It is management's opinion that the going concern basis of reporting its financial condition and results of operations is appropriate at this time. The Company plans to increase cash flows and take steps towards achieving profitable operations through the sale or closure of unprofitable operations, and through the merger with or acquisition of profitable operations.

NET2AUCTION

NAUC is an operator of online auction drop-off locations and develops relationships with independently owned and/or franchised pack and ship centers. We believe NAUC is ideal for people who want hassle-free selling of their used goods online using eBay internet auction site. In addition to the millions of people who trade on eBay, we believe there is a large population of people who would like to participate on eBay, but lack the skills, time or inclination to sell online directly. NAUC serves this population by extending the reach of eBay.

NAUC handles of all aspects of selling goods on eBay for its customers, including photographing the goods to be sold, posting a picture of the goods on eBay, drafting the product description for eBay, handling inquiries from potential purchasers, selling the goods, processing payments for the goods, and taking care of shipping the goods to the final purchaser. A customer of NAUC gets a majority of the proceeds from the sale of the goods and NAUC does all the work.

As of June 30, 2006, NAUC operates forty-seven (47) drop-off locations, in addition to the twenty-three (23) affiliate locations that were acquired in our acquisition of AWI on September 30, 2005. During the second quarter of 2006, NAUC developed numerous business commercial accounts with several top retailers-wholesalers within the USA. NAUC liquidates the excess inventory and/or returned merchandise of such accounts on eBay. NAUC has obtained such commercial accounts in a wide variety of business industries or segments, including golf products, electronics-computer items, shoes for both men and woman and clothing for men, women, and children. NAUC continues to receive a customer satisfaction rating on eBay exceeding 99%. NAUC is listed as a "eBay Trading Assistant," which allows NAUC to reach millions of potential buyers for our customers' unwanted goods or products. To learn more, please visit our website at www.net2auction.com.

The increase in these expenses for the second quarter of 2006 as related to the same period for 2005, is due mostly to the increased operations of the Company's subsidiaries. Net service income increased significantly for the quarter ended June 30, 2006. The operating loss increased primarily due to the increased business activities of its subsidiaries, NAUC, AWI and RBSY.

Six Months Ended June 30, 2006 Compared with Six Months Ended June 30, 2006

The following discussion should be read in conjunction with the audited financial statements and notes thereto included in our annual report on Form 10-KSB for the fiscal year ended December 31, 2005, and should further be read in conjunction with the financial statements included in this report. Comparisons made between reporting periods herein are for the six month period ended June 30, 2006 as compared to the same period in 2005.

Net Service Income for the six months ended June 30, 2006 increased to \$313,186 from \$3,085 for the same period in 2005 due to the emergence of Net2Auction's operations. The operating loss increased to \$1,749,557 for the six months ended June 30, 2006, as compared to an operating loss of \$1,121,069 for the same period in 2005.

The Company's net loss for the six months ended June 30, 2006 increased significantly to a net loss of \$1,153,382, as compared to a net loss of \$989,010 for the same period in 2005. This increase is due to an increase in consulting expenses, general and administrative expenses, and legal expenses. The Company's expenses for the six months ended June 30, 2006 as compared to the same period in 2005 are set forth below:

Expenses	2006	2005

Employee Salaries and Bonuses	50,000	60,000

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10QSB

The increase in these expenses for the six months of 2006 as related to the same period for 2005, is due mostly to the increased operations of the Company's subsidiaries. Net service income increased significantly for the quarter ended June 30, 2006. The operating loss increased primarily due to the increased business activities of its subsidiaries, NAUC, AWI, and RBSY.

Liquidity and Capital Resources

The Company's net cash used in operating activities for the quarter ended June 30, 2006 increased to \$315,485 as compared to cash used in operations of \$273,484 for the same period in 2005. The Company's cash flow used in investing activities was \$376,477 during the second quarter of 2006, as compared to \$187,514 for the same period in 2005. This increase is due to purchase of intangible assets and a subsidiary. The Company's cash flow provided by financing activities was \$679,800 during the second quarter of 2006, as compared to \$737,033 for the same period in 2005. This decrease occurred as we received only \$350,000 from sale of stock in 2006, versus \$481,033 in 2005 and despite an increase in financing activities from Notes Payable, which increased from \$256,000 in 2005 to \$329,800 in 2006.

The Company has relied upon its chief executive officer for its capital requirements and liquidity. The Company's recurring losses, lack of cash flow and lack of cash on hand raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with respect to these matters include raising additional working capital through equity or debt financing and acquisitions of ongoing concerns, which generate profits, ultimately allowing the Company to achieve consistent profitable operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

OFF-BALANCE SHEET ARRANGEMENTS

We do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structure finance or special purpose entities ("SPEs"), which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes as part of our ongoing business. As of June 30, 2006, we were not involved in any unconsolidated SPE transactions.
