NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Except for per share amounts, dollar amounts in tables are in thousands unless otherwise indicated)

(Unaudited)

Note 1 Basis of Presentation

The accompanying consolidated financial statements and notes thereto have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been omitted. The accompanying consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in our 2007 Annual Report on Form 10-K. Terms such as we , our and us are sometimes used as abbreviated references to Pre-Paid Legal Services, Inc.

In our opinion, the accompanying unaudited financial statements as of June 30, 2008, and for the three month and six month periods ended June 30, 2008 and 2007, reflect adjustments (which were normal and recurring) which, in our opinion, are necessary for a fair statement of our financial position and results of operations of the interim periods presented. Results for the three month and six month periods ended June 30, 2008 are not necessarily indicative of results expected for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 Contingencies

On March 27, 2006 we received a complaint filed on March 24, 2006 by a former provider attorney law firm, Blackburn & McCune, PLLC, in Chancery Court of Davidson County, Tennessee seeking compensatory and punitive damages on the basis of allegations of breach of contract against the Company and our subsidiary Pre-Paid Legal Services, Inc. of Tennessee. On May 15, 2006 the trial court dismissed plaintiff s complaint in its entirety. Plaintiff filed a notice of appeal on June 13, 2006, and on August 24, 2007 the Court of Appeals reversed the ruling of the trial court and remanded the suit to the trial court for further proceedings. We filed a Petition for Rehearing which was denied on September 26, 2007. Discovery is ongoing. The ultimate outcome of this matter is not determinable.

On March 23, 2007 we received a Civil Investigative Demand from the Federal Trade Commission requesting information relating to our Identity Theft Shield and ADRS Program. We are working with the Federal Trade Commission to resolve the matter. The ultimate outcome of the matter is not determinable.

On December 7, 2006, we received a complaint filed on November 27, 2006 by an individual member, the Rockland Corp., in District Court in Dallas County, Texas seeking compensatory and punitive damages on the basis of negligent and fraudulent misrepresentations by us related to our referral of the member to an attorney to assist the member in the defense of a civil case. The attorney involved was not one of our regular provider attorneys. In July 2008, the parties mutually agreed to a confidential resolution of this case and the lawsuit will be dismissed with prejudice.

We are a defendant in various other legal proceedings that are routine and incidental to our business. We will vigorously defend our interests in all proceedings in which we are named as a defendant. We also receive periodic complaints or requests for information from various state and federal agencies relating to our business or the activities of our marketing force. We promptly respond to any such matters and provide any information requested.

Table of Contents

While the ultimate outcome of these proceedings is not determinable, we do not currently anticipate that these contingencies will result in any material adverse effect to our financial condition or results of operation, unless an unexpected result occurs in one of the cases. The costs of the defense of these various matters are reflected as a part of general and administrative expense, or Membership benefits if fees relate to Membership issues, in the consolidated statements of income. We have established an accrued liability we believe will be sufficient to cover estimated damages in connection with various cases (exclusive of ongoing defense costs which are expensed as incurred), which at June 30, 2008 was \$1.0 million. We believe that we have meritorious defenses in all pending cases and will vigorously defend against the plaintiffs' claims. However, it is possible that an adverse outcome in certain cases or increased litigation costs could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods.

Canadian taxing authorities are challenging portions of our commission and general and administrative deductions for tax years 1999-2002 and have tax assessments which aggregate \$5.7 million. The Canadian taxing authorities contend commission deductions should be matched with the membership revenue as received, we contend these commissions are deductible when paid. Under Canadian tax laws, our commission payments are treated as a prepaid expense. We base our deduction of commission on the fact that all the services (the sale of the membership) have been performed by the sales associate at the time of sale therefore this prepaid expense (the commission payments) is deductible when paid. Also, the commission payment is taxable to the sales associate when paid and each year we issue a T4 (Canadian 1099 equivalent) to sales associates for the total commission payments made during that year. In addition, Canadian taxing authorities have challenged our allocation of general and administrative expenses to Canadian operations. We contend the allocation of general and administrative expenses, based on the percentage of Canadian new memberships written and the Canadian percentage memberships in force, is reasonable. During July 2007 we received a settlement offer from the Canadian taxing authorities regarding the general and administrative deductions which would allow us to claim a deduction on the Canadian tax return for over 70% of these items. This settlement offer would allow us to deduct the remaining 30% of these items on our US federal tax returns. We accepted this offer during the fourth quarter of 2007 and filed amended US federal tax returns. Although we did meet with the Canadian taxing authorities during March 2008 to explain our position relative to commissions and in July 2008 submitted a letter summarizing our position, this issue is still outstanding. The Canadian taxing authorities would not permit us to file the amended Canadian tax returns to reflect the changes in our general and administrative expense. We have established an accrued liability we believe will be sufficient to cover the estimated tax assessment in connection with these items, which at June 30, 2008 was \$477,000. As stated above, we believe that we have reasonable basis for our tax position relative to these items, however, it is possible that an adverse outcome could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods.

Note 3 Treasury Stock Purchases

We announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of our common stock. The Board of Directors has increased such authorization from 500,000 shares to 14 million shares during subsequent board meetings. At June 30, 2008 we had purchased 13.3 million treasury shares under these authorizations for a total consideration of \$390.2 million, an average price of \$29.30 per share. We purchased and formally retired 343,409 shares of our common stock during the 2008 second quarter for \$14.9 million, or an average price of \$43.33 per share, reducing our common stock by \$3,434 and our retained earnings by \$14.9 million. See Note 6 below. Given the current interest rate environment, the nature of other investments available and our expected cash flows, we believe that purchasing treasury shares enhances shareholder value and may seek alternative sources of financing to continue or accelerate the program. Any additional treasury stock purchases will be made at prices that we consider attractive and at such times that we believe will not unduly impact our liquidity.

