1****Comments on Company Performance****2. Operating revenue before construction revenue**

Gross operating revenue from water supply and sewage collection grew from R\$ 2.2 billion in 1Q12 to R\$ 2.3 billion in 1Q13, an increase of R\$ 129.4 million or 5.9%.

The main factors that led to this variation were: the increase of 2.0% in the Company's billed volume (2.1% in water billed volume and 1.9% in sewage billed volume), and the tariff adjustment of 5.15% since September 2012.

3. Construction revenue

In 1Q13, construction revenue decreased R\$ 55.3 million or 10.0%, comparing to 1Q12. This variation was mainly due to lower investments in 1Q13.

4. Billed volume

The following tables show the billed water and sewage volume per customer category and region in 1Q12 and 1Q13.

5.1. Payroll and benefits

In 1Q13 payroll and benefits grew R\$ 55.5 million or 13.7%, from R\$ 406.3 million to R\$ 461.8 million, due to the following:

- 6.17% increase in wages since May 2012, with an impact of approximately R\$ 33.0 million;
- Provision for vacation with a R\$ 4.3 million impact, due to the increases in wages and headcount;
- R\$ 5.0 million increase in overtime pay; and
- R\$ 9.3 million upturn in the provision for the Defined Benefit Plan, arising from changes in actuarial assumptions.

5.2. Supplies

In 1Q13, expenses with supplies increased by R\$ 3.8 million or 9.4%, when compared to the previous year, from R\$ 40.5 million to R\$ 44.3 million, mostly due to: (i) preventive and corrective maintenance in water and sewage systems, in the amount of R\$ 2.0 million; and (ii) R\$ 1.0 million higher spending on property and facility upkeep in administrative and operating areas.

5.3. Treatment supplies

Treatment supplies expenses in 1Q13 were R\$ 20.3 million or 45.5% higher than in 1Q12, from R\$ 44.6 million to R\$ 64.9 million. The main factors for this variation were:

- Increase of R\$ 5.5 million due to the higher consumption of aluminum polychloride, mainly used at the Water Treatment Station of Guaraú, ensuring water quality in maximum flow;
- Higher consumption of activated carbon, with a price increase of approximately 11.73%, leading to an upturn of R\$ 3.2 million due to weather and watershed conditions;
- Higher consumption of lime, due to the higher treated volume, associated with the price increase of approximately 7%, leading to a net upturn of R\$ 1.7 million;
- Higher consumption of iron chloride, with a net addition of R\$ 1.3 million, in order to meet the quality parameters of the treatment of the water resulting from the strong rain in the city of Cubatão; and
- Increase of R\$ 8.7 million from the consumption of products, such as: (i) hydrogen peroxide, due to the startup of 2 sewage pumping stations in Guarujá; (ii) sodium hypochlorite as a replacement of chlorine gas, due to the increased efficiency and security related to the use of a less dangerous product; and (iii) chlorine, arising from the increase in turbidity and color at the Guaraú Water Treatment Station.

5.4. Services

In 1Q13 this item decreased R\$ 36.3 million or 13.7%, from R\$ 265.0 million in 1Q12 to R\$ 228.7 million in 1Q13. The main factors were:

- Decrease of R\$ 38.3 million, due to the reversal of the provision for expenses, following the end of the partnership with the São Paulo Municipal Government - PMP.

- Decline of R\$ 4.3 million in expenses with risk credit recovery contracts, due to the discontinuation of these contracts in several Business Units; and
- Decrease in paving services and replacement of sidewalks in the amount of R\$ 4.2 million, due to the conclusion of the paving contract with the Municipal Government of São Bernardo do Campo, whose services were included in Global Sourcing.

The following services presented increases:

- Preventive and corrective maintenance in the water and sewage systems in the amount of R\$ 4.6 million; and
- Increase of R\$ 2.0 million due to the new contracts of the Program for the Rational Use of Water – PURA in municipal entities.

5.5. Electric power

In 1Q13, this item decreased R\$ 5.5 million, or 3.7%, from R\$ 150.3 million in 1Q12 to R\$ 144.8 million in 1Q13, due to the average decrease of approximately 25.5% in the tariff for the Use of Distribution System Tariff (TUSD), of the consumption units by the Free Market, as a consequence of Provisional Presidential Decree 579/12 and Law 12783/13.

5.6. General expenses

In 1Q13 general expenses increased R\$ 47.6 million or 28.4%, from R\$ 167.8 million in 1Q12 to R\$ 215.4 million in 1Q13, due to:

- Increase in the provision for lawsuits, in the amount of R\$ 24.6 million;
- Increase of R\$ 17.3 million, arising from agreements for environmental compensation; and
- Increase of R\$ 5.0 million in the provision for payment to the municipal fund pursuant to the Service Agreement with the Municipal Government of São Paulo.

