Edgar Filing: ENNIS, INC. - Form 10-Q

See accompanying notes to consolidated financial statements.

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****1. Significant Accounting Policies and General Matters****Basis of Presentation**

These unaudited consolidated financial statements of Ennis, Inc. and its subsidiaries (collectively referred to as the Company, Registrant, Ennis, or we, us, or our) for the period ended November 30, 2013 have been prepared in accordance with generally accepted accounting principles for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended February 28, 2013, from which the accompanying consolidated balance sheet at February 28, 2013 was derived. All significant intercompany balances and transactions have been eliminated in consolidation. In the opinion of management, all adjustments considered necessary for a fair presentation of the interim financial information have been included and are of a normal recurring nature. In preparing the financial statements, the Company is required to make estimates and assumptions that affect the disclosure and reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company evaluates these estimates and judgments on an ongoing basis, including those related to bad debts, inventory valuations, property, plant and equipment, intangible assets, pension plan, accrued liabilities, and income taxes. The Company bases estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances. The results of operations for any interim period are not necessarily indicative of the results of operations for a full year.

2. Accounts Receivable and Allowance for Doubtful Receivables

Accounts receivable are reduced by an allowance for an estimate of amounts that are uncollectible. Substantially all of the Company's receivables are due from customers in North America. The Company extends credit to its customers based upon its evaluation of the following factors: (i) the customer's financial condition, (ii) the amount of credit the customer requests, and (iii) the customer's actual payment history (which includes disputed invoice resolution). The Company does not typically require its customers to post a deposit or supply collateral. The Company's allowance for doubtful receivables is based on an analysis that estimates the amount of its total customer receivable balance that is not collectible. This analysis includes assessing a default probability to customers' receivable balances, which is influenced by several factors including (i) current market conditions, (ii) periodic review of customer credit worthiness, and (iii) review of customer receivable aging and payment trends.

The Company writes off accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance in the period the payment is received. Credit losses from continuing operations have consistently been within management's expectations.

The following table presents the activity in the Company's allowance for doubtful receivables for the three and nine months ended November 30, 2013 and November 30, 2012 (in thousands):

	Three months ended November 30,		Nine months ended November 30,	
	2013	2012	2013	2012
Balance at beginning of period	\$ 3,748	\$ 4,410	\$ 3,952	\$ 4,403
Bad debt expense	618		2,816	287
Recoveries	9	5	28	24
Accounts written off	(484)	(732)	(2,905)	(1,031)
Balance at end of period	\$ 3,891	\$ 3,683	\$ 3,891	\$ 3,683

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****3. Inventories**

The Company uses the lower of last-in, first-out (LIFO) cost or market to value certain of its business forms inventories and the lower of first-in, first-out (FIFO) cost or market to value its remaining forms and apparel inventories. The Company regularly reviews inventories on hand, using specific aging categories, and writes down the carrying value of its inventories for excess and potentially obsolete inventories based on historical usage and estimated future usage. In assessing the ultimate realization of its inventories, the Company is required to make judgments as to future demand requirements. As actual future demand or market conditions may vary from those projected by the Company, adjustments to inventories may be required.

The following table summarizes the components of inventories at the different stages of production as of the dates indicated (in thousands):

	November 30, 2013	February 28, 2013
Raw material	\$ 18,417	\$ 14,470
Work-in-process	12,864	11,238
Finished goods	90,512	83,990
	\$ 121,793	\$ 109,698

4. Acquisitions

On September 27, 2013, the Company acquired the assets of the Custom Envelope Division (CED), part of the Custom Resale Group of Cenveo, Inc., for \$47.25 million in cash plus the assumption of certain trade liabilities. The cash portion of the purchase price was funded by borrowing under the Company's line of credit facility. The CED assets are comprised of the WISCO Envelopes® (WISCO) brand, which is produced at an owned facility in Tullahoma, TN, and the National Imprint Corporation (National Imprint®, NIC) brand, which is produced in a leased facility in Claysburg, PA. WISCO produces and folds various types of envelopes, and NIC is an imprinter of envelopes. Both of these products are sold through print distributors and will continue to be operated under the WISCO and NIC brand names at their respective locations. WISCO and NIC had sales in excess of \$40 million for the twelve month period ended December 31, 2012. The acquisition expanded and strengthened the envelope product line for the Company.

The following is a summary of the preliminary purchase price allocations for WISCO and NIC (in thousands):

Accounts receivable	\$ 3,331
Inventories	2,391
Other assets	375
Property, plant & equipment	4,901
Customer lists	16,800
Trade names	3,600
Goodwill	19,219
Accounts payable and accrued liabilities	(3,367)
	\$ 47,250

Edgar Filing: ENNIS, INC. - Form 10-Q

On September 30, 2013, the Company acquired the assets of the businesses operating under the trade name of Folder Express® from Wright Printing Company for \$14.6 million in cash plus the assumption of certain trade payables. The cash portion of the purchase price was funded by borrowing under the Company's line of credit facility. The businesses produce folders and specialty folders for music stores and public schools. The businesses had combined sales of approximately \$20 million during the twelve month period ended December 31, 2012 and will continue to operate under the Folder Express and related brand names. The acquisition expands the Company's geographic presence in folder products.

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****4. Acquisitions-continued**

The following is a summary of the preliminary purchase price allocations for Folder Express (in thousands):

Accounts receivable	\$ 1,171
Inventories	2,102
Other assets	195
Property, plant & equipment	1,617
Customer lists	3,850
Trade name	1,520
Goodwill	4,645
Accounts payable and accrued liabilities	(493)
	\$ 14,607

The results of operations for WISCO, NIC and Folder Express are included in the Company's consolidated financial statements from the dates of acquisition. The following table represents certain operating information on a pro forma basis as though all operations had been acquired as of March 1, 2012, after the estimated impact of adjustments such as amortization of intangible assets, interest expense, interest income, and related tax effects (in thousands, except per share amounts):

	Three months ended		Nine months ended	
	November 30,		November 30,	
	2013	2012	2013	2012
Pro forma net sales	\$ 141,758	\$ 144,260	\$ 446,762	\$ 455,659
Pro forma net earnings	9,747	8,087	30,439	23,393
Pro forma earnings per share - diluted	0.37	0.31	1.16	0.90

The pro forma results are not necessarily indicative of what would have occurred if the acquisitions had been in effect for the periods presented.

5. Goodwill and Other Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of net assets of acquired businesses and is not amortized. Goodwill and indefinite-lived intangibles are evaluated for impairment on an annual basis, or more frequently if impairment indicators arise, using a fair-value-based test that compares the fair value of the asset to its carrying value. Fair values of reporting units are typically calculated using a factor of expected earnings before interest, taxes, depreciation, and amortization. The Company must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets in assessing the recoverability of its goodwill and other intangibles. If these estimates or the related assumptions change, the Company may be required to record impairment charges for these assets in the future.

The cost of intangible assets is based on fair values at the date of acquisition. Intangible assets with determinable lives are amortized on a straight-line basis over their estimated useful life (between 1 and 10 years). Trademarks and trade names with indefinite lives are evaluated for impairment on an annual basis, or more frequently if impairment indicators arise. The Company assesses the recoverability of its definite-lived

intangible assets primarily based on its current and anticipated future undiscounted cash flows.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED NOVEMBER 30, 2013

5. Goodwill and Other Intangible Assets-continued

The carrying amount and accumulated amortization of the Company's intangible assets at each balance sheet date are as follows (in thousands):

	Weighted Average Remaining Life (in years)	Gross Carrying Amount	Accumulated Amortization	Net
As of November 30, 2013				
Amortized intangible assets				
Trade names		\$ 1,234	\$ 1,234	\$

Patent	5.0	773	134	639
Total	6.2	\$ 39,894	\$ 19,121	\$ 20,773
			November 30, 2013	February 28, 2013
Non-amortizing intangible assets				
Trademarks and trade names			\$ 68,498	\$ 63,378

Aggregate amortization expense for the nine months ended November 30, 2013 and November 30, 2012 was \$2.8 million and \$2.5 million, respectively.

The Company's estimated amortization expense for the next five fiscal years ending in February of the stated calendar year is as follows (in thousands):

2015	5,644
2016	5,586
2017	5,586
2018	5,347

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****5. Goodwill and Other Intangible Assets-continued**

Changes in the net carrying amount of goodwill as of the dates indicated are as follows (in thousands):

	Print Segment Total	Apparel Segment Total	Total
Balance as of February 29, 2012	\$ 47,085	\$ 74,549	\$ 121,634
Goodwill acquired adjustment	175		175
Goodwill impairment			
Balance as of February 28, 2013	47,260	74,549	121,809
Goodwill acquired	23,864		23,864
Goodwill impairment			
Balance as of November 30, 2013	\$ 71,124	\$ 74,549	\$ 145,673

During the fiscal year ended February 28, 2013, an adjustment of \$0.2 million reflects a revised estimate in accounts receivable, inventories, accrued expenses, and property, plant and equipment, net of adjustment to the purchase price, related to the acquisition of PrintXcel and Printegra assets from Cenvo Corporation (Cenvo) and its subsidiaries. During the nine months ended November 30, 2013, \$23.9 million was added to goodwill related to the acquisition of the WISCO, NIC and Folder Express assets.

