EASTBRIDGE INVESTMENT GROUP CORPORATION

(FORMERLY ATC TECHNOLOGY CORPORATION)

FOR THE THREE MONTHS ENDED MARCH 31, 2009 and 2008

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF BUSINESS

Overview

EastBridge Investment Group Corporation (formally ATC Technology Corporation) (EastBridge , we , us , our or Company) was incorporated in the state of Arizona on June 25, 2001. The Company 's principle activity up through June 30, 2005 was to manufacture mobile entertainment products that provide a means to play video game consoles made by Sony, Microsoft and Nintendo, in the car, RV, SUV, van or boat with attachable viewing monitors.

On August 23, 2002, we entered into an agreement with Providential Holding, Inc. (Providential) to sell all the issued and outstanding shares of EastBridge. For consideration, Providential agreed to deliver (i) \$250,000 in non-interest bearing promissory notes, payable 270 days after closing, (ii) \$250,000 in non-interest bearing promissory notes, payable 180 days after closing, (iii) 3,000,000 shares of restricted stock of EastBridge with an option of additional shares to be issued after 270 days if the stock price does not reach \$0.30 and (iv) 1,000,000 shares of restricted stock of Providential with an option of additional shares to be issued after one year if the stock price does not reach \$0.30. The transaction between the original stockholders and Providential was consummated as of October 17, 2003. On June 30, 2005 the Company and Providential, agreed to a financial and ownership restructuring and executed a formal agreement to return the majority ownership of EastBridge to its original stockholders in exchange for a forgiveness of notes and obligations owed to the Company and its original stockholders. The total amount of the debt forgiven was \$1,932,617 and is recorded as paid-in capital by the majority original stockholders in the 2005 financial statement. As a result of the re-structuring, Providential has become a minority stock holder and the original stockholders of the Company have become the majority stockholders as a group.

In 2005, we decided to exit the mobile video game market and dedicate our activities to providing investment related services in Asia, with a strong focus on the high GDP growth countries, such as China and India. EastBridge will initially concentrate on the growing investment opportunities in China (Hong Kong, mainland China, Macao and Taiwan). Its products will be financial services that assist small to medium-size companies obtain capital to grow their business. Our financial services are expected to be in the form of joint ventures, wholly foreign owned enterprises, guaranteed return ventures, investment banking, financial advisory services or any other financial services allowed by the local government and in compliance with the United States Securities Exchange Commission regulations. In addition, EastBridge will also provide marketing, sales and strategic planning services for its clients to assist them to enter the United States market.

EastBridge is one of the very few United States companies solely concentrated in marketing financial services to the small to mid-size, but large number, of Asian companies that require financial services to assist them in expanding in their local markets. Usually, the first step is to help its clients become a public company in the US capital market. EastBridge currently has ten (10) clients that it intends to take public in the United States and list each company in a U.S. stock exchange beginning in 2009. All ten clients are located in Asia. EastBridge has also acquired two (2) Chinese companies via stock exchange agreements. All of these transactions are described in more detail in the Management Discussion and Analysis section.

In January, 2007, we formed Fiber One Limited (Fiber One) in Hong Kong as a wholly owned subsidiary of EastBridge to provide calibration and maintenance services to fiber optic companies in Asia, mainly in China and Japan. On June 11, 2007, we distributed 5.0% of Fiber One to our shareholders of record on June 11, 2007. Accordingly, the results of Fiber One have been consolidated with those of EastBridge s from the date of formation of Fiber One. EastBridge has formed other subsidiaries since the formation of Fiber One these are noted in the Management Discussion and Analysis section. For most of these subsidiaries, EastBridge intends to distribute part of its ownership to its shareholders in the form of dividend shares.

A summary of the Company's subsidiaries includes: Arem Pacific Corporation, General Farms Corporation, Energy Corporation, and China Corporation which are all Arizona Corporation, and Fiber One Ltd. which is Chinese Corporation. All of the aforementioned subsidiaries had no activity during the three months ended March 31, 2009.

NOTE 2 BASIS OF PRESENTATION

Interim Financial Statements

The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months period ended March 31, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. For further information, refer to the financial statements and footnotes thereto included in our Form 10-K Report for the fiscal year ended December 31, 2008.

NOTE 3 GOING CONCERN

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$4,892,421 since inception until the new acquisition. We place no assurance on the on going operations of our new subsidiaries. So far, most of the working capital has been provided by the Company's management team members. They have done so since EastBridge's inception and have indicated their continued support for EastBridge; however, there is no assurance that additional funds will be advanced. These matters raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 4 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States of America. Significant accounting policies are as follows:

Principle of Consolidation

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Our management periodically evaluates the estimates and judgments made. Management bases its estimates and judgments on historical experience and on various factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates as a result of different assumptions or conditions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also affect the reported amounts of revenues, costs and expenses during the reporting period.

Management evaluates these estimates and assumptions on a regular basis. Actual results could differ from those estimates.

These estimates and assumptions also affect the reported amounts of revenues, costs and expenses during the reporting period. Management evaluates these estimates and assumptions on a regular basis. Actual results could differ from those estimates.

Revenue Recognition

Revenue includes product sales. The Company recognizes revenue from product sales in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition in Financial Statement which is at the time customers are invoiced at shipping point, provided title and risk of loss has passed to the customer, evidence of an arrangement exists, fees are contractually fixed or determinable, collection is reasonably assured through historical collection results and regular credit evaluations, and there are no uncertainties regarding customer acceptance.

Accounts Receivable

Substantially all of the Company's accounts receivable balance is relate to trade receivables. Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in its existing accounts receivable. The Company will maintain allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments for products. Accounts with known financial issues are first reviewed and specific estimates are recorded. The remaining accounts receivable balances are then grouped in categories by the amount of days the balance is past due, and the estimated loss is calculated as a percentage of the total category based upon past history. Account balances are charged off against the allowance when it is probable the receivable will not be recovered. No allowance for doubtful accounts and bad debts were written off in March 31, 2009 and December 31, 2008, respectively as the Company.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. At March 31, 2009, and December 31, 2008, respectively, cash and cash equivalents include cash on hand and cash in the bank.

Property and Equipment

Property and equipment is recorded at cost and depreciated over the estimated useful lives of the assets using principally the straight-line method. When items are retired or otherwise disposed of, income is charged or credited for the difference between net book value and proceeds realized. Ordinary maintenance and repairs are charged to expense as incurred, and replacements and betterments are capitalized.

The range of estimated useful lives used to calculated depreciation for principal items of property and equipment are as follow:

Asset Category	Depreciation/ Amortization Period
Furniture and Fixture	3 Years
Office equipment	3 Years
Leasehold improvements	5 Years

Impairment of Long-Lived Assets

In accordance with SFAS No. 144, long-lived assets, such as property, plant, and equipment, and purchased intangibles, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Goodwill and other intangible assets are tested for impairment.

Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. There were no events or changes in circumstances that necessitated an impairment of long lived assets.

Income Taxes

Deferred income taxes are provided based on the provisions of SFAS No. 109, "Accounting for Income Taxes" ("SFAS No. 109"), to reflect the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Concentration of Credit Risk

The Company maintains its operating cash balances in banks in Phoenix, Arizona. The Federal Depository Insurance Corporation (FDIC) insures accounts at each institution up to \$250,000 until March 31, 2009.

Share-Based Compensation

The Company applies SFAS No. 123 Share-Based Payments (SFAS No. 123(R)) to share-based compensation, which requires the measurement of the cost of services received in exchange for an award of an equity instrument based on the grant-date fair value of the award. Compensation cost is recognized when the event occurs. The Black-Scholes option-pricing model is used to estimate the fair value of options granted.

Basic and Diluted Net Loss Per Share

Net loss per share was computed by dividing the net loss by the weighted average number of common shares outstanding during the period. The weighted average number of shares was calculated by taking the number of shares outstanding and weighting them by the amount of time that they were outstanding. Diluted net loss per share for the Company is the same as basic net loss per share, as the inclusion of common stock equivalents would be antidilutive.

Fair Value of Financial Instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced sale or liquidation.

The carrying amounts of the Company's financial instruments, including cash, accounts payable and accrued liabilities, income tax payable and related party payable approximate fair value due to their most maturities.

Reclassification

Certain prior period amounts have been reclassified to conform to current year presentations.

Recent Accounting Pronouncements

Recent accounting pronouncements that the Company has adopted or that will be required to adopt in the future are summarized below.

Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities

In December 2008, the FASB issued FSP FAS No. 140-4 and FIN No. 46(R) -8, Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities. This FSP amends SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, to require public entities to provide additional disclosures about transfers of financial assets. FSP FAS No. 140-4 also amends FIN No. 46(R)-8, Consolidation of Variable Interest Entities, to require public enterprises, including sponsors that have a variable interest entity, to provide additional disclosures about their involvement with a variable interest entity. FSP FAS No. 140-4 also requires certain additional disclosures, in regards to variable interest entities, to provide greater transparency to financial statement users. FSP FAS No. 140-4 is effective for the first reporting period (interim or annual) ending after December 15, 2008, with early application encouraged. The Company is currently assessing the impact of FSP FAS No. 140-4 on its consolidated financial position and results of operations.

Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount That is Based on the Stock of an Entity's Consolidated Subsidiary

In November 2008, the FASB issued FSP Emerging Issues Task Force (EITF) Issue No. 08-8, Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount that is based on the Stock of an Entity's Consolidated Subsidiary. EITF No. 08-8 clarifies whether a financial instrument for which the payoff to the counterparty is based, in whole or in part, on the stock of an entity's consolidated subsidiary is indexed to the reporting entity's own stock. EITF No. 08-8 also clarifies whether or not stock should be precluded from qualifying for the scope exception of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, or from being within the scope of EITF No. 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock. EITF No. 08-8 is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years. The Company is currently assessing the impact of EITF No. 08-8 on its consolidated financial position and results of operations.

Accounting for Defensive Intangible Assets

In November 2008, the FASB issued EITF Issue No. 08-7, Accounting for Defensive Intangible Assets. EITF No. 08-7 clarifies how to account for defensive intangible assets subsequent to initial measurement. EITF No. 08-7 applies to all defensive intangible assets except for intangible assets that are used in research and development activities. EITF No. 08-7 is effective for intangible assets acquired on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is currently assessing the impact of EITF No. 08-7 on its consolidated financial position and results of operations.

Equity Method Investment Accounting Considerations

In November 2008, the FASB issued EITF Issue No. 08-6 (EITF No. 08-6), Equity Method Investment Accounting Considerations. EITF No. 08-6 clarifies accounting for certain transactions and impairment considerations involving the equity method. Transactions and impairment dealt with are initial measurement, decrease in investment value, and change in level of ownership or degree of influence. EITF No. 08-6 is effective on a prospective basis for fiscal years beginning on or after December 15, 2008. The Company is currently assessing the impact of EITF No. 08-6 on its consolidated financial position and results of operations.

Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active

In October 2008, the FASB issued FSP FAS No. 157-3, Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active. This FSP clarifies the application of SFAS No. 157, Fair Value Measurements, in a market that is not active. The FSP also provides examples for determining the fair value of a financial asset when the market for that financial asset is not active. FSP FAS No. 157-3 was effective upon issuance, including prior periods for which financial statements have not been issued. The impact of adoption was not material to the Company's consolidated financial condition or results of operations.

Issuer's Accounting for Liabilities Measured at Fair Value with a Third-Party Credit Enhancement

In September 2008, the FASB issued EITF Issue No. 08-5 (EITF No. 08-5), Issuer's Accounting for Liabilities Measured at Fair Value with a Third-Party Credit Enhancement. This FSP determines an issuer's unit of accounting for a liability issued with an inseparable third-party credit enhancement when it is measured or disclosed at fair value on a recurring basis. FSP EITF No. 08-5 is effective on a prospective basis in the first reporting period beginning on or after December 15, 2008. The Company is currently assessing the impact of FSP EITF No. 08-5 on its consolidated financial position and results of operations.

Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161

In September 2008, the FASB issued FSP FAS No. 133-1, Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161. This FSP amends FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities, to require disclosures by sellers of credit derivatives, including credit derivatives embedded in a hybrid instrument. The FSP also amends FASB Interpretation No. 45, Guarantor s

Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, to require and additional disclosure about the current status of the payment/performance risk of a guarantee. Finally, this FSP clarifies the Board's intent about the effective date of FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities. FSP FAS No. 133-1 is effective for fiscal years ending after November 15, 2008. The Company is currently assessing the impact of FSP FAS No. 133-1 on its consolidated financial position and results of operations.

Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities

In June 2008, the FASB issued EITF Issue No. 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. EITF No. 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method. The EITF 03-6-1 affects entities that accrue dividends on share-based payment awards during the awards' service period when the dividends do not need to be returned if the employees forfeit the award. EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 03-6-1 on its consolidated financial position and results of operations.

Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock

In June 2008, the FASB ratified EITF Issue No. 07-5, "Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock. EITF 07-5 provides that an entity should use a two step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. It also clarifies on the impact of foreign currency denominated strike prices and market-based employee stock option valuation instruments on the evaluation. EITF 07-5 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 07-5 on its consolidated financial position and results of operations.

Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)

In May 2008, the FASB issued FSP Accounting Principles Board (APB) Opinion No. 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement). The FSP clarifies the accounting for convertible debt instruments that may be settled in cash (including partial cash settlement) upon conversion. The FSP requires issuers to account separately for the liability and equity components of certain convertible debt instruments in a manner that reflects the issuer's nonconvertible debt (unsecured debt) borrowing rate when interest cost is recognized. The FSP requires bifurcation of a component of the debt, classification of that component in equity and the accretion of the resulting discount on the debt to be recognized as part of interest expense in our consolidated statement of operations. The FSP requires retrospective application to the terms of instruments as they existed for all periods presented. The FSP is effective for fiscal years beginning after December 15, 2008 and early adoption is not permitted. The Company is currently evaluating the potential impact of FSP APB 14-1 upon its consolidated financial statements.

The Hierarchy of Generally Accepted Accounting Principles

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles. SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles". The implementation of this standard will not have a material impact on the Company's consolidated financial position and results of operations.

Determination of the Useful Life of Intangible Assets

In April 2008, the FASB issued FSP FAS No. 142-3, *Determination of the Useful Life of Intangible Assets*, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of intangible assets under SFAS No. 142 *Goodwill and Other Intangible Assets*. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the

period of the expected cash flows used to measure the fair value of the asset under SFAS No. 141 (revised 2007)

Business Combinations and other U.S. generally accepted accounting principles. The Company is currently evaluating the potential impact of FSP FAS No. 142-3 on its consolidated financial statements.

Disclosure about Derivative Instruments and Hedging Activities

In March 2008, the FASB issued SFAS No. 161, Disclosure about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133. This statement requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation. The Company is required to adopt SFAS No. 161 on January 1, 2009. The Company is currently evaluating the potential impact of SFAS No. 161 on the Company's consolidated financial statements.

Delay in Effective Date

In February 2008, the FASB issued FSP FAS No. 157-2, Effective Date of FASB Statement No. 157. This FSP delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of adoption was not material to the Company's consolidated financial condition or results of operations.

Business Combinations

In December 2007, the FASB issued SFAS No. 141(R) Business Combinations. This Statement replaces the original SFAS No. 141. This Statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the *purchase method*) be used for all business combinations and for an acquirer to be identified for each business combination. The objective of SFAS No. 141(R) is to improve the relevance, and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. To accomplish that, SFAS No. 141(R) establishes principles and requirements for how the acquirer:

a.

Recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree.

b.

Recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase.

c.

Determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination.

This Statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 and may not be applied before that date. The Company is unable at this time to determine the effect that its adoption of SFAS No. 141(R) will have on its consolidated results of operations and financial condition.

Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51

In December 2007, the FASB issued SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51. This Statement amends the original Accounting Review Board (ARB) No. 51 Consolidated Financial Statements to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years and interim periods within those fiscal years, beginning on or after December 15, 2008 and may not be applied before that date. The Company is unable at this time to determine the effect that its adoption of SFAS No. 160 will have on its consolidated results of operations and financial condition.

Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of SFAS No. 115," which becomes effective for the Company on February 1, 2008, permits companies to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses in earnings. Such accounting is optional and is generally to be applied instrument by instrument. The election of this fair-value option did not have a material effect on its consolidated financial condition, results of operations, cash flows or disclosures.

Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. SFAS No. 157 addresses the requests from investors for expanded disclosure about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. SFAS No. 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and was adopted by the Company in the first quarter of fiscal year 2008. There was no material impact on the Company's consolidated results of operations and financial condition due to the adoption of SFAS No. 157.

Accounting Changes and Error Corrections

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections," which replaces APB Opinion No. 20, "Accounting Changes," and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements - An Amendment of APB Opinion No. 28." SFAS No. 154 provides guidance on the accounting for and reporting of accounting changes and error corrections, and it establishes retrospective application, or the latest practicable date, as the required method for reporting a change in accounting principle and the reporting of a correction of an error. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company adopted SFAS No. 154 in the first quarter of fiscal year 2007 and did not have a material impact on its consolidated results of operations and financial condition.

NOTE 5 RELATED PARTY TRANSACTIONS

The Company advanced funds to its CEO during the course of business at a rate of 4.5% annual interest. As of March 31, 2009 and December 31, 2008 advances receivable from the CEO were \$54,257 and \$53,375, respectively.

The Company received advances from its two officers and a shareholder during the course of business at a rate of 4.5% interest. As of March 31, 2009 and December 31, 2008 advances payable to the Company's two officers and a shareholders were \$59,347 and \$33,300, respectively.

