EXPLANATORY NOTE

This combined Quarterly Report on Form 10-Q is being filed by Aviv REIT, Inc., or AVIV, and Aviv Healthcare Properties Limited Partnership, or the Partnership. Unless the context requires otherwise or except as otherwise noted, as used herein the words we, the Company, us and our refer to AVIV and AVIV's controlled subsidiaries and the Partnership and the Partnership's controlled subsidiaries collectively, as the operations of the two aforementioned entities are materially comparable for the periods presented.

AVIV is a real estate investment trust, or REIT, and the sole general partner of the Partnership. The Partnership's capital is comprised of units of beneficial interest, or OP units. As of September 30, 2014, AVIV owned 80.5% of the economic interest in the Partnership, with the remaining interest being owned by other investors. The other investors may redeem their OP units for cash or, at the election of AVIV, for shares of AVIV's common stock, on a one-for-one basis. As the sole general partner of the Partnership, AVIV has exclusive control of the Partnership's day-to-day management.

The Company believes combining the Quarterly Reports on Form 10-Q of AVIV and the Partnership into this single report provides the following benefits:

enhances investors' understanding of AVIV and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

eliminates duplicative disclosure and provides a more streamlined and readable presentation because a substantial portion of the disclosure in this report applies to both AVIV and the Partnership; and

creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates AVIV and the Partnership as one business. The management of AVIV consists of the same individuals as the management of the Partnership.

The Company believes it is important for investors to understand the few differences between AVIV and the Partnership in the context of how AVIV and the Partnership operate as a consolidated company. AVIV is a REIT, whose only material asset is its ownership of OP units of the Partnership. As a result, AVIV does not conduct business itself, other than acting as the sole general partner of the Partnership, issuing public equity from time to time and guaranteeing unsecured debt of the Partnership. AVIV has not issued any indebtedness, but has guaranteed all of the unsecured debt of the Partnership. The Partnership indirectly holds all the real estate assets of the Company. Except for net proceeds from public equity issuances by AVIV, which are contributed to the Partnership in exchange for OP units, the Partnership generates all remaining capital required by the Company's business. The sources of the remaining capital include the operations of the Partnership's direct and indirect subsidiaries, its direct or indirect incurrence of indebtedness, and the issuance of OP units.

As general partner with control of the Partnership, AVIV consolidates the Partnership for financial reporting purposes. The presentation of stockholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of AVIV and those of the Partnership. AVIV's stockholders' equity consists of common stock, additional paid in capital and retained earnings (accumulated deficit). The Partnership's capital consists of OP units

that are owned by AVIV and the other investors. The OP units held by the other investors in the Partnership are presented as part of partners' capital in the Partnership's consolidated financial statements and as noncontrolling interests-operating partnership in AVIV's consolidated financial statements. There was no difference between the assets and liabilities or net income of AVIV and the Partnership as of and for the three and nine month periods ended September 30, 2014.

In order to highlight the few differences between AVIV and the Partnership, there are sections in this report that discuss AVIV and the Partnership separately, including separate financial statements and controls and procedures sections. In the sections that combine disclosure for AVIV and the Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Partnership is generally the entity that enters into contracts, holds assets and issues debt, we believe that reference to the Company in this context is appropriate because the business is one enterprise and the Company operates the business through the Partnership.

AVIV REIT, INC.

AVIV HEALTHCARE PROPERTIES LIMITED PARTNERSHIP

Notes to Consolidated Financial Statements

September 30, 2014

(unaudited)

1. Description of Operations and Formation

Aviv REIT, Inc., a Maryland corporation (AVIV or the REIT), is the sole general partner of Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership, and its subsidiaries (the Partnership). The Partnership is a majority owned subsidiary that indirectly owns all of the real estate properties. In these footnotes, the Company refers generically to AVIV, the Partnership, and their subsidiaries. The Partnership was formed in 2010 and directly or indirectly owned or leased 313 properties, principally skilled nursing facilities (SNFs), across the United States at September 30, 2014. The Company is a fully integrated self-administered real estate investment trust that owns, acquires, develops and generates the majority of its revenues by entering into long-term triple-net leases with qualified local, regional, and national operators. In addition to the base rent, leases provide for operators to pay the Company an ongoing escrow for real estate taxes. Furthermore, all operating and maintenance costs of the buildings are the responsibility of the operators. Substantially all depreciation expense reflected in the consolidated statements of operations relates to the ownership of real estate properties.

The Partnership is the general partner of Aviv Healthcare Properties Operating Partnership I, L.P. (the Operating Partnership), a Delaware limited partnership, the sole stockholder of Aviv Healthcare Capital Corporation, a Delaware corporation, and the sole member of Aviv Asset Management, L.L.C. (AAM), a Delaware limited liability company. The Operating Partnership has five wholly owned subsidiaries: Aviv Financing I, L.L.C. (Aviv Financing I), a Delaware limited liability company; Aviv Financing II, L.L.C. (Aviv Financing II), a Delaware limited liability company; Aviv Financing III, L.L.C. (Aviv Financing III), a Delaware limited liability company; Aviv Financing IV, L.L.C. (Aviv Financing IV), a Delaware limited liability company; and Aviv Financing V, L.L.C. (Aviv Financing V), a Delaware limited liability company.

All of the business, assets and operations of the Company are held by the Partnership and its subsidiaries. The REIT's equity interest in the Partnership is linked to future investments in the REIT, such that future equity issuances by the REIT (pursuant to the Partnership's partnership agreement) will result in a corresponding increase in the REIT's equity interest in the Partnership. The REIT is authorized to issue 300 million shares of common stock (par value \$0.01) and 25 million shares of preferred stock (par value \$0.01). The REIT was funded in September 2010 with 13.2 million shares and approximately \$235 million from one of the REIT's stockholders, and approximately 8.5 million additional shares of common stock were issued by the REIT in connection with \$159 million of equity contributions by one of the REIT's stockholders. The Partnership's capital consists of partnership units, referred to as OP units, which are owned by AVIV and other investors.

On March 7, 2013, the Board of Directors and stockholders of the REIT approved an increase in the number of authorized shares of common stock to 300,000,000 shares of common stock and a 60.37-for-one split of issued and outstanding common stock. The increase in the authorized shares and the stock split became effective on March 8, 2013 when the REIT's charter was amended for such increase in the number of authorized REIT shares and the stock split. The common share and per common share amounts in these consolidated financial statements and notes to

consolidated financial statements have been retrospectively restated to reflect the 60.37-for-one split.

On March 26, 2013, the REIT completed an initial public offering (IPO) of its common stock pursuant to a registration statement filed with the SEC, which became effective on March 20, 2013. The Company received net proceeds, after underwriting discounts and commissions, of \$282.3 million, exclusive of other costs of raising capital in consideration for the issuance and sale of approximately 15.2 million shares of common stock (which included approximately 2.0 million shares sold to the underwriters upon exercise of their option to purchase additional shares to cover over-allotments) at a price to the public of \$20.00 per share. In connection with the IPO, the Partnership's existing Class A, B, C, D and F Units were converted into a single class of OP units.

Immediately prior to the completion of the IPO, there were outstanding approximately 21.7 million shares of common stock of the REIT, limited partnership units of the Partnership which were converted into approximately 11.9 million OP units in connection with the IPO, and 125 shares of preferred stock of the REIT. On April 15, 2013, the 125 shares of preferred stock outstanding were redeemed. At September 30, 2014, there were approximately 47.2 million shares of common stock outstanding and 11.4 million OP units outstanding, which OP units are redeemable for cash or, at the REIT's option, for shares of common stock of the REIT. The operating results of the Partnership are allocated based upon the REIT's and the limited partners' respective economic interests therein. The REIT's ownership of the Partnership was 80.5% and 76.4% as of September 30, 2014 and December 31, 2013, respectively. The REIT's weighted average economic ownership of the Partnership for the three and nine months ended September 30, 2014 and 2013 were 80.52%, 79.15%, 75.7%, and 73.1%, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

This report combines the Quarterly Reports on Form 10-Q for the quarter ended September 30, 2014 of AVIV and the Partnership. AVIV is a real estate investment trust (REIT) and the sole general partner of the Partnership. The Partnership's capital consists of OP units. As the sole general partner of the Partnership, AVIV has exclusive control of the Partnership's day-to-day management.

The Company believes combining the Quarterly Reports on Form 10-Q of AVIV and the Partnership into this single report provides the following benefits:

enhances investors' understanding of AVIV and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

eliminates duplicative disclosure and provides a more streamlined and readable presentation because a substantial portion of the disclosure in this report applies to both AVIV and the Partnership; and

creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates AVIV and the Partnership as one business. The management of AVIV consists of the same individuals as the management of the Partnership.

The Company believes it is important for investors to understand the few differences between AVIV and the Partnership in the context of how AVIV and the Partnership operate as a consolidated company. AVIV is a REIT, whose only material asset is its ownership of OP units of the Partnership. As a result, AVIV does not conduct business itself, other than acting as the sole general partner of the Partnership, issuing public equity from time to time and guaranteeing unsecured debt of the Partnership. AVIV has not issued any indebtedness, but has guaranteed all of the unsecured debt of the Partnership. The Partnership indirectly holds all the real estate assets of the Company. Except for net proceeds from public equity issuances by AVIV, which are contributed to the Partnership in exchange for OP units, the Partnership generates all remaining capital required by the Company's business. The sources of the remaining capital include the operations of the Partnership's direct and indirect subsidiaries, its direct or indirect incurrence of indebtedness, and the issuance of OP units.

