GENERAL MILLS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests' share of those transactions. Operating results for the quarter ended November 27, 2016 are not necessarily indicative of the results that may be expected for the fiscal year ending May 28, 2017.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K. Certain terms used throughout this report are defined in the Glossary section below.

(2) Divestitures

During the second quarter of fiscal 2017, we sold our Martel, Ohio manufacturing facility in our Convenience Stores and Foodservice segment and simultaneously entered into a co-packing arrangement with the purchaser. We received \$17.5 million in cash, and recorded a pre-tax loss of \$13.5 million.

During the second quarter of fiscal 2016, we sold our North American Green Giant product lines for \$822.7 million in cash, and we recorded a pre-tax gain of \$199.1 million. We received net cash proceeds of \$788.0 million after transaction-related costs. After the divestiture, we retained a brand intangible asset on our Consolidated Balance Sheets of \$30.1 million related to our continued use of the *Green Giant* brand in certain markets outside of North America.

In the second quarter of fiscal 2017, we notified the employees and their representatives of our decision to close our pasta manufacturing facility in Melbourne, Australia in our International segment to improve our margin structure. This action will affect approximately 350 positions, and we expect to incur approximately \$34 million of net expenses relating to this action, most of which will be non-cash. We recorded \$12.0 million of restructuring charges in the second quarter of fiscal 2017 relating to this action. We expect these actions to be completed by the end of fiscal 2018.

In the first quarter of fiscal 2017, we announced a plan to restructure certain product lines in our International segment. To eliminate excess capacity, we will close our snacks manufacturing facility in Marília, Brazil and cease production operations for meals and snacks at our facility in São Bernardo do Campo, Brazil. We will also cease production of certain underperforming snack products at our facility in Nanjing, China. These and other actions, which are subject to appropriate consultation with employees and their representatives where required by law or practice, will affect approximately 420 positions in our Brazilian operations and approximately 440 positions in our Greater China operations. We expect to incur approximately \$46 million of net expenses of which approximately \$8 million will be cash. We recorded \$6.9 million of restructuring charges in the second quarter of fiscal 2017 and \$43.3 million in the six-month period ended November 27, 2016 relating to this action. We expect these actions to be completed by the end of fiscal 2017.

In the first quarter of fiscal 2017, we approved a plan to close our Vineland, New Jersey facility to eliminate excess soup capacity in our U.S. Retail segment. This action will affect approximately 370 positions, and we expect to

Table of Contents

incur approximately \$66 million of net expenses, of which approximately \$23 million will be cash. We recorded \$7.0 million of restructuring charges in the second quarter of fiscal 2017 and \$27.9 million in the six-month period ended November 27, 2016 relating to this action. We expect this action to be completed by the end of fiscal 2019.

In the first quarter of fiscal 2016, we approved Project Compass, a restructuring plan designed to enable our International segment to accelerate long-term growth through increased organizational effectiveness and reduced administrative expense. In connection with this project, we expect to eliminate approximately 725 to 775 positions. We expect to incur approximately \$58 million of net expenses, all of which will be cash. We recorded \$1.0 million of restructuring expenses in the six-month period ended November 27, 2016 relating to this action. We recorded \$2.1 million of restructuring charges in the second quarter of fiscal 2016 and \$53.6 million in the six-month period ended November 29, 2015. We expect this action to be completed by the end of fiscal 2017.

Project Century (Century) began in fiscal 2015 and is a review of our manufacturing and distribution network to streamline operations and identify potential capacity reductions. As part of Century, in the second quarter of fiscal 2016, we notified the employees and their representatives of our decision to close the dough and dry mix manufacturing facility in our International segment supply chain located in Berwick, United Kingdom. This action will affect approximately 265 positions, and we expect to incur approximately \$33 million of net expenses related to this action, of which \$12 million will be cash. We recorded \$0.5 million of restructuring charges in the second quarter of fiscal 2017 and \$2.0 million in the six-month period ended November 27, 2016 relating to this action. We expect these actions to be completed by the end of fiscal 2018.

As part of Century, in the second quarter of fiscal 2016, we notified the employees and their representatives of our decision to close our pasta manufacturing facility located in East Tamaki, New Zealand in our International segment supply chain. This action affected 20 positions, and we incurred less than \$1 million of net expenses related to this action, most of which was cash. We recorded \$0.4 million of restructuring charges in the six-month period ended November 29, 2015. This action was completed in fiscal 2017.

As part of Century, in the first quarter of fiscal 2016, we approved a restructuring plan to close our cereal and dry dinner manufacturing plant in West Chicago, Illinois in our U.S. Retail segment supply chain. This action will affect approximately 500 positions, and we expect to incur approximately \$108 million of net expenses relating to this action, of which approximately \$44 million will be cash. We recorded \$5.5 million of restructuring charges in the second quarter of fiscal 2017 and \$12.9 million in the six-month period ended November 27, 2016 relating to this action. We recorded \$64.0 million in the second quarter of fiscal 2016 and the six-month period ended November 29, 2015 relating to this action. We expect this action to be completed by the end of fiscal 2019.

As part of Century, in the first quarter of fiscal 2016, we approved a restructuring plan to close our snacks manufacturing facility in Joplin, Missouri in our U.S. Retail segment supply chain. This action affected approximately 120 positions, and we incurred \$6.6 million of net expenses relating to this action, including \$2.9 million in the second quarter of fiscal 2016 and \$7.8 million in the six-month period ended November 29, 2015, of which less than \$1 million was cash. This action was completed in fiscal 2016.

