portfolio of franchise territories across Latin America delivered strong results for the quarter. Our Mexico and Mercosur divisions achieved significant top-line growth, driven by solid volume growth and tactical price increases implemented throughout our operations. Demonstrating its continued strength and consumer popularity throughout our territories, the *Coca-Cola* brand made a substantial contribution to our Company's incremental volumes. We are pleased to serve a growing base of customers and consumers in one of the best markets in which to sell beverages worldwide, Latin America. During the quarter, we paid our shareholders a dividend of Ps. 2,612 million, an important increase over the preceding year which extended our track record of rising dividend payments to seven years in a row. We believe that our Company has the right tools, talents, and capabilities to continue driving successfully our business going forward." said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

CONSOLIDATED RESULTS

Our consolidated total revenues increased 4.1% to Ps. 25,177 million in the second quarter of 2010, compared to the second quarter of 2009 despite the devaluation of the Venezuelan bolivar. On a currency neutral basis and excluding the acquisition of Brisa in Colombia, total revenues grew approximately 16%, driven by growth in both volumes and pricing.

Total sales volume increased 4.4% to reach 633.8 million unit cases in the second quarter of 2010 as compared to the same period in 2009 as a result of (i) increases in sparkling beverages, mainly due to a 6% increase in the *Coca-Cola* brand across our territories, accounting for close to 65% of incremental volumes, (ii) our bottled water business, driven by the acquisition of Brisa in Colombia, representing more than 20% of incremental volumes, and (iii) still beverages sales volume, supported by the Jugos del Valle line of business across our territories, accounting for approximately 15% of incremental sales volume. Excluding Brisa, total sales volume increased 3.2%.

Our gross profit increased 2.0% to Ps. 11,655 million in the second quarter of 2010, compared to the second quarter of 2009. Cost of goods sold increased 6.0%, mainly driven by higher year-over-year sweetener costs across our territories, which were partially offset by the appreciation of the Brazilian real,⁽¹⁾ the Colombian peso⁽¹⁾ and the Mexican peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material cost. Gross margin reached 46.3% in the second quarter of 2010 as compared to 47.3% in the same period in 2009.

Our consolidated operating income increased 11.2% to Ps. 4,088 million in the second quarter of 2010, driven by operating income growth across all divisions. Operating expenses decreased 2.4% in the second quarter of 2010 mainly as a result of the devaluation of the Venezuelan bolivar. In local currency, operating expenses grew mainly as a result of (i) continued marketing investment in our Mexico division to support our execution in the marketplace, widen our cooler coverage and broaden our returnable base availability, (ii) marketing expenses in the Latincentro division, due to the integration of the Brisa portfolio in Colombia and the continued expansion of the Jugos del Valle line of business in Colombia and Central America, (iii) higher labor and freight costs in Argentina and (iv) higher labor costs in Venezuela. Our operating margin was 16.2% in the second quarter of 2010, an expansion of 100 basis points compared to the same period in 2009.

During the second quarter of 2010, we recorded Ps. 248 million in the other expense line. These expenses mainly reflected the recording of employee profit sharing.

Our comprehensive financing result in the second quarter of 2010 recorded an expense of Ps. 364 million as compared to a gain of Ps. 23 million in the same period of 2009, mainly driven by a foreign exchange loss generated by the depreciation of the Mexican peso within the quarter, as applied to our dollar-denominated net debt position.

During the second quarter of 2010, income tax, as a percentage of income before taxes, was 25.8% compared to 29.9% in the same period of 2009. This difference was mainly driven by the cancellation of a provision during the second quarter of 2010, which had been recorded in excess during 2009.

Our consolidated net controlling interest income⁽²⁾ increased by 14.8% to Ps. 2,480 million in the second quarter of 2010 as compared to the second quarter of 2009, mainly as a result of higher operating income. Earnings per share (EPS) in the second quarter of 2010 were Ps. 1.34 (Ps. 13.43 per ADS) computed on the basis of 1,846.5 million shares outstanding (each ADS represents 10 local shares).

MEXICO DIVISION OPERATING RESULTS

Revenues

Total revenues from our Mexico division increased 9.3% to Ps. 10,653 million in the second quarter of 2010, as compared to the same period in 2009. Increased average price per unit case accounted for approximately 55% of incremental revenues during the quarter. Average price per unit case reached Ps. 31.01, an increase of 5.4%, as compared to the second quarter of 2009, reflecting higher volumes from the *Coca-Cola* brand, which carries higher average price per unit case, and selective price increases implemented during the quarter. Excluding bulk water under the *Ciel* brand, our average price per unit case was Ps. 36.26, a 4.6% increase as compared to the same period in 2009.

Total sales volume increased 4.2% to 343.1 million unit cases in the second quarter of 2010, as compared to the second quarter of 2009. Sparkling beverages, mainly driven by a 5% growth of the *Coca-Cola* brand both in multi-serve and single-serve presentations, grew 5% and accounted for approximately 85% of incremental volume. The still beverage category, mainly driven by the Jugos del Valle product line, grew 12% and contributed more than 10% of incremental volumes, while an increase in personal bottled water compensated for lower volumes in bulk water and provided the balance.

