DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Discovery Communications, Inc. (“Discovery” or the “Company”) is a global media company that provides content across distribution platforms, including through digital distribution arrangements. The Company also develops and sells curriculum-based education products and services. The Company classifies its operations in three segments: U.S. Networks, consisting of domestic television networks, websites, and digital distribution arrangements; International Networks, consisting of international television networks, radio and websites; and Education, consisting of educational curriculum-based product and service offerings. Financial information for Discovery’s reportable segments is discussed in Note 16.

Basis of Presentation

The consolidated financial statements include the accounts of Discovery and its majority-owned subsidiaries in which a controlling interest is maintained. Inter-company accounts and transactions between consolidated entities have been eliminated in consolidation.

Reclassifications

Beginning January 1, 2013, the Company reclassified losses from equity method investees, net from other income (expense), net to a separate line on the consolidated statement of operations for all periods presented.

Unaudited Interim Financial Statements

These consolidated financial statements are unaudited; however, in the opinion of management, they reflect all adjustments consisting only of normal recurring adjustments necessary to state fairly the financial position, results of operations and cash flows for the periods presented in conformity with U.S. generally accepted accounting principles (“GAAP”) applicable to interim periods. The results of operations for the interim periods presented are not necessarily indicative of results for the full year or future periods. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in Amendment No. 1 to Discovery’s Annual Report on Form 10-K for the year ended December 31, 2012 (the “2012 Form 10-K”).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates, judgments and assumptions that affect the amounts and disclosures reported in the consolidated financial statements and accompanying notes. Management continually re-evaluates its estimates, judgments and assumptions, and management’s assessments could change. Actual results may differ from those estimates.

Significant estimates inherent in the preparation of the consolidated financial statements include accounting for asset impairments, revenue recognition, allowances for doubtful accounts, content rights, depreciation and amortization, business combinations, equity-based compensation, income taxes, other financial instruments, contingencies, and the determination of whether the Company is the primary beneficiary of entities in which it holds variable interests.

Accounting and Reporting Pronouncements Adopted

Offsetting Assets and Liabilities

In January 2011, the Financial Accounting Standards Board (“FASB”) issued guidance expanding the disclosure requirements for financial instruments that are offset in the balance sheet or subject to a master netting arrangement or similar agreement. In January 2013, the FASB issued additional guidance clarifying that the scope of the guidance applies only to derivatives, repurchase agreements and reverse purchase agreements, and securities borrowing and securities lending transactions. The adoption of the new guidance, effective January 1, 2013, did not have a material impact on the Company’s consolidated financial statements. (See Note 7.)

Comprehensive Income

In January 2013, the FASB amended its guidance on the presentation of comprehensive income. Under the amended guidance, an entity must present information regarding reclassification adjustments from accumulated other comprehensive

10

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

income in a single note or on the face of the financial statements. This is required for both annual and interim reporting. The Company retrospectively adopted the new guidance effective January 1, 2013 and elected to present reclassification adjustments from accumulated other comprehensive income in a single note. (See Note 9.)

Accounting and Reporting Pronouncements Not Yet Adopted

Presentation of Unrecognized Tax Benefits

In July 2013, the FASB issued guidance stating that a liability related to an unrecognized tax benefit should be offset against a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. The new guidance is effective on a prospective basis for annual and interim periods beginning after December 15, 2013, but early adoption and retrospective application are permitted. The Company is assessing the impact of this guidance on its consolidated financial statements.

Concentrations Risk

Customers

The Company has long-term contracts with distributors, including the largest distributors in the U.S. and major international distributors. The U.S. Networks' top 10 distributors generate approximately 90% of the segment's distribution revenue. The International Networks' top 10 distributors generate approximately 50% of the segment's distribution revenue. Agreements in place with the major cable and satellite operators in the U.S. expire at various times beginning in 2013 through 2020. Negotiations to renew agreements with distributors can be contentious and, in some cases, those negotiations may not be completed prior to the end of the existing contract. Upon expiration of a contract, the Company may cease providing service to the distributor or the distributor may cease carriage of the Company's content. Although the Company intends to renew its agreements with its distributors, a delay in securing a renewal that results in a service disruption, a failure to secure a renewal, or a renewal on less favorable terms may have a material adverse effect on the Company's financial condition and results of operations. Not only could the Company experience a reduction in affiliate revenue, but it could also experience a reduction in advertising revenue which is impacted by affiliate subscriber levels.

No individual customer accounted for more than 10% of total consolidated revenues for the three and nine months ended September 30, 2013 or 2012. The Company's trade receivables do not represent a significant concentration of credit risk as of September 30, 2013 or December 31, 2012 due to the variety of customers and their dispersion across many geographic areas.

Financial Institutions

Cash and cash equivalents are maintained with several financial institutions. The Company has deposits held with banks that exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed on demand and are maintained with financial institutions of reputable credit and, therefore, bear minimal credit risk.

Lender Counterparties

There is a risk that the counterparties associated with the Company's revolving credit facility will not be available to fund as obligated under the terms of the facility. If funding under the revolving credit facility is unavailable, the Company may have to acquire a replacement credit facility from different counterparties at a higher cost or may be unable to find a suitable replacement. Typically, the Company seeks to manage these exposures by contracting with experienced large financial institutions and monitoring the credit quality of its lenders. As of September 30, 2013, the Company did not anticipate nonperformance by any of its counterparties.

NOTE 2. ACQUISITIONS AND DISPOSITIONS

Acquisitions

SBS Nordic

On April 9, 2013, the Company acquired the general entertainment television and radio business operations ("SBS Nordic") of Prosiebensat.1 Media AG for cash of approximately \$1.8 billion (€1.4 billion) including closing purchase price adjustments. SBS Nordic has operations in Sweden, Norway, Denmark, Finland and England. The acquisition of SBS Nordic supports the Company's strategic priority of increasing its presence in key international markets and is a component of the Company's International Networks segment.

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The Company used discounted cash flow ("DCF") analyses, which represent Level 3 fair value measurements, to assess the components of its preliminary purchase price allocation. The table below presents the preliminary fair value allocation of the purchase price to the assets and liabilities acquired (in millions).

	April 9, 2013	
Goodwill	\$763	
Intangible assets	1,001	
Content	248	
Other net assets acquired	203	
Cash	106	
Liabilities assumed	(262))
Deferred tax liabilities	(238))
Noncontrolling interests	(2))
Net assets acquired	\$1,819	

The goodwill reflects the workforce, synergies and increased Nordic region market penetration expected from combining the operations of SBS Nordic and the Company. The goodwill recorded as part of this acquisition is not amortizable for tax purposes. The assignment of goodwill to reporting units has not been completed as of the date of these financial statements. Intangible assets primarily consist of broadcast licenses, distribution and advertising customer relationships, advertiser backlog and television and radio trademarks with a weighted average estimated useful life of 8 years. The Company's process of identifying the assets acquired and the liabilities assumed and determining their fair values is not complete as of the date of this filing, principally with respect to intangible assets and income taxes.

Discovery Japan

On January 10, 2013, the Company purchased an additional 30% of Discovery Japan for \$53 million. Discovery Japan operates Discovery Channel and Animal Planet in Japan. As of December 31, 2012, Discovery and Jupiter Telecommunications Co., Ltd ("J.COM") each owned a 50% interest in Discovery Japan, and Discovery accounted for its 50% interest using the equity method of accounting. Discovery consolidated Discovery Japan on January 10, 2013 and recognized a gain of \$92 million to account for the difference between the carrying value and the fair value of the previously held 50% equity interest. The gain is included in other income (expense), net in the Company's consolidated statements of operations (see Note 13). The Company used a combination of a DCF analysis and market-based valuation methodologies, which represent Level 3 fair value measurements, to measure the fair value of Discovery Japan and to perform its preliminary purchase price allocation. The preliminary purchase price allocation is not complete principally with respect to income taxes.

The table below presents the preliminary allocation of the purchase price to the assets and liabilities acquired (in millions).

	January 10, 2013	
Goodwill	\$103

12

DISCOVERY COMMUNICATIONS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

The terms of the agreement provide J:COM with a right to put its 20% noncontrolling interest to Discovery for cash at any time and Discovery with the right to call J:COM's 20% noncontrolling interest beginning January 2018. As J:COM's put right is outside the control of the Company, J:COM's 20% noncontrolling interest is presented as redeemable noncontrolling interest outside of stockholders' equity on the Company's consolidated balance sheet (see Note 8).

The goodwill reflects the synergies and increased regional flexibility expected from controlling the operations of Discovery Japan and is included in the International Networks segment. The goodwill recorded as part of this acquisition is not amortizable for tax purposes. Intangible assets are primarily distribution customer relationships.

Other

On June 1, 2013, the Company, through SBS, acquired the business operations of a television station in Sweden ("TV 11") for a cash payment of \$54 million. Assets acquired include goodwill and intangible assets of \$41 million and \$11 million, respectively.

During the year ended December 31, 2012, the Company acquired Switchover Media, a group of five Italian television channels with children's and entertainment programming, a digital media company in the U.S., a television station in Dubai, and certain affiliate agreements in Latin America. Total consideration for these businesses was \$173 million, net of cash acquired, including \$15 million paid during nine months ended September 30, 2013. Contingent consideration of up to \$9 million may be paid if certain performance targets are achieved through 2014. During the year ended December 31, 2012, the Company recorded \$108 million and \$70 million of goodwill and intangible assets, respectively, in connection with these acquisitions. These business combinations have been included in the Company's operating results since their acquisition dates.

The operations of acquisitions are included in the Company's consolidated financial statements as of their respective acquisition dates.

Pro Forma Financial Information

The following table presents the unaudited pro forma results of the Company as though all of the business combinations discussed above had been made on January 1, 2012 (in millions). These pro forma results do not necessarily represent what would have occurred if all the business combinations had taken place on January 1, 2012, nor do they represent the results that may occur in the future. These pro forma amounts include historical financial statement amounts with adjustments: the Company converted historical financial statements to GAAP and applied the Company's accounting policies, the Company adjusted for amortization expense assuming the fair value adjustments to intangible assets had been applied beginning January 1, 2012, the Company removed the gain of \$92 million recognized upon the consolidation of Discovery Japan and losses of \$56 million for derivative instruments associated with the purchase of SBS Nordic from the nine months ended September 30, 2013 and included them as of January 1, 2012, and lastly, the presentation includes adjustments for transaction costs of \$18 million and income taxes. The pro forma adjustments were based on available information and upon assumptions that the Company believes are reasonable to reflect the impact of these acquisitions on the Company's historical financial information on a supplemental pro forma basis.