In addition, we recorded restructuring charges of \$9.9 million in the second quarter of fiscal 2017, \$13.7 million in the second quarter of fiscal 2016, \$15.2 million in the six-month period ended November 27, 2016, and \$39.0 million in the six-month period ended November 29, 2015 relating to other Century actions previously announced.

During the six-month period ended November 27, 2016, we paid \$43.3 million in cash relating to restructuring initiatives.

In addition to restructuring charges, we recorded \$11.1 million of project-related costs in cost of sales in the second quarter of fiscal 2017 and \$24.9 million in the six-month period ended November 27, 2016. We paid \$28.6 million in cash in the six-month period ended November 27, 2016 for project-related costs. We expect to incur approximately \$29.5 million of project-related costs in future periods related to our restructuring initiatives.

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

(4) Goodwill and Other Intangible Assets

The components of goodwill and other intangible assets are as follows:

In Millions	Nov. 27, 2016	May 29, 2016
Goodwill	\$ 8,679.1	\$ 8,741.2
Other intangible assets:		
Intangible assets not subject to amortization:		
Brands and other indefinite-lived intangibles	4,125.4	4,147.5
Intangible assets subject to amortization:		
Franchise agreements, customer relationships, and other finite-lived intangibles	513.7	536.9
Less accumulated amortization	(151.7)	(145.8)
Intangible assets subject to amortization, net	362.0	391.1
Other intangible assets	4,487.4	4,538.6
Total	\$ 13,166.5	\$ 13,279.8

Based on the carrying value of finite-lived intangible assets as of November 27, 2016, annual amortization expense for each of the next five fiscal years is estimated to be approximately \$27 million.

Table of Contents

The changes in the carrying amount of goodwill during fiscal 2017 were as follows:

In Millions	U.S. Retail	International	Convenience Stores and Foodservice	Joint Ventures	Total
Balance as of May 29, 2016	\$ 6,292.9	\$ 1,121.0	\$ 921.1	\$ 406.2	\$ 8,741.2

Balance as of Nov. 27, 2016	\$ 3,209.9	\$ 1,213.4	\$ 64.1	\$ 4,487.4

Our annual goodwill and indefinite-lived intangible asset testing was performed on the first day of the second quarter of fiscal 2017. As of the assessment date, there was no impairment of any of our goodwill or indefinite-lived intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Immaculate Baking* brand and the Latin America reporting unit. The excess fair value above the carrying value of this brand asset and reporting unit is as follows:

In Millions	Carrying Value	Excess Fair Value Above Carrying Value
<i>Immaculate Baking</i>	\$ 12.0	17%
Latin America	\$ 523.0	15%

In addition, while having significant coverage as of our fiscal 2017 assessment date, the *Progresso*, *Green Giant* and *Food Should Taste Good* brand assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

(5) Inventories

The components of inventories were as follows:

In Millions	Nov. 27, 2016	May 29, 2016
Raw materials and packaging	\$ 384.3	\$ 397.3
Finished goods	1,239.0	1,163.1
Grain	102.3	72.6
Excess of FIFO over LIFO cost	(200.1)	(219.3)
Total	\$ 1,525.5	\$ 1,413.7

Table of Contents**(6) Risk Management Activities**

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), non-fat dry milk, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close to our planned cost as possible.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, certain gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing the resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters and six-month periods ended November 27, 2016, and November 29, 2015 included:

	Quarter Ended		Six-Month Period Ended	
	Nov. 27, 2016	Nov. 29, 2015	Nov. 27, 2016	Nov. 29, 2015
In Millions				
Net gain (loss) on mark-to-market valuation of certain commodity positions	\$ 3.0	\$ (31.7)	\$ (15.9)	\$ (54.0)
Net loss on commodity positions reclassified from unallocated corporate items to segment operating profit	14.4	35.2	23.7	62.1
Net mark-to-market revaluation of certain grain inventories	11.7	4.2	4.7	2.3
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ 29.1	\$ 7.7	\$ 12.5	\$ 10.4

As of November 27, 2016, the net notional value of commodity derivatives was \$164.0 million, of which \$72.4 million related to energy inputs and \$91.6 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

In advance of planned debt financing, during the third quarter of fiscal 2016 and the first quarter of fiscal 2017, we entered into \$400 million and \$100 million, respectively, of treasury locks due February 15, 2017 with an average fixed rate of 2.0 percent.

As of November 27, 2016, the net notional value of foreign exchange derivatives was \$900.0 million.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of November 27, 2016, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to a third party service that allows them to view our scheduled payments online. The third party service also allows suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct

relationship with the suppliers, the third party, or any financial institutions concerning this service. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of November 27, 2016, \$560.2 million of our total accounts payable is payable to suppliers who utilize this third party service.