Table of Contents**Note 4 Earnings Per Share**

Basic earnings per common share are computed by dividing net income by the weighted average number of shares of common stock outstanding during the respective period. Diluted earnings per common share are computed by dividing net income by the weighted average number of shares of common stock and dilutive potential common shares outstanding during the respective period. The weighted average number of common shares is increased by the number of dilutive potential common shares issuable on the exercise of options less the number of common shares assumed to have been purchased with the proceeds from the exercise of the options pursuant to the treasury stock method; those purchases are assumed to have been made at the average price of the common stock during the respective period.

Options to purchase shares of common stock are excluded from the calculation of diluted earnings per share when their inclusion would have an anti-dilutive effect on the calculation. No options were excluded for the three month and six month periods ended June 30, 2008 and 2007.

Note 5 Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. We adopted SFAS 157 on January 1, 2008, as required for our financial assets and financial liabilities. However, the FASB deferred the effective date of SFAS 157 for one year as it relates to fair value measurement requirements for nonfinancial assets and nonfinancial liabilities that are not recognized or disclosed at fair value on a recurring basis. The adoption of SFAS 157 for our financial assets and financial liabilities did not have a material impact on our consolidated financial statements. We are evaluating the effect the implementation of SFAS 157 for our nonfinancial assets and nonfinancial liabilities will have on our consolidated financial statements. See Note 8 below.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits entities to choose to measure certain financial instruments and other eligible items at fair value when the items are not otherwise currently required to be measured at fair value. We adopted SFAS 159 effective January 1, 2008. Upon adoption, we did not elect the fair value option for any items within the scope of SFAS 159 and, therefore, the adoption of SFAS 159 did not have an impact on our consolidated

financial statements.

Table of Contents

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations (SFAS 141R). SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141R also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. This statement is effective for us beginning January 1, 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of Accounting Research Bulletin No. 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent s ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS 160 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. This statement is effective for us beginning January 1, 2009. We are currently evaluating the potential impact of the adoption of SFAS 160 on our consolidated financial position, results of operations or cash flows.

In September 2006, the FASB ratified EITF Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements (EITF 06-4). EITF 06-4 indicates that an employer should recognize a liability for future post-employment benefits based on the substantive agreement with the employee, and is effective for fiscal years beginning after December 15, 2007. The adoption of EITF 06-4 effective January 1, 2008 had no impact on our consolidated financial position and results of operation.

In March 2007, the FASB ratified Emerging Issues Task Force Issue No. 06-10 Accounting for Collateral Assignment Split-Dollar Life Insurance Agreements (EITF 06-10). EITF 06-10 provides guidance for determining a liability for the postretirement benefit obligation as well as recognition and measurement of the associated asset on the basis of the terms of the collateral assignment agreement. EITF 06-10 is effective for fiscal years beginning after December 15, 2007. The adoption of EITF 06-10 effective January 1, 2008 had no impact on our consolidated financial position and results of operation.

Note 6 Notes Payable

During 2006, we received \$80 million of senior, secured financing (the Senior Loan) from Wells Fargo Foothill, Inc. (Wells Fargo) consisting of a \$75 million five year term loan facility (the Term Facility) and a \$5 million five year revolving credit facility (the Revolving Facility). At June 30, 2008, we had the full Revolving Facility available to us. After payment of an origination fee of 1%, lender costs and retirement of \$15.3 million of existing bank indebtedness, the net proceeds of the Term Facility we received were \$58.8 million and used to purchase treasury stock.

The Term Facility provides for a five-year maturity and amortizes in monthly installments of \$1.25 million commencing August 1, 2006, with interest on the outstanding balances under the Term Facility and the Revolving Facility payable, at our option, at a rate equal to Wells Fargo base rate or at the 30 day LIBOR rate plus 150 basis points. The interest rate at June 30, 2008 was 3.96%. We are also obligated to make additional quarterly payments equal to 50% of our excess cash flow (as defined in the Senior Loan agreement) if our Leverage Ratio is greater than or equal to 1 to 1 at the end of a quarter. Our Leverage Ratio was 0.70 to 1 at June 30, 2008. We expect to be able to repay the facilities with cash flow from operations. We have the right to prepay the Term Facility in whole or in part, with a reduction of 50% of any prepayment premium if the prepayment is from the proceeds of another loan provided by Wells Fargo.

Table of Contents

The Senior Loan is guaranteed by our non-regulated wholly owned subsidiaries and is secured by all of our tangible and intangible personal property (other than aircraft), including stock in all of our direct subsidiaries, and a mortgage on a building we recently acquired in Duncan, Oklahoma and remodeled to relocate and expand our existing customer service facility in Duncan.

