PROXY STATEMENT

These proxy materials are delivered by the Board of Directors of Enterprise Financial Services Corp (the Company), in connection with the solicitation of proxies to be voted at the 2007 Annual Meeting of Shareholders or any adjournment or postponement thereof.

QUESTIONS ABOUT THE MEETING AND THESE PROXY MATERIALS

This Proxy Statement, the proxy card and our 2007 Annual Report were first mailed to shareholders on or about March 15, 2007.

What may I vote on?

1. Election of 11 directors to hold office until the next Annual Meeting of Shareholders or until their successors are elected and have qualified;
2. Ratification and approval of KPMG LLP as independent registered public accounting firm for fiscal 2007;
3. Approve an amendment to our Certificate of Incorporation to increase the number of authorized shares of common stock.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR ALL ITEMS, 1 3.

Who can vote at the meeting? The Board of Directors has set February 21, 2007 as the record date for the Annual Meeting. All shareholders who owned common stock of the Company at the close of business on the record date may attend and vote at the Annual Meeting. On the Record Date, there were 11,769,854 shares of common stock outstanding. Shares held as of the record date include shares that are held directly in your name as the shareholder of record and those shares held for you as a beneficial owner through a stockbroker, bank or other nominee.

How do I vote my shares?

Shareholders of record may vote their shares by mail, by telephone or on the Internet. Instructions about these ways to vote appear on your proxy card. If you vote by telephone or on the Internet, please have your proxy card available.

Can I change my vote? Yes. If you are the shareholder of record, you may revoke your proxy at any time before the Annual Meeting by:

- entering a new vote by Internet or telephone;
- returning a later-dated proxy card;
- sending written notice of revocation to the Secretary of the Company; or
- attending the Annual Meeting and voting by ballot.

How many votes must be present to hold the Annual Meeting? The presence in person or by proxy of the holders of a majority of the shares of Common Stock entitled to vote constitutes a quorum at the Meeting for the election of directors and for other proposals. If a quorum is not present at the time the Annual Meeting is convened, the Company may adjourn or postpone the Annual Meeting.

How many votes are needed to approve the proposals? Each holder of Common Stock is entitled to one vote for each share of Common Stock held with respect to each matter to be voted upon; provided, however, that cumulative voting shall be available for the election of directors. Under cumulative voting, each shareholder is entitled to cast a number of votes equal to the number of shares held by such shareholder multiplied by the total number of directors to be elected. These votes may be divided among all nominees equally or may be voted for one or more of the nominees, either in equal or unequal amounts, as the shareholder may elect. A plurality of votes cast at the Annual Meeting is required for the election of each director.

Approval of an amendment to our Certificate of Incorporation to increase the number of authorized shares of common stock requires the affirmative vote of a majority of the Company's outstanding shares.

Ratification of the selection of independent registered public accounting firm and approval of any other proposal that may be brought before the meeting each requires the affirmative vote of a majority of the shares present at the meeting and entitled to vote on the matter.

An abstention from voting on a matter by a shareholder present in person or by proxy will have no effect on the election of directors but will have the same legal effect as a vote against any other proposal. If a broker or other nominee holder indicates on the Proxy Card that it does not have discretionary authority to vote the shares it holds of record on a proposal, those shares will not be considered as present and entitled to vote on the proposal.

All shares of Common Stock represented at the Annual Meeting by properly executed proxies received prior to or at the Annual Meeting which are not properly revoked will be voted at the Annual Meeting in accordance with the instructions indicated on such proxies. If no instructions are indicated, such proxies will be voted FOR the election of the Board's director nominees, FOR the ratification of the recommended independent registered public accounting firm; and FOR an amendment to our Certificate of Incorporation to increase the number of authorized shares of common stock.

Who pays for this proxy solicitation? The Company will pay the entire cost of preparing, assembling, printing, mailing and distributing these proxy materials. In addition to solicitation by mail, proxies may be solicited in person or by telephone or by other means by the Company's directors, officers or employees, who will not receive any additional compensation for solicitation activities. The Company has engaged Automatic Data Processing, Inc., for a fee to be determined, to assist in the distribution and tabulation of proxies. The Company will also reimburse brokerage firms and other nominees, custodians and fiduciaries for costs incurred by them in mailing proxy materials to the beneficial owners of common stock as of the record date.

