## Note 1 BASIS OF PRESENTATION:

The accompanying unaudited Condensed Consolidated Financial Statements of RTI International Metals, Inc. and its subsidiaries (the Company or RTI ) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X and include the financial position and results of operations for the Company. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. In the opinion of management, these financial statements contain all of the adjustments of a normal and recurring nature considered necessary to state fairly the results for the interim periods presented. The results for the interim periods are not necessarily indicative of the results to be expected for the year.

The Condensed Consolidated Balance Sheet at December 31, 2013 has been derived from the audited Consolidated Financial Statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these Condensed Consolidated Financial Statements be read in conjunction with accounting policies and Notes to the Consolidated Financial Statements included in the Company s 2013 Annual Report on Form 10-K (the Annual Report ) filed with the Securities and Exchange Commission (the SEC ) on March 18, 2014.

## Note 2 ORGANIZATION:

The Company is a leading producer and global supplier of advanced titanium mill products and a manufacturer of fabricated titanium and specialty metal components for the international aerospace, defense, energy, medical device, and other consumer and industrial markets. It is a successor to entities that have been operating in the titanium industry since 1951. The Company first became publicly traded on the New York Stock Exchange in 1990 under the name RMI Titanium Co. and the symbol RTI, and was reorganized into a holding company structure in 1998 under the name RTI International Metals, Inc.

On January 22, 2014, the Company acquired all of the issued and outstanding common stock of Directed Manufacturing, Inc. ( RTI Directed Manufacturing ), a leader in additively manufacturing metals and plastics, using 3-D printing technology, for commercial production and engineering development applications. Details of the acquisition of RTI Directed Manufacturing as well as the acquisition of RTI Extrusions Europe in October 2013 are presented in Note 4 to these Condensed Consolidated Financial Statements.

The Company completed the sale of the specialty metals business of Bow Steel Corporation ( RTI Connecticut ) on February 21, 2014, for approximately \$3.3 million in cash. The results of RTI Connecticut have been presented as discontinued operations for the three months ended March 31, 2014. The results of Pierce-Spafford Metals Company, Inc. ( RTI Pierce Spafford ), which was sold in 2013, are reported with results of RTI Connecticut as discontinued

operations for the three months ended March 31, 2013. Refer to Note 5 to these Condensed Consolidated Financial Statements for further details surrounding the discontinued operations of the Company.

The Company conducts business in two segments: the Titanium Segment and the Engineered Products and Services (EP&S) Segment. The structure reflects the Company s transformation into an integrated supplier of advanced titanium products across the entire supply chain, and aligns its resources to support the Company s long-term growth strategy.

The Titanium Segment melts, processes, produces, stocks, distributes, finishes, cuts-to-size and facilitates just-in-time delivery services of a complete range of titanium mill products which are further processed by its customers for use in a variety of commercial aerospace, defense, and industrial and consumer applications. With operations in Niles and Canton, Ohio; Martinsville, Virginia; Norwalk, California; Tamworth, England; and Rosny-Sur-Seine, France, the Titanium Segment has overall responsibility for the production and distribution of primary mill products including, but not limited to bloom, billet, sheet, and plate. In addition, the Titanium Segment produces ferro titanium alloys for its steelmaking customers. The Titanium Segment also focuses on the research and development of evolving technologies relating to raw materials, melting, and other production processes, and the application of titanium in new markets.

The EP&S Segment is comprised of companies with significant hard and soft-metal expertise that form, extrude, fabricate, additively manufacture, machine, micro machine, and assemble titanium, aluminum, and other specialty metal parts and components. Its products, many of which are complex engineered parts and assemblies, serve the commercial aerospace, defense, medical device, oil and gas, power generation, and chemical process industries, as well as a number of other industrial and consumer markets. With operations located in Minneapolis, Minnesota; Houston and Austin, Texas; Sullivan and Washington, Missouri; Laval, Canada; and Welwyn Garden City and Bradford, England, the EP&S Segment provides value-added products and services such as engineered tubulars and extrusions, fabricated and machined components and subassemblies, and components for the production of minimally invasive and implantable medical devices, as well as engineered systems for deepwater oil and gas exploration and products.

