GAFISA RELEASES 2Q15 RESULTS

MANAGEMENT COMMENTS AND HIGHLIGHTS

The first half of 2015 brought Gafisa another step closer to solid levels of profitability. We are pleased to report that consolidated net income totaled R\$60.1 million in the first six months of the year, reversing a loss of R\$ 40.6 million recorded in the same period last year. In the second quarter specifically, consolidated net income was R\$28.5 million. The Tenda segment accounted for R\$20.0 million of the total, maintaining the previous quarter's performance to end the first half of 2015 with net income of R\$ 31.4 million. Tenda's performance reflects its consolidation and the growing participation of new projects launched under its current business model. The Gafisa segment, in turn, recorded net income of R\$8.5 million in the quarter and R\$28.7 million in 1H15, as a result of targeted efforts to sell inventory and reduce the level of SG&A.

These results are aligned with the Company's strategy of improving operating performance and increasing its profitability levels, despite the current market environment. In a period marked by a challenging macroeconomic conditions, the Company's two brands faced very different operating environments. The performance of the Gafisa segment reflects difficult conditions in the middle and upper income markets, due to interest rate, inflation and exchange rate movements which are directly impacting both consumer and investor confidence. On the other hand, the Tenda segment's performance remains supported by strong demand from the low income segment.

In this context, we would like to highlight the positive performance achieved by both Gafisa and Tenda's projects in the quarter, which contributed to the Company's consolidated results. The consolidated adjusted gross margin reached 33.9% in the quarter. The Gafisa segment is maintaining stable profitability levels in its projects, with an adjusted gross margin of 36.5% in the quarter. At the same time, the consolidation of the New Model within Tenda led the segment to record an adjusted gross margin of 30.1%.

In keeping with the shift to a more conservative strategy amid greater risk aversion in the market, the Gafisa segment launched two projects during the quarter. We would like to highlight once again the focus on reducing inventory levels, which accounted for approximately 72% of net pre-sales totaling R\$242.2 million in the quarter. It is also worth noting strong delivery volumes in the Gafisa segment during the period: totaling 1,498 units and R\$777.3 million in PSV. In the first half of 2015, 14 projects/phases were delivered, representing 3,345 units and R\$1.3 billion in PSV. The level of cancellations, which reached R\$115.6 million in 2Q15, reflected the impact of Brazil's current economic stagnation against Gafisa's strong volume of deliveries.

We ended the second quarter with R\$2.1 billion in inventory in the Gafisa segment, with just 19.8% related to completed projects. This percentage was impacted by the volume of deliveries of corporate units and R\$105.4 million of units located in discontinued markets, resulting in a decrease of 52% y-o-y and 8% from the previous quarter. The performance of inventory sales once again contributed to the effective sales speed, which was 10.5% in 2Q15, and higher y-o-y.

Amid the continuation of current economic conditions, we expect to take a conservative approach to launch activity throughout the second half of the year. We will seek to balance the placement of new products in the market, prioritizing those with more liquidity, in order to achieve an adequate sales and profitability.

In the lower income segment, Tenda was able to sustain positive results and reported net income for the second consecutive quarter. These results reflect the increased operational scale of the New Model and the greater level of efficiency and management of both the financial and operational cycles.

In regards to the expansion of Tenda's operating volume, 6 projects/phases were launched in 2Q15, accounting for R\$229.4 million. The projects/phases are located in the states of São Paulo, Rio de Janeiro, Rio Grande do Sul, Bahia and Pernambuco.

The highlight of the quarter was the strong speed of sales result, which reached 28.2%. This is due to greater product availability after three consecutive quarters of high launch volumes, strong demand in the low income segment and a significant reduction in the volume of dissolutions observed during the period. As a result, net pre-sales increased significantly, totaling R\$289.9 million, the highest level since the 4Q10.

The Tenda segment delivered 5 projects during the quarter, representing 1,240 units and accounting for R\$177.2 million in PSV, of which 77% (980 units, or R\$137.2 million) were under the New Model. In the 6M15, the segment delivered R\$239.5 million, with 61% relating to the New Model.

Tenda's solid operating performance positively impacted its financial results, with adjusted gross income reaching R\$73.3 million in 2Q15. The adjusted gross margin remained in the range of 28-30%, as it has since 2Q14.

Tenda has continued its efforts to achieve greater economies of scale by increasing launches and implementing strategies designed to ensure a strong speed of sales. Sustainable operating results over the last three quarters reinforces our confidence in the New Model.

On a consolidated basis, Gafisa and Tenda launched R\$482.0 million in 2Q15 and R\$795.5 million in 6M15, with net pre-sales of R\$532.1 million and R\$955.5 million, respectively. Adjusted gross profit was R\$200.4 million, with a margin of 33.9% in the quarter; over the first six months, adjusted gross profit was R\$379.7 million.

A substantial reduction in the volume of old projects and the adaptation to current market conditions led Gafisa to concentrate on achieving greater stability in its cost and expense structure. Selling and administrative expenses were R\$89.7 million, down 9.9% on a year-over-year basis. Year-to-date, these expenses totaled R\$160.5 million, down 11.7% from 6M14, attesting to the Company's commitment to streamlining its cost structure.

As a result of these initiatives, consolidated net income totaled R\$28.5 million in the quarter and R\$60.1 million in the 6M15.

At the end of the 6M15, the Net Debt / Shareholder's Equity ratio reached 50.4%, consistent with the previous quarter. Excluding financing for projects, the Net Debt / Shareholder's Equity ratio was negative 11.7%. In the quarter, consolidated operating cash generation reached R\$13.1 million, also in line with the previous quarter. The Company ended the 2Q15 with a net cash burn of R\$28.1 million, totaling a cash burn of R\$97.8 million in the first half. This level of cash burn came as a result of higher disbursements related to Tenda's land bank in 1Q15 and a slightly lower volume of transfers in the Gafisa segment compared to that of the previous quarter, due to the higher volume of corporate projects delivered in the second half.

