10,000,000 shares

Taylor Morrison Home Corporation

Class A common stock

Taylor Morrison Home Corporation, which we refer to in this prospectus supplement as **TMHC**, is offering 10,000,000 shares of its Class A common stock.

Our Class A common stock is listed on the New York Stock Exchange under the symbol **TMHC**. The closing price of our Class A common stock on the New York Stock Exchange on November 7, 2017 was \$23.10 per share.

We intend to use all of the net proceeds of this offering to purchase a portion of the existing investments of TPG and Oaktree (each as defined in this prospectus supplement) in our company. After the completion of this offering, TPG and Oaktree will continue to own a significant amount of the combined voting power of our common stock and have substantial influence over our governance.

Investing in the Class A common stock involves risks. See Risk Factors beginning on page S-17.

The underwriters have agreed to purchase the shares of Class A common stock at a price equal to \$22.95 per share, which will result in \$229.5 million of net proceeds to TMHC, before expenses. The underwriters may offer the shares of Class A common stock purchased from TMHC from time to time in one or more transactions on the New York Stock Exchange, in the over-the-counter market or through negotiated transactions at market prices or at negotiated prices. See **Underwriting**.

Neither the Securities and Exchange Commission (the **SEC) nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus supplement and the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

The underwriters expect to deliver the shares of Class A common stock to purchasers on or about November 13, 2017.

About this prospectus supplement

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of Class A common stock and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. Generally, when we refer to this prospectus, we are referring to both parts of this document combined. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or in any document incorporated by reference that was filed with the Securities and Exchange Commission, or SEC, before the date of this prospectus supplement, on the other hand, you should rely on the information in this prospectus supplement. If any statement in one of these documents is inconsistent with a statement in another document having a later date for example, a document incorporated by reference in the accompanying prospectus the statement in the document having the later date modifies or supersedes the earlier statement.

Neither we nor the underwriters have authorized anyone to provide you with information different from that contained in this prospectus supplement, the accompanying prospectus or any free writing prospectus prepared by us or on our behalf. We and the underwriters take no responsibility for any other information that you may receive. We are offering to sell, and seeking offers to buy, shares of Class A common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus supplement, regardless of the time of delivery of this prospectus supplement or of any sale of the Class A common stock.

This prospectus supplement contains references to our trademarks and service marks and to those belonging to other entities. Solely for convenience, trademarks and trade names referred to in this prospectus supplement and the accompanying prospectus may appear without the ® or ™ symbols, but the omission of such symbols is not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the rights of the applicable licensor to these trademarks and trade names. We do not intend our use or display of other companies' trade names, trademarks or service marks to imply a relationship with, or endorsement or sponsorship of us by, any other companies.

Statement regarding industry and market data

Any market or industry data contained or incorporated by reference in this prospectus supplement and the accompanying prospectus is based on a variety of sources, including internal data and estimates, independent industry publications, government publications, reports by market research firms or other published independent sources. Industry publications and other published sources generally state that the information contained therein has been obtained from third-party sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such information. Our internal data and estimates are based upon information obtained from trade and business organizations and other contacts in the markets in which we operate and our management's understanding of industry conditions, and such information has not been verified by any independent sources. Accordingly, investors should not place significant reliance on such data and information.

Table of Contents**Prospectus supplement summary**

This summary highlights information contained elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference. It does not contain all of the information that you should consider before deciding whether to invest in our Class A common stock. You should read this entire prospectus supplement and the accompanying prospectus carefully, including the Risk Factors section and our consolidated financial statements and the notes to those statements incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

References to TPG Global are to TPG Global, LLC, and references to TPG are to TPG Global and its affiliates that are invested in New TMM (as defined below) through TPG TMM Holdings II, L.P., which we refer to as the TPG holding vehicle, or are invested directly in the Company. References to Oaktree are to investment funds managed by Oaktree Capital Management, L.P. or their respective subsidiaries that are invested in New TMM through OCM TMM Holdings II, L.P., which we refer to as the Oaktree holding vehicle (see Prospectus Supplement Summary Organizational Structure). References to JHI are references to investment funds managed by JH Investments, Inc. and its subsidiary that prior to February 6, 2017 were directly invested in New TMM or indirectly invested in New TMM and that are no longer directly invested in New TMM. References to our Principal Equityholders are references to (i) the affiliates of TPG that are invested in New TMM, (ii) Oaktree and, prior to February 6, 2017, (iii) JHI, collectively. We refer to the formation of TMM Holdings by the Principal Equityholders in March 2011 and the acquisition on July 13, 2011 by TMM Holdings of the company now known as Taylor Morrison Communities, Inc. (together with our former Canadian business) for an aggregate cash consideration of approximately \$1.2 billion, as the Acquisition .

Our company

We are one of the largest public homebuilders in the United States. We are also a land developer, with a portfolio of lifestyle and master-planned communities. We provide a diverse assortment of homes across a wide range of price points. We strive to appeal to a broad spectrum of customers in traditionally high growth markets, where we design, build and sell single-family detached and attached homes. We operate under the Taylor Morrison and Darling Homes brand names. We also provide financial services to customers through our wholly owned mortgage subsidiary, Taylor Morrison Home Funding, LLC (TMHF), and title insurance and closing settlement services through our title company, Inspired Title Services, LLC (Inspired Title).

We have operations in Arizona, California, Colorado, Florida, Georgia, Illinois, North Carolina and Texas. Our business is organized into multiple homebuilding operating divisions and a mortgage and title services division, which are managed as multiple reportable segments, as follows:

East	Atlanta, Charlotte, Chicago, Orlando, Raleigh, Southwest Florida and Tampa
Central	Austin, Dallas, Houston (each of the Dallas and Houston markets include both a Taylor Morrison division and a Darling Homes division) and Denver
West	Bay Area, Phoenix, Sacramento and Southern California
Mortgage Operations	Taylor Morrison Home Funding (TMHF) and Inspired Title Services (Inspired Title)

Table of Contents

Our long-term strategy is built on four pillars:

- pursuing core locations;
- building distinctive communities;
- maintaining a culture of operating efficiency; and
- appropriately balancing price with pace in the sale of our homes.

We are committed to building authentic homes and engaging communities that inspire, delight and enhance the lives of our customers. Delivering on this commitment involves thoughtful design and analysis to accommodate the needs of our customers and the surrounding community. The Taylor Morrison difference begins with providing our customers with homes that are both conducive to their lifestyles and that are built to last. We take pride in our quality construction, superior design and customer service. Our dedication to customer service defines our customer experience and acknowledges homeowners' suggestions to incorporate style, quality and sustainability into every community we build. Our commitment to quality prioritizes the long-term satisfaction of our homeowners. Our communities are typically built in locations in close proximity to schools and shopping, often have many amenities and public gathering areas, with a focus on delivering superior lifestyles to customers and their families.

In recognition of our commitment to home buyers, we were awarded America's Most Trusted Home Builder® by Lifestory Research in 2016 and 2017, which is based on the reviews of more than 30,000 consumers. We are also ranked the second highest in the active adult resort home builder brands according to Lifestory Research America's Most Trusted® 2016 and 2017 Active Adult Home Builder Brand Study, which was based on almost 11,000 consumers.

Some of our recent acquisitions include our acquisition in April 2015 of JEH Homes, an Atlanta-based homebuilder, for a purchase price of approximately \$63.2 million, excluding contingent consideration, which yielded approximately 2,000 lots; our acquisition in July 2015 of three divisions of Orleans Homes for a purchase price of approximately \$167.3 million, which collectively yielded approximately 2,100 lots in new markets within Charlotte, Chicago and Raleigh, further expanding our geographic footprint; and our acquisition in January 2016 of Acadia Homes in Atlanta for approximately \$83.6 million, which yielded approximately 1,100 additional lots with deliveries of homes at price points in the low \$400 thousands, allowing us to further diversify our product offerings in the Atlanta market. All the operations acquired in 2015 and 2016 have been fully transitioned to the Taylor Morrison brand.

During 2016, our operations were located in eight states and generated revenue of \$3.55 billion, net income from continuing operations of \$206.6 million and Adjusted EBITDA of \$419.8 million (for a discussion of how we calculate Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net income for the year ended December 31, 2016, see footnote 3 under the caption "Summary Historical Consolidated Financial and Other Information"). In 2016, we grew our average community count by 19% year-over-year to 309 active communities, and ended 2016 with \$1.5 billion in sales order backlog.

