Top of the Form

Item 1.01 Entry into a Material Definitive Agreement.

On February 7, 2006, the Compensation Committee of the Board of Directors of RealNetworks, Inc. (the "Company") approved changes to its Executive Management-By-Objective Program (the "MBO Program"), which rewards high performance consistent with the Company's core business objectives. Under the revised MBO Program, certain executives of the Company are eligible to earn a target of 45% of their respective base salaries in the form of a cash bonus dependent on overall Company performance as measured by achievement against corporate revenue and corporate operating income targets, with such targets being established and achievement measured every six months. The maximum payout under the MBO Program is 67.5% of base salary. Under the MBO Program, the Company's Senior Vice President of North American Sales has a smaller target bonus and maximum bonus payout potential than other MBO Program participants because a significant portion of the compensation for this executive is determined on a commission basis. The Company's Executive Vice President, Worldwide Business Products and Services and International Operations may earn a cash bonus of up to 100% of his annual base salary under the MBO Program. Cash bonuses earned pursuant to the MBO Program are paid following the completion of each six-month measurement period and are dependent on Company performance against the targets established during each six-month period.

The Company's Chief Financial Officer and General Counsel are not eligible to participate in the MBO Program, but may earn cash bonuses under a separate incentive compensation program established by the Compensation Committee for the Chief Financial Officer and the General Counsel. The Chief Financial Officer and General Counsel are eligible to earn a target of 45% of their respective base salaries, which amounts shall be determined by the Company's Chief Executive Officer and the Compensation Committee of the Board of Directors based on individual performance relative to business goals not directly related to the Company's reported financial results. Performance is measured against the established targets every six months and cash bonuses earned under this incentive compensation program are paid following the completion of each six-month measurement period. The maximum payout under this program is 67.5% of base salary.

The Company's Chief Executive Officer and the Compensation Committee of the Board of Directors retain the ability to modify individual executive bonuses based upon individual performance and the successful completion of business projects and other management performance objectives.