The Company entered into a consulting agreement with the CEO on June 1, 2005. Under the terms of the agreement the CEO will receive consulting compensation in the amount of \$240,000 annually. The Company entered into a consulting agreement with its CFO on June 1, 2005. Under the terms of its agreement the CFO was to receive \$84,000 in consulting compensation annually from the inception of the agreement through January 1, 2007 at which point the consulting compensation was to increase to \$180,000. In consideration of the Company's lack of sufficient revenues the aforementioned officers of the company have received S-8 common stock in satisfaction of amounts due to them.

During the three months ended March 31, 2009, the Company issued 500,000 shares of common stock to each of our two officers, respectively. The common shares were issued and accepted by the Company's officers at \$.02 per share for a cumulative value of \$20,000. The Company reduced the value of the accrued balance due to the two Officers by

\$20,000. Furthermore since the market value of the common stock on the date of issue was \$.016 per share the company booked an amount of \$4,000 as paid in capital.

Edgar Filing: EastBridge Investment Group Corp - Form 10-Q

During the three months ended March 31, 2008, the Company issued 1,166,666 common shares to each of our two officers, respectively, with a total issued of 2,333,333 common shares. The shares issued are for the payment of the officers consulting fees that have accrued therefore the Company has reduced the accrued consulting fees by \$215,000. The shares were issued at \$.09 per share based on the trading date of the share value.

As of March 31, 2009 and December 31, 2008 the balances due to the two officers relating to their consulting agreements were \$200,000 and \$110,000, respectively.

NOTE 6 EQUITY

As of March 31, 2009, EastBridge had 127,614,839 shares of no par common stock issued and outstanding with 300,000,000 shares authorized.

During the three months ended March 31, 2009, the Company issued 500,000 shares of common stock to each of our two officers, respectively. The common shares were issued and accepted by the Company's officers at \$.02 per share for a cumulative value of \$20,000. The Company reduced the value of the accrued balance due to the two Officers by \$20,000. Furthermore since the market value of the common stock on the date of issue was \$.016 per share the company booked an amount of \$4,000 as paid in capital.

During the three months ended March 31, 2009, the Company issued 60,000 shares of common stock to a consultant for services rendered. The Company shares were issued at \$.02 per which was the trading value of the stock at the date of issuance. The Company expensed \$1,200.

During the three months ended March 31, 2008, the Company issued 1,166,666 common shares to each of our two officers, respectively, with a total issued of 2,333,333 common shares. The shares issued are for the payment of the officers consulting fees that have accrued therefore the Company has reduced the accrued consulting fees by \$215,000. The shares were issued at \$.09 per share based on the trading date of the share value.

In September of 2008 EastBridge authorized 100,000,000 shares of Preferred shares with no par value, of which the Company split evenly between Series A and Series B for 50,000,000, respectively. As of March 31, 2009 no shares of Preferred Stock in Series A or Series B were issued and outstanding.

NOTE 7 GAIN ON THE SETTLEMENT OF DEBT

During the March 31, 2008, the Company recorded a \$20,878 gain on the settlement of debt. The gains are reflected in other income on the accompanying Statements of Operations.

NOTE 8 - PROPERTY AND EQUIPMENT

The Company does not have any property and equipment as of March 31, 2009.

NOTE 9 NOTE PAYABLE

Notes payable comprise the following as of:

	March 19,	June 18,
	2009	2008
\$	100,000	\$ 100,000

Edgar Filing: EastBridge Investment Group Corp - Form 10-Q

Unsecured promissory note with Goldwater Bank, in Scottsdale, Arizona dated June 1, 2008 at an interest rate of 7.00% per annum. This note matured on February 6, 2009. As of March 31, 2009 the principle balance of \$100,000 remains due and payable. The Company has accrued \$1,250 in related banking fees consistent with the terms of the agreement.

Total long-term note payable		100,000		100,000
Less current portion		100,000		100,000
Long-term portion of note payable	\$	0	\$	0

NOTE 10 INCOME TAXES

The provision (benefit) for income taxes from continued operations for the period ended March 19, 2009 consist of the following:

	March 31,	December 31,
	2009	2008
Current:		
Federal	\$	\$
State		
Deferred:		
Federal	\$ 63,875	\$ 40,502
State	18,580	10,721
	82,455	51,223
Benefit from the operating loss carryforward	(82,455)	(51,233)
(Benefit) provision for income taxes, net	\$	\$

The difference between income tax expense computed by applying the federal statutory corporate tax rate and actual income tax expense is as follows:

	March 31,	December 31,
	2009	2008
Statutory federal income tax rate		
State income taxes and other	34.0%	34.0%
Effective tax rate	9.0%	9.0%
	40.0%	40.0%

Deferred income taxes result from temporary differences in the recognition of income and expenses for the financial reporting purposes and for tax purposes. The tax effect of these temporary differences representing deferred tax asset and liabilities result principally from the following:

	March 31,	December 31,
	2009	2008
Net operating loss carryforward	82,455	51,223
Valuation allowance	(82,455)	(51,223)
Deferred income tax asset	\$	\$

The Company has a net operating loss carryforward of approximately \$4,892,421 available to offset future taxable

income through 2028.

NOTE 9 SUBSEQUENT EVENTS

The Company entered into an agreement to sell Fiber One, Ltd for \$105,000 on April 10, 2009 subject to the finally accounting records delivered to the new owner. The "Company" for sale is: Fiber One Limited, located in Hollywood Plaza, 610 Nathan Road, Kowloon, Hong Kong. Business started in January of 2007.

A. Seller owns 95% of the total outstanding common stock of Fiber One Ltd ("Company"), a company incorporated in Hong Kong;

B. Seller wants to sell and Buyer wants to buy 95% of the common stock in the Company;

C. After the sale, Seller agrees to relinquish and the Buyer agrees to gain control of the Company's board (the "Board");

D. The board of directors of EBIG deems it to be in the best interest of EBIG and its shareholders to sell the Company to Buyer.

E. The board of directors of Buyer deems it to be in the best interest of Buyer and its shareholders to buy the Company from Seller.

The purchase price shall be US\$105,000 dollars cash. \$50,000 deposit due on signing. Delivery of Shares on the Closing Date, Seller shall deliver a board resolution to Buyer to authenticate the transaction and relinquish all the 95% equity of the Company to Buyer. The closing of this transaction has been extended to May 30, 2009.

The Company had an unsecured promissory note in the amount of \$100,000 with Goldwater Bank, in Scottsdale, Arizona dated June 1, 2008 at an interest rate of 7.00% per annum. This note matured on February 6, 2009. As of March 31, 2009 note remained unpaid. The company accrued \$1,250 in related banking fees consistent with the terms of the agreement. The Company renegotiated the loan facility with Goldwater Bank and in May 6, 2009 at which point the Company entered into a secured promissory note in the amount of \$90,000. The promissory note matures on May 6, 2011. The promissory note has an interest rate of 8% per annum. This promissory note is personally guaranteed by our CFO and CEO.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Management's Discussion and Analysis contains various forward looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, regarding future events or the future financial performance of the Company that involve risks and uncertainties. Certain statements included in this Form 10-Q, including, without limitation, statements related to anticipated cash flow sources and uses, and words including but not limited to anticipates, believes, plans, expects, future and similar statements or expressions, identify forward looking statements. Any forward-looking statements herein are subject to certain risks and uncertainties in the Company's business, including but not limited to, reliance on key customers and competition in its markets, market demand, product performance, technological developments, maintenance of relationships with key suppliers, difficulties of hiring or retaining key personnel and any changes in current accounting rules, all of which may be beyond the control of the Company. The Company adopted at management's discretion, the most conservative recognition of revenue based on the most astringent guidelines of the SEC in terms of recognition of software licenses and recurring revenue. Management will elect additional changes to revenue recognition to comply with the most conservative SEC recognition on a forward going accrual basis as the model is replicated with other similar markets (i.e. SBDC). The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth therein.

Forward-looking statements involve risks, uncertainties and other factors, which may cause our actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Factors and risks that could affect our results and achievements and cause them to materially differ from those contained in the forward-looking statements include those identified in the section titled Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, as well as other factors that we are currently unable to identify or quantify, but that may exist in the future.

In addition, the foregoing factors may affect generally our business, results of operations and financial position. Forward-looking statements speak only as of the date the statement was made. We do not undertake and specifically decline any obligation to update any forward-looking statements.

Overview

EastBridge provides financial services including public offering guidance, joint venture, and merchant banking services, to the small to medium-size businesses in China and other Asian countries. Normally, our first step is to help our clients become US public companies. Our target clients are mostly in China, Hong Kong, and Australia. We focus on short-term investment opportunities where the expected return is within a one to two year period and the potential gain is substantial for both parties. We generally seek transactions where we can assist in uncovering hidden value after our participation. Keith Wong (President and Chief Executive Officer of EastBridge) and Norman Klein (Chief Financial Officer of EastBridge) each have over twenty years of experience in the industrial, sales and financial industries. EastBridge's management can understand our prospective client's business quickly and are able to take fast and decisive actions to achieve business opportunities for our client. We plan China, Australia and Hong Kong to be our immediate focus and become our revenue centers in 2009. We plan to expand to other Asian countries in 2010.

