3. PURPOSE OF THE VALUATION, AND BASE DATE

The purpose of the valuation of the net equity of RME, at book value, on the base date of October 31, 2018, is absorption of its total net assets and liabilities by its parent company Cemig, in accordance with Articles 226 and 227 of Law 6404/76.

4. SCOPE OF THE WORK

To ensure accuracy of the accounting values of the asset and liability elements that comprised the balance sheet of RME on October 30, 2018, we adopted the following procedures:

- Ø Reading of the Financial Statements at December 31, 2017;
- Ø Reading of the Report on the Financial Statements by the Independent Auditors Ernst & Young Auditores Independentes, issued on May 29, 2018, without qualification in relation to the Balance Sheet at December 31, 2017.
- Ø Analytical review of the movement of balances of assets and liabilities in the period January 1, 2018 to October 31, 2018.

On October 31, 2018 the accounting records of RME were in compliance with the pertinent legal formalities and are written in accordance with accounting practices adopted in Brazil.

The experts used historic information and data audited by third parties and data supplied by the management of RME, by email. This being so, we assume that the data and information obtained for this Opinion is true.

This Opinion was prepared for use solely and exclusively by Cemig, for the objective mentioned in Item 3.

5. PRESENTATION OF THE BALANCE SHEET

The Balance Sheet at October 31, 2018 was prepared in accordance with accounting practices adopted in Brazil. The expert accountants found that the assets and liabilities of RME were properly accounted for.

Table of Contents**6.2. Net Equity at Market Price**

Although Cemig is a listed company, valuation at market price or any other economic-financial valuation technique is not justified, as specified by Article 264 of Law 6404/76, since this is a case of absorption of a wholly-owned subsidiary company, and there is no determination of an exchange ratio that could be the object of comparison and/or right to withdraw. Thus, there will be no change in the net equity of Cemig, no issuance of new shares, for which reason valuation at market price is not applicable.

6.3. Treatment of subsequent variations in the value of equity

Under Article 224, Sub-item III of Law 6404/76, the variations in equity that take place between the base date of this Opinion and the date of absorption of RME will be appropriated directly by Cemig, and at the time of the actual absorption, the balances of existing account lines in the analytical interim balance sheet of RME will be incorporated, line by line, by Cemig.

7. CONCLUSION

As a result of the procedures and the analyses carried out, we have concluded that the amount of the Stockholders equity of RME on October 31, 2018 is R\$ 439,157,758.42 (four hundred thirty nine million, one hundred fifty seven thousand seven hundred fifty eight Reais and forty two centavos).

3. OBJECTIVE OF THE VALUATION, AND BASE DATE

The objective of the valuation of the net equity of Lepsa, at book value, on the base date of October 31, 2018, is absorption of its total net assets and liabilities by its parent company Cemig, in accordance with Articles 226 and 227 of Law 6404/76.

4. SCOPE OF THE WORK

To ensure accuracy of the accounting values of the asset and liability elements that comprise the balance sheet of Lepsa on October 30, 2018, we adopted the following procedures:

Ø Reading of the Financial Statements at December 31, 2017.

Ø Reading of the Report on the Financial Statements by the Independent Auditor, Ernst & Young Auditores Independentes, issued on May 29, 2018, without qualification in relation to the Balance Sheet at December 31, 2017.

Ø Analytical review of the movement of balances of assets and liabilities in the period January 1, 2018 to October 31, 2018.

On October 31, 2018 the accounting records of Lepsa were in compliance with the pertinent legal formalities and are written in accordance with accounting practices adopted in Brazil.

The experts used historic information and data audited by third parties, and data supplied by the management of Lepsa, via email. This being so, we assume that the data and information obtained for this Opinion is true.

This Opinion was prepared for use solely and exclusively by Cemig, for the objective mentioned in Item 3.

5. PRESENTATION OF THE BALANCE SHEET

The Balance Sheet at October 31, 2018 was prepared in accordance with accounting practices adopted in Brazil. The experts concluded that the assets and liabilities of Lepsa have been properly accounted for.

