## WisdomTree Balanced Income Fund

## Investment Objective

The WisdomTree Balanced Income Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Balanced Income Index (the "Index").

## Fees and Expenses of the Fund

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund's average net assets.

Shareholder Fees (fees paid directly from your investment)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.40%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	0.00% <sup>1</sup>
Acquired Fund Fees and Expenses	0.32% <sup>1</sup>
Total Annual Fund Operating Expenses	0.72% <sup>2</sup>
Fee Waivers	(0.37)% <sup>3</sup>
Total Annual Fund Operating Expenses After Fee Waivers	0.35% <sup>3</sup>

<sup>1</sup> "Other Expenses" and "Acquired Fund Fees and Expenses" are based on estimated amounts for the current fiscal year.

<sup>2</sup> The Total Annual Fund Operating Expenses in this fee table may not correlate to the expense ratios in the Fund's financial highlights and financial statements because the financial highlights and financial statements reflect only the operating expenses of the Fund and do not include Acquired Fund Fees and Expenses, which are fees and expenses incurred indirectly by the Fund through its investments in certain underlying investment companies.

<sup>3</sup> WisdomTree Asset Management, Inc. ("WisdomTree Asset Management" or the "Adviser") has contractually agreed to waive a portion of its Management Fee in an amount equal to the Acquired Fund Fees and Expenses attributable to the Fund's investments in Underlying Funds, as defined below, as well as an additional amount such that Total Annual Fund Operating Expenses After Waivers equals 0.35%, through December 31, 2020, unless earlier terminated by the Board of Trustees of WisdomTree Trust (the "Trust") for any reason at any time.

## Example

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such investors would incur over various periods if they were to invest \$10,000 in the Fund for the time periods indicated and then redeem all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commissions that retail investors may pay to buy and sell shares of the Fund. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 Year 3 Years

\$36 \$113

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares

are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. Because the Fund is newly organized, portfolio turnover information is not yet available.

#### Principal Investment Strategies of the Fund

The Fund employs a "passive management" – or indexing – investment approach designed to track the performance of the Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of the securities in the Index whose risk, return and other characteristics resemble the risk, return and other characteristics of the Index as a whole. Under normal circumstances, at least 80% of the Fund's total assets (exclusive of collateral held from securities lending) will be invested in component securities of the Index and investments that have economic characteristics that are substantially identical to the economic characteristics of such component securities.

2 WisdomTree Trust Prospectus

---

---

**Table of Contents****Table of Contents**

The Index is designed to provide a balanced exposure to global equities and fixed income, including developed and emerging markets. The Index is comprised of exchange traded funds (“ETFs”) with approximately a 60% allocation to equities and a 40% allocation to fixed income. The ETFs comprising the Index, which may include WisdomTree ETFs and non-WisdomTree ETFs, must trade on a U.S. stock exchange and are reconstituted and rebalanced annually to approximately a 60% equity exposure and a 40% fixed income exposure. The fixed income exposure includes government bonds and corporate bonds (including high yield bonds, commonly referred to as “junk bonds”), as well as mortgage-backed securities and other mortgage-related products. A quarterly rebalance will occur to the extent such exposures deviate by greater than 2% in order to maintain an approximate 60% equity/40% fixed income exposure. The Fund expects to operate as a fund-of-funds and invest in ETFs comprising the Index (each, an “Underlying Fund”). WisdomTree Investments, Inc. (“WisdomTree Investments”), as Index provider, currently uses Standard & Poor’s Global Industry Classification Standards (“S&P GICS”) to define equity securities within a sector. A sector is comprised of multiple industries. For example, the energy sector is comprised of companies in, among others, the natural gas, oil and petroleum industries. As of December 7, 2017, a significant portion of the Index is comprised of companies in the financial sector.

To the extent the Index concentrates (i.e., holds 25% or more of its total assets) in the securities of a particular industry or group of industries, the Fund will concentrate its investments to approximately the same extent as the Index.

**Principal Risks of Investing in the Fund**

You can lose money on your investment in the Fund. The Fund is subject to the risks described below. Some or all of these risks may adversely affect the Fund’s net asset value per share (“NAV”), trading price, yield, total return and/or ability to meet its objective. For more information about the risks of investing in the Fund, see the sections in the Fund’s Prospectus titled “Additional Principal Risk Information About the Fund” and “Additional Non-Principal Risk Information.”

**Investment Risk.** As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

**Market Risk.** The trading prices of equity securities, fixed income securities and other instruments fluctuate in response to a variety of factors, such as economic, financial or political events that impact the entire market, market segments, or specific issuers. The Fund’s NAV and market price may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.

**Shares of the Fund May Trade at Prices Other Than NAV.** As with all exchange-traded funds (“ETFs”), Fund shares may be bought and sold in the secondary market at market prices. The trading prices of the Fund’s shares in the secondary market generally differ from the Fund’s daily NAV and there may be times when the market price of the shares is more than the NAV (premium) or less than the NAV (discount). This risk is heightened in times of market volatility or periods of steep market declines.

**Capital Controls and Sanctions Risk.** Economic conditions, such as volatile currency exchange rates and interest rates, political events, military action and other conditions may, without prior warning, lead to foreign government intervention (including intervention by the U.S. government with respect to foreign governments, economic sectors, foreign companies and related securities and interests) and the imposition of capital controls and/or sanctions, which may also include retaliatory actions of one government against another government, such as seizure of assets. Capital controls and/or sanctions include the prohibition of, or restrictions on, the ability to own or transfer currency, securities or other assets, which may potentially include derivative

instruments related thereto. Capital controls and/or sanctions may also impact the ability of the Fund to buy, sell, transfer, receive, deliver or otherwise obtain exposure to, foreign securities or currency, negatively impact the value and/or liquidity of such instruments, adversely affect the trading market and price for shares of the Fund, and cause the Fund to decline in value.

**Currency Exchange Rate Risk.** Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund's investment and the value of your Fund shares. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

**Table of Contents**

**Table of Contents**

**Cyber Security Risk.** The Fund and its service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Fund in many ways, including, but not limited to, disruption of the Fund's operational capacity, loss of proprietary information, theft or corruption of data, denial-of-service attacks on websites or network resources, and the unauthorized release of confidential information. Cyber-attacks affecting the Fund's third-party service providers, market makers, Authorized Participants, or the issuers of securities in which the Fund invests may subject the Fund to many of the same risks associated with direct cyber security breaches.

**Emerging Markets Risk.** Investments in securities and instruments traded in developing or emerging markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, or regulatory conditions not associated with investments in U.S. securities and instruments or investments in more developed international markets. Such conditions may impact the ability of the Fund to buy, sell or otherwise transfer securities, adversely affect the trading market and price for Fund shares and cause the Fund to decline in value.

**Financial Sector Risk.** The Fund currently invests a significant portion of its assets in the financial sector, and therefore the Fund's performance could be negatively impacted by events affecting this sector. The financial sector includes, for example, banks and financial institutions providing mortgage and mortgage related services. This sector can be significantly affected by, among other things, changes in interest rates, government regulation, the rate of defaults on corporate, consumer and government debt, the availability and cost of capital, and fallout from the housing and sub-prime mortgage crisis.

**Foreign Securities Risk.** Investments in non-U.S. securities involve political, regulatory, and economic risks that may not be present in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations, political or economic instability, or geographic events that adversely impact issuers of foreign securities. Investments in non-U.S. securities also may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. These and other factors can make investments in the Fund more volatile and potentially less liquid than other types of investments and may be heightened in connection with investments in developing or emerging markets countries.

**Geographic Investment Risk.** To the extent the Fund invests a significant portion of its assets in securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region. The Fund currently invests a significant portion of its assets in companies organized in the United States and Europe, although this may change from time to time. In June 2016, the United Kingdom voted in a referendum to leave the European Union ("EU"). It is currently expected that the United Kingdom will withdraw from the EU by March 2019, but the precise timeframe for "Brexit" is uncertain. Brexit may have a significant impact on the economies of the United Kingdom and Europe as well as the broader global economy, which may result in increased volatility and illiquidity, and potentially lower economic growth in these markets.

**Geopolitical Risk.** Some countries and regions in which the Fund invests have experienced security concerns, war, threats of war, aggression and/or conflict, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations(including due to events outside of such countries or regions) that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally, each of which may negatively impact the Fund's

investments.

**High Yield Securities Risk.** Higher yielding, high risk debt securities, sometimes referred to as junk bonds, may present additional risk because these securities may be less liquid and present more credit risk than investment grade bonds. The price of high yield securities tends to be more susceptible to issuer-specific operating results and outlook and to real or perceived adverse economic and competitive industry conditions.

**Index and Data Risk.** The Fund is not “actively” managed and seeks to track the price and yield performance, before fees and expenses, of the Index. The Index provider has the right to make adjustments to the Index or to cease making the Index available without regard to the particular interests of the Fund or its shareholders. If the computers or other facilities of the Index provider, Index calculation agent, data providers and/or relevant stock exchange malfunction for any reason, calculation and dissemination of Index values may be delayed and trading in Fund shares may be suspended for a period of time. Errors in Index data, Index calculations and/or the construction of the Index may occur from time to time and may not be identified and/or corrected by the Index

4 WisdomTree Trust Prospectus

---

**Table of Contents**

**Table of Contents**

provider, Index calculation agent or other applicable party for a period of time or at all, which may have an adverse impact on the Fund and its shareholders. The potential risk of continuing error may be particularly heightened in the case of the Index, which is generally not used as a benchmark by other funds or managers.

**Investment in Underlying Funds Risk.** The Fund's investment performance and risks may be directly related to the investment performance and risks of Underlying Funds.

**Investment Style Risk.** The Fund invests in the securities included in, or representative of, the Index regardless of their investment merit. The Fund does not attempt to outperform the Index or take defensive positions in declining markets. As a result, the Fund's performance may be adversely affected by a general decline in the market segments relating to the Index.

**Issuer-Specific Risk.** Issuer-specific events, including changes in the actual or perceived financial condition of an issuer, can have a negative impact on the value of the Fund.

**Interest Rate Risk.** Interest rate risk is the risk that fixed income securities will decline in value because of an increase in interest rates and changes to other factors, such as perception of an issuer's creditworthiness. Funds with higher durations generally are subject to greater interest rate risk. For example, the price of a security with a ten-year duration would be expected to drop by approximately 10% in response to a 1% increase in interest rates.

**Issuer Credit Risk.** The financial condition of an issuer of a debt security or other instrument may cause such issuer to default, become unable to pay interest or principal due or otherwise fail to honor its obligations or cause such issuer to be perceived (whether by market participants, rating agencies, pricing services or otherwise) as being in such situations. The value of an investment in the Fund may change quickly and without warning in response to issuer defaults, changes in the credit ratings of the Fund's portfolio investments and/or perceptions related thereto.

**Large-Capitalization Investing Risk.** The Fund may invest in the securities of large-capitalization companies. As a result, the Fund's performance may be adversely affected if securities of large-capitalization companies underperform securities of smaller-capitalization companies or the market as a whole. Large-capitalization companies may adapt more slowly to new competitive challenges and be subject to slower growth during times of economic expansion.

**Mortgage- and Asset-Backed Securities Risk.** Movements in interest rates (both increases and decreases) may quickly and significantly reduce the value of certain types of mortgage- and asset-backed securities. Mortgage- and asset-backed securities can also be subject to the risk of default on the underlying mortgages or other assets. Mortgage- and asset-backed securities are subject to fluctuations in yield due to prepayment rates that may be faster or slower than expected. Default or bankruptcy of a counterparty to a mortgage-related transaction would expose the Fund to possible loss.

**Non-Correlation Risk.** As with all index funds, the performance of the Fund and its Index may differ from each other for a variety of reasons.

**Non-Diversification Risk.** The Fund is considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. To the extent the Fund invests a significant percentage of its assets in a limited number of issuers, the Fund is

subject to the risks of investing in those few issuers, and may be more susceptible to a single adverse economic or regulatory occurrence. As a result, changes in the market value of a single security could cause greater fluctuations in the value of Fund shares than would occur in a diversified fund.

Fund Performance

The Fund is new and therefore does not have a performance history.

Management

Investment Adviser and Sub-Adviser

WisdomTree Asset Management serves as investment adviser to the Fund. Mellon Capital Management Corporation ("Mellon Capital") serves as sub-adviser to the Fund.

WisdomTree Trust Prospectus 5

---

**Table of Contents**

Table of Contents

**Portfolio Managers**

The Fund is managed by Mellon Capital's Equity Index Strategies Portfolio Management team. The individual members of the team jointly and primarily responsible for the day-to-day management of the Fund's portfolio are described below.

Karen Q. Wong, CFA, a Managing Director, Head of Equity Portfolio Management, has been a portfolio manager of the Fund since its inception.

Thomas J. Durante, CFA, a Managing Director and Senior Portfolio Manager, Equity Portfolio Management, has been a portfolio manager of the Fund since its inception.

Richard A. Brown, CFA, a Managing Director and Senior Portfolio Manager, Equity Portfolio Management, has been a portfolio manager of the Fund since its inception.

**Buying and Selling Fund Shares**

The Fund is an ETF. This means that shares of the Fund are listed on a national securities exchange, such as NYSE Arca, and trade at market prices. Most investors will buy and sell shares of the Fund through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV (premium) or less than NAV (discount).

The Fund issues and redeems shares at NAV only in large blocks of shares ("Creation Units"), which only certain institutions or large investors (typically market makers or other broker-dealers) may purchase or redeem. Currently, Creation Units generally consist of 50,000 shares, though this may change from time to time. Creation Units are not expected to consist of less than 25,000 shares. The Fund issues and redeems Creation Units in exchange for a portfolio of securities and/or U.S. cash.

**Tax Information**

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income, or capital gains.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank) (an "Intermediary"), WisdomTree Asset Management or its affiliates may pay Intermediaries for certain activities related to the Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, or for other activities, such as marketing, educational training or other initiatives related to the sale or promotion of Fund shares. These payments may create a conflict of interest by influencing the Intermediary and your salesperson to recommend the Fund over another investment. Any such arrangements do not result in increased Fund expenses. Ask your salesperson or visit the Intermediary's website for more information.

**Table of Contents**

Table of Contents

Additional Information About the Fund

Additional Information About the Fund's Investment Objectives

The Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (“Index”) developed by WisdomTree Investments. Since the Fund’s investment objective has been adopted as a non-fundamental investment policy, the Fund’s investment objective may be changed without a vote of shareholders upon 60 days’ written notice to shareholders.

Additional Information About the Fund's Investment Strategies

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in the types of securities suggested by its name (i.e., investments connoted by its Index). The Fund anticipates meeting this policy because, under normal circumstances, at least 80% of the Fund’s total assets (exclusive of collateral held from securities lending) will be invested in component securities of its underlying Index and investments that have economic characteristics that are substantially identical to the economic characteristics of such component securities, such as depositary receipts based on component securities. WisdomTree Asset Management, Inc. (“WisdomTree Asset Management” or the “Adviser”) expects that, over time, the correlation between the Fund’s performance and that of the Index, before fees and expenses, will be 95% or better. A number of factors may affect the Fund’s ability to achieve a high degree of correlation with its Index, and there can be no guarantee that the Fund will achieve a high degree of correlation.

The quantity of holdings in the Fund using a representative sampling strategy will be based on a number of factors, including asset size of the Fund. In addition, from time to time, securities are added to or removed from the Index and consequently the attributes of the Index, such as sectors or industries represented in the Index and weightings, may change. The Fund may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, in anticipation of their removal from or addition to the Index or to reflect various corporate actions or other changes to the Index. Further, the Fund may overweight or underweight securities in the Index, purchase or sell securities not in the Index, or utilize various combinations of other available techniques, in seeking to track the Index.

Non-Principal Information About the Fund's Investment Strategies

The Fund may invest in other investments that the Fund believes will help it track its Index, including cash and cash equivalents, as well as in shares of other investment companies (including affiliated investment companies, such as ETFs), forward contracts, futures contracts, options on futures contracts, options and swaps.

The Fund may lend its portfolio securities in an amount not to exceed one third (33 1/3%) of the value of its total assets via a securities lending program through its securities lending agent, State Street Bank and Trust Company, to brokers, dealers and other financial institutions desiring to borrow securities to complete transactions and for other purposes. A securities lending program allows the Fund to receive a portion of the income generated by lending its securities and investing the respective collateral. The Fund will receive collateral for each loaned security which is at least equal to the market value of that security, marked to market each trading day. In the securities lending program, the borrower generally has the right to vote the loaned securities; however, the Fund may call loans to vote proxies if a material issue affecting the Fund’s economic interest in the investment is to be voted upon. Security loans may be terminated at any time by the Fund.

Additional Principal Risk Information About the Fund

This section provides additional information regarding the principal risks described under “Principal Risks of Investing in the Fund” in the Fund Summary. Each of the factors below could have a negative impact on Fund performance and trading prices.

Capital Controls and Sanctions Risk

Economic conditions, such as volatile currency exchange rates and interest rates, political events, military action and other conditions, may, without prior warning, lead to government intervention (including intervention by the U.S. government with respect to foreign governments, economic sectors, foreign companies and related securities and

interests) and the imposition of capital controls and/or sanctions, which may also include retaliatory actions of one government against another government, such as seizure of assets. Capital controls and/or sanctions include the prohibition of, or restrictions on, the ability to own or transfer currency, securities or other assets, which may potentially include derivative instruments related thereto. Levies may be placed on profits repatriated by foreign entities (such as the Fund). Capital controls and/or sanctions may also impact the ability of the Fund to buy, sell, transfer, receive, deliver or otherwise obtain exposure to, foreign securities or currency, negatively impact the value

WisdomTree Trust Prospectus 7

---

**Table of Contents**

**Table of Contents**

and/or liquidity of such instruments, adversely affect the trading market and price for shares of the Fund, and cause the Fund to decline in value.

**Currency Exchange Rate Risk**

Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund's investments and the value of the Fund's shares. Because the Fund's NAV is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. This is true even if the local currency value of securities in the Fund's holdings goes up. Conversely, the dollar value of your investment in the Fund may go up if the value of the local currency appreciates against the U.S. dollar.

The value of the U.S. dollar measured against other currencies is influenced by a variety of factors. These factors include interest rates, national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange rates. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning, and you may lose money.

**Cyber Security Risk**

The Fund and its service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Fund in many ways, including, but not limited to, disruption of the Fund's operational capacity, loss of proprietary information, theft or corruption of data maintained online or digitally, denial-of-service attacks on websites or network resources, and the unauthorized release of confidential information. Cyber-attacks affecting the Fund's third-party service providers, including the investment adviser, sub-adviser, administrator, custodian, and transfer agent, may subject the Fund to many of the same risks associated with direct cyber security breaches and adversely impact the Fund. For instance, cyber-attacks may impact the Fund's ability to calculate its NAV, cause the release of confidential business information, impede trading, cause the Fund to incur additional compliance costs associated with corrective measures, subject the Fund to regulatory fines or other financial losses, and/or cause reputational damage to the Fund. Cyber security breaches of market makers, Authorized Participants, or the issuers of securities in which the Fund invests could also have material adverse consequences on the Fund's business operations and cause financial losses for the Fund and its shareholders. While the Fund and its service providers have established business continuity plans and risk management systems designed to address cyber security risks, prevent cyber-attacks and mitigate the impact of cyber security breaches, there are inherent limitations on such plans and systems. In addition, the Fund has no control over the cyber security protections put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders.

**Foreign Securities Risk**

Investments in non-U.S. securities and instruments involve political, regulatory, and economic risks that may not be present in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations, political or economic instability, or geographic events that adversely impact issuers of foreign securities. There may be less information publicly available about a non-U.S. issuer than a U.S. issuer. Non-U.S. issuers may be subject to different accounting, auditing, financial reporting and investor protection standards than U.S. issuers. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. With respect to certain countries, there is the possibility of government intervention and expropriation or nationalization of assets. Because legal systems differ, there is also the possibility that it will be difficult to obtain or enforce legal judgments in certain countries. Since foreign

exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely, Fund shares may trade on days when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments and may be heightened in connection with investments in developing or emerging market countries. Foreign securities also include American Depositary Receipts ("ADRs") which are U.S. dollar-denominated receipts representing shares of foreign-based corporations. ADRs are issued by U.S. banks or trust companies and entitle the holder to all dividends and capital gains that are paid out on the underlying foreign shares. Global Depositary Receipts ("GDRs"), which are similar to ADRs, represent shares of foreign-based corporations and are generally issued by

8 WisdomTree Trust Prospectus

---

---

**Table of Contents**

**Table of Contents**

international banks in one or more markets around the world. Investments in ADRs and GDRs may be less liquid and more volatile than underlying shares in their primary trading markets.

**Geographic Investment Risk**

To the extent that the Fund invests a significant portion of its assets in the securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region. For example, political and economic conditions and changes in regulatory, tax, or economic policy in a country could significantly affect the market in that country and in surrounding or related countries and have a negative impact on the Fund's performance. Currency developments or restrictions, political and social instability, and changing economic conditions have resulted in significant market volatility.

**Emerging Markets Risk**

Investments in securities and instruments traded in developing or emerging markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, or regulatory conditions not associated with investments in U.S. securities and instruments or investments in more developed international markets. For example, developing and emerging markets may be subject to (i) greater market volatility, (ii) lower trading volume and liquidity, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) lower disclosure, corporate governance, auditing and financial reporting standards, (vi) fewer protections of property rights, (vii) restrictions on the transfer of securities or currency or payment of dividends and (viii) settlement and trading practices that differ from U.S. markets. Each of these factors may impact the Fund's ability to buy, sell, transfer, receive, deliver or otherwise obtain exposure to, emerging market securities or currency, negatively impact the value and/or liquidity of such instruments, adversely affect the trading market and price for shares of the Fund and cause the Fund to decline in value. The volatility of emerging markets may be heightened by the actions (such as significant buying and selling) of a few major investors. For example, substantial increases or decreases in cash flows of funds investing in these markets could significantly affect local securities' prices and cause Fund share prices to decline. For these and other reasons, investments in emerging markets are often considered speculative.

**Investments in Europe**

Most developed countries in Western Europe are members of the European Union ("EU"), many are also members of the European Economic and Monetary Union ("EMU"), and most EMU members are part of the euro zone, a group of EMU countries that share the euro as their common currency. Members of the EMU must comply with restrictions on inflation rates, deficits, debt levels, and fiscal and monetary controls. The implementation of any of these EMU restrictions or controls, as well as any of the following events in Europe, may have a significant impact on the economies of some or all European countries: (i) the default or threat of default by an EU member country on its sovereign debt, (ii) economic recession in an EU member country, (iii) changes in EU or governmental regulations on trade, (iv) substantial changes in currency exchange rates of the euro, the British pound, and other European currencies, (v) significant changes in the supply and demand for European imports or exports, and (vi) high unemployment rates.