A new strategy has emerged during this past year. Each of these acquisitions will be a subsidiary of our company. We intend to eventually take each of these companies public in the United States. In short term, we are able to provide the necessary capital for these companies to expand their business.

Financial Services

The Company's products are financial services that help small-to-medium-sized companies obtain capital to grow their business. The Company's financial services will be in the form of Initial Public Offerings, Joint Ventures, Wholly Foreign Owned Enterprises, and assistance with Guaranteed Return Ventures, Investment Banking, Financial Advisory Services or any other financial services allowed by the local government and in compliance with the Securities and Exchange Commission regulations. Under a Guaranteed Return Venture agreement, EastBridge will invest its intellectual capital in an enterprise through knowledge, or good will. In return, the enterprise will provide a written guarantee that EastBridge will receive a certain percentage of its profits. Further, the enterprise will guarantee that it will pay a specified minimum profit to EastBridge. If the enterprise fails to do so, EastBridge will be entitled to its total profit in any agreed period of interest.

The Company will also provide marketing, sales, and strategic planning services for its clients to assist them in entering the United States market.

EastBridge maintains a company website at: www.EbigCorp.com, the contents of which are not a part of this filing. EastBridge's business plan is to provide financial services, including public offering guidance, joint venture, and merchant banking advice to small-to-medium-sized businesses in Asia. Through the public offering guidance service, the Company will consult with its clients in investor relations, public relations, and will provide details on marketing, sales, and strategic planning services. Specifically, the Company will provide its clients with valuable information about the U.S. stock market, and its general entry requirements. Further, the Company will advise its clients on the pertinent information about U.S. investors before becoming reporting companies.

EastBridge's target clients are mostly in the Chinese territories and other Asian countries. EastBridge searches for opportunities to enhance hidden values to our clients. Though we focus on opportunities that can create value for both our shareholders and clients, we cannot provide any assurance that such opportunities will create value for our shareholders, or otherwise increase the value of their investment in the Company.

Products and Marketing

EastBridge's main business plan is to provide a listing service for companies that want to be listed on a United States stock exchange. EastBridge will also develop joint ventures and provide merchant banking services to its clients. Our potential income sources are derived from the following:

·
Earning cash fees and stock equities in the companies we represent as a Listing Client;

·
Cash income by operating joint ventures with local partners

·
Cash fees earned in providing merchant banking services to small Asian companies to access US funds.

We will serve as consultants and advisors to these companies to obtain loans, find business partners, and find merger candidates or assisting with feasibility studies.

Competition

At this time, the Company is unable to locate any other companies that offer similar services with the same focus in Asia. The Company believes that larger investment firms may find the smaller Asian companies to be uneconomical for their resource investment. Further, the smaller companies may lack the knowledge capital to penetrate the barriers because of geographical, political, linguistic, cultural, or economy-of-scale reasons. However, the major brokerage and financial service companies, as well as some smaller companies, have competent advertising and marketing capabilities. Therefore, EastBridge expects competition to increase in the near future.

Therefore, in due time, the expected higher returns on investment in Asia, most likely will attract new competitors. However, due to the market size of Asian countries, including China and India, a handful of new competitors may provide potential benefit for the industry. Competition will improve business results for both the financial service companies as well as the potential clients of such firms.

Government Approval and Regulation of Industry

The Company faces risks posed by any adverse laws and regulations affecting our business plans that may be enacted by the U.S. and foreign governments. In order to conduct our business in Asia, we will need to obtain some or all of the following licenses, approvals and/or concessions from the country we are in: Business registration, Tax certificate, Right to conduct Business Certificate, Employment Approval, Residency Approval, Asset Appraisal, Acquisition Approval, Import/Export License and Foreign Remission Approval. The list is subject to additions, dependant on a particular business sector we decide to enter into in the various Asian countries. We are subject to government approvals and concessions. There are no proclamations that we need to obtain all of the approvals and licenses above; nor is there a guarantee that we will obtain any of the approvals and licenses when we are required to do so.

Business Strategies

We provide financial services including public offering guidance, joint venture, and merchant banking services, to the small to medium-size businesses in China, India and other Asian countries. Normally, our first step is to help our clients become US public companies. Our target clients are mostly in China, Hong Kong, and Australia. We focus on short-term investment opportunities where the expected return is within a one to two year period and the potential gain is substantial for both parties. We generally seek transactions where we can assist in uncovering hidden value after our participation. Keith Wong (President and Chief Executive Officer of EastBridge) and Norman Klein (Chief Financial Officer of EastBridge) each have over twenty years of experience in the industrial, sales and financial industries. Our management can understand our prospective client's business quickly and are able to take fast and decisive actions to achieve business opportunities for our client. We plan China, Australia and Hong Kong to be our immediate focus and become our revenue centers in 2008. We plan to expand to other Asian countries in 2010 and beyond.

A new strategy has emerged during this past year. We plan to acquire several companies and own a minimum 51% stake in each company. Each of these acquisitions will be a subsidiary of our company. We intend to eventually take each of these companies public in the United States. In short term, we are able to provide the necessary capital for these companies to expand their business.

We currently have thirteen (13) clients that we are assisting with the process to register them with the Securities and Exchange Commission as public reporting companies in the United States and help them to begin trading their stock on a United States stock exchange. Management anticipates, but can provide no assurances, that some of these clients will go public in the United States and begin trading their stock in 2009. We have currently formed several subsidiaries. We expect most of our clients to merge with one of our subsidiaries in the near future. After the mergers are completed, then our management will begin providing the listing services to commence the process to take these companies public and to begin trading their stock on a U.S. stock exchange. EastBridge may also choose to take some of the clients public directly without merging them with a subsidiary. Below is a summary of our clients and subsidiaries. Management expects, but cannot guarantee, that our financials should also improve significantly in late 2009 once our clients complete the registration process with the Securities and Exchange Commission as public reporting companies. Once a client is registered as a public company and its stock begins trading in a U.S. stock market, then EastBridge will record the value of its stock in that client as revenue for that quarter and also record the value as an asset on its balance sheet. We typically receive a 10 to 30% equity position in a client as consideration for our services along with cash fees.

Current Clients and Subsidiaries and Progress to Date:

Wenda Professional College

EastBridge will provide listing services to Wenda, a major regional professional college located just west of Shanghai, China. It offers professional and vocational educational programs to train post high school students to improve their skills for higher paying jobs. Wenda offers programs mainly in the computer related IT sectors such as network design, hardware technology, computer graphics, CAD, animation, network database and network security. EastBridge will receive restricted stock in Wenda as consideration for its services. EastBridge is currently working with Wenda to complete its SEC audit for the fiscal years 2007 and 2008. EastBridge is also working with Wenda to complete its SEC registration documents which are necessary to file with the SEC as a public company. EastBridge has formed a United States subsidiary, called Wonder International Education & Investment Group Corporation. Wenda will merge in this U.S. subsidiary in the near future as part of the listing process. For its services, EastBridge will own an equity position of approximately 12% in this U.S. public company, called Wonder. EastBridge is currently working with an SEC auditor to complete the necessary two year audit of Wenda's financials and corporate structure.

Yewo Group

Edgar Filing: EastBridge Investment Group Corp - Form 10-Q

EastBridge will provide listing services to Yewo Group, a diversified holding company. Yewo owns and operates two shopping centers, several distribution centers and a theme park resort center. Yewo plans to build and operate a Golf Resort in Nanjing, a Chinese city which is approximately two hours from Shanghai, China. EastBridge is currently working with Yewo to complete its SEC audit for the fiscal years 2007 and 2008. EastBridge and Yewo

are also working on the SEC registration documents necessary to file with the SEC to become a public company in the United States. EastBridge has formed a United States subsidiary, called Sunyi International Group Corporation. Yewo will merge into this U.S. subsidiary in the near future as part of the listing process. For its services, EastBridge will own an equity position of approximately 10% in the U.S. public company, called Sunyi. EastBridge is currently working with an SEC auditor to complete the required two year audit of Yewo's financials and corporate structure.

Huang Wei Pharmaceutical Company

EastBridge will provide listing services to Huang Wei, a well know Chinese pharmaceutical company located approximately two hours from Beijing, China. EastBridge intends to list Huang Wei in a United States stock market within the next 12 to 18 months. Huang Wei has recently added over thirty drug approvals from the Chinese FDA. Its products range from the special anti-flammitory to blood pressure-lowering drugs. EastBridge will receive restricted stock of Huang Wei as consideration for its services. EastBridge is currently working with Huang Wei to complete its audit for fiscal years 2007 and 2008. EastBridge has formed a United States subsidiary called Huang Wei Pharmacy Group Holdings Limited. Huang Wei will eventually merge with this U.S. subsidiary as one of the steps to take them public in the United States and list them on a U.S. stock exchange. For its services, EastBridge will own approximately 13% in the U.S. subsidiary, called Huang Wei Pharmacy Group Holdings Limited. EastBridge plans to begin the SEC audit of Huang Wei in 2009.