6. Other Accrued Expenses

The following table summarizes the components of other accrued expenses as of the dates indicated (in thousands):

	November 30, 2013	February 28, 2013
Accrued taxes	\$ 344	\$ 361
Accrued legal and professional fees	1,072	777
Accrued interest	155	120
Accrued utilities	124	96
Accrued acquisition related obligations	158	163
Other accrued expenses	863	593
	\$ 2,716	\$ 2,110

7. Long-Term Debt

Long-term debt consisted of the following as of the dates indicated (in thousands):

Edgar Filing: ENNIS, INC. - Form 10-Q

	November 30, 2013	February 28, 2013
Revolving credit facility	\$ 95,500	\$ 57,500

On September 19, 2013, the Company entered into the Third Amendment and Consent to Second Amended and Restated Credit Agreement (the Amendment) with a syndicate of lenders led by Bank of America, N.A. (the Facility). The Amendment amends and restates the financial covenant relating to Minimum Tangible Net Worth. The amended covenant requires a Minimum Tangible Net Worth of \$100 million, with step-ups equal to 25% of consolidated net income, commencing with the first quarter ending November 30, 2013. The Facility provides the Company access to \$150.0 million in revolving credit, which the Company may increase to \$200.0 million in certain circumstances, and matures on August 16, 2016. The Facility bears interest at the London Interbank Offered Rate (LIBOR) plus a spread ranging from 1.0% to 2.25% (LIBOR + 1.25% or 1.49% at November 30, 2013 and 1.7%

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****7. Long-Term Debt-continued**

at November 30, 2012), depending on the Company's ratio of total funded debt to the sum of net earnings plus interest, tax, depreciation and amortization (EBITDA). As of November 30, 2013, the Company had \$95.5 million of borrowings under the revolving credit line and \$3.3 million outstanding under standby letters of credit arrangements, leaving the Company availability of approximately \$51.2 million. The Facility contains financial covenants, restrictions on capital expenditures, acquisitions, asset dispositions, and additional debt, as well as other customary covenants, such as a minimum tangible equity level and the total funded debt to EBITDA ratio. The Company was in compliance with these covenants as of November 30, 2013. The Facility is secured by substantially all of the Company's domestic assets as well as all capital securities of each of the Company's U.S. subsidiaries and 65% of all capital securities of each of the Company's direct foreign subsidiaries.

8. Shareholders' Equity

Changes in shareholders' equity accounts for the nine months ended November 30, 2013 are as follows (in thousands, except share amounts):

	Common Stock		Additional Paid-in Capital	Retained Earnings	Accumulated Other Comprehensive Income (Loss)	Treasury Stock		Total
	Shares	Amount				Shares	Amount

On October 20, 2008, the Board of Directors authorized the repurchase of up to \$5.0 million of the common stock through a stock repurchase program. Under the board-approved repurchase program, share purchases may be made from time to time in the open market or through privately negotiated transactions depending on market conditions, share price, trading volume and other factors, and such purchases, if any, will be made in accordance with applicable insider trading and other securities laws and regulations. These repurchases may be commenced or suspended at any time or from time to time without prior notice. While no shares have been repurchased during the last three fiscal years or during the current fiscal year under the program, there have been a total of 96,000 shares of common stock that have been purchased under the repurchase program since its inception at an average price per share of \$10.45. On April 20, 2012, the Board increased the authorized amount available to repurchase our shares by an additional \$5.0 million, bringing the total available to repurchase the Company's common stock to approximately \$9.0 million. Unrelated to the stock repurchase program, the Company purchased 112 shares of common stock during the nine months ended November 30, 2013.

9. Stock Option Plan and Stock Based Compensation

Edgar Filing: ENNIS, INC. - Form 10-Q

The Company grants stock options and restricted stock to key executives and managerial employees and non-employee directors. At November 30, 2013, the Company had one stock option plan, the 2004 Long-Term Incentive Plan of Ennis, Inc., as amended and restated as of June 30, 2011, formerly the 1998 Option and Restricted Stock Plan amended and restated as of May 14, 2008 (the "Plan"). The Company has 862,742 shares of unissued common stock reserved under the Plan for issuance as of November 30, 2013. The exercise price of each stock option granted under the Plan equals a referenced price of the Company's common stock as reported on the New York Stock Exchange on the date of grant, and an option's maximum term is ten years. Stock options and restricted stock may be granted at different times during the year and vest ratably over various periods, from grant date up to five years. The Company uses treasury stock to satisfy option exercises and restricted stock awards.

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****9. Stock Option Plan and Stock Based Compensation-continued**

The Company recognizes compensation expense for stock options and restricted stock grants on a straight-line basis over the requisite service period. For the three months ended November 30, 2013 and November 30, 2012, the Company included in selling, general and administrative expenses, compensation expense related to share based compensation of \$0.4 million (\$0.2 million net of tax), and \$0.4 million (\$0.3 million net of tax), respectively. For the nine months ended November 30, 2013 and November 30, 2012, the Company included in selling, general and administrative expenses, compensation expense related to share based compensation of \$1.2 million (\$0.7 million net of tax), and \$1.1 million (\$0.7 million net of tax), respectively.

Stock Options

The Company had the following stock option activity for the nine months ended November 30, 2013:

	Number of Shares <i>(exact quantity)</i>	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life <i>(in years)</i>	Aggregate Intrinsic Value(a) <i>(in thousands)</i>
Outstanding at February 28, 2013	363,000	\$ 15.79	6.4	\$ 421
Granted	36,155	14.05		
Terminated	(7,750)	13.30		
Exercised	(10,000)	8.94		
Outstanding at November 30, 2013	381,405	\$ 15.86	6.1	\$ 1,055
Exercisable at November 30, 2013	269,194	\$ 15.99	5.1	\$ 717

(a) Intrinsic value is measured as the excess fair market value of the Company's common stock as reported on the New York Stock Exchange over the applicable exercise price.

The following is a summary of the assumptions used and the weighted average grant-date fair value of the stock options granted during the nine months ended November 30, 2013 and November 30, 2012:

	November 30,	
	2013	2012
Expected volatility	30.41%	37.02%
Expected term (years)	3	3
Risk free interest rate	0.35%	0.43%
Dividend yield	4.63%	4.42%
Weighted average grant-date fair value	\$ 1.96	\$ 2.83

Edgar Filing: ENNIS, INC. - Form 10-Q

A summary of the stock options exercised and tax benefits realized from stock based compensation is presented below (in thousands):

	Three months ended November 30,		Nine months ended November 30,	
	2013	2012	2013	2012
Total cash received	\$ 44	\$ 9	\$ 89	\$ 35
Income tax benefits				
Total grant-date fair value	8	1	16	6
Intrinsic value	44	6	90	23

Table of Contents

ENNIS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED NOVEMBER 30, 2013

9. Stock Option Plan and Stock Based Compensation-continued

A summary of the status of the Company's unvested stock options at February 28, 2013, and changes during the nine months ended November 30, 2013 is presented below:

	Number of Options	Weighted Average Grant Date Fair Value
Unvested at February 28, 2013	169,954	\$ 3.20
New grants	36,155	1.96
Vested	(93,898)	3.08
Forfeited		
Unvested at November 30, 2013	112,211	\$ 2.89

As of November 30, 2013, there was \$0.2 million of unrecognized compensation cost related to unvested stock options granted under the Plan. The weighted average remaining requisite service period of the unvested stock options was 1.5 years. The total fair value of shares underlying the options vested during the nine months ended November 30, 2013 was \$1.7 million.

Restricted Stock

The Company had the following restricted stock grant activity for the nine months ended November 30, 2013:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at February 28, 2013	187,048	\$ 16.49
Granted	55,607	14.05
Terminated		
Vested	(61,753)	16.40
Outstanding at November 30, 2013	180,902	\$ 15.77

As of November 30, 2013, the total remaining unrecognized compensation cost related to unvested restricted stock granted under the Plan was approximately \$1.5 million. The weighted average remaining requisite service period of the unvested restricted stock awards was 1.3 years. As of November 30, 2013, the Company's outstanding restricted stock had an underlying fair value at date of grant of \$2.9 million.

