GRUPO RADIO CENTRO REPORTS SECOND QUARTER AND FIRST HALF 2005 RESULTS

MEXICO CITY, July 20 /PRNewswire/ -- Grupo Radio Centro, S.A. de C.V. (NYSE: RC; BMV: RCENTRO-A) (the "Company"), Mexico's leading radio broadcasting

## Edgar Filing: GRUPO RADIO CENTRO SA DE CV - Form 6-K

company, announced today its results of operations for the second quarter and first half ended June 30, 2005. All figures were prepared in accordance with generally accepted accounting principles in Mexico and have been restated in constant pesos as of June 30, 2005.

### Second Quarter Results

For the second quarter of 2005, broadcasting revenue was Ps. 140,645,000, representing an increase of 14.9% compared to Ps. 122,431,000 reported for the same period of 2004. This increase was mainly attributable to higher advertising expenditures by the Company's principal clients during the second quarter of 2005 compared to the same period of 2004.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) during the second quarter of 2005 were Ps. 99,900,000, representing an increase of 7.4% compared to Ps. 93,009,000 reported for the same period of 2004. This increase was mainly attributable to higher costs of new programming (including news programs) produced for the Company as well as an increase in expenses for publicity and promotions of the Company during the second quarter of 2005 compared to the same period of 2004 due to efforts to promote the new programming.

For the second quarter ended June 30, 2005, the Company reported broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 40,745,000, representing an increase of 38.5% compared to broadcasting income of Ps. 29,422,000 reported for the same period in 2004. This increase was mainly attributable to the increase in broadcasting revenue described above.

Depreciation and amortization for the second quarter of 2005 amounted to Ps. 9,550,000, a 60.8% decrease compared to Ps. 24,382,000 reported for the same period of 2004. This decrease was due to the implementation of a new accounting principle in Mexico (Bulletin B-7 "Adquisicion de Negocios"). As a result, the Company no longer amortizes goodwill as of January 1, 2005, but instead tests goodwill for impairment at least once a year.

For the second quarter of 2005, the Company's corporate, general and administrative expenses were Ps. 3,766,000, compared to Ps. 4,944,000 reported for the same period of 2004. This 23.8% decrease was, primarily because the Company no longer records the compensation of an executive officer in corporate, general and administrative expenses, but rather records it in costs of personnel, which is included in broadcasting expenses.

The Company reported operating income of Ps. 27,429,000 for the second quarter of 2005 compared to operating income of Ps. 96,000 reported for the same period of 2004. The significant increase in operating income resulted primarily from (i) higher advertising expenditures by the Company's principal clients during the second quarter of 2005 compared to the same period of 2004 and (ii) the implementation of a new accounting principle that eliminates amortization of goodwill.

The Company's comprehensive financing gain for the second quarter of 2005 was Ps. 2,355,000 compared to a comprehensive financing cost of Ps. 15,220,000 reported for the same period of 2004. This favorable change was primarily attributable to (1) a gain on foreign currency exchange, net of Ps. 9,469,000 for the second quarter of 2005 compared to a loss on foreign currency exchange, net of Ps. 7,382,000 for the same period in 2004, resulting from the appreciation of the Peso against the U.S. Dollar and (2) a gain on net monetary position of Ps. 1,195,000 for the second quarter of 2005 compared to a gain on net monetary position of Ps. 307,000 reported in the same period of 2004, due to

## Edgar Filing: GRUPO RADIO CENTRO SA DE CV - Form 6-K

an increase in net monetary liabilities for the second quarter of 2005 as compared to the same period of 2004.

During the second quarter of 2005, other expenses, net, were Ps. 11,836,000, a slight decrease compared to Ps. 11,942,000 reported for the same period in 2004. This decrease was mainly attributable to lower legal expenses in the second quarter of 2005 compared to the same period of 2004.

For the second quarter of 2005, the Company reported income before provisions for income tax and employee profit sharing of Ps. 17,948,000, compared to a loss before provisions for income tax and employee profit sharing of Ps. 27,066,000 reported for the same period of 2004.