The date of this Proxy Statement is March 15, 2007.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR EACH OF THE INDIVIDUALS LISTED FOR ELECTION AS DIRECTORS OF THE COMPANY.

BOARD AND COMMITTEE MEETINGS

All Committee members are appointed by the Board. In addition, the Board has established membership standards for each committee which require that a certain number of committee members must be independent directors, as that term is defined in Rule 4200 (a)(15) of the NASDAQ rules.

The Board met 10 times in 2006. All directors attended at least 75% of all meetings of the full Board and of those committees on which they served in 2006. The Company's Board of Directors periodically held executive sessions of the members of the Board who meet the then current standards of independence. Executive sessions of the Board were presided over by the Lead Director. In 2007, the Board is scheduled to meet seven times, with an optional eighth meeting.

Executive Committee

The Executive Committee is empowered to act on behalf of, and to exercise the powers of, the full Board of Directors in the management of the business and affairs of the Company when the full Board of Directors is not in session, except to the extent limited by applicable Delaware law. The charter for the Executive Committee may be found at the Company's website at www.enterprisebank.com. All actions by the committee are reported at the next regular Board of Directors meeting. In addition, approved Executive Committee minutes are shared with all Directors. In 2006, the committee met once.

The Committee consists of at least five non-employee directors who are independent directors as defined in the NASDAQ standards. For 2006, the Executive Committee consisted of Directors Benoist, Eichner, Mullins, Murphy, Saur, Van Trease and Warshaw.

Audit Committee

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors by reviewing all audit processes and fees, the financial information provided to the shareholders and the Company's systems of internal financial controls. The Audit Committee has the authority and responsibility to select and evaluate and, where appropriate, replace the Company's independent registered public accounting firm (the independent auditors).

The Committee shall consist of three or more directors who meet the NASDAQ independence standards. In 2006, the Audit Committee consisted of Directors Masinton, Guest, and Van Trease, who served the full year, and Director Levey, who left the Audit Committee when he moved to the Compensation Committee and the Nominating and Governance Committee in May 2006. The Audit Committee met five times in 2006.

The Board of Directors has determined that Directors Masinton, Levey, Guest and Van Trease satisfy the requirements of a financial expert as defined in Item 401(h)(2) of Regulation S-K and satisfy the definition of financially sophisticated under NASDAQ Rule 4350(d).

In the opinion of the Company's Board, none of the Directors on the Audit Committee has a relationship with the Company or the Bank that would interfere with the exercise of independent judgment in carrying out their responsibilities as director. None of them is or has been for the past three years an employee of the Company or the Bank, and none of their immediate family members are or have for the past three years been executive officers of the Company or the Bank.

As noted in the Audit Committee's charter, the Company's management is responsible for preparing the Company's financial statements. The Committee's charter is attached hereto as Appendix A and is also available on the Company's website at www.enterprisebank.com. The Company's independent auditors are responsible for auditing the financial statements. The activities of the Audit Committee are in no way designed to supersede or alter those traditional responsibilities. The Audit Committee's role does not provide any special assurances with regard to the Company's financial statements, nor does it involve a professional evaluation of quality of audits performed by the independent auditors.

The Audit Committee has considered whether the provision by KPMG LLP of the services covered by the audit fees is compatible with maintaining the firm's independence and concluded that it is compatible.

The Audit Committee is responsible for pre-approving all auditing services and permitted non-auditing services to be performed by the Company's independent auditors. The Chairperson of the Audit Committee has authority to approve in advance all audit or non-audit services to be provided by the independent auditors if presented to the full Audit Committee at the next regularly scheduled meeting.

The following report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates the report by reference therein.

AUDIT COMMITTEE REPORT

The Audit Committee submits the following report:

The Audit Committee operates under a written charter approved by the Board of Directors.

Management is responsible for the Company's internal controls and financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements and internal control over financial reporting in accordance with generally accepted auditing standards and to issue reports thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

The Audit Committee has reviewed and discussed the Company's audited financial statements and internal control report with management and the independent auditors. The Audit Committee discussed with the independent auditors the matters required by Statement on Auditing Standards No. 61, *Communications with Audit Committees*. The Audit Committee received written disclosures from the independent auditors as required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, and discussed with the auditors their independence. The Audit Committee has concluded that the independent auditors are independent from the Company and its management.