We believe we benefit from a well-located land portfolio, primarily in homebuilding markets that have been leading the U.S. housing recovery. During 2016, we had 309 average active communities and at December 31, 2016 we owned or controlled approximately 38,300 lots. The average sales price of homes closed during the year ended December 31, 2016 was approximately \$465,000. During 2016, we sold 7,504 homes, an increase of 12% over the prior year.

Our competitive strengths

Our business is characterized by the following competitive strengths:

Strong financial performance

We have a profitable and scalable operating model, which we believe positions us well to take advantage of the anticipated continued recovery in the U.S. housing industry. Our operating model allowed us to increase total revenue and net income from continuing operations per share by 19% and 22%, respectively, in 2016 compared to 2015.

We believe that our management approach, which balances decentralized local market expertise with a centralized executive management team focused on maximizing efficiencies, will further grow our profitability. Our operating platform is scalable, which we believe allows us to increase volume while at the same time improving profitability and driving shareholder returns. We have made numerous strategic investments over the past two years that we believe will drive continued operational efficiencies and performance benefits over the next many years.

Attractively located land inventory

We continue to benefit from a sizeable and well-located existing land inventory. At September 30, 2017, we owned or controlled approximately 40,000 lots, which equated to approximately 5.1 years of land supply based on our closings of 7,760 homes in the twelve months ended September 30, 2017. Our land inventory reflects our balanced approach to investments, yielding a distribution of finished lots available for near-term homebuilding operations and strategic land positions to support future growth and we are actively focused on securing land for deliveries in 2019 and beyond. Our significant land inventory allows us to be selective in identifying new land acquisition opportunities and positions us against potential land shortages in markets that exhibit land supply constraints. In addition, some of our holdings represent multi-phase, master-planned communities, which provide us with the opportunity to pursue multiple selling efforts in order to respond to changing market demands. We also believe that our master-planned community holdings allow us to add value through re-entitlements, repositioning and/or opportunistic land sales to third parties.

In 2016, we spent approximately \$707.5 million on new land purchases and development. We believe our local, well-established relationships with land sellers, brokers and investors and our knowledge of the local markets allows us to be nimble, to identify attractive land opportunities and to gain access to such sellers, brokers and investors. We also believe that our long-held reputation as a leading homebuilder and developer of land, combined with our balance sheet strength and our active opportunistic purchasing of land through the downturn, gives land brokers and sellers confidence that they can close transactions with us on a timely basis and with minimal execution risk.

Strong presence in high-growth homebuilding markets

Our strategic market footprint positions us to participate in the U.S. housing market's continued recovery. We focus our operations in states benefiting from positive momentum in housing demand drivers, such as nationally leading population and employment growth trends, migration patterns, housing affordability and desirable lifestyle and climate characteristics. The eight states in which we operate accounted for 41% of the total 2015 U.S. population of 321 million and 49% of the 1.2 million building permits issued for privately owned homes in 2016.

We maintain leading market share positions in our markets, with a top five market share rank in five of our markets and a top 10 market share rank in an additional nine markets, based on data compiled by MetroStudy

S-3

Table of Contents

for the 11 months ended November 2016. In addition, we believe we have attractive opportunities to increase our market positions in many of our newer markets.

We believe that our geographic footprint and our leading market share positions enable us to capture the benefits of expected increases in home volumes and home prices as demand for new homes grows.

Expertise in delivering consumer-oriented lifestyle communities

We offer award-winning home designs through our single-family detached and single-family attached products. The majority of our business is focused on creating communities that attract more financially secure buyers, including among first-time, move-up and 55+ customers, though we remain committed to also offering communities that capture first-time buyers at more affordable, entry-level prices. We also believe we possess the expertise and track record in designing and delivering lifestyle products and amenities that appeal to active adult buyers. We believe that maintaining a healthy mix of communities and focusing on homebuyer demand is key to remaining competitive in the market.

Our mortgage and title services companies allow us to more effectively convert sales orders backlog into home closings

We directly originate, underwrite and fund mortgages for our homebuyers through TMHF, our wholly owned mortgage lending company. TMHF helps ensure and enhance the customer experience, prequalifies buyers earlier in the home buying process, provides visibility in converting our sales order backlog into closings and is a source of incremental revenues and profitability. TMHF maintains relationships with several correspondent lenders to mitigate risk. We believe TMHF provides a competitive advantage relative to homebuilders without mortgage operations, since many of our buyers prefer an integrated home buying experience. While we believe many other homebuilders with mortgage operations use a single lender, our multi-lender platform provides us with the ability to leverage a broad range of products, underwriting and pricing options for the benefit of our buyers.

Inspired Title offers title insurance agency and title insurance and closing settlement services to our homebuyers in our Texas and Florida markets, and we plan to expand these services to certain of our additional

Table of Contents

markets in the future. Inspired Title competes against other title insurers and escrow agents that provide similar services.

Conservative balance sheet and disciplined capital allocation strategy

We are well-positioned with a healthy balance sheet and sufficient liquidity to service our debt obligations, support our ongoing operations and take advantage of growth opportunities. At September 30, 2017, we had \$1.5 billion in outstanding indebtedness and a net homebuilding debt to capitalization ratio of 33.1% (for a discussion of how we calculate our net homebuilding debt to capitalization ratio and a reconciliation of net homebuilding debt to total debt as of September 30, 2017, see footnote 4 under the caption *Summary Historical Consolidated Financial and Other Information*). Also at September 30, 2017, we had \$264.9 million of unrestricted cash and no borrowings and \$33.2 million letters of credit drawn under our \$500 million senior revolving credit facility (the *Revolving Credit Facility*). All of our senior notes have coupons below 6% and less than 15% of our approximately \$1.5 billion of currently outstanding debt matures before 2021.

We maintain a disciplined approach to capital allocation and we continually assess our capital allocation strategy to drive long-term shareholder returns. We are focused on maintaining a strong liquidity position and we regularly evaluate and prioritize the following opportunities for our capital deployment: organic investment and reinvestment in the business, acquisition opportunities to increase diversification through accretive transactions in new markets, use of excess cash to opportunistically refinance or repay debt, and return of excess cash to shareholders. We believe this investment strategy and prioritization is a critical component in driving short-term performance while securing the long-term health of the overall business.

Highly experienced management team

We benefit from an experienced management team that has demonstrated the ability to generate positive financial results and adapt to constantly changing market conditions. In addition to our corporate management team, our division presidents bring substantial industry knowledge and local market expertise, having significant experience in the homebuilding industry. Our success in land acquisition and development is due in large part to the caliber of our local management teams, which are responsible for the planning, design, entitlements and eventual execution of the entire community.

Our strategy

We recognize that the housing market is cyclical and home price volatility between the peak and valley of cycles can be significant. We seek to maximize shareholder value over the long-term and operate our business to capitalize on market appreciation value and mitigate risks from market downturns. We believe we are well-positioned for growth throughout market fluctuations through disciplined execution of the four pillars of our business strategy, which are described in more detail as follows:

Opportunistic land acquisition in core locations in close proximity to job clusters, strong school districts and amenities

In order to deliver aspirational homes, we purchase well-located land and focus on developing attractive neighborhoods and communities near areas of relatively high employment, with good access to strong schools and with desirable lifestyle amenities. Our ability to identify, acquire and develop land in desirable locations and on favorable terms is critical to our success. As the housing cycle has matured, we have continued to shift our focus towards shorter, less-capital intensive opportunities that are accretive to the portfolio. On average, our land bank had

approximately 5.1 years of supply at September 30, 2017, which allows us to be disciplined

S-5

Table of Contents

and selective in land acquisitions, a key element to the success of our strategy. We believe that our attractive land portfolio will position us to generate favorable returns and enable us to be opportunistic in acquiring new land.

We evaluate land opportunities based on how we expect they will contribute to overall profitability and shareholder returns, rather than how they might drive volume on a regional or submarket basis. We continue to use our local relationships with land sellers, brokers and investors to seek the first look at quality land opportunities. We expect to continue allocating capital with the goal of achieving superior returns by utilizing our development expertise, efficiency and opportunistic mindset.

We believe we are able to increase the value of our land portfolio through zoning and engineering processes by creating attractive land use plans, which ultimately translate into greater opportunities to generate profits.

