### **Media Relations**

Gafisa continued to show positive operational results in the second half of the year, despite the challenging economic environment on 2015.

We are pleased to report that Company's consolidated net income totaled R\$73.6 million in the first nine months of the year, reversing a loss of R\$50.6 million recorded in the same period last year. In the third quarter specifically, consolidated net income totaled R\$13.5 million, compared to a loss of R\$10.0 million in 3Q14. In this quarter, the Gafisa segment recorded net income of R\$1.7 million in the quarter, maintaining the segment's positive momentum, and R\$30.3 million in 9M15, while the Tenda segment accounted for R\$11.8 million of the R\$13.5 million total, in-line with Tenda's performance in the previous quarter. Tenda ended the first nine months of 2015 with total net income of R\$43.3 million.

2015 has been characterized by an increasingly challenging economic environment in Brazil, including a deepening recession. Economic factors such as a more restrictive credit market, rising inflation and high unemployment have had a direct impact on the consumer decision-making process. Despite operating in such an environment, the Company has continued to produce improved operating and financial results in comparison with last year.

The Gafisa segment, while more affected by the deterioration in the macro-economic environment, continues to improve its operations and business management, and has successfully maintained the profitability levels of its projects.

Tenda completed its third consecutive profitable quarter, reflecting the segment's increased operational efficiency and the successful implementation of its new business model. In 3Q15, the Tenda segment delivered its last two legacy projects, and is now solely focused on the

development of its portfolio of New Model projects.

In this regard, we would like to highlight the performance of both the Gafisa and Tenda projects in the quarter, which contributed to the Company's positive consolidated results. The 3Q15 consolidated adjusted gross margin reached 35.9%. The Gafisa segment maintained stable profitability levels, with an adjusted gross margin of 37.9% in the quarter. At the same time, the full integration of the New Model within Tenda led the segment to record an adjusted gross margin of 32.1%.

Throughout the quarter, the Gafisa segment launched four projects, reaching an average SoS of launches of around 24%. The segment remains focused on the sale of legacy units, accounting for 71% of net pre-sales in the quarter, which totaled R\$247.6 million in the third quarter. This focus helped the Company accelerate the sales pace of the Gafisa segment, which reached 11.0% in 3Q15, higher than both the 2Q15 and 3Q14 levels.

As a result of the improved operational performance, 3Q15 adjusted gross profit for the Gafisa segment reached R\$152.6 million, while the profitability level was maintained with an adjusted gross margin of 37.9%. Year to date, the adjusted gross margin of the Gafisa segment reached 37.1%.

The Company continues to assess the most efficient profile for the Gafisa segment's inventory level. In the third quarter, 44% of net sales were related to projects launched prior to 2013. During 9M15, this percentage accounted for about 50% of net sales, resulting in an inventory balance of R\$2.0 billion at the end of the period. The Gafisa segment's inventory was in line with the previous quarter and achieved a reduction of approximately 20% compared to 3Q14.

The weak outlook for the current economic environment has led the Company to take a conservative approach in regards to launch activity through the rest of the year. We will seek to balance the placement of new products in the market, prioritizing those with more liquidity, in order to achieve adequate sales and profitability.

In the lower income segment, Tenda was able to sustain positive results and reported net income for the third consecutive quarter. The 3Q15 and 9M15 results reflect the increased operational scale of the New Model, which has allowed for a greater level of efficiency and improved management of both the financial and operational cycles.

In regards to the expansion of Tenda's operating scale, the segment recorded its highest launch volumes since the beginning of the development of its new business model. In the 3Q15, launches of R\$318.6 million comprised 9 new projects/phases located in the states of São Paulo, Rio de Janeiro, Minas Gerais, Rio Grande do Sul, Bahia and Pernambuco.

The highlight of the quarter, once again, was the strong speed of sales result, which reached 23.0%. This was a result of greater product availability after four consecutive quarters of increased launch volumes, strong demand in the low income segment and a significant reduction in the volume of dissolutions in 3Q15. As a result, net pre-sales remained at healthy levels, totaling R\$245.2 million, which is well above the R\$35.9 million recorded in the previous year.

The Tenda segment delivered 5 projects during the quarter, representing 1,304 units and accounting for R\$197.5 million in PSV, of which 52% (664 units, or R\$104.6 million) were under the New Model. In the 9M15, the segment delivered R\$591.0 million, with 58% relating to its new business model.

Tenda's solid operating performance positively impacted its financial results, with adjusted gross income reaching R\$71.1 million in 3Q15. The adjusted gross margin reached 32.1%, slightly higher than the 28-30% range that has been achieved since 2Q14, due to a one-off impact registered in the quarter.

