**Market Environment Overview**

The international equity markets, measured by the MSCI EAFE Index, a broad measure of equity performance for the developed world outside the U.S. and Canada, returned -8.27% in the 12-month period that ended March 31, 2016 (the period), which lagged the S&P 500 Index by 10.05%. Measured in local currency, the MSCI EAFE Index returned -11.17% over the period, lagging the return of the S&P 500 Index by 12.95%. It is important to note that when foreign currencies weaken or strengthen relative to the U.S. dollar, there is also an impact on the returns experienced by U.S. investors who invest overseas. Over the period, international equity markets experienced several central bank policy actions which lead to significant volatility in various currencies relative to the U.S. dollar. In particular, the British pound, Japanese yen, and euro (which account for about 75% of the MSCI EAFE Index's currency exposure) all experienced volatility over the period. In the case of the euro and Japanese yen, the fluctuations were mostly attributable to central bank policy decisions. In the case of the British pound, speculation of Great Britain's exit from the European Union or "Brexit" weighed on the currency late in the period.

Ultimately, international equities struggled to gain traction over the period as fears of recession in multiple domiciles continued to dominate equity performance. In the Eurozone, economic concerns over slumping growth figures and suppressed inflation led investors to pull money from the region throughout the period. The European Central Bank expanded its monetary easing with a focus on lending as a means of spurring growth in addition to increased asset purchasing programs. Similarly, Japan also experienced similar outflows as the Bank of Japan also expanded its monetary policy in an attempt to generate growth and inflation. Conversely, the United States Federal Reserve raised the federal funds rate by 25 basis points thus beginning a gradual tightening cycle and helping to make U.S. equities relatively attractive over the period.

In local currency terms, defensive sectors like Consumer Staples, Telecommunication Services, and Utilities were the best performing portions of the MSCI EAFE Index while the Financials and Materials sectors lagged most significantly over the period. The aforementioned defensive sectors benefited as investors sought safety in an otherwise volatile market environment. Financials and Materials sectors lagged due to concerns of slowing global growth and the bear market in commodities.

WisdomTree's international dividend-weighted funds are designed to track indexes based on the dividend stream generated by the companies included in the index. The dividend stream is defined as the sum of all dividends paid over the prior 12 months for each company. The first is aggregate exposure to one or more sectors or countries. The second is stock selection within each sector or country. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream.

**Management's Discussion of Funds' Performance**

(unaudited) (concluded)

WisdomTree's best performing Fund for the full period was the WisdomTree Japan Hedged Health Care Fund (DXJH), returning 6.16% over the period. This strategy had three major drivers contributing to its more than 19.00% outperformance versus the MSCI Japan Local Currency Index. The first driver was a more accommodating regulatory landscape as Japanese authorities sought to deregulate the industry. Second, Health Care, considered a defensive sector, benefited as investors sought safety from the volatility of the broader Japanese equity markets over the period. Lastly, Japan's demographics became an area of focus with an aging population in need of greater medical care. Another relative outperformer was the WisdomTree Europe SmallCap Dividend Fund (DFE) which benefited from its selection and underweight to Financials.

The WisdomTree quality dividend growth suite performed favorably over the period with the WisdomTree Europe Quality Dividend Growth Fund (EUDG) and WisdomTree International Hedged Quality Dividend Growth Fund (IHDG) both outperforming their respective benchmarks by 6.61% and 9.44%, respectively. Given the volatile environment for equities over the period, the fundamental screens for return on equity and return on assets helped these Funds outperform their respective benchmarks. For IHDG, an overweight to the United Kingdom and underweight to Financials added to the performance. The quality methodology helps the portfolio tilt away from more leveraged companies which explains the underweight in Financials that is again found in EUDG as a major contributor to the return over the period.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 33 through 36 for the list of index descriptions.

**Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and an index is not available for direct investment. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or taxes that a shareholder would pay on Fund distributions. The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.58%.**

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Europe Hedged Equity Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Hedged Equity Index.

The Fund returned -13.85% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Netherlands. The Fund's position in Spain created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset euro currency exposure from positions in European equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the euro during the period.