6. COMPOSITION OF NET ASSETS AND LIABILITIES

6.1. Accounting Valuation and base date:

The components of net equity of Lepsa at October 31, 2018 are represented, in summary form, by the following account lines:

ASSETS	In Reais (R\$)
Current and non-current assets	444,913,241.75
LIABILITIES	
Current and non-current liabilities	2,969,760.13
PATRIMÔNIO LÍQUIDO TOTAL	441,943,481.62

Av. Barbacena 1200 Santo Agostinho 30190-131 Belo Horizonte, Minas
Gerais, Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

Table of Contents**6.2. Net Equity at Market Price**

Although Cemig is a listed company, valuation at market price or any other economic-financial valuation technique, as specified by Article 264 of Law 6404/76, is not justified, since this is a case of absorption of a wholly-owned subsidiary company, and there is no determination of an exchange ratio that could be the object of comparison and/or right to withdraw. Thus, there will be no change in the net equity of Cemig, nor issuance of new shares, for which reason valuation at market price is not applicable.

6.3. Treatment of subsequent variations in the value of equity

Under Article 224, Sub-item III of Law 6404/76, the variations in equity that take place between the base date of this Opinion and the date of Absorption of Lepsa will be appropriated directly by Cemig, and at the time of the actual absorption, the balances of existing account lines in the analytical interim balance sheet of Lepsa will be incorporated, line by line, by Cemig.

7. CONCLUSION

As a result of the procedures and analyses carried out, we conclude that the value of the stockholders' equity of Lepsa on October 31, 2018 is R\$ 441,943,481.62 (four hundred forty one million nine hundred forty three thousand four hundred eighty one Reais and sixty two centavos).

Since Cemig is the sole stockholder of Lepsa, approval of the Absorption at the Extraordinary General Meeting of Lepsa will depend on the vote in favor by its sole stockholder. Thus there will be no dissident stockholder in the decision of the Extraordinary General Meeting of Lepsa, in the terms of Article 137 and Article 230 of the Corporate Law. In relation to the Absorbing Company, there is no provision of law or the by-laws that confers the right to withdraw on any dissenting party.
- 7.2 Reconsideration of the Transaction. Since there will be no exercise of the right to withdraw of stockholders of the Absorbed Company, there will be no possibility of reconsideration of the Transaction due to risk to the financial stability of the Parties, as referred to by Article 137, § 3 of the Corporate Law.

CLAUSE 8

TREATMENT OF SHARES OF ONE COMPANY OWNED BY ANOTHER

- 8.1 Treatment of the shares of the Absorbing Company owned by the Absorbed Company. The totality of the common and preferred shares, nominal without par value, issued by RME will be attributed to Cemig, as sole stockholder of RME, under CLAUSE 9 below.

CLAUSE 9

INCREASE IN THE SHARE CAPITAL OF THE ABSORBING COMPANY

- 9.1 Increase in the share capital of Absorbing Company. The Absorption will not result in alteration in the net equity of the Absorbing Company, since the net equity value of the Absorbed Company is already reflected in its entirety in the Stockholders' equity of the Absorbing Company due to application of the Equity Method of accounting. Consequently there will be no increase in the share capital of the Absorbing Company, nor any issue of new shares.
- 9.2 Sole Stockholder. On the date of the Transaction, Cemig, sole stockholder of Lepsa, will be the legitimate owner of the totality of the shares issued by Lepsa.

CLAUSE 10

EXCHANGE RATIO

10.1 Since this is a case of absorption of a wholly-owned subsidiary company by its parent company, and there are no other stockholders in the Absorbed Company, and since there will be no increase of capital of the Absorbing Company, it will not be necessary to consider parameters of exchange ratio, and there will be no additional information to be made available to the shareholders of the Absorbing Company.

10.1.1 The non-preparation of Opinions valuing the Stockholders' equity of the Absorbed Company and the Absorbing Company at market price, for the purposes of comparison specified by Article 264 of the Corporate Law, will be the subject of consideration by the Extraordinary General Meeting of the Absorbing Company, and the non-adoption of the Valuation Opinion at market value has been duly justified in item 6 of the Valuation Opinion on the Equity of Lepsa.