5.7. Depreciation and Amortization

Depreciation and amortization increased R\$ 8.7 million or 4.7%, from R\$ 186.5 million in 1Q12 to R\$ 195.2 million in 1Q13, due to the higher transfer of works to the operating intangible asset in the period.

5.8. Credit write-off

In 1Q13 credit write-offs decreased R\$ 1.4 million or 13.7%, from R\$ 38.8 million in 1Q12 to R\$ 33.5 million in 1Q13, chiefly due to the lower need for provision.

5.9. Tax expenses

In 1Q13 tax expenses grew R\$ 5.1 million or 14.6%, mainly in the municipality of São Paulo, due to: (i) 5.4% adjustment by the São Paulo Municipal Government; and (ii) expansion of the Centro Business Unit.

6. Financial revenues and expenses

	<i>R\$ million</i>

6.1. Financial expenses

In 1Q13 financial expenses dropped R\$ 28.3 million, or 16.6%. The main reason for this result was the lower interest related to lawsuits, mainly regarding corporate clients.

6.2. Financial revenues

Financial revenues decreased by R\$ 11.4 million, due to:

- Decrease of R\$ 21.8 million in interest from financial investments, due to the gradual reduction in the interest rates and the lower cash availability in the period; and

- Increase of R\$ 6.3 million in interest revenue, related to the period between the date of the 17th debenture issue, in January 2013, and its respective financial settlement in February 2013.

7. Monetary variation on assets and liabilities

	<i>R\$ million</i>			
Monetary variation on loans and financing	8.5	24.1	15.6	183.5

Net Variation	(139.7)	(105.1)	34.6	(24.8)

7.1. Monetary variation on liabilities

The effect on the monetary variation on liabilities in 1Q13 was R\$ 52.1 million higher than in 1Q12, specially:

- Increase in the exchange rate variation on loans and financing, in the amount of R\$ 29.6 million, due to: (i) the lower appreciation of the Brazilian Real versus the US Dollar in 1Q13 1.4%, compared with 2.9% in 1Q12; and (ii) the 10.0% appreciation of the Brazilian Real versus the Yen in 1Q13 (9.0% appreciation in 1Q12);

- Monetary variation on domestic loans and financing increasing by R\$ 15.6 million, mainly due to: (i) the increase in debt following the 17th debenture issue in February 2013; and (ii) the 1.9% IPCA rate variation in 1Q13 compared to the 1.2% variation in the same period in 2012; and
- Expenses relating to lawsuits in the amount of R\$ 4.7 million.

7.2. Monetary variation on assets

Monetary variation on assets increased by R\$ 17.5 million in 1Q13 over 1Q12, chiefly due to:

- R\$ 6.8 million related to the period between the date of the 17th debenture issue (January 2013) and its financial settlement (February 2013); and
- R\$ 6.5 million related to the restatement of judicial deposits, arising from the increase in deposits related to lawsuits.

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, focused on the customer, and in a sustainable and competitive manner, with excellence in environmental solutions.

On March 31, 2013, the Company operated water and sewage services in 363 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession agreements.

SABESP is not temporarily operating in some municipalities due to judicial orders under ongoing lawsuits: Iperó, Cajobi, Álvares Florense and Macatuba, whose carrying amount of these municipalities' intangible assets was R\$16,536 as of March 31, 2013.

On March 31, 2013, a total of 66 concessions had expired and are being negotiated. From 2013 to 2034, 38 concessions will expire. Management believes that all concessions expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By March 31, 2013, a total of 259 program and metropolitan contracts were signed (258 contracts on December 31, 2012).

On March 31, 2013, the carrying amount of intangible assets used in the 66 concessions of the municipalities under negotiation totaled R\$5,801 million, accounting for 25.94% of total, and the related gross revenue totaled R\$484 million in the three-month period ended March 31, 2013, accounting for 17.20% of total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 50.57% of the gross revenue in the three months ended on March 31, 2013 (53.47% in the three months ended in March 2012) and 43.19% of intangible assets as of March 31, 2013 (43.51% on December 31, 2012).