(7) Debt

The components of notes payable were as follows:

In Millions	Nov. 27, 2016	May 29, 2016
U.S. commercial paper	\$ 1,184.9	\$
Financial institutions	236.8	269.8
Total	\$ 1,421.7	\$ 269.8

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of November 27, 2016:

In Billions	Facility Amount	Borrowed Amount
Credit facility expiring:		
May 2021	\$ 2.7	\$
June 2019	0.2	0.1
Total committed credit facilities	2.9	0.1
Uncommitted credit facilities	0.4	0.1
Total committed and uncommitted credit facilities	\$ 3.3	\$ 0.2

In fiscal 2016, we entered into a \$2.7 billion fee-paid committed credit facility that is scheduled to expire in May 2021. Concurrent with the execution of this credit facility, we terminated our \$1.7 billion and \$1.0 billion credit facilities.

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of November 27, 2016.

Long-Term Debt

The fair values and carrying amounts of long-term debt, including the current portion, were \$8,347.2 million and \$8,049.6 million, respectively, as of November 27, 2016. The fair value of long-term debt was estimated using market quotations and discounted cash flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In January 2016, we issued 500.0 million principal amount of floating-rate notes due January 15, 2020. Interest on the notes is payable quarterly in arrears. We may redeem the notes if certain tax laws change and we would be obligated to pay additional amounts on the notes. These notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to repay a portion of our maturing long-term debt.

In January 2016, we repaid \$250 million of 0.875 percent fixed-rate notes and \$750 million of floating-rate notes.

Table of Contents

Certain of our long-term debt agreements contain restrictive covenants. As of November 27, 2016, we were in compliance with all of these covenants.

(8) Redeemable and Noncontrolling Interests

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of the entities. On the acquisition date, we recorded the \$904.4 million fair value of Sodiaal's 49 percent euro-denominated interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. We adjust the value of the redeemable interest through additional paid-in capital on our Consolidated Balance Sheets quarterly to the redeemable interest's redemption value, which approximates its fair value. Yoplait SAS pays dividends annually if it meets certain financial metrics set forth in its shareholders' agreement. As of November 27, 2016, the redemption value of the euro-denominated redeemable interest was \$801.7 million.

A subsidiary of Yoplait SAS has an exclusive milk supply agreement for its European operations with Sodiaal through July 1, 2021. Net purchases totaled \$123.5 million for the six-month period ended November 27, 2016 and \$107.6 million for the six-month period ended November 29, 2015.

On the acquisition dates, we recorded the \$281.4 million fair value of Sodiaal's 50 percent euro-denominated interest in Yoplait Marques SNC and 50 percent Canadian dollar-denominated interest in Liberté Marques Sàrl as noncontrolling interests on our Consolidated Balance Sheets. Yoplait Marques SNC earns a royalty stream through a licensing agreement with Yoplait SAS for the rights to *Yoplait* and related trademarks. Liberté Marques Sàrl earns a royalty stream through licensing agreements with certain Yoplait group companies for the rights to *Liberté* and related trademarks. These entities pay dividends annually based on their available cash as of their fiscal year end.

The third-party holder of the Class A Interests in our General Mills Cereals, LLC (GMC) consolidated subsidiary receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction. On June 1, 2015, the floating preferred return rate on GMC's Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points.

Our noncontrolling interests contain restrictive covenants. As of November 27, 2016, we were in compliance with all of these covenants.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

	Quarter Ended		Six-Month Period Ended

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings includes amounts recognized in restructuring, impairment, and other exit costs in fiscal 2016.

As of November 27, 2016, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was \$136.7 million. This expense will be recognized over 23 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016.

During the second quarter of fiscal 2016, we entered into an accelerated share repurchase (ASR) agreement with an unrelated third party financial institution to repurchase an aggregate of \$225.0 million of our outstanding common stock. Under the ASR agreement, we paid \$225.0 million to the financial institution and received 3.7 million shares of common stock with a fair value of \$213.3 million during the second quarter of fiscal 2016. We recorded an additional 0.2 million shares of common stock upon the completion of the ASR agreement in the third quarter of fiscal 2016. We recorded this transaction as an increase in treasury stock of \$213.3 million, and recorded the remaining \$11.7 million as a decrease to additional paid-in capital on our Consolidated Balance Sheets as of November 29, 2015. Upon completion of the ASR

agreement, we reclassified the \$11.7 million to treasury stock from additional paid-in capital on our Consolidated Balance Sheets.

(14) Retirement and Postemployment Benefits

Beginning in fiscal 2017, we changed the method used to estimate the service and interest cost components of the net periodic benefit expense for our U.S. and most of our international defined benefit pension, other postretirement benefit and postemployment benefit plans. We adopted a full yield curve approach to estimate service cost and interest cost by applying the specific spot rates along the yield curve used to determine the benefit obligation to the relevant projected cash flows. This method provides a more precise measurement of service and interest costs by correlating the timing of the plans' liability cash flows to the corresponding rate on the yield curve. Previously, we estimated service cost and interest cost using a single weighted-average discount rate derived from the yield curve used to measure the benefit obligation at the beginning of the period. This change does not affect the measurement of our benefit obligations related to these plans. We have accounted for this change prospectively as a change in accounting estimate beginning in the first quarter of fiscal 2017. The change in methodology resulted in a decrease in service and interest cost of approximately \$17 million in the three months ended November 27, 2016 and approximately \$34 million in the six-month period ended November 27, 2016 compared to what our costs would have been under the previous method. We expect this change to result in a reduction in our service and interest cost of approximately \$68 million for fiscal 2017 compared to our previous methodology. The fiscal 2017 reduction in our net periodic benefit expense as a result of this change in methodology is partially offset by a reduction in our weighted-average expected rate of return on plan assets for our principal defined benefit pension and other postretirement plans in the United States to 8.25 percent as a result of asset changes that decreased investment risk in the portfolio.