Consolidation of Business Combinations

The operations of each of the business combinations discussed above were included in the consolidated financial statements as of each of their respective acquisition dates. The following table presents the revenue and earnings of the business combinations as reported within the consolidated financial statements for the three and nine months ended September 30, 2013 (in millions). Amounts for similar periods during the prior year are immaterial.

	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013

Amortizing intangible assets owned as of September 30, 2013	\$ 64	\$ 170	\$ 143	\$ 143	\$ 135	\$ 787

Intangible assets subject to amortization in the table above exclude \$164 million of indefinite-lived intangible assets not subject to amortization.

Dispositions

Petfinder

On July 15, 2013, the Company sold the domain name and business operations of the Petfinder.com website ("Petfinder"). The sale of Petfinder resulted in a \$19 million pretax gain which has been reflected in gain on disposition in the consolidated statements of operations.

Postproduction Audio Business

On September 17, 2012, the Company sold its postproduction audio business, CSS Studios, LLC, and the results of the postproduction audio business have been reflected in loss from discontinued operations, net of taxes, in the consolidated statements of operations. The postproduction audio business was an operating segment combined with Education as a reportable segment.

NOTE 3. VARIABLE INTEREST ENTITIES

In the normal course of business, the Company makes investments that support its underlying business strategy and enable it to enter new markets and develop programming. In certain instances, an investment may qualify as a variable interest entity ("VIE"). As of September 30, 2013 and December 31, 2012, the Company's VIEs primarily consisted of Hub Television Networks LLC and OWN LLC, which operate pay-television networks.

The Company accounts for its interests in VIEs using the equity method as the Company is not the primary beneficiary. The aggregate carrying values of these equity method investments were \$798 million and \$825 million as of September 30, 2013 and December 31, 2012, respectively. The Company recognized losses in the consolidated statements of operations of zero and \$13 million during the three and nine months ended September 30, 2013,

respectively, and \$24 million and \$81 million during the three and nine months ended September 30, 2012, respectively, for its portion of net losses generated by VIEs.

As of September 30, 2013, the Company's estimated risk of loss for investment carrying values, unfunded contractual commitments and guarantees made on behalf of equity method investees was approximately \$845 million. The estimated risk

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

of loss excludes the Company's expected non-contractual funding of OWN and its operating performance guarantee for Hub Television Networks LLC, which is disclosed below.

Hub Television Networks LLC

Hub Television Networks LLC operates The Hub, which is a pay-television network that provides children's and family entertainment and educational programming. The Company is obligated to provide The Hub with funding up to \$15 million; the Company has not provided any funding as of September 30, 2013. The Company also provides The Hub distribution, sales and administrative support services for a fee (see Note 14).

Based upon the level of equity investment at risk, The Hub is a VIE. Discovery and its partner, Hasbro Inc. ("Hasbro"), share equally in voting control and jointly consent to decisions about programming and marketing strategy and thereby direct the activities of The Hub that most significantly impact its economic performance. Neither has special governance rights, and both are equally represented on the board of The Hub. The partners also share equally in the profits, losses and funding of The Hub. The Company has determined that it is not the primary beneficiary of The Hub. Accordingly, the Company accounts for its investment in The Hub using the equity method.

Through December 31, 2015, the Company has guaranteed the performance of The Hub and is required to compensate Hasbro to the extent that distribution metrics decline versus levels historically achieved by the Discovery Kids channel. This guarantee extends on a declining basis through the period of guarantee. Upon inception of The Hub on May 22, 2009, the maximum amount potentially due under this guarantee was \$300 million. As of September 30, 2013, the maximum amount potentially due under this guarantee was less than \$70 million. The exposure to loss is expected to decline to zero during 2014. As The Hub's distribution is obtained under long-term contracts with stable subscriber levels, the Company believes the likelihood is remote that the guaranteed performance levels will not be achieved and, therefore, believes the performance guarantee is unlikely to have an adverse impact on the Company. The carrying value of the Company's investment in The Hub was \$320 million and \$322 million as of September 30, 2013 and December 31, 2012, respectively. The value of the investment may decline if future results vary negatively from the current long range plan. The Company continues to monitor the valuation of its investment in accordance with GAAP, which requires an impairment charge when there is an other-than-temporary decline in the investment's value. No impairment was recorded during the nine months ended September 30, 2013.

OWN LLC

OWN LLC operates OWN, which is a pay-television network and website that provides adult lifestyle content, which is focused on self-discovery and self-improvement, and entertainment content. Based upon the level of equity investment at risk, OWN is a VIE. While the Company and Harpo, Inc. ("Harpo") are partners who share equally in voting control, power is not shared because Harpo holds operational rights related to programming and marketing, as well as selection and retention of key management personnel that significantly impact OWN's economic performance. Accordingly, the Company has determined that it is not the primary beneficiary of OWN and accounts for its investment in OWN using the equity method. However, the Company provides OWN funding, content licenses, and distribution, sales and administrative support services for a fee (see Note 14).

The Company's combined advances to and note receivable from OWN were \$498 million and \$482 million, as of September 30, 2013 and December 31, 2012, respectively. During the nine months ended September 30, 2013, the Company received net repayments of \$11 million from OWN and accrued interest on the note receivable of \$27 million. During the nine months ended September 30, 2012, the Company provided OWN with funding of \$112 million and accrued interest on the note receivable of \$21 million. The note receivable is secured by the net assets of OWN. While the Company has no further funding commitments, the Company expects to provide additional funding to OWN, if necessary, and to recoup amounts funded. The funding to OWN accrues interest at 7.5% compounded annually. There can be no event of default on the borrowing until 2023. However, borrowings are scheduled for repayment four years after the borrowing date to the extent that OWN has excess cash to repay the borrowings then

due. Following such repayment, OWN's subsequent cash distributions will be shared equally between the Company and Harpo. OWN began repaying amounts owed to the Company during the nine months ended September 30, 2013. In accordance with the venture agreement, losses generated by OWN are generally allocated to both investors based on their proportionate ownership interests. However, the Company has recorded its portion of OWN's losses based upon accounting policies for equity method investments. Prior to the launch of OWN on January 1, 2011, the Company recognized \$104 million or 100% of OWN's net losses. During the three months ended March 31, 2012, accumulated operating losses at OWN exceeded the equity contributed to OWN, and Discovery began again to record 100% of OWN's net losses. The

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Company will continue to record 100% of OWN's operating losses as long as Discovery provides all funding to OWN and OWN's accumulated losses continue to exceed the equity contributed. All of OWN's future net income will initially be recorded by the Company until the Company recovers losses absorbed in excess of the Company's equity ownership interest.

The carrying value of the Company's investment in OWN of \$444 million and \$469 million as of September 30, 2013 and December 31, 2012, respectively, includes a note receivable balance and accumulated investment losses. Given that the early results of OWN's operations have been below its initial business plan, there is a possibility that the results of OWN's future operations will fall below the revised long-term projections. The Company continues to monitor the financial results of OWN along with other relevant business information to assess the recoverability of the OWN note receivable. No impairment was recorded during the nine months ended September 30, 2013.

Harpo has the right to require the Company to purchase all or part of Harpo's interest in OWN at fair market value up to a maximum put amount every two and one half years commencing January 1, 2016. The maximum put amount ranges from \$100 million on the first put exercise date up to a cumulative cap of \$400 million on the fourth put exercise date. The Company has recorded no amounts for the put right.

NOTE 4. FAIR VALUE MEASUREMENTS

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants. Assets and liabilities carried at fair value are classified in the following three categories:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 – Valuations derived from techniques in which one or more significant inputs are unobservable.

The tables below presents assets and liabilities measured at fair value on a recurring basis (in millions).

Total liabilities		\$96	\$2	\$—	\$98

Trading securities are comprised of investments in mutual funds held in a separate trust which are owned as part of the Company's deferred compensation plan. The fair value of Level 1 trading securities was determined by reference to the quoted market price per unit in active markets multiplied by the number of units held without consideration of transaction costs. The fair value of the related deferred compensation plan liability was determined based on the fair value of the related investments elected by employees.

Available-for-sale securities represent investments in highly liquid instruments with original maturities of 90 days or less. The fair value of Level 1 available-for-sale securities was determined by reference to the quoted market price per unit in active markets multiplied by the number of units held without consideration of transaction costs.

Derivative financial instruments are comprised of foreign exchange contracts used by the Company to modify its exposure to market risks from foreign exchange rates. The fair value of Level 2 derivative financial instruments was determined using a market-based approach.

On December 21, 2012, the Company acquired 20% equity ownership interests in Eurosport, a European sports satellite and cable network, and a portfolio of pay television networks from a French media company, TF1, for \$264 million, including transaction costs. TF1 has the right to require the Company to purchase its remaining shares at various dates should Discovery acquire a controlling interest in Eurosport. Written puts that do not qualify for equity classification are reported at fair value and subsequently marked to fair value through earnings regardless of associated contingencies.

The fair value measurement of the TF1 put was determined through the use of a Monte Carlo simulation model.

The Monte Carlo model simulates the various sources of uncertainty impacting the value of a financial instrument and uses those simulations to develop an estimated fair value for the instrument. The valuation methodology for the TF1 put is based on unobservable estimates and judgments, and therefore represents a Level 3 fair value measurement. At both September 30, 2013 and December 31, 2012, the fair value of the TF1 put was determined to be \$14 million. During the three and nine months ended September 30, 2013, there were no changes to the valuation methodology used to estimate the fair value of the TF1 put. (See Note 15.)

In addition to the financial instruments listed in the tables above, the Company holds other financial instruments, including cash deposits, accounts receivable, accounts payable and debt. The carrying values for cash, accounts receivable and accounts payable approximated their fair values. The estimated fair value of the Company's outstanding senior notes using quoted prices from over the counter markets, considered Level 2 inputs, was \$6.7 billion and \$5.9 billion as of September 30, 2013 and December 31, 2012, respectively.

