EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended September 30, 2013 of BioMed Realty Trust, Inc., a Maryland corporation, and BioMed Realty, L.P., a Maryland limited partnership of which BioMed Realty Trust, Inc. is the parent company and general partner. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our” or “our company” refer to BioMed Realty Trust, Inc. together with its consolidated subsidiaries, including BioMed Realty, L.P. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “our operating partnership” or “the operating partnership” refer to BioMed Realty, L.P. together with its consolidated subsidiaries.

BioMed Realty Trust, Inc. operates as a real estate investment trust, or REIT, and is the general partner of BioMed Realty, L.P. As of September 30, 2013, BioMed Realty Trust, Inc. owned an approximate 97.3% partnership interest and other limited partners, including some of our directors, executive officers and their affiliates, owned the remaining 2.7% partnership interest (including long term incentive plan units) in BioMed Realty, L.P. As the sole general partner of BioMed Realty, L.P., BioMed Realty Trust, Inc. has the full, exclusive and complete responsibility for the operating partnership’s day-to-day management and control.

There are a few differences between our company and our operating partnership, which are reflected in the disclosure in this report. We believe it is important to understand the differences between our company and our operating partnership in the context of how BioMed Realty Trust, Inc. and BioMed Realty, L.P. operate as an interrelated consolidated company. BioMed Realty Trust, Inc. is a REIT, whose only material asset is its ownership of partnership interests of BioMed Realty, L.P. As a result, BioMed Realty Trust, Inc. does not conduct business itself, other than acting as the sole general partner of BioMed Realty, L.P., issuing public equity from time to time and guaranteeing certain debt of BioMed Realty, L.P. BioMed Realty Trust, Inc. itself does not hold any indebtedness but guarantees some of the secured and unsecured debt of BioMed Realty, L.P. BioMed Realty, L.P. holds substantially all the assets of the company and holds the ownership interests in the company’s joint ventures. BioMed Realty, L.P. conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for net proceeds from public equity issuances by BioMed Realty Trust, Inc., which are generally contributed to BioMed Realty, L.P. in exchange for partnership units, BioMed Realty, L.P. generates the capital required by the company’s business through BioMed Realty, L.P.’s operations, by BioMed Realty, L.P.’s direct or indirect incurrence of indebtedness or through the issuance of partnership units.

Noncontrolling interests and stockholders’ equity and partners’ capital are the main areas of difference between the consolidated financial statements of BioMed Realty Trust, Inc. and those of BioMed Realty, L.P. The operating partnership and long term incentive plan units in BioMed Realty, L.P. that are not owned by BioMed Realty Trust, Inc. are accounted for as partners’ capital in BioMed Realty, L.P.’s financial statements and as noncontrolling interests in BioMed Realty Trust, Inc.’s financial statements. The noncontrolling interests in BioMed Realty, L.P.’s financial statements include the interests of joint venture partners. The noncontrolling interests in BioMed Realty Trust, Inc.’s financial statements include the same noncontrolling interests at the BioMed Realty, L.P. level as well as the limited partnership unitholders of BioMed Realty, L.P., not including BioMed Realty Trust, Inc. The differences between stockholders’ equity and partners’ capital result from the differences in the equity issued at the BioMed Realty Trust, Inc. and BioMed Realty, L.P. levels.

We believe combining the quarterly reports on Form 10-Q of BioMed Realty Trust, Inc. and BioMed Realty, L.P. into this single report:

- better reflects how management and the analyst community view the business as a single operating unit,
 - enhances investor understanding of our company by enabling them to view the business as a whole and in the same manner as management,
 - is more efficient for our company and results in savings in time, effort and expense, and
 - is more efficient for investors by reducing duplicative disclosure and providing a single document for their review.
- To help investors understand the significant differences between our company and our operating partnership, this report presents the following separate sections for each of BioMed Realty Trust, Inc. and BioMed Realty, L.P.:
- consolidated financial statements,
 - the following notes to the consolidated financial statements:

Equity / Partners' Capital,
Debt, and

BIOMED REALTY TRUST, INC.

BIOMED REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Organization of the Parent Company and Description of Business

BioMed Realty Trust, Inc., a Maryland corporation (the “Parent Company”), operates as a fully integrated, self-administered and self-managed real estate investment trust (“REIT”) focused on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry principally through its subsidiary, BioMed Realty, L.P., a Maryland limited partnership (the “Operating Partnership” and together with the Parent Company referred to as the “Company”). The Company’s tenants primarily include biotechnology and pharmaceutical companies, scientific research institutions, government agencies and other entities involved in the life science industry. The Company’s properties are generally located in markets with well-established reputations as centers for scientific research, including Boston, San Francisco, Maryland, San Diego and New York and, through Wexford Science and Technology, LLC and related entities (collectively, “Wexford”), with universities and their related medical systems such as Wake Forest University in Winston-Salem, North Carolina, University of Pennsylvania in Philadelphia, Pennsylvania, and Washington University in St. Louis, Missouri.

The Parent Company is the sole general partner of the Operating Partnership and, as of September 30, 2013, owned a 97.3% interest in the Operating Partnership. The remaining 2.7% interest in the Operating Partnership is held by limited partners. Each partner’s percentage interest in the Operating Partnership is determined based on the number of operating partnership units and long-term incentive plan units (“LTIP units” and together with the operating partnership units, the “OP units”) owned as compared to total OP units (and potentially issuable OP units, as applicable) outstanding as of each period end and is used as the basis for the allocation of net income or loss to each partner.

2. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying interim financial statements are unaudited, but have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and in conjunction with the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, they do not include all the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments and eliminations, consisting of normal recurring adjustments necessary for a fair presentation of the financial statements for these interim periods have been recorded. These financial statements should be read in conjunction with the audited consolidated financial statements and notes therein included in the Company’s annual report on Form 10-K for the year ended December 31, 2012.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, partnerships and limited liability companies it controls, and variable interest entities (“VIEs”) for which the Company has determined itself to be the primary beneficiary. All material intercompany transactions and balances have been eliminated. The Company consolidates entities the Company controls and records a noncontrolling interest for the portions not owned by the Company. Control is determined, where applicable, by the sufficiency of equity invested and the rights of the equity holders, and by the ownership of a majority of the voting interests, with consideration given to the existence of approval or veto rights granted to the minority stockholder. If the minority stockholder holds substantive participating rights, it overcomes the presumption of control by the majority voting interest holder. In contrast, if the minority stockholder simply holds protective rights (such as consent rights over certain actions), it does

not overcome the presumption of control by the majority voting interest holder.

Assets and liabilities of subsidiaries outside the United States with non-U.S. dollar functional currencies are translated into U.S. dollars using exchange rates as of the balance sheet dates. Income and expenses are translated using the average exchange rates for the reporting period. Foreign currency translation adjustments are recorded as a component of other comprehensive income. For the three months ended September 30, 2013 and 2012, total revenues from properties outside the United States were \$4.5 million and \$4.4 million, respectively, which represented 2.8% and 3.3% of the Company's total revenues during the respective periods. For the nine months ended September 30, 2013 and 2012, total revenues from properties outside the United States were \$13.5 million and \$5.3 million, respectively, which represented 2.8% and 1.4% of the Company's total revenues during the respective periods. The Company's net investment in properties outside the United States was \$190.5 million and \$188.8 million at September 30, 2013 and December 31, 2012, respectively.

Table of Contents

Investments in Partnerships and Limited Liability Companies

The Company has determined that it is the primary beneficiary in five VIEs, consisting of single-tenant properties in which the tenant has a fixed-price purchase option, which are consolidated and reflected in the accompanying consolidated financial statements. Selected financial data of the VIEs at September 30, 2013 and December 31, 2012 consist of the following (in thousands):

Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed

The Company reviews long-lived assets and certain identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset's use and eventual disposition. These cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of leasing demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a long-lived asset, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair-value of the property. The Company is required to make subjective assessments as to whether there are impairments in the values of its investments in long-lived assets. These assessments have a direct impact on the Company's net income because recording an impairment loss results in an immediate negative adjustment to net income. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Although the Company's strategy is to hold its properties over the long-term, if the Company's strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to the lower of the carrying amount or fair-value, and such loss could be material.

In April 2012, the Company completed the exchange of a property for another real estate operating property. As a result, the property disposed of was reclassified as a discontinued operation. This property was written down to its

estimated fair-value of \$28.0 million, less costs to sell, which resulted in an impairment loss of \$4.6 million that is included in loss from discontinued operations for the nine months ended September 30, 2012. The parties to the exchange determined and agreed upon the fair-value of the property received in the transaction, which the Company considers to be a level 2 input in the fair-value hierarchy. See Note 12 for discussion of discontinued operations.

Deferred Leasing Costs, Net

Leasing commissions and other direct costs associated with obtaining new or renewal leases are recorded at cost and amortized on a straight-line basis over the terms of the respective leases, with remaining terms ranging from less than one year to approximately

Investments

Investments in equity securities, which are included in other assets on the accompanying consolidated balance sheets, consisted of the following (in thousands):

	September 30, 2013	December 31, 2012
Available-for-sale securities, historical cost	\$8,840	\$275
Unrealized gain, net	8,551	115

Privately-held securities, cost basis	13,130	12,280
Total equity securities	\$30,521	\$12,670

(1) Determination of fair-value is classified as Level 1 in the fair-value hierarchy based on the use of quoted prices in active markets.

The Company holds investments in available-for-sale securities of certain publicly traded companies. Certain of these investments have fair-values less than the Company's cost basis, net of previous other-than-temporary impairment in these securities due to decreases in their respective stock prices during the nine months ended September 30, 2013. However, management has the intent and ability to retain the investments for a period of time sufficient to allow for an anticipated recovery in their market value. Management will continue to periodically evaluate whether any investment, the fair-value of which is less than the Company's cost basis, should be considered other-than-temporarily impaired. If other-than-temporary impairment is considered to exist, the related unrealized loss will be reclassified from accumulated other comprehensive loss and recorded as a reduction of net income.

The Company also holds investments in securities of certain privately-held companies and funds, which are recorded at cost basis due to the Company's lack of control or significant influence over such companies and funds.

During the nine months ended September 30, 2013, the Company recorded a \$2.8 million impairment charge, which is included in other expense in the consolidated statements of operations. The impairment charge related to the Company's investment in a privately-held company, comprising a \$2.0 million cost basis equity investment and \$825,000 related to notes receivable that were included in other assets on the consolidated balance sheets. Other than this investment there were no identified events or changes in circumstances that may have a significant adverse effect on the carrying value of the Company's cost basis investments

Table of Contents

and therefore, no evaluation of impairment was performed during the nine months ended September 30, 2013 on the Company's remaining cost basis investments.