The process of separating the Gafisa and Tenda business units is moving forward. Since the beginning of 2014, a number of steps have already been completed, while some of the actions are still underway. These include defining the appropriate capital structure for each of the business units. Considering that this is the most crucial step in the separation process, it is still not possible to determine when the potential separation will be concluded, with the possibility that it could extend into 2016, as we have previously announced.

Finally, we would like to highlight our satisfaction with the evolution of the business cycles at both Gafisa and Tenda in this first half of 2015. In recent years, both companies have strengthened and improved their operating and financial cycles, positioning them well for the challenges facing the sector and region in 2015. The company remains focused on achieving superior operating performance and continues to be guided, at all times, by capital discipline, the achievement of higher profitability and the generation of value for its shareholders and other stakeholders.

Solid second quarter topline performance reflects maintenance in the level of revenues, supported by inventory sales, which represented 72.3% of net sales in the second quarter and 80.7% in 6M15. Another point worth highlighting is the reduction in selling, general and administrative expenses, which were 4.9% lower q-o-q and 12.5% lower y-o-y. This reflects ongoing efforts in the Gafisa segment to increase efficiencies and improve cost management.

2Q15 adjusted gross margin ended at 36.5%, in line with the average levels reported in previous quarters and marginally lower y-o-y, due to a higher recognition of swaps in the period. These profitability levels support the stability of the gross margin in the Gafisa segment, and also highlight the solid performance of

the Gafisa segment projects, resulting from the continuous evolution of the Company's business cycle.

Net Income

Net income for the period was R\$8.5 million, compared to R\$17.1 million in the 2Q14. This decrease is due to a slight reduction in gross margin, a higher volume of other operating expenses, and the lower contribution of AUSA equity income. 6M15 net income reached R\$28.7 million compared to R\$14.8 million in 6M14. Excluding the R\$5.2 million in equity income from Alphaville, the Gafisa segment's net income in 2Q15 was R\$3.3 million, compared to R\$8.7 million recorded in 2Q14. In 6M15, net income was R\$6.5 million, compared to R\$9.8 million in the previous year.

The second quarter of the year marked another step towards the consolidation of Tenda's operational cycle, supported by an increase in the number of launches in the segment and a reduction in cancellations since the implementation of changes in the sales process (August/2014). As a result, the financial results of the Tenda segment improved significantly.

Tenda recorded a strong increase in adjusted gross profit in the quarter, reaching R\$73.3 million in 2Q15. In addition, the adjusted gross margin remained stable between 28 - 30%, which is in line with the range observed since 2Q14. This reflects the operational consolidation of projects executed under the New Model, which has demonstrated improved performance and profitability, combined with the decreasing contribution of legacy projects in the segment's revenue mix.

Furthermore, as observed in sequential quarters, adjustments in the cost and expense structure to Tenda's business cycle positively impacted the quarter's results. General and administrative expenses decreased by 13.6% compared to the prior year. Importantly, the Tenda segment achieved a reduction in selling expenses despite an increase in the number of launches and gross sales, of 131.7% and 14.8%, respectively, versus the year-ago period.

Net Income

In 2Q15 the Tenda segment achieved net income of R\$20.0 million, substantially higher than net income of R\$11.4 million in 1Q15 and a net loss of R\$18.0 million in 2Q14. In 6M15, net income was R\$31.4 million, compared to a net loss of R\$55.4 million in the previous year, reflecting the improved operating and financial performance of the Tenda segment. RECENT EVENTS

UPDATED STATUS OF THE SPIN-OFF PROCESS AND RECENT DEVELOPMENTS

In the 2Q15, the Company progressed with the evaluation of the potential separation of the Gafisa and Tenda business units. Since commencing the spin-off process in February 2014, a variety of activities have been executed in order to make the two business units independent of one another from both an operational perspective, as well as a capital structure perspective. We highlight the following actions that have already been completed: (i) separation of the administrative structures, with implementation of the necessary changes required to processes and systems, (ii) definition of policies and corporate governance, (iii) preparation for Tenda's shares to be traded on the market, and (iv) performance of due diligence and studies of the various impacts the separation could have on operational, organizational, financial and market-related aspects of the two Companies.

Over the last quarter, the Company advanced the separation procedures related to Information Technology (IT), one of the last remaining joint administrative structures. Currently, besides the IT area, the only business units operating on a joint basis are those that will split at the time of the official separation. These business units include Investor Relations, Corporate Legal, Internal Audit and Internal Controls.

Definition of the appropriate capital structure is one main processes that is still ongoing. The Company continues to work with financial institutions in order to achieve the conditions deemed necessary for the desired capital structure model, which takes into consideration the business cycles of each of the business units.

As previously communicated in a Material Fact released to the market on April 29, these discussions are ongoing and are taking longer than had been initially expected. As a result, and considering that the achievement of an appropriate capital structure is a necessary step in the separation process, it is not yet possible to determine when the potential separation will be concluded, and it is possible that the process could extend into 2016.

Additionally, in the same Material Fact, the Company informed the market that it had been contacted by groups interested in evaluating the potential acquisition of an equity stake in Gafisa and Tenda, either together or separately. During the last quarter, there has been no change in this subject.

The Administrations of Gafisa and Tenda, in accordance with their fiduciary duties, will evaluate any proposals that could result in the creation of value for the Companies and will communicate to their shareholders and the market in general any evolution in these discussions through presentation of a formal proposal.

The Company will keep its shareholders and the market informed of any developments related to the subjects mentioned above.

GAFISA SEGMENT

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with average unit prices above R\$250,000.

Operating Results

Launches and Pre-Sales

Second quarter 2015 launches totaled R\$252.6 million, representing 2 projects/phases located in the city of São Paulo. The sales speed of these launches reached 24.4%. In the first 6M15, the Gafisa segment totaled R\$ 327.8 million in launches, representing 41.2% of consolidated launches.