CLAUSE 11

ASSET AND LIABILITY ELEMENTS OF EQUITY

11.1 Assets and liability elements of equity. The entire assets and liabilities comprising the equity of Lepsa will be passed to Cemig, in their entirety and without any discontinuation in time, based on their book value, ascertained in the balance sheet of the Absorbed Company raised on October 31, 2018.

CLAUSE 12

VALUATION OF EQUITY

12.1 Expert Accountants. For preparation of the Valuation at book value of the Absorbed Company, as per Article 8 of Law 6404/1976, and in accordance with the terms of Articles 226 and 227 of that Law, the Parties have appointed *ad referendum* the stockholders, the expert accountants Flávio de Almeida Araújo, registered with the Minas Gerais State Regional Accounting Council under N° CRC/MG 86.861, Leonardo Felipe Mesquita, Accountant, registered in the Minas Gerais State Regional Accounting Council under N° CRC/MG 85.260 and Leonardo George de Magalhães, registered in the Minas Gerais State Regional Accounting Council under N° CRC/MG 53.140 (the Expert Accountants).

- 12.2 Ratification of the contracting and appointment of the Expert Accountants. The choice, contracting and appointment of the Expert Accountants for preparation of the Valuation Opinion on the equity of the Absorbed Party shall be ratified by the Absorbing Party, as sole stockholder of the Absorbed Party.
- 12.3 Statement by the Expert Accountants. In the terms of the legislation in force, the Expert Accountants warrant that: (i) they are not directly or indirectly owners of any security or derivative referenced to a security issued by the Absorbed Company or the Absorbing Company; (ii) they have no conflict of interests that reduce the independence necessary for performance of their function; and (iii) they have not been subject to any type of limitation, by the controllers or managers of the Parties, on the realization of the necessary work.

- 12.4 Criteria of Valuation and Base Date. The criterion of valuation adopted was the book value of goods, rights and obligations reflected in the base balance sheet of the Absorbed Party, ascertained in accordance with the fundamental principles of accounting, considering, for the purpose, the balance sheet of the Absorbed Company dated October 30, 2018 (the Base Date), and the related accounting, analytical and auxiliary books and records.
- 12.5 Valuation Opinion. The valuation opinion that presents the results of book value valuation of the Absorbed Company, in accordance with Articles 226 and 227 of the Corporate Law, now becomes an integral part of this present Protocol and Justification in the form of Appendix 12.5 (the Valuation Opinion).
- 12.6 Value attributed. Having been previously informed of their nomination as valuers, *ad referendum* the stockholders of the Companies, the Expert Accountants determined, based on the balance sheet of October 31, 2018, that the book value of the Absorbed Company is R\$441,943,481.62 (four hundred forty one million nine hundred forty three thousand, four hundred eighty one Reais sixty two centavos). After the adjustments described in Chapter 6 of the Valuation Opinion, there will be elimination of the investment of the Absorbing Company in the Absorbed Company.
- 12.7 Changes in Equity. The balances of the debtor and creditor accounts of Lepsa will be passed to the books of account of Cemig, with the necessary adaptations being made. Considering that the Base Date of the Transaction does not coincide with the date of the corporate events to approve this present instrument, variations in the equity of Lepsa that take place between the Base Date and the date of actual realization of the Absorption shall be assumed and supported exclusively by the Absorbing Company, but any tax adjustments taking place in this interval of time shall be assumed by RME, in accordance with the legislation in effect.

CLAUSE 13

EXTINCTION OF THE ABSORBED COMPANY

- 13.1 Extinction of the Absorbed Company. With the Absorption taking place, Lepsa will be extinguished for all purposes of law, without the need for the procedure of liquidation.

CLAUSE 14

SUCCESSION OF THE ABSORBED COMPANY

14.1 Succession in Goods, Rights and Obligations. Cemig shall succeed Lepsa, in entirety, and without any interruption of continuity, in all its goods, rights, claims, options, powers, immunities, shares, exceptions, duties, obligations, subjections, and liens or charges, and responsibilities/liabilities in the name of the Absorbed Company shall be absorbed by Cemig.