## Note 3 RESTATEMENTS AND REVISIONS:

As disclosed in the Company s Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2013 as filed with the SEC on November 12, 2013, the Company revised its Condensed Consolidated Financial Statements for the three months ended March 31, 2013 for computational errors in the calculation of revenues and cost of sales on contracts requiring the application of the percentage-of-completion revenue recognition methodology under ASC 605-35 and opening balance sheet corrections related to deferred taxes and goodwill associated with its acquisition of RTI Remmele Engineering. In the Annual Report, the Company subsequently restated its Condensed Consolidated Financial Statements for the three months ended March 31, 2013 to establish a full valuation allowance against its Canadian net deferred tax asset, and correct the related provision for income taxes. The following tables set forth the impact of the revision and restatement, as well as adjustments for the presentation of RTI Connecticut as a discontinued operation, on the Condensed Consolidated Statement of Operations and the Condensed Consolidated Statement of Cash Flows as filed in the Company s Amended Quarterly Report on Form 10-Q/A for the period ended March 31, 2013 as filed with the SEC on September 24, 2013.

## Note 4 ACQUISITIONS:

*RTI Directed Manufacturing*. On January 22, 2014, the Company purchased all of the outstanding common stock of RTI Directed Manufacturing for total consideration of approximately \$22.4 million, including \$21.8 million in cash and the assumption of \$0.6 million in liabilities. RTI Directed Manufacturing additively manufactures products using 3-D printing technology for a variety of markets. The results of RTI Directed Manufacturing are reported in the EP&S Segment. From the acquisition date through March 31, 2014, RTI Directed Manufacturing generated revenues of \$555 and an operating loss of \$(360).

The preliminary purchase price allocation, which has not been finalized, is as follows:

| Assets purchased:                   |           |
|-------------------------------------|-----------|
| Current assets, excluding inventory | \$ 746    |
| Inventories                         | 663       |
| Plant and equipment                 | 2,589     |
| Intangible assets:                  |           |
| Customer relationships              | 3,000     |
| Directed Manufacturing trade name   | 1,000     |
| Developed technology                | 1,300     |
| Goodwill                            | 13,070    |
| Liabilities assumed:                |           |
| Current liabilities                 | 571       |
|                                     |           |
| Net assets acquired                 | \$ 21,797 |

Goodwill is primarily attributable to RTI Directed Manufacturing s assembled workforce and exposure to new customers for the Company s products, and is not deductible for income tax purposes. Customer relationships and developed technology are being amortized over a seven-year useful life. Trade names are not amortized as the Company believes that these assets have an indefinite life and the Company intends to continue the use of the Directed Manufacturing name indefinitely. For purposes of the above purchase price allocation, the Company has assumed a 338(h)(10) election under the Internal Revenue Code, which allows it to step-up the tax basis of acquired assets to fair value as presented in the purchase price allocation. If the Company determines that such an election is not appropriate, the Company would be required to record significant deferred tax liabilities, with a corresponding increase to goodwill. The Company anticipates the treatment of the tax basis of acquired assets to be finalized prior to December 31, 2014. The entire purchase price allocation remained open at March 31, 2014.

Pro forma financial information has not been prepared for the acquisition of Directed Manufacturing as the acquisition was not material to the Condensed Consolidated Financial Statements.

*RTI Extrusions Europe Limited.* On October 1, 2013, the Company purchased all of the outstanding common stock of RTI Extrusions Europe for total consideration of approximately \$20.4 million, including \$16.2 million in cash, and the assumption of \$4.2 million in liabilities. RTI Extrusions Europe manufactures extruded, hot-or-cold stretched steel and titanium parts for a number of markets including the aerospace and oil and gas markets. The results of RTI Extrusions Europe are reported in the EP&S Segment.