(15) Business Segment Information

We operate in the consumer foods industry. We have three operating segments by type of customer and geographic region as follows: U.S. Retail; International; and Convenience Stores and Foodservice.

Our U.S. Retail segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, and e-commerce grocery providers operating throughout the United States. Our product categories in this business segment are ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, and a wide variety of organic products including meal kits, granola bars, and cereal.

Our International segment consists of retail and foodservice businesses outside of the United States. Our product categories include ready-to-eat cereals, shelf stable and frozen vegetables, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza snacks, refrigerated yogurt, grain and fruit snacks, and super-premium ice cream and frozen desserts. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to

Table of Contents

our international joint ventures. Revenues from export activities and franchise fees are reported in the region or country where the end customer is located.

In our Convenience Stores and Foodservice segment, our major product categories are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, and baking mixes. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, convenience stores, vending, and supermarket bakeries in the United States.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned domestic employee benefits and incentives, contributions to the General Mills Foundation, asset and liability remeasurement impact of hyperinflationary economies, restructuring initiative project-related costs, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Our operating segment results were as follows:

(16) New Accounting Pronouncements

In the first quarter of fiscal 2017, we adopted new accounting requirements for the presentation of certain investments using the net asset value, providing a practical expedient to exclude such investments from categorization within the fair value hierarchy and separate disclosure. The adoption of this guidance did not impact our results of operations or financial position.

In the first quarter of fiscal 2017, we adopted new accounting requirements which permit reporting entities with a fiscal year-end that does not coincide with a month-end to apply a practical expedient that permits the entity to measure defined benefit plan assets and obligations using the month-end that is closest to the entity's fiscal year-end.

Table of Contents

and apply such practical expedient consistently to all plans. The adoption of this guidance is not expected to have a material impact on our results of operations or financial position.

(17) Subsequent Events

Subsequent to the end of our second quarter, we approved restructuring actions designed to better align our organizational structure with our strategic initiatives. In connection with these actions, we expect to eliminate approximately 400 to 600 positions globally, subject to consultation with employees and employee representatives in locations as required. In the third quarter of fiscal 2017, we expect to record total pre-tax restructuring charges of approximately \$60 to \$90 million, reflecting primarily one-time, cash employee severance expenses. These restructuring actions are expected to be completed by the end of fiscal 2018. We expect to generate \$70 to \$90 million in savings in connection with these actions by the end of fiscal 2018. In addition, we are currently assessing the impact of these organizational structure changes on our reporting segments and expect to begin reporting in modified segments in the third quarter of fiscal 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the Glossary section below.

CONSOLIDATED RESULTS OF OPERATIONS**Second Quarter Results**

In the second quarter of fiscal 2017, operating results reflected challenging net sales performance. However, we continued progress against our cost savings and margin expansion initiatives. The net sales decline of 7 percent was driven by volume reductions in the U.S. Retail and International segments, including the impact of the divestiture of our North American Green Giant product lines (Green Giant), which were partially offset by positive net price realization and mix. Operating profit margin of 18.7 percent was down 180 basis points from year-ago levels primarily driven by a gain from the Green Giant divestiture in fiscal 2016. Adjusted operating profit margin increased 160 basis points to 19.6 percent, driven by the impact of cost savings and spending optimization initiatives. Diluted earnings per share of \$0.80 declined 8 percent compared to the second quarter of fiscal 2016 which included the gain from the Green Giant divestiture. Adjusted diluted earnings per share, which excludes certain items affecting comparability, increased 4 percent to \$0.85 compared to the second quarter last year (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP).

A summary of our consolidated financial results for the second quarter of fiscal 2017 follows:

Quarter Ended Nov. 27, 2016	In millions, except per share	Quarter Ended Nov. 27, 2016 vs. Nov. 29, 2015	Percent of Net Sales	Constant- Currency Growth (a)

Consolidated **net sales** were as follows:

	Nov. 27, 2016	Quarter Ended Nov. 27, 2016 vs Nov. 29, 2015	Nov. 29, 2015
Net sales (in millions)	\$ 4,112.1	(7) %	\$ 4,424.9
Contributions from volume growth (a)		(10) pts	
Net price realization and mix		3 pts	
Foreign currency exchange		Flat	

(a) Measured in tons based on the stated weight of our product shipments.

The 7 percent decline in net sales primarily reflected lower organic net sales and the Green Giant divestiture in fiscal 2016.

Organic net sales declined 4 percent driven by volume declines in the U.S. Retail and International segments, which were partially offset by positive net price realization and mix. To improve comparability of results from period to period, organic net sales exclude the impacts of foreign currency exchange rate fluctuations, as well as acquisitions, divestitures, and a 53rd week of results, when applicable.

Components of organic net sales growth are shown in the following table:

Quarter Ended Nov. 27, 2016 vs.

Quarter Ended Nov. 29, 2015

Contributions from organic volume growth (a)	(7) pts
Organic net price realization and mix	3 pts

(a) Measured in tons based on the stated weight of our product shipments.

(b) Primarily the Green Giant divestiture in fiscal 2016.