The Gafisa segment's 2Q15 gross pre-sales totaled R\$357.8 million. Dissolutions reached R\$115.6 million and net pre-sales reached R\$242.2 million, an increase of 34.7% compared to 1Q15 and stable compared to the previous year. In the first half of the year, the volume of dissolutions was R\$ 240.5 million and net sales ended the 6M15 at R\$422.0 million. In the quarter, the sales over supply (SoS) of the Gafisa segment was 10.5%, higher than that of 1Q15 and the previous year.

The Company continues to concentrate its efforts on the sale of remaining units. As a result, approximately 53.0% of net sales during the period related to projects launched through 2013, resulting in an improvement in the inventory profile of the Gafisa segment.

Sales over Supply (SoS)

The sales velocity was 10.5% in 2Q15, above the 8.0% recorded in 1Q15 and above 9.8% in the previous year. On a trailing 12 month basis, Gafisa's SoS reached 27.7%.

Dissolutions

The weak economic conditions during the first half of 2015 directly affected consumer confidence and, accordingly, the level of dissolutions. This scenario has persisted since the end of 2014. Due to the challenging operating environment, the level of dissolutions in the Gafisa segment reached R\$115.6 million in 2Q15, a decrease compared to R\$124.8 million in 1Q15 and R\$119.9 million in the previous year. It is also worth noting that the level of dissolutions in 6M15 has also been impacted by the increased volume of deliveries in the quarter. 1,498 units were delivered in this 2Q15, corresponding to R\$777.3 million in PSV; in the first half of the year deliveries totaled 3,165 units and R\$1.3 billion in PSV.

Over the last three years, the Company has been working on initiatives to achieve a higher quality of credit analysis in its sales. In doing so, the Company hopes to reduce the level of dissolutions throughout the construction and delivery cycle. A comprehensive approach in the credit review process at the time of the sale has generated greater efficiency in the process of transferring Gafisa customers to financial institutions. This progress has occurred despite deteriorating macroeconomic conditions, especially from the second half of 2014.

In 2Q15, 486 Gafisa units were cancelled and 253 units were already resold in the period.

Inventory

Gafisa is maintaining its focus on inventory reduction initiatives. Projects launched until 2014 represented 72.3% of net sales in the period. In 6M15, inventory as a percentage of sales reached 80.7%. The market value of the Gafisa segment inventory remained stable compared at R\$2.1 billion compared to the previous quarter. Finished units outside of core markets accounted for R\$105.4 million, or 5.1% of total inventory.

* The period adjustments are a reflection of updates related to the project scope, release date and inflationary update in the period.

During the same period, finished units comprised R\$410.7 million, or 19.8% of total inventory. Inventory from projects launched outside core markets, currently exclusively comprised of finished units, represent R\$105.4 million, down 52.3% when compared to the R\$220.9 million recorded last year and down 8.3% from 1Q15. The Company estimates that by early 2016, it will have monetized a large portion of its inventory in non-core markets, based on the sales rate observed in these markets over the past few quarters.

The inventory of completed units increased as a result of more deliveries of corporate projects during the quarter, representing approximately R\$474.7 million or 61.1% of PSV delivered. The increase was due to lower liquidity levels for these types of projects.

It is worth noting that the largest share of Gafisa's inventory, approximately 59% or R\$1.2 billion, is concentrated in projects that are to be delivered in the second quarter of 2016. This will be reflected in the sale of inventory in the coming quarters, rather than finished units.

Landbank

The Gafisa segment land bank, with a PSV of approximately R\$5.9 billion, is comprised of 30 potential projects/ phases, amounting to nearly 10.8 thousand units, of which 77% are located in São Paulo and 23% in Rio de Janeiro. The largest portion of land acquired through swap agreements is in Rio de Janeiro, impacting the total percentage of land acquired, which reached 59%.

Gafisa Vendas

During 6M15, Gafisa Vendas, the Company's independent sales unit, with operations in São Paulo and Rio de Janeiro, accounted for 63% of gross sales of the quarter. Gafisa Vendas currently has a team of 700 highly trained, dedicated consultants, in addition to an online sales force.

Delivered Projects

During 2Q15, Gafisa delivered 5 projects/phases totaling 1,498 units and accounting for R\$777.3 million in PSV. In 6M15, 14 projects / phases were delivered, representing 3,345 units and R\$ 1.3 billion in PSV.

Currently, Gafisa has 30 projects under construction, all of them on schedule in regards to the Company's business plan.

Transfers

Over the past few years, the Company has been taking steps to improve the performance of its receivables / transfer process, in an attempt to achieve higher rates of return on invested capital. Currently, our plan is to transfer 90% of eligible units up to 90 days after the delivery of the project. In accordance with this policy, transfers reached R\$169.8 million in PSV in the second quarter.

Of second quarter deliveries, of R\$777.3 million, 61.1% comprised corporate projects. Financing arrangements for corporate projects differ from that of residential projects, resulting in a smaller contribution to transfer volumes, which impacted cash generation in the quarter.

Financial Results

Revenues

2Q15 net revenues for the Gafisa segment totaled R\$348.4 million, an increase of 2.5% q-o-q and a decrease of 12.4% y-o-y. The decrease compared to the 2Q14 is related to projects whose construction works are more advanced.

In 2Q15, approximately 99.6% of Gafisa segment revenues were derived from projects located in Rio de Janeiro/São Paulo, while 0.4% were derived from projects in non-core markets. The table below provides additional details.

Gross Profit & Margin

Gross profit for the Gafisa segment in 2Q15 was R\$90.3 million, compared to the R\$98.1 million in 1Q15, and R\$119.1 million in the prior year period. The second quarter gross margin of 25.9% was impacted by an R\$11.0 million increase in revenue from projects comprising a higher number of swapped units. In keeping with accounting rules, the gross margin on these projects is lower initially, before normalizing over time.

Excluding financial impacts, the adjusted gross margin reached 36.5% in 2Q15 compared to 36.9% in the 1Q15 and 38.1% in the prior year, reaffirming the maintenance in the levels of profitability in the Gafisa segment. This is a result of the strategic consolidation in the metropolitan regions of São Paulo and Rio de Janeiro and the completion of older projects in other non-core markets.