The WisdomTree Europe Quality Dividend Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Quality Dividend Growth Index. Prior to March 31, 2016, the WisdomTree Europe Quality Dividend Growth Index was named the WisdomTree Europe Dividend Growth Index.

The Fund returned -1.83% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Netherlands. The Fund's position in Germany created the greatest drag on performance.

## Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.58%.**

The WisdomTree Germany Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Germany Hedged Equity Index.

The Fund returned -14.44% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Information Technology sector. The Fund's position in the Consumer Discretionary sector created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset euro currency exposure from positions in German equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the euro during the period.

The WisdomTree Global ex-U.S. Hedged Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global ex-U.S. Hedged Dividend Index.

The Fund returned -12.02% at net asset value (NAV) from Fund inception on June 4, 2015 to March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Taiwan. The Fund's position in Japan created the greatest drag on performance. During the fiscal period, the Fund utilized forward foreign currency contracts as hedges to offset applicable international currency exposure from positions in international equities. The Fund's use of forward foreign currency contracts contributed

positively to performance as a result of the overall appreciation in the U.S. dollar against applicable international currencies during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

The WisdomTree Global ex-U.S. Hedged Real Estate Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global ex-U.S. Hedged Real Estate Index.

The Fund returned -1.06% at net asset value (NAV) from Fund inception October 29, 2015 to March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Australia. The Fund's position in Hong Kong created the greatest drag on performance. During the fiscal period, the Fund utilized forward foreign currency contracts as hedges to offset currency exposure from positions in international equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the overall depreciation in the U.S. dollar against applicable international currencies during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio.

The WisdomTree International Hedged Equity Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree International Hedged Equity Index.

The Fund returned -7.16% at net asset value (NAV) from Fund inception on July 9, 2015 to March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in New Zealand. The Fund's position in Japan created the greatest drag on performance. During the fiscal period, the Fund utilized forward foreign currency contracts as hedges to offset applicable international currency exposure from positions in international equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the overall depreciation in the U.S. dollar against applicable international currencies during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated June 24, 2015, the Fund's annual expense ratio was 0.35%.**

## Edgar Filing: WisdomTree Trust - Form N-CSR

The Fund returned -9.60% at net asset value ( NAV ) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Japan. The Fund's position in Australia created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. **Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.**

## Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.48%.**

The WisdomTree Japan Hedged Capital Goods Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Capital Goods Index.

The Fund returned -20.72% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Daikin Industries Ltd. The Fund's position in Toyota Motor Corp. created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset Japanese yen currency exposure from positions in Japanese equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the Japanese yen during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.48%.**

The WisdomTree Japan Hedged Health Care Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Health Care Index.

The Fund returned 6.16% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in ONO Pharmaceutical Co., Ltd. The Fund's position in Astellas Pharma, Inc. created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset Japanese yen currency exposure from positions in Japanese equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the Japanese yen during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.48%.**

The WisdomTree Japan Hedged Tech, Media and Telecom Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Tech, Media and Telecom Index.

## Edgar Filing: WisdomTree Trust - Form N-CSR

The Fund returned -12.99% at net asset value ( NAV ) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in NTT DOCOMO, Inc. The Fund's position in Hitachi Ltd. created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset Japanese yen currency exposure from positions in Japanese equities. The Fund's use of forward foreign currency contracts detracted from performance as a result of the U.S. dollar weakening against the Japanese yen during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.48%.**

The WisdomTree Korea Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Korea Hedged Equity Index.

The Fund returned 0.17% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Materials sector. The Fund's position in the Information Technology sector created the greatest drag on performance. During the fiscal year, the Fund utilized forward foreign currency contracts as hedges to offset South Korean won currency exposure from positions in Korean equities. The Fund's use of forward foreign currency contracts contributed positively to performance as a result of the U.S. dollar strengthening against the South Korean won during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.58%.**

**Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. **Shareholder Expense Examples** (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2015 to March 31, 2016.

**Actual expenses**

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/1/15 to 3/31/16 to estimate the expenses you paid on your account during the period.

