Performance Summary (unaudited)

WisdomTree Dynamic Currency Hedged Europe Equity Fund (DDEZ)

Sector Breakdown as of 12/31/17

| Sector | % of Net Assets |
|-------------------------------|-----------------|
| Financials | 23.8% |
| Industrials | 13.2% |
| Consumer Discretionary | 13.1% |
| Utilities | 10.7% |
| Consumer Staples | 9.6% |
| Energy | 7.6% |
| Materials | 7.1% |
| Telecommunication Services | 5.6% |
| Health Care | 4.6% |
| Information Technology | 3.2% |
| Real Estate | 1.6% |
| Other Assets less Liabilities | -0.1% |
| Total | 100.0% |
| | |

The Fund s sector breakdown is expressed as a percentage of net assets and may change over time. In addition, a sector may be comprised of several industries. It does not include derivatives (if any).

Other assets includes investment of cash collateral for securities on loan (if any).

Top Ten Holdings* as of 12/31/17

| Description | % of Net Assets |
|-------------------------------|-----------------|
| Anheuser-Busch InBev S.A. | 3.6% |
| TOTAL S.A. | 2.8% |
| Daimler AG, Registered Shares | 2.8% |
| Allianz SE, Registered Shares | 2.6% |
| Eni SpA | 2.1% |
| Siemens AG, Registered Shares | 2.1% |
| BASF SE | 2.0% |
| ING Groep N.V. | 1.9% |
| Banco Santander S.A. | 1.9% |
| Enel SpA | 1.8% |

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Dynamic Currency Hedged Europe Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Currency Hedged Europe Equity Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 1, 2017, the Fund s net and gross annual expense ratios were 0.43% and 0.48%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Performance as of 12/31/17

| Average Annual Total Return | | |
|-----------------------------|---|---|
| | | Since |
| 6-Month* | 1 Year | Inception ¹ |
| 8.05% | 21.36% | 16.91% |
| 7.48% | 22.23% | 17.55% |
| 8.02% | 21.31% | 17.01% |
| 3.78% | 12.63% | 11.65% |
| 9.20% | 28.07% | 17.56% |
| | 6-Month* 8.05% 7.48% 8.02% 3.78% | 6-Month* 1 Year 8.05% 21.36% 7.48% 22.23% 8.02% 21.31% 3.78% 12.63% |

* Returns of less than one year are cumulative.

¹ Total returns are calculated based on the commencement of Fund trading on the Cboe BZX Exchange, Inc. on January 7, 2016.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

| China Overseas Land & Investment Ltd. | 2.1% |

* The ten largest holdings shown is that of the Underlying Fund and are subject to change, and there are no guarantees the Underlying Fund will remain invested in any particular company. Excludes Underlying Fund s derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Dynamic Currency Hedged International Quality Dividend Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Currency Hedged International Quality Dividend Growth Index (the Index). The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a

sample of securities in the Index (including indirect investments through the WisdomTree International Quality Dividend Growth Fund (the Underlying Fund)) whose risk, return and other characteristics resemble the risk, return, and other characteristics of the Index as a whole.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage

commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 1, 2017, the Fund s net and gross annual expense ratios were 0.48% and 0.96%, respectively. The prospectus expense ratio includes 0.38% of acquired fund fees and expenses (AFFEs). The prospectus expense ratio may not correlate to the expense ratio in the Fund s financial highlights and financial statements because the financial highlights and financial statements reflect only the operating expenses of the Fund and do not include AFFEs, which are fees and expenses incurred indirectly by the Fund through its investments in certain underlying investment companies. WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund, as well as an additional 0.10%, through October 31, 2018, unless earlier terminated by the Board of Trustees of WisdomTree Trust for any reason at any time.

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Dynamic Currency Hedged Japan Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Currency Hedged Japan Equity Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 1, 2017, the Fund s net and gross annual expense ratios were 0.43% and 0.48%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Performance as of 12/31/17

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Strong Dollar Emerging Markets Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Strong Dollar Emerging Markets Equity Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 1, 2017, the Fund s annual expense ratio was 0.32% and 0.58%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.32% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. eastern time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes derivatives and investment of cash collateral for securities on loan (if any).

The WisdomTree Fundamental U.S. Short-Term Corporate Bond Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Fundamental U.S. Short-Term Corporate Bond Index. The Fund generally uses a representative sampling

strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 1, 2017, the Fund s net and gross annual expense ratios were 0.18% and 0.28%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.18% through October 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

The WisdomTree Balanced Income Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Balanced Income Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index.

The Fund had less than six months of operating history at the end of the reporting period and therefore no comparative performance information is shown in this shareholder report. Comparative performance information for the most recent month-end is available at www.wisdomtree.com.