10. Pension Plan

Edgar Filing: ENNIS, INC. - Form 10-Q

The Company and certain subsidiaries have a noncontributory defined benefit retirement plan (the Pension Plan), covering approximately 8% of aggregate employees. Benefits are based on years of service and the employee's average compensation for the highest five compensation years preceding retirement or termination. The Company's funding policy is to contribute annually an amount in accordance with the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****10. Pension Plan-continued**

Pension expense is composed of the following components included in cost of goods sold and selling, general and administrative expenses in the Company's consolidated statements of earnings (in thousands):

	Three months ended November 30,		Nine months ended November 30,	
	2013	2012	2013	2012
Components of net periodic benefit cost				
Service cost	\$ 315	\$ 322	\$ 946	\$ 963
Interest cost	601	600	1,802	1,801
Expected return on plan assets	(872)	(802)	(2,617)	(2,406)
Amortization of:				
Prior service cost	(37)	(37)	(109)	(109)
Unrecognized net loss	514	456	1,539	1,368
Net periodic benefit cost	\$ 521	\$ 539	\$ 1,561	\$ 1,617

The Company is required to make contributions to the Pension Plan. These contributions are required under the minimum funding requirements of ERISA. Due to the recent enactment of the Moving Ahead for Progress in the 21st Century Act (MAP-21) in July 2012, plan sponsors can calculate the discount rate used to measure the Pension Plan liability using a 25-year average of interest rates plus or minus a corridor. Prior to MAP-21, the discount rate used in measuring the pension liability was based on the 24-month average of interest rates. As a result of the enactment, which effectively raises the discount rates mandated for determining the value of a pension plan's benefit liability and annual cost of accruals, the Company's minimum required contribution to the Pension Plan is zero for the Pension Plan year ending February 28, 2014. However, the Company expects to make a cash contribution to the Pension Plan of between \$2.0 million and \$3.0 million during fiscal year 2014. The Company contributed \$3.0 million to the Pension Plan during fiscal year 2013.

11. Earnings per Share

Basic earnings per share have been computed by dividing net earnings by the weighted average number of common shares outstanding during the applicable period. Diluted earnings per share reflect the potential dilution that could occur if stock options or other contracts to issue common shares were exercised or converted into common stock.

For the three and nine months ended November 30, 2013, 172,543 and 172,543 shares, respectively, related to stock options were not included in the diluted earnings per share computation because their exercise price exceeded the average fair market value of the Company's stock. For the three and nine months ended November 30, 2012, 301,150 and 301,150 shares, respectively, related to stock options were not included in the diluted earnings per share computation because their exercise price exceeded the average fair market value of the Company's stock. The following table sets forth the computation for basic and diluted earnings per share for the periods indicated:

Three months ended November 30,	Nine months ended November 30,
--	---

Edgar Filing: ENNIS, INC. - Form 10-Q

	2013	2012	2013	2012
Basic weighted average common shares outstanding	26,126,437	26,025,072	26,107,307	26,011,692
Effect of dilutive options	30,424	20,811	22,542	20,046
Diluted weighted average common shares outstanding	26,156,861	26,045,883	26,129,849	26,031,738
Per share amounts:				
Net earnings basic	\$ 0.36	\$ 0.24	\$ 1.06	\$ 0.68
Net earnings diluted	\$ 0.36	\$ 0.24	\$ 1.06	\$ 0.68
Cash dividends	\$ 0.175	\$ 0.175	\$ 0.350	\$ 0.525

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE PERIOD ENDED NOVEMBER 30, 2013****12. Segment Information and Geographic Information**

The Company operates in two segments the Print Segment and the Apparel Segment.

The Print Segment, which represented 66% and 61% of the Company's consolidated net sales for the three and nine months ended November 30, 2013, respectively, is in the business of manufacturing, designing, and selling business forms and other printed business products primarily to distributors located in the United States. The Print Segment operates 50 manufacturing locations throughout the United States in 21 strategically located states. Approximately 96% of the business products manufactured by the Print Segment are custom and semi-custom products, constructed in a wide variety of sizes, colors, number of parts and quantities on an individual job basis depending upon the customers specifications.

The products sold include snap sets, continuous forms, laser cut sheets, tags, labels, envelopes, integrated products, jumbo rolls and pressure sensitive products in short, medium and long runs under the following labels: Ennis[®], Royal Business Forms[®], Block Graphics[®], Specialized Printed Forms[®], 360° Custom LabelsSM, ColorWorx[®], Enfusion[®], Uncompromised Check Solutions[®], VersaSeal[®], Witt Printing[®], B&D Litho[®], Genforms[®], PrintGraphicsSM, Calibrated Forms[®], PrintXcel[®], and Printegra[®]. The Print Segment also sells the Adams-McClure[®] brand (which provides Point of Purchase advertising for large franchise and fast food chains as well as kitting and fulfillment); the Admore[®] and Folder Express[®] brands (which provide presentation folders and document folders); Ennis Tag & LabelSM (which provides tags and labels, promotional products and advertising concept products); Atlas Tag & Label[®] (which provides tags and labels); Trade Envelopes[®] and Block Graphics[®], Wisco Envelopes[®] and National Imprint[®] (which provide custom and imprinted envelopes) and Northstar[®] and General Financial Supply[®] (which provide financial and security documents).

The Print Segment sells predominantly through private printers and independent distributors. Northstar also sells direct to a small number of customers. Northstar has continued its focus with large banking organizations on a direct basis (where a distributor is not acceptable or available to the end-user) and has acquired several of the top 25 banks in the United States as customers and is actively working on other large banks within the top 25 tier of banks in the United States. Adams-McClure sales are generally provided through advertising agencies. Assets in this segment increased in 2013 primarily as a result of the Company's acquisition of WISCO, NIC and Folder Express.

The Apparel Segment, which accounted for 34% and 39% of the Company's consolidated net sales for the three and nine months ended November 30, 2013, respectively, consists of Alstyle Apparel. This group is primarily engaged in the production and sale of activewear including t-shirts, fleece goods, and other wearables. Alstyle sales are seasonal, with sales in the first and second quarters generally being the highest. Substantially all of the Apparel Segment sales are to customers in the United States.

Corporate information is included to reconcile segment data to the consolidated financial statements and includes assets and expenses related to the Company's corporate headquarters and other administrative costs.

Segment data for the three and nine months ended November 30, 2013 and November 30, 2012 were as follows (in thousands):

	Print Segment	Apparel Segment	Corporate	Consolidated Totals
Three months ended November 30, 2013:				
Net sales	\$ 89,671	\$ 46,879	\$	\$ 136,550

	Nine months ended November 30,	
	2013	2012
Interest paid	\$ 774	\$ 1,146
Income taxes paid	\$ 12,535	\$ 10,240

14. Concentrations of Risk

Edgar Filing: ENNIS, INC. - Form 10-Q

Financial instruments that potentially subject the Company to a concentration of credit risk principally consist of cash and trade receivables. Cash is placed with high-credit quality financial institutions. The Company believes its credit risk with respect to trade receivables is limited due to industry and geographic diversification. As disclosed on the Consolidated Balance Sheets, the Company maintains an allowance for doubtful receivables to cover the Company's estimate of credit losses associated with accounts receivable.

The Company, for quality and pricing reasons, purchases its paper, cotton and yarn products from a limited number of suppliers. To maintain its high standard of color control associated with its apparel products, the Company purchases its dyeing chemicals from limited sources. While other sources may be available to the Company to purchase these products, they may not be available at the cost or at the quality the Company has come to expect.

For the purposes of the Consolidated Statements of Cash Flows, the Company considers cash to include cash on hand and in bank accounts. The Federal Deposit Insurance Corporation (FDIC) insures accounts up to \$250,000. At November 30, 2013, cash balances included \$4.5 million that was not federally insured because it represented amounts in individual accounts above the federally insured limit for each such account. This at-risk amount is

14. Concentrations of Risk-continued

subject to fluctuation on a daily basis. While management does not believe there is significant risk with respect to such deposits, we cannot be assured that we will not experience losses on our deposits. At November 30, 2013, the Company had \$0.9 million in Canadian and \$0.9 million in Mexican bank accounts.

15. Subsequent Events

On December 20, 2013, the Board of Directors of the Company declared a 17 1/2 cents a share quarterly dividend to be payable on January 31, 2014 to shareholders of record on January 6, 2014.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Ennis, Inc. (formerly Ennis Business Forms, Inc.) was organized under the laws of Texas in 1909. Ennis, Inc. and its subsidiaries print and manufacture a broad line of business forms and other business products (the Print Segment) and also manufacture a line of activewear (the Apparel Segment) for distribution throughout North America. The Print Segment distributes business products and forms throughout the United States primarily through independent dealers. This distributor channel encompasses print distributors, stationers, quick printers, computer software developers, and advertising agencies, among others. The Apparel Segment produces and sells activewear, including t-shirts, fleece goods and other wearables. Distribution of our activewear throughout the United States, Canada and Mexico is primarily through sales representatives. The distributor channel encompasses activewear wholesalers and screen printers. We offer a great selection of high-quality activewear apparel and hats with a wide variety of styles and colors in sizes ranging from toddler to 6XL. The apparel line features a wide variety of tees, fleece and shorts.