Tenda has continued its efforts to achieve greater economies of scale by increasing launches and implementing strategies designed to ensure a strong speed of sales. Sustainable operating results over the

last three quarters reinforces our confidence in the New Model.

On a consolidated basis, Gafisa and Tenda launches totaled R\$606.8 million in 3Q15 and R\$1.4 billion in 9M15, with net pre-sales of R\$492.8 million and R\$1.4 billion, respectively. The 3Q15 adjusted gross profit was R\$223.8 million, with an adjusted gross margin of 35.9%; over the first nine months, adjusted gross profit was R\$603.5 million, with an adjusted gross margin of 34.8%.

---

In keeping with the current economic scenario, Gafisa has taken steps to achieve greater stability in its cost and expense structure. Selling and administrative expenses were R\$89.8 million in the third quarter, which is stable both on a y-o-y and q-o-q basis. Year-to-date, these expenses totaled R\$250.3 million, a 7.2% decrease from 9M14, reflecting the Company's commitment to streamlining its cost structure. As a result of these initiatives, consolidated net income totaled R\$13.5 million in the quarter and R\$73.6 million in the 9M15, compared to losses of R\$10.0 and R\$50.6 million, respectively, in the prior year periods.

At the end of September, the Net Debt / Shareholder's Equity ratio was 50.5%, consistent with the previous quarter. Excluding financing for projects, the Net Debt / Shareholder's Equity ratio was negative 13.2%. Consolidated operating cash generation reached R\$78.5 million in the quarter and R\$95.3 million year to date. The Company ended the 3Q15 with net cash burn of R\$6.5 million, resulting in total cash burn of R\$104.3 million year to date.

The Company has entered into the fourth quarter focused on achieving superior operating performance and continues to be guided, at all times, by capital discipline, the achievement of higher profitability and the generation of value for its shareholders and other stakeholders.

The Company maintained its level of net sales in 3Q15, despite more difficult market conditions. In addition, these results reflect Gafisa's commitment to improved operational efficiency and attaining a suitable cost structure given the current business cycle and the market outlook.

The 3Q15 adjusted gross margin was 37.9%, in line with the average levels reported in previous quarters and marginally lower y-o-y, due to a higher recognition of swaps in the period. These profitability levels support the stability of the gross margin in the Gafisa segment, and also highlight the solid performance of the Gafisa segment projects, resulting from the evolution of the Company's business cycle.

It is worth noting the continued downward trend in selling, general and administrative expenses, which were 13.2% lower year-over-year and down 7.6% compared to 2Q15. For the first nine months of the year, the reduction reached 15.1% compared with 9M14.

### Net Income

Net income for the period was R\$1.7 million, compared to R\$8.5 million in the 2Q15 and R\$15.3 million in the 3Q14. This decrease is due to a higher volume of other operating expenses, the lower contribution of AUSA equity income, and the higher volume of financial expenses in the period. 9M15 net income totaled R\$30.3 million, compared to R\$30.1 million in 9M14. Excluding the R\$1.2 million in equity income from Alphaville, the Gafisa segment's net income in 3Q15 was R\$0.5 million, compared to R\$8.7 million recorded in 3Q14 and R\$3.3 million in 2Q15. In the 9M15, net income was R\$7.0 million, compared to R\$18.5 million in the same period last year.

The Tenda segment delivered its last two legacy projects in 3Q15. The segment continues to advance with the New Model operations, recording consistent margins and greater profitability.

In the 3Q15, Tenda recorded adjusted gross income of R\$71.2 million, in line with the previous quarter, despite the lower revenue volume. The 3Q15 adjusted gross margin reached 32.1%. Notably, a portion of the accumulated Profit Sharing provision, totaling R\$5.2 million, was reallocated to general and administrative expenses, representing a one-off, one-time positive impact of 2.3 p.p. on the adjusted gross margin for 3Q15.

Additionally, adjusted EBITDA totaled R\$24.4 million in the quarter, compared to R\$15.2 million in 2Q15 and a 3Q14 loss of R\$9.8 million. The adjusted EBITDA margin reached 11.0%, reflecting higher net revenues and better gross margins over the past few quarters. In addition, the operational consolidation of Tenda's New Model helped produce a strong expansion in the segment's EBITDA during this period.

### Net Income

In 3Q15, the Tenda segment achieved net income of R\$11.8 million, lower than 2Q15 net income of R\$20.0 million, but a substantial improvement from the net loss of R\$25.2 million in 3Q14. In 9M15, net income was R\$43.3 million, compared to a net loss of R\$80.7 million in the previous year, reflecting the improved operating and financial performance of the Tenda segment.