On June 23, 2010, the State of São Paulo, the Municipality of São Paulo, the Company and the regulatory agency "Sanitation and Energy Regulatory Agency – ARSESP" signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

Notes to the Financial Statements

Also, on June 23, 2010, the State of São Paulo, the city of São Paulo and SABESP signed the “Public service provision agreement of water supply and sewage services”, a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

In the municipality of Santos, in the Santos coast region, which has a significant population, the Company operates under an authorization by public deed, a situation similar to other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it. As of March 31, 2013, the carrying amount of the municipality of Santos’ intangible assets was R\$332,685 (R\$328,693 on December 31, 2012) and gross revenue for the three-month period ended March 31, 2013 was R\$55,658 (R\$54,393 in March 2012).

Article 58 of Law 11445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company’s Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8987/95 and 11445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the *Novo Mercado* (New Market) segment of BM&FBOVESPA (the São Paulo Stock Exchange) since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts (“ADRs”) since May 2002.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders' agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

This quarterly financial information was approved by the Board of Directors on May 9, 2013.

Notes to the Financial Statements

2. BASIS OF PREPARATION AND PRESENTATION OF QUARTERLY FINANCIAL INFORMATION

(i) Presentation of Quarterly Financial Information

The quarterly financial information as of March 31, 2013 was prepared based on CPC 21 – Interim Financial Reporting and the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB), applicable to the preparation of the Quarterly Financial Information – ITR, which are consistently presented with the standards issued by CVM. Therefore, this ITR considers the Circular Official Letter CVM/SNC/SEP 003 of April 28, 2011 which allows that entities report selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The quarterly financial information for the period ended March 31, 2013, therefore, does not include all the notes and reporting required by the CPC (“Brazilian Accounting Pronouncements Committee”) for the annual financial statements and, accordingly, must be read together with the financial statements under CPC and IFRS for the year ended December 31, 2012.

2.1 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended March 31, 2013 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2012. These policies are disclosed in Note 3 in the Annual Financial Statements.

The adoption of CPCs 19(R2) and 33(R1) for the year ended December 31, 2012 resulted in the following adjustments:

	Original	December 31, 2012		After adoption of CPCs

(a) Adoption of CPC 19(R2)

The Company adopted CPC 19(R2). Accordingly, jointly-owned investees (Note 9) are now classified as joint venture and are subject to the recognition of income under the equity method of accounting (CPC 18(R2)). This change altered the method of consolidation: from proportional consolidation to equity method of accounting.

The adoption of CPC 19(R2) resulted in changes in the consolidation of the Company's investments in Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina S.A., Águas de Castilho, Saneagua Mairinque S.A., Aquapolo Ambiental S.A. and Attend Ambiental S/A.

(b) Adoption of CPC 33 (R1)

The Company adopted CPC 33(R1). The Company's accounting practice up to December 31, 2012 consisted of recording actuarial gains and losses using the corridor method, in which gains and losses from changes in actuarial assumptions were only recognized in profit or loss as they surpass the corridor value and amortized during the estimated average remaining working life of population with the benefits. Therefore, actuarial gains and losses measured in a certain period were not immediately recognized. With this method, the value recognized in liabilities differs from the estimated present value of obligations through unrecognized actuarial gains and losses.

With the adoption of the new accounting standard, Sabesp now recognizes in the statement of financial position the total effect from actuarial losses net of income tax and social contribution, with a corresponding entry to the statement of comprehensive income, not being recorded in income statement. Such accounting method was applied in the quarterly financial information for the quarter ended March 31, 2013, with a retrospective effect in the Company's financial statements for the year ended December 31, 2012 and the opening balance as of January 1, 2012.

Deferred income tax and social contribution were recorded only for the G1 plan, because G0 plan expenses are deemed undeductible.

Below is the reconciliation of the new asset and liability balances of the actuarial obligations for the year ended December 31, 2012 and the opening balance of January 1, 2012, affected by the change in the standard:

Notes to the Financial Statements

2.2 Standards, amendments and interpretations of standards to existing standards not effective yet

In addition to the matters disclosed in item 2.1 above, there are no new CPCs/IFRS or interpretations applicable for the first time this quarter to have significant effects on the Company. For more information, see Notes 4.1 and 4.2 of the annual financial statements as of December 31, 2012.

3. FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Company's activities are exposed to Brazilian economic scenario, expositing to market risk, such as exchange rate, interest rate, credit risk and liquidity risk. The Company's financial risk management is focused on the unforeseeableness of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the periods reported.

(a) Market risk

Foreign currency risk

SABESP's foreign exchange exposure implies market risks associated with Brazilian Real currency fluctuations against the US dollar and yen. SABESP's foreign currency-denominated liabilities mainly include US dollar and yen-denominated loans.

In case of Brazilian Real depreciation in relation to foreign currency in which the debt is denominated, SABESP will incur in monetary loss in relation to such debt.