Construction Loan Receivable

The Company has a \$255.0 million interest in a \$355.0 million construction loan secured by first priority mortgages on a 1.1 million square foot laboratory, office and retail development project located in Boston, Massachusetts, which is 95% leased to Vertex Pharmaceuticals Incorporated to serve as its new corporate headquarters.

The construction loan matures on September 30, 2014, with two one-year extension options exercisable at the borrower's election after paying the lenders an extension fee on the then-outstanding principal amount. The construction loan bears interest on the outstanding principal amount at a floating rate equal to the greater of (1) reserve adjusted LIBOR plus 550 basis points and (2) 6.5%. In addition, the borrower is required to pay a fee to the lenders based on a specified percentage of the average daily unfunded amount of the construction loan. The borrower may prepay the construction loan in part under certain circumstances, and may prepay the construction loan in full with prior notice and a prepayment fee to the lenders. As of September 30, 2013, the Company had invested approximately \$120.9 million in the construction loan, which is included in other assets on the Company's consolidated balance sheet. The Company expects to have fully funded its obligation in early 2014.

Lease Termination

During the three and nine months ended September 30, 2013, the Company recorded lease termination revenue, net of write-offs of lease intangibles, included in other revenue on the consolidated statement of operations of approximately \$1.5 million and \$42.8 million, respectively. Lease termination revenue related to the termination of a lease with Elan Corporation ("Elan") at the Company's Science Center at Oyster Point property for which Elan paid the Company \$46.5 million, and the termination of a lease effective August 2013 with Merck at the Company's 320 Bent Street property for which Merck paid the Company \$8.7 million in August 2012.

Management's Estimates

Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reporting of revenue and expenses during the reporting period to prepare these consolidated financial statements in conformity with GAAP. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and reported amounts of revenue and expenses that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions or conditions.

3. Equity of the Parent Company

During the nine months ended September 30, 2013, the Parent Company issued restricted stock awards to the Company's employees and directors totaling 620,590 and 26,897 shares of common stock, respectively (253,289 shares of common stock were surrendered to the Company and subsequently retired in lieu of cash payments for taxes due on the vesting of restricted stock and 38,821 shares were forfeited during the same period), which are included in the total of common stock outstanding as of the period end.

Of the restricted stock awards issued to the Company's employees, 20,069 shares were issued as part of the consideration paid in the Company's merger with Wexford (as discussed below), and 41,568 shares are subject to performance-based vesting conditions. In addition, in connection with the merger with Wexford, the Operating

Partnership issued 132,441 operating partnership units which are also subject to performance-based vesting conditions. The aggregate grant date fair-value of these performance-based awards of approximately \$3.6 million will be recognized as compensation expense on a straight-line basis over each respective vesting period. The total compensation expense remaining for these awards to be expensed in future periods as of September 30, 2013 was approximately \$3.3 million over a weighted-average term of approximately 3.70 years. Dividends and distributions are payable on these awards from the date of issuance.

The Parent Company awarded units to certain of its executive officers (the "Performance Units"), which represent a contingent right to receive one share of the Parent Company's common stock if vesting conditions are satisfied. Outstanding Performance Units vest ratably over two or three year periods (each, a "Performance Period") based upon the Parent Company's total stockholder return relative to its peer group (the "Market Conditions"). The grant date fair-value of the Performance Units was estimated using

a Monte Carlo simulation which considered the likelihood of achieving the Market Conditions. The expected value of the Performance Units on the grant date was determined by simulating the total stockholder return for the Parent Company and the peer group, considering the stock price variance for each of the peer group companies compared to each other and the Parent Company. In January 2013, 136,296 Performance Units, which were originally granted to certain executive officers in January 2012 and represent the maximum number of Performance Units that could have vested, were forfeited as a result of the Parent Company's total stockholder return relative to its peer group in 2012 being below the threshold for any payout. During the nine months ended September 30, 2013, the Parent Company awarded 406,288 performance units which represent the maximum number of Performance Units that may vest. The grant date fair-value of these awards of approximately \$3.6 million will be recognized as compensation expense on a straight-line basis over each respective Performance Period. The total compensation remaining on the Performance Units granted during the nine months ended September 30, 2013 to be expensed in future periods over a weighted-average term of approximately 1.78 years was \$2.5 million as of September 30, 2013. No dividends will be paid or accrued on the Performance Units, and shares of the Parent Company's common stock will not be issued until vesting of the Performance Units occurs.

In February 2013, the Parent Company issued 14,605,000 shares of common stock and contributed net proceeds of approximately \$287.0 million, after deducting the underwriters' discounts and commissions and offering expenses, to the Operating Partnership in exchange for the issuance of 14,605,000 operating partnership units. The net proceeds to the Operating Partnership were utilized to fund the acquisition of the Woodside Technology Park property in Redwood City, California, to fund a portion of the redemption of all 7,920,000 outstanding shares of the Parent Company's 7.375% Series A Cumulative Redeemable Preferred Stock ("Series A preferred stock"), to repay a portion of the outstanding indebtedness under its unsecured line of credit and for other general corporate and working capital purposes.

In April 2013, the Parent Company issued 17,250,000 shares of common stock and contributed net proceeds of approximately \$354.1 million, after deducting the underwriters' discounts and commissions and offering expenses, to the Operating Partnership in exchange for the issuance of 17,250,000 operating partnership units. The net proceeds to the Operating Partnership were utilized to repay a portion of the outstanding indebtedness under its unsecured line of credit, to fund a portion of the purchase price of the merger with Wexford and for other general corporate and working capital purposes.

In May 2013, as part of the consideration paid for the merger with Wexford, the sellers received 5,568,227 shares of the Parent Company's common stock and 336,960 operating partnership units, of which 20,069 shares of common stock and all of the operating partnership units are subject to certain restrictions.

In June 2013, as part of the consideration paid for the Company's acquisition of the 320 Charles Street property in Cambridge, Massachusetts, the seller received 2,034,211 operating partnership units.

Common Stock, Operating Partnership Units and LTIP Units

As of September 30, 2013, the Company had outstanding 192,106,749 shares of the Parent Company's common stock and 5,083,400 and 332,574 operating partnership and LTIP units, respectively (excluding operating partnership units held by the Parent Company). A share of the Parent Company's common stock and the operating partnership and LTIP units have essentially the same economic characteristics as they share equally in the total net income or loss and distributions of the Operating Partnership.

7.375% Series A Cumulative Redeemable Preferred Stock

On March 15, 2013, the Company redeemed all 7,920,000 outstanding shares of its Series A preferred stock for approximately \$198.0 million, or \$25.00 per share, net of accrued dividends of approximately \$2.4 million, or \$0.30217 per share. The redemption of the Series A preferred stock resulted in the recognition of costs on redemption of preferred stock of approximately \$6.5 million for the nine months ended September 30, 2013 as a result of the difference between the carrying value and the price paid to redeem the Series A preferred stock.

Dividends and Distributions

The following table lists the dividends and distributions declared by the Parent Company and the Operating Partnership during the nine months ended September 30, 2013:

Noncontrolling Interests

Noncontrolling interests on the consolidated balance sheets of the Parent Company relate primarily to the OP units in the Operating Partnership that are not owned by the Parent Company. With respect to the noncontrolling interests in the Operating Partnership, noncontrolling interests with redemption provisions that permit the issuer to settle in either

cash or common stock at the option of the issuer are further evaluated to determine whether temporary or permanent equity classification on the balance sheet is appropriate. Because the OP units comprising the noncontrolling interests contain such a provision, the Company evaluated this guidance, including the requirement to settle in unregistered shares, and determined that the OP units meet the requirements to qualify for presentation as permanent equity.

The Company evaluates individual redeemable noncontrolling interests for the ability to continue to recognize the noncontrolling interest as permanent equity in the consolidated balance sheets. Any redeemable noncontrolling interest that fails to qualify as permanent equity will be reclassified as temporary equity and adjusted to the greater of (1) the carrying amount, or (2) its redemption value at the end of the period in which the determination is made.

Table of Contents

The redemption value of the OP units not owned by the Parent Company, had such units been redeemed at September 30, 2013, was approximately \$103.2 million based on the average closing price of the Parent Company's common stock of \$19.05 per share for the ten consecutive trading days immediately preceding September 30, 2013.

The following table shows the vested ownership interests in the Operating Partnership:

4. Capital of the Operating Partnership

Operating Partnership Units and LTIP Units

As of September 30, 2013, the Operating Partnership had outstanding 197,190,149 operating partnership units and 332,574 LTIP units. The Parent Company owned 97.3% of the partnership interests in the Operating Partnership at September 30, 2013, is the Operating Partnership's general partner and is responsible for the management of the Operating Partnership's business. As the general partner of the Operating Partnership, the Parent Company effectively controls the ability to issue common stock of the Parent Company upon a limited partner's notice of redemption. In addition, the Parent Company has generally acquired OP units upon a limited partner's notice of redemption in exchange for shares of its common stock. The redemption provisions of OP units owned by limited partners that permit the Parent Company to settle in either cash or common stock at the option of the Parent Company are further evaluated in accordance with applicable accounting guidance to determine whether temporary or permanent equity classification on the balance sheet is appropriate. The Operating Partnership evaluated this guidance, including the requirement to settle in unregistered shares, and determined that these OP units meet the requirements to qualify for presentation as permanent equity.

The redemption value of the OP units owned by the limited partners, not including the Parent Company, had such units been redeemed at September 30, 2013, was approximately \$103.2 million based on the average closing price of the Parent Company's common stock of \$19.05 per share for the ten consecutive trading days immediately preceding September 30, 2013.

5. Debt

Debt of the Parent Company

The Parent Company does not hold any indebtedness. All debt is held directly or indirectly by the Operating Partnership; however, the Parent Company has guaranteed the Operating Partnership's mortgage loan secured by the Company's Center for Life Science I Boston property, Exchangeable Senior Notes due 2030 (the "Exchangeable Senior Notes"), Unsecured Senior Notes due 2016 (the "Notes due 2016"), Unsecured Senior Notes due 2020 (the "Notes due 2020"), Unsecured Senior Notes due 2022 (the "Notes due 2022"), Unsecured Senior Term Loan due 2017 (the "Term Loan due 2017"), Unsecured Senior Term Loan due 2018 (the "Term Loan due 2018") and unsecured line of credit.