Description of Indexes (unaudited)

Below are descriptions of each Index referenced in this report:

The **BofA Merrill Lynch U.S. Corporate Index** tracks the performance of U.S. dollar denominated investment grade corporate debt publicly issued in the U.S. domestic market. Qualifying securities must have an investment grade rating (based on an average of Moody s, S&P and Fitch), at least 18 months to final maturity at the time of issuance, at least one year remaining term to final maturity as of the rebalancing date, a fixed coupon schedule and a minimum amount outstanding of \$250 million.

The **BofA Merrill Lynch U.S. High Yield Index** tracks the performance of U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market. Qualifying securities must have a below investment grade rating (based on an average of Moody s, S&P and Fitch), at least 18 months to final maturity at the time of issuance, at least one year remaining term to final maturity as of the rebalancing date, a fixed coupon schedule and a minimum amount outstanding of \$100 million.

The **BofA Merrill Lynch 1-5 Year U.S. Corporate Index** is a subset of the BofA Merrill Lynch U.S. Corporate Index including all securities with a remaining term to final maturity less than 5 years.

The **BofA Merrill Lynch 1-5 Year U.S. High Yield** Constrained Index tracks the performance of short-term U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market. Qualifying securities must have a below investment grade rating (based on an average of Moody s, S&P and Fitch).

The **MSCI AC World Index** is a free-float adjusted market capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets.

The **MSCI AC World Small Cap Index** is a free float-adjusted market capitalization weighted index designed to measure the equity market performance of developed and emerging markets, specifically focusing on the small-cap segment of these equity markets.

The **MSCI AC World Small Cap Local Currency Index** is a free float-adjusted market capitalization-weighted index designed to measure the equity market performance of developed and emerging markets, specifically focusing on the small-cap segment of these equity markets, in local currency.

The **MSCI EAFE Index** is a market cap-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan.

The **MSCI EAFE Local Currency Index** is a free float-adjusted market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. and Canada which is calculated in local currency.

The MSCI EAFE Small Cap Index is comprised of small-capitalization stocks in the MSCI EAFE Index.

The **MSCI EAFE Small Cap Local Currency Index** is a free float-adjusted market capitalization equity index that is designed to measure the performance of small-cap stocks within the developed equity market, excluding the U.S. and Canada, in local currency.

The **MSCI Emerging Markets Index** is a free float-adjusted market capitalization index that is designed to measure emerging markets equity performance.

The **MSCI European Economic and Monetary Union (EMU) Index** is a free float- adjusted market capitalization-weighted index that is designed to measure the equity market performance of countries within the EMU.

The **MSCI European Economic and Monetary Union (EMU) Local Currency Index** is a free float-adjusted market capitalization-weighted index that is designed to measure the equity market performance of countries within the EMU and calculated in local currency.

The MSCI Japan Index is a capitalization weighted index that is comprised of stocks in Japan.

Description of Indexes (unaudited) (continued)

The **MSCI Japan Local Currency Index** is a free float-adjusted market capitalization index that is designed to measure developed market equity performance in Japan and calculated in local currency.

The S&P 500[®] Index is a capitalization-weighted index of 500 stocks selected by Standard & Poor s Index Committee, designed to represent the performance of the leading industries in the United States economy.

The S&P 500[®] Inverse Daily Index provides inverse (positive or negative) returns of the S&P 500 Index by taking a short position in the index.

The **S&P China 500 Index** comprises 500 of the largest, most liquid Chinese companies while approximating the sector composition of the broader Chinese equity market. All Chinese share classes including A-shares and offshore listings are eligible for inclusion.

The **WisdomTree Balanced Income Index** is comprised of exchange-traded funds listed on a major U.S. exchange and aims to maintain a 60% equity and 40% fixed income exposure. The equity exposure is diversified across both domestic (U.S.) and foreign equities, including emerging markets. The fixed income exposure includes government bonds, corporate bonds, mortgage-backed securities and other mortgage-related products.

The **WisdomTree Dynamic Bearish U.S. Equity Index** includes long equity positions or long U.S. Treasury positions and short equity positions. The long equity positions consist of approximately 100 U.S. large- and mid-capitalization stocks that meet Index eligibility requirements and have the best combined score based on fundamental growth and value signals. The short equity positions include the largest 500 U.S. companies, weighted by market capitalization, designed to act as a market risk hedge.

The **WisdomTree Dynamic Currency Hedged Europe Equity Index** is a fundamentally weighted index that measures the performance of dividend-paying companies incorporated in developed Europe and is designed to remove from index performance the impact of the changes in the value of the Euro relative to the U.S. dollar with a hedge ratio ranging from 0 to 100% on a monthly basis.

