### Operating Performance

The numbers related to the Group's operating performance presented and commented on below refer to consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

### Sales Performance

**Same-store sales grow by 10.3% in the 3Q08, the best quarterly performance for the last three years**

(R\$ million) <sup>(1)</sup>	3Q08	3Q07	Chg.	9M08	9M07	Chg.

(2) basis points

Third-quarter gross sales totaled R\$ 5,055.6 million, 22.4% up on 3Q07, while net sales increased by 26.0% to R\$ 4,407.0 million.

In same-store concept, gross sales recorded an increase of 10.3% and net sales moved up by 13.6%, in both cases outpacing period inflation. Non-food sales grew by 16.1%, led by the electronic products, while food products moved up by 8.5%, also above period inflation.

The same-store performance was due to the Company's policy of maximizing existing resources, the increase in customer traffic, and the higher average ticket. It is worth noting that only 28 stores were opened in the last 12 months, in line with the Group's strategy of seeking adequate profitability and returns on investments in new and existing stores.

In terms of format, Extra and Extra-Eleto were the best performers, recording growth above the Company average thanks to the performance of the non-food category, and CompreBem, due to its more aggressive positioning relative to competitive pricing.

Another initiative that helped the period sales performance was the Pão de Açúcar Group's 60<sup>th</sup> anniversary campaign, which began at the end of August with an innovative format and exclusive offers, including non-food products valid for all stores.

Year-to-date gross sales totaled R\$ 14,934.4 million and net sales came to R\$ 12,890.4 million, 19.4% and 21.9% up year-on-year, respectively, while same-store sales moved up 7.7%, or 2.1% in real terms (deflated by the IPCA general consumer price index), above our 2008 guidance.

In addition, Group sales outperformed the industry average recorded by both the IBGE and ABRAS (the Brazilian Supermarket Association).

As of January 2009, Grupo Pão de Açúcar will be publishing a preliminary quarterly sales report to replace the current monthly sales reports. This change in the reporting process is aimed at reducing share price volatility, caused by an excessive focus on short-term sales performance, thereby ensuring a closer alignment between market estimates and the Company's annual sales growth guidance.

**Gross margin reaches 27.0% in the quarter**  
**Gross profit moves up 18.6% year-on-year**

The 3Q08 gross margin reached 27.0%, 90 bps up on the 26.1% recorded in 2Q08, mainly due to the quarter-over-quarter improvement in Sendas and Assai's gross margins. In year-on-year terms, the gross margin declined by 170 bps. Gross profit totaled R\$ 1,189.8 million, 18.6% up on 3Q07.

As in 2Q08, the third-quarter gross margin was impacted by the maintenance of competitive prices and the change in the Company's product mix with a greater sales share of electronics items, which reduced the margin by around 40 bps in year-on-year terms.

In addition, the incorporation of Assai narrowed the margin by 80 bps.

Another significant impact came from the change in the way in which ICMS (state VAT) is collected, especially in the state of Sao Paulo, which reduced the margin by a further 50 bps.

SG&A expenses represented 18.3% of net sales, substantially below the 21.2% recorded in 3Q07. In absolute terms, they totaled R\$ 804.6 million, 8.4% up year-on-year. However, if we exclude 3Q07 restructuring expenses of R\$ 7.9 million (R\$ 1.9 million of which in selling expenses and R\$ 6.0 million in G&A expenses), growth would come to 9.6%. It is also worth emphasizing that the upturn was well below the period sales increase.

Total operating expenses, including taxes and charges, represented 18.9% of net sales, below the 19.0% target established in the 2008 guidance. This ratio has remained stable since 1Q08, underlining the Company's consistent

Third-quarter EBITDA totaled R\$ 357.2 million, 49.9% up on the R\$ 238.3 million recorded in 3Q07. The EBITDA margin reached 8.1%, versus 6.8% in 3Q07, an increase of 130 bps due to the higher gross margin and the maintenance of cost controls.

In the pro-forma comparison (which excludes the 3Q07 restructuring costs) EBITDA growth came to 45.1%, and if we exclude the Assai effect, the EBITDA margin stood at 8.3% .

In the first nine months, pro-forma EBITDA (excluding the restructuring costs) totaled R\$ 961.7 million, 37.2% up year-on-year, accompanied by a pro-forma EBITDA margin of 7.5%, 90 bps more than the 6.6% recorded in the same period last year, in line with our 2008 guidance target of between 7.5% and 8.0% .

(1) Totals may not tally as the figures are rounded off

Financial revenue grew 4.5% year-on-year to R\$ 72.2 million. Although the Company has maintained a greater average volume of cash invested at higher average rates than in 2007, this was offset by reduced revenue from installment sales (influence of promotional interest-free installment plans).

Financial expenses totaled R\$ 153.7 million, 25.2% up on 3Q07, primarily due to the impact of increased interest rates on a higher gross debt and the restatement of reserves for contingencies.

As a result, the net financial result was R\$ 81.5 million negative, in line with the negative R\$ 81.0 million in the previous quarter.

The last-12-month net debt/EBITDA ratio closed the quarter at 0.94x, better than the annual target of 1x.

At the beginning of the year, Grupo Pão de Açúcar took several important decisions to mitigate the effects of a possible deterioration in the financial markets, including:

- Anticipating funding and substantially strengthening its cash position;

- Investing in improving efficiency and results by substantially reducing expenses and intensifying commercial actions, resulting in increased sales and gains in market share;
- Implementing initiatives to minimize working capital needs, mainly by reducing inventories of low-turnover products (slow movers);
- Reducing 2008 CAPEX, combined with a new decision-making process for investments, which is exceptionally rigorous in regard to the returns on invested capital required for each project.

