PROPOSAL NUMBER 2: APPROVAL OF AMENDMENT TO THE 2000 STOCK OPTION PLAN

The 2000 Stock Option Plan was approved by the stockholders of the Corporation on September 12, 2000 and currently provides for the granting of stock options to purchase up to a maximum of 3,800,000 shares of Common Stock (subject to adjustment in the event of certain capital changes). A copy of the amendment to the Plan, as proposed, is attached hereto as Exhibit A.

The Board has approved an amendment to the Plan, subject to the stockholders' approval, to increase the number of shares covered by, and reserved for issuance under, the Plan from 3,800,000 shares to 6,000,000 shares, to enable the Corporation to make grants under the Plan, principally to its current and future employees.

Stockholders are being asked to approve the proposed amendment at this meeting. If the stockholders approve such amendment, there will be a balance of 2,214,852 shares available for grant under the Plan. Of those, 320,000 shares will be used for the 2008 annual grant to directors.

The following is a summary of the terms of the 2000 Stock Option Plan as currently in effect.

Purpose. The purpose of the Plan is to provide a means through which the Corporation and its affiliates may attract able persons to enter and remain in the employ of the Corporation and affiliates and to provide a means whereby employees, directors and consultants of the Corporation and its affiliates can acquire and maintain the Corporation's Common Stock, thereby strengthening their commitment to the welfare of the Corporation and its affiliates and promoting an identity of interest between stockholders and these directors, employees and consultants.

Administration. The Plan is administered by the Compensation Committee of the Board.

Eligible Participants. Any employee, director or consultant of the Corporation or an affiliate of the Corporation is eligible to participate in the Plan. However, the Corporation does not presently allow holders of warrants of the Corporation to participate in the Plan. The Compensation Committee has the sole and complete authority to determine the participants in the Plan (a "Participant" or the "Participants"). The Plan currently has approximately 27 participants, of which 8 are employees, 8 are directors and 12 are consultants.

Shares of the Corporation's Common Stock Authorized Under the Plan. The Plan authorizes the grant of stock options to Participants with respect to a maximum of 3,800,000 shares of Common Stock, which awards may be made in the form of (a) non-qualified stock options and (b) stock options intended to qualify as incentive stock options ("ISOs") under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). In any calendar year, a Participant may not receive stock options in a manner that will cause the stock options granted under the Plan to fail to qualify as "performance-based compensation" for purposes of Section 162(m) of the Code.

To the extent that the aggregate fair market value (determined as of the date of grant) of stock for which incentive stock options are exercisable for the first time by any Participant during any calendar year (under all plans of the Corporation) exceeds \$100,000, such excess incentive stock options shall be treated as non-qualified stock options. If any award granted under the Plan is forfeited, or if an award has expired, terminated or been canceled for any reason whatsoever (other than by reason of exercise or vesting), then the shares of Common Stock covered by such award may be granted to another Participant pursuant to the terms of the Plan, to the maximum extent permitted under Section 162(m) of the Code.

Effective Date and Duration of the Plan. The effective date of the Plan is March 28, 2000. The Plan was amended on May 9, 2005 to increase the available shares under the Plan from 800,000 to 1,300,000 and again amended on May 9, 2006 to increase the available shares under the Plan from 1,300,000 to 3,800,000. The term during which awards may be granted under the Plan expires on March 28, 2010.

Exercise Price. The exercise price per share of Common Stock for each stock option is set by the Compensation Committee at the time of grant, but in no case shall be less than (i) in the case of an ISO, the fair market value per share of Common Stock on the date of the grant and (ii) in the case of a non-qualified stock option, the par value of a share of Common Stock; provided, however, that all stock options granted which are intended to qualify as "performance-based compensation" under Section 162(m) of the Code shall have a stock option price per share of Common Stock no less than the fair market value of a share of Common Stock on the date of the grant.

