**(a Development Stage Company)**

**Notes**

**Note 1 - Basis of presentation**

The interim financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these consolidated interim financial statements be read in conjunction with the financial statements of the Company for the year ended December 31, 2006 and notes thereto. The Company follows the same accounting policies in the preparation of interim reports.

Results of operations for the interim periods are not indicative of annual results.

**Note 2 - History and organization of the company**

The Company was organized October 6, 2005 (Date of Inception) under the laws of the State of Nevada, as Excalibur Enterprises, Ltd. The Company is authorized to issue up to 200,000,000 shares of its common stock with a par value of \$0.001 per share.

The business of the Company is to sell gift baskets to real estate and health care professionals and institutions. The Company has limited operations and in accordance with Statement of Financial Accounting Standards No. 7 (SFAS #7), Accounting and Reporting by Development Stage Enterprises, the Company is considered a development stage company.

**Note 3 - Going concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has incurred a net loss of (\$9,311) for the period from October 6, 2005 (inception) to September 30, 2007, and had no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its new business opportunities.

The Company is contemplating a public offering of its equity securities to obtain operating capital. In the event additional capital is required or if the offering is unsuccessful, the President of the Company has agreed to provide funds as a loan over the next twelve-month period, as may be required. However, the Company is dependent upon its ability, and will continue to attempt, to secure equity and/or debt financing. There are no assurances that the Company will be successful and without sufficient financing it would be unlikely for the Company to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

### Management's Discussion and Plan of Operation

We were incorporated in the State of Nevada on October 6, 2005. We are focused on selling specialty gift baskets to health care professionals, organizations and patients, as well as real estate agents and firms. We are a development stage company. Our operations have been devoted primarily to startup and development activities, which include the formation of our corporate identity, obtaining capital through sales of our common stock and reserving a web domain name and developing a website at [www.ExcaliberStore.com](http://www.ExcaliberStore.com).

In order to pursue our stated objective and commence our planned principal operations, our management has designated the following as our priorities for the next six to 12 months:

1.

*Developed and published our website:* We have reserved the domain name [www.ExcaliberStore.com](http://www.ExcaliberStore.com) and are working to develop content to publish on the website. We expect to operate as an online business, whereby all of our marketing and sales efforts will be conducted via the Internet and the website will be the sole method through which we will realize sales. Thus, we believe this site is critical to reaching prospective customers and for generating

awareness of our brand. Our website is not currently functional. Without a website, we will be unable to generate brand awareness or revenues.

2.

*Introduce a catalog of gift baskets:* Our business is based upon selling specialty gift baskets designed and assembled by our President, Stephanie Jones. To begin to generate revenues and establish a base of operations, we must develop a sufficient catalog of potential gift basket arrangements targeting the real estate and healthcare market segments. To date, we do not have any proposed or finalized gift baskets and do not have any ability to generate sales. Until we have saleable products, we will be unable to begin to generate revenues.

3.

*Identify product manufacturers and suppliers:* Our specialty gift baskets will be assembled by our management, using products purchased from third-party manufacturers and suppliers. We expect to rely solely upon the efforts of outside sources to develop and manufacture all products. We do not intend to manufacture any products internally. In order to obtain saleable merchandise, we must identify potential manufacturers and suppliers of baskets and the various merchandise we plan to insert in the gift basket. To date, we have not identified or contacted any manufacturers or suppliers.

4.

*Devise a marketing strategy:* We believe that generating awareness of our company will drive consumers to our website. In order to do so, we must develop and implement an effective promotional strategy. We intend to utilize search engine placement, banner advertisements and link placement relationships to increase the visibility of our website, once it is operational. We currently have no marketing strategies in place and our website is still in the development stage.

Since our inception on October 6, 2005 to September 30, 2007, we did not generate any revenues and have incurred various general and administrative costs related to the costs of start-up operations and the execution of our business. To date, general and administrative expenses mainly consist of office expenditures and accounting and legal fees. During the three month period ended September 30, 2007, we spent a total of \$1,534 in general and administrative costs. In the comparable year ago three month period ended September 30, 2006, we incurred \$6 in general and administrative costs.

In the nine months ended September 30, 2007, total operating expenses were \$3,850, applicable solely to general and administrative expenses. In contrast, total operating expenses during the year ago nine month period ended September 30, 2006 were \$5,006, all of which can be considered general and administrative expenses. No development related expenses have been or will be paid to our affiliates. Since our inception, we have incurred aggregate operating expenses in the amount of \$9,281, all of which are general and administrative expenses. We expect to continue to incur general and administrative expenses for the foreseeable future, although we cannot estimate the extent of these costs.

As a result of our lack of revenues and incurring ongoing expenses related to the implementation of our business, we have experienced net losses in all periods since our inception. In the three month period ended September 30, 2007, our net loss totaled \$1,534, compared to a net loss of \$6 in the prior period ended September 30, 2006. During the nine months ended September 30, 2007, our net loss was \$3,880, compared to a net loss of \$5,006 in the year ago nine month period ended September 30, 2006. Since our inception, we have accumulated net losses in the amount of \$9,311. We anticipate incurring ongoing operating losses and cannot predict when, if at all, we may expect these losses to plateau or narrow. There is significant uncertainty projecting future profitability due to our history of losses, lack of revenues, and due to our reliance on the performance of third parties on which we have no direct control.