14.2 Registration and amendment of records in relation to Succession. In accordance with Article 234 of the Corporate Law, the certificate of the Absorption issued by the Public Registry of Mercantile Companies shall be the validating document for the registry of alteration of the record, in the competent public and private registries, of the universal succession by Cemig of all the goods, rights, claims, options, powers, immunities, actions, exceptions, duties, obligations, subjections, liens/charges and responsibilities/liabilities that are included in or related to the absorption of Lepsa by Cemig.

- 1.1. A Share Purchase Agreement (the Agreement) was signed on today s date governing acquisition by **Cemig GT** and **Light Energia S.A.** (**Light Energia**) of up to 7,282,036 shares in Renova, of which 6,637,878 are common shares and 644,158 are preferred shares, all nominal and without par value, and all owned by **CG I Fundo de Investimento em Participações** (**CG I**) and certain related parties of CG I (the Share Acquisition). The shares to be acquired from CGI include the shares currently bound by the Stockholders Agreement of Renova, signed on December 19, 2014 (the Stockholders Agreement).
- 1.2. Under the Agreement, the shares owned by CGI will be acquired in the proportion of 67.85% by **Cemig GT** and 32.15% by **Light Energia**, and, in consideration, CG I will receive securities issued by Light Energia and securities issued by Cemig GT (as described below), subject to the proportion stated above, and corresponding to the nominal value of R\$ 14.68 per share in Renova, both common and preferred (the Exchange Ratio). The Exchange Ratio will be subject to adjustments arising, among other factors, from (i) the costs incurred for regularization of landholdings of Renova; and (ii) existence of certain contingencies up to the date of closing of the transaction (the Closing).
- 1.3. The Agreement also provides that certain common shares owned by CGI shall be converted into preferred shares, enabling Cemig GT to form Units in Renova in the terms specified in Article 54 of the by-laws of Renova. After the Closing, these transactions will result in Cemig GT being the owner of 50% or less of the common shares in Renova. Under the Agreement, Cemig GT and Light Energia must notify BNDES

Participações S.A. (BNDESPar) for it to state its position on exercise (or not) of its (tag-along) right to joint sale, as specified in the stockholders agreement signed on November 6, 2012.

- 1.4. The Closing of the Acquisition of Shares is subject to compliance with the conditions that are usual in this type of transaction, and to completion of the acts of financial restructuring of Renova.
- 1.5. Also, the Board of Directors of Cemig GT have approved, subject to the Closing of the Acquisition of Shares, a Public Offer to Acquire Shares in Renova, to be made by Cemig GT and Light Energia, on a date to be announced, in which the stockholders of Renova will be offered equal treatment to that being offered to CG I (the Public Offer to Acquire Shares).

Lower equity method loss in non-consolidated investees this year, due to a less negative result from Renova Energia, and a higher gain than last year arising from Belo Monte.

A loss on restatement of prior equity holding in the subsidiaries acquired of R\$ 198,810 results from the remeasurement of the fair value of Light and Lightger. After the disposal of the shares of RME by the other shareholders, Cemig now holds a direct and indirect interest of 49.99% of Light and now has control of the same. Considering that the Company had sole control with Light, in the investees Lightger, Axxiom, Amazônia Energia, Guanhões Energia and Itaocara, these investees also began to be controlled, and this re-evaluation was necessary. On November 30, 2018, the Company classifies its investment in Light, Lightger, Axxiom, Amazônia Energia, Guanhões Energia and Itaocara as assets held for sale and results of discontinued operations.

Table of Contents

Trading of electricity to other agents in the electricity sector in the Free Market in 4Q18 totaled 2,482,617 MWh, 17.13% less than in 4Q17. In 2017 Cemig GT's sales to electricity traders, including short-term contracts, had been higher. Sales and trading transactions in electricity with other agents of the electricity sector in the Free Market often result from taking previously-created selling opportunities, which lead to short-term sales contracts.