Manner of Exercise and Form of Payment. No shares of Common Stock may be delivered pursuant to any exercise of an option until payment in full of the aggregate exercise price therefor is received by the Corporation. Stock options which have become exercisable may be exercised by delivery of written notice of exercise to the Compensation Committee accompanied by payment of the stock option price. The stock option price shall be payable in cash and, if the Compensation Committee so permits, partially or completely in shares of Common Stock valued at the fair market value at the time of exercise; provided, however, that such shares are not subject to any pledge or other security interest and have either been held by the Participant for six months, previously acquired by the Participant on the open market or meet such other requirements as the Compensation Committee may determine necessary in order to avoid an accounting earnings charge in respect of the stock option or, in the discretion of the Compensation Committee, shall be payable either (i) in other property having a fair market value on the date of exercise equal to the stock option price, or (ii) by such other method as may be permitted by the Compensation Committee.

Vesting, Stock Option Period and Expiration. Stock options vest and become exercisable in such manner and on such date or dates determined by the Compensation Committee and expire after such period, not to exceed ten years, as may be determined by the Compensation Committee, all as set forth in an applicable stock option agreement; provided, that the Compensation Committee has the authority to accelerate the exercisability of any outstanding option at such time and under such circumstances as it, in its sole discretion, deems appropriate. If a stock option is exercisable in installments, such installments or portions thereof which become exercisable shall remain exercisable until expiration of the stock option. If an ISO is granted to a Participant who owns stock representing more than ten percent of the voting power of all classes of stock of the Corporation, the stock option period may not exceed five years from the date of grant of such option and the stock option price shall be at least 110 percent of the fair market value (on the date of grant) of the stock subject to the stock option.

Change of Control or Reorganization. Except to the extent reflected in a particular stock option agreement:

(a) In the event of a Change in Control (as defined in the Plan), all stock options, notwithstanding any vesting schedule, shall become immediately exercisable with respect to all shares subject to such stock option. In addition, the Compensation Committee, in the event of a Change in Control, may in its discretion and upon at least 10 days' advance notice to the affected persons, cancel any outstanding stock options and pay to the holders thereof, in cash or stock, or any combination thereof, the value of such stock options based upon the price per share of Common Stock received or to be received by other stockholders of the Corporation in the event.

(b) The obligations of the Corporation under the Plan are binding upon any successor corporation or organization resulting from a merger, consolidation or other reorganization of the Corporation, or upon any successor corporation or organization succeeding to substantially all of the assets and business of the Corporation.

Transferability. Each award, and each right under any award, is exercisable only by the Participant during the Participant's lifetime, or, if permissible under applicable law, by the Participant's guardian or legal representative. No award may be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a Participant other than by will or by the laws of descent and distribution and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance shall be void and unenforceable against the Corporation or any of its affiliates; provided, that the designation of a beneficiary will not constitute an assignment, alienation, pledge, attachment, sale, transfer or encumbrance. The Plan provides for limited exceptions to the non-transferability of awards (and the rights attached thereto) received under the Plan.

Amendment. The Board may amend, alter, suspend, discontinue, or terminate the Plan or any portion thereof at any time; provided, that no such amendment, alteration, suspension, discontinuation or termination shall be made without approval of the stockholders if such approval is necessary to comply with any tax or regulatory requirement applicable to the Plan (including as necessary to prevent the stock options granted under the Plan from failing to qualify as "performance-based compensation" for purposes of Section 162(m) of the Code); and provided, further that any such amendment, alteration, suspension, discontinuance or termination that would impair the rights of any Participant or any holder or beneficiary of any stock option theretofore granted shall not to that extent be effective without the consent of the affected Participant, holder or beneficiary.

Federal Income Tax Consequences Relating to the Plan. The following summary of the federal income tax consequences of the grant and exercise of stock options, both ISOs and non-qualified stock options, awarded under the Plan, and the disposition of Common Stock purchased pursuant to the exercise of such stock options, is intended to reflect the current provisions of the Code and the regulations thereunder. The summary is not intended to be a complete statement of applicable laws, it does not address state and local tax considerations nor does it address the tax consequences of options granted to individual tax payers located outside the U.S. and is not intended as tax advice to any person. Moreover the U.S. Federal income tax consequences to any particular individual may differ from those described herein by reason of the particular circumstances of such individual.