**Hypothetical example for comparison purposes**

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

## Edgar Filing: WisdomTree Trust - Form N-CSR

- <sup>2</sup> Based on average shares outstanding.
- <sup>3</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>4</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- <sup>5</sup> Annualized.
- <sup>6</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>7</sup> The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- <sup>8</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.

## Edgar Filing: WisdomTree Trust - Form N-CSR

- <sup>1</sup> Based on average shares outstanding.
- <sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees for the WisdomTree Europe SmallCap Dividend Fund, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>3</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>4</sup> Included in the expense ratio are non-recurring professional expenses. Without these expenses, the expense ratio (net of expense waivers) would have been 0.58% and the expense ratio (prior to expense waivers) would have been 0.58%.
- <sup>5</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio (net of expense waivers) would have been 0.58% and the expense ratio (prior to expense waivers) would have been 0.58%.
- <sup>6</sup> Annualized.
- <sup>7</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.
- <sup>8</sup> Amount represents less than \$0.005.
- <sup>9</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.48%.
- <sup>10</sup> Amount represents less than 0.005%.

<sup>1</sup> Based on average shares outstanding.

<sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

- <sup>3</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>4</sup> Included in the expense ratio are non-recurring professional expenses. Without these expenses, the expense ratio would have been unchanged.
- <sup>5</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- <sup>6</sup> Annualized.
- <sup>7</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.
- <sup>8</sup> The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- <sup>9</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.48%.

## Edgar Filing: WisdomTree Trust - Form N-CSR

- <sup>1</sup> Based on average shares outstanding.
- <sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>3</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>4</sup> Amount represents less than 0.005%.
- <sup>5</sup> Annualized.
- <sup>6</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.
- <sup>7</sup> Included in the expense ratio are non-recurring professional expenses. Without these expenses, the expense ratio would have been unchanged.
- <sup>8</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- <sup>9</sup> The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.

## Edgar Filing: WisdomTree Trust - Form N-CSR

- <sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>3</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>4</sup> The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- <sup>5</sup> Included in the expense ratio are non-recurring professional expenses. Without these expenses, the expense ratio would have been unchanged.
- <sup>6</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- <sup>7</sup> Annualized.
- <sup>8</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.
- <sup>9</sup> During the period, the investment advisor had contractually agreed to limit the advisory fee to 0.43% through July 31, 2015. On July 31, 2015, the contractual waiver expired and was not renewed.

## Edgar Filing: WisdomTree Trust - Form N-CSR

- <sup>1</sup> Based on average shares outstanding.
- <sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>3</sup> Annualized.
- <sup>4</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.
- <sup>5</sup> During the period, the investment advisor had contractually agreed to limit the advisory fee to 0.43% through July 31, 2015. On July 31, 2015, the contractual waiver expired and was not renewed.

- <sup>2</sup> Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees for the WisdomTree Japan SmallCap Dividend Fund, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- <sup>3</sup> The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- <sup>4</sup> The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- <sup>5</sup> Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- <sup>6</sup> Annualized.
- <sup>7</sup> Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.

## Edgar Filing: WisdomTree Trust - Form N-CSR

WisdomTree United Kingdom Hedged Equity Fund ( United Kingdom Hedged Equity Fund and also referred to herein as Currency Hedged Equity Fund )

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index ( Index ) developed by WisdomTree Investments, Inc. ( WisdomTree Investments ). WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. ( WTAM ), the investment adviser to each Fund and the Trust. WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts.

**2. SIGNIFICANT ACCOUNTING POLICIES**

The Financial Accounting Standards Board ( FASB ) Accounting Standards Codification (the Codification ) is the exclusive reference of authoritative U.S. generally accepted accounting principles ( GAAP ) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ( SEC ) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

**Use of Estimates** The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

**Investment Valuation** The net asset value ( NAV ) of each Fund's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time ). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees. Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated exchange-traded funds ( ETFs or ETF ) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the affiliated ETF has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. Forward foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except for the Global ex-U.S. Hedged Dividend Growth Fund, Global ex-U.S. Hedged Real Estate Fund and Korea Hedged Equity Fund, which values forward foreign currency contracts daily using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments, which include derivatives, will be fair valued in accordance with the Fund's pricing policy. The Board of Trustees of the Trust has established a pricing committee (the Pricing Committee ) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV Calculation Time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

