Risk Factors

3

Risks Relating to Our Senior Common Stock and this Offering:

There is no established public trading market for shares of Senior Common Stock, and we have no plans to list these shares on a national securities exchange.

We established the offering price of shares of Senior Common Stock on an arbitrary basis, and, as a result, the actual value of your investment may be substantially less than what you pay.

The calculation of the Exchange Ratio could result in a deterrent to your exchanging shares of Senior Common Stock for shares of Listed Common Stock if shares of Listed Common Stock are trading at lower levels at the time that you desire to exchange your shares.

Your ability to redeem shares of Senior Common Stock pursuant to

our share redemption program is limited to the proceeds

generated by our distribution reinvestment plan, and the share redemption program may be amended, suspended or terminated by our Board at any time without stockholder approval.

If you do not agree with the decisions of our Board, then you will not be able to influence changes in our policies and operations

because

holders

of

shares

of

Senior

Common

Stock

will

generally

have

no

voting

rights.

Our charter contains restrictions on the ownership and transfer of shares of our capital stock, and these restrictions may inhibit your ability to sell your shares of Senior Common Stock promptly, or at all.

Our Dealer Manager is one of our affiliates, and, therefore, an investor in shares of Senior Common Stock would not have the benefit of an independent underwriter who has performed an independent due diligence review.

Highly

leveraged

tenants

and

borrowers

may

be

unable

to

pay

rent

or

make

mortgage

payments,

which

could

adversely

affect

our cash available to make distributions to holders of our Senior Common Stock.

An investment in shares of Senior Common Stock involves substantial risks. You should purchase our securities only if you can afford a complete loss of your investment. Please read and consider the risk factors in the prospectus supplement and prospectus before purchasing any securities. The most significant risk factors include:

Risk Factors (continued)

Risks Relating to Our Company and Our Operations

Our business strategy relies heavily on external financing, which may expose us to risks associated with leverage such as restrictions on additional borrowing and payment of distributions to stockholders, risks associated

with

balloon

payments,
and
risk
of
loss
of
our
equity
upon
foreclosure.
We are subject to certain risks associated with real estate ownership and lending which could reduce the
value of our investments, including but not limited to, changes in the general economic climate; changes in
local conditions such as an oversupply of space or reduction in demand for real estate; changes in interest
rates and the availability of financing; competition from other available space; and changes in laws and
governmental regulations, including those governing real estate usage, zoning and taxes.
Our
properties
may
be
subject
to
impairment
charges,
which
could
adversely
affect
our
results
of
operations.
Illiquidity
of
real
estate
investments
may
make
it
difficult
for
us
to
sell
properties
in
response
to
market

conditions

and
our
properties
may
include
special
use
and
single
or
multi-tenant
properties
that
may
be
difficult to sell or re-lease upon tenant defaults or early lease terminations which could harm our financial
condition and ability to make distributions.
Our
real
estate
investments
have
a
limited
number
of
tenants,
many of
which
are
small-
and
medium-sized
businesses, and are concentrated in a limited number of industries, which subjects us to an increased risk of
significant
loss
if
any
one
of
these
tenants
is
unable
to
pay
or
if
particular

industries experience downturns.

Risk Factors (continued)

Risks

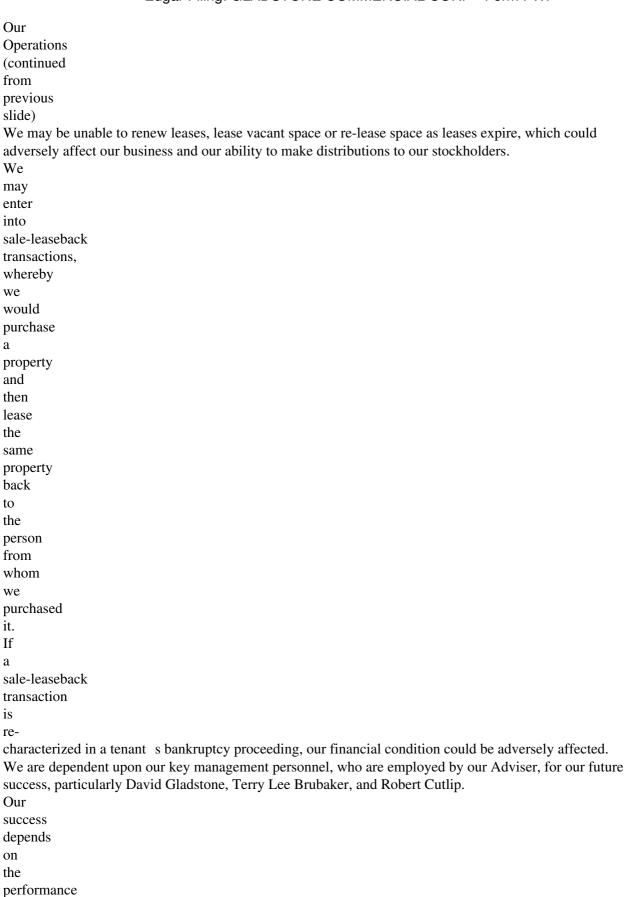

Relating

to

Our

Company

and

of
our
Adviser
and
if
our
Adviser
makes
inadvisable
investment
or management decisions, our operations could be materially adversely impacted.
We may have conflicts of interest with our Adviser and other affiliates, including but not limited to the
following conflicts: (i) our Adviser may realize substantial compensation on account of its activities on our
behalf,
and
may,
therefore,
be
motivated
to
approve
acquisitions
solely
On the
the leading the second
basis
of
increasing
compensation to itself; (ii) we may experience competition with our affiliates for financing transactions;
(iii) our Adviser may earn fee income from our borrowers or tenants; and (iv) our Adviser and other
affiliates could compete for the time and services of our officers and directors.
If
we
fail
to
qualify
as
a DEIT
REIT,
our
operations
and
dividends
to
stockholders
would
be
adversely
impacted.
To the extent that our distributions represent a return of capital for tax purposes, you could recognize an

increased capital gain upon a subsequent sale of your stock. 5