As general partner with control of the Partnership, AVIV consolidates the Partnership for financial reporting purposes. The presentation of stockholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of AVIV and those of the Partnership. AVIV's stockholders' equity consists of common stock, additional paid in capital and retained earnings (accumulated deficit). The Partnership's capital consists of OP units that are owned by AVIV and other investors. The OP units held by the other investors in the Partnership are presented as part of partners' capital in the Partnership's consolidated financial statements and as noncontrolling interests-operating partnership in AVIV's consolidated financial statements. There is no difference between the assets and liabilities or net income of AVIV and the Partnership as of and for the three and nine months ended September 30, 2014.

The accompanying unaudited consolidated financial statements have been prepared by management in accordance with US generally accepted accounting principles (US GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. All significant intercompany accounts and transactions have been eliminated in the consolidated financial statements.

The Company manages its business as a single business segment as defined in Accounting Standards Codification (ASC) 280, *Segment Reporting*. The Company has one reportable segment consisting of investments in healthcare properties, consisting primarily of SNFs, assisted living facilities (ALFs), and other healthcare properties located in the United States. All of the Company's properties generate similar types of revenues and expenses related to tenant rent and reimbursements and operating expenses.

Quarterly Reporting

The accompanying unaudited consolidated financial statements and notes of the Company as of September 30, 2014 and for the three and nine months ended September 30, 2014 and 2013 have been prepared in accordance with US GAAP for interim financial information. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under US GAAP have been condensed or omitted pursuant to US GAAP quarterly reporting rules. In the opinion of management, all adjustments considered necessary for a fair presentation of the Company's balance sheets, statements of operations, statement of changes in equity/partners' capital, and statements of cash flows have been included and are of a normal and recurring nature. These

Table of Contents

consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the Company for the years ended December 31, 2013, 2012, and 2011. The consolidated statements of operations and cash flows for the periods ended September 30, 2014 and 2013 are not necessarily indicative of full year results.

The balance sheets at December 31, 2013 have been derived from the audited financial statements at that date, but do not include all of the information and footnotes required by US GAAP for complete financial statements. For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission.

Estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and highly liquid short-term investments with original maturities of three months or less. The Company maintains cash and cash equivalents in United States banking institutions that exceed amounts insured by the Federal Deposit Insurance Corporation. The Company believes the risk of loss from exceeding this insured level is minimal.

Real Estate Investments

The Company periodically assesses the carrying value of real estate investments and related intangible assets in accordance with ASC 360, *Property, Plant, and Equipment* (ASC 360), to determine if facts and circumstances exist that would suggest that assets might be impaired or that the useful lives should be modified. In the event impairment in value occurs and a portion of the carrying amount of the real estate investments will not be recovered in part or in whole, a provision will be recorded to reduce the carrying basis of the real estate investments and related intangibles to their estimated fair value. The estimated fair value of the Company's rental properties is determined by using customary industry standard methods that include discounted cash flow and/or direct capitalization analysis (Level 3) or estimated cash proceeds received upon the anticipated disposition of the asset from market comparables (Level 2). As part of the impairment evaluation, the buildings in the following locations were impaired to reflect the estimated fair values (Level 2).

Purchase Accounting

The Company allocates the purchase price of facilities between net tangible and identified intangible assets acquired and liabilities assumed as a result of the Company purchasing the business and subsequently leasing the business to unrelated third party operators. The Company makes estimates of the fair value of the tangible and intangible assets and acquired liabilities using information obtained from multiple sources as a result of pre-acquisition due diligence, marketing, leasing activities of the Company's operator base, industry surveys of critical valuation metrics such as capitalization rates, discount rates and leasing rates and appraisals (Level 3). The Company allocates the purchase price of facilities to net tangible and identified intangible assets and liabilities acquired based on their fair values in accordance with the provisions of ASC 805, *Business Combinations* (ASC 805). The determination of fair value involves the use of significant judgment and estimation.

The Company determines fair values as follows:

Real estate investments are valued using discounted cash flow projections that assume certain future revenue and costs and consider capitalization and discount rates using current market conditions.

Table of Contents

The Company allocates the purchase price of facilities to net tangible and identified intangible assets acquired and liabilities assumed based on their fair values.

Other assets acquired and other liabilities assumed are valued at stated amounts, which approximate fair value.

Assumed debt balances are valued at fair value, with the computed discount/premium amortized over the remaining term of the obligation.

The Company determines the value of land based on third party appraisals. The fair value of in-place leases, if any, reflects: (i) above and below-market leases, if any, determined by discounting the difference between the estimated current market rent and the in-place rentals, the resulting intangible asset or liability of which is amortized to rental revenue over the remaining life of the associated lease plus any fixed rate renewal periods if applicable; (ii) the estimated value of the cost to obtain operators, including operator allowances, operator improvements, and leasing commissions, which is amortized over the remaining life of the associated lease; and (iii) an estimated value of the absorption period to reflect the value of the rents and recovery costs foregone during a reasonable lease-up period as if the acquired space was vacant, which is amortized over the remaining life of the associated lease. The Company also estimates the value of operator or other customer relationships acquired by considering the nature and extent of existing business relationships with the operator, growth prospects for developing new business with such operator, such operator's credit quality, expectations of lease renewals with such operator, and the potential for significant, additional future leasing arrangements with such operator. The Company amortizes such value, if any, over the expected term of the associated arrangements or leases, which would include the remaining lives of the related leases. The amortization is included in the consolidated statements of operations in rental income for above or below market leases or depreciation and amortization expense for in-place lease assets. Generally, the Company's purchase price allocation of the purchased business and subsequent leasing of the business to unrelated third party operators does not include an allocation to any intangible assets or intangible liabilities, as they are either immaterial or do not exist.

Revenue Recognition

Rental income is recognized on a straight-line basis over the term of the lease when collectability is reasonably assured. Differences between rental income earned and amounts due under the lease are charged or credited, as applicable, to straight-line rent receivable, net. Income recognized from this policy is titled straight-line rental income. Additional rents from expense reimbursements for insurance, real estate taxes, and certain other expenses are recognized in the period in which the related expenses are incurred and the net impact is reflected in rental income on the consolidated statements of operations.

Below is a summary of the components of rental income for the three and nine months ended September 30, 2014 and 2013 (in thousands):

	Three		Nine Months Ended	
	Months Ended		September 30,	
	2014	2013	2014	2013
Cash rental income	\$ 44,220	\$ 32,555	\$ 123,982	\$ 95,111
Straight-line rental income (expense), net	1,727	(1,227)	3,420	2,998

Rental income from intangible amortization, net	132	365	539	1,097
Total rental income	\$ 46,079	\$ 31,693	\$ 127,941	\$ 99,206

The Company's reserve for uncollectible operator receivables is included as a component of reserve for uncollectible loans and other receivables in the consolidated statements of operations.

Lease Accounting

The Company, as lessor, makes a determination with respect to each of its leases whether they should be accounted for as operating leases or direct financing leases. The classification criteria is based on estimates regarding the fair value of the leased facilities, minimum lease payments, effective cost of funds, the economic life of the facilities, the existence of a bargain purchase option, and certain other terms in the lease agreements. Payments received under operating leases are accounted for in the statements of operations as rental income for actual rent collected plus or minus a straight-line adjustment for estimated minimum lease escalators. Assets subject to operating leases are reported as real estate investments in the consolidated balance sheets. For facilities leased as direct financing arrangements, an asset equal to the Company's net initial investment is established on the balance sheet titled assets under direct financing leases. Payments received under the financing lease are bifurcated between interest income and principal amortization to achieve a consistent yield over the stated lease term using the interest method. Principal amortization (accretion) is reflected as an adjustment to the asset subject to a financing lease.

Table of Contents

All of the Company's leases contain fixed or formula-based rent escalators. To the extent that the escalator increases are tied to a fixed index or rate, lease payments are accounted for on a straight-line basis over the life of the lease.

Deferred Finance Costs

Deferred finance costs are being amortized using the straight-line method, which approximates the interest method, over the term of the respective underlying debt agreement.

Loan Receivables

Loan receivables consist of mortgage loans, capital improvement loans and working capital loans to operators. Mortgage loans represent the financing provided by the Company to operators or owners that are secured by mortgages on real property. Capital improvement loans represent the financing provided by the Company to perform certain capital improvements and/or to acquire furniture, fixtures, and equipment while the operator is operating the facility. Working capital loans to operators represent financing provided by the Company to operators for working capital needs that are secured with non-mortgage collateral or that are unsecured. Loan receivables are carried at their principal amount outstanding. Management periodically evaluates outstanding loans and notes receivable for collectability on a loan-by-loan basis. When management identifies potential loan impairment indicators, such as nonpayment under the loan documents, impairment of the underlying collateral, financial difficulty of the operator, or other circumstances that may impair full execution of the loan documents, and management believes it is probable that all amounts will not be collected under the contractual terms of the loan, the loan is written down to the present value of the expected future cash flows. Loan impairment is monitored via a quantitative and qualitative analysis including credit quality indicators and it is reasonably possible that a change in estimate could occur in the near term. As of September 30, 2014 and December 31, 2013, loan receivable reserves amounted to approximately \$3.2 million and \$0, respectively. No other circumstances exist that would suggest that additional reserves are necessary at the balance sheet dates other than as disclosed in Footnote 4, Loan Receivables.

Stock-Based Compensation

The Company follows ASC 718, *Stock Compensation* (ASC 718) in accounting for its stock-based payments. This guidance requires measurement of the cost of employee services received in exchange for stock compensation based on the grant-date fair value of the employee stock awards. This cost is recognized as compensation expense ratably over the employee's requisite service period. Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized when incurred. Additionally, the Company must make estimates regarding employee forfeitures in determining compensation expense. Subsequent changes in actual experience are monitored and estimates are updated as information is available. The non-cash stock-based compensation expense incurred by the Company through September 30, 2014 is summarized in Footnote 12, Equity Compensation Plan.

