(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

Mineração Duas Barras Ltda. (“the Company”) was organized under the laws of the State of Minas Gerais, Federative Republic of Brazil (“Brazil”) on November 14, 2011. The Company is in the exploration stage at December 31, 2012 (which it exited in May 2013). From inception through December 31, 2012 the Company has accumulated losses of \$12,000.

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in U.S. dollars.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (“GAAP” accounting).

Exploration Stage Company

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles related to accounting and reporting by exploration-stage companies. An exploration-stage company is one in which planned principal operations have not commenced, or if its operations have commenced, there has been no significant revenues therefrom. Our planned mineral property operations, which are our primary focus at this time, were still in the exploration stage at December 31, 2012. The Company exited the exploration stage in May 2013.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, loans to a related party, accrued expenses and an amount due to a director. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes. The Company's bank accounts are deposited in banks in Brazil.

Basic Income (Loss) Per Share

The Company computes loss per share in accordance with "ASC-260", "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during any of the periods shown.

MINERAÇÃO DUAS BARRAS LTDA
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 during the periods ended December 31, 2012 and December 31, 2011.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of

revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation

As of December 31, 2012, the Company has not issued any stock-based payments to its employees. Stock-based compensation is accounted for at fair value in accordance with ASC 718. As of December 31, 2012, the Company has not adopted a stock option plan and has not granted any stock options.

Inventory

Inventory of raw materials is valued at the lower of cost and net realizable value. The Company is capitalizing certain operating expenses until such time as the mineral production reaches commercial production levels. Inventory consists of capitalized costs of depreciation of \$52,979 and capitalized operating expenses of \$325,559.

Machinery and equipment

Machinery and equipment is recorded at cost and amortized on a straight line basis over their estimated useful lives at the following annual rates:

Vehicles - 5 years

Machinery and equipment - 10 years

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Impairment losses are recorded on mineral properties used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount.

Comprehensive Income

When applicable, the Company would disclose this information on its Statement of Stockholders' Equity. Comprehensive income comprises equity, except those resulting from investments by owners and distributions to owners. The Company has not had any significant transactions that are required to be reported in other comprehensive income.