The purchase price allocation, which has not been finalized, is as follows:

| Assets purchased:                   |           |
|-------------------------------------|-----------|
| Current assets, excluding inventory | \$ 4,827  |
| Inventories                         | 5,230     |
| Plant and equipment                 | 4,346     |
| Intangible assets:                  |           |
| Customer relationships              | 3,600     |
| Backlog                             | 100       |
| Goodwill                            | 2,285     |
| Liabilities assumed:                |           |
| Current liabilities                 | 2,621     |
| Deferred tax liabilities            | 1,553     |
|                                     |           |
| Net assets acquired                 | \$ 16,214 |

The purchase price allocation was adjusted for the valuation of the customer backlog intangible asset, which decreased \$0.1 million from the estimated value at December 31, 2013. As a result of this adjustment, the goodwill balance increased by \$0.1 million. The purchase price allocation remains open for the final valuation of fixed assets, intangible assets, and goodwill.

## Note 5 DISCONTINUED OPERATIONS:

As previously disclosed, in conjunction with the reorganization of its reportable segments in 2013, the Company evaluated its long-term growth strategy and determined it would sell or seek other strategic alternatives for its non-core service centers, RTI Connecticut and RTI Pierce Spafford. In February 2014, the Company completed the sale of the assets of RTI Connecticut for approximately \$3.3 million in cash. In April 2013, the Company completed the sale of RTI Pierce Spafford for approximately \$12.4 million in cash, of which \$10.5 has been received as of March 31, 2014 with the remainder expected later in 2014.

The results of RTI Connecticut, including all fair value adjustments and losses on the completed sale have been presented as results from discontinued operations for the three months ended March 31, 2014 on the Company s Condensed Consolidated Statements of Operations, while the results of both RTI Connecticut and RTI Pierce Spafford are presented as results of discontinued operations for the three months ended March 31, 2013. The assets and liabilities of RTI Connecticut have been classified on the Company s Condensed Consolidated Balance Sheets as assets and liabilities of discontinued operations.

The Company s results from discontinued operations are summarized below:

|  | Three Months Ended<br>March 31, |          |

#### Stock Options

A summary of the status of the Company s stock options as of March 31, 2014, and the activity during the three months then ended, is presented below:

| Stock Options                    | Options  |
|----------------------------------|----------|
| Outstanding at December 31, 2013 | 526,736  |
| Granted                          | 92,954   |
| Forfeited                        | (8,164)  |
| Expired                          | (3,050)  |
| Exercised                        | (24,080) |
| Outstanding at March 31, 2014    | 584,396  |
| Exercisable at March 31, 2014    | 413,964  |

The fair value of stock options granted was estimated at the date of grant using the Black-Scholes option-pricing model based upon the assumptions noted in the following table:

|                           | 2014   |
|---------------------------|--------|
| Risk-free interest rate   | 1.49%  |
| Expected dividend yield   | 0.00%  |
| Expected lives (in years) | 5.0    |
| Expected volatility       | 55.00% |

The weighted-average grant date fair value of stock option awards granted during the three months ended March 31, 2014 was \$15.01.

**Restricted Stock** 

A summary of the status of the Company s nonvested restricted stock as of March 31, 2014, and the activity during the three months then ended, is presented below:

| Nonvested Restricted Stock Awards | Shares   |
|-----------------------------------|----------|
| Nonvested at December 31, 2013    | 213,475  |
| Granted                           | 53,164   |
| Vested                            | (65,704) |
| Forfeited                         | (5,261)  |
| Nonvested at March 31, 2014       | 195,674  |

The fair value of restricted stock grants was calculated using the market value of the Company s Common Stock on the date of issuance. The weighted-average grant date fair value of restricted stock awards granted during the three months ended March 31, 2014 was \$31.19.