Cost of sales decreased \$292 million from the second quarter of fiscal 2016 to \$2,593 million. The decrease included a \$269 million decrease attributable to lower volume and a \$12 million increase attributable to product rate and mix. The impact from both volume and product rate and mix included the effects of the divestiture of Green Giant. We recorded a \$29 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the second quarter of fiscal 2017 compared to a net decrease of \$8 million in the second quarter of fiscal 2016. We recorded \$13 million of restructuring charges in cost of sales in the second quarter of fiscal 2017 compared to \$22 million in the same period last year. We also recorded \$11 million of restructuring initiative project-related costs in the second quarter of fiscal 2017 compared to \$16 million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Selling, general, and administrative (SG&A) expenses decreased \$65 million to \$708 million in the second quarter of fiscal 2017 compared to the same period in fiscal 2016. The decrease in SG&A expenses primarily reflects a 20 percentage point decrease in media and advertising

Edgar Filing: GENERAL MILLS INC - Form 10-Q

expense and savings from Project Compass and our other cost management initiatives. SG&A expenses as a percent of net sales in the second quarter of fiscal 2017 decreased 24 basis points compared with the second quarter of fiscal 2016.

Table of Contents

Divestiture loss totaled \$14 million from the sale of our Martel, Ohio manufacturing facility during the second quarter of fiscal 2017. Divestiture gain totaled \$199 million from the sale of our Green Giant product lines during the second quarter of fiscal 2016.

Restructuring, impairment, and other exit costs totaled \$29 million in the second quarter of fiscal 2017 compared to \$61 million in the same period last year.

Total charges associated with our current restructuring initiatives were as follows:

In Millions	As Reported Quarter Ended			
	Nov. 27, 2016		Nov. 29, 2015

(a) Includes \$12.8 million of restructuring charges recorded in cost of sales in fiscal 2017 and \$21.8 million in fiscal 2016. For further information on these restructuring initiatives, please refer to Note 3 to the Consolidated Financial Statements in Part 1, Item 1 of this report.

Interest, net for the second quarter of fiscal 2017 totaled \$76 million, up \$2 million from fiscal 2016, driven primarily by higher rates, partially offset by lower average debt balances and changes in the mix of debt.

The **effective tax rate** for the second quarter of fiscal 2017 was 32.8 percent compared to 37.4 percent for the second quarter of fiscal 2016. The 4.6 percentage point decrease was primarily related to significant non-deductible expenses related to the Green Giant divestiture in the second quarter of fiscal 2016. Our effective tax rate excluding certain items affecting comparability was 32.4 percent in the second quarter of fiscal 2017 compared to 32.3 percent in the second quarter of fiscal 2016 (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP).

Table of Contents

After-tax earnings from joint ventures for the second quarter of fiscal 2017 increased to \$30 million compared to \$23 million in the same quarter last fiscal year, primarily driven by volume growth and lower SG&A expenses for Cereal Partners Worldwide (CPW) and volume growth and lower input costs for Häagen-Dazs Japan, Inc. (HDJ). On a constant-currency basis, after-tax earnings from joint ventures increased 27 percent (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP). The change in net sales for each joint venture is set forth in the following table:

Average diluted shares outstanding decreased by 13 million in the second quarter of fiscal 2017 from the same period a year ago due to the impact of share repurchases, partially offset by option exercises.

Table of Contents**Six-Month Results**

In the six-month period ended November 27, 2016, operating results reflected challenging net sales performance. However, we continued progress against our cost savings and margin expansion initiatives. The 7 percent decline in net sales was driven by volume reductions in the U.S. Retail and International segments, including the impact of the divestiture of Green Giant, which were partially offset by positive net price realization and mix. Operating profit margin of 17.6 percent was down 80 basis points from year-ago levels primarily driven by a gain from the Green Giant divestiture in fiscal 2016. In the six-month period ended November 27, 2016, we made good progress toward our fiscal 2017 adjusted operating profit margin goal of 18.3 percent with an increase of 120 basis points over the same period in the prior year to 19.4 percent, driven by the impact of cost savings and spending optimization initiatives. For the six-month period ended November 27, 2016, diluted earnings per share of \$1.47 declined 6 percent compared to the same period in fiscal 2016 which included the gain from the Green Giant divestiture. Adjusted diluted earnings per share, which excludes certain items affecting comparability, on a constant-currency basis for the six-month period ended November 27, 2016, increased 2 percent compared to the same period of fiscal 2016 (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP).

Cost of sales decreased \$454 million from the six-month period ended November 29, 2015, to \$5,084 million. The decrease included a \$482 million decrease attributable to lower volume and a \$52 million increase attributable to product rate and mix. The impact from both volume and product rate and mix included the effects of the divestiture of Green Giant. We recorded \$26 million of restructuring charges in cost of sales in the six-month period ended November 27, 2016, compared to \$44 million in the same period last year. We also recorded \$25 million of restructuring initiative project-related costs in the six-month period ended November 27, 2016 compared to \$29 million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report). We recorded a \$12 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the six-month period ended November 27, 2016, compared to a net decrease of \$10 million in the six-month period ended November 29, 2015.