## **RECENT EVENTS**

### **UPDATED STATUS OF THE SPIN-OFF PROCESS AND RECENT DEVELOPMENTS**

In the 3Q15, the Company progressed with the evaluation of the potential separation of the Gafisa and Tenda business units. Since commencing the spin-off process in February 2014, the Company has executed multiple initiatives in order to make the two business units independent of one another from both an operational perspective, as well as a capital structure perspective.

The Company's analysis of an appropriate capital structure is one of the main processes that is still ongoing. The Company continues to work in order to achieve the conditions deemed necessary for the desired capital structure model, which takes into consideration the business cycles of each of the business units.

As previously communicated in a Material Fact released to the market on April 29, 2015, these actions are ongoing and are taking longer than had been initially expected. As a result of this, and the on-going assessment of an appropriate capital structure, it is not yet possible to determine when the potential separation will be concluded.

The Company will keep its shareholders and the market informed of any developments related to the subjects mentioned above.

### **UPDATE TO SHARE REPURCHASE PROGRAM**

On February 2, 2015, the Company approved the creation of a new share buyback program of up to a maximum of 27 million common shares which, when added up to the 10.6 million shares held in treasury at the record date, represent about 10% of the total common shares issued by the Company. To date, it has acquired 1,000,000 shares, totaling R\$2.0 million, as part of the program. In 2015, through the various buyback programs, 11.9 million shares were acquired, with a total disbursement of R\$24.2 million.

## **GAFISA SEGMENT**

*Focuses on residential developments within the upper, upper-middle, and middle-income segments, with average unit prices above R\$250,000.*

### **Operating Results**

#### **Launches and Pre-Sales**

Third quarter 2015 launches totaled R\$288.2 million, representing 4 projects/phases located in the cities of São Paulo and Rio de Janeiro. The sales speed of these launches reached 19.2%. In the first 9M15, the Gafisa segment totaled R\$616.0 million in launches, representing 43.9% of consolidated launches.

The Gafisa segment's 3Q15 gross pre-sales totaled R\$394.8 million. Dissolutions reached R\$147.2 million and net pre-sales reached R\$247.6 million, an increase of 27.0% compared to 3Q14 and an increase of 2.2% compared to the previous quarter. In the 9M15, the volume of dissolutions was R\$387.7 million and net sales totaled R\$669.6 million. In the quarter, the sales over supply (SoS) of the Gafisa segment was 11.0%, higher than that of 3Q14 and 2Q15.

The Company continues to concentrate its efforts on the sale of remaining units. As a result, approximately 77% of net sales during the period related to projects launched through 2013, resulting in an improvement in the inventory profile of the Gafisa segment. Taking into consideration only 3Q15 launches, they represent 22.4% of the total sold in the quarter.

### **Sales over Supply (SoS)**

The Gafisa segment's sales velocity was 11.0% in 3Q15, above the 7.2% recorded in 3Q14 and the 10.5% 2Q15. On a trailing 12 month basis, Gafisa's SoS reached 29.6%.

Notably in 3Q15, the sales speed of launches at the Gafisa segment was impacted by the launch in Sao Paulo of a project framed as HIS (Social Housing), with PSV of R\$92.3 million. This project had a slower sales dynamic, characteristic of projects focused on the economic (low-income) segment.

### **Dissolutions**

The weak economic conditions have directly impacted consumer confidence and, accordingly, the level of dissolutions. Due to the challenging operating environment, the level of dissolutions in the Gafisa segment reached R\$147.2 million in 3Q15, a decrease compared to R\$150.7 million in 3Q14 and an increase from the R\$115.6 million in the previous quarter. It is also worth noting that the level of dissolutions in 9M15 has been impacted by the increased volume of deliveries in the quarter. During the 9M15, 3,345 units were delivered, corresponding to R\$1.3 billion in PSV.

Over the last three years, the Company has been working on initiatives to strengthen the credit review component of its sale process. In doing so, the Company intends to reduce the level of dissolutions throughout the construction and delivery cycle. A comprehensive approach in the credit review process at the time of sale has generated a more efficient process of transferring Gafisa customers to financial institutions. This progress has occurred despite deteriorating macroeconomic conditions, especially since the second half of 2014.

In recent quarters the Gafisa segment has been able to reduce the level of dissolutions by enabling customers facing financial pressure to swap their units for those that better match their financial position. Year to date, such unit reversions have accounted for approximately 36.2% of total dissolved PSV, resulting in the reversal of R\$ 102.2 million into new sales in 9M15. This achievement further reflects the flexibility of Gafisa's product portfolio.

In addition, in the 9M15, 749 Gafisa units were cancelled and 487 units, representing R\$274.1 million, were already resold in the period.