In June 2016, the United Kingdom voted in a referendum to leave the EU. As a result of the referendum, S&P downgraded the United Kingdom's credit rating from "AAA" to "AA" and the EU's credit rating from "AA+" to "AA" in the days that followed the vote. Other credit ratings agencies have taken similar actions. Although the precise timeframe for "Brexit" is uncertain, it is currently expected that the United Kingdom will withdraw from the EU by March 2019. It is unclear how withdrawal negotiations will be conducted and what the potential consequences may be. In addition, it is possible that measures could be taken to revote on the issue of Brexit, or that portions of the United Kingdom could seek to separate and remain a part of the EU. As a result of the political divisions within the United Kingdom and between the United Kingdom and the EU that the referendum vote has highlighted and the uncertain consequences of a Brexit, the economies of the United Kingdom and Europe as well as the broader global economy could be significantly impacted, which may result in increased volatility and illiquidity, and potentially lower economic growth

on markets in the United Kingdom, Europe and globally that could potentially have an adverse effect on the value of a Fund's investments.

**Geopolitical Risk**

Some countries and regions in which the Fund invests have experienced security concerns, war, threats of war, aggression and/or conflict, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations (including due to events outside of such countries or regions) that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world

WisdomTree Trust Prospectus 9

---

**Table of Contents**

Table of Contents

economies and markets generally. Such geopolitical and other events may also disrupt securities markets and, during such market disruptions, the Fund's exposure to the other risks described herein will likely increase. For example, a market disruption may adversely affect the orderly functioning of the securities markets. Each of the foregoing may negatively impact the Fund's investments.

**Index and Data Risk**

The Fund is not "actively" managed and seeks to track the price and yield performance, before fees and expenses, of the Index. The Index Provider has the right to make adjustments to the Index or to cease making the Index available without regard to the particular interests of the Fund or the Fund's shareholders. While the Index Provider provides a rules-based methodology that describes what the Index is designed to achieve within a particular set of rules, neither the Index Provider, its agents nor data providers provide any warranty or accept any liability in relation to the quality, accuracy or completeness of the Index, its calculation, valuation or its related data, and they do not guarantee that the Index will be in line with the Index Provider's methodology, regardless of whether or not the Index Provider is affiliated with the Adviser. The composition of the Index is dependent on data from one or more third parties and/or the application of such data within the rules of the Index methodology, which may be based on assumptions or estimates. If the computers or other facilities of the Index Provider, Index calculation agent, data providers and/or relevant stock exchange malfunction for any reason, calculation and dissemination of Index values may be delayed and trading in Fund shares may be suspended for a period of time. Errors in Index data, Index computations and/or the construction of the Index may occur from time to time and may not be identified and/or corrected by the Index Provider, Index calculation agent or other applicable party for a period of time or at all, which may have an adverse impact on the Fund and its shareholders. The potential risk of continuing error may be particularly heightened in the case of the Index, which is generally not used as a benchmark by other funds or managers. Any of the foregoing may lead to the inclusion of securities in the Index, exclusion of securities from the Index or the weighting of securities in the Index that would have been different had data or other information been correct or complete, which may lead to a different investment outcome than would have been the case had such events not occurred. The Adviser, through the Sub-Adviser, seeks to manage the Fund to correspond to the Index provided by the Index Provider. Consequently, losses or costs associated with the Index's errors or other risks described above will generally be borne by the Fund and its shareholders and neither the Adviser nor its affiliates or agents make any representations or warranties regarding the foregoing.

**Interest Rate Risk**

The market value of fixed income securities, and financial instruments related to fixed income securities, will change in response to changes in interest rates and may change in response to other factors, such as perception of an issuer's creditworthiness. As interest rates rise, the value of certain fixed income securities is likely to decrease. Similarly, if interest rates decline, the value of fixed income securities is likely to increase. While securities with longer maturities tend to produce higher yields, the prices of longer maturity securities tend to be more sensitive to changes in interest rates and thus subject to greater volatility than securities with shorter maturities. The "average portfolio maturity" of the Fund is the average of all the current maturities of the individual securities in the Fund's portfolio. Average portfolio maturity is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with longer portfolio maturities generally are subject to greater interest rate risk.

**Investment Risk**

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time. An investment in the Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

**Investment in Underlying Funds Risk**

Since the Fund expects to invest a substantial portion of its assets in other ETFs, the Fund's investment performance and risks may be directly related to the investment performance and risks of such ETFs. Fund shareholders indirectly

bear a proportionate share of the fees and expenses of the other ETFs in addition to the Fund's expenses. These risks include the possibility that an ETF may experience a lack of liquidity that can result in greater volatility than its underlying securities; an ETF may trade at a premium or discount to its net asset value; or an ETF may not replicate exactly the performance of the benchmark index it seeks to track.

**Investment Style Risk**

The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit. The Fund does not attempt to outperform its Index or take defensive positions in declining markets. As a result,

10 WisdomTree Trust Prospectus

---

---

**Table of Contents****Table of Contents**

the Fund's performance may be adversely affected by a general decline in the market segments relating to its Index. The returns from the types of securities in which the Fund invests may underperform returns from the various general securities markets or different asset classes. This may cause the Fund to underperform other investment vehicles that invest in different asset classes. Different types of securities (for example, large-, mid- and small-capitalization stocks) tend to go through cycles of doing better – or worse – than the general securities markets. In the past, these periods have lasted for as long as several years.

**Issuer Credit Risk**

The financial condition of an issuer of a debt security or other instrument may cause such issuer to default, become unable to pay interest or principal due on the security, or otherwise fail to honor its obligations or cause such issuer to be perceived (whether by market participants, rating agencies, pricing services or otherwise) as being in such situations. The Fund cannot collect interest and principal payments on a security if the issuer defaults. Recent events in the financial sector have resulted in increased concerns about credit risk and exposure. Well-known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt. The degree of credit risk for a particular debt security or other issuer may be reflected in its credit rating. A credit rating is a measure of a bond issuer's ability to make timely payments of interest and principal. Rating agencies (such as Moody's Investors Service, Inc., Standard & Poor's Corporation, or Fitch) assign letter designations typically ranging from AAA to A- (lower default risk) through CCC to C (higher default risk) or D (in default). A credit rating of BBB- or higher generally is considered "investment grade." Credit ratings are subjective, do not remove market risk, and represent the opinions of the rating agencies as to the quality of the securities they rate. Credit ratings can change quickly and may not accurately reflect the risk of an issuer. Generally, investment risk and price volatility increase as the credit rating of a security declines. The value of an investment in the Fund may change quickly and without warning in response to issuer defaults and changes in the credit ratings of the Fund' portfolio investments.

**Issuer-Specific Risk**

Changes in the actual or perceived financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect a security's or instrument's value. Issuer-specific events can have a negative impact on the value of the Fund.

**Market Risk**

The trading prices of equity securities, fixed income securities, currencies, and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, including, but not limited to, changes in interest rates, government regulation, and the outlook for economic growth or recession, as well as events that impact specific issuers, such as changes to an issuer's actual or perceived creditworthiness. The Fund's NAV and market price, like security, currency and other investment prices generally, may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.

**Mortgage- and Asset-Backed Securities Risk**

Movements in interest rates (both increases and decreases) may quickly and significantly reduce the value of certain types of mortgage- and asset-backed securities. Mortgage- and asset-backed securities can also be subject to the risk of default on the underlying mortgages or other assets. Mortgage- and asset-backed securities are subject to fluctuations in yield due to prepayment rates that may be faster or slower than expected. Default or bankruptcy of a counterparty to a TBA Transaction would expose a fund to possible loss.

**Market Capitalization Risk****Large-Capitalization Investing**

Securities of large-capitalization companies may underperform securities of smaller companies or the market as a whole. The securities of large-capitalization companies may be relatively mature compared to smaller companies and therefore subject to slower growth during times of economic expansion. Large-capitalization companies may also be

unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes.

**Non-Correlation Risk**

As with all index funds, the performance of the Fund and its Index may vary somewhat for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs, while also managing cash flows and

WisdomTree Trust Prospectus 11

---

---

**Table of Contents****Table of Contents**

potential operational inefficiencies, not incurred by its Index. In addition, the Fund may not be fully invested in the securities of its Index at all times or may hold securities not included in its Index or may be subject to pricing differences, differences in the timing of dividend accruals, operational inefficiencies and the need to meet various new or existing regulatory requirements. For example, it may take several business days for additions and deletions to the Index to be reflected in the portfolio composition of the Fund. The use of sampling techniques may affect the Fund's ability to achieve close correlation with its Index. By using a representative sampling strategy, the Fund generally can be expected to have a greater non-correlation risk and this risk may be heightened during times of market volatility or other unusual market conditions.

**Non-Diversification Risk**

The Fund is considered to be non-diversified. This means that the Fund may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it was a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Fund's volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund's performance.

**Sector Risks****Financial Sector Risk**

The financial sector includes, for example, banks and financial institutions providing mortgage and mortgage related services. This sector can be significantly affected by, among other things, changes in interest rates, government regulation, the rate of defaults on corporate, consumer and government debt, the availability and cost of capital, and fallout from the housing and sub-prime mortgage crisis. These factors and events have had, and may continue to have, a significant negative impact on the valuations and stock prices of companies in this sector and have increased the volatility of investments in this sector.

**Shares of the Fund May Trade at Prices Other Than NAV**

As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of the shares of the Fund will not materially differ from the Fund's NAV, there may be times when the market price and the NAV vary significantly, including due to timing reasons, perceptions about the NAV, supply and demand of the Fund's shares (including disruptions in the creation/redemption process), during periods of market volatility and/or other factors. Thus, you may pay more (or less) than NAV when you buy shares of the Fund in the secondary market, and you may receive more (or less) than NAV when you sell those shares in the secondary market. If an investor purchases Fund shares at a time when the market price is at a premium to the NAV of the Fund's shares or sells at a time when the market price is at a discount to the NAV of the Fund's shares, an investor may sustain losses.

**Additional Non-Principal Risk Information**

**Trading.** Although the Fund's shares are listed for trading on NYSE Arca, Inc. and may be listed or traded on U.S. and non-U.S. stock exchanges other than the Listing Exchange, there can be no assurance that an active trading market for such shares will develop or be maintained. The trading market in the Fund's shares may become less liquid in response to deteriorating liquidity in the markets for the Fund's holdings or due to irregular trading activity in the markets.

Trading in shares may be halted due to market conditions or for reasons that, in the view of the Listing Exchange, make trading in shares inadvisable. In addition, trading in shares on the Listing Exchange is subject to trading halts caused by extraordinary market volatility pursuant to Listing Exchange "circuit breaker" rules. There can be no assurance that the requirements of the Listing Exchange necessary to maintain the listing of the Fund will continue to be met or will remain unchanged or that Fund shares will trade with any volume, or at all, on any stock exchange.

**Costs of Buying or Selling Shares.** Investors buying or selling Fund shares in the secondary market will pay brokerage commissions or other charges imposed by brokers, as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Fund shares. In addition, secondary market investors will also incur the cost of the difference between the price that

an investor is willing to buy shares (the “bid” price) and the price at which an investor is willing to sell shares (the “ask” price). This difference in bid and ask prices is often referred to as the “spread” or “bid/ask spread.” The bid/ask spread varies over time for shares based on trading volume and market liquidity (including for the underlying securities held by the Fund), and is generally lower if the Fund’s shares have more trading volume and market liquidity and higher if the Fund’s shares have little trading volume and market liquidity. Further, a relatively small investor base in the Fund, asset swings in the Fund and/or increased market volatility may

12 WisdomTree Trust Prospectus

---

**Table of Contents**

Table of Contents

cause increased bid/ask spreads. Shares of the Fund, similar to shares of other issuers listed on a stock exchange, may be sold short and are therefore subject to the risk of increased volatility associated with short selling. Due to the costs of buying or selling Fund shares, including bid/ask spreads, frequent trading of Fund shares may significantly reduce investment results and an investment in shares may not be advisable for investors who anticipate regularly making small investments.

**Securities Lending.** Although the Fund is indemnified by the Fund's lending agent for losses incurred in connection with a borrower's default with respect to a loan, the Fund bears the risk of loss of investing cash collateral and may be required to make payments to a borrower upon return of loaned securities if invested collateral has declined in value. Furthermore, because of the risks in delay of recovery, the Fund may lose the opportunity to sell the securities at a desirable price, and the Fund will generally not have the right to vote securities while they are being loaned. These events could also trigger negative tax consequences for the Fund.

**Authorized Participants, Market Makers and Liquidity Providers Concentration Risk.** The Fund has a limited number of financial institutions that may act as Authorized Participants ("APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund shares may trade at a prolonged and material premium or discount to NAV (or not trade at all) and possibly face trading halts and/or delisting: (i) APs exit the business, have a business disruption (including through the types of disruptions described under "Cyber Security Risk" and "Operational Risk") or otherwise become unable or unwilling to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business, have a business disruption (including through the types of disruptions described under "Cyber Security Risk" and "Operational Risk") or significantly reduce their business activities and no other entities step forward to perform their functions.

**Operational Risk.** The Fund and its service providers, including the investment adviser, sub-adviser, administrator, custodian, and transfer agent, may experience disruptions that arise from human error, processing and communications errors, counterparty or third-party errors, technology or systems failures, any of which may have an adverse impact on the Fund. Although the Fund and its service providers seek to mitigate these operational risks through their internal controls and operational risk management processes, these measures may not identify or may be inadequate to address all such risks.

**Portfolio Holdings Information**

Information about the Fund's daily portfolio holdings is available at [www.wisdomtree.com](http://www.wisdomtree.com). In addition, the Fund will disclose its complete portfolio holdings as of the end of its fiscal year (June 30) and its second fiscal quarter (December 31) in its reports to shareholders. The Fund files its complete portfolio holdings as of the end of its first and third fiscal quarters (March 31 and September 30, respectively) with the SEC on Form N-Q no later than 60 days after the relevant fiscal period. You can find the SEC filings on the SEC's website, [www.sec.gov](http://www.sec.gov). A summarized description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Trust's Statement of Additional Information ("SAI").

WisdomTree Trust Prospectus 13

**Table of Contents****Table of Contents****Management****Investment Adviser**

As investment adviser, WisdomTree Asset Management has overall responsibility for the general management and administration of the Trust and the Fund. WisdomTree Asset Management is a registered investment adviser with offices located at 245 Park Avenue, 35th Floor, New York, New York 10167, and is a leader in ETF management. As of September 30, 2017, WisdomTree Asset Management had assets under management totaling approximately \$44.5 billion. WisdomTree Investments\* is the parent company of WisdomTree Asset Management. WisdomTree Asset Management provides an investment program for the Fund. The Adviser provides proactive oversight of the Sub-Adviser, defined below, daily monitoring of the Sub-Adviser's buying and selling of securities for the Fund, and regular review of the Sub-Adviser's performance. In addition, the Adviser arranges for sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution related services necessary for the Fund to operate.

\* "WisdomTree" is a registered mark of WisdomTree Investments and has been licensed for use by the Trust.

WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Fund.

For its services, WisdomTree Asset Management expects to receive fees from the Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Name of Fund	Management Fee
WisdomTree Balanced Income Fund	0.40% <sup>1</sup>

<sup>1</sup> The Adviser has contractually agreed to waive a portion of its Management Fee in an amount equal to the Acquired Fund Fees and Expenses attributable to the Fund's investments in Underlying Funds, as well as an additional amount such that Total Annual Fund Operating Expenses After Waivers equals 0.35%, through December 31, 2020, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Under the Investment Advisory Agreement for the Fund, WisdomTree Asset Management has agreed to pay generally all expenses of the Fund, subject to certain exceptions. For a detailed description of the Investment Advisory Agreement for the Fund, please see the "Management of the Trust" section of the SAI. Pursuant to a separate contractual arrangement, WisdomTree Asset Management arranges for the provision of chief compliance officer ("CCO") services with respect to the Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WisdomTree Asset Management receives a fee of up to 0.0044% of the Fund's average daily net assets for providing such services and paying such expenses. WisdomTree Asset Management provides CCO services to the Trust.

The basis for the Board of Trustees' approval of the Fund's Investment Advisory Agreement will be available in the Trust's Semi-Annual Report to Shareholders for the period ending December 31, 2017.

**Sub-Adviser**

Mellon Capital Management Corporation ("Mellon Capital") is responsible for the day-to-day management of the Fund. Mellon Capital, a registered investment adviser, is a leading innovator in the investment industry and manages global quantitative-based investment strategies for institutional and private investors. Its principal office is located at 50 Fremont Street, San Francisco, California 94105. As of November 30, 2017, Mellon Capital had assets under management totaling approximately \$378. Mellon Capital is a wholly-owned indirect subsidiary of The Bank of New York Mellon Corporation, a publicly traded financial holding company. Mellon Capital chooses the Fund's portfolio investments and places orders to buy and sell the portfolio investments. WisdomTree Asset Management pays Mellon Capital for providing sub-advisory services to the Fund.

The basis for the Board of Trustees' approval of the Sub-Advisory Agreement will be available in the Trust's Semi-Annual Report to Shareholders for the period ending December 31, 2017.

WisdomTree Asset Management, as the investment adviser for the Fund, may hire one or more sub-advisers to oversee the day-to-day activities of the Fund. The sub-advisers are subject to oversight by WisdomTree Asset

Management. WisdomTree Asset Management and the Trust have received an exemptive order from the SEC that permits WisdomTree Asset Management, with the approval of the Independent Trustees of the Trust, to retain unaffiliated investment sub-advisers for the Fund, without submitting the sub-advisory agreement to a vote of the Fund's shareholders. The Trust will notify shareholders in the event of any change in the identity of such sub-adviser or sub-advisers. WisdomTree Asset Management has ultimate responsibility for the investment performance of the Fund due to its responsibility to oversee each sub-adviser and recommend their hiring, termination and replacement. WisdomTree Asset Management is not required to disclose fees paid to any sub-adviser retained pursuant to the order.

Table of Contents

Portfolio Managers

The Fund is managed by Mellon Capital's Equity Index Strategies Portfolio Management team. The individual members of the team jointly and primarily responsible for the day-to-day management of the Fund's portfolio are described below.

Ms. Karen Q. Wong, CFA, a Managing Director and Head of Equity Portfolio Management, has been with Mellon Capital since June 2000. Ms. Wong heads a team of portfolio managers responsible for overseeing all passive equity funds, including ETFs. She is responsible for refinement and implementation of the equity portfolio management process. She developed and launched the Carbon Efficiency Strategy, Mellon Capital's first green beta product. She is a member of the Senior Management Committee, ESG Committee, Investment Management Committee, Investment Research Committee, Risk and Compliance Committee, Risk Management Committee, and Trade Management Oversight Committee. Prior to joining Mellon Capital, Ms. Wong worked as a security analyst at Redwood Securities. Ms. Wong attained the Chartered Financial Analyst designation. She graduated with a B.A. from San Francisco State University, and obtained an M.B.A. in Finance from San Francisco State University. Ms. Wong is a member of the CFA Institute and the CFA Society of San Francisco. She is also a member of the S&P Index Advisory Panel and Russell Index Advisory Board.

Mr. Thomas J. Durante, CFA, a Managing Director and Senior Portfolio Manager, Equity Portfolio Management, has been with Mellon Capital since January 2000. Mr. Durante heads a team of portfolio managers covering domestic and international equity index portfolios. He is responsible for refinement and implementation of the equity portfolio management process. Prior to joining Mellon Capital, Mr. Durante worked in the fund accounting department for The Dreyfus Corporation. Mr. Durante attained the Chartered Financial Analyst designation. Mr. Durante graduated with a B.A. in Accounting from Fairfield University and is a member of the CFA Institute and the CFA Society of Pittsburgh. He has over 35 years of investment experience.

Mr. Richard A. Brown, CFA, a Managing Director and Senior Portfolio Manager, Equity Portfolio Management, has been with Mellon Capital since August 1995. Mr. Brown heads a team of portfolio managers covering domestic and international passive equity funds. He is responsible for refinement and implementation of the equity portfolio management process. Mr. Brown attained the Chartered Financial Analyst designation. Mr. Brown graduated with an M.B.A. from California State University at Hayward and is a member of the CFA Institute and the CFA Society of San Francisco. He has over 22 years of investment experience.

The Fund's SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares in the Fund.

WisdomTree Trust Prospectus 15

**Table of Contents**

**Table of Contents**

**Additional Information on Buying and Selling Fund Shares**

Most investors will buy and sell shares of the Fund through brokers. Shares of the Fund trade on the Listing Exchange and elsewhere during the trading day and can be bought and sold throughout the trading day like other shares of publicly traded securities. When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges. Shares of the Fund trade under the trading symbol listed on the cover of this Prospectus.

**Share Trading Prices**

Transactions in Fund shares will be priced at NAV only if you are an institutional investor (e.g., broker-dealer) that has signed an agreement with the Distributor (as defined below) and you thereafter purchase or redeem shares directly from the Fund in Creation Units. As with other types of securities, the trading prices of shares in the secondary market can be affected by market forces such as supply and demand, economic conditions and other factors. The price you pay or receive when you buy or sell your shares in the secondary market may be more or less than the NAV of such shares.

The approximate value of shares of the Fund, also known as the “indicative optimized portfolio value” or IOPV, is disseminated every 15 seconds throughout the trading day by the Listing Exchange or by other information providers. This approximate value should not be viewed as a “real-time” update of the Fund's NAV because the approximate value may not be calculated in the same manner as the NAV, which is computed once per day. The approximate value generally is determined by using current market quotations, price quotations obtained from broker-dealers that may trade in the securities and instruments held by the Fund, and/or amortized cost for securities with remaining maturities of 60 days or less, based on securities and/or cash as reflected in the basket for a Creation Unit. The approximate value does not necessarily reflect the precise composition of the current portfolio of securities held by the Fund at a particular point in time (e.g., the securities in the basket for a Creation Unit may include securities that are not part of the Fund’s portfolio) or the precise valuation of the current portfolio. The Fund, the Adviser and their affiliates are not involved in, or responsible for, the calculation or dissemination of the approximate value and make no warranty as to its accuracy.

**Determination of Net Asset Value**

The NAV of the Fund’s shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the Listing Exchange, generally 4:00 p.m. New York time (the “NAV Calculation Time”). NAV per share is calculated by dividing the Fund’s net assets by the number of Fund shares outstanding.

In calculating its NAV, the Fund generally values: (i) equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange at the last sale price or official closing price on the exchange or system on which they are principally traded; (ii) unlisted equity securities (including preferred stock) at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price; and (iii) fixed income securities at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. In addition, the Fund may invest in money market funds which are valued at their NAV per share and affiliated ETFs which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the affiliated ETF has not traded on its principal exchange.

Fair value pricing is used by the Fund when reliable market valuations are not readily available or are not deemed to reflect current market values. Securities that may be valued using “fair value” pricing may include, but are not limited to, securities for which there are no current market quotations or whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by “significant events.” An example of a significant event is an event occurring after the close of the market in which a security trades but before the Fund’s next NAV Calculation Time that may materially affect the value of the Fund’s investment (e.g., government action, natural disaster, or significant market fluctuation). When fair-value pricing is employed, the prices of securities used by the Fund to calculate its

NAV may differ from quoted or published prices for the same securities.