No income is realized by an optionee upon grant of a non-qualified stock option. Upon exercise of a non-qualified stock option, the optionee recognizes ordinary compensation income in an amount equal to the excess, if any, of the fair market value of the underlying stock over the option exercise price (the "Spread") at the time of exercise. The Spread is deductible by the Corporation for federal income tax purposes subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code of compensation paid to executives designated in those Sections. The optionee's tax basis in the underlying shares acquired by exercise of a non-qualified stock option equals the exercise price plus the amount taxable as compensation to the optionee. Upon sale of the shares received by the optionee upon exercise of the non-qualified stock option, any gain or loss is generally long-term or short-term capital gain or loss, depending on the holding period. The optionee's holding period for shares acquired pursuant to the exercise of a non-qualified stock option will begin on the date of exercise of such option.

The Code requires that, for ISO treatment, shares acquired through exercise of an ISO cannot be disposed of before two years from the date of grant of the option and one year from the date of exercise. ISO holders generally incur no federal income tax liability at the time of grant or upon exercise of such options. However, the Spread at exercise will be an "item of tax preference" which may give rise to "alternative minimum tax" liability for the taxable year in which the exercise occurs at the time of exercise. If the optionee does not dispose of the shares before two years following the date of grant and one year following the date of exercise, the difference between the exercise price and the amount realized upon disposition of the shares will constitute long-term capital gain or loss, as the case may be. Assuming both holding periods are satisfied, no deduction is permitted to be taken by the Corporation for federal income tax purposes in connection with the grant or exercise of the option. If, within two years following the date of grant or within one year following the date of exercise, the holder of shares acquired through the exercise of an ISO disposes of such shares, the optionee will generally realize ordinary taxable compensation at the time of such disposition equal to the difference between the exercise price and the lesser of the fair market value of the stock on the date of initial exercise or the amount realized on the subsequent disposition, and such amount is generally deductible by the Corporation for federal income tax purposes, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections.

The payment by an optionee of the exercise price, in full or in part, with previously acquired shares will not affect the tax treatment of the exercise described above. No gain or loss generally will be recognized by the optionee upon the surrender of the previously acquired shares of the Corporation, and shares received by the optionee, equal in number to the previously surrendered shares, have the same tax basis as the shares surrendered to the Corporation and have a holding period that includes the holding period of the shares surrendered. The value of shares received by the optionee in excess of the number of shares surrendered to the Corporation is taxable to the optionee. Such additional shares have a tax basis equal to the fair market value of such additional shares as of the date ordinary income is recognized and have a holding period that begins on the date ordinary income is recognized.

In general, Section 162(m) of the Code denies a publicly held corporation a deduction for federal income tax purposes for compensation in excess of \$1,000,000 per year per person to its chief executive officer and the four other officers whose compensation is disclosed in its proxy statement, subject to certain exceptions. Options will generally qualify under one of these exceptions if they are granted under a plan that states the maximum number of shares with respect to which options may be granted to any employee during a specified period, the exercise price is not less than the fair market value of the common stock at the time of grant and the plan under which the options are granted is approved by stockholders and is administered by a compensation committee comprised of outside directors. The Plan is intended to satisfy these requirements with respect to grants of options to covered employees.

Pursuant to currently applicable rules under Section 16(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the grant of an option (and not its exercise) to a person who is subject to the reporting and short-swing profit provisions under Section 16 of the Exchange Act (a "Section 16 Person") begins the six-month period of potential short-swing liability. The taxable event for the exercise of an option that has been outstanding at least six months ordinarily will be the date of exercise. Under current rules promulgated under Section 16(b), the six-month period of potential short-swing liability may be eliminated if the option grant (i) is approved in advance by the Board (or a committee composed solely of two or more non-employee directors) or (ii) approved in advance, or subsequently ratified, by the Corporation's stockholders no later than the next annual meeting of stockholders. If the grant satisfies either of the conditions described in clause (i) or (ii) above, the taxable event will ordinarily be the date of exercise. However, if an option is exercised by a Section 16 Person within six months after the date of grant and neither of the conditions described in clause (i) or (ii) above are satisfied, taxation will be deferred until the date which is six months after the date of grant, unless the person has filed a timely election pursuant to section 83(b) of the Code to be taxed on the date of exercise.