Content expense consists of content amortization, impairments and other production charges and is included in cost of revenues in the consolidated statements of operations. Content expense was \$332 million and \$921 million for the three and nine months ended September 30, 2013, respectively, and \$228 million and \$688 million for the three and nine months ended September 30, 2012, respectively. Content impairments were \$7 million and \$19 million for the three and nine months ended September 30, 2013, respectively, and \$12 million and \$26 million for the three and nine months ended September 30, 2012, respectively. Licensed content increased following the acquisition of SBS Nordic (see Note 2).

Notes due April 1, 2023 and \$850 million aggregate principal amount of 4.875% Senior Notes due April 1, 2043 (the "2023 and 2043 Notes"). The proceeds received by DCL from the offering were net of a \$2 million issuance discount and \$12 million of deferred financing costs.

DCL has the option to redeem some or all of the 2023 and 2043 Notes at any time prior to their maturity by paying a make-whole premium plus accrued and unpaid interest, if any, through the date of repurchase. Interest on the 2023 and 2043 Notes is payable on April 1 and October 1 of each year. The 2023 and 2043 Notes are unsecured and rank equally in right of payment with all of DCL's other unsecured senior indebtedness and are fully and unconditionally guaranteed on an unsecured and unsubordinated basis by Discovery.

In addition to the debt instruments listed in the table above, the Company also has access to a \$1.0 billion revolving credit facility. There were no amounts drawn under the revolving credit facility as of September 30, 2013 or December 31, 2012. If the Company were to draw on the revolving credit facility, outstanding balances would bear interest at a variable rate determined pursuant to the lending agreement. Balances outstanding under the revolving credit facility would be due on the expiration date which is October 12, 2017.

The revolving credit facility contains affirmative and negative covenants, including an interest coverage ratio and leverage ratio, events of default and other customary provisions. The Company was in compliance with all covenants and there were no events of default as of September 30, 2013 and December 31, 2012.

NOTE 7. DERIVATIVE FINANCIAL INSTRUMENTS

The Company may use derivative financial instruments to modify its exposure to market risks from changes in interest rates and foreign exchange rates. The Company does not enter into or hold derivative financial instruments for speculative trading purposes.

During the nine months ended September 30, 2013, the Company entered into foreign exchange contracts in connection with forecasted business combinations (see Note 2). These derivatives, which economically hedged the Company's exposure to fluctuations in certain foreign currency exchange rates, did not qualify for hedge accounting and realized and unrealized losses resulting thereon were reflected in the consolidated statements of operations. There were no unsettled foreign exchange contracts held by the Company in connection with forecasted business combinations as of September 30, 2013.

During the nine months ended September 30, 2013, the Company also designated foreign currency forward contracts used to hedge anticipated distribution revenue as cash flow hedges. Gains and losses on the effective portion of designated cash flow hedges are initially recorded in accumulated other comprehensive income on the consolidated balance sheet and reclassified to the statement of operations when the hedged item is recognized. The Company also entered into interest rate contracts to hedge the pricing for certain senior notes (see Note 6). These derivatives qualified for hedge accounting and gains and losses from changes in fair value were recorded as a component of other comprehensive income (loss) and will be amortized into income over the life of the notes. There were no unsettled interest rate contracts held by the Company as of September 30, 2013 and December 31, 2012.

The Company records all derivative contracts on the consolidated balance sheet at fair value (see Note 4); derivatives in an asset position are classified as assets, and derivatives in a liability position are classified as liabilities. The Company's master netting agreements allow the Company to settle derivative contracts denominated in the same currency with a single counterparty on the same day on a net basis. There were no amounts eligible to be offset under master netting agreements as of September 30, 2013 and December 31, 2012.

The following table summarizes the notional amount and fair value of the Company's derivative positions as of September 30, 2013 and December 31, 2012 (in millions).

NOTE 8. REDEEMABLE NONCONTROLLING INTEREST

In connection with the acquisition of Discovery Japan on January 10, 2013, the Company recognized \$35 million for the fair value of J:COM's noncontrolling interest (see Note 2). The terms of the agreement provide J:COM with a right to put all, but not less than all, of its 20% noncontrolling interest to Discovery at any time for cash. For the first four years, the settlement value is the January 10, 2013 fair value denominated in Japanese yen; thereafter, the redemption value is the greater of the then current fair value or the January 10, 2013 fair value denominated in Japanese yen. Because J:COM's put right is outside the Company's control, J:COM's 20% noncontrolling interest is presented as redeemable noncontrolling interest outside of stockholders' equity on the Company's consolidated balance sheet. Redeemable noncontrolling interest reflected as of the balance sheet date is the greater of the noncontrolling interest balance adjusted for comprehensive income items or the redemption value remeasured at the period end foreign exchange rate, or the "floor." Adjustments to the carrying amount of redeemable noncontrolling interest to redemption value as a result of changes in exchange rates are reflected in currency translation adjustments, a component of other comprehensive income (loss); however, such currency translation adjustments to redemption value are allocated to Discovery stockholders only. Redeemable noncontrolling interest adjustments of redemption value to floor are reflected in retained earnings and as an adjustment to income from continuing operations available to Discovery Communications, Inc. stockholders in the calculation of earnings per share (see Note 12).

Stock Repurchase Program

Under the Company's stock repurchase program, management is authorized to purchase shares of the Company's stock from time to time through open market purchases or privately negotiated transactions at prevailing prices as permitted by securities laws and other legal requirements, and subject to stock price, business and market conditions and other factors. The total authorization under the stock repurchase program is \$4.0 billion. As of September 30, 2013, the Company had remaining authorization of \$805 million for future repurchases under the common stock repurchase program, which will expire on December 11, 2014.

Repurchased stock is recorded in treasury stock on the consolidated balance sheet. All repurchases during the three and nine months ended September 30, 2013 and 2012 were made through open market transactions and were funded using cash on hand. As of September 30, 2013, the Company had repurchased over the life of the program 2.8 million and 65.7 million shares of Series A and Series C common stock for the aggregate purchase price of \$171 million and \$3.0 billion, respectively.

Preferred Stock Repurchase

On April 5, 2013, the Company repurchased 4 million shares of its Series C convertible preferred stock from Advance Programming Holdings, LLC for an aggregate purchase price of \$256 million, which was recorded as a decrease of par value of preferred stock and retained earnings. The repurchase was made outside of the Company's publicly announced stock repurchase program, using cash on hand.

NOTE 10. EQUITY-BASED COMPENSATION

The Company has various incentive plans under which unit awards, stock options, performance-based restricted stock units (“PRSUs”), time-based restricted stock units (“RSUs”) and stock appreciation rights (“SARs”) have been issued. During

the nine months ended September 30, 2013, the vesting and service requirements of equity-based awards granted were consistent with the arrangements disclosed in the 2012 Form 10-K.

Equity-Based Compensation Expense

The table below presents the components of equity-based compensation expense (in millions).

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Unit awards	\$ 14	\$ 19	\$ 42	\$ 52
SARs	17	6	39	13

Total equity-based compensation expense	\$ 45	\$ 40	\$ 129	\$ 112
Tax benefit recognized	\$ 17	\$ 15	\$ 49	\$ 42

Compensation expense for all awards is recorded in selling, general and administrative expense in the consolidated statements of operations. As of September 30, 2013 and December 31, 2012, the Company recorded total liabilities for cash-settled awards of \$99 million and \$80 million, respectively.

Equity-Based Award Activity

Unit Awards

The table below presents unit award activity (in millions, except years and weighted-average grant price).

	Unit Awards	Weighted- Average Grant Price	Weighted- Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding as of December 31, 2012	3.1	\$ 34.78		
Settled	(1.4) 30.84		\$ 50
Outstanding as of September 30, 2013	1.7	\$ 38.14	0.59	\$ 74
Vested and expected to vest as of September 30, 2013	1.6	\$ 38.12	0.59	\$ 70

Unit awards represent the contingent right to receive a cash payment for the amount by which the vesting price of Company stock exceeds the grant price. Because unit awards are cash-settled, the Company remeasures the fair value and compensation expense of outstanding unit awards each reporting date until settlement. As of September 30, 2013, the weighted-average fair value of unit awards outstanding was \$43.77 per unit award. The Company made cash payments to settle vested unit awards totaling \$50 million and \$38 million during the nine months ended September 30, 2013 and 2012, respectively. As of September 30, 2013, there was \$21 million of unrecognized compensation cost, net of estimated forfeitures, related to unit awards, which is expected to be recognized over a weighted-average period of 1.12 years.

Vested and expected to vest as of September 30, 2013	3.0	\$55.15	1.63	\$89

As of September 30, 2013, the weighted-average fair value of SARs outstanding was \$29.67 per award. The Company made cash payments of \$11 million and \$1 million to settle exercised SARs during the nine months ended September 30, 2013 and 2012, respectively. As of September 30, 2013, there was \$45 million of unrecognized compensation cost, net of estimated forfeitures, related to SARs, which is expected to be recognized over a weighted-average period of 1.54 years.

PRSUs and RSUs

The table below presents PRSU and RSU activity (in millions, except years and weighted-average grant price).

Vested and expected to vest as of September 30, 2013	2.2	\$ 45.57	1.22	\$190

PRSUs represent the contingent right to receive shares of the Company's Series A common stock based on continuous service and the Company's achievement of certain operating performance targets. As of September 30, 2013, there were slightly less than 2 million outstanding PRSUs with a weighted-average grant price of \$43.12. As of September 30, 2013, unrecognized compensation cost, net of expected forfeitures, related to PRSUs was \$20 million, which is expected to be recognized over a weighted-average period of 0.94 years.

RSUs represent the contingent right to receive shares of the Company's Series A common stock based on continuous service. As of September 30, 2013, there were slightly less than 1 million outstanding RSUs with a weighted-average grant price of \$51.99. As of September 30, 2013, unrecognized compensation cost, net of expected forfeitures, related to RSUs was \$24 million, which is expected to be recognized over a weighted-average period of 2.24 years.

The Company received cash payments from the exercise of stock options totaling \$40 million and \$76 million during the nine months ended September 30, 2013 and 2012, respectively. The weighted average grant date fair value of stock options granted during the nine months ended September 30, 2013 was \$24.45 per option. As of September 30, 2013, there was \$39 million of unrecognized compensation cost, net of expected forfeitures, related to stock options, which is expected to be recognized over a weighted-average period of 1.98 years.