Jinkuizi Science & Technology Company

As of October 27, 2008, EastBridge signed a definitive listing agreement with Jinkuizi Science & Technology Company located in Foshan, China. Jinkuizi develops and manufactures environmentally safe fertilizers in China and Southeast Asia. For its services, EastBridge will receive a cash fee and an equity position in the eventual United States subsidiary that Jinkuizi will merge into as part of the process to go public in the U.S. and become listed on a U.S. stock exchange. EastBridge is planning to begin the SEC audit of Jinkuizi during the second quarter of 2009.

AREM Pacific Corporation (Formerly known as Nanotec, Inc. An EastBridge Subsidiary in the U.S.)

During July 2007, we organized Nanotec, Inc., (Nanotec) a wholly owned subsidiary of our company, to provide electronic and chemical products and services to companies in Asia, especially those in China and Japan. On July 11, 2007 we distributed 5% of Nanotec to our shareholders of record on that date. As of November 8, 2007, Arem Wines merged with Nanotec, Inc. Under the terms of the merger, the new stock ownership structure is as follows: 15% owned by EastBridge, 5% owned by EastBridge shareholders, and 80% owned by Arem Wines' beneficiaries. The name of the merged company was Arem Group, Inc.

During September, 2007, we signed a definitive agreement to acquire 15% of AREM Wines Pty, Ltd, (Arem) an Australian wine company in Melbourne, Australia. Under the terms of the agreement, we gave Arem Pacific Corporation, the investment company that owns AREM Wines Pty, Ltd., 8,000,000 of our restricted common shares, plus options to purchase our common shares, in exchange for the 15% equity position in AREM. In subsequent events, we issued only 2,000,000 of the restricted shares as part of 8,000,000 shares to be issued in accordance with the agreement. The September, 2007 agreement replaces all other stock exchange agreements between us and Arem. In addition to the restricted stock agreement, our company and Arem signed a second agreement. We will assist Arem to become listed on a U.S. stock exchange. We will be paid \$700,000 in cash, of which \$400,000 was due at signing and \$100,000 will be paid when the proper application is filed with the Securities and Exchange Commission and the remaining \$200,000 following the listing and trading of AREM's stock on a U.S. stock exchange. Arem will also issue 5% of its stock to our stockholders.

As of September, 2008, the Arem Wines Pty, Ltd Company in Australia has been dissolved. A new company called, Arem Pacific Corporation was formed with a new set of directors and officers along with a new ownership structure. The U.S. subsidiary's name was also changed to Arem Pacific Corporation. We continue to own 15% of this subsidiary

and our shareholders continue to own 5% of this new entity. As of December, 2008, Arem Pacific Corporation and EastBridge have mutually agreed to postpone the listing process until after a restructure process for Arem is complete and the world's economy and market conditions improve. As of December, 2009, Arem Pacific Corporation has not issued any stock to its shareholders.

On April 30, 2009, Arem Pacific Corporation has signed a new listing agreement with EastBridge. Arem Pacific Corporation has signed a joint venture agreement with Hunan Construction Company of China. EastBridge will assist Arem Pacific Corporation to take the Joint Venture public in the United States and trade on a U.S. stock exchange. Details of this new listing agreement will be announced in the near future.

For the three months ended March 31, 2009, no stock has been distributed to its shareholders for this subsidiary. There has been no activity for the three months ended March 31, 2009.

Alpha Green Energy Company

On February 19, 2009, EastBridge entered into a listing agreement with Alpha Green Energy Company, a company based in Phoenix, Arizona. Alpha Green is a holding company that owns a subsidiary in Guizhou, China. The subsidiary's main business is electricity production using renewable bio-mass from the agricultural industry in China. For its services, EastBridge will be compensated with a cash fee plus equity in Alpha Green. EastBridge will also assist in a capital raise for Alpha Green.

Alpha Green has also agreed to purchase Fiber One, an EastBridge subsidiary in Hong Kong, for a cash fee. Please note the history of Fiber One below.

Fiber One Ltd (EastBridge Subsidiary in Hong Kong)

During July 2007, EastBridge organized Fiber One, Ltd. a Hong Kong based subsidiary of EastBridge. Fiber One is wholly owned by EastBridge. Fiber One provides services to the fiber optics industry in China and other Far East countries. Fiber One is currently providing calibration service to Amonics of Hong Kong. Fiber One is an active subsidiary of EastBridge and receiving revenue from Amonics. As of December, 2008, Amonics has cancelled its listing agreement with EastBridge. Therefore, Fiber One is currently an inactive subsidiary of EastBridge. As of April 10, 2009, Alpha Green Energy Company, an EastBridge client, has agreed to purchase Fiber One for a cash fee of \$105,000. See above for information concerning Alpha Green Energy Company. The closing of this transaction has been extended to May 30, 2009. There has been no activity for the three months ended March 31, 2009.

Tianjin Heavy Steel

On December 3, 2006, we entered into a listing agreement with Tianjin Hui Hong Heavy Steel Construction Co., Ltd ("Tianjin"), a company registered in China. Under the agreement, EastBridge agrees to assist Tianjin to become listed as a reporting company in the United States within eighteen months from the execution date of the contract. The Company agrees to pay for certain legal, auditing, IR/PR, and advisory costs in conjunction with the listing process. Tianjin issued 15% of its outstanding common stock to the Company as consideration for its services on the date of execution of the contract. The shares are restricted stock and bound by the auspices of Rule 144. If we fail to list the client as a reporting company within the contract term, then the Company agrees to sell all the shares to the client for a nominal cost, unless the parties mutually agree to an extension. As of December, 2008, Tianjin and EastBridge have mutually agreed to postpone the listing process until the world's economy and market conditions improve.

Ning Guo

On January 6, 2007, we entered into a listing agreement with Ning Guo Shunchang Machinery Co., Ltd. ("Ning Guo"), a company registered in China. Under the agreement, EastBridge agreed to assist Ning Guo to become listed as a reporting company in the United States. The Company agreed to pay for certain legal, auditing, IR/PR, and advisory costs in conjunction with the listing process. Ning Guo issued 20% of their company's common stock to the Company as consideration for its services on the date of execution of the contract. The shares are restricted stock and bound by the auspices of Rule 144. If EastBridge fails to list the client as a reporting company within the contract term, then the Company agrees to sell all the shares to the client for a nominal cost, unless the parties mutually agree to an extension.

As of December, 2008, Ning Guo and EastBridge have mutually agreed to postpone the listing process until the world's economy and market conditions improve.

GinKo

On July 24, 2007, we entered into a listing agreement with Hefe GinKo Real Estate Company, Ltd. (GinKo), a company registered in Anhui, China. Under the agreement, EastBridge agreed to assist GinKo to become listed as a reporting company in the United States. The Company agreed to pay for certain legal, auditing, IR/PR, and advisory costs in conjunction with the listing process. GinKo issued 18% of their company's common stock to the Company as consideration for its services on the date of execution of the contract. The shares are restricted stock and bound by the auspices of Rule 144. If EastBridge fails to list the client as a reporting company within the contract term, then the Company agrees to sell all the shares to the client for a nominal cost, unless the parties mutually agree to an extension. As of December, 2008, GinKo and EastBridge have mutually agreed to postpone the listing process until the world's economy and market conditions improve.

Beijing Power Plant Equipment Company (ZZH)

EastBridge will provide listing services to ZZH, a major coal fired ignition equipment manufacturer for electricity power plants. ZZH will be listed on the U.S. stock market as soon as practicable. ZZH sells energy saving ignition equipment to control coal consumption in power plants and has been granted several critical patents for its core technology. ZZH currently provides equipment to save fuel and lower pollution to numerous major Chinese power plants, including the one providing power to Beijing-Da Tang Electricity Company. Coal is the main source of electricity generation in China and a major source in the U.S. EastBridge will receive restricted stock of ZZH as consideration for its services. As of December, 2008, ZZH and EastBridge have mutually agreed to postpone the listing process until the world's economy and market conditions improve.

Ji-Bo Pipes and Valves Company

EastBridge acquired a controlling interest in Ji-Bo, located in Zhejiang, China. EastBridge agreed to issue 1 million shares of B-preferred stock in exchange for 51% controlling interest in Ji-Bo. Ji-Bo is well known supplier of copper parts to the plumbing industry in China. As of December, 2008, EastBridge and Ji-Bo have agreed to cancel the acquisition agreement and execute a listing agreement between the two companies. For its services, EastBridge will receive a cash fee and an equity position in the U.S. subsidiary that Ji-Bo will merge into as part of the process to go public in the U.S. and become listed on a U.S. stock exchange. As of March 31, 2009, the two companies have not agreed to the final terms of the listing agreement. Further negotiations are required.

