			% Change	% Change
Interest and other income (expense), net	\$ (27)	\$ (1,226)	\$ 606	NM	NM
Percentage of revenues	%	(3)%	1%		

*Fiscal 2010 compared to fiscal 2011.* The increase in interest and other income (expense), net of \$1.8 million is due to losses on foreign currency transactions of \$0.6 million during fiscal 2011 as compared to realized and unrealized gains of \$0.5 million during fiscal 2010. Additionally, during fiscal 2010, we marked to market our preferred stock warrants and revalued them upon settlement as part of the sale and issuance of Series D preferred stock, resulting in additional expense of \$0.7 million.

*Fiscal 2009 compared to fiscal 2010.* The decrease in interest and other income (expense), net of \$1.2 million is due to additional realized and unrealized losses on foreign currency transactions of \$0.5 million coupled with the revaluation of our preferred stock warrants upon settlement resulting in a decrease of \$0.7 million.

**Table of Contents***Provision for Income Taxes*

	Fiscal Year Ended June 30,			2009 to 2010	2010 to 2011
	2009	2010	2011	% Change	% Change
	(dollars in thousands)				
Income before income taxes	\$ (5,858)	\$ (29,425)	\$ 11,166	NM	NM
Provision for income taxes	48	280	1,336	483%	377%
Effective tax rate	(1)%	(1)%	12%		

*Fiscal 2010 compared to fiscal 2011.* The provision for income taxes increased \$1.1 million primarily as a result of the increase in pre-tax income related to international operations and California taxes.

*Fiscal 2009 compared to fiscal 2010.* The provision for income taxes increased \$0.2 million primarily as a result of international operations.

We maintain a full valuation allowance on our U.S. federal and state deferred tax assets, and the significant components of the tax expense recorded are current cash taxes in various jurisdictions. Our cash tax expense is impacted by each jurisdiction's individual tax rates, laws on timing of recognition of income and deductions and availability of net operating losses and tax credits. Given the full valuation allowance and sensitivity of current cash taxes to local rules, our effective tax rate fluctuates significantly on an annual basis and could be adversely affected to the extent earnings are lower than anticipated in countries that have lower statutory rates and higher than anticipated in countries that have higher statutory rates.

**Table of Contents****Quarterly Results of Operations**

The following tables set forth our unaudited quarterly consolidated statements of operations data and our unaudited consolidated statements of operations data as a percentage of total revenues for each of the seven quarters in the period ended March 31, 2012. We have prepared the quarterly data on a consistent basis with the audited consolidated financial statements included in this prospectus. In the opinion of management, the financial information reflects all necessary adjustments, consisting of normal recurring adjustments, necessary for a fair statement of this data. This information should be read in conjunction with the audited consolidated financial statements and related notes included elsewhere in this prospectus. The results of historical periods are not necessarily indicative of the results of operations for a full year or any future periods.