Fair Value of Financial Instruments

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets;

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument; and

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Cash and cash equivalents are reflected in the accompanying consolidated balance sheets at amounts considered by management to reasonably approximate fair value. Management estimates the fair value of its long-term debt using a discounted cash flow analysis based upon the Company's current borrowing rate for debt with similar maturities and collateral securing the indebtedness. The Company had outstanding secured loans, unsecured notes payable, and a line of credit with a carrying value of approximately \$840.9 million and \$686.4 million as of September 30, 2014 and December 31, 2013, respectively. The fair values of debt as of

Table of Contents

September 30, 2014 and December 31, 2013 were \$863.6 million and \$705.8 million, respectively, based upon interest rates available to the Company on similar borrowings (Level 3). Management estimates the fair value of its loan receivables using a discounted cash flow analysis based upon the Company's current interest rates for loan receivables with similar maturities and collateral securing the indebtedness. The Company had outstanding loan receivables with a carrying value of approximately \$43.3 million and \$41.7 million as of September 30, 2014 and December 31, 2013, respectively. The fair values of loan receivables as of September 30, 2014 and December 31, 2013 approximate their carrying value based upon interest rates available to the Company on similar borrowings.

Income Taxes

For federal income tax purposes, the Company elected, with the filing of its initial Form 1120 REIT, U.S. Income Tax Return for U.S. Real Estate Investment Trusts, to be taxed as a REIT effective as of the Company's taxable year ending December 31, 2010. To qualify as a REIT, the Company must meet certain organizational, income, asset and distribution tests. The Company currently is in compliance with these requirements and intends to maintain REIT status. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not elect REIT status for four subsequent years. However, the Company may still be subject to federal excise tax. In addition, the Company may be subject to certain state and local income and franchise taxes. Historically, the Company and its predecessor have generally only incurred certain state and local income and franchise taxes, but these amounts were immaterial in each of the periods presented. Prior to September 2010, the Partnership was taxed as a limited partnership, and the consolidated operating results were included in the income tax returns of the individual partners. No uncertain income tax positions exist as of September 30, 2014 or December 31, 2013.

Noncontrolling Interests Operating Partnership / Partnership Units

Noncontrolling interests operating partnership, as presented on AVIV's consolidated balance sheets, represent OP units held by individuals and entities other than AVIV.

Noncontrolling interests operating partnership, which can be settled in cash or, at the REIT's election, by issuance of unregistered shares of AVIV's common stock, are reported in the equity section of the consolidated balance sheets of AVIV. They are adjusted for income, losses and distributions allocated to OP units not held by AVIV. Adjustments to noncontrolling interests operating partnership are recorded to reflect increases or decreases in the ownership of the Partnership by holders of OP units as a result of the redemptions of OP units for cash or, at the election of AVIV, in exchange for shares of AVIV's common stock.

Prior to the IPO, the capital structure of the Company's operating partnership consisted of six classes of partnership units, each of which had different capital accounts and each of which was entitled to different distributions. In connection with the IPO, each class of units of the Partnership was converted into an aggregate of 11,938,420 OP units held by investors other than AVIV in the Partnership. As of September 30, 2014, there were 11,416,426 OP units outstanding.

Earnings Per Share of the REIT

Basic earnings per share is calculated by dividing the net income allocable to common shares for the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing the net income allocable to common shares for the period by the weighted average number of common and dilutive securities outstanding during the period.

Earnings Per Unit of the Partnership

Basic earnings per unit is calculated by dividing the net income allocable to units for the period by the weighted average number of OP units outstanding during the period. Diluted earnings per unit is calculated by dividing the net income allocable to OP units for the period by the weighted average number of units and dilutive securities outstanding during the period.

Risks and Uncertainties

The Company is subject to certain risks and uncertainties affecting the healthcare industry as a result of healthcare legislation and continuing regulation by federal, state, and local governments. Additionally, the Company is subject to risks and uncertainties as a result of changes affecting operators of nursing home facilities due to the actions of governmental agencies and insurers to limit the growth in cost of healthcare services.

Recent Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (ASU No. 2014-08). ASU No. 2014-08 changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. ASU No. 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014 and is available for early adoption as of January 1, 2014. The Company adopted the provisions of ASU No. 2014-08 as of January 1, 2014 and incorporated the provisions of this update to its condensed consolidated financial statements upon adoption. The adoption of ASU No. 2014-08 did not have a material impact on the Company's financial condition or results of operations.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which creates a new topic, Accounting Standards Codification Topic 606 (Topic 606). The standard is principle-based and provides a five-step model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This standard is effective for interim or annual periods beginning after December 15, 2016 and allows for either full retrospective or modified retrospective adoption. Early adoption of this standard is not allowed. The Company is currently evaluating the impact the adoption of Topic 606 will have on its consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern*. This update provides guidance about management's responsibilities to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. An entity's management, in connection with the preparation of financial statements, to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. Management's evaluation should be based on relevant conditions and events that are known or reasonably knowable at the date the financial statements are issued. When management identifies conditions or events that raise substantial doubt about an entity's ability to continue as a going concern, the entity should disclose information that enables users of the financial statements to understand all of the following: (1) principal conditions or events that raised substantial doubt about the entity's ability to continue as a going concern (before consideration of management's plans); (2) management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet its obligations; and (3) management's plans that alleviated substantial doubt about the entity's ability to continue as a going concern or management's plans that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern. ASU No. 2014-15 is effective for interim and annual reporting periods after December 15, 2016 and early application is permitted. The Company is currently assessing this guidance for future implementation.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current financial statement presentation, with no effect on the Company's consolidated financial position or results of operations.

Table of Contents**3. Real Estate Assets****2014 Acquisitions**

The Company had the following acquisitions during the nine months ended September 30, 2014 as described below:

July	Land Held for Development	MA	12,288
			\$ 383,268

On July 10, 2014, the Company acquired three properties and two land parcels in Massachusetts for a purchase price of \$94.3 million. Sidney and Evelyn Insoft, the parents of Steven Insoft, the Company's President and Chief Operating Officer, jointly hold a 50% equity interest in the sellers of the properties, representing a gross economic interest in the sale of approximately \$47.1 million. The Company believes that the terms of the acquisition were fair and reasonable and reflect terms that the Company would expect to obtain in an arm's length transaction for comparable properties.

The following table illustrates the effect on total revenues and net income as if the Company had consummated the acquisitions as of January 1, 2013 (in thousands, unaudited):

	For the Three Months Ended		For the Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Total revenues	\$ 48,795	\$ 41,831	\$ 145,811	\$ 129,480
Net income	13,874	16,442	43,838	31,173

For the three and nine months ended September 30, 2014, revenues attributable to the acquired assets in 2014 were approximately \$7.5 million and \$13.5 million, respectively, and net income attributable to the acquired assets was

approximately \$4.5 million and \$7.2 million, respectively, recognized in the consolidated statements of operations.

Transaction-related costs are not expected to have a continuing significant impact on our financial results and therefore have been excluded from these pro forma results. Related to the above acquisitions, the Company incurred \$0.7 million and \$2.4 million of transaction costs for the three and nine months ended September 30, 2014, respectively.

Table of Contents

In accordance with ASC 805, the Company allocated the approximate net purchase price paid for these properties acquired in 2014 as follows (in thousands):

Land	\$ 33,390
Buildings and improvements	310,390
Furniture, fixtures and equipment	25,090
Construction in progress and land held for development	14,398
Borrowings and available cash	\$ 383,268

The Company's purchase price allocation for the 2014 acquisitions and subsequent leasing of assets does not include an allocation to any intangible assets or intangible liabilities, as these amounts are either immaterial or do not exist.

The Company considers renewals on above- or below-market leases when ascribing value to the in-place lease intangible liabilities at the date of a property acquisition. In those instances where the renewal lease rate pursuant to the terms of the lease does not adjust to a current market rent, the Company evaluates whether the stated renewal rate is above or below current market rates and considers the past and current operations of the property, the current rent coverage ratio of the operator, and the number of years until potential renewal option exercise. If renewal is considered probable based on these factors, an additional lease intangible liability is recorded at acquisition and amortized over the renewal period.

2014 Dispositions

For the three months ended September 30, 2014, the Company disposed of five properties for a total sales price of \$0.8 million, and the Company recognized a net loss on sale of approximately \$2.4 million. The total sales price and net loss are net of transaction costs incurred in relation to the closings at the time of disposition.

For the nine months ended September 30, 2014, the Company disposed of seven properties for a total sales price of \$1.4 million, and the Company recognized a net loss on sale of approximately \$2.5 million. The total sales price and net loss are net of transaction costs incurred in relation to the closings at the time of disposition.

Construction in Process

The following summarizes the Company's construction in progress and land held for development during the nine months ended September 30, 2014 (in thousands):

	September 30, 2014
Beginning balance, January 1	\$ 23,292
Additions	31,170
Placed in service	(20,041)
	\$ 34,421

During 2014 and 2013, the Company capitalized expenditures for improvements related to various construction and reinvestment projects. In 2014, the Company placed into service six completed investment projects at six properties located in California, Pennsylvania, Texas and Indiana. In 2013, the Company placed into service one completed investment project at one property located in California. In accordance with ASC 835, *Capitalization of Interest* (ASC 835), the Company capitalizes interest based on the average cash balance of construction in progress for the period using the weighted-average interest rate on all outstanding debt, which approximated 6.0% for the three and nine months ended September 30, 2014. The balance of capitalized interest within construction in progress at September 30, 2014 and December 31, 2013 was \$0.7 million and \$0.8 million, respectively. The amount capitalized during the three and nine months ended September 30, 2014 and 2013, relative to interest incurred, was \$0.2 million, \$0.5 million, \$0.2 million and \$0.4 million, respectively.