- (1) Mortgage notes which were assumed on May 31, 2013 in connection with the Company's merger with Wexford.
- (2) In October 2013, the Operating Partnership voluntarily repaid in full the outstanding mortgage note pertaining to the Heritage @ 4240 property prior to the scheduled maturity.
In August 2012, the Operating Partnership converted approximately \$156.4 million of outstanding borrowings into British pounds sterling ("GBP") equal to £100.0 million, which was designated as a net investment hedge to mitigate the risk of fluctuations in foreign currency exchange rates. The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at both September 30, 2013 and December 31, 2012. The effective interest rate includes the impact of interest rate swap agreements (see Note 9 for further discussion of interest rate swap agreements).
- (3) In September 2013, the Operating Partnership amended and restated its unsecured credit agreement, providing for aggregate borrowing of up to \$1.25 billion, consisting of an unsecured line of credit of \$900.0 million and a term loan of \$350.0 million (the Term Loan due 2018). In connection with the amendment and restatement of the credit agreement, unamortized loan fees under the previous credit agreement of approximately \$462,500 were charged to interest expense.
- (4) At September 30, 2013, the Operating Partnership had additional borrowing capacity under the unsecured line of credit of up to approximately \$880.0 million.
- (5)

Exchangeable Senior Notes

The exchange rate for the Exchangeable Senior Notes may be adjusted under certain circumstances, including the payment of cash dividends in excess of \$0.14 per share of common stock. The increase in the quarterly cash dividend through the third quarter of 2013 resulted in an increase in the exchange rate of the Exchangeable Senior Notes to 57.8068 shares per \$1,000 principal amount of Exchangeable Senior Notes (effective conversion value of \$17.30 per share), as of September 26, 2013, the Company's ex-dividend date.

Amended and Restated Credit Facility and Term Loan Amendment

On September 24, 2013, the Operating Partnership entered into an amended and restated unsecured credit agreement (the "Amended and Restated Credit Facility"), amending and restating its unsecured credit agreement dated July 14, 2011, as amended, and a second amendment (the "Term Loan Amendment") to its senior unsecured term loan facility dated March 30, 2012, as amended, with KeyBank National Association, as Administrative Agent, and certain other lenders.

The Amended and Restated Credit Facility provides for aggregate borrowings of up to \$1.25 billion, consisting of a \$900.0 million revolving line of credit and a \$350.0 million Term Loan due 2018, with a maturity date of March 24, 2018. Subject to the Administrative Agent's reasonable discretion, the Operating Partnership may increase the amount of the commitments under the Amended and Restated Credit Facility up to \$1.8 billion upon satisfying certain conditions. In addition, the Operating Partnership, at its sole discretion, may extend the maturity date to September 24, 2018 after satisfying certain conditions and paying an extension fee. Borrowings under the unsecured line of credit and the Term Loan due 2018 are guaranteed by the Parent Company.

Borrowings under the Amended and Restated Credit Facility bear interest at floating rates equal to, at the Operating Partnership's option, either (1) reserve-adjusted LIBOR plus a spread which ranges from 92.5 to 170 basis points (with respect to the unsecured line of credit) and a spread which ranges from 95 to 195 basis points (with respect to the Term Loan due 2018), in each case depending on the Parent Company's credit ratings, or (2) the highest of (a) the prime rate then in effect plus a spread which ranges from 0 to 70 basis points, (b) the federal funds rate then in effect plus a spread which ranges from 50 to 120 basis points, or (c) one-month LIBOR plus a spread which ranges from 92.5 to 170 basis points (with respect to the unsecured line of credit) and a spread which ranges from 95 to 195 basis

points (with respect to the Term Loan due 2018), in each case depending on the Parent Company's credit ratings. In addition, a facility fee is payable on the total \$900.0 million capacity of the unsecured line of credit, which ranges from 12.5 to 30 basis points per annum, depending on the Parent Company's credit ratings.

The Amended and Restated Credit Facility and Term Loan Amendment changed, among other things, (1) the definition of "Capitalization Rate" to mean 7.25% with respect to all projects other than the Company's Center for Life Science | Boston property, and 6.25% with respect to the Center for Life Science | Boston property and (2) certain definitions used to calculate the financial covenants.

Table of Contents

On September 25, 2013, the Operating Partnership entered into interest rate swap agreements, which are intended to have the effect of fixing interest payments associated with \$200.0 million of the Term Loan due 2018 outstanding at approximately 2.2% for a three-year term, subject to adjustment based on the Parent Company's credit ratings. See Note 9 for further details.

Net Investment Hedge

The Operating Partnership designated the GBP denominated debt under the Term Loan due 2017 as a net investment hedge. The Operating Partnership entered into this net investment hedge to protect a designated amount of the Operating Partnership's net investment in a GBP functional currency subsidiary against the risk of adverse changes in the GBP/U.S. dollar exchange rate (foreign exchange risk). Variability in the GBP/U.S. dollar exchange rate impacts the Operating Partnership (a U.S. dollar functional currency entity) as the financial statements of the GBP functional currency subsidiary are translated each period, with the effect of changes in the GBP/U.S. dollar exchange rate being recorded in accumulated other comprehensive income. When the net investment is sold or substantially liquidated, the balance of the cumulative translation adjustment accumulated in other comprehensive income will be reclassified into earnings. The Operating Partnership is hedging the risk of changes in the U.S. dollar equivalent value of a portion of its net investment in its GBP subsidiary attributable to changes in the GBP/U.S. dollar exchange rate during the period of investment during which the hedging instrument is outstanding.

As of September 30, 2013, principal payments due for the Operating Partnership's consolidated indebtedness (excluding debt premiums and discounts) were as follows (in thousands):

2013	\$6,897
2014	341,415
2015	30,006
2016	566,516
2017	435,520
Thereafter (1)	1,179,819
	\$2,560,173

(1) Includes \$180.0 million in principal payments of the Exchangeable Senior Notes based on a contractual maturity date of January 15, 2030.

6. Earnings Per Share of the Parent Company

Through September 30, 2013 all of the Company's participating securities (including the OP units) received dividends/distributions at an equal dividend/distribution rate per share/unit. As a result, the portion of net income allocable to the weighted-average unvested restricted stock outstanding for the three and nine months ended September 30, 2013 and 2012 has been deducted from net income available to common stockholders to calculate basic earnings per share. The calculation of diluted earnings per share for the three and nine months ended September 30, 2013 and the three months ended September 30, 2012 includes the outstanding OP units (both vested and unvested) in the weighted-average shares, and net income attributable to noncontrolling interests in the Operating Partnership has been added back to net income available to common stockholders. For the nine months ended September 30, 2012, the outstanding OP units (both vested and unvested) were anti-dilutive to the calculation of diluted earnings per share and were therefore excluded and net income attributable to noncontrolling interests in the Operating Partnership has not been added back to net income available to common stockholders. For the three and nine months ended September 30, 2013, the Performance Units were dilutive to the calculation of diluted earnings per share as calculated, assuming that September 30, 2013 was the end date of the Performance Units' Performance Period. For the three and nine months

ended September 30, 2012, the Performance Units were anti-dilutive to the calculation of diluted earnings per share as calculated, assuming that September 30, 2012 was the end date of the Performance Units' Performance Period. For the three and nine months ended September 30, 2013 and 2012, the unvested restricted stock was anti-dilutive to the calculation of diluted earnings per share and was therefore excluded. As a result, diluted earnings per share was calculated based upon net income available to common stockholders less net income allocable to unvested restricted stock and distributions in excess of earnings attributable to unvested restricted stock. In addition, 10,405,224 and 10,127,232 shares issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per share based on the "if converted" method for the three and nine months ended September 30, 2013 and 2012, respectively. No other shares were considered anti-dilutive for the three and nine months ended September 30, 2013 or 2012.

Computations of basic and diluted earnings per share (in thousands, except share data) were as follows:

7. Earnings Per Unit of the Operating Partnership

Through September 30, 2013, all of the Operating Partnership's participating securities received distributions at an equal distribution rate per unit. As a result, the portion of net income allocable to the weighted-average unvested OP units outstanding for the three and nine months ended September 30, 2013 and 2012 has been deducted from net income available to unitholders to calculate basic earnings per unit. For the three and nine months ended September 30, 2013 and 2012, the unvested OP units were anti-dilutive to the calculation of earnings per unit and were therefore excluded from the calculation of diluted earnings per unit, and diluted earnings per unit is calculated based upon net income attributable to unitholders. For the three and nine months ended September 30, 2013, the Performance Units were dilutive to the calculation of diluted earnings per unit as calculated, assuming that September 30, 2013 was the end date of the Performance Units' Performance Period. For the three and nine months ended September 30, 2012, the Performance Units were anti-dilutive to the calculation of diluted earnings per unit as calculated, assuming that September 30, 2012 was the end date of the Performance Units' Performance Period. In addition, 10,405,224 and 10,127,232 units issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per unit based on the "if converted" method for the three and nine months ended September 30, 2013 and 2012, respectively. No other units were considered anti-dilutive for the three and nine months ended September 30, 2013 or 2012.

Computations of basic and diluted earnings per unit (in thousands, except unit data) were as follows:

Table of Contents

The accompanying consolidated financial statements include investments in two limited liability companies with Prudential Real Estate Investors ("PREI"), 10165 McKellar Court, L.P. ("McKellar Court"), a limited partnership with Quidel Corporation, the tenant which occupies the McKellar Court property and BioPark Fremont, LLC ("BioPark Fremont"), a limited liability company with RPC Poppleton, LLC. General information on the PREI limited liability companies, the McKellar Court partnership, and BioPark Fremont (each referred to in this footnote individually as a "partnership" and collectively as the "partnerships") as of September 30, 2013 was as follows:

Name	Partner	Company's Ownership Interest	Company's Economic Interest	Date Acquired
PREI I LLC (1)	PREI	20%	20%	April 4, 2007
PREI II LLC	PREI	20%	20%	April 4, 2007
McKellar Court (2)	Quidel Corporation	22%	22%	September 30, 2004
BioPark Fremont (3)	RPC Poppleton, LLC	50%	50%	May 31, 2013

(1) PREI I LLC owns two properties in Cambridge, Massachusetts. At September 30, 2013, there were \$139.0 million in outstanding borrowings on a secured loan facility held by a wholly-owned subsidiary of PREI I LLC, with a contractual interest rate of 3.19% (including the applicable credit spread) and a maturity date of August 13, 2014.

(2) The Company's investment in the McKellar Court partnership (maximum exposure to losses) was approximately \$12.1 million at September 30, 2013. The Company's economic interest in the McKellar Court partnership entitles it to 75% of the extraordinary cash flows after repayment of the partners' capital contributions and 22% of the operating cash flows.

(3) The Company's partnership interest was acquired in connection with the Company's merger with Wexford.

The condensed combined balance sheets for all of the Company's unconsolidated partnerships were as follows (in thousands):

- The Company acts as the operating member or partner, as applicable, and day-to-day manager for the partnerships.
- (1) The Company is entitled to receive fees for providing construction and development services (as applicable) and management services to the PREI joint ventures, which are reflected in tenant recoveries and other income in the consolidated statements of operations.

9. Derivatives and Other Financial Instruments

The Company is exposed to the effect of changes in interest rates on the Operating Partnership's U.S. dollar-LIBOR-based and GBP-LIBOR-based debt. The Company limits this risk by following established risk management policies and procedures including the use of derivatives. The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements related to the Operating Partnership's LIBOR-based debt. To accomplish these objectives, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. The interest rate swaps hedge the Company's exposure to the variability on expected cash flows attributable to changes in interest rates. These interest rate swaps are currently intended to hedge interest payments associated with the Operating Partnership's Term Loan due 2017 and Term Loan due 2018.