**Fair Value Measurement** In accordance with Codification Topic 820 ( ASC 820 ), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation

**Notes to Financial Statements** (continued)

technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers' internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2016 in valuing each Fund's assets:

**Derivatives and Hedging Disclosure** Codification Topic 815 ( ASC 815 ), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically forward foreign currency contracts during the year or period ended March 31, 2016 which are detailed in each Fund's schedule of investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into forward foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at March 31, 2016 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 223 through 225. At March 31, 2016, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of March 31, 2016, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

**Investment Transactions and Investment Income** Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily.

**Foreign Currency Translation** The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of net realized gain (loss) from

investment transactions and net change in unrealized appreciation (depreciation) from investment transactions, respectively, on the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of forward foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in net realized gain (loss) from forward foreign currency contracts and foreign currency related transactions and/or net change in unrealized appreciation (depreciation) from forward foreign currency contracts and translation of assets and liabilities denominated in foreign currencies in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

**Expenses/Reimbursements** Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds ( Independent Trustees ); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer ( CCO ); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

The internal expenses of pooled investment vehicles in which the Funds may invest (acquired fund fees and expenses) are not expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

During the fiscal year ended March 31, 2016, certain Funds, as shown on the Statements of Operations under Professional fees, incurred non-recurring fees with respect to obtaining tax relief on United Kingdom stamp duty reserve taxes.

**Currency Transactions** The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

**Forward Foreign Currency Contracts** A forward foreign currency contract ( Forward Contract ) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral

## Edgar Filing: WisdomTree Trust - Form N-CSR

from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold.

**Securities Lending** Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income ( QDI ) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

**Master Netting Arrangements** ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities ( ASU 2011-11 ) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement ( ISDA Master Agreement ) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives ( OTC ), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

A Fund's security lending activities are governed by a Securities Lending Authorization Agreement ( Lending Agreement ) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower ). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the

collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market

fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of March 31, 2016, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

**Short-Term Investments** Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit ( CDs ), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

**Tax Information and Dividends and Distributions to Shareholders** It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ( RIC ) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

**3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES**

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation ( MCM ) to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

**Table of Contents****Notes to Financial Statements** (continued)

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

## Edgar Filing: WisdomTree Trust - Form N-CSR

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees related to each Fund's investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations.

<sup>1</sup> For the period June 4, 2015 (commencement of operations) through March 31, 2016.

During the fiscal year ended March 31, 2016, the Japan Hedged SmallCap Equity Fund received a voluntary reimbursement of \$888,000 from MCM for investment losses on certain foreign exchange transactions.

During the period ended March 31, 2016, the Global ex-U.S. Hedged Dividend Fund engaged in purchase and sale transactions with funds that have a common investment adviser, WTAM. These interfund purchase and sale transactions were at fair value and complied with Rule 17a-7 under the 1940 Act. For the period ended March 31, 2016, the cost of purchases, proceeds from sales and the net realized loss recognized upon the disposal of securities resulting from interfund transactions amounted to \$949,793, \$490,791 and \$28,819, respectively.

**4. CAPITAL SHARE TRANSACTIONS**

As of March 31, 2016, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying Index and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

**5. INVESTMENT PORTFOLIO TRANSACTIONS**

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding

### **Notes to Financial Statements** (concluded)

The differences are primarily due to redemptions-in-kind, foreign currency transactions, investments in passive foreign investment companies, investments in partnerships, expiration of capital loss carryforwards, re-designation of dividends, and utilization of earnings and profits distributed to shareholders on redemption of shares.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year or period ended March 31, 2016, the Funds did not have any liabilities for unrecognized tax benefits relating to uncertain income tax positions they have taken or expect to take in the future. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended March 31, 2016, remains subject to examination by taxing authorities.