---

**Inventory**

Gafisa is maintaining its focus on inventory reduction initiatives. Projects launched prior to 2014 represented 71.2% of net sales in the period. In the 9M15, inventory as a percentage of sales reached 77.2%. The market value of the Gafisa segment inventory decreased by 3.1% q-o-q, totaling R\$2.0 billion. The reduction reflects current market conditions and the effect of the sales income in the period, as well as pricing adjustments on a few legacy projects. Finished units outside of core markets accounted for R\$96.6 million, or 4.8% of total inventory.

\* The period adjustments are a reflection of updates related to the project scope, release date and inflationary update in the period.

During the same period, finished units represented R\$374.2 million, or 18.6% of total inventory. Inventory from projects launched outside core markets, which is comprised exclusively of finished units, represented R\$96.6 million, a decrease of 49.4% when compared to the R\$191.1 million recorded last year and down 8.3% from 2Q15. The Company estimates that by 2016, it will have monetized a large portion of its inventory in non-core markets, based on the sales rate observed in these markets over the past few quarters.

In regards to Gafisa's inventory, approximately 54%, or R\$1.1 billion, is concentrated in projects that are to be delivered in the third quarter of 2016. This will be reflected in the sale of inventory in the coming quarters, rather than finished units.

**Landbank**

The Gafisa segment land bank, with a PSV of approximately R\$5.7 billion, is comprised of 28 potential projects/ phases, amounting to nearly 10.8 thousand units. 79% of potential projects/phases are located in São Paulo and 21% in Rio de Janeiro. The largest portion of land acquired through swap agreements is in Rio de Janeiro, impacting the total percentage of land acquired, which was 59%.

In 3Q15, the Company acquired one new land plot with a PSV of R\$115.9 million, representing an acquisition cost of R\$29.4 million. The acquisition was 46% financed by cash and 54% financed by swap agreements. It is important to note that the cash disbursement will occur when the project is launched, which is originally scheduled for 2017.

The quarterly adjustments reflect updates related to project scope, expected launch date, and inflationary adjustments to the land bank during the period.

**Gafisa Vendas**

During 9M15, Gafisa Vendas, the Company's independent sales unit, with operations in São Paulo and Rio de Janeiro, accounted for 61% of gross sales. Gafisa Vendas currently has a team of 700 highly trained, dedicated consultants, in addition to an online sales force.

**Delivered Projects**

During 3Q15, there were no deliveries by the Gafisa segment. In the 9M15, 14 projects/phases totaling 3,345 units were delivered, accounting for R\$1.3 billion in PSV, compared to 15 projects/ phases delivered in 9M14, representing 2,394 units. Currently, Gafisa has 31 projects under construction, all of which are on schedule according to the Company's business plan.

### **Transfers**

Over the past few years, the Company has been taking steps to improve the performance of its receivables/transfer process in an attempt to achieve higher rates of return on invested capital. Currently, the Company's plan is to transfer 90% of eligible units up to 90 days after the delivery of the project. In accordance with this policy, transfers totaled R\$153.6 million in PSV in the third quarter.

---

Of the year to date deliveries totaling R\$1.3 billion, corporate projects comprised 61.1%. Financing arrangements for corporate projects differ from that of residential projects, resulting in a smaller contribution to transfer volumes, which impacted cash generation in the quarter.

## Financial Results

### Revenues

3Q15 net revenues for the Gafisa segment totaled R\$402.5 million, an increase of 15.5% q-o-q and 10.2% y-o-y. This reflects the partial revenue recognition from projects launched in previous quarters.

In 3Q15, 99.8% of Gafisa segment revenues were derived from projects located in Rio de Janeiro/São Paulo, while 0.2% were derived from projects in non-core markets. The table below provides additional details.

### **Gross Profit & Margin**

Gross profit for the Gafisa segment in 3Q15 was R\$108.8 million, compared to R\$90.3 million in 2Q15, and R\$106.7 million in the prior year period. Third quarter gross margin of 27.0% was impacted by a R\$7.3 million increase in revenue compared to the previous year, as projects comprised a higher number of swapped units. In keeping with accounting rules, the gross margin on these projects is lower initially, before normalizing over time.

Excluding financial impacts, the adjusted gross margin reached 37.9% in 3Q15 compared to 36.5% in the 2Q15 and 38.7% in the prior year period, reaffirming broadly stable levels of profitability in the Gafisa segment. This is a result of the strategic consolidation in the metropolitan regions of São Paulo and Rio de Janeiro and the completion of older projects in other non-core markets.

The table below contains more details on the breakdown of Gafisa's gross margin in 3Q15.

### **Selling, General and Administrative Expenses (SG&A)**

SG&A expenses totaled R\$46.6 million in the 3Q15, a decrease of 13.2% y-o-y and 7.6% q-o-q. In the first nine months of the year, these expenses totaled R\$140.0 million, 15.1% below the R\$165.0 million the previous year.