On September 27, 2013, we acquired the assets of the Custom Envelope Division (CED), part of the Custom Resale Group of Cenveo, Inc., for \$47.25 million in cash plus the assumption of certain trade liabilities. The cash portion of the purchase price was funded by borrowing under our line of credit facility. The CED assets are comprised of the WISCO envelope brand, which is produced at an owned facility in Tullahoma, TN, and the National Imprint Corporation (NIC) brand, which is produced in a leased facility in Claysburg, PA. WISCO produces and folds various types of envelopes, and NIC is an imprinter of envelopes. Both of these products are sold through print distributors and will continue to be operated under the WISCO and NIC brand names at their respective locations. WISCO and NIC had sales in excess of \$40 million for the twelve month period ended December 31, 2012.

On September 30, 2013, we acquired the assets of the businesses operating under the trade name of Folder Express from Wright Printing Company for \$14.6 million in cash plus the assumption of certain trade payables. The cash portion of the purchase price was funded by borrowing under our line of credit facility. The businesses produce folders and specialty folders for music stores and public schools. The businesses had combined sales of approximately \$20 million during the twelve month period ended December 31, 2012 and will continue to operate under the Folder Express and other brand names.

Business Segment Overview

We are one of the largest providers of business forms to independent distributors in the United States and are also one of the largest providers of blank t-shirts in North America to the activewear market. We operate in two reportable segments: Print and Apparel. For additional financial information concerning segment reporting, please see Note 12 of the Notes to the Consolidated Financial Statements beginning on page 17.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Print Segment

The Print Segment, which represented 66% and 61% of our consolidated net sales for the three and nine months ended November 30, 2013, respectively, is in the business of manufacturing, designing and selling business forms and other printed business products primarily to distributors located in the United States. The Print Segment operates 50 manufacturing locations throughout the United States in 21 strategically located states. Approximately 96% of the business products manufactured by the Print Segment are custom and semi-custom products, constructed in a wide variety of sizes, colors, and quantities on an individual job basis depending upon the customers' specifications.

The products sold include snap sets, continuous forms, laser cut sheets, tags, labels, envelopes, integrated products, jumbo rolls and pressure sensitive products in short, medium and long runs under the following labels: Ennis[®], Royal Business Forms[®], Block Graphics[®], Specialized Printed Forms[®], 360° Custom LabelsSM, ColorWorx[®], Enfusion[®], Uncompromised Check Solutions[®], VersaSeal[®], Witt Printing[®], B&D Litho[®], Genforms[®], PrintGraphicsSM, Calibrated Forms[®], PrintXcel[®], and Printegra[®]. The Print Segment also sells the Adams-McClure[®] brand (which provides Point of Purchase advertising for large franchise and fast food chains as well as kitting and fulfillment); the Admore[®] and Folder Express[®] brands (which provide presentation folders and document folders); Ennis Tag & LabelSM (which provides tags and labels, promotional products and advertising concept products); Atlas Tag & Label[®] (which provides tags and labels); Trade Envelopes[®] and Block Graphics[®], Wisco Envelopes[®] and National Imprint[®] (which provide custom and imprinted envelopes) and Northstar[®] and General Financial Supply[®] (which provide financial and security documents).

The Print Segment sells predominantly through private printers and independent distributors. Northstar also sells direct to a small number of customers, generally large banking organizations (where a distributor is not acceptable or available to the end-user), as does Adams-McClure, where sales are generally through advertising agencies.

The printing industry generally sells its products either through sales made predominantly to end users, a market dominated by a few large manufacturers, such as R.R. Donnelley, Standard Register, and Cenvéo, or, like the Company, through a variety of independent distributors and distributor groups. While it is not possible, because of the lack of adequate public statistical information, to determine the Company's share of the total business products market, management believes the Company is one of the largest producers of business forms in the United States distributing primarily through independent dealers and that its business forms offering is more diversified than that of most companies in the business forms industry.

There are a number of competitors that operate in this segment, ranging in size from single employee-owner operations to multi-plant organizations. We believe our strategic locations and buying power permit us to compete on a favorable basis within the distributor market on competitive factors, such as service, quality, and price.

Distribution of business forms and other business products throughout the United States is primarily done through independent dealers, including business forms distributors, stationers, printers, computer software developers, and advertising agencies.

Raw materials of the Print Segment principally consist of a wide variety of weights, widths, colors, sizes, and qualities of paper for business products purchased from a number of major suppliers at prevailing market prices.

Business products usage in the printing industry is generally not seasonal. General economic conditions and contraction of the traditional business forms industry are the predominant factor in quarterly volume fluctuations.

Our Print Business Challenges - In our Print Segment, we are engaged in an industry undergoing significant changes. Technology advances have made electronic distribution of documents, internet hosting, digital printing and print-on-demand valid, cost-effective alternatives to traditional custom printed documents and customer communications. We face highly competitive conditions in an already over-supplied, price-competitive industry. Our challenges in the Print Segment of our business include the following:

Transformation of our portfolio of products While traditional business documents are essential in order to conduct business, many are being replaced or devalued with advances in digital technologies, causing steady

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

declines in demand for a portion of our current product line. Transforming our product offerings in order to continue to provide innovative, valuable solutions to our customers on a proactive basis will require us to make investments in new and existing technology and to develop key strategic business relationships, such as print-on-demand services and product offerings that assist customers in their transition to digital business environments. In addition, we will continue to look for new market opportunities and niches, such as the addition of our envelope offerings, healthcare wristbands, secure document solutions, innovative in-mold label offerings and long-run integrated products with high color web printing that provide us with an opportunity for growth and differentiate us from our competition.

Excess production capacity and price competition within our industry Paper mills continue to adjust production capacity through downtime and closures to attempt to keep supply in line with demand. Due to the limited number of paper mills, paper prices have been and are expected to remain fairly volatile. We have generally been able to pass through increased paper costs, although this can often take several quarters due to the custom nature of our products and/or contractual relationships with some of our customers. We will continue to focus our efforts on effectively managing and controlling our product costs to minimize these effects on our operational results, primarily through the use of forecasting models and production and costing models.

Continued economic uncertainties Decreased demand due to continued economic uncertainties and intensified price competition resulted in a decline in our revenue during the past several fiscal years above historical averages. We continue to focus on customer retention, expanding our growth targeted products and continuing to develop new market niches.

Apparel Segment

The Apparel Segment represented 34% and 39% of our consolidated net sales for the three and nine months ended November 30, 2013, respectively, and operates under the name of Alstyle Apparel (Alstyle). Alstyle markets high quality knitted activewear (including t-shirts, tank tops and fleece) across all market segments. The main products of Alstyle are standardized shirts manufactured in a variety of sizes and colors. Approximately 99% of Alstyle s revenues are derived from t-shirt sales and approximately 91% of their sales are sold domestically. Alstyle s branded product lines are sold mainly under the AAA® and Murina® brands.

Effective July 2011, Alstyle began operations in an owned manufacturing facility located in Agua Prieta, Mexico. Previously Alstyle operated in a leased manufacturing facility located in Anaheim, CA. Alstyle has three cut and sew facilities in Mexico (Agua Prieta, Ensenada and Hermosillo). In addition to its own cut and sew facilities, Alstyle may also use outsourced manufacturers from time to time to supplement a portion of its cut and sew needs. After sewing and packaging is completed, the product is shipped to one of Alstyle s nine distribution centers located across the United States, Canada, and Mexico.

Alstyle utilizes a customer-focused internal sales team comprised of twenty-five sales representatives assigned to specific geographic territories in the United States, Canada, and Mexico. Sales representatives are assigned performance objectives for their respective territories and are provided financial incentives for achievement of their target objectives. Sales representatives are responsible for developing business with large accounts and spend a majority of their time in the field.

Alstyle employs a staff of customer service representatives that handle call-in orders from smaller customers. Sales personnel sell directly to Alstyle s customer base, which consists primarily of screen printers, embellishers, retailers, and mass marketers.

A majority of Alstyle s sales are branded products, with the remainder being customer private label products. Generally, sales to screen printers and mass marketers are driven by price and the availability of products, which directly impacts our inventory level requirements. Sales in the private label business are characterized by slightly higher customer loyalty.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Alstyle's most popular styles are produced based on demand management forecasts to permit quick shipment and to level production schedules. Alstyle offers same-day shipping and uses third-party carriers to ship products to its customers.