Employee Stock Purchase Plan

The Discovery Communications, Inc. 2011 Employee Stock Purchase Plan (the "DESPP") enables eligible employees to purchase shares of the Company's common stock through payroll deductions or other permitted means. During the nine months ended September 30, 2013 and 2012, the Company received cash totaling \$3 million from the purchase of shares.

NOTE 11. INCOME TAXES

The Company's provisions for income taxes on income from continuing operations were \$163 million and \$490 million, and effective income tax rates were 39% and 38% for the three and nine months ended September 30, 2013, respectively. The Company's provisions for income taxes on income from continuing operations were \$134 million and \$381 million, and effective income tax rates were 38% and 34%, for the three and nine months ended September 30, 2012, respectively.

The following table reconciles the Company's effective income tax rate to the U.S. federal statutory income tax rate of 35%.

Effective income tax rate 39 % 38 % 38 % 34 %

The income tax rates for the three and nine months ended September 30, 2013 increased 1% and 4%, respectively, compared to the prior year. The increases were primarily due to nondeductible hedging losses associated with the acquisition of SBS Nordic on April 9, 2013, and the reduction in net deferred tax assets as a result of the change in the tax rate in the United Kingdom during the three months ended September 30, 2013. These increases were partially offset by the \$92 million remeasurement gain on previously held equity interest which is not taxable in the current year because the Company intends to defer indefinitely the realization of this gain for tax purposes. The increase in the income tax rate for the nine months ended

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

September 30, 2013 was further driven by an \$11 million current year decrease in tax benefits from domestic production activity deductions following legislative changes enacted in 2013 as well as income tax benefits in the nine months ended September 30, 2012 related to the reorganization of certain operations for which no similar benefit was recognized in nine months ended September 30, 2013.

The Company and its subsidiaries file income tax returns in the U.S. and various state and foreign jurisdictions. The Internal Revenue Service ("IRS") concluded its examination of the Company's 2009 and 2008 consolidated federal income tax returns in the second quarter with no material adjustments. The Company is currently under examination by the IRS for its 2011 and 2010 consolidated federal income tax returns. The Company does not anticipate any material adjustments. With few exceptions, the Company is no longer subject to audit by any jurisdiction for years prior to 2006.

The Company's reserves for uncertain tax positions at September 30, 2013 and December 31, 2012 totaled \$150 million and \$128 million, respectively. The increase in the reserves during the nine months ended September 30, 2013 was attributable to reserves established as part of the preliminary purchase price allocation for SBS Nordic and, to a lesser extent, uncertainties regarding allocation and taxation of income among multiple jurisdictions and the eligibility for, and application of, the rules surrounding certain tax credits.

As of September 30, 2013 and December 31, 2012, the Company had accrued approximately \$14 million and \$9 million, respectively, of total interest and penalties payable related to uncertain tax positions. The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense.

It is reasonably possible that the total amount of unrecognized tax benefits related to certain of the Company's uncertain tax positions could decrease as much as \$10 million within the next twelve months as a result of ongoing audits, lapses of statutes of limitations or regulatory developments.

Income per share amounts may not sum since each is calculated independently.

Earnings per share is calculated by dividing the applicable earnings available to Discovery Communications, Inc. stockholders by the weighted average number of shares outstanding. As a result of the redeemable noncontrolling interest in Discovery Japan, the Company began applying the two-class method for calculating earnings per share in the first quarter of 2013. The two-class method calculates earnings per share by distinguishing between the classes of securities based on the proportionate participation rights of each award type in the Company's undistributed income. Adjustments to the carrying amount of redeemable noncontrolling interest to redemption value, excluding currency translation adjustments, are reflected in earnings per share using the two-class method, similar to the treatment of a dividend.

At September 30, 2013 and 2012, the weighted average number of basic and diluted shares outstanding included the Company's outstanding Series A, Series B and Series C common stock, as well as its outstanding Series A and Series C convertible preferred stock, as the holder of each common and preferred series legally participates equally in any per share distributions. Diluted earnings per share adjusts basic earnings per share for the dilutive effect of the assumed exercise of

outstanding equity awards using the treasury stock method. NOTE 14. RELATED PARTY TRANSACTIONS

In the normal course of business, the Company enters into transactions with related parties. Related parties include entities that share common directorship, most prominently Liberty Global plc ("Liberty Global"), Liberty Media Corporation ("Liberty Media") and their subsidiaries and equity method investees (together the "Liberty Group"). Discovery's Board of Directors includes John C. Malone ("Dr. Malone"), who is Chairman of the Board of Liberty Global and beneficially owns approximately 27% of the aggregate voting power with respect to the election of directors of Liberty Global. Dr. Malone is Chairman of the Board of Liberty Media and beneficially owns approximately 40% of the aggregate voting power with respect to the election of directors of Liberty Media. The majority of the revenue earned from the Liberty Group relates to multi-year network distribution arrangements. The Company discloses related party revenues for content licenses and services such as distribution, sales and administrative support provided to equity method investees, including unconsolidated VIEs (see Note 3). Other related party revenue and service charges included in the table below primarily consist of distribution revenue from J:COM earned by Discovery Japan. Following the consolidation of Discovery Japan (see Note 2), revenues earned from J:COM are reflected in related party revenues, while service fees from Discovery Japan, previously disclosed as revenue from equity method investees, are now eliminated upon consolidation and are no longer reflected in related

party revenues.

Interest income ^(c)	\$ 9	\$ 8	\$ 27	\$ 21
Expenses	\$ 4	\$ 3	\$ 16	\$ 15

^(a) The increase in revenue from transactions with the Liberty Group is primarily attributable to activity with Virgin Media, Inc. ("Virgin Media") and Charter Communications, Inc. ("Charter"). In June 2013, Liberty Global announced it had completed its acquisition of Virgin Media. In May 2013 Liberty Media completed its equity method investment in Charter; Dr. Malone is on Charter's board of directors. Transactions with Virgin Media and Charter are reported as related party transactions from the date they became related parties.

^(b) The decrease in revenue from transactions with equity method investees is primarily attributable to the consolidation of Discovery Japan and lower sales of content to OWN.

^(c) The Company records interest earnings from loans to equity method investees as a component of losses from equity method investees, net, in the consolidated statements of operations.

Of the revenues and service charges earned from equity method investees, the Company provided funding for \$1 million and \$13 million for the three and nine months ended September 30, 2013, respectively, and \$7 million and \$29 million for the three and nine months ended September 30, 2012, respectively.

NOTE 15. COMMITMENTS, CONTINGENCIES, AND GUARANTEES

Commitments

In the normal course of business, the Company enters into various commitments, which primarily include programming and talent arrangements, operating and capital leases, employment contracts, sponsorship commitments, arrangements to purchase various goods and services, future funding commitments to equity method investees (see Note 3), and the obligation to issue additional shares of preferred stock under the anti-dilution provisions of its outstanding preferred stock. In connection with the Company's business combinations (see Note 2), in 2013 the Company assumed or entered into various commitments, which primarily include programming and talent arrangements as well as operating and capital leases.

Contingencies

Put Rights

The Company has granted put rights related to certain equity method investments and subsidiaries. Harpo has the right to require the Company to purchase its interest in OWN for fair value at various dates (see Note 3). No amounts have been recorded by the Company for the Harpo put right. TF1 has the right to require the Company to purchase its remaining shares in Eurosport at various dates should Discovery acquire a controlling interest in Eurosport. The TF1 put right is recorded at fair value (see Note 4). Additionally, J:COM has the right to require the Company to purchase

its redeemable interest in Discovery Japan. The Company recorded the J:COM put right as redeemable noncontrolling interest (see Note 8).

Legal Matters

In the normal course of business, the Company experiences routine claims and legal proceedings. It is the opinion of the Company's management, based on information available at this time, that none of the current claims and proceedings will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Guarantees

The Company has guaranteed a certain level of operating performance for The Hub (see Note 3). There were no amounts recorded for guarantees associated with The Hub as of September 30, 2013 or December 31, 2012.

The Company may provide indemnities intended to protect others from certain business risks. Similarly, the Company may remain contingently liable for certain obligations in the event that a third party does not fulfill its obligations under an indemnification obligation. The Company records a liability for its indemnification obligations and other contingent liabilities when probable and estimable. There were no material amounts for indemnifications or other contingencies recorded as of September 30, 2013 or December 31, 2012.

NOTE 16. REPORTABLE SEGMENTS

The Company's reportable segments are determined based on (i) financial information reviewed by its chief operating decision maker ("CODM"), the Chief Executive Officer, (ii) internal management and related reporting structure, and (iii) the basis upon which the CODM makes resource allocation decisions.

The accounting policies of the reportable segments are the same as the Company's, except that certain inter-segment transactions that are eliminated for consolidation are not eliminated at the segment level. In determining segment performance, inter-segment transactions are treated as third-party transactions. Inter-segment transactions, which primarily include advertising and content purchases, were not significant for the periods presented.

The Company evaluates the operating performance of its segments based on financial measures such as revenues and adjusted operating income before depreciation and amortization ("Adjusted OIBDA"). Adjusted OIBDA is defined as revenues less costs of revenues and selling, general and administrative expenses excluding: (i) mark-to-market equity-based compensation, (ii) depreciation and amortization, (iii) amortization of deferred launch incentives, (iv) exit and restructuring charges, (v) certain impairment charges and (vi) gains and losses on business and asset dispositions. The Company uses this measure to assess the operating results and performance of its segments, perform analytical comparisons, identify strategies to improve performance and allocate resources to each segment. The Company believes Adjusted OIBDA is relevant to investors because it allows them to analyze the operating performance of each segment using the same metric management uses. The Company excludes mark-to-market equity-based compensation, exit and restructuring charges, certain impairment charges, and gains and losses on business and asset dispositions from the calculation of Adjusted OIBDA due to their volatility. The Company also excludes depreciation of fixed assets, and amortization of intangible assets and deferred launch incentives, as these amounts do not represent cash payments in the current reporting period. Adjusted OIBDA should be considered in addition to, but not a substitute for, operating income, net income and other measures of financial performance reported in accordance with GAAP. Certain corporate expenses are excluded from segment results to enable executive management to evaluate segment performance based upon the decisions of segment executives.