The Company recorded a provision for income tax and employee profit sharing for the second quarter of 2005 of Ps. 5,552,000 compared to a reduction in provisions for income tax and employee profit sharing of Ps. 2,864,000 for the same period of 2004.

As a result of the foregoing, the Company's net income for the second quarter 2005 was Ps. 12,396,000, compared to a net loss of Ps. 24,202,000 reported for same period of 2004.

### First Half Results

For the six months ended June 30, 2005, broadcasting revenue was Ps. 247,036,000, a 1.2% increase compared to Ps. 244,051,000 reported for the same period of 2004. This increase was mainly attributable to higher advertising expenditures by the Company's principal clients during 2005.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) reported for the first half of 2005 were Ps. 186,263,000, a 11.5% decrease compared to Ps. 210,389,000 reported for the first half of 2004. This decrease in broadcasting expenses was primarily attributable to lower costs from the production of news programming, which a third party produced for the Company until the end of the first quarter of 2004, which decrease more than offset the second quarter 2005 increase in other broadcasting expenses.

Broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) was Ps. 60,773,000, representing an increase of 80.5% compared to Ps. 33,662,000 reported for the first half of 2004. This increase was mainly attributable to the decrease in broadcasting expenses described above.

Depreciation and amortization was Ps. 19,285,000, a decrease of 60.4% compared to Ps. 48,749,000 reported for the first half of 2004. This decrease was due to the implementation of a new accounting principle in Mexico (Bulletin B-7 "Adquisicion de Negocios"). As a result, the Company no longer amortizes goodwill as of January 1, 2005, but instead tests goodwill for impairment at least once a year.

The Company's corporate, general and administrative expenses during the first half of 2005 were Ps. 8,050,000, a decrease of 36.0% compared to Ps. 12,585,000 reported for the same period of 2004. This decrease was mainly due to lower fees paid by the Company to a third party, which ceased production of news services for the Company at the end of the first quarter of 2004, and to a lesser extent the recording of executive compensation in the second quarter of 2005 as compared to the same period of 2004.

As a result of the foregoing, the Company reported operating income of Ps.

## Edgar Filing: GRUPO RADIO CENTRO SA DE CV - Form 6-K

33,438,000 for the first half of 2005, compared to an operating loss of Ps. 27,672,000 reported for the same period of 2004.

The Company's comprehensive financing cost for the first half of 2005 was Ps. 3,789,000, a decrease of 79.8% compared to a comprehensive financing cost of Ps. 18,787,000 for the first half of 2004. This favorable change is mainly attributable to a gain on foreign currency exchange, net of Ps. 8,880,000 reported for the first half of 2005 compared to a loss on foreign currency exchange, net of Ps. 5,650,000 for the first half of 2004, which resulted from the appreciation of the Peso against the U.S. Dollar.

Other expenses, net, for the first half of 2005 were Ps. 20,869,000, a 7.8% decrease compared to Ps. 22,626,000 reported for the same period of 2004. This decrease is mainly attributable to lower legal expenses during the first half of 2005, compared to the same period of 2004.

For the first half of 2005, the Company reported income before provisions for income tax and employee profit sharing of Ps. 8,780,000, compared to a loss before provisions for income tax and employee profit sharing of Ps. 69,085,000 reported for the same period in 2004. During the first half of 2005, the Company recorded a provision for income tax and employee profit sharing of Ps. 5,596,000 compared to a reduction in provisions for income tax and employee profit sharing of Ps. 2,864,000 for the same period in 2004.

As a result of the foregoing, the Company had net income of Ps. 3,184,000 for the first half of 2005 compared to a net loss of Ps. 66,221,000 for the same period of 2004.

#### Other Matters:

From June 30, 2004 to June 30, 2005, the Company's total bank debt decreased from Ps. 207.3 million to Ps. 141.5 million as a result of scheduled payments.