SG&A expenses decreased \$164 million to \$1,420 million in the six-month period ended November 27, 2016, compared to the same period in fiscal 2016. The decrease in SG&A expenses primarily reflects a 22 percentage point decrease in media and advertising expense and cost management initiatives. SG&A expenses as a percent of net sales in the six-month period ended November 27, 2016 decreased 64 basis points compared with the same period of fiscal 2016.

Divestiture loss totaled \$14 million from the sale of our Martel, Ohio manufacturing facility during the second quarter of fiscal 2017. Divestiture gain totaled \$199 million from the sale of our Green Giant product lines during the second quarter of fiscal 2016.

Restructuring, impairment, and other exit costs totaled \$88 million in the six-month period ended November 27, 2016 compared to \$121 million in the same period last year.

Interest, net for the six-month period ended November 27, 2016, totaled \$149 million, flat to the same period of fiscal 2016.

The **effective tax rate** for the six-month period ended November 27, 2016, was 31.9 percent compared to 35.4 percent for the six-month period ended November 29, 2015. The 3.5 percentage point decrease was primarily due to significant non-deductible expenses related to the Green Giant divestiture in the second quarter of fiscal 2016. Our effective tax rate excluding certain items affecting comparability was 31.9 percent for the six-month period ended November 27, 2016 compared to 32.3 percent in the six-month period ended November 29, 2015 (see the **Non-GAAP Measures** section below for a description of our use of measures not defined by GAAP).

After-tax earnings from joint ventures for the six-month period ended November 27, 2016, increased to \$54 million compared to \$49 million in the same period year in fiscal 2016, primarily driven by lower input costs and favorable foreign currency exchange for HDJ. On a constant-currency basis, after-tax earnings from joint ventures increased 8 percent (see the **Non-GAAP Measures** section below for a description of our use of measures not defined by GAAP). The change in net sales for each joint venture is set forth in the following table:

The decrease in U.S. Retail net sales for the quarter and six-month periods ended November 27, 2016 was driven by declines in the Meals, Yogurt, Baking and Cereal operating units, partially offset by growth in the Snacks operating unit. The decline in net sales also includes the impact of the Green Giant divestiture from the Meals operating unit in fiscal 2016.

(b) Primarily the Green Giant divestiture in fiscal 2016.

The decrease in U.S. Retail contributions from organic volume growth for the quarter and six-month periods ended November 27, 2016 reflect the impact of reduced marketing and trade support and increased competition in key categories.

Segment operating profit grew 2 percent to \$615 million in the second quarter of fiscal 2017 compared to \$600 million in the same period of fiscal 2016, primarily driven by benefits from cost savings initiatives and a decrease in media and advertising expense.

Segment operating profit decreased 2 percent to \$1,210 million in the six-month period ended November 27, 2016 compared to the same period of fiscal 2016, primarily driven by volume declines and the impact of the Green Giant divestiture, partially offset by a decrease in SG&A expenses, including cost savings initiatives and a decrease in media and advertising expense.

International Segment Results

International net sales were as follows:

The 5 percent decline in International net sales for the second quarter of fiscal 2017 was driven by declines in the Canada, Europe, and Asia/Pacific regions, partially offset by an increase in the Latin America region. These results included unfavorable foreign exchange and the divestitures of Green Giant in the Canada region, and our Venezuela subsidiary and Argentina foodservice business in the Latin America region in fiscal 2016.

The 5 percent decline in International net sales for the six-month period ended November 27, 2016 was driven by declines across all regions. These results included the impacts of unfavorable foreign exchange and fiscal 2016 divestitures.

Segment operating profit decreased 22 percent to \$106 million in the second quarter of fiscal 2017 compared to \$136 million in the same period of fiscal 2016. Segment operating profit decreased 19 percent to \$206 million in the six-month period ended November 27, 2016, compared to \$253 million in the same period of fiscal 2016. These results were primarily driven by currency-driven inflation on imported products in certain markets and the impact of the Green Giant divestiture. International segment operating profit decreased 18 percent on a constant-currency basis in the second quarter of fiscal 2017 compared to the second quarter of fiscal 2016. The 4 percent decline in Convenience Stores and Foodservice net sales in the second quarter of fiscal 2017 was driven by market index pricing on bakery flour, partially offset by an increase in the Focus 6 platforms.

The 5 percent decline in Convenience Stores and Foodservice net sales in the six-month period ended November 27, 2016 was driven by market index pricing on bakery flour and lower volume, partially offset by an increase in the Focus 6 platforms.

Segment operating profit increased 6 percent to \$109 million in the second quarter of fiscal 2017 compared to \$103 million in the second quarter of fiscal 2016. These results were primarily driven by cost savings initiatives, lower input costs, and higher grain merchandising earnings.

Segment operating profit increased by 11 percent to \$202 million for the six-month period ended November 27, 2016 from \$183 million in the same period last year. These results were primarily driven by cost savings initiatives, lower input costs, and higher grain merchandise earnings.

UNALLOCATED CORPORATE ITEMS

Edgar Filing: GENERAL MILLS INC - Form 10-Q

Unallocated corporate expense totaled \$19 million in the second quarter of fiscal 2017 compared to \$72 million in the same period in fiscal 2016. In the second quarter of fiscal 2017, we recorded \$13 million of restructuring charges and \$11 million of restructuring initiative project-related costs in cost of sales compared to \$22 million of restructuring charges and \$16 million of restructuring initiative project-related costs in cost of sales in the same period last year. In addition, we recorded a \$29 million net decrease in expense related to the mark-to-market

valuation of certain commodity positions and grain inventories in the second quarter of fiscal 2017 compared to an \$8 million net decrease in expense in the same period last year.