Sales in the Regulated Market in 4Q18, including sales to Cemig D, totaled 620,663 MWh, which was 0.15% less than in 1Q16. This was due to:

Supply quality indicators DEC and FEC

Cemig is continuously taking action to improve operational management, organization of the logistics of its emergency services, and its permanent routine of preventive inspection and maintenance of substations and distribution lines and networks. It also invests in training of its staff for improved qualifications, state-of-the-art technologies, and standardization of work processes, aiming to maintain the quality of electricity supply, and as a result maintain satisfaction of clients and consumers.

The charts below show Cemig's indicators for duration and frequency of outages DEC (Average Interruption Duration, in hours), and FEC (Average Interruption Frequency, in number of outages), since January 2016.

Consolidated operational revenue

Revenue from supply of electricity

Total revenue from supply of electricity in 4Q18 was R\$ 6,708,348, or 6.25% higher than in 4Q17 (R\$ 6,313,607).

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 2Q18 was R\$ 5,973,290, or 12.58% more than in 4Q17 (R\$ 5,305,759). The main factors in this revenue were:

The Annual Tariff Adjustment for Cemig D effective May 28, 2018, with an average upward effect of 23.19% on consumer tariffs.

Higher revenues under the Flag Tariffs : R\$ 279,989 in 4Q18, vs. R\$ 195,716 in 4Q17. This reflects the low level of reservoirs, activating the Yellow Flag and Red Flag additional tariff rates, leading to higher revenue in 2018.

Volume of electricity sold to final consumers was 2.80% higher year-on-year.

Revenue from Use of Distribution Systems (the TUSD charge)

This is revenue from charging Free Consumers the Tariff for Use of the Distribution System (*Tarifa de Uso do Sistema de Distribuição*, or TUSD), for transport of electricity sold. In 4Q18 this revenue was R\$ 624,641, or 64.39% higher than in 4Q17 (R\$ 379,970), with the following factors:

Upward adjustment of approximately 36% in the TUSD, in Cemig D's 2018 annual tariff adjustment, effective from May 28, 2018.

Growth in use of the network (MWh) and in billed demand (MW).

Increase in the number of facilities being billed for the charge for use of the distribution system.

CVA and Other financial components in tariff adjustment

In its interim accounting information Cemig recognizes the difference between actual non-controllable costs (in which the contribution to the CDE – the Energy Development Account – and electricity bought for resale are significant components) and the costs that were used in calculating rates charged to consumers. In 4Q18 the amount for reimbursement in the subsequent tariff was R\$ 189,274 – this is 77.47% below the amount subject to reimbursement in

4Q17, of R\$ 840,044.

Payments from the Flag Tariff Centralizing Account

The Flag Account (*Conta Centralizadora de Recursos de Bandeiras Tarifárias* CCRBT, or *Conta Bandeira*) manages the funds that are collected from captive customers of distribution concession and permission holders operating in the national grid, and are paid, on behalf of the CDE, directly to the Flag Account. The resulting funds are passed through by the Wholesale Trading Chamber (CCEE) to distribution agents, based on the differences between (i) realized costs of thermal generation and exposure to short-term market prices, and (ii) the amounts covered by the tariff.

Revenue from reimbursements Transmission assets

In 4Q18 this revenue was R\$ 42,211, a reduction of 45.51% compared to 4Q17 (R\$ 77,468). The indemnity to be received, updated to December 31, 2018, in the amount of R\$ 1,296,314 (R\$ 1,928,038 on December 31, 2017), corresponds to the following credits:

Revenue from transactions on the Wholesale Trading Exchange (CCEE)

Revenue from transactions in electricity on the CCEE in 4Q18 was R\$ 28,095, compared to R\$ 323,601 in 4Q17 a year-on-year reduction of 91.32%. The lower revenue from this source reflects the lower quantity of energy available for settlement in the wholesale market in 4Q18, and the average Spot Price (PLD Southeastern Region) being 60.24% lower (R\$ 158.8824/MWh in 4Q18, vs. R\$ 398.3902/MWh in 4Q17).

Table of Contents**Revenue from supply of gas**

Revenue from supply of gas in 4Q18 was 19.85% higher YoY, at R\$ 542,979, compared to R\$ 453,056 in 4Q17. This basically reflects increases in tariffs, taking into account the reduction in volume of gas sold to the thermal electricity generating plants, since in this period they were not dispatched by the National Electricity System Operator (ONS).

