FerroAtlántica Group results for the six months ended June 30, 2015

On July 28, 2015, Grupo FerroAtlántica, S.A.U. (FerroAtlántica) delivered to Globe Specialty Metals, Inc. (Globe or the Company) a summary of certain items from FerroAtlántica's results for the six months ended June 30, 2015. Based on FerroAtlántica's unaudited management accounts for the six months ended June 30, 2015, sales for the six months ended June 30, 2015 were EUR 625,397,000, compared to EUR 545,741,000 for the six months ended June 30, 2014, primarily as a result of an increase in the sale price of silicon metal (expressed in euros) and an increase in sales volumes for manganese-based alloys, with respect to the electrometallurgy segment, and an increase in the market price for energy sold by FerroAtlántica (expressed in euros). Net income for the six months ended June 30, 2015 was EUR 32,907,000 compared to EUR 21,842,000 for the six months ended June 30, 2014, due primarily to the aforementioned increase in sales prices and a positive impact from foreign exchange differences. Total financial debt as at June 30, 2015 was EUR 407,474,000, compared to EUR 430,893,000 as at December 31, 2014.

August 7, 2015 Globe Board Meeting

On August 7, 2015, the board of directors (the Board) of Globe held a telephonic meeting to discuss FerroAtlántica's results for the quarterly period ended March 31, 2015 and the six-month period ended June 30, 2015 and the pending business combination transaction (the Transaction) with FerroAtlántica. Management reviewed: FerroAtlántica's financial results for the quarterly period ended March 31, 2015, including EBITDA of approximately EUR 41,500,000 and net debt of approximately EUR 390,000,000, as compared to FerroAtlántica's 2015 budget and the financial projections for FerroAtlántica prepared by Globe in connection with the Transaction, the differences in which management noted were principally driven by differences in forecasted sales price and volume, power costs and miscellaneous other costs; FerroAtlántica's financial results for the six month period ended June 30, 2015, including EBITDA of approximately EUR 89,700,000, as compared to FerroAtlántica's 2015 budget and the financial projections for FerroAtlántica prepared by Globe in connection with the Transaction; the estimates for FerroAtlántica prepared by FerroAtlántica management in February 2014 and furnished by FerroAtlántica to Fitch Ratings Inc.; financial due diligence matters raised by one of Globe's accounting advisors prior to signing and management's perspective that these matters were not material in the context of the proposed transaction; and the legal matters described under Business of FerroAtlántica and Certain Information About FerroAtlántica Legal Proceedings Other Legal Matters in the proxy statement/prospectus, as well as the eligibility requirements for directors under the business combination agreement and the related transaction documents. Following the discussion of each of these matters, the members of the Board confirmed that they did not wish to consider further whether to change the Board's recommendation of the Transaction at that time.

As used above, EBITDA refers to FerroAtlántica's earnings before interest, taxes, depreciation and amortization, and net debt refers to FerroAtlántica's total financial debt less cash and cash equivalents.

Update on HM Revenue & Customs (HMRC) clearance application with respect to U.K. tax treatment of the Transaction

As previously disclosed, Globe and FerroAtlántica sought a clearance from HMRC to confirm the treatment of the merger of Globe with and into a wholly-owned subsidiary of VeloNewco Limited (including as re-registered and renamed Ferroglobe PLC) (Holdco), as further described in the proxy statement/prospectus with respect to the Transaction (the Globe Merger), as a tax-free reorganization under U.K. law. In the clearance application process, the HMRC reviewer indicated that, based on the facts presented, the amount of gain that Holdco would recognize upon a disposal of shares in the Globe Merger would be zero, notwithstanding that HMRC did not consider the Globe Merger to qualify as a tax-free reorganization under U.K. law. However, according to the HMRC reviewer, an official clearance regarding such zero gain conclusion could not be granted by HMRC because the question did not pose sufficient uncertainty to warrant a formal ruling. Accordingly, the Transaction should not trigger material U.K. corporation tax liability. Given that an official clearance was not granted, however, HMRC could assert a contrary

position in an audit or otherwise, and if such position were ultimately sustained over the objection of the parties, Holdco could be liable for material U.K. corporation tax as a result of the Globe Merger.