Approval of an amendment to the Plan will require the affirmative vote of a majority of the voting shares held by stockholders present in person or represented by proxy at the meeting and entitled to vote thereon.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" APPROVAL OF THE AMENDMENT TO THE PLAN TO INCREASE THE NUMBER OF AVAILABLE SHARES FROM 3,800,000 TO 6,000,000.

Board and Committee Meetings

During 2007, the Board met six times. Each director attended at least 75% of the meetings of the Board. The Audit Committee met five times during 2007, with all members in attendance at three meetings and two members in attendance at two meetings. The Compensation Committee met three times during 2007 with all members in attendance.

It is the Corporation’s policy that directors are invited and encouraged to attend the Annual Meeting of Stockholders. At the time of the 2007 Annual Meeting of Stockholders, the Corporation had nine directors, all of whom attended the meeting.

Committees

The Board currently maintains an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act, and a Compensation Committee. The Corporation does not have a Nominating Committee.

Nominating Process

The Board does not consider it necessary to have a Nominating Committee or written charter since the size of the Board enables all directors to participate in the nominating process and to address the need to attract and retain qualified directors and to fill any vacancies in the Board. Qualifications for consideration as a board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board

composition. However, the Board, in making its nominations, considers, among other things, an individual's business experience, industry experience, breadth of knowledge about issues affecting the Corporation, time available for meetings and consultation regarding company matters and other particular skills and experience possessed by the individual. The Board recommended all of the current nominees for Class II directors.

The Board consists of nine directors. The Board has determined that William J. Gedale, Cornelius E. Golding, Austin M. Long, III, Craig J. Nickels, Jeffrey B. Reich, M.D. and Elliott H. Singer are independent directors. Although the Corporation is not listed on any exchange or automated quotation system, in making this independence determination, the Board considered the independence standards for directors set forth in the American Stock Exchange Company Guide for its listed companies (the "AMEX Rules").

The Board does not have a formal policy that requires it to consider any director candidates that might be recommended by stockholders. The need for such a policy has not arisen since, to date, the Corporation has not received any recommendations from stockholders requesting that the Board of Directors consider a candidate for inclusion among the Board's slate of nominees in the Corporation's proxy statement. The absence of a formal policy does not mean, however, that a recommendation would not have been considered had one been received. The Corporation will consider director candidates recommended by stockholders. Any stockholder desiring to make such a recommendation should send the recommendation, in writing, to the Corporate Secretary at the address of the Corporation set forth on the first page of this Proxy Statement, by no later than the date by which stockholder proposals for action must be submitted. The recommendation should include the recommended candidate's biographical data, and should be accompanied by the candidate's written consent to nomination and to serving as a director, if elected.

Compensation Committee

The Compensation Committee consists of Messrs. Singer (Chair), Long and Nickels. Messrs. Singer, Long and Nickels were determined by the Board to be independent directors. The principal responsibilities of the Compensation Committee are to evaluate the performance of executive officers, establish policies and determine matters involving executive compensation, recommend changes in employee benefit programs, approve the grant of stock options and stock awards under the Corporation's stock plans and provide assistance to management regarding key personnel selection. In order to determine the elements and levels of the Corporation's executive compensation and to gain an understanding of any trends impacting compensation generally, the Compensation Committee from time to time gathers information on executive compensation, including salaries, stock options, bonuses and other benefits, from similarly situated biotechnology companies. The Compensation Committee weighs this information and reviews the Corporation's overall performance and makes recommendations regarding compensation to the full Board. To date, no compensation consultant has been engaged to assist the Compensation Committee or the Board in connection with establishing executive compensation. The Board adopted a written charter of the Compensation Committee on February 23, 2007, a copy of which is available on the Corporation's website www.neurologix.net under the heading "Investors/Corporate Governance/Compensation Committee Charter."

Audit Committee

The members of the Audit Committee in 2007 were Messrs. Long (Chair), Golding and Nickels. Each of Messrs. Long, Golding and Nickels have been determined by the Board to be independent. In making this decision, the Board considered Rule 10A-3 of the Exchange Act, and the AMEX Rules. The Board has determined that Messrs. Long and Golding are "financial experts", as that term is defined under Item 407(d)(5) of Regulation S-B under the Exchange Act. The Board adopted a written charter of the Audit Committee on March 23, 2004 which is reviewed annually and pursuant thereto was restated on March 25, 2005 and was amended, in minor respects, on February 23, 2007. A copy of the charter is available on the Corporation's website www.neurologix.net under the heading "Investors/Corporate Governance/Audit Committee Charter."