In addition to customary covenants for loans of a similar type, the principal covenants for the Senior Loan are:
 a limitation on incurring any indebtedness in excess of the remaining existing bank indebtedness outstanding and \$2.3 million in permitted capitalized leases or purchase money debt;

a limitation on our ability to pay dividends or make stock purchases, other than with the net proceeds of the Term Loan, unless we meet certain cash flow tests;

a prohibition on prepayment of other debt;

a requirement to maintain consolidated EBITDA (Earnings before Interest, Taxes, Depreciation and Amortization) for the twelve month period ending December 31, 2006 and each quarter thereafter of at least \$80 million (\$75 million for us and our top tier direct subsidiaries);

a requirement to maintain a quarterly fixed charge coverage ratio (EBITDA (with certain adjustments) divided by the sum of interest expense, income taxes and scheduled principal payments) of at least 1.1 to 1;

a requirement to maintain at least 1.3 million members;

a requirement to maintain a Leverage Ratio (funded indebtedness as of the end of each quarter divided by EBITDA for the trailing twelve months) of no more than 1.5 to 1; and

we must have availability (unused portion of the Revolving Facility) plus Qualified Cash (the amount of unrestricted cash and cash equivalents) greater than or equal to \$12,500,000.

an event of default occurs if Harland Stonecipher ceases to be our Chairman and Chief Executive Officer for a period of 120 days unless replaced with a person approved by Wells Fargo.

We were in compliance with these covenants at June 30, 2008.

Our \$20 million real estate loan was fully funded in 2002 to finance our new headquarters building in Ada, Oklahoma and has a final maturity of August 2011. This loan, with interest at the 30 day LIBOR rate plus 150 basis points adjusted monthly, is secured by a mortgage on our headquarters. The interest rate at June 30, 2008 was 3.96% with monthly principal payments of \$191,000 plus interest with the balance of approximately \$2.3 million due at maturity. The real estate loan's financial covenants conform to those of the Senior Loan.

During 2007, we entered into a term loan agreement with Wells Fargo Equipment Finance, Inc. to refinance \$9.6 million indebtedness related to our aircraft. This loan, with interest at the 30 day LIBOR rate plus 89 basis points adjusted monthly, is secured by a mortgage on the aircraft and engines. The interest rate at June 30, 2008 was 3.35% with monthly principal payments of \$80,000 plus interest.

During June 2008 we received additional financing from Bank of Oklahoma for \$10 million on an unsecured basis repayable in 12 equal monthly payments beginning June 30, 2008, together with interest at LIBOR plus 162.5 basis points. The interest rate at June 30, 2008 was 4.08% with monthly principal payments of \$833,000 plus interest.

Options exercisable as of June 30, 2008	\$ 20.43	52,500	2.17	\$ 1,060

Other information pertaining to option activity during the six months ended June 30, 2008 and 2007 was as follows:

	June 30, 2008	June 30, 2007
Weighted average grant-date fair value of stock options granted	Not applicable	Not applicable
Total fair value of stock options vested	Not applicable	Not applicable
Total intrinsic value of stock options exercised	\$ 201	\$ 2,587

Under our stock option plan, 1,346,252 shares of our Common Stock are available for issuance. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our Common Stock on the date the option was granted and no option has a term in excess of ten years. Additionally, options vested and became exercisable either on the grant date or up to five years from the option grant date.

Note 8 Fair Value Measurement

On January 1, 2008, we adopted SFAS No. 157, Fair Value Measurements, which defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. The Statement applies whenever other statements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for fiscal years beginning after November 15, 2007, except for nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis, for

which application has been deferred for one year.

Table of Contents

SFAS 157 established the following fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, listed equities and U.S. government treasury securities.

Level 2: Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Instruments in this category include non-exchange-traded derivatives such as over the counter forwards, options and repurchase agreements.

Level 3: Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value. At each balance sheet date, we perform an analysis of all instruments subject to SFAS No. 157 and include in Level 3 all of those whose fair value is based on significant unobservable inputs.

The following table presents our financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2008 by level within the fair value hierarchy (in thousands):

	Fair Value Measurements Using		
	Level 1	Level 2	Level 3
Available for sale investments	\$	\$ 36,663	\$
Liabilities	\$	\$	\$

For securities without a readily ascertainable market value (Level 2), we utilize pricing services and broker quotes. Such estimated fair values do not necessarily represent the values for which these securities could have been sold at the dates of the balance sheets.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the year ended December 31, 2007, which describes, among other things, our basic business model, critical accounting policies, measures of Membership retention, and basic cash flow characteristics of our business. The following tables set forth changes in the principal categories of revenues and expenses and Membership and recruiting activity for the second quarter of 2008 compared to the second quarter of 2007 and the first quarter of 2008 (Table amounts in 000's). The sum of the percentages in the tables may not total due to rounding.

Table of Contents**Results of Operations – Second Quarter of 2008 compared to Second Quarter of 2007**

Net income increased 14% for the second quarter of 2008 to \$15.1 million from \$13.2 million for the prior year's second quarter primarily due to an increase in membership fees of \$2.5 million and a decrease in commissions of \$3.0 million partially offset by an increase in Membership benefits of \$923,000, and increase in general and administrative expenses of \$378,000 and an increase in provision for income taxes of \$2.7 million. Diluted earnings per share increased 26% to \$1.25 per share from 99 cents per share for the prior year's comparable quarter due to the 14% increase in net income and an approximate 10% decrease in the weighted average number of diluted shares outstanding.

Membership fees totaled \$109.5 million during the 2008 second quarter compared to \$106.9 million for 2007, an increase of 2%. Membership fees and their impact on total revenues in any period are determined directly by the number of active Memberships in force during any such period and the monthly amount of such Memberships. The active Memberships in force are determined by both the number of new Memberships sold in any period together with the renewal rate of existing Memberships. New Membership sales decreased 8% during the three months ended June 30, 2008 to 134,446 from 146,165 during the comparable period of 2007. At June 30, 2008, there were 1,566,639 active Memberships in force compared to 1,559,570 at June 30, 2007, an increase of less than 1%. Additionally, the average annual fee per Membership has increased from \$296 for all Memberships in force at June 30, 2007 to \$300 for all Memberships in force at June 30, 2008, primarily as a result of a larger number of Identity Theft Shield memberships.