Gasmig's continuation of its more assertive sales policy as from 2017 helped to keep the global volume of gas sold to the non-thermoelectric segment of the market practically stable, mitigating the effects of that retraction.

The total of these taxes and charges reported as deductions from revenue in 4Q18 was R\$ 3,494,662 or 22.93% more than in 4Q17 (R\$ 2,842,711). Significant variations:

Consumer charges the Flag Tariff system

The Flag Tariff bands are activated as a result of low levels of water in the system's reservoirs tariffs are temporarily increased due to scarcity of rain. The Red band has two levels Level 1 and Level 2. Level 2 comes into effect when scarcity is more intense. Activation of the flag tariffs generates an impact on billing in the subsequent month.

Consumer charges under the Flag Tariff band system were 43.06% higher, totaling R\$ 279,989, in 4Q18, than in 4Q17 (R\$ 195,716).

The following paragraphs comment on the main variations:

Personnel

The expense on personnel in 4Q18 was R\$ 422,110, or 20.14% more than in 4Q17 (R\$ 351,359). The higher expense reflects the accounting of R\$ 65,596 with the 2019 PDVP, the increased number of employees hired in the most recent public competition (282 hirings in 4Q18), and the salary adjustment of 4.00% as from November 2018, under the Collective Work Agreement.

2019 Programmed Voluntary Retirement Plan (PDVP)

In December 2018 the Company approved the 2019 Programmed Voluntary Retirement Plan (the 2019 PDVP). Those eligible to take part were any employees who had worked with the Company for 25 years or more by December 31, 2018. The acceptance period was from January 7 to 31, 2019. The plan will pay the standard legal severance payments including: payment for the period of notice, deposit of an amount equal to the penalty payment of 40% of the Base Value of the employee's FGTS fund, as well as the other payments specified by the legislation, with no provision for any additional premium.

An amount of R\$ 65,596 was appropriated as expense on the 2019 PDVP, including severance payments, corresponding to acceptance by 559 employees during 2018.

In March 2019, the Company approved the reopening of the voluntary termination program (PDVP 2019), with an adhesion period from April 1 to 10, 2019, with changes in the requirements for membership, maintaining the same financial conditions.

Electricity purchased for resale

The expense on electricity bought for resale in 4Q18 was R\$ 2,508,133, or 22.45% less than in 4Q17 (R\$ 2,234,084). This reflects the lower expense on power supply acquired by auction in the Regulated Environment 41.80% lower in 4Q18, at R\$ 787,752, compared to R\$ 1,353,632 in 4Q17.

Due to the low level of the water reservoirs of the hydroelectric plants in the system, the number of thermoelectric plants dispatched was larger in 4Q17 with a consequent higher expense on fuel.

Operating provisions

Operational provisions were 78.08% lower year-on-year in the quarter at R\$ 64,650 in 4Q18, compared to R\$ 294,875 in 4Q17. The main factors are:

In 2017 there was an increase in provisions for employment-law legal actions relative to the prior year due to re-evaluations of potential losses in various legal actions as a result of change in the procedural phase of provisional execution, and case law. This affects actions disputing: the basis for calculation of hazardous work remuneration; claims for equal payment for allegedly unlawful outsourcing; and subsidiary/joint liability. In 2018, new case law of the Federal Supreme Court (STF) on the lawfulness of outsourcing of any activities, whether for means or for end-use, led to re-evaluation of the potential loss on several actions on this subject, with consequent reduction of the amounts previously provisioned.