On September 25, 2013, the Operating Partnership entered into three interest rate swaps with an aggregate notional amount of \$200.0 million under which at each monthly settlement date the Company either (1) receives the difference between a fixed interest rate (the "Strike Rate") and one-month U.S. dollar -LIBOR if the Strike Rate is less than one-month U.S. dollar-LIBOR or (2) pays such difference if the Strike Rate is greater than one-month U.S. dollar-LIBOR. The interest rate swaps hedge the Company's exposure to the variability on expected cash flows attributable to changes in interest rates on the first interest payments, due date on or after each swap's settlement date, associated with the amount of one-month U.S. dollar LIBOR-based debt equal to each swap's notional amount. These interest rate swaps, with a notional amount of \$200.0 million, are currently intended to hedge interest payments associated with the Operating Partnership's Term Loan due 2018 for three years. No initial investment was made to enter into the interest rate swap agreements.

As of September 30, 2013, the Company had deferred interest costs of approximately \$37.1 million in accumulated other comprehensive loss related to forward starting swaps, which were settled with the corresponding counterparties in 2009. The forward starting swaps were entered into to mitigate the Company's exposure to the variability in expected future cash flows attributable to changes in future interest rates associated with a forecasted issuance of fixed-rate debt, with interest payments for a minimum of ten years. The deferred interest costs will be amortized as additional interest expense over a remaining period of approximately five years.

The following is a summary of the terms of the interest rate swaps and their respective fair-values (dollars in thousands):

	Notional Amount	Strike Rate	Effective Date	Expiration Date	Fair-Value(1)	
					September 30, 2013	December 31, 2012
Interest rate swaps	\$200,000	1.1630 %	March 30, 2012	March 30, 2017	\$(2,291)	\$(4,826)
Interest rate swaps	200,000	0.7010 %	October 1, 2013	October 1, 2016	(330)	—
Interest rate swaps(2)	80,815	0.7310 %	August 2, 2012	March 30, 2017	890	(216)
Interest rate swaps(2)	80,815	0.7425 %	August 2, 2012	March 30, 2017	866	(243)
Total interest rate swaps	\$561,630				\$(865)	\$(5,285)

-
- Fair-value of derivative instruments does not include any related accrued interest payable, which is included in accrued expenses on the accompanying consolidated balance sheets. Derivative valuations are classified in Level 2 of the fair-value hierarchy. Assets are included in other assets and liabilities are included in accounts payable, accrued expenses and other liabilities on the accompanying consolidated balance sheets.
- (1)
- (2) Translation to U.S. dollars is based on an exchange rate of \$1.62 to £1.00 at both September 30, 2013 and December 31, 2012.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair-value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings in the period in which the hedged forecasted transaction affects earnings. During the three months ended September 30, 2013 and 2012, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in

Table of Contents

fair-value of the derivatives is recognized directly in earnings. No portion of the derivatives designated as cash flow hedges were classified as ineffective during the three months ended September 30, 2013 and 2012.

The following is a summary of the amount of (loss) / gain recognized in other comprehensive income related to the derivative instruments (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Amount of (loss) / gain recognized in other comprehensive income (effective portion):				
Cash flow hedges				
Interest rate swaps	\$(1,371)	\$(2,523)	\$2,653	\$(6,701)
Amount of loss reclassified from accumulated other comprehensive loss to income (effective portion):				
Cash flow hedges				
Interest rate swaps (1)	\$600	\$522	\$1,752	\$999
Forward starting swaps (2)	1,705	1,730	5,134	5,209
Total interest rate swaps	\$2,305	\$2,252	\$6,886	\$6,208

Amount represents payments made to swap counterparties for the effective portion of interest rate swaps that were (1) recognized as an increase to interest expense for the periods presented (the amount was recorded as an increase and corresponding decrease to accumulated other comprehensive loss in the same accounting period).

(2) Amount represents reclassifications of deferred interest costs from accumulated other comprehensive loss to interest expense related to the Company's previously settled forward starting swaps.

During the next twelve months, the Company estimates that an additional \$10.0 million will be reclassified from accumulated other comprehensive loss as an increase to interest expense.

10. Fair-Value of Financial Instruments

The Company's disclosures of estimated fair-value of financial instruments at September 30, 2013 and December 31, 2012 were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair-value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair-value amounts.

The carrying amounts for cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and other liabilities approximate fair-value due to the short-term nature of these instruments.

The Company utilizes quoted market prices to estimate the fair-value of its fixed-rate and variable-rate debt, when available. If quoted market prices are not available, the Company calculates the fair-value of its mortgage notes payable and other fixed-rate debt based on a currently available market rate assuming the loans are outstanding through maturity and considering the collateral. In determining the current market rate for fixed-rate debt, a market credit spread is added to the quoted yields on federal government treasury securities with similar terms to debt. In determining the current market rate for variable-rate debt, a market credit spread is added to the current effective interest rate. The carrying values of interest rate swaps are reflected at their fair-values.

At September 30, 2013 and December 31, 2012, the aggregate fair-value and the carrying value of the Company's financial instruments were as follows (in thousands):

(1) Fair-values of debt and derivative instruments are classified in Level 2 of the fair-value hierarchy. Fair-value of available-for-sale securities are classified in Level 1 of the fair-value hierarchy.

(2) The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at both September 30, 2013 and December 31, 2012.

(3) The Company's derivative instruments are reflected in other assets and in accounts payable, accrued expenses and other liabilities on the accompanying consolidated balance sheets based on their respective balances (see Note 9).

11. Acquisitions

The Company acquired the following properties during the nine months ended September 30, 2013. The table below reflects the purchase price allocation for these acquisitions and excludes the merger with Wexford, which is discussed below (in thousands):

Wexford - Variable Interest Entities

Wexford is a party to certain contractual arrangements with tax credit investors ("TCIs") that were established to enable the TCIs to receive the benefits of historic tax credits ("HTCs") and/or new market tax credits ("NMTCs") for certain properties owned by Wexford. At May 31, 2013, Wexford owned seven properties that had syndicated HTCs or NMTCs, or both, to TCIs.

Historic Tax Credits and New Market Tax Credits

Capital contributions are made by TCIs into special purpose entities that ultimately invest these funds in the entity that owns the subject property that generates the tax credits. The TCIs are allocated substantially all of the tax credits and hold only a noncontrolling interest in the economic risk and rewards of the special purpose entities. HTCs are delivered to the TCI upon substantial completion of the project. NMTCs are allowed for up to 39% of a qualified investment and are delivered to the TCI after the investment has been funded and spent on a qualified business. HTCs

are subject to 20% recapture per year beginning one year after the completion of the historic rehabilitation of the subject property. NMTCs are subject to 100% recapture until the end of the seventh year following the qualifying investment. The Company has provided the TCIs with certain guarantees which protect the TCIs from loss should a tax credit recapture event occur. The contractual arrangements with the TCIs include a put/call provision whereby the Company may be obligated or entitled to repurchase the ownership interest of the TCIs in the special purpose entities at the end of the tax credit recapture period. The Company anticipates that either the TCIs will exercise their put rights or the Company will exercise its call rights; however, the Company believes that the put rights are more likely to be exercised.

Table of Contents

The Company has determined that the special purpose entities are VIEs, since there is insufficient capital to finance their activities without further subordinated financial support. The Company has determined that it is the primary beneficiary of these VIEs, because it has the authority to direct the activities which most significantly impact their economic performance.

The portion of the TCI's capital contribution that is attributed to the put is recorded at fair-value at inception and is accreted to the expected put price as interest expense in the consolidated statement of operations. At September 30, 2013, approximately \$3.7 million of put liabilities were included in other liabilities in the consolidated balance sheets. The remaining balance of the TCI's capital contribution is initially recorded in other liabilities in the consolidated balance sheets and will be relieved, upon delivery of the tax credit to the TCI, as a reduction in the carrying value of the subject property, net of allocated expenses. During the nine months ended September 30, 2013, \$12.3 million of tax credits, net of costs and estimated put payments, were contributed by TCIs which were recorded as other liabilities in the consolidated balance sheets, of which \$4.1 million of tax credits have been delivered to the TCIs and were reclassified as a reduction of the carrying value of the subject property. Direct and incremental costs incurred in structuring the transaction are deferred and will be recognized as an increase in the cost basis of the subject property upon the recognition of the related tax credit as discussed above. Subsequent to quarter end, \$5.0 million of tax credits, net of costs, were contributed by and delivered to TCIs and were recorded as a reduction of the carrying value of the subject property.

The Company has determined that certain special purpose entities owning properties under development are VIEs, since there is insufficient capital to finance the remaining development activities without further subordinated financial support. The Company has determined it is the primary beneficiary of these VIEs, because it has the authority to direct the activities which most significantly impact their economic performance. Selected financial data of the VIEs at September 30, 2013 consisted of the following (in thousands):

12. Discontinued Operations

In April 2012, the Company completed the exchange of an operating property on Forbes Boulevard in South San Francisco for an office property located in Redwood City, California. As a result, during the nine months ended September 30, 2012, the Company reclassified the Forbes Boulevard property as a discontinued operation. The table below reflects the details of the property and the exchange (in thousands):

Property	Date of Sale	Original Acquisition Date	Sales Price (1)	Impairment loss
Forbes Boulevard	April 27, 2012	September 5, 2007	\$28,000	\$(4,552)

(1) The sales price was equal to the fair-value of the office property received as consideration in the exchange with the independent third party.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms "we," "us," "our" or the "Company" refer to BioMed Realty Trust, Inc., a Maryland corporation, and any of our subsidiaries, including BioMed Realty, L.P., a Maryland limited partnership of which BioMed Realty Trust, Inc. is the parent company and general partner, which may be referred to herein as the "operating partnership." The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this report. We make statements in this report that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In particular, statements pertaining to our capital resources, portfolio performance and results of operations contain forward-looking statements. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise, and we may not be able to realize them. risks and uncertainties affecting property development and construction; risks associated with tax credits, grants and other subsidies to fund development activities; our failure to effectively manage our growth and expansion into new markets or to successfully operate acquired properties and operations; our ownership of properties outside of the United States that subject us to different and potentially greater risks than those associated with our domestic operations; risks associated with our investments in loans, including borrower defaults and potential principal losses; reductions in asset valuations and related impairment charges; the loss of services of one or more of our executive officers; our failure to qualify or continue to qualify as a REIT; our failure to maintain our investment grade corporate credit ratings or a downgrade in our investment grade corporate credit ratings from one or more of the rating agencies; government approvals, actions and initiatives, including the need for compliance with environmental requirements; the effects of earthquakes and other natural disasters; lack of or insufficient amounts of insurance; and changes in real estate, zoning and other laws and increases in real property tax rates. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The risks included here are not exhaustive, and additional factors could adversely affect our business and financial performance, including factors and risks included in other sections of this report. In addition, we discussed a number of material risks in our annual report on Form 10-K for the year ended December 31, 2012 and in our subsequent quarterly reports on Form 10-Q. Those risks continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Overview

We operate as a fully integrated, self-administered and self-managed REIT focused on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry. Our tenants primarily include biotechnology and pharmaceutical companies, scientific research institutions, government agencies and other entities involved in the life science industry. Our properties are generally located in markets with well-established reputations as centers for scientific research, including Boston, San Francisco, Maryland, San Diego and New York and, through Wexford, with universities and their related medical systems such as Wake Forest University in Winston-Salem, North Carolina, University of Pennsylvania in Philadelphia, Pennsylvania, and Washington University in St. Louis, Missouri.