Table of Contents**4. Loan Receivables**

The following summarizes the Company's loan receivables, net activity during the nine months ended September 30, 2014 (in thousands):

The Company's reserve on a loan-by-loan basis for uncollectible loan receivables balances at September 30, 2014 and December 31, 2013 was approximately \$3.2 million and \$0, respectively, and any movement in the reserve is reflected in reserve for uncollectible loan and other receivables in the consolidated statements of operations. The gross balance of loan receivables for which a reserve on a loan-by-loan basis for uncollectible loan receivables has been applied was approximately \$3.2 million and \$0, at September 30, 2014 and December 31, 2013, respectively.

During 2014 and 2013, the Company funded loans for mortgage loans, capital improvement purposes, and working capital purposes to various operators. All loans held by the Company accrue interest and are recorded as interest income unless the loan is deemed impaired in accordance with Company policy. The payments received from the operator cover both interest accrued as well as amortization of the principal balance due. Any payments received from the operator made outside of the normal loan amortization schedule are considered principal prepayments and reduce the outstanding loan receivables balance.

5. Deferred Finance Costs

The following summarizes the Company's deferred finance costs at September 30, 2014 and December 31, 2013 (in thousands):

	September 30, 2014	December 31, 2013

Revolving Credit Facility (interest rate of 2.52% on December 31, 2013)		20,000
Total	\$ 840,888	\$ 686,406

2019 Notes

On February 4, 2011, April 5, 2011 and March 28, 2012, the Partnership and Aviv Healthcare Capital Corporation (the Issuers) issued \$200 million, \$100 million and \$100 million of 7 ³/₄% Senior Notes due in 2019 (the 2019 Notes), respectively. The REIT is a guarantor of the Issuers' 2019 Notes. The 2019 Notes are unsecured senior obligations of the Issuers and will mature on February 15, 2019 and bear interest at a rate of 7.75% per annum, payable semiannually to holders of record at the close of business on the February 1 or the August 1 immediately preceding the interest payment date on February 15 and August 15 of each year, commencing August 15, 2011. Premiums of approximately \$2.75 million and \$1.0 million were associated with the offerings of the \$100 million of 2019 Notes on April 5, 2011 and the \$100 million of 2019 Notes on March 28, 2012, respectively. The premiums will be amortized as an adjustment to the yield on the 2019 Notes over their term. The Company used the proceeds to, amongst other things, pay down the outstanding balance of previous credit facilities during 2012.

2021 Notes

On October 16, 2013, the Issuers issued \$250 million of 6% Senior Notes due in 2021 (2021 Notes). The REIT is a guarantor of the Issuers' 2021 Notes. The 2021 Notes are unsecured senior obligations of the Issuers and will mature on October 15, 2021 and bear interest at a rate of 6.00% per annum, payable semiannually to holders of record at the close of business on the April 1 or the October 1 immediately preceding the interest payment date on April 15 and October 15 of each year, commencing April 15, 2014. The Company used the net proceeds to, amongst other things, pay down approximately \$135.0 million of the outstanding indebtedness under the Revolving Credit Facility during 2013.

Credit Facility

On March 26, 2013, the Company, through Aviv Financing IV, entered into a \$300 million secured revolving credit facility and \$100 million term loan with Bank of America, N.A. (collectively, the Revolving Credit Facility). On April 16, 2013, the Company converted the entire \$100 million term loan into a secured revolving credit facility, thereby terminating the term loan and any availability thereunder and increasing the amount available under the secured revolving credit facility from \$300 million to \$400 million. On each payment date, the Company paid interest only in arrears on any outstanding principal balance. The interest rate was based on LIBOR plus a margin of 235 basis points to 300 basis points depending on the Company's leverage ratio. Additionally, an unused fee equal to 50 basis points per annum of the daily unused balance on the Revolving Credit Facility was payable quarterly in arrears.

On May 14, 2014, the Company terminated the Revolving Credit Facility and, through the Partnership, entered into a new \$600 million unsecured revolving credit facility (the Credit Facility). The Credit Facility has an interest rate that ranges from 170 to 225 basis points over LIBOR depending on the Company's consolidated leverage and a maturity date of May 14, 2018. The Credit Facility can be extended for an additional year at the Company's option, subject to the satisfaction of certain conditions, and contains an accordion feature increasing the borrowing capacity to \$800 million. As of September 30, 2014, the Credit Facility had a balance of \$175.0 million.

Table of Contents***Other Loans***

On June 15, 2012, a subsidiary of Aviv Financing III assumed a HUD loan with a balance of approximately \$11.5 million. Interest is at a fixed rate of 5.00%. The loan originated in November 2009 with a maturity date of October 1, 2044 and is based on a 35-year amortization schedule. The Company is obligated to pay the remaining principal and interest payments of the loan. A premium of \$2.5 million was associated with the assumption of debt and will be amortized as an adjustment to interest expense on the HUD loan over its term.

9. Commitments and Contingencies

The Company has contractual arrangements with three operators in six of its facilities to reimburse any liabilities, obligations or claims of any kind or nature resulting from the actions of the former operators in such facilities. The Company is obligated to reimburse the fees to the operator if and when the operator incurs such expenses associated with certain Indemnified Events, as defined therein. The total possible obligation for these fees is estimated to be \$2.6 million, of which approximately \$2.1 million has been paid to date. The remaining \$0.5 million was accrued as a component of other liabilities in the consolidated balance sheets.

The Company has purchase options with one of its tenants that are not exercisable by the tenant until January 1, 2017 for five properties, January 1, 2019 for two properties, and January 1, 2022 for five properties. If the 2017 option is not exercised, the tenant loses the right to exercise the 2019 option and the 2022 option. If the 2017 option is exercised, but the 2019 option is not exercised, the tenant loses the right to exercise the 2022 option. The purchase options call for the purchase price, as defined, to be determined at a future date. In addition, the Company has purchase options with four tenants on five properties that are exercisable by the applicable tenant at various times during the terms of the respective leases. Two of these options are exercisable at a predetermined purchase price and the remaining three call for a purchase price to be determined at a future date.

The Company is involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these other matters will have a material adverse effect on our business, operating results, liquidity or financial position.

10. Noncontrolling Interests Operating Partnership / OP Units

Noncontrolling interests operating partnership, as presented on AVIV's consolidated balance sheets, represent the OP units held by individuals and entities other than AVIV. Accordingly, the following discussion related to noncontrolling interests operating partnership of the REIT refers equally to OP units of the Partnership.

Holders of OP units are entitled to receive distributions in a per unit amount equal to the per share dividends made with respect to each share of AVIV's common stock, if and when AVIV's Board of Directors declares such a dividend. Holders of OP units have the right to tender their OP units for redemption, in an amount equal to the fair market value of AVIV's common stock. AVIV may elect to redeem tendered OP units for cash or for shares of AVIV's common stock. During the three and nine months ended September 30, 2014, OP unitholders redeemed a total of 26,885 and 199,856 OP units in exchange for an equal number of shares of common stock of AVIV.

Table of Contents**12. Equity Compensation Plan**

Prior to September 2010, the Partnership had established an officer incentive program linked to its future value. Class D Units were periodically granted to employees of AAM. Part of the Class D Units are defined as performance-based awards under ASC 718 and require employment of the recipient on the date of sale, disposition, or refinancing. If the employee is no longer employed on such date, the award is forfeited. The remainder of the Class D Units were time-based awards under ASC 718 and such fair value determined on the grant date was recognized over the vesting period. On March 26, 2013, the performance component Class D Units vested and along with time based units were converted to OP units in connection with the IPO, and \$0.9 million of expense was recognized.

Restricted Stock Grants

On March 26, 2013 the Company adopted the Aviv REIT, Inc. 2013 Long-Term Incentive Plan (the LTIP). The purpose of the LTIP is to attract and retain qualified persons upon whom, in large measure, the Company's sustained progress, growth and profitability depend, to motivate the participants to achieve long-term Company goals and to align the participants' interests with those of other stockholders by providing them with a proprietary interest in the Company's growth and performance. The Company's executive officers, employees, consultants and non-employee directors are eligible to participate in the LTIP. Under the plan, 2,000,000 shares of the Company's common stock are available for issuance. The shares can be issued as restricted stock awards (RSAs) or as restricted stock units (RSUs).

During 2013, the Company issued 23,250 shares and 47,250 RSAs subject to a vesting period. During the nine months ended September 30, 2014, 15,750 of the 47,250 RSAs vested. Additionally, the Company issued 226,585 RSUs, of which 17,470 were subsequently forfeited prior to the year ended December 31, 2013. Of these 226,585 RSUs, 16,361 shares were issued and vested in the nine months ended September 30, 2014 and an additional 7,779 RSUs were forfeited. Some of these RSUs are subject to time vesting, and some are subject to performance vesting. The time-based RSUs generally vest over a period of two to three years, subject to the employee's continued employment with the Company. The performance-based RSUs are earned on the basis of Total Shareholder Return (TSR) on the Company's stock compared to the TSR of a defined group of peer companies. The first installment of the performance-based RSUs are based on the companies comprising the NAREIT Equity Index and the companies comprising the Bloomberg Healthcare REIT Index for the performance period beginning on the date of the IPO and ending December 31, 2014. The second installment is based on the companies comprising the NAREIT Equity Index and the companies comprising the Bloomberg Healthcare REIT Index for the performance period beginning on the date of the IPO and ending December 31, 2015. If the service and performance conditions are met, approximately half of the RSUs will vest on December 31, 2014, and the remaining will vest on December 31, 2015. The RSUs carry dividend equivalent rights that are subject to the same vesting terms as the underlying RSUs.