Associate services revenue increased by approximately \$335,000 to \$6.3 million, primarily due to increases in associate enrollment fees during the second quarter of 2008 when compared to the 2007 quarter. New associates enrolled were 26,102 during the 2008 period compared to 38,175 for the same period of 2007, and average enrollment fees paid by new sales associates increased from \$45 during the 2007 period to \$99 during the 2008 quarter due to a lower enrollment fee in place for most of the 2007 second quarter. The *eService* fees were unchanged at \$3.1 million for the second quarter of 2008 and 2007. Future revenues from associate services will depend primarily on the number of new associates enrolled, the price charged for the *Certified Field Trainer* program and the number who choose to participate in our *eService* program, but we expect that such revenues will continue to be offset by the direct and indirect cost to us of training, providing associate services and other direct marketing expenses.

Other revenue declined 5% from \$1.2 million for the 2007 period to \$1.1 million for the 2008 period.

Total revenues increased 2% to \$116.9 million for the three months ended June 30, 2008 from \$114.1 million during the comparable period of 2007 due to a \$2.5 million increase in Membership fees and a \$335,000 increase in associate services revenue.

Membership benefits totaled \$37.9 million for the three months ended June 30, 2008 compared to \$36.9 million for the comparable period of 2007, and represented 35% of Membership fees for both periods. This Membership benefit ratio (Membership benefits as a percentage of Membership fees) should be reduced going forward as substantially all active Memberships provide for a capitated cost and we have reduced the capitated cost of the Identity Theft plan benefits effective April 1, 2007, with subsequent additional reductions on January 1, 2008, 2009 and 2010. During the three months ended June 30, 2008 we did incur additional cost associated with the installation of improved communications equipment a portion of our provider firms. We expect to complete this installation in the remaining provider firms during the third quarter of 2008.

Table of Contents

Commissions to associates decreased 9% to \$31.2 million for the three months ended June 30, 2008 compared to \$34.2 million for the comparable period of 2007, and represented 32% and 29% of Membership fees for the 2007 and 2008 periods respectively. Commissions to associates are primarily dependent on the number of new Memberships sold during a period and the average fee of those Memberships. New Memberships sold during the second quarter of 2008 totaled 134,446 an 8% decrease from the 146,165 for 2007, and the add-on IDT Membership sales which are not included in these totals decreased 11% to 82,623 for the second quarter of 2008 from 92,382 for 2007. Our average Annual Membership fee written during the quarter of 2008 increased 1% to \$329.44 from \$326.04 for 2007. Our new Membership fees written during the second quarter of 2008 decreased 7% from 2007. Should we add additional commissions to our compensation plan or reduce the amount of chargebacks collected from our associates as we have from time to time, the commission cost per new Membership will increase accordingly.

Associate services and direct marketing expenses increased to \$7.0 million for the three months ended June 30, 2008 from \$6.7 million for the comparable period of 2007. The increase was primarily a result of increased costs for incentive trips and bonuses and decreased costs for materials sent to new associates due to the reduction in the number of new associates enrolled during the quarter. We offer the *Player's Club* incentive program to provide additional incentives to our associates as a reward for consistent, quality business. Associates can earn the right to receive additional monthly bonuses by meeting monthly qualification requirements for a 12 month period and maintaining certain personal retention rates for the Memberships sold during the 12 month period. These expenses also include the costs of providing associate services and marketing expenses.

General and administrative expenses during the three months ended June 30, 2008 and 2007 were \$13.8 million and \$13.4 million, respectively, and represented 13% of Membership fees for both periods. The \$400,000 increase in general and administrative expenses included increases in advertising, employee salaries and health care cost, consulting fee associated with PCI compliance and legal fees which were partially offset by decreases in bank services charges and state taxes.

Other expenses, net, which include depreciation and amortization, litigation accruals, interest expense and premium taxes reduced by interest income, were \$2.9 million for the three months ended June 30, 2008 compared to \$3.3 million for the 2007 comparable period. Depreciation expense was \$2.2 million for both periods. Interest expense decreased to \$807,000 during the 2008 period from \$1.8 million during the comparable period of 2007 as a result of the reduction in debt and lower interest rates. Litigation accruals decreased by \$37,000 for the second quarter of 2008 from the 2007 period due to decreased litigation reserve. Premium taxes increased from \$476,000 for the three months ended June 30, 2007 to \$478,000 for the comparable period of 2008. Interest income decreased \$655,000 to \$507,000 for the three months ended June 30, 2008 from \$1.2 million for the comparable period of 2007, due to a decrease in cash and investment balances and lower interest rates.

We have recorded a provision for income taxes of \$9.0 million (37.5% of pretax income) and \$6.4 million (32.5% of pretax income) for the three months ended June 30, 2008 and 2007, respectively. The increase in the tax rate for 2008 compared to 2007 is due to the inclusion of all income based taxes in the provision for income taxes and we expect the 2008 rate to be representative on a go forward basis.