Based on the reports and discussions described above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

Respectfully submitted by the Audit Committee,

Sandra A. Van Trease, Chairperson

Robert E. Guest Jr.

Richard S. Masinton

EXECUTIVE COMPENSATION**COMPENSATION DISCUSSION AND ANALYSIS****Overview of the Compensation Program**

The Compensation Committee of the Board of Directors determines and administers compensation operating under the authority of its Charter. The Committee has responsibility for establishing, implementing and continually monitoring compliance with the Company's compensation philosophy. You can find the Committee's Charter online at www.enterprisebank.com.

The Board determines the membership of the Committee and it consists entirely of independent Directors. Members meet NASDAQ independence standards and are outside directors within the meaning of section 162(m) of the Internal Revenue Code of 1986. During fiscal year 2006, no Member was an executive officer of another entity on whose compensation committee or board of directors an executive officer of the Company served.

The Committee has overall responsibility relating to compensation for the directors and officers and other employees and delegates certain of those functions to management. In the case of named executive officers (NEOs) (five highest paid by total cash compensation), the Committee establishes and reviews all aspects of base salaries, annual incentive cash bonuses, and long-term incentives, including the establishment or approval of measurement metrics. With respect to executives below this level, the Committee reviews management's recommendations for the aspects named above. In the case of the remaining employee population, the Committee reviews, approves, and monitors compensation budgets and proposed methods of generally administering merit changes to base salaries. The Committee has delegated to management the determination and administration of employee benefits while retaining oversight.

Committee Agendas, Scheduling, and Keeping of the Minutes Our Senior Vice President of Human Resources with approval from the Committee Chairman, proposes the agenda and scheduling calendar for the year. Outside counsel of the Committee takes the minutes, which the Committee reviews and approves.

Compensation Consultant Since May 2002, the Committee has engaged Klemm & Associates, an independent compensation consultant, to advise the Committee on all matters related to the CEO's compensation and other compensation matters. The consultant does not own any securities of the Company, nor does the consultant have any other business relationship with the Company or other individual employees beyond providing consulting services. The consultant attended all of the Committee meetings in 2006.

The Chairman of the Committee decides the nature and scope of the compensation consultant's assignments, as well as approving the budget and invoices relating to the consultant. The consultant's work for the Committee includes:

Providing analysis of the NEOs' elements of compensation compared with peer group companies.

Providing business and technical advice on compensation matters.

Discussing and making certain recommendations on specific pay programs and pay levels.

Provided that the Committee Chairman approves the scope of work in advance and monitors its progress, Company management may also engage the consultant for other compensation work. The scope of such work during 2006 consisted principally of advisory work.

Compensation Philosophy

Our compensation philosophy is based on performance. We will guide and administer compensation consistent with the following principles:

Compensation programs will reflect our belief that the right people are among the Company's most important assets and that a properly directed, motivated, and effective work force can have a dramatic effect on the Company's performance and can be a sustaining, competitive advantage.

We will compensate our associates in ways designed to attract and retain valuable people, and to provide base salary, incentives, and rewards that direct behavior to become a high performing company.

We will align compensation and incentives with increases in shareholder value and long-term value growth.

We will take a long-term view in making compensation decisions.

Compensation will be based on clearly defined goals.

Our compensation programs will evidence effective implementation of our strategic plan.

We will pay for results by emphasizing variable pay elements related to measurable business results.

We will provide fair and competitive compensation based on market data and the value added to the Company.

We will implement programs that are easy to understand and administer.

Benchmarking of Compensation The Committee uses competitive data to benchmark for the following elements of compensation for NEOs:

Base salary

Annual cash incentive bonus

Equity compensation elements such as stock options and restricted stock

Other elements that to date have been reported publicly under SEC rules

Starting in 2004, the Committee switched from using traditional, published compensation survey data from nationally recognized survey firms to a new data base that derives data directly from publicly reported information called Salary.com CompAnalyst Executive.