During the nine months ended September 30, 2014, the Company issued 156,397 RSUs of which 18,445 have been forfeited. Some of these RSUs are subject to time vesting, and some are subject to performance vesting. The time-based RSUs cliff vest over a period of three years, subject to the employee's continued employment with the Company. The performance-based RSUs cliff vest on the basis of TSR on the Company's stock compared to the TSR of a defined group of peer companies. Approximately half of the performance-based RSUs are based on the companies comprising the NAREIT Equity Index for the performance period beginning on January 1, 2014 and ending December 31, 2016. Approximately half are based on the companies in the Bloomberg Healthcare REIT Index for the performance period beginning on January 1, 2014 and ending December 31, 2016. If the service and performance conditions are met, the RSUs will vest on December 31, 2016.

For the three and nine months ended September 30, 2014 and 2013, the Company recognized total non-cash stock-based compensation expense related to the LTIP of \$0.9 million, \$3.6 million, \$0.5 million and \$0.6 million,

respectively.

Restricted stock grants vest over specified periods of time as long as the employee remains with the Company. The following table sets forth the number of unvested shares of restricted stock and the weighted average fair value of these shares at the date of grant:

	Nine Months Ended

- (1) Includes 7,944 shares which were used to settle minimum employee withholding tax obligations for one employee of approximately \$0.2 million in 2014. A net of 32,111 shares of common stock were delivered in the nine months ended September 30, 2014.

Table of Contents

As of September 30, 2014, total unearned compensation on restricted stock was \$6.5 million, and the weighted average vesting period was 1.76 years.

Option Awards

On September 17, 2010, the Company adopted the 2010 Management Incentive Plan (the MIP), which provides for the grant of option awards. Two-thirds of the options granted under the MIP were performance-based awards whose criteria for vesting is tied to a future liquidity event (as defined therein) and also contingent upon meeting certain return thresholds (as defined therein). The grant date fair value associated with all performance-based award options of the Company aggregated to approximately \$7.4 million at the time of the IPO. One third of the options granted under the MIP were time based awards and the service period for these options is four years with shares vesting at a rate of 25% ratably from the grant date.

In connection with the IPO, all options outstanding under the MIP, representing options to purchase 5,870,138 shares with a weighted average exercise price of \$17.47 per share, became fully-vested. In addition, recipients were entitled to receive dividend equivalents on their options awarded under the MIP. Dividend equivalents were paid on time-based options on (i) the date of vesting, with respect to any portion of a time-based option that was unvested on the date the dividend equivalent was accrued, and (ii) the last day of the calendar quarter in which such dividends were paid to stockholders, with respect to any portion of a time-based option vested as of the date the dividend equivalent was accrued. Dividend equivalents accrued and unpaid prior to the consummation of the IPO in the approximate amount of \$14.8 million were paid in shares of common stock, net of applicable withholding of approximately \$6.8 million, in an amount based on the IPO price of the common stock. No dividend equivalents will be paid for any MIP options with respect to periods after the date of the IPO by the Company.

In connection with the IPO, the holders of option awards under the MIP received a new class of units of LG Aviv L.P., the legal entity through which Goldberg Lindsay & Co., LLC holds its interest in the REIT, equal to the number of options held by such persons immediately prior to the consummation of the IPO. Under the limited partnership agreement of LG Aviv L.P., the units are entitled to receive an aggregate distribution amount equal to 14.9% of the dividend distributions declared and received by LG Aviv L.P. after the consummation of the IPO in respect of its shares of common stock. The distribution amount will be paid by LG Aviv L.P. ratably to each holder of such units on the distribution date in the proportion that the total number of units held by such holder bears to the total outstanding units of the same class. Any unit payments will be paid, if at all, on the earlier of (i) the last day of the calendar quarter in which dividends were paid to the Company stockholders and (ii) three business days following the holder's termination of employment with the Company. For the nine months ended September 30, 2014, \$3.4 million was paid by LG Aviv L.P. to the holders of such units.

Table of Contents

The following table represents the time- and performance-based option awards activity for the nine months ended September 30, 2014 and 2013:

	Nine Months Ended	
	September 30, 2014	September 30, 2013

Weighted average exercise price	\$17.44	\$17.47

The Company has used the Black-Scholes option pricing model to estimate the grant date fair value of the options. In connection with the IPO, all options outstanding under the MIP became fully vested, and the plan was retired. There were no options awarded in the nine months ended September 30, 2014 or 2013.

The Company recorded non-cash compensation expenses of approximately \$0, \$0, \$0, and \$9.0 million for the three and nine months ended September 30, 2014 and 2013, respectively, related to the time and performance based stock options accounted for as equity awards, as a component of general and administrative expenses in the consolidated statements of operations.

At September 30, 2014, there is no unrecognized compensation cost to be recognized related to the option awards.

Dividend equivalent rights associated with the MIP that became payable upon vesting amounted to \$0, \$0, \$0, and \$15.4 million for the three and nine months ended September 30, 2014 and 2013, respectively.

15. Subsequent Events

On October 1, 2014, the Company acquired one property in Kentucky for a purchase price of \$4.6 million from an unrelated third party.

On October 17, 2014, the Company acquired two properties in Texas for a purchase price of \$28.5 million from an unrelated third party.

On October 30, 2014, AVIV and the Partnership entered into an Agreement and Plan of Merger (the Merger Agreement) with Omega Healthcare Investors, Inc. (Omega), OHI Healthcare Properties Holdco, Inc., a

wholly-owned subsidiary of Omega (Merger Sub), and OHI Healthcare Properties Limited Partnership, L.P., a wholly-owned subsidiary of Omega. The Merger Agreement provides for the merger of AVIV with and into Merger Sub (the Merger), with Merger Sub surviving as a wholly-owned subsidiary of Omega. At the effective time of the Merger, and subject to the terms and conditions set forth in the Merger Agreement, each outstanding share of Aviv common stock will be converted into the right to receive 0.90 shares of Omega common stock.

16. Condensed Consolidating Information

AVIV and certain of the Partnership's direct and indirect wholly owned subsidiaries (the Subsidiary Guarantors) fully and unconditionally guaranteed, on a joint and several basis, the obligation to pay principal and interest with respect to the Issuers' 2019 Notes and 2021 Notes issued in February 2011, April 2011, March 2012 and October 2013. The 2019 Notes and 2021 Notes were issued by the Partnership and Aviv Healthcare Capital Corporation. Separate financial statements of the guarantors are not provided, as the consolidating financial information contained herein provides a more meaningful disclosure to allow investors to determine the nature of the assets held by and the operations of the respective guarantor and non-guarantor subsidiaries. Other wholly owned subsidiaries (Non-Guarantor Subsidiaries) that were not included among the Subsidiary Guarantors were not obligated with respect to the 2019 Notes and 2021 Notes. The properties held by the Non-Guarantor Subsidiaries are subject to mortgages. The following summarizes the Partnership's condensed consolidating information as of September 30, 2014 and December 31, 2013 and for the three and nine months ended September 30, 2014, and 2013:

Overview

Aviv REIT, Inc., or AVIV, is a self-administered REIT, specializing in the ownership of post-acute and long-term care skilled nursing facilities, or SNFs. AVIV is the sole general partner of Aviv Healthcare Properties Limited Partnership, or the Partnership. Unless the context requires otherwise or except as otherwise noted, as used herein the words we, the Company, us and our refer to Aviv REIT, Inc., its controlled subsidiaries, Aviv Healthcare Properties Limited Partnership and its controlled subsidiaries collectively, as the operations of the two aforementioned entities are materially comparable for the periods presented. We have been in the business of investing in SNFs for over 30 years, including through our predecessors. Our properties are leased through triple-net leases to third-party operators

who have responsibility for the operation of the facilities. We are entitled to a cash rental stream from these operators under our leases. Our management team has an extensive track record and knowledge of healthcare real estate. We believe that we own one of the largest and highest-quality SNF portfolios in the United States.

As of September 30, 2014, our portfolio consisted of 313 properties in 29 states and operated by 38 third-party operators. We have a geographically diversified portfolio, with no state representing more than 18.3% of our contractual rent as of September 30, 2014. Our properties are leased to a diversified group of operators, with no single operator representing more than 11.8% of our contractual rent as of September 30, 2014. When we refer to the contractual rent of our portfolio, we are referring to the total monthly rent due under all of our triple-net leases as of the date specified, calculated based on the first full month following the specified date.

We cultivate long-term relationships with our operators and, as of September 30, 2014, 62% of our properties are leased to operators with whom we have had a relationship for at least five years, and many of our properties are leased to operators with whom we have had a relationship for at least ten years. We believe we will continue to access potential new investment opportunities as a result of our relationships with existing operators and our network of other market-leading operators.

Table of Contents

We structure our triple-net leases to generate attractive returns on a long-term basis. Under our triple-net leases, our operators are responsible for all operating costs and expenses related to the property, including maintenance and repair obligations and other capital expenditures. Our leases typically have initial terms of 10 years or more and include annual rent escalators of approximately 2%. We often enter into lease extensions during the term of the lease in connection with additional acquisitions, reinvestment projects and other opportunities that arise. Leases representing 99.5% of our contractual rent as of September 30, 2014 are supported by personal and/or corporate guarantees and leases representing 87.0% of our contractual rent for the same period are master leases or leases with cross-default provisions, which master leases and cross-default provisions provide us with significant credit support for our rents. Our leases also typically require security deposits of several months' rent. As of September 30, 2014, 15.1% of our leases are scheduled to expire before 2019.