The tables below present summarized financial information for each of the Company's reportable segments and corporate and inter-segment eliminations (in millions).

NOTE 17. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

Overview

As of September 30, 2013 and December 31, 2012, the senior notes outstanding (see Note 6) have been issued by DCL, a wholly-owned subsidiary of the Company, pursuant to Registration Statements on Form S-3 filed with the U.S. Securities and Exchange Commission (the "Shelf Registration"). The Company fully and unconditionally guarantees the senior notes on an unsecured basis. The Company, DCL, and/or Discovery Communications Holding, LLC ("DCH"), a wholly-owned subsidiary of the Company (collectively, the "Issuers"), may issue additional debt securities under the Shelf Registration that are fully and unconditionally guaranteed by the other Issuers. Set forth below are condensed consolidating financial statements presenting the financial position, results of operations and comprehensive income, and cash flows of (i) the Company, (ii) DCH, (iii) DCL, (iv) the non-guarantor subsidiaries of DCL on a combined basis, (v) the other non-guarantor subsidiaries of the Company on a combined basis and (vi) reclassifications and eliminations necessary to arrive at the consolidated financial statement balances for

the Company. DCL and the non-guarantor subsidiaries of DCL are the primary operating subsidiaries of the Company. DCL primarily includes Discovery Channel and TLC networks in the U.S. The non-guarantor subsidiaries of DCL include the Company's other U.S. and international networks, education businesses, and most of the Company's websites and other digital media services. The non-guarantor subsidiaries of DCL are wholly-owned subsidiaries of DCL with the exception of certain equity method investments.

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

DCL is a wholly-owned subsidiary of DCH. The Company wholly owns DCH through a 33 1/3% direct ownership interest and a 66 2/3% indirect ownership interest through Discovery Holding Company (“DHC”), a wholly-owned subsidiary of the Company. DHC is included in the other non-guarantor subsidiaries of the Company.

Basis of Presentation

Solely for purposes of presenting the condensed consolidating financial statements, investments in the Company’s subsidiaries have been accounted for by their respective parent company using the equity method. Accordingly, in the following condensed consolidating financial statements, the equity method has been applied to (i) the Company’s interests in DCH and the other non-guarantor subsidiaries of the Company, (ii) DCH’s interest in DCL and (iii) DCL’s interests in the non-guarantor subsidiaries of DCL. Inter-company accounts and transactions have been eliminated to arrive at the consolidated financial statement amounts for the Company. The Company’s accounting bases in all subsidiaries, including goodwill and recognized intangible assets, have been “pushed-down” to the applicable subsidiaries.

The operations of certain of the Company’s international subsidiaries are excluded from the Company’s consolidated U.S. income tax return. Tax expense related to permanent differences has been allocated to the entity that created the difference. Tax expense related to temporary differences has been allocated to the entity that created the difference, where identifiable. The remaining temporary differences are allocated to each entity included in the Company’s consolidated U.S. income tax return based on each entity’s relative pretax income. Deferred taxes have been allocated based upon the temporary differences between the carrying amounts of the respective assets and liabilities of the applicable entities.

The condensed consolidating financial statements should be read in conjunction with the consolidated financial statements of the Company.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Management's discussion and analysis of financial condition and results of operations is a supplement to and should be read in conjunction with the accompanying consolidated financial statements and related notes. This section provides additional information regarding Discovery Communications, Inc.'s ("Discovery," "Company," "we," "us," or "our") business, current developments, results of operations, cash flows and financial condition. Additional context can also be found in the 2012 Form 10-K.

CAUTIONARY NOTE CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our business, marketing and operating strategies, integration of acquired businesses, new service offerings, financial prospects, and anticipated sources and uses of capital. Words such as "anticipates," "estimates," "expects," "projects," "intends," "plans," "believes," and "may" and terms of similar substance used in connection with any discussion of future operating or financial performance identify forward-looking statements. Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be accomplished. The following is a list of some, but not all, of the factors that could cause actual results or events to differ materially from those anticipated: the inability of advertisers or affiliates to remit payment to us in a timely manner or at all; general economic and business conditions; industry trends, including the timing of, and spending on, feature film, television and television commercial production; spending on domestic and foreign television advertising; disagreements with our distributors over contract interpretation; market demand for foreign first-run and existing content libraries; the regulatory and competitive environment of the industries in which we, and the entities in which we have interests, operate; continued consolidation of broadband distribution and production companies; uncertainties inherent in the development of new business lines and business strategies; uncertainties regarding the financial performance of our equity method investees; integration of acquired businesses; uncertainties associated with product and service development and market acceptance, including the development and provision of programming for new television and telecommunications technologies; changes in the distribution and viewing of television programming, including the expanded deployment of personal video recorders, video on demand ("VOD"), internet protocol television, mobile personal devices and personal tablets and their impact on television advertising revenue; rapid technological changes; future financial performance, including availability, terms, and deployment of capital; fluctuations in foreign currency exchange rates and political unrest in international markets; the ability of suppliers and vendors to deliver products, equipment, software, and services; the outcome of any pending or threatened litigation; availability of qualified personnel; the possibility or duration of an industry-wide strike or other job action affecting a major entertainment industry union; changes in, or failure or inability to comply with, government regulations, including, without limitation, regulations of the Federal Communications Commission and adverse outcomes from regulatory proceedings; changes in income taxes due to regulatory changes or changes in our corporate structure; changes in the nature of key strategic relationships with partners, distributors and equity method investee partners; competitor responses to our products and services and the products and services of the entities in which we have interests; threatened terrorist attacks and military action; reduced access to capital markets or significant increases in costs to borrow; a failure to secure affiliate agreements or renewal of such agreements on less favorable terms; and a reduction of advertising revenue associated with unexpected reductions in the number of subscribers. For additional risk factors, refer to Item 1A, "Risk Factors," in the 2012 Form 10-K. These forward-looking statements and such risks, uncertainties, and other factors speak only as of the date of this Quarterly Report, and we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based.

BUSINESS OVERVIEW

We are a global media company that provides programming across multiple distribution platforms throughout the world, including through digital distribution arrangements. Our global portfolio of networks includes prominent television brands such as Discovery Channel, one of the first nonfiction networks and our most widely distributed global brand, TLC and Animal Planet. We also have a diversified portfolio of websites and other digital media

services and develop and sell curriculum-based educational products and services.

Our objectives are to invest in content for our networks to build viewership, optimize distribution revenue, capture advertising sales, and create or reposition branded channels and businesses that can sustain long-term growth and occupy a desired content niche with strong consumer appeal. Our strategy is to maximize the distribution, ratings and profit potential of each of our branded networks. In addition to growing distribution and advertising revenues for our branded television networks,

45

we are extending content distribution across new platforms, including brand-aligned websites, on-line streaming, mobile devices, VOD and broadband channels, which provide promotional platforms for our television content and serve as additional sources for advertising and distribution revenue. Audience ratings are a key driver in generating advertising revenue and creating demand on the part of cable television operators, direct-to-home ("DTH") satellite operators, and other content distributors who deliver our content to their customers.

Our content spans genres including science, exploration, survival, natural history, technology, docu-series, anthropology, paleontology, history, space, archeology, health and wellness, engineering, adventure, lifestyles, forensics, civilizations, current events and kids. We have an extensive library of content and own most rights to our content and footage, which enables us to exploit our library to launch new brands and services into new markets quickly. Our programming can be re-edited and updated in a cost-effective manner to provide topical versions of subject matter that can be utilized around the world. Substantially all of our programming is produced in high definition ("HD") format.

We classify our operations in three segments: U.S. Networks, consisting principally of domestic television networks, websites, and digital distribution arrangements; International Networks, consisting principally of international television networks and websites; and Education, consisting of educational curriculum-based product and service offerings.

U.S. Networks

U.S. Networks generated revenues of \$2.2 billion during the nine months ended September 30, 2013, which represented 55% of our total consolidated revenues. Our U.S. Networks segment wholly owns and operates nine national television networks, including Discovery Channel, TLC, Animal Planet, Investigation Discovery, and Science. In addition, this segment holds equity method interests in OWN, The Hub and 3net.

U.S. Networks generates revenues from fees charged to distributors of our television networks' content, which include cable and DTH satellite service providers, referred to as affiliate fees, digital distributors, which relates to bulk content distribution agreements, and from advertising sold on our television networks and websites. U.S. Networks also generates income by providing sales representation and network distribution services to equity method investee networks and licensing our brands for consumer products.

Typically, our television networks are aired pursuant to multi-year carriage agreements that provide for the level of carriage that our networks will receive, and if applicable, for annual graduated rate increases. Carriage of our networks depends on channel placement and package inclusion, such as whether networks are on the more widely distributed, broader packages or lesser-distributed, specialized packages, also referred to as digital tiers.

Advertising revenue is based on the price received for available advertising spots and is dependent upon a number of factors including the number of subscribers to our channels, viewership demographics, the popularity of our programming, and our ability to sell commercial time over a group of channels. In the U.S., advertising time is sold in the upfront and scatter markets. In the upfront market, advertisers buy advertising time for upcoming seasons, and by committing to purchase in advance, lock in the advertising rates they will pay for the upcoming year. A portion of many upfront advertising commitments includes options whereby advertisers may reduce purchase commitments. In the scatter market, advertisers buy advertising time when the commercials will be run, which often results in a pricing premium compared to the upfront rates. The mix of upfront and scatter market advertising time sold is based upon a number of factors, such as pricing, demand for advertising time and economic conditions.

During the nine months ended September 30, 2013, distribution, advertising and other revenues were 45%, 52% and 3%, respectively, of total revenues for this segment. Discovery Channel, TLC and Animal Planet, collectively, generated 69% of U.S. Networks' total revenues for the nine months ended September 30, 2013.

U.S. Networks' largest single cost is content expense, which includes content amortization, content impairments and production costs. U.S. Networks amortizes the cost of capitalized content rights based on the proportion of current estimated revenues relative to the estimated remaining total lifetime revenues, which results in either an accelerated method or a straight-line method of amortization over the estimated useful lives of the content of up to five years. Most of our content is amortized using an accelerated amortization method.

