The Annual General Meeting approved the financial statements for the year ended December 31, 2002. Net profit attributable to the Group increased by 28% before exceptional items and goodwill amortization, to 1,758 million euros, and earnings per share increased by 29% to 2.42 euros.

The Board of Directors of Sanofi-Synthelabo in its meeting held after the Annual General Meeting decided to nominate Gerard Van Kemmel to the Audit Committee. The Audit Committee is now constituted of 5 members including 3 independent directors.

During the Annual General Meeting, Jean-François Dehecq, Chairman and Chief Executive Officer declared:

*Sales for the first Quarter of 2003 allow us to confirm the forecasts for growth in sales and earnings per share for 2003, barring major adverse events, Sanofi-Synthelabo should achieve in 2003:*

- *a similar level of consolidated sales growth, on a comparable basis, to that achieved in 2002.*
- *at an exchange rate of one euro per dollar, an increase in earnings per share close to 20%, before exceptional items and goodwill amortization. The sensitivity of this growth rate being 1% for a 3 cent movement in the dollar exchange rate*

---

He also emphasized that:

*We draw strength from an R&D portfolio which is extensive compared to our size, and the five medicines whose growth should continue during the years to come: Plavix®, Aprovel®, Ambien®, Arixtra®, Eloxatin®, whilst awaiting the registration of Xatral® o.d. in the United States at the end of 2003. We remain confident that, in the coming years, we will continue to be a company with one of the highest growth rates in our industry both for sales and for earnings, and which will be capable of overcoming the challenges which confront the global pharmaceutical industry.*