Results of Operations - Second Quarter of 2008 compared to First Quarter of 2008

Second quarter 2008 membership fees increased \$396,000 to \$109.5 million from \$109.1 million for the first quarter of 2008. Associate services revenues increased during the 2008 second quarter by approximately \$260,000 to \$6.3 million from \$6.0 million for the 2008 first quarter and associate services and direct marketing expenses increased by \$1.4 million during the same period. Membership benefits totaled \$37.9 million in the second quarter of 2008 compared to \$37.3 million for the 2008 first quarter and represented 35% of membership fees for the second quarter and 34% for the first quarter. Commissions to associates totaled \$31.2 million in the 2008 second quarter compared to \$30.8 million for the 2008 first quarter and represented 29% and 28%, respectively, of membership fees for the two periods. General and administrative expenses increased during the 2008 second quarter to \$13.8 million compared to \$12.6 million for the 2008 first quarter and represented 13% and 12%, respectively, of membership fees for the two periods. The \$1.2 million increase in general and administrative expenses included increases in employee salaries and health care cost, consulting fee associated with PCI compliance and postage due to mailing of privacy statements which were partially offset by decreases in legal fees, telephone expenses and accounting fees.

Table of Contents**Results of Operations – First Six Months of 2008 compared to First Six Months of 2007**

Membership revenues increased 4% in the first six months of 2008 to a record \$218.5 million compared to \$210.8 million for the first six months of 2007. Net income increased 11% for the first six months of 2008 to \$31.0 million from \$27.9 million for the prior year's comparable period primarily due to the increase of \$7.7 million in membership fees and a \$2.8 million decrease in commissions partially offset by increases in Membership benefits expense of \$1.4 million, general and administrative expenses of \$205,000 and the provision for income taxes of \$5.3 million. Diluted earnings per share increased 23% to \$2.54 per share from \$2.07 per share for the prior year's comparable six month period due to the 11% increase in net income and an approximate 9% decrease in the weighted average number of diluted shares outstanding.

Membership fees and their impact on total revenues in any period are determined directly by the number of active Memberships in force during any such period. The active Memberships in force are determined by both the number of new Memberships sold in any period together with the renewal rate of existing Memberships. New Membership sales decreased 11% during the six months ended June 30, 2008 to 274,645 from 307,695 during the comparable period of 2007. At June 30, 2008, there were 1,566,639 active Memberships in force compared to 1,559,570 at June 30, 2007, an increase of less than 1%. Additionally, the average annual fee per Membership has increased from \$296 for all Memberships in force at June 30, 2007 to \$300 for all Memberships in force at June 30, 2008, primarily as a result of a larger number of Identity Theft Shield memberships.

Associate services revenue decreased 5% from \$13.0 million for the first six months of 2007 to \$12.3 million during the comparable period of 2008 due to a decrease in associate enrollment fees. Total new associates enrolled during the first six months of 2008 were 51,902 compared to 69,218 for the same period of 2007 and average enrollment fees paid by new sales associates increased from \$71 during the 2007 period to \$97 during the 2008 six months due to a higher enrollment fee in place for most of the 2008 period. The *eService* fees increased to \$6.2 million during the first six months of 2008 compared to \$6.0 million for the comparable period of 2007. Future revenues from associate services will depend primarily on the number of new associates enrolled, the price charged for the *Certified Field Trainer* program and the number who choose to participate in the Company's *eService* program, but the Company expects that such revenues will continue to be offset by the direct and indirect cost to the Company of training (including training bonuses paid), providing associate services and other direct marketing expenses.

Other revenue decreased \$99,000 from \$2.3 million for the six month period ending June 2007 to \$2.2 million for the same period of 2008.

Primarily as a result of the increase in Membership fees, total revenues increased to \$233.1 million for the six months ended June 30, 2008 from \$226.1 million during the comparable period of 2007 an increase of 3%.

Membership benefits totaled \$75.1 million for the six months ended June 30, 2008 compared to \$73.7 million for the comparable period of 2007, and represented 34% of Membership fees for 2008 and 35% for the 2007 period. This Membership benefit ratio (Membership benefits as a percentage of Membership fees) should be reduced going forward as substantially all active Memberships provide for a capitated cost and we have reduced the capitated cost of the Identity Theft plan benefits effective April 1, 2007 with subsequent additional reductions on January 1, 2008, 2009 and 2010. During the six months ended June 30, 2008 we did incur additional cost associated with the installation of improved communications equipment a portion of our provider firms. We expect to complete this installation in the remaining provider firms during the third quarter of 2008.

Table of Contents

Commissions to associates decreased 4% to \$62.0 million for the six months ended June 30, 2008 compared to \$64.8 million for the comparable period of 2007, and represented 28% and 31% of Membership fees for such periods. Commissions to associates are primarily dependent on the number of new Memberships sold during a period and the average fee of those Memberships. New Memberships sold during the first six months of 2008 totaled 274,645 an 11% decrease from the 307,695 for 2007, and the add-on IDT Membership sales which are not included in these totals decreased 12% to 163,886 for the second quarter of 2008 from 185,586 for 2007. Our average Annual Membership fee written during the first six months of 2008 increased 2% to \$325.37 from \$317.55 for 2007. Our new Membership fees written during the first six months of 2008 decreased 9% from 2007. Should we add additional commissions to our compensation plan or reduce the amount of chargebacks collected from its associates as it has from time to time, the commission cost per new Membership will increase accordingly.

Associate services and direct marketing expenses decreased to \$12.6 million for the six months ended June 30, 2008 from \$13.1 million for the comparable period of 2007. The decrease was primarily a result of fewer new associates enrolled during the six month period and decreased cost for incentive trips and bonuses. We offer the *Player's Club* incentive program to provide additional incentives to our associates as a reward for consistent, quality business. Associates can earn the right to receive additional monthly bonuses by meeting monthly qualification requirements for the entire calendar year and maintaining certain personal retention rates for the Memberships sold during the calendar year. These expenses also include the costs of providing associate services and marketing expenses.