International Networks

International Networks generated revenues of \$1.7 billion during the nine months ended September 30, 2013, which represented 43% of our total consolidated revenues. Our International Networks segment principally consists of

national and pan-regional television networks. Discovery Channel, Animal Planet, and TLC lead the International Networks' branded television networks, which are distributed in virtually every pay-television market in the world through operational centers in London, Singapore and Miami. Of U.S. media companies, International Networks has one of the largest international

distribution platforms extending to more than 200 countries and territories. Each distributes between one and fourteen networks. As of September 30, 2013, International Networks operated over 230 unique distribution feeds in over 40 languages with channel feeds customized according to language needs and advertising sales opportunities. International Networks also operates free-to-air networks in the U.K., Germany, Italy and Spain. International Networks continues to pursue expansion through launching new distribution feeds and acquiring businesses. Similar to U.S. Networks, the primary sources of revenue for International Networks are fees charged to operators who distribute our networks, which primarily include cable and DTH satellite service providers, and advertising sold on our television networks. International television markets vary in their stages of development. Some markets, such as the U.K., are more advanced digital television markets, while others remain in the analog environment with varying degrees of investment from operators to expand channel capacity or convert to digital technologies. Common practice in some markets results in long-term contractual distribution relationships, while customers in other markets renew contracts annually. Distribution revenue for our International Networks segment is largely dependent on the number of subscribers that receive our networks or content, the rates negotiated in the agreements, and the market demand for the content that we provide.

Advertising revenue is dependent upon a number of factors including the development of pay and free-to-air television markets, the number of subscribers to our channels, viewership demographics, the popularity of our programming, and our ability to sell commercial time over a group of channels. In certain markets, our advertising sales business operates with in-house sales teams, while we rely on external sales representation services in other markets. In developing television markets, we expect that advertising revenue growth will result from continued subscriber growth, our localization strategy, and the shift of advertising spending from traditional analog networks to channels in the multi-channel environment. In relatively mature markets, such as Western Europe, growth in advertising revenue will come from increasing viewership and pricing of advertising on our existing television networks and the launching of new services, both organic and through acquisitions. During the nine months ended September 30, 2013, distribution, advertising and other revenues were 53%, 44% and 3%, respectively, of total net revenues for this segment.

International Networks' largest cost is content expense. International Networks executes a localization strategy by offering programming from U.S. Networks, customized content and localized schedules via our distribution feeds. While our International Networks segment maximizes the use of programming from U.S. Networks, we also develop local programming that is tailored to individual market preferences. International Networks amortizes the cost of capitalized content rights based on the proportion of current estimated revenues relative to the estimated remaining total lifetime revenues, which results in either an accelerated method or a straight-line method over the estimated useful lives of the content of up to five years. Most of our content is amortized using an accelerated amortization method.

On December 21, 2012, our International Networks segment acquired 20% equity ownership interests in Eurosport, a European sports satellite and cable network, and a portfolio of pay television networks from TF1, a French media company, for \$264 million in cash, including transaction costs. We account for Eurosport and the TFI pay television networks as equity method investments. We have a call right that enables us to purchase a controlling interest in Eurosport starting in December 2014 and for one year thereafter. If we exercise our call right, TF1 will have the right to put its remaining interest to us for one year thereafter. The arrangement is intended to increase the growth of Eurosport, which focuses on niche but regionally popular sports such as tennis, skiing, cycling and skating, and enhance our pay television offerings in France.

On December 28, 2012, we acquired Switchover Media, a group of five Italian television channels with children's and entertainment programming. Switchover Media has been included in our operating results since the acquisition date. (See Note 2 to the accompanying consolidated financial statements.)

On January 10, 2013, we purchased an additional 30% ownership interest in Discovery Japan, which was previously a 50% owned equity method investee. As a result, we now have a controlling financial interest in Discovery Japan and account for it as a consolidated subsidiary. We recognized a \$92 million gain upon consolidation for the difference in the carrying value and the fair value of the previously held equity interest. (See Note 2 to the accompanying consolidated financial statements.)

On April 9, 2013, we acquired the television and radio operations of SBS Nordic from ProSiebensat.1 Media AG for cash of approximately \$1.8 billion (€1.4 billion), including closing purchase price adjustments. On June 1, 2013, we acquired the business operations of a television station in Sweden, through SBS Nordic for a cash payment of \$54 million. These acquisitions have been included in our operating results since the acquisition date. (See Note 2 to the accompanying consolidated financial statements.)

Education

Education generated revenues of \$73 million during the nine months ended September 30, 2013, which represented 2% of our total consolidated revenues for the nine months ended September 30, 2013. Our Education segment is comprised of

educational curriculum-based product and service offerings. This segment generates revenues primarily from subscriptions charged to K-12 schools for access to an on-line suite of curriculum-based VOD tools, professional development services, digital textbooks and, to a lesser extent, student assessment and publication of hard-copy curriculum-based content. Our Education segment also participates in global brand and content licensing and engages in partnerships with leading non-profits, corporations, foundations and trade associations.

RESULTS OF OPERATIONS

Items Impacting Comparability

On April 9, 2013, we acquired SBS Nordic. During the year ended December 31, 2012, we also acquired Switchover Media and a television station in Dubai. We included the operations of each of these acquisitions ("Newly Acquired Businesses") in our consolidated financial statements as of each of their respective acquisition dates. As a result, Newly Acquired Businesses have impacted the comparability of our results of operations between 2013 and 2012. Accordingly, to assist the reader in understanding the changes in our results of operations, the following tables present the calculation of comparative Adjusted OIBDA excluding the Newly Acquired Businesses, as reported within our consolidated financial statements and International Networks segment for the three and nine months ended September 30, 2013 (in millions). The comparability of the results of the U.S. Networks segment was not impacted by these acquisitions. Discovery Japan was not included in the definition of Newly Acquired Businesses, because we previously owned a 50% equity interest and its consolidation on January 10, 2013 did not materially impact the comparability of operations, except as otherwise noted in management's discussion and analysis of results of operations. (See Note 2 to the accompanying consolidated financial statements.) Adjusted OIBDA is defined and a reconciliation to operating income is presented in the "segment results of operations" section of this Quarterly Report on Form 10-Q.

Revenues

Distribution revenue includes affiliate fees and digital distribution revenue and is largely dependent on the rates negotiated in our distribution agreements, the number of subscribers that receive our networks or content, and the market demand for the content that we provide. Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, consolidated distribution revenue increased 12%, or \$64 million, for the three months ended September 30, 2013, and increased 9%, or \$158 million, for the nine months ended September 30, 2013, as a result of increases of \$29 million and \$51 million for the three and nine months ended September 30, 2013, respectively, at our U.S. Networks segment and increases of \$35 million and \$107 million for the three and nine months ended September 30, 2013, respectively, at our International Networks segment. The increase in distribution revenue at U.S. Networks, excluding the impact of digital distribution revenue, for the three and nine months ended September 30, 2013 was 5%. Digital distribution revenue, which is earned under agreements to license selected library titles, is recognized when the content has been delivered and is available for use by the customer. Digital distribution revenue is therefore prone to quarterly fluctuations based on the timing and volume of content deliveries. The increases in the International Networks' distribution revenue, excluding the impact of foreign currency and Newly Acquired Businesses, were attributable in equivalent amounts to the consolidation of Discovery Japan and revenue growth in Latin America, which experienced increases in subscribers and rates.

Advertising revenue is dependent upon a number of factors, including the stage of development of television markets, the number of subscribers to our channels, viewership demographics, the popularity of our content, our ability to sell

commercial time over a group of channels, and the mix of sales of commercial time between the upfront and scatter markets, which is based

50

upon a number of factors, such as pricing, demand for advertising time and economic conditions. Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, consolidated advertising revenue increased 16%, or \$76 million, for the three months ended September 30, 2013, and increased 13%, or \$195 million, for the nine months ended September 30, 2013, as a result of increases of \$40 million and \$106 million for the three and nine months ended September 30, 2013, respectively, at our U.S. Networks segment and \$37 million and \$89 million for the three and nine months ended September 30, 2013, respectively, at our International Networks segment. For our U.S. Networks segment, the increases were due to improved delivery and pricing in equivalent amounts. For our International Networks segment, most of the increase was in Western Europe due to pricing and delivery on our free-to-air networks, and to a lesser extent improved delivery and pricing in Latin America.

Excluding the impacts of foreign currency fluctuations and Newly Acquired Businesses, other revenue for the three months ended September 30, 2013 was consistent with the prior year, and increased 2%, or \$4 million, for the nine months ended September 30, 2013.

Costs of Revenues

Excluding the impacts of foreign currency fluctuations and Newly Acquired Businesses, costs of revenues increased 14%, or \$43 million, for the three months ended September 30, 2013, and increased 14%, or \$125 million, for the nine months ended September 30, 2013. The increases were a result of increases of \$20 million and \$68 million for the three and nine months ended September 30, 2013, respectively, at our U.S. Networks segment and \$24 million and \$57 million for the three and nine months ended September 30, 2013, respectively, at our International Networks segment. The increases in costs of revenues were mostly due to increases in content expense, which is consistent with our commitment to content development. The remaining increase was due to various other items, such as sales commissions, which are correlated to the increase in revenues.

Selling, General and Administrative

Selling, general and administrative expenses consist principally of employee costs, marketing costs, research costs, occupancy and back office support fees. Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, selling, general and administrative expenses increased 10%, or \$33 million, for the three months ended September 30, 2013, and increased 14%, or \$127 million, for the nine months ended September 30, 2013. The increases in selling, general and administrative expenses for the three and nine months ended September 30, 2013 were mostly due to increased personnel costs and marketing expenses, and to a lesser extent, increases in other selling, general and administrative costs and equity-based compensation expenses.

Depreciation and Amortization

Depreciation and amortization expense includes depreciation of fixed assets and amortization of finite-lived intangible assets. Depreciation and amortization expense increased \$53 million and \$103 million for the three and nine months ended September 30, 2013, respectively. The increases were due to the amortization of intangible assets related to business combinations during the nine months ended September 30, 2013 (see Note 2 to the accompanying consolidated financial statements).

Restructuring Charges

We incurred restructuring charges of \$1 million and \$11 million for the three and nine months ended September 30, 2013, respectively. We incurred restructuring charges of \$1 million and \$4 million for the three and nine months ended September 30, 2012, respectively. The increase in restructuring charges for the nine months ended September 30, 2013 was attributable to Newly Acquired Businesses and related to various employment terminations.