Alstyle's sales are seasonal, with sales in the first and second fiscal quarters generally being the highest. The apparel industry is characterized by rapid shifts in fashion, consumer demand and competitive pressures, resulting in both price and demand volatility. However, the imprinted activewear market to which Alstyle sells is generally event driven. Blank t-shirts can be thought of as walking billboards promoting movies, concerts, sports teams, and image brands. Still, the demand for any particular product varies from time to time based largely upon changes in consumer preferences and general economic conditions affecting the apparel industry.

The apparel industry is comprised of numerous companies who manufacture and sell a wide range of products. Alstyle is primarily involved in the activewear market and produces t-shirts and outsources such products as fleece, hats, shorts, pants and other such activewear apparel from China, Thailand, Pakistan, and other foreign sources to sell to its customers through its sales representatives. Alstyle competes with many branded and private label manufacturers of knit apparel in the United States, Canada, and Mexico, some of which are larger in size and have greater financial resources than Alstyle. Alstyle competes on the basis of price, quality, service, and delivery. Alstyle's strategy is to provide the best value to its customers by delivering a consistent, high-quality product at a competitive price. Alstyle's competitive disadvantage is that its brand name, Alstyle Apparel, is not as well known as the brand names of its largest competitors, such as Gildan, Delta, Hanes, and Russell. While it is not possible to calculate precisely, because of the lack of adequate public statistical information, management believes that Alstyle is one of the top five providers of blank t-shirts in North America.

Raw materials of the Apparel Segment principally consist of cotton and polyester yarn purchased from a number of major suppliers at prevailing market prices, although we purchase 54% of our cotton and yarn from one supplier.

Our Apparel Business Challenges In our Apparel Segment, our market niche is highly competitive, commodity driven, and is generally dominated by a limited number of companies. While the economic environment improved somewhat in 2011, which led to increased demand for our product during the latter part of fiscal year 2011 and the start of fiscal year 2012, since then we have continued to see market softness. We believe the challenges in our Apparel Segment of our business include the following:

Cotton prices Our business can be affected by dramatic movements in cotton prices. The cost incurred for materials, i.e., yarn, thread, etc. is capitalized into inventory and impacts the Company's operating results as inventory is sold, which could take six months or longer after the materials are purchased, depending on inventory turns. Consequently, increases or decreases in cotton costs can have a significant impact on the Company's operational results for many quarters. A reduction in the spot price of cotton added additional complexities to an already competitive marketplace during fiscal year 2013. The divergence between the current cost of cotton and the cost residing in most manufacturers' finished goods inventories was at historical levels, creating market valuation issues for some and sale side pressure for others. We lock in the cost of yarn from our primary suppliers in an attempt to protect our business from the volatility of the market price of cotton. The divergence between the cost of cotton in our finished goods inventory and the current price of cotton is now in line with historical measurements, and therefore we do not anticipate the price of cotton to have a significant impact on our operational results for the quarters to come, absent some economic disruption, or market abnormalities.

Agua Prieta manufacturing facility The manufacturing facility in Agua Prieta, Mexico (AP) became operational in July 2011, and all production has now been transitioned from our Anaheim, CA (Anaheim) facility to the AP facility. Production levels at the plant are running at required levels to satisfy demand, but below originally estimated levels due to lower revenues, resulting from market softness, economic conditions and the previous non-competitive cost position of our finished goods inventory during fiscal year 2013. In addition, from time-to-time we have had disruptions in our utility services which impacted our manufacturing through-put. However, given the improved cost position of our finished goods inventory and current level of utility services, and absent some economic disruption, we do not expect any obstacles to increasing production levels to coincide with increases in demand. We continue to see steady improvement in both our efficiency and utilization gains as our production levels increase.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Continued economic uncertainties The economic climate in which we operate continues to be volatile and challenging both domestically and internationally. While the domestic economy has recovered, the recovery has not been as broad based as recoveries in the past. Unemployment still remains high, and disposable income of the majority of the population remains restrained. We saw a significant drop in our sales during the latter half of fiscal year 2012 due to competitive pricing pressures, which we attribute to softness in the market. During fiscal year 2013 the marketplace continued to be extremely competitive, with prices being driven lower as manufacturers tried to maintain certain volume levels. Whether or not this extremely competitive marketplace will continue throughout all of next fiscal year is unknown. However, whichever direction the market may take, we feel we are better positioned today than in the past, given the improved operational efficiency at the Agua Prieta facility and the current cost of our finished goods inventory, to not only weather the storm in the event of a downturn, but to potentially make some gains.

Cautionary Statements Regarding Forward-Looking Statements

You should read this discussion and analysis in conjunction with our Consolidated Financial Statements and the related notes appearing elsewhere in this Report. All of the statements in this Report, other than historical facts, are forward-looking statements, including, without limitation, the statements made in the Management's Discussion and Analysis of Financial Condition and Results of Operations, particularly under the caption Overview. As a general matter, forward-looking statements are those focused upon anticipated events or trends, expectations, and beliefs relating to matters that are not historical in nature. The words could, should, feel, anticipate, aim, preliminary, expect, believe, estimate, intend, intent, plan, will, foresee, project, forecast, or the negative thereof or variations thereon, and similar expressions in this Report are forward-looking statements.

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for these forward-looking statements. In order to comply with the terms of the safe harbor, Ennis, Inc. notes that forward-looking statements are subject to known and unknown risks, uncertainties and other factors relating to its operations and business environment, all of which are difficult to predict and many of which are beyond the control of Ennis, Inc. These known and unknown risks, uncertainties and other factors could cause actual results to differ materially from those matters expressed in, anticipated by or implied by such forward-looking statements.

These statements reflect the current views and assumptions of management with respect to future events. Ennis, Inc. does not undertake, and hereby disclaims, any duty to update these forward-looking statements, even though its situation and circumstances may change in the future. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this report. The inclusion of any statement in this report does not constitute an admission by Ennis, Inc. or any other person that the events or circumstances described in such statement are material.

We believe these forward-looking statements are based upon reasonable assumptions. All such statements involve risks and uncertainties, and as a result, actual results could differ materially from those projected, anticipated or implied by these statements. Such forward-looking statements involve known and unknown risks, including but not limited to, general economic, business and labor conditions and the potential impact on our operations; our ability to implement our strategic initiatives and control our operational costs; dependence on a limited number of key suppliers; our ability to recover the rising cost of raw materials and other costs (i.e., energy, freight, labor, benefit costs, etc.) in markets that are highly price competitive; our ability to timely or adequately respond to technological changes in the industry; the impact of the Internet and other electronic media on the demand for forms and printed materials; the impact of foreign competition, tariffs and import restrictions; customer credit risk; competitors' pricing strategies; a decline in business volume and profitability could result in an impairment in our reported goodwill negatively impacting our operational results; our ability to retain key management personnel; our ability to identify, manage or integrate acquisitions; and changes in government regulations. In addition to the factors indicated above, you should carefully consider the risks described in and incorporated by reference herein and in the risk factors in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013 before making an investment in our common stock.

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Critical Accounting Policies and Estimates

In preparing our consolidated financial statements, we are required to make estimates and assumptions that affect the disclosures and reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates and judgments on an ongoing basis, including those related to allowance for doubtful receivables, inventory valuations, property, plant and equipment, intangible assets, pension plan obligations, accrued liabilities and income taxes. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We believe the following accounting policies are the most critical due to their effect on our more significant estimates and judgments used in preparation of our consolidated financial statements.

We maintain a defined benefit retirement plan (the Pension Plan) for employees. Included in our financial results are Pension Plan costs that are measured using actuarial valuations. The actuarial assumptions used may differ from actual results. As our Pension Plan assets are invested in marketable securities, fluctuations in market values could potentially impact our funding status and associated liability recorded.

Amounts allocated to amortizable intangibles are determined based on valuation analysis for our acquisitions and are amortized over their expected useful lives. We evaluate these amounts periodically (at least once a year) to determine whether a triggering event has occurred during the year that would indicate potential impairment.

We exercise judgment in evaluating our long-lived assets for impairment. We assess the impairment of long-lived assets that include other intangible assets, goodwill, and property, plant, and equipment at least annually or earlier if events or changes in circumstances indicate that the carrying value may not be recoverable. In performing tests of impairment, we must make assumptions regarding the estimated future cash flows and other factors to determine the fair value of the respective assets in assessing the recoverability of our long-lived assets. If these estimates or the related assumptions change, we may be required to record impairment charges for these assets in the future. Actual results could differ from assumptions made by management. At November 30, 2013, our goodwill and other intangible assets were approximately \$145.7 million and \$107.1 million, respectively. Management will complete its annual impairment analysis during the 4th quarter of this fiscal year. We cannot predict the occurrence of future impairments or specific triggering-events, nor the impact such events might have on our reported asset values.