The table below contains more details on the breakdown of Gafisa's gross margin in 2Q15.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses totaled R\$50.4 million in the 2Q15, a decrease of 15.7% y-o-y and an increase of 17.4% q-o-q. This came as a result of a higher level of selling expenses due to the higher volume of launches compared to 1Q15 and the additional marketing effort required in the current market scenario. In the first half, these expenses totaled R\$93.4 million, 16.1% below the R\$111.3 million the previous year.

Selling expenses decreased 19.2% compared to 2Q14 and increased by 63.0% from 1Q15, also due to the partial recognition of expenses related to the launch held at the end of 1Q15, which were recorded in 2Q15. For the first half of the year, selling expenses decreased by 21.8% compared to the same period last year.

The segment's general and administrative expenses reached R\$27.5 million in 2Q15, a decrease of 4.9% compared to the previous quarter and 12.5% y-o-y. In 6M15, general and administrative expenses reached R\$56.4 million compared to R\$63.9 million in 6M14.

The reduction in the level of SG&A expenses in the Gafisa segment reflects the Company's commitment to improve operational efficiency and achieve a level of costs and expenses that are appropriate for the current status of the business cycle and business outlook.

Net Revenue	348,392	340,058	2%	397,907	-12%	688,450	724,657	-5%

Other Operating Revenues/Expenses reached R\$21.4 million in 2Q15, a decrease of 25.0% compared to the 1Q15, and a decrease of 12.2% compared to the previous year.

It is worth noting that if the impact of R\$ 13.9 million recorded in 2Q14 related to the provisioning of Alphaville's stock option plan is excluded, this item would have shown an increase of 88.5% over the same period last year, totaling R\$49.9 million in 6M15.

This increase reflects the higher level of litigation expenses related to increased deliveries of older projects held in 2012, 2013 and 2014.

The Company continues to be more proactive and to mitigate risks associated with potential contingencies. Taking such approach into consideration, this line had a R\$ 11.5 million impact in 2Q15.

The table below contains more details on the breakdown of this expense.

Table 16. Gafisa Segment – Other Operating Revenues/ Expenses (R\$000)

	(24,622)	(19,965)	23%	(10,667)	131%	(44,587)	(26,669)	67%

Total	(21,378)	(28,521)	-25%	(24,351)	-12%	(49,899)	(40,340)	24%

A higher volume of deliveries over the past three years, due to the delivery of delayed projects in discontinued markets, led to an increase in the level of contingencies. The Gafisa segment has since concentrated its operations only in the metropolitan regions of São Paulo and Rio de Janeiro. This new strategic positioning, combined with improved internal processes, is expected to result in fewer future legal claims and a subsequent decrease in the amount of expenses related to contingencies.

Adjusted EBITDA

Adjusted EBITDA for the Gafisa segment totaled R\$52.4 million in 2Q15, a decrease of 37.1% compared to R\$83.4 million in the prior year period and down 10.1% compared to R\$58.3 million recorded in 1Q15. Adjusted EBITDA for the period was R\$110.7 million compared to R\$138.2 million in 1H14. Y-o-Y, 2Q15 EBITDA was impacted by the following factors: (i) especially due to a decrease in revenues; (ii) slight decrease in the level of gross margin; and (iii) the addition of R\$14.0 million in expenses related to contingencies, recognized as Other Revenues/Expenses. It is worth noting that adjusted EBITDA for the Gafisa segment does not include equity income from Alphaville.

The adjusted EBITDA margin, using the same criteria, declined to 15.0%, compared with a margin of 20.9% in the previous year, and 17.1% in 1Q15. In 6M15, the EBITDA margin reached 16.1% versus 19.1% the previous year.

TENDA SEGMENT

Focuses on affordable residential developments, classified within the Range II of Minha Casa, Minha Vida Program.

Operating Results**Launches and Sales**

Second quarter launches totaled R\$229.4 million and included 6 projects/phases in the states of São Paulo, Rio de Janeiro, Rio Grande do Sul, Bahia and Pernambuco. The Tenda segment accounted for 47.6% of launches in the quarter. In the first six months of the year, launch volumes reached R\$ 467.7 million.

During 2Q15, gross sales reached R\$343.7 million and dissolutions were R\$53.8 million, totaling net pre-sales of R\$289.9 million, an increase of 19.1% compared to the previous quarter and an increase of 59.6% y-o-y. In 6M15, the volume of dissolutions was R\$110.1 million and net pre-sales totaled R\$533.5 million, 128.5% higher in comparison to 6M14.

Sales from units launched during 2Q15 accounted for 14.2% of total sales.

Dissolutions

The level of dissolutions in the Tenda segment totaled R\$53.8 million in 2Q15, down 4.6% from 1Q15 and down 54.3% compared to 2Q14.

As expected, the amendment in new sales processing, established in August 2014, reduced the level of dissolutions during the period. Approximately 71% of the dissolutions in the period were related to old projects.

Tenda remains focused on the completion and delivery of legacy projects and is dissolving contracts with ineligible clients, so as to sell the units to new qualified customers.

Tenda had 373 units cancelled and returned to inventory in the second quarter, and 167 units which were already in inventory were resold to qualified customers during the same period. The sale and transfer process plays an important role in the New Tenda Business Model. It is expected that within a period of up to 90 days, the effective sale and transfer process will be complete.

Tenda Segment Transfers

In the 2Q15, 2,019 units were transferred to financial institutions, representing R\$254.0 million in net pre-sales.

1) PSV transferred refers to the conclusion of the transfer operation. 2) PSV = Potential sales volume of the units.

Tenda Segment Delivered Projects

During 2Q15, Tenda delivered 5 projects/phases and 1,240 units, reaching a PSV of R\$177.2 million, ending 6M15 with 2,927 units delivered and a PSV of R\$ 393.5 million. It is worth noting that there are only two remaining construction sites from Tenda's legacy projects, with 640 remaining units to be delivered in the next months.