Aoxing Corporation

EastBridge acquired a controlling interest in Aoxing, located in Jiangxi, China. EastBridge agreed to issue 1 million shares of A-preferred stock in exchange for 51% controlling interest in Aoxing. Aoxing manufactures copper alloy electrical cables for the domestic (China) and international markets. As of December, 2008, EastBridge and Aoxing have agreed to cancel the acquisition agreement and execute a listing agreement between the two companies. For its services, EastBridge will receive a cash fee and an equity position in the United States subsidiary that Aoxing will merge into as part of the process to go public in the U.S. and become listed on a U.S. stock exchange. As of March 31, 2009, the two companies have not agreed to the final terms of the listing agreement. Further negotiations are required.

HaoHai Media Company

As of October 7, 2008, EastBridge signed a definitive listing agreement with HaoHai, which is located in Hangzhou, China. HaoHai is a television media company selling advertisement time to the pharmaceutical companies in China. For its services, EastBridge will receive a cash fee and an equity position in the eventual U.S. subsidiary that HaoHai will merge into as part of the process to go public in the U.S. and become listed on a U.S. stock exchange. Currently, EastBridge and HaoHai have agreed to postpone the listing agreement until the world's economy and market conditions improve.

Inactive and Unassigned United States Subsidiaries of EastBridge:

General Farms Corporation (EastBridge Subsidiary)

On November 27, 2007, we organized General Farms Corporation (General Farms) a wholly owned subsidiary of EastBridge. A stock dividend of 5% of General Farm's common stock, or 10,000,000 shares, will be distributed to EastBridge's shareholders of record as of Nov 16, 2007. Under the terms of the share exchange agreement, the new stock ownership structure is: 85% owned by EastBridge and 5% owned by EastBridge's shareholders of record as of Nov 16, 2007. As of December 5, 2007, Rhino Two Horns merged with General Farms Corporation. Under the terms of the merger, the new stock ownership structure is: 15% owned by EastBridge, 5% owned by EastBridge shareholders and 80% owned by Rhino's beneficiaries. In the 3rd quarter of 2008, Rhino cancelled its contract with EastBridge dissolving the above merger with General Farms Corporation. For the three months ended March 31, 2009, no stock has been distributed to its shareholders for this subsidiary. There has been no activity for the three months ended March 31, 2009.

Energy Corporation (EastBridge Subsidiary)

On November 27, 2007, we organized Energy Corporation (Energy) a wholly owned subsidiary of EastBridge. On December 28, 2007, EastBridge announced that it will distribute a stock dividend of 5% of Energy Corporation's common stock of 10 million shares, on a pro-rata basis and with no considerations to its shareholders of record on that date. The Company has not distributed the stock as of December 31, 2007. Energy Corporation, a wholly owned subsidiary of EastBridge, focuses on energy equipment manufacturers and the energy distribution business in Asia. The eligible shareholders will automatically receive the stock certificates or electronic deposits into their accounts when the Energy Corporation's stock is listed and begins trading. Energy Corporation is presently an inactive subsidiary. For the three months ended March 31, 2009, no stock has been distributed to its shareholders for this subsidiary. There has been no activity for the three months ended March 31, 2009.

China Properties Corporation (EastBridge Subsidiary)

On November 27, 2007 we organized China Properties Corporation (China Properties) a wholly owned subsidiary of EastBridge. A stock dividend announcement to distribute 5% of China Properties' common stock of 10,000,000 shares, on a pro-rata basis and without considerations to its shareholders of record on Friday, November 30, 2007. China Properties Corporation, a wholly owned subsidiary of EastBridge, focuses on real estate development and construction business in Asia. The eligible shareholders will automatically receive the stock certificates or electronic deposits into their accounts when the China Properties' stock is listed and begins trading. China Properties is presently an inactive subsidiary. For the three months ended March 31, 2009, no stock has been distributed to its shareholders for this subsidiary. There has been no activity for the three months ended March 31, 2009.

RESULTS OF OPERATIONS

Revenue was \$0 and \$17,275 for the three months ended March 31, 2009 and 2008, respectively.

General and Administrative

General and Administrative was \$190,326 and \$127,426 for the three months ended March 31, 2009 and 2008, respectively. The decrease in general and administrative expenses relates to the reduction in consulting and legal services. Also the decrease is related to the cost of the Beijing Office which reduces our consulting and office rental expenses. Most of our current expenses focus on finding new clients for our company. We are beginning to incur expenses to take our clients public in the United States and begin trading on a US stock exchange. Both activities will help to improve the financials of the company.

Sales and Marketing Services

Sales and Marketing was \$15,779 and \$25,207 for the three months ended March 31, 2009 and 2008, respectively. The decrease in sales and marketing services relates to the reduction of the travel and hotel costs of staying in Beijing as we now have a Beijing office. Also there has been a decrease cost of hiring investor relations firms, marketing firms, and stock related services.

LIQUIDITY AND CAPITAL RESOURCES

We have cash and cash equivalents of \$21,032 and \$4,347 as of March 31, 2009 and December 31, 2008, respectively.

We have operating activities used in \$28,815 and \$198,622 for the three months ended March 31, 2009 and 2008, respectively. The difference is mainly attributable to the increase in revenues in the current year and increase in operating expenses of the Company.

Cash provided by financing activities was \$45,500 and \$204,649 for the three months ended March 31, 2009 and 2008, respectively. The decrease is due to repayment of accrued consulting fees with the common stock of the Company and advances from officers.

Our operations are currently financed through various loans from senior management and principal shareholders as it has been the case for the past several years. We also have a line of credit that we can borrow against and are seeking to increase the amount of our line of credit. However, there are no assurances that management will continue to fund the company. Management is in the process of taking action to strengthen our working capital position and generate sufficient cash to meet our operating needs. No assurances can be made that management will be successful in achieving its plan, or that additional capital will be available on a timely basis or at acceptable terms.

The Company had an unsecured promissory note in the amount of \$100,000 with Goldwater Bank, in Scottsdale, Arizona dated June 1, 2008 at an interest rate of 7.00% per annum. This note matured on February 6, 2009. As of March 31, 2009 note remained unpaid. The company accrued \$1,250 in related banking fees consistent with the terms of the agreement. The Company renegotiated the loan facility with Goldwater Bank and in May 6, 2009 at which point the Company entered into a secured promissory note in the amount of \$90,000. The promissory note matures on May 6, 2011. The promissory note has an interest rate of 8% per annum. This promissory note is personally guaranteed by our CFO and CEO.

The Company advanced funds to its CEO during the course of business at a rate of 4.5% annual interest. As of March 31, 2009 and December 31, 2008 advances receivable from the CEO were \$54,257 and \$53,375, respectively.

The Company received advances from its two officers and a shareholder during the course of business at a rate of 4.5% interest. As of March, 31, 2009 and December 31, 2008 advances payable to the Company's two officers and a shareholders were \$59,347 and \$33,300.

Additional Information

We file reports and other materials with the Securities and Exchange Commission. These documents may be inspected and copied at the Commission's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C., 20549. You can obtain information on the operation of the Public Reference Room by calling the Commission at 1-800-SEC-0330. You can also get copies of documents that the Company files with the Commission through the Commission's Internet site at www.sec.gov.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not hold any derivative instruments and do not engage in any hedging activities. Most of our activity is providing listing and financial services to companies in Asia and Taiwan. At present, the Company is providing these services to nine companies.

ITEM 4.

CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective such that the information required to be disclosed by us in reports filed under the Securities

Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Our Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives. Furthermore, smaller reporting companies face additional limitations. Smaller reporting companies employ fewer individuals and find it difficult to properly segregate duties. Often, one or two individuals control every aspect of the Company's operation and are in a position to override any system of internal control. Additionally, smaller reporting companies tend to utilize general accounting software packages that lack a rigorous set of software controls.

Our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the Company's internal control over financial reporting as of March 31, 2009. In making this assessment, our Chief Executive Officer and Chief Financial Officer used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control -- Integrated Framework. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2009, our internal control over financial reporting was effective.

b) Changes in Internal Control over Financial Reporting.

During the Quarter ended March 31, 2009, there was no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

LACK OF INDEPENDENT BOARD OF DIRECTORS AND AUDIT COMMITTEE

Management is aware that an audit committee composed of the requisite number of independent members along with a qualified financial expert has not yet been established. Considering the costs associated with procuring and providing the infrastructure to support an independent audit committee and the limited number of transactions, Management has concluded that the risks associated with the lack of an independent audit committee are not justified. Management will periodically reevaluate this situation.

LACK OF SEGREGATION OF DUTIES

Management is aware that there is a lack of segregation of duties at the Company due to the small number of employees dealing with general administrative and financial matters. However, at this time management has decided that considering the abilities of the employees now involved and the control procedures in place, the risks associated with such lack of segregation are low and the potential benefits of adding employees to clearly segregate duties do not justify the substantial expenses associated with such increases. Management will periodically reevaluate this situation

PART II OTHER INFORMATION

ITEM 1.

LEGAL PROCEEDINGS

Our company nor any of its officers or directors is a party to any material legal proceeding or litigation and such persons know of no material legal proceeding or litigation contemplated or threatened. There are no judgments against the Company or its officers or directors. None of the officers or directors has been convicted of a felony or misdemeanor relating to securities or performance in corporate office.