Revenue is generally recognized upon shipment of products. Net sales consist of gross sales invoiced to customers, less certain related charges, including discounts, returns and other allowances. Returns, discounts and other allowances have historically been insignificant. In some cases and upon customer request, we print and store custom print product for customer specified future delivery, generally within twelve months. In this case, risk of loss from obsolescence passes to the customer, the customer is invoiced under normal credit terms and revenue is recognized when manufacturing is complete. Approximately \$3.6 million and \$10.4 million of revenue were recognized under these agreements during the three and nine months ended November 30, 2013, respectively, as compared to \$3.1 million and \$9.2 million during the three and nine months ended November 30, 2012, respectively.

We maintain an allowance for doubtful receivables to reflect estimated losses resulting from the inability of customers to make required payments. On an on-going basis, we evaluate the collectability of accounts receivable based upon historical collection trends, current economic factors, and the assessment of the collectability of specific accounts. We evaluate the collectability of specific accounts using a combination of factors, including the age of the outstanding balances, evaluation of customers' current and past financial condition and credit scores, recent payment history, current economic environment, discussions with our project managers, and discussions with the customers directly.

Our inventories are valued at the lower of cost or market. We regularly review inventory values on hand, using specific aging categories, and write down inventory deemed obsolete and/or slow-moving based on historical usage and estimated future usage to its estimated market value. As actual future demand or market conditions may vary from those projected by management, adjustments to inventory valuations may be required.

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****FORM 10-Q****FOR THE PERIOD ENDED NOVEMBER 30, 2013**

As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes in each jurisdiction in which we operate. This process involves estimating our actual current tax exposure together with assessing temporary differences resulting from different treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheets. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income. To the extent we believe that recovery is not likely, we must establish a valuation allowance. To the extent we establish a valuation allowance, we must include an expense within the tax provision in the consolidated statements of earnings. In the event that actual results differ from these estimates, our provision for income taxes could be materially impacted.

In addition to the above, we also have to make assessments as to the adequacy of our accrued liabilities, more specifically our liabilities recorded in connection with our workers compensation and health insurance, as these plans are self funded. To help us in this evaluation process, we routinely get outside third-party assessments of our potential liabilities under each plan.

In view of such uncertainties, investors should not place undue reliance on our forward-looking statements since such statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Results of Operations

The discussion that follows provides information which we believe is relevant to an understanding of our results of operations and financial condition. The discussion and analysis should be read in conjunction with the accompanying consolidated financial statements and notes thereto, which are incorporated herein by reference. This analysis is presented in the following sections:

Consolidated Summary this section provides an overview of our consolidated results of operations for the three and nine months ended November 30, 2013 and November 30, 2012.

Segment Operating Results this section provides an analysis of our net sales, gross profit margin and operating income by segment.

Consolidated Summary

Provision for income taxes	5,490	4.1	3,330	2.6	16,241	4.1	9,923	2.4
Net earnings	\$ 9,349	6.8%	\$ 6,170	4.8%	\$ 27,656	6.7%	\$ 17,641	4.3%

Three months ended November 30, 2013 compared to three months ended November 30, 2012

Net Sales. Our consolidated net sales were \$136.6 million for the quarter ended November 30, 2013, compared to \$129.0 million for same quarter last year, or an increase of 5.9%. Print sales increased by 10.1% on a comparable quarter basis, from \$81.5 million to \$89.7 million. Our apparel sales, on a comparable quarter basis, declined slightly from \$47.4 million to \$46.9 million, or 1.1%. Our apparel volume was up 5.5% for the period, while its selling price per unit was down 6.6%. While our apparel's current finished goods inventory pricing is allowing us to be able to be much more competitive, the retail market this year continues to be extremely challenging from both a volume and pricing perspective. Our print sales, on a comparable basis, increased as a result of our acquisitions this quarter, which added \$9.4 million to revenues for the quarter.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Cost of Goods Sold. Our manufacturing costs increased by \$0.4 million from \$98.4 million for the three months ended November 30, 2012 to \$98.8 million for the three months ended November 30, 2013, or 0.4%. Our consolidated gross profit margin (margin) increased from 23.7% to 27.7% for the quarter ended November 30, 2012 and November 30, 2013, respectively. Print margin increased from 28.7% to 30.8% on a comparable quarter, an increase of 210 basis points, due to lower raw material input costs and improved operational efficiencies. Apparel margin increased 650 basis points on a comparable quarter basis from 15.2% to 21.7% due to lower raw material input costs and improved operational efficiencies due to higher production levels.

Selling, general and administrative expense. For the three months ended November 30, 2013, our selling, general and administrative expenses were \$22.3 million, or 16.4% of sales, compared to \$20.6 million, or 15.9% of sales for the three months ended November 30, 2012. During the period we saw an increase in selling, general and administrative expenses of \$1.7 million (of which \$1.2 million related to our recent acquisitions and of which \$0.5 million related to an increase in our bad debt expense).

Gain from disposal of assets. The gain of \$15,000 during the current quarter and the loss of \$3,000 during the comparable quarter last year related primarily to the sale of miscellaneous manufacturing equipment.

Income from operations. Our income from operations for the three months ended November 30, 2013 was \$15.4 million or 11.3% of sales, as compared to \$10.1 million, or 7.8% of sales for the three months ended November 30, 2012, an increase of \$5.3 million, or 52.5%. The increase in our operational earnings related primarily to both the improved operating performance of both our segments and to favorable impact associated with the acquisitions that were completed during the current quarter.

Other income and expense. Interest expense remained level at \$0.3 million for the three months ended November 30, 2012 and November 30, 2013. Although our debt was higher at the end of the current quarter, our average outstanding borrowings during the current quarter were comparable to the same quarter last year and our average borrowing cost was slightly less than last year.

Provision for income taxes. Our effective tax rate was 37.0% for the three months ended November 30, 2013 compared to 35.1% for the three months ended November 30, 2012. The increase in our effective tax rate related primarily to the decrease in the impact associated with our domestic production activity credit due to the transition of our apparel manufacturing from the United States to Mexico and an increase in our effective state tax rate.

Net earnings. Due to the above factors, our net earnings for the three months ended November 30, 2013 were \$9.3 million, or 6.8% of sales, as compared to \$6.2 million, or 4.8% of sales for the three months ended November 30, 2012. Our basic earnings per share were \$0.36 per share for the three months ended November 30, 2013, as compared to \$0.24 per share for the three months ended November 30, 2012. Our diluted earnings per share were \$0.36 per share for the three months ended November 30, 2013, as compared to \$0.24 per share for the three months ended November 30, 2012. The acquisitions completed during the current quarter added approximately \$0.04 to our basic and diluted earnings per share.

Nine months ended November 30, 2013 compared to nine months ended November 30, 2012

Net Sales. For the nine month period, our net consolidated sales increased slightly from \$409.9 million to \$410.3 million, or 0.1%. Print sales for the nine month period were \$250.1 million, compared to \$254.9 million for the same period last year, a decrease of \$4.8 million, or 1.9%. Apparel sales for the nine month period were \$160.2 million, compared to \$155.0 million for the same period last year, or an increase of \$5.2 million or 3.4%. While our apparel volume for the period was up almost 10%, this increase was offset by a 6.4% decrease in selling price. The overall apparel market continues to be challenging, both from a pricing and volume perspective. While the current costs within our finished goods inventory is allowing us to be much more competitive this year, competitor discounting, while prevalent in the past, seemed to be even more prevalent during the current quarter. Whether this will continue into our next quarter and fiscal year is unknown at this time.

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****FORM 10-Q****FOR THE PERIOD ENDED NOVEMBER 30, 2013**

Cost of Goods Sold. Our manufacturing costs decreased by \$17.0 million from \$317.1 million, or 77.4% of sales for the nine months ended November 30, 2012 to \$300.1 million, or 73.1% of sales for the comparable period this year. Overall our margin increased from 22.6% to 26.9% for the nine months ended November 30, 2012 and 2013, respectively. Our print margin increased during the period from 29.1% to 30.2%, due to lower input costs and improved operational efficiencies, while our apparel margin increased from 12.0% to 21.7%, due to the lower raw material costs and improving production levels. The negative impact of higher finished goods costs due to mainly higher raw material input costs that we were dealing with most of last fiscal year is behind us. The current raw material pricing in our apparel finished goods is in line with current market prices. This has allowed us to be more competitive in the marketplace while still maintaining acceptable margins. We continue to expect to see improvement in our apparel margin as their production levels increase, absent selling price impacts and some economic/market disruptions.

Selling, general and administrative expense. For the nine months ended November 30, 2013, our selling, general and administrative expenses were \$65.6 million as compared to \$63.9 million for the nine months ended November 30, 2012, an increase of \$1.7 million, \$1.2 million of which related to our recent acquisitions. We have completed the installation of our Enterprise Resource Planning (ERP) system in each of the acquired Printegra/PrintXcel plants and have started to eliminate some duplicate costs residing in these plants. In addition, these expenses are higher this year due to an increase in our bad debt expense. In connection with the bankruptcy of several apparel accounts this year, we increased our bad debt expense by \$2.5 million over the comparable period last year.