Inventory

The market value of Tenda inventory was R\$738.4 million at the end of the 2Q15, down 8.1% when compared to R\$803.5 million at the end of 4Q14. Inventory related to the remaining units for the Tenda segment totaled R\$272.9 million or 37.0% of the total, down 12.5% versus 1Q15 and 35.3% as compared to 2Q14. During the quarter, inventory comprising units within the Minha Casa Minha Vida program totaled R\$596.5 million, or 80.8% of total inventory, while units outside the program totaled R\$141.8 million, a decrease of 18.8% q-o-q and 30.0% y-o-y.

In 2Q15, the Company acquired 4 new land plots with potential PSV of R\$162.3 million, representing an acquisition cost of R\$20.2 million. The acquisition was financed by 54% cash and 46% swap agreements.

New Model Update and Turnaround

During 2015, Tenda launched projects under its New Business Model, which is based on three pillars: operational efficiency, risk management, and capital discipline.

Currently, the Company continues to operate in six macro regions: São Paulo, Rio de Janeiro, Belo Horizonte, Porto Alegre, Salvador and Recife, with a total of 33 projects and a launched PSV of R\$1,394.9 million to date. Below is a brief description of the performance of these projects, except for projects launched at the end of 2Q15.

It is worth noting that the Tenda segment has delivered 11 projects, totaling 3,539 units and R\$467.5 million in PSV, all of them attaining the performance and profitability drivers established for the New Model.

Financial Result

Revenues

Tenda's net revenues in 2Q15 totaled R\$243.1 million, an increase of 35.5% compared with 1Q15, demonstrating an increased volume of net sales as a result of the lower level of dissolutions in the period. As shown in the table below, revenues from new projects accounted for 73.3% of Tenda's revenues in 2Q15, while revenues from older projects accounted for the remaining 26.7%.

Gross Profit & Margin

Gross profit in 2Q15 totaled R\$68.3 million, compared to R\$51.1 million in 1Q15, and R\$45.8 million in the 2Q14. Gross margin for the quarter reached 28.1%, compared to 28.5% in 1Q15 and 25.9% in 2Q14. The year-over-year improvement in gross margin is due to the increased participation of projects launched under the New Business Model, which are more profitable. Both the reduction in volume of older projects, with only two projects still under development (to be delivered in the coming months), and the increase in the number of projects launched under the New Model, contributed to the improved results.

Tenda's adjusted gross margin ended 2Q15 at 30.1%, in line with the 30.0% recorded in 1Q15, and the 30.4% in 2Q14. During 6M15, Tenda's adjusted gross margin was 30.1%, above 24.5% in 6M14.

The table below shows Tenda's gross margin breakdown in 2Q15. It is worth noting that the gross margin for the first projects under Tenda's New Business Model also benefits from the use of older land bank, resulting in increased profitability.

Selling, General and Administrative Expenses (SG&A)

During 2Q15, selling, general and administrative expenses totaled R\$39.3 million, a 41.2% decrease compared to R\$27.8 million in 1Q15, and stable y-o-y. In 6M15, SG&A totaled R\$67.1 million, a 4.8% reduction from 6Q14

Selling expenses totaled R\$17.7 million in 2Q15, a 20.4% increase y-o-y and a 35.6% increase q-o-q, due to the ongoing expansion in launch volume and gross sales of the Tenda segment. In 6M15, selling expenses increased 16.0% year-over-year to R\$ 30.7 million.

In regards to G&A expenses, there was a reduction of 13.6% y-o-y and an increase of 46.1% q-o-q. This was mainly driven by the reversal of the residual balance of the Profit Sharing provision of R\$5.6 million, which was accrued during 2014 and reversed in 1Q15. YTD, general and administrative expenses totaled R\$36.4 million, 17.3% below the R\$ 44.0 million recorded in 6M14.

Another step taken by the Tenda segment to improve its operational and financial cycle is a reduction in the cost structure to a level more compatible with the current stage of the Company's business model, in order to achieve better profitability.

Other Operating Revenues/ Expenses totaled R\$11.7 million, a decrease of 22.0% compared to the 2Q14 and an increase of 131.9% compared to 1Q15, mainly due to the write-off of assets related to the revision work of Tenda's legal deposits. The table below contains details on the breakdown of this expense.

Over the past two years, the strong volume of deliveries related to delayed projects resulted in increased contingencies in the Tenda segment. The Company expects to see a reduction in the volume of such expenses over the coming years based on the delivery of the final legacy projects over the coming months and the increased contribution of New Model projects demonstrating strong operational performance.

Adjusted EBITDA

Adjusted EBITDA was positive R\$15.2 million in 2Q15, compared to negative R\$1.9 million last year and positive R\$21.1 million in 1Q15, impacted by higher selling, general and administrative expenses, and also by an increase in other operating expenses q-o-q, due to non-recurring adjustments. In the first half, adjusted EBITDA was positive R\$36.3 million against a negative result of R\$26.8 million in the previous year.

The increasing participation of projects under the New Model in Tenda's revenue mix, due to the conclusion of old projects and increase in launches since 2013, has resulted in improved gross margins in recent quarters. Combined with the better performance of and efficiencies in Tenda's cost structure, this resulted in a significant increase in EBITDA in the Tenda segment during the period.

Adjusted EBITDA margin reached 6.3% in 2Q15 and 8.6% in 1H15.

Cash Generation

The Company's operating cash generation reached R\$13.1 million in 2Q15. The Gafisa segment contributed cash generation of R\$7.4 million, considering the impact of the bonus payment and profit sharing from the prior year, which is always verified during the second half of the year. It was also impacted by slightly lower transfer volumes compared to the prior quarter, resulting from the delivery of more corporate projects in this semester. The volume of transferring/receiving process of units sold to financing agents reached R\$169.8 million during the period, and R\$367.8 million YTD. The Tenda segment generated R\$5.7 million in cash, with R\$180.7 million transferred in 2Q15 and R\$285.0 million in 6M15. In 1H15, the Company generated operating cash of R\$19.4 million.