The database contains essentially all publicly-held U.S. companies including all publicly-held reporting banks. The Committee believes publicly-held reporting banks are the most appropriate group to benchmark ourselves against because we compete with that group for executive employees and for business.

The Committee uses the data for banks with assets of \$900 million to \$5.0 billion. Approximately 150 banks make up the peer group. The Committee believes that using this single criteria of assets (and not others such as by geographic region or certain named banks) adds a strong element of fairness and impartiality to comparisons. The Committee uses the data not only for compensation comparisons, but also for financial performance measurement, and in particular, determining target and award levels for the Restricted Stock Unit (RSU) program described later.

In addition to benchmarking, and in the interest of taking internal equity into account, the Committee examines the relationship of one NEO's total compensation and sub-elements to another.

Compensation Components

Our general policy is that executive compensation should primarily consist of three components: base salary, short-term annual cash incentive bonuses, and long-term equity incentive compensation. We provide modest levels of perquisites, described later, to NEOs. NEOs may elect to participate in a deferred compensation plan that is available to other executives as well. We do not provide any executive benefits in the form of any supplemental executive retirement plans, top hat plans, or special health care plans. NEOs also participate in other employee benefit programs that are provided or available to the general employee population such as health care, disability, and life insurance. The extent of these programs is described later.

Base Salaries We use base salary to recognize and take into account requisite competencies, experience, and knowledge that we believe our NEOs must possess before considering any variable compensation based on additional skills. In setting base salaries, the Committee considers the NEO's experience, the difficulty that might be encountered in replacing the NEO, and how limited the pool of qualified people might be, particularly considering the Company's aggressive goals. We also believe that base salaries should provide a reasonable standard of living commensurate with the executive's needs and business and community standing.

We set base salary range midpoints at what would be slightly above the midpoint of the general peer group data. We set midpoint salary above the median because performance goals are set at levels well beyond median performance for the peer group and we strive to recruit and retain talent we believe is in the upper quartile of the peer group.

With recommendations from the CEO and the Senior Vice President of Human Resources, the Committee reviews NEO base salaries annually based on individual and Company performance, the individual's level of responsibility, peer group competitive data, internal equity considerations, compensation history, and terms and conditions of each NEO's employment agreement. In 2006, base salary increases for NEOs and for other executives ranged from 0% to 7% over 2005 levels. Increases normally take effect on March 1 of each year. However, base salary increases, if any, for Messrs. Eichner and Benoist are effective on anniversary dates of their employment agreements, July 1 and November 1, respectively.

Mr. Eichner's Base Salary and Changes The employment agreement of our CEO, Mr. Eichner, sets his base salary at a minimum of \$480,000. The Committee cannot reduce his base salary without his consent.

For potential base salary changes for Mr. Eichner, the Committee considers his performance as rated by the Executive Committee in its annual review. The review includes, but is not necessarily limited to, leadership competencies and other core values, executive retention results, and other contributions toward achievement of the Company's strategic plan and objectives. The Committee also takes into account other considerations such as Mr. Eichner's base salary history and its relationship to that of other NEOs, as well as the competitive position of his base salary compared to the peer group. Except in connection with the negotiation of his employment agreement, Mr. Eichner has not had any direct input to the Compensation Committee relative to increases in his base salary.

Mr. Benoist's Base Salary and Changes The employment agreement of our Chairman, Mr. Benoist, sets his base salary at a minimum of \$350,000. The Committee cannot reduce his base salary without his consent.

Short-Term Annual Cash Incentive We intend short-term annual incentive programs to help drive an executive's performance in a given year by focusing on 3 to 5 key goals (such as asset quality and earnings per share growth). These goals are designed to maximize the results of their efforts for the Company and are directly linked to implementing the Company's strategic plan and objectives. Since we regard the strategic plan's sub-goals to be confidential for competitive reasons, specific individual goals are not disclosed.

Each goal has a threshold, target and exceptional performance level and payment amount. We consider goals at target as stretch goals because they are not easily achievable and would, if achieved, place us in the upper percentiles of our peer group.