At September 30, 2013, we owned or had interests in a portfolio of properties with an aggregate of approximately 16.3 million rentable square feet.

The following reflects the classification of our properties between stabilized properties (operating properties in which more than 90% of the rentable square footage is under lease), lease up properties (operating properties in which less than 90% of the rentable square footage is under lease), redevelopment properties (properties that are currently being prepared for their intended use), pre-development properties (development properties that are engaged in activities related to planning, entitlement or other preparations for future construction), unconsolidated partnership properties (properties which we partially own, but are not included in our consolidated financial statements) and development potential (representing management's estimates of rentable square footage if development of these properties was undertaken) at September 30, 2013:

Factors Which May Influence Future Operations

Our long-term corporate strategy is to continue to focus on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry. As of September 30, 2013, our total operating portfolio was 90.7% leased on a weighted-average basis, to 287 tenants. As of December 31, 2012, our total operating portfolio was 92.1% leased on a weighted-average basis, to 209 tenants. The decrease in our total operating portfolio leased percentage and increase in number of tenants was primarily due to our acquisitions completed in 2013, which were 83.5% leased at acquisition.

Our leasing strategy for 2013 focuses on leasing vacant space, negotiating renewals for leases scheduled to expire during the year, and identifying new tenants or existing tenants seeking additional space to occupy the spaces for which we are unable to negotiate such renewals. We may proceed with additional new developments and acquisitions, as real estate and capital market conditions permit. As of September 30, 2013, leases representing 0.4% and 6.3% of our leased square feet were scheduled to expire during 2013 and 2014, respectively. The success of our leasing and development strategy depends on, among other things, general economic conditions, real estate market conditions and life science industry trends in our target markets in the United States and the United Kingdom.

As a result of changing market conditions and the recent economic recession, we believe that the fair-values of some of our properties may have declined below their respective carrying values. However, to the extent that a property has a substantial remaining estimated useful life and management does not believe that the property will be disposed of prior to the end of its useful life, it would be unusual for undiscounted cash flows to be insufficient to recover the property's carrying value. Other than the property sold, we presently have the ability and intent to continue to own and operate our existing portfolio of properties and estimated undiscounted future cash flows from the operation of the properties are expected to be sufficient to recover the carrying value of each property. Accordingly, we do not believe that the carrying value of any of our properties is impaired. If our ability and/or our intent with regard to the operation of our properties otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to fair-value and such loss could be material.

A discussion of additional factors which may influence future operations can be found below under Part II, Item 1A, "Risk Factors," in our annual report on Form 10-K for the year ended December 31, 2012 and in our quarterly report on Form 10-Q for the quarter ended June 30, 2013.

Critical Accounting Policies

A complete discussion of our critical accounting policies can be found in our annual report on Form 10-K for the year ended December 31, 2012.

Results of Operations

Leasing Activity

During the nine months ended September 30, 2013, we executed 86 leasing transactions representing 1,821,853 square feet, including 48 new leases totaling 1,072,036 square feet and 38 leases amended to extend their terms totaling 749,817 square feet. The following table summarizes our leasing activity, including leasing activity in our unconsolidated portfolio, during the nine months ended September 30, 2013:

Pre-leased square feet as of September 30, 2013	13,373		

(1) Current annualized base rent per leased square foot is the monthly contractual rent per leased square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per leased square foot due at each rent commencement date, multiplied by 12 months.

(2) Current annualized base rent per leased square foot - GAAP basis is the monthly contractual rent per square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per square foot due at each rent commencement date, multiplied by 12 months (as adjusted for straight line rent, fair-value lease revenue and lease incentive revenue).

(3) Leases on space which, in management's evaluation, require significant improvements to prepare or condition the premises for its intended purpose or enhance the value of the property. This generally includes capital expenditures for development, redevelopment or repositioning a property.

(4) Leases which are not considered by management to be first generation leases.

The following table summarizes our leasing activity and associated leasing costs for the nine months ended September 30, 2013:

	Number of leases	Square feet	Tenant improvement costs per square foot	Lease commission costs per square foot	Tenant concession costs per square foot (1)
Renewals, amendments, and extensions (2)	38	749,817	\$4.23	\$2.94	\$0.83

addition to the property rather than the replacement of property, plant or equipment. Includes revenue enhancing and non-revenue enhancing recurring capital expenditures.

Total capital expenditures increased \$32.6 million to \$142.8 million for the nine months ended September 30, 2013 from \$110.2 million for the nine months ended September 30, 2012. The change was primarily the result of projects under development in the Wexford portfolio, which was acquired in May 2013, and an increase in maintenance capital expenditures and second generation tenant improvements related to increased leasing activity. See the section entitled "Liquidity and Capital Resources of BioMed Realty, L.P." below for further information on obligations for capital expenditures expected to be incurred in the future.

Acquisition Activity

During the nine months ended September 30, 2013, we acquired approximately 2.9 million rentable square feet of laboratory and office space, which was 83.5% leased at acquisition, and approximately 580,000 square feet of development potential for approximately \$842.6 million, excluding transaction costs:

Property	Market	Closing Date	Rentable Square Feet	Investment (In thousands)	Percent Leased at Acquisition

Net Operating Income. Net operating income increased \$12.0 million to \$107.5 million for the three months ended September 30, 2013 compared to \$95.6 million for the three months ended September 30, 2012. This increase was primarily due to the following:

The acquisition of properties totaling approximately 106,500 square feet in the three months ended September 30, 2012 and properties totaling approximately 2.0 million square feet in the nine months ended September 30, 2013 contributed an additional \$11.2 million in net operating income for the three months ended September 30, 2013 compared to the three months ended September 30, 2012.

The placement of three properties that were operating in 2012 into redevelopment in 2013, partially offset by the placement of two properties that were under development in 2012 into service, resulted in a decrease of \$1.5 million in net operating income for the three months ended September 30, 2013 compared to the three months ended September 30, 2012.

Same property net operating income increased \$2.9 million to \$97.6 million for the three months ended September 30, 2013 compared to \$94.7 million for the three months ended September 30, 2012. This increase was primarily due to increased leasing activity in our same property portfolio during 2012 and 2013, which increased the leased percentage from 87.8% at September 30, 2012 to 87.9% at September 30, 2013, and resulted in an increase in rental revenue of \$3.4 million directly attributable to the commencement of leases in our same property portfolio. On a GAAP basis, the current annualized base rent per square foot decreased from \$38.46 at September 30, 2012 to \$38.38 at September 30, 2013 due to lease up of previously vacant space at a lower average rent than our total overall portfolio on a per square foot basis.

Depreciation and Amortization Expense. Depreciation and amortization expense increased \$10.5 million to \$61.9 million for the three months ended September 30, 2013 compared to \$51.4 million for the three months ended September 30, 2012. The increase was primarily due to the acquisition of properties totaling approximately 1.0 million square feet with an acquisition date fair-value of \$436.4 million in 2012 and properties totaling approximately 2.0 million square feet for an initial investment of \$727.2 million in the nine months ended September 30, 2013.

General and Administrative Expenses. General and administrative expenses increased \$1.7 million to \$11.9 million for the three months ended September 30, 2013 compared to \$10.2 million for the three months ended September 30, 2012. The increase was primarily due to higher staffing levels reflecting our merger with Wexford and our continuing growth and compensation associated with our above-plan leasing and financial performance as compared to the prior year.

Acquisition-Related Expenses. Acquisition-related expenses increased to \$907,000 for the three months ended September 30, 2013 compared to \$176,000 for the three months ended September 30, 2012. Acquisition-related expenses for the three months ended September 30, 2013 are primarily related to our merger with Wexford.

Interest Expense, Net. Interest cost incurred for the three months ended September 30, 2013 totaled \$31.9 million compared to \$28.7 million for the three months ended September 30, 2012. Total interest cost incurred increased primarily as a result of higher average debt balances outstanding during 2013 due to the assumption of mortgages in our merger with Wexford and higher average balances on our unsecured line of credit. Interest expense, net increased \$1.1 million to \$27.9 million for the three months

Table of Contents

ended September 30, 2013 compared to \$26.8 million for the three months ended September 30, 2012, primarily as a result of the increase in interest cost incurred, partially offset by an increase in capitalized interest related to increased development in 2013.

Interest expense, net consisted of the following (in thousands):

	Three Months Ended September 30,	
	2013	2012
Mortgage notes payable	\$ 11,968	\$ 10,075

Other Expense. Other expense increased to \$687,000 for the three months ended September 30, 2013 compared to \$208,000 for the three months ended September 30, 2012. This increase was primarily due to the following:

During the three months ended September 30, 2013, we recorded approximately \$551,000 in net realized losses, which includes our pro-rata allocation of losses of a privately-held company in which we hold a non-controlling investment. At September 30, 2013, our maximum potential future realizable losses were approximately \$107,000 relating to this investment.

During the three months ended September 30, 2013 and 2012, we recorded income tax expense of \$447,000 and \$247,000, respectively, including entity-level taxes on our Granta Park campus in the United Kingdom and certain properties that were acquired in the Wexford merger. The increase was primarily due to additional entity-level taxes incurred by the operation of the Wexford properties.

Other Revenue. During the three months ended September 30, 2013 and 2012, we recorded lease termination revenue of \$1.5 million and \$935,000, respectively. Lease termination revenue for the three months ended September 30, 2013 and 2012 primarily related to the termination of a lease with Merck at our 320 Bent Street property, which expired in August 2013. During the three months ended September 30, 2013, we recorded \$1.8 million of interest revenue related to our construction loan.

(1) Current annualized base rent per square foot - GAAP basis is the monthly contractual rent per square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per square foot due at each rent commencement date, multiplied by 12 months (as adjusted for straight line rent, fair-value lease revenue and lease incentive revenue).

(2) Adjustments to cash basis exclude adjustments to expenses accrued in rental operations, but include straight line rents, fair-value lease revenue, lease incentive revenue, bad debt expense and other revenue (including lease termination revenue).