SABESP's specific foreign currency risks are related to exposures caused by its current portion and long-term portion of this denominated in foreign currency.

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any financial instrument to protect against this risk, but conducts an active management of debt, taking advantage of opportunities to change expensive debts with "cheaper" debts, reducing the cost through early maturity.

A significant amount of the Company's financial debt is denominated in U.S. dollar and Yen, in the total amount of R\$3,262.238 million on March 31, 2013 (R\$3,231,183 million in December 2012). Below is shown, the Company's exposure to foreign currency risk:

The chart above details the foreign currency-denominated loans and financing. Including R\$16,598 on March 31, 2013 (R\$15,422 in December 2012) of funding costs.

As at March 31, 2013, if the Brazilian Real had weakened or strengthened by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes for the three month period ended March 31, 2013 would have been R\$326,223 (R\$323,118 in the year ended December 31, 2012) lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in the income statement for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian Real.

(*) The probable scenario in US\$ considered the average exchange rate for the 12-month period after March 31, 2013, according to BM&FBovespa. The Yen used an average rate for the next 12 months as of March 31, 2013, according to BM&FBovespa.

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to protect against this risk; however continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

The table below provides the Company's loans and financing subject to variable interest rate:

	March 31, 2013	December 31, 2012
		(Restated)
TR ⁽ⁱ⁾	1,927,206	2,019,924

- (iii) TJLP (*Taxa de Juros de Longo Prazo*), a long-term interest rate index
- (iv) IPCA (*Índice Nacional de Preços ao Consumidor Amplo*), a consumer price index
- (v) LIBOR - London Interbank Offered Rate

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its loans and financing with those of its service revenues. Water supply and sewage services tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

As at March 31, 2013, if interest rates on loans and financing denominated in Brazilian *reais* had been 100 basis points higher or lower with all other variables held constant, the effects on profit before taxes for the three-month period ended March 31, 2013 would have been R\$65,659 (R\$67,015 for the year ended December 31, 2012) lower or higher, mainly as a result of a lower or higher interest expense on floating rate loans and financing.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash, accounts receivable from related parties and indemnities. The Company is required by law to invest its funds with Banco do Brasil. Credit risk exposure is mitigated by sales to a dispersed customer base.

ESTADO SÃO PAULO**Version:**
1**Notes to the Financial Statements**

The maximum exposure to credit risk at the reporting date are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties. (See notes 5, 6, 7 and 8).

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower rating of the counterparty published by three main international rating agencies (Moody's, Fitch and S&P), according to internal policy of market risk management:

	March 31, 2013	December 31, 2012

AAA(bra)	2,124,329	1,913,893
Others (*)	2,706	2,081
	2,127,035	1,915,974

(*) This category includes current accounts and investment funds in banks which have no credit rating information available.

The available credit rating information of the banks in which the Company made transactions during the period is as follow:

<u>Counterparty</u>	<u>Fitch</u>	<u>Moody's</u>	<u>Standard Poor's</u>
Banco do Brasil S.A.	AAA (bra)	Aaa.br	brAAA
Banco Santander Brasil S.A.	AAA (bra)	Aaa.br	brAAA
Brazilian Federal Savings Bank	AAA (bra)	Aaa.br	-
Banco Bradesco S.A.	AAA (bra)	Aaa.br	brAAA
Itaú Unibanco Holding S.A.	AAA (bra)	Aaa.br	brAAA

For financial assets corresponding to trade accounts receivable, the Company's credit risk is minimized, given that the client base is dispersed.

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, borrowings from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its investment and capital expenditures needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits, short-term deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the reference dates above.

Cross-default clause

The Company has loan agreements including the cross-default clause, which sets forth that the early maturity of any Company's debt will cause the anticipated debt of the corresponding agreement. Indicators are constantly monitored to avoid the execution of this clause.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected until the final settlement of each contract, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

3.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

Leverage ratio	36%	38%

On March 31, 2013, the leverage ratio decreased to 36% versus 38% on December 31, 2012, due to the increase in equity arising from the income for the period.

3.3 Fair value estimates

We assume that balances from trade accounts receivable (current) and accounts payable to suppliers by carrying amount approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

3.4 Financial instruments

The estimated fair values of financial instruments are as follows:

	December 31, 2012			
	March 31, 2013		Restated	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets

Public-Private Partnership - PPP	345,836	345,836	356,317	356,317

To obtain fair value of loans and financing, the following criteria have been adopted:

(i) Agreements with Banco do Brasil and CEF (Brazilian Federal Savings Bank) were projected until final maturity, at contractual rates (projected TR + spread) and discounted at present value by TR x DI, both rates were obtained from BM&F.