The employment agreements for Messrs. Eichner and Benoist set their total short-term annual incentive payment levels. Other NEOs develop an annual performance grid that lists his or her goals. For each of these NEOs, Messrs. Eichner and Benoist review the goals and set the potential incentive amounts for each goal and performance level. The relative importance of each goal to all goals is determined. The relative weighting determines potential incentive payments for each goal.

For each goal for other executives, Messrs. Eichner and Benoist set a threshold level of achievement, usually at 70% of target. For performance below threshold level for any goal, there is no payment. For payment for performance between threshold and target, we use straight-line interpolation to establish the payment amount. Other than for Messrs. Eichner and Benoist, we extend straight-line interpolation from threshold through target to determine payment for performance above target. Pursuant to their employment agreements, payments for performance above target for Mr. Eichner or Mr. Benoist are increased beyond what would result from straight-line interpolation.

In January of each year, our CEO and the Senior Vice President of Human Resources, present proposed NEO grids to the Committee for review and approval. After the performance year is completed, the Committee, through use of its outside consultant, verifies the internal computation for short-term annual cash incentives for NEOs.

Long-Term Incentive Our objectives for long-term incentive compensation include:

- Aligning incentives with increases in shareholder value (goal congruence)
- Using long-term incentives to attract and retain exceptional talent
- Encouraging the long-term view in management decision making
- Using long-term incentives as a tool to define, encourage, and promote high performance by key personnel

Conversion from Stock Options to Restricted Stock Units (RSUs) In 2004, the Committee reviewed the Company's stock option program and decided to adopt an RSU plan while reserving the ability to grant stock options in certain limited circumstances. The decision was driven by several considerations:

- Companies were beginning to move away from stock option grants because of new requirements to expense them.
- The Committee wanted to address potential long-term dilution of shareholders.
- The change would provide an opportunity to develop a plan linking long-term incentive pay to performance compared with a peer group.

Working with management and the Committee's consultant, the Committee developed employee groupings and potential award levels for each group taking into account internal pay equity. In order to both mitigate annual expenses for equity compensation and build an employee retention factor, our management proposed a three-year performance period followed by a five-year vesting period. We modeled the proposed program with financial projections over a number of years and in accordance with the projections for the strategic plan to provide assurance that the plan would achieve intended results.

The Committee took steps to see that employees were motivated from inception of the plan. That took the form of phasing in the ultimate three-year performance period with a one-year, then a two-year, period, thus ensuring that grants and potential awards would occur every year.

Consistent with our goal of being a high performing Company as measured against the previously described peer group, the performance standard initially adopted was to target long-term performance at the 75th percentile of the peer group using growth in earnings per share.

The Committee decided that the threshold for long-term incentive performance would be the 60th percentile of the peer group, and that awards would be capped at the 90th percentile and above. The award at the threshold level is 80% of that at target. The award at the 90th percentile or above set it at 120% of target.

Grants And Awards Under RSU Plan Each year management makes a recommendation to the Committee for RSU grants in the form of an updated list of associates and proposed grant levels in groupings. Once the Committee reviews and approves the listing and pool level, we grant participating associates dollar denominated RSUs, which entitle them to a potential award of restricted stock if the performance standard is met.

We base the award on the quoted market price per share of common stock at the time of the award. We convert the award dollar amounts into shares of restricted stock by dividing the dollar amounts by the Company's average stock price for the immediately preceding 10 days before the award. Awards of restricted stock vest at the rate of 20% per year.

The Compensation Committee made an initial grant that covered 2004 for which the award occurred in 2005. The Committee made two grants in 2005. The first grant was tied to performance for 2004 and 2005 with a potential award in 2006. The second grant in 2005 relates to performance for 2004, 2005, and 2006 with a potential award in 2007. The Committee made two grants in 2006. The first grant relates to performance for 2005, 2006, and 2007 with a potential award in 2008. The second grant relates to performance for 2006, 2007, and 2008 with a potential award in 2009.

Grants for NEOs are reflected in the Summary Compensation Table on page 15 and the Grants of Plan-Based Awards table on page 16.

RSU Plan Rationale We designed the plan of annual equity grants and potential awards so that it would provide our managers continued, long-term motivation. We believe RSU's are performance-based because:

The value of the shares is intrinsically tied to Company performance based on comparison to continuously updated peer group performance.

The design clearly aligns interests of Company managers with the economic interests of shareholders.