The Audit Committee is responsible for the appointment, compensation and oversight of the work of the Corporation's independent registered public accounting firm and, in this regard, it meets periodically with the independent registered public accounting firm to review plans for the audit and the audit results, reviews financial statements, accounting policies, tax and other matters for compliance with the requirements of the Financial Accounting Standards Board and government regulatory agencies.

Directors' Compensation

The Board has a policy of paying quarterly fixed retainers of \$1,500, to each director who is not also an employee of the Corporation plus an additional quarterly retainer of \$1,000 for directors who serve on the Audit Committee and for the Chair of the Compensation Committee. The Board's director compensation policy also provides for annual stock option grants of 30,000 shares with an additional 20,000 shares to directors who serve on the Audit Committee and for the Chair of the Compensation Committee. Annual stock option grants for 2008 will be made to directors immediately following the annual meeting.

The employment agreement provides that Mr. Mordock shall be employed by the Corporation for a period of two years, shall initially receive an annual base salary of at least \$250,000 and shall be eligible to receive an annual bonus in the discretion of the Board. During the period of his employment, Mr. Mordock will be reimbursed for reasonable temporary housing and automobile expenses related to his employment. If Mr. Mordock's employment is terminated by the Corporation without "Cause" or by Mr. Mordock for "Good Reason" (including a "Change in Control"), as those terms are defined in his employment agreement, he shall be entitled to a cash payment equal to the lesser of (i) one year of base salary or (ii) the base salary payable for the remaining term of the employment agreement. In addition, all of his options shall immediately vest and be exercisable for up to one year following the date of any such termination. Dr. Sapan's base annual salary was \$225,000 and she is eligible to receive a discretionary annual bonus, with a target bonus of 40% of her annual base salary. During the first six months of her employment, Dr. Sapan was reimbursed for temporary housing and automobile expenses. If Dr. Sapan's employment is terminated by the Corporation without "Cause" (as defined in her letter agreement), or by Dr. Sapan as a result of a demotion of her position or diminution in her duties or a "Change of Control" (as defined in the 2000 Stock Option Plan), she will be entitled to receive a payment of twelve months' base salary. Deductibility of Compensation

Section 162(m) of the Code generally limits to \$1,000,000 the Corporation's federal income tax deduction for compensation paid in any year to each of its chief executive officer and the four other highest paid executive officers, to the extent such compensation is not "performance-based" within the meaning of Section 162(m). The Compensation Committee will, in general, seek to qualify compensation paid to its executive officers for deductibility under Section 162(m), although the Compensation Committee believes it is appropriate to retain the flexibility to authorize payments of compensation that may not qualify for deductibility if, in the Compensation Committee's judgment, it is in the Corporation's best interest to do so.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Corporation is party to an Amended and Restated Consulting Agreement, dated April 25, 2005, with Dr. Michael G. Kaplitt ("Michael Kaplitt"), one of the Corporation's scientific co-founders and the son of Dr. Martin J. Kaplitt ("Martin Kaplitt"), the Corporation's Chairman of the Board. Pursuant to the terms of this agreement, Michael Kaplitt provides advice and consulting services on an exclusive basis in scientific research on human gene transfer in the nervous system and serves as a member of the Corporation's Scientific Advisory Board. Michael Kaplitt was paid an annual retainer of \$100,000 in equal quarterly installment payments from October 2005 through September 2006. Effective October 1, 2006, Michael Kaplitt's annual retainer was increased to \$175,000 payable in equal quarterly installment payments, which installment payments commenced in January 2007. The Corporation paid Michael Kaplitt approximately \$119,000 and \$175,000 in retainer fees in 2006 and 2007 respectively thereunder. Under this agreement, the Corporation granted Michael Kaplitt non-qualified stock options to purchase 160,000 shares of Common Stock at an exercise price of \$2.05 per share on April 25, 2005. Michael Kaplitt is also the neurosurgeon who performed the surgical procedures on the twelve patients required by the protocol for the Corporation's sponsored Phase 1 clinical trial for the treatment of Parkinson's disease.