Selling expenses decreased 1.9% compared to 2Q15 and increased by 3.8% from 3Q14. For the 9M15, selling expenses decreased by 13.8% compared to the same period last year.

The segment's general and administrative expenses reached R\$24.1 million in 3Q15, a decrease of 24.8% compared to the previous year and a 12.3% decline q-o-q. In 9M15, general and administrative expenses reached R\$80.4 million, representing a decrease of 16.1% compared to R\$95.9 million in 9M14.

The reduction in the level of SG&A expenses in the Gafisa segment reflects the Company's commitment to improve operational efficiency and achieve a level of costs and expenses that are appropriate for the current stage of the business cycle and economic outlook.

Other Operating Revenues/Expenses reached R\$30.6 million in 3Q15, an increase of 43.2% compared to the 2Q15, and of 96.4% compared to the previous year period. In the 9M15, Other Operating Revenues/Expenses totaled R\$80.5 million. This increase reflects the higher levels of litigation expenses related to increased deliveries of older projects held in 2012, 2013 and 2014.

The Company continues to be more proactive and to mitigate risks associated with potential contingencies. Among a few initiatives that have been implemented during the year, we highlight: (i) agreements policy; (ii) new remuneration model of attorney fees; (iii) legal committee for ongoing litigation monitoring.

The table below contains more details on the breakdown of this expense.

Table 16. Gafisa Segment – Other Operating Revenues/ Expenses (R\$000)

A higher volume of deliveries over the past three years, due to the delivery of delayed projects in discontinued markets, led to an increase in the level of contingencies. The Gafisa segment has since concentrated its operations only in the metropolitan regions of São Paulo and Rio de Janeiro. This new strategic geographical positioning, combined with improved internal processes, is expected to result in fewer future legal claims and a subsequent decrease in the amount of expenses related to contingencies in the following years.

### **Adjusted EBITDA**

Adjusted EBITDA for the Gafisa segment totaled R\$66.8 million in 3Q15, representing growth of 27.6% compared to R\$52.4 million in the prior quarter and a decrease of 12.8% compared to R\$76.7 million in 3Q14. Adjusted EBITDA for the 9M15 was R\$177.5 million, compared to R\$214.9 million in the 9M14.

Compared with the prior-year period, 3Q15 EBITDA was impacted by the following factors: (i) a slightly lower level of gross margin; and (ii) addition of R\$24.6 million in expenses related to contingencies, recognized as Other Revenues/Expenses. Note that adjusted EBITDA for the Gafisa segment does not include equity income from Alphaville.

The adjusted EBITDA margin, using the same criteria, increased to 16.6% when compared to 15.0% from 2Q15, and 21.0% in 3Q14. In the 9M15, the EBITDA margin reached 16.3%, versus 19.7% in the previous year period.

**Backlog of Revenues and Results**

The backlog of results to be recognized under the PoC method totaled R\$215.8 million in 3Q15. The consolidated margin for the quarter was 38.7%, in line with 38.8% posted in last year's third quarter.

**TENDA SEGMENT**

*Focuses on affordable residential developments, classified within the Range II of Minha Casa, Minha Vida Program.*

**Operating Results****Launches and Sales**

Third quarter launches totaled R\$318.6 million and included 9 projects/phases in the states of São Paulo, Rio de Janeiro, Minas Gerais, Rio Grande do Sul, Bahia and Pernambuco. The Tenda segment accounted for 52.5% of launches in the quarter. In the first six months of the year, launch volumes reached R\$786.3 million.

During 3Q15, gross sales reached R\$287.2 million and dissolutions were R\$42.0 million, resulting in total net pre-sales of R\$245.2 million, a decrease of 15.4% compared to the previous quarter, in which sales benefited from the *Feirões da Caixa* (Caixa Econômica Property Fair). Compared with the prior-year period, there was an increase of 583.1%. In the 9M15, the volume of dissolutions was R\$152.1 million and net pre-sales totaled R\$778.7 million, a 189.1% increase in comparison to 9M14.

Sales from units launched during 9M15 accounted for 40.5% of total sales, while sales from units launched during 3Q15 accounted for 11.2% of total sales.

Tenda remains focused on the completion and delivery of legacy projects. As such, the Company is dissolving contracts with ineligible clients, so as to sell the units to new, qualified customers.

Tenda had 1,026 units cancelled and returned to inventory in the 9M15, of which 602 units were already resold to qualified customers during the same period. The sale and transfer process plays an important role in the New Tenda Business Model. It is expected that within a period of up to 90 days, the effective sale and transfer process will be complete.

### Tenda Segment Transfers

In the 3Q15, 1,869 units were transferred to financial institutions, representing R\$248.6 million in net pre-sales.

1) PSV transferred refers to the conclusion of the transfer operation.