We selectively evaluate expansion in our existing markets as well as in new markets that exhibit positive long-term fundamentals. We have successfully acquired and integrated homebuilding businesses in the past, and intend to utilize our experience in integrating businesses as opportunities for acquisitions arise.

Distinctive communities driven by consumer preferences and a research-based approach to underwriting

We develop communities and build homes in which our customers aspire to live. Our goal is to identify the preferences of our customers according to demographic group and offer them innovative, high-quality homes. To achieve this goal, we conduct extensive market research to determine preferences of our customer groups and guide our underwriting process. We have identified various consumer groups by focusing on particular demographics, lifestyle preferences, tastes and attributes and the evolving wants and needs of these distinct groups.

Our approach to consumer group segmentation guides all of our operations, from our initial land acquisition through our design, building, marketing and delivery of homes and our ongoing after-sales customer service. Among our peers, we believe we are at the forefront of directed-marketing strategies, as evidenced by our highly-trafficked website which provides innovative tools that are designed to enhance our customers' home buying experience.

We are committed to increasing our customer service beyond the sale and closing of the home, which we believe results in improved brand loyalty, enhances the customer experience and encourages customer referrals, resulting in lower customer acquisition costs and increased home sales.

Culture of operating efficiency

We are committed to maintaining a culture of operating efficiency. We seek to maintain overhead efficiency in the top quartile of our industry, a strong balance sheet and sufficient liquidity to execute our growth plan. Our performance-based company culture, combined with localized day-to-day decision making, enhances the efficiency of our operations. Centralized management approval of all land acquisitions and dispositions and controlled underwriting requirements ensure effective identification of land opportunities.

During 2016, we made additional investments in people, processes and tools in order to further optimize our operating model going forward, including by making investments in our customer relationship management technology in order to enhance the efficiency of our customer relations and our overall customer experience. We anticipate numerous benefits from these recent investments to flow through our business and ultimately through our financials in 2017 and beyond.

Table of Contents

We believe that our efficient operational structure, together with our commitment to integrity, ethics and professionalism, allows us to selectively attract and retain a superior employee base that minimizes turnover and further contributes to operational efficiencies.

Optimizing profitability while achieving desired sales pace

Our philosophy of a balanced pricing strategy that optimizes price and volume continues to be our operational priority. We evaluate our product releases, pricing and sales strategies at a submarket level in order to take advantage of competitive supply and demand dynamics, thereby optimizing profitability while achieving desired sales pace and return metrics.

Recent Developments

Effective upon the closing of this offering, we expect that Joe S. Houshian and a director designee of the Oaktree holding vehicle will resign from our board of directors pursuant to the terms of our stockholders agreement and Peter Lane will be deemed to be no longer a director designee of the TPG holding vehicle. As a result, each of our Principal Equityholders will have two designees and JHI will no longer have a designee on our board of directors.

Our principal equityholders

Affiliates of the Principal Equityholders formed TMM Holdings in March 2011, and on July 13, 2011, TMM Holdings acquired the company now known as Taylor Morrison Communities, Inc. together with our former Canadian business for aggregate cash consideration of approximately \$1.2 billion.

On April 12, 2013, TMHC completed its initial public offering of 32,857,800 shares of Class A common stock. In connection with the initial public offering, TMHC and its subsidiaries completed various reorganization transactions on April 9, 2013 (the Reorganization Transactions). Following TMHC's initial public offering, the Principal Equityholders beneficially owned a majority of TMHC's voting securities. The Principal Equityholders, together with management and our Board of Directors, currently collectively control 39.5% of the voting power of TMHC, and following this offering will continue to control 31.1% of the voting power of TMHC.

TPG

TPG is a leading global alternative investment firm founded in 1992 with more than \$73 billion of assets under management as of June 30, 2017 and offices in San Francisco, Fort Worth, Austin, Beijing, Boston, Dallas, Hong Kong, Houston, London, Luxembourg, Melbourne, Moscow, Mumbai, New York, Seoul and Singapore.

Oaktree

Oaktree Capital Management, L.P. (Oaktree Capital Management), together with its affiliates, is a leader among global investment managers specializing in alternative investments, with \$101 billion in assets under management as of December 31, 2016. The firm emphasizes an opportunistic, value-oriented and risk-controlled approach to investments in distressed debt, corporate debt (including high yield debt and senior loans), control investing, convertible securities, real estate and listed equities. Headquartered in Los Angeles, the firm has over 900 employees and offices in 18 cities worldwide.

Issuer Taylor Morrison Home Corporation.

Class A common stock offered 10,000,000 shares.

Class A common stock outstanding As of November 1, 2017, we had 72,364,924 shares of Class A common stock outstanding. After giving effect to this offering and the use of proceeds therefrom, as of November 1, 2017, we would have had 82,364,924 shares of Class A common stock outstanding.

Class B common stock to be outstanding after this offering and use of proceeds therefrom As of November 1, 2017, we had 47,193,672 shares of Class B common stock outstanding. After giving effect to this offering and the use of proceeds therefrom, as of November 1, 2017, we would have had 37,193,672 shares of Class B common stock outstanding.

Each share of our Class B common stock has one vote on all matters submitted to a vote of stockholders but has no economic rights (including no rights to dividends or distributions upon liquidation). Shares of our Class B common stock are held by the TPG and Oaktree holding vehicles and certain members of our management and our Board of Directors, in an amount equal to the number of New TMM Units held by these holding vehicles and certain members of our management and our Board of Directors, respectively. The aggregate voting power of the outstanding Class B common stock is equal to the aggregate percentage of New TMM Units held by the TPG and Oaktree holding vehicles and certain members of our management and our Board of Directors. See the section entitled "Description of the capital stock" in the accompanying prospectus. New TMM Units (along with a corresponding number of shares of our Class B common stock) held by the TPG and Oaktree holding vehicles and certain members of our management and our Board of Directors may be exchanged at any time for shares of our Class A common stock on a one-for-one basis, subject to customary exchange rate adjustments for stock splits, stock dividends and reclassifications. When a New TMM Unit and the corresponding share of our Class B common stock are exchanged by a limited partner of New TMM for a share of Class A common stock, the corresponding share of our Class B common stock will be canceled.

Voting rights One vote per share; Class A common stock and Class B common stock vote together as a single class on all matters submitted to a vote of stockholders. See the section entitled "Description of the capital stock" in the accompanying prospectus incorporated herein by reference.

Use of proceeds We estimate that the net proceeds from the sale of our Class A common stock in this offering before the payment of expenses will be approximately \$229.5 million. TMHC will use all of the net proceeds to purchase New TMM Units (at a price equal to the price paid by the underwriters for shares of our Class A common stock in this offering) from the TPG and Oaktree holding vehicles. For additional information, see Use of Proceeds.

Dividend policy We do not intend to pay dividends on our Class A common stock or to make distributions from New TMM to its limited partners (other than to TMHC to fund its operations). We plan to retain any earnings for use in the operation of our business and to fund future growth.

Listing Our Class A common stock is listed on the New York Stock Exchange under the symbol TMHC.

Risk factors Investing in our Class A common stock involves a high degree of risk. You should carefully read and consider the information under Risk Factors, together with all of the other information set forth or incorporated by reference in this prospectus supplement and the accompanying prospectus, before deciding to invest in our Class A common stock.

The number of shares of Class A common stock outstanding as of November 1, 2017 excludes 2,879,392 shares of Class A common stock that are subject to options outstanding as of November 1, 2017, under the Taylor Morrison 2013 Omnibus Equity Incentive Plan (as amended and restated, the 2013 Plan) with a weighted average exercise price of \$17.52 per share of Class A common stock, of which 1,967,728 are unvested, and 1,873,942 shares of Class A common stock that are issuable under restricted stock units outstanding as of November 1, 2017, under the 2013 Plan. In addition, as of November 1, 2017, there were 8,990,360 shares of Class A common stock reserved for issuance in respect of stock options, restricted stock units or other awards pursuant to the 2013 Plan. Table of Contents**Summary historical consolidated financial and other information**

We have presented below summary historical financial information of TMHC and its consolidated subsidiaries for the periods presented.

In connection with the decision to sell our Canadian business in December 2014, the operating results associated with our Canadian business are classified as discontinued operations. See Note 1 and Note 5 to the consolidated financial statements of TMHC, incorporated by reference in this prospectus supplement, for information regarding the treatment of that segment as discontinued operations. Our Canadian business was sold to a third-party on January 28, 2015.