General and administrative expenses during the six months ended June 30, 2008 and 2007 increased \$205,000 to \$26.3 million and \$26.1 million, respectively, and represented 12% of Membership fees for both periods. The \$200,000 increase in general and administrative expenses included increases in advertising, employee salaries and health care cost, consulting fee associated with PCI compliance and legal fees which were partially offset by decreases in bank services charges, telephone cost and state taxes.

Other expenses, net, which include depreciation and amortization, litigation accruals, interest expense and premium taxes reduced by interest income, was \$7.1 million for the six months ended June 30, 2008 compared to \$7.0 million for the 2007 comparable period. Depreciation increased to \$4.4 million for the first six months of 2008 from \$4.3 million for the comparable period of 2007. Litigation accruals increased by \$873,000 for the first six months of 2008 to \$888,000 from the 2007. Interest expense decreased to \$2.1 million during the 2008 period from \$3.6 million during the comparable period of 2007 as a result of lower indebtedness and lower interest rates. Premium taxes decreased from \$982,000 for the six months ended June 30, 2007 to \$900,000 for the comparable period of 2008. Interest income decreased \$675,000 million to \$1.2 million for the six months ended June 30, 2008 from \$1.9 million for the comparable period of 2007, due to decreased cash and investment balances and lower interest rates.

We have recorded a provision for income taxes of \$18.9 million (37.8% of pretax income) and \$13.6 million (32.7% of pretax income) for the first six months ended June 30, 2008 and 2007, respectively. The increase in the tax rate for 2008 compared to 2007 is due to the inclusion of all income based taxes in the provision for income taxes and we expect the 2008 rate to be representative on a go forward basis.

Liquidity and Capital Resources*General*

Net cash flow provided by operating activities was \$27.7 million for the six months ended June 30, 2008 compared to \$34.9 million for the same period in 2007. This \$7.2 million decrease was primarily the result of a \$8.7 million increase in cash receipts from our members, a \$1.4 million decrease in cash paid for interest and a \$1.8 million decrease in cash paid to our associates for commissions, offset by a \$1.5 million increase in cash paid to our providers for the delivery of benefits and a \$14.6 million increase in income tax payments.

Table of Contents

Consolidated net cash used by investing activities was \$1.9 million for the first six months of 2008 compared to net cash provided of \$5.1 million for the comparable period of 2007. This \$7.0 million change in investing activities resulted from a \$1 million decrease in additions to property and equipment and a \$91.1 million decrease in the maturities and sales of investments partially offset by an \$85.1 million decrease in investment purchases.

Net cash used in financing activities during the first six months of 2008 was \$27.5 million compared to \$33.9 million for the comparable period of 2007. This \$6.4 million change was primarily comprised of the \$10 million increase in debt proceeds partially offset by the \$735,000 increase in debt repayments and the \$2.7 million increase in purchases of treasury stock.

We purchased and formally retired 622,985 shares of our common stock during the first half of 2008 for \$27.8 million, or an average price of \$44.56 per share, reducing our common stock by \$6,230 and our retained earnings by \$27.8 million. We had negative working capital of \$14.2 million at June 30, 2008, a decrease of \$11.2 million compared to our negative working capital of \$3.0 million at December 31, 2007. The decrease was primarily due to a \$1.8 million decrease in cash and cash equivalents, a \$5.6 million decrease in income taxes payable and a \$7.9 million decrease in the current portion of available-for-sale investments partially offset by an increase of \$1 million in deferred revenue and fees and a \$9.2 million increase in the current portion of notes payable. The \$14.2 million negative working capital at June 30, 2008 would have been a \$1.4 million negative working capital excluding the current portion of deferred revenue and fees in excess of the current portion of deferred member and associate service costs. These amounts will be eliminated by the passage of time without the utilization of other current assets or us incurring other current liabilities. We do not expect any difficulty in meeting our financial obligations in the next 12 months.

At June 30, 2008 we reported \$55.7 million in cash and cash equivalents and unpledged investments compared to \$58.9 million at December 31, 2007. Our investments typically consist of certificates of deposit, investment grade (rated Baa or higher) bonds primarily issued by corporations and the United States Treasury, auction rate certificates and state and municipal tax-exempt bonds.

We generally advance significant commissions at the time a Membership is sold. During the six months ended June 30, 2008, we advanced commissions, net of chargebacks, of \$58.6 million on new Membership sales compared to \$61.9 million for the same period of 2007. Since approximately 95% of Membership fees are collected on a monthly basis, a significant cash flow deficit is created on a per Membership basis at the time a Membership is sold. Since there are no further commissions paid on a Membership during the advance period, we typically derive significant positive cash flow from the Membership over its remaining life.

We expense advance commissions ratably over the first month of the related Membership. As a result of this accounting policy, our commission expenses are all recognized over the first month of a Membership and there is no commission expense recognized for the same Membership during the remainder of the advance period. We track our unearned advance commission balances outstanding in order to ensure the advance commissions are recovered before any renewal commissions are paid and for internal purposes of analyzing our commission advance program. While not recorded as an asset, unearned advance commission balances from associates as of June 30, 2008, and related activity for the six month period then ended, were:

	(Amounts in 000 s)
Beginning unearned advance commission payments (1)	\$ 184,531
Advance commission payments, net	58,607
Earned commissions applied	(64,015)
Advance commission payment write-offs	(1,729)
Ending unearned advance commission payments before estimated unrecoverable payments (1)	177,394
Estimated unrecoverable advance commission payments (1)	(43,676)
Ending unearned advance commission payments, net (1)	\$ 133,718

- (1) These amounts do not represent fair value, as they do not take into consideration timing of estimated recoveries.