#### Performance Share Awards

A summary of the Company s performance share awards as of March 31, 2014, and the activity during the three months then ended, is presented below:

|                                  | Awards   | Maximum Shares<br>Eligible to |
|----------------------------------|----------|-------------------------------|
| Performance Share Awards         | Activity | Receive                       |
| Outstanding at December 31, 2013 | 154,333  | 308,666                       |
| Granted                          | 70,306   | 140,612                       |
| Vested                           | (42,442) | (84,884)                      |
| Forfeited                        | (7,308)  | (14,616)                      |
| Outstanding at March 31, 2014    | 174,889  | 349,778                       |

The performance awards issued in 2014 have both market and performance vesting conditions. The payout of fifty percent of the awards is based upon the Company s total shareholder return compared to the total shareholder return of a relative peer group over a three-year period. These awards were valued using a Monte Carlo model. The weighted-average grant-date fair value of these shares awarded during the three months ended March 31, 2014 was \$38.84. The payout of the remaining fifty percent of the awards is based upon the Company s diluted earnings per share over a three-year period. These awards have been accounted for as awards with performance conditions using the market value of the Company s Common Stock on the date of issuance. Expense on these awards is recognized over the performance period and is determined based on the probability that the performance targets will be achieved.

## Note 8 INCOME TAXES:

Management estimates the annual effective income tax rate quarterly, based on current annual forecasted results. Items unrelated to current year ordinary income are recognized entirely in the period identified as a discrete item of tax. The quarterly income tax provision is comprised of tax on ordinary income provided at the most recent estimated annual effective tax rate, adjusted for the tax effect of discrete items.

For the three months ended March 31, 2014, the estimated annual effective tax rate applied to ordinary income from continuing operations was 26.3%, compared to a rate of 33.1% for the three months ended March 31, 2013. The Company s effective income tax rate decreased 6.8 percentage points from 2013 principally due to a change in the mix of foreign and domestic income between the periods.

Inclusive of discrete items, the Company recorded a provision for (benefit from) income taxes of \$(1,589), or 29.4% of pretax loss from continuing operations, and \$4,473 (as restated), or 47.4% of pretax income from continuing operations, for federal, state, and foreign income taxes for the three months ended March 31, 2014 and 2013, respectively. Discrete items for the three months ended March 31, 2014 and 2013 were not material.

At December 31, 2010 and for all subsequent periods, the Company recorded a full valuation allowance against its Canadian net deferred tax asset due to the Company s Canadian subsidiary s cumulative losses over a number of years, and against certain state deferred tax assets pertaining to the related state tax loss carry-forwards that are not anticipated to generate a tax benefit. At March 31, 2014, the Company s Canadian net deferred tax asset totaled \$31.9 million, with an offsetting valuation allowance of the same amount. For the three months ended March 31, 2014, the Company s Canadian subsidiary generated taxable income, which partially reduced this valuation allowance. The reduction in the valuation allowance against the Company s Canadian net deferred tax asset reduced the Company s estimated annual effective income tax rate by 2.4 percentage points.

## Note 9 EARNINGS (LOSS) PER SHARE:

Basic earnings (loss) per share (EPS) was computed by dividing net income (loss) attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding for each respective period. Diluted EPS was calculated by dividing net income attributable to common shareholders by the weighted-average of all potentially dilutive shares of Common Stock that were outstanding during the periods presented. The Company s restricted stock awards are considered participating securities. As such, the Company uses the two-class method to compute basic and diluted earnings per share.

At March 31, 2014, the Company had \$114.4 million aggregate principal amount of its 3.000% Convertible Senior Notes due December 2015 (the 2015 Notes ) and \$402.5 million aggregate principal amount of its 1.625% Convertible Senior Notes due October 2019 (the 2019 Notes ) outstanding. As the Company generated a net loss during the three months ended March 31, 2014, the shares underlying the 2019 Notes and the 2015 Notes, as well as the shares underlying all outstanding stock options have been excluded from the calculation of EPS for the period as their effects were antidilutive. At March 31, 2013, the shares underlying the \$230 million aggregate principal amount of the 2015 Notes outstanding and certain stock options were excluded from the calculation of EPS as their effects were antidilutive.