They provide no value until the performance period is over and performance has been achieved and the shares are potentially awarded.

It facilitates retention of talented executives as they vest equally over five years.

It promotes stock ownership by management.

While under no obligation to do so, the Committee expects to continue the RSU plan. The Committee reviews the plan annually for its continued suitability and effectiveness as well as the appropriateness of the performance standard.

When we made the conversion to RSUs, we intended to reduce the use of stock options, while reserving the right to grant options in certain limited circumstances.

NEO Perquisites We provide perquisites and other personal benefits to NEOs that we believe are reasonable and consistent with our overall compensation program. See the Summary Compensation Table on page 15 for more information on these items.

Retirement Plans We expect executives to plan for and fund their own retirement through a 401(k) and a Deferred Compensation Plan that permits certain executives to defer a limited portion of salary and bonus into any of several investment alternatives. There are no company contributions to the Deferred Compensation Plan. We do not maintain defined benefit retirement or executive retirement plans or provide for post-retirement benefits.

Stock Ownership Guidelines

We do not currently have any stock ownership guidelines for NEOs or other executives and associates.

Wealth Accumulation Considerations

We are aware of the considerations surrounding executive wealth accumulation as it relates to executive compensation, and equity-based compensation in particular. However, to date we have not considered that in determining executive compensation.

Change of Control Benefits

We have entered into agreements with certain key executives, including the NEOs, granting them certain payments upon a change of control of the Company. These arrangements are intended to promote stability and continuity of senior management. Information on applicable payments under such agreements for NEOs is contained under the heading "Severance and Change in Control Benefits" on page 19.

Section 162(m) of the Internal Revenue Code – Compensation Deductibility Limits

Other than for qualified performance-based compensation, Section 162(m) generally denies a deduction for federal revenue tax wages by any publicly held corporation for compensation paid in a taxable year to the Company's chief executive officer and four other highest compensated officers to the extent that the officer's compensation exceeds \$1 million. In 2006, our shareholders approved an incentive plan that provides for performance-based compensation in compliance with Section 162(m). The plan is intended to permit the deductibility of compensation in excess of \$1 million per year, if any, when paid in accordance with the plan. There may be circumstances in which the Committee may approve compensation that is not deductible to ensure competitive levels of compensation for its executive officers. To date, Section 162(m) has not limited the deductibility of any compensation paid by the Company.

Effects of New Disclosure Rules on Our Compensation Decisions

We have not and do not anticipate doing anything differently because of the new compensation disclosure rules.

EXECUTIVE EMPLOYMENT AGREEMENTS**Executive Employment Agreement with Mr. Eichner**

Effective July 1, 2005 the Company entered into an Executive Employment Agreement with Mr. Eichner. The agreement replaced Mr. Eichner's previous agreement. The following is intended to be a general summary of certain provisions of Mr. Eichner's Agreement. Other elements of his agreement are referred to in earlier sections above.

The agreement specifies that Mr. Eichner will serve as the President and Chief Executive Officer of the Company through December 31, 2007. The term may be extended by mutual written agreement of Mr. Eichner and the Company. Mr. Eichner's duties and responsibilities are in the Agreement. We believe them to be consistent with the duties and responsibilities of someone in that position for a financial services company.

Termination and Severance Benefits Mr. Eichner

The Agreement provides Mr. Eichner with severance benefits in the event of his termination under certain circumstances. The Agreement also has confidentiality and non-compete provisions for his period of employment and for a period of 12 months after termination of his employment.

The method of termination determines the amount of compensation, if any, due to Mr. Eichner. Generally, he is entitled to payment of salary and bonus through his date of termination. If the Company terminates him other than for cause, he will be paid as severance compensation his base salary through the shorter of the remaining period of the Agreement or the one-year period beginning on the termination date plus any accrued and unpaid bonus. In addition, all his stock options granted become fully vested and exercisable. All restricted common stock granted will fully vest and become transferable. If he is terminated in connection with a change of control, he is entitled to an amount equal to 24 months of his base salary and targeted bonus, as defined, plus accrued and unpaid bonus. In the event of Mr. Eichner's death, the Company is obligated to pay his beneficiary or estate his annual salary and bonus through the last day of the month during which his death occurs.