**Dividends and Distributions**

The Fund intends to pay out dividends on a quarterly basis. Nonetheless, the Fund may not make a dividend payment every quarter.

The Fund intends to distribute its net realized capital gains to investors annually. The Fund occasionally may be required to make supplemental distributions at some other time during the year. Distributions in cash may be

16 WisdomTree Trust Prospectus

---

**Table of Contents**

**Table of Contents**

reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

**Book Entry**

Shares of the Fund are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company (“DTC”) or its nominee is the record owner of all outstanding shares of the Fund.

Investors owning shares of the Fund are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares of the Fund. Participants include DTC, securities brokers and dealers, banks, trust companies, clearing corporations, and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares.

Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any securities that you hold in book-entry or “street name” form. Your broker will provide you with account statements, confirmations of your purchases and sales, and tax information.

**Delivery of Shareholder Documents – Householding**

Householding is an option available to certain investors of the Fund. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Householding for the Fund is available through certain broker-dealers. If you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, please contact your broker-dealer. If you are currently enrolled in householding and wish to change your householding status, please contact your broker-dealer.

**Frequent Purchases and Redemptions of Fund Shares**

The Fund has adopted policies and procedures with respect to frequent purchases and redemptions of Creation Units of Fund shares. Since the Fund is an ETF, only a few institutional investors (known as “Authorized Participants”) are authorized to purchase and redeem shares directly from the Fund. Because purchase and redemption transactions with Authorized Participants are an essential part of the ETF process and may help keep ETF trading prices in line with NAV, the Fund accommodates frequent purchases and redemptions by Authorized Participants. Frequent purchases and redemptions for cash may increase index tracking error and portfolio transaction costs and may lead to the realization of capital gains. Frequent in-kind creations and redemptions generally do not give rise to these concerns. The Fund reserves the right to reject any purchase order at any time. The Fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading.

**Investments by Investment Companies**

Section 12(d)(1) of the Investment Company Act of 1940 (the “1940 Act”) restricts investments by investment companies in the securities of other investment companies, including shares of the Fund. Although the SEC has granted an exemptive order to the Trust permitting registered investment companies and unit investment trusts that enter into a participation agreement with the Trust (“Investing Funds”) to invest in WisdomTree Funds beyond the limits set forth in Section 12(d)(1) of the 1940 Act subject to certain terms and conditions, the exemptive order is not applicable to the Fund because the Underlying Funds are expected to constitute a substantial portion of the Fund’s assets. Accordingly, Investing Funds must adhere to the limits set forth in Section 12(d)(1) of the 1940 Act when investing in the Fund.

**Additional Tax Information**

The following discussion is a summary of some important U.S. federal income tax considerations generally applicable to investments in the Fund. Your investment in the Fund may have other tax implications. Please consult your tax advisor about the tax consequences of an investment in Fund shares, including the possible application of foreign, state, and local tax laws.

The Fund intends to qualify each year for treatment as a regulated investment company. If it meets certain minimum distribution requirements, a regulated investment company is not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, the Fund's failure to qualify as a regulated investment company or to meet minimum distribution requirements would result (if certain relief provisions were not available) in fund-level taxation and consequently a reduction in income available for distribution to shareholders. Unless you are a tax-exempt entity or your investment in Fund shares is made through tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

The Fund makes distributions;

You sell Fund shares; and

You purchase or redeem Creation Units (institutional investors only).

**Taxes on Distributions**

For federal income tax purposes, distributions of investment income are generally taxable as ordinary income or qualified dividend income. Taxes on distributions of capital gains (if any) are determined by how long the Fund owned the assets that generated them, rather than how long a shareholder has owned his or her Fund shares. Sales of assets held by the Fund for more than one year generally result in long-term capital gains and losses, and sales of assets held by the Fund for one year or less generally result in short-term capital gains and losses. Distributions of the Fund's net capital gain (the excess of net long-term capital gains over net short-term capital losses) that are properly reported by the Fund as capital gain dividends ("Capital Gain Dividends") will be taxable as long-term capital gains. For non-corporate shareholders, long-term capital gains are generally subject to tax at reduced rates. Distributions of short-term capital gain will generally be taxable as ordinary income. Distributions reported by the Fund as "qualified dividend income" are generally taxed to non-corporate shareholders at rates applicable to long-term capital gains, provided holding period and other requirements are met. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. To the extent the Fund lends its securities and receives substitute dividend payments, such payments are not expected to generate qualified dividend income when distributed to shareholders.

In general, your distributions are subject to federal income tax for the year in which they are paid. Certain distributions paid in January, however, may be treated as paid on December 31 of the prior year. Distributions are generally taxable even if they are paid from income or gains earned by the Fund before your investment (and thus were included in the price you paid for your shares).

Dividends and distributions from the Fund and capital gain on the sale of Fund shares are generally taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

The Fund may include cash when paying the redemption price for Creation Units in addition to, or in place of, the delivery of a basket of securities. The Fund may be required to sell portfolio securities in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize investment income and/or capital gains or losses that it might not have recognized if it had completely satisfied the redemption in-kind. As a result, the Fund may be less tax efficient if it includes such a cash payment than if the in-kind redemption process was used.

Distributions (other than Capital Gain Dividends) paid to individual shareholders that are neither citizens nor residents of the U.S. or to foreign entities will generally be subject to a U.S. withholding tax at the rate of 30%, unless a lower treaty rate applies. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest related dividend” or a “short term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met.

**Table of Contents**

**Table of Contents**

The Fund (or financial intermediaries, such as brokers, through which shareholders own Fund shares) generally is required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and the sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding.

**Taxes When You Sell Fund Shares**

Any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if you held the shares you sold for more than one year. Any capital gain or loss realized upon a sale of Fund shares held for one year or less is generally treated as a short-term gain or loss, except that any capital loss on a sale of shares held for six months or less is treated as a long-term capital loss to the extent of Capital Gain Dividends paid with respect to such shares. The ability to deduct capital losses may be limited depending on your circumstances.

**Taxes on Creation and Redemption of Creation Units**

An Authorized Participant having the U.S. dollar as its functional currency for U.S. federal income tax purposes that exchanges securities for Creation Units generally will recognize a gain or loss equal to the difference between (i) the sum of the market value of the Creation Units at the time of the exchange and any amount of cash received by the Authorized Participant in the exchange and (ii) the sum of the exchanger's aggregate basis in the securities surrendered and any amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate U.S. dollar market value of the securities plus the amount of any cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss that is realized upon an exchange of securities for Creation Units may not be permitted to be currently deducted under the rules governing "wash sales" (for a person who does not mark-to-market their holdings), or on the basis that there has been no significant change in economic position.

Gain or loss recognized by an Authorized Participant upon an issuance of Creation Units in exchange for non-U.S. currency will generally be treated as ordinary income or loss. Gain or loss recognized by an Authorized Participant upon an issuance of Creation Units in exchange for securities, or upon a redemption of Creation Units, may be capital or ordinary gain or loss depending on the circumstances. Any capital gain or loss realized upon an issuance of Creation Units in exchange for securities will generally be treated as long-term capital gain or loss if the securities have been held for more than one year. Any capital gain or loss realized upon the redemption of a Creation Unit will generally be treated as long-term capital gain or loss if the Fund shares comprising the Creation Unit have been held for more than one year. Otherwise, such capital gains or losses are treated as short-term capital gains or losses.

A person subject to U.S. federal income tax with the U.S. dollar as its functional currency who receives non-U.S. currency upon a redemption of Creation Units and does not immediately convert the non-U.S. currency into U.S. dollars may, upon a later conversion of the non-U.S. currency into U.S. dollars, recognize any gains or losses resulting from fluctuations in the value of the non-U.S. currency relative to the U.S. dollar since the date of the redemption.

Any such gains or losses will generally be treated as ordinary income or loss.

Persons exchanging securities or non-U.S. currency for Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rules apply and when a loss might be deductible. If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many Fund shares you purchased or redeemed and at what price.

**Distribution**

Foreside Fund Services, LLC (the "Distributor") serves as the distributor of Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in shares of the Fund. The Distributor's principal address is Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor has no role in determining the policies of the Fund or the securities that are purchased or sold by the Fund.

**Premium/Discount and NAV Information**

Information regarding the Fund's NAV and how often shares of the Fund traded on the Listing Exchange at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund during the past calendar year and most recent calendar quarter is available at [www.wisdomtree.com](http://www.wisdomtree.com).

Additional Notices

Listing Exchange

Shares of the Fund are not sponsored, endorsed, or promoted by the Listing Exchange. The Listing Exchange makes no representation or warranty, express or implied, to the owners of the shares of the Fund or any member of the public regarding the ability of the Fund to track the total return performance of the Index or the ability of the Index identified herein to track stock market performance. The Listing Exchange is not responsible for, nor has it participated in, the determination of the compilation or the calculation of the Index, nor in the determination of the timing of, prices of, or quantities of the shares of the Fund to be issued, nor in the determination or calculation of the equation by which the shares are redeemable. The Listing Exchange has no obligation or liability to owners of the shares of the Fund in connection with the administration, marketing, or trading of the shares of the Fund.

The Listing Exchange does not guarantee the accuracy and/or the completeness of the Index or any data included therein. The Listing Exchange makes no warranty, express or implied, as to results to be obtained by the Trust on behalf of the Fund, owners of the shares, or any other person or entity from the use of the Index or any data included therein. The Listing Exchange makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein. Without limiting any of the foregoing, in no event shall the Listing Exchange have any liability for any lost profits or indirect, punitive, special, or consequential damages even if notified of the possibility thereof.

WisdomTree and the Fund

WisdomTree Investments and WisdomTree Asset Management (together, “WisdomTree”) and the Fund make no representation or warranty, express or implied, to the owners of shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Index to track general stock market performance. WisdomTree Investments is the licensor of the Index, trademarks, service marks and trade names of the Fund. WisdomTree Investments has no obligation to take the needs of the Fund or the owners of shares of the Fund into consideration in determining, composing, or calculating the Indexes. WisdomTree Investments is not responsible for, and has not participated in, the determination of the timing of, prices of, or quantities of shares of the Fund to be issued or in the determination or calculation of the equation by which the shares of the Fund are redeemable. WisdomTree and the Fund do not guarantee the accuracy, completeness, or performance of the Index or the data included therein and shall have no liability in connection with the Index or Index calculation. An Index’s past performance is not necessarily an indication of how the Index will perform in the future. WisdomTree Investments has contracted with an independent calculation agent to calculate the Index.

Financial Highlights

The Fund had not commenced operations prior to the date of this Prospectus and therefore does not have financial information.

**GENERAL DESCRIPTION OF THE TRUST AND THE FUND**

The Trust was organized as a Delaware statutory trust on December 15, 2005 and is authorized to issue multiple series or portfolios. The Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The offering of the Trust's shares is registered under the Securities Act of 1933, as amended (the "Securities Act").

The Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Balanced Income Index (the "Index"). The Index is created using proprietary methodology developed by WisdomTree Investments, Inc. ("WisdomTree Investments"). WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. ("WisdomTree Asset Management" or the "Adviser"), the investment adviser to the Fund. Mellon Capital Management Corporation ("Mellon Capital" or the "Sub-Adviser") is the investment sub-adviser to the Fund. The Adviser and the Sub-Adviser may be referred to collectively as the "Advisers". Foreside Fund Services, LLC serves as the distributor ("Distributor") of the shares of the Fund.

The Fund issues and redeems shares at net asset value per share ("NAV") only in large blocks of shares, typically 25,000 shares or more ("Creation Units" or "Creation Unit Aggregations"). Currently, Creation Units generally consist of 50,000 shares for the Fund, though this may change from time to time. Creation Units are not expected to consist of less than 25,000 shares. These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of the Fund are not redeemable securities.

Shares of the Fund are listed on a national securities exchange, such as the NYSE Arca, Inc. (the "Listing Exchange"), and trade throughout the day on the Listing Exchange and other secondary markets at market prices that may differ from NAV. As in the case of other publicly traded securities, brokers' commissions on transactions will be based on commission rates charged by the applicable broker.

The Trust reserves the right to adjust the prices of shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Index and the Fund.

**INVESTMENT STRATEGIES AND RISKS**

The Fund's investment objective, principal investment strategies and associated risks are described in the Fund's Prospectus. The sections below supplement these principal investment strategies and risks and describe the Fund's additional investment policies and the different types of investments that may be made by the Fund as a part of its non-principal investment strategies. With respect to the Fund's investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation.

The Fund intends to qualify each year for treatment as a regulated investment company (a "RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), so that it will not be subject to federal income tax on income and gains that are timely distributed to Fund shareholders. The Fund will invest its assets, and otherwise conduct its operations, in a manner that is intended to satisfy the qualifying income, diversification and distribution requirements necessary to establish and maintain eligibility for such treatment.

The Fund is considered non-diversified, as such term is used in the 1940 Act.

**GENERAL RISKS**

An investment in the Fund should be made with an understanding that the value of the Fund's portfolio securities may fluctuate in accordance with changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer and changes in general economic or political conditions. A Fund may not outperform other investment strategies over short- or long-term market cycles and the Fund may decline in value. Fund shares may trade above or below their net asset value. An investor in the Fund could lose money over short or long periods of time. The price of the securities and other investments held by the Fund and thus the value of the Fund's portfolio is expected to fluctuate in accordance with general economic conditions, interest rates, political events, and other factors.

---

## Table of Contents

An investment in the Fund should also be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of the Fund's portfolio securities and therefore a decrease in the value of shares of the Fund). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

In addition, an investment in the Fund should be made with the understanding that although the Fund attempts to invest in liquid securities and instruments, there can be no guarantee that a liquid market for such securities and instruments will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Fund's shares will be adversely affected if trading markets for the Fund's portfolio securities are limited or absent, or if bid/ask spreads are wide.

Issuer-specific conditions may also affect the value of the Fund's investments. The financial condition of an issuer of a security or counterparty to a contract may cause it to default or become unable to pay interest or principal due on the security or contract. The Fund cannot collect interest and principal payments if the issuer or counterparty defaults. Accordingly, the value of an investment in the Fund may change in response to issuer or counterparty defaults and changes in the credit ratings of the Fund's portfolio securities. The price at which securities may be sold and the value of the Fund's shares will be adversely affected if trading markets for the Fund's portfolio securities are limited or absent, or if bid/ask spreads are wide.

Although all of the securities in the Index are generally listed on one or more major U.S. or non-U.S. stock exchange, there can be no guarantee that a liquid market for such securities will be maintained. The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Fund's shares will be adversely affected if trading markets for the Fund's portfolio securities are limited or absent, or if bid/ask spreads are wide.

Events in the financial sector have resulted, and may continue to result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. Domestic and foreign fixed income and equity markets experienced extreme volatility and turmoil starting in late 2008 and volatility has continued to be experienced in the markets. Issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected, and well-known financial institutions have experienced significant liquidity and other problems. Some of these institutions have declared bankruptcy or defaulted on their debt. It is uncertain whether or for how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

The Fund may be included in model portfolios developed by WisdomTree Asset Management for use by financial advisors and/or investors. The market price of shares of the Fund, costs of purchasing or selling shares of the Fund, including the bid/ask spread, and liquidity of the Fund may be impacted by purchases and sales of the Fund by one or more model-driven investment portfolios.

Authorized Participants should refer to the section herein entitled "Creation and Redemption of Creation Unit Aggregations" for additional information that may impact them.

**BORROWING.** Although the Fund does not intend to borrow money as part of its principal investment strategies, the Fund may do so to the extent permitted by the 1940 Act. Under the 1940 Act, the Fund may borrow up to 33% of its net assets, but under normal market conditions, the Fund does not expect to borrow greater than 10% of the Fund's net assets. The Fund will borrow only for short-term or emergency purposes.

Borrowing will tend to exaggerate the effect on net asset value of any increase or decrease in the market value of the Fund's portfolio. Money borrowed will be subject to interest costs that may or may not be recovered by earnings on the securities purchased. The Fund also may be required to maintain minimum average balances in connection with a borrowing or to pay a commitment or other fee to maintain a line of credit; either of these requirements would increase the cost of borrowing over the stated interest rate.

---

**Table of Contents**

**CAPITAL CONTROLS AND SANCTIONS RISK.** Economic conditions, such as volatile currency exchange rates and interest rates, political events, military action and other conditions may, without prior warning, lead to government intervention (including intervention by the U.S. government with respect to foreign governments, economic sectors, foreign companies and related securities and interests) and the imposition of capital controls and/or sanctions, which may also include retaliatory actions of one government against another government, such as seizure of assets. Capital controls and/or sanctions include the prohibition of, or restrictions on, the ability to own or transfer currency, securities or other assets, which may potentially include derivative instruments related thereto. Countries use these controls to, among other reasons restrict movements of capital entering (inflows) and exiting (outflows) their country to respond to certain economic or political conditions. By way of example, such controls may be applied to short-term capital transactions to counter speculative flows that threaten to undermine the stability of the exchange trade and deplete foreign exchange reserves. Levies may be placed on profits repatriated by foreign entities (such as the Fund). Capital controls and/or sanctions may also impact the ability of the Fund to buy, sell, transfer, receive, deliver (*i.e.*, create and redeem Creation Units) or otherwise obtain exposure to, foreign securities or currency, negatively impact the value and/or liquidity of such instruments, adversely affect the trading market and price for shares of the Fund (*e.g.*, cause the Fund to trade at prices materially different from its NAV), and cause the Fund to decline in value. The Fund may change its creation and/or redemption procedures without notice in response to the imposition of capital controls or sanctions. There can be no assurance a country in which the Fund invests or the U.S. will not impose a form of capital control or sanction to the possible detriment of the Fund and its shareholders.

**CURRENCY EXCHANGE RATE RISK.** Investments denominated in non-U.S. currencies and investments in securities or derivatives that provide exposure to such currencies, currency exchange rates or interest rates are subject to non-U.S. currency risk. Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund's investment and the value of your Fund shares. Because the Fund's NAV is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. This is true even if the local currency value of securities in the Fund's holdings goes up. Conversely, the U.S. dollar value of your investment in the Fund may go up if the value of the local currency appreciates against the U.S. dollar.

The value of the U.S. dollar measured against other currencies is influenced by a variety of factors. These factors include interest rates, national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange rates. Currencies of emerging or developing market countries may be subject to significantly greater risks than currencies of developed countries. Many developing market countries have experienced steady declines or even sudden devaluations of their currencies relative to the U.S. dollar. Some non-U.S. market currencies may not be traded internationally, may be subject to strict limitations on foreign investment and may be subject to frequent and unannounced government intervention. Government intervention and currency controls can decrease the value and significantly increase the volatility of an investment in non-U.S. currency. Although the currencies of some developing market countries may be convertible into U.S. dollars, the achievable rates may differ from those experienced by domestic investors because of foreign investment restrictions, withholding taxes, lack of liquidity or other reasons.

**CYBER SECURITY RISK.** Investment companies, such as the Fund, and its service providers may be prone to operational and information security risks resulting from cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber-attacks affecting the Fund or the Adviser, Sub-Adviser, accountant, custodian, transfer agent, index provider, market makers, Authorized Participants and other third-party service providers may adversely impact the Fund. For instance, cyber-attacks may interfere with the processing of Authorized Participant transactions, impact the Fund's ability to calculate its net asset value, cause the release of private shareholder information or confidential company information, impede trading, subject the Fund to regulatory fines or financial losses, and cause reputational damage. The Fund could incur extraordinary expenses for cyber security risk management purposes, prevention and/or resolution. Similar types of cyber security risks are also present for issuers of securities in which the Fund invests, which could result in material adverse consequences for such issuers, and may cause the Fund's investment in such portfolio companies to lose value.

**FOREIGN SECURITIES RISK.** The Fund invests a significant portion of its assets in non-U.S. securities and instruments, or in instruments that provide exposure to such securities and instruments. Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than a U.S. issuer. Non-U.S. issuers may be subject to different accounting, auditing, financial reporting and investor protection standards than U.S. issuers. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks (including restrictions on the transfers of securities). With respect to certain countries, there is the possibility of government intervention and expropriation or nationalization of assets. Because legal systems differ, there is also the possibility that it will be difficult to obtain or enforce legal judgments in certain countries. Since foreign exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely,

Fund shares may trade on days

---

## Table of Contents

when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments and may be heightened in connection with investments in developing or emerging market countries. Foreign securities also include American Depositary Receipts ( ADRs ) which are U.S. dollar-denominated receipts representing shares of foreign-based corporations. ADRs are issued by U.S. banks or trust companies and entitle the holder to all dividends and capital gains that are paid out on the underlying foreign shares. Global Depositary Receipts ( GDRs ), which are similar to ADRs, represent shares of foreign-based corporations and are generally issued by international banks in one or more markets around the world. Investments in ADRs and GDRs may be less liquid and more volatile than underlying shares in their primary trading markets. In addition, the Fund may change its creation or redemption procedures without notice in connection with restrictions on the transfer of securities. For more information on creation and redemption procedures, see Creation and Redemption of Creation Unit Aggregations herein.

**HIGH YIELD RISK.** The Fund may invest in non-investment grade securities rated lower than Baa by Moody's Investors Services, Inc. ( Moody's ), or equivalently rated by Standard & Poor's Corporation ( S&P ) or Fitch. Such securities are sometimes referred to as high yield securities or junk bonds. Investing in these securities involves special risks in addition to the risks associated with investments in higher-rated fixed income securities. While offering a greater potential for capital appreciation and higher yields, high yield securities typically entail higher price volatility and may be less liquid than securities with higher ratings. High yield securities may be regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. Issuers of securities in default may fail to resume principal or interest payments, in which case the Fund may lose its entire investment.

**LACK OF DIVERSIFICATION.** The Fund is considered to be non-diversified. A non-diversified classification means that the Fund is not limited by the 1940 Act with regard to the percentage of its total assets that may be invested in the securities of a single issuer. As a result, the Fund may invest more of its total assets in the securities of a single issuer or a smaller number of issuers than if it were classified as a diversified fund. Therefore, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a small number of issuers than a fund that invests more widely, which may have a greater impact on the Fund's volatility and performance.

**TAX RISK.** To qualify for the favorable U.S. federal income tax treatment accorded to RICs, the Fund must, among other things, derive in each taxable year at least 90% of its gross income from certain prescribed sources. The U.S. Treasury Department has authority to issue regulations that would exclude foreign currency gains from qualifying income if such gains are not directly related to the Fund's business of investing in stock or securities. Accordingly, regulations may be issued in the future that could treat some or all of the Fund's foreign currency gains as nonqualifying income, which might jeopardize the Fund's status as a RIC for all years to which the regulations are applicable. If for any taxable year the Fund does not qualify as a RIC, all of its taxable income (including its net capital gain) for that year would be subject to tax at regular corporate rates without any deduction for distributions to shareholders, and such distributions would be taxable to shareholders as dividend income to the extent of the Fund's current and accumulated earnings and profits.