2) PSV = Potential sales volume of the units.

### **Tenda Segment Delivered Projects**

During 3Q15, Tenda delivered 5 projects/phases and 1,304 units, reaching a PSV of R\$197.5 million. Of this total amount, 640 units, representing R\$93.0 million in PSV, were related to the remaining Legacy units. In 9M15, 16 projects/phases and 4,231 units were delivered, reaching a PSV of R\$591.0 million. The New Model accounting for 2,383 units and R\$344.1 million of the PSV in 9M15. Notably, following the delivery of the last two legacy projects, Tenda has now fully integrated the New Model operations.

**Inventory**

The market value of Tenda inventory was R\$820.7 million at the end of the 3Q15, up 11.2% when compared to R\$738.4 million at the end of 2Q15, due to the large volume of launches in the quarter. Inventory related to the remaining units for the Tenda segment totaled R\$246.9 million or 30.1% of the total, down 9.5% versus 2Q15 and 36.1% as compared to 3Q14. During the quarter, inventory comprising units within the Minha Casa Minha Vida program totaled R\$707.3 million, or 86.2% of total inventory, while units outside the program totaled R\$113.4 million, a decrease of 20.0% q-o-q and 36.6% y-o-y.

Regarding legacy projects, the Tenda segment is still awaiting for the legalization of a project with a total PSV of R\$61.1 million to move forward with construction.

### **Tenda Segment Landbank**

The Tenda segment land bank, with a PSV of approximately R\$4.0 billion, is comprised of 112 different projects/phases. Out of these projects/phases 18% are located in São Paulo, 13% in Rio Grande do Sul, 26% in Rio de Janeiro, 5% in Minas Gerais, 29% in Bahia, and 8% in Pernambuco. In total this reflects more than 29,000 units.

In 3Q15, the Tenda segment acquired new land plots with a potential PSV of R\$243.3 million, representing an acquisition cost of R\$17.8 million, all in cash, with disbursement over the next few quarters. Outside of these acquisitions, the Tenda segment reinstated three more land plots with a PSV of approximately R\$89.8 million, which were previously for sale, however, with the positive results of the latest feasibility studies, they were re-added to the Tenda segment's landbank.

### New Model Update and Turnaround

During 2015, Tenda launched projects under its New Business Model, which is based on three pillars: operational efficiency, risk management, and capital discipline.

Currently, the Company continues to operate in six macro regions: São Paulo, Rio de Janeiro, Belo Horizonte, Porto Alegre, Salvador and Recife, with a total of 42 projects and a launched PSV of R\$1,713.5 million to date. Below is a brief description of the average performance of these projects, per region.

Notably, the Tenda segment has delivered 14 projects, totaling 4,203 units and R\$572.0 million in PSV, all of them attaining the performance and profitability drivers established for the New Model.

## Financial Result

### Revenues

Tenda's 3Q15 net revenues totaled R\$221.5 million, an increase of 71.8% compared with 3Q14, reflecting an increased volume of net sales as a result of the lower level of dissolutions compared to previous periods. As shown in the table below, revenues from new projects accounted for 83.5% of Tenda's revenues in 3Q15, while revenues from older projects accounted for the remaining 16.5%.

### Gross Profit & Margin

3Q15 gross profit totaled R\$67.4 million, up significantly from R\$22.1 million in 3Q14, and slightly down from R\$68.3 million in the 2Q15. Gross margin for the quarter reached 30.4%, compared to 17.2% in 3Q14 and 28.1% in 2Q15. The improvement in gross margin is due to the increased participation of projects launched under the New Business Model, which are more profitable. Reductions in the volume of older

projects and the increase in the number of projects launched under the New Model have contributed to the improved results.

Tenda's adjusted gross margin ended 3Q15 at 32.1%, above the 30.1% recorded in 2Q15, and the 29.8% in 3Q14. Notably, a portion of the accumulated employee Profit Sharing provision totaling R\$5.2 million, previously recorded at cost, was reallocated to general and administrative expenses, representing a one-time positive impact of 2.3 p.p. in the adjusted gross margin of 3Q15. During the 9M15, Tenda's adjusted gross margin was 30.8%, above 26.2% in 9M14.

The table below shows Tenda's gross margin breakdown in 3Q15. It is worth noting that the gross margin for the first projects under Tenda's New Business Model also benefits from the use of older land bank, resulting in increased profitability.

### Selling, General and Administrative Expenses (SG&A)

During 3Q15, selling, general and administrative expenses totaled R\$43.1 million, a 9.9% increase compared to R\$39.3 million in 2Q15, and an increase of 26.3% y-o-y. In the 9M15, SG&A totaled R\$110.2 million, up 5.4% from 9M14.