We finance investments through borrowings under our credit facility, issuances of unsecured senior notes and equity securities, project-specific first mortgages or a combination of these methods. We compete with other public and private companies who provide lease and/or mortgage financing to operators of a variety of different types of healthcare properties. While the overall landscape for healthcare finance is competitive, we are disciplined and selective about the investments we make and have a strong track record of identifying qualified operators and attractive markets in which to invest. We have built a high-quality and strategically-diversified portfolio of operators and properties.

Factors Affecting Our Business and the Business of Our Operators

The continued success of our business is dependent on a number of macroeconomic and industry trends. Many of these trends will influence our ongoing ability to find suitable investment properties while other factors will impact our operators' ability to conduct their operations profitably and meet their obligations to us.

Industry Trends

One of the primary trends affecting our business is the long-term increase in the average age of the U.S. population. This increase in life expectancy is expected to be a primary driver for growth in the healthcare and SNF industry. We believe this demographic trend is resulting in an increased demand for services provided to the elderly. We believe that the low cost healthcare setting of a SNF will benefit our operators and facilities in relation to higher-cost healthcare providers. We believe that these trends will support a growing demand for the services provided by SNF operators, which in turn will support a growing demand for our properties.

The growth in demand for services provided to the elderly has resulted in an increase in healthcare spending. The Centers for Medicare and Medicaid Services, or CMS, and the Office of the Actuary forecast that U.S. healthcare expenditures will increase from approximately \$2.7 trillion in 2011 to approximately \$4.8 trillion in 2021. Furthermore, according to CMS, national expenditures for SNFs are expected to grow from approximately \$151 billion in 2011 to approximately \$255 billion in 2021, representing a compound annual growth rate, or CAGR, of 5.4%. On July 31, 2013, CMS issued its final rule for fiscal year 2014 Medicare payment rates for SNFs. Based on the changes contained in the final rule, CMS estimates that total Medicare payments to SNFs will increase by \$470 million, or 1.3%, for fiscal year 2014, which began on October 1, 2013.

Liquidity and Access to Capital

Our single largest cost is the interest expense we incur on our debt obligations. In order to continue to expand and optimize our capital to expand our portfolio, we rely on access to the capital markets on an ongoing basis. We seek to balance this goal against maintaining ready access to funds to make investments at the time opportunities arise. We

have extensive experience in and a successful track record of raising debt and equity capital over the past 30 years.

Our indebtedness is comprised principally of the unsecured obligations under our 2019 Notes, our 2021 Notes and our Credit Facility, each described in further detail under **Liquidity and Capital Resources** **Indebtedness Outstanding** . Substantially all of such indebtedness is scheduled to mature in 2018 or thereafter.

Factors Affecting Our Operators Profitability

Our revenues are derived from rents we receive from triple-net leases with our operators. Certain economic factors present both opportunities and risks to our operators and, therefore, influence their ability to meet their obligations to us. Our operators' revenues are largely derived from third-party sources. Therefore, we indirectly rely on these same third-party sources to obtain our rents. The third-party payments include approximately 75% from the federal Medicare program and state Medicaid programs and approximately 25% from private insurance companies or private-pay residents. The sources and amounts of our operators' revenues are determined by a

Table of Contents

number of factors, including licensed bed capacity, occupancy rates, the healthcare needs of residents and the rate of reimbursement. Changes in the profile of the residents as well as the mix of payor types, including private pay, Medicare and Medicaid, may significantly affect our operators' profitability and, in turn, their ability to meet their obligations to us. Managing, billing and successfully collecting third-party payments is a relatively complex activity that requires significant experience and is critical to the successful operation of a SNF. We believe the portfolio occupancy, the quality mix of our portfolio and resulting reimbursement rates have remained relatively stable over recent years.

Results of Operations

This Quarterly Report on Form 10-Q contains unaudited financial statements and other financial data for each of AVIV and the Partnership. As noted above, AVIV is the sole general partner of the Partnership and, as of September 30, 2014, owned 80.5% of the economic interest in the Partnership. All of the Company's operations are conducted by the Partnership which is consolidated by AVIV for financial reporting purposes, and therefore the following information is the same for AVIV and the Partnership.

Three Months Ended September 30, 2014 and 2013

Revenues

Revenues increased \$14.5 million, or 44.1%, from \$32.9 million for the three months ended September 30, 2013 to \$47.4 million for the same period in 2014. The primary increase is a rental income increase of \$14.4 million, or 45.4%, from \$31.7 million for the three months ended September 30, 2013 to \$46.1 million for the same period in 2014. The increase is primarily due to additional cash rent of approximately \$10.6 million associated with acquisitions and investments made during 2013 and 2014. There were no material changes to renewed leases or rent increases associated with tenant improvements during the quarter.

Expenses

Expenses increased \$12.5 million, or 54.9%, from \$22.8 million for the three months ended September 30, 2013 to \$35.3 million for the same period in 2014. The increase was primarily due to increases of \$3.8 million in interest expense incurred, \$3.2 million in depreciation and amortization, \$1.4 million in general and administrative expenses and \$2.4 million in loss on sale of assets, net.

Detailed changes in our expenses for the three months ended September 30, 2014 compared to the same period in 2013 were as follows:

Interest expense incurred increased \$3.8 million, or 44.3%, from \$8.6 million for the three months ended September 30, 2013 to \$12.4 million for the same period in 2014. The increase was a result of an increase in interest related to the bonds issued in the fourth quarter of 2013 offset by the decrease in interest related to the pay down of debt.

Amortization of deferred financing costs remained materially consistent for the three months ended September 30, 2013 compared to the same period in 2014.

Depreciation and amortization expense increased \$3.2 million, or 38.8%, from \$8.3 million for the three months ended September 30, 2013 to \$11.5 million for the same period in 2014. The increase was a result of an increase in depreciation expense associated with newly acquired facilities and facilities placed into service during 2013 and 2014.

General and administrative expense increased \$1.4 million, or 37.0%, from \$3.9 million for the three months ended September 30, 2013 to \$5.3 million for the same period in 2014. This increase was primarily due to an increase in non-cash stock-based compensation expense related to the 2013 Long-Term Incentive Plan and an increase in salaries and bonuses as a result of the hiring of additional employees.

Transaction costs remained materially consistent for the three months ended September 30, 2014 compared to the same period in 2013.

Loss on impairment of assets expense was \$1.5 million and \$0 for the three months ended September 30, 2014 and 2013, respectively. The increase was due to a non-cash loss on one facility in the third quarter of 2014 where a portion of the carrying value was not deemed recoverable. The property is under contract to be sold in the fourth quarter.

Reserve for uncollectible loan and accounts receivable remained materially consistent for the three months ended September 30, 2014 compared to the same period in 2013.

Loss on sale of assets, net, increased \$2.4 million from \$0 for the three months ended September 30, 2013 to \$2.4 million for the same period in 2014. The increase is due to the sale of five non-strategic assets in the third quarter 2014. In connection with the sale, the existing operators will continue to pay the Company 90% of the remaining contractual rent owed of approximately \$6.9 million under the cross defaulted existing triple-net leases.

Table of Contents

Nine Months Ended September 30, 2014 and 2013

Revenues

Revenues increased \$29.8 million, or 29.1%, from \$102.6 million for the nine months ended September 30, 2013 to \$132.4 million for the same period in 2014. Detailed changes in revenues for the nine months ended September 30, 2014 compared to the same period in 2013 were as follows:

Rental income increased \$28.7 million, or 29.0%, from \$99.2 million for the nine months ended September 30, 2013 to \$127.9 million for the same period in 2014. The increase is primarily due to additional cash rent of approximately \$26.9 million associated with acquisitions and investments made during 2013 and 2014. There were no material changes to renewed leases or rent increases associated with tenant improvements for the nine months ended September 30, 2014.

Interest on loans remained materially consistent for the nine months ended September 30, 2014 compared to the same period in 2013.

Interest and other income increased \$1.1 million from \$0.1 million for the nine months ended September 30, 2013 to \$1.2 million for the same period in 2014. The increase is primarily due to non-recurring income from the sale of bed licenses at two facilities.

Expenses

Expenses increased \$9.9 million, or 10.9%, from \$90.6 million for the nine months ended September 30, 2013 to \$100.5 million for the same period in 2014. The increase was primarily due to increases of \$7.1 million in depreciation and amortization, \$3.5 million in reserve for uncollectible loans and other receivables, \$6.9 million in interest expense incurred and \$2.5 million in loss on sale of assets offset by a decrease of \$10.5 million in loss on extinguishment of debt and \$4.2 million in general and administrative expenses.

Detailed changes in our expenses for the nine months ended September 30, 2014 compared to the same period in 2013 were as follows:

Interest expense incurred increased \$6.9 million, or 23.3%, from \$29.6 million for the nine months ended September 30, 2013 to \$36.5 million for the same period in 2014. The increase was a result of an increase in interest related to the bonds issued in the fourth quarter of 2013 offset by the decrease in interest related to the pay down of debt.

Amortization of deferred financing costs remained materially consistent for the nine months ended September 30, 2014 compared to the same period in 2013.

Depreciation and amortization expense increased \$7.1 million, or 29.0%, from \$24.4 million for the nine months ended September 30, 2013 to \$31.5 million for the same period in 2014. The increase was a result of an increase in depreciation expense associated with newly acquired facilities and facilities placed into service during 2013 and 2014.

General and administrative expense decreased \$4.2 million, or 19.8%, from \$21.2 million for the nine months ended September 30, 2013 to \$17.0 million for the same period in 2014. This decrease was primarily due to \$9.7 million of non-cash stock-based compensation expense that was recorded as a result of the vesting of outstanding options in connection with the IPO in 2013 compared to \$3.6 million of non-cash stock based compensation expense that was recorded in 2014 related to the 2013 Long-Term Incentive Plan, partially offset by a \$1.7 million increase in salaries and bonuses as a result of the hiring of additional employees.