A discussion of some of the other risks associated with an investment in the Fund is contained in the Fund's Prospectus.

## **SPECIFIC INVESTMENT STRATEGIES**

A description of certain investment strategies and types of investments used by the Fund is set forth below. The Fund expects to principally invest in Exchange Traded Products, as described below, and thereby expects to obtain exposure to the investments described below, as applicable, through such Exchange Traded Products as opposed to investing directly in such investments.

**BANK DEPOSITS AND OBLIGATIONS.** The Fund may invest in deposits and other obligations of U.S. and non-U.S. banks and financial institutions. Deposits and obligations of banks and financial institutions include certificates of deposit, time deposits, and bankers' acceptances. Certificates of deposit and time deposits represent an institution's obligation to repay funds deposited with it that earn a specified interest rate. Certificates of deposit are negotiable certificates, while time deposits are non-negotiable deposits. A banker's acceptance is a time draft drawn on and accepted by a bank that becomes a primary and unconditional liability of the bank upon acceptance. Investments in obligations of non-U.S. banks and financial institutions may involve risks that are different from investments in obligations of U.S. banks. These risks include future unfavorable political and economic developments, seizure or nationalization of foreign deposits, currency controls, interest limitations or other governmental restrictions that might affect the payment of principal or interest on the securities held in the Fund.

**COMMERCIAL PAPER.** The Fund may invest in commercial paper. Commercial paper is an unsecured short-term promissory note with a fixed maturity of no more than 270 days issued by corporations, generally to finance short-term business needs. The commercial paper purchased by the Fund generally will be rated in the upper two short-term ratings by at least two Nationally Recognized Statistical Rating Organizations ( NRSROs ) or, if unrated, deemed to be of equivalent quality by the Adviser or the Sub-

---

## Table of Contents

Adviser. If a security satisfies the rating requirement upon initial purchase and is subsequently downgraded, the Fund is not required to dispose of the security. In the event of such an occurrence, the Adviser or the Sub-Adviser will determine what action, including potential sale, is in the best interest of the Fund. The Fund may also purchase unrated commercial paper provided that such paper is determined to be of comparable quality by the Adviser or the Sub-Adviser. Commercial paper issuers in which the Fund may invest include securities issued by corporations without registration under the Securities Act in reliance on the exemption from such registration afforded by Section 3(a)(3) thereof, and commercial paper issued in reliance on the so-called private placement exemption from registration, which is afforded by Section 4(2) of the Securities Act (Section 4(2) paper). Section 4(2) paper is restricted as to disposition under the federal securities laws in that any resale must similarly be made in an exempt transaction. Section 4(2) paper is normally resold to other institutional investors through or with the assistance of investment dealers who make a market in Section 4(2) paper, thus providing liquidity.

**CORPORATE DEBT OBLIGATIONS.** The Fund may invest in corporate debt obligations. Corporate debt obligations are interest bearing securities in which the corporate issuer has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal periodically or on a specified maturity date. Notes, bonds, debentures and commercial paper are the most common types of corporate debt securities. The primary differences between the different types of corporate debt securities are their maturities and secured or un-secured status. Commercial paper has the shortest term and is usually unsecured. The Fund may invest in rated and unrated debt, subject to the credit quality restrictions set forth in the description of the Fund's Principal Investment Strategies herein. If a security satisfies the rating requirement upon initial purchase and is subsequently downgraded, the Fund is not required to dispose of the security. In the event of such an occurrence, the Adviser or the Sub-Adviser will determine what action, including potential sale, is in the best interest of the Fund. See also High Yield Risk above under General Risks.

Corporate debt may be issued by domestic or foreign companies of all kinds, including those with small-, mid- and large-capitalizations. Corporate debt may be rated investment-grade or below investment-grade and may carry variable or floating rates of interest.

Because of the wide range of types, and maturities, of corporate debt obligations, as well as the range of creditworthiness of its issuers, corporate debt obligations have widely varying potentials for return and risk profiles. For example, commercial paper issued by a large established domestic corporation that is rated investment-grade may have a modest return on principal, but carries relatively limited risk. On the other hand, a long-term corporate note issued by a small foreign corporation from an emerging market country that has not been rated may have the potential for relatively large returns on principal, but carries a relatively high degree of risk.

Like most fixed income securities, corporate debt obligations carry both credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if the issuer of a corporate debt security is unable to pay interest or repay principal when it is due. Interest rate risk is the risk that the value of certain corporate debt securities will tend to fall when interest rates rise. In general, corporate debt securities with longer terms tend to fall more in value when interest rates rise than corporate debt securities with shorter terms. Funds with higher durations generally are subject to greater interest rate risk. For example, the value of a fund with a portfolio duration of ten years would be expected to drop by 10% for every 1% increase in interest rates. The Fund's actual portfolio duration may be longer or shorter depending upon market conditions.

**CURRENCY TRANSACTIONS.** The Fund may enter into foreign currency forward and foreign currency futures contracts, including to facilitate local securities settlements or to protect against currency exposure.

**Foreign Currency Futures Contracts.** A foreign currency futures contract is a contract involving an obligation to deliver or acquire the specified amount of a specific currency, at a specified price and at a specified future time. Futures contracts may be settled on a net cash payment basis rather than by the sale and delivery of the underlying currency.

**Forward Foreign Currency Contracts.** A forward foreign currency exchange contract (forward contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the interbank market conducted directly between currency traders (usually large commercial banks) and their customers. Forward contracts are contracts between parties in which one party agrees to make a payment to the other party (the counterparty) based on the market value or level of a specified currency. In return, the counterparty agrees to make payment to the first party based on the return of a different specified currency. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades. These contracts typically are settled by physical delivery of the underlying currency or currencies in the amount of the full contract value to the extent they are not agreed to be carried forward to another expiration date (*i.e.*, rolled over).

A non-deliverable forward contract is a forward contract where there is no physical settlement of two currencies at maturity. Non-deliverable forward contracts will usually be done on a net basis, with the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of the Fund's obligations over its entitlements with respect to each non-deliverable forward contract is accrued on a daily basis and an amount of cash or liquid securities having an aggregate value at least equal to the accrued excess is maintained to cover such

## Edgar Filing: WisdomTree Trust - Form 485BPOS

obligations. The risk of loss with respect to non-deliverable forward contracts generally is limited to the net amount of payments that the Fund is contractually obligated to make or receive.

## Table of Contents

Currency exchange transactions involve a significant degree of risk and the markets in which currency exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Currency exchange trading risks include, but are not limited to, exchange rate risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in foreign currency. If the Fund utilizes foreign currency transactions at an inappropriate time, such transactions may not serve their intended purpose of improving the correlation of the Fund's return with the performance of its underlying Index and may lower the Fund's return. The Fund could experience losses if the value of any currency forwards and futures positions is poorly correlated with its other investments or if it could not close out its positions because of an illiquid market. Such contracts are subject to the risk that the counterparty will default on its obligations. In addition, the Fund will incur transaction costs, including trading commissions, in connection with certain foreign currency transactions.

**DEPOSITARY RECEIPTS.** To the extent the Fund invests in stocks of foreign corporations, the Fund's investment in such stocks may be in the form of Depositary Receipts or other similar securities convertible into securities of foreign issuers. Depositary Receipts may not necessarily be denominated in the same currency as the underlying securities into which they may be converted. ADRs are receipts typically issued by an American bank or trust company that evidence ownership of underlying securities issued by a foreign corporation. European Depositary Receipts ( EDRs ) are receipts issued in Europe that evidence a similar ownership arrangement. GDRs are receipts issued throughout the world that evidence a similar arrangement. Non-Voting Depositary Receipts ( NVDRs ) are receipts issued in Thailand that evidence a similar arrangement. Generally, ADRs, in registered form, are designed for use in the U.S. securities markets, and EDRs, in bearer form, are designed for use in European securities markets. GDRs are tradable both in the United States and in Europe and are designed for use throughout the world. NVDRs are tradable on the Stock Exchange of Thailand.

The Fund will not generally invest in any unlisted Depositary Receipts or any Depositary Receipt that WisdomTree Asset Management or the Sub-Adviser deems to be illiquid or for which pricing information is not readily available. In addition, all Depositary Receipts generally must be sponsored; however, the Fund may invest in unsponsored Depositary Receipts under certain limited circumstances. The issuers of unsponsored Depositary Receipts are not obligated to disclose material information in the United States, and, therefore, there may be less information available regarding such issuers and there may not be a correlation between such information and the market value of the Depositary Receipts. The use of Depositary Receipts may increase tracking error relative to an underlying Index.

**DERIVATIVES.** The Fund may use derivative instruments as part of its investment strategy. The Fund will not use derivatives to increase leverage, and the Fund will provide margin or collateral, as applicable, with respect to investments in derivatives in such amounts as determined under applicable law, regulatory guidance, or related interpretations.

Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to bonds, interest rates, currencies, commodities, and related indexes. Examples of derivative instruments include forward currency contracts, currency and interest rate swaps, currency options, futures contracts, options on futures contracts, swap agreements and credit-linked notes.

With respect to certain kinds of derivative transactions that involve obligations to make future payments to third parties, including, but not limited to, futures contracts, forward contracts, swap contracts, the purchase of securities on a when-issued or delayed delivery basis, or reverse repurchase agreements, under applicable federal securities laws, rules, and interpretations thereof, the Fund must set aside (referred to sometimes as asset segregation ) liquid assets, or engage in other measures to cover open positions with respect to such transactions in a manner consistent with the 1940 Act, specifically sections 8 and 18 thereunder. In complying with such requirements, the Fund will include assets of any wholly-owned subsidiary in which the Fund invests on an aggregate basis.

For example, with respect to forward contracts and futures contracts that are not contractually required to cash-settle, the Fund must cover its open positions by having available liquid assets equal to the contracts' full notional value. The Fund treats deliverable forward contracts for currencies that are liquid as the equivalent of cash-settled contracts. As such, the Fund may have available liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation (*i.e.*, the Fund's daily net liability, if any) rather than the full notional amount under such deliverable forward contracts. Similarly, with respect to futures contracts that are contractually required to cash-settle the Fund may have available liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation rather than the notional value. The Fund reserves the right to modify these policies in the future.

Forwards, swaps and certain other derivatives are subject to regulation under The Dodd-Frank Wall Street Reform and Consumer Protection Act ( Dodd-Frank Act ) in the U.S. and certain non-U.S. jurisdictions. Physically-settled forwards entered into between eligible contract participants, such as the Fund, are generally subject to fewer regulatory requirements in the U.S. than non-deliverable forwards. Under the Dodd-Frank Act, non-deliverable forwards are regulated as swaps and are subject to rules requiring central clearing and mandatory trading on an exchange or facility that is regulated by the Commodity Futures Trading Commission (the CFTC ). Under the Dodd-Frank Act, non-deliverable forwards,

## Edgar Filing: WisdomTree Trust - Form 485BPOS

swaps and certain other derivatives traded in the OTC market will become subject to initial and variation margin requirements as early as March 1, 2017. The Fund's counterparties may be subject to

## Table of Contents

additional regulatory requirements and/or apply the regulatory requirements more broadly than is required for administrative and other reasons, including, for example, by (i) applying the stricter regulatory requirements to physically-settled forwards that are applicable to non-deliverable forwards even though the stricter rules are not technically applicable to such physically-settled forwards; and (ii) applying smaller thresholds for the delivery of variation margin than required. As such, the Fund may need to hold more cash, which may include raising cash by selling securities and/or obtaining cash through other arrangements in order to meet margin requirements, which may, among other potential consequences, cause increased index tracking error, cause an increase in expense ratio, lead to the realization of taxable gains, increase costs to the Fund of trading or otherwise affect returns to investors in the Fund.

Effective April 24, 2012, the CFTC revised, among other things, CFTC Rule 4.5 and rescinded CFTC Rule 4.13(a)(4). The CFTC has adopted amendments to its regulations of commodity pool operators (CPOs) managing funds registered under the 1940 Act that harmonize the SEC's and the CFTC's regulatory schemes. The adopted amendments to the CFTC regulations allow CPOs to registered investment companies to satisfy certain recordkeeping, reporting and disclosure requirements that would otherwise apply to them under Part 4 of the CFTC's regulations by continuing to comply with comparable SEC requirements. To the extent that the CFTC recordkeeping, disclosure and reporting requirements deviate from the comparable SEC requirements, such deviations are not expected to materially adversely affect the ability of the Fund to continue to operate and achieve its investment objective. If, however, these requirements or future regulatory changes result in the Fund having difficulty in achieving its investment objective, the Trust may determine to reorganize or close the Fund, materially change the Fund's investment objective and strategies, or operate the Fund as a regulated commodity pool pursuant to WisdomTree Asset Management's CPO registration.

With regard to the Fund, WisdomTree Asset Management expects to claim relief from the definition of CPO under revised CFTC Rule 4.5. Specifically, pursuant to CFTC Rule 4.5, WisdomTree Asset Management may claim exclusion from the definition of CPO, and thus from having to register as a CPO, with regard to the Fund if it enters into commodity futures, commodity options or swaps solely for bona fide hedging purposes, or that limits its investment in commodities to a de minimis amount, as defined in CFTC rules, so long as the shares of the Fund are not marketed as interests in a commodity pool or other vehicle for trading in commodity futures, commodity options or swaps.

**Swap Agreements.** The Fund may enter into swap agreements, including currency swaps, interest rate swaps, credit default swaps, and total return swaps. A typical foreign currency swap involves the exchange of cash flows based on the notional differences among two or more currencies (e.g., the U.S. dollar and the euro). A typical interest rate swap involves the exchange of a floating interest rate payment for a fixed interest payment. A typical credit default swap (CDS) involves an agreement to make a series of payments by the buyer in exchange for receipt of payment by the seller if the loan defaults. In the event of default the buyer of the CDS receives compensation (usually the face value of the loan), and the seller of the CDS takes possession of the defaulted loan. In the event that the Fund acts as a protection seller of a CDS, the Fund will segregate assets equivalent to the full notional value of the CDS. In the event that the Fund acts as a protection buyer of a CDS, the Fund will cover the total amount of required premium payments plus the pre-payment penalty. Total return swaps involve the exchange of payments based on the total return on an underlying reference asset. The total return includes appreciation or depreciation on the reference asset, plus any interest or dividend payments. Swap agreements can be structured to provide for periodic payments over the term of the swap contract or a single payment at maturity (also known as a bullet swap). Swap agreements may be used to hedge or achieve exposure to, for example, currencies, interest rates, and money market securities without actually purchasing such currencies or securities. The Fund may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift the Fund's investment exposure from one type of investment to another or from one payment stream to another.

Depending on their structure, swap agreements may increase or decrease the Fund's exposure to long- or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other factors, and may increase or decrease the overall volatility of the Fund's investments and its share price. When the Fund purchases or sells a swap contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. To cover its position, the Fund will maintain with its custodian bank (and mark-to-market on a daily basis) a segregated account consisting of cash or liquid securities that, when added to any amounts deposited as margin, are equal to the market value of the swap contract or otherwise cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated account will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated accounts will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

**Futures, Options and Options on Futures Contracts.** The Fund may enter into U.S. or foreign futures contracts, options and options on futures contracts. When a fund purchases a futures contract, it agrees to purchase a specified underlying instrument at a specified future date. When a fund sells a futures contract, it agrees to sell the underlying instrument at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. Futures can be held until their delivery dates, or can be closed out before then if a liquid secondary market is available.

---

## Table of Contents

The risk of loss in trading futures contracts or uncovered call options in some strategies (*e.g.*, selling uncovered stock index futures contracts) is potentially unlimited. The Fund does not plan to use futures and options contracts in this way. The risk of a futures position may still be large as traditionally measured due to the low margin deposits required. In many cases, a relatively small price movement in a futures contract may result in immediate and substantial loss or gain to the investor relative to the size of a required margin deposit. The Fund, however, may utilize futures and options contracts in a manner designed to limit its risk exposure to levels comparable to direct investment in stocks.

Utilization of futures and options on futures by the Fund involves the risk of imperfect or even negative correlation to the underlying Index if the index underlying the futures contract differs from the Fund's underlying Index. There is also the risk of loss by the Fund of margin deposits in the event of bankruptcy of a broker with whom the Fund has an open position in the futures contract or option. The purchase of put or call options will be based upon predictions by the Fund as to anticipated trends, which predictions could prove to be incorrect.

The potential for loss related to the purchase of an option on a futures contract is limited to the premium paid for the option plus transaction costs. Because the value of the option is fixed at the point of sale, there are no daily cash payments by the purchaser to reflect changes in the value of the underlying contract; however, the value of the option changes daily and that change would be reflected in the NAV of the Fund. The potential for loss related to writing options is unlimited.

Although the Fund intends to enter into futures contracts only if there is an active market for such contracts, there is no assurance that an active market will exist for the contracts at any particular time.

**Credit-Linked Notes.** The Fund may invest in credit-linked notes. A credit-linked note is a type of structured note whose value is linked to an underlying reference asset. Credit-linked notes typically provide periodic payments of interest as well as payment of principal upon maturity. The value of the periodic payments and the principal amount payable upon maturity are tied (positively or negatively) to a reference asset, such as an index, government bond, interest rate or currency exchange rate. The ongoing payments and principal upon maturity typically will increase or decrease depending on increases or decreases in the value of the reference asset. A credit-linked note typically is issued by a special purpose trust or similar entity and is a direct obligation of the issuing entity. The entity, in turn, invests in bonds or derivative contracts in order to provide the exposure set forth in the credit-linked note. The periodic interest payments and principal obligations payable under the terms of the note typically are conditioned upon the entity's receipt of payments on its underlying investment. If the underlying investment defaults, the periodic payments and principal received by the Fund will be reduced or eliminated. The buyer of a credit-linked note assumes the risk of default by the issuer and the underlying reference asset or entity. Generally, investors in credit-linked notes assume the risk of default by the issuer and the reference entity in return for a potentially higher yield on their investment or access to an investment that they could not otherwise obtain. In the event the issuer defaults or there is a credit event that relates to the reference asset, the recovery rate is generally less than the Fund's initial investment and the Fund may lose money.

**EQUITY SECURITIES.** The Fund will invest in equity securities. Equity securities, such as the common stocks of an issuer, are subject to stock market fluctuations and, therefore, may experience volatile changes in value as market conditions, consumer sentiment or the financial condition of the issuers change. A decrease in value of the equity securities in the Fund's portfolio may also cause the value of the Fund's shares to decline.

**EXCHANGE TRADED PRODUCTS.** The Fund will invest in exchange traded products (ETPs), which include exchange traded funds registered under the 1940 Act, exchange traded commodity trusts and exchange traded notes. The Adviser may receive management or other fees from the ETPs in which the Fund may invest (Affiliated ETPs), as well as a management fee for managing the Fund. It is possible that a conflict of interest among the Fund and Affiliated ETPs could affect how the Adviser fulfills its fiduciary duties to the Fund and the Affiliated ETPs. Although the Adviser takes steps to address the conflicts of interest, it is possible that the conflicts could impact the Fund. The Fund may invest in new ETPs or ETPs that have not yet established a deep trading market at the time of investment. Shares of such ETPs may experience limited trading volume and less liquidity, in which case the spread (the difference between bid price and ask price) may be higher.

**Exchange Traded Funds.** The Fund will invest in ETFs. ETFs are investment companies that trade like stocks on a securities exchange at market prices rather than NAV. As a result, ETF shares may trade at a price greater than NAV (premium) or less than NAV (discount). The Fund, by investing in an ETF, indirectly bears fees and expenses charged by the ETF in addition to the Fund's direct fees and expenses. Investments in ETFs are also subject to brokerage and other trading costs that could result in greater expenses for the Fund.

**Exchange Traded Commodity Trusts.** An exchange traded commodity trust is a pooled trust that invests in physical commodities or commodity futures, and issues shares that trade on a securities exchange at a discount or premium to the value of the trust's holdings. Investments in exchange traded commodity trusts are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. Exchange traded commodity trusts are not investment companies registered under the 1940 Act. As a result, in connection with any such investments, the Fund will not have the protections associated with ownership of shares in an investment company registered under the 1940 Act. Investments in exchange traded commodity trusts, like investments in other commodities, may increase the risk that the Fund may not

## Edgar Filing: WisdomTree Trust - Form 485BPOS

qualify as a regulated investment company under the Code. If the Fund fails to qualify as a regulated investment company, the Fund will be subject to tax, which will reduce returns to shareholders. Such a failure will also alter the treatment of distributions to its shareholders.

---

**Table of Contents**

**Exchange Traded Notes.** The Fund may invest in exchange traded notes ( ETNs ). ETNs generally are senior, unsecured, unsubordinated debt securities issued by a sponsor, such as an investment bank. ETNs are traded on exchanges and the returns are linked to the performance of market indexes. In addition to trading ETNs on exchanges, investors may redeem ETNs directly with the issuer on a periodic basis, typically in a minimum amount of 50,000 units, or hold the ETNs until maturity. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in the underlying market, changes in the applicable interest rates, and economic, legal, political or geographic events that affect the referenced market. Because ETNs are debt securities, they are subject to credit risk. If the issuer has financial difficulties or goes bankrupt, the Fund may not receive the return it was promised. If a rating agency lowers an issuer's credit rating, the value of the ETN may decline and a lower credit rating reflects a greater risk that the issuer will default on its obligation. There may be restrictions on the Fund's right to redeem its investment in an ETN. There are no periodic interest payments for ETNs, and principal is not protected. The Fund's decision to sell its ETN holdings may be limited by the availability of a secondary market.

**FINANCIAL SECTOR INVESTMENTS.** The Fund may engage in transactions with or invest in companies that are considered to be in the financial sector, including commercial banks, brokerage firms, diversified financial services, a variety of firms in all segments of the insurance industry (such as multi-line, property and casualty, and life insurance) and real estate-related companies. There can be no guarantee that these strategies may be successful. The Fund may lose money as a result of defaults or downgrades within the financial sector.

Events in the financial sector have resulted in increased concerns about credit risk and exposure. Well-known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt obligations. Issuers that have exposure to real estate, mortgage and credit markets have been particularly affected. It is uncertain whether or how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

Rule 12d3-1 under the 1940 Act limits the extent to which a fund may invest in the securities of any one company that derives more than 15% of its revenues from brokerage, underwriting or investment management activities. A fund may purchase securities of an issuer that derived more than 15% of its gross revenues in its most recent fiscal year from securities-related activities, subject to the following conditions: (1) the purchase cannot cause more than 5% of the fund's total assets to be invested in securities of that issuer;

(2) for any equity security, the purchase cannot result in the fund owning more than 5% of the issuer's outstanding securities in that class; and (3) for a debt security, the purchase cannot result in the fund owning more than 10% of the outstanding principal amount of the issuer's debt securities. The Fund, in seeking to comply with this rule, may experience greater index tracking error because an Index is not subject to the rule.