The summary consolidated financial information of TMHC set forth below as of and for the years ended December 31, 2016, December 31, 2015 and December 31, 2014 has been derived from the audited consolidated financial statements of TMHC. The summary consolidated financial information of TMHC set forth below as of and for the nine months ended September 30, 2017 and September 30, 2016 has been derived from unaudited consolidated financial statements of TMHC. In each case, such financial statements are incorporated by reference in this prospectus supplement and the accompanying prospectus.

The summary historical consolidated financial information presented below does not purport to be indicative of results of future operations and should be read together with the Consolidated and Combined Financial Statements and related notes of TMHC, which are incorporated by reference herein, and the information included under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations incorporated by reference in this prospectus supplement from each of TMHC's annual report on Form 10-K for the year ended December 31, 2016 and TMHC's quarterly report on Form 10-Q for the quarter ended September 30, 2017, as well as the information under the captions Use of Proceeds and Capitalization in this prospectus supplement.

- (1) Represents income attributable to non-controlling interests in TMM Holdings that are owned by the Principal Equityholders.
- (2) Interest incurred is interest accrued on debt, whether or not paid and whether or not capitalized. Interest incurred includes debt issuance costs, modification fees and waiver fees. Interest incurred is generally capitalized to inventory but is expensed when assets that qualify for interest capitalization no longer exceed debt.
- (3) EBITDA and Adjusted EBITDA are non-GAAP financial measures used by management and our local divisions in evaluating operating performance and in making strategic decisions regarding sales pricing, construction and development pace, product mix and other operating decisions. EBITDA measures performance by adjusting net income to exclude interest, income taxes, depreciation and amortization. Adjusted EBITDA consists of EBITDA, adjusting for management fees paid to our Principal Equityholders, non-cash compensation expenses, gain on foreign currency forward, expenses related to the early extinguishment of debt and transaction fees and expenses and indemnification losses related to the Acquisition, the Reorganization Transaction and our initial public offering.

Management believes that the presentation of Adjusted EBITDA provides useful information to investors regarding our results of operations because it assists both investors and management in analyzing and benchmarking the performance and value of our business. Adjusted EBITDA provides an indicator of general economic performance that is not affected by fluctuations in interest rates or effective tax rates, levels of depreciation or amortization, or non-recurring items. Accordingly, our management believes that this measurement is useful for comparing general operating performance from period to period. Furthermore, the agreements governing our indebtedness contain

covenants and other tests based on metrics similar to Adjusted EBITDA. The method of calculating Adjusted EBITDA for the periods presented in this prospectus supplement does not differ in any material respect from the method used for calculating Adjusted EBITDA for such periods if they were used for purposes of our indebtedness covenants. Our indebtedness covenants are generally based on Adjusted EBITDA for the trailing twelve-month period, a period not presented in this prospectus supplement. Nevertheless, based on conditions existing at the time of calculation, the calculation of Adjusted EBITDA for the indebtedness covenants may, in the future, include items (including items deemed non-recurring or unusual and certain pro forma cost savings) that are different from those that are currently reflected in the presentation of Adjusted EBITDA in this prospectus supplement. Other companies may define Adjusted EBITDA differently and, as a result, our measure of Adjusted EBITDA may not be directly comparable to Adjusted EBITDA of other companies. Although we use Adjusted EBITDA as a financial measure to assess the performance of our business, the use of Adjusted EBITDA is limited because it does not include certain material costs, such as interest and taxes, necessary to operate our business.

Adjusted EBITDA should be considered in addition to, and not as a substitute for, net income in accordance with U.S. GAAP as a measure of performance. Our presentation of EBITDA and Adjusted EBITDA should not be construed as an indication that our future results will be unaffected by unusual or nonrecurring items. Our EBITDA-based measures have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our results as reported under U.S. GAAP. Some of these limitations are:

they do not reflect every cash expenditure, future requirements for capital expenditures or contractual commitments, including for the purchase of land;

they do not reflect the significant interest expense or the cash requirements necessary to service interest or principal payments on our debt;

Table of Contents

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced or require improvements in the future, and our EBITDA-based measures do not reflect any cash requirements for such replacements or improvements;

they are not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows;

they do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations;

they do not reflect limitations on our costs related to transferring earnings from our subsidiaries to us; and

other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.

Because of these limitations, our EBITDA-based measures should not be considered as measures of discretionary cash available to us to invest in the growth of our business or as measures of cash that will be available to us to meet our obligations. We compensate for these limitations by using our EBITDA-based measures along with other comparative tools, together with U.S. GAAP measurements, to assist in the evaluation of operating performance. These U.S. GAAP measurements include operating income (loss), net income (loss), cash flows from operations and cash flow data. We have significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, taxes and other non-recurring charges, which are not reflected in our EBITDA-based measures.

Our EBITDA-based measures are not intended as alternatives to net income (loss) as indicators of our operating performance, as alternatives to any other measure of performance in conformity with U.S. GAAP or as alternatives to cash flow provided by operating activities as measures of liquidity. You should therefore not place undue reliance on our EBITDA-based measures or ratios calculated using those measures. Our U.S. GAAP-based measures can be found in TMHC's consolidated financial statements and related notes incorporated by reference in this prospectus supplement.

- (a) Represents the interest amortized through cost of home and land closings.
- (b) Represents non-cash compensation expense related to the vesting of equity awards, including stock options and shares of restricted stock, granted to certain members of management and members of the Board of Directors.
- (c) The 2015 figure reflects the redemption premium and write-off of unamortized deferred financing costs related to the retirement of \$489.0 million aggregate principal amount of senior notes.
- (4) Net homebuilding debt to capitalization is a non-GAAP financial measure used by management to evaluate our performance and as an indicator of our total leverage, which we calculate by dividing (i) total debt, less unamortized debt issuance costs and mortgage warehouse borrowings, net of unrestricted cash and cash equivalents, by (ii) total capitalization (the sum of net homebuilding debt and total stockholders' equity). Management uses the ratio of net homebuilding debt to capitalization to evaluate our performance against other companies in the homebuilding industry and believe it is also relevant and useful to investors for that reason.

Risk factors

*An investment in our Class A common stock involves a high degree of risk. Before deciding whether to invest in our Class A common stock, you should consider carefully the risks described below and in the section captioned **Risk Factors** contained in our Annual Report on Form 10-K for the year ended December 31, 2016, which are incorporated by reference in this prospectus supplement and the accompanying prospectus in their entirety, together with other information in this prospectus supplement, the accompanying prospectus, the information and documents incorporated by reference, and in any free writing prospectus that we have authorized for use in connection with this offering. If any of the described events actually occur, our business, operating results, prospects or financial condition could be materially and adversely affected. This could cause the trading price of our common stock to decline, and you may lose all or part of your investment. The risks described below and in the document referenced above are not the only ones that we face. Additional risks not presently known to us or that we currently deem immaterial may also affect our business operations.*

Risks related to this offering

The share price for our Class A common stock may fluctuate significantly.

The offering price of our Class A common stock in this offering has been determined by negotiation among us and the representative of the underwriters and may not be representative of the price prevailing in the open market before or after this offering.

The market price of our Class A common stock after this offering may be significantly affected by factors such as quarterly variations in our results of operations, changes in government regulations, the announcement of new contracts by us or our competitors, general market conditions specific to the homebuilding industry, changes in general economic conditions, volatility in the financial markets, differences between our actual financial and operating results and those expected by investors and analysts and changes in analysts' recommendations or projections. These fluctuations may adversely affect the market price of our Class A common stock and cause you to lose all or a portion of your investment.

These and other factors may lower the market price of our Class A common stock, regardless of our actual operating performance. As a result, our Class A common stock may trade at prices significantly below the public offering price.

Furthermore, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies, including companies in our industry. The changes frequently appear to occur without regard to the operating performance of the affected companies. Hence, the market price of our Class A common stock could fluctuate based upon factors that have little or nothing to do with us, and these fluctuations could materially reduce the market price of our Class A common stock and materially affect the value of your investment.

A substantial portion of our total outstanding shares may be sold into the market at any time. This could cause the market price of our Class A common stock to drop significantly, even if our business is doing well.