Interest Expense

For the three and nine months ended September 30, 2013, interest expense increased \$12 million and \$44 million, respectively, due to an increase in outstanding debt.

Losses from Equity Investees, Net

Losses from our equity method investees decreased \$22 million and \$67 million for the three and nine months ended September 30, 2013, respectively. The decrease for the three months ended September 30, 2013 was due primarily to improved operating results at OWN. Additionally, the decrease for the nine months ended September 30, 2013 was due to content impairments and restructuring charges incurred at OWN during the three months ended March 31, 2012 for which no similar expense was incurred during the nine months ended September 30, 2013.

Other Income (Expense), Net

Other income (expense), net, decreased \$1 million for the three months ended September 30, 2013 and increased \$38 million for the nine months ended September 30, 2013. During the nine months ended September 30, 2013, we purchased an additional 30% ownership interest in Discovery Japan, which was previously a 50% owned equity method investee. We recognized a \$92 million remeasurement gain upon consolidation to account for the difference between the carrying value and the fair value of the 50% previously held equity interest (see Note 2 to the accompanying financial statements). This increase was partially offset by losses on derivative instruments of \$56 million for the nine months ended September 30, 2013. The losses on derivative contracts resulted from foreign exchange strategies implemented to hedge the purchase of SBS Nordic (see Note 2 to the accompanying consolidated financial statements), which was denominated in Euro and closed on April 9, 2013. Although effective from an economic perspective, this hedging strategy does not qualify for hedge accounting treatment because the forecasted transaction is a business combination. There were no losses on derivative instruments for the nine months ended September 30, 2012.

Provision for Income Taxes

Our provisions for income taxes on income from continuing operations were \$163 million and \$490 million, and the effective tax rates were 39% and 38% for the three and nine months ended September 30, 2013, respectively. Our provisions for income taxes on income from continuing operations were \$134 million and \$381 million, and effective tax rates were 38% and 34%, for the three and nine months ended September 30, 2012, respectively. (See Note 11 to the accompanying consolidated financial statements).

Segment Results of Operations

We evaluate the operating performance of our segments based on financial measures such as revenues and adjusted operating income before depreciation and amortization (“Adjusted OIBDA”). Adjusted OIBDA is defined as revenues less costs of revenues and selling, general and administrative expenses excluding: (i) mark-to-market equity-based compensation, (ii) depreciation and amortization, (iii) amortization of deferred launch incentives, (iv) exit and restructuring charges, (v) certain impairment charges, and (vi) gains and losses on business and asset dispositions. We use this measure to assess the operating results and performance of our segments, perform analytical comparisons, identify strategies to improve performance, and allocate resources to each segment. We believe Adjusted OIBDA is relevant to investors because it allows them to analyze the operating performance of each segment using the same metric management uses. We exclude mark-to-market equity-based compensation, exit and restructuring charges, certain impairment charges, and gains and losses on business and asset dispositions from the calculation of Adjusted OIBDA due to their volatility. We also exclude the depreciation of fixed assets, and amortization of intangible assets and deferred launch incentives as these amounts do not represent cash payments in the current reporting period. Adjusted OIBDA should be considered in addition to, but not a substitute for, operating income, net income, cash flows provided by operating activities and other measures of financial performance reported in accordance with GAAP.

Additionally, certain corporate expenses are excluded from segment results to enable executive management to evaluate segment performance based upon the decisions of segment executives. Additional financial information for our reportable segments is set forth in Note 16 to the accompanying consolidated financial statements.

The table below presents the calculation of total Adjusted OIBDA (in millions).

(a) Selling, general and administrative expenses exclude mark-to-market equity-based compensation, restructuring charges and gains (losses) on dispositions.

(b) Amortization of deferred launch incentives is included as a reduction of distribution revenue for reporting in accordance with GAAP but is excluded from Adjusted OIBDA.

Revenues

Distribution revenue for the three and nine months ended September 30, 2013 increased \$29 million and \$51 million, respectively. The increase in distribution revenue for the three and nine months ended September 30, 2013, excluding the impact of digital distribution revenue, was 5%. Digital distribution revenue, which is earned under agreements to license selected library titles, is recognized when the content has been delivered and is available for use by the customer. Digital distribution revenue is therefore prone to quarterly fluctuations based on the timing and volume of content deliveries. The increases in distribution revenue excluding digital distribution revenue for the three and nine months ended September 30, 2013 were primarily due to annual contractual rate increases on existing contracts. There was also a slight increase in the number of paying subscribers, principally for our networks carried on the digital tier. The subscriber base for the U.S. pay television distribution market has remained flat over recent periods.

Advertising revenue for the three and nine months ended September 30, 2013 increased \$40 million and \$106 million, respectively. The increases were equally attributable to increases in delivery and pricing due to general advertiser demand.

Other revenue for the three and nine months ended September 30, 2013 was consistent with the prior year amounts.

Costs of Revenues

Costs of revenues for the three and nine months ended September 30, 2013 increased \$20 million and \$68 million, respectively. These increases were primarily attributable to increases content expense, which are consistent with our commitment to content development, and, to a lesser extent, sales commissions associated with increasing advertising revenues.

Selling, General and Administrative

Selling, general and administrative expenses for the three and nine months ended September 30, 2013 increased \$10 million and \$31 million, respectively. During the three months ended September 30, 2013, the increase was mostly attributable to increases in marketing costs, primarily for the TLC and Investigation Discovery networks. During the nine months ended September 30, 2013, the increase was equally attributable to marketing expenses and personnel costs.

Adjusted OIBDA

Adjusted OIBDA for the three and nine months ended September 30, 2013 increased \$39 million and \$67 million, respectively. Revenue for both the three and nine months ended September 30, 2013 increased due to greater general advertiser demand, which contributed to increases in delivery and pricing, and contractual rate increases with our distributors. Revenues further increased for the three months ended September 30, 2013 due to digital distribution revenue. These increases were partially offset by higher costs of revenues and selling, general and administrative expenses for both the three and nine months ended September 30, 2013.

Revenues

Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, distribution revenue increased 14%, or \$35 million, for the three months ended September 30, 2013, and increased 14%, or \$107 million, for the nine months ended September 30, 2013. The increases were attributable in equivalent amounts to the consolidation of Discovery Japan and revenue growth in Latin America. The growth in Latin America was due to increases in subscribers and affiliate rates, which is consistent with the continued development of the pay television market in that region.

Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, advertising revenue increased 29%, or \$37 million, for the three months ended September 30, 2013, and increased 22%, or \$89 million, for the nine months ended September 30, 2013. Most of the increase was in Western Europe due to pricing and delivery on our free-to-air networks. Latin America contributed to the increase to a lesser extent due to improved delivery and pricing. Excluding the impact of foreign currency fluctuation and Newly Acquired Businesses, other revenue decreased 7%, or \$1 million, for the three months ended September 30, 2013, and decreased 18%, or \$9 million, for the nine months ended September 30, 2013. The decrease for the nine months ended September 30, 2013 was attributable to the consolidation of Discovery Japan. Service fee revenue from Discovery Japan was eliminated following the consolidation of Discovery Japan on January 10, 2013 (see Note 2 to the accompanying consolidated financial statements).

Costs of Revenues

Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, costs of revenues increased 20%, or \$24 million, for the three months ended September 30, 2013, and increased 16%, or \$57 million, for the nine months ended September 30, 2013. The increase for the three months ended September 30, 2013 was primarily attributable to increased content expense. The increase for the nine months ended September 30, 2013 was primarily

attributable to increased content

55

expense and, to a lesser extent, increases in sales commissions and music rights accruals. The increase in costs of revenues supports the growth in distribution and advertising revenues.

Selling, General and Administrative

Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, selling, general and administrative expenses increased 17%, or \$18 million, for the three months ended September 30, 2013, and increased 19%, or \$58 million, for the nine months ended September 30, 2013. The increases were mostly attributable to an increase in personnel costs, and to a lesser extent, increases in marketing expenses.

Adjusted OIBDA

Excluding the impact of foreign currency fluctuations and Newly Acquired Businesses, Adjusted OIBDA increased 17%, or \$29 million, for the three months ended September 30, 2013, and increased 14%, or \$73 million, for the nine months ended September 30, 2013. The increases were due to the consolidation of Discovery Japan, subscriber growth in Latin America and the increase in advertising revenue on our free-to-air networks in Western Europe, partially offset by higher costs of revenues and selling, general and administrative expenses.

Education

The following table presents our Education segment revenues, certain operating expenses, Adjusted OIBDA and a reconciliation of Adjusted OIBDA to operating income (in millions).

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2013	2012	% Change	2013	2012	% Change

Operating income	\$1	\$5	(80)%	\$11	\$13	(15)%

Adjusted OIBDA for the three months ended September 30, 2013 decreased primarily due to timing of certain assessment services. Adjusted OIBDA for the nine months ended September 30, 2013 was consistent with the prior year amounts.

Corporate and Inter-segment Eliminations

The following table presents our unallocated corporate amounts including certain operating expenses, Adjusted OIBDA and a reconciliation of Adjusted OIBDA to operating loss (in millions).

Operating loss	\$(109)	\$(108)	1%	\$(337)	\$(305)	10%

Corporate operations primarily consist of executive management, administrative support services and substantially all of our equity-based compensation.

Adjusted OIBDA increased \$4 million for three months ended September 30, 2013 and decreased \$14 million for the nine months ended September 30, 2013. The decrease in Adjusted OIBDA for the nine months ended September 30, 2013 was due to increases in various expenses such as professional fees and other selling, general and administrative costs.

FINANCIAL CONDITION

Sources and Uses of Cash

As of September 30, 2013, we had \$439 million of cash and cash equivalents on hand and approximately \$1.0 billion available to borrow under our revolving credit facility. As a public company, we may have access to other sources of capital such as the public bond and equity markets. On March 19, 2013, DCL, our wholly-owned subsidiary, issued \$1.2 billion aggregate principal amount of senior notes consisting of \$350 million aggregate principal amount of 3.25% Senior Notes due April 1, 2023 and \$850 million aggregate principal amount of 4.875% Senior Notes due April 1, 2043. We maintain an effective Registration Statement on Form S-3 that allows us to conduct registered offerings of securities, including debt securities, common stock and preferred stock. Access to sufficient capital from the public market is not assured.