In applying the gross revenue test, an issuer's own securities-related activities must be combined with its ratable share of securities-related revenues from enterprises in which it owns a 20% or greater voting or equity interest. All of the above percentage limitations, as well as the issuer's gross revenue test, are applicable at the time of purchase. With respect to warrants, rights, and convertible securities, a determination of compliance with the above limitations shall be made as though such warrant, right, or conversion privilege had been exercised. The Fund will not be required to divest its holdings of a particular issuer when circumstances subsequent to the purchase cause one of the above conditions to not be met. The purchase of a general partnership interest in a securities-related business is prohibited.

**FIXED INCOME SECURITIES.** The Fund will invest in fixed income securities, such as corporate debt, U.S. Treasury notes and bonds. Fixed income securities change in value in response to interest rate changes and other factors, such as the perception of the issuer's creditworthiness. For example, the value of fixed income securities will generally decrease when interest rates rise, which may cause the value of the Fund to decrease. In addition, investments in fixed income securities with longer maturities will generally fluctuate more in response to interest rate changes. The capacity of traditional dealers to engage in fixed income trading has not kept pace with the bond market's growth and dealer inventories of bonds are at or near historic lows relative to market size. Because market makers provide stability to fixed income markets, the significant reduction in dealer inventories could lead to decreased liquidity and increased volatility, which may become exacerbated during periods of economic or political stress. In addition, liquidity risk may be magnified in a rising interest rate environment in which investor redemptions (or selling of fund shares in the secondary market) from fixed income funds may be higher than normal.

**FUTURE DEVELOPMENTS.** The Trust's Board of Trustees (the Board) may, in the future, authorize the Fund to invest in securities contracts and investments other than those listed in this SAI and in the Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any investment restrictions or policies.

**ILLIQUID SECURITIES.** Although the Fund does not intend to do so, as a matter of policy, the Fund may invest up to an aggregate amount of 15% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets to the extent the Adviser or Sub-Adviser has not deemed such

**Table of Contents**

securities to be liquid. The inability of the Fund to dispose of illiquid or not readily marketable investments readily or at a reasonable price could impair the Fund's ability to raise cash for redemptions or other purposes. The liquidity of securities purchased by the Fund which are eligible for resale pursuant to Rule 144A, except for certain 144A bonds, will be monitored by the Fund on an ongoing basis. In the event that such a security is deemed to be no longer liquid, the Fund's holdings will be reviewed to determine what action, if any, is required to ensure that the retention of such security does not result in the Fund having more than 15% of its net assets invested in illiquid or not readily marketable securities.

**INFLATION-LINKED BONDS.** The Fund may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed income securities whose principal value is periodically adjusted according to the rate of inflation. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of U.S. Treasury inflation-indexed bonds. However, the current market value of the bonds is not guaranteed, and will fluctuate with market conditions. Investments in other inflation-linked bonds may not provide a similar guarantee and the principal amount repaid could be less than the original principal if inflation falls over the period.

The value of inflation-indexed bonds is expected to change in response to changes in real interest rates. Real interest rates in turn are tied to the relationship between nominal interest rates and the rate of inflation. Therefore, if the rise in inflation exceeds the rise in nominal rates, real rates are likely to decline, leading to an increase in the market value of the bonds. Conversely, if the rise in nominal interest rates outpaces the pickup in the rate of inflation, real interest might rise, generating a decline in the market value of the inflation-linked security.

The periodic adjustment of U.S. inflation-indexed bonds generally is tied to the Consumer Price Index for Urban Consumers (CPI-U), which is calculated monthly by the U.S. Bureau of Labor Statistics. The CPI-U is a measurement of changes in the cost of living, made up of components such as housing, food, transportation and energy. Inflation-indexed bonds issued by a foreign government are generally adjusted to reflect a comparable country or regional inflation measure calculated by that government. There can be no assurance that the CPI-U or any foreign inflation index will accurately measure the real rate of inflation in the prices of goods and services. Moreover, there can be no assurance that the rate of inflation in a foreign country will be correlated to the rate of inflation in the United States. Any increase in the principal amount of an inflation-indexed bond will be considered taxable ordinary income, even though investors do not receive their principal until maturity.

Inflation-linked bonds held by the Fund may experience an increase in original issue value due to inflation-linked adjustments. The inflation-linked growth in the value of these bonds may be reflected in the Fund's gross income. While inflation-adjusted growth does not result in cash payments to the Fund, the Fund may be required to make distributions to shareholders for any increase in value in excess of the cash actually received by the Fund during the taxable year. The Fund may be required to sell portfolio securities to make these distribution payments. This may lead to higher transaction costs, losses from sale during unfavorable market conditions and higher capital gains taxes. If deflation-linked adjustments decrease the value of inflation-linked bonds held by the Fund, income distributions previously made by the Fund during the taxable year may be deemed a return of capital.

**INVESTMENT COMPANY SECURITIES.** The Fund will invest in the securities of other investment companies. The 1940 Act generally prohibits the Fund from acquiring more than 3% of the outstanding voting shares of an investment company and limits such investments to no more than 5% of the Fund's total assets in any single investment company and no more than 10% in any combination of two or more investment companies although the Fund may invest in excess of these limits in affiliated ETPs and to the extent it enters into agreements and abides by certain conditions of the exemptive relief issued to non-affiliated ETPs. The Fund may purchase or otherwise invest in shares of affiliated ETFs and affiliated money market funds.

**MONEY MARKET INSTRUMENTS.** The Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which the Fund may invest include: (i) short-term obligations issued by the U.S. government; (ii) negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase Prime-1 by Moody's or A-1+ or A-1 by S&P or, if unrated, of comparable quality as determined by the Adviser and/or Sub-Adviser; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

**MORTGAGE-BACKED AND ASSET-BACKED SECURITIES.** The Fund may invest in mortgage-backed and asset-backed securities. Mortgage-backed securities are secured (or backed) by pools of commercial or residential mortgages. Asset-backed securities are secured (or backed) by other types of assets, such as automobile loans, installment sale contracts, credit card receivables or other similar assets. Mortgage-backed and asset-backed securities are issued by entities such as Ginnie Mae, Fannie Mae, the Federal Home Loan Mortgage Corporation, commercial banks, trusts, special purpose entities, finance companies, finance subsidiaries of industrial companies, savings and loan associations, mortgage banks and investment banks. Investing in mortgage-backed and asset-backed securities is subject to credit risk and interest rate risk. They are also subject to the risk of prepayment, which can change the nature and extent of the Fund's interest rate risk. The market for mortgage-backed securities may not be liquid under all interest rate scenarios, which may prevent the Fund from selling such

securities held in its portfolio at times or prices that it desires.

## Table of Contents

**MUNICIPAL SECURITIES.** The Fund may invest in municipal securities (including taxable municipal securities), the interest payments of which are subject to U.S. federal income tax. Such investments may include securities issued in the U.S. market by U.S. states and territories, municipalities and other political subdivisions, agencies, authorities and instrumentalities of states and multi-state agencies or authorities. The municipal securities which the Fund may purchase also include general obligation bonds and limited obligation bonds (or revenue bonds), including industrial development bonds issued pursuant to former U.S. federal tax law. General obligation bonds are obligations involving the credit of an issuer possessing taxing power and are payable from such issuer's general revenues and not from any particular source. Limited obligation bonds are payable only from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise or other specific revenue source. Industrial development bonds generally are also revenue bonds and thus are not payable from the issuer's general revenues. The credit and quality of industrial development bonds are usually related to the credit of the corporate user of the facilities. Payment of interest on and repayment of principal of such bonds is the responsibility of the corporate user (and/or any guarantor). The Fund may invest in private activity bonds, which are bonds issued by or on behalf of public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of private activity bonds, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the current U.S. federal tax laws place substantial limitations on the size of such issues.

**NON-U.S. SECURITIES.** The Fund may invest in non-U.S. equity securities. Investments in non-U.S. equity securities involve certain risks that may not be present in investments in U.S. securities. For example, non-U.S. securities may be subject to currency risks or to foreign government taxes. There may be less information publicly available about a non-U.S. issuer than about a U.S. issuer, and a foreign issuer may or may not be subject to uniform accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Other risks of investing in such securities include political or economic instability in the country involved, the difficulty of predicting international trade patterns and the possibility of imposition of exchange controls. The prices of such securities may be more volatile than those of domestic securities. With respect to certain foreign countries, there is a possibility of expropriation of assets or nationalization, imposition of withholding taxes on dividend or interest payments, difficulty in obtaining and enforcing judgments against foreign entities or diplomatic developments which could affect investment in these countries. Losses and other expenses may be incurred in converting between various currencies in connection with purchases and sales of foreign securities.

Non-U.S. stock markets may not be as developed or efficient as, and may be more volatile than, those in the U.S. While the volume of shares traded on non-U.S. stock markets generally has been growing, such markets usually have substantially less volume than U.S. markets. Therefore, the Fund's investment in non-U.S. equity securities may be less liquid and subject to more rapid and erratic price movements than comparable securities listed for trading on U.S. exchanges. Non-U.S. equity securities may trade at price/earnings multiples higher than comparable U.S. securities and such levels may not be sustainable. There may be less government supervision and regulation of foreign stock exchanges, brokers, banks and listed companies abroad than in the U.S. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets. Such differences may include delays beyond periods customary in the U.S. and practices, such as delivery of securities prior to receipt of payment, that increase the likelihood of a failed settlement, which can result in losses to the Fund. The value of non-U.S. investments and the investment income derived from them may also be affected unfavorably by changes in currency exchange control regulations. Foreign brokerage commissions, custodial expenses and other fees are also generally higher than for securities traded in the U.S. This may cause the Fund to incur higher portfolio transaction costs than domestic equity funds. Fluctuations in exchange rates may also affect the earning power and asset value of the foreign entity issuing a security, even one denominated in U.S. dollars. Dividend and interest payments may be repatriated based on the exchange rate at the time of disbursement, and restrictions on capital flows may be imposed.

Set forth below for certain markets in which the Fund may invest, consistent with their principal investment strategies, are brief descriptions of some of the conditions and risks in each such market.

**Investments in Emerging Markets Securities.** Investments in securities listed and traded in emerging markets are subject to additional risks that may not be present for U.S. investments or investments in more developed non-U.S. markets. Such risks may include: (i) greater market volatility; (ii) lower trading volume; (iii) greater social, political and economic uncertainty; (iv) governmental controls on foreign investments and limitations on repatriation of invested capital; (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets; and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

**Investments in Europe.** Most developed countries in Western Europe are members of the European Union ( EU ), many are also members of the European Economic and Monetary Union ( EMU ), and most EMU members are part of the euro zone, a group of EMU countries that share the euro as their common currency. Members of the EMU must comply with restrictions on inflation rates, deficits, debt levels, and fiscal and monetary controls. The implementation of any of these EMU restrictions or controls, as well as any of the following events in Europe, may have a significant impact on the economies of some or all

## Table of Contents

European countries: (i) the default or threat of default by an EU member country on its sovereign debt, (ii) economic recession in an EU member country, (iii) changes in EU or governmental regulations on trade, (iv) changes in currency exchange rates of the euro, the British pound, and other European currencies, (v) changes in the supply and demand for European imports or exports, and (vi) high unemployment rates. The European financial markets have recently experienced volatility and adverse trends due to concerns about economic downturns or rising government debt levels in several European countries, including Greece, Ireland, Italy, Portugal and Spain. These concerns have also negatively affected the euro's exchange rate. A significant decline in the value of the euro may produce unpredictable effects on trade and commerce generally and could lead to increased volatility in financial markets worldwide. In the event that an EMU member defaults on its sovereign debt or exits from the EMU, especially if either such event occurs in a disorderly manner, the default or exit may adversely affect the value of the euro as well as the performance of other European economies and issuers.

In June 2016, the United Kingdom voted in a referendum to leave the EU. As a result of the referendum, S&P downgraded the United Kingdom's credit rating from AAA to AA and the EU's credit rating from AA+ to AA in the days that followed the vote. Other credit ratings agencies have taken similar actions. Although the precise timeframe for Brexit is uncertain, it is currently expected that the United Kingdom will invoke article 50 of the Lisbon Treaty to withdraw from the EU by the end of March 2019, two years after the United Kingdom notified the European Council of the United Kingdom's intention to withdraw. It is unclear how withdrawal negotiations will be conducted and what the potential consequences may be. In addition, it is possible that measures could be taken to revote on the issue of Brexit, or that portions of the United Kingdom could seek to separate and remain a part of the EU. As a result of the political divisions within the United Kingdom and between the United Kingdom and the EU that the referendum vote has highlighted and the uncertain consequences of a Brexit, the economies of the United Kingdom and Europe as well as the broader global economy could be significantly impacted, which may result in increased volatility and illiquidity, and potentially lower economic growth on markets in the United Kingdom, Europe and globally that could potentially have an adverse effect on the value of the Fund's investments.

**Investments in the United Kingdom.** The United Kingdom has one of the largest economies in Europe and trades heavily with other European countries and the United States. The economy of the United Kingdom may be impacted by changes to the economic health of other European countries and the United States. The United Kingdom also relies heavily on the export of financial services. Accordingly, a slowdown in the financial services sector may have an adverse impact on the United Kingdom's economy. In June 2016, the United Kingdom voted in a referendum to leave the EU. For more information about Brexit and the associated risks, see the above description of Investments in Europe. These and other factors could have a negative impact on the Fund's performance.

Under normal market conditions, to the extent securities of foreign issuers ever comprise less than 40% of the assets of the Global High Dividend Fund on the annual Index screening date, the Board of Trustees of the Trust will either change the name of the Fund or change the Fund's benchmark.

**REAL ESTATE INVESTMENT TRUSTS.** The Fund may invest in the securities of real estate investment trusts ( REITs ) to the extent allowed by law. Risks associated with investments in securities of REITs include decline in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, variations in rental income, changes in neighborhood values, the appeal of properties to tenants, and increases in interest rates. In addition, equity REITs may be affected by changes in the values of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of credit extended. REITs are dependent upon management skills, may not be diversified and are subject to the risks of financing projects. REITs are also subject to heavy cash-flow dependency, defaults by borrowers, self-liquidation and the possibility of failing to maintain exemption from the 1940 Act, and, for U.S. REITs, the possibility of failing to qualify for the favorable U.S. federal income tax treatment available to U.S. REITs under the Code. If an issuer of debt securities collateralized by real estate defaults, it is conceivable that the REITs could end up holding the underlying real estate.

**REPURCHASE AGREEMENTS.** The Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which the Fund purchases securities or other obligations from a bank or securities dealer (or its affiliate) and simultaneously commits to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations. This is designed to result in a fixed rate of return for the Fund insulated from market fluctuations during the holding period. Because they are collateralized by securities, including mortgage-backed securities, repurchase agreements are subject to market and credit risk. As discussed herein, the Fund may not invest more than 10% of its net assets in illiquid securities. A repurchase agreement maturing in more than seven days may be considered an illiquid security. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special tri-party custodian or sub-custodian that maintains separate accounts for both the Fund and its counterparty. Thus, the obligation of the counterparty to pay the repurchase price on the date agreed to or upon demand is, in effect, secured by such obligations.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must

## Edgar Filing: WisdomTree Trust - Form 485BPOS

provide additional collateral so that at all times the collateral is at least equal to the repurchase price

---

**Table of Contents**

plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. Repurchase agreements involving obligations other than U.S. government securities (such as commercial paper and corporate bonds) may be subject to special risks and may not have the benefit of certain protections in the event of the counterparty's insolvency. If the seller or guarantor becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition of collateral.

**REVERSE REPURCHASE AGREEMENTS.** The Fund may enter into reverse repurchase agreements, which involve the sale of securities held by the Fund subject to its agreement to repurchase the securities at an agreed-upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to the Fund's limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, the Fund will maintain the segregation, either on its records or with the Trust's custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by the Fund might be unable to deliver them when the Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to determine whether to enforce the Fund's obligation to repurchase the securities, and the Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

**SECURITIES LENDING.** The Fund may lend portfolio securities to certain creditworthy borrowers, including the Fund's securities lending agent. Loans of portfolio securities provide the Fund with the opportunity to earn additional income on the Fund's portfolio securities. All securities loans will be made pursuant to agreements requiring the loans to be continuously secured by collateral in cash, or money market instruments, money market funds or U.S. government securities at least equal at all times to the market value of the loaned securities. The borrower pays to the Fund an amount equal to any dividends or interest received on loaned securities. The Fund retains all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities involves risks of delay in recovery of the loaned securities or in some cases loss of rights in the collateral should the borrower fail financially. Furthermore, because of the risks of delay in recovery, the Fund may lose the opportunity to sell the securities at a desirable price. The Fund will generally not have the right to vote securities while they are being loaned.

**TRACKING STOCKS.** The Fund may invest in tracking stocks. A tracking stock is a separate class of common stock whose value is linked to a specific business unit or operating division within a larger company and which is designed to track the performance of such business unit or division. The tracking stock may pay dividends to shareholders independent of the parent company. The parent company, rather than the business unit or division, generally is the issuer of tracking stock. However, holders of the tracking stock may not have the same rights as holders of the company's common stock.

**SOVEREIGN DEBT OBLIGATIONS.** The Fund may invest in sovereign debt obligations. Sovereign debt obligations involve special risks that are not present in corporate debt obligations. The foreign issuer of the sovereign debt or the foreign governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and the Fund may have limited recourse in the event of a default. During periods of economic uncertainty, the market prices of sovereign debt, and the Fund's net asset value, to the extent it invests in such securities, may be more volatile than prices of debt obligations of U.S. issuers. In the past, certain foreign countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest and declared moratoria on the payment of principal and interest on their sovereign debt. A sovereign debtor's willingness or ability to repay principal and pay interest in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign currency reserves, the availability of sufficient foreign exchange, the relative size of the debt service burden, the sovereign debtor's policy toward principal international lenders and local political constraints. Sovereign debtors may also be dependent on expected disbursements from foreign governments, multilateral agencies and other entities to reduce principal and interest arrearages on their debt. The failure of a sovereign debtor to implement economic reforms, achieve specified levels of economic performance or repay principal or interest when due may result in the cancellation of third party commitments to lend funds to the sovereign debtor, which may further impair such debtor's ability or willingness to service its debts.

**SUPRANATIONAL SECURITIES.** The Fund may invest in securities issued by supranational entities. A supranational entity is formed by two or more central governments to promote economic development for the member countries. Supranational entities finance their activities by issuing bond debt and are usually considered part of the sub-sovereign debt market. Some well-known examples of supranational entities are the World Bank, International Monetary Fund, European Investment Bank, Asian Development Bank, Inter-American Development Bank and other regional multilateral development banks. These securities are subject to varying degrees of credit risk and interest rate risk.

**U.S. GOVERNMENT SECURITIES.** The Fund may invest in obligations issued or guaranteed by the U.S. Treasury or the agencies or instrumentalities of the U.S. government. Such obligations may be short-, intermediate- or long-term. U.S. government securities are obligations of, or guaranteed by, the U.S. government, its agencies or government-sponsored enterprises. U.S. government securities are subject to market

## Edgar Filing: WisdomTree Trust - Form 485BPOS

and interest rate risk, and may be subject to varying degrees of credit risk. U.S. government securities include inflation-indexed fixed income securities, such as U.S. Treasury Inflation Protected Securities (TIPS). U.S. government securities include zero coupon securities, which tend to be subject to greater market risk than interest-paying securities of similar maturities.

---

**Table of Contents**

**PROXY VOTING POLICY**

The Trust has adopted as its proxy voting policies for the Fund the proxy voting guidelines of the Sub-Adviser. The Trust has delegated to the Sub-Adviser the authority and responsibility for voting proxies on the portfolio securities held by the Fund. The remainder of this section discusses the Fund's proxy voting guidelines and the Sub-Adviser's role in implementing such guidelines.

The Trust has adopted as its proxy voting policies for the Fund the proxy voting guidelines of Mellon Capital. Mellon Capital has adopted the proxy voting policy and voting guidelines of The Bank of New York Mellon Corporation's Proxy Voting and Governance Committee (the PVGC) which are applied to those client accounts over which it has been delegated the authority to vote proxies. Under this policy, the PVGC permits member firms (such as Mellon Capital) to consider specific interests and issues and cast votes differently from the collective vote of the PVGC where Mellon Capital determines that a different vote is in the best interests of the affected account(s). In voting proxies, Mellon Capital takes into account long-term economic value in evaluating issues relating to corporate governance, including structures and practices, the nature of long-term business plans, including sustainability policies and practices to address environmental and social factors that are likely to have an impact on shareholder value, and other financial and non-financial measures of corporate performance. Mellon Capital will carefully review proposals that would limit shareholder control or could affect the value of a client's investment. It will generally oppose proposals designed to insulate an issuer's management unnecessarily from the wishes of a majority of shareholders. It will generally support proposals designed to provide management with short-term insulation from outside influences so as to enable management to negotiate effectively and otherwise achieve long-term goals. On questions of social responsibility where economic performance does not appear to be an issue, Mellon Capital will attempt to ensure that management reasonably responds to the social issues. Responsiveness will be measured by management's efforts to address the proposal including, where appropriate, assessment of the implications of the proposal to the ongoing operations of the company. Mellon Capital will pay particular attention to repeat issues where management has failed in its commitment in the intervening period to take action on issues. Mellon Capital recognizes its duty to vote proxies in the best interests of its clients. Mellon Capital seeks to avoid material conflicts of interest through its participation in the PVGC, which applies detailed, predetermined proxy voting guidelines in an objective and consistent manner across client accounts, based on internal and external research and recommendations provided by a third-party vendor, and without consideration of any client relationship factors. Further, Mellon Capital and its affiliates engage a third party as an independent fiduciary to vote all proxies for BNY Mellon securities and affiliated mutual fund securities.

Proxy voting proposals are reviewed, categorized, analyzed and voted in accordance with Mellon Capital's voting guidelines. These guidelines are reviewed periodically and updated as necessary to reflect new issues and any changes in policies on specific issues. Items that can be categorized under these voting guidelines will be voted in accordance with any applicable guidelines or referred to the PVGC, if the applicable guidelines so require. Proposals that cannot be categorized under these voting guidelines will be referred to the PVGC for discussion and vote. Additionally, the PVGC may review any proposal where it has identified a particular company, industry or issue for special scrutiny. With regard to voting proxies of foreign companies, Mellon Capital may weigh the cost of voting, and potential inability to sell the securities (which may occur during the voting process), against the benefit of voting the proxies to determine whether or not to vote.

In evaluating proposals regarding incentive plans and restricted stock plans, the PVGC typically employs a shareholder value transfer model. This model seeks to assess the amount of shareholder equity flowing out of the company to executives as options are exercised. After determining the cost of the plan, the PVGC evaluates whether the cost is reasonable based on a number of factors, including industry classification and historical performance information. The PVGC generally votes against proposals that permit the repricing or replacement of stock options without shareholder approval.

A complete copy of the Sub-Adviser's proxy voting policy may be obtained by calling 1-866-909-9473 or by writing to: WisdomTree Trust, c/o Foreside Fund Services, LLC, Three Canal Plaza, Suite 100, Portland, Maine 04101.