Operating Income

Our gross profit increased 7.9% to Ps. 5,272 million in the second quarter of 2010 as compared to the same period in 2009. Cost of goods sold increased 10.7% as a result of higher sweetener costs, which were partially offset by the appreciation of the Mexican peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material cost. Gross margin decreased from 50.1% in the second quarter of 2009 to 49.5% in the same period of 2010.

Operating income increased 3.0% to Ps. 1,960 million in the second quarter of 2010, compared to Ps. 1,902 million in the same period of 2009. Operating expenses grew 10.9% mainly due to continued marketing investment to support our execution in the marketplace, widen our cooler coverage and broaden our returnable base availability. Our operating margin was 18.4% in the second quarter of 2010, compared to 19.5% in the same period of 2009.

LATINCENTRO DIVISION OPERATING RESULTS (Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama)

As of June 1, 2009, Coca-Cola FEMSA started to distribute the Brisa portfolio in Colombia.

Revenues

Total revenues reached Ps. 7,367 million in the second quarter of 2010, a decrease of 15.0% as compared to the same period of 2009 mainly as a result of the devaluation of the Venezuelan bolivar. On a currency neutral basis and excluding the acquisition of Brisa in Colombia, total revenues increased approximately 23% due to selective pricing initiatives implemented over the past several months across the division.

Total sales volume in our Latincentro division increased 0.8% to 143.5 million unit cases in the second quarter of 2010 as compared to the same period of 2009. Volume growth resulted from incremental water volumes, driven by the consolidation of the *Brisa* water business in Colombia; which more than compensated for a volume decline in Venezuela. Excluding the acquisition of Brisa in Colombia, the division's total volumes would have decreased 4.4%.

Operating Income

Gross profit reached Ps. 3,423 million, a decrease of 16.3% in the second quarter of 2010, as compared to the same period of 2009. Cost of goods sold decreased 13.8% mainly as a result of the devaluation of the Venezuelan bolivar. In local currency, cost of goods sold increased mainly driven by higher year-over-year sweetener costs across the division, which were partially compensated by the appreciation of the Colombian peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material cost. Gross margin decreased 70 basis points to 46.5% in the second quarter of 2010.

Our operating income increased 19.0% to Ps. 1,233 million in the second quarter of 2010, compared to the second quarter of 2009. Operating expenses decreased 28.3% mainly as a result of the devaluation of the Venezuelan bolivar. In local currency, operating expenses grew as a result of continued marketing investments, mainly due to the integration of the Brisa portfolio in Colombia, the continued expansion of the Jugos del Valle line of business in Colombia and Central America and higher labor costs in Venezuela. Our operating margin reached 16.7% in the second quarter of 2010, as compared to 12.0% in the same period of 2009.

MERCOSUR DIVISION OPERATING RESULTS (Brazil and Argentina)

Volume and average price per unit case exclude beer results.

Revenues

Total revenues increased 24.1% to Ps. 7,157 million in the second quarter of 2010, as compared to the same period of 2009. Excluding beer, which accounted for Ps. 745 million during the quarter, revenues increased 24.4% to Ps. 6,412 million. Higher average prices per unit case and volume growth accounted for approximately 75% of incremental revenues and a positive currency translation effect, resulting from the depreciation of the Mexican peso against the Brazilian real,⁽¹⁾ represented more than 25% of incremental revenues. On a currency neutral basis, our Mercosur division's revenues increased approximately 18%.

Total sales volume in our Mercosur division increased 8.7% to 147.2 million unit cases in the second quarter of 2010 as compared to the same period of 2009. Volume growth was a result of (i) an 8% growth in sparkling beverages, driven by a 14% increase in the *Coca-Cola* brand in Brazil, accounting for more than 80% of incremental volumes, (ii) a 33% growth in the still beverage category, driven by the Jugos del Valle line of business in Brazil and Aquarius flavored water in Argentina, contributing close to 15% of incremental volumes, and (iii) a 4% increase in our bottled water category, representing the balance.

Operating Income

In the second quarter of 2010, our gross profit increased 20.9% to Ps. 2,960 million, as compared to the same period in 2009. Cost of goods sold increased 26.4% mainly due to higher cost of sweetener in the division and higher cost of PET in Argentina, which were partially compensated for by the appreciation of the Brazilian real⁽¹⁾ as applied to our U.S. dollar-denominated raw material cost. Gross margin in the Mercosur division decreased 100 basis points to 41.4% in the second quarter of 2010.

Operating income increased 21.1%, reaching Ps. 895 million in the second quarter of 2010, as compared to Ps. 739 million in the same period of 2009. Operating expenses increased 20.8%, mainly driven by higher labor and freight costs in Argentina. Our operating margin was 12.5% in the second quarter of 2010, a decrease of 30 basis points as compared to the second quarter of 2009.

Our gross profit increased 3.9% to Ps. 22,555 million in the first half of 2010, as compared to the same period of 2009. Cost of goods sold increased 8.2% as a result of higher cost of sweetener across our operations, which was partially offset by the appreciation of the Brazilian real,⁽¹⁾ the Colombian peso⁽¹⁾ and the Mexican peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material cost. Gross margin reached 45.8% for the first six months of 2010, a decrease of 100 basis points as compared to the same period of 2009.