WHERE YOU CAN FIND MORE INFORMATION

You are advised to read this Form 10-Q in conjunction with other reports and documents that we file from time to time with the SEC. In particular, please read our Quarterly Reports on Form 10-Q and our annual report on Form 10-K and Current Reports on Form 8-K that we file from time to time. You may obtain copies of these reports directly from us or from the SEC at the SEC's Public Reference Room at 100 F. Street, N.E. Washington, D.C. 20549, and you may obtain information about obtaining access to the Reference Room by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains information for electronic filers at its website <http://www.sec.gov>.

ITEM 1A

Risk Factors

An investment in our common stock involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information contained in this Annual Report on Form 10-K, before investing in our common stock. If any of the events anticipated by the risks described below occur, our results of operations and financial condition could be adversely affected which could result in a decline in the market price of our common stock, causing you to lose all or part of your investment.

The Liquidity Of Our Common Stock Is Seriously Limited And There Is A Limited Market For Our Common Stock

Our stock is currently being traded on the NASDAQ Over-The-Counter Bulletin Board, and the liquidity of our common stock is limited. The Bulletin Board is a limited market and subject to substantial restrictions and limitations in comparison to the NASDAQ system. Any broker/dealer that makes a market in our stock or other person that buys or sells our stock could have a significant influence over its price at any given time.

We Depend Upon Key Management Personnel and the Loss of Any of Them Would Seriously Disrupt Our Operations:

The success of our company is largely dependent on the personal efforts of Keith Wong and Norm Klein and other key executives. The loss of the services of Keith Wong and Norm Klein or other key executives would have a material adverse effect on our business and prospects. In addition, in order for us to undertake our operations as contemplated, it will be necessary for us to locate and hire experienced personnel who are knowledgeable in our business. Our failure to attract and retain such experienced personnel on acceptable terms will have a material adverse impact on our ability to grow our business.

Our Common Stock Is Subject To Penny Stock Regulation

Our shares are subject to the provisions of Section 15(g) and Rule 15g-9 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), commonly referred to as the "penny stock" rule. Section 15(g) sets forth certain requirements for transactions in penny stocks and Rule 15g-9(d)(1) incorporates the definition of penny stock as that used in Rule 3a51-1 of the Exchange Act. The Commission generally defines penny stock to be any equity security that has a market price less than \$5.00 per share, subject to certain exceptions. Rule

3a51-1 provides that any equity security is considered to be penny stock unless that security is: registered and traded on a national securities exchange meeting specified criteria set by the Commission; authorized for quotation on the NASDAQ Stock Market; issued by a registered investment company; excluded from the definition on the basis of price (at least \$5.00 per share) or the registrant's net tangible assets; or exempted from the definition by the Commission. Since our shares are deemed to be "penny stock", trading in the shares will be subject to additional sales practice requirements on broker/dealers who sell penny stock to persons other than established customers and accredited investors.

We Do Not Intend To Pay Cash Dividends.

We do not anticipate paying cash dividends on our common stock in the foreseeable future. We may not have sufficient funds to legally pay dividends. Even if funds are legally available to pay dividends, we may nevertheless decide in our sole discretion not to pay dividends. The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors our board of directors may consider relevant. There is no assurance that we will pay any dividends in the future, and, if dividends are rapid, there is no assurance with respect to the amount of any such dividend.

Because We Are Quoted On The OTCBB Instead Of An Exchange Or National Quotation System, Our Investors May Have A Tougher Time Selling Their Stock Or Experience Negative Volatility On The Market Price Of Our Stock.

Our common stock is traded on the OTCBB. The OTCBB is often highly illiquid, in part because it does not have a national quotation system by which potential investors can follow the market price of shares except through information received and generated by a limited number of broker-dealers that make markets in particular stocks. There is a greater chance of volatility for securities that trade on the OTCBB as compared to a national exchange or quotation system. This volatility may be caused by a variety of factors, including the lack of readily available price quotations, the absence of consistent administrative supervision of bid and ask quotations, lower trading volume, and market conditions. Investors in our common stock may experience high fluctuations in the market price and volume of the trading market for our securities. These fluctuations, when they occur, have a negative effect on the market price for our securities. Accordingly, our stockholders may not be able to realize a fair price from their shares when they determine to sell them or may have to hold them for a substantial period of time until the market for our common stock improves.

Failure To Achieve And Maintain Effective Internal Controls In Accordance With Section 404 Of The Sarbanes-Oxley Act Could Have A Material Adverse Effect On Our Business And Operating Results.

It may be time consuming, difficult and costly for us to develop and implement the additional internal controls, processes and reporting procedures required by the Sarbanes-Oxley Act. We may need to hire additional financial reporting, internal auditing and other finance staff in order to develop and implement appropriate additional internal controls, processes and reporting procedures. If we are unable to comply with these requirements of the Sarbanes-Oxley Act, we may not be able to obtain the independent accountant certifications that the Sarbanes-Oxley Act requires of publicly traded companies.

If we fail to comply in a timely manner with the requirements of Section 404 of the Sarbanes-Oxley Act regarding internal control over financial reporting or to remedy any material weaknesses in our internal controls that we may identify, such failure could result in material misstatements in our financial statements, cause investors to lose confidence in our reported financial information and have a negative effect on the trading price of our common stock.

Pursuant to Section 404 of the Sarbanes-Oxley Act and current SEC regulations, beginning with our annual report on Form 10-K for our fiscal period ending December 31, 2007, we will be required to prepare assessments regarding internal controls over financial reporting and beginning with our annual report on Form 10-K for our fiscal period ending December 31, 2008, furnish a report by our management on our internal control over financial reporting. We have begun the process of documenting and testing our internal control procedures in order to satisfy these requirements, which is likely to result in increased general and administrative expenses and may shift management time and attention from revenue-generating activities to compliance activities. While our management is expending significant resources in an effort to complete this important project, there can be no assurance that we will be able to achieve our objective on a timely basis. There also can be no assurance that our auditors will be able to issue an unqualified opinion on management's assessment of the effectiveness of our internal control over financial reporting.

Failure to achieve and maintain an effective internal control environment or complete our Section 404 certifications could have a material adverse effect on our stock price.

In addition, in connection with our on-going assessment of the effectiveness of our internal control over financial reporting, we may discover material weaknesses in our internal controls as defined in standards established by the Public Company Accounting Oversight Board, or the PCAOB. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The PCAOB defines significant deficiency as a deficiency that results in more than a remote likelihood that a misstatement of the financial statements that is more than inconsequential will not be prevented or detected.

In the event that a material weakness is identified, we will employ qualified personnel and adopt and implement policies and procedures to address any material weaknesses that we identify. However, the process of designing and implementing effective internal controls is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to expend significant resources to maintain a system of internal controls that is adequate to satisfy our reporting obligations as a public company. We cannot assure you that the measures we will take will remediate any material weaknesses that we may identify or that we will implement and maintain adequate controls over our financial process and reporting in the future.

Any failure to complete our assessment of our internal control over financial reporting, to remediate any material weaknesses that we may identify or to implement new or improved controls, or difficulties encountered in their implementation, could harm our operating results, cause us to fail to meet our reporting obligations or result in material misstatements in our financial statements. Any such failure could also adversely affect the results of the periodic management evaluations of our internal controls and, in the case of a failure to remediate any material weaknesses that we may identify, would adversely affect the annual auditor attestation reports regarding the effectiveness of our internal control over financial reporting that are required under Section 404 of the Sarbanes-Oxley Act. Inadequate internal controls could also cause investors to lose confidence in our reported financial information, which could have a negative effect on the trading price of our common stock.

Operating History And Lack Of Profits Which Could Lead To Wide Fluctuations In Our Share Price. The Price At Which You Purchase Our Common Shares May Not Be Indicative Of The Price That Will Prevail In The Trading Market. You May Be Unable To Sell Your Common Shares At Or Above Your Purchase Price, Which May Result In Substantial Losses To You. The Market Price For Our Common Shares Is Particularly Volatile Given Our Status As A Relatively Unknown Company With A Small And Thinly Traded Public Float.

The market for our common shares is characterized by significant price volatility when compared to seasoned issuers, and we expect that our share price will continue to be more volatile than a seasoned issuer for the indefinite future. The volatility in our share price is attributable to a number of factors. First, as noted above, our common shares are sporadically and thinly traded. As a consequence of this lack of liquidity, the trading of relatively small quantities of shares by our shareholders may disproportionately influence the price of those shares in either direction. The price for our shares could, for example, decline precipitously in the event that a large number of our common shares are sold on the market without commensurate demand, as compared to a seasoned issuer which could better absorb those sales without adverse impact on its share price. Secondly, we are a speculative or risky investment due to our limited operating history and lack of profits to date, and uncertainty of future market acceptance for our potential products. As a consequence of this enhanced risk, more risk-averse investors may, under the fear of losing all or most of their investment in the event of negative news or lack of progress, be more inclined to sell their shares on the market more quickly and at greater discounts than would be the case with the stock of a seasoned issuer. Many of these factors are beyond our control and may decrease the market price of our common shares, regardless of our operating performance. We cannot make any predictions or projections as to what the prevailing market price for our common shares will be at any time, including as to whether our common shares will sustain their current market prices, or as to what effect that the sale of shares or the availability of common shares for sale at any time will have on the prevailing market price.