The Trust is required to disclose annually the Fund's complete proxy voting record on Form N-PX covering the period from July 1 of one year through June 30 of the next year and to file Form N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Fund, when filed, may be obtained at no charge upon request by calling 1-866-909-9473 or by visiting the SEC's website at [www.sec.gov](http://www.sec.gov).

**Table of Contents**

**PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES**

The Trust has adopted a Portfolio Holdings Policy (the Policy) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees, and agents of the Fund, including the Advisers. The Policy is designed to ensure that the disclosure of information about the Fund's portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of the Fund.

As an ETF, information about the Fund's portfolio holdings is made available on a daily basis in accordance with the provisions of any Order of the SEC applicable to the Fund, regulations of the Listing Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of the Fund's anticipated portfolio holdings as of the next Business Day. A Business Day with respect to the Fund is any day on which its Listing Exchange is open for business. As of the date of this SAI, the Listing Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. This information is used in connection with the creation and redemption process and is disseminated on a daily basis through the facilities of the Listing Exchange, the National Securities Clearing Corporation (NSCC) and/or third-party service providers.

Daily access to the Fund's portfolio holdings with no lag time is permitted to personnel of the Advisers, the Distributor and the Fund's administrator (the Administrator), custodian and accountant and other agents or service providers of the Trust who have need of such information in connection with the ordinary course of their respective duties to the Fund. The Fund's Chief Compliance Officer (CCO) may authorize disclosure of portfolio holdings.

The Fund may disclose its complete portfolio holdings or a portion of its portfolio holdings online at [www.wisdomtree.com](http://www.wisdomtree.com). Online disclosure of such holdings is publicly available at no charge.

The Fund will disclose its complete portfolio holdings schedule in public filings with the SEC on a quarterly basis, based on the Fund's fiscal year, within sixty (60) days of the end of the quarter, and will provide that information to shareholders, as required by federal securities laws and regulations thereunder.

No person is authorized to disclose the Fund's portfolio holdings or other investment positions except in accordance with the Policy. The Board reviews the implementation of the Policy on a periodic basis.

**WISDOMTREE INDEX DESCRIPTION**

A description of the Index on which the Fund's investment strategy is based is provided in the Fund's Prospectus under Principal Investment Strategies of the Fund with certain additional details provided below. Additional information about the Index, including the components and weightings of the Index, as well as Index methodology, which contains the rules that govern the Index, is available at [www.wisdomtree.com](http://www.wisdomtree.com) under WisdomTree Resources in the Resource Library.

**WisdomTree Balanced Income Index**

*Index Screening/Rebalance Dates.* The Index is reconstituted and rebalanced on an annual basis in December of each year. New securities may be added to the Index during the annual reconstitution and rebalance. The Index may also be rebalanced on a quarterly basis as described in the prospectus.

The approximate number of components of the Index is disclosed herein as of December 7, 2017.

Name of Index	Approximate Number of Components
WisdomTree Balanced Income Index	11

*Index Maintenance.* Index maintenance occurs throughout the year and includes implementing adjustments for corporate actions.

*Index Availability.* The Index is calculated and disseminated throughout each day the Listing Exchange is open for trading.

## Edgar Filing: WisdomTree Trust - Form 485BPOS

*Changes to the Index Methodology.* The Index is governed by a published, rules-based methodology. Changes to the methodology will be publicly disclosed at [www.wisdomtree.com/etfs/index-notices.aspx](http://www.wisdomtree.com/etfs/index-notices.aspx) prior to implementation. Sixty days notice will be given prior to the implementation of any such change.

## **Table of Contents**

*Index Calculation Agent.* In order to minimize any potential for conflicts caused by the fact that WisdomTree Investments and its affiliates act as Index provider and investment adviser to the Fund, WisdomTree Investments has retained an unaffiliated third party to calculate the Index (the Calculation Agent ). The Calculation Agent, using the rules-based methodology, will calculate and disseminate the Index on a daily basis. WisdomTree Investments will monitor the results produced by the Calculation Agent to help ensure that the Index is being calculated in accordance with the rules-based methodology. In addition, WisdomTree Investments and WisdomTree Asset Management have established policies and procedures designed to prevent non-public information about pending changes to the Index from being used or disseminated in an improper manner. Furthermore, WisdomTree Investments and WisdomTree Asset Management have established policies and procedures designed to prevent improper use and dissemination of non-public information about the Fund's portfolio strategies.

## **INVESTMENT LIMITATIONS**

The following fundamental investment policies and limitations supplement those set forth in the Fund's Prospectus. Unless otherwise noted, whenever a fundamental investment policy or limitation states a maximum percentage of the Fund's assets that may be invested in any security or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition of such security or other asset. Accordingly, other than with respect to the Fund's limitations on borrowings, any subsequent change in values, net assets, or other circumstances will not be considered when determining whether the investment complies with the Fund's investment policies and limitations.

The Fund's fundamental investment policies cannot be changed without the approval of the holders of a majority of the Fund's outstanding voting securities as defined under the 1940 Act. The Fund, however, may change the non-fundamental investment policies described below, its investment objective, and its underlying Index without a shareholder vote, provided that it obtains Board approval and notifies its shareholders with at least sixty (60) days' prior written notice of any such change.

**Fundamental Policies.** The following investment policies and limitations are fundamental and may NOT be changed without shareholder approval.

The Fund, as a fundamental investment policy, may not:

### ***Senior Securities***

Issue senior securities, except as permitted under the 1940 Act.

### ***Borrowing***

Borrow money, except as permitted under the 1940 Act.

### ***Underwriting***

Act as an underwriter of another issuer's securities, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act in the disposition of portfolio securities.

### ***Concentration***

Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry, except that the Fund will invest more than 25% of its total assets in securities of the same industry to approximately the same extent that the Fund's underlying Index concentrates in the securities of a particular industry or group of industries.

### ***Real Estate***

Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).

### ***Commodities***

## Edgar Filing: WisdomTree Trust - Form 485BPOS

Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).

---

## Table of Contents

### *Loans*

Lend any security or make any other loan except as permitted under the 1940 Act. This means that no more than 33 1/3% of the Fund's total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments, permissible under the Fund's investment policies.

**Non-Fundamental Policies.** The following investment policy is not fundamental and may be changed without shareholder approval. Prior to any change in the Fund's 80% policy, the Fund will provide shareholders with 60 days' notice.

The Fund has adopted a non-fundamental investment policy in accordance with Rule 35d-1 under the 1940 Act to invest, under normal circumstances, at least 80% of the value of its net assets, plus the amount of any borrowings for investment purposes, in the types of securities suggested by the Fund's name, including investments that are tied economically to the particular country or geographic region suggested by the Fund's name. If, subsequent to an investment, the 80% requirement is no longer met, the Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy.

### **CONTINUOUS OFFERING**

The method by which Creation Unit Aggregations of shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Unit Aggregations of shares are issued and sold by the Fund on an ongoing basis, at any point a distribution, as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Unit Aggregations after placing an order with the Distributor, breaks them down into constituent shares, and sells such shares directly to customers, or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market demand for shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not underwriters but are effecting transactions in shares, whether or not participating in the distribution of shares, generally are required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus delivery obligation with respect to shares of the Fund are reminded that, pursuant to Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with the sale on the Listing Exchange is satisfied by the fact that the prospectus is available at the Listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

WisdomTree Investments (the Selling Shareholder) may purchase Creation Unit Aggregations through a broker-dealer to seed (in whole or in part) Funds as they are launched or thereafter, or may purchase shares from other broker-dealers or other investors that have previously provided seed for Funds when they were launched or otherwise in secondary market transactions, and because the Selling Shareholder may be deemed an affiliate of such Funds, the shares are being registered to permit the resale of these shares from time to time after purchase. The Funds will not receive any of the proceeds from the resale by the Selling Shareholders of these shares.

The Selling Shareholder intends to sell all or a portion of the shares owned by it and offered hereby from time to time directly or through one or more broker-dealers, and may also hedge such positions. The shares may be sold on any national securities exchange on which the shares may be listed or quoted at the time of sale, in the over-the-counter market or in transactions other than on these exchanges or systems at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions. The Selling Shareholder may use any one or more of the following methods when selling shares:

ordinary brokerage transactions through brokers or dealers (who may act as agents or principals) or directly to one or more purchasers;

## Edgar Filing: WisdomTree Trust - Form 485BPOS

privately negotiated transactions;

through the writing or settlement of options or other hedging transactions, whether such options are listed on an options exchange or otherwise; and

any other method permitted pursuant to applicable law.

**Table of Contents**

The Selling Shareholder may also loan or pledge shares to broker-dealers that in turn may sell such shares, to the extent permitted by applicable law. The Selling Shareholder may also enter into options or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares, which shares such broker-dealer or other financial institution may resell.

The Selling Shareholder and any broker-dealer or agents participating in the distribution of shares may be deemed to be underwriters within the meaning of Section 2(11) of the Securities Act in connection with such sales. In such event, any commissions paid to any such broker-dealer or agent and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. The Selling Shareholder who may be deemed an underwriter within the meaning of Section 2(11) of the Securities Act will be subject to the applicable prospectus delivery requirements of the Securities Act.

The Selling Shareholder has informed the Fund that it is not a registered broker-dealer and does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the shares. Upon the Fund being notified in writing by the Selling Shareholder that any material arrangement has been entered into with a broker-dealer for the sale of shares through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer, a supplement to this SAI will be filed, if required, pursuant to Rule 497 under the Securities Act, disclosing (i) the name of each Selling Shareholder and of the participating broker-dealer(s), (ii) the number of shares involved, (iii) the price at which such shares were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, (v) that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in the Fund's Prospectus and SAI, and (vi) other facts material to the transaction.

The Selling Shareholder and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares by the Selling Shareholder and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities with respect to the shares. All of the foregoing may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities with respect to the shares. There is a risk that the Selling Shareholder may redeem its investments in the Fund. As with redemptions by other large shareholders, such redemptions could have a significant negative impact on the Fund.

**Table of Contents**

**MANAGEMENT OF THE TRUST**

**Board Responsibilities.** The Board is responsible for overseeing the management and affairs of the Fund and the Trust. The Board has considered and approved contracts, as described herein, under which certain companies provide essential management and administrative services to the Trust. Like most ETFs, the day-to-day business of the Trust, including the day-to-day management of risk, is performed by third-party service providers, such as the Advisers, Distributor and Administrator. The Board is responsible for overseeing the Trust's service providers and, thus, has oversight responsibility with respect to the risk management performed by those service providers. Risk management seeks to identify and eliminate or mitigate the potential effects of risks, *i.e.*, events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Trust or the Fund. Under the overall supervision of the Board and the Audit Committee (discussed in more detail below), the service providers to the Fund employ a variety of processes, procedures and controls to identify risks relevant to the operations of the Trust and the Fund to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (*e.g.*, the Advisers are responsible for the day-to-day management of the Fund's portfolio investments) and, consequently, for managing the risks associated with that activity.

The Board's role in risk management oversight begins before the inception of the Fund, at which time the Fund's Adviser presents the Board with information concerning the investment objectives, strategies and risks of the Fund. Additionally, the Fund's Adviser and Sub-Adviser provide the Board periodically with an overview of, among other things, its investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board oversees the risk management of the Fund's operations, in part, by requesting periodic reports from and otherwise communicating with various personnel of the Fund and its service providers, including the Trust's CCO and the Fund's independent accountants. The Board and, with respect to identified risks that relate to its scope of expertise, the Audit Committee, oversee efforts by management and service providers to manage risks to which the Fund may be exposed.

The Board is responsible for overseeing the nature, extent and quality of the services provided to the Fund by the Adviser and receives information about those services at its regular meetings. In addition, on at least an annual basis, in connection with its consideration of whether to renew any Advisory Agreement and Sub-Advisory Agreement with the Adviser and Sub-Adviser, respectively, the Board meets with the Adviser and Sub-Adviser to review such services. Among other things, the Board regularly considers the Adviser's and Sub-Adviser's adherence to the Fund's investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about the Fund's performance and investments.

The Trust's CCO meets regularly with the Board to review and discuss compliance and other issues. At least annually, the Trust's CCO provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Adviser and Sub-Adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and material compliance matters since the date of the last report.

The Board receives reports from the Trust's service providers regarding operational risks, portfolio valuation and other matters. Annually, an independent registered public accounting firm reviews with the Audit Committee its audit of the Fund's financial statements, focusing on major areas of risk encountered by the Fund and noting any significant deficiencies or material weaknesses in the Fund's internal controls.

The Board recognizes that not all risks that may affect the Fund can be identified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, despite the periodic reports the Board receives and the Board's discussions with the service providers to the Fund, it may not be made aware of all of the relevant information related to a particular risk. Most of the Trust's investment management and business affairs are carried out by or through the Fund's Adviser, Sub-Adviser and other service providers, each of which has an independent interest in risk management but whose policies and methods by which one or more risk management functions are carried out may differ from the Trust's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's risk management oversight is subject to substantial limitations.

**Members of the Board and Officers of the Trust.** Set forth below are the names, birth years, positions with the Trust, term of office, number of portfolios overseen, and principal occupations and other directorships held during the last five years of each of the persons currently serving as members of the Board and as Executive Officers of the Trust. Also included below is the term of office for each of the Executive Officers of the Trust. The members of the Board serve as Trustees for the life of the Trust or until retirement, removal, or their office is terminated pursuant to the Trust's Declaration of Trust. The address of each Trustee and Officer is c/o WisdomTree Asset Management, Inc., 245 Park Avenue, 35<sup>th</sup> Floor, New York, New York 10167.

**Table of Contents**

The Chairman of the Board, Victor Ugolyn, is not an interested person of the Fund as that term is defined in the 1940 Act. The Board is composed of a super-majority (83.3%) of Trustees who are not interested persons of the Fund (*i.e.*, Independent Trustees ). There is an Audit Committee, Governance, Nominating and Compliance Committee, Contracts Review Committee, and Investment Committee of the Board, each of which is chaired by an Independent Trustee and comprised solely of Independent Trustees. The Committee chair for each is responsible for running the Committee meetings, formulating agendas for those meetings, and coordinating with management to serve as a liaison between the Committee members and management on matters within the scope of the responsibilities of the Committee as set forth in its Board-approved charter. The Fund has determined that this leadership structure is appropriate given the specific characteristics and circumstances of the Fund. The Fund made this determination in consideration of, among other things, the fact that the Independent Trustees of the Fund constitute a super-majority of the Board, the assets under management of the Fund, the number of Funds overseen by the Board, the total number of Trustees on the Board, and the fact that an Independent Trustee serves as Chairman of the Board.

**Audit Committee.** Ms. Raso Kirstein and Messrs. Chrencik and Ugolyn, each an Independent Trustee, are members of the Board's Audit Committee. The principal responsibilities of the Audit Committee are the appointment, compensation and oversight of the Trust's independent registered public accounting firm, including the resolution of disagreements regarding financial reporting between Trust management and such independent registered public accounting firm. The Audit Committee's responsibilities include, without limitation, to (i) oversee the accounting and financial reporting processes of the Trust and to receive reports regarding the Trust's internal control over financial reporting; (ii) oversee the quality and integrity of the Funds' financial statements and the independent

## Table of Contents

audits thereof; (iii) oversee, or, as appropriate, assist Board oversight of, the Trust's compliance with legal and regulatory requirements that relate to the Trust's accounting and financial reporting, and independent audits; (iv) approve prior to appointment the engagement of the Trust's independent registered public accounting firm and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent registered public accounting firm; and (v) act as a liaison between the Trust's independent auditors and the full Board. The Independent Trustees' independent legal counsel assists the Audit Committee in connection with these duties. The Board has adopted a written charter for the Audit Committee. During the fiscal year ended June 30, 2017, the Audit Committee held seven meetings.

**Governance, Nominating and Compliance Committee.** Ms. Massaro and Messrs. Goldberg and Ugolyn, each an Independent Trustee, are members of the Board's Governance, Nominating and Compliance Committee. The principal responsibilities of the Governance, Nominating and Compliance Committee are to (i) provide assistance to the Board in fulfilling its responsibility with respect to the oversight of appropriate and effective governance of the Trust; (ii) identify individuals qualified to serve as Independent Trustees of the Trust and to recommend its nominees for consideration by the full Board; and (iii) provide assistance to the Board in fulfilling its responsibility with respect to overseeing the CCO and overseeing compliance matters involving the Funds and their service providers as reported to the Board. While the Governance, Nominating and Compliance Committee is solely responsible for the selection and nomination of the Trust's Independent Trustees, the Governance, Nominating and Compliance Committee may consider nominations for the office of Trustee made by Trust shareholders as it deems appropriate. The Governance, Nominating and Compliance Committee considers nominees recommended by shareholders if such nominees are submitted in accordance with Rule 14a-8 of the Securities Exchange Act of 1934 (the "1934 Act"), in conjunction with a shareholder meeting to consider the election of Trustees. Trust shareholders who wish to recommend a nominee should send nominations to the Secretary of the Trust that include biographical information and set forth the qualifications of the proposed nominee. The Board has adopted a written charter for the Governance, Nominating and Compliance Committee. During the fiscal year ended June 30, 2017, the Governance, Nominating and Compliance Committee held four meetings.

**Contracts Review Committee.** Ms. Massaro and Messrs. Goldberg and Ugolyn, each an Independent Trustee, are members of the Board's Contracts Review Committee. The principal responsibilities of the Contracts Review Committee are to provide assistance to the Board in fulfilling its responsibilities under Section 15 of the 1940 Act, and other applicable Sections, rules and interpretative guidance related thereto, with respect to reviewing the performance of, and reasonableness of fees paid to, the Adviser, Sub-Advisers, and core service providers for each series of the Trust, and to make recommendations to the Board regarding the contractual arrangements for such services. On March 12, 2014, the Board created the Contracts Review Committee. The Board has adopted a written charter for the Contracts Review Committee. During the fiscal year ended June 30, 2017, the Contracts Review Committee held four meetings.

**Investment Committee.** Ms. Raso Kirstein and Messrs. Goldberg and Ugolyn, each an Independent Trustee, are members of the Board's Investment Committee. The principal responsibilities of the Investment Committee are to support, oversee and organize on behalf of the Board the process for overseeing Fund performance and related matters (it being the intention of the Board that the ultimate oversight of Fund performance shall remain with the full Board), address such other matters that the Board shall determine and provide recommendations to the Board as needed in respect of the foregoing matters. On December 11, 2015, the Board created the Investment Committee. The Board has adopted a written charter for the Investment Committee. During the fiscal year ended June 30, 2017, the Investment Committee held five meetings.

**Individual Trustee Qualifications.** The Board has concluded that each of the Trustees is qualified to serve on the Board because of his or her ability to review and understand information about the Trust and the Fund provided by management, to identify and request other information he or she may deem relevant to the performance of the Trustees' duties, to question management and other service providers regarding material factors bearing on the management and administration of the Fund, and to exercise his or her business judgment in a manner that serves the best interests of the Fund's shareholders. The Trust has concluded that each of the Trustees is qualified to serve as a Trustee based on his or her own experience, qualifications, attributes and skills as described below.

The Board has concluded that Mr. Steinberg is qualified to serve as Trustee of the Fund because of the experience he has gained as President, Chief Executive Officer and director of WisdomTree Investments and the Adviser, his knowledge of and experience in the financial services industry, and the experience he has gained serving as President and Trustee of the Trust since 2005.

The Board has concluded that Mr. Chrencik is qualified to serve as Trustee of the Fund because of the experience he gained as an audit partner of a public accounting firm as well as his experience in and knowledge of the financial services industry, including his service as the chief financial officer of a hedge fund and his prior service as a board member of several other investment funds, and the experience he has gained serving as an Independent Trustee of the Trust since 2014.

The Board has concluded that Mr. Goldberg is qualified to serve as Trustee of the Fund because of the experience he has gained as a member of the staff of the SEC, including his service as Director of the SEC's Division of Investment Management, his experience as legal counsel for many mutual funds, investment advisers, and independent directors as well as the experience he has gained serving as an Independent Trustee of the

Trust since 2012.

**Table of Contents**

The Board has concluded that Ms. Massaro is qualified to serve as Trustee of the Fund because of the experience she has gained as a law professor, dean and advisor at various universities, and the experience she has gained serving as Independent Trustee of the Trust since 2006.

The Board has concluded that Ms. Raso Kirstein is qualified to serve as Trustee of the Fund because of her experience in and knowledge of the financial services industry, including her service as a vice president, senior portfolio manager of fixed income management and director of tax exempt fund research of an investment advisory firm, as well as the experience she has gained serving as an Independent Trustee of the Trust since 2014.

The Board has concluded that Mr. Ugolyn is qualified to serve as Trustee of the Fund because of the experience he gained as chief executive officer of a firm specializing in financial services, his experience in and knowledge of the financial services industry, his experience as a member of the Board of Directors of The New York Society of Security Analysts, Inc., his service as chairman for another mutual fund family, and the experience he has gained serving as an Independent Trustee and Chairman of the Board of the Trust since 2006.

**Fund Shares Owned by Board Members.** The following table shows the dollar amount range of each Trustee's beneficial ownership of shares of the Fund and each series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. Beneficial ownership is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The Trustees and officers of the Trust collectively own less than 1% of the outstanding shares of the Trust.

## Table of Contents

**Control Persons and Principal Holders of Securities.** Because the Fund is new, the Fund has not received information concerning the ownership of shares held in the names of DTC Participants.

Certain officers, employees, accounts or affiliates of WisdomTree Asset Management (such as WisdomTree Investments, 245 Park Avenue, 35<sup>th</sup> Floor, New York, NY), including other funds advised by WisdomTree Asset Management or third parties, may from time to time own a substantial amount of the Fund's shares, including as an initial or seed investor. Such positions may be held for a limited period of time, including to facilitate commencement of the Fund, to facilitate the Fund's achieving size or scale or in seeking to track model portfolios of ETFs developed and maintained by the Adviser. Such shareholders, individually and/or collectively, could at times be considered to control the Fund (*i.e.*, own greater than 25% of the Fund shares) and may purchase or sell shares, including large blocks of shares, at any given time. There can be no assurance that any such entity or person would not redeem or sell its investment, that the size of the Fund would be maintained at such levels or that the Fund would continue to meet applicable listing requirements, which could negatively impact the Fund and its shares. In addition, such transactions may account for a large percentage of secondary market trading volume and may, therefore, not be sustainable and/or may have a material upward or downward effect on the market price of the Shares.

**Investment Adviser.** WisdomTree Asset Management serves as investment adviser to the Fund pursuant to an investment advisory agreement between the Trust and WisdomTree Asset Management (the Investment Advisory Agreement). WisdomTree Asset Management is a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the Advisers Act), and has offices located at 245 Park Avenue 35<sup>th</sup> Floor, New York, New York 10167.