Gain from disposal of assets. The gain from disposal of assets of \$270,000 for the nine months ended November 30, 2013 related primarily to the sale of our print facility located in San Antonio, Texas as well as the sale of miscellaneous manufacturing equipment. The gain from disposal of assets of \$6,000 for the nine months ended November 30, 2012 resulted from the sale of a vehicle and miscellaneous manufacturing equipment.

Income from operations. Our income from operations for the nine months ended November 30, 2013 was \$44.9 million, or 11.0% of sales compared to \$28.9 million, or 7.0% of sales for the same period last year, or an increase of \$16.0 million, or 55.4%. The increase in our operational earnings related primarily to the improved operational performance of both of our segments.

Other income and expense. Our interest expense decreased from \$1.2 million for the nine months ended November 30, 2012 to \$0.8 million for the nine months ended November 30, 2013. This was as a result of our average outstanding borrowings being lower during the period when compared to the same period last year.

Provision for income taxes. Our effective tax rate was 37.0% for the nine months ended November 30, 2013 compared to 36.0% for the nine months ended November 30, 2012. The increase in our effective tax rate related to a decrease in the impact associated with our domestic production activity credit due to the transition of our apparel manufacturing from the United States to Mexico and an increase in our effective state tax rate.

Net earnings. Due to the above factors, our net earnings for the nine months ended November 30, 2013 were \$27.7 million, or 6.7% of sales, compared to \$17.6 million, or 4.3% of sales for the nine months ended November 30, 2012. Our basic earnings per share for the nine months ended November 30, 2013 was \$1.06 per share compared to \$0.68 per share for the nine months ended November 30, 2012. Our diluted earnings per share for the nine months ended November 30, 2013 was \$1.06 per share compared to \$0.68 per share for the nine months ended November 30, 2012.

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Print Segment. Our net print sales, which represented 66% and 61% of our consolidated sales for the three and nine months ended November 30, 2013, respectively, were approximately \$89.7 million and \$250.1 million, respectively, compared to \$81.5 million and \$254.9 million, for the three and nine months November 30, 2012, respectively, an increase of \$8.2 million or 10.1% for the quarter and a decrease of \$4.8 million or 1.9% for the period. The increase in our print sales for the comparable quarter was as a result of our recent acquisitions which added approximately \$9.4 million in sales. The decrease in our print sales on a comparable period basis related primarily to the following: (i) a continued decline in our traditional long-run business due to a combined transition away from continuous forms and increased competition from major competitors (i.e., R.R. Donnelley, Standard Register, etc.); (ii) fewer sales days; and (iii) normal transition of business loss associated with acquired businesses, either due to pricing (see below), concentration of business, or other factors. In connection with our previously acquired plants during last fiscal year, as we implement our ERP system at these plants, we often times experience some sales decline as we are better able to align pricing to market and the value offered to the end use customer. We do feel, however, most of these transitional losses are behind us at this point.

Apparel Segment. Our net apparel sales, which represented 34% and 39% of our consolidated sales for the three and nine months ended November 30, 2013, respectively, were approximately \$46.9 million and \$160.2 million, respectively, compared to \$47.4 million and \$155.0 million, for the three and nine months November 30, 2012, respectively, a decrease of \$0.5 million or 1.1% for the quarter (volume up 5.5%, selling price down 6.6%) and an increase of \$5.2 million or 3.4% for the period (volume up 9.8%, selling price down 6.4%). While the current pricing of our finished goods inventory has allowed us to be more competitive on large volume accounts and increase our units sold, the current market remains highly competitive and challenging from both a volume and pricing perspective. During the current quarter especially, we noted market softness which lead to aggressive competitor discounting in the marketplace, and pressure on margins. Whether this condition continues throughout the 4th quarter and into fiscal year 2015 is unknown at this point.

Gross Profit by Segment (in thousands)	Three months ended		Nine months ended	
	November 30, 2013	November 30, 2012	November 30, 2013	November 30, 2012
Print	\$ 27,585	\$ 23,403	\$ 75,481	\$ 74,190
Apparel	10,174	7,208	34,732	18,619
Total	\$ 37,759	\$ 30,611	\$ 110,213	\$ 92,809

Print Segment. Our print gross profit margin for the three and nine months ended November 30, 2013 was \$27.6 million and \$75.5 million, respectively, as compared to \$23.4 million and \$74.2 million, for the three and nine months ended November 30, 2012, respectively. For the quarter, print margin increased from 28.7% to 30.8% compared to the same quarter last year, and increased sequentially from 30.0% last quarter. For the period, print margin increased from 29.1% to 30.2% compared to the same period last year due to the elimination of duplicate costs by the further integration of our acquisitions from the prior fiscal year.

Apparel Segment. Our apparel gross profit margin for the three and nine months ended November 30, 2013 was \$10.2 million and \$34.7 million, respectively, as compared to \$7.2 million and \$18.6 million, for the three and nine months ended November 30, 2012. As a percent of sales, our apparel margin was 21.7% for the current quarter and 21.7% for the nine months ended November 30, 2013, as compared to 15.2% and 12.0% for the comparable periods last year. Our margins continue to benefit from lower input costs and reduced operational costs due to higher production levels. Continued improvement in our margins is highly dependent upon further production volume increases. Production volume increases are tied to general market conditions which at this time are challenging and somewhat soft. In addition, due to this market softness, we have of late started to see more prevalent competitor discounting (see above discussion under apparel sales for further discussion on both) which has put pressure on margins. Whether this current environment will continue into fiscal year 2015 is unknown at this point.

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Profit by Segment (in thousands)	Three months ended November 30,		Nine months ended November 30,	
	2013	2012	2013	2012
Print	\$ 16,040	\$ 12,999	\$ 43,094	\$ 40,428
Apparel	3,014	837	13,283	(937)
Total	19,054	13,836	56,377	39,491
Less corporate expenses	4,215	4,336	12,480	11,927
Earnings before income taxes	\$ 14,839	\$ 9,500	\$ 43,897	\$ 27,564

Print Segment. Our print profit for the three and nine months ended November 30, 2013 was \$16.0 million and \$43.1 million, respectively, as compared to \$13.0 million and \$40.4 million for the three and nine months ended November 30, 2012, respectively. As a percent of sales, our print profits increased from 15.9% to 17.9% for the comparable quarters and increased from 15.9% to 17.2% for the comparable periods.

Apparel Segment. As a result of the increase in our apparel sales and margin, our apparel profit increased approximately \$2.2 million, from \$0.8 million, or 1.8% of sales for the three months ended November 30, 2012 to \$3.0 million, or 6.4% of sales for the three months ended November 30, 2013. Our apparel profit increased approximately \$14.2 million, from (\$0.9) million, or (0.6%) of sales for the nine months ended November 30, 2012 to \$13.3 million, or 8.3% of sales for the nine months ended November 30, 2013. The reduced operating margin during the current quarter in comparison to the current fiscal year relates to increased margin pressure due to competitor discounting in relation to market softness.

Liquidity and Capital Resources

(Dollars in thousands)	November 30, 2013	February 28, 2013
Working Capital	\$ 159,837	\$ 150,377
Cash	\$ 8,516	\$ 6,232

Working Capital. Our working capital increased approximately \$9.5 million or 6.3%, from \$150.4 million at February 28, 2013 to \$159.8 million at November 30, 2013. Our current ratio, calculated by dividing our current assets by our current liabilities, decreased slightly from 4.5 to 1.0 at February 28, 2013 to 4.4 to 1.0 at November 30, 2013. The increase in our working capital related to the increase in our inventories, of which Alstyle inventory increased by \$7.5 million and our recent acquisitions increased our inventory by another \$4.7 million. These increases were offset by a decrease in our prepaid income taxes, down from \$4.2 million at February 28, 2013 to \$1.6 million at November 30, 2013 and an increase in our accounts payable and accrued expenses resulting from our recent acquisitions.