Shares excluded from the calculation of EPS for the three months ending March 31, 2014 and 2013 were as follows:

|                          |           | Three Months Ended<br>March 31, |  |  |

#### Available-for-sale securities

Investments with maturities of less than one year are classified as available-for-sale, short-term investments and are recorded at fair value based on market quotes using the specific identification method, with unrealized gains and losses recorded as a component of accumulated other comprehensive loss until realized. Realized gains and losses from the sale of available-for-sale securities, if any, are determined on a specific identification basis. The Company considers these investments to be available-for-sale as they may be sold to fund other investment opportunities as they arise.

The major categories of the Company s cash equivalents and available-for-sale, short-term investments are as follows:

## Commercial paper

The Company invests in high-quality commercial paper issued by highly-rated corporations and governments. By definition, the stated maturity on commercial paper obligations cannot exceed 270 days.

#### Money market mutual funds

The Company invests in money market mutual funds that seek to maintain a stable net asset value of \$1.00, while limiting overall exposure to credit, market, and liquidity risks.

Cash, cash equivalents, and short-term investments consist of the following:

The Company typically purchases its available-for-sale debt securities either at a premium or a discount. The premium or discount is amortized over the remaining term of each security using the interest method. Amortization is recorded as either a decrease to interest income for premiums or an increase to interest income for discounts. For the three months ended March 31, 2014, net amortization of premiums and discounts was immaterial.

The Company classifies investments maturing within one year as short-term investments. Investments maturing in excess of one year are classified as noncurrent. All of the Company s investments had contractual maturities of less than one year at March 31, 2014.

As of March 31, 2014, no investments classified as available-for-sale have been in a continuous unrealized loss position for greater than twelve months. The Company believes that the unrealized losses on the available-for-sale portfolio as of March 31, 2014 are temporary in nature and are related to market interest rate fluctuations and not indicative of a deterioration in the creditworthiness of the issuers.

## Note 11 FAIR VALUE MEASUREMENTS:

For certain of the Company s financial instruments and account groupings, including cash, short-term investments, accounts receivable, accounts payable, accrued wages and other employee costs, unearned revenue, and other accrued liabilities, the carrying value approximates fair value.

Listed below are the Company s assets and their fair values, which are measured at fair value on a recurring basis, as of March 31, 2014. The Company uses trading prices near the balance sheet date to determine the fair value of its assets measured on a recurring basis. The Company held no investments measured at fair value on a recurring basis as of December 31, 2013. There were no transfers between levels for the three months ended March 31, 2014.

### Note 12 INVENTORIES:

Inventories are valued at cost as determined by the last-in, first-out (LIFO) method for approximately 57% and 56% of the Company s inventories at March 31, 2014 and December 31, 2013, respectively. The remaining inventories are valued at cost determined by a combination of the first-in, first-out (FIFO) and weighted-average cost methods. Inventory costs generally include materials, labor, and manufacturing overhead (including depreciation). As of March 31, 2014 and December 31, 2013, the current FIFO cost of inventories exceeded their LIFO carrying value by \$48,109 and \$50,709, respectively. When market conditions indicate an excess of carrying cost over market value, a lower-of-cost-or-market provision is recorded.

Inventories consisted of the following:

## Note 13 GOODWILL AND OTHER INTANGIBLE ASSETS:

*Goodwill*. The Company does not amortize goodwill; however, the carrying amount of goodwill is tested at least annually for impairment. Absent any events throughout the year which would indicate a potential impairment has occurred, the Company performs its annual impairment testing during the fourth quarter.

While there have been no impairments during the first three months of 2014, uncertainties or other factors that could result in a potential impairment in future periods include:

further long-term production delays, a significant decrease in expected demand, or the Company s ability to ramp up its production in a cost efficient manner related to the Boeing 787 program,

any cancellation of one of the other major aerospace programs in which the Company currently participates, including the Joint Strike Fighter program, the Airbus family of aircraft, including the A380 and A350XWB programs, or the Boeing 747-8 program, and

the Company s ability to improve its operational performance at its Medical Device Fabrication reporting unit.