Under the Investment Advisory Agreement, WisdomTree Asset Management is responsible for the overall management and administration of the Trust. WisdomTree Asset Management provides an investment program for the Fund. The Adviser also provides proactive oversight of the Sub-Adviser's daily monitoring of the Sub-Adviser's buying and selling of securities for the Fund, and regular review of the Sub-Adviser's performance. In addition, the Adviser arranges for, and oversees, sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution-related services necessary for the Fund to operate. The Adviser furnishes to the Trust all office facilities, equipment, services and executive and administrative personnel necessary for managing the investment program of the Trust for the Fund, including:

Overseeing the Trust's insurance program;

Overseeing and coordinating all governance matters for the Trust;

Coordinating meetings of the Board of Trustees;

Devoting time and resources to maintaining an efficient market for the Fund's shares;

Coordinating with outside counsel on all Trust related legal matters;

Coordinating the preparation of the Trust's financial statements;

Coordinating all regulatory filings and shareholder reporting;

Overseeing the Fund's tax status and tax filings;

## Edgar Filing: WisdomTree Trust - Form 485BPOS

Maintaining and updating a website for certain required disclosures; and

Providing shareholders with additional information about the Fund.

The Fund pays WisdomTree Asset Management the Management Fee, based on a percentage of the Fund's average daily net assets, indicated below.

<b>Fund</b>	<b>Advisory Fee Rate</b>
Balanced Income Fund	0.40%*

\*The Adviser has contractually agreed to waive a portion of its Management Fee in an amount equal to the Acquired Fund Fees and Expenses attributable to the Fund's investments in Underlying Funds, as well as an additional amount such that Total Annual Fund Operating Expenses After Waivers equals 0.35%, through December 31, 2020, unless earlier terminated by the Board for any reason at any time.

Pursuant to an investment advisory agreement on behalf of the Fund, WisdomTree Asset Management has agreed to pay all expenses of the Fund, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the patriation or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WisdomTree Asset Management. The internal expenses of pooled investment vehicles in which the Fund may invest (acquired fund fees and expenses) are not expenses of the Fund and are not paid by WisdomTree Asset Management.

---

## **Table of Contents**

Pursuant to a separate contractual arrangement, WisdomTree Asset Management arranges for the provision of CCO services with respect to the Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WisdomTree Asset Management receives a fee of up to 0.0044% of the Fund's average daily net assets for providing such services and paying such expenses. WisdomTree Asset Management provides CCO services to the Trust.

The Adviser, from its own resources, including profits from advisory fees received from the Fund, provided such fees are legitimate and not excessive, may make payments to broker-dealers and other financial institutions for their expenses in connection with the distribution of Fund shares, and otherwise currently pays all distribution costs for Fund shares.

The Investment Advisory Agreement with respect to the Fund continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, provided that in either event such continuance also is approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of the Fund fail to approve the Investment Advisory Agreement, WisdomTree Asset Management may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder.

The Investment Advisory Agreement with respect to the Fund is terminable without any penalty, by vote of the Board or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, or by WisdomTree Asset Management, in each case on not less than thirty (30) days nor more than sixty (60) days prior written notice to the other party; provided that a shorter notice period shall be permitted for the Fund in the event its shares are no longer listed on a national securities exchange. The Investment Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

**Sub-Adviser.** Mellon Capital Management Corporation serves as sub-adviser to, and is responsible for the day-to-day management of Fund. Mellon Capital, a registered investment adviser, manages global quantitative-based investment strategies for institutional and private investors. Its principal office is located at 50 Fremont Street, Suite 3900, San Francisco, California 94105. Mellon Capital is a wholly-owned indirect subsidiary of The Bank of New York Mellon, a publicly traded financial holding company. Mellon Capital manages the Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments. WisdomTree Asset Management pays Mellon Capital for providing sub-advisory services to the Fund.

Mellon Capital believes that it may perform sub-advisory and related services for the Trust without violating applicable banking laws or regulations. However, the legal requirements and interpretations about the permissible activities of banks and their affiliates may change in the future. These changes could prevent Mellon Capital from continuing to perform services for the Trust. If this happens, the Board would consider selecting other qualified firms.

The Sub-Advisory Agreement, with respect to the Fund, continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the applicable Fund, provided that in either event such continuance is also approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of a Fund fail to approve that Fund's Sub-Advisory Agreement, WisdomTree Asset Management may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder. The Sub-Advisory Agreement is terminable without any penalty, by vote of the Board or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, or by WisdomTree Asset Management, in each case on not less than thirty (30) days nor more than sixty (60) days prior written notice to the other party; provided that a shorter notice period shall be permitted for the Fund in the event its shares are no longer listed on a national securities exchange. The Sub-Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

**Portfolio Managers.** The Fund is managed by Mellon Capital's Equity Index Strategies Portfolio Management team. The individual members of the team responsible for the day-to-day management of the Fund's portfolio are Karen Q. Wong, Richard A. Brown, and Thomas J. Durante.

Including the WisdomTree ETFs, as of November 30, 2017, the Mellon Capital's Equity Index Strategies Portfolio Management team managed 127 registered investment companies with approximately \$111 billion in assets; 105 pooled investment vehicles with approximately \$91 billion in assets and 104 other accounts with approximately \$103 billion in assets.

**Portfolio Manager Fund Ownership.** As of the date of this SAI, none of the portfolio managers owned shares of the Fund.

**Portfolio Manager Compensation.** The primary objectives of the Mellon Capital compensation plans are to:

## Edgar Filing: WisdomTree Trust - Form 485BPOS

Motivate and reward superior investment and business performance

Motivate and reward continued growth and profitability

Attract and retain high-performing individuals critical to the on-going success of Mellon Capital

Create an ownership mentality for all plan participants

---

**Table of Contents**

Cash compensation is comprised primarily of a market-based base salary and variable incentives (cash and deferred). Base salary is determined by the employees' experience and performance in the role, taking into account ongoing compensation benchmark analyses. Base salary is generally a fixed amount that may change as a result of an annual review, upon assumption of new duties, or when a market adjustment of the position occurs. Funding for the Mellon Capital Annual and Long Term Incentive Plan is through a pre-determined fixed percentage of overall Mellon Capital profitability. Therefore, all bonus awards are based initially on Mellon Capital's financial performance. The performance period under which annual incentive opportunities are earned covers the January 1 through December 31<sup>st</sup> calendar year. The compensation for each individual is evaluated on a total compensation basis, in which combined salaries and incentives are reviewed against competitive market data (benchmarks) for each position annually. Awards are 100% discretionary. Factors considered in awards include individual performance, team performance, investment performance of the associated portfolio(s) (including both short and long term returns) and qualitative behavioral factors. Other factors considered in determining the award are the asset size and revenue growth/retention of the products managed (if applicable). Awards are paid partially in cash with the balance deferred through the Long Term Incentive Plan.

Participants in the Long Term Incentive Plan have a high level of accountability and a large impact on the success of the business due to the position's scope and overall responsibility. This plan provides for an annual award, payable in cash after a three-year cliff vesting period as well as a grant of BNY Mellon Restricted Stock for senior level roles.

Mellon Capital's Portfolio Managers responsible for managing funds are paid by Mellon Capital and not by the funds. The same methodology described above is used to determine Portfolio Manager compensation with respect to the management of funds and other accounts. Fund Portfolio Managers are also eligible for the standard retirement benefits and health and welfare benefits available to all Mellon Capital employees. Certain Portfolio Managers may be eligible for additional retirement benefits under several supplemental retirement plans that Mellon Capital provides to restore dollar-for-dollar the benefits of management employees that had been cut back solely as a result of certain limits due to the tax laws. These plans are structured to provide the same retirement benefits as the standard retirement benefits. In addition, fund Portfolio Managers whose compensation exceeds certain limits may elect to defer a portion of their salary and/or bonus under The Bank of New York Mellon Corporation Deferred Compensation Plan for Employees.

***Description of Material Conflicts of Interest.*** Mellon Capital manages numerous accounts with a variety of interests. This necessarily creates potential conflicts of interest for us. For example, Mellon Capital or an affiliate may cause multiple accounts to invest in the same investment. Such accounts may have conflicting interests and objectives in connection with such investment, including differing views on the operations or activities of the portfolio company, the targeted returns for the transaction, and the timeframe for and method of exiting the investment. Conflicts may also arise in cases where multiple Mellon Capital and/or affiliate client accounts are invested in different parts of an issuer's capital structure. For example, one of Mellon Capital's client accounts could acquire debt obligations of a company while an affiliate's client account acquires an equity investment. In negotiating the terms and conditions of any such investments, Mellon Capital may find that the interests of the debt-holding client accounts and the equity-holding client accounts may conflict. If that issuer encounters financial problems, decisions over the terms of the workout could raise conflicts of interest (including, for example, conflicts over proposed waivers and amendments to debt covenants). For example, debt holding accounts may be better served by a liquidation of an issuer in which it could be paid in full, while equity holding accounts might prefer a reorganization of the issuer that would have the potential to retain value for the equity holders. As another example, holders of an issuer's senior securities may be able to act to direct cash flows away from junior security holders, and both the junior and senior security holders may be Mellon Capital client accounts. Any of the foregoing conflicts of interest will be discussed and resolved on a case-by-case basis. Any such discussions will factor in the interests of the relevant parties and applicable laws.

Mellon Capital has a fiduciary duty to manage all client accounts in a fair and equitable manner. To accomplish this, Mellon Capital has adopted various policies and procedures including, but not limited to, policies relating to trading operations, best execution, trade order aggregation and allocation, short sales, cross-trading, code of conduct, personal securities trading, and purchases of securities from affiliated underwriters. These procedures are intended to help employees identify and mitigate potential side-by-side conflicts of interest such as those described above. Mellon Capital has also developed a conflicts matrix listing potential side-by-side conflicts, the compliance policies and procedures reasonably designed to mitigate such potential conflicts of interest, and the corresponding compliance testing program established with the goal of confirming Mellon Capital's adherence to such policies and procedures.

***Performance Fees.*** The portfolio managers have entered into performance-based fee arrangements for certain client accounts and funds. Most of these arrangements provide for an asset-based management fee, based on the market value of the account at month end, quarter end or based on average market value, plus a performance fee based on the portfolio's net return in excess of a specified benchmark and/or hurdle rate during a designated period of time. The performance is based on both realized and unrealized gains and losses. Some performance fee calculations include a high water mark, which keeps track of the highest level of performance on which a performance fee has been paid and which must be exceeded in order for an additional performance fee to be assessed.

---

**Table of Contents**

**Side-by-Side Management.** Side-by-side management refers to a portfolio manager's simultaneous management of multiple types of client accounts/investment products. For example, the portfolio managers manage separate accounts, managed accounts/wrap-fee programs, and pooled investment vehicles for clients at the same time. The portfolio managers' clients have a variety of investment objectives, policies, strategies, limitations, and restrictions. Side-by-side management gives rise to a variety of potential and actual conflicts of interest for the portfolio managers. Below is a discussion of the conflicts that the portfolio managers face when engaging in side-by-side management and how they deal with them. Note that certain of Mellon Capital's employees are also officers or employees of one or more Mellon Capital's affiliates (dual officers). These dual officers undertake investment management duties for the affiliates of which they are officers. When the portfolio managers concurrently manage client accounts/investment products, and in particular when dual officers or dual employees are involved, this presents the same conflicts as described below. Note that portfolio managers manage their accounts consistent with applicable laws, and they follow procedures that are reasonably designed to treat clients fairly and to prevent any client or group of clients from being systematically favored or disadvantaged.

**Conflicts of Interest Relating to Side-by-Side Management of Discretionary and Non-Discretionary Accounts.** In limited circumstances, portfolio managers may provide to a third party for which they provide non-discretionary advisory services the same model portfolio used to manage certain of the portfolio managers' clients' accounts. In those cases where portfolio managers are implementing the model results for only a portion of the assets affected (for example, only the assets over which portfolio managers have discretionary management authority) and therefore, they cannot apply their internal trade allocation procedures, portfolio managers will (i) use reasonable efforts to agree on procedures with such non-discretionary clients designed to prevent one group of clients from receiving preferential trading treatment over another group, or (ii) determine that, due to the nature of the assets to be traded or the market on which they are traded, no client would likely be adversely affected if such procedures are not established.

**Conflicts of Interest Relating to Performance-Based Fees When Engaging in Side-by-Side Management.** Portfolio managers manage accounts that are charged a performance-based fee and other accounts that are charged a different type of fee, such as a flat asset-based fee. Portfolio managers have a financial incentive to favor accounts with performance-based fees because they (and Mellon Capital's employees and supervised persons) may have an opportunity to earn greater fees on such accounts as compared to client accounts without performance-based fees. Thus, portfolio managers have an incentive to direct their best investment ideas to client accounts that pay performance-based fees, and to allocate, aggregate, or sequence trades in favor of such accounts. Portfolio managers also have an incentive to give accounts with performance-based fees better execution and better brokerage commissions.

**Conflicts of Interest Relating to Accounts with Different Strategies.** Portfolio managers manage numerous accounts with a variety of strategies, which may present conflicts of interest. For example, a long/short position in two client accounts simultaneously can result in a loss to one client based on a decision to take a gain in the other. Taking concurrent conflicting positions in certain derivative instruments can likewise cause a loss to one client and a gain to another. Portfolio managers also may face conflicts of interest when they have uncovered option strategies and significant positions in illiquid securities in side-by-side accounts.

**Conflicts of Interest Relating to the Management of Multiple Client Accounts.** Portfolio managers perform investment advisory services for various clients. Portfolio managers may give advice and take action in the performance of their duties with respect to any of their other clients which may differ from the advice given, or the timing or nature of action taken, with respect to another client. Portfolio managers have no obligation to purchase or sell for a client any security or other property which they purchase or sell for their own account or for the account of any other client, if they believe it is undesirable or impractical to take such action. Portfolio managers may give advice or take action in the performance of their duties with respect to any of their clients which may differ from the advice given, or the timing or nature of action taken, by their affiliates on behalf of their clients.

**Conflicts of Interest Relating to Investment in Affiliated Accounts.** To the extent permissible under applicable law, the portfolio managers may decide to invest some or all of their temporary investments in money market or similar accounts advised or managed by a BNY Mellon affiliate. In addition, the portfolio managers may invest client accounts in affiliated pooled vehicles. The portfolio managers have an incentive to allocate investments to these types of affiliated accounts in order to generate additional fees for themselves or their affiliates. In certain instances, portfolio managers may enter into revenue sharing arrangements with affiliates where they may receive a portion of the fee, or bill the full fee to the client and reimburse the affiliate. Portfolio managers may also enter into wholesale arrangements with affiliates where they receive only a portion of the client fee. For certain accounts with affiliates, some of the fees, such as custody fees, may be waived or rebated.

**Conflicts of Interest Relating to the Discretion to Redeem from and Invest in Pooled Investment Vehicles.** The portfolio manager's clients may give them discretion to allocate client assets to, and/or redeem client assets from, certain pooled investment vehicles they manage or sub-advise. Sometimes, such discretionary authority is restricted by asset allocation parameters which may limit the portfolio manager's discretion to allocate to a percentage range of the value of a client's account. When a client grants portfolio managers that discretion, a conflict could arise with respect to such client, and also with respect to other investors in such pooled investment vehicle. The portfolio managers may, for example, have an incentive to maintain a larger percentage of a client's assets in a fund in order for such assets to act as seed capital, to

## Edgar Filing: WisdomTree Trust - Form 485BPOS

increase the fund's assets under management and thus, to make investment by other investors more attractive, or to maintain the continuity of a performance record if the client is the sole remaining investor. Likewise, as the manager or sub-adviser, they will have information that investors will not have about the investments held by a fund and about other investors' intentions to invest or redeem. Such information could potentially be used to favor one investor over another.

***Conflicts of Interest Relating to Proprietary Accounts*** . The portfolio managers, and Mellon Capital's existing and future employees may from time to time invest in products managed by Mellon Capital and they or related persons may establish seeded funds or accounts for the purpose of developing new investment strategies and products (collectively, Proprietary Accounts ). Investment by Mellon Capital, or its employees in Proprietary

## **Table of Contents**

Accounts that invest in the same securities as other client accounts may create conflicts of interest. Portfolio managers have an incentive to favor these Proprietary Accounts by directing their best investment ideas to these accounts or allocating, aggregating, or sequencing trades in favor of such accounts, to the disadvantage of other accounts. Portfolio managers also have an incentive to dedicate more time and attention to their Proprietary Accounts and to give them better execution and brokerage commissions than their other client accounts. The portfolio managers also may waive fees for Proprietary Accounts or for certain affiliated persons who invest in such Proprietary Accounts.

**Valuations.** A majority of Mellon Capital's fees are based on the valuations provided by clients' custodians or pooled accounts administrators. However, a conflict of interest may arise in overseeing the valuation of investments in the limited situations where Mellon Capital is involved in the determination of the valuation of an investment. In such circumstances, Mellon Capital requires, to the extent possible, pricing from an independent third party pricing vendor. If vendor pricing is unavailable, Mellon Capital then looks to other observable inputs for the valuations. In the event that a vendor price or other observable inputs are unavailable or deemed unreliable, Mellon Capital has established a Securities Pricing Committee to make a reasonable determination of a security's fair value.

**Other Conflicts of Interest.** As noted previously, portfolio managers manage numerous accounts with a variety of interests. This necessarily creates potential conflicts of interest for the portfolio managers. For example, portfolio managers may cause multiple accounts to invest in the same investment. Such accounts may have conflicting interests and objectives in connection with such investment, including differing views on the operations or activities of the portfolio company, the targeted returns for the transaction, and the timeframe for and method of exiting the investment. Conflicts may also arise in cases where multiple Mellon Capital and/or affiliate client accounts are invested in different parts of an issuer's capital structure. For example, one of the portfolio manager's client accounts could acquire debt obligations of a company while an affiliate's client account acquires an equity investment. In negotiating the terms and conditions of any such investments, portfolio managers may find that the interests of the debt-holding client accounts and the equity-holding client accounts may conflict. If that issuer encounters financial problems, decisions over the terms of the workout could raise conflicts of interest (including, for example, conflicts over proposed waivers and amendments to debt covenants). For example, debt holding accounts may be better served by a liquidation of an issuer in which it could be paid in full, while equity holding accounts might prefer a reorganization of the issuer that would have the potential to retain value for the equity holders. As another example, holders of an issuer's senior securities may be able to act to direct cash flows away from junior security holders, and both the junior and senior security holders may be Mellon Capital client accounts. Any of the foregoing conflicts of interest will be discussed and resolved on a case-by-case basis. Any such discussions will factor in the interests of the relevant parties and applicable laws.

**Addressing Conflicts of Interest.** Portfolio managers have a fiduciary duty to manage all client accounts in a fair and equitable manner. To accomplish this, Mellon Capital has adopted various policies and procedures (including, but not limited to, policies relating to trading operations, best execution, trade order aggregation and allocation, short sales, cross-trading, code of conduct, personal securities trading, and purchases of securities from affiliated underwriters). These procedures are intended to help employees identify and mitigate potential side-by-side conflicts of interest such as those described above. Mellon Capital has also developed a conflicts matrix listing potential side-by-side conflicts, the compliance policies and procedures reasonably designed to mitigate such potential conflicts of interest and the corresponding compliance testing program established with the goal of confirming Mellon Capital's adherence to such policies and procedures.

**Codes of Ethics.** The Trust, the Advisers and the Distributor have each adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act and Rule 204A-1 under the Advisers Act, where applicable. Each Code of Ethics permits personnel subject to that Code of Ethics to invest in securities for their personal investment accounts, subject to certain limitations, including securities that may be purchased or held by the Fund. Each Code of Ethics is on public file with, and is available from, the SEC.

**Administrator, Custodian, Transfer Agent and Securities Lending Agent.** State Street Bank and Trust Company ( "State Street" ) serves as administrator, custodian, transfer agent and securities lending agent for the Fund. State Street's principal address is One Lincoln Street, Boston, Massachusetts 02110. Under the Fund Administration Agreement with the Trust, State Street provides certain administrative, legal, tax, and financial reporting services for the maintenance and operations of the Trust and the Fund. Under the Master Custodian Agreement with the Trust, State Street acts as custodian of assets of the Trust, including securities which the Trust, on behalf of the Fund, desires to be held in places within the United States and securities it desires to be held outside the United States, and provides accounting and other services. State Street is required, upon the order of the Trust, to deliver securities held by State Street and to make payments for securities purchased by the Trust and for the Fund. Also, under the Master Custodian Agreement, State Street is authorized to appoint certain foreign custodians or foreign custody managers for Fund investments outside the United States. Pursuant to a Transfer Agency and Service Agreement with the Trust, State Street acts as transfer agent for the authorized and issued shares of beneficial interest for the Fund, and as dividend disbursing agent of the Trust. State Street also provides services, as applicable, for any wholly-owned subsidiary of a WisdomTree Fund. As compensation for the foregoing services, State Street receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly. State Street also serves as the Fund's securities lending agent. As compensation for providing such services, State Street receives a portion of the income earned by the Fund in connection with the lending program. With respect to the foregoing agreements, the Trust has agreed to limitation of liability for State Street and/or to indemnify State Street for certain liabilities.

---

## **Table of Contents**

**Distributor.** Foreside Fund Services, LLC serves as Distributor for the Trust and its principal address is Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes shares of the Fund. The Distribution Agreement will continue for two years from its effective date and is renewable annually. Shares are continuously offered for sale by the Fund through the Distributor only in Creation Unit Aggregations, as described in the Prospectus and below in the Creation and Redemption of Creation Unit Aggregations section. Shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the Prospectus and, upon request, this SAI to persons purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority ( FINRA ). The Distributor is not affiliated with WisdomTree Investments, WisdomTree Asset Management, or any stock exchange.

The Distribution Agreement for the Fund will provide that it may be terminated at any time, without the payment of any penalty, on at least sixty (60) days prior written notice to the other party (i) by vote of a majority of the Independent Trustees or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with securities dealers ( Soliciting Dealers ) who will solicit purchases of Creation Unit Aggregations of shares. Such Soliciting Dealers may also be Authorized Participants (as defined below) or DTC Participants (as defined below).

**Intermediary Compensation.** WisdomTree Asset Management or its affiliates, out of their own resources and not out of Fund assets (i.e., without additional cost to the Fund or its shareholders), may pay certain broker-dealers, banks and other financial intermediaries ( Intermediaries ) for certain activities related to the Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, for other activities, such as marketing and educational training or support, or for data or platform access. In addition, WisdomTree Asset Management and E\*Trade Securities LLC ( ETS ) have entered into an agreement whereby ETS has agreed not to charge its customers any transaction fee or brokerage commission for the purchase of shares of the Fund made through ETS's distribution system (the ETS fee waiver ) and to disclose that the Fund is sold with the ETS fee waiver, and WisdomTree Asset Management has agreed to pay ETS during the term of the agreement an amount based on net purchases and sales of the Fund in the ETS distribution system. WisdomTree Asset Management has also agreed to make payments to Charles Schwab & Co., Inc. ( Schwab ) for the services described above including education costs and administrative costs with respect to applicable Funds made available and/or sold through the Schwab ETF OneSource platform. These arrangements are not financed by the Fund and, thus, do not result in increased Fund expenses. They are not reflected in the fees and expenses listed in the fees and expenses sections of the Fund's Prospectus, and they do not change the price paid by investors for the purchase of the Fund's shares or the amount received by a shareholder as proceeds from the redemption of Fund shares.