The **WisdomTree Dynamic Currency Hedged International Equity Index** is a fundamentally weighted index that measures the performance of dividend-paying companies in the industrialized world, excluding Canada and the United States, and is designed to remove from index performance the impact of changes to the value of foreign currencies relative to the U.S. dollar with a hedge ratio ranging from 0 to 100% on a monthly basis.

The **WisdomTree Dynamic Currency Hedged International Quality Dividend Growth Index** is designed to provide exposure to the developed market companies while at the same time neutralizing exposure to fluctuations between the value of foreign currencies and the U.S. dollar with a hedge ratio ranging from 0 to 100% on a monthly basis. The Index is comprised of the top 300 companies from the WisdomTree International Equity Index with the best combined rank of growth and quality factors.

The **WisdomTree Dynamic Currency Hedged International SmallCap Equity Index** is a fundamentally weighted index that measures the performance of the small-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada and is designed to remove from index performance the impact of changes to the value of foreign currencies relative to the U.S. dollar with a hedge ratio ranging from 0 to 100% on a monthly basis.

The **WisdomTree Dynamic Currency Hedged Japan Equity Index** is a fundamentally weighted index that measures the performance of dividend-paying companies in Japan and is designed to remove from index performance the impact of changes in the value of the Japanese Yen relative to the U.S. dollar with a hedge ratio ranging from 0 to 100% on a monthly basis.

The **WisdomTree Dynamic Long/Short U.S. Equity Index** includes long equity positions and short equity positions. The long equity positions consist of approximately 100

Description of Indexes (unaudited) (continued)

U.S. large- and mid-capitalization stocks that meet Index eligibility requirements and have the best combined score based on fundamental growth and value signals. The short equity positions include the largest 500 U.S. companies, weighted by market capitalization, designed to act as a market risk hedge.

The **WisdomTree Emerging Markets Dividend Inde**x is a dividend weighted index that consists of emerging market dividend-paying common stocks.

The **WisdomTree Europe Domestic Economy Index** is designed to provide exposure to European companies that are most sensitive to economic growth prospects in the Eurozone and that derive more than 50% of their revenue from Europe.

The **WisdomTree Fundamental U.S. Corporate Bond Index** is designed to capture the performance of selected issuers in the U.S. investment grade corporate bond market that are deemed to have favorable fundamental and income characteristics.

The **WisdomTree Fundamental U.S. High Yield Corporate Bond Index** is designed to capture the performance of selected issuers in the U.S. non-investment-grade corporate bond market that are deemed to have favorable fundamental and income characteristics.

The **WisdomTree Fundamental U.S. Short-Term Corporate Bond Index** is designed to capture the performance of selected issuers in the short-term U.S. investment grade corporate bond market that are deemed to have favorable fundamental and income characteristics.

The **WisdomTree Fundamental U.S. Short-Term High Yield Corporate Bond Index** is designed to capture the performance of selected issuers in the short-term U.S. non-investment-grade corporate bond market that are deemed to have favorable fundamental and income characteristics.

The **WisdomTree Global ex-Mexico Equity Index** is a float-adjusted market capitalization weighted index that measures the performance of 2000 largest companies in developed and emerging markets throughout the world, excluding Mexico.

The **WisdomTree Global Hedged SmallCap Dividend Index** is a fundamentally weighted index that measures the performance of 1000 largest small capitalization companies that rank within the bottom 5% of the WisdomTree Global Dividend Index by market capitalization and is designed to remove from index performance the impact of changes to the value of foreign currencies relative to the U.S. dollar.

The **WisdomTree Global SmallCap Dividend Index** is a fundamentally weighted index that measures the performance of 1000 largest small capitalization companies that rank within the bottom 5% of the WisdomTree Global Dividend Index by market capitalization.

The **WisdomTree Strong Dollar Emerging Markets Equity Index** measures the performance of emerging market companies that derive more than 15% of their revenue from the United States.

The **WisdomTree U.S. Domestic Economy Index** measures the performance of U.S. based companies that derive more than 80% of their revenue from the United States.

The **WisdomTree U.S. Export and Multinational Index** measures the performance of U.S. based companies that derive less than 60% of their revenue from the United States.

WisdomTree Investments, Inc. and WisdomTree Asset Management, Inc. (together, WisdomTree) and the Funds make no representation or warranty, express or implied, to the owners of shares of the Funds or any member of the public regarding the advisability of investing in securities generally or in the Funds particularly or the ability of the underlying Indexes to track the performance of their underlying securities. WisdomTree Investments is the licensor of certain trademarks, service marks and trade names of the Funds. WisdomTree Investments has no obligation to take the needs of the Funds or the owners of shares of the Funds into consideration in determining, composing, or calculating the underlying WisdomTree Indexes of the applicable Funds. WisdomTree Investments is not responsible for, and has not participated in, the determination of the timing of, prices of, or quantities of shares of the Funds to be issued or in the determination or calculation of the equation by which the shares of the Funds are redeemable. WisdomTree and the Funds do not guarantee the accuracy, completeness, or performance of the underlying Indexes or the data included therein and shall have no liability in connection with the underlying Indexes or their calculation.