While consolidated operating cash generation reached R\$13.1 million, the Company ended 2Q15 with operating cash consumption of R\$28.1 million, and consumption of R\$97.8 million in 1H15. It is worth highlighting that this result does not include the R\$22.1 million used in the share buyback program during the quarter.

Liquidity

At the end of June 2015, the Company's Net Debt/Equity ratio reached 50.4%, stable compared to 50.0% in the previous quarter. Excluding project finance, the Net Debt/Equity ratio was negative 11.7%.

The Company's consolidated gross debt reached R\$2.4 billion at the end of 2Q15, a decrease of 7.8% compared to 1Q15 and 9.0% y-o-y. In the 2Q15, the Company amortized R\$411.3 million in debt, of which R\$269.5 million was project finance and R\$141.8 million was corporate debt. However, around R\$122.7 million was released, allowing for a net amortization of R\$284.5 million. For the 6M15, approximately 55.5% of gross debt with maturity scheduled for 2015 was amortized. During the first half, new releases of R\$275.8 million were held, of which R\$220.8 million comprised project debt and R\$55 million corporate debt, thus allowing for a net amortization in the first six months of R\$ 313.0 million.

Financial Result

Revenue

On a consolidated basis, net revenue in the 2Q15 totaled R\$591.5 million, up 13.9% over the 1Q15 and up 2.9% from 2Q14. In the quarter, the Gafisa segment represented 58.9% of consolidated revenues, while Tenda accounted for the remaining 41.1%. In 6M15, consolidated net revenue reached R\$1.1 billion, in line with previous year.

Gross Profit & Margin

Gross profit in 2Q15 was R\$158.5 million, compared to R\$149.2 million in 1Q15, and R\$164.9 million in the prior year quarter. Gross margin for the quarter reached 26.8%, a decline when compared to prior periods.

Adjusted gross profit reached R\$200.4 million, with a margin of 33.9%, compared to 34.5% in the 1Q15 and 35.7% in the previous year. Supported by stable results in the Gafisa segment, and the higher volume and consolidation of Tenda's New Business Model operations, the Company has been able to maintain its adjusted gross margin at a healthy level throughout the past few quarters.

The gross margin has improved during the last two years as Gafisa and Tenda legacy projects have been concluded, reducing their impact on the Company's results. At the same time, the contribution of more profitable projects launched in core markets and under the Tenda segment's New Model has increased during recent quarters.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses totaled R\$89.7 million in 2Q15, up 26.7% q-o-q, due to the higher volume of launches and gross sales in the period, resulting in higher marketing expenses. Compared to the 2Q14, there was a 9.9% reduction. In the 6M15, selling, general and administrative expenses totaled R\$160.5 million, 11.7% lower than 1H14.

Given the substantial decrease in the volume of legacy projects and current market conditions, the Company is seeking to streamline its cost and expense structure and SG&A. In the coming quarters, the Company is looking to improve productivity and increase the efficiency and assertiveness of its operations.

The Other Operating Revenues/ Expenses line totaled an expense of R\$33.1 million, down 1.5% compared to the 1Q15, and up 15.9% compared to the previous year. In 6M15, this line reached R\$66.6 million.

The table below contains more details on the breakdown of this expense.

Depreciation and Amortization

Depreciation and amortization in the 2Q15 reached R\$11.6 million, stable compared to 1Q15 and down 27.6% compared to R\$16.0 million recorded in 2Q14, due to the lower expense from the depreciation of sales booths, used by developers to market projects, in the period. In 1H15, this line totaled R\$23.2 million compared to R\$30.0 million reported in the previous year.

Financial Results

Net financial result was positive R\$2.7 million in the 2Q15, higher than a negative result of R\$3.1 million in 1Q15. Financial revenues totaled R\$44.3 million, a 16.6% y-o-y increase due to the higher annual interest rate registered in the period. Financial expenses reached R\$41.6 million, compared to R\$41.0 million in 2Q14, impacted by the decrease in the level of gross indebtedness in the period. YTD, the net financial result was negative R\$ 5.5 million, compared to a net loss of R\$ 11.0 million in the same period last year.

Taxes

Income taxes, social contribution and deferred taxes for 2Q15 amounted to a credit of R\$5.8 million, due to the constitution of deferred income tax in the amount of R\$8.9 million in a subsidiary. In the first half, income tax and social contribution totaled R\$6.4 million.

Net Income

Gafisa Group ended the 2Q15 with a net profit of R\$28.5 million. Excluding the equity income from AUSA, the Company recorded net income of R\$23.3 million in the quarter, compared to a net loss of R\$9.2 million recorded in 2Q14 and R\$14.7 million in 1Q15. In 6M15, net income was positive R\$ 60.1 million, including Alphaville's equity income, compared to a net loss of R\$ 40.6 million in the same period last year.

About Gafisa

Gafisa is one Brazil's leading residential and commercial properties development and construction companies. Founded over 60 years ago, the Company is dedicated to growth and innovation oriented to enhancing the well-being, comfort and safety of an increasing number of households. More than 15 million square meters have been built, and approximately 1,100 projects delivered under the Gafisa brand - more than any other company in Brazil. Recognized as one of the foremost professionally managed homebuilders, Gafisa's brand is also one of the most respected, signifying both quality and consistency. In addition to serving the upper-middle and upper class segments through the Gafisa brand, the Company also focuses on low income developments through its Tenda brand. And,, it participates through its 30% interest in Alphaville, a leading urban developer, in the national development and sale of residential lots. Gafisa S.A. is a Corporation traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFS3) and is the only Brazilian homebuilder listed on the New York Stock Exchange (NYSE:GFA) with an ADR Level III, which ensures best practices in terms of transparency and corporate governance.