### **7. RECENT ACCOUNTING PRONOUNCEMENTS**

In June 2014, the FASB issued *ASU 2014-11 Transfers & Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* to improve the financial reporting of repurchase agreements and other similar transactions. The guidance includes expanded disclosure requirements for entities that enter into repurchase agreements or securities lending transactions. The guidance is effective for financial statements with fiscal years beginning on or after January 1, 2015, and interim periods within those fiscal years. WTAM has evaluated ASU 2014-11 and determined that there is no impact on the Trust's financial statements.

In May 2015, the FASB issued *ASU 2015-07 Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. This is an update to ASC 820. The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. ASU 2015-07 will be effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years (earlier application is also permitted). WTAM has evaluated ASU 2015-07 and determined that there is no impact on the Trust's financial statements.

These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2016, by correspondence with the custodian and others, or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Australia Dividend Fund, WisdomTree Europe Hedged Equity Fund, WisdomTree Europe Hedged SmallCap Equity Fund, WisdomTree Europe Quality Dividend Growth Fund, WisdomTree Europe SmallCap Dividend Fund, WisdomTree Germany Hedged Equity Fund, WisdomTree Global ex-U.S. Hedged Dividend Fund, WisdomTree Global ex-U.S. Hedged Real Estate Fund, WisdomTree International Dividend ex-Financials Fund, WisdomTree International Equity Fund, WisdomTree International Hedged Equity Fund, WisdomTree International Hedged Quality Dividend Growth Fund, WisdomTree International Hedged SmallCap Dividend Fund, WisdomTree International High Dividend Fund, WisdomTree International LargeCap Dividend Fund, WisdomTree International MidCap Dividend Fund, WisdomTree International SmallCap Dividend Fund, WisdomTree Japan Hedged Capital Goods Fund, WisdomTree Japan Hedged Equity Fund, WisdomTree Japan Hedged Financials Fund, WisdomTree Japan Hedged Health Care Fund, WisdomTree Japan Hedged Quality Dividend Growth Fund, WisdomTree Japan Hedged Real Estate Fund, WisdomTree Japan Hedged SmallCap Equity Fund, WisdomTree Japan Hedged Tech, Media and Telecom Fund, WisdomTree Japan Quality Dividend Growth Fund, WisdomTree Japan SmallCap Dividend Fund, WisdomTree Korea Hedged Equity Fund, and WisdomTree United Kingdom Hedged Equity Fund, twenty-nine of the investment funds constituting the WisdomTree Trust, at March 31, 2016, the results of their operations, the changes in their net assets and the financial highlights for each of the periods presented therein, in conformity with U.S. generally accepted accounting principles.

**Approval of Investment Advisory and Sub-Advisory Agreements** (unaudited)

***Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree Global ex-U.S. Hedged Dividend Fund, WisdomTree International Hedged Equity Fund, WisdomTree International Hedged SmallCap Dividend Fund, and the WisdomTree Japan Hedged Quality Dividend Growth Fund (the Funds)***

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on March 23-24, 2015, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Funds with investment advisory services, and the Sub-Investment Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Mellon Capital Management Corporation (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Funds.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM. The Trustees, a majority of whom are Independent Trustees, were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of WTAM and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

***Analysis of Nature, Extent, and Quality of Services to be Provided to the Funds.*** The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board also discussed WTAM's proposed role as index provider to the Funds. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Funds, including the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's compliance with fund policies and objectives, oversight of general Fund compliance with federal and state laws and the implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds' management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, administration and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate.

***Comparative Analysis of the Funds' Performance, Advisory Fees and Fund Expenses.*** As the Funds had not yet commenced operations, the Board was not able to review the Funds' performance. The Board discussed with representatives of WTAM and the Sub-Adviser the portfolio management team and the investment strategies to be employed in the management of each Funds' assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by the Funds. The Board examined the fee to be paid by the Funds in light of fees paid to other investment advisers by comparable funds and the method of computing the Funds' fee. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by each Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser's fees will be paid by WTAM (out of its fees from the Funds) and not the Funds. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser were reasonable in light of the considerations described above.