The market price of our Class A common stock could decline as a result of sales of a large number of shares of our Class A common stock or the perception that such sales could occur. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and price that we deem appropriate. As of November 1, 2017, after giving effect to this offering and the use of the net proceeds therefrom, we would have had 82,364,924 shares of Class A common stock outstanding.

In addition, upon consummation of this offering, the TPG and Oaktree holding vehicles and certain members of our management and our Board of Directors will beneficially own an aggregate of approximately 31.1% of the outstanding partnership interests in New TMM and 37,193,672 shares of our outstanding Class B common stock. In addition, affiliates of TPG, other than the TPG holding vehicle, own an additional approximately 1.5 million shares of our Class A common stock. Pursuant to the terms of the Exchange Agreement (the Exchange Agreement), dated as of April 9, 2013, by and among the Company, the Principal Equityholders and certain members of the Company's management, the limited partners of New TMM (other than TMHC) are able to exchange their New TMM Units (along with the corresponding number of shares of our Class B common stock) for shares of our Class A common stock on a one-for-one basis. Shares of our Class A common stock issuable to the limited partners of New TMM upon an exchange of New TMM Units as described above would be considered restricted securities, as that term is defined in Rule 144 under the Securities Act of 1933, as amended (the Securities Act), unless the exchange is registered under the Securities Act. We and certain of the existing holders of New TMM Units who are party to the Exchange Agreement and certain holders of our Class A common stock will also agree with the underwriters not to sell, otherwise dispose of or hedge any Class A common stock or securities convertible or exchangeable for shares of Class A common stock, including the New TMM Units and the Class B common stock, subject to specified exceptions, during the period from the date of this prospectus supplement continuing through the date that is 45 days after the date of this prospectus supplement, except with the prior written consent of the representative of the underwriters. After the expiration of the 45-day lock-up period, these shares of Class A common stock, including the shares issuable upon exchange of New TMM Units, will be eligible for resale from time to time, subject to certain contractual restrictions and the requirements of the Securities Act.

We have two effective registration statements under the Securities Act, which registered 14,178,459 shares of our Class A common stock reserved for issuance under our 2013 Plan, and an effective shelf registration statement under the Securities Act, which registered the resale of 1,401,296 shares of our Class A common stock issuable upon exchange of New TMM Units (and corresponding shares of Class B common stock) by certain members of our management.

If we raise additional capital through the issuance of new equity securities at a price lower than the offering price, you will incur dilution.

If we raise additional capital through the issuance of new equity securities at a lower price than the offering price, you will be subject to dilution, which could cause you to lose all or a portion of your investment. If we are unable to access the public markets in the future, or if our performance or prospects decrease, we may need to consummate a private placement or public offering of our Class A common stock at a lower price than the offering price. In addition, any new securities may have rights, preferences or privileges senior to those securities held by you.

We do not expect to pay any dividends in the foreseeable future.

In the past we have not paid dividends on our Class A common stock. We do not currently intend to pay dividends on our Class A common stock and we intend to retain our future earnings, if any, to fund the development and growth of our business. In addition, the terms of certain existing and any future debt agreements may preclude us from paying dividends. As a result, capital appreciation, if any, of our Class A common stock may be your sole source of gain for the foreseeable future.

Table of Contents

If securities analysts do not publish research or reports about our Company, or if they issue unfavorable commentary about us or our industry or downgrade our Class A common stock, the market price of our Class A common stock could decline.

The trading market for our Class A common stock depends in part on the research and reports that third-party securities analysts publish about our Company and our industry. One or more analysts could downgrade our Class A common stock or issue other negative commentary about our Company or our industry. In addition, we may be unable or slow to attract additional research coverage. Alternatively, if one or more of these analysts cease coverage of our Company, we could lose visibility in the market. As a result of one or more of these factors, the market price of our Class A common stock could decline and cause you to lose all or a portion of your investment.

Non-U.S. Holders may be subject to taxes (including withholding taxes) on payments in connection with a disposition of shares of our Class A common stock.

Because we believe that we are currently a United States real property holding corporation for U.S. federal income tax purposes, upon a sale or disposition of our Class A common stock, Non-U.S. Holders (as defined below) may be subject to tax (including withholding tax) if (a) our Class A common stock ceases to be regularly traded on an established securities market, or (b) our Class A common stock continues to be regularly traded on an established securities market, but the Non-U.S. Holder holds (or within the last five years has held) Class A common stock with a fair market value on the relevant date of determination that is greater than 5% of the total fair market value of our Class A common stock on such date. See Material U.S. Federal Income Tax Considerations for Non-U.S. Holders of Class A Common Stock.

Risks related to our structure and organization

Our only asset is our interest in New TMM and, accordingly, we are dependent upon distributions from New TMM to pay dividends, if any, taxes and other expenses. New TMM is a holding company with no operations of its own and, in turn, relies on distributions from TMM Holdings and its operating subsidiaries.

We are a holding company and have no assets other than our ownership, directly or indirectly, of New TMM Units. We have no independent means of generating revenue. We intend to cause New TMM to make distributions to its partners in an amount sufficient to cover all applicable taxes payable and dividends, if any, declared by us. To the extent that we need funds, and New TMM is restricted from making such distributions under applicable law or regulation, or is otherwise unable to provide such funds, it could materially and adversely affect our liquidity and financial condition. In addition, New TMM has no direct operations and derives all of its cash flow from TMM Holdings and its subsidiaries. Because the operations of our business are conducted through subsidiaries of TMM Holdings, New TMM is dependent on those entities for dividends and other payments to generate the funds necessary to meet the financial obligations of New TMM. Legal and contractual restrictions in the agreements governing the Revolving Credit Facility, certain of the senior notes and other debt agreements governing current and future indebtedness of New TMM's subsidiaries, as well as the financial condition and operating requirements of New TMM's subsidiaries, may limit our ability to obtain cash from New TMM's subsidiaries. The earnings from, or other available assets of, New TMM's subsidiaries may not be sufficient to pay dividends or make distributions or loans to us to enable us to pay any dividends on our Class A Common Stock, taxes and other expenses.

The principal equityholders have substantial influence over our business, and their interests may differ from our interests or those of our other stockholders.

Following this offering, the Principal Equityholders, via the TPG and Oaktree holding vehicles, as well as certain other affiliates of TPG, will continue to hold a significant amount of the combined voting power of our Company.

The interests of our Principal Equityholders may differ from our interests or those of our other stockholders and the concentration of control in our Principal Equityholders will limit other stockholders' ability to influence corporate matters. The concentration of ownership and voting power of our Principal Equityholders may also delay, defer or even prevent an acquisition by a third party or other change of control of the Company and may make some transactions more difficult or impossible without the support of our Principal Equityholders, even if such events are perceived by the other stockholders as being in their best interest. The concentration of voting power among our Principal Equityholders may have an adverse effect on the price of our Class A Common Stock. We may take actions that our other stockholders do not view as beneficial, which may adversely affect our results of operations and financial condition and cause the value of your investment to decline.

Section 203 of the Delaware General Corporation Law may affect the ability of an interested stockholder to engage in certain business combinations, including mergers, consolidations or acquisitions of additional shares, for a period of three years following the time that the stockholder becomes an interested stockholder. An interested stockholder is defined to include persons owning directly or indirectly 15% or more of the outstanding voting stock of a corporation. We have elected in our amended and restated certificate of incorporation not to be subject to Section 203 of the Delaware General Corporation Law. Nevertheless, our amended and restated certificate of incorporation contains provisions that have the same effect as Section 203 of the Delaware General Corporation Law, except that they provide that TPG and Oaktree and their respective affiliates and transferees will not be deemed to be interested stockholders, regardless of the percentage of our voting stock owned by them and, accordingly, will not be subject to such restrictions.

In addition, because the Principal Equityholders hold the vast majority of their economic interest in our business through New TMM, but not through us, the public company, these existing owners may have conflicting interests with holders of shares of our Class A Common Stock.

As a result of the public secondary offering of our Class A Common Stock that we completed on May 5, 2017 and the use of proceeds therefrom (the May 2017 Offering), we are no longer a controlled company within the meaning of the corporate governance rules of the New York Stock Exchange and we are subject to additional governance requirements under such rules.

A controlled company is a company of which more than 50% of the voting power for the election of directors is held by an individual, group or another company.