Net Operating Income. Net operating income increased \$78.5 million to \$345.1 million for the nine months ended September 30, 2013 compared to \$266.7 million for the nine months ended September 30, 2012. This increase was primarily due to lease termination income of \$42.8 million for the nine months ended September 30, 2013 (see the section entitled "Other Revenue" below). Excluding the lease termination income, net operating income increased \$36.7 million to \$302.3 million for the nine months ended September 30, 2013 compared to \$265.6 million for the nine months ended September 30, 2012. This increase was primarily due to the following:

- The acquisition of properties totaling approximately 1.0 million square feet in 2012 and properties totaling approximately 2.0 million square feet in the nine months ended September 30, 2013 contributed an additional \$28.7 million in net operating income for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012.

The placement of three properties that were operating in 2012 into redevelopment in 2013, partially offset by the placement of one property that was under development in 2011 into service, resulted in a decrease of \$2.9 million in net operating income for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012.

Same property net operating income, excluding the impact of lease terminations, increased \$10.2 million to \$263.2 million for the nine months ended September 30, 2013 compared to \$253.0 million for the nine months ended September 30, 2012. This increase was primarily due to the following:

An increase in the percentage of recoverable expenses in our same property portfolio to 86.4% for the nine months ended September 30, 2013 compared to 84.6% for the nine months ended September 30, 2012, which contributed an additional \$1.1 million in net operating income for the nine months ended September 30, 2013.

An increase in rental revenue of \$9.1 million directly attributable to the commencement of leases in our same property portfolio.

Depreciation and Amortization Expense. Depreciation and amortization expense increased \$42.3 million to \$186.2 million for the nine months ended September 30, 2013 compared to \$143.9 million for the nine months ended September 30, 2012. The increase was primarily due to the acquisition of properties totaling approximately 1.0 million

square feet with an acquisition date fair-value of \$436.4 million in 2012 and properties totaling approximately 2.0 million square feet for an initial investment of \$727.2 million in the nine months ended September 30, 2013.

General and Administrative Expenses. General and administrative expenses increased \$4.9 million to \$32.4 million for the nine months ended September 30, 2013 compared to \$27.4 million for the nine months ended September 30, 2012. The increase was primarily due to higher staffing levels reflecting our merger with Wexford and continuing growth and compensation associated with our above-plan leasing and financial performance as compared to the prior year.

Table of Contents

Acquisition-Related Expenses. Acquisition-related expenses decreased to \$5.3 million for the nine months ended September 30, 2013 compared to \$13.1 million for the nine months ended September 30, 2012. Acquisition-related expenses for the nine months ended September 30, 2013 primarily related to our merger with Wexford.

Acquisition-related expenses for the nine months ended September 30, 2012 primarily related to a United Kingdom transfer tax assessed in connection with our purchase of Granta Park.

Interest Expense, Net. Interest cost incurred for the nine months ended September 30, 2013 totaled \$89.9 million compared to \$79.2 million for the nine months ended September 30, 2012. Total interest cost incurred increased primarily as a result of higher average debt balances outstanding during 2013 and increases in the average interest rate on our outstanding borrowings due to the issuance of new indebtedness. Interest expense, net increased \$7.0 million to \$79.9 million for the nine months ended September 30, 2013 compared to \$72.9 million for the nine months ended September 30, 2012, primarily as a result of the increase in interest cost incurred, partially offset by an increase in capitalized interest related to increased development in 2013.

Interest expense, net consisted of the following (in thousands):

	Nine Months Ended September 30,	
	2013	2012
Mortgage notes payable	\$32,647	\$30,233

Total interest expense, net	\$79,890	\$72,863

Other Expense. Other expense increased to \$4.1 million for the nine months ended September 30, 2013 compared to \$580,000 for the nine months ended September 30, 2012. This increase was primarily due to the following:

During the nine months ended September 30, 2013 we recorded approximately \$2.8 million in impairment charge related to our cost basis investment in, and notes receivable from, a privately-held company that is in liquidation.

During the nine months ended September 30, 2012, we repaid in full the outstanding mortgage notes totaling approximately \$32.5 million pertaining to the 6828 Nancy Ridge Drive and Sidney Street properties. This resulted in the recognition of a gain of approximately \$216,000 on early extinguishment of debt representing the write-off of unamortized debt premium, partially offset by the write-off of deferred loan fees. Also during the nine months ended September 30, 2012, significant declines in the value of investments in available-for-sale securities in a publicly traded company that we considered other-than-temporary resulted in the reclassification of approximately \$545,000 of an unrealized loss from other comprehensive income to impairment of securities.

During the nine months ended September 30, 2013 and 2012, we recorded income tax expense related to entity-level taxes on certain of our investments of \$944,000 and \$285,000, respectively. The increase was primarily due to additional entity-level taxes incurred by the operation of certain properties acquired in the Wexford merger.

Other Revenue. During the nine months ended September 30, 2013 and 2012, we recorded lease termination revenue of \$42.8 million and \$1.0 million, respectively. Lease termination revenue for the nine months ended September 30, 2013 primarily related to the termination of leases with Merck at our 320 Bent Street property which expired in August 2013 and Elan at our Science

Table of Contents

Center at Oyster Point property, which expired in March and April 2013. During the nine months ended September 30, 2013, we recorded \$3.9 million of interest revenue related to our construction loan.

Loss from Discontinued Operations. Loss from discontinued operations was approximately \$4.4 million for the nine months ended September 30, 2012 due to an impairment loss that was recorded as a result of the completion of the exchange of our Forbes Boulevard property.

Cash Flows

Comparison of the Nine Months Ended September 30, 2013 to the Nine Months Ended September 30, 2012

	2013	2012	Change
	(In thousands)		
Net cash provided by operating activities	\$204,702	\$176,032	\$28,670
Net cash used in investing activities	(704,902)	(484,309)	(220,593)
Net cash provided by financing activities	509,507	312,362	197,145
Ending cash and cash equivalents balance	29,230	20,646	8,584

Net cash provided by operating activities increased \$28.7 million to \$204.7 million for the nine months ended September 30, 2013 compared to \$176.0 million for the nine months ended September 30, 2012. The increase was primarily due to cash flow generated by acquisitions, cash rent starts on new leases and lease termination payments.

Net cash used in investing activities increased \$220.6 million to \$704.9 million for the nine months ended September 30, 2013 compared to \$484.3 million for the nine months ended September 30, 2012. The increase primarily reflects increased acquisition-related activity and funding of our construction loan receivable during the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012.

Net cash provided by financing activities increased \$197.1 million to \$509.5 million for the nine months ended September 30, 2013 compared to \$312.4 million for the nine months ended September 30, 2012. The increase primarily reflects increased financing requirements due to increased acquisition-related activity and funding of our construction loan receivable during the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The proceeds from our common stock offerings in February 2013 and April 2013 were primarily used to redeem our Series A preferred stock and to acquire properties, including the Wexford portfolio.

Funds from Operations

We present funds from operations, or FFO, and FFO excluding acquisition-related expenses, or CFFO, available to common shares and OP units because we consider them to be important supplemental measures of our operating performance and believe they are frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO and CFFO when reporting their results. FFO and CFFO are intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO and CFFO exclude depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, and, in the case of CFFO, acquisition-related expenses, they provide performance measures that, when compared year over year, reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. We compute FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT. As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable property, impairment charges on depreciable real estate, real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Our computations may differ from the methodologies for calculating FFO and CFFO utilized by other equity REITs and,

accordingly, may not be comparable to such other REITs. Further, FFO and CFFO do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations, or other commitments and uncertainties. FFO and CFFO should not be considered alternatives to net income / (loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as indicators of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions.

Liquidity and Capital Resources of BioMed Realty Trust, Inc.

In this “Liquidity and Capital Resources of BioMed Realty Trust, Inc.” section, the term the “Company” refers only to BioMed Realty Trust, Inc. on an unconsolidated basis, and excludes the operating partnership and all other subsidiaries. For further discussion of the liquidity and capital resources of the Company on a consolidated basis, see the section entitled “Liquidity and Capital Resources of BioMed Realty, L.P.” below.

The Company’s business is operated primarily through the operating partnership. The Company issues public equity from time to time, but does not otherwise generate any capital itself or conduct any business itself, other than incurring certain expenses in operating as a public company which are fully reimbursed by the operating partnership.

The Company itself does not hold any indebtedness, and its only material asset is its ownership of partnership interests of the operating partnership. The Company's

Table of Contents

principal funding requirement is the payment of dividends on its common and preferred shares. The Company's principal source of funding for its dividend payments is distributions it receives from the operating partnership. As of September 30, 2013, the Company owned an approximate 97.3% partnership interest and other limited partners, including some of our directors, executive officers and their affiliates, owned the remaining 2.7% partnership interest (including LTIP units) in the operating partnership. As the sole general partner of the operating partnership, BioMed Realty Trust, Inc. has the full, exclusive and complete responsibility for the operating partnership's day-to-day management and control.

The liquidity of the Company is dependent on the operating partnership's ability to make sufficient distributions to the Company. The primary cash requirement of the Company is its payment of dividends to its stockholders. The Company also guarantees some of the operating partnership's debt, as discussed further in Note 5 of the Notes to Consolidated Financial Statements included elsewhere herein. If the operating partnership fails to fulfill certain of its debt requirements, which trigger the Company's guarantee obligations, then the Company will be required to fulfill its cash payment commitments under such guarantees. However, the Company's only significant asset is its investment in the operating partnership.

We believe the operating partnership's sources of working capital, specifically its cash flow from operations, and borrowings available under its unsecured line of credit, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its stockholders. However, we cannot assure you that the operating partnership's sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distribution payments to the Company. The unavailability of capital could adversely affect the operating partnership's ability to pay its distributions to the Company, which would in turn, adversely affect the Company's ability to pay cash dividends to its stockholders.

Our short-term liquidity requirements consist primarily of funds to pay for future dividends expected to be paid to the Company's stockholders, operating expenses and other expenditures directly associated with our properties, interest expense and scheduled principal payments on outstanding indebtedness, general and administrative expenses, construction projects, capital expenditures, tenant improvements and leasing commissions.

The Company may from time to time seek to repurchase or redeem the operating partnership's outstanding debt, the Company's shares of common stock or other securities in open market purchases, privately negotiated transactions or otherwise. Such repurchases or redemptions, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

For the Company to maintain its qualification as a REIT, it must pay dividends to its stockholders aggregating annually at least 90% of its ordinary taxable income. While historically the Company has satisfied this distribution requirement by making cash distributions to its stockholders, it may choose to satisfy this requirement by making distributions of cash or other property, including, in limited circumstances, the Company's own stock. As a result of this distribution requirement, the operating partnership cannot rely on retained earnings to fund its ongoing operations to the same extent that other companies whose parent companies are not REITs can. The Company may need to continue to raise capital in the equity markets to fund the operating partnership's working capital needs, acquisitions and developments.