Table of Contents

The ending unearned advance commission payments, net, above includes net unearned advance commission payments to non-vested associates of \$59.7 million. As such, at June 30, 2008 future commission payments and related expense should be reduced as unearned advance commission payments of \$74 million are recovered. Commissions are earned by the associate as Membership premiums are earned by us, usually on a monthly basis. For additional information concerning these commission advances, see our Annual report on Form 10-K under the heading *Commissions to Associates* in Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations.

We believe that we have significant ability to finance any future growth in Membership sales based on our recurring cash flow and existing amount of cash and cash equivalents and unpledged investments at June 30, 2008 of \$55.7 million. We expect to maintain cash and investment balances, including pledged investments, on an on-going basis of approximately \$20 to \$30 million in order to meet expected working capital needs and regulatory capital requirements. Cash balances in excess of this amount would be used for discretionary purposes such as additional treasury stock purchases subject to limitations in the Term Facility.

Notes Payable

See Note 6 - Notes Payable in Item 1 above.

Parent Company Funding and Dividends

Although we are the operating entity in many jurisdictions, our subsidiaries serve as operating companies in various states that regulate Memberships as insurance or specialized legal expense products. The most significant of these wholly owned subsidiaries are Pre-Paid Legal Casualty, Inc. (PPLCI), Pre-Paid Legal Services Inc. of Florida (PPLSIF) and Legal Service Plans of Virginia, Inc. (LSPV). The ability of these entities to provide funds to us is subject to a number of restrictions under various insurance laws in the jurisdictions in which they conduct business, including limitations on the amount of dividends and management fees that may be paid and requirements to maintain specified levels of capital and reserves. In addition PPLCI will be required to maintain its stockholders' equity at levels sufficient to satisfy various state or provincial regulatory requirements, the most restrictive of which is currently \$3 million. Additional capital requirements of these entities, or any of our regulated subsidiaries, will be funded by us in the form of capital contributions or surplus debentures. At June 30, 2008, none of these entities had funds available for payment of substantial dividends without the prior approval of the insurance commissioner. We received a \$1.6 million dividend from LSPV during March 2008 and a \$7.4 million dividend from PPLCI during April 2008.

Contractual Obligations

There have been no material changes outside of the ordinary course of business in our contractual obligations from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007, other than the incurrence of \$10 million in unsecured indebtedness in June 2008 to purchase additional shares of treasury stock which is repayable in equal monthly principal installments over the following 12 months with interest at LIBOR plus 162.5 basis points.

Critical Accounting Policies

Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management's application of accounting policies. If these estimates or assumptions are incorrect, there could be a material change in our financial condition or operating results. Many of these critical accounting policies are common in the insurance and financial services industries; others are specific to our business and operations. Our critical accounting policies include estimates relating to revenue recognition related to Membership and associate fees, deferral of Membership and associate related costs, expense recognition related to commissions to associates, accrual of incentive awards payable and accounting for legal contingencies. Each of these accounting policies and the application of critical accounting policies and estimates was discussed in our Annual Report on Form 10-K for the year ended December 31, 2007. There were no significant changes in the application of critical accounting policies or estimates during the first six months of 2008. We are not aware of any reasonably likely events or circumstances which would result in different amounts being reported that would materially affect our financial condition or results of operations.

Table of Contents

Capital and Dividend Plans

We continue to evaluate the desirability of additional share repurchases and additional cash dividends. We declared dividends of \$0.50 per share during 2004 and \$0.60 per share during 2005 and have previously announced that we will continue share repurchases, pay a dividend, or both, depending on our financial condition, available resources and market conditions, as well as compliance with our various loan covenants which limit our ability to repurchase shares or pay cash dividends. We expect to continue our open market repurchase program when we can acquire shares at prices we believe are attractive as we have existing authorization from the Board to purchase an additional 684,889 shares. We also continue to evaluate additional sources of financing that may enable us to accelerate the repurchase program at prices we believe are attractive.

Forward-Looking Statements

All statements in this report other than purely historical information, including but not limited to, statements relating to our future plans and objectives, expected operating results and the assumptions on which such forward-looking statements are based, constitute Forward-Looking Statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on our historical operating trends and financial condition as of June 30, 2008 and other information currently available to management. We caution that the Forward-Looking Statements are subject to all the risks and uncertainties incident to our business, including but not limited to risks described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2007. Moreover, we may make acquisitions or dispositions of assets or businesses, enter into new marketing arrangements or enter into financing transactions. None of these can be predicted with certainty and, accordingly, are not taken into consideration in any of the Forward-Looking Statements made herein. For all of the foregoing reasons, actual results may vary materially from the Forward-Looking Statements. We assume no obligation to update the Forward-Looking Statements to reflect events or circumstances occurring after the date of the statement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our consolidated balance sheets include a certain amount of assets and liabilities whose fair values are subject to market risk. Due to our significant investment in fixed-maturity investments, interest rate risk represents the largest market risk factor affecting our consolidated financial position. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by the creditworthiness of the issuer, prepayment options, relative values of alternative investments, liquidity of the instrument and other general market conditions.