Following the May 2017 Offering, affiliates of TPG and Oaktree no longer hold more than 50% of our voting power. As a result, we are subject to additional governance requirements under New York Stock Exchange rules, including the requirements to have (i) a majority of independent directors on our board of directors, (ii) a nominating and corporate governance committee that is composed entirely of independent directors, and (iii) a compensation committee that is composed entirely of independent directors. The New York Stock Exchange rules provide for phase-in periods for these requirements and we must be fully compliant with the new requirements prior to May 5, 2018.

During the transition period following our ceasing to be a controlled company, holders of our Class A Common Stock may not have the same protection afforded to stockholders of companies that are subject to all of the corporate governance requirements of the New York Stock Exchange and the ability of our independent directors to influence our business policies and affairs may be reduced.

Table of Contents

Our directors who have relationships with the Principal Equityholders may have conflicts of interest with respect to matters involving the Company.

Following this offering, four of our remaining nine directors will be affiliated with the Principal Equityholders. These persons have fiduciary duties to us and in addition have duties to the Principal Equityholders. In addition, our amended and restated certificate of incorporation provides that no officer or director of our Company who is also an officer, director, employee or other affiliate of the Principal Equityholders or an officer, director or employee of an affiliate of the Principal Equityholders will be liable to us or our stockholders for breach of any fiduciary duty by reason of the fact that any such individual directs a corporate opportunity to the Principal Equityholders or their affiliates instead of us, or does not communicate information regarding a corporate opportunity to us that such person or affiliate has directed to the Principal Equityholders or their affiliates. As a result, such circumstances may entail real or apparent conflicts of interest with respect to matters affecting both us and the Principal Equityholders, whose interests, in some circumstances, may be adverse to those of ours. In addition, as a result of the Principal Equityholders' indirect ownership interest, conflicts of interest could arise with respect to transactions involving business dealings between us and the Principal Equityholders or their affiliates, including potential business transactions, potential acquisitions of businesses or properties, the issuance of additional securities, the payment of dividends by us and other matters.

Failure to maintain effective internal control over financial reporting could have an adverse effect on our business, operating results and the trading price of our securities.

As a public company we are required to document and test our internal control procedures to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act and the related rules of the SEC, which require, among other things, our management to assess annually the effectiveness of our internal control over financial reporting and our independent registered public accounting firm to issue a report on our internal control over financial reporting. If our management is unable to certify the effectiveness of our internal controls or if our independent registered public accounting firm cannot render an opinion on management's assessment and on the effectiveness of our internal control over financial reporting, or if material weaknesses in our internal controls are identified, it could lead to material misstatements in our financial statements, we may be unable to meet our disclosure obligations and investors could lose confidence in our reported financial information. Failure to comply with Section 404 of the Sarbanes-Oxley Act could potentially subject us to sanctions or investigations by the SEC, the Financial Industry Regulatory Authority or other regulatory authorities.

Provisions in our charter and bylaws and provisions of Delaware law may delay or prevent our acquisition by a third party, which might diminish the value of our Class A common stock. Provisions in our debt agreements may also require an acquirer to refinance our outstanding indebtedness if a change of control occurs.

Our amended and restated certificate of incorporation and our bylaws contain certain provisions that may discourage, delay or prevent a change in our management or control over us that stockholders may consider favorable, including the following:

the division of our Board of Directors into three classes and the election of each class for three-year terms;

the sole ability of the Board of Directors to fill a vacancy created by the expansion of the Board of Directors;

advance notice requirements for stockholder proposals and director nominations;

limitations on the ability of stockholders to call special meetings and to take action by written consent;

in certain cases, the approval of holders of at least three-fourths of the shares entitled to vote generally on the making, alteration, amendment or repeal of our certificate of incorporation or bylaws will be required to adopt, amend or repeal our bylaws, or amend or repeal certain provisions of our certificate of incorporation;

S-21

Table of Contents

the required approval of holders of at least three-fourths of the shares entitled to vote at an election of the directors to remove directors, which removal may only be for cause; and

the ability of our Board of Directors to designate the terms of and issue new series of preferred stock without stockholder approval, which could be used, among other things, to institute a rights plan that would have the effect of significantly diluting the stock ownership of a potential hostile acquirer, likely preventing acquisitions that have not been approved by our Board of Directors.

Section 203 of the Delaware General Corporation Law may affect the ability of an interested stockholder to engage in certain business combinations for a period of three years following the time that the stockholder becomes an interested stockholder. We have elected in our amended and restated certificate of incorporation not to be subject to Section 203 of the Delaware General Corporation Law. Nevertheless, our amended and restated certificate of incorporation contains provisions that have the same effect as Section 203 of the Delaware General Corporation Law, except that they provide that TPG and Oaktree and their respective affiliates and transferees will not be deemed to be interested stockholders. Accordingly, they will not be subject to such restrictions.

The existence of the foregoing provisions and anti-takeover measures could limit the price that investors might be willing to pay in the future for shares of our common stock. They could also deter potential acquirers of our Company, thereby reducing the likelihood that you could receive a premium for your common stock in an acquisition. For more information, please see the section entitled "Description of the capital stock" in the accompanying prospectus.

Under our Revolving Credit Facility, a change of control would be an event of default, which would therefore require a third-party acquirer to obtain a facility to refinance any outstanding indebtedness under the Revolving Credit Facility. Under the indentures governing our senior notes, if a change of control were to occur, we would be required to make offers to repurchase the senior notes at prices equal to 101% of their respective principal amounts. These change of control provisions in our existing debt agreements may also delay or diminish the value of an acquisition by a third party.

We indirectly own an interest in a controlled foreign corporation.

Both currently and immediately following this offering we will own more than a 50% interest, measured by both vote and value, indirectly through New TMM and TMM Holdings, in a Canadian corporation. As a result, we expect that the Canadian corporation will be classified as a controlled foreign corporation (a "CFC") for U.S. federal income tax purposes, and that we will be a "U.S. Shareholder" of the Canadian corporation. Under U.S. federal income tax rules applicable to CFCs and their shareholders, in certain circumstances a U.S. Shareholder of a CFC is required to include currently in its income its proportionate share of certain categories of the CFC's current earnings and profits, regardless of whether any amounts are actually distributed by the CFC. As a result, there could be adverse tax consequences to us because the Canadian corporation is classified as a CFC.

Table of Contents**Use of proceeds**

We estimate that our net proceeds from the sale of 10,000,000 shares of Class A common stock by us in this offering will be approximately \$229.5 million, before expenses.

TMHC will use all of the net proceeds from this offering to purchase New TMM Units (at a price equal to the price paid by the underwriters for shares of our Class A common stock in this offering) held by the TPG and Oaktree holding vehicles. We expect that the purchase of the New TMM Units from the TPG and Oaktree holding vehicles will be consummated at the closing of this offering. We will use cash on hand to pay the estimated \$500,000 of expenses (other than underwriting commissions and discounts) in connection with this offering.

The following table sets forth the cash proceeds the TPG and Oaktree holding vehicles will receive from the purchase by us of New TMM Units (and corresponding shares of Class B common stock) with the proceeds from this offering:

Name:	Number of New TMM Units immediately prior to the offering	Number of New TMM Units sold in connection with the offering	Cash proceeds	Number of New TMM Units immediately following the offering
Oaktree holding vehicle	23,147,847	5,000,000	\$ 114,750,000	18,147,847
TPG holding vehicle(1)	23,147,848	5,000,000	114,750,000	18,147,848

(1) In addition, affiliates of TPG, other than the TPG holding vehicle, hold approximately 1.5 million shares of Class A common stock, which are not reflected above.

High	\$ 22.17	\$ 24.77	\$ 24.79	\$ 24.25
Low	18.26	20.87	19.68	21.95

The closing price of our Class A common stock on November 7, 2017 was \$23.10.

Our Class B common stock is not listed on a securities exchange. On November 1, 2017, we had 29 holders of our Class B common stock.

Dividend policy

We currently anticipate that we will retain all available funds for use in the operation and expansion of our business, and do not anticipate paying any cash dividends in the foreseeable future or to make distributions from New TMM to its limited partners (other than to TMHC to fund its operations). TMHC has not previously declared or paid any cash dividends on its common stock.

Any future determination as to our dividend policy will be made at the discretion of our Board of Directors and will depend upon many factors, including our financial condition, earnings, legal requirements, restrictions in our debt agreements, including those governing the Revolving Credit Facility and our senior notes, that limit our access to funds available to pay dividends to stockholders, and other factors our Board of Directors deems relevant.