Reduction of the fair value of the Parati/RME and SAAG investment options. The exercise price of the option was calculated from the sum of the value of the amounts injected by the fund into the investee, plus the running expenses of the fund, less Interest on Equity, and dividends, distributed by RME and Lepsa. The exercise price is subject to monetary updating by the CDI (Interbank CD) rate plus financial remuneration at 0.9% per year. The mechanism for exercise of the options was divided into two stages, as follows: The first was exercised on November 30, 2017, when Cemig acquired the totality of the shares in Lepsa, and the totality of the preferred shares in RME, held by BB-BI, BV Financeira and Santander, which corresponded to fair value of R\$ 185,358, comprising R\$ 147,163 in Lepsa and R\$ 38,195 in RME. On November 30, 2018 the second stage of the options was exercised, in which Cemig acquired the totality of the common shares in RME held by BB-Banco de Investimento S.A., BV Financeira S.A., Crédito, Financiamento e Investimento and Banco Santander (Brasil) S.A., for R\$ 659,378, and settled all commitments to these stockholders in relation to the Put Option. With this acquisition Cemig became holder of 100% of the share capital of RME.

The changes in the value of the options in 2018 and 2017 were as follows:

R\$ 000	Consolidated
Balance at Dec. 31, 2016	1,149,881
Variation in fair value	187,568
Exercise of put option 1st stage	(830,217)
Balance at Dec. 31, 2017	507,232
Change in fair value	152,146
Exercise of put option 2nd stage	(659,378)
Balance at Monday, December 31, 2018	

The effects of the options contract on the profit for 2017 and 2018 were recognized at fair value based on the Black-Scholes-Merton analysis. The following variables were taken into account: exercise price of the option; closing price of the stock of Light on the record dates (as a reference for the value of the indirect equity interest held by the direct stockholders of RME and Lepsa in Light); the risk-free interest rate; volatility of the price of the underlying asset; and the time to maturity of the option.

Default Moving average

In 2018 two marked features of the economy were: instability in the financial market, combined with continuation of the slow process of recovery in economic activity.

GDP growth in 2018 was an improvement on 2017, but the initial higher growth in the year was contained after the acute adverse supply shock caused by the truck drivers' strike in May.

The business confidence index, and consumer expectations, are both improving, and although unemployment is still high it diminished by two percentage points in relation to 2017.

To combat a record level of default, in 2018 Cemig redoubled efforts to collect overdue customer bills. This effort used an additional budget approved for this year in an attempt to recover the previous losses of revenue. Some results have already been achieved. Since December 2016 there has been no significant increase in Cemig's default percentages, showing that this situation is being held under control. In the residential consumer category – the largest segment of the captive market – default in 2018 was 7.6% lower than in 2017, and 11.6% lower than in 2016. In view of this, we expect to see a more consistent fall in the total financial volume of default from now on.

Cemig uses various tools of communication and collection to prevent increase in default. These include contact by telephone and email, collection requests by text and by letter, negative posting on credit registers, collection through the courts and, principally, disconnection of supply. Aneel Resolution 414 allows supply to be cut off after 15 days from receipt of a notice by a defaulting consumer.

Table of Contents

In 2018 the Company carried out a robust program of consumer disconnections, and thanks to an additional budget approved by the Executive Board to combat default it was possible to disconnect more than 1,340,000 consumer units, across all the consumer categories. This was the largest-ever number of consumer disconnections ever carried out by the Company in a single year.

As well as these various collection tools, in 2018 Cemig launched a campaign offering special conditions for negotiation and re-negotiation for low-voltage consumers, hospitals and public authorities.

With the more intense application of the tools for collection, and actual disconnection of past due consumers, the Company is even more confident that default indices will be reduced in the coming years.

Moving Average Delinquency

Gas bought for resale

In 4Q18 the Company's expense on acquisition of gas was R\$ 340,182, 21, which was 21.16% more than its comparable expense of R\$ 280,762 in 4Q17. This higher expense mainly reflects increases in the prices of gas purchased, reflecting the lower quantity of gas bought for resale, principally to the thermal electricity generation market (242,953 m³ in 4Q8, vs. 330,341 m³ in 4Q17). The price of gas suffered a significant effect from exchange rate variation in 2018.

Share of profit (loss) in associates and joint ventures

In 4Q18 Cemig posted a net loss by the equity method in unconsolidated investees of R\$ 27,563, which compares with a net loss of R\$ 231,560 in 4Q17. This lower negative figure mainly reflecting a lower equity method gain in Renova (loss of R\$ 106,100 in 4Q18, vs. R\$ 340,201 in 4Q17).