(Dollars in thousands)	Nine months ended November 30, 2013	November 30, 2012
Net Cash provided by operating activities	\$ 38,571	\$ 40,635
Net Cash provided by (used in) investing activities	\$ (64,912)	\$ 2,030
Net Cash provided by (used in) financing activities	\$ 28,912	\$ (43,678)

Cash flows from operating activities. Cash provided by operating activities decreased by \$2.1 million from \$40.6 million for the nine months ended November 30, 2012 to \$38.6 million for the nine months ended November 30, 2013. Our lower operational cash flows for the comparable nine month period was primarily due to a decrease in cash being provided by our inventory this period. This was offset by an increase in our net earnings of \$10.1 million, from \$17.6 million for the nine months ended November 30, 2012 to \$27.7 million for the nine months ended

Edgar Filing: ENNIS, INC. - Form 10-Q

November 30, 2013. In addition, accounts payable and accrued expenses favorably impacted our operational cash flows by a net increase of \$10.5 million and prepaid expenses by \$2.2 million.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Cash flows from investing activities. Cash provided by (used in) investing activities decreased \$66.9 million, from \$2.0 million provided by investing activities to \$64.9 million used in investing activities for the nine months ended November 30, 2012 and 2013, respectively. The increase in cash used related primarily to our acquisitions during the current quarter (\$61.9 million) as well as an increase in capital expenditures of \$2.3 million less approximately \$1.0 million provided by the disposal of property. In addition, last year we had an adjustment to the purchase price of an acquisition which provided an additional \$3.7 million in cash.

Cash flows from financing activities. We provided \$28.9 million in cash for financing activities during the current period, compared to using \$43.7 million for the same nine month period last year, or a decrease of \$72.6 million cash used. Cash was provided by increased borrowings on our credit facility of \$63.0 million (to finance our most recent acquisitions) as compared to no funds borrowed for the comparable period last year. We used \$5.0 million less in cash this period to repay debt and \$4.5 million less in cash to pay dividends than during the same period last year. The reduction in the payment of dividends this year was due to the action taken by the Board last year, whereby, due to tax law uncertainties, the Board felt it appropriate to advance the payment of the normal January and May dividend payments into December 2012.

Credit Facility. On September 19, 2013, we entered into the Third Amendment and Consent to Second Amended and Restated Credit Agreement (the Agreement) with a syndicate of lenders led by Bank of America, N.A. (the Facility). The Amendment amends and restates the financial covenant relating to Minimum Tangible Net Worth. The amended covenant requires a Minimum Tangible Net Worth of \$100 million, with step-ups equal to 25% of consolidated net income, commencing with the first quarter ending November 30, 2013. The Facility provides us access to \$150.0 million in revolving credit, which we may increase to \$200.0 million in certain circumstances, and matures on August 16, 2016. The Facility bears interest at the London Interbank Offered Rate (LIBOR) plus a spread ranging from 1.0% to 2.25% (LIBOR + 1.25% or 1.49% at November 30, 2013 and 1.7% at November 30, 2012), depending on our ratio of total funded debt to the sum of net earnings plus interest, tax, depreciation and amortization (EBITDA). As of November 30, 2013, we had \$95.5 million of borrowings under the revolving credit line and \$3.3 million outstanding under standby letters of credit arrangements, leaving us availability of approximately \$51.2 million. The Facility contains financial covenants, restrictions on capital expenditures, acquisitions, asset dispositions, and additional debt, as well as other customary covenants, such as our minimum tangible equity level and total funded debt to EBITDA ratio. We were in compliance with all these covenants as of November 30, 2013. The Facility is secured by substantially all of our domestic assets as well as all capital securities of each of the Company's U.S. subsidiaries and 65% of all capital securities of each of the Company's direct foreign subsidiaries.

It is anticipated that the available line of credit is sufficient to cover working capital requirements for the foreseeable future, should it be required.

Pension Plan We are required to make contributions to our Pension Plan. These contributions are required under the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA). Due to the recent enactment of the Moving Ahead for Progress in the 21st Century Act (MAP-21) in July 2012, which effectively raises the discount rates mandated for determining the value of a plan's benefit liability and annual cost of accruals, our minimum required contribution to the Pension Plan is zero for the Pension Plan year ending February 28, 2014. However, we expect to make a cash contribution to the Pension Plan of between \$2.0 million and \$3.0 million during fiscal year 2014. We made contributions of \$3.0 million to our Pension Plan during fiscal 2013. As our Pension Plan assets are invested in marketable securities, fluctuations in market values could potentially impact our funding status, associated liabilities recorded and future required minimum contributions. At November 30, 2013, we had an unfunded pension liability recorded on our balance sheet of \$10.9 million.

Inventories We believe our inventory levels are sufficient to satisfy our customer demands and we anticipate having adequate sources of raw materials to meet future business requirements. We have long-term contracts in effect with paper and yarn suppliers that govern prices, but do not require minimum purchase commitments. Certain of our rebate programs do, however, require minimum purchase volumes. Management anticipates meeting the required volumes.

Table of Contents

ENNIS, INC. AND SUBSIDIARIES

FORM 10-Q

FOR THE PERIOD ENDED NOVEMBER 30, 2013

Capital Expenditures We expect our capital requirements for our current fiscal year, exclusive of capital required for possible acquisitions, will be within our historical levels of between \$4.0 million and \$5.0 million. To date we have spent approximately \$4.0 million on capital expenditures. We expect to fund these expenditures through existing cash flows.

We rely on our cash flows generated from operations and the borrowing capacity under our Facility to meet cash requirements of our business. The primary cash requirements of our business are payments to vendors in the normal course of business, capital expenditures, debt repayments and related interest payments, contributions to our pension plan, and the payment of dividends to our shareholders. We expect to generate sufficient cash flows from operations supplemented by our Facility as required to cover our operating and capital requirements for the foreseeable future.

Contractual Obligations & Off-Balance Sheet Arrangements There have been no significant changes in our contractual obligations since February 28, 2013 that have, or are reasonably likely to have, a material impact on our results of operations or financial condition. We had no off-balance sheet arrangements in place as of November 30, 2013.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

Interest Rates

We are exposed to interest rate risk on short-term and long-term financial instruments carrying variable interest rates. We may from time to time utilize interest rate swaps to manage overall borrowing costs and reduce exposure to adverse fluctuations in interest rates. We do not use derivative instruments for trading purposes. Our variable rate financial instruments, consisting of the outstanding credit facility, totaled \$95.5 million at November 30, 2013. The annual impact on our results of operations of a one-point interest rate change on the outstanding balance of the variable rate financial instruments as of November 30, 2013 would be approximately \$1.0 million.

Foreign Exchange

We have global operations and thus make investments and enter into transactions in various foreign currencies. The value of our consolidated assets and liabilities located outside the United States (translated at period end exchange rates) and income and expenses (translated using average rates prevailing during the period), generally denominated in Pesos and Canadian Dollars, are affected by the translation into our reporting currency (the U.S. Dollar). Such translation adjustments are reported as a separate component of consolidated statements of comprehensive income. In future periods, foreign exchange rate fluctuations could have an increased impact on our reported results of operations.

This market risk discussion contains forward-looking statements. Actual results may differ materially from this discussion based upon general market conditions and changes in domestic and global financial markets.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. A review and evaluation were carried out under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q, pursuant to Exchange Act Rule 13a-15. Based upon that review and evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that our disclosure controls and procedures as of November 30, 2013 are effective to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange

Edgar Filing: ENNIS, INC. - Form 10-Q

Commission's rules and forms and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our principal executive and financial

Table of Contents**ENNIS, INC. AND SUBSIDIARIES****FORM 10-Q****FOR THE PERIOD ENDED NOVEMBER 30, 2013**

officers as appropriate to allow timely decisions regarding required disclosure. Due to the inherent limitations of control systems, not all misstatements may be detected. Those inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple errors or mistakes. Additionally, controls could be circumvented by the individual acts of some persons or by collusion of two or more people. Our controls and procedures can only provide reasonable, not absolute, assurance that the above objectives have been met.

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rule 13a-15 that occurred during our fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting ended November 30, 2013.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

There are no material pending proceedings, other than ordinary routine litigation incidental to the business, to which the Company or any of its subsidiaries is a party or of which any of their property is subject.

Item 1A. Risk Factors

There have been no material changes in our Risk Factors as previously discussed in our Annual Report on Form 10-K for the year ended February 28, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Under the Company's stock repurchase plan which was approved by our Board of Directors on October 20, 2008, the Company was authorized to repurchase up to \$5.0 million of the Company's common stock. On April 20, 2012, the Board increased the authorized amount available to repurchase our shares by an additional \$5.0 million, bringing the total to \$10.0 million. As of January 3, 2014, the Company has repurchased 96,000 shares under the repurchase program since its inception at an average price per share of \$10.45. No repurchases were made under the repurchase plan during the third quarter ended November 30, 2013. There is a maximum amount of approximately \$9.0 million available to purchase shares under the program. Unrelated to the stock repurchase program, the Company purchased 112 shares of common stock during the nine months ended November 30, 2013.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Amount that May Yet Be Used to Purchase Shares Under the Program
September 1, 2013 - September 30, 2013		\$		\$ 8,997,084
October 1, 2013 - October 31, 2013		\$		\$ 8,997,084
November 1, 2013 - November 30, 2013		\$		\$ 8,997,084
Total		\$		\$ 8,997,084

Items 3, 4 and 5 are not applicable and have been omitted