***Analysis of Profitability and Economies of Scale.*** As the Funds had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Funds had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with a Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

## Edgar Filing: WisdomTree Trust - Form N-CSR

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

**Approval of Investment Advisory and Sub-Advisory Agreements** (unaudited) (continued)

***Approval of the amended Sub-Advisory Agreement with respect to the WisdomTree International Hedged Equity Fund, WisdomTree Global ex-U.S. Hedged Dividend Fund and the WisdomTree International Hedged SmallCap Dividend Fund (the Funds )***

At a meeting of the Board of Trustees (the Board ) of the WisdomTree Trust (the Trust ) held on May 20, 2015, the Trustees (the Trustees ), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees ), considered the approval of the amendment of the Sub-Advisory Agreement (the Sub-Advisory Agreement ) between WisdomTree Asset Management, Inc. ( WTAM ) and Mellon Capital Management Corporation (the Sub-Adviser ), pursuant to which the Sub-Adviser will coordinate the investment and reinvestment of the assets of WisdomTree International Hedged Equity Fund, WisdomTree Global ex-U.S. Hedged Dividend Fund and WisdomTree International Hedged SmallCap Dividend Fund (the Funds ). The Board initially approved the Sub-Advisory Agreement at a meeting held on March 23-24, 2015 (the March Meeting ). Representatives of WTAM explained that, subsequent to that approval, WTAM and the Sub-Adviser negotiated new sub-advisory fees for all new multi-currency hedged and emerging markets funds, including the Funds. Noting the Funds unitary fee structure, representatives of WTAM stated that the amended sub-advisory fee would have no effect on the fees to be paid by the Funds. In considering whether to approve the amendment of the Sub-Advisory Agreement, the Trustees considered and discussed information and analysis provided by WTAM. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of WTAM. In considering the approval of the amendment of the Sub-Advisory Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered. Since the Board had approved the Sub-Advisory Agreement at the March Meeting, and, other than as discussed below, there had been no material changes in the information presented, the Trustees addressed many of the relevant considerations by reference to their considerations and determinations at the March Meeting.

*Analysis of Nature, Extent, and Quality of Services to be Provided to the Funds.* The nature, extent and quality of services to be provided by the Sub-Adviser under the Sub-Advisory Agreement had been considered at the March Meeting, and there had been no material changes in this information. Representatives of WTAM stated, and the Trustees considered, that WTAM does not believe that the proposed amendment of the Sub-Advisory Agreement would have any impact on the scope or quality of the services provided to the Funds by WTAM or the Sub-Adviser; and the proposed amendment also would not result in any change to the investment management of the Funds.

*Comparative Analysis of the Funds Performance, Advisory Fees and Fund Expenses.* As the Funds had not yet commenced operations, the Board was not able to review the Funds performance. The Board had considered the portfolio management team and the investment strategies to be employed in the management of each Fund s assets at the March Meeting. The Board also had considered comparative management fee and expense ratio information at the March Meeting. The Board noted that, because the Sub-Adviser s fees will be paid by WTAM (out of its fees paid by the Funds) and not the Funds, the amendment would not affect the management fees paid by the Funds. As a result, the Board did not reconsider comparative fee and expense information. The Board considered that the amendment would, at current aggregate international fund asset levels, increase the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by each Fund. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by each Fund and the respective services to be provided by the Sub-Adviser and WTAM. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser were justified in light of the considerations described above.

*Analysis of Profitability and Economies of Scale.* As the Funds had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board had considered at the March Meeting the potential benefits to the Sub-Adviser from acting as sub-adviser, which would not change materially under the amendment from those considered at the March Meeting. The Board considered the uncertainty of the estimated asset levels and the renewal requirements for sub-advisory agreements and their ability to review the sub-advisory fees annually after the initial term of the Sub-Advisory Agreement. The Board determined that because the Funds had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with a Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

\* \* \* \* \*

In evaluating the amendment of the Sub-Advisory Agreement, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the amendment of the Sub-Advisory Agreement.

