DISCUSSION OF NON-GAAP FINANCIAL MEASURES

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from, and therefore may not be comparable to, similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income attributable to Noah shareholders results reflecting adjustments to exclude the impact of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income attributable to Noah shareholders, non-GAAP net income attributable to Noah shareholders per diluted ADS and non-GAAP net margin attributable to Noah shareholders provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. The Company utilized the non-GAAP financial results to make financial results comparable period to period and to better understand its historical business operations.