As of June 30, 2008, substantially all of our investments consist of common stocks, investment grade (rated Baa or higher) bonds primarily issued by corporations, the United States Treasury, federal agencies, federally sponsored agencies and enterprises as well as mortgage-backed securities, auction rate certificates and state and municipal tax-exempt bonds. We do not hold any investments classified as trading account assets or derivative financial instruments.

The table below summarizes the estimated effects of hypothetical increases and decreases in interest rates on our fixed-maturity investment portfolio. It is assumed that the changes occur immediately and uniformly, with no effect given to any steps that we might take to counteract that change.

Table of Contents

The hypothetical changes in market interest rates reflect what could be deemed best and worst case scenarios. The fair values shown in the following table are based on contractual maturities. Significant variations in market interest rates could produce changes in the timing of repayments due to prepayment options available. The fair value of such instruments could be affected and, therefore, actual results might differ from those reflected in the following table:

	(In 000 s)	Hypothetical change in interest rate	Estimated fair value after hypothetical change in interest rate
	Fair value	(bp = basis points)	
Fixed-maturity investments at June 30, 2008 (1)	\$ 28,960	100 bp increase	\$ 27,390
		200 bp increase	25,970
		50 bp decrease	29,728
		100 bp decrease	30,495
Fixed-maturity investments at December 31, 2007 (1)	\$ 33,692	100 bp increase	\$ 32,307
		200 bp increase	31,019
		50 bp decrease	34,310
		100 bp decrease	34,928

(1) Excluding short-term investments with a fair value of \$7.7 million (Certificates of deposit and auction rate securities) at June 30, 2008 and \$4.5 million at December 31, 2007.

The table above illustrates, for example, that an instantaneous 200 basis point increase in market interest rates at June 30, 2008 would reduce the estimated fair value of our fixed-maturity investments by

approximately \$3.0 million at that date. At December 31, 2007, an instantaneous 200 basis point increase in market interest rates would have reduced the estimated fair value of our fixed-maturity investments by approximately \$2.7 million at that date. The definitive extent of the interest rate risk is not quantifiable or predictable due to the variability of future interest rates, but we do not believe such risk is material.

We primarily manage our exposure to investment interest rate risk by purchasing investments that can be readily liquidated should the interest rate environment begin to significantly change.

As of June 30, 2008, we had \$73.8 million in notes payable outstanding at interest rates indexed to the 30 day LIBOR rate that exposes us to the risk of increased interest costs if interest rates rise. Assuming a 100 basis point increase in interest rates on the floating rate debt, annual interest expense would increase by approximately \$738,000. As of June 30, 2008, we had not entered into any interest rate swap agreements with respect to the term loans or our floating rate municipal bonds.

Foreign Currency Exchange Rate Risk

Although we are exposed to foreign currency exchange rate risk inherent in revenues, net income and assets and liabilities denominated in Canadian dollars, the potential change in foreign currency exchange rates is not a substantial risk, as approximately 1% of our revenues are derived outside of the United States. As reflected in the attached Consolidated Statements of Comprehensive Income, we have recorded positive foreign currency translation adjustments of \$111,000 for the three months ended June 30, 2008 and have a cumulative positive foreign currency translation adjustment balance of \$1.3 million at June 30, 2008. These amounts are subject to change dynamically in conjunction with the relative values of the Canadian and U.S. dollars.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2008, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Table of Contents

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS.**

See Note 2 of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report for information with respect to legal proceedings.

ITEM 1A. RISK FACTORS

There are a number of risk factors that could affect our financial condition or results of operations. See Note 2 in Part 1, Item 1 Contingencies and Part II, Item 1 Legal Proceedings. Please refer to page 14 and 15 of our 2007 Annual Report on Form 10-K for a description of other risk factors. There have not been any material changes in the risk factors disclosed in the Annual Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**Issuer Purchases of Equity Securities**

The following table provides information about our purchases of stock in the open market during the second quarter of 2008.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
April 2008	5,288	\$ 45.97	5,288	1,023,010
May 2008	226,922	43.19	226,922	796,088
June 2008	111,199	43.49	111,199	684,889
Total	343,409	\$ 43.33	343,409	

(1) We announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of our common stock in the open market. The Board of Directors has

subsequently
from time to
time increased
such
authorization
from 500,000
shares to
14 million
shares. The
most recent
authorization
was for
1 million
additional
shares on
March 7, 2008
and there has
been no time
limit set for
completion of
the repurchase
program.

See Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operation-Liquidity and Capital Resources for a description of loan covenants that limit our ability to repurchase shares and pay dividends.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

The 2008 Annual Meeting of Shareholders of the Company (the Annual Meeting) was held on May 21, 2008. The following matters were submitted to a vote of the Company s shareholders at the Annual Meeting.

Proposal 1 Election of Directors.

The results of the election for the director were as follows:

	Votes For	Abstentions and Votes Withheld
Martin H. Belsky	10,626,533	463,255
Harland C. Stonecipher	10,955,963	133,826

Our Board of Directors currently consists of seven members and is divided into three classes as nearly equal in size as possible, with the term of office of one class expiring each year. The new terms of service of Messrs. Belsky and Stonecipher will expire in 2011. The terms of the other five directors of the Company did not expire at the Annual Meeting. The names of such other directors and the year of expiration of their respective terms are as follows: John W. Hail 2009 and Thomas W. Smith 2009; Orland G. Aldridge 2010, Peter K. Grunebaum 2010 and Duke R. Ligon. 2010.

Proposal 2 Ratify the selection of Grant Thornton LLP as our independent registered public accounting firm.