Selling expenses totaled R\$16.3 million in 3Q15, a 7.8% decrease q-o-q and a 6.3% increase y-o-y, due to the ongoing expansion in launch volume and increased gross sales of the Tenda segment in the last quarters. In the 9M15, selling expenses increased 12.4% year-over-year to R\$47.0 million.

In regards to G&A expenses, there was an increase of 24.3% q-o-q and of 42.5% y-o-y, due to an adjustment in the allocation of the Profit Sharing provision of R\$5.5 million, previously registered as cost (R\$5.2 million) and selling expenses (R\$0.3 million), as previously explained. Excluding this one-off effect and considering the same base of comparison, general and administrative expenses would be R\$21.4 million, similar to 2Q15 levels. YTD, general and administrative expenses totaled R\$63.2 million, in line with the R\$62.8 million recorded in 9M14.

Another step taken by the Tenda segment to improve its operational and financial cycle is a reduction in the cost structure to a level more compatible with the current stage of the Company's business model, in order to achieve better profitability.

Other Operating Revenues/ Expenses totaled R\$15.5 million, which is an increase of 32.1% compared to the 3Q14 and 32.8% compared to 2Q15. This was mainly due to the write-off of assets related to the conclusion of the revision work of Tenda's legal deposits. The table below contains details on the breakdown of this expense.

Over the past two years, the strong volume of deliveries related to delayed projects resulted in increased contingencies in the Tenda segment. The Company expects to see a reduction in the volume of such expenses over the coming years as a result of the delivery of the final legacy projects and the full contribution of New Model projects which are demonstrating strong operational performance.

### **Adjusted EBITDA**

Adjusted EBITDA was positive R\$24.4 million in 3Q15, a favorable comparison to the R\$15.2 million in 2Q15 and the R\$9.8 million EBITDA loss in the same period last year. The result reflects the consolidation of the new business model's improved operating performance in the Tenda segment. In the 9M15, adjusted EBITDA was positive R\$60.7 million against a R\$36.6 million adjusted EBITDA loss in the previous year. Adjusted EBITDA margin reached 11.0% in 3Q15, compared to 6.3% in 2Q15. YTD, adjusted EBITDA margin reached 9.4%

The increased percentage of projects under the New Model in Tenda's revenue mix and the related delivery of legacy projects since 2013, has resulted in improved gross margins in recent quarters. In addition to the improved performance, Tenda's efficiencies in its cost structure have resulted in a significant increase in EBITDA in the Tenda segment during the period.

### Cash Generation

The Company's operating cash generation reached R\$78.5 million in 3Q15. The Gafisa segment contributed cash generation of R\$58.5 million, in line with the R\$52.1 million reported last quarter. The volume of transferring/receiving process of units sold to financing agents reached R\$153.4 million during the period, and R\$521.5 million YTD. The Tenda segment generated R\$20.0 million in cash, with R\$207.9 million transferred in 3Q15 and R\$491.8 transferred million in 9M15. YTD, the Company generated operating cash of R\$95.3 million.

While consolidated operating cash generation reached R\$78.5 million, the Company ended 3Q15 with operating cash consumption of R\$6.5 million, and consumption of R\$104.3 million in the year. It is worth noting that this result does not include the R\$24.2 million used in the share buyback program during the 9M15.

## Liquidity

At the end of September 2015, the Company's Net Debt/Equity ratio reached 50.5%, which is stable compared to 50.4% in the previous quarter. Excluding project finance, the Net Debt/Equity ratio was negative 13.2%.

The Company's consolidated gross debt reached R\$2.5 billion at the end of 3Q15, an increase of 2.1% compared to 2Q15 and a decrease of 12.2% y-o-y. In the 3Q15, the Company amortized R\$226.2 million in debt, of which R\$203.7 million was project finance and R\$22.5 million was corporate debt. A total of R\$201.4 million, however, was disbursed, allowing for a net amortization of R\$24.8 million. For the 9M15, approximately R\$813.1 million of gross debt, representing 76.6% of debt maturing in 2015, was amortized. Throughout the year, new releases of R\$477.2 million and payments of R\$813.1 million were held, of which R\$626.4 million reflected project debt and R\$186.7 million reflected corporate debt, thus allowing for a net amortization in the first nine months of R\$ 335.8 million.

## Financial Result

### Revenue

On a consolidated basis, net revenue in the 3Q15 totaled R\$624.0 million, up 5.5% over the 2Q15 and up 26.3% from 3Q14. In the quarter, the Gafisa segment represented 64.5% of consolidated revenues, while Tenda accounted for the remaining 35.5%. In 9M15, consolidated net revenue reached R\$1.7 billion, above the R\$1.5 billion recorded in the previous year.