At both March 31, 2014 and December 31, 2013, the EP&S Segment had accumulated goodwill impairment losses of \$22,858, while the Titanium Segment had no accumulated goodwill impairment losses. The carrying amount of goodwill attributable to each segment at December 31, 2013 and March 31, 2014 as follows:

*Intangibles.* Intangible assets consist primarily of customer relationships, trade names, and developed technology acquired through various business combinations. These intangible assets were valued at fair value at acquisition. In the event that long-term demand or market conditions change and the expected future cash flows associated with these assets are reduced, a write-down or acceleration of the amortization period may be required. Trade names are not amortized, as the Company believes that these assets have an indefinite life as the Company currently intends to continue use of the Remmele and Directed Manufacturing names indefinitely. Other intangible assets are being amortized over the following periods:

|                        | Amortization |
|------------------------|--------------|
| Intangible Asset       | Period       |
| Customer relationships | 7-20 years   |
| Developed technology   | 7-20 years   |
| Backlog                | 0-2 years    |

There were no intangible assets attributable to the Titanium Segment at March 31, 2014 or December 31, 2013. The carrying amounts of intangible assets attributable to the Company s EP&S Segment at December 31, 2013 and March 31, 2014 were as follows:

The Company recorded an expense of \$2,214 in net periodic benefit cost during the three months ended March 31, 2013 related to the remeasurement of its qualified defined benefit pension plans and post-retirement medical plans as a result of a voluntary early retirement program initiated during the quarter. There were no related charges during the three months ended March 31, 2014. Additionally, the Company recognized \$1,105, net of tax, as a component of accumulated other comprehensive loss related to amortization of actuarial losses and prior service costs, at March 31, 2014.

The Company made no contributions to its qualified defined benefit plans during the three months ended March 31, 2014. The Company expects to make contributions of up to \$9.4 million during the remainder of 2014 in order to maintain its desired funding status.

## Note 16 COMMITMENTS AND CONTINGENCIES:

From time to time, the Company is involved in litigation relating to claims arising out of its operations in the normal course of business. In the Company s opinion, the ultimate liability, if any, resulting from these matters will have no significant effect on its Condensed Consolidated Financial Statements. Given the critical nature of many of the aerospace end uses for the Company s products, including specifically their use in critical rotating parts of gas turbine engines, the Company maintains aircraft products liability insurance of \$500 million, which includes grounding

liability.

# Environmental Matters

Based on available information, the Company believes that its share of possible environmental-related costs is in a range from \$0.6 million to \$2.1 million in the aggregate. At both March 31, 2014 and December 31, 2013, the amount accrued for future environmental-related costs was \$1.2 million and \$1.3 million, respectively. Of the total amount accrued at March 31, 2014, \$0.1 million was expected to be paid within the next twelve months, and was included as a component of other accrued liabilities on the Company s Condensed Consolidated Balance Sheet. The remaining \$1.1 million was recorded as a component of other noncurrent liabilities. During the three months ended March 31, 2014, the Company made payments of \$0.1 million related to its environmental liabilities.

# Other Matters

The Company is also the subject of, or a party to, a number of other pending or threatened legal actions involving a variety of matters incidental to its business. The Company is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the results of the operations, cash flows, or the financial position of the Company.

## Note 17 SEGMENT REPORTING:

The Company has two reportable segments: the Titanium Segment and the EP&S Segment. The EP&S Segment utilizes the Titanium Segment as its primary source of titanium mill products. Reportable segments are measured based on segment operating income after an allocation of certain corporate items such as general corporate overhead and expenses. Assets of general corporate activities include unallocated cash and deferred taxes.

A summary of financial information by reportable segment is as follows:

# Note 18 NEW ACCOUNTING STANDARDS:

In April 2014, the Financial Accounting Standards Board (the FASB ) issued Accounting Standards Update (ASU) 2014-08, Presentation of Financial Statements and Property, Plant, and Equipment Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This ASU amends the requirements for reporting discontinued operations to include only disposals of a component or groups of components of an entity if the disposal represents a strategic shift that has or will have a major effect on the entity s operations and financial results. The amendment requires additional disclosure regarding disposals that meet the criteria for discontinued operations in the ASU, and is effective for all disposals within annual and interim periods beginning on or after December 15, 2014. Early adoption is permitted for disposals that have not been reported in financial statements previously issued. The Company does not expect this guidance to have a material impact on its Condensed Consolidated Financial Statements.