Material U.S. federal income tax considerations for NON-U.S. holders of class a common stock

The following is a general discussion of certain U.S. federal income tax considerations with respect to the ownership and disposition of our Class A common stock applicable to Non-U.S. Holders (as defined below). This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended, or (the Code), existing and proposed U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect. No opinion of counsel has been obtained, and we do not intend to seek a ruling from the Internal Revenue Service (the IRS) as to any of the tax considerations described below. There can be no assurance that the IRS will not challenge one or more of the tax considerations described below.

This discussion only addresses beneficial owners of our Class A common stock, and it is assumed for purposes of this discussion that Non-U.S. Holders hold shares of our Class A common stock as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a Non-U.S. Holder in light of such Non-U.S. Holder's particular circumstances or that may be applicable to Non-U.S. Holders subject to special treatment under U.S. federal income tax law (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, Non-U.S. Holders who acquire our Class A common stock pursuant to the exercise of employee stock options or otherwise as compensation, entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein), Non-U.S. Holders liable for the alternative minimum tax, controlled foreign corporations, passive foreign investment companies, companies that accumulate earnings to avoid U.S. federal income tax, former citizens or former long-term residents of the United States, except as described below, holders of more than 5%, directly or by attribution, of our Class A common stock and Non-U.S. Holders who hold our Class A common stock as part of a hedge, straddle, constructive sale or conversion transaction). In addition, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax (such as U.S. federal estate tax or the Medicare contribution tax on certain net investment income), nor does it address any aspects of U.S. state, local or non-U.S. taxes. Non-U.S. Holders are urged to consult with their own tax advisors regarding the possible application of these taxes.

For the purposes of this discussion, the term Non-U.S. Holder means a beneficial owner of our Class A common stock that is an individual, corporation, estate or trust, other than:

an individual who is a citizen or resident of the United States, as determined for U.S. federal income tax purposes;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more U.S. persons (as defined in the Code) have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a domestic trust.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our Class A common stock, the tax treatment of a person treated as a partner generally will depend on the status of

Table of Contents

the partner and the activities of the partnership. Persons that, for U.S. federal income tax purposes, are treated as a partner in a partnership holding shares of our Class A common stock should consult their own tax advisors.

THIS SUMMARY IS FOR GENERAL INFORMATION ONLY AND IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK. HOLDERS OF OUR CLASS A COMMON STOCK ARE URGED TO CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF OTHER U.S. FEDERAL TAX LAWS AND ANY STATE, LOCAL, NON-U.S. INCOME AND OTHER TAX LAWS) OF THE OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK.

Dividends

Distributions of cash or property that we pay in respect of our Class A common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Except as described below under *Effectively Connected Income*, a Non-U.S. Holder generally will be subject to U.S. federal withholding tax at a 30% rate, or at a reduced rate prescribed by an applicable income tax treaty, on any dividends received in respect of our Class A common stock. If the amount of the distribution exceeds our current and accumulated earnings and profits, such excess first will be treated as a return of capital to the extent of the Non-U.S. Holder's tax basis in our Class A common stock, and thereafter will be treated as capital gain. However, except to the extent that we elect (or the paying agent or other intermediary through which a Non-U.S. Holder holds our Class A common stock elects) otherwise, we (or the intermediary) must generally withhold on the entire distribution, in which case the Non-U.S. Holder would be entitled to a refund from the IRS for the withholding tax on the portion of the distribution that exceeded our current and accumulated earnings and profits. In order to obtain a reduced rate of U.S. federal withholding tax under an applicable income tax treaty, a Non-U.S. Holder will be required to provide a properly executed IRS Form W-8BEN or Form W-8BEN-E (or successor form) certifying such stockholder's entitlement to benefits under the treaty. If a Non-U.S. Holder is eligible for a reduced rate of U.S. federal withholding tax under an income tax treaty, the Non-U.S. Holder may obtain a refund or credit of any excess amounts withheld by filing an appropriate claim for a refund with the IRS. Non-U.S. Holders are urged to consult their own tax advisors regarding possible entitlement to benefits under an income tax treaty.

Gain on disposition of our Class A common stock

Subject to the discussion below under *Information Reporting and Backup Withholding* and *FATCA*, a Non-U.S. Holder generally will not be subject to U.S. federal income tax or withholding tax on any gain realized upon the sale or other taxable disposition of our Class A common stock unless:

the gain is effectively connected with the conduct, by such Non-U.S. Holder, of a trade or business in the United States, and if an applicable income tax treaty applies, is attributable to a U.S. permanent establishment, in which case the gain will be subject to tax in the manner described below under *Effectively Connected Income* ;

the Non-U.S. Holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met, in which case the gain (reduced by any U.S.-source capital losses) will be subject to a 30% (or a lower applicable income tax treaty rate) tax; or

we are, or have been, a United States real property holding corporation (*USRPHC*), for U.S. federal income tax purposes, at any time during the shorter of the five-year period preceding such disposition and the Non-U.S. Holder's holding period in our Class A common stock; *provided*, that so long as our Class A common stock is regularly traded on an established securities market, a Non-U.S. Holder generally would be

Table of Contents

subject to taxation with respect to a taxable disposition of our Class A common stock, only if at any time during that five-year or shorter period it owned more than 5%, directly or by attribution, of our Class A common stock.

Under U.S. federal income tax laws, we will be a USRPHC if at least 50% of the fair market value of our assets consists of United States real property interests (USRPIs). We believe that we are currently a USRPHC based upon the composition of our assets. Accordingly, any taxable gains recognized by a Non-U.S. Holder that meets the ownership requirements described in the third bullet point above on the sale or other taxable disposition of our Class A common stock will be subject to tax as if the gain were effectively connected with the conduct of the Non-U.S. Holder's trade or business in the United States (except that the branch profits tax would not apply) so long as we remain a USRPHC or were a USRPHC at any time during the period described in such bullet. See *Effectively Connected Income*. In addition, if our Class A common stock ceases to be regularly traded on an established securities market, upon the Non-U.S. Holder's sale or other taxable exchange of our Class A common stock, the transferee in such exchange would generally be required, under U.S. federal income tax laws, to withhold tax in an amount equal to 15% of the amount realized by the Non-U.S. Holder on the exchange. The rules regarding USRPIs are complex, and Non-U.S. Holders are urged to consult with their own tax advisors on the application of these rules based on their particular circumstances.

Effectively connected income

If a dividend received on our Class A common stock, or gain from a sale or other taxable disposition of our Class A common stock, is treated as effectively connected with a Non-U.S. Holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to such Non-U.S. Holder's U.S. permanent establishment), such Non-U.S. Holder will generally be exempt from withholding tax on any such dividend and any gain realized on such a disposition, provided such Non-U.S. Holder complies with certain certification requirements (generally on IRS Form W-8ECI). Instead, such Non-U.S. Holder will generally be subject to U.S. federal income tax on a net income basis on any such gains or dividends in the same manner as if such holder were a U.S. person (as defined in the Code) unless an applicable income tax treaty provides otherwise. In addition, a Non-U.S. Holder that is a foreign corporation may be subject to a branch profits tax at a rate of 30% (or a lower rate provided by an applicable income tax treaty) on such holder's earnings and profits for the taxable year that are effectively connected with such holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to such holder's U.S. permanent establishment), subject to adjustments.

Information reporting and backup withholding

Generally, we must report to our Non-U.S. Holders and the IRS the amount of dividends paid during each calendar year, if any, and the amount of any tax withheld. These information reporting requirements apply even if no withholding is required (e.g., because the distributions are effectively connected with the Non-U.S. Holder's conduct of a United States trade or business, or withholding is eliminated by an applicable income tax treaty). This information may also be made available under a specific treaty or agreement with the tax authorities in the country in which the Non-U.S. Holder resides or is established.

Backup withholding, however, generally will not apply to distributions payable to a Non-U.S. Holder of shares of our Class A common stock provided the Non-U.S. Holder furnishes to us or our paying agent the required certification as to its non-U.S. status, such as by providing a valid IRS Form W-8BEN, Form W-8BEN-E or Form W-8ECI, or certain other requirements are met. Notwithstanding the foregoing, backup withholding may apply if either we or our paying agent has actual knowledge, or reason to know, that the Non-U.S. Holder is a U.S. person (as defined in the Code) that is not an exempt recipient.