Index performance information assumes the reinvestment of dividends and excludes management fees, transaction costs and expenses. You cannot directly invest in an index.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2017 to December 31, 2017.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 7/1/17 to 12/31/17 to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

The annualized expense ratio does not include AFFEs, which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies.

Unless otherwise indicated in the footnotes below, expenses are calculated using each Fund s annualized expense ratio, multiplied by the average account value for the period, multiplied by 184/365 (to reflect the one-half year period).

- ¹ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ² WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.35% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ³ WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund, as well as an additional 0.10%, through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ⁴ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.48% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.

- ⁵ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.30% through February 2, 2020, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ⁶ WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ⁷ Fund commenced operations on December 21, 2017. Actual expenses are calculated using the Fund s annualized expense ratio, multiplied by the average account value for the period, multiplied by 11/365 (to reflect the period since commencement of operations).
- ⁸ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.32% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ⁹ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.18% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ¹⁰ WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.38% through October 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- ¹¹ WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in Underlying Funds, as well as an additional 0.05%, through December 31, 2020, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.

Non-income producing security.

Security is being fair valued using significant unobservable inputs by a pricing committee under the direction of the Board of Trustees. The aggregate value of fair valued securities is \$7,314, which represents 0.03% of net assets.

(a) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

- ^(b) Security, or portion thereof, was on loan at December 31, 2017 (See Note 2).
- (c) Rate shown represents annualized 7-day yield as of December 31, 2017.

```
GDR Global Depositary Receipt
```

 ⁽d) At December 31, 2017, the total market value of the Fund s securities on loan was \$135,293 and the total market value of the collateral held by the Fund was \$144,712. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$81,768.
 ADR American Depositary Receipt

NVDR Non-Voting Depositary Receipt

Reg S Regulation S provides an exclusion from the registration requirements of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

- * Commencement of operations.
- ¹ Based on average shares outstanding.
- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ Annualized.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

¹ Based on average shares outstanding.

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ Annualized.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

¹ Based on average shares outstanding.

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ Annualized.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation.

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of December 31, 2017, the Trust consisted of 88 operational investment funds (each a Fund , collectively, the Funds). In accordance with Accounting Standards Update (ASU) 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

| Fund | Commencement of Operations |

Investments, Inc. (WisdomTree Investments) or an Index developed by a third party. WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. (WTAM), the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

Notes to Financial Statements (unaudited) (continued)

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or

ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except, foreign currency contracts on Asian currencies for Global Hedged SmallCap Dividend Fund are valued using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade. Swap contracts are generally marked to market daily based upon values from independent pricing service providers or quotations from broker-dealers to the extent available.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments, which include derivatives, will be fair valued in accordance with the Fund s pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV Calculation Time that may materially affect the value of a Fund s investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity is own assumptions about the assumptions market participants.

Notes to Financial Statements (unaudited) (continued)

would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund s assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund s NAV is computed and that may materially affect the value of the Fund s investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate level of market activity are categorized as Level 2 of the fair value hierarchy and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing model

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of December 31, 2017 in valuing each Fund s assets:

| Dynamic Currency Hedged Europe Equity Fund | Level 1 | Level 2 | Level 3 |

* Please refer to the Schedule of Investments for a breakdown of the valuation by industry type and/or country.

** Security is being fair valued using significant unobservable inputs by the Pricing Committee. The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

During the six months ended December 31, 2017, Dynamic Currency Hedged International SmallCap Equity Fund transferred securities with a fair value of \$1,003 from Level 1 to Level 2 as a result of the unavailability of a quoted price in an active market for identical investments.

During the six months or period ended December 31, 2017, there were no significant transfers into or out of Level 3 of the fair value hierarchy.

Notes to Financial Statements (unaudited) (continued)

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts and swap contracts during the period ended December 31, 2017 and open positions in such derivatives as of December 31, 2017 are detailed in each Fund s Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to credit risk. Credit risk is where the financial condition of an issuer of a security or instrument may cause it to default or become unable to pay interest or principal due on the security or where the counterparty to a derivative contract might default on its obligations. The Funds derivative agreements also contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds NAV over a specified time period. If an event occurred at December 31, 2017 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 162 and 163. At December 31, 2017, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature. Information with respect to the amounts and types of collateral received and/or posted for derivative instruments as of December 31, 2017, if any, is reflected as a footnote below the respective derivatives tables on each Fund s Schedule of Investments.

As of December 31, 2017, the effects of such derivative instruments on each Fund s financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

| | Asset Derivatives | | Liability Derivativ | ives | |
