Notice to the Market

Bradesco's Corporate Governance is rated by Standard & Poor's

Bradesco has received a **GAMMA score 7** (Governance, Accountability, Management Metrics and Analysis), on a scale of 1 to 10, from Standard & Poor's Governance Services, ratifying its strong overall corporate governance processes and practices. Bradesco is the first Brazilian company to publish its score.

The GAMMA score reflects Standard & Poor's Equity Research Services Department's opinion of the relative quality of a company's practices as a form of protection against potential corporate-governance-related losses or failure to create value. Standard & Poor's criteria are based on a synthesis of international codes, best practices and governance directives.

In addition to the positive points, the report, which attests the management commitment to strong governance practices, also lists those points that negatively affect the GAMMA score.

It is worth noting that the highest GAMMA score ever awarded by Standard & Poor's on a worldwide basis was 7+.

For more details, please access the full report, which is available in the Corporate Governance section (Ratings) of our Investor Relations website (www.bradescori.com.br).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