Transaction costs increased \$1.9 million from \$1.9 million for the nine months ended September 30, 2013 to \$3.8 million for the same period in 2014. This increase was primarily due to the acquisition of 38 properties during the nine months ended September 30, 2014 compared to the acquisition of only eight properties during the same period in 2013.

Loss on impairment of assets expense was \$2.3 million and \$0 for the nine months ended September 30, 2014 and 2013, respectively. The increase was due to a non-cash loss on one facility in the first quarter and one facility in the third quarter of 2014 where a portion of the carrying value was not deemed recoverable.

Reserve for uncollectible loan and accounts receivable increased \$3.5 million from \$0 for the nine months ended September 30, 2013 to \$3.5 million for the same period in 2014. This increase was primarily due to additional expense incurred to reserve against outstanding loans and other receivable balances related to two operators in 2014.

Table of Contents

Loss (gain) on sale of assets, net, increased \$2.5 million from \$0 for the three months ended September 30, 2013 to a loss of \$2.5 million for the same period in 2014. The increase is due to the sale of five non-strategic assets in the third quarter 2014. In connection with the sale, the existing operators will continue to pay the Company 90% of the remaining contractual rent owed of approximately \$6.9 million under the cross defaulted existing triple-net leases.

Loss on extinguishment of debt decreased \$10.5 million, or 95.4%, from \$11.0 million for the nine months ended September 30, 2013 to \$0.5 million for the same period in 2014. The decrease primarily relates to the non-cash write-offs related to debt that was settled in conjunction with the IPO in 2013.

Liquidity and Capital Resources

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings. We believe that the net cash provided by operations and availability under our Credit Facility, as defined below, will be adequate to fund our operating requirements, debt service, the payment of dividends, new construction and reinvestment projects in accordance with REIT requirements of the U.S. federal income tax laws for the next twelve months. We expect to meet our long-term liquidity requirements, such as scheduled debt maturities, property acquisitions, new construction and reinvestment projects, through long-term secured and unsecured borrowings, the issuance of additional equity securities or, in connection with acquisitions of additional properties, the issuance of OP units of the Partnership.

We intend to repay indebtedness incurred under our Credit Facility from time to time, to provide capacity for acquisitions or otherwise, out of cash flow and from the proceeds of issuances of unsecured notes, additional shares of common stock of AVIV and other securities. We intend to invest in additional properties and portfolios as suitable opportunities arise and adequate sources of financing are available. We are currently evaluating additional potential investments consistent with the normal course of our business. These potential investments are in various stages of evaluation with both existing and new operators and include acquisitions, construction projects, capital reinvestment projects and other investment opportunities. There can be no assurance as to whether or when any portion of these investments will be completed. Our ability to complete investments is subject to a number of risks and variables, including our ability to negotiate mutually agreeable terms with the counterparties and our ability to finance the purchase price. We may not be successful in identifying and consummating suitable acquisitions or investment opportunities, which may impede our growth and negatively affect our results of operations and may result in the use of a significant amount of management resources. We expect that future investments in properties will depend on and will be financed by, in whole or in part, our existing cash, the proceeds from additional issuances of unsecured notes or shares of common stock of AVIV, or other securities or borrowings (including borrowings under our Credit Facility).

Cash Flows

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013:

Cash provided by operations increased \$33.7 million from \$36.4 million for the nine months ended September 30, 2013 to \$70.1 million for the same period in 2014. The increase was primarily due to a \$23.7 million increase in cash from rental income related to properties acquired during 2013 and 2014, \$5.3 million increase in cash from tenant security deposits, \$3.2 million increase in cash as a result of the timing of accounts payable and accrued expenses during the nine months ended September 30, 2014 compared with

the same period in 2013.

Cash used in investing activities increased \$355.9 million from \$57.0 million for the nine months ended September 30, 2013 to \$412.9 million for the same period in 2014. This increase was primarily due to the increase in funds used for the purchase of real estate investments, development projects and capital improvements in the nine months ended September 30, 2014, as compared to the same period in 2013.

Cash provided by financing activities increased \$293.0 million from \$15.0 million for the nine months ended September 30, 2013 to \$307.9 million for the same period in 2014. The increase was primarily due to a decrease of \$348.1 million in net debt borrowings and repayments, offset by a decrease in net public offering proceeds of \$81.9 million in 2014 as compared to the same period in 2013.

April 2014 Public Offering of Shares of Common Stock of AVIV

On April 9, 2014, AVIV priced its underwritten public offering of 8,000,000 shares of common stock at a public offering price of \$24.10 per share. The underwriters had a 30-day option to purchase up to an additional 1,200,000 shares of common stock, which was exercised in full on April 10, 2014. The Company received net proceeds from the offering of approximately \$211.3 million, after deducting discounts, commissions and other offering costs. On April 15, 2014, the Company used approximately \$118.0 million of the net proceeds from the offering to repay all outstanding indebtedness under the Revolving Credit Facility (as defined below). The remaining proceeds of approximately \$93.7 million were used for general corporate purposes, including the potential acquisition of additional properties.

Table of Contents***Indebtedness Outstanding***

Our indebtedness outstanding consists principally of borrowings under our 2019 Notes, 2021 Notes, and Credit Facility. We had total indebtedness of approximately \$840.9 million (inclusive of our debt premium) outstanding as of September 30, 2014. Substantially all of such indebtedness is scheduled to mature in 2016 or thereafter.

As of September 30, 2014, we were in compliance with all of the financial covenants of our outstanding debt and lease agreements and the indentures governing our 2019 Notes, 2021 Notes, and Credit Facility.

7³/₄% Senior Notes due 2019

In February 2011, April 2011, and March 2012, we, through the Partnership and Aviv Healthcare Capital Corporation, or the Issuers, issued an aggregate of \$400 million of 7³/₄% Senior Notes due 2019, which we refer to as the 2019 Notes, in a series of private placements. The Issuers subsequently conducted exchange offers in which all of the 2019 Notes issued in the aforementioned private placements were exchanged for freely tradable notes that have been registered under the Securities Act. Each of the Issuers is a majority owned subsidiary of AVIV. The obligations under the 2019 Notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured basis, by AVIV and certain of our existing and, subject to certain exceptions, future subsidiaries.

The 2019 Notes are unsecured senior obligations of the Issuers and will mature on February 15, 2019. The 2019 Notes bear interest at a rate of 7.75% per annum, payable semiannually to holders of record at the close of business on the February 1 or the August 1 immediately preceding the interest payment dates of February 15 and August 15 of each year. Premiums of approximately \$2.75 million and \$1.0 million were associated with the offerings of the \$100 million of 2019 Notes in April 2011 and the \$100 million of 2019 Notes in March 2012, respectively. The premiums will be amortized as an adjustment to the yield on the 2019 Notes over their term.

The 2019 Notes are redeemable at the option of the Issuers, in whole or in part, at any time, and from time to time, on or after February 15, 2015, at the redemption prices set forth in the indenture governing the 2019 Notes, plus accrued and unpaid interest to the applicable redemption date. In addition, prior to February 15, 2015, the Issuers may redeem all or a portion of the 2019 Notes at a redemption price equal to 100% of the principal amount of the 2019 Notes redeemed, plus a make-whole premium, plus accrued and unpaid interest to the applicable redemption date.

The indenture governing the 2019 Notes contains restrictive covenants that, among other things, restrict the ability of AVIV, the Issuers and their restricted subsidiaries to: (i) incur or guarantee additional unsecured indebtedness; (ii) incur or guarantee secured indebtedness; (iii) pay dividends or distributions on, or redeem or repurchase, their capital stock; (iv) make certain investments or other restricted payments; (v) sell assets; (vi) create liens on their assets; (vii) enter into transactions with affiliates; (viii) merge or consolidate or sell all or substantially all of their assets; and (ix) pay dividends or other amounts to AVIV. The indenture governing the 2019 Notes also provides for customary events of default, including, but not limited to, the failure to make payments of interest or premium, if any, on, or principal of, the 2019 Notes, the failure to comply with certain covenants and agreements specified in the indenture governing the 2019 Notes for a period of time after notice has been provided, the acceleration of other indebtedness resulting from the failure to pay principal on such other indebtedness prior to its maturity and certain events of insolvency. If any event of default occurs, the principal of, premium, if any, and accrued interest on all of the then outstanding 2019 Notes may become due and payable immediately.

6% Senior Notes due 2021

In October 2013, the Issuers issued \$250 million of 6% Senior Notes due 2021, or the 2021 Notes, and together with the 2019 Notes, the Senior Notes, in a private placement. The Issuers subsequently conducted an exchange offer in which all of the 2021 Notes issued in the aforementioned private placement were exchanged for freely tradable notes that have been registered under the Securities Act. The obligations under the 2021 Notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured basis, by AVIV and certain of our existing and, subject to certain exceptions, future subsidiaries.

The 2021 Notes are unsecured senior obligations of the Issuers and will mature on October 15, 2021. The 2021 Notes bear interest at a rate of 6.00% per annum, payable semiannually to holders of record at the close of business on the April 1 or the October 1 immediately preceding the interest payment dates of April 15 and October 15 of each year.

Table of Contents

The 2021 Notes are redeemable at the option of the Issuers, in whole or in part, at any time, and from time to time, on or after October 15, 2017, at the redemption prices set forth in the indenture governing the 2021 Notes, plus accrued and unpaid interest to the applicable redemption date. In addition, prior to October 15, 2017, the Issuers may redeem all or a portion of the 2021 Notes at a redemption price equal to 100% of the principal amount of the 2021 Notes redeemed, plus a make-whole premium, plus accrued and unpaid interest to the applicable redemption date. At any time, or from time to time, on or prior to October 15, 2016, the Issuers may redeem up to 35% of the principal amount of the 2021 Notes, using the proceeds of specific kinds of equity offerings, at a redemption price of 106% of the principal amount to be redeemed, plus accrued and unpaid interest, if any, to the applicable redemption date.