This release contains forward-looking statements about the business prospects, estimates for operating and financial results and Gafisa's growth prospects. These are merely projections and, as such, are based exclusively on the expectations of management concerning the future of the business and its continued access to capital to fund the Company's business plan. Such forward-looking statements depend, substantially, on changes in market conditions, government regulations, competitive pressures, the performance of the Brazilian economy and the industry, among other factors; therefore, they are subject to change without prior notice.

1. Operations

Gafisa S.A. ("Gafisa" or "Company") is a publicly traded company with registered office at Avenida das Nações Unidas, 8.501, 19th floor, in the city and state of São Paulo, Brazil and commenced its operations in 1997 with the objectives of: (i) promoting and managing all forms of real estate ventures on its own behalf or for third parties (in the latter case, as construction company and proxy); (ii) selling and purchasing real estate properties; (iii) providing civil construction and civil engineering services; (iv) developing and implementing marketing strategies related to its own and third party real estate ventures; and (v) investing in other companies who share similar objectives.

The Company enters into real estate development projects with third parties through specific purpose partnerships ("Sociedades de Propósito Específico" or "SPEs") or through the formation of consortia and condominiums. Controlled entities substantially share the structures and the corresponding corporate, managerial and operating costs with the Company. SPEs, condominiums and consortia operate solely in the real estate industry and are linked to specific ventures.

On April 29, 2015, following the material fact of February 7, 2014, the Company disclosed a new material fact informing to its shareholders and the market that the works for the potential separation of the business units Gafisa and Tenda continue to be carried out, aiming at fulfilling the conditions considered necessary for its implementation. However, in view of the fact that the process for defining the capital structure is still in progress, and taking into account that this definition is a required step towards the separation process, it is not yet possible to estimate a term for completing the potential separation, the process may be extended to 2016.

2. Presentation of quarterly information and summary of significant accounting policies

2.1. Basis of presentation and preparation of individual and consolidated quarterly information

On August 7, 2015, the Company's Board of Directors approved these individual and consolidated quarterly information of the Company and has authorized their disclosure.

The individual quarterly information (Company) and consolidated quarterly information were prepared and are being presented based on the technical pronouncement CPC 21(R1) – Interim Financial Reporting, using the same accounting practices, judgments, estimates and assumptions adopted in the presentation and preparation of the financial statements for the year ended December 31, 2014. Therefore, the corresponding quarterly information shall be read together with the financial statements as of December 31, 2014.

The individual quarterly information, identified as “Company”, has been prepared according to the accounting practices adopted in Brazil and the standards issued by the Accounting Pronouncements Committee (CPCs) and are disclosed together with the consolidated quarterly information.

The individual quarterly information of the Company is not considered to be in compliance with the IFRS, once it considers the capitalization of interest on qualifiable assets of investees in the separate quarterly information of the Company. Due to the fact that there is no difference between the consolidated equity and profit or loss attributable to the shareholders of the Company, according to the consolidated quarterly information prepared in compliance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB)), and the accounting practices adopted in Brazil, and the equity and profit or loss of the Company according to the individual information prepared in accordance with the accounting practices adopted in Brazil, the Company opted for presenting these individual and consolidated information in only one set.

The quarterly information of the Company has been prepared and is being presented according to the accounting practices adopted in Brazil, including the pronouncements issued by the CPC, approved by the Brazilian Securities and Exchange Commission (CVM), and according to the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The consolidated quarterly information is specifically in compliance with the International Financial Reporting Standards (IFRS) applicable to real estate development entities in Brazil, including the Guideline OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, in relation to the treatment of the recognition of revenue from this sector and involves certain matters related to application of the continuous transfer of the risks, benefits and control over the real estate unit sales.

2. Presentation of quarterly information and summary of significant accounting policies

--Continued

2.1. Basis of presentation and preparation of individual and consolidated quarterly information

--Continued

The quarterly information has been prepared on a going concern basis. Management makes an assessment of the Company's ability to continue as going concern when preparing the financial statements. The Company is in compliance with all of its debt covenants at the date of issue of this quarterly information.

All amounts reported in the accompanying quarterly information are in thousands of Reais, except as otherwise stated.

The other explanations related to this note were not subject to material changes in relation to the disclosures in Note 2.1 to the individual and consolidated financial statements as of December 31, 2014.

2.1.1. Consolidated quarterly information

The accounting practices were uniformly adopted in all subsidiaries included in the consolidated quarterly information and the fiscal year of these companies is the same of the Company. See further details in Note 9.

The other explanations related to this note were not subject to material changes in relation to the disclosures in Note 2.1.1 to the individual and consolidated financial statements as of December 31, 2014.

3. Pronouncements (new or revised) and interpretation adopted from January 1, 2015 and new and revised standards and interpretation already issued and not yet adopted

IFRS 15 – Revenue from contracts with customers: the Company is still evaluating the effects of the IFRS 15 on its Financial Statements and has not yet completed its analyses thus far, not being able to assess the impact of the adoption of this standard.

On July 22, 2015, the International Accounting Standards Board (IASB) disclosed the deferral for one year of the effective date for adopting the IFRS 15 to January 1, 2018.

There is no other standard and interpretation that was issued and not yet adopted that could, on the Management's opinion, have significant impact on the profit or loss for the period or equity disclosed by the Company.

The other explanations regarding the pronouncement and interpretation revisions and issues did not have significant changes in relation to those reported in Note 3 to the financial statements as of December 31, 2014.

(i) Lawsuits in which likelihood of loss is rated as possible

As of June 30, 2015, the Company and its subsidiaries are aware of other claims and civil, labor and tax risks. Based on the history of probable processes and the specific analysis of main claims, the measurement of the claims with likelihood of loss considered possible amounted to R\$622,608 (R\$561,056 in 2014), based on average past outcomes adjusted to current estimates, for which the Company's Management believes it is not necessary to recognize a provision for occasional losses. The change in the period was caused by the higher volume of lawsuits with smaller amounts and review of the involved amounts.