### *Approval of Investment Advisory and Sub-Advisory Agreement with respect to the WisdomTree Japan Quality Dividend Growth Fund (the Fund )*

At a meeting of the Board of Trustees (the Board ) of the WisdomTree Trust (the Trust ) held on May 20, 2015, the Trustees (the Trustees ), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as

amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Mellon Capital Management Corporation (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Lipper, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund. The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board also discussed the proposed role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Fund. The Board noted that the strategies represented by the Fund is unique, based on WTI's intellectual property and are only available for use by the Fund through WTAM. The Board noted WTAM's belief that shareholders will invest in the Fund on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Fund based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Fund, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to the Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Fund's portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Fund. The Board also considered research support available to, and management capabilities of, the Fund's management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the Agreements.

Comparative Analysis of the Fund's Performance, Advisory Fees and Fund Expenses. As the Fund had not yet commenced operations, the Board was not able to review the Fund's performance. The Board discussed with WTAM representatives the portfolio management team and the investment strategies to be employed in the management of the Fund's assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by the Fund. The Board examined the fee to be paid by the Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund's fee. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser's fees will be paid by WTAM (out of its fees paid by the Fund) and not the Fund. The Board considered the meaningful differences in the services that WTAM will provide to the Fund as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to the Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Fund's unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of the Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board's approval of the Agreements.

Analysis of Profitability and Economies of Scale. As the Fund had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Fund had not yet commenced operations, economies of

scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with the Fund, the Board would seek to have those economies of scale shared with the Fund in connection with future renewals.

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

***Approval of Investment Advisory and Sub-Advisory Agreement with respect to the WisdomTree Global ex-U.S. Hedged Real Estate Fund (the Fund)***

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on September 21-22, 2015, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide the Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Mellon Capital Management Corporation (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of the Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Lipper, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

***Analysis of Nature, Extent, and Quality of Services to be Provided to the Fund.*** The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board also discussed the proposed role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Fund. The Board noted that the strategies represented by the Fund is unique, based on WTI's intellectual property and are only available for use by the Fund through WTAM. The Board noted WTAM's belief that shareholders will invest in the Fund on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Fund based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Fund, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to the Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Fund's portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Fund. The Board also considered research support available to, and management capabilities of, the Fund's management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the Agreements.

***Comparative Analysis of the Fund's Performance, Advisory Fees and Fund Expenses.*** As the Fund had not yet commenced operations, the Board was not able to review the Fund's performance. The Board discussed with WTAM representatives the portfolio management team and the investment strategies to be employed in the management of the Fund's assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by the Fund. The Board examined the fee to be paid by the Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund's fee. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by the Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser's fees will be paid by WTAM (out of its fees paid by the Fund) and not the Fund. The Board considered the meaningful differences in the services that WTAM will provide to the Fund as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to the Fund is a rules-based function, with oversight by WTAM in seeking to

ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Fund's unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of the Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board's approval of the Agreements.

The following Federal tax information related to the Funds' fiscal year or period ended March 31, 2016, is provided for information purposes only and should not be used for reporting to federal or state revenue agencies. Federal tax information for the calendar year will be reported to you on Form 1099-DIV in January 2017.

Certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions paid during the fiscal year or period ended March 31, 2016, the following represents the maximum amount of ordinary income distributions that may be considered qualified dividend income:

**Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at [www.wisdomtree.com](http://www.wisdomtree.com), or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.**

**There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Inflation protected securities do not eliminate risks associated with inflation or deflation. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.**

**Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.**

**Table of Contents****Management's Discussion of Funds Performance** (unaudited)**Market Environment Overview**

The emerging markets, measured by the MSCI Emerging Markets Index, a broad measure of equity performance for emerging markets, returned -12.03% in the 12-month period that ended March 31, 2016 (the period). The global ex-U.S. equity markets, measured by the MSCI ACWI ex-USA Index, a broad measure of equity performance for both developed and emerging markets excluding the U.S., returned -9.19% over the period. Both the MSCI Emerging Markets Index and MSCI ACWI ex-USA Index lagged the S&P 500 Index by 13.81% and 10.97%, respectively. In local terms, the MSCI Emerging Markets Index and MSCI ACWI ex-USA Index returned -7.70% and -10.29%, respectively. It is important to note the variations in the returns of these international exposures in both U.S. dollar and local terms. Particularly within the emerging markets, the prolonged decline in commodities prices led to significant losses in the relative value of many emerging market currencies relative to the U.S. dollar over the period. This headwind was a significant detractor on the returns experienced by U.S. investors holding emerging market securities.