Such compensation may be paid to Intermediaries that provide services to the Fund, including marketing and education support (such as through conferences, webinars and printed communications). WisdomTree Asset Management periodically assesses the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause the Intermediary to recommend the Fund over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professionals if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by WisdomTree Asset Management or its affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy shares of WisdomTree Funds.

If you have any additional questions, please call 1-866-909-9473.

## **BROKERAGE TRANSACTIONS**

The Sub-Adviser assumes general supervision over placing orders on behalf of the Fund for the purchase and sale of portfolio securities. In selecting the brokers or dealers for any transaction in portfolio securities, the Sub-Adviser's policy is to make such selection based on factors deemed relevant, including but not limited to, the breadth of the market in the security; the price of the security; the reasonableness of the commission or mark-up or mark-down, if any; execution capability; settlement capability; back office efficiency; and the financial condition of the broker or dealer, both for the specific transaction and on a continuing basis. The

## **Table of Contents**

overall reasonableness of brokerage commissions paid is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Brokers may also be selected because of their ability to handle special or difficult executions, such as if they may be involved in large block trades, less liquid or foreign securities, broad distributions, or other circumstances. The Sub-Adviser does not consider the provision or value of research, products or services a broker or dealer may provide, if any, as a factor in the selection of a broker or dealer or the determination of the reasonableness of commissions paid in connection with portfolio transactions. The Trust has adopted policies and procedures that prohibit the consideration of sales of the Fund's shares as a factor in the selection of a broker or a dealer to execute its portfolio transactions. To the extent creation or redemption transactions are conducted on a cash or cash in lieu basis, the Fund may contemporaneously transact with broker-dealers for the purchase or sale of portfolio securities in connection with such transactions (see Creation and Redemption of Creation Unit Aggregations herein). Such orders may be placed with an Authorized Participant in its capacity as broker-dealer or with an affiliated broker-dealer of such Authorized Participant.

### **Brokerage Commissions**

The Fund is new and had not paid any brokerage commissions as of the fiscal year ended June 30, 2017.

### **Affiliated Brokers**

The Fund is new and had not paid any commissions to any affiliated brokers as of the fiscal year ended June 30, 2017.

### **Regular Broker-Dealers**

The Fund is new and did not acquire securities of its regular brokers or dealers (as defined in the 1940 Act) or of their parents during the fiscal year ended June 30, 2017.

### **Portfolio Turnover**

Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by the other institutional investors for comparable services.

The Fund is new and therefore did not have a portfolio turnover rate for the fiscal year ended June 30, 2017.

## **ADDITIONAL INFORMATION CONCERNING THE TRUST**

**Shares.** The Trust was established as a Delaware statutory trust on December 15, 2005, and consists of multiple series funds. The Fund issues shares of beneficial interest, with \$0.001 par value. The Board may establish additional funds. The Trust is registered with the SEC as an open-end management investment company.

Each share issued by the Fund has a pro rata interest in the assets of the Fund. Shares have no preemptive, exchange, subscription or conversion rights and are freely transferable. Each share is entitled to participate equally in dividends and distributions declared by the Board of Trustees with respect to the Fund, and in the net distributable assets of the Fund on liquidation.

Each share has one vote with respect to matters upon which a shareholder vote is required consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all Funds within the Trust vote together as a single class, except that if the matter being voted on affects only a particular fund, or if a matter affects a particular fund differently from other funds, that fund will vote separately on such matter.

Under Delaware law, the Trust is not required to hold an annual meeting of shareholders unless required to do so under the 1940 Act. The policy of the Trust is not to hold an annual meeting of shareholders unless required to do so under the 1940 Act. All shares have non-cumulative voting rights for the Board. Under Delaware law, Trustees of the Trust may be removed by vote of the shareholders.

Following the creation of the initial Creation Unit Aggregation(s) of shares of the Fund and immediately prior to the commencement of trading in the Fund's shares, a holder of shares may be a control person of the Fund, as defined in the 1940 Act. The Fund cannot accurately predict the length of time for which one or more shareholders may remain a control person or persons of the Fund.

## **Table of Contents**

Absent an applicable exemption or other relief from the SEC or its staff, beneficial owners of more than 5% of the shares of the Fund may be subject to the reporting provisions of Section 13 of the 1934 Act and the SEC's rules promulgated thereunder. In addition, absent an applicable exemption or other relief from the SEC staff, officers and Trustees of the Fund and beneficial owners of 10% of the shares of the Fund (Insiders) may be subject to the insider reporting, short-swing profit and short-sale provisions of Section 16 of the 1934 Act and the SEC's rules promulgated thereunder. Beneficial owners and Insiders should consult with their own legal counsel concerning their obligations under Sections 13 and 16 of the 1934 Act.

**Termination of the Trust or the Fund.** The Trust or the Fund may be terminated by a majority vote of the Board of Trustees or the affirmative vote of a super majority of the holders of the Trust or the Fund entitled to vote on termination. Although the shares are not automatically redeemable upon the occurrence of any specific event, the Trust's organizational documents provide that the Board will have the unrestricted power to alter the number of shares in a Creation Unit Aggregation. In the event of a termination of the Trust or the Fund, the Board, in its sole discretion, could determine to permit the shares to be redeemable in aggregations smaller than Creation Unit Aggregations or to be individually redeemable. In such circumstances, the Trust may make redemptions in kind, for cash, or for a combination of cash and securities.

**Role of the Depositary Trust Company ( DTC ).** DTC acts as Securities Depository for the shares of the Trust. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants ( DTC Participants ) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities' certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or their representatives) own DTC. More specifically, DTC is owned by a number of DTC Participants and by the NYSE and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly ( Indirect Participants ).

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as Beneficial Owners ) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of shares. No Beneficial Owner shall have the right to receive a certificate representing such shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form and number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements. The foregoing processes may be conducted by the Trust via a third party.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all shares of the Trust. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a street name, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants. DTC may decide to discontinue its service with respect to shares of the Trust at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

**Table of Contents**

**CREATION AND REDEMPTION OF CREATION UNIT AGGREGATIONS**

**Creation.** The Trust issues and sells shares of the Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt, on any Business Day, of an order in proper form.

**Fund Deposit.** The consideration for purchase of Creation Unit Aggregations of the Fund generally consists of (i) the in-kind deposit of a designated portfolio of equity securities, fixed income securities and other instruments closely approximating the holdings of the Fund, and (ii) U.S. cash and/or non-U.S. currency (together, the Deposit Securities ) and an amount of cash denominated in U.S. dollars (the Cash Component ) computed as described below. Together, the Deposit Securities and the Cash Component constitute the Fund Deposit, which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of the Fund.

The Fund or Advisers may permit or require the submission of a basket of equity securities, fixed income securities and other instruments, non-U.S. currency or cash denominated in U.S. dollars that differs from the composition of the published basket(s). The Fund or Advisers may permit or require the consideration for Creation Unit Aggregations to consist solely of cash or non-U.S. currency. The Fund or Advisers reserve the right to permit or require the substitution of an amount of cash denominated in U.S. dollars or non-U.S. currency (*i.e.*, a cash in lieu amount) to be added, at its discretion, to the Cash Component to replace any Deposit Security. For example, cash may be substituted to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below). The Trust or Advisers reserve the right to permit or require a cash in lieu amount where the delivery of the Deposit Security by the Authorized Participant (as described below) would be prohibited or restricted under applicable securities laws, or in certain other situations at the sole discretion of the Trust.

The portion of the Cash Component that does not serve to replace a Deposit Security is sometimes also referred to as the Balancing Amount. The Balancing Amount is an amount equal to the difference between the NAV of the shares (per Creation Unit Aggregation) and the value of Deposit Securities. If the Balancing Amount is a positive number, the Authorized Participant will deliver the Balancing Amount. If the Balancing Amount is a negative number, the Authorized Participant will receive the Balancing Amount. The Balancing Amount does not include any stamp duty tax or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities. These are the sole responsibility of the Authorized Participant.

The Fund, through the National Securities Clearing Corporation ( NSCC ), makes available on each Business Day, immediately prior to the opening of business on the Listing Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security and/or applicable Cash Component to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund.

Such Deposit Securities are applicable, subject to any adjustments as described herein, in order to effect creations of Creation Unit Aggregations of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Fund changes from time to time based on changes to the Fund's Underlying Index and other factors.

**Procedures for Creation of Creation Unit Aggregations.** To be eligible to place orders with the Distributor and to create a Creation Unit Aggregation of the Fund, an entity must be: (i) a Participating Party, *i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the Clearing Process ), a clearing agency that is registered with the SEC; or (ii) a DTC Participant. In each case, such entity must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit Aggregations (a Participant Agreement ). A Participating Party or DTC Participant that has entered a Participant Agreement is referred to as an Authorized Participant. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All shares of the Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create shares must be placed for one or more Creation Unit Aggregations. All orders to create Creation Unit Aggregations must be received by the Distributor by the designated closing time, which is no later than the closing time of the regular trading session on the Listing Exchange ( Closing Time ) (ordinarily 4:00 p.m., Eastern time) on the date such orders are placed in order to receive that day's NAV. All orders must be received in proper form. The date on which an order to create Creation Unit Aggregations is placed is referred to as the Transmittal Date. Orders must be transmitted by an Authorized Participant by telephone, online portal or other transmission method acceptable to State Street and the Distributor pursuant to procedures set forth in the Participant Agreement, as described below, which procedures may change from time to time without notice at the discretion of the Trust. Economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach State Street and the Distributor or an Authorized Participant. On days when the Listing Exchange or U.S.

## Edgar Filing: WisdomTree Trust - Form 485BPOS

or non-U.S. markets close earlier than normal, the Fund may require purchase orders to be placed earlier in the day. All questions as to the number of Deposit Securities and/or Cash Component to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust or Advisers, whose determination shall be final and binding.

## Table of Contents

All orders to create Creation Unit Aggregations through an Authorized Participant shall be placed with an Authorized Participant, in the form required by such Authorized Participant. In addition, the Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order, *e.g.*, to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, in that case, orders to create Creation Unit Aggregations of the Fund have to be placed by each investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases, there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

Those placing orders for Creation Unit Aggregations through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date. Orders for Creation Unit Aggregations that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Securities and the Cash Component.

**Placement of Creation Orders Using the Clearing Process.** Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor or State Street to transmit through State Street to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Deposit Securities and the Cash Component to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Unit Aggregations through the Clearing Process is deemed received by the Distributor on the Transmittal Date if: (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed.

**Placement of Creation Orders Outside the Clearing Process.** Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant who wishes to place an order creating Creation Unit Aggregations to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Unit Aggregations will instead be effected through a transfer of securities and cash directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 2:00 p.m., Eastern time, on the Settlement Date. The Settlement Date is typically the third Business Day following the Transmittal Date. The Fund reserves the right to settle transactions on a basis other than T plus two Business Days (*i.e.*, days on which the NYSE is open) ( T+2 ). In certain cases Authorized Participants will create and redeem Creation Unit Aggregations of the same Fund on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

On days when the Listing Exchange or U.S. markets close earlier than normal, the Fund may require purchase orders to be placed earlier in the day. All questions as to the number of Deposit Securities and/or Cash Component to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust or Advisers, whose determination shall be final and binding. The amount of cash equal to the Cash Component must be transferred directly to State Street through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by State Street no later than 2:00 p.m., Eastern time, on the Settlement Date. An order to create Creation Unit Aggregations outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if: (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if State Street does not receive both the required Deposit Securities and the Cash Component by the specified time on the Settlement Date, the Trust may cancel or revoke acceptance of such order. Upon written notice to the Distributor, such canceled or revoked order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current NAV of the Fund. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date.

Creation Unit Aggregations may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the shares on the date the order is placed in proper form since, in addition to available Deposit Securities, U.S. cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) generally between 102%-110%, as directed by the Trust or Advisers, which the Trust or Advisers may change from time to time, of the market value of the undelivered Deposit Securities (the Additional Cash Deposit ) with the Fund pending delivery of any missing Deposit Securities.

If an Authorized Participant determines to post an Additional Cash Deposit as collateral for any undelivered Deposit Securities, such Authorized Participant must deposit with State Street the appropriate amount of federal funds by 2:00 p.m., Eastern time (or such other time as specified by the Trust), on the Settlement Date. If the Authorized Participant does not place its purchase order by the closing time or State Street does not

## Edgar Filing: WisdomTree Trust - Form 485BPOS

receive federal funds in the appropriate amount by such time, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash

---

**Table of Contents**

shall be required to be deposited with State Street, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount generally between 102%-110%, as directed by the Trust or Advisers, which the Trust or Advisers may change from time to time, of the daily marked-to-market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by the specified time on the Settlement Date, or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the Additional Cash Deposit to purchase the missing Deposit Securities. The Trust also requires delivery of Deposit Securities and/or an Additional Cash Deposit prior to settlement date by the Authorized Participant in relation to certain international markets.

The Authorized Participant will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the Transmittal Date plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by State Street or purchased by the Trust and deposited into the Trust. In addition, a Transaction Fee, as listed below, will be charged in all cases. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date. In no event will an Authorized Participant receive or be entitled to interest or other consideration associated with or in relation to the Additional Cash Deposit.

**Cash Purchases.** When, in the sole discretion of the Trust or Advisers, cash purchases of Creation Unit Aggregations of shares are available or specified for the Fund, such purchases shall be effected in essentially the same manner as in-kind purchases thereof. In the case of a cash purchase, the Authorized Participant must pay the cash equivalent of the Deposit Securities it would otherwise be required to provide through an in-kind purchase, plus the same Cash Component required to be paid by an in-kind purchaser. In addition, to offset brokerage and other costs associated with using cash to purchase the requisite Deposit Securities, the Authorized Participant must pay the Transaction Fees required by the Fund. If the Authorized Participant acts as a broker for the Fund in connection with the purchase of Deposit Securities, the Authorized Participant will also be required to pay certain brokerage commissions, taxes, and transaction and market impact costs as discussed under the heading Brokerage Transactions herein.

**Acceptance of Orders for Creation Unit Aggregations.** The Trust reserves the absolute right to reject or revoke acceptance of a creation order transmitted to it by the Distributor with respect to the Fund. Orders may be rejected and acceptance may be revoked if, for example: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the Deposit Securities delivered are not the same as those disseminated through the facilities of the NSCC for that date by the Fund as described above; (iv) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or WisdomTree Asset Management, have an adverse effect on the Trust or the rights of beneficial owners; or (vii) in the event that circumstances outside the control of the Trust, State Street, the Distributor or WisdomTree Asset Management make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, WisdomTree Asset Management, the Distributor, DTC, NSCC, State Street or a sub-custodian or any other participant in the creation process and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit Aggregation of its rejection of the order of such person. The Trust, State Street, a sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

**Creation/Redemption Transaction Fee.** The Fund imposes a Transaction Fee or CU Fee on investors purchasing or redeeming Creation Units. The purpose of the Transaction Fee is to protect the existing shareholders of the Fund from the dilutive costs associated with the purchase and redemption of Creation Units. Where the Fund permits cash creations (or redemptions) or cash in lieu of depositing one or more Deposit Securities, the purchaser (or redeemer) may be assessed a higher Transaction Fee to offset the transaction cost to the Fund of buying (or selling) those particular Deposit Securities. Transaction Fees for the Fund will differ from Transaction Fees for other WisdomTree Funds, depending on the transaction expenses related to the Fund's portfolio securities, and will be limited to amounts that have been determined by WisdomTree Asset Management to be appropriate. The maximum Transaction Fee, as set forth in the table below for the Fund, may be charged in cases where the Fund permits cash or cash in lieu of Deposit Securities. Investors purchasing or redeeming through the DTC process generally will pay a higher Transaction Fee than will investors doing so through the NSCC process. Also, investors who use the services of a broker or other such intermediary may be charged a fee for such services, in addition to the Transaction Fee imposed by the Fund.

**Table of Contents**

The following table sets forth the standard and maximum creation and redemption Transaction Fees for the Fund. These fees may be changed by the Trust.

Fund	CU Fee*	Maximum CU Fee
Balanced Income Fund	\$ 100	\$ 400

\*The Fund may charge, either in lieu of or in addition to the Transaction Fees, in the sole discretion of the Trust or as determined by the Adviser, a variable fee for creations and redemptions in order to cover certain brokerage, tax, foreign exchange, execution, market impact and other costs and expenses related to the execution of trades resulting from such transaction, up to any applicable legal limits.

**Placement of Redemption Orders for Using the Clearing Process.** Orders to redeem Creation Unit Aggregations through the Clearing Process must be delivered through a Participating Party that has executed the Participant Agreement. Except as described herein, an order to redeem Creation Unit Aggregations using the Clearing Process is deemed received by the Trust on the Transmittal Date if: (i) such order is received by State Street (in its capacity as Transfer Agent) not later than the Closing Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. Such order will be effected based on the NAV of the Fund as next determined. The consideration for redemption of Creation Unit Aggregations of the Fund generally consists of (i) a portfolio of equity securities and fixed income securities (the Fund Securities ) and (ii) an amount of cash denominated in U.S. dollars (the Cash Redemption Amount ) as described below. The requisite Fund Securities and the Cash Redemption Amount generally will be transferred by the third NSCC Business Day following the date on which such request for redemption is deemed received.

**Placement of Redemption Orders Outside the Clearing Process.** Orders to redeem Creation Unit Aggregations outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. An order to redeem Creation Unit Aggregations outside the Clearing Process is deemed received by the Trust on the Transmittal Date if: (i) such order is received by State Street (in its capacity as Transfer Agent) not later than the Closing Time on such Transmittal Date; (ii) such order is accompanied or followed by the requisite number of shares of the Fund specified in such order, which delivery must be made through DTC to State Street no later than instructed, which is typically one day after Transmittal Date (presuming T+2 settlement); and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed an order for redemption outside the Clearing Process received, the Trust will initiate procedures to transfer the requisite Fund Securities which are expected to be delivered within three Business Days and the Cash Redemption Amount to the Authorized Participant on behalf of the redeeming Beneficial Owner by the Settlement Date. In certain cases Authorized Participants will redeem and create Creation Unit Aggregations of the same Fund on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

If the requisite number of shares of the Fund is not delivered as described above or an Additional Cash Deposit is not made, as applicable, in the sole discretion of the Trust or Advisers, in no event will an Authorized Participant receive or be entitled to interest or other consideration associated with or in relation to the Additional Cash Deposit, the Fund may reject or revoke acceptance of the redemption request because the Authorized Participant has not satisfied all of the settlement requirements.

The current procedures for collateralization of missing shares require, among other things, that any Additional Cash Deposit shall be in the form of U.S. dollars in immediately available funds and shall be held by State Street and marked-to-market daily, and that the fees of State Street and any sub-custodians in respect of the delivery, maintenance and redelivery of the Additional Cash Deposit shall be payable by the Authorized Participant. The Authorized Participant's agreement will permit the Trust, on behalf of the affected Fund, to purchase the missing shares or acquire the Deposit Securities and the Cash Component underlying such shares at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such shares, Deposit Securities or Cash Component and the value of the collateral.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered upon redemption will be made by State Street according to the procedures set forth under Determination of NAV computed on the Business Day on which a redemption order is deemed received by the Trust.

The Fund or the Advisers may also, in their sole discretion, upon request of an Authorized Participant, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

## Edgar Filing: WisdomTree Trust - Form 485BPOS

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Unit Aggregations for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with

**Table of Contents**

respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit Aggregation may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment.

Because the portfolio securities of the Fund may trade on the relevant exchange(s) on days that the Listing Exchange is closed or that are otherwise not Business Days for the Fund, stockholders may not be able to redeem their shares of the Fund, or to purchase and sell shares of the Fund on the Listing Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

**Cash Redemptions.** The Fund may pay out the proceeds of redemptions of Creation Unit Aggregations solely in cash or through any combination of cash or securities. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). Proceeds will be paid to the Authorized Participant redeeming shares on behalf of the redeeming investor as soon as practicable after the date of redemption. If the Authorized Participant acts as a broker for the Fund in connection with the sale of Fund Securities, the Authorized Participant will also be required to pay certain brokerage commissions, taxes, and transaction and market impact costs as discussed under the heading Brokerage Transactions herein.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Unit Aggregations for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws.

**In-Kind Redemptions.** The ability of the Trust to effect in-kind creations and redemptions is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle may be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period. The Fund will not suspend or postpone redemption beyond seven days, except as permitted under Section 22(e) of the 1940 Act. Section 22(e) provides that the right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the New York Stock Exchange ( NYSE ) is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the NYSE is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the shares of the Fund's portfolio securities or determination of its NAV is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

**REGULAR HOLIDAYS**

The Fund generally intends to effect deliveries of Creation Unit Aggregations and portfolio securities on a basis of T+2. The Fund may effect deliveries of Creation Unit Aggregations and portfolio securities on a basis other than T+2 in order to accommodate local holiday schedules, to account for different treatment among foreign and U.S. markets of security delivery practices and/or dividend record dates and ex-dividend dates, or under certain other circumstances. The ability of the Trust to effect in-kind creations and redemptions within two Business Days of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. New or special holidays, treatment by market participants of certain days as informal holidays (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays or changes in local securities delivery practices (including lengthening settlement cycles, which may also occur in connection with a security sale and its settlement, with limitations or delays in the settlement itself and/or the convertibility or repatriation of the local proceeds associated therewith), could impede the Fund's ability to satisfy redemption requests in a timely manner. In addition to holidays, other unforeseeable closings or changes in a foreign market due to emergencies may also prevent the Trust from delivering redemption proceeds within the normal settlement period or in a timely manner.

The securities delivery cycles currently practicable for transferring portfolio securities to redeeming investors, coupled with foreign market holiday schedules, will require a delivery process longer than seven calendar days for some funds, in certain circumstances. The holidays applicable to the Fund during such periods are listed below, as are instances where more than seven days will be needed to deliver redemption proceeds. Although certain holidays may occur on different dates in subsequent years, the number of days required to deliver redemption proceeds in any given year is not expected to exceed the maximum number of days listed below for the

**Table of Contents**

Fund. The proclamation of new holidays, the treatment by market participants of certain days as informal holidays (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays, or changes in local securities delivery practices could affect the accuracy of information set forth herein.

**Redemptions.** The longest redemption cycle for the Fund is a function of the longest redemption cycle among the countries whose securities comprise the Fund. In calendar year 2017, the dates of regular holidays affecting the following securities markets present the worst-case redemption cycles\* for the Fund as follows:

**2017**

Country	Trade Date	Settlement Date	Number of Days to Settle
Australia	04/11/17	04/19/17	8
	04/12/17	04/20/17	8