As an employee of the Company, Mr. Eichner does not receive any form of compensation in his role as Vice Chairman of the Company.

Executive Employment Agreement with Mr. Benoist

Effective November 1, 2005, the Company entered into an Executive Employment Agreement with Mr. Benoist. The agreement replaced his previous agreement. The following is intended to be a general summary of certain provisions of the Agreement. Other elements of his agreement are referred to in earlier sections above.

The agreement specifies that Mr. Benoist will serve as Chairman of the Board and Executive Vice President of the Company, as well as, Chairman and Chief Executive Officer of the Bank until December 31, 2008. The term maybe extended by mutual written agreement of Mr. Benoist and the Company. Mr. Benoist's duties and responsibilities are in the Agreement. We believe them to be consistent with the duties and responsibilities of someone in that position for a financial services company.

As an employee of the Company, Mr. Benoist does not receive any form of compensation in his role as Chairman of the Company.

Termination and Severance Benefits Mr. Benoist

Mr. Benoist's agreement is the same with respect to termination and severance as Mr. Eichner's described above.

Other Employment Agreements with NEOs

Each of the other NEOs has Executive Employment Agreements. The Agreements do not have specific termination dates other than death or disability of the officer. In the event of a termination for defined cause, the NEO will only be entitled to payment of base salary through the date of termination. Following is a summary of key attributes of Employment Agreements for Messrs. Marsh and Sanfilippo.

Termination and Severance Benefits Mr. Marsh

If Mr. Marsh voluntarily resigns with at least 90 days notice, the Company within 30 days after termination will pay all accrued salary and bonus compensation, to the extent earned, and other benefits. At the time Mr. Marsh notifies the Company of a voluntary resignation, he must also notify the Company of the identity of his new employer. After notice, the Company has ten days to elect to pay Mr. Marsh his then effective base salary for one year during which time Mr. Marsh is subject to non-compete and non-solicitation provisions.

Within 30 days after a Change of Control, Mr. Marsh may elect a voluntary termination as described above. He may elect severance payment of an amount equal to his base salary and his targeted bonus in return for a one-year non-compete and non-solicitation provision. If Mr. Marsh elects not to receive the severance, he will not be subject to the non-compete provisions. If he does not elect a voluntary termination within 30 days and is terminated after a Change of Control, Mr. Marsh will be paid for one year an amount equal to his base salary and his targeted bonus in return for a one-year non-compete and non-solicitation provision.

Termination and Severance Benefits Mr. Sanfilippo

If Mr. Sanfilippo is terminated without Cause, or is not offered employment after a Change of Control, he will be entitled to compensation for 24 months in an annual amount equal to 100% of his base salary as of the end of the most recent quarter plus the average of his bonus compensation for the two most recent years. The two-year payment period is designed to coincide with the non-compete covenants in his agreement, which provides that he will not, for the period of employment and two years afterward, solicit customers of the Company to become customers of another entity or induce, or seek to induce, employees to leave the employ of the Company.

Termination and Severance Benefits Mr. Wagner

Mr. Wagner voluntarily resigned from the Company effective January 29, 2007. Under the terms of his October 16, 2002 employment agreement, Mr. Wagner is entitled to receive salary continuation payments for 24 months totaling \$516,532, subject to his complying with certain non-solicitation and non-competition provisions contained in his employment agreement.

Severance and Change in Control Benefits

Upon certain types of terminations of employment, severance benefits will be paid to NEOs, other than Mr. Wagner, as follows:

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The function and members of the Company's Compensation Committee are set forth above. All Committee members are independent and none of the Committee members have served as an officer or employee of the Company or a subsidiary of the Company. No named executive officer of the Company serves on any board of directors or compensation committee of any entity that compensates any member of the Compensation Committee.

Some of the directors (including members of the Compensation Committee) and officers of the Company and of its subsidiary bank (the Bank), and members of their immediate families and firms and corporations with which they are associated, have had transactions with the Bank, including borrowings and investments. All such loans and investments have been made in the ordinary course of business, have been made on substantially the same terms, including interest rate paid or charged and collateral required, as those prevailing at the time for comparable transactions with unaffiliated persons, and did not involve more than the normal risk of collectibility or present other unfavorable features.

**RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING
FIRM - (Proposal No. 2)**

The Company engaged KPMG LLP to audit the Company's financial statements for the fiscal years ended December 31, 2006, 2005 and 2004. Representatives of KPMG LLP are expected to be present at the Annual Meeting of Shareholders. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The Audit Committee has selected KPMG LLP to be the independent registered public accounting firm for calendar year 2007 and recommends that the shareholders ratify the appointment of the accounting firm. Although shareholder approval is not required by law, the appointment is submitted by the Audit Committee of the Board of Directors in order to give the shareholders a voice in the designation of auditors. If the shareholders do not ratify the selection of KPMG LLP, the Audit Committee will review the selection of the independent registered public accounting firm. Even if the resolution is approved, the Audit Committee in its discretion may direct the appointment of different independent auditors at any time during the year if it determines that a change would be in the best interest of the Company and its shareholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF KPMG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

**AMENDMENT OF OUR CERTIFICATE OF INCORPORATION TO
INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK
(Proposal No. 3)**

Description of the Proposed Amendment

The Board of Directors (the Board) unanimously approved, subject to the approval of the Company's shareholders, an amendment to the Company's Certificate of Incorporation to increase the number of shares of Common Stock, par value \$0.01, the Company is authorized to issue from 20,000,000 shares to 30,000,000 shares. As of February 21, 2007, of the 20,000,000 shares of Common Stock the Company is currently authorized to issue, 11,769,854 shares of Common Stock were outstanding and 889,965 shares of Common Stock were reserved for issuance under the Company's stock-based compensation plans. You are being asked to consider and act upon a proposal to approve the proposed amendment to the Company's Certificate of Incorporation which is attached as Appendix B to this proxy statement.

Purpose of the Proposed Amendment

The purpose of the proposed amendment is to allow the Company to have a sufficient number of shares of authorized and unissued Common Stock, which can be issued in connection with such corporate purposes as may, from time to time, be considered advisable by the Board. Having such shares available for issuance in the future will provide the Company with flexibility and will allow such shares to be issued as determined by the Board without the expense and delay of holding a special shareholder's meeting to approve the authorization of additional shares of Common Stock. Such corporate purposes could include, without limitation:

- the issuance of shares in connection with stock splits or stock dividends;
- the issuance of shares upon the exercise of options granted under the Company's various stock option plans or in connection with other employee benefit plans;
- the issuance of shares in connection with capital raising transactions; and
- the issuance of shares in connection with acquisitions.

The increase in authorized Common Stock will not have an immediate effect on the rights of existing shareholders. However, the Board will have the authority to issue the authorized Common Stock without requiring future shareholder approval of such issuances, except as may be required by applicable laws and regulations. To the extent that the additional authorized shares of Common Stock are issued in the future, they will decrease the existing shareholders' percentage equity ownership of the Company and, depending upon the price at which they are issued as compared to the price paid by existing shareholders for their shares, could be dilutive to the Company's existing shareholders. The holders of Common Stock have no preemptive rights to subscribe for or purchase any additional shares of Common Stock that may be issued in the future.

The increase in the authorized number of shares of Common Stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by the shareholders. Shares of authorized and unissued Common Stock could (within the limits imposed by applicable law) be issued in one or more transactions that would make a change in control of the Company more difficult, and therefore less likely. Any such issuance of additional shares of Common Stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of Common Stock, and such additional shares of Common Stock could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company. The Board is not aware of any attempt to take control of the Company and has not presented this proposal with the intention that the increase in authorized shares of Common Stock be used as a type of anti-takeover device.

Vote Required

The affirmative vote of a majority of the Company's outstanding shares of Common Stock is required for approval of this proposal. Unless marked to the contrary, proxies received will be voted FOR the amendment to the Company's Certificate of Incorporation.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE PROPOSED AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK.

We have adopted procedures to assist our directors and executive officers in complying with the Section 16(a) filings.

Based solely upon our review of the copies of the filings that we received with respect to the fiscal year ended December 31, 2006, or written representations from certain reporting persons, we believe that all reporting persons except Mr. Masinton made all filings required by Section 16(a) in a timely manner.