The indenture governing the 2021 Notes contains restrictive covenants that, among other things, restrict the ability of AVIV, the Issuers and their restricted subsidiaries to: (i) incur or guarantee additional unsecured indebtedness; (ii) incur or guarantee secured indebtedness; (iii) pay dividends or distributions on, or redeem or repurchase, their capital stock; (iv) make certain investments or other restricted payments; (v) sell assets; (vi) create liens on their assets; (vii) enter into transactions with affiliates; (viii) merge or consolidate or sell all or substantially all of their assets; and (ix) pay dividends or other amounts to AVIV. The indenture governing the 2021 Notes also provides for customary events of default, including, but not limited to, the failure to make payments of interest or premium, if any, on, or principal of, the 2021 Notes, the failure to comply with certain covenants and agreements specified in the indenture governing the 2021 Notes for a period of time after notice has been provided, the acceleration of other indebtedness resulting from the failure to pay principal on such other indebtedness prior to its maturity, and certain events of insolvency. If any event of default occurs, the principal of, premium, if any, and accrued interest on all the then outstanding 2021 Notes may become due and payable immediately.

Credit Facility

On May 14, 2014, we, through the Partnership and Aviv Healthcare Capital Corporation, with certain of our subsidiaries as guarantors, entered into a \$600 million unsecured revolving credit facility with Bank of America, N.A. (as amended from time to time, the Credit Facility). The Credit Facility has an accordion feature that may allow us to increase the availability thereunder by an additional \$200 million to a total availability of \$800 million. The Credit Facility had an outstanding balance of \$175.0 million as of September 30, 2014.

On each payment date, we pay interest only in arrears on any outstanding principal balance of the Credit Facility. The Credit Facility bears interest at the rate of LIBOR plus a margin of 170 basis points to 225 basis points, depending on our leverage ratio, and the applicable margin was 170 basis points as of September 30, 2014. If the Partnership achieves an investment grade rating on senior unsecured long-term debt from at least two of S&P, Fitch and Moody's, or investment grade status, then the margin reduces to 90 basis points to 170 basis points, depending on the quality of the investment grade rating. The initial term of the Credit Facility expires on May 14, 2018, with a one-year extension option provided that certain conditions precedent are satisfied. The proceeds from the Credit Facility are available for general corporate purposes.

The Credit Facility may be repaid from time to time at our option, and amounts repaid under the Credit Facility may be redrawn. Prior to when the Partnership achieves investment grade status, an unused fee equal to 25 basis points to 35 basis points of the unused balance on the Credit Facility is due quarterly. When the Partnership achieves investment grade status, a facility fee equal to 12.5 basis points to 30 basis points on the aggregate committed amount under the Credit Facility is due quarterly.

The amount available for us to borrow and our ability to borrow under the Credit Facility is subject to our ongoing compliance with a number of customary restrictive covenants, including:

a leverage ratio (defined as consolidated total indebtedness to total asset value) of less than 60%,

an unencumbered leverage ratio (defined as consolidated total unsecured indebtedness to total unencumbered asset value) of less than or equal to 60%,

a consolidated secured leverage ratio (defined as consolidated total secured indebtedness to total asset value) of less than or equal to 30%,

a consolidated unsecured interest coverage ratio (defined as net revenue from unencumbered assets to interest expense on unsecured indebtedness) equal to or greater than 2.00 to 1.00,

a minimum fixed charge coverage ratio (defined as consolidated earnings before interest, taxes, depreciation and amortization to consolidated fixed charges) of 1.50:1.00,

a minimum tangible net worth equal to at least \$539.2 million plus 75% of the net proceeds of any additional equity issuances, and

if the Partnership has not then achieved investment grade status, secured recourse indebtedness less than or equal to 10% of the consolidated total asset value.

Table of Contents

Under the Credit Facility, our distributions may not exceed the greater of (i) 95% of our Adjusted Funds From Operations, as defined therein, or (ii) the amount required for us to qualify and maintain our status as a REIT. If a default or event of default occurs and is continuing, we may be precluded from making certain distributions.

Other Loans

In June 2012, a wholly-owned indirect subsidiary of AVIV assumed a HUD loan with a balance of approximately \$11.5 million. Interest is a fixed rate of 5.00%. The loan originated in November 2009 with a maturity date of October 1, 2044 and is based on a 35-year amortization schedule. A premium of \$2.5 million was associated with the assumption of debt and will be amortized as an adjustment to interest expense on the HUD loan over its term. As of September 30, 2014, the balance of such loan was \$11.1 million (excluding \$2.4 million of net debt premium balance).

See Note 8, Debt, in the notes to the unaudited consolidated financial statements included in this report for additional information.

Off-Balance Sheet Arrangements

As of September 30, 2014, the Company did not have any off-balance sheet arrangements.

Presentation of Non-GAAP Financial Information

In addition to the results of operations presented above, we are presenting certain supplemental financial measures that are derived on the basis of methodologies other than in accordance with United States generally accepted accounting

principles, or GAAP. The non-GAAP financial measures used herein include FFO, Normalized FFO, AFFO, EBITDA and Adjusted EBITDA. We derive these measures as follows:

FFO is defined by the National Association of Real Estate Investment Trusts, or NAREIT, as net income (computed in accordance with GAAP), excluding gains and losses from sales of property (net) and impairments of depreciated real estate, plus real estate depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Applying the NAREIT definition to our financial statements results in FFO representing net income before depreciation and amortization, loss on impairment, and loss (gain) on sale of assets (net).

Normalized FFO represents FFO before loss on extinguishment of debt, reserves for uncollectible loan receivables, transaction costs and severance costs.

Table of Contents

AFFO represents Normalized FFO before amortization of deferred financing costs, non-cash stock (unit)-based compensation, straight-line rental income (net) and rental income from intangible amortization (net).

EBITDA represents net income before interest expense (net), amortization of deferred financing costs and depreciation and amortization.

Adjusted EBITDA represents EBITDA before loss on impairment, loss (gain) on sale of assets (net), transaction costs, write off of straight-line rents, non-cash stock-based compensation, loss on extinguishment of debt and reserves for uncollectible loan receivables.

Our management uses FFO, Normalized FFO, AFFO, EBITDA and Adjusted EBITDA as important supplemental measures of our operating performance and liquidity. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. The term FFO was designed by the real estate industry to address this issue and as an indicator of a company's ability to incur and service debt. Because FFO, Normalized FFO, and AFFO exclude depreciation and amortization unique to real estate, impairment, gains and losses from property dispositions and extraordinary items and because EBITDA and Adjusted EBITDA exclude certain non-cash charges and adjustments and amounts spent on interest and taxes, they provide our management with performance measures that, when compared year over year or with other REITs, reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and, with respect to FFO, Normalized FFO, and AFFO, interest costs, in each case providing perspectives not immediately apparent from net income. In addition, we believe that FFO, Normalized FFO, AFFO, EBITDA and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of REITs.

We offer these measures to assist the users of our financial statements in assessing our financial performance and liquidity under GAAP, but these measures are non-GAAP measures and should not be considered measures of liquidity, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP, nor are they indicative of funds available to fund our cash needs, including our ability to make payments on our indebtedness. In addition, our calculations of these measures are not necessarily comparable to similar measures as calculated by other companies that do not use the same definition or implementation guidelines or interpret the standards differently from us. Investors should not rely on these measures as a substitute for any GAAP measure, including net income, cash flows provided by operating activities or revenues.

Table of Contents**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to various market risks, including potential losses arising from adverse changes in interest rates. Interest rates are highly sensitive to many factors, including governmental monetary policies, domestic and global economic and political conditions, and other factors which are beyond our control.

As of September 30, 2014, \$175.0 million of our consolidated borrowings bore interest at variable rates (representing borrowing under our Credit Facility). We do not currently use interest rate hedging contracts, including swaps, caps and floors, to manage our interest rate risk. If interest rates increased by 100 basis points and assuming we had outstanding balances of \$175.0 million on our variable rate indebtedness during the quarter ended September 30, 2014, our interest expense would have increased by \$0.4 million for the quarter ended September 30, 2014. The Company believes that it has effectively managed interest rate exposure because, as of September 30, 2014, 79% of the Company's indebtedness was fixed rate debt.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures of AVIV. Under the supervision of and with the participation of AVIV's management, including its Chief Executive Officer and its Chief Financial Officer, AVIV evaluated the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer of AVIV have concluded that AVIV's disclosure controls and procedures were effective as of September 30, 2014 to provide reasonable assurance that information required to be disclosed by AVIV in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to AVIV's management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting of AVIV. During the quarter ended September 30, 2014, there have been no changes in AVIV's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures of the Partnership. Under the supervision of and with the participation of the Partnership's management, including the Chief Executive Officer and the Chief Financial Officer of AVIV, the general partner of the Partnership, the Partnership evaluated the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer of AVIV have concluded that the Partnership's disclosure controls and procedures were effective as of September 30, 2014 to provide reasonable assurance that information required to be disclosed by the Partnership in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to the Partnership's management, including the Chief Executive Officer and the Chief Financial Officer of AVIV, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting of the Partnership. During the quarter ended September 30, 2014, there have been no changes in the Partnership's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these matters will have a material adverse effect on our business, operating results, liquidity, or financial position.

Item 1A. RISK FACTORS

There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013, as supplemented by our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014.
