registrant in connection with Rule 12g3-2(b):

GOL Linhas Aéreas Inteligentes Combined Fleet Reaches 100 Aircraft With Delivery of New Boeing 737-800 SFP

São Paulo, October 30, 2007 GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), the parent company of Brazil's low-cost airlines GOL Transportes Aéreos S.A. and VRG Linhas Aéreas S.A., announces the delivery of the 100th aircraft in its combined fleet (GOL Transportes Aéreos and VRG Linhas Aéreas). The new Boeing 737-800 SFP (Short Field Performance) will be used on flights operated by GOL Transportes Aéreos.

The delivery of the 100th aircraft is a significant milestone in our history, says Fernando Rockert de Magalhães, GOL's Vice-President Technical. In addition to further reducing costs, new aircraft are essential to serving our expanding route network and the increasing demand for our services.

Boeing developed the 737-800 SFP specifically for operations at two of Brazil's busiest airports: Congonhas Airport in São Paulo and Santos Dumont Airport in Rio de Janeiro, which has one of the shortest runways in the world. The SFPs are also equipped with winglets, a technology that improves aircraft performance during takeoff and affords fuel savings of more than 3 percent per year. All Boeing 737 model aircraft adhere to international safety rules and are certified by U.S. and Brazilian authorities to take-off and land on short runways.

Our main concern is providing customers with a high-quality, safe way to travel throughout Brazil, South America and, with the addition of VRG, new markets in Europe and North America, adds Rockert. We're constantly working to develop innovative solutions that ensure we're offering our customers the best service in the market.

The 737-800 SFPs also include internal alterations that have increased seat capacity by nearly 30 percent on São Paulo Rio de Janeiro shuttle route: SFPs seat 187 passengers compared to 141 seats on the competition's largest aircraft to land at Santos Dumont.

GOL Linhas Aéreas Inteligentes' standardized fleet of Boeing 737 and 767 aircraft is one of Latin America's largest and youngest, with an average age of seven years. In 2007 alone, GOL Linhas Aéreas Inteligentes' combined fleet grew 50 percent, including a 44 percent increase in VRG's fleet. Operating a young, modern fleet provides cost reductions in maintenance and training expenses, which allows GOL Linhas Aéreas Inteligentes to operate at 14 block hours per day, one of the highest aircraft utilization rates in the world. GOL Linhas Aéreas Inteligentes' estimated CASK for 737s and 767s is 14 cents and 12 cents, respectively.

In October 2006, GOL Linhas Aéreas Inteligentes increased the total number of aircraft on order with Boeing to 121 Next Generation 737-800 aircraft (87 firm orders and 34 options), making this order the largest contract between Boeing and a Latin American company. By year-end, GOL Linhas Aéreas Inteligentes' combined fleet will be comprised of 103 aircraft and 112 aircraft by the end of 2008.

About GOL Linhas Aéreas Inteligentes S.A.

GOL Linhas Aéreas Inteligentes S.A. is the parent company of low-cost airlines GOL Transportes Aéreos S.A. (GTA), which operates the GOL brand) and VRG Linhas Aéreas S.A. (VRG), which operates the VARIG brand). GTA and

VRG offer daily flights to more destinations in Brazil than any

other domestic airline while providing customers with the most convenient flight schedules in the country. The airlines operate a young, modern fleet of Boeing aircraft, the safest and most comfortable aircraft of its class, with low maintenance, fuel and training costs, and high aircraft utilization and efficiency ratios. In addition to safe and reliable services, which stimulate brand recognition and customer satisfaction, the Company's service is recognized as the best value proposition in the market. Growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic travel destinations. Shares are listed on the NYSE (GOL) and the Bovespa (GOLL4) stock exchanges.

GOL Transportes Aéreos S.A. offers over 630 daily flights to 58 destinations connecting the most important cities in Brazil as well as the main destinations in Argentina, Bolivia, Chile, Paraguay, Peru and Uruguay. For more information on GOL flight times and fares, please access www.voegol.com.br or call: 0300-115-2121 in Brazil, 0810-266-3131 in Argentina, 800-1001-21 in Bolivia, 1 888 0042 0090 or 1230 020 9104 in Chile, 009 800 55 1 0007 in Paraguay, 0800 52 900 in Peru, 0004 055 127 in Uruguay and 55 11 2125-3200 in other countries.

VRG Linhas Aéreas S.A. offers over 120 daily flights to 14 destinations in Brazil: Belo Horizonte, Brasília, Curitiba, Fernando de Noronha, Florianópolis, Fortaleza, Manaus, Porto Alegre, Recife, Rio de Janeiro (Santos Dumont and Tom Jobim), Salvador and São Paulo (Congonhas and Guarulhos). VRG also offers 22 daily flights to seven international destinations in South America and Europe: Buenos Aires, Bogotá and Caracas, in South America and Frankfurt, London, Paris and Rome, in Europe. FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