We believe that our cash on hand as of September 30, 2007, in the amount of \$1,029, is not sufficient to maintain our current minimal level of operations for the next approximately 12 months. We are seeking to raise a minimum of \$35,000 and a maximum of \$75,000 in a public offering of our common stock. It is anticipated that we will be able to initiate establishing a base of operations with at least the minimum amount sought in this offering. In the event we are unable to raise at least the minimum amount of \$35,000, we may be unable to conduct any operations and may consequently go out of business. There are no formal or informal agreements to attain such financing. We can not assure you that any financing can be obtained or, if obtained, that it will be on reasonable terms. Without realization of additional capital, it would be unlikely for us to continue as a going concern.

In addition to raising capital through sales of our common equity, generating revenues from sales of our proposed business of selling gift baskets via the Internet in the next six to 12 months is important to support our planned ongoing operations. Generating sales is imperative for us to support our operations and to continue as a going concern. We believe that we will be required to generate a minimum of approximately \$15,000 in revenues over the next 12 months in order for us to support ongoing operations. However, we cannot guarantee that we will generate such sales. In order to achieve our goal of generating \$15,000 in revenues over the next 12 months, our management believes we must create and implement a marketing strategy. In the next six months, we expect to implement a promotional strategy to generate awareness of our brand and proposed products. We have reserved the domain [www.ExcaliberStore.com](http://www.ExcaliberStore.com), which will serve as our base of operations. The site is anticipated to be our primary store-front, through which we will market, sell and distribute all merchandise. Once we have established our website and enabled e-commerce capabilities, it is expected to serve as our primary method of generating sales. Currently, the site is in development and is not operational.

Our management does not anticipate the need to hire additional full- or part- time employees over the next 12 months, as the services provided by our current officers and directors appear sufficient at this time. Our officers and directors work for us on a part-time basis, and are prepared to devote additional time, as necessary. We do not expect to hire any additional employees over the next 12 months.

Our management does not expect to incur research and development costs.

We do not have any off-balance sheet arrangements.

We currently do not own any significant plant or equipment that we would seek to sell in the near future.

We have not paid for expenses on behalf of our directors. Additionally, we believe that this fact shall not materially change.

We currently do not have any material contracts and or affiliations with third parties.

There are no known trends, events or uncertainties that have had or that are reasonably expected to have a material impact on our revenues from continuing operations.

### **Controls and Procedures**

We maintain a set of disclosure controls and procedures designed to ensure that information required to be disclosed by us in our reports filed under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that this information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Based upon their evaluation as of the end of the period covered by this report, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are not effective to ensure that information required to be included in our periodic SEC filings is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms.

Our board of directors was advised by Weaver and Martin, LLC., our independent registered public accounting firm, that during their performance of audit procedures, Weaver and Martin, LLC., identified a material weakness as defined in Public Company Accounting Oversight Board Standard No. 2 in our internal control over financial reporting.

This deficiency consisted primarily of inadequate staffing and supervision that could lead to the untimely identification and resolution of accounting and disclosure matters and failure to perform timely and effective reviews. However, our size prevents us from being able to employ sufficient resources to enable us to have adequate segregation of duties within our internal control system. Management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

**PART II - OTHER INFORMATION**

**Unregistered Sales of Equity Securities**

On September 22, 2006, we issued 5,000,000 shares of our common stock to Stephanie Y. Jones, our founding shareholder and an officer and director. This sale of stock did not involve any public offering, general advertising or solicitation. The shares were issued in exchange for services performed by the founding shareholder on our behalf in the amount of \$5,000. Mrs. Jones received compensation in the form of common stock for performing services related to the formation and organization of our Company, including, but not limited to, designing and implementing a business plan and providing administrative office space for use by the Company; thus, these shares are considered to have been provided as founder's shares. Additionally, the services are considered to have been donated, and have resultantly been expensed and recorded as a contribution to capital. At the time of the issuance, Mrs. Jones had fair access to and was in possession of all available material information about our company, as is the President and a director of Excaliber Enterprises, Ltd. The shares bear a restrictive transfer legend. On the basis of these facts, we claim that the issuance of stock to our founding shareholder qualifies for the exemption from registration contained in Section 4(2) of the Securities Act of 1933.

On September 25, 2006, we sold 100,000 shares of our common stock to Nicole Jones, sister-in-law of our founding shareholder, Stephanie Jones. The shares were issued for total cash in the amount of \$5,000. The shares bear a restrictive transfer legend. At the time of the issuance, Mrs. Nicole Jones had fair access to and was in possession of all available material information about our company, as she is the sister-in-law of the president and director of Excaliber Enterprises, Ltd. The shares bear a restrictive transfer legend. On the basis of these facts, we claim that the issuance of stock to our founding shareholder qualifies for the exemption from registration contained in Section 4(2) of the Securities Act of 1933.