Table of Contents

Payments on the sale or other taxable disposition of our Class A common stock made to or through a foreign office of a foreign broker generally will not be subject to backup withholding or information reporting. However, if such broker is, for U.S. federal income tax purposes: a U.S. person, a controlled foreign corporation, a foreign person 50% or more of whose gross income is effectively connected with a U.S. trade or business for a specified three-year period or a foreign partnership with certain connections to the United States, then information reporting will be required unless the broker has in its records documentary evidence that the Non-U.S. Holder is not a U.S. person (as defined in the Code) and certain other conditions are met or the Non-U.S. Holder otherwise establishes an exemption. Backup withholding may apply to any payment that such broker is required to report if the broker has actual knowledge, or reason to know, that the payee is a U.S. person. Payments to or through the U.S. office of a broker will be subject to backup withholding and information reporting unless the Non-U.S. Holder certifies, under penalties of perjury, that it is not a U.S. person, or otherwise establishes an exemption.

Backup withholding is not an additional tax but merely an advance payment, which may be credited against a Non-U.S. Holder's U.S. federal income tax liability or refunded to the extent it results in an overpayment of tax and the appropriate information is timely supplied by the Non-U.S. Holder to the IRS.

FATCA

Pursuant to Sections 1471 through 1474 of the Code and related U.S. Treasury guidance commonly referred to as the Foreign Account Tax Compliance Act, or FATCA, foreign financial institutions (which include most foreign hedge funds, private equity funds, mutual funds, securitization vehicles and any other investment vehicles) and certain other foreign entities generally must comply with information reporting rules and due diligence requirements with respect to their U.S. account holders and investors or be subject to a withholding tax on U.S.-source payments made to them (whether received as a beneficial owner or as an intermediary for another party). More specifically, a foreign financial institution or other foreign entity that does not comply with the FATCA reporting requirements and due diligence will generally be subject to a 30% withholding tax with respect to any withholdable payments. For this purpose, withholdable payments generally include U.S.-source payments otherwise subject to nonresident withholding tax (e.g., U.S.-source dividends) and also include the entire gross proceeds from the sale or other disposition of any equity or debt instruments of U.S. issuers. The FATCA withholding tax will apply even if the payment would otherwise not be subject to U.S. nonresident withholding tax (e.g., because it is capital gain). Administrative guidance from the IRS defers this withholding obligation for gross proceeds from dispositions of U.S. common stock until January 1, 2019.

Non-U.S. Holders are urged to consult with their own tax advisors regarding the effect, if any, of the FATCA provisions to them based on their particular circumstances.

Table of Contents**Underwriting**

Citigroup Global Markets Inc. is acting as representative of the underwriters named below. Under the terms and subject to the conditions contained in an underwriting agreement dated as of the date of this prospectus supplement, we have agreed to sell to such underwriters, and each underwriter has agreed to purchase the number of shares of our Class A common stock listed next to its name in the following table:

Name	Number of Shares
Citigroup Global Markets Inc.	5,000,000
Morgan Stanley & Co. LLC	5,000,000
Total	10,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriting agreement provides that the underwriters are obligated to purchase all the shares of Class A common stock in this offering if any are purchased. Sales of Class A common stock made outside of the United States may be made by affiliates of the underwriters. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Subject to certain conditions, the underwriters have agreed to purchase the shares of Class A common stock at a price equal to \$22.95 per share. The underwriters propose to offer the shares of Class A common stock for sale from time to time in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. The underwriters may effect such transactions by selling the shares of Class A common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions, or commissions from the underwriters and/or purchasers of shares for whom they may act as agents or to whom they may sell as principal. The underwriters may change the offering price and other selling terms. The difference between the price at which the underwriters purchase the Class A common stock and the price at which the underwriters resell such Class A common stock may be deemed underwriting compensation. The underwriters may receive from purchasers of the Class A common stock nominal brokerage commissions in amounts agreed with the purchasers.

The Company will use cash on hand to pay the estimated \$500,000 of expenses (other than underwriting commissions and discounts) in connection with this offering.

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our Class A common stock or securities convertible into or exchangeable or exercisable for any shares of our Class A common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing or enter into any swap, hedge or other agreement that transfers, in whole or in part, any of the economic consequences of our Class A common stock or securities convertible into or exchangeable or exercisable for any of our Class A common stock, without the prior written consent of the representative, for a period of 45 days after the date of this prospectus supplement.

Notwithstanding the foregoing, the restrictions set forth above shall not apply to, among certain other customary exceptions, our issuance of Class A common stock or securities convertible into Class A common stock in connection with an acquisition or business combination to the extent such issuance is limited to an amount equal to 5% of the total shares of Class A common stock outstanding immediately after the completion

of the offering (assuming that all partnership interests in New TMM and corresponding shares of Class B common stock outstanding immediately after the completion of the offering are exchanged for shares of Class A common stock). The representative in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our directors, executive officers and the TPG and Oaktree holding vehicles have agreed that they will not, subject to certain exceptions permitting, among other things, transfers of our securities pursuant to a Rule 10b5-1 trading plan established prior to the date of this prospectus supplement, offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file or cause to be filed with the SEC a registration statement under the Securities Act relating to, any shares of our Class A common stock or securities convertible into or exchangeable or exercisable for any shares of our Class A common stock (including New TMM Units and Class B common stock), enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our Class A common stock or securities convertible into or exchangeable or exercisable for any of our Class A common stock, whether any of these transactions are to be settled by delivery of our Class A common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of the representative for a period of 45 days after the date of this prospectus supplement. Notwithstanding the foregoing, the restrictions set forth above shall not apply to, among certain other customary exceptions, sales of New TMM Units and Class B common stock to the Company as described in Use of Proceeds in this prospectus supplement.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Our Class A common stock is listed on the New York Stock Exchange under the symbol TMHC.

In connection with this offering, the representative, on behalf of the underwriters, may purchase and sell shares of Class A common stock in the open market. These transactions may include short sales, purchases to cover short positions and stabilizing transactions, in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Short sales involve sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase.

In a naked short position, the number of shares involved is greater than the number of shares the underwriters are obligated to purchase.

Covering transactions involve purchases of shares in the open market to cover short positions.

A naked short position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in this offering. These purchases to cover short positions and stabilizing transactions, as well as other purchases by the underwriters for their own account, may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that might otherwise exist in the open market in the absence of these transactions. These transactions may be effected on the New York Stock Exchange, or otherwise, and, if commenced, may be discontinued at any time.

A prospectus supplement in electronic format may be made available on the web sites maintained by the underwriters, or selling group members, if any, participating in this offering, and the underwriters participating in this offering may distribute prospectuses electronically. The representative may agree to allocate a number of shares to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

Other relationships

The underwriters and their respective affiliates have performed, and may in the future perform, various investment banking, financial advisory and other services for us, our affiliates and our officers in the ordinary course of business, for which it received, and may receive, customary fees and reimbursement of expenses. In particular, certain of the underwriters acted as an initial purchaser of our 5.25% Senior Notes due 2021, our 5.875% Senior Notes due 2023 and our 5.625% Senior Notes due 2024, and also acted as an underwriter for our offerings of Class A common stock pursuant to our prospectus supplements dated January 31, 2017, March 22, 2017, May 1, 2017 and June 21, 2017. Affiliates of certain of the underwriters also participate in the Revolving Credit Facility. In addition, Citigroup Global Markets Inc. acted as a joint bookrunner for the April 2013 amendment to the Revolving Credit Facility.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to prospective investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of shares described in this prospectus supplement may not be made to the public in that relevant member state other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by us for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive; provided that no such offer of shares shall require us or any underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

Table of Contents

For purposes of this provision, the expression an offer of securities to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe for the shares, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state. The expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto) and includes any relevant implementing measure in the relevant member state.

The sellers of the shares have not authorized and do not authorize the making of any offer of shares through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the shares as contemplated in this prospectus supplement and accompanying prospectus. Accordingly, no purchaser of the shares, other than the underwriters, is authorized to make any further offer of the shares on behalf of the sellers or the underwriters.

Notice to prospective investors in the United Kingdom

This prospectus supplement is only being distributed to, and is only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (each such person being referred to as a relevant person). This prospectus supplement and the accompanying prospectus and their contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.