Notes to the Financial Statements

(ii) Debentures were projected up to the final mature date according to contractual rates (IPCA, DI, TJLP or TR), and discounted to present value considering the future interest rate published by ANBIMA in the secondary market, or equivalent market rates, or the Company's share traded in the Brazilian market.

(iii) BNDES loans are financial instruments valued at carrying amount plus contractual interest rate till mature date, and are indexed by long term interest rate – TJLP.

These loans have specific characteristics and the conditions defined in the loan agreements with BNDES between independent parties, and reflect the conditions for those types of loan. In Brazil, a consolidated market of long-term debts does not exist with the same characteristics of BNDES loans, the offering of credit to the entities in general, with this long-term characteristic, usually is restricted to BNDES.

(iv) Other financing in local currency are considered by carrying amount plus contractual interest rate till mature date, discounted to present value considering a future interest rate published by BM&FBovespa.

(v) Agreements with IDB, IBRD, were projected until final maturity in origin currency, applying interest rates contracted, discounted at present value at Libor futures rate, obtained from Bloomberg. Eurobonds were priced at market value through quotes published by Bloomberg. All the amounts obtained were translated into Brazilian *reais* at the exchange rate of March 31, 2013.

(vi) Agreements with JICA, were projected until final maturity in origin currency, using interest rates contracted and discounted at present value, at Tibor futures rate obtained from Bloomberg. The amounts obtained were translated into Brazilian reais at the exchange rate of March 31, 2013.

(vii) Leasing is an instrument considered by face value restated until maturity date, whose characteristic is the indexation by fixed contractual rate, which is a specific type, not compared to any other market rate. Thus, the Company discloses as fair value, the amount recorded on March 31, 2013.

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances. There were no changes when compared to the Annual Financial Statements for the year ended December 31, 2012, according to Note 5.

Notes to the Financial Statements

Cash and cash equivalents include cash, bank deposits and high-liquidity short-term investments, mainly represented by purchase commitments (remunerated at CDI), deposited in Banco do Brasil, with maturities lower than three months, which are promptly convertible into a known cash amount and subject to an insignificant risk of change in value.

The average yield of financial investments corresponds to 100.5% of CDI in March (100.01% in December 2012).

6. RESTRICTED CASH

As of March 31, 2013, the restricted cash totaled R\$11,151, referring mainly to the default in the municipality of São Paulo, where the Company transfers 7.5% of the Municipality's revenue to the Municipal Fund (R\$64,977 in December 2012).

The variation occurred in the period from January to March 2013, when compared to the Financial Statements as at December 31, 2012, mainly refers to the removal of restriction on use of funds by the Municipal Government of São Paulo.

(b) Contingent assets – GESP (not recorded)

On March 31, 2012 and December 31, 2012, SABESP had off-balance contingent assets with GESP relating to the complementary retirement and pension paid (Law 4819), as follows:

	March 31, 2012
Amounts in controversy receivable	668,000
Undisputed reimbursement relating to the transfer to SABESP of Alto Tietê system reservoirs	696,000

Total

From January to March 2013, there were no relevant changes in the progress of lawsuits. Further details and explanations on the nature of these contingent assets are included in Note 9 (vii) of the Financial Statements as at December 31, 2012.

(c) Agreements for the use of reservoirs

EMAE – Empresa Metropolitana de Águas e Energia S.A. claims the collection of payment and financial compensation for the use of water from Guarapiranga and Billings reservoirs, used by SABESP in its operations, as well as the reimbursement of damages related to the failure of SABESP to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs but it is responsible for their maintenance and operating costs. Should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places and there would be the risk of making services in the region unfeasible and increasing sourcing cost.

Three proceedings were filed, two of them are writs of prevention to toll statute of limitation and another one to file arbitration commitment, by force of an arbitration clause in the agreement entered into between the São Paulo State Government and former Light, in 1958.

Notes to the Financial Statements

The plaintiff understands that diverging opinions between it and SABESP should be resolved at the Court of Arbitration, which was disputed by SABESP, which in turn claims it is not bound to an agreement in which its predecessor only participated as intervening party.

In February 2012, the decision to submit to arbitration was established by the judge during the first hearing, which is subject to appeal. Notwithstanding, if an arbitration proceeding is filed, we will take all available judicial actions to defend our position. The Company's management assessed this risk as possible loss and considers that it is not possible to estimate the total amount involved in this process since the extent was not determined.

(d) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rational Use Program (PURA)

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the consumption of water.

(e) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

(f) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, under which the expenses are fully passed on and monetarily reimbursed. On March 31, 2013, the expenses related to personnel assigned by SABESP to other state government entities amounted to R\$2,761 (R\$2,750 as of March 2012).