The Company is a well-known seasoned issuer with an effective shelf registration statement that allows the Company to register an unspecified amount of various classes of equity securities and the operating partnership to register an unspecified amount of various classes of debt securities. As circumstances warrant, the Company may issue equity from time to time on an opportunistic basis, dependent upon market conditions and available pricing. When the Company receives proceeds from preferred or common equity issuances, it is required by the operating partnership's partnership agreement to contribute the proceeds from its equity issuances to the operating partnership in exchange for preferred or common partnership units of the operating partnership. The operating partnership may use the proceeds to repay debt, including borrowings under its unsecured line of credit, to develop new or existing properties, to acquire properties or for general corporate purposes.

Liquidity and Capital Resources of BioMed Realty, L.P.

In this “Liquidity and Capital Resources of BioMed Realty, L.P.” section, the terms “we,” “our” and “us” refer to the operating partnership together with its consolidated subsidiaries or our operating partnership and BioMed Realty Trust, Inc. together with their consolidated subsidiaries, as the context requires. BioMed Realty Trust, Inc., or our Parent Company, is our sole general partner and consolidates our results of operations for financial reporting purposes. Because we operate on a consolidated basis with our Parent Company, the section entitled “Liquidity and Capital Resources of BioMed Realty Trust, Inc.” should be read in conjunction with this section to understand our liquidity and capital resources on a consolidated basis.

Table of Contents

Our short-term liquidity requirements consist primarily of funds to pay for future dividends expected to be paid to our Parent Company's stockholders, operating expenses and other expenditures directly associated with our properties, interest expense and scheduled principal payments on outstanding indebtedness, general and administrative expenses, construction projects, capital expenditures, tenant improvements and leasing commissions.

Certain of our mortgage loans include financial covenants which require us to maintain minimum levels of debt service coverage and a minimum amount of net worth. Management believes that it was in compliance with these covenants as of September 30, 2013.

On February 19, 2013, our Parent Company issued 14,605,000 shares of common stock, including the exercise in full of the underwriters' option to purchase an additional 1,905,000 shares, resulting in net proceeds of approximately \$287.0 million, after deducting the underwriters' discounts and commissions and offering expenses. The net proceeds were contributed to us in exchange for 14,605,000 operating partnership units, and we utilized the net proceeds to fund the acquisition of the Woodside Technology Park property, to fund a portion of the redemption of our Parent Company's Series A preferred stock, to repay a portion of the outstanding indebtedness on our unsecured line of credit and for other general corporate and working capital purposes.

On March 15, 2013, our Parent Company redeemed all 7,920,000 outstanding shares of its Series A preferred stock for approximately \$198.0 million, or \$25.00 per share, net of accrued dividends of approximately \$2.4 million, or \$0.30217 per share.

On April 2, 2013, our Parent Company issued 17,250,000 shares of common stock, including the exercise in full of the underwriters' option to purchase an additional 2,250,000 shares, resulting in net proceeds of approximately \$354.1 million, after deducting the underwriters' discounts and commissions and offering expenses. The net proceeds were contributed to us in exchange for 17,250,000 operating partnership units, and we utilized the net proceeds to fund a portion of the purchase price in connection

with our merger with Wexford, to repay a portion of the outstanding indebtedness under our unsecured line of credit and for other general corporate and working capital purposes.

On May 31, 2013, we completed our merger with Wexford. The aggregate consideration for Wexford at the close of the transaction was approximately \$669.1 million. We assumed approximately \$255 million in debt at fair-value. The sellers received 5,568,227 shares of our Parent Company's common stock and 336,960 operating partnership units, with the balance of the merger consideration paid in cash.

On June 18, 2013, we acquired the 320 Charles Street property in Cambridge, Massachusetts for \$49.5 million, with approximately \$8.0 million paid in cash and the remaining consideration paid through the issuance of 2,034,211 operating partnership units.

On September 24, 2013, we entered into the Amended and Restated Credit Facility, providing for aggregate borrowings of up to \$1.25 billion, consisting of the \$900.0 million unsecured line of credit and the \$350.0 million Term Loan due 2018.

The credit facility governing the Amended and Restated Credit Facility and the Term Loan due 2017 include certain restrictions and covenants relating to, among other things, overall leverage and unsecured leverage ratios, fixed charge coverage, unsecured debt service coverage, maximum amount of secured indebtedness and certain investment limitations. Management believes that it was in compliance with these covenants as of September 30, 2013.

The terms of the indentures governing the Notes due 2016, the Notes due 2020 and the Notes due 2022 require compliance with various financial covenants, including limits on the amount of total leverage and secured debt maintained by us and which require us to maintain minimum levels of debt service coverage. Management believes that it was in compliance with these covenants as of September 30, 2013.

Our long-term liquidity requirements consist primarily of funds to pay for scheduled debt maturities, construction obligations, renovations, expansions, capital commitments and other non-recurring capital expenditures that need to be made periodically, and the costs associated with acquisitions of properties that we pursue. At September 30, 2013, we had acquired a participating interest in a construction loan and entered into construction contracts and lease agreements, with a remaining commitment totaling approximately \$454.3 million related to funding the construction loan, tenant improvements, leasing commissions and construction-related capital expenditures.

We expect to satisfy our short-term liquidity requirements through our existing working capital and cash provided by our operations, the issuance of long-term secured and unsecured indebtedness, the issuance of additional equity or debt securities and the use of net proceeds from the disposition of non-strategic assets. Our rental revenues, provided by our leases, generally provide cash inflows to meet our debt service obligations, pay general and administrative expenses, and fund regular distributions. We expect to satisfy our long-term liquidity requirements through our existing working capital, cash provided by operations, long-term secured and unsecured indebtedness and the issuance of additional equity or debt securities. We also expect to use funds available under our unsecured line of credit to finance acquisition and development activities and capital expenditures on an interim basis. We also expect to utilize tax credits, grants and other subsidies from time to time to fund development activities. In addition, we have an investment grade credit rating, which we believe will provide us with continued access to the unsecured debt markets, providing us with an additional source of long term financing.

BioMed Realty Trust, Inc.'s total capitalization at September 30, 2013 was approximately \$6.2 billion and was comprised of the following (dollars in thousands):

In August 2012, the Operating Partnership converted approximately \$156.4 million of outstanding borrowings of the Term Loan due 2017 into British pounds sterling ("GBP") equal to £100.0 million, which was designated as a net

(2) investment hedge to mitigate the risk of fluctuations in foreign currency exchange rates. \$161.6 million of the principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at September 30, 2013.

Aggregate amount based on the market closing price of the common stock of our Parent Company of \$18.59 per share on the last trading day of the quarter. Limited partners who have been issued OP units have the right to require the operating partnership to redeem part or all of their OP units, which right with respect to LTIP units is

(3) subject to vesting and the satisfaction of other conditions. We may elect to redeem those OP units in exchange for shares of our Parent Company's common stock on a one-for-one basis, subject to adjustment. At September 30, 2013, 192,106,749 of the outstanding OP units had been issued to our Parent Company upon receipt of the net proceeds from the issuance of an equal number of shares of our Parent Company's common stock.

Our organizational documents do not limit the amount of indebtedness that we may incur, and we may adjust the amount of indebtedness that we incur from time to time in light of current economic or market conditions including, but not limited to, the relative costs of debt and equity capital, market conditions for debt and equity securities and fluctuations in the market price of our Parent Company's common stock. The terms of the indentures governing our Notes due 2016, Notes due 2020 and Notes due 2022, the credit facility governing the Term Loan due 2017 and the Amended and Restated Credit Facility require compliance with various financial covenants and ratios, which are discussed in detail above.

We may from time to time seek to repurchase or redeem our outstanding debt or OP units or other securities, and our Parent Company may seek to repurchase or redeem its outstanding shares of common stock or other securities, in each case in open market purchases, privately negotiated transactions or otherwise. Such repurchases or redemptions, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors.

Off-Balance Sheet Arrangements

As of September 30, 2013, we had investments in the following unconsolidated partnerships: (1) BioPark Fremont, LLC, which owns a land parcel located in Baltimore; (2) McKellar Court limited partnership, which owns a single tenant occupied property located in San Diego; and (3) two limited liability companies with PREI, which own a portfolio of properties located in Cambridge, Massachusetts (see Note 8 of the Notes to Consolidated Financial Statements included elsewhere herein for more information).

BioPark Fremont, LLC is a VIE; however, we are not the primary beneficiary. We will receive 50% of the operating cash flows and 50% of the gains upon sale of the property. We account for our membership interest using the equity method. The assets of BioPark Fremont, LLC were \$2.7 million and the liabilities were \$2.8 million at September 30, 2013.

Table of Contents

The McKellar Court partnership is a VIE; however, we are not the primary beneficiary. The limited partner at McKellar Court is the only tenant in the property and will bear a disproportionate amount of any losses. We, as the general partner, will receive 22% of the operating cash flows and 75% of the gains upon sale of the property. We account for our general partner interest using the equity method. The assets of the McKellar Court partnership were \$13.7 million and \$14.1 million at September 30, 2013 and December 31, 2012, respectively, and the liabilities were \$10.5 million at September 30, 2013 and December 31, 2012. Our equity in net income of the McKellar Court partnership was \$683,000 and \$685,000 for the nine months ended September 30, 2013 and 2012, respectively. In December 2009, we provided funding in the form of a promissory note to the McKellar Court partnership in the amount of \$10.3 million, which matures at the earlier of (1) January 1, 2020, or (2) the day that the limited partner exercises an option to purchase our ownership interest. Interest-only payments on the promissory note are due monthly at a fixed rate of 8.15% (the rate may adjust higher after January 1, 2015), with the principal balance outstanding due at maturity.

PREI II LLC is a VIE; however, we are not the primary beneficiary. PREI will bear the majority of any losses incurred. PREI I LLC does not qualify as a VIE. In addition, consolidation is not required as we do not control the limited liability companies. In connection with the formation of the PREI joint ventures in April 2007, we contributed 20% of the initial capital. However, the amount of cash flow distributions that we receive may be more or less based on the nature of the circumstances underlying the cash distributions due to provisions in the operating agreements governing the distribution of funds to each member and the occurrence of extraordinary cash flow events. We account for our member interests using the equity method for both limited liability companies. The assets of the PREI joint ventures were \$252.8 million and \$249.9 million at September 30, 2013 and December 31, 2012, respectively, and the liabilities were \$149.3 million and \$144.7 million at September 30, 2013 and December 31, 2012, respectively. Our equity in net loss of the PREI joint ventures was \$1.4 million and \$1.7 million for the nine months ended September 30, 2013 and 2012, respectively.