Unallocated corporate expense totaled \$101 million in the six-month period ended November 27, 2016, compared to \$155 million in the same period last year. In the six-month period ended November 27, 2016, we recorded \$26 million of restructuring charges and \$25 million of restructuring initiative project-related costs compared to \$44 million of restructuring charges and \$29 million of restructuring initiative project-related costs in the same period last year. In addition, we recorded a \$12 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories in the six-month period ended November 27, 2016, compared to a \$10 million net decrease in expense in the same period a year ago.

LIQUIDITY

During the six-month period ended November 27, 2016, cash provided by operations was \$988 million compared to \$1,156 million in the same period last year. The \$168 million decrease is primarily driven by a \$429 million change in current assets and liabilities. The \$429 million change in current assets and liabilities is primarily due to changes in other current liabilities, which was largely driven by changes in trade and advertising accruals and income taxes payable. Additionally, we recorded a \$14 million loss on a divestiture in the second quarter of fiscal 2017 compared to a \$199 million gain on divestiture in the same period last year.

Cash used by investing activities during the six-month period ended November 27, 2016, was \$280 million, compared to cash provided by investing activities of \$523 million in the same period in fiscal 2016. Investments of \$318 million in land, buildings and equipment in the six-month period ended November 27, 2016 increased \$25 million compared to the same period a year ago. Additionally, in the second quarter of fiscal 2016, we sold our Green Giant product lines for proceeds of \$823 million.

Cash used by financing activities during the six-month period ended November 27, 2016, was \$629 million compared to \$1,342 million in the same period last year. We had \$1,165 million of net debt issuances in the first six months of fiscal 2017 compared to \$294 million of net debt payments in the same period a year ago. We paid \$1,350 million in cash to repurchase common stock and paid \$576 million of dividends in the first six months of fiscal 2017 compared to \$537 million and \$531 million, respectively, in the same period last year.

As of November 27, 2016, we had \$746 million of cash and cash equivalents held in foreign jurisdictions which will be used to fund foreign operations and potential acquisitions. There is currently no need to repatriate these funds in order to meet domestic funding obligations or scheduled cash distributions. If we choose to repatriate historical earnings from foreign jurisdictions, we intend to do so only in a tax-neutral manner.

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of November 27, 2016:

In Billions	Facility Amount	Borrowed Amount

Total committed and uncommitted credit facilities	\$ 3.3	\$ 0.2

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). On June 1, 2015, the floating preferred return rate on GMC's Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal holds the remaining interests in each of these entities. We consolidate these entities into our consolidated financial statements. As of November 27, 2016, we recorded Sodiaal's 50 percent interests in Yoplait Marques SNC and Liberté Marques Sàrl as noncontrolling interests, and the redemption value of its 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. These euro- and Canadian dollar-denominated interests are reported in U.S. dollars on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. As of November 27, 2016, the redemption value of the redeemable interest was \$802 million, which approximates its fair value.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of November 27, 2016, we were in compliance with all of these covenants.

We have \$1,508 million of long-term debt maturing in the next 12 months that is classified as current, including \$1,000 million of 5.7 percent fixed rate notes due February 2017. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance sheet arrangements during the second quarter of fiscal 2017.

Table of Contents**SIGNIFICANT ACCOUNTING ESTIMATES**

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016. The accounting policies used in preparing our interim fiscal 2017 Consolidated Financial Statements are the same as those described in our Form 10-K.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, valuation of long-lived assets, intangible assets, redeemable interest, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of November 27, 2016, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 29, 2016, except as described in Note 14 to the Consolidated Financial Statements in Part I, Item 1 of this report.

We tested our goodwill and brand intangible assets for impairment on the first day of the second quarter of fiscal 2017. As of our annual impairment assessment date, there was no impairment of any of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Immaculate Baking* brand and the Latin America reporting unit. The excess fair value above the carrying value of this brand asset and reporting unit is as follows:

In Millions	Excess Fair Value	
	Carrying Value	Above Carrying Value
<i>Immaculate Baking</i>	\$ 12.0	17%
Latin America	\$ 523.0	15%

In addition, while having significant coverage as of our fiscal 2017 assessment date, the *Progresso*, *Green Giant* and *Food Should Taste Good* brand assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In October 2016, the Financial Accounting Standards Board (FASB) issued new accounting requirements related to the recognition of income taxes resulting from intra-entity transfers of assets other than inventory. This will result in the recognition of the income tax consequences resulting from the intra-entity transfer of assets in our Consolidated Statements of Earnings in the period of the transfer. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. Early adoption is permitted. We are in the process of analyzing the impact on our results of operations and financial position.

In March 2016, the FASB issued new accounting requirements for the accounting and presentation of stock-based payments. This will result in realized windfall and shortfall tax benefits upon exercise or vesting of stock-based awards being recorded in our Consolidated Statements of Earnings in addition to other presentation changes. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods, which for us is the first quarter of fiscal 2018. Early adoption is permitted. We are in the process of analyzing the impact on our results of operations and financial position.