Financial revenue and expenses

Cemig reported net financial revenue in 4Q18 of R\$ 668,848, which compares with net financial expenses of R\$ 274,665 in 4Q17. The main factors are:

Revenue from late charges on client electricity bills were 36.67% higher year-on-year, at R\$ 92,373 in 4Q18, compared to R\$ 67,588 in 4Q17. A major component in this came from renegotiation of amounts owed on electricity bills by entities of the Minas Gerais State administration with recognition of monetary updating.

In 4Q18 there was also a gain, of R\$ 570,454, on the hedge transaction related to the Eurobond issue. In this quarter the adjustment to fair value resulted in a positive effect, due to a lower variation in the future curve for the DI (Interbank Deposit) rate than in the future curve for the US dollar exchange rate. This gain should be seen together with the expense on foreign exchange variation arising from the Eurobond.

Recognition in 2018 of a gain of R\$ 56,320 relating to charges for credits owed by related parties. Of this total, R\$ 38,943 arose from the Debt Recognition Agreement (TARD) with Renova.

See more details in this Material Announcement:

http://cemig.foinvest.com.br/enu/17248/Fato%20Relevante_Cemig_CemigGT_Renova_ing.pdf

There was a foreign exchange variation gain of R\$ 199,104, in 4Q18, relating to the Eurobond issue (denominated in US dollars). That issue was placed in two parts: US\$1 billion (R\$ 3.2 billion) in 2017, and US\$500 million (R\$ 1.9 billion) in July 2018).

Revenue from financial updating in the arbitration proceedings between Cemig GT and Energimp, comprising a gain of R\$ 76,896:

- o Energimp's debt to the Company arose from non-compliance with the deadline for start of operation of the three wind farms in February 2009. This delay gave rise to an adjustment to the original acquisition price, with the related financial updating and indemnities, through an Arbitration Proceeding held in the Market Arbitration Chamber, in which judgment was given on May 30, 2017. On December 20, 2018, upon compliance with the suspensive conditions specified in the related Transaction Agreement, elimination of crossover stockholdings was completed, with Cemig GT acquiring the 51% equity interest held by Energimp in the companies Parajuru and Volta do Rio, which thus became wholly-owned subsidiaries of Cemig GT. At the same time, Energimp became owner of 100% of the share capital of Morgado, having acquired Cemig GT's 49% equity interest in that company.

Monetary updating of the balances of CVA: a financial gain of R\$ 26,843 in 4Q18. The positive and negative balances of CVA are updated by the Selic rate. This variation arises from there being an asset balance of CVA in 4Q18, leading to posting of a financial gain for updating the balance.

Table of Contents**Ebitda**

Cemig's consolidated Ebitda in 4Q18 was 36.29% lower than in 4Q17. This mainly reflects the reversal of R\$ 619,297 in expenses on post-employment obligations, recorded on December, 31, 2017, arising from the changes in the life insurance policy. Ebitda margin in 4Q18 was 18.07%, compared to 23.67% in 4Q17.

Table of Contents**DEBT**

The Company's total consolidated debt at December 31, 2018 was R\$ 14,771,828. This is 2.60% higher than at December 31, 2017. In July 2018 Cemig raised US\$500 million (R\$ 1.9 billion) outside Brazil, through Cemig GT, in the second tranche (retap) of Cemig GT's Eurobond issue, initially placed in December 2017 with maturity in 2024 and six-monthly coupon of 9.25% p.a. The Company contracted a hedge structure comprising: a Call Spread on the principal, in which Cemig GT was hedged in the interval between R\$ 3.85/US\$ and R\$ 5.00/US\$; and a swap for 100% of the interest, in which the 9.25% p.a. coupon was replaced by a rate equivalent to 125.52% of the CDI rate – a significant improvement in relation to the hedge transaction on the original issue, in which the rate was equivalent to 150% of the CDI rate. The proceeds were allocated to payment of debts with shorter maturities and higher average cost, resulting in lengthening of the debt profile and reduction of the Cemig GT's financial expenses.