No expenses related to personnel assigned by other entities to SABESP were recorded on March 31, 2013 and December 31, 2012.

(g) Services obtained from state government entities

As of March 31, 2013 and December 31, 2012, SABESP had an outstanding amount payable of R\$951 and R\$958, respectively, for services rendered by São Paulo State Government entities.

(h) Non-operating assets

As of March 31, 2013 and December 31, 2012, the Company had an amount of R\$969 related to free land lent to DAEE (Water and Electricity Department).

(i) SABESPREV

The Company sponsors a private defined benefit pension plan, which is operated and administered by Fundação Sabesp de Seguridade Social - SABESPREV. The net actuarial liability recognized as of March 31, 2013 amounted to R\$623,531 (R\$604,832 as of December 2012, including the effect of CPC 33(R1)).

Expenses related to the compensation of members of the Board of Directors and Board of Executive Officers was R\$750 and R\$756, respectively, from January to March 2013 and 2012, and refers to short-term benefits. An additional amount of R\$141 referring to the Executive Officers' bonus program was recorded in the period between January and March 2013 (from January to March 2012 – R\$274).

(j) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPE), not holding the majority interest but with cast vote and power of veto in some issues. Therefore, these SPEs are considered for accounting purposes as jointly-owned subsidiaries.

The Company entered into a loan agreement through credit facility with the SPEs Águas de Andradina S.A., Águas de Castilho S.A. and Aquapolo Ambiental S.A. to finance the operations of these companies, until the loans and financing required to banks is cleared.

The contracts signed on January 19, 2012 with Águas de Andradina and Águas de Castilho were settled in July 2012, according to the agreement's provisions. On July 18, 2012, new agreements were signed with both companies, pursuant to the conditions in the table below. The agreement signed with Aquapolo Ambiental on March 30, 2012 remains with the same characteristics, according to the table below:

SPE	Credit limit	Principal disbursed amount	Interest balance	Interest rate	Maturity
Águas de Andradina	3,467	1,427	13	SELIC + 3.5 % p.a.	07/17/2013

Total	28,771	26,459	585		

The amount disbursed is recognized in Assets under “Other Receivables” and mounts to R\$1,830 for principal and R\$44 for interest recognized in Current Assets and R\$24,629 for principal and R\$2,163 for interest in Noncurrent Assets. As of March 31, 2013, the balance of principal and interest rates of these contracts is R\$28,666. From January to March 2013, financial income was impacted by R\$585 (R\$16 from January to March 2012).

9. INVESTMENTS

The Company holds interest in the following investees: Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina, Águas de Castilho, Saneaqua Mairinque, Aquapolo Ambiental and Attend Ambiental which were consolidated by the equity accounting method. The accounting policies of its investees are consistent with the accounting policies adopted by the Company.

Although SABESP has no majority shares of its investees, the shareholders’ agreement provides for the power of veto in certain management issues, indicating participating shared control (joint venture – CPC 19).

Notes to the Financial Statements

(d) General information

During the quarter ended March 31, 2013, there were no significant changes in criteria used to record intangible assets and types of agreements. Further information is included in Note 11 of the Financial Statements as at December 31, 2012.

The Company has obligations recorded in “Program Contracts – Commitments” under current liabilities (R\$156,676 and R\$148,220 on March 31, 2013 and December 31, 2012, respectively) and noncurrent liabilities (R\$118,868 and R\$87,407 on March 31, 2013 and December 31, 2012, respectively).

(vi) Software license

Software licenses are capitalized based on costs incurred to acquire software and make them ready for use. In the first quarter of 2013, the Company started implementing the corporate integrated management solution (ERP system).

On March 31, 2013 and December 31, 2012, the balances was R\$64,318 and R\$2,646, respectively.

(e) Disposal of concession intangible underlying assets

In the first quarters of 2013 and 2012, the Company wrote off intangible underlying assets items totaling R\$427 and R\$905, respectively, due to obsolescence, theft, misplacements, unproductive wells and projects considered economically unfeasible.

(f) Capitalization of interest and other financial charges

In the first quarter of 2013, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects, in concession intangible assets during the construction period of the qualifying asset totaling R\$57,659 with an average rate of 1.27%. In the first quarter of 2012, R\$60,929 was capitalized with an average rate of 1.14%), during the period of the construction.

(g) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

However, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. In the first quarters of 2013 and 2012, the margin was 2.3%.

Construction margins for the first quarters of 2013 and 2012 were R\$9,647 and R\$11,474, respectively.