In February 2016, the FASB issued new accounting requirements for accounting, presentation and classification of leases. This will result in most leases being capitalized as a right of use asset with a related liability on our Consolidated Balance Sheets. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods, which for us is the first quarter of fiscal 2020. We are in the process of analyzing the impact on our results of operations and financial position.

In May 2014, the FASB issued new accounting requirements for the recognition of revenue from contracts with customers. The requirements of the new standard and its subsequent amendments are effective for annual reporting

periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. We do not expect this guidance to have a material impact on our results of operations or financial position.

NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors and any additional purposes for which we use the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Our fiscal 2017 outlook for adjusted operating profit margin is a non-GAAP financial measure that excludes, or has otherwise been adjusted for, items impacting comparability, including the effect of restructuring charges, project-related costs, mark-to-market effects, and divestitures. We are not able to reconcile this forward-looking non-GAAP financial measure to its most directly comparable forward-looking GAAP financial measure without unreasonable efforts because we are unable to predict with a reasonable degree of certainty the actual impact of changes in commodity prices or the timing of divestitures, and restructuring actions throughout fiscal 2017. The unavailable information could have a significant impact on our fiscal 2017 GAAP financial results.

Organic Net Sales Growth Rates

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We provide organic net sales growth rates for our consolidated net sales and segment net sales. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, as well as acquisitions, divestitures, and a 53rd week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Segment Operating Results discussions in the MD&A above.

Total Segment Operating Profit and Related Constant-Currency Growth Rate

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to operating profit, the relevant GAAP measure, is included in Note 15 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Constant-currency total segment operating profit growth is calculated as follows:

	Percentage Change in Total Segment Operating Profit as Reported	Impact of Foreign Currency Exchange	Percentage Change in Total Segment Operating Profit on a Constant-Currency Basis
Quarter Ended Nov. 27, 2016	(1)%	(1)pt	Flat
Six-Month Period Ended Nov. 27, 2016	(3)%	(1)pt	(2)%

Table of Contents**Adjusted Operating Profit as a Percent of Net Sales (Adjusted Operating Profit Margin) Excluding Certain Items Affecting Comparability**

We believe this measure provides useful information to investors because it is important for assessing our operating profit margin on a comparable basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-over-year assessment of operating results.

Diluted EPS Excluding Certain Items Affecting Comparability and Related Constant-Currency Growth Rate

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-over-year basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-over-year assessment of operating results.

Constant-Currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rate on a constant-currency basis is calculated as follows:

Net Sales Growth Rates for Our International Segment on Constant-Currency Basis

We believe that this measure of our International segment and region net sales provides useful information to investors because it provides transparency to the underlying performance in markets outside the United States by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

GLOSSARY

Accelerated depreciation associated with restructured assets. The increase in depreciation expense caused by updating the salvage value and shortening the useful life of depreciable fixed assets to coincide with the end of production under an approved restructuring plan, but only if impairment is not present.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.

AOCI. Accumulated other comprehensive income (loss).

Constant currency. Financial results translated to U.S. dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Edgar Filing: GENERAL MILLS INC - Form 10-Q

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Table of Contents

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

Fixed charge coverage ratio. The sum of earnings before income taxes and fixed charges (before tax), divided by the sum of the fixed charges (before tax) and interest.

Focus 6 platforms. The Focus 6 platforms for the Convenience Stores and Foodservice segment consist of cereal, yogurt, snacks, frozen meals, biscuits, and baking mixes.

Foundation businesses. Foundation businesses consist primarily of refrigerated dough, desserts, and soup in our U.S. Retail segment and bakery flour and frozen dough products in our Convenience Stores and Foodservice segment, as well as other product lines not included in Growth businesses.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Growth businesses. Growth businesses include cereal, snack bars, the natural and organic portfolio, hot snacks, Mexican products, and yogurt in our U.S. Retail segment; our International segment; and cereal, yogurt, snacks, frozen meals, biscuits, and baking mixes in our Convenience Stores and Foodservice segment.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

LIBOR. London Interbank Offered Rate.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional principal amount. The principal amount on which fixed-rate or floating-rate interest payments are calculated.

Table of Contents

OCI. Other Comprehensive Income.

Organic net sales growth. Net sales growth adjusted for foreign currency translation, as well as acquisitions, divestitures, and a 53rd week impact, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Redeemable interest. Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

Total debt. Notes payable and long-term debt, including current portion.

Translation adjustments. The impact of the conversion of our foreign affiliates' financial statements to U.S. dollars for the purpose of consolidating our financial statements.

CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

The words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "estimate," "plan," "project," or similar expressions identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including labeling and advertising regulations and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; effectiveness of restructuring and cost saving initiatives; volatility in the market value of derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 29, 2016, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate, foreign exchange, commodity, and equity market-risk-sensitive instruments outstanding as of November 27, 2016 was \$25 million, \$21 million, \$2 million, and \$1 million, respectively. During the six-month period ended November 27, 2016, the interest rate, foreign exchange, and commodity value-at-risk decreased by \$8 million, \$7 million, and \$1 million, respectively, while the equity value-at-risk was flat compared to this measure as of May 29, 2016. The value-at-risk for interest rate and foreign exchange decreased due to lower volatility, while value-at-risk for commodity positions was up due to higher market volatility. For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 29, 2016.

Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of November 27, 2016, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended November 27, 2016 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