Our primary uses of cash include the creation and acquisition of new content, business acquisitions, repurchases of our capital stock, income taxes, personnel costs, interest on our outstanding senior notes, funding for various equity method and other investments.

We plan to continue to invest significantly in the creation and acquisition of new content. Additional information regarding contractual commitments to acquire content is set forth in "Commitments and Off-Balance Sheet Arrangements" in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2012 Form 10-K.

On April 9, 2013, we acquired SBS Nordic for approximately \$1.8 billion (€1.4 billion) in cash, including closing purchase price adjustments. (See Note 2 to the accompanying consolidated financial statements.)

As of September 30, 2013, we had remaining authorization of \$805 million for future repurchases of our common stock under the stock repurchase program which will expire on December 11, 2014. We have been funding our stock repurchases through a combination of cash on hand and cash generated by operations. In the future we may also choose to fund our stock repurchase program through borrowings under our revolving credit facility and future financing transactions. Under the stock repurchase program, management is authorized to purchase shares of the Company's common stock through open market purchases or privately negotiated transactions, at prevailing market prices as permitted by securities laws and other legal requirements, and subject to stock price, business and market conditions and other factors. As of September 30, 2013, we had repurchased 2.8 million and 65.7 million shares of Series A and Series C common stock over the life of the program for the aggregate purchase price of \$171 million and \$3.0 billion, respectively. (See Note 9 to the accompanying consolidated financial statements.)

On April 5, 2013, we repurchased 4 million shares of our Series C convertible preferred stock from Advance Programming Holdings, LLC for an aggregate purchase price of \$256 million, using cash on hand. (See Note 9 to the accompanying consolidated financial statements.)

We expect to continue to make payments for income taxes and interest on our outstanding senior notes. As of September 30, 2013, we made cash payments of \$273 million and \$158 million for income taxes and interest on our outstanding senior notes, respectively.

We expect to continue to make payments for vested cash-settled equity awards. Actual amounts expensed and payable for cash-settled awards are dependent on future fair value calculations which are primarily affected by changes in our stock price or changes in the number of awards outstanding. During the nine months ended September 30, 2013, we paid \$61 million for cash-settled equity awards. As of September 30, 2013, liabilities totaled \$99 million for outstanding cash-settled equity awards, of which \$67 million was classified as current. (See Note 13 to the accompanying consolidated financial statements.)

We have interests in various equity method investees and provide funding to those equity method investees from time to time. As of September 30, 2013, we have outstanding advances to and a note receivable from OWN, our equity method investee, which totals \$498 million including interest. If necessary, we currently expect to provide additional funding to our equity method investees and to recoup amounts funded.

Cash Flows

The following table presents changes in cash and cash equivalents (in millions).

	Nine Months Ended September 30,	
	2013	2012
Cash and cash equivalents, beginning of period	\$1,201	\$1,048
Cash provided by operating activities	930	771
Cash used in investing activities	(1,941)	(195)
Cash provided by (used in) financing activities	254	(72)
Effect of exchange rate changes on cash and cash equivalents	(5)	1
Net change in cash and cash equivalents	(762)	505
Cash and cash equivalents, end of period	\$439	\$1,553

Operating Activities

Cash provided by operating activities increased \$159 million for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase was primarily attributable to improved operating results and a decrease in cash paid for taxes of \$81 million, partially offset by an increase in content investment of \$233 million, and changes in working capital, such as increases in accounts receivable and decreases in accounts payable due to the timing of payments.

Investing Activities

Cash flows used in investing activities increased \$1.7 billion for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase was primarily attributable to business combinations during the nine months ended September 30, 2013 for \$1.8 billion, net of cash acquired (see Note 2 to the accompanying consolidated financial statements), as well as an increase in realized losses for derivatives in connection with forecasted business combinations of \$55 million, partially offset by a decrease in investments in and advances to unconsolidated equity method investees of \$87 million.

Financing Activities

Cash flows provided by financing activities increased \$326 million for the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase was primarily due to an increase in cash flows from the issuance of senior notes of \$205 million and a reduction in repurchases of our common and preferred stock of \$177 million. We made no repurchases of our Series A and Series C common stock pursuant to our stock repurchase program in the three months ended March 31, 2013 due to the anticipated investment in business acquisitions. We resumed repurchasing our common stock under our stock repurchase program in the second quarter of 2013.

Capital Resources

As of September 30, 2013, capital resources were comprised of the following (in millions).

	September 30, 2013			
	Total Capacity	Outstanding Letters of Credit	Outstanding Indebtedness	Unused Capacity
Cash and cash equivalents	\$439	\$—	\$—	\$439
Revolving credit facility	1,000	1	—	999
Senior notes ^(a)	6,350	—	6,350	—
Total	\$7,789	\$1	\$6,350	\$1,438

^(a) Interest on senior notes is paid semi-annually. Our senior notes outstanding as of September 30, 2013 had interest rates that ranged from 3.25% to 6.35% and will mature between 2015 and 2043.

We expect that our cash balance, cash generated from operations and availability under our revolving credit agreement will be sufficient to fund our cash needs for the next twelve months.

As of September 30, 2013, we held \$439 million of cash and cash equivalents, of which \$230 million was included in foreign corporations that we intend to permanently reinvest outside of the U.S. Our current plans do not demonstrate a need to repatriate these amounts to fund our U.S. operations. However, if these funds are needed for our U.S. operations, we would be required to accrue and pay U.S. taxes to repatriate them.

COMMITMENTS AND OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, we enter into commitments for the purchase of goods or services that require us to make payments or provide funding in the event certain circumstances occur. (See Note 15 to the accompanying consolidated financial statements.)

RELATED PARTY TRANSACTIONS

In the ordinary course of business we enter into transactions with related parties, primarily our equity method investees and Liberty Global, Inc. (See Note 14 to the accompanying consolidated financial statements.)

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our critical accounting policies and estimates have not changed since December 31, 2012. For a discussion of each of our critical accounting policies listed below, including information and analysis of estimates and assumptions involved in their application, and other significant accounting policies, see Note 2 to the consolidated financial statements included in Item 8, "Financial Statements and Supplementary Data" in the 2012 Form 10-K:

- Revenue recognition;
- Goodwill and intangible assets;
- Content rights;
- Equity-based compensation; and
- Equity method investments.

With respect to our income tax critical accounting policy, we clarify the following:

Income taxes are recorded using the asset and liability method of accounting for income taxes. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred taxes are measured using rates we expect to apply to taxable income in years in which those temporary differences are expected to reverse. A valuation allowance is provided for deferred tax assets if it is more likely than not such assets will be unrealized.

From time to time, the Company engages in transactions in which the tax consequences may be uncertain. Examples of such transactions include business acquisitions and dispositions, financing transactions and intercompany transactions. Significant judgment is required in assessing and estimating the tax consequences of these transactions. The Company prepares and files tax returns based on its interpretation of tax laws and regulations. In the normal course of business, the Company's tax returns are subject to examination by various taxing authorities. Such examinations may result in future tax and interest assessments by these taxing authorities.

In determining the Company's tax provision for financial reporting purposes, the Company establishes a reserve for uncertain tax positions unless the Company determines that such positions are more likely than not to be sustained upon examination based on their technical merits, including the resolution of any appeals or litigations processes. There is considerable judgment involved in determining whether positions taken on the Company's tax returns are more likely than not to be sustained. The Company adjusts its tax reserve estimates periodically because of ongoing examinations by, and settlements with, various taxing authorities, as well as changes in tax laws, regulations and interpretations.

The Company's reserves for uncertain tax positions at December 31, 2012 and 2011, totaled \$128 million and \$46 million, respectively. The increase in the reserve in 2012 was attributable, in approximately equal proportion, to provisions related to: uncertainties regarding the valuation of certain assets; uncertainties regarding the eligibility for, and application of the rules surrounding, certain tax incentives and credits; and uncertainties regarding allocation and taxation of income among multiple jurisdictions.

NEW ACCOUNTING AND REPORTING PRONOUNCEMENTS

We adopted certain accounting and reporting standards during the nine months ended September 30, 2013. (See Note 1 to the accompanying consolidated financial statements.)

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our exposures to market risk have not changed materially since December 31, 2012. Quantitative and qualitative disclosures about our existing market risk are set forth in Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” in the 2012 Form 10-K.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2013. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of September 30, 2013, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

On April 9, 2013, the Company acquired SBS Nordic. (See Note 2 to the accompanying consolidated financial statements.) We are currently integrating policies, processes, people, technology and operations for the combined company. Management will continue to evaluate our internal control over financial reporting as we execute integration activities. During the nine months ended September 30, 2013, except as noted above, there were no changes in our internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f), that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

In the normal course of business, we experience routine claims and legal proceedings. It is the opinion of our management, based on information available at this time, that none of the current claims and proceedings will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 1A. Risk Factors

Our risk factors have not changed materially since December 31, 2012. Disclosure about our existing risk factors is set forth in Item 1A, “Risk Factors,” in the 2012 Form 10-K.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents information about our repurchases of common stock that were made through open market transactions during the three months ended September 30, 2013.

Period	Total Number of Series A Shares Purchased	Average Price Paid per Share: Series A ^(a)	Total Number of Series C Shares Purchased	Average Price Paid per Share: Series C ^(a)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ^(b)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ^{(a)(b)}

Total	785,193	\$79.11	5,210,044	\$74.05	5,995,237	\$805,385,281

- (a) The amounts do not give effect to any fees, commissions or other costs associated with repurchases of shares. The total amount authorized under the stock repurchase program is \$4.0 billion. As of September 30, 2013, the Company had remaining authorization of \$805 million for future repurchases under the common stock repurchase program, which will expire on December 11, 2014. Under the stock repurchase program, management is authorized to purchase shares from time to time through open market purchases or privately negotiated transactions
- (b) at prevailing prices as permitted by securities laws and other legal requirements, and subject to stock price, business and market conditions and other factors. We have been funding and expect to continue to fund stock repurchases through a combination of cash on hand, cash generated by operations. In the future, we may also choose to fund our stock repurchase program under our revolving credit facility or future financing transactions. There were no repurchases of our Series B common stock during the three months ended September 30, 2013.