As a result, the Company closed the quarter with a cash position of R\$ 1.4 billion, all of which is invested in fixed income with major financial institutions in Brazil with good liquidity and at higher rates (% of the CDI) than our average debt rate.

There will be no relevant changes in this cash position until the end of the year and, given the low level of maturities in 2009, it should remain high over the coming quarters.

The debt profile is long-term, with an average maturity of around 800 days.

It is also worth emphasizing that the Company is not exposed to any foreign-exchange risk, both in regard to its debt transactions and its financial investments. The only derivatives it possesses are:

- Swap operations whereby 100% of the foreign-currency debt or the existing balance of the debt indexed to the Brazilian Development Bank (BNDES) currency basket is hedged by an equal volume with the same repayment schedule, transforming the debt into percentage of CDI in reais.
- Swap of the interest on the 6th debenture issue (CDI + 0.5%) for 104.96% of the CDI.

In addition, given the current operational and investment prospects, there will be no need for additional funding in 2009, showing that the company is prepared if the credit crunch continues for a longer period.

### **Equity Income**

#### **The result reflects FIC's strategy in private label and co-branded cards**

In the third quarter of 2008, FIC (Financeira Itaú CBD) recorded a 14.2% share of the Group's total sales, with 5.9 million clients and a receivables portfolio of R\$ 1.4 billion.

It generated a negative equity income of R\$ 199,0 thousand, a substantial improvement over the negative R\$ 9.9 million reported in 3Q07. The quarterly performance was in line with expectations and reflected FIC's strategy of prioritizing the sale of private label and co-branded cards. Card growth was 85% higher than in 3Q07 and represented the highest volume of cards sold in a single quarter.

This strategy will bring important results in the coming quarters and we expect a positive contribution in 4Q08.

**Minority Interest: Sendas Distribuidora**  
**3Q08 EBITDA moves up 141.5% year-on-year**

Sendas Distribuidora recorded gross sales of R\$ 801.6 million in 3Q08, equivalent to 15.9% of the Group total, while net sales came to R\$ 698.1 million.

The third-quarter gross margin stood at 28.6%, 190 bps up on 3Q07, and gross profit totaled R\$ 199.9 million, a 13.6% year-on-year increase.

Operating expenses (SG&A expenses) represented 19.5% of net sales, a significant 260 bps reduction on the third quarter of 2007.

Consequently, the period EBITDA margin stood at 8.0%, versus 3.5% in 3Q07, the best Sendas performance since the operation began in 2004. In absolute terms, 3Q08 EBITDA totaled R\$ 55.8 million, 141.5% up year-on-year.

Despite all of the above, Sendas Distribuidora posted a 3Q08 loss of R\$ 2.0 million, mainly due to the high financial expenses, which generated a positive minority interest of R\$ 840.1 thousand.

Year-to-date EBITDA came to R\$ 137.5 million, 204.1% higher than in the first nine months of 2007, while the EBITDA margin increased by 420 bps, from 2.2% in the 9M07, to 6.4%. This considerable improvement was due to the 110 bps increase in the gross margin and the 310 bps reduction in expenses.

**Minority Interest: Assai Atacadista**  
**Gross margin widens by 260 bps over 2Q08**

Assai recorded gross sales of R\$ 347.8 million in 3Q08, equivalent to 6.9% of total Group sales. Net sales totaled R\$ 305.9 million. Gross profit stood at R\$ 50.1 million, with a gross margin of 16.4%, 260 bps higher than in the previous quarter, thanks to more advantageous negotiations with suppliers and a reduction in shrinkage.

Operating expenses came to 11.5% of net sales in the quarter. This result was expected, reflecting the Company's first-half investments in increased competitiveness, which generated gains in market share and higher sales, diluting operating expenses. Third-quarter EBITDA totaled R\$ 15.1 million, with a margin of 4.9%, and year-to-date EBITDA came to R\$ 26.7 million, with a margin of 3.1%.

Net income totaled R\$ 7.5 million, generating a negative minority interest of R\$ 3.0 million.

**EBIT grows by 353.7% over 3Q07**

Third-quarter EBIT (earnings before income tax) totaled R\$ 124.1 million, 353.7% up year-on-year, mainly due to the improvement in the gross margin and consistent cost controls resulting from the Company's ongoing process overhaul.

Year-to-date pro-forma EBIT stood at R\$ 284.5 million, almost three times more than the R\$ 96.1 million recorded in 3Q07.

The Group posted a third-quarter net income of R\$ 82.5 million, 137.8% up year-on-year, primarily fueled by substantial sales growth and the continuing cost controls, which resulted in a significant improvement in the operating performance.

Pro-forma net income in the first nine months came to R\$ 196.3 million, 99.8% more than in 9M07.

It is worth noting that net income is jeopardized by non-cash expenses. If these accounts are excluded, net income (cash concept) would amount to R\$ 107.4 million in the quarter and R\$ 270.3 million year-to-date.

Seven new stores were opened in the quarter: three convenience stores (Extra Fácil), two Extra stores (one Extra hypermarket and one compact hypermarket) and two Assai stores.

The main quarterly highlights were:

- R\$ 73.2 million in the opening and construction of new stores and the acquisition of sites;
- R\$ 23.5 million in store renovation;
- R\$ 10.3 million in infrastructure (technology and logistics).

Twelve stores currently under construction (one CompreBem, six Extra Fácil and five Assai) will be opened in the final quarter and another 5 stores will be converted into Assai stores.

Since the beginning of the year, 12 new stores have opened and one CompreBem store was converted into an Assai store.