In accordance with The Rockefeller University's ("Rockefeller") Intellectual Property Policy, an aggregate of one-third of all income that it receives from licensing transactions is paid to the inventors. Michael Kaplitt has advised the Corporation that he received less than \$2,000 in each of 2007 and 2006 from Rockefeller as a result of payments made by the Corporation to Rockefeller under a non-exclusive license agreement. In December 2002, the Corporation issued to Rockefeller 368,761 shares of Common Stock in exchange for the cancellation of certain fees under its exclusive patent license agreement with the Corporation. Rockefeller sold these shares in 2007, and Michael Kaplitt received approximately \$75,000 from the proceeds of the sale. Michael Kaplitt estimates that he will be entitled to receive approximately one third of the proceeds of future royalties or other amounts that may become payable by the Corporation to Rockefeller under the Corporation's license agreements with Rockefeller and the Corporation's license Agreement with Rockefeller and Yale University (the "Rockefeller-Yale Agreement").

Dr. Matthew During, a founder of the Corporation and a member of its Scientific Advisory Board, has advised the Corporation that in each of 2006 and 2007 he received approximately \$17,000 from Thomas Jefferson University ("TJU") as a result of payments made by the Corporation to TJU under two exclusive license agreements. The amounts received by Dr. During represent approximately 18% of the total payments made by the Corporation to TJU in each of 2006 and 2007. Dr. During will also have a similar interest in future royalties or other amounts that may become payable under the agreement with TJU.

Dr. During has also advised the Corporation that in each of 2006 and 2007, he received less than \$2,000 from Yale University as a result of payments made by the Corporation to Yale University under a non-exclusive license agreement. The amounts received by Dr. During represent approximately 25% of the total payments made by the Corporation to Yale University in each of 2006 and 2007. Dr. During will also have a similar interest in future royalties or other amounts that may become payable under the Rockefeller-Yale Agreement.

Dr. During and the Corporation entered into a consulting agreement in October 1999 which was subsequently amended. The consulting agreement provides for payments to Dr. During of \$175,000 per year through September 2008.

In August 2004, the Corporation subleased 1,185 square feet of space at One Bridge Plaza, Fort Lee, New Jersey 07024 from Palisade Capital Securities, LLC, an affiliated company, for use as its corporate offices for a base annual rent of approximately \$36,000 or \$3,000 per month and such lease expired on January 31, 2008.

Effective July 17, 2006, Dr. Michael Sorell ("Dr. Sorell") resigned as the Corporation's President and Chief Executive Officer. In connection with such resignation, the Corporation and Dr. Sorell entered into a Separation Agreement. Pursuant to this agreement, the Corporation paid Dr. Sorell severance of \$185,000 payable in equal semi-monthly installments through September 30, 2007. The agreement also provided for the immediate vesting of Dr. Sorell's stock options. Such options, to the extent not exercised, terminated on December 31, 2007.

Effective February 23, 2007, the Corporation entered into a consulting agreement with Martin Kaplitt. Under the terms of this agreement, Martin Kaplitt provided medical and scientific consulting and advisory services to the Corporation for a one-year period, and received compensation at an annual rate of \$85,000. Martin Kaplitt's consulting agreement was extended for an additional one-year term, effective January 1, 2008, at an annual rate of \$110,000. Effective February 23, 2007, Martin Kaplitt no longer served as the Executive Chairman of the Corporation, but continues to serve as Chairman of the Board.

On November 19, 2007, the Corporation issued and sold 142,857 shares of Series D Preferred Stock at a price of \$35.00 per share, or a total of approximately \$5,000,000, to GEPT, as part of a private placement transaction. As part of this transaction, GEPT also exchanged 230,184 shares of Series C Preferred Stock, representing all of such shares of Series C Preferred Stock then owned by GEPT, for (i) 93,940 newly issued shares of Series C Preferred Stock and (ii) 163,470 shares of Series D Preferred Stock. At the time of the transaction, GEPT was a beneficial owner of more than five percent of the Corporation's voting securities.
