Forward Looking Statements

This communication contains certain information that may constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. While we have specifically identified certain information as being forward-looking in the context of its presentation, we caution you that all statements contained in this communication that are not clearly historical in nature, including statements regarding business strategies, market potential, future financial performance, the effects of the separation of ADT from Tyco International plc (Tyco), and other matters, are forward-looking. Without limiting the generality of the preceding sentence, any time we use the words anticipate, estimate, expect, project, intend, plan, believe, and similar expressions, we intend to clear that the information deals with possible future events and is forward-looking in nature. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking.

Forward-looking information involves risks, uncertainties and other factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such statements. Specific factors that could cause actual results to differ from results contemplated by forward-looking statements include, among others, the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement; the inability to complete the proposed merger due to the failure to obtain stockholder approval for the proposed merger or the failure to satisfy other conditions to completion of the proposed merger, including that a governmental entity may prohibit, delay or refuse to grant approval for the consummation of the transaction; risks regarding the failure of Parent, Parent Inc. or Parent LP to obtain the necessary financing to complete the proposed merger; risks related to disruption of management's attention from the Company's ongoing business operations due to the transaction; the effect of the announcement of the proposed merger on the Company's relationships with its customers, operating results and business generally; the risk that the proposed merger will not be consummated in a timely manner; exceeding the expected costs of the merger; our ability to keep pace with the rapid technological and industry changes in order to develop or acquire new technologies for our products and services that achieve market acceptance with acceptable margins; competition in the markets we serve, including the home automation market, which may result in pressure on our profit margins and limit our ability to maintain the market share of our products and services; an increase in the rate of customer attrition, including impact to our depreciation and amortization expenses or impairment of assets related to our security monitoring services; changes in the housing market and consumer discretionary income; failure to maintain the security of our information and technology networks, including personally identifiable information and other data, our products may be subject to potential vulnerabilities of wireless and Internet of Things devices, and our services may be subject to hacking or other unauthorized access to control or view systems and obtain private information; our dependence on certain software technology that we license from third parties, and failure or interruption in products or services of third-party providers; interruption to our monitoring facilities; failure to realize expected benefits from acquisitions and investments; risks associated with pursuing business opportunities that diverge from our current business model; potential loss of customer generation strategies through our independent, third party authorized dealers and affinity marketing programs; risks associated with acquiring and integrating customer accounts; unauthorized use of our brand name by third parties; risks

associated with ownership of the ADT® brand name outside of the United States and Canada by Tyco and other third parties; failure to enforce our intellectual property rights; allegations that we have infringed the intellectual property rights of third parties; failure of our independent, third party authorized dealers to mitigate certain risks; failure to continue to execute a competitive, profitable pricing structure; shifts in consumers' choice of, or telecommunication providers' support for, telecommunication services and equipment; current and potential securities litigation; increase in government regulation of telemarketing, e-mail marketing and other marketing methods may increase our costs and restrict growth of our business; changes in U.S. and non-U.S. governmental laws and regulations; imposition by local governments of assessments, fines, penalties and limitations on either us or our customers for false alarms; refusal to respond to calls from monitored security service companies, including us, by police departments in certain U.S. and Canadian jurisdictions; our greater exposure to liability for employee acts or omissions or system failures; interference with our customers' access to some of our products and services through the Internet by broadband service providers or potential change in government regulations relating to the internet; potential impairment of our deferred tax assets; inability to hire and retain key personnel, including an effective sales force; adverse developments in our relationship with our employees; capital market conditions, including availability of funding sources for us and our suppliers; changes in our credit ratings; risks related to our increased indebtedness, including our ability to meet certain financial covenants in our debt instruments; impact of any material adverse legal judgments, fines, penalties or settlements; exposure to counterparty risk in our hedging agreements; fluctuations in foreign currency exchange rates; potential liabilities for legacy obligations relating to the separation from Tyco; volatility in the market price of our stock; and failure to fully realize expected benefits from the separation from Tyco.

Therefore, caution should be taken not to place undue reliance on any such forward-looking statements. Much of the information in this communication that looks towards future performance of the Company is based on various factors and important assumptions about future events that may or may not actually occur. As a result, our operations and financial results in the future could differ materially and substantially from those we have discussed in the forward-looking statements included in this communication. We assume no obligation (and specifically disclaim any such obligation) to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

For additional discussion of potential risks and uncertainties that could impact our results of operations or financial position, refer to Part I, Item 1A. *Risk Factors* in our 2015 Form 10-K. There have been no material changes to the risk factors disclosed in Part I, Item 1A. *Risk Factors* in our 2015 Form 10-K.