### Gross Profit & Margin

Gross profit in 3Q15 was R\$176.2 million, compared to R\$158.5 million in 2Q15, and R\$128.9 million in the prior year. Gross margin for the quarter reached 28.2%, an increase compared to prior periods.

Adjusted gross profit reached R\$223.8 million, with a margin of 35.9%, compared to 33.9% in the 2Q15 and 36.4% in the previous year. Supported by stable results in the Gafisa segment and the higher volume and consolidation of Tenda's New Business Model operations, the Company has been able to maintain its adjusted gross margin at a healthy level throughout the past few quarters.

The gross margin has improved since 2013 as Gafisa and Tenda legacy projects have been concluded, reducing their impact on the Company's results. At the same time, the contribution of more profitable projects launched in core markets and under the Tenda segment's New Model has increased during recent quarters.

Given the substantial decrease in the volume of legacy projects and current market conditions, the Company is seeking to streamline its cost and expense structure and SG&A. In the coming quarters, the Company is looking to improve productivity and increase the efficiency of its operations.

The Other Operating Revenues/ Expenses line totaled an expense of R\$46.1 million, up 39.5% compared to the 2Q15, and up 68.8% compared to the previous year. In 9M15, this line reached R\$112.7 million. The table below contains more details on the breakdown of this expense.

### Consolidated Adjusted EBITDA

Consolidated adjusted EBITDA, including Alphaville equity income, totaled R\$92.4 million in 3Q15, up from R\$72.8 million in 2Q15 and R\$73.5 million in the prior-year period. Consolidated adjusted EBITDA margin using the same criteria was 14.8%, in-line with a 14.9% margin reported in the previous year and an increase from 12.3% reported in 2Q15. In 9M15, consolidated EBITDA reached R\$261.6 million, with a 15.1% margin.

2) Consolidated EBITDA considers the equity income from Alphaville.

### **Depreciation and Amortization**

Depreciation and amortization in the 3Q15 reached R\$12.4 million, up 7.6% compared to 2Q15 and 6.2% compared to the R\$11.7 million recorded in 3Q14. In 9M15, depreciation and amortization totaled R\$35.7 million compared to R\$41.7 million reported in the previous year.

### **Financial Results**

Net financial result was negative R\$19.7 million in the 3Q15, compared with a negative result of R\$8.0 million in 3Q14 and a positive result of R\$2.7 million in 2Q15. Financial revenues totaled R\$23.1 million, down 42.0% y-o-y due to the lower balance of funds available in the period. Financial expenses reached R\$42.8 million, compared to R\$44.5 million in 3Q14. Notably in the quarter, the Gafisa segment posted an increase of 9.1% in financial expenses compared to the same period last year, mainly impacted by the marking effect of the swap operations market. This result reflected the rising behavior seen in the future yield curve. YTD, the net financial result was negative R\$25.2 million, compared to a net loss of R\$19.0 million in the same period last year.

## Taxes

Income taxes, social contribution and deferred taxes for 3Q15 amounted to a credit of R\$3.2 million, due to the constitution of deferred income tax asset in the Gafisa segment over credits of temporary nature in the period. In the year, income tax and social contribution totaled R\$3.3 million.

## Net Income

Gafisa Group ended the 3Q15 with a net profit of R\$13.5 million. Excluding the equity income from AUSA, the Company recorded net income of R\$12.3 million in the quarter, compared to a net loss of R\$16.6 million recorded in 3Q14 and net income of R\$23.3 million in 2Q15. ## About Gafisa

Gafisa is one Brazil's leading residential and commercial properties development and construction companies. Founded over 60 years ago, the Company is dedicated to growth and innovation oriented to enhancing the well-being, comfort and safety of an increasing number of households. More than 15 million square meters have been built, and approximately 1,100 projects delivered under the Gafisa brand - more than any other company in Brazil. Recognized as one of the foremost professionally managed homebuilders, Gafisa's brand is also one of the most respected, signifying both quality and consistency. In addition to serving the upper-middle and upper class segments through the Gafisa brand, the Company also focuses on low income developments through its Tenda brand. And,, it participates through its 30% interest in Alphaville, a leading urban developer, in the national development and sale of residential lots. Gafisa S.A. is a Corporation traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFSA3) and is the only Brazilian homebuilder listed on the New York Stock Exchange (NYSE:GFA) with an ADR Level III, which ensures best practices in terms of transparency and corporate governance.

*This release contains forward-looking statements about the business prospects, estimates for operating and financial results and Gafisa's growth prospects. These are merely projections and, as such, are based exclusively on the expectations of management concerning the future of the business and its continued access to capital to fund the Company's business plan. Such forward-looking statements depend, substantially, on changes in market conditions, government regulations, competitive pressures, the performance of the Brazilian economy and the industry, among other factors; therefore, they are subject to change without prior notice.*