(iv) Financial Commitments – “Covenants”

Some loans and financing contracts have clauses related to the compliance with certain financial ratios with quarterly or annual substantiations.

17th Issue of Debentures

Indicators are calculated every quarter, upon disclosure of interim or annual financial statements:

- Adjusted Total Debt/Ebitda: lower than or equal to 3.65; and
- Ebitda/Paid Financial Expenses: equal to or higher than 1.5.

Non-fulfillment of the covenant clauses shall trigger the early maturity of the contract.

The agreement has a cross-default clause, which sets forth early maturity of this contract in the event of early maturity of any of the Issuer's debts, in individual or total amount equal to or higher than ninety million reais (R\$90,000).

Notes to the Financial Statements

The other covenants are similar to those reported in Note 13 to the Annual Financial Statements as at December 31, 2012.

On March 31, 2013, the Company had met the requirements set forth by its loan and financing agreement.

(v) Loans and financing contracted but not yet used

In order to implement its investment plan, SABESP has a financing plan.

Funds from financing have specific purposes, which are released for their related investments.

14. TAXES AND CONTRIBUTIONS

a) Current assets

	December 31, 2012	
	March 31, 2013	Restated
Taxes recoverable		
Income tax and social contribution	-	100,225
IRRF (withholding income tax) on financial investments	3,195	14,302
Other federal taxes	3,628	3,238
Other municipal taxes	656	656
Total taxes recoverable	7,479	118,421

The decrease in current assets is mainly due to the fact that the 2012 income tax and social contribution balance was used to settle the amounts of these taxes calculated in the first quarter of 2013.

INSS (Social Security contribution)	28,310	29,401
IRRF (withholding income tax)	283	41,588
Other	14,183	16,134
Total	139,346	152,710

The decrease in current liabilities arises mainly from payment of withholding income tax on interest on equity declared in December 2012, the payment of Paes installments in the period, offset by the income tax and social contribution payable in the first quarter of 2013.

The Company applied for enrollment in PAES on July 15, 2003, in accordance with Law 10684 of May 30, 2003, and included in its application the debts related to COFINS and PASEP which were involved in a legal action challenging application of Law 9718/98, and the outstanding balance under the Tax Recovery Program (REFIS). The original amount included in PAES was R\$316,953, as follows:

Tax	Principal	Fine	Interest	Total
COFINS	132,499	13,250	50,994	196,743

PASEP	5,001	509	2,061	7,571
REFIS	112,639	-	-	112,639
Total	250,139	13,759	53,055	316,953

The loan related to Paes (Special Installment Payment) is being paid in 120 months. The amounts paid from January to March 2013 and in 2012 were R\$9,546 and R\$37,421, respectively, and financial expenses of R\$117 and R\$479 in the first quarter of 2013 and 2012, respectively, were recorded. The outstanding balance as of March 31, 2013 was R\$9,582. The assets offered as guarantee in REFIS, totaling R\$249,034, are still guaranteeing the amounts in the PAES program.

- (i) Permanent difference related to the provision for actuarial liability.

Transition Tax Regime (RTT)

For purpose to calculate the income tax and the social contribution on net income for 2009 and 2008, the Company opted to adopt the Transition Tax Regime (RTT), which allow to eliminate the accounting effects of the Law 11638/07 and the Provisional Measure 449/08, converted into Law 11941/2009, through the taxable income journal (LALUR) and auxiliary controls, without any modification in the bookkeeping.

The Company has adopted the same tax practices since 2008, as the RTT became mandatory and shall be effective until the enactment of Law that rules the tax effects of the new accounting methods, seeking the tax neutrality.

16. PROVISIONS

- (a) Lawsuits deemed as probable loss

- (i) Balances

The Company is party to a number of lawsuits arising from the normal course of business, relating to civil, tax, labor and environmental matters. Management recognized provisions at amounts deemed sufficient to cover probable losses. These provisions, net of escrow deposits, are as follows:

Notes to the Financial Statements

Approximately 1,560 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 670 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The R\$38,432 increase in the lawsuits classified as probable loss (net of escrow deposits) relates to the filling of new lawsuits and interest, fees and inflation adjustments on amounts involving lawsuits in progress, partially offset by payments made in the year and revisions of expectations caused by favorable decisions to the Company in 2013.

(ii) Supplier claims

Suppliers' claims include lawsuits filed by some suppliers alleging underpayment of inflation adjustment, withholding of amounts related to the understated inflation rates deriving from the Brazilian Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable.

(iii) Other civil claims

These refer mainly to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filled at different court levels, dully accrued when classified as probable losses. The R\$11,995 decrease, for lawsuits with probable chances of loss (net of escrow deposits), was mainly due to favorable decisions to the Company.