Shareholders should be aware that, according to SEC Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include (1) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (2) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (3) boiler room practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (4) excessive and undisclosed bid-ask differential and markups by selling broker-dealers; and (5) the wholesale

dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses. Our management is aware of the abuses that have occurred historically in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, management will strive within the confines of practical limitations to prevent the described patterns from being established with respect to our securities. The occurrence of these patterns or practices could increase the volatility of our share price.

The Report Of Our Independent Registered Public Accounting Firm Contains Explanatory Language That Substantial Doubt Exists About Our Ability To Continue As A Going Concern

The independent auditor's report on our financial statements contains explanatory language that substantial doubt exists about our ability to continue as a going concern. The report states that we depend on the continued contributions of our executive officers to work effectively as a team, to execute our business strategy and to manage our business. The loss of key personnel, or their failure to work effectively, could have a material adverse effect on our business, financial condition, and results of operations. If we are unable to obtain sufficient financing in the near term or achieve profitability, then we would, in all likelihood, experience severe liquidity problems and may have to curtail our operations. If we curtail our operations, we may be placed into bankruptcy or undergo liquidation, the result of which will adversely affect the value of our common shares.

Our operations, revenue and profitability could be adversely affected by changes in laws and regulations in the countries where we do business.

The governments of countries into which we sell our products, including the United States, Canada, Asia and the European Union, from time to time, consider regulatory proposals relating to raw materials, food safety and markets, and environmental regulations, which, if adopted, could lead to disruptions in distribution of our products and increase our operational costs, which, in turn, could affect our profitability. To the extent that we increase our product prices as a result of such changes, our sales volume and revenues may be adversely affected.

Furthermore, these governments may change import regulations or impose additional taxes or duties on certain Chinese imports from time to time. For example, in 2004, the United States government imposed heavy tariffs of more than 100 percent on certain Chinese shrimp exporters. Similar regulations and fees or new regulatory developments may have a material adverse impact on our operations, revenue and profitability.

There could be changes in the policies of the PRC government that may adversely affect our business.

The aquaculture industry in the PRC is subject to policies implemented by the PRC government. The PRC government may, for instance, impose control over aspects of our business such as distribution of raw materials, product pricing and sales. On the other hand, the PRC government may also make available subsidies or preferential treatment, which could be in the form of tax benefits or favorable financing arrangements.

If the raw materials used by us or our products become subject to any form of government control, then depending on the nature and extent of the control and our ability to make corresponding adjustments, there could be a material adverse effect on our business and operating results.

Separately, our business and operating results also could be adversely affected by changes in policies of the Chinese government such as: changes in laws, regulations or the interpretation thereof; confiscatory taxation; restrictions on currency conversion, imports on sources of supplies; or the expropriation or nationalization of private enterprises. Although the Chinese government has been pursuing economic reform policies for approximately two decades to liberalize the economy and introduce free market aspects, there is no assurance that the government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption, or other circumstances affecting China's political, economic and social life.

Certain political and economic considerations relating to PRC could adversely affect our company.

The PRC is passing from a planned economy to a market economy. The Chinese government has confirmed that economic development will follow a model of market economy under socialism. While the PRC government has pursued economic reforms since its adoption of the open-door policy in 1978, a large portion of the PRC economy is

still operating under five-year plans and annual state plans adopted by the government that set down national economic development goals. Through these plans and other economic measures, such as control on foreign exchange, taxation and restrictions on foreign participation in the domestic market of various industries, the PRC government exerts considerable direct and indirect influence on the economy. Many of the economic reforms are unprecedented or experimental for the PRC government, and are expected to be refined and improved. Other political, economic and social factors can also lead to further readjustment of such reforms. This refining and readjustment process may not necessarily have a positive effect on our operations or future business development. Our operating results may be adversely affected by changes in the PRC's economic and social conditions as well as by changes in the policies of the PRC government, which we may not be able to foresee, such as changes in laws and regulations (or the official interpretation thereof), measures which may be introduced to control inflation, changes in the rate or method of taxation, and imposition of additional restrictions on currency conversion.

The recent nature and uncertain application of many PRC laws applicable to us create an uncertain environment for business operations and they could have a negative effect on us.

The PRC legal system is a civil law system. Unlike the common law system, such as the legal system used in the United States, the civil law system is based on written statutes in which decided legal cases have little value as precedents. In 1979, the PRC began to promulgate a comprehensive system of laws and has since introduced many laws and regulations to provide general guidance on economic and business practices in the PRC and to regulate foreign investment. Progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. The promulgation of new laws, changes of existing laws and the abrogation of local regulations by national laws could have a negative impact on our business and business prospects. In addition, as these laws, regulations and legal requirements are relatively recent, their interpretation and enforcement involve significant uncertainty.

If relations between the United States and China worsen, our stock price may decrease and we may have difficulty accessing the U.S. capital markets.

At various times during recent years, the United States and China have had disagreements over political and economic issues. Controversies may arise in the future between these two countries. Any political or trade controversies between the United States and China could adversely affect the market price of our common stock and our ability to access U.S. capital markets.

Governmental control of currency conversion may affect the value of your investment.

The PRC government imposes controls on the convertibility of Renminbi into foreign currencies and, in certain cases, the remittance of currency out of the PRC. Currently, the Renminbi is not a freely convertible currency. Shortages in the availability of foreign currency may restrict our ability to remit sufficient foreign currency to pay dividends, or otherwise satisfy foreign currency denominated obligations. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from the transaction, can be made in foreign currencies without prior approval from the PRC State Administration of Foreign Exchange by complying with certain procedural requirements. However, approval from appropriate governmental authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans and corporate debt obligations denominated in foreign currencies.

The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency demands, we may not be able to pay certain of our expenses as they come due.

The fluctuation of the Renminbi may materially and adversely affect your investment.

The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. Any significant revaluation of the Renminbi may materially and adversely affect our cash flows, revenues and financial condition. For example, to the extent that we need to convert U.S. dollars into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar could have a material adverse effect on our business, financial condition and results of operations.

Conversely, if we decide to convert our Renminbi into U.S. dollars for business purposes and the U.S. dollar appreciates against the Renminbi, the U.S. dollar equivalent of the Renminbi we convert would be reduced. Any significant devaluation of Renminbi may reduce our operation costs in U.S. dollars but may also reduce our earnings in U.S. dollars. In addition, the depreciation of significant U.S. dollar denominated assets could result in a charge to our income statement and a reduction in the value of these assets.

Commencing from July 21, 2005, China has adopted a managed floating exchange rate regime based on market demand and supply with reference to a basket of currencies. The exchange rate of the US dollar against the RMB was adjusted from approximately RMB 8.28 per US dollar to approximately RMB 8.11 per US dollar on July 21, 2005. Since then, the PBOC administers and regulates the exchange rate of US dollar against RMB taking into account demand and supply of RMB, as well as domestic and foreign economic and financial conditions.

In addition, there can be no assurance that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy other foreign exchange requirements in the future and we currently do not intend to pay dividends.

It may be difficult to effect service of process and enforcement of legal judgments upon our company and our officers and directors because some of them reside outside the United States.

Since part of our operations are presently based in China and some of our key directors and officers reside outside the United States, service of process on our key directors and officers may be difficult to effect within the United States. Also, some of our assets are located outside the United States and any judgment obtained in the United States against us may not be enforceable outside the United States. We have appointed Keith Wong, our Chief Executive Officer and President, as our agent to receive service of process in any action against our company in the United States.

ITEM 2.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS SECURITIES

There were no changes in securities and small business issuer purchase of equity securities during the period ended March 31, 2009 other than the issuance of 1,060,000 common shares to officers and consultants. We have sold or issued the following securities not registered under the Securities Act by reason of the exemption afforded under Section 4(2) of the Securities Act of 1933, within the last quarter. Except as stated below, no underwriting discounts or commissions were paid with respect to any of the following transactions. The offer and sale of the following securities was exempt from the registration requirements of the Securities Act under Rule 506 insofar as (1) except as stated below, each of the investors was accredited within the meaning of Rule 501(a); (2) the transfer of the securities were restricted by the company in accordance with Rule 502(d); (3) there were no more than 35 non-accredited investors in any transaction within the meaning of Rule 506(b), after taking into consideration all prior investors under Section 4(2) of the Securities Act within the twelve months preceding the transaction; and (4) none of the offers and sales were effected through any general solicitation or general advertising within the meaning of Rule 502(c).

ITEM 3.

DEFAULTS UPON SENIOR SECURITIES

There were no defaults upon senior securities during the period ended March 31, 2009.

ITEM 4.

SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to the vote of securities holders during the period ended March 31, 2009.

ITEM 5.

OTHER INFORMATION

None

ITEM 6.