Within the MSCI Emerging Markets Index, in local currency terms, nine out of ten sectors were negative. The Consumer Staples and Energy sectors led performance while the Industrials and Financials sectors lagged most heavily. Within the MSCI ACWI ex-USA Index, in local currency terms, nine out of ten sectors were negative, with the Consumer Staples and Utilities sectors leading and Materials and the Financials sectors lagging. It is particularly important to note the effects of a strong U.S. dollar which adversely impacted commodity prices over the period.

**WisdomTree Funds Performance Overview**

WisdomTree's emerging market and global ex-U.S. fundamentally-weighted funds are designed to track indexes based on the dividend or earnings stream generated by the companies included in the index. The dividend stream is defined as the sum of all dividends paid over the prior 12 months for each company. The earnings stream is defined as the total dollar level of earnings for all companies within each Index. There are two primary factors that drive performance differentials versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors or countries. The second is stock selection within each sector or country. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream or earnings stream.

While the overall emerging markets lagged both the broad U.S. and developed international markets, there was a noticeable difference in performance between the different sectors and countries. The WisdomTree Emerging Markets Quality Dividend Growth Fund (DGRE) was the best performing fund over the full period, outperforming broader emerging markets by 2.14%. The fundamental screens for return on equity and return on assets led DGRE to have significant underweights in more traditionally leveraged sectors such as Financials and Energy. The WisdomTree China ex-State-Owned Enterprises Fund (CXSE) outperformed its performance benchmark, the FTSE China 50 Index by 7.40%. China was an area of particular focus over the period as concerns mounted over the country's economic growth rate and state level intervention in financial markets. CXSE's strategy aims to screen out companies which the state owns 20% or more of which led to overweights in Information Technology and Consumer Discretionary and underweights in Financials and Energy.

Among the WisdomTree global and global-ex U.S. funds, the WisdomTree Global High Dividend Fund (DEW) and WisdomTree Global ex-U.S. Real Estate Fund (DRW) were the best performing funds over the period, returning -3.77% and -3.89% respectively. Around the world, interest rates remained low causing investors to seek out income alternatives to fixed income. The worst performing fund over the period was the WisdomTree Global Natural Resources Fund (GNAT), which returned -21.91% over the period. The fund invests heavily in the Energy and Materials sectors, which were the two worst performing sectors over the period, driven by lower oil prices, a stronger dollar and slower than expected global growth.

The WisdomTree Asia Pacific ex-Japan Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Asia Pacific ex-Japan Index.

The Fund returned -12.06% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in South Korea. The Fund's position in Australia created the greatest drag on performance.

## Edgar Filing: WisdomTree Trust - Form N-CSR

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.48%.**

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Commodity Country Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Commodity Country Equity Index.

The Fund returned -8.30% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in New Zealand. The Fund's position in South Africa created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.58%.**

The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.63%.**

**Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.**

**Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [www.wisdomtree.com](http://www.wisdomtree.com). WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.**

The WisdomTree Global ex-U.S. Real Estate Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global ex-U.S. Real Estate Index.

The Fund returned -3.89% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Australia. The Fund's position in Hong Kong created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for

direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2015, as revised November 12, 2015, the Fund's annual expense ratio was 0.58%.**

The WisdomTree Global Natural Resources Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global Natural Resources Index.

The Fund returned -21.91% at net asset value (NAV) for the fiscal year ending March 31, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in France. The Fund's position in the United States of America created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents

the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price

### **Shareholder Expense Examples** (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2015 to March 31, 2016.

#### **Actual expenses**

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/1/15 to 3/31/16 to estimate the expenses you paid on your account during the period.

#### **Hypothetical example for comparison purposes**

The second line under each Fund in the table on the next page provides information

about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