In July 2013, the FASB issued ASU 2013-11, Income Taxes Presentation of an Unrecognized Tax Benefit when a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. This ASU prescribes the Balance Sheet presentation for unrecognized tax benefits in the presence of a net operating loss carryforward, tax loss or tax credit carryforward. The amendments in the ASU do not require any new recurring disclosures, and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this guidance during the first quarter of 2014 did not have a material impact on the Company s Condensed Consolidated Financial Statements.

In March 2013, the FASB issued ASU 2013-05, Foreign Currency Matters Parent s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. This ASU clarifies the applicable guidance for the release of the cumulative translation adjustment under current U.S. GAAP. The amendments in this ASU are effective prospectively for annual and interim reporting periods beginning after December 15, 2013. The adoption of this guidance during the first quarter of 2014 did not have a material impact on the Company s Condensed Consolidated Financial Statements.

In February 2013, the FASB issued ASU 2013-04, Liabilities Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date. This ASU provides guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of the ASU is fixed at the reporting date. The amendments in this ASU are effective prospectively for annual and interim reporting periods beginning after December 15, 2013. The adoption of this guidance during the first quarter of 2014 did not have a material impact on the Company s Condensed Consolidated Financial Statements.

# Note 19 GUARANTOR SUBSIDIARIES:

The 2015 Notes and 2019 Notes (together, the Notes ) are jointly and severally, fully and unconditionally (subject to the customary exceptions discussed below) guaranteed by several 100% owned subsidiaries (the Guarantor Subsidiaries ) of RTI International Metals, Inc. (the Parent ). Each Guarantor Subsidiary would be automatically released from its guarantee of the Notes if either (i) it ceased to be a guarantor under the Parent s Credit Agreement or (ii) it ceased to be a direct or indirect subsidiary of the Parent. Separate financial statements of the Parent and each of the Guarantor Subsidiaries are not presented because the guarantees are full and unconditional (subject to the aforementioned customary exceptions) and the Guarantor Subsidiaries are jointly and severally liable. The Company believes separate financial statements and other disclosures concerning the Guarantor Subsidiaries would not be material to investors in the Notes.

### Notes to Condensed Consolidated Financial Statements

## (Unaudited)

### (In thousands, except share and per share amounts, unless otherwise indicated)

There are no current restrictions on the ability of the Guarantor Subsidiaries to make payments under the guarantees referred to above, except, however, the obligations of each Subsidiary Guarantor under its guarantee will be limited to the maximum amount as will result in obligations of such Subsidiary Guarantor under its guarantee not constituting a fraudulent conveyance or fraudulent transfer for purposes of bankruptcy law, the Uniform Conveyance Act, the Uniform Fraudulent Transfer Act, or any similar Federal or state law.

The Condensed Consolidating Statement of Operations for the three months ended March 31, 2013 has been revised and restated for the correction of an error in the calculation of revenues and cost of sales related to contracts requiring the application of the percentage-of-completion revenue recognition methodology under ASC 605-35 and to correct the provision for income taxes related to the establishment of a full valuation allowance against the Company s Canadian net deferred tax asset. The following table presents the Condensed Consolidating Statement of Operations as filed in the Company s Amended Quarterly Report on Form 10-Q for the three months ended March 31, 2013 as filed with the SEC on September 24, 2013 and the restated balances as filed in the Annual Report. The revision and restatement impacts mainly revenues, cost of sales, the provision for income taxes, and all related subtotals for the non-guarantor subsidiaries. The non-guarantor subsidiary results have also been recast for the presentation of RTI Connecticut as a discontinued operation. Refer to Note 3 for details of restatement and revision adjustments. The revision and restatement adjustments had no impact on the Condensed Consolidating Statement of Cash Flows for the months ended March 31, 2013.