We are the primary beneficiary in five other VIEs, consisting of single-tenant properties in which the tenant has a fixed-price purchase option, and VIEs at seven properties with tax credit structures, which are consolidated and reflected in our consolidated financial statements.

Our proportionate share of outstanding debt related to our unconsolidated partnerships is summarized below (dollars in thousands):

Name	Ownership Percentage	Interest Rate(2)	Principal Amount(1)		Maturity Date
			September 30, 2013	December 31, 2012	
BioPark Fremont	50	% 3.7	% \$1,343	\$ —	May 1, 2014
PREI I LLC (3)	20	% 3.2	% 27,795	27,795	August 13, 2014
Total			\$29,138	\$27,795	

(1) Amount represents our proportionate share of the total outstanding indebtedness for each of the unconsolidated partnerships.

(2) Effective or weighted-average interest rate of the outstanding indebtedness as of September 30, 2013.

Amount represents our proportionate share of a secured loan, which bears interest at a LIBOR-indexed variable rate with a borrowing capacity of up to \$139.0 million. The secured loan was executed by a wholly-owned

(3) subsidiary of PREI I LLC in connection with the construction of the 650 East Kendall Street property. In accordance with the loan agreement, Prudential Insurance Corporation of America has guaranteed repayment of the secured loan.

Cash Distribution Policy

We elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, commencing with our taxable year ended December 31, 2004. To qualify as a REIT, we must meet a number of organizational and operational requirements, including the requirement that we distribute currently at least 90% of our ordinary taxable

income to our stockholders. It is our intention to comply with these requirements and maintain our REIT status. As a REIT, we generally will not be subject to U.S. corporate federal, state or local income taxes on taxable income we distribute currently (in accordance with the Code and applicable regulations) to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal, state and local income taxes at regular corporate rates and may not be able to qualify as a REIT for subsequent tax years. Even if we qualify as a REIT for federal income tax purposes, we may be subject to certain foreign, state and local taxes on our income and to federal income and excise taxes on our undistributed taxable income, i.e., taxable income not distributed in the amounts and in the time frames prescribed by the Code and applicable regulations thereunder.

While we most recently paid a dividend on shares of common stock at an annual dividend rate of \$0.94 per share, the actual dividend payable in the future will be determined by our board of directors based upon the circumstances at the time of declaration and, as a result, the actual dividend payable in the future may vary from the current rate. The decision to declare and pay dividends on shares of our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our board of directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and general overall economic conditions and other factors.

The following table provides historical dividend information for our common and preferred stock for the prior two fiscal years and the nine months ended September, 2013:

September 30, 2013	September 16, 2013	October 15, 2013	0.235	—

(1) On March 15, 2013, we redeemed all 7,920,000 outstanding shares of our Series A preferred stock for approximately \$198.0 million, or \$25.00 per share, net of accrued dividends of approximately \$2.4 million, or \$0.30217 per share.

Inflation

Some of our leases contain provisions designed to mitigate the adverse impact of inflation. These provisions generally increase rental rates during the terms of the leases either at fixed rates or indexed escalations (based on the Consumer Price Index or other measures). We may be adversely impacted by inflation on the leases that do not contain indexed escalation provisions. In addition, most of our leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance. This may reduce our exposure to increases in costs and operating expenses resulting from inflation, assuming our properties remain leased and tenants fulfill their obligations to reimburse us for such expenses.

Our unsecured line of credit, a portion of our Term Loan due 2017, the outstanding balance of a mortgage secured by a property in Pennsylvania and our proportionate share of the outstanding balance of the PREI joint ventures' secured construction loan bear interest at variable rates, which will be influenced by changes in short-term interest rates, and will be sensitive to inflation.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows and fair-values relevant to financial instruments depend upon prevailing market interest rates. Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. Many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control contribute to interest

rate risk, equity price risk and foreign currency exchange rate risk.

Interest Rate Risk

As of September 30, 2013, our consolidated debt consisted of the following (dollars in thousands):

56

Table of Contents

	Principal Balance (1)	Percent of Total Debt	Effective Interest Rate at September 30, 2013	
Fixed interest rate (2)	\$1,787,389	69.6	%	5.25
Variable interest rate - hedged (3)	561,630	21.9	%	2.29
Variable interest rate - unhedged (4)	217,790	8.5	%	1.72
Total/weighted-average effective interest rate	\$2,566,809	100.0	%	4.30

(1) Principal balance includes only consolidated indebtedness.

Includes eleven mortgage notes payable secured by certain of our properties (including unamortized premiums), (2) our Exchangeable Senior Notes, our Notes due 2016 (including unamortized debt discount), our Notes due 2020 (including unamortized debt discount) and our Notes due 2022 (including unamortized debt discount).

Includes the hedged portions of our Term Loan due 2017 and Term Loan due 2018, which bear interest at LIBOR-indexed variable interest rates, plus a credit spread. On August 2, 2012, we converted approximately \$156.4 million of outstanding borrowings of the Term Loan due 2017 into GBP equal to £100.0 million. The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at September 30, 2013. The stated effective rate for the variable interest hedged debt includes the impact of our interest rate swap agreements. We have entered into four U.S. dollar interest rate swaps, which are intended to have the effect of initially fixing the interest rate on \$200.0 million of the outstanding amount under our Term Loan due 2017 at a weighted-average interest rate of approximately 2.81% for a five-year term (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings. We have entered into two GBP interest rate swaps, which are intended to have the effect of initially fixing the interest rate on £100.0 million of the outstanding amount under our Term Loan due 2017 at approximately 2.39% for the remaining term of the Term Loan due 2017 (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings. On September 25, 2013, we entered into three U.S. dollar interest rate swaps, which are intended to have the effect of initially fixing the interest rate on \$200.0 million of the outstanding amount under our Term Loan due 2018 at a weighted-average interest rate of approximately 2.20% for a three-year term (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings.

(4) Includes one variable rate mortgage, the unhedged portions of our Term Loan due 2017 and Term Loan due 2018 and our unsecured line of credit, which bear interest at LIBOR-indexed variable interest rates, plus a credit spread. To determine the fair-value of our outstanding consolidated indebtedness, we utilize quoted market prices to estimate the fair-value, when available. If quoted market prices are not available, we calculate the fair-value of our mortgage notes payable and other fixed-rate debt based on an estimate of current lending rates, assuming the debt is outstanding through maturity and considering the notes' collateral. In determining the current market rate for fixed-rate debt, a market credit spread is added to the quoted yields on federal government treasury securities with similar terms to debt. In determining the current market rate for variable-rate debt, a market credit spread is added to the current effective interest rate. At September 30, 2013, the fair-value of all fixed-rate debt was estimated to be equal to the net carrying value of \$1.8 billion (including debt premiums and discounts). At September 30, 2013, the fair-value of all variable-rate debt was estimated to be \$781.5 million compared to the net carrying value of \$779.4 million. We do not believe that the interest rate risk represented by our fixed-rate debt or the risk of changes in the credit spread related to our variable-rate debt was material as of September 30, 2013 in relation to total assets of \$5.9 billion and equity market capitalization of \$3.7 billion of BioMed Realty Trust, Inc.'s common stock, and BioMed Realty, L.P.'s OP units.

Based on the unhedged outstanding balances of our unsecured line of credit, our Term Loan due 2017, our Term Loan due 2018 and our proportionate share of the outstanding balance of the PREI joint ventures' secured construction loan at September 30, 2013, a 1% change in interest rates would change our interest costs by approximately \$2.4 million per year. This amount was determined by considering the impact of hypothetical interest rates on our financial instruments. This analysis does not consider the effect of any change in overall economic activity that could occur in

that environment. Further, in the event of a change of the magnitude discussed above, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, this analysis assumes no changes in our financial structure.

In order to modify and manage the interest rate characteristics of our outstanding debt and to limit the effects of interest rate risks on our operations, we may utilize a variety of financial instruments, including interest rate swaps, caps and treasury locks in order to mitigate our interest rate risk on a related financial instrument. The use of these types of instruments to hedge our exposure to changes in interest rates carries additional risks, including counterparty credit risk, the enforceability of hedging

Table of Contents

contracts and the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. To limit counterparty credit risk we will seek to enter into such agreements with major financial institutions with high credit ratings. There can be no assurance that we will be able to adequately protect against the foregoing risks and will ultimately realize an economic benefit that exceeds the related amounts incurred in connection with engaging in such hedging activities. We do not enter into such contracts for speculative or trading purposes.

Equity Price Risk

We have exposure to equity price market risk because of our equity investments in certain publicly traded companies and privately-held entities. We classify investments in publicly traded companies as “available for sale” and, consequently, record them on our condensed consolidated balance sheets at fair-value, with unrealized gains or losses reported as a component of accumulated other comprehensive income or loss. Investments in privately-held entities are generally accounted for under the cost method because we do not influence any of the operating or financial policies of the entities in which we invest. For all investments, we recognize other-than-temporary declines in value against earnings in the same period during which the decline in value was deemed to have occurred. There is no assurance that future declines in value will not have a material adverse impact on our future results of operations. A 10% decrease in the fair-value of our equity investments as of September 30, 2013, would equal approximately \$3.1 million.

Foreign Currency Exchange Rate Risk

We have exposure to foreign currency exchange rate risk related to our subsidiary operating in the United Kingdom. The functional currency of our foreign subsidiary is GBP. Gains or losses resulting from the translation of our foreign subsidiary’s balance sheet and statement of income are included in other comprehensive income. Gains or losses will be reflected in our statements of income when there is a sale of our investment in these operations or upon a complete or substantially complete liquidation of the investment. For the three months ended September 30, 2013 and 2012, total revenues from our foreign subsidiary were \$4.5 million and \$4.4 million, respectively, which represented 2.8% and 3.3% of our total revenues for the respective periods. For the nine months ended September 30, 2013 and 2012, total revenues from our foreign subsidiary were \$13.5 million and \$5.3 million, respectively, which represented 2.8% and 1.4% of our total revenues for the respective periods. Our net investment in properties outside the United States was \$190.5 million and \$188.8 million as of September 30, 2013 and December 31, 2012, respectively. On August 2, 2012, we converted a portion of the outstanding borrowings of our Term Loan due 2017 into GBP, which we designated as a net investment hedge to mitigate our risk to fluctuations in foreign currency exchange rates. As a result, our unhedged net investment in properties outside the United States was \$28.9 million as of September 30, 2013.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Although we are involved in legal proceedings arising in the ordinary course of business, we are not currently a party to any legal proceedings nor is any legal proceeding threatened against us that we believe would have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2012, as updated by our quarterly report on Form 10-Q for the quarter ended June 30, 2013, which could materially affect our business, financial condition and/or results of operations. There have been no material changes to the risk factors described in the "Risk Factors" section in our annual report on Form 10-K for the year ended December 31, 2012, as so updated. The risks described in our annual report on Form 10-K and quarterly reports on Form 10-Q are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or results of operations.