21. Financial instruments

The Company and its subsidiaries engage in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at providing liquidity, return and safety. The use of financial instruments with the objective of hedging is achieved through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and performance of the proposed strategy. The control policy consists of continuously monitoring the contracted conditions in relation to the prevailing market conditions. The Company and its subsidiaries do not use derivatives or any other risky assets for speculative purposes. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the risk factors described below:

(i) Risk considerations

a) *Credit risk*

There was no significant change in relation to the credit risks disclosed in Note 21(i)(a) to the financial statements as of December 31, 2014.

b) *Derivative financial instruments*

The Company adopts the policy of participating in operations involving derivative financial instruments with the objective of mitigating or eliminating currency, index and interest rate risks to its operations, when considered necessary.

The Company holds derivative instruments to mitigate the risk arising from its exposure to index and interest volatility recognized at their fair value in profit or loss for the year. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

As of June 30, 2015, the Company had derivative contracts for hedging purposes in relation to interest rate fluctuations, with final maturity between December 2015 and January 2020. The derivative contracts are as follows:

Non-curre

(a) On March 17, 2015, the Company bought derivative swap transaction to mitigate the exposure to the fixed index from IPCA + 8.22% p.a. of the tenth Debenture Placement of the Company to 120% of CDI (Note 13).

During the period ended June 30, 2015, the amount of R\$(4,346) (R\$245 in 2014) in the Company's statements and in the consolidated statements, which refers to net result of the interest swap transaction, was recognized in the "financial income (expenses)" line in the statement of profit or loss for the year, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 25).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific valuation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction, which may vary upon the financial settlement of transactions.

(iv) Sensitivity analysis

The sensitivity analysis of financial instruments for the period ended June 30, 2015 and year ended December 31, 2014, except swap contracts, which are analyzed through their due dates, describing the risks that may incur material losses on the Company's profit or loss, as provided for by CVM, through Rule No. 475/08, in order to show a 25% and 50% increase/decrease in the risk variable considered.

As of June 30, 2015 and December 31, 2014, the Company has the following financial instruments:

- a) Short-term investments, loans and financing, and debentures linked to Interbank Deposit Certificates (CDI);
- b) Loans and financing and debentures linked to the Referential Rate (TR) and CDI, and debentures indexed to the CDI, IPCA and TR;
- c) Trade accounts receivable, linked to the National Civil Construction Index (INCC).

For the sensitivity analysis of the years ended June 30, 2015 and December 31, 2014, the Company considered the interest rates of investments, loans and accounts receivables, the CDI rate at 13.57%, (11.51% in 2014) the TR at 1.89% (0.52% in 2014), the INCC rate at 6.97% (6.95% in 2014), the General Market Prices Index (IGP-M) at 5.58% (3.67% in 2014) and the National Consumer Price Index – Extended (IPCA) at 8.89% (6.41% in 2014). The scenarios considered were as follows:

We have reviewed the accompanying individual and consolidated interim financial information from Gafisa S.A. (“Company”), identified as Company and Consolidated, respectively, contained within the Quarterly Information (ITR) for the quarter ended June 30, 2015, which comprises the balance sheet as at June 30, 2015 and the respective statement of operations and statement of comprehensive income (loss) for the quarter and six-month period then ended, and the statement of changes in equity and statement of cash flows for the six-month period then ended, including explanatory notes.

The Company’s management is responsible for the preparation of individual interim financial information in accordance with the Technical Pronouncement Committee (CPC) 21 (R1) – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) which considers the Technical Orientation - OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, issued by the Accounting Pronouncements Committee (CPC) and approved by the Brazilian Securities Commission (CVM) and the Brazilian Federal Accounting Council (CFC), as well as for the presentation of these interim information in compliance with the standards issued by the CVM, applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent

Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. An interim review is substantially less in scope than an audit conducted in accordance with auditing standards. An interim review does not provide assurance that we would become aware of any or all significant matters that might be identified in an audit. Therefore, we did not express an audit opinion.

Conclusion from the individual and consolidated interim financial information prepared in accordance with CPC 21 (R1)

Based on our review, we are not aware of any fact that could lead us to believe that the individual and consolidated interim financial information included in the Quarterly Information referred above was not prepared, in all material aspects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities Commission - CVM.

Gafisa S.A.

Conclusion about the consolidated interim financial information prepared in accordance with IAS 34, which considers the Guideline OCPC 04 on the application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, issued by the Committee for Accounting Pronouncements (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM) and by the Federal Accounting Council (CFC)

Based on our review, we are not aware of any fact that makes us believe that the consolidated interim financial information included in the Quarterly Information referred above was not prepared, in all material aspects, in accordance with IAS 34, which considers Guidance OCPC 04 on the application of Technical Interpretation ICPC02 to the Brazilian Real Estate Development Entities, issued by the Committee for Accounting Pronouncements (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM) and the Federal Accounting Council (CFC), applicable to the preparation of Quarterly Information and presented in accordance with the standards issued by the Brazilian Securities Commission - CVM.

Emphasis of matter

As described in Note 2, the individual and consolidated interim financial information was prepared in accordance with accounting practices adopted in Brazil (CPC21 (R1)). The consolidated interim financial information prepared in accordance with IFRS applicable to the Brazilian Real Estate Development Entities (IAS34, for interim financial information), also considers the Technical Orientation - OCPC04, edited by the Accounting Pronouncements Committee (CPC). This Technical Orientation refers to the revenue recognition of this sector and involves matters related to the meaning and application of the concept of continuous transfer of the risks, benefits and control over real estate unit sales, as further described in Note 2. Our conclusion is not modified regarding this matter.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statement of value added for the six-month period ended June 30, 2015, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to Quarterly Information - ITR, and considered as supplemental information by the International Financial Reporting Standards (IFRS), which do not require the disclosure of the statement of value

added. These statements have been submitted to the same review procedures previously described above and, based on our review, we are not aware of any fact that leads us to believe that they were not fairly stated, in all material respects, according to the individual and consolidated interim financial information taken as a whole.