(iv) Tax claims

Tax lawsuits refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's Management, accrued when classified as probable loss.

(v) Labor claims

The Company is a party to several labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels. The Company recognized a provision for claims which likelihood of loss is considered probable. The R\$18,224 addition in lawsuits with probable chances of loss (net of escrow deposits) mainly refers to the estimates and inflation adjustments of amounts involving lawsuits in progress.

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty due to failure to comply in addition to the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The R\$21,634 increase in the lawsuits with probable chances of loss (net of escrow deposits) mainly refers to the addition in the estimates of lawsuits in progress.

19. EARNINGS PER SHARE

(a) Basic and diluted

Basic earnings per share are calculated by dividing the income attributable to the Company's shareholders by the weighted average number of outstanding common shares during the year. The Company does not have potentially dilutive common shares outstanding or debts convertible into common shares. Accordingly, basic and diluted earnings per share are equal. According to CPC 41, earnings per share after the share split occurred on April 22, 2013 are calculated as follows:

27. EVENTS AFTER THE REPORTING PERIOD

- Share split

The Special Shareholders' Meeting held on April 22, 2013 approved the proposal of the Company's Board of Directors, dated January 10, 2013, to split shares representing its capital stock at the ratio of one (1) to three (3), i.e., for each Company share held, the shareholders will receive two (2) new shares, for a total of three (3) shares. The capital stock will be divided into 683,509,869 common shares issued by the Company.

- Allocation of 2012 net income

The Annual Shareholders' Meeting held on April 22, 2013 approved the proposal of the Company's Board of Directors to allocate the net income for 2012 totaling R\$1,911,900 as follows:
Legal Reserve – R\$95,595; Minimum Mandatory Dividends – R\$454,076; Additional Dividends – R\$80,201; Investment Reserves – R\$1,282,028.

- Tariff system rules

In compliance with ARSESP Resolution 406 and Article 28 of the Tariff System Rules, approved by State Decree 41446 of December 16, 1996, on April 19, 2013, the Board of Directors resolved to apply the tariff repositioning index of 2.3509% to annual tariffs.

Notes to the Financial Statements

The Regulation and Inspection Fee of 0.5%, authorized by Resolution 406, will be applied as soon as the operating adjustments necessary for the discrimination in bills from municipalities in which the fee will be charged are concluded.

On April 4, 2013, the Company filed request for reconsideration at ARSESP relating to Resolution 406, so as to preserve the Company's interest in the Tariff Review proceeding in progress.

ARSESP approved the Resolution 413, which provides for the suspension of the effectiveness of Resolution 407, postponing until the time SABESP discloses the definitive outcome of the Tariff Review the authorization to pass on to bills the amounts relating to municipal charges, legally established and which, in light of the Program Contracts and Water Supply and Sewage Service Agreements, should be considered in the Tariff Review.

- Program Contracts

The Company renewed the Water Supply and Sewage Service Program Contract with the municipality Ibirá on April 23, 2013 and entered into a contract with the municipality of Glicério on April 10, 2013. These contracts have a 30 years term.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Interim Financial Information Form (ITR), for the three-month period ended March 31, 2013, which comprises the balance sheet as of March 31, 2013 and the related statements of income, other comprehensive income, changes in equity and of cash flows for the three-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily

of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by the CVM.

Reports and Statements / Unqualified Report on Special Review

Emphasis of matter

Restatement of corresponding amounts

As mentioned in Note 2, as a result of the change in the accounting policy relating to employee benefits, in compliance with CPC 33 (R1) and IAS 19(R) – Employee Benefits, and the change in the accounting policy relating to the recording of jointly-owned businesses, in accordance with CPC 19 (R2) and IFRS 11 - Joint Arrangements, the corresponding amounts recorded in the statement of financial position for the year ended December 31, 2012 and the corresponding interim accounting information recorded in the statements of income, comprehensive income, changes in equity, cash flows and value added (supplemental information) for the three-month period ended March 31, 2012, presented for comparison purposes, were adjusted and are being restated as set forth in CPC 23 and IAS 8 - Accounting Policies, Changes in Estimates and Correction of Error and CPC 26 (R1) and IAS 1 - Presentation of Financial Statements. Our opinion is not modified with respect to this matter.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the three-month period ended March 31, 2013, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

Review of interim financial information for the three-month period ended March 31, 2012

The information and amounts for the three-month period ended March 31, 2012, presented for comparison purposes, were reviewed by other independent auditors, whose report, without qualification, was issued and dated on May 9, 2013.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.
